Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
American Depositary Shares	New York Stock Exchange
Ordinary Shares, Nominal Value TRY 1.000*	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

None

* Not for trading on the NYSE, but only in connection with the registration of ADSs representing such ordinary shares pursuant to the requirements of the Securities and Exchange Commission.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Table of Contents

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

Ordinary Shares, Nominal Value TRY 1.000 2,200,000,000

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

U.S. GAAP

International Financial Reporting Standards as issued
by the International Accounting Standards Board

Other

If Other has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

INTRODUCTION

This is the 2013 annual report for Turkcell Iletisim Hizmetleri A.S. (Turkcell), a joint stock company organized and existing under the laws of the Republic of Turkey. The terms Company, we, us, our, and similar ones refer to Turkcell, its predecessors, and its consolidated subsidiaries, except as the context otherwise requires.

Our audited consolidated financial statements as of December 31, 2013 and 2012 and for each of the years in the three-year period ended December 31, 2013 included in this annual report have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

The Securities and Exchange Commission (SEC) has adopted rules accepting filings from foreign private issuers that include financial statements prepared in accordance with IFRS as issued by the IASB without reconciliation to accounting principles generally accepted in the United States, or U.S. GAAP, as was previously required. As we believe that we meet the relevant criteria to avail ourselves of this SEC rule, we have ceased providing such reconciliation as part of our consolidated financial statements.

Certain figures included in this annual report have been subject to rounding adjustments. Accordingly, figures shown for the same category presented in different tables may vary slightly, and figures shown as totals in certain tables may not total exactly. In this annual report, references to TL, TRY and Turkish Lira are to the Turkish Lira, and references to \$, U.S. Dollars, USD, U.S. \$ and cents are to U.S. Dollars, except as otherwise noted, all interest rates are on a per annum basis. In this annual report, references to Turkey or the Republic are to the Republic of Turkey. Counters are the units we used with our subscribers until April 2010 to measure airtime. As of April 2010, we measure our airtime in TRY rather than counters.

Statements regarding our market share and total market size are based on the Information and Communication Technologies Authority s (ICTA) or operators announcements, and statements regarding penetration are based on the Turkish Statistical Institute s (TUIK) announcements pertaining to the Turkish population. Furthermore, statements regarding our 2G coverage are based on the ICTA s specifications as well as the TUIK s announcements, and statements regarding our 3G coverage are based on the ICTA s 3G coverage calculation specifications issued on April 25, 2012.

References to the Information and Communication Technologies Authority or the ICTA include its predecessor entity, the Telecommunications Authority.

FORWARD-LOOKING STATEMENTS

This annual report includes forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933, as amended, Section 21E of the U.S. Securities Exchange Act of 1934, as amended, and the Safe Harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts included in this annual report, including, without limitation, certain statements regarding our operations, financial position, and business strategy, may constitute forward-looking statements. In addition,

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

forward-looking statements generally can be identified by the use of forward-looking terminology such as may , will , expect , intend , estimate , anticipate , believe , continue , or similar statements.

Although we believe that the expectations reflected in such forward-looking statements are reasonable at this time, we can give no assurance that such expectations will prove to be correct. Given these uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. Important factors that could cause actual results to differ materially from our expectations are contained in cautionary statements in this annual report, including, without limitation, in conjunction with the forward-looking statements listed below, and include, among others, the following:

- competition in our main market;

Table of Contents

- increased competition and/or the entrance of new direct and indirect competitors in the market due to new applications and regulatory changes in Turkey with respect to certain technologies;
- failure to successfully integrate and manage the opportunities we pursue, particularly related to our current mobile communications business and 3G business, new business models, new technologies and international activities;
- regulatory decisions and changes in the regulatory environment, in particular the ICTA's decisions in 2013 and 2014;
- failure to abide by the requirements of our licenses or applicable regulations;
- economic and political developments in Turkey and internationally;
- exposure to certain risks through our interests in associated companies, especially due to recent political instability in Ukraine;
- foreign exchange rate risks;
- reduction in cash generated from operations and increased capital needs, which may increase our borrowing requirements, and consequently, our finance costs and exposure to the risks associated with borrowing;
- our ability to deal with spectrum limitations;
- zoning limitations related to our Base Transceiver Stations (BTS) and potential increase in coverage requirements;
- potential liability and possible reduced usage of mobile phones as a result of alleged health risks related to BTSs and the use of handsets;

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

- our dependence on certain suppliers for network equipment and the provision of data services;
- Turkcell s complex ownership structure and ongoing disagreements among our main shareholders;
- our dependence on certain systems and suppliers for IT services and our exposure to potential natural disasters, regular or severe IT and network failures, human error, security breaches and other cybersecurity incidents and IT migration risk;
- technological changes in the telecommunications market;
- our dependence on third party providers to help us navigate the regulatory, security and business risks of industries where we traditionally do not compete;
- our ability to retain key personnel and distributors;
- legal actions and claims to which we are a party; and
- effective internal control over financial reporting.

All subsequent written and oral forward-looking statements attributable to us are expressly qualified in their entirety by reference to these cautionary statements.

Not Applicable.

Table of Contents**ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE**

Not Applicable.

ITEM 3. KEY INFORMATION**3.A Selected Financial Data**

Our audited consolidated financial statements as of December 31, 2013 and 2012 and for each of the years in the three-year period ended December 31, 2013 included in this annual report have been prepared in accordance with IFRS as issued by the IASB.

The following information should be read in conjunction with Item 5. Operating and Financial Review and Prospects, our audited consolidated financial statements as of December 31, 2013 and 2012 and the related consolidated statements of profit or loss, comprehensive income, changes in equity, and cash flows for the years ended December 31, 2013, 2012 and 2011, and the related notes appearing elsewhere in this annual report.

The following table presents our selected consolidated statements of operations, statement of financial position and cash flows data as of and for each of the years in the five-year period ended December 31, 2013, presented in accordance with IFRS as issued by the IASB which have been derived from our audited consolidated financial statements as of and for the years ended December 31, 2013, 2012, 2011, 2010 and 2009.

Gross margin(9)	38%	38%	37%	44%	47%
Adjusted EBITDA(10)	1,858.0	1,808.4	1,748.1	1,957.4	1,925.4
Capital expenditures	853.8	975.5	866.0	1,078.6	1,769.3

(1) Direct cost of revenues includes payments for our treasury share (the amount paid to the government under our license) and universal service fund, transmission fees, base station rent and energy expenses, billing costs, depreciation and amortization charges, technical, repair and maintenance expenses, roaming charges, interconnection fees, costs of simcards sold, handset costs offered as part of our loyalty programs and handset sales and personnel expenses related to our technicians.

(2) See Note 2 (Basis of preparation) to our consolidated financial statements in this Form 20-F for information regarding monetary gain.

(3) Share of profit of equity accounted investees primarily includes the income related to our stake in Fintur Holdings B.V. (Fintur) and A-Tel Pazarlama ve Servis Hizmetleri A.S. (A-Tel), which is 41.45% and 50.00%, respectively. Fintur currently holds all of our international mobile communications investments other than those related to our operations in Northern Cyprus, Ukraine, Belarus and Germany. The service provider and distribution agreement with A-Tel was annulled via notification dated January 31, 2012, which was effective from August 1, 2012. See Note 16 and 34 to our audited consolidated financial statements included in Item 18. Financial Statements of this annual report on Form 20 F.

(4) Long-term debt consists of long-term loans and borrowings as well as long-term lease obligations.

(5) Total debt consists of long-term and short-term loans and borrowings as well as lease obligations excluding option contracts.

(6) On March 23, 2011, the Company's Board of Directors proposed a dividend distribution for the year ended December 31, 2010 amounting to TRY 1,328.7 million (\$622.5 million computed using the Central Bank of the Republic of Turkey's (CBRT) TRY/U.S. Dollar exchange rate on December 31, 2013), which corresponds to 75% of our distributable net income for the year. This dividend proposal was discussed but not approved at the General Assembly Meetings held in 2011. There were no Board of Directors' resolutions for the dividend distribution for the years 2011 and 2012. The General Assembly Meetings, on June 29, 2012, May 22, 2013 and June 24, 2013 could not be held since the quorum required had not been reached and the dividend payment could not be discussed.

(7) The U.S. Dollar equivalent of the dividend for the year ended December 31, 2010 was computed by using the CBRT's TRY/USD exchange rate on December 31, 2013, whereas the U.S. Dollar equivalents of the dividend for the year ended December 31, 2009 were computed by using the CBRT's TRY/USD exchange rate on the dates that the General Assembly of Shareholders approved the dividend distribution.

(8) Dividends per share for the years ended December 31, 2010, and 2009 were computed over 2,200,000,000 shares. For the years ended December 31, 2010 and 2009, the dividend per share was TRY 0.60 and TRY 0.39, respectively.

Table of Contents

(9) Gross margin is calculated as gross profit divided by total revenues.

(10) Adjusted EBITDA is a non-GAAP financial measure that equals profit for the period attributable to the equity holders of the Company before finance income, finance costs, income tax expense, other income, other expense, monetary gain, share of profit of equity accounted investees and depreciation and amortization.

Adjusted EBITDA is a non-GAAP financial measure that equals profit for the period attributable to the equity holders of the Company before finance income, finance costs, income tax expense, other income, other expense, monetary gain, share of profit of equity accounted investees and depreciation and amortization. Our management reviews Adjusted EBITDA as a key indicator each month to monitor our cash generation ability and liquidity position. Net income is generally considered by our management as the main indicator for our operating performance. Adjusted EBITDA is not a measurement of liquidity under IFRS as issued by the IASB and should not be construed as a substitute for profit for the period as a measure of performance or cash flow from operations as a measure of liquidity.

We believe Adjusted EBITDA, among other measures, facilitates liquidity comparisons from period to period and management decision making. It also facilitates liquidity comparisons from company to company. Adjusted EBITDA as a liquidity measure eliminates potential differences caused by variations in capital structures (affecting interest expense), tax positions (such as the impact of changes in effective tax rates on periods or companies) and the age and book depreciation of tangible assets (affecting relative depreciation expense). We also present Adjusted EBITDA because we believe it is frequently used by securities analysts, investors and other interested parties in evaluating the liquidity of other mobile operators in the telecommunications industry in Europe, many of which present Adjusted EBITDA when reporting their results.

Nevertheless, Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation from, or as a substitute for analysis of, our results of operations, as reported under IFRS as issued by the IASB.

Some of these limitations are:

- it does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;
- it does not reflect changes in, or cash requirements for, our working capital needs;
- it does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt;

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;
- it is not adjusted for all non-cash income or expense items that are reflected in our consolidated statement of cash flows;
and
- other companies in our industry may calculate this measure differently than we do, which may limit its usefulness as a comparative measure.

We compensate for these limitations by relying primarily on our results under IFRS as issued by the IASB and using Adjusted EBITDA measures only supplementally. See Item 5. Operating and Financial Review and Prospects and the consolidated financial statements contained elsewhere in this annual report.

The following table provides a reconciliation of Adjusted EBITDA, as calculated using financial data prepared in accordance with IFRS as issued by the IASB, to net cash from operating activities, which we believe is the most directly comparable financial measure calculated and presented in accordance with IFRS as issued by the IASB.

Table of Contents

	2013	2012	Year ended December 31, 2011 (Million \$)	2010	2009
Adjusted EBITDA	1,858.0	1,808.4	1,748.1	1,957.4	1,925.4
Income tax expense	(310.7)	(291.5)	(292.2)	(320.8)	(340.1)
Other operating income/(expense)	(29.2)	17.5	(57.9)	(49.4)	(85.2)
Finance income	395.4	5.0	29.0	0.5	1.0
Finance costs	(95.5)	(125.3)	(81.5)	(100.4)	(188.3)
Net (decrease)/increase in assets and liabilities	(824.0)	(225.8)	(419.7)	(224.7)	3.8
Net cash from operating activities	994.0	1,188.3	925.8	1,262.6	1,316.6

The following table presents selected operational data:

I. Operating Results

	2013	Year ended December 31, 2012	2011
Industry Data			
Population of Turkey (in millions)(1)	76.7	75.6	74.7
Turkcell Data(2)			
Number of postpaid subscribers at end of period (in millions)(3)	14.0	13.2	11.7
Number of prepaid subscribers at end of period (in millions)(3)	21.2	21.9	22.9
Total subscribers at end of period (in millions)(3)	35.2	35.1	34.5
Average monthly revenue per user (in \$)(4)	11.4	11.6	11.9
Postpaid	19.6	21.0	23.1
Prepaid	6.2	6.4	6.6
Average monthly minutes of use per subscriber(5)	259.3	243.3	213.8
Churn(6)	27.4%	27.1%	27.9%
Number of Turkcell employees at end of period	3,316	3,585	3,071
Number of employees of consolidated subsidiaries at end of period(7)	10,999	9,829	9,763

(1) The population of Turkey for 2013, 2012 and 2011 is based on TUIK's announcements.

(2) For a discussion of how these metrics affect our revenues, please see Item 5A. Operating Results, VI. Year Ended December 31, 2013 Compared to the Year Ended December 31, 2012 a. Revenues.

(3) Subscriber numbers do not include subscribers in Ukraine, Belarus, Northern Cyprus and Germany or those of Fintur subsidiaries.

(4) We calculate average revenue per user (ARPU) using the weighted average number of our subscribers during the period. ARPU does not include the results of our operations in Ukraine, Belarus, Northern Cyprus and Germany or those of Fintur subsidiaries.

(5) Average monthly minutes of use per subscriber is calculated by dividing the total number of incoming and outgoing airtime minutes of use by the average monthly sum of postpaid and prepaid subscribers for the year divided by twelve. Our Minutes of Usage (MoU) calculation does not include our operations in Ukraine, Belarus, Northern Cyprus and Germany or those of Fintur subsidiaries.

(6) Churn rate is the percentage calculated by dividing the total number of subscriber disconnections during a certain period by the average number of subscribers for the same period. For these purposes, we define average number of subscribers as the number of subscribers at the beginning of the period plus one half of the total number of gross subscribers acquired during the period. Churn refers to subscribers that are both voluntarily and involuntarily disconnected from our network. Our churn calculations do not include our operations in Ukraine, Belarus, Northern Cyprus and Germany or those of Fintur subsidiaries.

(7) See Item 6.D. Employees for information concerning our consolidated subsidiaries.

II. Exchange Rate Data

The Federal Reserve Bank of New York does not report, and historically has not reported, a noon buying rate for the Turkish Lira. For the convenience of the reader, this annual report presents translations of certain Turkish Lira amounts into U.S. Dollars at the relevant Turkish Lira exchange rate for purchases of U.S. Dollars at the \$/TRY exchange rate announced by the CBRT. As of January 1, 2006, any balance sheet data (monetary or non-monetary), except for equity items in U.S. Dollars derived from our consolidated financial statements, are translated from Turkish Lira into U.S. Dollars at exchange rates at the balance sheet date.

Table of Contents

Income and expenses for each income statement except foreign operations in hyperinflationary economies (including comparatives) are translated to U.S. Dollars at monthly average exchange rates.

The income and expenses of foreign operations in hyperinflationary economies are translated into USD at the exchange rate as of the reporting date. Prior to translating the financial statements of foreign operations in hyperinflationary economies (Republic of Belarus), their financial statements for the current period are restated to account for changes in the general purchasing power of the local currency. The restatement is based on relevant price indices at the reporting date. Unless otherwise indicated, the \$/TRY exchange rate used in this annual report is the \$/TRY exchange rate in respect of the date of the financial information being referred to. As stated in the annual monetary and exchange rate policy announcements of the CBRT, which have been published since 2002, the foreign exchange rate is not a policy tool or target; it is determined by the supply and demand conditions in the market. Along with inflation targeting, the CBRT announced that it will continue the implementation of the floating exchange rate regime in 2014.

The following table sets forth, for the periods and the dates indicated, the CBRT's buying rates for U.S. Dollars. These rates may differ from the actual rates used in preparation of our consolidated financial statements and other information appearing herein. The \$/TRY exchange rate on March 14, 2014 was TRY 2.2244 = \$1.00.

	2014(2)(3)	2013(2)	2012(2)	2011(2)	2010(2)	2009(2)
High	2.343	2.160	1.889	1.907	1.598	1.796
Low	2.130	1.746	1.734	1.496	1.388	1.437
Average(1)	2.215	1.901	1.793	1.670	1.500	1.547
Period End	2.224	2.134	1.783	1.889	1.546	1.506

Source: CBRT

- (1) Calculated based on the average of the daily exchange rates of each month during the relevant period.
- (2) These columns set forth the CBRT's buying rates for U.S. Dollars expressed in Turkish Lira.
- (3) Through March 14, 2014.

	March 2014(1)	February 2014	January 2014	December 2013	November 2013	October 2013
High	2.246	2.280	2.343	2.160	2.052	2.037
Low	2.187	2.179	2.130	2.017	1.990	1.974

Source: CBRT

(1) Through March 14, 2014.

No representation is made that Turkish Lira or the U.S. Dollar amounts as presented in this annual report could have been or could be converted into U.S. Dollars or Turkish Lira, as the case may be, at any particular rate. Changes in the exchange rate between Turkish Lira and U.S. Dollars could affect our financial results. For a discussion of the effects of fluctuating exchange rates on our business, see Item 5A. Operating Results .

3.D Risk Factors

The following is a discussion of those risks that we believe are the principal material risks faced by our Company and its subsidiaries. No assurance can be given that risks that we do not believe to be material today will not prove to be material in the future. Consequently, the risks described below should not be considered to be exhaustive.

The majority of our revenue comes from our operations in Turkey. Competition in this market may adversely affect the growth of our business and our financial condition.

The majority of our revenue comes from our operations in Turkey and, thus, the growth and development of our business is mainly dependent on the development of the Turkish mobile telecommunications market. In this market, we currently face intensifying competition from two other mobile operators, Vodafone Telekomunikasyon A.S. (Vodafone) and Avea Iletisim Hizmetleri A.S. (Avea), and from the incumbent fixed line telecommunications operator, Turk Telekomunikasyon A.S. (Turk Telekom). Continued price and higher incentive-driven competition has, and will continue to, put pressure on our prices, market shares and profitability, as well as our liquidity. If the competition further intensifies, or the market slows or develops in unexpected ways, this could harm our business and financial condition.

Turkey's principal telecommunications regulator, the ICTA, has interfered, and may continue to interfere, with our ability to price our services and respond to competitive pressures. Regulatory actions such as the introduction of mobile number portability in 2008, the ICTA's regulations on our retail pricing and the ICTA's ongoing pressure on interconnection rates and maximum prices have also been, and will likely continue to be, a significant factor in shaping the development of the Turkish market and in our ability to respond to changes in the market. In addition, regulatory interventions, which have often favored our competitors, have increased competition. Furthermore, sub-brand initiatives of the existing mobile operators, and new licenses and authorizations issued by the regulator such as Fixed Telephony Service (FTS) and Mobile Virtual Network Operator (MVNO) licenses have made it easier and/or more attractive for new direct and indirect competitors to enter the market. Competition in the mobile market may also be affected by regulatory actions in other areas, such as banking and tax. For example, new regulations limiting the use of credit card installments to purchase terminals may have a negative impact on the ability of customers to acquire new terminals. The promotion of smart phones is an important part of our strategy, and thus such regulations may adversely affect the execution of this strategy and our financial condition.

In addition, competition may be affected by the increasing use of applications and services which make use of the internet as a substitute (namely over the top or OTT services) for some of our more traditional services, such as messaging and voice, competition from new technologies such as wi fi, and converged offers. These have had an impact on our revenues which may in the future be material. Reduced demand for our core services of voice, messaging and data could significantly impact our growth and profitability.

With respect to terminals, there is an increasing emphasis in the Turkish market on terminal bundled offers, and device subsidies have also been used at times. Increases in incentives and subsidies by our competitors may lead us to increase the incentives we provide our customers, thus impacting our profitability. Increased demand for terminal bundled offers has led and may continue to lead to higher working capital requirements and bad debt expense. In addition, our competitive position is dependent on certain distributors for products, such as terminals, and the failure of any of our distributors to supply products to our distribution channel, and at the level of quality we require, may adversely affect our business and financial condition.

These factors together with macroeconomic factors are likely to continue to result in changes in consumer behavior that have and may continue to adversely affect our revenues and expenses.

Our growth strategy is partly dependent on new investment opportunities, which could affect our business and financial condition, and the return on our investments cannot be guaranteed.

In addition to growing our existing business as a leading communications and technology company, our strategy for growth involves selectively seeking and evaluating new investment opportunities and participating in those meeting our criteria.

Table of Contents

We may consider launching greenfield operations, as well as forming alliances, which may include management service agreements and marketing partnerships, and conducting mergers and/or acquisitions, both inside and outside of Turkey. These opportunities may be in the area of mobile or fixed telecommunications and services, including as an MVNO or in a marketing partnership with a local operator. In addition, we may provide services in related areas and also consider investing or increasing our investments in business areas outside of the scope of our core business.

New investments may not achieve expected returns or returns that are in line with those of our core business, which may cause high value erosion. In many of the markets and businesses in which we have invested or may invest, it may take several years and significant investments to achieve desired profitability, if at all. In addition, if an asset in which we have invested does not provide the expected returns, we may need to make further investment or we may consider disposal at a sale price that may be below carrying value or liquidation.

In the context of our evaluation of potential investments in the regions we target for international expansion, Turkcell has, from time to time, considered opportunities in countries in Eastern Europe, the Balkans, and the Middle East and Africa (MEA), and may consider such opportunities in the future. As further described below, operations in many of these countries are subject to economic, political and other risks. Furthermore, for acquisitions outside of Turkey, current and future U.S. and international laws and regulations, as well as legal and regulatory actions, targeting certain countries, local companies and individuals may curtail our ability to do business in affected countries and may impede our exercise of control. Turkcell itself, as well as certain of its key employees (notably those who are U.S. citizens), could be subject to sanctions under such laws and regulations. Some of the countries and companies in which we have contemplated making investments and in which we may from time to time consider opportunities, such as Iran, Libya and Syria, and certain individuals involved in such companies, have been the specific targets of such laws and regulations. Investors may be reticent to invest in a company doing business in such countries or other countries that may be at risk due to the political instability. These factors could have an adverse effect on the demand for our shares.

Regulatory decisions and changes in the regulatory environment could adversely affect our business and financial condition.

We operate in an industry that is subject to extensive regulation, in Turkey and the other countries in which we operate. Compliance with new and existing laws and regulations has had and is likely to continue to have a significant impact on the ways in which we do business. This may include but is not limited to the impact on our ability to set our pricing and offer new and existing services, on customer use of our services, the way we handle, process and store customer data, the terms of our subscriber contracts and the way we can communicate with customers. Furthermore, the laws, regulations, regulatory orders and licenses under which we operate are subject to interpretation and enforcement by regulators with which we are not always in agreement. Complying with regulations may be costly, and failure to comply may lead to significant penalties, adverse publicity and the loss of licenses and could adversely affect our business and financial condition. For more information on regulation and how it may impact our business, see Item 4.B. Business Overview Regulation of the Turkish Telecommunications Industry .

Pricing is one of the key areas in which we are subject to regulation. The actions of the ICTA and the Ministry of Transport, Maritime Affairs and Communications in our voice, SMS, data, value added services, roaming and interconnection pricing have, and will continue to, negatively affect our pricing and our ability to design and launch campaigns and offers. Consequently, these actions have and will continue to adversely affect our business and financial condition. For instance, the ICTA recently decided to increase the minimum tariff to be applied by Turkcell and to set the minimum price for SMS, applicable to both tariffs and campaigns, as well as to reduce voice and SMS mobile termination rates, which adversely affected and is likely to continue to adversely affect our competitive position and our financial condition. For more information, see Item 4.B. Business Overview Regulation of the Turkish Telecommunications Industry . In addition, the ICTA may determine the operators that have significant market power in the relevant market as a result of its market analysis. The ICTA may change the market definitions and definitions regarding the operators that have significant market power. This may result in additional or similar liabilities for Turkcell, and less for the other mobile and fixed telecom players in the market, both of which may adversely affect our business and financial condition.

Table of Contents

In addition, regulations regarding quality of service, the sharing of our infrastructure, the protection of personal data and electronic commerce are among those regulations which may have an adverse effect on various aspects of our business. For example, the new Metropolitan Law increased the number of metropolitan municipalities and extends some of their borders, which may have the effect of increasing our coverage obligations and require material capital expenditures. We may also be required to share infrastructure or operate through a common infrastructure with our competitors, and to offer national roaming to their subscribers, which could adversely affect our ability to use our network to maintain a competitive edge.

Any downturn in the economy and instability in the political environment in Turkey and internationally may have an adverse effect on our business and our financial condition.

With a substantial portion of our revenues, assets and business derived from and located in Turkey, and denominated in Turkish Lira, adverse developments in the Turkish market are likely to have a material adverse effect on our business and financial condition. In our view, the biggest threats to the global economy, including Turkey, in 2014, are sustainability of economic growth, high debt levels in developed and emerging countries, U.S. monetary policy uncertainty, continuing of the Eurozone recession and deflation risks, geopolitical risks in Ukraine and the Middle East region and unwinding accommodative policy by major central banks.

The Turkish economy grew uninterruptedly for sixteen quarters in a row and grew by 4.0% in the first nine months of 2013. If the Turkish economy slows or develops in unexpected ways, this may have an adverse impact on our operations and financial condition. The performance of the Turkish economy may be affected by domestic and regional political developments. Turkey will enter an extended electoral period, with municipal and presidential elections in 2014, and parliamentary elections in 2015. On a regional level, potential or further instability in the CIS, Balkans, Middle East, North Africa and Caucasian regions may impact the development of the Turkish economy.

We hold interests in several companies that may expose us to various economic, business, political, social, financial, liquidity, regulatory and legal risks and may not provide the benefits that we expect, and our pursuit of acquisition opportunities may increase these risks.

Our investments in subsidiaries and associated companies within Turkey and internationally could expose us to economic, political, social, financial, regulatory and legal risks. These risks have and could adversely affect our result of operations and the value of these companies in our financial statements. The Turkcell Group has investments in Azerbaijan, Georgia, Kazakhstan, Moldova, the Turkish Republic of Northern Cyprus, Ukraine, Belarus and Germany and has operations or business activities that involve other emerging markets. We are also exploring new investment opportunities, primarily in emerging markets. Our current and potential future activities in these countries include operating mobile communications networks and routing cables. We may also transfer data through such countries. Legal systems, including telecommunications regulations, institutions, commercial practices and economies in emerging markets tend to be relatively underdeveloped and some of these countries may also suffer from relatively high rates of fraud and corruption. Furthermore, through our subsidiaries in Turkey and internationally, we engage in businesses outside of the scope of our core mobile business. These other businesses are subject to risks that are in some respects different from those of our mobile business.

In some countries, we hold our investments with another shareholder and in some cases we are a minority shareholder. Should there be a disagreement between us and other shareholders in the future, the ability of the invested company's management to move forward with its business plan may be affected and no assurance can be given that it will be able to take the course of action we believe is appropriate. Furthermore, some of the countries in which we have businesses or would consider investing, and the companies and individuals that we come into contact with, may be the target of U.S. and international sanctions. There can be no assurance that political, legal, economic, social or other actions or developments in these countries or involving such companies and individuals will not have an adverse impact on our investments and

businesses in these countries.

Table of Contents

In this regard, we have and are likely to continue to experience issues in some of our international businesses that adversely affect our Company. Recent issues include the following:

- Our operations in Ukraine may be adversely affected by military actions, political instability, civil unrest and economic problems in that country in 2014. Specifically, political instability in the Crimea region accelerated recently. These factors may lead to a decline in operating results and, as further described below, a further devaluation of the local currency. The National Bank of Ukraine, among other measures, has imposed certain restrictions on processing client payments by banks and on purchase of foreign currency on the inter-bank market. In February 2014, Ukraine's sovereign rating has been further downgraded to CCC with a negative outlook. In addition, the U.S. recently issued an executive order to impose Ukraine-related sanctions. The final resolution and impact of the current military and political crisis are difficult to predict and the ongoing crisis may further adversely affect the Ukrainian economy and our results of operations in Ukraine and/or the value of our operations there. We are unable to predict the likely course or duration of these events, or the extent of the adverse impact that they have had and are likely to have on the telecommunications market dynamics and composition, our investment in Ukraine and our operations there.
- In Ukraine, the local currency, Ukrainian Hryvnia (UAH), has depreciated against the U.S. Dollar by 19% as of March 14, 2014 and there is a further currency devaluation risk as the country is suffering from continuing instability as noted above, and has a large current account deficit and high external funding needs. Our subsidiary in Ukraine, Astelit, had as of December 31, 2013, a foreign currency debt of approximately \$650 million. In addition, there is a significant gap between Astelit's foreign currency revenues and operational expenses, with Astelit's foreign currency revenues estimated at 13% of revenues and its foreign currency operational expenses estimated at 25% of total in 2013. The depreciation of the UAH will lead to a foreign exchange loss. We have been unable to hedge this exposure to the UAH.
- Prior to the current wave of instability in Ukraine, 3G and/or LTE licensing was expected, although no timetable had been set. Currently, there is only one 3G license (UMTS/WCDMA) in Ukraine, granted without tender to Ukrtelekom, which in 2013 was acquired by SCM Group (which also owns 45% of Astelit). If new or existing licenses were to be made available and current instability were eased, we would be interested in examining these opportunities. If successful, the associated costs would increase our Ukrainian financing needs, which could in turn require us to consider new sources of funding or the extension of existing sources. If we are not successful in the pursuit of such a license, or if one were to be owned or operated by a competitor, we could find ourselves at a competitive disadvantage in this market. This could have an adverse effect on the value of our investment there.
- Stability remains fragile in Belarus. Belarus has moved back into recession with elevated inflation risks. The country remains vulnerable to global shocks which may trigger renewed weakness in the country's ability to service its external debt and further depreciation of the local currency, Belarusian Rubles (BYR), which could in turn lead to a further reduction in the value of our investment in this country. BYR depreciated against the U.S. Dollar by 11% in 2013 and there is a further currency devaluation risk as limited currency reserves, high debt repayments and the current account deficit puts the recent BYR stabilization at risk and creates inflationary and devaluation pressure. Our subsidiary in Belarus, Best, had foreign currency debt of \$597 million as of December 31, 2013.
- Allegations have been made regarding improper payments relating to the operations of KCell, a mobile operator in Kazakhstan and 51% subsidiary of Fintur Holdings B.V., in which we hold a 41.45% stake and TeliaSonera holds the remainder. These allegations have been investigated in the past and the Turkcell board was informed that they were not substantiated. We monitor this issue through the Fintur board and remain vigilant, as there can be no assurance that such issues will not affect the operations of KCell or other Fintur operations, which may in turn adversely affect the return on our investment in this company. Turkcell is aware that other telecommunications companies, including TeliaSonera (which, as noted above, is the majority owner of Fintur and also has a separate subsidiary in Uzbekistan), have disclosed investigations regarding transactions in the telecommunications sector in Uzbekistan. Turkcell has received a request from the U.S. Securities and Exchange Commission (SEC) to submit documents and information related to Uzbekistan and is in the process of

cooperating with this request.

Table of Contents

In addition to the foregoing, the new Turkish Commercial Code and related legislation may require us to provide new capital or other financial support to certain of our controlled subsidiaries, which may divert resources from other needs. Our international and Turkish subsidiaries may not benefit us in the way we expect for the reasons cited above, as well as other reasons, including general macroeconomic conditions, poor management and legal, regulatory or political obstacles. For many of these subsidiaries, we do not expect to achieve desired levels of profitability in the near or mid term, and we may be required to record impairments. We may also in response to such conditions consider increasing, restructuring or exiting certain of our investments.

We are exposed to foreign exchange rate risks and risks relating to our cash balance management that could significantly affect our results of operation and financial position.

We are exposed to foreign exchange rate risks because our income, expenses, assets and liabilities are denominated in a number of different currencies, primarily Turkish Lira, U.S. Dollars, Euros, Ukrainian Hryvnia, Belarusian Rubles and Azerbaijani Manat. In particular, a substantial majority of our debt obligations and equipment expenditures are currently, and are expected to continue to be, denominated in U.S. Dollars, while the revenues generated by our activities are denominated in other currencies, in particular the Turkish Lira, Ukrainian Hryvnia, Belarusian Ruble, Azerbaijani Manat and Euro. In addition, we are exposed to such currency mismatches with respect to certain capital expenditures and off-balance sheet obligations, in particular our obligations in respect of universal service for the installation of infrastructure in uncovered areas of Turkey, a service that we have contracted to provide for an amount in TRY, but which requires expenditures in foreign currencies. See Item 8. Financial Information and Note 34 to our audited consolidated financial statements included in Item 18. Financial Statements of this annual report on Form 20 F.

The TRY depreciated by 20% against the U.S. Dollar in 2013, driven mainly by expectations regarding the Federal Reserve's tapering resulting in a withdrawal of foreign capital, and there is a possibility of further devaluation. The Belarusian Ruble depreciated against the U.S. Dollar by 11%. There was no major change in Ukrainian Hryvnia and the Azerbaijani Manat against the U.S. Dollar in 2013. However, as of March 14, 2014, the Ukrainian Hryvnia depreciated against the U.S. Dollar by 19%.

Sudden increases in inflation or the devaluation of these currencies or other currencies in which we generate revenue, have had, and may continue to have, an adverse effect on our consolidated financial condition or liquidity. In the current economic environment and considering the fragile economic conditions in Belarus and the current situation in Ukraine, there is a possibility of further devaluation. There are no tools to hedge foreign exchange rate risks effectively due to restricted and undeveloped financial markets in these countries.

Fluctuations between Turkish Lira, Ukrainian Hryvnia, Belarusian Rubles and Azerbaijani Manat, on the one hand, and U.S. Dollars and Euros, on the other, have had and may have an unfavorable impact on us. We may enter into derivative transactions to manage the risk with respect to the Turkish Lira; however, these transactions have a cost and do not fully cover all of our risks. As of December 31, 2013, our consolidated debt was \$1,561.4 million and around 90% of this amount was in foreign currency.

When we translate our results of operations and financial position into U.S. Dollars for the purpose of preparing our financial statements that are expressed in U.S. Dollars, the dollar amounts will vary in accordance with applicable exchange rates. We do not hedge this so called translation risk.

Reduction in cash generated from operations and increased capital needs may increase our borrowing requirements, which may increase our financing costs and our exposure to the risks associated with borrowing.

We continue to experience challenging macroeconomic, regulatory and competitive conditions in our markets that may reduce cash generated from operations, and we may continue to face increased capital needs to finance our technological and geographic expansion. In addition, an increase in the volume of contracted smartphone sales has resulted in and may continue to result in higher working capital requirements. These pressures have in the past reduced, and may continue to reduce, our liquidity. Reduced liquidity may lead to an increase in our borrowing requirements.

Table of Contents

Borrowing by Turkcell group companies exposes us to interest rate risk and possibly increases interest expense, obligates us to meet certain covenants and exposes us to financial risks if covenants are not satisfied or if additional financing is required, each of which could have a material adverse effect on our consolidated financial condition and results of operations. Furthermore, no assurance can be given that we will continue to have access to financing on terms that are satisfactory to us.

As of December 31, 2013, our consolidated debt was \$1,561.4 million. \$404.1 million of our debt portfolio consisted of financing obligations paying interest at fixed rates. The remainder of our debt portfolio pays interest at floating rates, which has been favorable in the current interest rate environment, but would expose us to increased costs if rates increase further.

In June 2011, we engaged in a forward start collar agreement for some portion of our debt which is due in 2015 and exposed to interest rate risk. The collar hedges variable interest rate risk for the period between 2013 and 2015.

Some of the borrowing agreements entered into or guaranteed by Turkcell have financial covenants that the borrower is required to observe. Although we are not presently concerned with Turkcell's ability to meet its financial covenants, no assurance can be given that the covenants in borrowings entered into or guaranteed by Turkcell will at all times be met. Furthermore some of our borrowing agreements contain cross default clauses under which a default by a group company could constitute an event of default under certain of our borrowings.

Some companies in our Group have defaulted, and may in the future default on their financial covenants and payment obligations. For example, since June 2011, Astelit has not met certain payment obligations, which were waived until February 1, 2012. Since that date, our Board of Directors has not acted to approve or reached a consensus for the extension of repayment dates. As a result, Astelit was unable to meet its repayment obligations to its parent company, Euroasia Telecommunications Holdings BV (Euroasia) (55% owned by Turkcell) and Financell BV (100% owned by Turkcell) totaling \$323 million and defaulted on its loan agreements (As of December 31, 2013, Astelit's unmet obligations under its loans to Financell and Euroasia reached a total of \$598 million). In addition to the Euroasia Loan and Financell Loans, as given above, Astelit has defaulted on one SCM loan agreement currently totaling \$39 million (the SCM Loan).

As a consequence of Astelit's default, cross default clauses have been triggered on five loan agreements totaling \$554 million (currently decreased to \$176 million, following the Company's \$150 million guarantee payment and other principal payment) and waivers were obtained for the aforementioned loans before December 31, 2013. In the same vein, Euroasia, a Group company that is a 100% shareholder of Astelit, which had previously borrowed \$150 million to finance Astelit, also defaulted on its loan on March 30, 2012. As a guarantor, the Company paid \$150 million to related banks on April 6, 2012. As a consequence of Euroasia's default, cross default clauses have been triggered on four loan agreements (the same ones referenced above) currently totaling \$176 million and waivers have also been obtained for the aforementioned loans. As no waiver has been received for the SCM Loan from SCM, this loan has been classified in current liabilities. Accordingly, as a result of the event of default, SCM has the right to demand immediate loan repayment, although it has not perfected any pledges in connection with this loan.

There can be no assurance that we will not have to make similar payments in the future, which could adversely affect our business and results of operation. Furthermore, if Astelit cannot obtain new financing and if our Board or shareholders fail to achieve consensus on Astelit related issues, Astelit's and our own financial results and condition would be adversely affected.

Table of Contents

Limitations on spectrum as a scarce resource in mobile telecommunication systems, alleged health risks with BTS and dependence on suppliers for network equipment may adversely affect our ability to maintain operational excellence.

Spectrum limitations and frequency costs may adversely affect our ability to provide services to our subscribers and the cost to us of providing such services.

Our GSM and UMTS licenses have specified terms and are subject to renewal upon a payment of a fee, but renewal is not assured. The loss of, or failure to renew, our licenses could have a material adverse effect on our business and financial condition. Those licenses have also specified radio spectrum. The spectrum is a continuous range of frequencies within which the waves have certain specific characteristics. The number of subscribers that can be accommodated on a mobile network is constrained by the limited amount of spectrum allocated to the operator of the network and is also affected by subscriber usage patterns and network infrastructure. We have 2x11 MHz of FDD spectrum in 900 MHz band for GSM and 2x20 MHz from 2100 MHz FDD band for UMTS services. As our subscriber base and their demand for mobile services such as voice and data grow and we offer a greater number of services, we will require additional capacity. We may face capacity problems, which may in turn lead to deterioration in our network's quality and may negatively impact our operational results.

In addition, if we fail to obtain additional frequencies at a reasonable cost, the competitive coverage advantage of our Company may be adversely impacted. The cost of obtaining new frequencies has increased significantly in recent years and is expected to continue to increase. This has had and is likely to continue to have an adverse impact on our cost of providing service and results of operations.

In July 2011, the ICTA proposed to the Ministry of Transport, Maritime Affairs and Communications, on the subject of GSM frequencies, to be permitted to serve 3G services and the spectrum award of 2x8.6 MHz E-GSM band to the operator that has less than 10 MHz spectrum in 900 MHz and 2x15 MHz of 1800 MHz to each operator that does not have the spectrum. The ICTA decision implies that only Avea will be eligible for the E-GSM auction, while Vodafone and Turkcell will be eligible for the 1800 auction, which may enable Avea to be the sole beneficiary of the E-GSM band. In that case, Avea would be able to begin UMTS900 services immediately from the E-GSM band, whereas Turkcell and Vodafone would only begin after extensive technical works regarding spectrum clearance are done. Consequently, the competitive coverage advantage of Turkcell may be adversely impacted.

Consistent with the nature of terminal technology development, traffic on the 2G network is expected to shift to the 3G network. However, 3G terminal penetration is the key factor in providing the expected shift in traffic from 2G to 3G. Penetration may stay low or our subscribers may choose to stay on the 2G network for reasons such as the 2G network's lower battery power consumption. In addition, 3G coverage depends on the deployment of the 3G network, which will certainly take time to achieve, compared to the coverage level of the 2G network. As a result, Turkcell may have difficulties in releasing 900 MHz band for future technologies.

There are alleged health risks, zoning limitations and certification requirements associated with our Base Transceiver Stations (BTS), which make it difficult to build and maintain BTS.

We are aware of allegations that there may be health risks associated with the effects of electromagnetic signals from BTS and from mobile handsets. While we believe that there is currently no substantiated link between exposure to electromagnetic signals at the level transmitted by our BTS and mobile handsets and long term damage to health, the actual or perceived health risks of mobile communications devices could

adversely affect us through a reduction in subscribers, reduced usage per subscriber, increased difficulty in obtaining sites for base stations and exposure to potential liability. Furthermore, we may not be able to obtain insurance with respect to such liability on commercially reasonable terms.

In recent years, legal proceedings have been brought against mobile operators seeking the removal of base station sites for health reasons. In addition, the Turkish Supreme Court overruled the decisions of some local courts, finding that a base station in question could have negative effects on human health over the long term. If the number of those cases increases or if new regulations were to result, these could have a material adverse effect on our operations and financial results. Such legal proceedings may make it more difficult for us to establish and maintain such sites. Furthermore, there are conflicting and confusing reports in the media about the health effects of BTS. These reports have even caused local residents in certain regions to form large protests in strong objection to the BTS sites. Such obstacles have made it increasingly difficult to build new BTS sites and maintain our existing sites.

Furthermore, there are zoning limitations related to our BTS that require operators to obtain construction permits and certificates, which may be costly and may have an adverse effect on our operating results.

Table of Contents

A draft zoning law in Turkey may require mobile operators to obtain certifications for all existing and new BTS, which may result in significant compliance costs and closing of BTS for which certification cannot be obtained, negatively impacting our financial condition. Any difficulty in maintaining or building BTS due to health concerns and our inability to obtain the required permission and certificates, may negatively impact the quality of our network, including our ability to expand and upgrade it, and affect our operational performance.

In addition, with the new Metropolitan law, municipalities have the right to regulate the choice of operators' BTS locations. In addition, this law has increased the number of metropolitan municipalities and in some cases, the size of their territory was increased, which may have the effect of increasing our coverage obligations and the number of BTS required to meet them. Related regulatory actions in the future are likely to increase our costs and affect results of operations, in many cases, adversely.

We are dependent on certain suppliers for network equipment and for the provision of data and services. The failure of any of our suppliers to supply equipment to us, and at the level of quality we require, may have an adverse effect on our business and financial condition.

Like all operators, we purchase our mobile communications network equipment, from a limited number of major suppliers. There can be no assurance that we will be able to obtain equipment from one or more alternative suppliers on a timely basis in the event that any current supplier for any reason, including that the technological requirements for our increasingly advanced infrastructure are too complex, is unable or unwilling to satisfy our demands. This could also affect our competitive position, if our suppliers stay behind technological developments compared to the suppliers of our competitors.

Adverse economic conditions have negatively affected and may continue to affect our domestic and international suppliers, leading to a contraction in their business, which in turn may lead to a decrease in the quality of the services that they render to us and adversely affect timely delivery of such services, negatively impacting our business and operations. In addition, our existing and new license agreements or new regulations may require us to purchase network equipment from specified suppliers or bring certain specifications regarding our existing suppliers. Equipment from these suppliers may not always be compatible with our existing equipment or the supplier may fail to integrate it, and our employees may not be familiar with the technical specifications and maintenance requirements of equipment from these suppliers. Furthermore, if our suppliers fail to meet the requirements, we may end up violating the terms of our license agreements. These factors could also have a material adverse effect on our business and financial condition.

Turkcell's complex ownership structure and ongoing disagreements among our main shareholders have adversely impacted and may continue to impact decision making on important matters. These ongoing disputes may lead to further regulatory or legal actions, and affect the ownership and control of our shares.

Our principal shareholders are Sonera Holding B.V. and Turkcell Holding A.S., which hold 13.07% and 51.00%, respectively, of Turkcell's shares. TeliaSonera has informed us that they own additional shares totaling approximately 0.94%. Turkcell Holding A.S. is 52.91% owned by Cukurova Telecom Holdings Limited and 47.09% by Sonera Holding B.V. Cukurova Telecom Holdings Limited is 51% owned by Cukurova Finance International Limited and 49% by Alfa Telecom Turkey Limited. Additionally, according to public filings (a Schedule 13D filed in November 2009), Alfa Telecom and TeliaSonera entered into an agreement regarding a possible consolidation of their holdings in Turkcell in a new company. According to the information available to the general public, we understand that the agreement expired in May 2012. It should be noted, however, that the agreement contains provisions allowing its prolongation. Our Company is unable to assess if the agreement was indeed prolonged or not and cannot predict whether the parties will go forward with this consolidation or the form that it might take.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Cukurova and Alfa have been involved in a long running dispute regarding, in summary, amounts due by Cukurova to Alfa and Alfa's claim to take ownership of Cukurova's indirect 13.8% interest in our Company in settlement of such amounts. This and other disputes have effectively blocked shareholder decision making on important corporate matters, and could have an adverse effect on the ability of our management to execute business decisions and take other actions. We cannot predict when and how these disputes will be resolved and whether our shareholders will be able to achieve agreement on matters regarding the operation of our Company.

Table of Contents

The shareholding structure and the ongoing disputes have adversely affected our company in a number of ways and present a number of risks, including in particular:

- Our Articles of Association contain quorum and majority requirements, at various levels, for shareholder meetings and decisions. Failure to achieve a quorum or the required majority vote can block decisions that require shareholder approval. We have had difficulty convening shareholder meetings and numerous items submitted to our shareholders have not been approved, including the distribution of dividends, the approval of our dividend policy, election of independent board members, the release of directors for actions taken and the approval of financial statements for 2010 and 2011. In 2012 and 2013, due to lack of quorum, the annual general assemblies could not convene and none has been called yet in 2014.
- A number of new corporate governance requirements were enacted under Turkish regulations by the Capital Markets Board of Turkey (the CMB) with mandatory effect from June 30, 2012. We were unable to comply with some of these requirements because of a lack of consensus among our main shareholders, including a requirement that one third of our Board members and that all of our Audit Committee members be independent .

Under the new Capital Markets Law the CMB has the power to take action against the Company, our Board members and our main shareholders in respect of the various governance issues that have arisen or to amend the Articles of Association without general assembly approval.

Due to the failure of our Company to comply with the new corporate governance requirements, the CMB directly appointed three independent directors and four board members who satisfy its independence criteria, replacing those members of the Board whose terms had expired and whose successors could not be elected at the general assembly meetings. The CMB appointed members terms of office will last until new appointments are made in accordance with applicable legislation.

A new Investor Compensation Center was formed in 2013 which has the power to take action in place of the general assembly for companies that have failed to convene their general assembly meetings in two consecutive years and have CMB appointed directors.

No assurance may be given regarding the impact of past or future CMB actions, future Investor Compensation Center actions, or any future legal actions against our Company, on the overall company strategy, convening general assembly or the distribution of dividends.

Compliance with our home country governance rules is an important element of our compliance with the listing requirements of the New York Stock Exchange (NYSE). Failure to comply with such rules could jeopardize the continued listing and trading of our ADRs on the NYSE.

- Under the new Turkish Commercial Code, an independent auditor for our Company should have been approved by the general assembly by March 31, 2013. This action has not yet been taken although our Board has agreed to present DRT Bagimsiz Denetim ve Serbest Muhasebeci Mali Musavirlik A.S. (Deloitte) for approval of the general assembly. Since we were not able to comply with this requirement, an auditor may be appointed for us by court order upon request of any shareholder or board member.

For so long as our main shareholders are in dispute and unable to achieve consensus, we are likely to continue to experience difficulties obtaining corporate decisions, including with respect to the matters discussed above, and we may have difficulty obtaining decisions regarding our business and operations. This situation may also lead to further regulatory and legal actions being taken in respect of our Company, the nature and effects of which we cannot predict. Ongoing disputes among the shareholders may affect the ownership and control of our shares, the demand for our shares and our ability to manage our business, and no assurance can be given that the interests of these shareholders will be aligned with those of our other shareholders.

Table of Contents

We face risks related to our dependence on IT systems and the products and services we provide through third party suppliers as well as our exposure to technological changes in the communications market, including in industries where we traditionally do not compete.

We are dependent on certain systems and suppliers for information technology (IT) services and our business continuity is at risk due to our exposure to potential natural disasters, regular or severe IT and network failures, human error, security breaches and other cyber security incidents and IT migration risk.

We are heavily dependent on IT systems, suppliers of IT services and our IT employees for the continuity of our business and we are continually upgrading and converting our IT systems. Although we devote significant resources to the development and improvement of IT and of security, back up and continuity systems, we could still experience IT and network failures and outages due to system deficiencies, human error, security breaches, terrorist or other destructive acts, natural disasters such as earthquakes and floods, unsuccessful migration to alternative or improved IT systems, or other factors. We have and may, from time to time, experience cyber-attacks of varying degrees, and as a result, unauthorized parties may have obtained, and may in the future obtain, access to our computer systems and networks. Such cyber-attacks could result in the misappropriation of our proprietary information and technology, the compromise of personal and confidential information of our employees, customers or suppliers or interrupt our business. We may incur significant costs in order to implement, maintain and/or update security systems that we feel are necessary to protect our computer systems. If we are not able to maintain adequate IT and network systems, or fully recover our IT and network systems in the event of an outage, disruption, or cyber-attack, the continuity of our operations could be affected, which could have a material adverse effect on our reputation, business, results of operations and we may also be subject to regulatory penalties.

2G and 3G networks are migrating towards IP technology to transport information. These networks open up the possibility for IP based services. However, once these services are introduced into the IP domain, the mobile network may be harmed by potential attacks. The threats on the mobile network can originate from external sources, such as public internet, or internal sources, such as terminals connected to our mobile network. Despite our efforts in taking security issues very seriously, we could encounter attacks on our infrastructure, which could have an adverse effect on our operations.

Although we closely follow general technological trends in communications and technology, we may be unable to adapt to technological changes in the communications market which could result in higher capital expenditures and a greater possibility of commercial failure.

The telecommunications industry is characterized by rapidly changing technology with related changes in customer demands for new products and services at competitive prices. Technological developments are also shortening product life cycles and facilitating convergence of various segments in the telecommunications industry, including in our core mobile communications business and the 3G business. Our future success will largely depend on our ability to anticipate, invest in and implement new convergent technologies with the levels of service and prices that customers demand. Technological advances may also affect our level of earnings and financial condition by shortening the useful life of some of our assets, requiring us to record asset impairments.

The operation of our business depends in part upon the successful deployment of continually evolving mobile communications technologies, which requires significant capital expenditures. There can be no assurance that such technologies will be developed according to anticipated schedules, that they will perform according to expectations or that they will achieve commercial acceptance.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The effects of technological changes on our business cannot be predicted. In addition, it is impossible to predict with any certainty whether the technology selected by us will be the most economical, efficient or capable of attracting customer usage. Although we are following general technological trends in communications and technology, there can be no assurance that we will be able to develop new products and services that will enable us to compete efficiently.

Table of Contents

We have become active in providing products and services for industries other than telecommunications, many of which are developed and/or maintained by third party providers. Our dependence on these third party providers to help us navigate the regulatory, security and business risks of industries where we traditionally do not compete adversely affects our business.

The operation of our business depends, in part, upon the successful deployment of continually evolving products and services, including for applications in industries other than telecommunications, such as mobile financial services, mobile health and mobile education solutions, authentication solutions and entertainment and community services. We are reliant upon third party providers to help us navigate risks relating to security, regulations and business in the industries where we do not traditionally compete. Changes in such industries may impair our partners business and/or negatively impact the content we are developing, such as for entertainment, which, in turn, could have a material adverse effect on our business and financial condition.

Our business, consolidated financial results and/or operational performance could be adversely affected unless we retain our key personnel, our partners and their employees.

Our performance depends, to a significant extent, on the abilities and continued service of our key personnel. Competition for qualified telecommunications and technology personnel in Turkey and elsewhere is intense. In addition, we are dependent on our dealers and distributors, as well as their ecosystem and personnel, in the growth and maintenance of our customer base. The loss of the services or loyalty of key personnel could adversely affect our business and financial condition, as well as breaches of confidentiality regarding our customer, operation and business plan details, particularly if a number of such persons were to join a competitor.

We are involved in various claims and legal actions arising in connection with our business, which could have a material effect on our financial condition.

We are subject to investigations and regular audits by governmental authorities in Turkey, including the Competition Board, the ICTA, tax authorities and certain other parties, and governmental authorities in other countries in which we have operations. We are currently involved in various claims and legal actions with such authorities. We have set aside provisions for ongoing disputes based on applicable accounting standards. However, no assurance can be given that the provisions we set aside will be sufficient to cover our actual losses under these matters, and that new disputes will not arise under which we would face additional liabilities and reputational risk. For a more detailed discussion of all of our significant disputes, see Item 8. Financial Information and Note 34 to our audited consolidated financial statements included in Item 18. Financial Statements of this annual report on Form 20 F.

In particular, we note a dispute regarding the application of the Turkish Special Communication Tax. The tax authority has assessed significant special communication tax and a related penalty against our company as a result of a tax investigation regarding the years 2008 to 2012. The tax amount assessed on the Company is TRY 211.1 million (approximately \$94.9 as of March 14, 2014) and the tax penalty imposed is TRY 316.6 million (approximately \$142.3 as of March 14, 2014) as of December 31, 2013. This assessment is based on the tax authority's claim that the Company should pay the Special Communication Tax on prepaid card sales made by distributors. Turkcell has filed a lawsuit before the tax court for the cancellation of that aforementioned tax and tax penalty demand. After the lawsuit is filed, the Company applied for a settlement procedure. While we intend to vigorously defend our rights and our position in this case, no assurance can be given regarding the outcome. If decided against us, this case could have a material and adverse effect on our results of operations and our financial condition.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

In addition to the aforementioned risks, we note a dispute regarding radio utilization and usage fees. As a result of an investigation, the ICTA imposed an administrative fine to Turkcell amounting TRY 2.6 million (approximately \$1.2 as of March 14, 2014) for providing misleading information to the ICTA and initiated an in-depth investigation to further inspect the correctness of the radio utilization and usage fee payments of the company regarding terms (years) which do not fall under the scope of this investigation. The ICTA Board also stated that the company underpaid a total of TRY 66.9 million (approximately \$30.1 as of March 14, 2014) radio utilisation and usage fee for the years 2010 and 2011. According to the ICTA Board decision, TRY 4.5 million (approximately \$2.0 as of March 14, 2014) of this underpaid amount derived from miscalculation and TRY 62.4 million (approximately \$28.1 as of March 14, 2014) of the underpayment is a result of calculating the subscription numbers for 2010 and 2011 using the number of sales of the pre-paid SIM cards to the distributors, but not the actual activation numbers.

Table of Contents

We maintain and regularly review our internal controls over financial reporting, but these controls cannot eliminate the risk of errors or omissions in such reporting.

We maintain and regularly review internal controls over our financial reporting. However, internal control over financial reporting has inherent limitations. It is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. In addition, it can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements will not be prevented or detected on a timely basis by internal controls over financial reporting. It is possible to design safeguards to reduce, though not eliminate, this risk. Our latest review has revealed certain deficiencies in our controls, although none that we believe constitute material weaknesses. However, our controls have in the past suffered from these and lesser deficiencies and no assurance can be given that others will not emerge in the future. A failure to detect or correct deficiencies and weaknesses in a timely manner could have an adverse effect on the accuracy of financial reporting. Failure to maintain effective internal control over financial reporting in accordance with Section 404 of the Sarbanes Oxley Act of 2002 could also adversely impact investor confidence and the market price of our common shares or ADSs.

ITEM 4. INFORMATION ON THE COMPANY

4.A History and Development of the Company

Turkcell Iletisim Hizmetleri A.S. (Turkcell), a joint stock company organized and existing under the laws of the Republic of Turkey, was formed in 1993 and commenced operations in 1994. Our principal shareholders are Sonera Holding B.V. and Turkcell Holding A.S., which hold 13.07% (does not include additional shares totaling approximately 0.94% that TeliaSonera has informed us they own) and 51.00%, respectively, of Turkcell s shares. Turkcell Holding A.S. is 52.91% owned by Cukurova Telecom Holdings Limited and 47.09% by Sonera Holding B.V. Cukurova Telecom Holdings Limited is 51% owned by Cukurova Finance International Limited and 49% by Alfa Telecom Turkey Limited. The address of our principal office is Turkcell Iletisim Hizmetleri A.S., Turkcell Plaza, Mesrutiyet Caddesi, No. 71, 34430 Tepebasi, Istanbul, Turkey. Our telephone number is +90 (212) 313 10 00. Our website address is www.turkcell.com.tr. In July 2000, we completed our initial public offering with the listing of our ordinary shares on the Borsa Istanbul and our ADSs on NYSE.

We operate under a 25-year GSM license, which we were granted in April 1998 upon payment of an upfront license fee of \$500 million. Under our license, we pay the Undersecretariat of the Treasury (the Turkish Treasury) a monthly treasury share equal to 15% of our gross revenue. Of such fee, 10% is paid to the Ministry of Transport, Maritime Affairs and Communications of Turkey (Turkish Ministry) for a universal service fund. We also operate under interconnection agreements with other operators that allow us to connect our networks with those operators to enable the transmission of calls to and from our GSM system.

In early 2009, we were granted the 20-year type A 3G license, which provides the widest frequency band, for a consideration of EUR 358 million (excluding VAT), and we signed the related 3G license agreement on April 30, 2009. The 3G license agreement has similar provisions to the aforementioned 2G license agreement.

In 2013, we won an auction held by the Turkish Ministry related to universal service, which requires installing sufficient infrastructure to uncovered areas with a population of less than 500 and its operations for 3 years. We started the service in August 2013 and as of the end of

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

2013, infrastructure covering 550 settlements has been installed (out of the three year target of 1,799) within the scope of the project, with network-sharing technology.

Our subscriber base has grown substantially since we began operations in 1994. At year-end 1994, we had 63,500 subscribers. By year-end 2013, that number for the Group had grown to 71.3 million.

In 2013, we had total revenues of \$5,975.4 million, our adjusted EBITDA totaled \$1,858.0 million and we reported a net income attributable to the owners of Turkcell amounting to \$1,228.2 million.

Table of Contents

For the year ended December 31, 2013, we spent approximately \$853.8 million on capital expenditures, compared to \$975.5 million and \$866.0 million in 2012 and 2011, respectively.

In addition to our operations in Turkey, we have various international operations. For more information, see Item 4.B. Business Overview International and Domestic Subsidiaries .

4.B Business Overview

Based on operator announcements, we are the leading provider of mobile services in Turkey in terms of the number of subscribers, with 51% of the Turkish subscriber market as of December 31, 2013, compared to 52% as of December 31, 2012. We provide high-quality mobile voice, broadband and other services over our mobile communications network and have developed the premier mobile brand in Turkey by differentiating ourselves from our competitors with our value offers, which include: superior and innovative technologies, more advantages, outstanding and extensive service quality, and being a leader in social responsibility. We maintain our strong position in the market due to our customer-oriented approach and our ability to provide quick and differentiated solutions to meet customers' needs through lifestyle segments. We are in compliance with all of our license requirements in all material respects.

I. Industry

a. Overview

GSM, one of the digital standards for mobile communications, was developed in 1987 to facilitate unification and integration of mobile communications worldwide.

As a digital standard, GSM offers a wide range of services that include voice, circuit switched data, packet data and fax, in addition to standard service offerings such as call barring, call forwarding, call waiting and roaming into areas serviced by other GSM carriers. A key component of the GSM network is the simcard, which enables the user of a mobile phone to be identified. Simcards, also known as "smart cards", are placed inside each handset and function as its digital brain. The simcard's digital memory allows for storage of the subscribers' personal information, such as the rate plan, phone number and service features. Both postpaid and prepaid subscribers are required to purchase a simcard in order to use the telecommunications service offered by Turkcell.

GSM networks have traditionally been used exclusively as personal voice communications networks. Data communication in GSM networks has started with speeds of 9.6 kilobits per second and continued to improve with High Speed Circuit Switched Data (HSCSD), General Packet Radio Service (GPRS) and Enhanced Data rates for GSM Evolution (EDGE) technologies. Today, GSM networks can provide high-speed wireless data services of up to 300 kbps.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The mobile telecommunications industry has increasingly provided mobile data services and used 3G/HSPA+ as a technology platform that is more suitable for data transmission. Currently, many advanced technology platforms are being developed to enable the provision of more sophisticated data services.

In the early 3G networks, the platform was only able to provide network speeds up to 384 kbps. By using the new radio access technology, High Speed Downlink Packet Access (HSDPA) in UMTS networks, operators gain increased capacity and improved downlink speeds up to 14.4 megabits per second (Mbps). High Speed Packet Access Evolution (HSPA+) further enhanced the mobile broadband experience and increased the data capacity of HSPA. HSPA+ enhances mobile broadband with peak rates of 42 Mbps and more.

In 2013, we installed a 4G (LTE-Advanced) trial network and tested LTE-Advanced with Carrier Aggregation. The speed of the Carrier Aggregation technique combines different frequency bands making it possible to reach very high speeds. During the tests, we reached speeds of up to 900 Mbps in a lab environment (a record speed of Turkey on a mobile network) and up to 300 Mbps, with prototype LTE-A modems. We continue to work on 4G technology as it is the next step in the network evolution path of mobile broadband services we started with 3G. Turkcell became a member of the NGMN (Next Generation Mobile Networks) and also a member of the NGMN Board in 2013. Although no details have been provided by the ICTA, it is expected that 4G technology may begin to be used in 2015.

Table of Contents

b. The Turkish Mobile Market

According to a TUIK announcement, the Turkish population is young, with an estimated median age of 30, which is lower than elsewhere in Western Europe, and the majority of the population lives in urban areas. In addition, there were 76.7 million people living in Turkey as of December 31, 2013.

Penetration level increased to 91% in 2013 (based on the operators' announcement). There is good potential for growth opportunities in the Turkish mobile communications market in the areas of broadband and 3G services, as well as from Turkey's youth segment due to the aforementioned demographics. According to the operators' announcements, there are currently three mobile communication operators in Turkey: Turkcell, Vodafone and Avea, with a total of 69.4 million GSM lines as of December 31, 2013. Vodafone entered the Turkish GSM market by acquiring Telsim on May 24, 2006. Telsim, which had received a 25-year license at the same time as us and on what we believe to be identical terms, including the \$500 million upfront license fee, had been put up for sale by the Savings Deposit Insurance Fund (SDIF) in August 2005. The auction for Telsim was held on December 13, 2005, with Vodafone submitting the winning bid of \$4.55 billion. Avea is an operator majority-owned by Turk Telekom. Turk Telekom is 55% owned by Oger Telecom, a multinational GSM operator owned 35% by Saudi Telecom Company. In September 2006, Turk Telekom acquired Telecom Italia SpA's shares of 40.6% in Avea for \$500 million. Turk Telekom now holds 89.99% of the shares in Avea. The remaining 10.01% belongs to Is Bankasi.

II. Strategy

Our vision is to ease and enrich the lives of our customers with leading communications and technology solutions. We strive to build value for our customers, shareholders and employees.

As a leading communications and technology company, our goal is to continue organic growth while selectively seeking and evaluating new investment opportunities. Building on our strength in brand, people, infrastructure and scale, we have identified six strategic priorities in which we intend to pursue opportunities for profitable business growth:

- Deliver superior customer experience;
- Grow voice revenues;
- Grow our mobile internet business;
- Drive adoption of mobile services;

- Drive operations excellence and productivity; and
- Invest in future growth businesses.

III. Customer Segmentation & Services

a. Customer Segmentation

Through our increased focus on customers, all loyalty actions are designed in line with the targeted segments' lifestyles, needs, priorities, and expectations.

The aims of the segmentation are:

- to increase the loyalty of existing Turkcell customers;

Table of Contents

- to ensure behavioral and emotional brand loyalty; and
- to ensure a seamless series of positive brand experiences throughout all customer touch points, as well as to attract new customers.

We focus on segments, which are youth, professionals (white collar, self-employed, blue collar, governmental workers subsegments), households (disabled, farmers, housewives, retired, unemployed subsegments) and premium, with differentiated GSM and non-GSM offers, as well as campaigns and co-branded activities with selected companies from other sectors to create added values to targeted segments.

The youth segment management includes the loyalty program called *gnctrkcell* which is the largest youth club in Turkey, and ensures customer retention by presenting campaigns and advantages that fit the trends of young people. *Gnctrkcell* aims to reinforce Turkcell's brand recognition as a young, dynamic, popular and intimate brand.

We also diversified the offers and packages for our prepaid customers, which include monthly fee-based packages that include voice, SMS, MMS and data advantages. We launched such packages to increase the retention of prepaid subscribers and the revenue generated from them.

b. Services

We currently provide high quality mobile voice, broadband and other services to subscribers throughout Turkey. Subscribers can choose between our postpaid and prepaid services. Currently, postpaid subscribers sign a subscription contract and receive monthly bills for services. Prepaid subscribers must purchase a starter pack, which consists of a simcard with balance of TRY 5 or TRY 20, or airtime of weekly or monthly 400 minutes, while the top-up cards can be purchased in amounts ranging from TRY 15 to TRY 180.

As of December 31, 2013, we had approximately 21.2 million prepaid subscribers and 14.0 million postpaid subscribers, compared to approximately 21.9 million prepaid subscribers and 13.2 million postpaid subscribers as of December 31, 2012.

(i) Voice Services

Voice services are the main services that we provide to our customers. Voice services consist of high quality GSM services on a prepaid and postpaid basis. Throughout 2013, we simplified our tariff structure so that it is easy to use and can be tailored to our customers' needs.

(ii) Mobile Broadband

We commercially launched 3G simultaneously in 81 province centers and major cities in Turkey at the end of July 2009 and reached 86.2% population coverage as of December 31, 2013. There are approximately 28 million registered 3G subscribers and 12 million 3G-enabled handsets in our network. Smartphones are an important component for the growth of our mobile broadband business. Through offering a wide product portfolio including Turkcell branded smartphones, the smartphone penetration on our network reached 30% by the end of 2013, up from 19% penetration a year ago.

A wide variety of data offers are made available as part of our voice and terminal bundled offers to increase 3G device penetration, create a unique terminal experience and enhance the broadband internet experience. Terminal offers contain a variety of 3G enabled terminal devices such as feature phones, smartphones, 3G modems and tablets.

Throughout 2013, we sustained our position as leader of handset offerings through our dealer channel and we delivered attractive campaigns with top of the class models of brands in high demand such as Apple, Nokia and Samsung.

Turkcell launched its first Turkcell-branded handset, T10, the affordable Android smartphone, to widen access to mobile broadband in 2010. Since then, Turkcell introduced 5 additional T-series smartphone models and 1 tablet. Specifically in 2013, Turkcell launched the first domestically designed and produced smartphone T40. Turkcell-branded smartphones reached over 1 million sales units in total as at the end of December 2013. In February 2013, we also launched our own branded Turkcell Tablet, bringing dynamism to the tablet market with its thin and light design, as well as attractive performance with TV, music, magazine and book content.

Table of Contents

In addition to constant communication emphasizing 3G's coverage, penetration and speed, Turkcell has launched many offers and applications to increase smartphone penetration and mobile broadband usage.

(iii) Other Mobile Services

By providing a wide range of services, Turkcell enables users to remain connected wherever they are, via their mobile devices. From basic telecommunications services to social community services, Turkcell responds to the diverse needs of subscribers to help them connect to life.

Consumer Products and Services

Consumer Product Management is focused on developing and managing products and services to address the diverse needs of both consumers and corporate customers, thereby enriching their lives. These services are designed around three pillars: enhancing the communication experience of our customers via better call management and messaging services, enriching their on the go experience by using mobile technologies, especially in the areas of entertainment, i.e. TV, music, sports, gaming, and enabling our customers to access information according to their needs.

Turkcell seeks to differentiate itself by providing innovative and pioneering solutions in collaboration with its strong solution providers and various partnerships. Consumer Product Management offers various products and services, including bill payment reminders via SMS, call management and messaging options, mobile payment systems, security and information packages tailored to customers' preferences, government-related applications that provide information on schooling and justice, financial transactions, cloud services and entertainment options (such as sports, gaming and music).

In addition, Turkcell has developed a number of Turkcell-branded mobile applications in-house. Turkcell T Market is a localized application store for users to download both free and paid mobile applications to their supported handsets. It enables people to download more than 10,000 applications including Turkcell-branded applications and third party applications such as news, games and sports. As of December 31, 2013, Turkcell has 32 active Turkcell-branded mobile applications that were downloaded over 6 million times in 2013. The most popular downloads among Turkcell applications relate to online transactions (a multi-platform application for Turkcell subscribers, which allows them to keep track of mobile usage, change user settings and which also enable top-up activities), phone back-up, music (the legal music platform to stream and download music), video (provides access to various local video portals from tablets or smartphones) and TV (a total of 58 channels broadcasting a variety of series and hundreds of the most popular HD-quality movies through mobile and web platforms).

Corporate Products and Services

Corporate Product Management provides corporate customers with a competitive advantage by providing non-core industrial solutions, thereby delivering a new category of revenue sets for customers. Spanning from frozen food chains to farming, many types of solutions are available to streamline customer processes and provide operational efficiency through new revenue streaming channels, better consumer reach and

experience.

Turkcell Smart Enablers Services

Turkcell Smart Enablers is a network of mobile-based and innovative technological services that offers companies the opportunity to know their customers better, reach the right customer in the right place, and increase security measures. These services are provided through a web service that is easy to integrate into companies' own systems. Eighteen services have been launched within this service group.

Table of Contents

As of the date of this annual report, more than 100 companies evaluate their business processes and provide new technological services to their customers by using Turkcell Smart Enablers web services (APIs).

Turkcell Smart Map: The Turkcell Smart Map service, which is another first for Turkey, makes it possible for companies who want to target specific customers to analyze large scale data. Turkcell Smart Map is working on a website in which companies can analyze masses in 21 different sub-demographic profile combinations and reach the real target audience density in 5 million grids and 12,500 districts. Turkcell's corporate customers can analyze Turkcell's mobile activity concentration at a point and time where an activity is being planned, or analyze where their own customers are concentrated at a specific time of day. Turkcell Smart Map transforms this concentration into user-friendly language. Through this application, companies may have access to important data that will help them conduct marketing activities, develop growth strategies, decide on new investment and design campaigns.

Location Based Services: Corporate customers can monitor and manage their sales forces and fleets with Ekip Mobil. Ekip Mobil is a management console that allows customers to view their field teams/vehicles on a map, define alarms for specific regions and create direct communication channels to the field. Ekip Mobil can be used on any mobile device. For companies, the investment costs are minimal.

By using the Turkcell Smart Enablers Nearest Where service, customers who visit a company's website from their mobile phones can learn about the closest ATMs, stores, campaigns and technical services from their location with a single click or an SMS.

Turkcell Smart Education: The aim of the Turkcell Smart Education program is to provide an interactive education platform for corporate customers. Classrooms with interactive whiteboards, document cameras and lecture capture systems will support active-learning environments. Telepresence systems, video and web conferencing enables online education or distance learning for participants around the world.

Authentication Services

Mobile Signature, which was launched in February 2007, enables mobile subscribers to sign electronic documents and transactions with a legally accepted digital signature using GSM SIM cards. Mobile signature subscribers can easily verify their personal identity in a digital environment and complete transactions remotely, without needing to be physically present. There are currently 80 application providers in the market, representing industries as diverse as banking, e-government, insurance, healthcare and e-commerce. One Time Password is widely used by corporate customers for two level authentication controls on transactions. The service allows corporate customers to send a single use password via SMS to consumers when providing authentication on transactions. It is widely used for online banking processes and login transactions.

Machine to Machine (M2M) Communications

Since 2009, Turkcell has focused on its M2M business, whose principal markets in Turkey are car telematics, team tracking, fleet management, POS terminals, security alarms, smart metering, mobile health management, smart agriculture and sales force automation applications. Turkcell launched Turkey's first M2M Platform in March 2012. With the M2M Platform, customers can manage their devices more effectively. As of

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

December 31, 2013, the number of M2M subscribers reached 1.4 million.

Turkcell s Smart Fleet offers logistics companies new opportunities in many aspects of their work, ensuring increased productivity. Also, the system greatly contributes to the environment by preventing wasteful fuel consumption.

Turkcell also offers telemetry solutions to its corporate customers. In partnership with specialized third parties, Turkcell telemetry solutions allow customers to remotely access and collect metering data without utilizing a field force. Some examples of where telemetry services may be used include alarm systems, gauge metering, reactive energy, transformer stations, pipeline metering controls, and meteorology stations, among others.

Table of Contents

Turkcell Smart Health Solution effectively enables patients with chronic diseases, such as diabetes, hypertension, asthma and heart arrhythmia, to automatically record and send their test results to hospitals in a secure way, providing a reliable remote healthcare monitoring solution. This project was developed in collaboration with Istanbul University.

Mobile Marketing

Turkcell continues to grow its mobile marketing business as consumers move from a desktop to a computing environment to computing on-the-go . As the use of mobiles increases, mobile marketing is becoming a necessary part of every brand s marketing strategy. Turkcell utilizes mobile marketing and advertising channels to create additional value for customers. This value is ensured by one of the largest opt-in (customer permission) databases in Turkey, a variety of innovative marketing products and channels, and high response rates in comparison with traditional media. Through this database, advertisers can concentrate on their target market, segment their target groups and send specific messages to their recent and potential customers via different advertising channels.

Turkcell Partner Services

The Turkcell Partner Network is a business ecosystem which expands across international markets such as Ukraine, the United Kingdom, the United Arab Emirates and China. It comprises more than 200 registered business partners and a community of 7,000 individual developers functioning as application service providers, content providers, service provider system integrators, independent service vendors, and OEM business partners, as well as many other establishments or individuals, which have the potential to develop innovative mobile services and products. In its broadest sense, Turkcell Partner Program is a versatile business, including a toolset used by this Ecosystem to define, regulate and operate partnership schemes and business models.

Since 2002, Turkcell has been developing new products and services with its partners. Since 2004, these partnerships have been executed through the Turkcell Partner Program. More than 10,000 partner applications exist in T-Market as of 2013. Turkcell Partner Ecosystem comprises a business network of over 10,000 professionals recruited by our partners and their distribution channels.

Turkcellpartner.com serves as a primary digital communication channel for the Turkcell Partner Program and comprises various interactive components: a portal, blog, wiki, newsletters, RSS, and social media feeds. The portal also acts as a virtual professional networking platform, wherein partners and individual professionals can expose their skill sets and areas of interest, follow and message each other, and blog about the trends of mobile technologies.

c. New Technology Businesses

We are looking beyond our current value-added offerings and focusing our efforts on continuously developing innovative products, services and solutions to meet our consumer and corporate customer needs and expectations. We have built a strong innovation partner network consisting of both internal and external innovation resources to extend to new business areas and to provide advanced customer experience with unique value propositions delivered through cutting-edge technology. We are partnering with various adjacent industry players and startup ventures in

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

verticals such as finance, media and connected living to launch competitive offerings and build new businesses that will both differentiate us in the market and contribute to our growth. We are also connected to leading global innovation hubs, such as Silicon Valley and Boston in the U.S. and the Far East, to closely follow global market trends and identify new business opportunities. We are now one of the main local stakeholders for organizations such as Endeavor and the U.S. State Department-lead Global Entrepreneurship Program. In addition, one of the major activities has been to take an active role in the local entrepreneurial network, since 2002. We collaborate with key stakeholders such as entrepreneurs, institutional investors, universities, business incubation and acceleration centers, non-governmental organizations, as well as angel investors.

We continuously support initiatives such as acceleration program partnerships, business plan generation competitions, events such as the Global Entrepreneurship Weekend , university roadshows, seminars and many others. In addition to these activities, we recently launched our

Developers of the Future project which guides the youth population towards becoming mobile application developers and provides them an open innovation platform while they are building their collaborative software projects.

Table of Contents

Within the organization, all employees are encouraged to join the innovation process with their voluntary efforts on creating and evaluating new business ideas. Furthermore, Turkcell has created a team dedicated to corporate entrepreneurship. Events promoting the sharing of ideas and encouraging brainstorming are organized regularly.

(i) Mobile Finance Business

Turkcell Mobile Payment is a SMS-based operator billing service, which was launched in 2009. After introducing two new mobile financial services in 2011, Turkcell formed a new strategy in order to increase the penetration of financial services and launched Turkcell Wallet in October 2012, which combined Turkcell's NFC-based mobile wallet service Cep-T Cuzdan and SIM banking platform Cep-T Para under a single platform.

The basic principle behind the service, which operates in co-operation with Mastercard, is to link debit, credit or prepaid card numbers with the customer's GSM number, so that customers can use their GSM numbers to fulfill their daily transactional needs, such as payments (including contactless payment through NFC technology), money transfers with complementary value-added services such as loyalty card advantages. In addition, Turkcell's mobile payment capabilities can also be used in public transportation at participating locations.

Turkcell Wallet is a platform open to all banks operating in Turkey. Since January 2013, six major Turkish banks have participated in Turkcell Wallet (Akbank, Denizbank, Garanti Bank, Is Bank, Vakif Bank and Yapi Kredi) with varying levels of integration; some of the banks support the NFC-function, while others support NFC, as well as other functions.

As of March 2014, Turkcell Wallet had almost 1 million customers, 130 thousand of these customers had activated their wallet by linking at least one card and fifty of the top 100 e-commerce merchants in Turkey accept payment with Turkcell Wallet.

(ii) Digital Media Services

By streaming technology at 3G speed, Turkcell introduced MobilTV service in 2009 which enabled Turkcell subscribers to watch live television channels and on-demand video content on their mobile phones.

On April 18, 2012, Turkcell re-launched MobilTV service and introduced Turkcell TV with an enhanced multiscreen personal user experience and a rich content library. With Turkcell TV, Turkcell and Turkcell Superonline, subscribers can access all of the content from their phones, tablets, computers and connected TVs with both 3G and broadband internet connections. Subscribers also enjoy social connectivity, sharing, personalization and content discovery in real time with Facebook and Twitter integration.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Turkcell Magazine Kiosk is an application that gives users free access to the highest quality magazines published in Turkey on their iOS/Android tablets and smartphones. The magazines available through this application are enriched with additional videos, photographs and music and provide a unique experience to users with 3D animations.

Turkcell Library is an e-book platform that has over 6,000 e-books. After choosing and purchasing e-books from the Turkcell Library website, users may immediately begin reading using Turkcell Library iOS/Android applications. Users can synchronize the last page they have read across their Turkcell Library applications so they can continue where they left off and can also access their bookmarks or notes. In addition, users can share e-book titles on social media with friends.

Table of Contents

(iii) Digital Life Services

Travel Services

Turkcell Travel is a mobile application designed specially for the purpose of responding to the travel-related needs of Turkcell subscribers. The application can be used for several purposes: checking-in for flights, tracking changes on planned departure or arrival times of flights, city guides which consist of more than 80 cities around the world to gather information, travel suggestions, explore and event schedule sections have rich and updated contents in order to inspire users with travel locations. It is also possible for users to buy roaming packages in the application. Other features of the application are: Packing List, which help users to pack before traveling, Visa information for Turkish citizens, Currency Converter and Dictionary. The application can be used both online and offline. Turkcell Travel is available for iOS and Android devices.

Tourist Guide is a travel guide application designed for travelers visiting Turkey for all purposes. Users can search all local interest points such as hotels, restaurants, banks, etc. and view directions on a map. There are about 200 additional recommended attraction points with special content and photographs. The application is available on both iOS and Android devices.

Ticketing

SMS Ticket is a service provided by Turkcell that can substitute any kind of ticket (transportation, live events, movies, conferences, etc.) with a SMS. SMS Ticket contains encoded alpha numeric text which enables the SMS ticket to be used by any kind of phone whether smart or not. With the extension of a partnership with the Turkish Football Federation, SMS Ticket has been used for the Turkish national football team matches instead of conventional paper tickets. SMS Ticket gave access to more than 17,000 people to events in 2013. We anticipate that the use of SMS Ticket will increase in 2014. We expect new opportunities and the expansion of our existing partnerships to keep the ticketing business growing, making Turkcell a ticket aggregator between different platforms.

Music

Music, being a very strong engagement tool for a brand with its customers, is one of the main focuses of Turkcell. We reach more than 20 million people each year via music content, based on their preferences. A 360 degree music experience with a rich catalogue of local and international content is the ultimate target in this area. In 2014, we enriched and enhanced music offerings of Turkcell for its large consumer base.

Education

In January 2014, the Turkcell Academy, which was founded in 2006 to train Turkcell's employees, went digital in collaboration with leading educational institutions. This initiative will make digital learning available to Turkcell customers and to the general public with more than 2,000 videos that span a wide range of subjects in 5 categories: Innovation-Entrepreneurship, Leadership, Business World, Technology and Learn with Khan Academy, which provides courses on the basics of sciences and finance.

d. Other Services

(i) International Roaming

Our coverage extends to many countries in the world. As of December 31, 2013, we have further enhanced our position as the leading mobile operator of international roaming services by expanding our partnership in 207 destinations throughout the world, pursuant to commercial roaming agreements with 686 operators.

Since July 2002, we have provided roaming services for prepaid subscribers of foreign mobile operators visiting Turkey. We were the first operator to provide such a service in Turkey. This service, called Passive Customized Applications for Mobile Network Enhanced Logic (passive CAMEL), can only be enabled if both operators have installed the CAMEL system on their networks. As of December 31, 2013, we offered prepaid roaming to the prepaid subscribers of 369 operators in 144 destinations.

Since October 2004, we have offered roaming services for Turkcell prepaid subscribers traveling abroad. This service, called Active Customized Applications for Mobile Network Enhanced Logic (active CAMEL), can only be enabled if both operators have installed the CAMEL system on their networks. As of December 31, 2013, we offered prepaid roaming to Turkcell prepaid subscribers through 409 operators in 166 destinations.

Table of Contents

Since October 2002, we have offered GPRS roaming. As of December 31, 2013, we allowed our subscribers to access the internet and reach their email accounts while traveling, through 539 GPRS roaming partners across 185 destinations.

In order to balance international SMS traffic, we began signing international SMS Interworking Agreements with other mobile operators in April 2002 and as of December 31, 2013, we have signed 147 International SMS Interworking Agreements. As of December 31, 2013, our subscribers can send SMS to more than 686 mobile operators located in 207 destinations, including North America and China.

Since December 2005, our subscribers have been able to send and receive MMS to and from subscribers of foreign operators. As of December 31, 2013, our subscribers were able to send MMS to 149 mobile operators in 78 destinations.

On July 30, 2009, we became the first operator in Turkey to launch 3G Roaming services in many different locations around the world. As of December 31, 2013, our subscribers enjoyed high speed mobile internet connections with 374 operators in 148 destinations.

We have entered into direct international roaming agreements with GSM operators around the world, including in Cuba, Iran, Sudan, Libya and Syria. These arrangements have been entered into in the ordinary course of business and on arm's-length terms that we believe to be in line with industry standards. Under the roaming arrangements in the listed countries, our net revenues for roaming on our Turkish network totaled less than \$2.1 million and our net expense for our subscribers roaming on the networks of operators in the listed countries was less than \$1.7 million. In financial terms, we do not believe that our roaming arrangements with operators in Cuba, Iran, Sudan, Libya and Syria are material.

IV. Tariffs

Our charges for voice, messaging and data consist of monthly fees, usage prices, bundles and volume discount schemes and options under various tariff schemes. Our license agreement regulates our tariffs for GSM services. The license agreement provides that, after consultation with us and consideration of tariffs applied abroad for similar services, the ICTA sets the initial maximum tariffs in Turkish Lira and U.S. Dollars. Thereafter, our license agreement provides that the maximum tariffs shall be adjusted at least every six months. The license agreement provides a formula for adjusting the existing maximum tariffs. For the maximum tariffs established in Turkish Lira, the formula is: the Turkish Consumer Price Index announced by the Ministry of Industry and Trade for Turkey minus 3% of the Turkish Consumer Price Index announced by the Ministry of Industry and Trade. For the maximum tariffs established in U.S. Dollars, the same method is applied to the USA Consumer Price All Item Index Numbers.

Although the Concession Agreement includes a provision regarding the increase of the maximum tariffs, the ICTA has decreased the maximum tariff since 2007, which has negatively affected our tariff structure. The Company initiated lawsuits for the annulment of such decisions. Some of the lawsuits were rejected by the courts and we appealed these decisions. The other lawsuits are pending.

For more information on how our maximum and minimum price levels are established, see also Item 4.B. Business Overview Regulation of the Turkish Telecommunications Industry .

There are various tariffs based on the subscriber segment (postpaid or prepaid, corporate or consumer).

a. Main Tariffs

We have segmented tariff plans that target specific subscriber groups. In the postpaid segment, pay as you go tariffs offer flat and on-net (Turkcell subscriber to Turkcell subscriber) usage advantages. A majority of our customers prefer packages which include minutes to Turkcell, intra-company calls (for corporate segment) and all national directions. Turkcell also offers all-inclusive packages which are offered with annual fixed price plans that include price discounts and/or extra minutes. In the prepaid segment, the main tariffs offering advantageous prices that are based on a refill amount are Super Tariff and Youth Tariff. In addition, we provide fee-based optional minute packages/TRY cards for calls to PSTN (Public Switched Telephone Network).

Table of Contents

(i) Consumer Data and Terminal Offers

We have different tariff bundled terminal offers in which minutes, SMS and data services can be bundled with handsets, which could lead to the use of 3G services and mobile broadband.

We also have many mobile Internet data bundled offers based on different customer needs according to their usage patterns, such as lifestyle segments, data amount, usage hours, and seasonal usage. Examples include shared data packages, throttling data packages, short-term contracted Vinn (dongle) offers, Kamu Vinn, Need-based Vinn offers, monthly Facebook, and Twitter packages.

(ii) Corporate Tariffs and Loyalty Programs

We offer a variety of voice packages to our corporate customers to meet their communication needs. These packages include company, on-net and/or flat minutes. We also offer bundled versions of these packages including data and flat SMS.

We also address and provide solutions to our corporate customers' different telecommunication needs with the Total Telecom Solutions Provider (TTSP) approach. We collaborate with our subsidiary, Superonline Iletisim Hizmetleri A.S. (Turkcell Superonline), to serve TTSP products like data center, cloud, VOIP, MPLS/VPN, mobile and fixed bundle offers to our customers from a single source.

We realized that our customers require the optimization and fulfillment of their telecom needs. In order to meet their expectations, for our corporate customers, we launched a new initiative named Technology Initiative for Corporates , aiming to match our products and services with the vertical and situational needs of the companies. With this initiative, we aimed to fulfill their needs as a one-stop shopping experience with the applicable & affordable Turkcell high quality technological solutions and let them focus on growing their business.

The initiative falls under five major areas which encompass various mobile and fixed technologies that Turkcell and Turkcell Superonline offer. These five areas are the primary business areas in which companies in Turkey can benefit the most from our services and improve their businesses in many different ways. These areas are Marketing, Management, Network, Cloud & IT and Collaboration. Within the framework of this initiative, which differentiates us from competitors, we also focus on the situational conditions of the companies, such as starting a new business , opening a new branch , cost cutting and institutionalization .

For small and micro businesses, we have dedicated voice and non-voice offers, and provide different benefits for craftsmen, sole traders and professionals such as doctors and lawyers.

We launched our business to business (B2B) loyalty program, IsteKazan, in March 2010, for Turkcell corporate customers. IsteKazan is the first loyalty program focused on the B2B segment, where we have worked with more than 60 different brands across the country. The main focus of

IsteKazan is to offer advantages to our corporate customers and provide them with cost advantages on their non-GSM costs. Depending on the customer preferences and requirements, the most appropriate solution package is designed, such as discount bundles, cost level alternatives, etc. With this program, Turkcell corporate customers get discounts in several areas such as market, gas, transportation, technology, car rentals, dry cleaning services, etc.

(iii) Roaming Tariffs

Turkcell intends to provide advantageous price schemes to customers when abroad. With a customer-oriented focus, Turkcell offers products to subscribers with high and low roaming usage. For subscribers preferring low usage, Turkcell offers a linear roaming tariff known as the

Turkcell World Tariff . The subscribers, unless they apply for a specific roaming package, are subject to the Turkcell World Tariff when traveling abroad. In 2013, the new smart roaming tariff was launched. With this tariff, voice/SMS bundle packages and data-only packages are offered. The smart roaming packages reactivate automatically when the package is over and whenever the customer goes abroad. Additionally, platinum customers enjoy super roaming scheme which enables them to use their domestic tariff while abroad by paying a daily fee. Other than the smart and super roaming options, Turkcell offers advantageous voice, internet and SMS packages for high usage levels. Overall, Turkcell aims to provide better roaming experiences with various pricing schemes that fit different usage patterns.

Table of Contents

Based on Turkcell's roaming agreements, Turkcell hosts the subscribers of foreign operators on its network. When a subscriber of a foreign operator makes a call using Turkcell's network, that subscriber's operator pays us our inter-operator tariff (IOT) for the specific call type. IOT is a wholesale tariff applied between mobile operators having roaming agreements.

V. Churn

Churn rate is the percentage calculated by dividing the total number of subscriber disconnections during a period by the average number of subscribers for the same period. For these purposes, we define average number of subscribers as the number of subscribers at the beginning of the period plus one half of the total number of gross subscribers acquired during the period. Churn refers to subscribers that are both voluntarily and involuntarily disconnected from our network. Under our disconnection process, postpaid subscribers who do not pay their bills are disconnected and included in churn upon the commencement of a legal process to disconnect them, which commences approximately 180 days from the due date of the unpaid bill. Pending disconnection, non-paying subscribers are suspended from service (but are still considered subscribers) and receive a suspension warning, which in some cases results in payment and reinstatement of service. Prepaid subscribers who do not reload TRY for a period of 270 days are disconnected (this was changed in 2010 from 210 days).

In 2013, the churn rate slightly increased to 27.4%, primarily due to the impact of Turkcell's compliance with the ICTA decision, dated September 26, 2012, enabling users of mobile lines without subscription to register those lines under their names at no charge. Each registered mobile line has to be recorded as a churn and also as an acquisition in operators' records. Excluding the impact of this decision, our churn rate would have been 26.4%. We have what we believe to be an adequate allowance for doubtful receivables in our consolidated financial statements for non-payments and disconnections amounting to \$324.0 million and \$392.9 million as of December 31, 2013 and 2012, respectively.

VI. Seasonality

The Turkish mobile communications market is affected by seasonal peaks and troughs. Historically, the effects of seasonality on mobile communications usage has positively influenced our results in the second and third quarters of the fiscal year and negatively influenced our results in the first and fourth quarters of the fiscal year. Recently, however, due to changing market dynamics, such as the ICTA's intervention in our tariffs and increasing competition in the Turkish telecommunications market, the effects of seasonality from our customers' mobile communications usage has decreased. Local and religious holidays in Turkey have also generally affected our operational results.

VII. Mobile Network

a. Coverage

Statements regarding our 2G coverage are based on the ICTA's specifications as well as TUIK's announcements regarding the population, and statements regarding our 3G coverage are based on the ICTA's 3G coverage calculation specifications issued on April 25, 2012. Our mobile communications network is designed to provide high-quality coverage to the majority of Turkey's population throughout the areas in which they live, work and travel. As of December 31, 2013, Turkcell covered 92.2% of Turkey and 99.5% of its population, including 100% of cities with a

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

population of 1,000 or more. Coverage also includes a substantial part of the Mediterranean and Aegean coastline, and during 2013, we enhanced coverage in low populated areas (populations of less than 1,000 people) as well. We have significantly exceeded the minimum coverage requirements of our license.

Table of Contents

We have also expanded our mobile communications network to add capacity to existing service areas and to offer service to new areas, including the improvement of existing urban, suburban and intercity road coverage. In 2014, we will continue to expand our coverage and further enhance capacity in populated areas. During 2014, Turkcell will continue with the roll out of 2G coverage to 1,799 settlements of populations of less than 500 (total population is around 258 thousand) within the scope of the Ministry of Transport, Maritime Affairs and Communications Rural Coverage Project as part of Universal services. We started the service in August 2013 and as of the end of 2013, infrastructure covering 550 settlements has been installed within the scope of the project, with network sharing technology, which enables all operators to use the same BTS, BSC and IP Transmission lines.

We commercially launched 3G simultaneously in 81 province centers and major cities in Turkey in July 2009. As of December 31, 2013, we had covered 86.2% of Turkey's population and more than 99.5% of all metropolitan municipalities' population. With the advantage of higher quality communications provided by the widest spectrum in 3G, Turkcell will continue to offer seamless communications services to its customers with by far the most extensive coverage amongst its peers.

b. Quality of Service

The ICTA published a Regulation on Quality of Service in the Electronic Communication Sector on September 12, 2010, effective as of December 31, 2011 (see Regulation of the Turkish Telecommunications Industry for further details). Turkcell Network is currently above the standards set by the statement. As usual, Call Drop was one of the major Quality of Service figures that we focused on during 2013.

Dropped calls are calls that are terminated involuntarily and are measured by using the ratio of total dropped calls during the most congested hour of network traffic during the relevant time period to the traffic intensity in that congested hour. Using such industry standard for dropped calls, our dropped call rate for our 2G network has further decreased to far below 1%.

Turkcell also provides high quality services through its 3G network. In a short time, we have succeeded in reducing the 3G dropped call rate to the same level as the 2G network. The rate of service quality is being enhanced all the time due to investments in our 2G and 3G network to improve the quality and capacity of the network.

Turkcell has been awarded the ISO 9001 certificate since 1999 and renews its ISO 9001 certification every two years in the scope of design, installation, operation, sales, after sales services of global mobile communications within Turkcell Functions. The latest certification Turkcell was awarded is the ISO 9001:2008 Quality Management System Certificate in 2011. In addition, Turkcell received the ISO/IEC 20000-1:2005 IT Service Management System Certificate in January 2011. As the first telecommunications company with the ISO 20000-1:2005 certificate in Turkey, Turkcell has promoted the adoption of an integrated process approach to effectively deliver managed services to meet business requirements.

c. Network Evolution

(i) Access Network

In 2013, we continued to develop and improve the quality and capacity of our network. In urban areas, we increased coverage and capacity by placing network infrastructure in commercial sites such as shopping malls, business complexes and entertainment centers. We began using Pico BTS and Femto (Small Cell) solutions to further enhance our coverage at some places where signal penetration problems may exist due to thick concrete walls, coated glass windows, basement floors, etc. We also focused on Special Distributed Antenna Solutions and customization of parameter settings in major stadiums to maximize the capacity of our 2G/3G Access Network and together with Turkcell Superonline we have also implemented WiFi offload integrated with Turkcell 3G network to further enhance the customer experience. We are the only operator in Turkey that can increase its carrier number up to 4, due to our A-type license agreement. We use this feature to increase our capacity and provide services to a larger number of subscribers. In 2013, we continued to increase the number of carriers with the advantage of A-type license (2x20 MHz) and we believe that we have sufficient bandwidth to serve our current and projected short-term subscriber base and that we currently meet the capacity requirements of both our 2G and 3G subscribers.

Table of Contents

We have achieved a speed of 43.2 Mbps through dual carrier technology in 99% of the coverage area across the country. We have also implemented HSUPA 5.76 Mbps in our entire 3G network. In the GSM network, EDGE is used as a complementary technology to UMTS/HSPA. EDGE is an evolution of the GSM technology which allows consumers to use cellular handsets, PC cards and other wireless devices at faster data rates up to 300 Kbps. Today, all of our base stations are supporting EDGE technology. To enhance our 2G network capacity where congestion is a possibility, we intend to construct additional network sub-infrastructure, or implement technological advances that will permit bandwidths to be used more efficiently.

(ii) Transmission Network

Turkcell is the first operator in Turkey to start deploying All-IP NodeBs throughout its network. We are not only expanding our 3G network but also migrating legacy TDM GSM sites to IP through the deployment of Abis over IP technologies. Thus, we currently have an All-IP mobile backhaul of more than 20,000 BTSs and Node-Bs that provides resiliency, ease of operation and operational expense advantages. In addition to this, we have also invested in topology redundancy projects due to our IP/MPLS backhaul for better service availability. Backhaul bandwidth capacities were increased for wide coverage of 42 Mbps dual-carrier applications and the Microwave Radio Link network was modernized for Native Ethernet and Adaptive Modulation support to increase availability and reduce outages due to severe rain conditions. Usage of fiber connectivity is moving deeper from High RAN aggregation points towards Low RAN aggregation points. Also fiber to the site applications have been started for LTE readiness of sites with very high traffic.

(iii) Core Network

The whole Turkcell Core Network is currently composed of new layered structure Next Generation Network (NGN) nodes. By using MIP structure, we get (i) full redundant MSC-Ss, (ii) redundant physical interfaces to MGWs, (iii) CAPEX efficiency, and (iv) improvement in radio network KPIs.

We have deployed and continue to develop our GPRS network to provide the speed and reliability to meet the demand of our businesses and consumers.

(iv) Services and Platforms

We have an intelligent network and other service platforms enabling our services and we also provide secure and controlled access to the network for the content and service providers to provide messaging and data services. This infrastructure is being improved to open up more capabilities on the network for the application and content providers. New infrastructure also contains a portal where subscribers buy services, receive promotions and enroll for campaigns easily.

d. Network Operations

We have primarily employed experienced internal personnel for network engineering and other design activities while employing suppliers for our network infrastructure and as our partners in product/service development. Our suppliers install the base station cell site equipment and switches on a turn-key basis, while subcontractors employed by our suppliers perform the actual site preparation.

e. Network Maintenance

We have entered into several system service agreements. Under these agreements, our mobile communications network, including hardware repair and replacement, software and system support services, consultation services and emergency services are serviced by local providers. Our subcontractors perform corrective and preventative maintenance on our radio network in the field, although providers repair all the network equipment. We have regional operation units with qualified Turkcell staff that operate and maintain our network in 16 main regions.

Table of Contents

In addition, the Turkcell Network Control Center located in Istanbul monitors our entire network 24 hours a day, 365 days a year, and ensures that necessary maintenance is performed in response to any problems.

f. Site Leasing

Once a new coverage area has been identified, our technical staff determines the optimal base station location and the required coverage characteristics. The area is then surveyed to identify BTS sites. In urban areas, typical sites are building faces and rooftops. In rural areas, masts and towers are usually constructed. Our technical staff also identifies the best means of connecting the base station to the network. Once a preferred site has been identified and the exact equipment configuration for that site determined, we start the process of site leasing and obtaining necessary regulatory permits. Site leasing processes and construction of the masts or towers is performed by Kule Hizmet ve Isletmecilik A.S. (Global Tower), a company 100% indirectly owned by us. We lease the sites and towers based on the agreed tariffs and also buy antenna space and provide maintenance and management services from Global Tower.

g. Business Continuity Management (BCM)

Turkcell Business Continuity Management identifies potential threats, their impact and provides a framework for building resilience with the ability to create an effective response that safeguards the interests of our key stakeholders, their reputation, brand and value-creating activities. We established Business Continuity Management System (BCMS) to implement, operate, monitor, review, maintain and improve the business continuity.

Turkcell BCMS is assisted by the coordinators and business continuity virtual team. Regular BCM training and awareness programs are carried out throughout the organization. The effectiveness of BCMS is monitored every year through internal/external audits, and integrated exercises, the results of which are reviewed in management review meetings. In 2013, we exercised and tested our business continuity plans, communication and warning procedures to ensure that they are consistent with the business continuity objectives.

Turkcell s BCM will be able to cover the majority of Turkcell s operations through potential environmental events and natural disasters. Our aim is to ensure the continuity of the call, messaging, internet and societal security services at acceptable predefined levels following disruptive incidents. Business continuity plans are prepared by taking into consideration the customer s expectations, company policies and legal obligations. They are regularly exercised to guarantee the operation in case of an emergency. We are continuously improving our business continuity capacity in accordance with the ISO 22301 Societal Security, Business Continuity Management System international standards and continue to work with our group companies while preserving our image as a reputable and solid GSM operator.

In 2013, Turkcell was awarded its ISO 22301 certification which demonstrates our commitment to provide reliable services to our customers. Turkcell aims to ensure both employee safety and the continuity of its call, messaging, internet and societal security services.

VIII. Sales and Marketing

We design our sales and marketing strategy around subscriber needs and expectations. We try to ensure the loyalty of our subscribers by providing offers, campaigns and our advanced service delivery platforms.

a. Sales Channel

Our nationwide distribution channel is an important asset that helps us differentiate ourselves from our competitors and achieve our sales targets. Our strong and extensive distribution network consists of distributors, Turkcell Distribution Centers (TDC), Corporate Solution Centers, non-exclusive dealers, Turkcell Communication Centers (TIMs), Turkcell Stores and Consumer Electronic Chains, as well as points of sale for scratch cards and prepaid airtime, including digital channels, ATMs, POSs, web, call centers, supermarkets, gas stations and kiosks. We sell postpaid and prepaid services to subscribers through our distribution network. The number of exclusive and non-exclusive dealers totaled approximately 15,200 sales points as of December 31, 2013.

Table of Contents

Our exclusive retail network consists of powerful retail dealers with good locations, modern designs and superior after-sales service. TIMs lead the market with their user friendly atmosphere, new products and services and dedicated employees. In 2009, TIMs were relaunched with the motto "We aim to ease your life with technology" in order to enhance our customer service oriented image under the TIM brand. As of December 31, 2013, Turkcell had 1,190 exclusive sales points. Every year, 25 million customers are served by our specialized sales force, which consists of 8,878 people in TIMs. In addition, the six flagship Turkcell Stores, fully operated by Turkcell, continue to enhance Turkcell's brand image in the retail world by providing what we believe to be the best customer experience and introducing top-of-the-line new products and services to our customers. Moreover, we have 278 Technology Specialists in TIMs who coach the entire sales force, help customers experience technology and spread the latest technological information.

Our non-exclusive dealer network provides us with a high penetration of Turkcell products and services in Turkey. Our 41 TDCs are aimed at enhancing our distribution effectiveness in the non-exclusive channel and ensure the timely and efficient distribution of Turkcell products and merchandising materials. They also facilitate the Turkcell brand and offer awareness in this competitive channel.

Alternative sales channels are re-designed under five main branches: Telesales, New Sales Channels, Electronic Market Chains, Online Sales and Self-Service Channels.

We are working on attracting our customers to all of our channels through digital channels and by co-branding. We offer our customers fast and safe access to our products and services 7/24 via turkcellmagaza.com, our online sales channel. Another channel is our Self-Service Channel (which consists of ATMs, Call Centres, internet branches of banks, Kiosks, turkcell.com.tr and in other channels, over 10 thousand national and local markets and post office branches) where we give our customers the opportunity to access Turkcell's products easily and quickly.

All dealers are compensated based on the number of new subscribers who they sign up and the level of such subscribers' usage, as well as additional incentives based on their performance.

Sales Management develops strong relationships with and promotes brand loyalty among dealers through a variety of support and incentive programs. Training programs aim to educate dealers' personnel on the technical aspects of our products and services, as well as sales techniques to increase sales and enhance customer relations. The technological development projects commenced in 2007, coupled with merchandising services, point-of-purchase (POP) materials and channel specific campaigns, help to support the sales efforts in all of our sales channels.

We address strategic enterprises, large enterprises and medium businesses through three channels, which are account managers and small businesses with indirect sales channels, corporate focused dealer organizations and telesales operations. With the objective of coordinating all sales processes, working closely with more customers and improving effectiveness and efficiency, corporate customers are managed directly by these sales channels. The main aim of this activity is to provide mobile services to large and medium enterprises and small and medium businesses in order to meet their communication requirements and also to support these solutions with retention and acquisition programs and tariffs. We work closely with solution partners and application providers to integrate mobility into companies' operations through tailor-made total solutions packages.

b. Advertising

We have continued to bring innovations in the mobile communications world, and thus, we believe we have improved the lives of our subscribers with time-saving solutions and products that ease and enrich their lives.

Table of Contents

Our goal is to become one of the strongest brands in Turkey. Being one of Turkey's most beloved brands, we are helping our customers reach anything, anywhere and anytime by providing them with innovative technology solutions. In 2013, we focused on understanding the needs of each consumer segment thoroughly and offered to them tailored solutions comprising our value offers: superior coverage, 3G speed and mobile technologies, more advantages, outstanding and extensive service quality, and leadership in social responsibility. With our renewed vision, we lend our power to our customers by enabling them to be more connected to life with simple communications solutions ready at their fingertips.

In 2013, brand communications remained focused on strengthening Turkcell's brand image. Along with that, Turkcell Group companies branding principles were also reviewed in order to build a clearer link with Turkcell and to create a more powerful and unified Turkcell brand. Turkcell brand communications continued to be harmonized in different forms of media, such as television, internet, outdoor events, etc., in order to deliver more consistent messages. In 2014, our goal is to have the highest level of brand awareness and to maintain our image as the leader among competitors, as we have been doing for nearly 20 years now.

c. Customer Services

The key part of our strategy is to provide basic and premium services by thinking and acting in a customer-focused manner. Our goal is to sustain a continuous relationship with the customer through customer satisfaction. We aim to achieve operational excellence throughout all customer touch points by continuously improving processes and services. We design our processes and service structure based on customer feedback. In 2013, we expanded this practice and started to implement segmented customer experience, focusing on consumer's lifestyles, consumption habits, jobs, etc., and offering services accordingly.

We mainly work with two companies, Global Bilgi Pazarlama Danisma ve Cagri Servisi Hizmetleri A.S. (Turkcell Global Bilgi) and Hobim Bilgi Islem Hizmetleri A.S. (Hobim). Hobim handles printing services of scratch cards and invoices as well as archives subscription documents for us. Turkcell Global Bilgi offers 24 hours-a-day, 7 days-a-week contact center services at several sites and manages more than 200 million contracts annually. Turkcell's customer service strategies for contact centers are implemented by Turkcell Global Bilgi and we ensure that customer services and customer satisfaction programs, which are also provided by Turkcell Global Bilgi, are executed in line with Turkcell's strategies. Turkcell Global Bilgi's success has been verified by a number of domestic and international awards in 2013. Among these were The Bronze Medal winner for Best Outsourcing Partnership in the world, The Gold Medal winner for Best Outsourcing Partnership in the EMEA region and The Silver Medal for Best Customer Services Facility in Europe at the Europe Call Center Awards. With regard to Turkcell's customer satisfaction, we received The Customer Satisfaction Sustainability Award at the National Quality Awards organized by the Turkish Quality Association (KalDer) for sustaining our number one ranking in the Turkish Customer Satisfaction Index for the past seven years.

We also offer customer service at face-to-face centers. Our centers are established all around Turkey in order to meet our customers technological needs and demands.

Furthermore, meeting the service needs of our customers online is crucial for us. We have a self-service application for customer service called My Account which is available on web, mobile and smartphone platforms. We also respond to customer requests on social platforms, both proactively and reactively. Services through web chat, e-mail and SMS chat were recently launched for specific customer segments, according to their service needs.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

For corporate customers, account managers are assigned for exclusive service. An account manager is the single point of contact and provides proper solutions in response to customer needs. While managing our corporate customers through four sales segments, we also support our customers through e-mails, calls and back office, under the umbrella of our Contact Center. We have Corporate Customer Representatives to support direct requests from our strategic enterprises and large enterprises and/or to support indirect requests received through our account managers. In addition, for small and medium businesses, we aim to meet faster and higher quality service standards by providing online solutions to satisfy the demands of our sales teams regarding their customers' demands with our Field Support Desk .

In order to provide segmented customer service, we design and make improvements for all of the customer processes throughout all channels for different customer segments as well as monitor the quality of service provided.

Table of Contents

In addition to the operational targets, we aim to achieve excellent customer satisfaction. We evaluate the performance of our service providers with the help of satisfaction surveys and make our service providers aware of any deficiencies and offer suggestions as to how to improve their service to our customers.

Turkcell has been awarded the ISO 10002 certificate since 2011 and continuously renews its ISO 10002 certification every year in the scope of design, installation, operation, sales, after sales services of global mobile communications within Turkcell Functions. The latest certification is ISO 10002:2004 Quality Management-Customer Satisfaction-Complaints Handling Certificate, which was awarded in 2012.

IX. International and Domestic Subsidiaries

A component of our strategy has been to grow or improve our business in both international and domestic markets. International expansion and, in particular, continued strong operations in the countries in which we are currently present is important for us. We believe these operations will provide additional value to us in the future and will continue to serve an important role in our goal to be a leader in communications and technology.

While continued improvement of our current operations is a key priority, we may further expand and increase our presence in key emerging markets in the region, such as the C.I.S. region, Eastern Europe, the Middle East, Africa and the Balkans, in addition to our current investments in Ukraine and Belarus. Through such investments, we intend not only to transfer our technological know-how and marketing expertise, but also to maximize economies of scale and group synergy.

In line with our business strategy, in 2010 we signed a wholesale traffic purchase agreement to provide voice and data services in Germany targeting the local Turkish population and other mobile users with close ties to Turkey.

Our international and domestic endeavors will continue in 2014. We will continue to selectively seek and evaluate new investment opportunities both in our main and adjacent communication and technology business areas as well as the businesses outside of the scope of our core business.

Ukraine Life:)

We acquired our interest in our subsidiary Astelit on April 2, 2004, by purchasing the entire share capital of Astelit's parent, CJSC Digital Cellular Communications (DCC), from its shareholders. Astelit, 99% owned by DCC, held a nationwide GSM1800 license. On April 4, 2006, Astelit announced a merger of DCC and Astelit, which was completed on August 1, 2006. Our interest in Astelit is held through our wholly-owned subsidiary, Turktell Uluslararası Yatırım Holding A.S. (Turktell Uluslararası), which holds 55% of Euroasia, which is the 100% owner of Astelit. System Capital Management Limited (SCM) indirectly holds 45% of Astelit.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Astelit began its operations in the Ukrainian market in February 2005 with its new brand life:) . As of December 31, 2013, Astelit had 12.6 million subscribers, a 13.5% annual increase from 11.1 million subscribers as of December 31, 2012. The majority of subscribers are prepaid subscribers as of December 31, 2013. Astelit's three-month active subscribers reached 9.2 million as of December 31, 2013 from 8.0 million subscribers as of December 31, 2012. During the third quarter of 2010, the definition of active subscriber was modified to churn out any subscriber whose only activity was the receipt of bulk SMSs or call forwarding.

The life:) brand has become one of the best known in the country and reached 99% recognition in the market due to its strong differentiation from existing mobile brands and focus on innovation, transparency and youthful spirit. The company has been known in the market as one of the most dynamic and innovative ever since life:) was the first to introduce a number of new technologies and products that had previously been unavailable to Ukrainian subscribers. The company is highly targeted to keep its innovation leadership in marketing and sales. In 2011, Astelit adopted its new regional strategy, which divides the country into three major regions and focuses on each region with tailored marketing and sales activities. As a result, Astelit expands and improves its sales network to bring its products and services to the most remote parts of the country. By the end of 2013, Astelit had 49,554 non-exclusive sales points throughout Ukraine, 197 life:) exclusive sales points, 167 branded life:) partners sales points and 80 customer service centers operating in 59 cities in the country. As of December 2013, Astelit provided roaming opportunities in 185 countries via 633 roaming partners.

Table of Contents

As of December 31, 2013, Astelit operated in 100% of the cities of Ukraine with a population of more than 10,000 inhabitants and more than 29,775 settlements, and all principal intercity highways and roads, which corresponds to coverage of approximately 98.4% of the whole population of Ukraine or 93.9% geographical coverage with 11,222 base stations. Cumulative capital expenditure for the development of Astelit's coverage amounted to \$1,503 million as of December 31, 2013. In 2014, Astelit will continue investing to increase capacity of its network.

Astelit is strongly dedicated to further developing innovations in the market and if a 3G and/or LTE license were to be made available, we would consider submitting a bid, but no timetable has been announced. If successful, the associated costs would increase our Ukrainian financing needs, which could in turn require us to consider new sources of funding or the extension of existing sources. If we are not successful in the pursuit of such a license, because, for example, the cost is prohibitive and/or the number of licenses available is limited, we could find ourselves at a competitive disadvantage in this market. Currently, there is only one 3G license (UMTS/WCDMA) that has been granted in Ukraine. This license has been granted, without tender, to the state-owned company, Ukrtelecom, which was privatized in 2011 and was acquired by SCM in 2013. Ukrtelecom had completed the spin-off procedure of its mobile communication division and established a separate legal entity, TriMob LLC. Currently, Ukrtelecom has transferred its 3G license (30 MHz in each region), network infrastructure and subscribers base to TriMob LLC.

The Ukrainian telecommunications market is regulated by the Cabinet of Ministers of Ukraine (main state policy), the State Service of Special Communication Administration (technical policy aspects) and by the National Commission for the State Regulation of Communications and Informatization (NCRCI) controlled by the President of Ukraine and which carries out general telecommunication market regulation and inspection.

The technical specifications for the MNP call routing model have been adopted by the State Service of Special Communication Administration and came into force on December 7, 2012. The launch of MNP service has been officially delayed by NCRCI until July 1, 2014.

Since the acquisition of Astelit in the second quarter of 2004, the results of our operations in Ukraine have been consolidated in our consolidated financial statements.

As of February 1, 2012, Astelit had debt repayments due to Euroasia in the amount of \$150 million and to Financell in the amount of \$173 million. Since June 2011, Astelit has not met the payment obligations, which were waived until February 1, 2012. Since that date, our Board of Directors has not acted to approve or reached a consensus for the extension of repayment dates. As a result, Astelit was unable to meet its repayment obligations to Euroasia and Financell totaling \$323 million and defaulted on its loan agreements (As of December 31, 2013, Astelit's unmet obligations under its loan to Financell and Euroasia reached a total of \$598 million). As a consequence of Astelit's default, cross default clauses have been triggered on five loan agreements totaling \$554 million (currently decreased to \$176 million, following our \$150 million guarantee payment and other principal payment) and waivers were obtained for the aforementioned loans before December 31, 2013. In the context of guarantees, Financell has pledges on shares and all assets of Astelit including bank accounts. Additionally, Financell has a second priority pledge on Euroasia shares held by the SCM together with a guarantee and indemnity given by SCM. Financell has rights to commence enforcement of pledges and guarantee under certain conditions. In addition to the Euroasia Loan and Financell Loans, as described above, Astelit has defaulted on one SCM loan agreement currently totaling \$39 million (SCM Loan).

In the same vein, Euroasia, which had previously borrowed \$150 million to finance Astelit, also defaulted on its loan on March 30, 2012. As a guarantor, we paid \$150 million to related banks on April 6, 2012. In relation to the guarantee agreement, a first priority pledge on Euroasia shares held by SCM has been established in favor of Turkcell. Upon payment of the guaranteed amount, Turkcell has the right to

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

commence enforcement of this pledge on the Euroasia shares under certain conditions. As a consequence of Euroasia's default, cross default clauses have been triggered on four loan agreements (the same ones referenced above) totaling \$176 million and waivers have also been obtained for the aforementioned loans. As no waiver has been received for the SCM Loan from SCM, this loan has been classified in current liabilities. Accordingly, as a result of the event of default, SCM has the right to demand immediate loan repayment, although it has not perfected any pledges in connection with this loan.

Table of Contents

With respect to the amounts due to Financell, our Board of Directors decided to extend a guarantee to Financell in order for it to perform its obligations with respect to the loans granted by the banks for providing Group financing. The guarantee will be up to \$410.7 million principal amount plus the sum of interest, any other costs, expenses and fees that may accrue in connection with the credit line agreements. This guarantee includes the debt repayments of \$173 million due under the loan agreements signed between Astelit and Financell, and of the loans that Financell granted to Astelit which have not yet fallen due. Astelit's debts are denominated in foreign currencies which expose Astelit to foreign exchange and convertibility risks.

Belarusian Telecom

On July 29, 2008, Beltel Telekomunikasyon Hizmetleri A.S. (Beltel) signed a share purchase agreement to acquire an 80% stake in Belarusian Telecom, which is specialized in providing services using GSM and UMTS technologies, for consideration of \$500 million. On August 26, 2008, control of Belarusian Telecom was acquired from Belarus State Committee on Property and \$300 million of the total consideration was paid. An additional \$100 million was paid in December 2009 and another \$100 million was paid in December 2010. An additional payment of \$100 million will be made to the seller when Belarusian Telecom records full-year positive net income for the first time.

At December 31, 2013, Belarusian Telecom had 1,238 thousand registered subscribers, the majority of whom were prepaid, and had 135 exclusive and 829 non-exclusive sales points. In the third quarter of 2013, the churn policy was revised pursuant to a management decision. With this change, the lifecycle methodology is in line with the market practice of 180 days after any refill plus 90 days quarantine period, previously exercised as 180 days after any refill plus 15 days quarantine period. It is estimated that Belarusian Telecom's total registered subscribers would have been approximately 85 thousand less in 2013 should the churn policy have remained unchanged.

At December 31, 2013, Belarusian Telecom operated 2G services in all, and 3G services in 98.8%, of the cities with a population of more than 10,000, and provided 2G services on all principal intercity highways and roads of Republic of Belarus (total length of all Belarus highways and roads is 15,476 km), which corresponds to coverage of approximately 99.98% of the entire population of Belarus, or 97.9% geographical coverage.

As of February 1, 2012, mobile number portability was launched with a donor initiated mechanism where subscribers who want to port their numbers had to apply to their existing operator, which is in favor of the dominant market players. Recently, the mobile number portability model has been revised with a recipient-initiated mechanism and is expected to be effective as of April 3, 2014.

Turkcell Kuzey Kibris

Turkcell Kuzey Kibris, a 100% owned subsidiary of Turkcell, was established in 1999. As of December 31, 2013, Turkcell Kuzey Kibris had 0.43 million subscribers.

On April 27, 2007, Turkcell Kuzey Kibris signed a license agreement for installation and operation of a digital, cellular and mobile telecommunication system with the Ministry of Communications and Public Works of the Turkish Republic of Northern Cyprus. The license

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

agreement became effective on August 1, 2007 and replaced the previous GSM-Mobile Telephony System Agreement dated March 25, 1999, which was based on revenue-sharing terms. The new license agreement granted a GSM 900, GSM 1800 and IMT 2000/UMTS license, for GSM 900 and GSM 1800 frequencies, while the usage of IMT 2000/UMTS frequency bands is subject to the fulfillment of certain conditions. The license agreement is valid for 18 years from the date of signing. The license fee was set at \$30 million including VAT. The license fee was financed by Turkcell Kuzey Kibris through internal and external funds.

Table of Contents

On March 14, 2008, Turkcell Kuzey Kibris was awarded a 3G infrastructure license at a cost of \$10 million including VAT, which was paid at the end of March 2008.

In the third quarter of 2010, Turkcell Kuzey Kibris completed and began operating the radio transmission (airlink) project providing direct international voice and data connection to the mainland. The project is the only direct connection in the Turkish Republic of Northern Cyprus, aside from the Telecommunication Authority.

On October 1, 2012, Turkcell Kuzey Kibris was authorized by National Regulatory Authority (NRA) as Internet Service Provider and Infrastructure Provider for establishment and maintenance. Turkcell Kuzey Kibris applied for a right of way to major municipalities and the Ministry of Transportation in order to establish a national fiber optic infrastructure. On January 24, 2014, a protocol between Turkcell Kuzey Kibris and the Ministry of Transportation was signed for the right of the way for highway sides. The project will be completed only after the signing of a similar agreement with the municipalities for the right of way within the city borders.

Authorities in Northern Cyprus have been working on certain regulatory changes, after the enactment of the framework law, including call termination rates, quality of services, consumer rights and data privacy. These regulatory changes may have an adverse affect on our business in Northern Cyprus.

The National Regulatory Authority started the consultation for termination market analysis and benchmark study for termination rates for both mobile and fixed markets in March 2014. Their intention is to regulate the termination rates in 2014.

Turkcell Europe

Turkcell Europe was founded by Turkcell in 2010 as a mobile virtual network provider (MVNO) providing service over the T-Mobile (Deutsche Telekom AG) network. Headquartered in Cologne, Germany, Turkcell Europe commenced activity in March 2011.

Turkcell Europe offers Turkcell's service quality across both Germany and Turkey not only to the people of Turkish origin living in Germany but also those who have close commercial contact with Turkey.

Besides providing advantageous offers to those who call Turkey from Germany, Turkcell Europe, which offers the advantages of using Turkcell also in Turkey, aims to provide its customers in Turkey and Germany with a unique user experience. Furthermore, Turkcell Europe subscribers can access the products and services offered exclusively to Turkcell users via T-Mobile, Germany's premier mobile communications network operator.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

With its extensive distribution network, Turkcell Europe offers services to its customers at over 2,500 locations spread across Germany, with a membership base of around 0.4 million subscribers as of December 31, 2013.

In order to increase the efficiency of our operations in Germany, we may consider a change in our business model prior to the termination of the contract with Deutsche Telekom AG.

Table of Contents

Financell

Financell is incorporated under the laws of The Netherlands and has its registered address in The Netherlands. It is established as an intermediate financing company that is wholly owned by Turkcell. Financell will borrow funds from third-party lenders with or without a Turkcell guarantee to fund other Turkcell subsidiaries.

Turkcell Global Bilgi

On October 1, 1999, we established Turkcell Global Bilgi in order to provide telemarketing, telesales, and call center services, particularly for us. In 2005, Turkcell Global Bilgi completed its transition from call center to contact center as Turkcell Global Bilgi started to manage customer contacts at every channel. As of December 31, 2013, Turkcell Global Bilgi employed 6,549 employees, of which approximately 52% provide us with customer care and retention services, around 41% serve customers of other clients while the remainder work as administrative personnel. We own 100% of Turkcell Global Bilgi.

Turkcell Global Bilgi has owned a 100% share of Global-Bilgi LLC since 2008, which operates in Ukraine and provides telemarketing and telesales. Global Bilgi LLC launched a branch office in Russia in April 2013, in order to maintain a presence in the Russian market by increasing business relations and development activities with current and potential customers.

Turkcell Global Bilgi has owned a 99% share of Global Bilgi FLLC since 2009, which was operating in Belarus to provide call center services. In 2013, a liquidation process began for Global Bilgi FLLC, which solely served our subsidiary Belarusian Telecom. Belarusian Telecom will continue to perform call center operations in house.

Inteltek

Inteltek Internet Teknoloji Yatirim ve Danismanlik Ticaret A.S. (Inteltek) operates fixed-odds betting and pool games on sports games. Currently, Turkcell holds 55% of Inteltek through its wholly owned subsidiary Turktell Bilisim Servisleri A.S. (Turktell), while Intralot, a Greek gaming company, holds 20% and Intralot Iberia Holding, a Spanish company, holds 25%.

Inteltek's business is currently operated under a contract entered into on August 29, 2008 with Spor Toto Teskilati A.S. (Spor Toto). The current contract is based on specific Turkish legislation relating to gaming enacted in 2008 and was entered into following numerous legal challenges to prior contracts. Under the current contract, Inteltek runs the sport betting business, iddaa, for a period of 10 years, effective as of March 1, 2009 and superseding a prior agreement. Under this contract, Inteltek guaranteed TRY 1,500 million (equivalent to \$674 million as of March 14, 2014) turnover for the first year of the contract and has given similar guarantees for future years. The guaranteed turnover for the following years will be computed using producer price indices. Inteltek shall pay the guaranteed turnover difference (after deducting commission income) to Spor Toto if actual turnover is below guaranteed turnover. To date, actual turnover has exceeded that amount. In addition to the foregoing, Inteltek signed a mobile betting dealer agreement with Spor Toto on January 12, 2010, which gives it the right to operate 1,000 mobile terminals.

In the context of evaluating investment opportunities in neighboring countries, Azerinteltek Closed Joint Stock Company (Azerinteltek) was incorporated on January 19, 2010 in Azerbaijan and is 51% owned by Inteltek. Azerinteltek received authorization from the Ministry of Youth and Sport of the Republic of Azerbaijan and signed the Agreement with Azeridmanservis Limited Liability Company set under the Ministry of Youth and Sport of the Republic of Azerbaijan to organize, operate, manage and develop the fixed-odds and parimutuel sports betting business in Azerbaijan for a period of 10 years. Azerinteltek started its operations, with the brand name Topaz , on January 18, 2011 and reached 522 agents as of December 31, 2013. As of January 1, 2013, Azerinteltek has been authorized to engage in the operation of lottery games by Azerlotereya for a period of 3 years.

Table of Contents

Inteltek is the domestic market leader and is ranked among the most prominent operators in the international gaming sector. Inteltek intends to continue to explore business opportunities both in Turkey and abroad in betting or adjacent businesses.

Turkcell Superonline

Turkcell Superonline has a Fixed Telephone Services right, which allows the company to provide call origination and termination for consumers and corporations, as well as wholesale voice carrying services. It also has authorization to provide satellite communication services, infrastructure operating services, internet services and wired broadcasting services, mobile virtual network operating services. Currently, the company carries the majority of Turkcell's traffic, previously carried by Turk Telekom (the incumbent operator). Turkcell Superonline was created in 2009 through the merger of our subsidiary Tellcom with the Superonline business acquired from the Cukurova Group.

Established to be an innovative telecom service operator and with its extensive international connectivity, Turkcell Superonline offers its international and national clients wholesale voice termination international leased data lines, internet access, telehouse and infrastructure services. Furthermore, Turkcell Superonline is in the retail broadband market, bringing fiber optics to residences. Turkcell Superonline provides fast communication technology with its own fiber optic infrastructure in Turkey and provides telecommunication solutions to individuals and corporations in the areas of voice, data and videos.

We believe that Turkcell Superonline differentiates itself through its steadfast commitment to the quality of after-sale services. Turkcell Superonline supplies corporations with industry-leading service level agreements utilizing its professional technical support personnel and highly qualified team of consultants. Turkcell Superonline has been awarded the ISO 9001:2000 Quality Management System Certificate. Turkcell Superonline aims to become one of the leading innovative telecommunications operators in Turkey and it intends to continue to seize opportunities in the internet and telecommunications markets.

Turkcell Superonline won the tender of BOTAS, Turkey's state-owned pipeline company, for the indefeasible right to use the capacity of the fiber optic cables already installed by BOTAS for 15 years, including the right to install additional fiber optic cables and the right to use the capacity of these fiber optic cables during the same period. This transaction has been considered as a finance lease as the lease term is for the major part of the remaining useful life of the fiber optic cables already installed by BOTAS and Turkcell Superonline made a significant investment during the initial period of the lease agreement which is an indicator that the transaction is a finance lease. The recognized cost of the indefeasible right of use as of December 31, 2013 is \$18.5 million (December 31, 2012: \$19.5 million).

Turkcell Superonline began to provide 1000 Mbps service to homes in May 2011 for the first time in Turkey in line with the Turkcell Group's strategy to provide state-of-the-art technology for its customers with top quality service. Turkcell Superonline has rendered Turkey one of the first five countries in the world where a 1000 Mbps connection is provided to homes thanks to this service option.

On August 12, 2011, Turkcell Superonline signed a Share Purchase Agreement to acquire a 100% stake in Global Iletisim, which is specialized in providing internet and telecommunications services. In November 2011, the control over Global Iletisim was acquired from Yildiz Holding AS for a consideration of \$(0.5) million. Turkcell Superonline and Global Iletisim merged on March 30, 2012.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

On March 7, 2013, Turkcell Superonline signed a Share Purchase Agreement to acquire a 100% stake in Deksarnet Telekomunikasyon A.S. (Deksarnet) which is an affiliate of Vestel Elektronik San. ve Tic. A.S. Group. In July 2013, the control over Deksarnet was acquired from Vestel Elektronik San. ve Tic. A.S. Group for a consideration of \$1.8 million. Turkcell Superonline and Deksarnet merged on December 3, 2013.

On January 31, 2014, Turkcell Superonline signed a share purchase agreement to acquire a 100% stake in Metronet İletişim Teknoloji A.S. (Metronet). The enterprise value is determined as TRY 29 million based on the studies undertaken by our Company. The transfer of shares should take place following the approvals received from related authorities. As per the share purchase agreement, the purchase price will be paid on the closing date.

Table of Contents

Metronet provides communication services including internet, voice and digital services in Turkey. With this acquisition, Turkcell Superonline's fiber in-city coverage will increase to 14 cities, up from the existing twelve. Furthermore, Turkcell Superonline's home pass will increase by approximately 100 thousand once Metronet's infrastructure integration is completed.

In 2013, Turkcell Superonline continued to invest in its transmission network by expanding the intercity and in-city fiber optic backbone along with establishing new fiber-based access points in selected residential and industrial areas for end-users and commercial account-holders. As of December 31, 2013, Turkcell Superonline's installed backbone was approximately 32,300 km long and its services reached 12 cities, including Istanbul, Ankara, Izmir, Bursa, Kocaeli, Adana, Gaziantep, Antalya, Mersin, Samsun, Trabzon and Kayseri in Turkey. Turkcell Superonline increased its home passes to around 1.7 million as of December 31, 2013 from around 1.3 million a year ago. The total number of fiber subscribers rose to 570 thousand as of December 31, 2013 from 425 thousand a year ago.

Turkcell Superonline aims to turn Istanbul into an internet hub, lifting the boundaries between countries and initiating the internet without a visa era through direct access agreements. Turkcell Superonline has nine international gateways, which enable fast and seamless internet access via connections with Europe's most important internet traffic exchange points in Sofia, London, and Amsterdam, as well as through the Frankfurt POP in Germany. It also raises internet access speed and quality in residential, corporate, and wholesale segments via peering connections. In 2012, collaborating with Tier-1 telecom operators such as Tata Communications, Deutsche Telekom, Inteliquent, KPN, Turkcell Superonline enabled access to globally renowned networks directly from Istanbul, adding value not only for its business and partners, but also for the Turkish economy. Turkcell Superonline plays a major role in delivering transit data traffic and telecommunications services between Europe, CIS, Asia and the Middle East. It provides internet access in Iran, Iraq, Georgia, and Northern Cyprus.

Turkcell Superonline aims to continue to invest in and expand its own fiber optic network and further utilize the group synergy created with Turkcell. The Company intends to continue to take advantage of business opportunities within the broadband industry in 2014.

Global Tower

Global Tower, founded in 2006, is a wholly owned subsidiary of Turkcell and the leading technology infrastructure operator in Turkey. Its Ukraine branch, UkrTower, was founded in 2009. With the vision of "Carrying Communication Everywhere", Global Tower rented, built and leased more than 7,500 towers for Telecom Operators and TV & Radio Broadcasters in Turkey and Ukraine. Today, Global Tower's core business consists of renting from landlords, selling electronic equipment, installation, implementation, maintenance, tower and rooftop site leasing. Global Tower serves diverse markets including telecommunications, TV & radio broadcasting and providing technology services. The main goal of Global Tower in targeted markets is to increase cost efficiency by sharing sites and services. Global Tower's site sharing business model eliminates the initial investment costs of its clients, decreases environmental impacts and promotes efficient use of resources. Global Tower manages 7,663 tower and 14,500 rooftop contracts for Turkcell and installs more than 1,000 sites each year for Turkcell and other operators. Many of the most famous radio and TV channels of Turkey have located their transmitters in Global Tower sites. Besides Telecom Networks, SCADA/Telemetry Networks implementation and maintenance are in Global Tower's scope. From the day it was established, Global Tower has achieved a rapid and persistent growth and aims to continue its growth by providing high quality and efficient services.

Turkcell Teknoloji

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Turkcell Teknoloji, a wholly owned subsidiary of Turkcell, commenced operations in 2007 in the TUBITAK Marmara Research Center Technological Free Zone in Kocaeli, Turkey. In 2013, Turkcell Teknoloji consolidated its operations in Teknoloji Plaza, Maltepe, İstanbul Turkey. Turkcell Teknoloji's new R&D center, which accommodates more than 700 researchers, has been accredited by the Ministry of Science, Technology and Industry. Turkcell Teknoloji's established team of experts develops a wide range of convenient and reliable solutions with innovative roadmaps. Through integrated intelligence and high performance capabilities, Turkcell Teknoloji's comprehensive portfolio addresses the following domains: SIM asset and services management, location-based services, value-added services, roaming solutions, big data processing, business intelligence applications, CRM solutions, network management, mobile finance, terminal applications, cloud solutions, mobile marketing machine-to-machine communication technologies and revenue management solutions.

Table of Contents

Turkcell Teknoloji's innovative solutions have been recognized internationally. Turkcell Teknoloji won the following awards in 2013:

- Turkcell Wallet, Best Technological Innovation in Payment Systems – Best NFC Solution, Emerging Payment Awards, 2013;
- Fraud Management System with Enhanced Holistic Approach, Global Telecom Business Innovation Award, 2013;
- Single Rating Engine, Global Telecom Business Innovation Award, 2013; and
- Realtime-Charging, Global Telecom Business Innovation Award, 2013.

To ensure a permanent competitive edge and value for its solutions, Turkcell Teknoloji cooperates with a wide network of national and international R&D companies, universities and research centers and plays an active role in international R&D programs. With the goal of being Turkey's leading R&D and innovation base, Turkcell Teknoloji demonstrates the value it attaches to innovation with its increasing number of patents each year. Turkcell Teknoloji placed in total 277 national and 43 international applications for patents, of which 79 have been granted to date.

Equity Accounted Investments

(i) Fintur

We hold a 41.45% stake in Fintur, which holds interests in international mobile communications operations. Below is a description of the businesses currently held by Fintur.

Azercell

Fintur indirectly owns 51.3% of Azercell Telekom B.M. (Azercell), which offers GSM services on both a prepaid and a postpaid basis in Azerbaijan. As of December 31, 2013, Azercell had approximately 4.4 million subscribers, of which approximately 0.4 million were postpaid and approximately 4.0 million were prepaid.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The agreement for the privatization of the Republic of Azerbaijan's 35.7% ownership in Azercell was signed in February 2008 and Azertel A.S., the parent company of Azercell, acquired the Republic of Azerbaijan's entire stake. Azertel's ownership in Azercell increased to 100%; however, Fintur's effective ownership in Azercell remains at 51.3%. Azercell was granted a 3G license in the fourth quarter of 2011 and 4G license in the second quarter of 2012.

Geocell

At December 31, 2013, Fintur indirectly owned 100% of Geocell Ltd. (Geocell), which operates a GSM network and offers mobile telephony services in Georgia. As of December 31, 2013, Geocell had approximately 1.8 million subscribers, of which approximately 0.03 million were postpaid, approximately 0.16 million were paid-in-advance subscribers that had postpaid services but paid-in-advance and approximately 1.61 million were prepaid.

Kcell

Kcell is 51% owned by Fintur. In 2012, the remaining 49% was acquired by TeliaSonera from Kazakhtelecom JSC, the Kazakh incumbent fixed line telecom provider. TeliaSonera sold 25% of the shares minus one share in Kcell in an Initial Public Offering (IPO) on the London and Kazakhstan Stock Exchanges, which was completed in December 2012. Following the completion of the IPO, TeliaSonera's effective ownership in Kcell is 61.74%. Kcell offers mobile telephony services in Kazakhstan and had approximately 14.3 million subscribers as of December 31, 2013, of which approximately 0.2 million were postpaid, approximately 1.5 million were paid-in-advance subscribers and approximately 12.6 million were prepaid.

Table of Contents

Moldcell

At December 31, 2013, Fintur directly and indirectly owned 100% of Moldcell S.A. (Moldcell), which offers GSM services in Moldova. As of December 31, 2013, Moldcell had 1.0 million subscribers, of which approximately 0.1 million were postpaid, approximately 0.2 million were paid-in-advance subscribers and approximately 0.7 million were prepaid. Moldcell was granted a 4G license in the fourth quarter of 2012.

(ii) A-Tel

On August 9, 2006, Turkcell acquired 50% of A-Tel s shares. A-Tel is a joint venture and the remaining 50% of its shares are held by Bilgin Holding A.S. Bilgin Holding s 50% shares were acquired by the Savings Deposit Insurance Fund (SDIF) on October 18, 2004 in return to the debts of Bilgin Holding against the SDIF. Further, pursuant to the decision dated April 25, 2013, the SDIF resolved to reassign the shares in its possession to Bilgin. A-Tel was involved in marketing, selling and distributing our prepaid systems. It acted as our only dealer for Muhabbet Kart (a prepaid card), and received dealer activation fees and simcard subsidies for the sale of Muhabbet Kart. In addition to the sales of simcards and scratch cards through an extensive network of newspaper kiosks located throughout Turkey, we had entered into several agreements with A-Tel for the sale of campaigns and for subscriber activations. Since 1999, the business cooperation between us and A-Tel provided important support to our sales and marketing activities. However, the service provider and distribution agreement with A-Tel was annulled through a notification dated January 31, 2012, effective August 1, 2012.

X. Potential Investments

Our efforts to selectively seek and evaluate new investment opportunities continue. These opportunities may include the purchase of new licenses and the acquisition of existing companies as well as alternative business models such as management contracts, marketing partnerships or other forms of cooperation both inside and outside of Turkey, focusing on communications, technology and adjacent and new business opportunities. In addition, we may provide services in related areas and also consider investing or increasing our investments in business areas outside of the scope of our core business. Our international expansion strategy focuses on key emerging markets, mainly in Eastern Europe, the Balkans, the Middle East and Africa.

We will continue to selectively seek and evaluate new international investment opportunities. In the context of our evaluation of potential investment opportunities within the regions we target for international expansion strategy, Turkcell has, from time to time, considered opportunities in countries in the C.I.S. Region, Eastern Europe, the Middle East, Africa and the Balkans and may consider such opportunities in the future. We may participate in additional public tenders for new licenses or the privatization of public telecom companies as well as in private sale transactions in emerging markets to pursue investment opportunities in line with our growth strategy.

Furthermore, we may evaluate expanding into other Western European countries where there is a sizeable Turkish community through wholesale partnerships or alternative cooperative business models.

XI. Disclosure Pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 (ITRA)

Based on our information and information provided to us by our affiliates, as of the date of this annual report, we believe that certain of our business activities in Iran in 2013, and the business activities of certain of our affiliates, are subject to disclosure pursuant to ITRA Section 219. During the year ended December 31, 2013, Turkcell and Astelit provided direct international roaming services in Iran through agreements with the following GSM operators: TCI Mobile Company of Iran, Telecommunication Kish Co., MTN Irancell, and Taliya Iran. Gross revenues and net profits during the year ended December 31, 2013, attributable to these agreements were TRY 0.6 million (equivalent to \$0.3 million as of March 14, 2014) and TRY (1.2) million (equivalent to \$(0.6) million as of March 14, 2014), respectively. TeliaSonera has informed us that Azercell, a Fintur company, had revenues under roaming agreements in Iran in 2013 of approximately 0.3 million, and that other Fintur companies have entered into roaming agreements in Iran as well.

Table of Contents

In addition, Turkcell Superonline provided Transit IP and leased line services through network interface agreements with Telecom Infrastructure Company of Iran (TIC). During the year ended December 31, 2013, gross revenues and net profits attributable to these agreements were TRY 3.0 million (equivalent to \$1.3 million as of March 14, 2014) and TRY 1.3 million (equivalent to \$0.6 million as of March 14, 2014), respectively. In 2013, Turkcell Superonline received an order to provide leased line services to the Islamic Republic of Iran Broadcasting (IRIB), which will be delivered through our TIC interconnection. Services and revenues have yet to commence. A previous service provided to PressTV (affiliated with IRIB) ended at the beginning of 2013 and no operational revenue was recognized in the year 2013.

Although it is difficult to do with a reasonable degree of certainty, we have concluded that our Iranian business partners described in this section may be owned or controlled indirectly by the Government of Iran. However, to our knowledge, none of the services provided by Turkcell and our affiliates in Iran described in this section have been used by the Government of Iran to commit serious human rights abuses against the people of Iran. Furthermore, we understand that the U.S. Department of the Treasury's Office of Foreign Assets Control has issued a general license authorizing U.S. persons to engage in certain of the activities described in this section. We, and our affiliates, intend to continue the activities described in this section in 2014.

XII. Regulation of the Turkish Telecommunications Industry

a. Overview

All telecommunications activity in Turkey is regulated by the ICTA. Electronic Communications Law No. 5809 (the Electronic Communications Law), which came into force on November 10, 2008, is the principal law governing telecommunications activity in Turkey. The Electronic Communications Law was published to correspond to the rapidly evolving Turkish telecommunications industry, and all secondary regulations have been updated to be in accordance with this law. The duties of the ICTA, which may be exercised in a manner that is adverse to our operations and our financial results, include those described below.

b. ICTA

The ICTA has the authority to grant licenses and set fees in the electronic telecommunications industry.

According to Article 8 of the Electronic Communications Law, electronic communications services are rendered and/or established (as in the case of an electronic communications network or infrastructure) and operated following the authorization made by the ICTA. Authorization is granted either through notification made in accordance with the principles and procedures determined by the ICTA, in cases where scarce resource allocation is not necessary, or by granting of usage rights, in cases where scarce resource allocation is necessary (allocation of frequency, satellite position, etc.). Under the Electronic Communications Law, usage rights may be granted for up to 25 years; however, there is no clause relating to the term of notification. According to the Electronic Communications Law, principles and procedures relating to the notification and granting of usage rights shall be determined by the ICTA through secondary regulations.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

On the other hand, in cases where the quantity of rights of use is limited, Section 9-6(a) of the Electronic Communications Law allows the Ministry of Transport, Maritime Affairs and Communications to determine the criteria, such as (i) the authorization policy regarding electronic communications services which cover the assignment of satellite position and frequency band on a national scale and which need to be operated by a limited number of operators, (ii) the starting date of the service, (iii) the duration of the authorization and the number of operators to serve. While the criteria are determined by the Ministry of Transport, Maritime Affairs and Communications, the authorization is still granted by the ICTA.

Under the Electronic Communications Law, the ICTA is authorized to determine the principles and procedures related to the process of personal data and protection of privacy.

Table of Contents

The Electronic Communications Law establishes legal principles and broad policy lines that the ICTA must follow, some of which are stated below:

- Creation and protection of a free and efficient competitive environment.

- Protection of consumer rights and interests.

- Protection of the objectives of development plans and Government programs as well as the strategies and policies set by the Ministry.

- Promotion of implementations that ensure that everyone can benefit from electronic communications networks and services.

- Ensuring non-discrimination among subscribers, users and operators under fair conditions.

- Ensuring the conformity of electronic communications systems to international norms.

- Protection of information safety and communication confidentiality.

The Electronic Communications Law also specifies general rules and principles relating to interconnection between operators. Agreements for interconnection are publicly available, but precautions are taken by the ICTA to protect commercial secrets of the parties.

Universal Services and Amending Some Laws, Law No. 5369, determines the procedures and principles governing the provision and execution of universal service and the procedures and the rules relating to fulfillment of universal services in the electronic communication sector, a universal public service that is financially difficult for operators to provide (and performance of a universal service obligation in the electronic communication sector). In accordance with Law No. 5369, the scope of universal services is determined periodically by the Council of Ministers, which will not exceed three years.

The legislation designates the following as universal services: fixed-line telephony services, public pay telephones, telephone directory services to be provided in printed or electronic environments, emergency call services, internet services, passenger services to residential areas where

access is provided by sea and sea communication and sailing safety communication services.

This law mandates that designated operators must provide universal services and the General Directorate of Communication can demand that operators provide universal services on a national and/or geographical basis. Turk Telekomunikasyon A.S. and the GSM operators are currently designated as universal services providers.

The Cabinet of Ministers Decision No. 27984 and dated July 4, 2011, allowed the use of the universal service fund to extend the mobile GSM network coverage listed in the annex of the decision to uncovered areas with a population of 500 or less. On February 13, 2013, we were appointed as universal service provider after a tender process and the related contract was signed on February 20, 2013. Turkcell will be responsible for installing sufficient infrastructure to cover 1,799 rural locations and the investment and operating expenses to be made will be compensated by the universal service fund of the Ministry of Transport, Maritime Affairs and Communications.

The Electronic Communications Law also specifies general rules and principles relating to tariffs. Pursuant to the Electronic Communications Law, operators may freely determine the tariffs they apply in compliance with the relevant legislation and the ICTA arrangements. In the event of determination of the significant market power of the operator, the ICTA may determine the method of the approval, tracking and auditing of the tariffs. It may also determine the lower and upper limit of the tariffs and principles and procedures of the application of the same.

Table of Contents

The Electronic Communications Law provides basic guidelines for the tariffs and pricing and thus leaves the detailed rules and enforcement to the ICTA. According to the law:

- (1) The tariff may be determined as one or more subscription fees, fixed fees, call charges, line rentals, and similar fee items.
- (2) Tariffs to be imposed in return for providing any kind of electronic communications services shall be subject to the following provisions:
 - (a) Operators shall freely determine the tariffs under their possession, provided that they comply with the regulations of the ICTA and the relevant legislation.
 - (b) If an operator is designated as having significant market power in the relevant market, the ICTA shall be entitled to determine the procedures regarding the approval, monitoring and supervision of tariffs as well as the highest and lowest limits of the tariffs and the procedures and principles for the implementation thereof.
 - (c) If an operator is designated as having significant market power in the relevant market, the ICTA shall be entitled to make the necessary arrangements to prevent anti-competitive tariffs such as price squeezing and predatory pricing and to supervise the implementation thereof.
- (3) Procedures and principles pertaining to the implementation of this article, submission of tariffs to the ICTA and publishing and announcing them to the public shall be determined by the ICTA.

According to this regulation, the ICTA may intervene in the structure of our tariffs or may impose certain criteria relating to the revision of our tariffs. Pursuant to its decision dated December 8, 2009, the ICTA determined Turkcell, individually, to be an operator holding a significant market power in the Access to Mobile Networks and Call Originating Markets and, together with Avea and Vodafone, to be an operator holding significant market power in the Mobile Call Termination Market. As a result of the significant market power designation in the Access to GSM Mobile Networks and Call Originating Markets, our Company may be required to provide access and call origination services to other operators such as MVNOs and Directory Services Operators on a cost-based basis, while operators not designated as operators holding significant market power can set their prices more freely. Being designated as an operator holding significant market power in the Access to GSM Mobile Networks and Call Originating Markets is likely to have the effect of reducing the rates we can charge other operators, such as MVNOs, which would have a material adverse effect on our business and results of operations. The ICTA completed the market analysis for the 2012-2015 term. Turkcell has been recognized as the only operator holding significant power in Access to GSM Mobile Networks and Call Originating Markets.

c. Regulation on Quality of Service in the Electronic Communication Sector

The ICTA abolished the Regulation On Quality of Service (issued in 2005), and published a new Regulation On Quality of Service in the Electronic Communications Sector, effective as of December 31, 2011 and applicable to all operators that provide service to end users, which sets out the procedures and principles to control the conformity of the services of operators. Mobile telephone operators are required to meet new service quality requirements and submit a report based on these requirements every three months to the ICTA. Additional requirements for service quality must be fulfilled. If the operators fail to reach these requirements more than once, this may result in the imposition of penalties. The results of quality measurements can also be publicly available.

d. Regulation on Administrative Fines, Sanctions and Precautions in the Electronic Communication Sector

The ICTA abolished the Regulation on Administrative Fines to be imposed on the operators (issued in 2002) and published a new Regulation on Administrative Fines, Sanctions and Precautions to be imposed on operators. The ICTA retains the right to impose fines in the event an operator: submits incorrect or misleading documents or fails to submit documents as requested by the ICTA; does not timely submit such documents; does not permit inspection or audits to be made by the ICTA; uses unpermitted equipment or equipment not complying with standards or alters technical features of equipment; or does not pay fees arising from its use of licenses and frequencies or does not comply with the provisions of license agreements, telecommunications licenses and general authorizations or the legislation. The ICTA is authorized to impose sanctions and precautions as well as administrative fines.

Table of Contents

e. Regulation on Authorization regarding the Electronic Communication Sector

In 2009, the ICTA published the Regulation on Authorization regarding the Electronic Communications Sector , which determines the principles and procedures for the authorization of the companies that seek to provide electronic communication services and/or to install or operate electronic communications networks or infrastructure.

(i) Wireless Interoperability for Microwave Access (WIMAX) License

Regulatory changes in Turkey to introduce and promote WIMAX nationwide could have a material adverse effect on our business and results of operations. Specifically, they may result in increased competition and/or the entry of new direct or indirect competitors, which may have a negative impact on our ability to attract and retain customers, the competitiveness of our products and services, our distribution channels, our brand and visibility and our infrastructure investments.

(ii) Fixed Line Telephone Services

The ICTA issued Fixed Telephony Service (FTS) licenses pursuant to the Regulation on Authorization regarding the Electronic Communication Sector, which enables existing long distance telephony services (LDTS) operators, such as our subsidiary Turkcell Superonline, to provide call origination and termination. LDTS and, consequently, FTS providers, have not yet had a significant effect on our operations. In the long term they could have the effect of driving down prices and shifting traffic patterns for in-city as well as long distance calls in Turkey, potentially having an adverse effect on our mobile telecommunications business.

On February 3, 2010, the ICTA published a new Regulation entitled The Right of Way in Execution of the Electronic Communications Services . This Regulation aims to determine the principles and procedures for the right of way for the establishment and usage of all kinds of electronic communications networks and/or infrastructure facilities, which is required for the execution of electronic communications services.

f. Regulation on Mobile Number Portability (MNP)

Pursuant to Article 32 of the Electronic Communications Law, operators are required to supply operator number portability.

MNP allows subscribers to keep their existing telephone number when changing their telephone operator, their physical location or current service plan. These regulations became operational in the fourth quarter of 2008. Since we believe the MNP regulations conflict with our rights under our license agreement, without due compensation, we initiated a lawsuit in 2007 for the annulment of the MNP regulation. While we do not object to the substance of mobile number portability, we do, however, believe that our rights under our license agreement should remain protected or, if they are violated, we should be justly compensated. The Court rejected the case in June 2009 and we appealed the decision. The

Plenary Session of the Chambers for Administrative Divisions approved the court decision. We applied for a correction of the decision. See Item 8.A Consolidated Statements and Other Financial Information Legal Proceedings . In 2009, the ICTA issued a new Regulation on MNP, abolishing the 2007 regulation. For new subscriptions, subscribers cannot port out to another operator in the first three months.

g. Regulation on Security of Electronic Communication

In 2008, the ICTA published the Regulation on Security of Electronic Communication , which determines the principles and procedures for precautions to be taken by the operators for eliminating or derogating the risks caused by threads or weaknesses of (i) the physical area of the operators, data, hardware/software security and reliability, and (ii) sustaining the reliability of human resources. In accordance with the regulation, our Company is required to comply with TS ISO/IEC 27001 or ISO/IEC 27001 standards. Turkcell was the first mobile operator in Turkey to receive the ISO/IEC 27001:2005 certification for its Network Operations function in 2008 covering all operations throughout Turkey. In 2011, Turkcell s IT function was also certified for ISO/IEC 27001:2005 and Turkcell s ISO/IEC 27001:2005 scope became one of the largest among telecommunication operators in Europe. By having an ISO/IEC 27001:2005 certificate covering telecom infrastructure operations, Turkcell fullfills its regulatory obligations and offers its customers the benefits of an internationally-recognized secure management of operations and services.

Table of Contents

h. Turkish Competition Law and the Competition Authority

In 1997, the Competition Law (No. 4054) established a Competition Board. The Competition Board consists of seven members who are appointed for a term of six years. It is an autonomous authority with administrative and financial independence established to ensure effective competition in markets for goods and services.

The Competition Board can carry out investigations, evaluate requests for exemptions, monitor the market, assess mergers and acquisitions, submit views to the Ministry of Industry and Trade and perform other tasks stipulated by the Competition Law. The ICTA can apply to the Competition Board if it determines that agreements regarding access, network interconnection and roaming violate the Competition Law.

Any person or legal entity may file a complaint with the Competition Board. The Competition Board can take necessary measures to prevent violations and may impose fines on those who are liable for such prohibited practices. The Competition Board may impose fines up to 10% of the annual gross income of the operators, which is constituted by the end of the previous financial year and determined by the Competition Board. The ICTA and the Competition Board entered into a Protocol on Cooperation in 2002, followed by a new Protocol in 2011. The original Protocol established a framework whereby the ICTA and the Competition Board can cooperate on legal actions and policies regarding measures, regulations and inspections that affect competition conditions and competition in the telecommunications sector. The new Protocol regulates the mechanisms to improve cooperation between the ICTA and the Competition Board.

i. Regulation on the Establishment of Metropolitan Municipalities in Fourteen Provinces and of Twenty-Seven Districts and Amending Certain Laws and Decree Laws

The Law No. 6360 on the Establishment of Metropolitan Municipalities in Fourteen Provinces and of Twenty-Seven Districts and Amending Certain Laws and Decree Laws was published in the Official Gazette on December 6, 2012. It is expected to be effective by the second half of 2014. The Law dissolves the legal entity of villages and special provincial administrations in cities where there are metropolitan municipalities. The Law also entails that the provincial border and that of the metropolitan municipality is one and the same in a province. This may affect our coverage obligations indirectly because there will be new residences to be covered and some of the regular cities will be turned into metropolis. As a result of this law, our coverage deadlines may tighten although these changes were not included in our licence agreements. These changes may increase our costs, due to newly arising necessities with regards to infrastructure and operation in order to cover these new areas or population.

j. Regulation on Base Station Implementation in Electronic Communication Sector:

The Ministry of Transport, Maritime Affairs, and Communications, in coordination with the Ministry of Environment and Urban Planning, published a draft Regulation on the Implementation of any kind of base station, antenna, tower, waveguide, container and related equipment and facility in fixed and mobile communication infrastructure in September 2013. This draft is expected to come into force in 2014. With this regulation, mobile operators will be obliged to pay some additional certificate fees according to the scale of charges, from governorships or municipalities, such as a site selection certificate. This may lead to additional certificate fees and operational costs, such as permission processes for implementation of base stations, which may take longer.

Table of Contents

k. Regulation on Waste Electrical and Electronic Equipment

In May 2012, Regulation related to Waste Electrical and Electronic Equipment was published in the Official Gazette and became effective. Waste Electrical and Electronic Equipment regulations may impose some obligations on our Company and increase our operational costs.

l. Regulation on the Internet

Law no. 5651 for the regulation of web content has been revised by law no. 6518, which became effective on February 19, 2014. The new law requires that all internet access providers, which includes all mobile and fixed network operators as well as all internet service providers, should form a Union of Internet Access Providers (UAP) within three months. Failing to do so, will result in a fine equal to the amount of one percent of the previous year s revenues. After the establishment of the UAP, if any internet service provider or any operator giving internet services fails to become a member of the UAP, it shall also be fined with an amount equal to one percent of the previous year s revenues.

In addition, the new law raises the existing fines for not removing content as requested by the court. The law also introduces URL-based blocking of websites which requires a new capital as well as operating expenditures for all internet access providers.

m. GSM Licensing in Turkey

The terms of license agreements are governed by the Authorization Regulation, and it provides that the ICTA approve the transfer of licenses to third parties, ensure continuation of services in the event of cancellation of a license and approve the investment plans submitted by licensees.

A GSM license is subject to the ICTA s right to suspend or terminate operations under the license on the grounds of security, public benefit and national defense or to comply with the law. However, suspension or takeover of facilities under these circumstances is subject to the payment of compensation to the operator. The ICTA can also inspect such licensee and nullify its license if the licensee has materially failed to comply with the terms of its license. The ICTA may also terminate licenses in cases of gross negligence or non-payment of the authorization fee.

The licensee is responsible for installing telecommunications equipment in conformance with international signalization systems and numbering plans. Furthermore, the licensee is obligated to make those investments which are necessary to offer the licensed service, including the design of the service, the making of financial investments and the installation and operation of the facility required for the service. Licensees are allowed to determine the prices for services, subject to the regulations of the ICTA. Upon the expiry of a license, including termination, the facilities and immovables of the licensee, in operating condition, will be transferred by the licensee in accordance with the license agreement.

n. Our License Agreement

(i) General

Since April 1998, we have operated under a 25-year GSM license for which we paid an upfront license fee of \$500 million. In 2002, we signed a renewed license agreement for our GSM license which provides that a monthly payment of 15% over our gross revenue paid to the Turkish Treasury shall be subject to the legal interest rate. If such payments are not duly paid twice in any given year, a penalty in an amount equal to triple the last monthly payment shall be payable to the Turkish Treasury. In addition, we must pay annual contributions in an amount equal to 0.35% of our gross revenue to the ICTA's expenses. After the tender relating to the allocation of additional GSM 900 frequency bands, made by the ICTA in June 2008, the license agreement was amended to include the additional frequency band and was signed by Turkcell and the ICTA in February 2009, which made small additional changes in the articles of the license agreement entitled performance bond and allocated frequency bands.

Table of Contents

(ii) Terms and Conditions

Under the license agreement, we hold a licensed concession to provide telecommunications services in accordance with GSM-PAN European Mobile Telephone System standards in the 900 MHz frequency band. Our license covers 55 channels and allocates telephone numbers between the 530 and 539 area codes in the national numbering plan. Our license also permits us to establish customer service centers, sign contracts with subscribers and market our services to subscribers. Our license was issued with an effective date of April 27, 1998, for an initial term of 25 years. At the end of the initial term, we can renew our license, subject to the approval of the ICTA, provided that we apply between 24 months and six months before the end of our license. Our license is not exclusive and is not transferable without the approval of the ICTA.

We paid a license fee of \$500 million to the Turkish Treasury upon effectiveness of our license. On an ongoing basis, we must pay 15% of our gross revenue, defined as of March 2006 to exclude interest charges for late collections from subscribers and indirect taxes such as 18% VAT as well as other expenses and the accrued amounts that are recorded for reporting purposes to the Turkish Treasury. We are required to pay 10% of our existing monthly treasury share to the Turkish Ministry as a universal service fund contribution. Since 2005, we pay 90% of the treasury share to the Turkish Treasury and 10% to the Turkish Ministry as a universal service fund contribution.

Furthermore, under the Regulation on Authorization regarding the Electronic Communication Sector, all kinds of share transfers, acquisitions and actions of the operators which are authorized by a Concession Agreement must be communicated to the ICTA, and such share transfers, acquisitions and actions shall be made with the written approval of the ICTA if they result in a change of control component of such operators. The control component is defined as the rights that allow for applying a decisive effect on an enterprise, either separately or jointly, de facto or legally.

Our license subjects us to a number of conditions. It may be revoked in the event that we fail to meet any of these conditions.

(iii) Coverage

Our license requires that we meet coverage and technical criteria. We must attain geographical coverage of 50% of the population of Turkey (living in cities or towns of 10,000 or more inhabitants) within three years of our license's effective date and at least 90% of the population of Turkey (living in cities or towns of 10,000 or more inhabitants) within five years of the effective date of our license. This coverage requirement excludes coverage met through national roaming and installation sharing arrangements with other GSM systems and operators. Upon the request of the ICTA, we may also be required, throughout the term of our license, to cover at most two additional areas each year. Except in the event of force majeure, we must pay a late performance penalty of 0.2% of the investment in the related coverage area per day for any delay of more than six months in fulfilling a coverage area obligation. As of today, we have met and surpassed all coverage obligations.

(iv) Service Offerings

Our license requires that we provide services that, in addition to general GSM phone services, include free emergency calls and technical assistance for customers, free call forwarding to police and other public emergency services, receiver optional short messages, video text access,

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

fax capability, calling and connected number identification and restrictions, call forwarding, call waiting, call hold, multi-party and three-party conference calls, billing information, and the barring of a range of outgoing and incoming calls.

Table of Contents

(v) Service Quality

Generally, we must meet all the technical standards of the GSM Association as determined and updated by the European Telecommunications Standards Institute and Secretariat of the GSM Association. Moreover, we must meet the standards that the ICTA imposes under Regulation on Quality of Service in the Electronic Communication Sector .

(vi) Tariffs

The license agreement regulates our ability to determine our tariff for GSM services. The license agreement provides that, after consultation with us and consideration of tariffs applied abroad for similar services, the ICTA sets the initial maximum tariffs in Turkish Lira and U.S. Dollars. Thereafter, our license provides that the maximum tariffs shall be adjusted at least every six months. The license agreement provides a formula for adjusting the existing maximum tariffs. For the adjustment of the maximum tariffs established in Turkish Lira, the formula is: the Turkish Consumer Price Index announced by the Ministry of Industry and Trade for Turkey minus 3% of the Turkish Consumer Price Index announced by the Ministry of Industry and Trade. For the maximum tariffs established in U.S. Dollars, the same method is applied to the USA Consumer Price All Item Index Numbers.

The standard tariffs and the maximum tariffs set by the ICTA have been established in Turkish Lira and the ICTA's schedule of standard tariffs and maximum rates are premised on the TRY/\$ Exchange Rate in effect on the date they were approved by the ICTA. Although we believe the tariff structure in our license will, in most instances, permit adjustments designed to offset devaluations of the Turkish Lira against the U.S. Dollar, any such devaluation that we are unable to offset will require us to use a larger portion of our revenue to service our non-Turkish Lira foreign currency obligations. Additionally, in the event that the ICTA were to establish maximum tariffs at levels below those that would enable us to adjust our rates to offset devaluations, this could have a material adverse effect on our business, consolidated financial condition, results of operations or liquidity.

We believe that, pursuant to our license agreement, we can determine our tariffs freely, provided that they remain within the framework of the applicable maximum price limit. However, under Article 13 of the Electronic Communications Law, in the event of determination of the significant market power of the operator, the ICTA may determine the lower and upper limit of the tariffs and principles and procedures of the application of the same. Based on such Article, the ICTA may take a similar decision which will have an effect on our future tariffs. With respect to our retail tariffs, in the fourth quarter of 2007, the ICTA intervened in our retail prices. Although we challenged that action on the basis that it exceeded the ICTA's authority under then-applicable law, such action nonetheless had an adverse effect on our operational flexibility and our results of operations. With a board resolution dated March 25, 2009, the ICTA set a lower limit for solely Turkcell's on-net retail tariffs. In addition, the ICTA with its board decision dated April 25, 2012 decided on the lower limit to be applied to our campaigns (specified offers and packages provided to specific customers for a limited time period) as well as on our tariffs, which further impacted our ability to price our services and respond to competitive pressures. Furthermore, with a board resolution dated March 13, 2013, the ICTA raised the lower limit to be applied on our tariffs to 0.0535 TRY/min (equivalent to \$0.02 as of March 14, 2014) from 0.0313 TRY/min (equivalent to \$0.01 as of March 14, 2014). Simultaneously, the ICTA also decided that a lower limit on our SMS tariffs should be applicable over a rate of 0.0291 TRY/SMS (equivalent to \$0.01 as of March 14, 2014). On the other hand, the ICTA excluded the campaigns from the scope of this decree, which was added in its decision dated April 25, 2012. The amendments were effective from July 2013 onwards. With the same board resolution, the ICTA linked the mobile termination rates to minimum on-net voice levels with a parameter of 1.7 such that our minimum on-net prices should be set multiplying the mobile termination rate with the above mentioned parameter of 1.7. In addition, the ICTA with board resolutions dated April 12, 2013 and June 17, 2013, lowered the mobile termination rates for Turkcell from TRY 0.0170 (equivalent to \$0.008 as of March 14, 2014) to TRY 0.0043 (equivalent to \$0.002 as of March 14, 2014) for SMS and from TRY 0.0313 (equivalent to \$0.014 as of March 14, 2014) to TRY 0.0250 (equivalent to \$0.011 as of March 14, 2014) for voice. As a result, our minimum on-net price level has been decreased to TRY 0.0073 (equivalent to \$0.003 as of March 14, 2014) for SMS and TRY 0.0428 (equivalent to \$0.019 as of March 14, 2014) for

voice due to the above mentioned parameter. Moreover, with a board resolution dated January 6, 2014, the ICTA decided to bring the above-mentioned amendment back on our campaigns, which was effective as of February 1, 2014.

Table of Contents

These pricing regulations are valid on each and every single voice tariff and campaign, whereas we are obliged to maintain our minimum on-net SMS rate on network base. The table below shows the current on-net prices and MTR rates:

TRY	Before July 1, 2013	After July 1, 2013	Change %
Minimum on-net voice price	0.0313	0.0428	37%
Minimum on-net SMS price		0.0073	
Voice MTR	0.0313	0.0250	(20)%
SMS MTR	0.0170	0.0043	(75)%

The maximum tariffs set by the ICTA constitute the highest rates we may charge for the services included in these customized service packages. Generally, the maximum tariffs set by the ICTA for particular services are set higher than the standard tariffs determined by the ICTA for those services. Although the Concession Agreement includes a provision regarding only the increase of the maximum tariffs, the ICTA has decreased the maximum tariff since 2007, which has negatively affected our tariff structure. In 2011, the maximum tariff on SMS decreased by 48% and the maximum tariff on mobile voice increased by 4%. In 2013, the maximum tariff on mobile voice increased by approximately 6% to TRY 0.439 (equivalent to \$0.20 as of March 14, 2014), while as of January 2014 the maximum tariff on SMS decreased by 20% to TRY 0.332 (equivalent to \$0.15 as of March 14, 2014). The table below shows the evolution of maximum tariffs on voice and SMS:

TRY	Maximum tariff on voice	Maximum tariff on SMS
13.10.2008	0.80	0.71
27.04.2009	0.64	0.73
12.10.2009	0.65	0.74
01.04.2010	0.40	0.80
01.10.2010	0.40	0.80
01.04.2011	0.42	0.42
01.10.2011	0.42	0.42
01.04.2012	0.42	0.42
01.10.2012	0.42	0.42
01.04.2013	0.44	0.42
01.10.2013	0.44	0.42
01.01.2014	0.44	0.33

We initiated lawsuits for the annulment and suspension of the execution of some of the aforementioned decisions of the ICTA. Some of the lawsuits were rejected by the courts and we appealed these decisions. The other lawsuits are pending.

The ICTA has in the past intervened and may again intervene with the charging period, impacting the prices we charge for our tariffs. For example, effective September 1, 2010, the ICTA requires all operators to apply the maximum price cap during the first minute of all calls. The usage behavior and our financial results will be adversely affected if the ICTA intervenes on charging periods.

(vii) Relationship with the ICTA

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The license agreement creates a mechanism for an ongoing relationship between us and the ICTA. The ICTA and Turkcell coordinate their activities through a License Coordination Committee (the Committee), which is responsible for ensuring the proper and coordinated operation of the GSM network, assisting in the resolution of disputes under the license agreement and facilitating the exchange of information between the parties.

Table of Contents

(viii) License Suspension and Termination

The ICTA may suspend our operations for a limited or an unlimited period if necessary for the purpose of public security or national defense, including war and general mobilization. During suspension, the ICTA may operate our business, but we are entitled to any revenues collected during such suspension, and our license term will be extended by the period of any suspension.

Our license may be terminated under our license agreement upon a bankruptcy ruling that is not reversed or dismissed within 90 days, upon our failure to perform our obligations under the license agreement if such failure is not cured within 90 days, if we operate outside the allocated frequency ranges and fail to terminate such operations within 90 days or if we fail to pay our treasury fee.

In the event of termination, we must deliver the entire GSM system to the ICTA.

If our license is terminated for our failure to perform our obligations under our license, the performance guarantee given by us in an amount equal to 1% of the license fee may be called. The license agreement makes no provision for the payment of consideration to us for delivery of the system on such termination.

In the event of a termination of our license, our right to use allocated frequencies and to operate the GSM system ceases. Upon the expiration of the license agreement, initially scheduled to occur in 2023, without renewal, we must transfer to the ICTA, or an institution designated by the ICTA, without consideration, the network management center, the gateway exchanges, and the central subscription system, which are the central management units of the GSM network. We may apply to the ICTA between 24 and six months before the end of the 25-year license term for the renewal of the license. The ICTA may renew the license, taking into account the legislation then currently in effect.

(ix) Applicable Law and Dispute Resolution

Under our license agreement, any dispute arising from or under our license shall be brought before the License Coordination Committee. If the dispute is not settled within 30 days before the License Coordination Committee, it shall be referred to the parties. If the dispute is not resolved by the parties within 15 days, then it shall be settled by an arbitral tribunal in accordance with ICC Rules. The governing law of any arbitration is Turkish law and any such arbitration shall be conducted in English. Disputes relating to national security or public policy shall not be subject to arbitration proceedings.

o. Authorization of 3G Licenses

In 2008, the ICTA conducted a tender process to grant four separate licenses to provide IMT 2000/UMTS services and infrastructure. We were granted the A type license, which provides the widest frequency band, at a consideration of EUR 358 million (excluding VAT). We signed the

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

license agreement relating to 3G authorization on April 30, 2009. The license agreement has a term of 20 years.

The 3G License Agreement has provisions that are generally similar to those contained in our license agreement relating to 2G. However, with respect to dispute resolution, while our 2G license provides for arbitration for the settlement of disputes, under the 3G License Agreement, disputes arising between the parties shall ultimately be settled by the Council of State of the Republic of Turkey.

With the 3G License Agreement, we were obliged to meet certain coverage obligations. We are required to cover all big cities within three years and all big cities and counties within six years. We are also obliged to cover every region with a population over 5,000 within eight years and population larger than 1,000 within 10 years. By the introduction of new municipality law in 2014 the coverage obligations may increase. The ICTA collected opinions from the operators related to this matter and is currently evaluating the possible consequences of this new law.

Table of Contents

With the 3G License Agreement, as opposed to the 2G License Agreement, the Company assumed an obligation related to its electronic communications network investments, such as the obligation to provide at least 40% of its electronic communications investments from suppliers that have a Research and Development Center in Turkey and the obligation to provide at least 10% of its electronic communications investments from suppliers that are Small and Medium Size Enterprises (SME) established in Turkey.

According to the Authorization Regulation, breaches by operators resulting in the termination of the GSM concession agreement for any reason shall also result in the termination of the operator's concession agreement signed for IMT-2000/UMTS service. Also, if the GSM concession agreement is not renewed at the end of its natural expiration, the ICTA may continue to allow the utilization of the needed infrastructure by IMT-2000/UMTS services on terms and conditions to be set by the ICTA itself.

The statutes, rules and regulations applicable to our activities and our 2G and 3G licenses are generally new, subject to change, in some cases, incomplete, and have been subject to limited governmental interpretation. Precedents for and experience with business and telecommunications regulations in Turkey are generally limited. In addition, there have been several changes to the relevant legal regime in recent years. There can be no assurance that the law or legal system will not change further or be interpreted in a manner that could materially and adversely affect our operations.

In addition to the foregoing, our indirectly owned subsidiary Astelit, majority-owned subsidiary Belarusian Telecom, and wholly owned subsidiary Kibris Telekom hold GSM licenses in Ukraine, Belarus and the Turkish Republic of Northern Cyprus, respectively, and some of them have obtained or may bid for 3G licenses. If Astelit, Belarusian Telecom and Kibris Telekom fail to comply with the terms and conditions of their license agreements, they may incur significant penalties, which could have a material adverse effect on our strategy for international expansion and our business and results of operations. In addition, our subsidiaries Global Tower, Turkcell Superonline, Inteltek and Azerinteltek have licenses to perform their business. Failure to comply with the terms of such licenses may lead to significant penalties and adversely affect their, as well as our, results of operations.

p. Ukraine License Agreement

Astelit owns two GSM activity licenses, one for GSM-900 and one for GSM-1800. At December 31, 2013, Astelit owned 24 GSM-900, GSM-1800, CDMA and microwave Radiorelay frequency use licenses, which are regional and national. In addition to the GSM licenses, Astelit owns two licenses for fixed local phone connections and wireless access using the D-AMPS standard. According to the licenses, Astelit must adhere to state sanitary regulations to ensure that the equipment used is not hazardous to the population and does not emit harmful electro-magnetic emissions. Licenses require Astelit to inform authorities of the start/end of operations within three months and changes in the incorporation address within 30 days. Also, Astelit must present all the required documents for inspection by the National Commission for the State Regulation of Communications and Informatization (NCRCI) by their request. The NCRCI may suspend the operations of Astelit for a limited or an unlimited period if necessary due to the expiration of the licenses, upon mutual consent, or in the case of a violation of the terms regarding the use of radio frequencies. If such a violation is determined, the Ukrainian Telecommunications Authority will notify Astelit of the violations and will set the deadline for recovery. If the deadline is not met, the licenses may be terminated.

One of Astelit's D-AMPS licenses expired on January 1, 2013; two other D-AMPS licenses have been annulled as of February 28, 2013 upon Astelit's request (they expire in 2016 and 2017, respectively) due to the absence of radio frequencies for D-AMPS standard, which were transferred to CDMA-800 technology. According to legislation, licenses may be voluntarily annulled only upon operator's request. As a result of the annulment, Astelit no longer owns the licenses for the local fixed line phone connection with wireless access using the D-AMPS standard. In addition, the NCRCI has not agreed to prolong the acting license of Astelit for the activity on providing international and inter-city

telecommunication services, which was valid until June 17, 2013. Astelit obtained a court decision which obliged the NCRCI to prolong the above-mentioned license and eventually such license was prolonged by NCRCI for a five-year period (until June 2018).

Table of Contents

q. Belarus License Agreement

Belarusian Telecom owns a license, issued on August 28, 2008, that is valid for 10 years. In addition, the license shall be extended for an additional ten years. The State Property Committee of the Republic of Belarus, as the Seller, has fulfilled its obligations stated in the Sale and Purchase Agreement and submitted the related official documents on December 18, 2009. According to the current legislation of the Republic of Belarus, a license extension is made upon the expiration of its period of validity. Consequently, Belarusian Telecom will apply for such an extension to the Ministry of Communications and Information in August 2018. Under the terms of its license, Belarusian Telecom is required to gradually increase its geographical coverage through 2018. However, Belarusian Telecom's period of execution with regard to coverage requirements has been extended for three years starting from the acquisition date.

r. Access and Interconnection Regulation

The Access and Interconnection Regulation (the Regulation) became effective when it was issued by the ICTA on September 8, 2009 and abolished the Access and Interconnection Regulation which was published on May 23, 2003. The Regulation sets forth the rights and obligations of the operators relating to access and interconnection and establishes rules and procedures pertaining to their performance of such obligations. The Regulation primarily sets forth applicable principles, details of access and interconnection obligations, financial provisions, and policies and procedures regarding negotiations and contracts for access and interconnection.

The Regulation is driven largely by the goal of improving the competitive environment and ensuring that users benefit from electronic communications services and infrastructure at a reasonable cost. Under the Electronic Communications Law, the ICTA may compel a telecommunications operator to accept another operator's request for access to and use of its network. All telecommunications operators in Turkey may be required to provide access to other operators. The operators who are compelled to provide access to other operators may be obliged to provide service and information on the same terms and qualifications provided to their shareholders, subsidiaries, and affiliates by the ICTA.

In accordance with Article 7 of the aforementioned Electronic Communications Law, the ICTA may determine the operators that have significant market power in the relevant market as a result of market analysis. After determination of the operators who have significant market power, the ICTA may impose additional liabilities for such operators in order to protect the competitive environment. On December 15, 2005, the ICTA designated Turkcell, Vodafone, and Avea as operators holding significant market power in the GSM Mobile Call Termination Services Market and designated Turkcell individually as an operator holding significant market power in the Access to GSM Mobile Networks and Call Originating Markets. According to the new Regulation published in the Official Gazette dated September 1, 2009, numbered 27336, unless otherwise agreed, any decisions taken by the ICTA in the years 2005 and 2006 relating to market analysis were valid and effective until the end of calendar year 2009. Pursuant to its decision dated December 8, 2009, the ICTA designated Turkcell individually as an operator holding significant market power in the Access to Mobile Networks and Call Originating Markets and designated Turkcell, Vodafone and Avea as operators holding significant market power in the Mobile Call Termination Market. Based on the market analysis of the ICTA for the 2012-2015 term, all three operators were declared as operators holding significant market power in the Mobile Call Termination Market and Turkcell is once again recognized as the only operator holding significant power in Access to GSM Mobile Networks and Call Originating Markets.

As a result of the significant market power designation in the GSM Mobile Call Termination Services Market, our company, as well as Avea and Vodafone, is required to provide interconnection services on a cost-based basis. Consequently, according to the Electronic Telecommunications Law, the ICTA may oblige such operators to provide access and to submit their reference offers for access and interconnection to the ICTA for

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

review, and may require amendments to the offers. Operators are obliged to make the amendments requested by the ICTA in a prescribed manner and within a prescribed period. In addition, the operators are obliged to publish their reference offers for access and interconnection, which have been approved by the ICTA, and to provide access under the conditions specified in their reference offers and interconnection, which have been approved by the ICTA. Please refer to the Interconnection table on page 61 for the approved interconnection rates. In September 2011, the ICTA decided that national and international mobile terminating call rates should be differentiated. As a result of this, the ICTA decided that operators could start to set their own rates liberally for international mobile terminating calls. As of August 2012, Turkcell has started to set its own mobile termination rates for international calls.

Table of Contents

All access and interconnection contracts must be submitted to the ICTA within fifteen days of execution. Except where otherwise specified by the ICTA, reference access and interconnection proposals will be submitted every year. The Company submitted its final reference access proposal regarding 2013 to the ICTA in the first quarter of 2013. The intervention of the ICTA in the prices that operators charge for reference access and interconnection services, along with our designation as an operator holding significant market power in certain markets, has had the effect of reducing the rates we are able to charge for interconnection services, which has had and will continue to have a material adverse effect on our revenues, business and results of operations.

s. Regulation on Co-Location and Facility Sharing

The ICTA has required operators to share certain facilities with other operators under certain conditions specified in the Electronic Communications Law and to provide co-location on their premises for the equipment of other operators at a reasonable price.

Under the Regulation, operators holding significant market power are required to provide access and services to all operators on equal terms. Operators with significant market power are also required to perform unbundling of their services, which means that they have to provide separate service of, and access to, transmission, switching, and operation interfaces. Furthermore, the ICTA may establish rules applicable to the division of the costs of facilities among parties.

The ICTA published a Communiqué concerning Co-Location and Facility Sharing on December 2, 2010 (which abolished the Regulation published on December 31, 2003). According to the new Communiqué, the ICTA should determine operators to be co-location incumbent if operators do not enable co-location or there is a dispute against competition or end-users. Similarly, the ICTA could set tariffs if the tariffs for co-layout are not determined on a cost basis.

The Communiqué defines the criteria for operators who are incumbents for facility sharing and also states the items which must be considered for determining the Facility Sharing prices.

Subsequently, the provisions that regulate the ICTA approval of the examination fee determined by the Co-Location and Facility Sharing incumbent have been removed, opening up the Co-Location and Facility Sharing process to negotiation. In addition, the Facility Sharing incumbent's right to allocate a facility for its own network and investment plans has been reduced to 25% of the facility.

The ICTA published a Communiqué concerning Cellular System Antenna Facility Design, Set Up and Sharing on March 18, 2011 (which abolished the Regulation published on April 16, 2008). The Communiqué frames antenna facilities design, set up and sharing to enable antenna usage by multiple operators. The emission points will not be determined by operators, therefore operators will have to work cellular planning together. Operators must share every antenna facility regardless of tower or building top distinction. Antenna facilities must be set up in certain capacity that at least one more operator can benefit. Some incentives, such as exemptions on some certification fees, will be given if sharing occurs on existing or new sites. Finally, when antenna facility set up and sharing requests are evaluated, if the owner of the facility refuses the request, the requesting operator will be informed of the reason for the refusal. This way, negotiation between parties is supported and the ICTA involvement is kept at minimum levels.

Table of Contents

t. Regulation on Spectrum in the Electronic Communication Sector

The ICTA proposed a strategy to Ministry of Transport, Maritime Affairs and Communications by a Board Decision dated July 27, 2011. Due to the fact that the decision-making authority of matters such as politics of authorization, start of service, authorization period, and the number of operators to provide service, lies with Ministry of Transport, Maritime Affairs and Communications, the ICTA has decided that:

1. Frequencies allocated for GSM services should also be used for 3G services (within the allocation time period).

2. Before the proposed GSM/3G usage, 2x8.6 MHz frequency (as 1 pack) in E-GSM band to be auctioned for GSM bidders who have less than 10MHz frequency in 900MHz band, 2 packs of 2x15MHz frequency each in 1800MHz band to be auctioned for GSM bidders who do not have any frequency in 1800MHz.

The second part of the Board Decision implies that only Avea will be eligible for the E-GSM auction and Vodafone and Turkcell for the 1800 auction.

u. Regulation on Consumer Rights in the Electronic Communication Sector

The ICTA published a Regulation on Consumer Rights in the Electronic Communication Sector on July 28, 2010 (which abolished the Regulation published on December 22, 2004) and made some changes to such regulation on June 20, 2013. This regulation introduces some radical changes to the electronic communication sector. With this regulation, the ICTA determined new procedures/changes regarding: the process and timing of churn steps, the obligation of operators to keep subscribers informed of services, including, but not limited to, informing customers about amendments of the campaigns and tariffs, the consumer complaints solution mechanism, billing processes and safe internet.

In addition, the ICTA may restrict the conditions under which certain mobile internet and services are provided by third parties. Moreover, the ICTA published a board decision regarding Safe Internet on August 22, 2011, and the service is now offered to subscribers free of charge. Operators must provide Safe Internet Service to subscribers, who request this service, as two separate profiles, the child profile and the family profile, each of which can restrict subscribers from accessing certain internet addresses and content. The subscribers can easily change their profiles or opt out from the Safe Internet Service.

The ICTA's regulation of these activities could have an adverse effect on our mobile telecommunications business and we may be fined if we do not comply. Furthermore, our compliance with the ICTA's regulations may increase the costs of our doing business and could negatively impact our financial results.

v. Regulation on Data Privacy in Electronic Communications Sector

The ICTA abolished the Regulation on Processing Personal Information and Protecting Confidentiality (issued in 2004) and published a new Regulation on Data Privacy in Electronic Communications Sector, which came into force on July 24, 2013, which defines the procedures and principles that the operators and legal entities/individuals that provide/receive services in the electronic communications sector may employ in an effort to process, store and protect personal information. Compliance with this regulation will involve operational expenses and may make it harder to process the customer data and provide segmented offers to our customers. Furthermore, non-compliance with this Regulation may result in the imposition of monetary fines, which could have a negative impact on our financial condition and reputation.

w. Registered Email Service Regulation

Registered Electronic Mail Service was started in July 2012. Mobile operators cannot provide registered electronic mail service; however, the service may create a new mobile business area with new bundled mobile products, which are able to service our subscribers.

Table of Contents

x. Turk Telekom, Vodafone and Avea Interconnection Agreements

(i) General

We have interconnection agreements with Turk Telekom, Vodafone, Avea and Fixed Telephony Service Operators whereby they allow us to connect our networks with theirs to enable the transmission of calls to and from our mobile communications system.

The interconnection agreements establish understandings between the parties relating to various key operational areas, including call traffic management, and the agreements contemplate that we and the other parties will agree on the contents of various manuals setting forth additional specifications concerning matters that are not specifically covered in the interconnection agreement, such as quality and performance standards and other technical, operational and procedural aspects of interconnection.

The interconnection agreements specify that the parties shall comply with relevant international standards, including standards adopted by the GSM Memorandum of Understanding, the Telecommunications Standards Bureau of the International Telecommunications Union, and the European Telecommunications Standards Institute. In the absence of applicable international standards, the interconnection agreements provide that the parties will establish written standards to govern their relationship.

The interconnection agreements outline the applicable interconnection principles and provide the technical basis and rationale for technical specifications and manuals to be agreed to by the parties.

In addition, the parties agree to provide the other party with information that is necessary to enable the performance of their interconnection obligations, the provision of services, or the utilization of equipment and/or buildings as contemplated in the interconnection agreement.

We have ongoing disputes with Turk Telekom, Vodafone and Avea over these agreements and with the ICTA regarding its decision related to these agreements. See Item 8.A. Consolidated Statements and Other Financial Information Legal Proceedings .

(ii) Interconnection Rates Turkcell, Vodafone, Avea and Turk Telekom

In accordance with the relevant articles of the Electronic Communications Law and subsequent Access and Interconnection Ordinance, the ICTA regulated both fixed and mobile interconnection rates. In previous years, the interconnection rates have substantially decreased with the interventions of the ICTA.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Current interconnection rates are based on the ICTA's decision on the Interconnection Tariffs issued in April and June 2013. The evolution of interconnection rates for voice calls between Turkcell, Vodafone, Avea, Turk Telecom and Alternative Fixed Line Operators is summarized in the table below.

	VOICE (TRY Kurus)						
	TURKCELL	VODAFONE	AVEA	TURK TELECOM			Alternative Fixed Line Operators
				Local	Single	Double	
01/10/2004	15.60	15.60	15.60		4.10	5.90	
01/01/2005	14.80	14.80	14.80		3.40	5.10	
01/10/2005	14.00	14.00	14.00		2.00	3.70	
01/01/2007	14.00	15.20	17.50		2.00	3.70	
01/03/2007	13.60	14.50	16.70		1.89	3.00	
01/04/2008	9.10	9.50	11.20		1.71	2.70	
01/05/2009	6.55	6.75	7.75	1.39	1.71	2.70	
01/04/2010	3.13	3.23	3.70	1.39	1.71	2.24	3.2
01/07/2013	2.50	2.58	2.96	1.39	1.71	2.24	3.2

Table of Contents

**In September 2011, the ICTA amended its Regulation on mobile termination rates by removing the restriction on the rates applicable to calls originating from international operators. After reaching commercial agreements with Turk Telekom and alternative fixed-line carriers, we began to charge higher termination rates for international calls effective August 1, 2012.*

Effective from July 2013, Turkcell is paid TRY 0.0043 per SMS (approximately \$0.002 as of March 14, 2014) for SMS termination in its network. Respective rates for Vodafone are TRY 0.0043 per SMS (approximately \$0.002 as of March 14, 2014) and for Avea TRY 0.0047 (approximately \$0.002 as of March 14, 2014).

	SMS (TRY Kurus)			
	TURKCELL	VODAFONE	AVEA	TT
01/04/2010	1.70	1.73	1.87	1.70
01/07/2013	0.43	0.43	0.47	1.70

y. Agreements Concluded with the Fixed Telecommunication Services Operators

(i) Interconnection/Call Termination Agreements

Turkcell, as an operator holding significant market power, entered into interconnection/call termination agreements with fixed telecommunication service operators that applied to Turkcell for an agreement. Interconnection rates are regulated by the ICTA. Turkcell pays fixed-line operators TRY 0.0320 per minute (approximately \$0.014 as of March 14, 2014) and fixed line operators pay Turkcell TRY 0.0250 per minute (approximately \$0.011 as of March 14, 2014) for national voice call traffic.

(ii) International Transit Traffic Services Agreements

Turkcell entered into International Traffic Carrying Services Agreements with operators who applied to Turkcell for an agreement. Under these Agreements, we may carry calls to these operators' switches for onward transmission to their destinations and these operators should provide the termination of these calls on the relevant network. These operators charge us at various prices identified within the scope of the agreement for the calls directed to numerous networks around the globe. The operators may modify their rates upon a fifteen day advanced written notice and such rates will become applicable upon our approval.

(iii) SMS Termination Agreements

During 2011, Turkcell entered into SMS Termination Agreements with alternative operators who applied to Turkcell for an agreement. In accordance with the ICTA regulations on SMS Termination Rates in Turkcell's network, Fixed Telephony Service Operators pay Turkcell TRY 0.0043 per SMS (approximately \$0.002 as of March 14, 2014).

z. MVNO Services

The ICTA has designated Turkcell as the operator having significant market power in the mobile access and call origination markets, which has implications such as mandatory MVNO access and cost-oriented call origination and termination rates. In its decision regarding the Reference Access Offer of Turkcell, the ICTA determined the call origination and termination fees for voice as TRY 0.0250 per minute (approximately \$0.011 as of March 14, 2014), wholesale on net voice call fee as TRY 0.0428 per minute (approximately \$0.019 as of March 14, 2014), origination and termination fees for SMS as TRY 0.0043 per SMS (approximately \$0.002 as of March 14, 2014) and wholesale on net SMS fee as TRY 0.0073 (approximately \$0.003 as of March 14, 2014) per SMS to be applied to the MVNOs.

Highly competitive market conditions and heavy tax burdens have discouraged potential MVNOs from entering the market for years. Nevertheless, commercial negotiations with some MVNO candidates are in progress and we expect to see some MVNO presence in the market in the coming years.

Table of Contents

aa. Agreements Concluded with Directory Service Providers

Turkcell entered into agreements relating to the provision of directory services with thirteen Directory Service Providers, which are licensed to provide directory services by the ICTA. The aforementioned agreements determine the principles and procedures related to the access of companies to the Turkcell database, the provision of directory services to the subscribers and the clearing procedure of the parties. Such agreements are valid and binding for a term of one year. However, if neither party notifies the other party one month before the expiration of the agreement of its request to terminate, the agreement will automatically be renewed for another one-year term.

bb. Agreements Concluded with Operators Licensed to Provide Satellite Services

We have executed agreements with Globalstar Avrasya Uydu Ses ve Data Iletisim A.S. and Teknomobil Uydu Haberlesme A.S., operators licensed to provide satellite services. The scope of such agreements is the interconnection between the networks of the parties and the determination of the principles and procedures of the methods of network operation and clearance.

cc. Prospective Legislation and Regulations

The Electronic Communications Law provides that current telecommunications legislation shall be revised and amended. The revision and amending processes are still ongoing. However, during this period, all regulations and communiqués that were effective prior to the publication of the Electronic Communications Law will still be valid and binding, on the condition that they are not contrary to the provisions of the Electronic Communications Law.

Table of Contents

4.C Organizational Structure

The following chart lists each of our key subsidiaries (including our ownership interest in Fintur) and our proportionate direct and indirect ownership interest as of March 14, 2014:

Notes:

(1) It was decided at the Board of Directors meeting held on November 27, 2013, to liquidate Global FLLC Belarus. The liquidation is in progress as of the date of this document.

(2) Global Odeme Sistemleri A.S. (formerly Corbuss) is 11% directly and 89% indirectly (in total 100%) owned by Turkcell.

For information on the country of incorporation of our key subsidiaries, see Item 4.B. Business Overview .

4.D Property, Plant and Equipment

Our principal property, plant and equipment consist of management offices, switching sites, network infrastructure sites, and network and office equipment.

The Group owns buildings in Istanbul (Beyoglu headquarters and Academy), Maltepe, Kartal, Davutpasa, Sisli, Bayrampasa, Maslak and Mahmutbey), Mugla (Bodrum), Eskisehir, Ankara (Cinnah, Sogutozu, Baskent), Malatya, Kocaeli, Zonguldak, Aydın, Denizli, Konya, Erzurum, Karaman, Balıkesir, Mugla, Manisa, Mersin, Sakarya, Hatay, Bornova Adana, Diyarbakir, Samsun, Izmir, Antalya, Trabzon, Bursa, Van, Kayseri and Gaziantep.

Table of Contents

In addition to the foregoing properties, we maintain rented buildings in Istanbul (Maltepe, Ümraniye, Maslak), Ankara, Corlu, Gaziantep, Sanliurfa, Artvin, Van (Ercis), Siirt, Karabuk, Lefkosa, Minsk, Grodno, Gomel, Mogilev, Vitebsk, Kiev and Odesa.

a. Core Network Infrastructure

Our core network consists of standalone Home Location Registers (HLR), a combined Number Portability Switch Relay Function (SRF) and Number Portability Database and Signal Transfer Point (STP). The Core Network is common for 2G and 3G radio networks and carries voice over IP, with combined Mobile Switch Centers/Visitor Location Registers (MSC/VLR), Media Gateways (MGW), Charging Control Node (CCN), Virtual Private Network (VPN). Our core packet switching network consists of SGSNs (Serving GPRS Support Node) and GGSNs (Gateway GPRS Support Node) providing GPRS/EDGE, and HSPA/HSPA+ (High Speed Packet Access) capability for mobile packet traffic and also Policy and Charging Rules Function (PCRF) for subscriber policies.

We have switches in Istanbul, Ankara, Izmir, Adana, Antalya, Aydin, Balikesir, Bursa, Bodrum (Mugla), Corlu (Tekirdag), Corum, Denizli, Diyarbakir, Erzurum, Eskisehir, Gaziantep, Hatay, Kayseri, Kocaeli, Konya, Malatya, Manisa, Mersin, Mugla, Sakarya, Samsun, Sivas, Tokat, Trabzon, Van and Zonguldak. We also have Remote BSC (RBSC) locations at Adiyaman, Afyon, Agri, Alanya (Antalya), Artvin, Elazig, Kars, Kutahya, Ordu, Rize, Sanliurfa and Sirnak.

In addition, we own switch buildings in different cities in Turkey, such as Istanbul (Mahmutbey), Aydin, Balikesir, Denizli, Mugla, Bodrum, Izmit, Konya and Erzurum. Switch buildings are where the network switching equipment, such as MSC, MGW, BSC and RNC, is located.

b. Access Network Infrastructure

Our Access Network consists of Base Station Controllers (BSC) and Radio Network Controllers (RNC) at Operation Maintenance Centers (OMC) and BTS and Node Bs located on rooftops or towers. BTSs are the fixed transmitter and receiver equipment in each cell, or coverage area of a single antenna, of a mobile communications network that communicates by radio signal with mobile telephones in the cell. In the same manner, Node Bs are radio signal transmitter and receiver equipment in each 3G cell, connected to and controlled by RNC in order to realize 3G and HSPA+ coverage for 3G /HSPA equipped mobile phones.

At the end of December 2013, we owned over 36,000 base stations and leased the land underlying such base stations.

In 2009, the ICTA resolved that operators may transfer the right of use of their towers to third parties. In accordance with this resolution, we transferred the rights of some towers to Global Tower. As of December 2013, Global Tower provides services to the industry with over 2,600 masts and towers built by Global Tower, and over 2,300 towers transferred from Turkcell throughout Turkey.

c. Transmission Network Infrastructure

Turkcell's Mobile Backhaul utilizes various transport technologies to provide for an efficient, resilient and cost effective transmission network. Connectivity between sites is provided using Microwave Radio Links and leased lines carried over Synchronous Digital Hierarchy (SDH) and Ethernet over Dense Wavelength Division Multiplexing (DWDM) where appropriate. Cell sites with site connectivity are mostly served by point-to-point microwave radio links owned and managed by Turkcell, make up more than 90% of our network. Interconnections with other Public Land Mobile Networks (PLMN), Public Switched Telephone Networks (PSTN), Long Distance Telephony Services (LDTS) and small operator companies are realized through leased line connections. More than 90% of our leased line network connectivity is currently provided by our subsidiary Turkcell Superonline . The rest of the leased lines are provided by the incumbent Telekom operator Turk Telekom . With the growth of data usage and in preparation for LTE , fiber optic connectivity to cell sites has also become a part of our network topology. As a result the overall infrastructure capacity usage is fully optimized and a high grade of availability is achieved through topology resiliency and packet base IP Mobile Backhaul network infrastructure.

ITEM 4A. UNRESOLVED STAFF COMMENTS

None.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion and analysis of our management with regard to our financial condition and the results of our operations should be read together with the consolidated financial statements included in this annual report. In addition to historical information, the following discussion contains forward-looking statements based on current expectations that involve risks and uncertainties. Actual results and the timing of certain events may differ significantly from those projected in such forward-looking statements due to a number of factors, including those set forth in Item 3.D. Risk Factors and elsewhere in this annual report.

I. Overview of the Turkish Economy

2013 was a challenging year for global markets. Global growth has further slowed down in 2013 and the world is continuing its slow recovery. Following Turkey's rating upgrade by Fitch in November 2012 Moody's also followed with an upgrade in May 2013, boosting Turkey into investment grade rating. The Turkish economy grew uninterruptedly for sixteen quarters in a row and grew by 4.0% in the first nine months of 2013. Based on market estimates, the GDP growth in Turkey is expected to be at around 2.8% in 2014, driven by domestic demand. 2014 is expected to be a challenging year globally where global growth is likely to be better but still modest. On the U.S. side, the Federal Reserve (FED) has commenced its exit strategy by the tapering of its quantitative easing policy in December 2013. Less liquidity in the markets due to decreasing quantitative easing is expected to have a negative effect on emerging market economies and raise global interest rates.

TRY depreciated by 19.7% against the U.S. Dollar in 2013, and a further devaluation may happen in 2014. The inflation rate, based on the Turkish consumer price index, increased to 7.4% by the end of 2013 from 6.2% a year ago led by an increase in food prices and a pass through effect from TRY depreciation. The latest CBRT expectation survey, as of March 14, 2014, indicates that consumer inflation is expected to be 8.0% at the end of 2014. Furthermore, the CBRT hiked interest rates in January 2014 putting some downward pressure on inflation. The current account deficit increased to 7.2% of GDP in the first nine months of 2013 from 6.1% in 2012. The current account deficit is expected to narrow to a limited extent in 2014. Potential capital outflows due to a decrease in global USD liquidity and rising global interest rates may have a negative impact on the Turkish economy.

Turkey will enter an electoral period, with municipal and presidential elections in 2014, and parliamentary elections in 2015. In 2014, the municipal elections will be in March followed by presidential elections in August. On a regional level, potential or further instability in the CIS, Balkans, Middle East, North Africa and Caucasian regions may impact the development of the Turkish economy. Tension in Ukraine, Syria and the Middle East region are the most important neighboring political risks.

II. Taxation Issues in the Telecommunications Sector

Under current Turkish tax laws, there are several taxes imposed on the services provided by telecommunications operators in Turkey. These taxes are charged to subscribers by GSM operators and remitted to the relevant tax authorities. They may be charged upon subscription, on an annual basis or on an *ad valorem* basis on the service fees charged to subscribers.

Table of Contents

The following are the most significant taxes imposed on our telecommunications services:

a. *Special Communications Tax*

The Turkish government imposed a special 25% communications tax on mobile telephone services as part of a series of new taxes levied to finance public works required to respond to the earthquakes that struck Turkey's Marmara region in 1999. This tax is paid by mobile users and collected by GSM operators.

Under Law No. 5838, which became effective on March 1, 2009, wired, wireless and mobile Internet service providers are subject to a special 5% communications tax (previously such tax was 25%). Other than mobile Internet services, all mobile telecommunication services remain subject to a special 25% communications tax. The tax collected from subscribers in one calendar month is remitted to the tax authorities within the first 15 days of the following month.

Under Law No. 6322, effective July 1, 2012, new subscriptions for Machine to Machine (M2M) simcards is not subject to the special communication tax levied upon new subscriptions.

The special communications tax on new subscriptions was TRY 39 (equivalent to \$18 as of March 14, 2014) and TRY 37 (equivalent to \$17 as of March 14, 2014) in 2013 and 2012, respectively. As of January 1, 2014, the special communications tax on new subscriptions levied is TRY 40 (equivalent to \$18 as of March 14, 2014). The tax has had a correlative negative impact on mobile usage.

b. *Value Added Tax (VAT)*

Like all services in Turkey, services provided by GSM operators are subject to VAT, which is 18% of the service fees charged to subscribers. We declare VAT to the Ministry of Finance within 24 days and remit VAT paid by our subscribers within the first 26 days of the month following when the tax was incurred, after the offset of input VAT incurred by us.

VAT for roaming services was, until November 3, 2009, calculated solely on the mark-up amount on subscribers' invoices for roaming services. Following the Ministry of Finance's declaration of a change in its position regarding roaming charges, we began imposing VAT and the special communications tax on the entire amount of roaming charges, starting from November 3, 2009, to comply with this change in position.

Reverse charge VAT is calculated on the invoices issued by foreign GSM operators.

c. License and Annual Utilization Fees

According to Article number 46 of the Electronic Communications Law, subscribers registered in the system are subject to both license and annual utilization fees.

The license fee is paid once on the subscription per subscriber. As of January 1, 2013, the license fee was TRY 15.68 (equivalent to \$7.05 as of March 14, 2014). The license fee is paid to the government in equal installments, which is divided into the number of months remaining in the year. However, it is collected in 12 equal monthly installments. As of January 1, 2014, the license fee is TRY 16.30 (equivalent to \$7.33 as of March 14, 2014).

The payment of the annual utilization fee to the government depends on whether a subscriber is postpaid or prepaid. For postpaid subscribers, the monthly utilization fee for 2014 is TRY 1.36 (equivalent to \$0.61 as of March 14, 2014), and is charged to subscribers monthly. For prepaid subscribers, the annual utilization fee is calculated by multiplying the number of registered prepaid subscribers at the previous year-end by the annual utilization fee and the calculated bulk annual utilization fee is paid by the GSM operators the following year on the last business day in February. We decided to collect utilization fees from some of our prepaid subscribers starting from June 2011.

Table of Contents

d. Special Consumption Tax

The Special Consumption Tax (SCT) is a tax on prescribed goods, which includes mobile phones. The SCT is charged on mobile phones either when they are imported or when they are sold by Turkish manufacturers. The SCT rate on mobile phones (mobile phones are legally defined as transmitter/receiver cellular phones) was 20% prior to October 13, 2011, and the SCT calculated in accordance with the 20% rate must not fall below TRY 40 (equivalent to \$18 as of March 14, 2014) per cellular phone device (Temporary Article 6 of Special Consumption Tax Code).

The SCT rates were raised on some motor vehicles, mobile phones, alcoholic beverages and tobacco products by a decision of the Board of Ministers, which was published in the Official Gazette on October 13, 2011. The SCT rate over cellular phones was increased from 20% to 25% and the minimum SCT amount to be calculated was increased to TRY 100 (equivalent to \$45 as of March 14, 2014) (previously the minimum SCT amount was TRY 40 (equivalent to \$18 as of March 14, 2014)) effective from October 13, 2011.

The SCT rates were again raised on some motor vehicles, mobile phones and alcoholic beverages by a decision of the Board of Ministers, which was published in the Official Gazette on January 1, 2014. The minimum SCT amount to be calculated over cellular phones was increased to TRY 120 (equivalent to \$54 as of March 14, 2014) effective from January 1, 2014.

For a description of various tax related disputes to which we are party, see Item 8.A. Consolidated Statements and Other Financial Information Legal Proceedings .

III. Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with IFRS as issued by the IASB. The preparation of these financial statements requires us to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the financial statements and for the period then ended. On an ongoing basis, we evaluate the estimates used. We base our estimates on historical experience, actuarial estimates, current conditions and various other assumptions that we believe to be reasonable under the circumstances. These estimates form the basis for making judgments about the carrying values of assets and liabilities and are not readily apparent from other sources. Actual results may differ from these estimates. Our critical accounting policies are disclosed in Note 3 (Significant Accounting Policies) to our consolidated financial statements in this Form 20 F.

5.A Operating Results

Our audited consolidated financial statements as of December 31, 2013 and December 31, 2012 and for each of the years in the three-year period ended December 31, 2013 included in this annual report have been prepared in accordance with IFRS as issued by the IASB.

I. Overview of Business

Turkcell, a joint stock company organized and existing under the laws of the Republic of Turkey, was formed in 1993 and commenced operations in 1994. We operate under a 25-year GSM license (the 2G License) and a 20-year GSM license (the 3G License). We were granted the 2G License in April 1998 upon payment of an upfront license fee of \$500 million. On April 30, 2009, we signed a license agreement with the ICTA, which provides authorization for providing IMT 2000/UMTS services and infrastructure. We acquired the A type license providing the widest frequency band for a consideration of EUR 358 million (excluding VAT). The 3G License is effective for 20 years starting from April 30, 2009. Pursuant to the agreement, we started to provide IMT 2000/UMTS services as of July 30, 2009.

Table of Contents

Under our 2G License, we pay the Undersecretariat of the Treasury (the Turkish Treasury) a monthly treasury share equal to 15% of our gross revenue. Of such fee, 10% is paid to the Ministry of Transport, Maritime Affairs and Communications of Turkey (Turkish Ministry) for the universal service fund.

We believe that the build-out of our network in Turkey is substantially completed. As of December 31, 2013, our network covered 100% of Turkish cities with a population of 1,000 or more and the majority of Turkey's tourist areas and principal intercity highways (according to the Turkish Statistical Institute 2010 Census). We currently meet the coverage requirements of our 2G license in all material respects.

In accordance with our 3G license agreement, we are required to cover the population within the borders of all metropolitan municipalities and within the borders of all cities and municipalities in three and six years, respectively. Moreover, we are required to cover the population in all settlement areas with a population higher than 5,000 and 1,000 in eight and ten years, respectively, following the date of the agreement. As of December 31, 2013, we had reached 86.2% population coverage.

Other than our 2G and 3G licenses, we also operate under interconnection agreements with other operators that allow us to connect our networks with those operators to enable the transmission of calls to and from our mobile communications system through existing digital fixed telephone switches. For example, we have an interconnection agreement with Turk Telekom that provides for the interconnection of our network with Turk Telekom's fixed-line network. Under our agreement with Turk Telekom, as amended, we pay Turk Telekom an interconnection fee per call based on the type and length of the call for calls originating on our network and terminating on Turk Telekom's fixed-line network, as well as fees for other services. We also collect an interconnection fee from Turk Telekom for calls originating on their fixed-line network and terminating on ours. We also have interconnection agreements with Vodafone and Avea pursuant to which we have agreed, among other things, to pay interconnection fees to them for calls originating on our network and terminating on theirs, and they have agreed to pay interconnection fees for calls originating on their networks and terminating on our networks.

Our subscriber base has grown substantially since we began operations in 1994. At year-end 1994, we had 63,500 subscribers. By year-end 2013, that number for the Group had grown to 71.3 million.

According to operator announcements, there were 69.4 million GSM lines in the Turkish GSM market as of December 31, 2013. In addition, the penetration rate in such market was 91% as of December 31, 2013. Despite the increasingly competitive environment, we sustained our leading position with a market share of 51% for the year ended December 31, 2013, according to operator announcements. We increased our postpaid subscriber base from 38% in 2012 to 40% in 2013 due to our focus on value. On the distribution channel front, we made revisions to our existing subdealer network and the commission structure to increase the availability of the Turkcell brand. As of December 31, 2013, we had 21.2 million prepaid and 14.0 million postpaid subscribers in our Turkish GSM network. We recorded the highest usage levels since 2001. Our average MoU in Turkey increased 7% to 259.3 minutes in 2013 from 243.3 minutes in 2012, as a result of our successful campaigns. Our average revenue per user in Turkey decreased to \$11.4 in 2013 from \$11.6 in 2012 mainly arising from the depreciation of the TRY against the USD. In TRY terms, ARPU increased to TRY 21.7 in 2013 compared to TRY 20.9 in 2012. We have increased our average revenue per user metric in Turkey mainly due to continued strong growth in data usage and an increase in the postpaid subscriber base despite the decrease in interconnection fees.

Our revenues are generated in large part from interconnection fees and retail tariffs. Regulatory decisions have had and may continue to have the effect of decreasing interconnection rates and imposing minimum and maximum prices on our retail tariffs. For a more detailed discussion of these factors, please see Item 4.B. Business Overview Regulation of the Turkish Telecommunications Industry and Item 5.D. Trend Information .

Churn rate is the percentage calculated by dividing the total number of subscriber disconnections during a period by the average number of subscribers for the same period. For these purposes, we define average number of subscribers as the number of subscribers at the beginning of the period plus one half of the total number of gross subscribers acquired during the period. Churn refers to subscribers that are both voluntarily and involuntarily disconnected from our network. Our churn rate for operations in Turkey was 27.4% for the year ended December 31, 2013, compared to 27.1% for the year ended December 31, 2012. Our churn rate increased 0.3 percentage points. This increase was primarily due to the impact of Turkcell's compliance with the ICTA decision, dated September 26, 2012, enabling users of mobile lines without subscription to register those lines under their names at no charge. Each registered mobile line has to be recorded as a churn and also as an acquisition in operators' records. Excluding the impact of this decision, our churn rate would have been 26.4% in 2013.

Table of Contents

We have an allowance for doubtful receivables in our consolidated financial statements for non-payments and disconnections that amounted to \$324.0 million and \$392.9 million as of December 31, 2013 and 2012 respectively, which we believe is adequate. The main reason for the decrease in allowance for doubtful receivables is the depreciation of TRY against the USD and the write-off of overdue receivables amounting to \$77.6 million, which is netted off with the impairment loss recognized amounting to \$79.5 million. In TRY terms, allowance for doubtful receivables decreased by 1.2%.

II. International and Other Domestic Operations

In addition to our businesses in Turkey, we have telecommunications operations in Ukraine, the Turkish Republic of Northern Cyprus, Belarus and Germany. We also operate in other countries through our associate, Fintur. For a description of, and additional information regarding, our international and other domestic operations, see Item 4.B. Business Overview .

III. Revenues

In Turkey, we and other mobile communications operators have entered into interconnection agreements which set out the terms and conditions regarding the pricing terms as well as the periodical revision of such terms. See Item 4.B. Business Overview Regulation of the Turkish Telecommunications Industry .

In previous periods, disagreements existed between us and the other mobile communications operators regarding the revision of the pricing terms of the interconnection agreements. In addition, there is a disagreement with Turk Telekom about international calls. See Item 8.A. Consolidated Statements and Other Financial Information Legal Proceedings and Note 34 to our Consolidated Financial Statements in this Form 20-F.

IV. Operating Costs

a. Direct Cost of Revenues

Direct cost of revenues includes treasury shares, transmission fees, base station rent and energy expenses, billing costs, cost of simcards sold, depreciation and amortization charges, repair and maintenance expenses directly related to services rendered, roaming charges paid to foreign mobile communications operators for calls made by our subscribers while outside Turkey, interconnection fees mainly paid to Turk Telekom, Vodafone and Avea, handset costs offered as part of our loyalty programs and handset sales, and wages and salaries and personnel expenses for technical personnel.

b. Administrative Expenses

Administrative expenses consist of fixed costs, including company cars, office rental, office maintenance, travel, insurance, consulting, collection charges, wages, salaries and personnel expenses for non-technical, non-marketing, and non-sales employees, and other overhead charges. Our administrative expenses also include bad debt expenses of our subscribers and customers.

c. Selling and Marketing

Selling and marketing expenses consist of dealers and distributors supports, advertising, prepaid frequency usage fees, wages, salaries and personnel expenses of sales and marketing related employees, and other expenses, including travel expenses, office expenses, insurance, company car expenses, and training and communication expenses.

Table of Contents**d. Results of Operations**

The following table shows information concerning our consolidated statements of operations for the years indicated:

Revenues	5,975.4	5,865.8	5,609.7
Direct cost of revenues	(3,693.3)	(3,622.3)	(3,528.9)
Gross Profit	2,282.1	2,243.5	2,080.8
Administrative expenses	(286.8)	(270.5)	(246.5)
Selling and marketing expenses	(964.1)	(953.2)	(1,010.6)
Other income/(expense)	(29.2)	(58.8)	(128.7)
Results from operating activities	1,002.0	961.0	695.0
Finance costs	(95.5)	(125.5)	(289.7)
Finance income	395.4	386.1	330.3
Net finance income/(costs)	299.9	260.6	40.6
Monetary gain	82.9	95.3	144.8

Results from operating activities	16.8	16.4	12.4

V. Segment Overview

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

We have three reportable segments, as described below, which are based on the dominant source and nature of our risk and returns as well as our internal reporting structure. These strategic segments offer similar types of services, but they are managed separately because they operate in different geographical locations and are affected by different economic conditions.

We are comprised of the following main operating segments: Turkcell, Euroasia and Belarusian Telecom, all of which are GSM operators in their countries.

Other operations mainly include our companies operating in telecommunications, internet and broadband, betting, call center and value added services.

Table of Contents

(in \$ million)	Turkcell 2013	Euroasia 2013	Belarusian Telecom 2013	Other 2013	Total 2013

* For a definition of Adjusted EBITDA, please see footnote 10 on page 7.

Table of Contents

Turkcell

a. 2013 compared to 2012

Total revenues generated by Turkcell slightly decreased 1.6%, to \$4,789.8 million in 2013 from \$4,869.7 million in 2012, mainly due to 6.6% depreciation, on average, of the TRY against the USD partially netted off with the increase in mobile broadband and services. On a TRY basis, total revenues increased 4.6% mainly due to 17% growth in mobile broadband and services revenues. For a more detailed discussion of the factors affecting our revenues, please see Item 4.B. Business Overview Regulation of the Turkish Telecommunications Industry and Item 5.D. Trend Information .

Turkcell s EBITDA slightly decreased 1.7% to \$1,485.1 million in 2013 from \$1,511.5 million in 2012. On a TRY basis, EBITDA increased 4.5%, primarily due to an increase in revenues which was partially offset by an increase in direct cost of revenues, selling and marketing expense and administrative expenses. The increase in the direct cost of revenues mainly resulted from an increase in treasury share expenses stemming from increasing revenues, tax expenses regarding the ICTA decision dated September 26, 2012 enabling users of mobile lines without subscription to register those lines under their names at no charge and an increase in network-related costs. The increase in administrative expenses mainly resulted from an increase in bad debt expenses and wages, salaries and personnel expenses. The increase in selling and marketing expense mainly resulted from an increase in prepaid frequency usage fees, marketing expenses and wages, salaries and personnel expenses.

Net finance income increased 37.8% from \$313.5 million in 2012 to \$431.9 million in 2013. On a TRY basis, net finance income also increased 48.1% mainly due to a change in foreign exchange gain/(loss) and interest income on contracted receivables. The 19.7% depreciation of the TRY against the USD in 2013, as opposed to the 5.6% appreciation of the TRY against the USD in 2012, had a positive impact on net finance income since Turkcell has a long position. Interest income on contracted receivables increased mainly due to an increase in the receivables from contracted handset campaigns.

Depreciation expense decreased 2.8% from \$506.2 million in 2012 to \$491.8 million in 2013. On a TRY basis, depreciation expense increased by 3.5%.

b. 2012 compared to 2011

Total revenues generated by Turkcell slightly increased 1.1%, to \$4,869.7 million in 2012 from \$4,818.5 million in 2011, mainly due to an increase in voice revenues and mobile broadband and services revenues partially netted off with the 7.3% depreciation, on average, of the TRY against the USD. On a TRY basis, total revenues increased 8.6% mainly due to 6% growth in voice revenues and 17% growth in mobile broadband and services revenues.

Turkcell s EBITDA slightly increased 0.2% to \$1,511.5 million in 2012 from \$1,507.8 million in 2011. On a TRY basis, EBITDA increased 7.8%, primarily due to an increase in revenues and a decrease in selling and marketing expense, which was partially offset by an increase in

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

direct cost of revenues and administrative expenses. The decrease in selling and marketing expense mainly resulted from a decrease in prepaid frequency usage fee and selling expenses. The increase in the direct cost of revenues mainly resulted from an increase in interconnect costs arising from an increase in off-net airtime; together with higher fixed network costs and wages and salaries expenses. The increase in administrative expenses mainly resulted from an increase in bad debt expenses.

Net finance income decreased 20.0% from \$391.9 million in 2011 to \$313.5 million in 2012. On a TRY basis, net finance income also decreased 15.6% mainly due to a change in foreign exchange gain/(loss), which was partially offset by an increase in interest income. The 5.6% appreciation of the TRY against the USD in 2012, as opposed to the 22.2% depreciation of the TRY against the USD in 2011, had a negative impact on net finance income since Turkcell has a long position. Interest income on time deposits increased due to an increase in the cash balance and an increase in interest rates.

Table of Contents

Depreciation expense increased 4.2% from \$485.8 million in 2011 to \$506.2 million in 2012. On a TRY basis, depreciation expense also increased by 11.8%.

Euroasia

a. 2013 compared to 2012

Astelit, in which we hold a 55.0% stake through Euroasia, has operated in Ukraine since February 2005 under the brand (life:). Since its inception in February 2005, Astelit has worked on establishing network coverage to provide high quality services in Ukraine. Astelit's subscriber base increased 13.5% from 11.1 million at the end of December 31, 2012 to 12.6 million at the end of December 31, 2013. Euroasia's segment revenue increased 11.0%, from \$405.4 million in 2012 to \$449.8 million in 2013. Euroasia's segment revenue increased by 11.0% on an original currency basis mainly stemming from the subscriber base expansion and higher mobile internet and other value-added service revenues.

Euroasia's EBITDA increased 19.8% to reach \$137.1 million in 2013 from \$114.4 million in 2012. As a percentage of revenues, EBITDA increased 2.3 percentage points to 30.5% in 2013 from 28.2% in 2012. Improvement in EBITDA mainly resulted from continued focus on business efficiency and operational profitability.

Net finance cost remained almost stable at a \$54.7 million loss in 2013 compared to a \$54.2 million loss in 2012.

b. 2012 compared to 2011

Astelit's subscriber base increased 14.4% from 9.7 million at the end of December 31, 2011 to 11.1 million at the end of December 31, 2012. Euroasia's segment revenue increased 9.9%, from \$368.8 million in 2011 to \$405.4 million in 2012. Euroasia's segment revenue increased by 10.2% on an original currency basis mainly stemming from the subscriber base expansion and higher mobile internet and other value-added service revenues.

Euroasia's EBITDA increased 21.4% to reach \$114.4 million in 2012 from \$94.2 million in 2011. As a percentage of revenues, EBITDA increased 2.7 percentage points to 28.2% in 2012 from 25.5% in 2011. Improvement in EBITDA mainly resulted from an efficient approach to marketing expenses, as well as other cost-control initiatives conducted by Euroasia which resulted in lower marketing and general administrative expenses both in nominal terms and as a percentage of revenues on an original currency basis.

Net finance cost decreased 2.5%, from a \$55.6 million loss in 2011 to a \$54.2 million loss in 2012, mainly due to an increase in interest income and a decrease in foreign exchange loss as a result of almost no change in Ukrainian Hryvnia against the U.S. Dollar in 2012, as opposed to 0.4% depreciation of the local currency against the U.S. Dollar in 2011, since Euroasia has a short position.

Belarusian Telecom

a. 2013 compared to 2012

In 2013, Belarusian Telecom's subscriber base increased 9% from 1.1 million in 2012 to 1.2 million people in line with Belarusian Telecom's churn policy and value focus approach. Belarusian Telecom's segment revenues increased 13.6% from \$62.2 million in 2012 to \$70.7 million in 2013. Belarusian Telecom's segment revenues increased by 26% on an original currency basis mainly due to strong position in data and growth in value added services in addition to terminal revenues.

Belarusian Telecom's EBITDA improved 38.9% from a \$5.4 million loss in 2012 to a \$3.3 million loss in 2013. On an original currency basis, Belarusian Telecom's EBITDA improved as well due to an increase in revenues partially netted off with an increase in direct cost of revenues and selling and marketing expenses.

Table of Contents

Net finance cost increased 50.2% to a \$98.5 million loss in 2013 from a \$65.6 million loss in 2012, mainly due to an increase in foreign exchange loss as a result of the devaluation of the Belarusian Ruble against the U.S. Dollar in 2012 by only 2.6%, while the Belarusian Ruble depreciated 11.0% in 2013.

As at December 31, 2013, an impairment test was performed for Belarusian Telecom and an after tax impairment in the amount of \$28.7 million was calculated for the cash-generating unit, allocated to the fixed assets of the cash-generating unit on a pro-rata basis based on the carrying amount of each asset in the cash-generating unit and included in the depreciation expense. The tax effect of the long-lived asset impairment of \$1.7 million is included in the deferred taxation benefit.

b. 2012 compared to 2011

In 2012, Belarusian Telecom's subscriber base decreased 38.9% from 1.8 million in 2011 to 1.1 million people in line with Belarusian Telecom's churn policy and value focus approach. Belarusian Telecom's segment revenues increased 29.6% from \$48.0 million in 2011 to \$62.2 million in 2012. Belarusian Telecom's segment revenues increased by 33.1% on an original currency basis.

Belarusian Telecom's EBITDA improved 55.7% from a \$12.2 million loss in 2011 to a \$5.4 million loss in 2012. On an original currency basis, Belarusian Telecom's EBITDA improved as well due to an increase in revenues partially netted off with an increase in direct cost of revenues and selling and marketing expenses.

Net finance cost decreased 75.6% to a \$65.6 million loss in 2012 from a \$268.4 million loss in 2011, mainly due to a decrease in foreign exchange loss as a result of the devaluation of the Belarusian Ruble against the U.S. Dollar in 2011 by 178.3%, while the Belarusian Ruble only depreciated 2.6% in 2012.

As at December 31, 2012, an impairment test was performed for Belarusian Telecom and an after tax impairment in the amount of \$5.1 million was calculated for the cash-generating unit, allocated to the fixed assets of the cash-generating unit on a pro-rata basis based on the carrying amount of each asset in the cash-generating unit and included in the depreciation expense. The tax effect of the long-lived asset impairment of \$1.7 million is included in the deferred taxation benefit.

VI. Year Ended December 31, 2013 Compared to the Year Ended December 31, 2012

We had 35.2 million GSM subscribers in Turkey, including 21.2 million prepaid subscribers, as of December 31, 2013, compared to 35.1 million GSM subscribers in Turkey, with 21.9 million prepaid subscribers, as of December 31, 2012. During 2013, we recorded positive net additions of 75 thousand Turkish GSM subscribers.

In Ukraine, we had 12.6 million and 11.1 million subscribers as of December 31, 2013 and 2012, respectively. During 2013, we gained approximately 1.5 million new Ukrainian GSM subscribers. This was primarily due to successful regional strategy, effective regional tariffs and campaigns.

a. Revenues

Total revenues for the year ended December 31, 2013 increased 1.9% to \$5,975.4 million, from \$5,865.8 million in 2012. On a TRY basis, our revenues increased 8.6% compared to 2012, mainly due to a 38% growth in Turkcell Turkey's mobile broadband revenues, as well as a higher contribution from our subsidiaries, particularly through Turkcell Superonline and Astelit.

Revenues from communication fees for the year ended December 31, 2013 decreased 0.1% to \$5,369.0 million, from \$5,374.0 million in 2012, mainly due to the 6.6% depreciation, on average, of the TRY against the USD. Our revenues from communication fees increased 6.4% on a TRY basis due to the growth in mobile broadband and service revenues together with the increase in interconnect revenues mainly due to the increase in incoming airtime despite the negative impact of the interconnection fee cuts effective from July 1, 2013 and the increase in outgoing revenues due to an increase in outgoing airtime. Communication fees consist of revenues from postpaid and prepaid subscribers, interconnect revenues and roaming revenues. In Turkey, postpaid revenue increased significantly whereas prepaid revenue decreased slightly compared to 2012. Postpaid subscriber usage is generally higher than prepaid subscriber. In Turkey, during 2013, we maintained our focus on the postpaid segment, with newly launched campaigns and offers, increased data lines, increased penetration of smartphones and promotions to switch customers from the prepaid to the postpaid segment. We focus on postpaid subscribers because there is, in general, higher average revenue per postpaid subscriber and a lower churn rate. In 2013, postpaid average revenue per user was TRY 37.3 whereas prepaid average revenue per user was TRY 11.8. These figures indicate that postpaid average revenue per user is approximately 3.2 times the prepaid average revenue per user. Therefore, the increase in the number of postpaid subscribers has a positive effect on blended average revenue per user.

Table of Contents

Commission fees and revenue on betting business increased to \$120.4 million for the year ended December 31, 2013, from \$89.0 million for the year ended December 31, 2012. On a TRY basis, commission fees and revenue on betting business increased 44.8%. This increase was primarily due to the increase in betting turnover in Turkey and revenue on betting business generated in Azerbaijan.

Monthly fixed fees revenue decreased 20.9% to \$40.0 million for the year ended December 31, 2013, compared to \$50.6 million for the year ended December 31, 2012. On a TRY basis, monthly fixed fees revenue decreased 16.3% mainly due to the increased usage of packages which do not include monthly fixed fees.

b. Direct cost of revenues

Direct cost of revenues, including depreciation and amortization, increased 2.0% to \$3,693.3 million in 2013 from \$3,622.3 million for the year ended December 31, 2012. On a TRY basis, direct cost of revenues increased 8.9% compared to 2012, due to an increase in treasury shares and universal funds paid, network related expenses, wages and salaries and other items (mainly from the increase in direct cost of revenues in Azerbaijan as a result of betting business turnover increase, increase in ADSL resell expense of Turkcell Superonline and tax expense regarding the ICTA decision dated September 26, 2012 enabling users of mobile lines without subscription to register those lines under their names at no charge.).

Treasury shares and universal funds paid to the Turkish Treasury and Ministry of Transport, Maritime Affairs and Communications (Turkish Ministry) decreased 0.8%, from \$767.0 million for the year ended December 31, 2012 to \$761.0 million in 2013. However, they increased 5.5% on a TRY basis lower than the increase in revenues due to increased contribution of subsidiaries to revenues.

Depreciation and amortization charges (including impairment charges) increased 4.8%, from \$788.6 million for the year ended December 31, 2012 to \$826.8 million in 2013, while on a TRY basis depreciation and amortization charges increased 12.9%, mainly due to the increase in depreciation and amortization charges of Turkcell Turkey, Turkcell Superonline and the impairment impact recognized for Belarusian operations. The amortization expense for our GSM license and other telecommunication operating licenses was \$53.5 million and \$57.5 million for the years ended December 31, 2013 and 2012, respectively.

Interconnection and termination costs decreased 3.9% to \$738.2 million in 2013 from \$768.1 million for the year ended December 31, 2012. They increased 1.9% on a TRY basis due to the increase in off-net traffic which is partially netted off with the impact of interconnection fee cuts effective from July 1, 2013.

Transmission costs, site costs and maintenance costs decreased approximately 13.2%, from \$129.7 million for the year ended December 31, 2012 to \$112.6 million in 2013. On a TRY basis, these costs decreased 7.7%, mainly resulting from the decrease in the maintenance cost as a result of the decrease of the prices in regular maintenance services. Furthermore, uncapitalizable radio costs and expenses increased 3.3%, from \$382.8 million for the year ended December 31, 2012 to \$395.3 million in 2013. Radio costs increased 10.6% on a TRY basis mainly due to the increase in the number of radio base stations.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Wages, salaries and personnel expenses for technical personnel increased 4.0% to \$327.9 million in 2013 from \$315.4 million for the year ended December 31, 2012. They increased 10.9% on a TRY basis mainly due to the periodic increase in wages and salaries.

Table of Contents

Roaming expenses decreased 12.8% to \$41.4 million in 2013 from \$47.5 million for the year ended December 31, 2012. On a TRY basis they decreased 6.4% mainly due to a decrease in roaming tariffs partially netted off with the increase in roaming durations between international operators and Turkcell.

Billing costs decreased 12.0% to \$47.0 million in 2013 from \$53.3 for the year ended December 31, 2012. On a TRY basis they decreased 6.8% mainly due to the increase in the usage of the electronic invoices for billing.

As a percentage of revenues, direct cost of revenues remained stable at 61.8% in 2013 and 2012, as a result of increases in depreciation and amortization expenses 0.4 pp and other cost items 0.3 pp as opposed to a decrease in interconnection and termination expenses 0.7 pp as a percentage of revenues.

Gross profit margin remained stable at 38.2% in 2013 and 2012.

c. Administrative expenses

General and administrative expenses increased 6.0% to \$286.8 million in 2013 from \$270.5 million in 2012. On a TRY basis, these expenses increased 13.7%, mainly due to an increase in bad debt expenses resulting from the increased handset bundled offers, together with the increase in wages and salary expenses arising from periodic increases in such figures. As a percentage of revenues, general and administrative expenses increased to 4.8% for the year ended December 31, 2013, from 4.6% in 2012.

Wages, salaries and personnel expenses for non-technical and non-marketing employees increased 8.6% to \$108.1 million in 2013 from \$99.5 million for the year ended December 31, 2012. On a TRY basis, they increased 16.5%, primarily due to periodic increases in wages and salaries.

Bad debt expenses increased 27.3% to \$79.5 million in 2013 from \$62.4 million for the year ended December 31, 2012. On a TRY basis, bad debt expense increased 37.2%, mainly due to increased handset bundled offers. We provided an allowance of \$324.0 million and \$392.9 million for doubtful receivables for the years ended December 31, 2013 and 2012, respectively, depending on the likelihood of recoverability of trade and other receivables based on the aging of the balances, historical collection trends and general economic conditions.

Other administrative expenses, including collection and consulting expenses, decreased 8.6% to \$99.1 million in 2013 from \$108.6 million for the year ended December 31, 2012 mainly due to the 6.6% depreciation, on average, of the TRY against the USD. On a TRY basis, other administrative expenses decreased 2.5%.

d. Selling and marketing expenses

Selling and marketing expenses increased 1.1% to \$964.1 million in 2013 from \$953.2 million for the year ended December 31, 2012. However, on a TRY basis, they increased 8.1%, primarily due to an increase in selling expenses, wages and salary expenses and frequency usage fees paid for prepaid subscribers. As a percentage of revenues, selling and marketing expenses decreased from 16.3% for the year ended December 31, 2012 to 16.1% for the year ended December 31, 2013.

Selling expenses, which consist of distributor support, dealer support, and other selling expenses, increased 0.9% to \$413.0 million for 2013 from \$409.2 million for 2012. On a TRY basis, selling expenses increased 8.0%, mainly due to an increase in commission paid to dealers.

Total marketing expenses, which consist of advertising, market research, sponsorships expenses and customer relations expenses, decreased 7.4%, to \$245.3 million in 2013 from \$264.9 million for the year ended December 31, 2012. On a TRY basis, marketing expenses decreased 1.1%.

Table of Contents

Prepaid subscribers frequency usage fee expenses increased 19.0%, to \$79.4 million in 2013 from \$66.8 million for the year ended December 31, 2012. On a TRY basis, these expenses increased 26.5%, mainly as a result of the increase in tariffs and decrease in the charged amount to prepaid subscribers.

Wages, salaries and personnel expenses for selling and marketing employees increased 12.0%, to \$173.0 million in 2013 from \$154.5 million for the year ended December 31, 2012. On a TRY basis, these expenses increased 19.6%, mainly due to periodic increase in wages and salaries.

e. Other operating income/(expense)

Other net operating expenses decreased to \$29.2 million in 2013 from \$58.8 million in 2012, mainly due to a decrease in impairment charges recognized on our investments.

Other expenses for the year ended December 31, 2013 mainly consists of payments and provisions for the penalties imposed by ICTA for not complying with relevant regulations as explained in Note 34 (Commitments and Contingencies, Legal Proceedings) to our Consolidated Financial Statements in this Form 20-F, amounting to \$18.4 million and impairment recognized on our investment in T- Medya Yatirim Sanayi ve Ticaret AS (T-Medya) and Aks Televizyon Reklamcilik ve Filmcilik Sanayi ve Ticaret AS (Aks TV) amounting to \$9.3 and \$10.0 million, respectively.

f. Results from operating activities

Results from operating activities increased to \$1,002.0 million in 2013 from \$961.0 million for the year ended December 31, 2012. As a percentage of revenues, results from operating activities increased from 16.4% in 2012 to 16.8% in 2013 mainly due to a decrease in selling and marketing expenses and other operating income/(expense) as a percentage of revenues.

g. Net financial income/(costs)

Net financial income increased \$299.9 million in 2013 from \$260.6 million in 2012, due to a decrease in financial expenses from \$125.5 million in 2012 to \$95.5 million in 2013 (mainly arising from lower interest payments for legal cases and a decrease in discount interest expense) and an increase in finance income from \$386.1 million in 2012 to \$395.4 million in 2013. On a TRY basis, net financial income increased to TRY 555.3 million in 2013 from TRY 467.5 million in 2012.

Finance income increased 2.4% to \$395.4 million in 2013 from \$386.1 million for the year ended December 31, 2013. On a TRY basis, it increased 9.9% due to an increase in interest earned on contracted receivables.

Finance cost decreased 23.9% to \$95.5 million in 2013 from \$125.5 million for the year ended December 31, 2012. On a TRY basis, it decreased 8.7%, mainly due to lower interest payments for legal cases and a decrease in discount interest expenses as opposed to the increase in translation losses a \$2.4 million loss in 2012 to a \$32.4 million loss in 2013 mainly due the higher depreciation of the Belarusian Ruble against the U.S. Dollar in 2013. Foreign exchange losses in 2013 and 2012 are mainly attributable to our net foreign exchange position.

h. Monetary gain

Monetary gain which we recognize from our Belarusian operations decreased 13.0% in 2013 to \$82.9 million from \$95.3 million in 2012, as a result of a decrease in inflation in Belarus. The economic environment in Belarus deteriorated significantly starting from the second quarter of 2011. The cumulative inflation in the last three years exceeded 100%. As a result, Belarus was considered a hyperinflationary economy. As a consequence, the accounting rules for Reporting in hyperinflationary economies were applied to our Belarusian operations for the years ending December 31, 2013 and 2012. With respect to this, monetary gain is recorded as a result of the effect of general inflation and calculated as the difference resulting from the restatement of non-monetary assets, equity and statement of income items.

Table of Contents

i. Share of profit of equity accounted investees

Our share of profit of equity accounted investees increased 27.7% in 2013 to \$155.4 million from \$121.7 million for 2012, mainly due to a higher net income contribution from Fintur as well as the annulment of the A-Tel agreement. The lawsuit related to the annulment of the A-Tel agreement is explained in Note 34 (Commitments and Contingencies, Legal Proceedings) to our Consolidated Financial Statements in this Form 20-F.

j. Income tax expense

Income tax expense increased 6.6% in 2013 to \$310.7 million from \$291.5 million in 2012. On a TRY basis, income tax expense increased 13.2%.

The effective tax rate was 20.2% and 20.3% for the years ended December 31, 2013 and 2012, respectively.

Our domestic tax rate is 20%. Differences between the effective tax rate and our domestic tax rate include, but are not limited to, the effect of allowance for deferred tax assets, tax rates in foreign jurisdictions, tax exempt income and non-deductible expenses.

k. Non-controlling interests

Non-controlling interests in the net profit of our consolidated subsidiaries is classified separately in the consolidated financial statements of operations under non-controlling interests. Non-controlling interests had a \$1.3 million loss for the year ended December 31, 2013, compared to a \$11.7 million gain for 2012.

Non-controlling interest gain from Euroasia's net loss amounting to \$32.7 million in 2013 is \$14.7 million for the year ended December 31, 2013, whereas the non-controlling interest gain from Euroasia's net loss amounting to \$56.1 million in 2012 is \$25.2 million. In addition, net profit generated by Inteltek for the years ended December 31, 2013 and 2012 resulted in a loss from non-controlling interests of approximately \$13.6 million and \$13.0 million, respectively.

l. Profit for the year attributable to equity holders of the Company

Profit for the year attributable to equity holders of the Company increased from \$1,158.8 million in 2012 to \$1,228.2 million in 2013. Profit for the period attributable to equity holders of the Company also increased on a TRY basis by 11.9%. This was mostly due to improvement in

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

operating profit arising from an increase in revenues which partially netted off with the increase in operational expenses, together with the improvement in net finance income, share of profit of equity accounted investees and the absence of impairment charges on A-Tel in 2012.

VII. Year Ended December 31, 2012 Compared to the Year Ended December 31, 2011

We had 35.1 million GSM subscribers in Turkey, including 21.9 million prepaid subscribers, as of December 31, 2012, compared to 34.5 million GSM subscribers in Turkey, with 22.9 million prepaid subscribers, as of December 31, 2011. During 2012, we recorded positive net additions of 0.6 million Turkish GSM subscribers.

In Ukraine, we had 11.1 million and 9.7 million subscribers as of December 31, 2012 and 2011, respectively. During 2012, we gained approximately 1.4 million new Ukrainian GSM subscribers. This was primarily due to positive returns on the regional growth strategy.

a. Revenues

Total revenues for the year ended December 31, 2012 increased 4.6% to \$5,865.8 million, from \$5,609.7 million in 2011. On a TRY basis, our revenues increased 12.1% compared to 2011, mainly due to a 6% growth in Turkcell Turkey's voice revenues and a 17% growth in Turkcell Turkey's mobile broadband and services revenues, as well as a higher contribution from our subsidiaries, particularly through Turkcell Superonline and Astelit.

Table of Contents

Revenues from communication fees for the year ended December 31, 2012 increased 2.8% to \$5,374.0 million, from \$5,225.4 million in 2011. Our revenues from communication fees increased 10.3% on a TRY basis due to the growth in mobile internet and service revenues together with the increase in interconnect revenues due to the increase in incoming airtime and the increase in outgoing revenues due to an increase in outgoing airtime. Communication fees consist of revenues from postpaid and prepaid subscribers, interconnect revenues and roaming revenues. In Turkey, postpaid revenue increased significantly whereas prepaid revenue increased slightly compared to 2011. Postpaid subscriber usage is generally higher than prepaid subscriber. In Turkey, during 2012, we maintained our focus on the postpaid segment, with newly launched campaigns and offers, increased data lines, increased penetration of smartphones and promotions to switch customers from the prepaid to the postpaid segment. We focus on postpaid subscribers because there is, in general, higher average revenue per postpaid subscriber and a lower churn rate. In 2012, postpaid average revenue per user was TRY 37.7 whereas prepaid average revenue per user was TRY 11.5. These figures indicate that postpaid average revenue per user is approximately 3.3 times the prepaid average revenue per user. Therefore, the increase in the number of postpaid subscribers has a positive effect on blended average revenue per user.

Commission fees and revenue on betting business increased to \$89.0 million for the year ended December 31, 2012, from \$51.4 million for the year ended December 31, 2011. On a TRY basis, commission fees and revenue on betting business increased 83.9%. This increase was primarily due to the increase in betting turnover in Turkey and revenue on betting business generated in Azerbaijan.

Monthly fixed fees revenue decreased 19.7% to \$50.6 million for the year ended December 31, 2012, compared to \$63.0 million for the year ended December 31, 2011. On a TRY basis, monthly fixed fees revenue decreased 13.2% mainly due to the increased usage of packages which do not include monthly fixed fees.

b. Direct cost of revenues

Direct cost of revenues, including depreciation and amortization, increased 2.6% to \$3,622.3 million in 2012 from \$3,528.9 million for the year ended December 31, 2011. On a TRY basis, direct cost of revenues increased 9.0% compared to 2011, due to an increase in interconnect costs, network related expenses and wages and salaries.

Treasury shares and universal funds paid to the Turkish Treasury and Ministry of Transport, Maritime Affairs and Communications (Turkish Ministry) decreased 0.7%, from \$772.4 million for the year ended December 31, 2011 to \$767.0 million in 2012. However, they increased 6.6% on a TRY basis lower than the increase in revenues due to increased contribution of subsidiaries to revenues.

Depreciation and amortization charges (including impairment charges) decreased 14.7%, from \$924.4 million for the year ended December 31, 2011 to \$788.6 million in 2012, while on a TRY basis depreciation and amortization charges decreased 11.4%, mainly due to a significant decrease in the impact of inflation accounting in Belarus and the impairment impact recognized for Belarusian operations. The amortization expense for our GSM license and other telecommunication operating licenses was \$57.5 million and \$66.0 million for the years ended December 31, 2012 and 2011, respectively.

Interconnection and termination costs increased 21.6% to \$768.1 million in 2012 from \$631.7 million for the year ended December 31, 2011. They increased 29.9% on a TRY basis due to a significant increase in off-net traffic.

Transmission costs, site costs and maintenance costs decreased approximately 12.4%, from \$148.0 million for the year ended December 31, 2011 to \$129.7 million in 2012. On a TRY basis, these costs decreased 6.4%, mainly resulting from the decrease in the leased lines from Turk Telekom, partially netted off with the increase in Turk Telekom tariffs with the reduction in volume based discount rates effective January 1, 2012. Furthermore, uncapitalizable radio costs and expenses increased 9.4%, from \$349.8 million for the year ended December 31, 2011 to \$382.8 million in 2012. Radio costs increased 16.4% on a TRY basis mainly due to the increase in the number of radio base stations and increase in energy prices.

Table of Contents

Wages, salaries and personnel expenses for technical personnel increased 14.4% to \$315.4 million in 2012 from \$275.8 million for the year ended December 31, 2011. They increased 22.6% on a TRY basis mainly due to the periodic increase in wages and salaries.

Roaming expenses remained almost stable at \$47.5 million in 2012 compared to \$47.9 million for the year ended December 31, 2011. On a TRY basis they increased 5.7% mainly due to an increase in roaming durations between international operators and Turkcell; partially netted off with the decrease in roaming tariffs.

As a percentage of revenues, direct cost of revenues decreased 1.1 percentage points to 61.8% in 2012, from 62.9% in 2011, mainly due to decreases in depreciation and amortization expenses 3.0 pp and other items 0.4 pp as opposed to an increase in interconnection and termination expenses 1.8 pp wages and salaries 0.5 pp as a percentage of revenues.

Gross profit margin increased 1.1 percentage points to 38.2% in 2012 from 37.1% in 2011.

c. Administrative expenses

General and administrative expenses increased 9.7% to \$270.5 million in 2012 from \$246.5 million in 2011. On a TRY basis, these expenses increased 17.8%, mainly due to an increase in bad debt expenses resulting from the increase in the postpaid subscriber base and increased handset bundled offers, together with the increase in wages and salary expenses arising from periodic increases in such figures. As a percentage of revenues, general and administrative expenses increased to 4.6% for the year ended December 31, 2012, from 4.4% in 2011.

Wages, salaries and personnel expenses for non-technical and non-marketing employees increased 1.4% to \$99.5 million in 2012 from \$98.1 million for the year ended December 31, 2011. On a TRY basis, they increased 8.2%, primarily due to periodic increases in wages.

Bad debt expenses increased 98.7% to \$62.4 million in 2012 from \$31.4 million for the year ended December 31, 2011. On a TRY basis, bad debt expense increased 118.4%, mainly due to an increase in the postpaid subscriber base and increased handset bundled offers. We provided an allowance of \$392.9 million and \$327.4 million for doubtful receivables for the years ended December 31, 2012 and 2011, respectively, depending on the likelihood of recoverability of trade and other receivables based on the aging of the balances, historical collection trends and general economic conditions.

Other administrative expenses, including collection and consulting expenses, decreased 7.2% to \$108.6 million in 2012 from \$117.0 million for the year ended December 31, 2011 mainly due to the 7.3% depreciation, on average, of the TRY against the USD. On a TRY basis, other administrative expenses remained almost stable.

d. Selling and marketing expenses

Selling and marketing expenses decreased 5.7% to \$953.2 million in 2012 from \$1,010.6 million for the year ended December 31, 2011. However, on a TRY basis, they increased 1.2%, primarily due to higher selling and marketing expenses together with higher wages and salary expenses partially netted off with a decrease in frequency usage fees paid for prepaid subscribers. As a percentage of revenues, selling and marketing expenses decreased from 18.0% for the year ended December 31, 2011 to 16.3% for the year ended December 31, 2012.

Selling expenses, which consist of distributor support, dealer support, and other selling expenses, decreased 1.5%, to \$409.2 million for 2012 from \$415.6 million for 2011. On a TRY basis, selling expenses increased 5.3%, mainly due to an increase in distributor supports resulting from an increase in dealer and distributor support.

Table of Contents

Total marketing expenses, which consist of advertising, market research, sponsorships expenses and customer relations expenses, decreased 4.6%, to \$264.9 million in 2012 from \$277.6 million for the year ended December 31, 2011. On a TRY basis, marketing expenses increased 2.3% mainly due to an increase in mobile services revenues.

Prepaid subscribers frequency usage fee expenses decreased 39.8% to \$66.8 million in 2012 from \$111.0 million for the year ended December 31, 2011. On a TRY basis, these expenses decreased 33.4%, mainly as a result of the positive impact of the frequency fee charged to some of the prepaid subscribers starting from June 2011 partially netted off with the increase in prepaid frequency usage fee paid arising from the increase in tariffs while the prepaid subscriber base decreased.

Wages, salaries and personnel expenses for selling and marketing employees increased 9.0% to \$154.5 million in 2012 from \$141.7 million for the year ended December 31, 2011. On a TRY basis, these expenses increased 16.9%, due to an increase in the number of employees and periodic increase in wages and salaries.

e. Other operating income/(expense)

Other net operating expenses decreased to \$58.8 million in 2012 from \$128.7 million in 2011, mainly due to a decrease in impairment charges recognized on our investments together with the decrease in legal penalties incurred in 2012.

Other expenses for the year ended December 31, 2012 are mainly comprised of: an impairment charge recognized on our investments in A-Tel amounting to \$40.3 million due to the annulment of the service provider and distribution agreement with A-Tel via notification dated January 31, 2012, which was effective August 1, 2012. The carrying amount of A-Tel in our consolidated financial statements is decreased to our share of the net assets of A-Tel as at December 31, 2012. Additionally, we accrued a provision before tax effect amounting to \$19.3 million and recognized the provision in other expense. Other expenses also includes payments and provisions for the penalties imposed by the ICTA for not complying with the aforementioned and relevant regulations amounting to \$6.4 million.

f. Results from operating activities

Results from operating activities increased to \$961.0 million in 2012 from \$695.0 million for the year ended December 31, 2011. As a percentage of revenues, results from operating activities increased from 12.4% in 2011 to 16.4% in 2012 mainly due to a decrease in selling and marketing expenses, in the direct cost of revenues and other operating income/(expense) as a percentage of revenues.

g. Net financial income/(costs)

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Net financial income increased \$260.6 million in 2012 from \$40.6 million in 2011, due to a decrease in financial expenses from \$289.7 million in 2011 to \$125.5 million in 2012, mainly arising from a lower foreign exchange loss and an increase in finance income from \$330.3 million in 2011 to \$386.1 million in 2012. On a TRY basis, net financial income increased to TRY 467.5 million in 2012 from TRY 17.3 million in 2011.

Finance income increased 16.9% to \$386.1 million in 2012 from \$330.3 million for the year ended December 31, 2011. On a TRY basis, it increased 26.8% due to an increase in interest income on time deposits resulting from the increase in cash balance including time deposits and an increase in interest rates.

Finance cost decreased 56.7% to \$125.5 million in 2012 from \$289.7 million for the year ended December 31, 2011. On a TRY basis, it decreased 57.6%, mainly due to lower foreign exchange loss, which decreased from a \$202.7 million loss in 2011 to a \$2.4 million loss in 2012 mainly due to the absence of devaluation recognized in the Belarusian Ruble against the U.S. Dollar in 2011. Foreign exchange losses in 2012 and 2011 are mainly attributable to our net foreign exchange position.

Table of Contents

h. Monetary gain

Monetary gain which we recognize from our Belarusian operations decreased 34.2% in 2012 to \$95.3 million from \$144.8 million in 2011.

i. Share of profit of equity accounted investees

Our share of profit of equity accounted investees decreased 11.1% in 2012 to \$121.7 million from \$136.9 million for 2011, mainly due to a lower net income contribution from Fintur.

We have eliminated A-Tel's revenue that is generated from services rendered to us to the extent of our share in A-Tel, with corresponding elimination from selling and marketing expenses in our consolidated financial statements. This consolidation elimination had a negative impact on the share of profit of the equity accounted investees line.

Since the service provider and distribution agreement with A-Tel was annulled via notification dated January 31, 2012, which was effective August 1, 2012, the carrying amount of A-Tel in our consolidated financial statements is decreased to our share on the net assets of A-Tel as at December 31, 2012. Additionally, we accrued a provision before tax effect amounting to \$19.3 million and recognized in other expenses explained in Note 16 and 35 (Investments in equity accounted investees and Related parties) to our Consolidated Financial Statements in this Form 20-F.

Furthermore SDIF, holding 50% of A-Tel, filed a lawsuit as detailed in Note 34 (Commitments and Contingencies, Dispute on termination of agreements with A-Tel) to our Consolidated Financial Statements in this Form 20-F. The lawsuit was dismissed. SDIF and Bilgin Holding A.S. appealed the decision. The appeal process is still pending. Bilgin Holdign A.S. also filed another lawsuit with the same allegations against our Company with some of our directors who are board members of A-Tel and was represented our company in general meeting.

j. Income tax expense

Income tax expense decreased 0.2% in 2012 to \$291.5 million from \$292.2 million in 2011. On a TRY basis, income tax expense increased 7.7%.

The effective tax rate was 20.3% and 28.7% for the years ended December 31, 2012 and 2011, respectively.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Our domestic tax rate is 20%. Differences between the effective tax rate and our domestic tax rate include, but are not limited to, the effect of allowance for deferred tax assets, tax rates in foreign jurisdictions, tax exempt income and non-deductible expenses.

k. Non-controlling interests

Non-controlling interests in the net profit of our consolidated subsidiaries is classified separately in the consolidated financial statements of operations under non-controlling interests . Non-controlling interests decreased to a \$11.7 million gain for the year ended December 31, 2012, compared to a \$26.6 million gain for 2011.

Table of Contents

Non-controlling interest gain from Euroasia's net loss amounting to \$56.1 million in 2012 is \$25.2 million for the year ended December 31, 2012, whereas the non-controlling interest gain from Euroasia's net loss amounting to \$75.8 million in 2011 is \$34.1 million. In addition, net profit generated by Inteltek for the years ended December 31, 2012 and 2011 resulted in a loss from non-controlling interests of approximately \$13.0 million and \$9.6 million, respectively.

I. Profit for the year attributable to equity holders of the Company

Profit for the year attributable to equity holders of the Company increased from \$751.7 million in 2011 to \$1,158.8 million in 2012. Profit for the period attributable to equity holders of the Company also increased on a TRY basis by 76.5%. This was mostly due to improvement in operating profit arising from an increase in revenues which partially netted off with the increase in operational expenses, together with the improvement in net finance income and a decrease in impairment charges on our investments in Belarusian Telecom.

VIII. Effects of Inflation

The annual inflation rates in Turkey were 7.4%, 6.2% and 10.5% for the years ended December 31, 2013, 2012 and 2011, respectively, based on the Turkish consumer price index. While contracting domestic demand pulled inflation lower in 2013, the administrative price hikes and tax increases in addition to pass through effects from TRY depreciation, pushed it higher. The current inflation target set by the CBRT is 6.6%, with a confidence interval of between 5.2% and 8.0% for 2014. The most recent CBRT expectations survey, dated March 14, 2014, indicates that consumer inflation will be around 8.0% by the end of 2014, which is above the CBRT's target. However, the CBRT hiked rates as expected in January 2014 putting some downward pressure on inflation. For additional information, see Item 3.A. Selected Financial Data Exchange Rate Data and Item 3.D. Risk Factors .

Inflationary pressure remains elevated in Belarus, even though headline CPI has been gradually moderating amid official control over food prices and softer money-supply growth. Consumer price inflation slowed to 16% in December 2013 from the annual peak of 23% posted in January 2013. Despite a slowdown in inflation, tight monetary policy is set to continue due to concerns about external imbalances and currency stability. Although downside economic risks have been reduced, macroeconomic stability is still fragile. External vulnerability is still a concern and next year's financing picture remains challenging due to a heavy debt redemption schedule and strong domestic demand keeping current account deficit wide. Given Belarus' record low level of foreign currency reserves coupled with the high debt repayments due this year and the current account deficit, these factors may create devaluation and inflationary pressure.

Ukraine has experienced deflation since May 2012. Annual inflation came in flat at -0.5% in December. The fixed exchange rate (revised to floating exchange regime in early 2014) and the recession were the main factors explaining the persistent deflation in Ukraine. The outlook for inflation remains obscured by the uncertainty about the current political situation in the country.

IX. Foreign Currency Fluctuations

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

We conduct our business in several currencies other than functional currencies of each of our locations. As a result of our exposure to foreign currency, exchange rate fluctuations have a significant impact, in the form of both translation and transaction risks, on our consolidated financial statements.

Exchange rate movements impact our assets and liabilities denominated in currencies other than TRY, Ukrainian Hryvnia (UAH), Belarusian Rubles, Euro and Azerbaijani Manat for our operations in Turkey, Ukraine, Belarus, Germany and Azerbaijan, respectively. We use forward exchange contracts and options to hedge our non-TRY denominated liabilities.

The foreign exchange risks in Turkey as the result of purchases and borrowings in U.S. Dollars and Euros have been manageable, as there is a developed market enabling the hedging of such risk; however, in Belarus and Ukraine, there are no tools to hedge foreign exchange rate risks effectively due to restricted and undeveloped financial markets. In Belarus, no international bank offers hedging instruments and local banks are too undercapitalized to be able to enter into transactions.

Table of Contents

In Ukraine, the only hedging tool seems to be non deliverable forwards (NDF) which is a cash settled product in U.S. Dollar, a short term forward contract on a non convertible foreign currency which could not be delivered offshore. The liquidity in the UAH NDF market is very thin and ineffective. Also, Ukraine s high current account deficit and external funding needs as well as low level of foreign currency reserves leave the country vulnerable to global shocks. As of March 14, 2014, following military actions, political instability, civil unrest and economic problems, Ukrainian Hryvnia depreciated against U.S. Dollar by 19%.

In the current economic environment and considering the aforementioned fragile economic conditions, there is a possibility of further devaluations in Ukraine and Belarus.

Our foreign currency risk management policy is focused on hedging foreign currency exposure arising from non-TRY denominated liabilities and purchase commitments. See Item 11. Quantitative and Qualitative Disclosures about Market Risk . We hedge our currency risks with forward exchange contracts and options.

X. Interest Rate Hedging

Monitoring and examining financing opportunities to improve our financial flexibility and performance has been a continuous process for us. Depending on the availability in both domestic and international debt/capital markets, we continuously monitor new financing alternatives for contingency purposes as well as to fund potential new investments or acquisitions. We are exposed to interest rate risk as part of our total debt portfolio, which is based on a floating rate. We also closely monitor various hedging alternatives to hedge our interest rate risk with a minimum cost. In June 2011, we engaged in a forward start collar agreement for some portion of our debt which is due in 2015 and exposed to interest rate risk. The collars hedge variable interest rate risk for the period between 2013 and 2015.

a. New Accounting Standards Issued

See Note 3 (Significant accounting policies, New standards and interpretations) of our Consolidated Financial Statements in this Form 20-F.

5.B Liquidity and Capital Resources

a. Liquidity

We require significant liquidity to finance capital expenditures for the expansion and improvement of our mobile communications network, for operational capital expenditures, for working capital, and to service our debt obligations. A summary of our consolidated cash flows for the years ended December 31, 2013, 2012 and 2011, is as follows:

	2013	2012	2011
U.S. \$ million			
Net cash generated by operating activities	994.0	1,188.3	925.8
Net cash generated by / (used in) investing activities	(469.7)	304.6	(1,410.5)
Net cash generated/(used in) financing activities	(121.6)	(171.2)	31.6
Net cash increase/(decrease) in cash and cash equivalents	402.7	1,321.6	(453.1)
Effects of foreign exchange rate fluctuations on cash and cash equivalents	(520.5)	97.2	(335.7)

Net cash provided by our operating activities for the years ended December 31, 2013 and 2012, amounted to \$994.0 million and \$1,188.3 million, respectively.

Table of Contents

Net cash from operating activities decreased in 2013, in contrast to a \$82.3 million increase in profit from operational activities compared to 2012. We consider the subtotal after the adjustments for profit for the period in order to analyze the increase in cash from operating activities. Since these lines are adjusting in nature, they are to be excluded from net cash from operating activities, as they either do not have any effect on net cash from operating activities or they have an offsetting effect on the changes in working capital. As a result, the trend in cash from operating activities should be correlated with the trend in results from operating activities, income tax expense and dividends received. The corresponding subtotal, after adjustments, decreased from \$1,819.2 million in 2012 to \$1,706.1 million in 2013. Furthermore, the increase in income taxes paid (\$337.8 million in 2013 from \$307.3 million in 2012) and the decrease in dividends received (\$41.3 million in 2013 from \$239.4 million in 2012) resulted in a 16.3% decrease in net cash provided by our operating activities.

Net cash used by investing activities for the year ended December 31, 2013, amounted to \$469.7, whereas net cash generated in investing activities for the year ended December 31, 2012 amounted to \$304.6. The change in net cash used/generated by investing activities is mainly due to a decrease in proceeds from the sale of financial assets by \$897.1 million and a decrease in interest received partially offset by the decrease in capital expenditures. For the year ended December 31, 2013, we spent approximately \$853.8 million on capital expenditures compared to \$975.5 million in 2012. Of the \$853.8 million in capital expenditures, approximately \$495.6 million was related to capital expenditures made by Turkcell, mainly for our mobile communications network in Turkey, whereas such amount was \$531.4 million in 2012. Total capital expenditures of Euroasia decreased from \$77.8 million in 2012 to \$67.8 million in 2013 and total capital expenditures of Turkcell Superonline decreased from \$253.4 million in 2012 to \$187.0 million in 2013.

We have used net cash in our financing activities for the year 2013 amounting to \$121.6 million, whereas we had \$171.2 million of net cash used for 2012. The change is mainly attributable to higher proceeds from the issuance of loans and borrowings partially netted with the increase in repayment of loans and borrowings. In 2013, proceeds from the issuance of loans and borrowings were \$898.1 million, compared to \$670.5 million in 2012. We repaid \$1,019.3 million of our loans and borrowings in 2013, compared to \$833.6 million in 2012.

b. Sources of Liquidity

Our loans from financial institutions consist of local and international bank borrowings with either fixed or floating interest rates. A significant portion of our bank borrowings is utilized to finance our consolidated subsidiaries' financing needs. All of our loans are denominated in U.S. Dollar, Belarusian Ruble (BYR), EUR or TRY. The floating interest rates vary from Libor + 1.3% to Libor + 3.5% for the loans denominated in U.S. Dollars, variable Euro rate is Libor + 3.465%. The fixed interest rates vary from 0.68% to 8.00% for the loans denominated in U.S. Dollars, from 8.3% to 10.0% for the loans denominated in TRY; from 12.00% to 16.00% for the loans denominated in BYR and fixed Euro rate is 3.35%. The loans are payable over the period from 2014 to 2024.

The ratio of our loans and borrowings to equity was 23% as of December 31, 2013, compared to 24% as of December 31, 2012. We have been able to maintain our leverage at a satisfactory level and well in line with our targets. For more information, see Note 26 to our Consolidated Financial Statements.

We are continuing our efforts to selectively seek out and evaluate new international investment opportunities. These opportunities could include the purchase of licenses and acquisitions in markets outside of Turkey in which we do not currently operate. In the future, we may reinstate, as necessary, our efforts to create a financing arrangement, such as a term loan facility.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

In 2012, Astelit defaulted on its loan agreements. See Item 3.D. Risk Factors for more information.

Under the current assumptions and circumstances, we expect to generate adequate levels of cash to maintain a positive cash position in the future and to have positive cash flow related to our communications and technology activities in Turkey. According to our current business plan for the operations in Turkey, we believe that we will be able to finance our current operations, capital expenditures, and financing costs and maintain and enhance our network through our operating cash flow and our strong cash balance as of December 31, 2013. However, we continue to experience difficult pricing and competitive conditions in our markets, which we expect will continue. We are also facing increased capital needs to finance our technological and geographic expansion, which may increase our net cash used for investing activities. These pressures have reduced, and may continue to reduce, our liquidity and may lead to an increase in borrowing needs and net cash used by financing activities.

Table of Contents

Our cash outflows through 2014 include possible dividend payments, quarterly corporate tax payments, capital expenditures and working capital needs.

We expect that our total operational capital expenditures as a percentage of revenues in 2014 will be around 17%, having planned to increase our mobile and fiber investments, including network modernization for future technologies. This is based on our current projects and activities, and does not include any new projects.

The forward-looking statements made here regarding our liquidity and any other financial results are not a guarantee of performance. They are subject to risks and uncertainties that could cause future activities and results of operations to be different from those set forth in this annual report.

Important factors that may adversely affect our projections include general economic conditions, changes in the competitive environment, developments in the domestic and international capital markets, increased investments, changes in telecommunications regulations and mismatches between the currencies in which we generate revenue and hold liquid assets and the currencies in which we incur liquid obligations and debt. See Item 3.D. Risk Factors for a discussion of these and other factors that may affect our projections.

c. Capital Transactions

All share amounts and per share figures reflected in our historical financial statements have been restated retrospectively for the aforementioned stock splits.

d. General Economic Conditions

Turkey's growth was 4.0% in the first nine months of 2013 and based on market estimates, growth for 2014 is expected to be around 2.8%, mainly driven by the domestic demand.

e. Dividend Payments

For additional details regarding our dividend policy, see Item 8.A. Consolidated Statements and Other Financial Information Dividend Policy .

5.C Research and Development, Patents and Licenses, etc.

We own a number of patents, utility models, trademarks and industrial designs

The activities of our technology center, which houses all of our R&D operations in a single location, include the following:

- Partnership software development, customization and/or integration of software products of suppliers through the service and product development processes;
- Developing network infrastructure strategies in a fast evolving information-communication technologies world; and
- Designing short and long-term technology road maps for our operations.

Internally developed software arising from our R&D partnership amounted to approximately \$37.2 million, \$37.9 million and \$27.0 million in 2013, 2012 and 2011, respectively. Internally developed software does not include any costs relating to the research phase.

Table of Contents

5.D Trend Information

a. *Changing Subscriber Base*

The proportion of postpaid subscribers in our subscriber base was 40%, 38% and 34% in 2013, 2012 and 2011, respectively, due to our value focus.

The majority of our subscriber base, however, consists of prepaid subscribers. Trends indicate that prepaid subscribers have more control over their usage patterns.

b. *Regulations affecting our prices*

The ICTA has on several occasions intervened to place caps on the tariffs that we charge in the Turkish market. The ICTA's intervention in our retail voice, SMS and mobile data prices, has, and will continue to, negatively affect our ability to design and launch campaigns and offers and, consequently, has had, and will continue to have, a negative impact on our business. The ICTA has also intervened to place caps on our interconnection rates.

With respect to the interconnection rates that we charge, after a 33% reduction for Turkcell in 2008, the interconnection rates issued by the ICTA on March 25, 2009 for all mobile operators in Turkey provided for a further 29% decrease, on average, among all operators. On February 10, 2010, there was an additional 52% reduction in Turkcell's interconnection rates. Finally, with the ICTA's board resolution dated June 17, 2013, our mobile termination rates have been set at TRY 0.0250 (equivalent to \$0.011 as of March 14, 2014), a 20% decline from TRY 0.0313 (equivalent to \$0.014 as of March 14, 2014). In addition, the ICTA with a board resolution dated April 12, 2013, lowered SMS termination rates for Turkcell from TRY 0.0170 (equivalent to \$0.008 as of March 14, 2014) to TRY 0.0043 (equivalent to \$0.002 as of March 14, 2014).

With respect to minimum tariffs, with a board resolution dated March 25, 2009, the ICTA set a lower limit solely for Turkcell's on-net retail tariffs. In 2013, the ICTA linked the mobile termination rates to minimum on-net voice levels with a parameter of 1.7 such that our minimum on-net prices should be set by multiplying the mobile termination rate with the above mentioned parameter of 1.7. As a result, the ICTA increased the minimum tariff to be applied by Turkcell from TRY 0.0313 (equivalent to \$0.014 as of March 14, 2014) to TRY 0.0428 (equivalent to \$0.019 as of March 14, 2014) for voice and to set the minimum tariff of TRY 0.0073 (equivalent to \$0.003 as of March 14, 2014) for SMS, applicable to both tariffs and campaigns. The amendments for tariffs were effective as of July 2013 and for campaigns as of February 2014. These pricing regulations are valid on each and every single voice tariff and campaign, whereas we are obliged to maintain our minimum on-net SMS rate on network base.

With respect to the maximum tariffs, although the Concession Agreement includes a provision regarding only the increase of the maximum tariffs, the ICTA has decreased the maximum tariff since 2007, which has negatively affected our tariff structure. In 2013, the maximum tariff on mobile voice increased by approximately 6% to TRY 0.439 (equivalent to \$0.20 as of March 14, 2014), while as of January 2014 the

maximum tariff on SMS decreased by 20% to TRY 0.332 (equivalent to \$0.15 as of March 14, 2014).

Further cuts in interconnection rates and changes in minimum and maximum tariffs will result in our having to redesign our tariffs and will impact our operational results, depending on pricing trends and marketing strategies in the Turkish mobile communications market.

Given these factors, it is difficult to predict with any degree of certainty the growth and usage patterns of our subscribers and our ability to maintain or increase revenues or profitability. General economic conditions, competitive pressures and the trend in our retail and interconnection pricing have exerted, and will continue to exert, pressure on the level of our financial results.

c. Liquidity

Our activities have traditionally generated strong positive cash flow. According to our current business plan for the operations in Turkey, we believe that we will be able to finance our current operations, capital expenditures, and financing costs and maintain and enhance our network through our operating cash flow and our strong cash balance as of December 31, 2013. However, we continue to experience difficult pricing and competitive conditions in our markets, which we expect will continue. We are also facing increased capital needs to finance our technological and geographic expansion, which may increase our net cash used for investing activities. These pressures have reduced, and may continue to reduce, our liquidity and may lead to an increase in borrowing needs and net cash used by financing activities.

Table of Contents

We expect that our total operational capital expenditures as a percentage of revenues in 2014 will be around 17%, having planned to increase our mobile and fiber investments, including network modernization for future technologies. This is based on our current projects and activities, and does not include any new projects.

d. Currency devaluation and impairments

Our results of operations and the value of certain of our assets have been adversely affected by devaluations in the currencies of certain countries, in particular Belarus, Turkey and Ukraine. Further currency devaluation remains a risk and may continue to have an adverse effect in the future. Furthermore, operational and technological changes, general macroeconomic conditions, legal, regulatory or political obstacles in Ukraine and Belarus may lead to further impairments in the values of certain of our assets in the future.

5.E Off-Balance Sheet Arrangements

Off-balance sheet arrangements refer to any transaction, agreement, or other contractual arrangement involving an unconsolidated entity (other than contingent liabilities arising from litigation, arbitration or regulatory actions) under which a company has:

- provided guarantee contracts;
- retained or contingent interests in transferred assets;
- any obligation under derivative instruments classified as equity; or
- any obligation arising out of material variable interests in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the company, or that engages in leasing, hedging, or research and development arrangements with the company.

We routinely enter into operating leases for property in the normal course of business. The future minimum operating lease payments under non-cancellable leases amount to \$90.4 million and \$115.9 million as of December 31, 2013 and 2012, respectively.

Contingent Liabilities

The following table illustrates our major contingent liabilities as of December 31, 2013.

U.S.\$ million	Total amount committed	At December 31, 2013	Amount of contingent liability expiration per period Remaining commitment				
			Indefinite*	Less than one year	1 3 years	3 5 years	Over 5 years
Bank Letters of Guarantee	225.5	225.5	51.0	30.6	41.0	77.4	25.5

* Bank letters of guarantee are not given for a specific period. Most of the guarantees will remain as long as the business relationship with the counterparty continues.

As of December 31, 2013, we are contingently liable in respect of bank letters of guarantee obtained from banks and given to custom authorities, private companies and other public organizations amounting to \$225.5 million.

See Item 5.B. Liquidity and Capital Resources Sources of Liquidity .

Table of Contents**5.F Tabular Disclosure of Contractual Obligations**

The following tables illustrate our major contractual and commercial obligations and commitments as of December 31, 2013.

Contractual Obligations (U.S.\$ million)	Total	Payments due by period			After 5 years
		Less than 1 year	1-3 years	3-5 years	
Loans and borrowings (*)	1,618.7	858.2	709.2	49.3	2.0
Finance lease obligations	25.3	3.2	4.8	4.3	13.0
Payable in relation to the acquisition of Belarusian Telecom	100.0				100.0
Total Contractual Cash Obligations	1,744.0	861.4	714.0	53.6	115.0

* Includes undiscounted interest.

Other Commercial Commitments (U.S.\$ million)	Total	Amount of Commitment			After 5 years
		Less than 1 year	1-3 years	3-5 years	
Purchase obligations	463.7	293.6	102.3	64.1	3.7

As at December 31, 2013, outstanding purchase commitments with respect to the acquisition of property, plant and equipment, inventory and purchase of sponsorship and advertisement services amount to \$463.7 million. Out of total purchase commitments, \$159.5 million represents commitments with respect to property, plant and equipment and intangible assets.

5.G Safe Harbor

Not applicable.

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES**6.A Directors and Senior Management**

I. Board Members

Under the Turkish Commercial Code and our Articles of Association, the Board of Directors is responsible for our management. Our Articles of Association mandates a Board of Directors containing seven members.

Members of our Board of Directors are generally appointed for a term of three years. However, in a series of resolutions in 2013, the CMB appointed new members to our Board, who shall remain members until new members are elected or until the CMB announces a new resolution. The CMB with its resolution dated March 11, 2013, announced the replacement of Mehmet Bulent Ergin, Tero Erkki Kivisaari and Oleg Adolfovich Malis on our Board of Directors with three new members, Atilla Koc, Mehmet Hilmi Guler and Ahmet Akca, who serve as independent board members according to Art.17/2 of the Capital Markets Law No. 6362. The CMB with its resolutions dated August 15, 2013 and September 13, 2013 announced the appointment of Mehmet Bostan, Bekir Pakdemirli, Jan Erik Rudberg and Erik Belfrage, as board members who satisfy the independency criteria. They were appointed by the CMB pursuant to sub-paragraph (k) of the first paragraph of article 128 of Capital Markets Law No.6362, in place of members of our Board of Directors who were elected at the general assembly meeting on April 29, 2010 for a duty period of three years and whose duty periods have expired and whose successors could not be elected at the general assembly meetings.

Table of Contents

As of March 14, 2014, our Board of Directors had the following members:

Name	Date appointed to the Board of Directors by Capital Markets Board resolution
Ahmet Akca (Chairman)(1)	March 11, 2013
Atilla Koc	March 11, 2013
Bekir Pakdemirli	August 15, 2013
Erik Belfrage	September 13, 2013
Jan Erik Rudberg	September 13, 2013
Mehmet Bostan	August 15, 2013
Mehmet Hilmi Guler	March 11, 2013

(1) Mr. Akca was appointed Chairman of the Board of Directors on August 19, 2013, replacing Mr. Colin J. Williams.

II. Executive Officers

We are managed on a day-to-day basis by the Corporate Executive Team with the guidance of the Board of Directors. Officers do not have fixed terms of office. The following table sets forth the name and office of each member of our Corporate Executive Team during the fiscal year 2013.

Name	Office
Sureyya Ciliz	Chief Executive Officer
Murat Dogan Erden(1)	Chief Financial Officer
Bulent Elonu	Chief Network Operations Officer
Burak Sevilengul	Chief Consumer Marketing Officer
Gediz Sezgin(4)	Chief Information and Communication Technologies Officer
Hulusi Acar	Chief Consumer Sales Officer
Ilker Kuruoz	Chief Technology Group Officer
Ilter Terzioglu	Chief Special Projects Officer
Koray Ozturkler	Chief Corporate Affairs Officer
Lale Saral Develioglu	Chief International Business Officer
Meltem Kalender Ozturk	Chief Group Human Resources Officer
Selen Kocabas	Chief Corporate Business Officer
Semih Incedayi(3)	Chief Products and Services Officer
Tayfun Cataltepe	Chief Regulation and Legal Officer
Tolga Cem Seyfeli(5)	Chief Legal Officer
Yigit Kulabas(2)	Chief Corporate Marketing Officer
Emre Sayin(6)	Chief Consumer Business Officer
Ekrem Yener (7)	Chief International Expansion Officer

(1) Mr. Erden was appointed as Chief Financial Officer on August 27, 2013, after having served as Acting Chief Financial Officer and the Director responsible for Treasury and Risk Management since April 2012.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

- (2) Mr. Kulabas was appointed as Chief Corporate Marketing Officer on March 11, 2013.
- (3) Mr. Incedayi was appointed as Chief Products and Services Officer on December 4, 2013.
- (4) Mr. Sezgin was appointed as Chief Information and Communication Technologies Officer on December 4, 2013.
- (5) Mr. Seyfeli was appointed as Chief Legal Officer on December 6, 2013.
- (6) Mr. Sayin resigned from his position as Chief Consumer Business Officer effective May 20, 2013.
- (7) Mr. Yener resigned from his position as Chief International Expansion Officer effective December 31, 2013.

Table of Contents

III. Biographies

a. Current Board Members

Ahmet Akca, born in 1956, was appointed to the Board of Directors on March 11, 2013. He also serves as a member of the Audit Committee of Turkcell's Board of Directors. From 1980 to 1988, Mr. Akca served as a Foreign Trade Manager in the glass and food industry. In 1988, he became CEO of the International Trading House Company, a position he held until 1992. He later started his own business, which he still runs. Mr. Akca is the founder and Chairman of the Board of Directors of the logistics company Akca Lojistik Hizmetleri ve Ticaret A.S.. He was a member of the Committee of Trustees in January 2010, at the time of the Bezmialem Vakif University foundation, and has been serving as Chairman of the Committee of Trustees since November 2011. After studying mathematics at Middle East Technical University and sociology at Istanbul University, Mr. Akca graduated from the Bursa Economics and Commercial Sciences Academy's Department of Economics.

Atilla Koc, born in 1946, was appointed to the Board of Directors on March 11, 2013. He also serves as a member of the Audit Committee of Turkcell's Board of Directors. After working as an Undersecretary at the Ministry of Interior and as the Chief of Police in Konya, he served as the District Governor of the Ulubey, Nusaybin and Bayindir districts, and as the Governor of Siirt and Giresun provinces. He has also been the Counselor in the Undersecretary of Prime Ministry, the General Secretary of Ankara Metropolitan Municipality, and the Central Governor. Mr. Koc was the Minister of Culture and Tourism at the 59th Government. Mr. Koc graduated from Ankara University's Faculty of Political Science.

Bekir Pakdemirli, born in 1973, was appointed to the Board of Directors on August 15, 2013. Over the past decade, Mr. Pakdemirli has worked as the Middle East Regional Manager of a multinational company, General Manager of a ceramic company in Izmir and as General Manager of a publicly traded food company. Currently, he is Business Development Manager of McCain, while providing consultancy services to companies in the domains of management, finance, efficiency and restructuring. Mr. Pakdemirli presents weekly economic programs on Kanal 35 and Ege TV and is a member of the Capital Market Investors Association. Mr. Pakdemirli is, in addition, an amateur captain, pilot and radio operator, and is a Board Member of Anatolia Autism Foundation. After graduating from Bilkent University, Faculty of Business Administration, he completed his Master's degree in Management at Baskent University. Currently, Mr. Pakdemirli is enrolled in a doctoral program in Economics at Celal Bayar University.

Erik Belfrage, born in 1946, was appointed to the Board of Directors on September 13, 2013. Previously, Mr. Belfrage worked as a Swedish diplomat in Geneva, Washington, Bucharest, Beirut, and Paris. He was also the Senior Vice President at SEB, an advisor to Dr. Peter Wallenberg, an advisor to the Chairman at the Investor AB Jacob Wallenberg and SEB Marcus Wallenberg companies, and Chairman and Partner at Consilio International AB. Currently, Mr. Belfrage is the Chairman of several boards and commissions. He holds an M.B.A from the Stockholm School of Economics.

Jan Erik Rudberg, born in 1945, was appointed to the Board of Directors on September 13, 2013. He is currently Chairman of the Board of Directors and independent director of Kcell JSC, and the Chairman of the board of directors of Hogia AB companies, while also an independent director and the Chairman of the Audit Committee of OJSC Megafon. From 1994 until 2003, he held a variety of managerial positions with Telia AB. Mr. Rudberg previously served as Chief Executive Officer of Tele2 AB, Executive Vice President of Nordbanken AB, and Chief Executive Officer of Enator AB. Mr. Rudberg holds a Business Administration degree from the Gothenburg School of Economics in Sweden.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Mehmet Bostan, born in 1971, was appointed to the Board of Directors on August 15, 2013. Mr. Bostan worked as Senior Relationship Manager in BNP Ak Dresdner Bank A.S., Corporate Banking Manager at TSKB, Chief Representative of Dresdner Bank AG Turkey and Chief Financial Officer at Gunes Sigorta. He has been serving as a General Manager and Board Member of Vakıf Emeklilik since 2010. He is a Board Member of the Pension Monitoring Center. Mr. Bostan graduated with a degree in International Relations, Faculty of Economics, in Istanbul University. He holds an MBA degree from Bilgi University.

Table of Contents

Mehmet Hilmi Guler, born in 1949, was appointed to the Board of Directors on March 11, 2013. He also serves as a member of the Audit Committee of Turkcell's Board of Directors. He had formerly worked as a project engineer and Group Chairman at TUSAS Aerospace Industries. He also served as Vice President and Board Member of the Scientific and Technological Research Council of Turkey (TUBITAK), Chairman and General Manager of Machines and Chemical Industries Board (MKEK), General Manager and Board Member of Etibank, as the Chief Undersecretary to the Prime Minister and as Board Member and Managing Director at ERDEMIR and IGDAS. Mr. Guler also served as the Minister of Energy and Natural Resources for the 58th, 59th and 60th Governments. Mr. Guler graduated from the Middle East Technical University's Department of Metallurgy where he obtained his Master's and Doctorate degrees.

b. Board members who were removed by the CMB and whose duty period expired

The CMB with its resolution dated March 11, 2013, announced the replacement of Mehmet Bulent Ergin, Tero Erkki Kivisaari and Oleg Adolfovich Malis on our Board of Directors with three independent members, Atilla Koc, Mehmet Hilmi Guler and Ahmet Akca. Furthermore, due to the fact that remaining Board members' term of duty have expired as of April 2013, namely Colin J Williams, Karin B Eliasson, Alexey Khudyakov and Gulsun Nazli Karamahmet Williams, the CMB, with its resolution dated August 15, 2013, announced the appointment of two new members, Mehmet Bostan and Bekir Pakdemirli, in order to reach the quorum stipulated under the articles of association of the Company. Further, with its resolution dated September 13, 2013, in addition to its previous appointment of 5 members, it announced the appointment of two new members, Jan Erik Rudberg and Erik Belfrage. Please refer to our 2012 20-F for the biographies of the previous members of the Board.

c. Executive Officers

Sureyya Ciliv, born in 1958, was appointed the Chief Executive Officer of Turkcell on January 9, 2007. Having previously worked as Microsoft Turkey country manager from 1997 to 2000, he served in various management positions in Microsoft Global Sales, Marketing and Service Group in the U.S. between 2000 and 2007. Prior to 1997, Mr. Ciliv was the General Manager and Chairman of Novasoft Systems Inc., a company he established in Boston, USA. Sureyya Ciliv received his MBA degree from Harvard University in 1983, after successfully graduating with honors in Industry & Operations Engineering and Computer Engineering from the University of Michigan in 1981.

Murat Dogan Erden, born in 1969, was appointed the Chief Financial Officer of Turkcell on August 27, 2013, after having served as Acting Chief Financial Officer since April 2012. He joined Turkcell in 2001 as the Director of Treasury and was responsible for the Treasury and Risk Management activities. He also represents Turkcell as a Board Member at a number of selected group companies since 2006. Mr. Erden started his career at the Treasury and Capital Markets Department of Bankers Trust Turkey. Following the Deutsche Bank-Bankers Trust merger, he continued to work for the Global Markets Department as Assistant Treasurer. Mr. Erden is a graduate of the Department of Economics at Bogazici University and received his MBA degree from San Diego State University in Finance in 1995.

Bulent Elonu, born in 1973, started his professional life in 1997 at Siemens Company and joined Turkcell in 1999. He undertook various managerial roles in Network Operations Function and served as Head of Transport Network Division from 2009 to 2012. Mr. Elonu was appointed as the Chief Network Operations Officer in October 2012. Prior to his current position, Mr. Elonu was the Regional Operations Marmara Division Head. Mr. Elonu graduated from the Istanbul Technical University Electrical Engineering Department.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Burak Sevilengul, born in 1973, joined Turkcell in 2001 and has been the Chief Consumer Marketing Officer since August 2010. Prior to this appointment, he was the Division Head of the Consumer Business Group and held various other managerial responsibilities within the Marketing Department. Mr. Sevilengul is a graduate of Middle East Technical University's Department of Business Administration and holds an MBA Degree from the University of Georgia, Terry College of Business.

Gediz Sezgin, born in 1966, joined Turkcell in 1995. He has contributed to the formation of Turkcell's network infrastructure as engineer and manager. Between 2006-2008, Mr. Sezgin worked at Information and Communication Technology as Service Network Director. Between 2009-2013, he worked as the Application Operations Director. In December 2013, he was appointed as the Chief Information and Communication Technologies Officer. He graduated from Istanbul Technical University Electronics and Communication Engineering Department. He received his Master's degree from the same university in 1991.

Table of Contents

Hulusi Acar, born in 1972, joined Turkcell in 2000 and was appointed Chief Consumer Sales Officer on December 10, 2009. He graduated from Istanbul University's Business Administration department in 1995. Mr. Acar worked in sales positions at THY and Koctas A.S. before joining Turkcell. He held various other managerial responsibilities within the Sales Department, including Turkey Sales Manager from 2000 to 2004. He was Sales and Customer Relationship Chief Executive Officer of Astelit/Ukraine between March 2004 and November 2006. He also worked as Sales Management and Wholesale and Distribution Management Division Head from 2007 to 2009 prior to his current position.

Ilker Kuruoz, born in 1970, became Turkcell's Chief Technology Group Officer in December 2013. Prior to this he was the Chief Information and Communication Technologies Officer since September 2009. He joined Turkcell in 2006. Mr. Kuruoz began his professional career at ABT in 1994. He then worked at NCR as a System Consultant, at Garanti Teknoloji as a Business Unit Manager and at Accenture as a Senior Manager. Prior to his current position at Turkcell, he was the Capability Management Division Head of Turkcell. Mr. Kuruoz graduated from the Bilkent University Computer Engineering department in 1992 and holds a Master's Degree from the same department.

Ilter Terzioglu, born in 1966, joined Turkcell in 2003. Mr. Terzioglu has worked in the communications sector since 1993 and served as Assistant General Manager at Ericsson, Superonline and Show TV. Mr. Terzioglu is a graduate of the Department of Econometrics at Istanbul University. Between April 1, 2006 and September 30, 2012, Mr. Terzioglu was the Chief Network Operations Officer. Prior to that appointment, he was the Head of Business Strategies, Regulation and Risk Consolidation at Turkcell. Mr. Terzioglu has been Chief Strategic Projects Officer at Turkcell since October 2012.

Koray Ozturkler, born in 1964, joined Turkcell in 1998, and since April 9, 2008, has been the Chief Corporate Affairs Officer in charge of corporate communications, investor relations and corporate citizenship. Prior to this appointment he had been the Investor Relations Division Head at Turkcell since 2002, and before that was the Director of International Business Development. Mr. Ozturkler started his career in the U.S. at Accenture Consulting as a Consultant mainly servicing the Telecom Industry from 1990 to 1994. He continued his career at Yapi Kredi Bank as Re-engineering Program Director from 1994 to 1998. Mr. Ozturkler is a graduate of Johnson C. Smith University with a degree in Marketing, and received his MBA concentrating on MIS from Mercer University.

Lale Saral Develioglu, born in 1968, joined Turkcell in 2003 and has been Chief International Business Officer since May 2011. Prior to this position, she was Turkcell Group Marketing Services Officer and Chief Marketing Officer. Starting her career at Unilever in 1992, Ms. Develioglu served as Brand Manager for 5 years and Marketing Manager for 7 years in various product categories and markets until 2003. She is a graduate of the Department of Industrial Engineering at Bogazici University. She also holds a Master's Degree in Operations Research and Engineering Management from Rensselaer Polytechnic Institute, New York.

Meltem Kalender Ozturk, born in 1974, joined Turkcell in 1998 and is the Chief Group Human Resources Officer. Between 2001 and 2011, she was the Division Head of Employee Relations responsible for training & development, talent management, remuneration, employee relations, recruitment, organizational development and quality management. Ms. Ozturk also worked in various human resources functions at Logo Business Solutions and Isiklar Holding. Ms. Ozturk is a graduate of Business Administration from Marmara University.

Selen Kocabas, born in 1968, joined Turkcell in 2003 and is the Chief Corporate Business Officer. Prior to this appointment, she was the Chief Business Support Officer in charge of human resources, corporate information systems, procurement and contract management, and administrative issues. Ms. Kocabas started her professional career as a Management Trainee at Koc Holding, and later worked as Human Resources Expert at Arcelik, then as a Human Resources Coordinator at Marshall, followed by Groupe Danone SA where she worked as Human Resources Director. Ms. Kocabas is a graduate of Economics from Istanbul University. She also obtained a Master's Degree in Human Resources Management from Marmara University.

Table of Contents

Semih Incedayi, born in 1965, joined Turkcell in 2006. Before joining Turkcell, Mr. Incedayi had 10 years of experience at Koc Group, 4 years at Telsim and 2 years at Borusan Telecom. He graduated from Middle East Technical University Computer Engineering Department. Since April 2007, Mr. Incedayi has been the General Manager of Turkcell Technology. In December 2013, he was appointed Chief Products and Services Officer.

Tayfun Cataltepe, born in 1961, joined Turkcell in 2007 and is the Chief Regulation and Legal Officer. After graduating from the Electronic Engineering Department of Bogazici University, Mr. Cataltepe received his MSc degree from Michigan Technology University and Doctorate Degree from the University of California, Los Angeles. From 1990 to 1998, he worked as a Research and Development Engineer at Bell Laboratories. In 1998, he moved on to AT&T as the IP Network and Service Planning projects manager, where he worked until 2003. Following AT&T, he worked at Aycell as the Deputy General Manager in charge of Technical Operations. He was then Deputy General Manager in charge of Network Operations at AVEA from 2004 to 2006. From 2006 to 2007, Mr. Cataltepe served as the Europe Telecom Sector Expert in the Transaction Integration Services Department of Ernst & Young.

Tolga Cem Seyfeli, born in 1972, joined Turkcell in 2011 as the Institutional & Governmental Relations Director. Prior to Turkcell, Mr. Seyfeli worked as a legal advisor at Turk Telekom, Ministry of Transport and Botas A.S. Mr. Seyfeli graduated from the Faculty of Law at Ankara University and holds a Master's degree in Private Law and Competition Law from Gazi University. In December 2013, he was appointed Chief Legal Officer.

Yigit Kulabas, born in 1970, was appointed as Chief Corporate Marketing Officer effective March 11, 2013. Prior to his current position, he held positions at Oracle, Microsoft, and Ericsson. Mr. Kulabas was the Global Marketing Director of Ericsson in his previous role. He graduated from Bilkent University's Department of Computer Engineering and received a Master's Degree in Computer Engineering from Bilkent University. He holds a PhD degree in Marketing from Istanbul Technical University.

6.B Compensation

The compensation of the Board of Directors is resolved by the shareholders at general assemblies. In accordance with the Company's corporate governance practices, the Board, although it has no final authority on remuneration, upon the recommendation of the Compensation Committee may decide on a proposal to the General Assembly as to whether board members will be remunerated, and if such is the case, the form and amount of compensation to be paid to the board members. At our Annual General Assembly held on April 29, 2010, it was decided that our Chairman would receive a net sum of 250,000 per year and each Board member would receive a net sum of 100,000 per year for the period of their service, effective February 25, 2010.

For the year ended December 31, 2013, we provided, paid and accrued an aggregate of approximately \$16.9 million to our executive officers and members of the Board of Directors including: indemnities, salaries, bonuses and other benefits. There was no deferred or contingent compensation accrued for the year payable to executive officers and members of the Board of Directors other than those already included in \$16.9 million. In 2012, we provided, paid and accrued an aggregate of approximately \$15.0 million to our executive officers and members of the Board of Directors including: indemnities, salaries, bonuses and other benefits. Furthermore, we do not maintain any profit sharing, pension or similar plans. We have Directors, and Officers, Liability Insurance that covers our directors and officers from liabilities that arise in connection with performing their duties and our liabilities in connection with our directors' and officers' performance of their duties. The coverage amount is \$400 million, and there are a number of insurers, each covering a different layer of the policy. The Directors and Officers Liability insurance is London based, but it is provided through Mapfre Genel Sigorta A.S., an insurance company in Turkey. In 2014, we paid a premium of approximately \$1,127,175 and in 2013, we paid a premium of approximately \$699,726. In 2012, we paid a premium of

approximately \$428,000. The policy will expire on September 2, 2014, and we will consider renewing its insurance limit based on the terms and conditions offered.

Table of Contents

Disclosure of compensation is required on an individual basis unless individual disclosure is not required in the company's home country and is not otherwise publicly disclosed by the company.

6.C Board Practices

Under the Turkish Commercial Code and our Articles of Association, our Board of Directors is responsible for our management. The Articles of Association provide for a Board of Directors consisting of seven members. Members of our Board of Directors are generally appointed for a term of three years. However, in a series of resolutions in 2013, the CMB appointed new members to our Board, who shall remain members until new members are elected or until the CMB announces a new resolution.

For more information on our directors and the period during which each director has served on the board, see Item 6.A. Directors and Senior Management .

Committees of the Board of Directors

a. The Audit Committee

We are required under Turkish laws and regulations, U.S. securities laws and regulations and the rules of the New York Stock Exchange (NYSE) to have an Audit Committee of the Board of Directors appointed from among the independent members of the Board of Directors. Our Audit Committee currently has three members: Mr. Ahmet Akca, Mr. Mehmet Hilmi Guler and Mr. Atilla Koc. All of the members are considered independent under the U.S. Sarbanes Oxley Act of 2002, the rules promulgated thereunder by the U.S. Securities and Exchange Commission, the applicable rules of the NYSE and the CMB Corporate Governance Principles.

Similar to the Swiss Code, board committees in Turkish law merely have a decision-shaping , rather than decision-taking role. Additionally, as per a decision of the Board of Directors, the responsibility of the Audit Committee members is also considered as a joint responsibility of all Board members.

The principal duties of the Audit Committee include the following:

- assisting the board's oversight of the quality and integrity of our financial statements and related disclosure;

- overseeing the implementation and efficiency of our accounting system;
- pre-approving the appointment of and services to be provided by our independent auditors;
- preparing and monitoring the agreement between us and the independent auditor and overseeing the performance and efficiency of our independent audit system and internal audit mechanisms; and
- establishing procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting control systems or auditing matters and establishing procedures for the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters.

b. *The Corporate Governance Committee*

The Corporate Governance Committee, based on CMB's corporate governance principles, mainly assists the Board of Directors with the development and implementation of our corporate governance principles and presents to the Board of Directors remedial proposals to that end. The Committee makes recommendations to the Board of Directors, where appropriate, regarding the Chief Executive Officer and Chief Financial Officer and their succession plan. In the relations between the Company and our shareholders, the Committee assists the board. To that end, it oversees the investor relations activities.

Table of Contents

The current members are Mr. Mehmet Hilmi Guler, Mr. Mehmet Bostan and Mr. Bekir Pakdemirli. Mr. Guler is the Chairman of the Corporate Governance Committee.

c. The Candidate Nomination Committee

On April 27, 2012, the Candidate Nomination Committee was established in accordance with the CMB corporate governance principles to perform independent board member candidate nomination and performance assessment processes. The current members are Mr. Ahmet Akca, Mr. Mehmet Hilmi Guler, Mr. Atilla Koc, Mr. Mehmet Bostan and Mr. Bekir Pakdemirli. Mr. Akca is the Chairman of the Candidate Nomination Committee.

d. The Compensation Committee

On December 19, 2012, in conformity with the CMB corporate governance principles, our Board established a Compensation Committee to operate under our Board of Directors. The current members are Mr. Atilla Koc, Mr. Mehmet Hilmi Guler and Mr. Mehmet Bostan. Mr. Koc is the Chairman of the Compensation Committee. The Board also adopted the Compensation Committee's Charter and approved that the Compensation Committee shall execute the duties relating to compensation issues which were earlier granted to the Corporate Governance Committee by the Corporate Governance Committee Charter and the Compensation Committee shall be authorized in lieu of the Corporate Governance Committee in Total Remuneration Policy for the Board of Directors and Top Executives adopted by our Board. The Committee determines the remuneration principles that apply to the Board members and senior management taking into account the long-term strategic goals of the Company. It sets out the remuneration criteria for the Board members and senior management's performance and makes compensation recommendations to the Board. The Company's Total Remuneration Policy for the Board of Directors and Top Executives adopted by the Board resolution was included in the agenda of the annual general meeting scheduled to be held in 2013 as an information item. Since the meeting could not be held, shareholders were informed via the Company's website.

e. The Early Detection of Risks Committee

The Early Detection of Risks Committee has been established in conformity both with the new Turkish Commercial Code and CMB corporate governance principles to assist the Board in early detection of risks that may jeopardize the Company's existence, development and continuation, and to assist the Board in taking the necessary measures and remedial actions to manage such risks. The current members are Mr. Mehmet Hilmi Guler, Mr. Mehmet Bostan and Mr. Bekir Pakdemirli. Mr. Guler is the Chairman of the Early Detection of Risks Committee.

6.D Employees

From our formation in 1993, we have grown from approximately 90 employees to 14,315 employees (part-time employees and disabled employees working at home are not included in the number of total employees) as of December 31, 2013. Due to our customer growth and the increasing need for competent employees, we focus on the quality of our recruitment. The following table sets forth the number of employees by activity employed by us at December 31, 2013, 2012 and 2011.

Table of Contents

- (1) As of 2013, Consumer Business function has been restructured and divisions directly reporting to Chief Consumer Business Officer are positioned under Consumer Marketing and Consumer Sales functions.
- (2) As of November 2012, alarm handling and complaint management teams of Turkcell Superonline and Network Operations function have merged with Information & Communication Technologies in order to increase after sales service quality.
- (3) The figures from 2011 and 2012 have been updated to reflect additional employees under the CEO Office & Support function.
- (4) As of September 2013, Corporate Affairs function is restructured and renamed as Group Corporate Affairs.
- (5) As of February 2013, the Internal Audit function of Turkcell Global Bilgi merged with Turkcell Internal Audit function and was renamed Group Internal Audit.
- (6) As of February 1, 2012, the Kurumsal A.S. organization has been restructured and merged with Corporate Business.
- (7) Others include the following subsidiaries: Inteltek Internet Teknoloji Yatirim ve Danismanlik Ticaret A.S., Global Tower, Turkcell Europe, Lifetech, Ukrtower and Azerinteltek.

High levels of subscriber satisfaction can only be achieved if our employees are capable and competent professionals dedicated to subscriber service.

We are able to recruit highly qualified employees due to our position of leadership in the Turkish telecommunications market and our strong corporate identity. Stringent hiring and training standards have resulted in a professional organization with high-caliber employees within a challenging workplace.

With regard to employee compensation and benefits, the major principles of our policy are to preserve internal equity and external competitiveness and reflect individual performance in compensation packages.

Significant factors involved in the process of determining compensation and benefits for our employees are our grading structure (based on the Hay Grading system), market movement data and individual performance. We make salary adjustments once yearly. Principal factors in salary

adjustments are market movements and economic indicators (e.g., the rate of inflation). We pay performance bonuses quarterly to sales employees and annually to all other employees in accordance with individual and company performance results. Our performance evaluation system evaluates the whole year performance of our employees through two primary activities: target setting and 360-degree evaluation. Benefits packages are designed in line with the local market practice and linked to grade bands/levels where the benefits package improves as the grade band/level increases. We run a flexible benefits plan that allows our employees to select from a pool of choices that suit them such as several shopping and travel vouchers, allowance for children and payment to the Defined Contribution Plan (the DCP). The DCP is a voluntary pension system in which we and the employee make equal contributions. After a vesting period of three years, the employee gets ownership of the contribution we made. The DCP covers all employees who have been working with us for a minimum of six months.

Table of Contents

Each of our employees undergoes an orientation program incorporating classroom training and e-learning training. The training provides employees with information concerning corporate culture and ethics, an introduction to our services, basic mobile communications knowledge and functions of departments. Each employee has the opportunity to participate in the individual, organizational, functional and managerial development programs after regular analyses of his or her training needs. In addition, each employee receives specific training for his or her particular job.

To further develop our employees we have created the Turkcell Academy. The Turkcell Academy is structured as a center of development for Turkcell Group employees. The Turkcell Academy was created as part of Turkcell's philosophy of investing in people and is one of our proactive development solutions supporting group strategies and helping to improve Turkcell's performance. With the Turkcell Academy's branded long-term development programs, technical and non-technical courses, web-based training systems and e-learning, Turkcell Group has become an environment in which employees get together to receive a broad variety of educational content and to share information.

The Turkcell Academy is also intended to improve the future society of Turkey and to reach out to young people through social responsibility projects. Together with strategic partnerships with universities and training consultancies and with Academy trainers' experience and knowledge, the Turkcell Academy has become a valuable and important part of our company.

In January 2014, we took the further step of creating a digital Turkcell Academy in collaboration with leading educational institutions. This initiative will make digital learning available to Turkcell customers and to the general public providing more than 2,000 videos spanning a wide range of subjects in 5 categories: Innovation-Entrepreneurship, Leadership, Business World, Technology and Learn with Khan Academy, which provides courses on the basics of sciences and finance.

Our employees are not members of any union, and there is no collective bargaining agreement with our employees. We have not experienced any work stoppages.

6.E Share Ownership

Based on reporting made to us in March 2014, we believe that the aggregate amount of shares owned by our Board members and senior officers at such time was 6,649.99 ordinary shares. No individual Board member or senior officer owned 1% or more of our outstanding shares.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

7.A Major Shareholders

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The following table sets forth our major shareholders' ordinary share ownership representing approximately 64.12% of our company's capital. This information is current as of March 14, 2014, based on the Company's official share book. Our shareholders do not have different voting rights.

Table of Contents

Name and Address of Owner	Nominal TRY Value of Shares Owned(1)	Percent of Class
Sonera Holding B.V.(2) P.O. Box 8675 NL 3009 AR Rotterdam The Netherlands	287,632,179.557	13.07%
Cukurova Holding A.S. Buyukdere Cad. Yapi Kredi Plaza A Blok Kat: 15, 34330, Levent, Istanbul, Turkey	995,509.429	0.05%
Turkcell Holding A.S.(3) Buyukdere Cad. Yapi Kredi Plaza A Blok Kat: 15 34330, Levent, Istanbul, Turkey	1,122,000,000.238	51.00%
Shares Publicly Held	789,372,310.776	35.88%(4)

(1) On April 29, 2005, the General Assembly approved a revaluation of our ordinary shares from TL 1,000 to TRY 1. The revaluation resulted in the formation of fractional shares, which have not yet been merged into whole ordinary shares. Therefore, we give the nominal value of the ordinary shares owned rather than the units or fractional units thereof.

(2) Controlled by TeliaSonera. On September 11, 2009, Sonera Holding, B.V. entered into a derivative transaction with Citibank, N.A. that was settled on October 30, 2009, resulting in Sonera Holding's acquisition of 6,418,710 of Turkcell's ADS (representing 16,046,775 Shares) at a price of \$17.30 per ADS.

(3) Controlled directly by Cukurova Telecom Holdings Limited that owns 52.91% of its shares. 51% of Cukurova Telecom Holdings Limited's shares are controlled by Cukurova Finance International Limited and 49% are controlled by Alfa Telecom Turkey Limited. As of the date of this annual report on Form 20-F, we understand that, TeliaSonera, Cukurova Holding, and Alfa Group currently own, directly or indirectly, of approximately 37.1%, 13.8%, and 13.2%, respectively, of our share capital, the majority of which is held through Turkcell Holding A.S. TeliaSonera's 37.1% does not include additional shares totaling approximately 0.94% that TeliaSonera has informed us that they own. For more information, see footnote 4 below and Item 3.D Risk Factors Turkcell's complex ownership structure and ongoing disagreements among our main shareholders have adversely impacted and may continue to impact decision-making on important matters. These ongoing disputes may lead to further regulatory or legal actions, and affect the ownership and control of our shares.

(4) We calculate shares publicly held by deducting from total shares outstanding those shareholders named above. However, a different level of shares publicly held is arrived at when calculating according to Turkish regulations, see Free Float Definition Rules in Item 10.B. Memorandum and Articles of Association Capital Structure Free Float Definition Rules. Based on information received from TeliaSonera, we understand that approximately 0.94% of the shares they own in our Company is a part of float.

As of March 14, 2014, Turkcell had 69,660,002 ADRs outstanding held by 53 registered ADR holders. To the best of our knowledge, as of December 31, 2013, in accordance with the loan agreements signed between our shareholders and various banks, 0.05% of shares having a nominal value of TRY 995,509,429 have been pledged by our shareholders as security in favor of such banks.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

On October 27, 2010, our Board of Directors approved a resolution for the blank endorsement of 25,500,000 shares, each having a nominal value of TRY 1, and held by MV Holding A.S. for their transfer and assignment pursuant to paragraph m of Article 9 of the Borsa Istanbul Quotation Regulation.

Mapfre Genel Sigorta notified the sale of 1,558,447.590 of its shares in our Company to the Capital Markets Boards on January 21, 2010 and the sale of 0.009 of its shares in our Company on May 6, 2010. These shares are now classified as publicly held shares of the Company and Mapfre Genel Sigorta is therefore no longer listed as an ordinary shareholder.

Muflis Bilka Kaynak Iletisim San ve Tic. A.S. completed the sale of its 137,199.575 shares in our Company through the Central Registry Agency as of March 30, 2012. These shares are now classified as publicly held shares of the Company and Muflis Bilka is therefore no longer listed as an ordinary shareholder.

Table of Contents

On January 25, 2013, MV Holding registered 26,021,712.590 shares through the Central Registry Agency. These shares are now classified as publicly held shares of the Company and MV Holding is therefore no longer listed as an ordinary shareholder.

7.B Related Party Transactions

We have entered into agreements with our executive officers and with several of our current and former shareholders or affiliates of shareholders. We believe that all of such agreements are on terms that are comparable to those that would be available in transactions with unrelated parties. Our policy is to seek price quotes for services and goods we purchase and select the most favorable price. For a discussion of our Related Party Transactions for fiscal year 2013, see Note 35 to our Consolidated Financial Statements.

7.C Interests of Experts and Counsel

Not Applicable.

ITEM 8. FINANCIAL INFORMATION

8.A Consolidated Statements and Other Financial Information

Audited consolidated financial statements as of December 31, 2013 and 2012, and for each of the years in the three-year period ended December 31, 2013, are included in Item 18. Financial Statements .

I. Legal Proceedings

For a discussion of the various claims and legal actions in which we are involved, see Note 34 (Commitments and Contingencies) to our consolidated financial statements in this Form 20-F.

II. Dividend Policy

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

We have adopted a dividend policy, which is included in our Corporate Governance Guidelines. As adopted, our general dividend policy is to pay dividends to shareholders with due regard to trends in our operating performance, financial condition and other factors. Since 2004, the Board of Directors has endeavored to distribute cash dividends of at least 50% of our distributable net profits per fiscal year, although the payment of dividends remains subject to our cash flow requirements, applicable Turkish laws and the approval of, or amendment by, the Board of Directors and the General Assembly of Shareholders.

In order to comply with the Capital Markets Board's Communiqué on Dividends II-19.1 dated January 23, 2014, the Turkcell Board of Directors amended its dividend distribution policy proposal as stated below, which is subject to the approval of the General Assembly:

The Company shall target a dividend payout of at least 50% of its distributable net income as cash. This policy will be subject to the Company's cash projections, business outlook, investment plans and capital market conditions. The actual dividend decision will be made for each fiscal year separately with the approval of the General Assembly of Shareholders. Dividend distribution shall be started on a date to be determined by the General Assembly of Shareholders which shall not be later than the end of the year in which the General Assembly convenes. The Company, in accordance with laws and regulations, may consider distributing advance dividends or making the dividend payment in equal or unequal installments.

Additionally, in order to create added value for its shareholders, the Company may also consider share repurchase programs depending on the conditions set forth above and applicable regulation.

In accordance with Turkish law, the distribution of profits and the payment of an annual dividend with respect to the preceding financial year are subject to a recommendation which may be made by the Board of Directors each year for approval by the shareholders at the annual general assembly. The Board may decide whether or not to recommend a distribution of profits together with the amount of dividends, and the shareholders, through the general assembly, may accept, amend or reject such proposal, if any. Dividends are payable on a date proposed by the Board of Directors and determined at the general assembly of shareholders, which date, under the CMB requirements, must be earlier than the end of the financial year in which the general assembly decides on dividend distribution. However, the CMB is authorized to designate another deadline for distribution of dividends in any given year.

Table of Contents

On March 10, 2010, our Board of Directors proposed a dividend for the year ended December 31, 2009 of TRY 859.3 million (equivalent to \$402.6 million at December 31, 2013), which represents 50% of distributable net income and a net cash dividend of TRY 0.39 (equivalent to \$0.18 at December 31, 2013) per share. This dividend proposal was approved at the Ordinary General Assembly of Shareholders held on April 29, 2010. A cash dividend was distributed from May 17, 2010, for a period of 15 days.

On March 23, 2011, our Board of Directors proposed a dividend for the year ended December 31, 2010 of TRY 1,328.7 million (equivalent to \$622.5 million at December 31, 2013), which corresponds to 75% of Turkcell's distributable net income and a net cash dividend of TRY 0.60 (equivalent to \$0.28 at December 31, 2013) per share. This dividend proposal was discussed but not approved at the Ordinary General Assembly of Shareholders held on April 21, 2011, and the Extraordinary General Assembly of Shareholders held on August 11, 2011 and October 12, 2011. The General Assemblies in 2012 and 2013 could not convene since the quorum required had not been reached and the dividend proposal could not be presented for approval.

Annual profits are calculated and distributed in accordance with our Articles of Association after deduction from our annual revenues of all expenses, depreciation, taxes, required reserves and any losses from the previous years.

Pursuant to CMB regulations, dividend distributions of publicly held companies are regulated as follows.

From the distributable net dividend calculated as per the CMB's regulations, the entire amount calculated according to the CMB regulations regarding the requirement of minimum dividend distribution shall be distributed in the event such amount can be covered by the distributable net dividend in the statutory records. In the event the entire amount cannot be covered by the distributable net dividend in the statutory records, the total distributable net dividend in the statutory records shall be distributed. In the event there is net loss in the financial statements prepared as per the CMB regulations or statutory records, there shall be no dividend distribution.

The CMB determined that for the accounting period ended December 31, 2008, the minimum dividend distribution rate should be at least 20% of the total distributable dividend. This distribution can be in cash or in the form of bonus share distribution, or both in cash and in the form of bonus share distribution, provided that it will not be less than 20% of the total distributable dividend. The amount of dividend to be distributed shall be resolved in the general assembly meetings of the companies. The CMB decided, with its decision dated January 27, 2010, not to enforce a minimum dividend distribution ratio for the dividend distribution to be made relative to the profit generated in 2009. The CMB has taken no further decision to amend this decision regarding dividend distribution. The new Capital Markets Law, which came into force on December 30, 2012, stipulates that public companies shall distribute dividends in line with their dividend policy determined by their general assembly and in conformity with the relevant legislation. However, the new law entitles the Board to regulate dividends. The CMB also published a Communiqué on Dividends (II-19.1) on January 23, 2014 and entered into force on February 1, 2014. Within the scope of the Communiqué, companies shall distribute dividends through a general assembly resolution in accordance with current legislation and the policies of the company. As per the Communiqué, dividends may be distributed in installments in case a general assembly resolution is adopted in this regard. The Communiqué also sets out the principles and procedures for the distribution of dividends. This new Communiqué revoked the Communiqué on the Principles Regarding the Distribution of Dividends and Interim Dividends to be Followed by Publicly Held Joint Stock Companies subject to the Capital Markets Law Serial: IV No: 27, dated November 13, 2001.

To the extent we declare dividends in the future, we will pay those dividends in Turkish Lira. In the case of ordinary shares held in the form of ADSs, dividends will be converted into U.S. Dollars by the depository for the ADSs, to the extent it can do so on a reasonable basis, and will be distributed to the holders of the ADSs. Because exchange rates between the Turkish Lira and the U.S. Dollar fluctuate continuously, a holder of ADSs will be subject to currency fluctuation generally, but particularly between the date on which dividends are declared and the date dividends

are paid. Under current Turkish regulations, dividends or other distributions paid in respect of the ordinary shares or ADSs generally will be subject to withholding taxes. See Item 10E. Taxation .

ITEM 9. THE OFFER AND LISTING**9.A Offer and Listing Details**

Our capital consists of ordinary shares. Pursuant to an amendment in Turkish Capital Markets Law and a communiqué issued by the CMB, our shares traded on the Borsa Istanbul were dematerialized as of November 2005. For detailed information on the dematerialization of our shares, see Item 10.B. Memorandum and Articles of Association Transfer of Shares .

Our ordinary shares are traded on the Borsa Istanbul under the symbol TCELL and our ADSs are traded on the NYSE under the symbol TKC . Currently two ADSs represent five of our ordinary shares. Our ADSs are evidenced by American Depositary Receipts (ADRs). On July 6, 2011, we signed an amended and restated Deposit Agreement with Citibank N.A. (Citibank), as depositary (the Depositary), Turkcell and holders of ADRs, which transferred our ADR program from JPMorgan Chase Bank to Citibank.

Since January 1, 2006, capital gains realized without meeting a one-year holding period are subject to a withholding tax in Turkey. On July 7, 2006, a provision was added to article 1/a of Code 5527 stating that foreign-based taxpayers, natural persons and corporations are subject to 0% tax. See Item 10.E. Taxation .

The table below sets forth, for the periods indicated, the reported high and low closing quotations (as extracted from Reuters) on the NYSE and the Borsa Istanbul. All quotations have been adjusted to take into account all dividends we have issued in the form of shares and cash.

10.B Memorandum and Articles of Association

I. General

We are registered in the Istanbul Trade Registry under number 304844. Pursuant to Article 3 of our Articles of Association, as amended on January 30, 2009, at the Extraordinary General Assembly, we are incorporated primarily for the provision of any telephone, telecommunication and similar services in compliance with the Telegraph and Telephone Law number 406 and services stated in the GSM Pan Europe Mobile Telephone System bid that was signed with the Ministry of Transport, Maritime Affairs and Communications and to operate within the authorization regarding the IMT-2000/UMTS services and the infrastructure.

Table of Contents

II. Board Members

a. General

According to our Articles of Association, the Board of Directors is comprised of seven members elected by the general assembly. An increase in the number of members of the Board of Directors must be approved by the general assembly. However, in a series of resolutions in 2013, the CMB appointed new members to our Board, who shall remain members until new members are elected or until the CMB announces a new resolution. With the new Turkish Commercial Code Act No 6102 (TCC), which came into force on July 1, 2012, the requirement of having a share of company in order to become a member of Board of Directors has been abolished. The individuals who do not have any shares in the company have been provided an opportunity to be elected as members of the Board of Directors and carry out such duty. Additionally, the TCC mandated that the Board members who have been elected as a representative of a legal entity be required to resign and that the new Board members (as individuals or representatives of the legal entity) be required to be appointed in their place until October 1, 2012 at the latest. Currently none of the directors on our Board are either representatives of shareholders that are legal entities or shareholders themselves.

The TCC does not require a Board member to be a Turkish citizen. There is no minimum age for the directors, provided that a Board member has reached the age of majority, which is 18, and there is no mandatory retirement age under applicable law. The conditions to be a Board member are regulated by the new TCC and the conditions to be an independent board member are regulated by the related CMB legislation.

b. Board Members Interest

The TCC forbids a Board member to enter into a transaction with us in any area relating to business, either on the Board member's own behalf or on behalf of someone else, thus preventing the abuse of duty by Board members and protecting our interests (TCC Article 395) without the authorization of the general assembly. Our general assembly may authorize our Board members to enter into these types of transactions through a specific provision in our Articles of Association, or our general assembly may grant such a right on a yearly basis.

Board members cannot participate in board meetings in which a matter related to themselves or their relatives is discussed (TCC Article 393). If any item of an agenda is related to one of the Board members, within the meaning of TCC Article 393, the Board member concerned should inform the Board of this and the reason for not attending the discussions due to prohibition and any other actions taken related to the situation be recorded in the relevant Board of Directors' resolution. Interested Board members cannot participate in and sign such resolutions. If we suffer any loss because of a Board member's failure to raise such an issue, the Board member shall be held liable to compensate us for the loss incurred due to such matters related to relatives.

Under TCC Article 396, without the authorization of the general assembly, the Board members are barred from participating in similar commercial activities outside our Company. Board members cannot become shareholders with unlimited liability or become Board members of companies active in similar types of business. Our general assembly may, however, authorize our Board members to enter into these types of transactions through a specific provision in our Articles of Association or our general assembly may grant such a right on a yearly basis.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Furthermore, based on the CMB Communiqué Serial: IV, No: 56 Concerning the Establishment and Implementation of the Corporate Governance Principles, which was published in the Official Gazette dated December 30, 2011, along with Board members, controlling shareholders, senior management, as well as spouses and second degree blood and affinity relatives of those, can only do transactions which may cause conflict of interest with the company or its subsidiaries and can only compete with the company if its general assembly gives its prior approval thereto and if the general assembly is informed of such transactions. In a further Communiqué Serial IV, No. 63 dated February 22, 2013 the general assembly's prior approval requirement was removed. Additionally, only material transactions shall be submitted for the General Assembly's information. The Corporate Governance Communiqué numbered II-17.1, which was published in the Official Gazette dated January 3, 2014 and replaced the above-mentioned regulatory framework, kept this requirement.

Table of Contents

c. Compensation

Any remuneration payable to Board members shall be determined by our general assembly. The Board of Directors has no authority to determine such remuneration. At our Annual General Assembly held on April 29, 2010, it was decided that our Chairman would receive a net sum of 250,000 per year and each Board member would receive a net sum of 100,000 per year for the period of their service, effective February 25, 2010.

According to a CMB Communiqué Serial:IV, No: 56 Concerning the Establishment and Implementation of the Corporate Governance Principles, which was published in the Official Gazette dated December 30, 2011, a written Remuneration Policy for Board members and senior management was prepared. This Policy was posted on the company's website and submitted at the ordinary general assembly as a separate agenda item for information. The Corporate Governance Communiqué numbered II-17.1, which was published in the Official Gazette dated January 3, 2014 and replaced the Communiqué Serial: IV, No: 56, kept this requirement as a mandatory corporate governance principle dealing with Financial Rights of Board Members and Executives Having Administrative Responsibility. However, our Ordinary General Meeting scheduled on June 29, 2012, May 22, 2013 and June 24, 2013 could not convene since the quorum required by our Articles of Association had not been reached because Turkcell Holding A.S., which owns a 51% stake in our Company, was not represented at the meeting. Payment plans such as stock options or those based on company performance are not used in the remuneration of independent Board members. Remuneration of independent board members must safeguard the independency level.

d. Borrowing Power

To the extent the relevant provisions of Turkish law allow, the Board of Directors of our Company is the body entitled to, directly or through representatives authorized by the Board of Directors, resolve to exercise our powers to borrow money or give any form of guarantee or surety relating to our or any third party's obligations. CMB adopted a rule on September 9, 2009, which was announced in its weekly bulletin in connection with credit extensions, that public companies can provide guarantees or pledges, including mortgages, to third parties, provided such third party (i) is fully consolidated in the company's financial statements or (ii) the ordinary business operations of the company directly requires providing guarantees, pledges or mortgages. At the Ordinary General Assembly held on April 29, 2010, Article 3 entitled Purpose and Subject Matter of Turkcell's Articles of Association was amended in line with CMB's rule dated September 9, 2009. Under our Articles of Association, our Board of Directors is authorized to issue debentures and other securities subject to the TCC, Turkish Capital Markets Law and other relevant legislation. Under Turkish Capital Markets Law, the total value of capital market instruments shall not exceed the amount specified by the CMB, for each type of instrument. However, as a general rule, the total value of debentures and other debt instruments that a publicly held company may issue as capital market instruments may not exceed the balance remaining after deducting the losses, if any, from the total sum of the outstanding and paid-up capital as shown on the latest independently audited financial statements submitted to the CMB, plus reserves and the revaluation fund stated in the latest financial statement approved by the general assembly. Pursuant to Article 3 of our Articles of Association, as amended on October 2, 2009 at the Extraordinary General Assembly, and as effective on October 7, 2009, we can extend credits to companies in which we have direct or indirect shareholding interest, both in Turkey and overseas, as well as to our main company and group companies, in Turkish Lira or other foreign currencies, on the condition that such extensions do not conflict with applicable laws and regulations. The Corporate Governance Communiqué numbered II-17.1, which was published in the Official Gazette dated January 3, 2014, incorporated the rule which was announced in its weekly bulletin on September 9, 2009 in its Article 12. Furthermore, as per Article 12, board resolutions with regard to providing guarantees or pledges including mortgages within the framework of ordinary business operations of the company should be signed by the majority of independent board members. In case the majority of independent board members do not approve the resolution, dissenting opinions should be announced to the public. In such resolutions, related board members, if any, could not participate to the relevant board meeting.

Table of Contents

e. CMB Rules Regarding Transactions with Related Parties

Initially, based on CMB Communiqué Serial IV, No. 56, dated December 30, 2011, the approval of the majority of the independent members was necessary for any and all kinds of related party transactions of the company (related parties referred in the Communiqué will be determined in accordance with the Turkish Accounting Principles No. 24, equivalent of IAS 24), as well as for the resolutions of the board of directors with respect to giving guarantees, pledges and mortgages in favor of third parties. The CMB in a further announcement clarified that listed companies could adopt one board/general assembly resolution for the execution of transactions of a continuous and extensive nature with related parties unless the terms of those transactions had changed. In the event such changes occur, new board/general assembly resolutions will be needed. The new Capital Markets Law dated December 30, 2012 empowered the CMB to determine the nature of such transactions. Accordingly, the CMB with its Communiqué Serial IV, No. 63 dated February 22, 2013 restricted the scope and set out that only material related party transactions, as opposed to all kinds of transactions, shall be submitted to the approval of independent members. In cases where the majority of the independent members do not approve such material transaction, the case shall be disclosed to the public in a manner covering sufficient information with respect to the transaction within the scope of public disclosure arrangements, and the transaction shall be submitted to the general assembly for approval. During such general assembly meetings, a resolution shall be adopted by vote in which the parties to the transaction as well as the individuals related thereto are not entitled to vote. Meeting quorum shall not be necessary for the general assembly meetings to be held for those cases. Such resolutions shall be adopted by simple majority of the attendees having the right to vote. The Company shall incorporate related mandatory provisions of the said Communiqué in its Articles of Association (along with other mandatory provisions relating to corporate governance, see Item 16.G. Corporate Governance). The Corporate Governance Communiqué numbered II-17.1, which was published in the Official Gazette dated January 3, 2014, defined the materiality as set out by the Communiqué Serial IV, No. 63. Accordingly, a 10% threshold will be applied in comparison with the relevant criteria such as total annual assets, annual revenues or market value of the company. When a transaction's amount is above this 10% threshold, the majority vote of independent board members will be sought.

III. Capital Structure

a. General

Our Board of Directors has adopted the authorized share capital system which, under Turkish law, allows us to increase our issued share capital up to the authorized share capital amount upon resolution by our Board and without need for further shareholder approval. On January 23, 2008, the CMB amended its Communiqué on principles regarding the registered capital system. According to this amendment, the registered capital ceiling authorization given by the CMB shall be valid for five years, including the year in which the authorization is granted. As this five-year term ended in January 23, 2013, the Company will need to apply for the CMB's authorization in order to determine its capital ceiling for a five-year term and will amend its Articles of Association accordingly at the next ordinary general assembly meeting. In an effort to harmonize new legislation with the Capital Markets Law numbered 6362, which entered into force on December 30, 2012, the CMB released the Communiqué on the Registered Capital System II-18.1 which became effective on December 25, 2013. The new Communiqué mostly includes regulations in line with the former Communiqué (Serial: VI, No: 38) and de facto practice of the CMB. As for the determination of the ceiling, the new Communiqué contemplates a limitation for the ceiling and states that the registered capital ceiling shall not be more than five times the issued capital or the equity, whichever is higher. The new Communiqué also sets out that the registered capital ceiling may be exceeded once within the scope of each ceiling (i) through conversion of all kinds of internal resources and dividends into the share capital; and (ii) as a result of transactions requiring general assembly resolutions such as mergers and spin-offs. However, both the former legislation and the new Communiqué provide that the registered capital ceiling may not be exceeded with capital increases through cash. As in the former regime, the registered capital ceiling approved by the CMB is valid for five years including the year in which the approval is granted. Upon the expiry of the term, even if the registered capital ceiling has not been reached, in order for the board of directors to adopt a capital increase resolution, the board of directors must obtain authorization for a new period at the first general assembly upon the approval of the CMB for the same ceiling or a new ceiling. The term of this authorization may be extended for five year periods through a general assembly resolution. In the event such authorization is not obtained, the new Communiqué emphasizes that companies may not realize a capital increase through a board of directors resolution, whereas under the former Communiqué, companies were deemed to be excluded from the registered capital system. The increase of

the registered capital ceiling, extension of the permission period, capital increase and relevant resolutions of the board of directors shall be disclosed to the public within the framework of the CMB disclosure rules.

Table of Contents

b. Preemption Rights

We may increase our capital only through the issuance of new shares, and such issuances may come in the form of a rights offering or a bonus issue. Under Turkish law, existing shareholders are entitled to subscribe for new shares, also known as preemption rights, in proportion to their respective shareholdings each time we undertake a capital increase. Our Board of Directors will generally recommend that new shares be issued at prices equal to their nominal value, which entitles the existing shareholders to subscribe for shares at a significant discount from their current market price. The exercise of preemption rights by shareholders must be made within a subscription period which we announce, which may not be less than 15 days nor more than 60 days after the issuance of the preemption rights circular. Shareholders who do not wish to subscribe for new shares may sell their rights on the Borsa Istanbul (BIST). Any shares not subscribed for by the existing shareholders or purchasers of the rights coupons are sold on the BIST at the current market price. Any differences between the rights issue price and the price realized for the shares on the BIST would accrue to our surplus account. Preemption rights of shareholders related to a rights offering may be restricted wholly or in part either by an affirmative vote of the holders of a majority of the outstanding shares at an ordinary or extraordinary general assembly or a resolution adopted by the Board of Directors to such effect, provided that such authority is conferred upon the Board of Directors. CMB rules stipulate that such authority may be conferred upon the Board of Directors of companies that have received permission from the CMB to adopt the authorized capital system. As per the new Communiqué on the Registered Capital System II-18.1, the General assembly shall approve the amendments to the articles of association with respect to granting authorization to the board of directors to restrict the pre-emptive rights of the shareholders to acquire new shares. Contrary to the former Communiqué, the new Communiqué has not foreseen a meeting quorum. With regard to the decision quorum, the former Communiqué differentiated between companies making an initial public offering and public companies, whereas the new Communiqué has not stipulated any such distinction. Accordingly, the new Communiqué regulates that shareholders holding 2/3 of the shares having voting rights shall provide affirmative votes. In addition, the new Communiqué has prescribed that if at least shareholders holding half of the voting shares are present at the meeting, the decision quorum shall be the majority of the shares participating in the meeting.

By the amendment to the Articles of Association, we have conferred such authority on our Board of Directors. The CMB further requires that the right of the Board of Directors to restrict the preemption rights of shareholders applies equally with respect to all shareholders. Under Turkish law, bonus issues may be undertaken in order to convert all or a portion of the revaluation fund and reserves of a company into share capital.

c. Dividend Distribution and Allocation of Profits

Our Board of Directors recommends annual dividends, which then must be approved by our shareholders at their annual general assembly. Dividends are payable on a date determined at the annual general meeting. Under current rules, the Board of Directors may decide whether or not to recommend a distribution of dividends, and our shareholders at our annual general meeting may decide whether or not to distribute dividends in any year. According to new Capital Markets law, we may freely determine the amount of dividends to be distributed based on the Dividend Policy, pursuant to applicable Turkish laws and upon the approval of, or amendment by, the Board of Directors and the General Assembly of Shareholders. The Board decides whether or not to recommend an allocation of profits, as well as the amount of dividends, and the shareholders, through the general assembly, may accept, amend or reject such proposal, if any.

The new dividend distribution regime is governed by a CMB Communiqué on Dividends II-19.1 which was published in the Official Gazette dated January 23, 2014, numbered 28891, which entered into force on February 1, 2014. Within the scope of the Communiqué, companies shall distribute dividends through a general assembly resolution in accordance with current legislation and the policies of the company. As per the Communiqué, dividends may be distributed in installments in case a general assembly resolution is adopted in this regard. The Communiqué has also determined the principles and procedures for the distribution of dividends. The CMB allows public companies the possibility of choosing the timing and payment method of the dividend distribution on the condition that the company's own dividend policy should regulate

this. In any case, according to the new Communiqué, distribution should commence until the end of the financial year in which the general assembly decided on distributing a dividend.

Table of Contents

In order to comply with the Capital Markets Board's Communiqué, the Turkcell Board of Directors amended its dividend distribution policy proposal as stated below which is subject to the General Assembly approval:

The Company shall target a dividend payout of at least 50% of its distributable net income as cash. This policy will be subject to the Company's cash projections, business outlook, investment plans and capital market conditions. The actual dividend decision will be made for each fiscal year separately with the approval of the General Assembly of Shareholders. Dividend distribution shall be started on a date to be determined by the General Assembly of Shareholders which shall not be later than the end of the year in which the General Assembly convenes. The Company, in accordance with laws and regulations, may consider distributing advance dividends or making the dividend payment in equal or unequal installments.

Additionally, in order to create added value for its shareholders, the Company may also consider share repurchase programs depending on the conditions set forth above and applicable regulation.

In parallel with the new Capital Market Law, the new Communiqué on Dividends sets ground rules for donations: articles of association of public companies should contemplate it and an annual limit should be determined by the general assembly (no limit at present). In any case, the CMB is entitled to fix the upper limit if needed, although there is currently no limit.

Dividends are payable by transfer to the account of the shareholders with a bank in Turkey corresponding to the relevant portion of their shares. Shareholders' entitlement to cash dividends remains in effect for a period of five years following the date of the general assembly approving such distribution, after which time they are transferred to the Turkish government.

Part of our remaining net profit may be distributed to our shareholders as a second dividend or retained by us as retained earnings, all at the discretion of our general assembly.

For additional details regarding our dividend policy see Item 8.A. Consolidated Statements and Other Financial Information Dividend Policy .

d. Voting Rights

Shareholders are entitled to one vote per share on all matters submitted to a vote of our shareholders.

CMB Communiqué Serial IV, No. 56 dated December 30, 2011 (see Item 16.G. Corporate Governance for further information), initially stated that transactions considered as material (transfer, acquisition or lease of all or significant portion of company assets or constitution of limited property right there on; providing concession or changing content or subject of existing concessions and being delisted) under certain conditions those material transactions will need to be approved by the general assembly. In the event that parties to such transactions are related parties,

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

such related parties shall not vote at the general assembly. The new Capital Markets law dated December 30, 2012 further expanded the scope of material transactions , which were exhaustively enumerated by the aforementioned Communiqué by adding the term like at the beginning of the enumeration. However, the topic has once again been regulated by another CMB Communiqué Serial IV, No. 63 dated February 22, 2013, and the term of material transactions with regard to the implementation of Corporate Governance Rules is again exhaustively defined in parallel with the Communiqué dated 2011.

Table of Contents

The CMB issued the Communiqué No. II-23.1 on Common Principles Regarding Material Transactions and the Right of Separation (published in the Official Gazette dated December 24, 2013, No. 28861). Material transactions of public companies are exhaustively enumerated. Some of the issues covered by the Communiqué are listed below:

- procedures and principles applicable to the material transactions of publicly held companies;
- exercise of the right of separation in relation to the material transactions and the cases where the right of separation is not applicable;
- pricing of the right of separation in non-listed companies;
- mandatory tender offer in connection with the material transactions; and
- mandatory meeting and decision quorums applicable to general assembly meetings with regard to material transactions.

e. Transfer of Shares

Subject to the limitations described below, shares may be sold and transferred by endorsement and delivery.

In practice, shares in registered form traded on the BIST are represented by the share certificates endorsed in blank, enabling such shares to be transferred as if they were in bearer form. As per the amendment in the then in force Capital Markets Law and a communiqué issued by the CMB in this respect, our Company's shares traded at the Borsa Istanbul were dematerialized as of November 2005.

Legal and actual dematerialization of the share certificates commenced on November 28, 2005. Beginning from November 28, 2005, it is prohibited for companies registered on the ISE to issue new share certificates, in consideration of rights issues or bonus issues. The new shares arising out of capital increases shall be transferred to the accounts of the rightful owners by registration.

A seven-year term given for the dematerialization of physical shares ended on December 31, 2012 and physical shares which were not delivered for dematerialization were supposed to become the property of the Company. However, according to the new Capital Markets Law which came into force on December 30, 2012, such undelivered physical shares are now transferred to the Investor Compensation Center and sold three months following the transfer on the Investor Compensation Center's accounts.

Concerning registration of share transfers, the Company will take into account the Central Registry Agency's data without requiring any application from the interested parties. Provisions regarding the nominal values of the share certificates of the Company are regulated in the temporary article of the Company's Articles of Association and such article was approved at the Ordinary General Assembly Meeting on April 29, 2005. The temporary article reads as follows:

Decree 32 on the Protection of the Value of the Turkish Currency issued in August 1989, as amended from time to time, provides that persons not resident in Turkey may purchase and sell our shares, provided that such purchase is effected through a bank or broker authorized pursuant to applicable Turkish capital markets legislation. Turkish capital markets legislation requires that shares of a company quoted on a Turkish securities exchange be traded exclusively on such exchange. The CMB has indicated that this requirement applies only to intermediary institutions licensed for trading on the stock exchange and to trade orders placed with them by investors. Accordingly, our shareholders that are not resident in Turkey may transfer such shares only on the ISE. This requirement does not apply to transfers of ADSs.

Table of Contents

Under Turkish law, in the event that one of our shareholders transfers shares to any other shareholder or to any other third party investor, either foreign or local, the Foreign Investment General Directorate (FIGD) must be notified within one month of the transfer of shares.

Under Article 8 of the Electronic Communications Law, electronic communications services is rendered and/or electronic communications network or infrastructure is established and operated following the authorization made by the ICTA. Authorization is granted through the notification made in accordance with the principles and procedures determined by the ICTA, in case the resource allocation is not necessary, or given of usage right, in case the resource allocation, which means allocation of frequency, satellite position etc., is necessary. Furthermore, under the Authorization Regulation Regarding Telecommunication Services and Infrastructure Regulation, the ICTA must be notified in case of any share transfers within one month of the transfer of shares at the latest and in the event that the share transfer results in a change in control, such transfer of our shares by any of our shareholders should be realized with the written permission of the ICTA.

Under our Articles of Association, the Board of Directors is entitled to restrict the transfer of shares to foreigners in order to comply with Turkish shareholding requirements under Turkish law.

f. Disclosure of Beneficial Interests in the Shares

The Turkish Regulation on public disclosure of listed companies was regulated by the CMB Communiqué Serial VIII, No. 54 on Principles Regarding Public Disclosure of Material Events dated February 2009. The CMB released a new Communiqué on Public Disclosure of Material Events (II-15.1) which was published in the Official Gazette dated January 23, 2014, numbered 28891, which entered into force on February 23, 2014. Insider information, which means any non-public information that may possibly affect the value of capital market instruments and investors' decisions, is required to be disclosed immediately by listed companies. Shareholders' disclosure requirement would arise if they exceed the shareholding ratios established in the Communiqué II-15.1 (5%, 10%, 15%, 20%, 25%, 33%, 50%, 67% and 95%). Disclosure of insider information may be delayed to protect the legitimate interests of the company without causing market manipulation. For those that have administrative responsibilities in Turkcell (including Board members and high-ranked executives), or are closely related persons, that purchase and sell Turkcell's capital market instruments (including, but not limited to, Turkcell shares), such transactions will need to be declared to the Borsa Istanbul; however, according to the Communiqué II-15.1, if the cumulative amount of the above-mentioned Turkcell transactions does not exceed TL 10,000, such declaration will not be needed. This upper limit represents the total amount of all transactions made by both Board members/high-ranked executives and their closely related persons of the company and that of its subsidiaries which represent more than 10% of the total assets according to the latest annual financial statements of the company. Closely related persons means: wives/husbands, children and individuals sharing the same residence at the time of transaction and corporations; legal entities run by, directly/indirectly controlled by or whose economic interests are similar with that of Board members; and high-ranked executives of the Company.

In addition, the CMB adopted a short-swing-profit rule for company executives. The CMB has published the Communiqué No. VI-103.1 Regarding Managers' Payment of Net Purchase and Sale Gains to the Issuers (published in the Official Gazette dated December 12, 2013, No. 28849). The Communiqué VI 103.1 relies on the Capital Markets Law Article 103/4 and indicates that (i) the board members and the committee members of an issuer, (ii) the persons with administrative responsibilities at the issuer and (iii) the persons that have the power to determine and control the issuer's financial and operational policies, decisions or targets directly or indirectly, shall pay the net gains they have obtained through the purchases and sales within the same six-month period. It is indicated in the Communiqué VI 103.1 that the purpose of this regulation is to remove the inequality of opportunity between the persons who receive insider information about the issuers easier and faster due to their positions and the investors that reach the insider information after public disclosure.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

In addition, according to the Communiqué on Voluntary and Mandatory Tender Offers (Communiqué Serial IV No. 44) issued by the CMB on September 2, 2009, the mandatory tender offer shall be triggered when, directly or indirectly, more than 50% of our Company's shareholding is acquired or management control of a public company is taken over through acquiring (i) the necessary number of shares granting the right to elect or (ii) privileged shares allowing the nomination of the majority of the board of directors. Communiqué Serial IV No. 44 also stipulates certain circumstances which will not trigger a mandatory offer, such as management control changes of the company by a voluntary tender offer and share transfers by privileged shareholders with management control or persons acting together resulting in a possession of more than 50% of the capital or voting rights. The new Capital Markets Law incorporates those rules under its relevant provisions. The Communiqué on Tender Offer (II-26.1) which repeals the Communiqué Serial: IV No: 44 was published by the Capital Markets Board in the Official Gazette dated January 23, 2014, numbered 28891, which entered into force on the date of its publication. Through the Communiqué, the procedures and principles regarding mandatory and voluntary tender offers as a result of a change in management control have been regulated in compliance with the new Capital Markets Law No. 6362. Moreover, the definition of management control has been regulated as the direct or indirect acquisition of more than 50% of the share capital or the voting rights individually or collectively.

Table of Contents

In parallel, the new law introduces a squeeze out right: in the event the shareholding of a shareholder reaches a threshold, which shall be determined by secondary legislation of the CMB, such shareholder shall have the right to purchase shares of minority and the minority shall have the right to sell their shares. The CMB released the Communiqué on Squeeze out Rights and Statutory Put Option Rights (II-27.1) on January 2, 2014 in the Official Gazette numbered 28870, which will be effective as of July 1, 2014. According to the new regulation, the main condition to exercise the squeeze out right is holding almost the entire share capital of the relevant company. Parallel to such principle, the Communiqué regulates that the exercise of the squeeze out right is dependent on holding almost all the voting rights. Accordingly, if the controlling shareholder, directly or indirectly, holds at least 95% of the voting rights in a public company as a result of a mandatory tender offer or by any other means, the controlling shareholder has the right to squeeze out all other shareholders regardless of whether they hold privileged shares. As per the Communiqué II-27.1, if and when the squeeze out right of the controlling shareholder arises, all minority shareholders shall have a put option right, which shall be exercisable within three months. In parallel with the squeeze out right, the statutory put option right may be exercised through an application to the board of directors of the relevant company. Unlike the squeeze out process, the process to be followed upon the exercise of the statutory put option right is a sort of share transfer transaction. Therefore, the board's approval for the exercise of the put option right is not sought. The necessary transactions for the share transfer shall be conducted by the relevant company once the controlling shareholder deposits the purchase price in the company's bank account. For public companies, the purchase price to be paid by the controlling shareholder shall be the average of the weighted daily stock market price within the 30-day period prior to the disclosure stating that the controlling shareholder reaches at least 95% of the voting rights or acquiring additional shares when it already holds 95% or more of the voting rights in the company shares.

g. Free Float Definition Rules

While 35.88% of our Company is listed on the stock exchange, the number of our Company's free floating shares as of March 14, 2014 was 789,372,310.776, according to the Report on Free Float Ratios released by the Central Registry Agency in accordance with the Capital Markets Board's decision 21/655 of July 23, 2010, as amended by its decision 24/729 of August 18, 2010, and its free float ratio was 26.94%. The difference between these rates results from the exclusion of shares which are i. held by a public entity, ii. held by the company's incorporators and its affiliates (companies subject to consolidation), iii. held by shareholders who may be a natural person or a corporate body and control at least 5% of the Company's capital, iv. held by a) the members of the Company's Board of Directors and the Board of Auditors, b) General Manager or executives who are equal to or superior to a general manager in terms of their powers and functions, c) senior executives who report to General Manager or executives who are equal to or superior to a general manager in terms of their powers and functions, v. owned by the savings funds or foundations of companies, vi. Provided as equity capital pursuant to regulations applicable to the capital markets legislation or as a collateral in respect of a margin trading or as a collateral except the ones which are given as a collateral only for Central Depository Bank markets, vii. which are legally restricted and cannot be subject to purchase and sale, viii. prohibited, ix. seized in the definition of free float ratio. The difference may result from one or more situations described in the decision and it is not possible for our Company to know it.

Table of Contents

h. Trading Rules

The CMB amended the Borsa Istanbul (BIST) Stock Market trading rules with its decision dated July 23, 2010 (the Decision). The Decision is based on detailed research and technical analysis completed in three months and aims at ensuring conditions that will prevent the formation of artificial prices and support efficient price discovery.

According to the Decision, all companies traded on the BIST will be classified into 3 groups (A, B or C). Some trading rules are differentiated based on this classification. For example, Group B and Group C companies cannot be subject to margin trading and short sale.

The Decision defines:

- Group A listed companies as companies that are not listed under Group B or Group C.

- Group B companies as companies that meet the following criteria: (1) the value of the publicly traded shares is under TRY 10 million and the number of shares in circulation is under 10 million or (2) the value of the publicly traded shares is under TRY 45 million and the percentage of actual shares in circulation is under 5%. Furthermore, an investment trust is classified as a Group B company if its stock price is 1.5 times higher than its net asset value (NAV) per share.

- Group C companies as companies that meet the following criteria: (1) companies traded in the Watch List Companies Market or (2) actual number of shares in circulation is under 10 million. Furthermore, an investment trust is classified as a Group C company if its stock price is 2 times higher than its NAV per share (except for investment trusts with a market maker).

According to this CMB decision, Turkcell is listed under Group A companies.

i. Protection of Minority Shareholders

Under Turkish securities law, minority shareholders, defined as those who hold 5% or more of our share capital, have the right, among other things, to request our Board of Directors to:

- invite the shareholders to an extraordinary general assembly;

- request that a matter be included on the agenda at both ordinary and extraordinary general assembly;
- request the appointment of special auditors; if the general assembly rejects this request, minority shareholders may apply to the court for the appointment of a special auditor;
- take action against Board members who have violated the Turkish Commercial Code or the articles of association of a company or who have otherwise failed to perform their duties.
- pursuant to the TCC, provided there is a good reason, minority shareholders may claim from the competent court to rule in favor of dissolution of the Company; and
- if provided by the Articles of Association of the Company, certain minority groups may be represented at the Board of Directors.

According to the new Capital Markets Law, in the event a shareholder votes against a material transaction in a general assembly meeting, as briefly described above, such shareholder obtains a right to exit from the company by selling his/her shares. If the shareholder uses that right, the company is required to purchase the shareholder's shares.

Table of Contents

j. Liquidation

In the event of liquidation, our shareholders are entitled to participate in any surplus in proportion to their shareholdings.

k. Changes in Capital Structure

Any increase in our Company's registered capital ceiling requires an amendment to our Articles of Association and therefore shareholder approval through a general assembly. Such amendment is subject to the prior approval of the Ministry of Industry and Trade and the CMB. Our Board of Directors may also restrict the rights of existing shareholders and offer new shares to third parties. Changes in the voting and dividend rights of our shareholders require an amendment to our Articles of Association and approval by the general assembly. Such amendment is also subject to the prior approval of the Ministry of Industry and Trade and the CMB. Furthermore, under the Turkish Commercial Code, during the general assembly meetings held to amend the articles of association of a joint stock company, each share shall be entitled to only one vote, even if otherwise is provided under its articles of association.

Any decrease in our share capital requires an amendment to our Articles of Association. If we undertake to cancel our shares, we must notify any existing creditors, and within two months of notification, they may request payment or, if their receivables are not due and payable, we must create a security interest in their favor. Capital reduction is rarely applied in Turkey.

l. Share Buy-Backs

The new TCC contains several rules enabling Turkish companies to repurchase their own shares if they satisfy certain conditions. Accordingly, shares representing up to 10% of the total share capital of the company may be acquired by the company itself. Before the entry into force of the new TCC, the CMB had taken an anticipatory step by enabling listed companies to buy back their own shares. The CMB announced this on August 11, 2011, in its Weekly Bulletin numbered 2011/32, and this announcement describes in detail the procedures and principles which apply to such buy-back transactions.

In accordance with the new Capital Markets Law dated December 30, 2012, the Communiqué on Share Buyback numbered II-22.1 was published in the Official Gazette on January 3, 2014. The Communiqué regulates the principles and procedures of share buybacks or the establishment of pledges over their own shares by public companies. Essentially, the Communiqué governs the principles regarding the (i) share buybacks of public companies or accepting their own shares as pledges; (ii) sell-out of repurchased shares or their amortization; (iii) public disclosure of such transactions; and (iv) safe harbor provisions where share buybacks will not be deemed insider trading or manipulation of the market.

m. General Assemblies

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Our general assemblies are normally held at our head office in Istanbul. We generally hold our annual general assembly within four months of the end of each financial year, which in our case is the calendar year, in accordance with the CMB rules.

Right holders, who have a right to attend the general assembly meetings, can attend such meetings by electronic means pursuant to article 1527 of the new TCC. Pursuant to the Communiqué on Electronic General Assembly Meetings held in Joint Stock Companies, the Company shall invite the right holders to attend, to deliver an opinion and to vote by electronic means, either setting up the electronic general assembly system; or purchase related services from the system providers that are specifically found for such purposes.

According to the new TCC, the general assembly meeting procedures should be regulated under the Internal Guidelines to be approved by the general assembly and registered at the Trade Registry. Accordingly, general assembly meeting procedures shall be executed with the related provisions of the Turkish Commercial Code, Articles of Association and the Internal Guidelines.

Table of Contents

The following matters are among the ones required by the TCC and our Articles of Association to be included on the agenda of ordinary general assembly meeting:

- review of the annual reports of our Board of Directors and the auditors;

- the approval, amendment or rejection of the balance sheet and profit and loss account prepared for the preceding financial year, the release of our Board of Directors from liability in respect of actions taken by them in the preceding financial year, and the proposals of our Board of Directors for the allocation and distribution of any of our net profits;

- the approval of the remuneration of the Board members; and

- the re-election or replacement of directors and/or auditors whose terms of office have expired.

Shareholders representing at least 5% of our share capital may, by written notice, require any additional matters to be included on the agenda for discussion at any of our general assemblies.

Notices covering general assemblies (including postponements and rescheduling), which include the agenda of any such general assembly, must be published in the Trade Registry Gazette and a leading Turkish newspaper published in Istanbul, determined by us, at least two weeks before the date fixed for the meeting in accordance with the TCC and three weeks before the date fixed for the meeting in accordance with CMB regulation. The TCC requires us to send notice of any general assembly by registered mail to each person registered in our books as a holder of shares and to those shareholders who have deposited at least one share certificate representing shares with us and have indicated a notice address. Under the Capital Markets Law, such notice requirement does not apply to holders of registered shares, which are also traded in the stock market.

Any shareholder holding any of our shares (excluding ADRs) and wishing to attend general assembly meetings to vote must present his/her identification document to our Head Office before the start of the meeting in order to obtain an entry permit for that meeting. Holders of the non-public registered shares in our share book of registered shares need not comply with such requirement to attend a general assembly. Any shareholder not wishing to attend any such general assembly in person may appoint another person as a proxy. Shareholders attending the general assembly meeting by electronic means should follow the procedures established by the related legislation.

Except as set out by the provisions of the TCC and our Articles of Association, the required quorum at any general assembly is shareholders representing at least one-quarter of the share capital. If such quorum is not present when a general assembly is convened, the meeting shall be adjourned, in which event the meeting is reconvened within a month, with shareholders or their proxies present at such meeting. Resolutions of general assembly meetings must be passed by a majority of the shareholders or their proxies present at such meetings.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

As per the new Capital Markets Law, unless a higher quorum is accepted in the articles of association of public companies, affirmative votes of two-thirds of shareholders representing the share capital present at the general assembly (and this, without requiring a quorum) is needed for the following decisions: restricting preemptive rights of shareholders, authorizing the Board to restrict such preemptive rights in a registered capital system and reduction of the share capital and material transactions of the company as defined by the law. Nevertheless, if shareholders representing at least half of the company share capital are present at the meeting, simple majority decides unless a higher quorum is accepted by the articles of association.

In addition, the new Capital Markets Law stipulates that the CMB may require including some topics in the general assembly agenda to be discussed by the general assembly or to inform the shareholders at the general assembly.

According to our Articles of Association, the meeting quorum requirement at general assemblies is 51% of our share capital. Resolutions of our general assemblies must be passed by the shareholders (or their proxies) representing the majority of the votes of the shareholders present at that meeting.

Table of Contents

The quorum requirement at general assemblies convened to increase our share capital ceiling is 51% of our share capital. Resolutions of general assemblies relating to capital increases must be passed by a majority of our shareholders or their proxies present at such meeting.

The meeting quorum requirement at general assemblies convened to amend our Articles of Association (excluding capital ceiling increase) is two-thirds of our share capital. Resolutions of our general assemblies to amend our Articles of Association (excluding capital ceiling increase) shall be passed by the shareholders (or their proxies) representing at least 2/3 of the votes of the shareholders present at that meeting.

Changing our jurisdiction or increasing the obligations of the shareholders requires unanimous shareholder approval.

10.C Material Contracts

We are not a party to any material contracts other than those entered into in the ordinary course of business, except with regard to the settlement of certain legal disputes. For information regarding these settlements, see Item 8.A. Consolidated Statements and Other Financial Information Legal Proceedings and Note 33 (Guarantees and purchase obligations) to our consolidated financial statements in this Form 20-F.

10.D Exchange Controls

Banks in Turkey set their own foreign exchange rates independently of those announced by the Central Bank. Pursuant to Decree 32 on the Protection of the Value of the Turkish Currency, most recently amended in 2003, the government eased and ultimately abolished restrictions on the convertibility of the Turkish Lira for current account and nonresident capital account transactions by facilitating exchange of the proceeds of transactions in Turkish securities by foreign investors, which enabled Turkish citizens to purchase securities on foreign exchanges. These changes also permitted residents and nonresidents to buy foreign exchange without limitation and to transfer such foreign exchange abroad without ministerial approval.

Turkish citizens are permitted to buy unlimited amounts of foreign currency from banks and to hold foreign exchange in commercial banks. Capital transfers outside Turkey of more than \$5 million still require approval of the Turkish government. Although we believe it is unlikely that exchange controls will be reintroduced in the near term, any such exchange controls may materially adversely affect our results of operations.

As of December 31, 2013, exchange restrictions and state controls exist in some jurisdictions in which Turkcell operates. The local currencies of Turkcell's subsidiaries in both Ukraine and Belarus are not convertible outside of their respective countries. Future movements of exchange rates will affect the carrying values of Turkcell's assets and liabilities. The translation of underlying local currency amounts into USD in Turkcell's consolidated financial statements should not be construed as a representation that such local currency amounts have been, could be or will in future be converted into USD at the exchange rates shown or at any other exchange rate.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

As at 31 December 2013, significant exchange restrictions and state controls exist in most jurisdictions in which Fintur operates. The local currencies of Fintur subsidiaries in Kazakhstan, Azerbaijan, Georgia and Moldova are not convertible outside of respective countries. Future movements of exchange rates will affect the carrying values of the Fintur's assets and liabilities. The translation of underlying local currency amounts into USD in Fintur's consolidated financial statements should not be construed as a representation that such local currency amounts have been, could be or will in future be converted into USD at the exchange rates shown or at any other exchange rate.

10.E Taxation

The following discussion is a summary of the material Turkish and United States federal income tax considerations relating to the ownership and disposition of our shares or ADSs. The discussion is based on current law and is for general information only. The discussion does not address all possible tax consequences relating to the ownership and disposition of shares, or ADSs, and holders are urged to consult their tax advisors regarding the applicable tax consequences of holding and disposing of the shares or ADSs based on their particular circumstances.

Table of Contents

The discussion is based upon laws and relevant interpretations thereof in effect as of the date of this annual report, all of which are subject to change, possibly with retroactive effect. This summary is also based in part on representations of the Depositary and assumes that each obligation provided for in, or otherwise contemplated by, the Deposit Agreement or any related document will be performed in accordance with the terms of such agreement.

I. Republic of Turkey Taxation

The following summary of Turkish tax law as in force on the date of this annual report describes the principal tax consequences for Turkish residents and U.S. holders (as defined below in "Taxation - United States Federal Income Taxation") of the ownership and disposition of shares and ADSs. It is not a complete description of all the possible tax consequences of such ownership and disposition. Shareholders should consult their own tax advisors concerning the Turkish and other tax consequences applicable in their particular situations.

a. Corporate Taxation

A corporation that has its legal and/or business center in Turkey (a "Resident Corporation") is subject to a corporate tax, which is levied at 20% on such corporation's taxable income. Resident Corporations are required to pay an advance corporation tax, also at 20%, on a quarterly basis.

b. Taxation of Dividends

In the event that a Resident Corporation distributes dividends to individual shareholders (resident or non-resident), or to non-resident corporations that do not have a permanent establishment (fixed place of business or permanent representative) in Turkey (and are not subject to rate-reducing provisions in applicable bilateral tax treaties), a 15% withholding tax is payable by the Resident Corporation on behalf of its shareholders. In the event that Resident Corporations distribute dividends to resident legal entities or to non-resident legal entities that have a permanent establishment in Turkey, such distributions are not subject to withholding tax.

Cash dividends received by Resident Corporations from other Resident Corporations are not subject to corporate tax. Dividends in cash received by resident individuals from Resident Corporations are subject to a withholding tax at the rate of 15% (as discussed above) and must file an annual income tax declaration. The withholding tax amount shall be deducted from the annual income tax. 50% of the dividend income received by resident individuals from Resident Corporations is exempt from the annual income declaration. The remaining 50% must be declared if it exceeded TRY 27,000 in 2014 and TRY 26,000 in 2013 (TRY 25,000 in 2012).

Under the Income Tax Treaty between the United States of America and the Republic of Turkey, signed March 28, 1996 (the "Treaty"), the withholding tax rate is limited to 20% (including the surcharges on dividends paid by a Turkish Resident Corporation) of the gross amount of the dividends unless the beneficial owner of shares is a company which owns at least 10% of the voting stock of the company paying the dividends (in which case the rate would be limited to 15%). Because the current withholding tax rate applicable to publicly-traded corporations, such as Turkcell, is only 15%, the Treaty does not affect the current rate of Turkish withholding tax for U.S. holders. Cash dividends paid on ordinary shares or ADSs to a U.S. holder that does not have a permanent representative or place of business in Turkey will not be subject to

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

taxation in Turkey, except in respect of the 15% income withholding tax discussed in the previous section. The distribution of dividends in kind (*i.e.*, bonus shares) is not subject to a withholding tax, and such dividends in kind are not subject to an income declaration.

Table of Contents

c. Taxation of Capital Gains

(i) Gains realized by Residents

For shares acquired on or after January 1, 2006:

Gains realized by resident individuals on the sale of shares traded on the Borsa Istanbul (such as Turkcell shares) or ADSs that represent shares traded on the Borsa Istanbul (such as Turkcell ADSs) to residents or non-residents are exempt from income tax, provided that the holding period of such shares or ADSs exceeds one year. Where this holding period has not been met, there is a withholding tax from the gains derived from capital. The current rate for such withholding tax is 0%.

Gains realized by Resident Corporations on the sale of shares traded on the Borsa Istanbul (such as Turkcell shares) or ADSs that represent shares traded on the Borsa Istanbul (such as Turkcell ADSs) to residents or non-residents shall benefit from the withholding exemption, if a one-year holding period is met. However, where this holding period has not been met, there is a withholding tax from the gains derived from capital gains. The current rate for such withholding tax is 0%.

Gains realized by Resident Corporations on the sale of shares or to residents or non-residents must be included in corporate income and are subject to the applicable corporate tax. Upon fulfillment of the stated conditions in Article 5 of the Corporate Tax Law, 75% of capital gains derived from the sale of the shares will be exempt from corporate income tax.

For shares acquired before January 1, 2006:

Capital gains derived from shares held by an investor (both individuals and corporations) for over three months are not subject to any withholding tax. Where this holding period has not been met, capital gains received by individuals are computed by deducting the original cost of the shares or ADSs, after the application of a cost adjustment (which uses the Producer Price Index determined by the Turkish Statistical Institute to eliminate gain arising solely from inflation), from the amount received upon the sale or disposition of the shares or ADSs. Total capital gains are subject to declaration on the income tax return if they exceeded TRY 21,000 in 2014 and TRY 21,000 in 2013 (TRY 20,000 in 2012).

Gains realized by Resident Corporations on the sale of shares are subject to the applicable corporate tax. Upon fulfillment of the stated conditions in Article 5 of the Corporate Tax Law, 75% of capital gains deriving from the sale of the shares will be exempt from corporate income tax.

(ii) Gains realized by U.S. holders

U.S. holders that do not have a permanent establishment in Turkey are exempt from Turkish tax on capital gains generated from the sale of shares quoted on an exchange, such as Turkcell shares, under Article 13 of the Treaty. U.S. resident legal entities having a permanent establishment (fixed place of business or permanent representative) in Turkey generally are subject to tax in Turkey on capital gains arising from the sale of such shares and should consult their own Turkish tax advisors as to the rules applicable to them. As of July 7, 2006, the withholding tax rate applicable to non-resident holders of shares has been reduced to 0%.

U.S. holders who invest via ADSs will not have to comply with any procedures to avoid withholding tax, since gains derived from Turkcell ADSs are not generated in Turkey. However, U.S. holders who hold their shares directly in Turkey must comply with certain procedures to establish their exemption from Turkish capital gains withholding tax and are urged to consult their own tax advisors in this regard.

In addition, certain rules and procedures may need to be complied with in order to avoid Turkish withholding tax upon the conversion of ADSs to shares and from shares to ADSs in Turkey. U.S. holders are urged to consult their own tax advisors in this regard.

Pursuant to a Turkish Constitutional Court decision, which annulled the income tax provision regulating the 0% withholding application on capital gains for non-resident individuals and corporations, the withholding tax regime has once again become subject to regulation pursuant to a law numbered 6009, which came into force on August 1, 2010. Pursuant to this new regulation, a 10% withholding on capital gains is applied to individual investors and a 0% withholding is applied to corporate investors, irrespective of the residency status. Non-resident corporate deposit receipt holders (depositories of our ADR facility) are included within the scope of corporate investors. Non-resident investors of Turkcell ADRs will be subject to 0% withholding, provided that the depository of our ADR facility is a corporate body. The Turkish Council of Ministers has the authority to raise the withholding levels to 5 percentage points.

Table of Contents

d. Taxation of Investment and Mutual Funds

(i) Taxation on the Fund Level:

The gains realized from portfolio investment activities by resident Investment and Mutual Funds are exempt from corporate tax but are subject to withholding tax for the gains of stocks held and bonds/bills issued before January 1, 2006. Withholding tax rates are as follows:

- if the institutions maintain a minimum of 25% of their portfolios invested in Turkish equity shares on a monthly weighted average basis, the applicable rate of withholding tax is 0%; and
- if the percentage of Turkish equity shares in the portfolios of such institutions is below 25% during any month during the year, the applicable rate of withholding tax is 10%.

Gains from stocks purchased after January 1, 2006 and/or bonds and bills issued after January 1, 2006 are subject to withholding of 0%.

A non-resident Investment or Mutual Fund may also qualify for this taxation regime if it appoints a permanent representative in Turkey, registers with the Turkish tax office, maintains legal books and meets the other tax requirements in Turkey.

(ii) Taxation on the Investor Level:

The gains realized by investors for participating within FUND are subject to taxation depending on the date of purchase of the FUND by the individual investors.

- For FUND shares purchased before January 1, 2006, gains are not subject to income tax withholding. Capital gains received by individuals are computed by deducting the original cost of the shares after the application of a cost adjustment (which uses the Producer Price Index determined by the Turkish Statistical Institute to eliminate gains arising solely from inflation), from the amount received upon the sale or disposition of the shares. Total capital gains are subject to declaration on income tax returns if they exceeded TRY 21,000 in 2014 and TRY 21,000 in 2013 (TRY 20,000 in 2012) and are required to be declared in compliance with the Turkish Tax Regime. For FUND shares purchased after January 1, 2006:

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

1. If the FUND maintains at least 51% of the portfolio invested in the Borsa Istanbul Market and is held for more than a one-year period, gains shall not be subjected to withholding. Such gains shall be declared in compliance with the Turkish Tax Regime.

2. If the FUND does not meet the conditions above, gains shall be subject to withholding at 10% for resident investors. In cases where non-resident investors can certify their own residency status, 0% withholding shall be applied.

3. Pursuant to a Turkish Constitutional Court decision, which annulled the income tax provision regulating the 0% withholding application on capital gains for non-resident individuals and corporations, the withholding tax regime has once again become subject to regulation pursuant to a law numbered 6009, which came into force on August 1, 2010. Pursuant to this new regulation, a 10% withholding on capital gains is applied to individual investors and a 0% withholding is applied to corporate investors, irrespective of the residency status. Non-resident corporate deposit receipt holders (depositories of our ADR facility) are included within the scope of corporate investors. Non-resident investors of Turkcell ADRs will be subject to 0% withholding, provided that the depository of our ADR facility is a corporate body.

Table of Contents

e. Stamp Taxes

According to the Turkish Stamp Tax Law (Law No. 488), all agreements and documents specified in the law with a monetary value indicated thereon are subject to a stamp tax with rates from 0.189% to 0.948%, which is calculated on the aggregate amount of such agreement or document. Stamp tax to be calculated for a particular PAPER was capped at a maximum of TRY 1,379,775.30 per original in 2012 and TRY 1,487,397.70 per original in 2013, and will be capped at a maximum of TRY 1,545,852.40 per original in 2014.

f. Certain Additional Tax Regulations

Changes in the Ministry of Finance's interpretation of the taxation codes, especially changes regarding consumption taxes (Value Added Tax and Special Communication Tax), may adversely affect consumer prices. In addition to the prospective financial impact of such changes, unanticipated tax liabilities and fines may also be levied against our financial results in prior years since a Turkish company's operations in the previous five years may be subject to financial investigation. Regulations that became effective July 1, 2010, however, have strengthened our rights with regards to this risk, particularly with regards to the following:

- Tax inspectors shall not issue tax audit reports that contradict Decrees, Public Acts, Statutory Rules, General Communiqués and Circulars promulgated;
- In the event that the tax authority differentiates previous interpretations of taxation codes via promulgated General Communiqués and Circulars, the new interpretation shall not be applied to previous transactions; and
- Transactions that are compliant with rulings taken from the Tax Office shall be relieved from both tax penalty and overdue interest. Such shelter is valid only for a taxpayer that has applied for the ruling.

II. United States Federal Income Taxation

The following discussion is a summary of the material U.S. federal income tax considerations applicable to the ownership and disposition of shares or ADSs by you, if you are a U.S. holder. In general you will be a U.S. holder if:

- you are the beneficial owner of our shares or ADSs;

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

- you are either (i) an individual resident or citizen of the United States, (ii) a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) created in or organized under the laws of the United States or any state thereof, (iii) an estate whose income is subject to U.S. federal income taxation regardless of its source, or (iv) a trust if a U.S. court can exercise primary supervision over the administration of the trust and one or more U.S. persons are authorized to control all substantial decisions of the trust;
- you own our shares or ADSs as capital assets (which generally means for investment purposes);
- you own directly, indirectly or by attribution less than 10% of our outstanding share capital or voting stock;
- you are fully eligible for benefits under the Limitation on Benefits article of the Treaty; and
- you are not also a resident of Turkey for Turkish tax purposes.

Table of Contents

The Treaty benefits discussed generally are not available to holders who hold shares or ADSs in connection with the conduct of business through a permanent establishment, or the performance of personal services through a fixed base, in Turkey.

If a partnership (including for this purpose any entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds shares or ADSs, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner in a partnership that holds shares or ADSs is urged to consult its own tax advisor regarding the specific tax consequences of owning and disposing of its shares or ADSs.

The summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to any particular holder, including tax considerations that arise from rules of general application or that are generally assumed to be known by U.S. holders. This summary is based on provisions of the Internal Revenue Code of 1986, as amended (the Code), existing and proposed U.S. Treasury Regulations, rulings, administrative pronouncements, judicial decisions and the Treaty, all as of the date of this annual report. All of these authorities are subject to change, possibly with retroactive effect, and to differing interpretations. In addition, this summary does not discuss all aspects of U.S. federal income taxation that may be applicable to investors in light of their particular circumstances or to U.S. holders who are subject to special treatment under U.S. federal income tax law, including insurance companies, U.S. expatriates, dealers in stocks or securities, banks or financial institutions, tax-exempt organizations, regulated investment companies, retirement plans, traders in securities who elect to apply a mark-to-market method of accounting, persons who acquired their shares pursuant to the exercise of employee stock options or otherwise as compensation, persons holding shares as part of a straddle, hedging or conversion transaction, persons subject to the alternative minimum tax, and persons having a functional currency other than the U.S. Dollar.

U.S. holders are urged to consult with their own tax advisors regarding the tax consequences of the ownership or disposition of shares or ADSs, including the effects of federal, state, local, foreign and other tax laws with respect to their particular circumstances.

a. Dividends

If we make distributions to you (other than certain distributions of Turkcell shares), you generally will be required to include in gross income as dividend income the amount of the distributions paid on the shares (including the amount of any Turkish taxes withheld in respect of such dividend as described above in Taxation Republic of Turkey Taxation). Dividends paid by us will not be eligible for the dividends-received deduction applicable in some cases to U.S. corporations.

Any dividend paid in Turkish Lira, including the amount of any Turkish taxes withheld therefrom, will be includible in your gross income in an amount equal to the U.S. Dollar value of the Turkish Lira calculated by reference to the spot rate of exchange in effect on the date the dividend is received by you, in the case of shares, or by the Depositary, in the case of ADSs, regardless of whether the Turkish Lira are converted into U.S. Dollars. Any gain or loss resulting from currency exchange fluctuations during the period from the date the dividend is includible in your gross income to the date such payment is converted into U.S. Dollars generally will be treated as U.S. source ordinary income or loss. Special rules govern, and elections are available to, accrual method taxpayers to determine the U.S. Dollar amount includible in income in the case of taxes withheld in a foreign currency. Accrual basis taxpayers are urged to consult their own tax advisors regarding the requirements and elections applicable in this regard.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Any dividends paid by us to you with respect to shares or ADSs will be treated as foreign-source income and will be categorized as passive category income or, in the case of certain U.S. holders, general category income for foreign tax credit purposes.

Subject to limitations, you may elect to claim a foreign tax credit against your U.S. federal income tax liability for Turkish income tax withheld from dividends received in respect of shares or ADSs. The rules relating to the determination of the foreign tax credit are complex. Accordingly, you should consult your own tax advisor to determine whether and to what extent you would be entitled to the credit. If you do not elect to claim a foreign tax credit, you may instead claim a deduction for Turkish income tax withheld, but only for a year in which you elect to do so with respect to all foreign income taxes. A deduction does not reduce tax on a dollar-for-dollar basis like a credit, but the deduction for foreign taxes is not subject to the same limitations applicable to foreign tax credits.

Table of Contents

Certain non-corporate U.S. holders (including individuals) are eligible for reduced rates of U.S. federal income tax (at a maximum rate of 20%) in respect of qualified dividend income received. For this purpose, qualified dividend income generally includes dividends paid by a non-U.S. corporation if, amongst other things, the U.S. holder meets certain minimum holding periods and the non-U.S. corporation satisfies certain requirements, including that either (i) the shares (or ADSs) with respect to which the dividend income has been paid are readily tradable on an established securities market in the United States or (ii) the non-U.S. corporation is eligible for the benefits of a comprehensive U.S. income tax treaty (such as the Treaty) which provides for the exchange of information. We currently believe that dividends paid with respect to our shares and ADSs should constitute qualified dividend income for U.S. federal income tax purposes, and we anticipate that our dividends will be reported as qualified dividends on Forms 1099-DIV delivered to U.S. holders. In computing foreign tax credit limitations, non-corporate U.S. holders may take into account only a portion of a qualified dividend to reflect the reduced U.S. tax rate applicable to such dividend. Each U.S. holder of shares or ADSs is urged to consult its own tax advisor regarding the availability to it of the reduced dividend tax rate in light of its own particular situation and regarding the computations of its foreign tax credit limitation with respect to any qualified dividend income paid by us, as applicable.

The U.S. Treasury has expressed concerns that parties to whom ADSs are released may be taking actions that are inconsistent with the claiming of foreign tax credits or reduced tax rates in respect of qualified dividends by U.S. holders of ADSs. Accordingly, the discussion above regarding the creditability of Turkish withholding tax on dividends or the availability of qualified dividend treatment could be affected by future actions that may be taken by the U.S. Treasury with respect to ADSs.

b. Sale, Exchange or other Disposition of Shares or ADSs

Upon the sale, exchange or other disposition of shares or ADSs, you generally will recognize capital gain or loss equal to the difference between the amount realized on the disposition and your adjusted tax basis in your shares or ADSs (as determined in U.S. Dollars). Gain or loss upon the disposition of shares or ADSs generally will be U.S.-source gain or loss, and will be treated as long-term capital gain or loss if, at the time of the disposition, your holding period for the shares or ADSs exceeds one year. If you are an individual, any capital gains generally will be subject to U.S. federal income tax at preferential rates if specified minimum holding periods are met. The deductibility of capital losses is subject to significant limitations.

Your basis in your shares or ADSs must be adjusted to take into account any bonus shares received in a qualifying nontaxable transaction. To determine your adjusted basis, you are required to allocate your adjusted tax basis in the shares or ADSs you held as of the date the bonus shares were distributed between (x) your shares or ADSs and (y) the bonus shares you receive, in proportion to their relative fair market values immediately after the distribution. The holding period for bonus shares received will begin with the date that the shares or ADSs with respect to which the bonus shares were distributed were acquired. U.S. holders of shares or ADSs are urged to consult their own tax advisors to determine the exact consequences to them of the receipt and sale of the bonus shares for U.S. and other applicable tax purposes.

The surrender of ADSs in exchange for shares pursuant to the Deposit Agreement governing the ADSs will not be a taxable event for U.S. federal income tax purposes. Accordingly, you will not recognize any gain or loss upon such surrender.

c. Net Investment Income Tax

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Certain U.S. holders that are individuals, estates or trusts and whose income exceeds certain thresholds generally will be subject to a 3.8% tax on net investment income , including, among other things, dividends on, and gains from the sale or other taxable disposition of, our shares and ADSs, subject to certain limitations and exceptions. You should consult your own tax advisor regarding the effect, if any, of such tax on your ownership and disposition of our shares and ADSs.

Table of Contents

d. Passive Foreign Investment Company Status

We currently believe that we were not a passive foreign investment company (a PFIC) for the taxable year ended December 31, 2013, for U.S. federal income tax purposes. However, this conclusion is a factual determination that must be made annually and thus may be subject to change. A non-U.S. corporation will be classified as a PFIC for any taxable year if at least 75% of its gross income consists of passive income (such as dividends, interest, rents, royalties or gains on the disposition of certain minority interests), or at least 50% of the average value of its assets consists of assets that produce, or are held for the production of, passive income. If we were characterized as a PFIC for any taxable year, you would suffer adverse tax consequences. These consequences may include having gains realized on the disposition of shares or ADSs treated as ordinary income rather than capital gains, and being subject to punitive interest charges on certain dividends and on the proceeds of the sale or other disposition of the shares or ADSs. Furthermore, dividends paid by a PFIC would not be qualified dividend income (as discussed above) and would be taxed at the higher rates applicable to other items of ordinary income. You should consult your own tax advisor regarding the potential application of the PFIC rules to us and to your ownership of our shares and ADSs.

e. U.S. Information Reporting and Backup Withholding

Dividend payments with respect to shares or ADSs and proceeds from the sale, exchange, redemption or other disposition of shares or ADSs may be subject to information reporting to the Internal Revenue Service (the IRS) and possible U.S. backup withholding at a current rate of 28%. Certain exempt recipients (such as corporations) are not subject to these information reporting requirements. Backup withholding will not apply, however, to a holder who furnishes a correct taxpayer identification number or certificate of foreign status and makes any other required certification or who is otherwise exempt from backup withholding. U.S. persons who are required to establish their exempt status generally must provide IRS Form W-9 (Request for Taxpayer Identification Number and Certification). Non-U.S. holders generally will not be subject to U.S. information reporting or backup withholding. However, such holders may be required to provide certification of non-U.S. status (generally on IRS Form W-8BEN) in connection with payments received in the United States or through certain U.S.-related financial intermediaries.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a holder's U.S. federal income tax liability, and a holder may obtain a refund of any excess amounts withheld by filing the appropriate claim for refund with the IRS and furnishing any required information.

In addition, U.S. holders should be aware of annual reporting requirements with respect to the holding of certain foreign financial assets, including our shares and ADSs that are not held in an account maintained by certain types of financial institutions, if the aggregate value of all of such assets exceeds \$50,000 (or \$100,000 for married couples filing a joint return). You should consult your own tax advisor regarding the application of the information reporting and backup withholding rules to our shares and ADSs and the application of the annual reporting requirements to your particular situation.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

I. Overview

We are exposed to foreign exchange rate risks because our income, expenses, assets and liabilities are denominated in a number of different currencies, primarily Turkish Lira, U.S. Dollars, Euros, Ukrainian Hryvnia, Azerbaijani Manat and Belarusian Rubles. In particular, a substantial majority of our debt obligations and equipment expenses are currently, and are expected to continue to be, denominated in U.S. Dollars and Euros, while the revenues generated by the corresponding activities are denominated in other currencies, in particular the Turkish Lira, Ukrainian Hryvnia and Belarusian Rubles. Similarly, we are subject to market risk deriving from changes in interest rates that may affect the cost of our financing. We provide a detailed analysis of our foreign exchange and interest rate risks in Note 31.

a. Foreign Exchange Risk Management

Our functional currency is the TRY for operations conducted in Turkey, but certain revenues, purchases, operating costs and expenses and resulting receivables and payables are denominated in a number of different currencies. In particular, a substantial majority of our debt obligations and equipment expenses are currently, and are expected to continue to be, denominated in U.S. Dollars, Euros, Ukrainian Hryvnia and Belarusian Rubles, while the revenues generated by the corresponding activities are denominated in other currencies, in particular the Turkish Lira, Ukrainian Hryvnia and Belarusian Rubles. Transactions denominated in foreign currencies are recorded at the exchange rates prevailing at the dates of the transactions. Assets and liabilities denominated in foreign currencies are converted into TRY at the exchange rates prevailing at the balance sheet date, with the resulting exchange differences recognized in the determination of net income. In 2013, net foreign exchange losses amounted to \$32.4 million, resulting from transactions related to foreign exchange effects.

Market risk-sensitive instruments consist of loans and borrowings mainly denominated in foreign currencies (substantially in U.S. Dollars) totaling \$1,561.4 million, which represents the majority of total indebtedness as of December 31, 2013.

To manage our foreign exchange risk more effectively, we may enter into forward transactions and option contracts. In addition, in order to take advantage of market volatility in the foreign exchange markets and increase the yield on our free cash, we may enter into option transactions to buy or sell certain currencies, allowing us to mitigate our exposure to negative foreign exchange rate swings or collect premiums. As of December 31, 2013, we did not have any outstanding forward and option contracts to buy or sell U.S. Dollars against TRY. The basis for our sensitivity analysis to measure foreign exchange risk is an aggregate corporate-level currency exposure. The aggregate foreign exchange exposure is composed of all our assets and liabilities denominated in foreign currencies. This analysis excludes net foreign currency investments. It is estimated that a general increase of 10% in the value of TRY, Ukrainian Hryvnia and Belarusian Rubles, against other foreign

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

currencies, would have increased our profit before income tax by approximately \$89.6 million for the year ended December 31, 2013. These aforementioned assumptions are hypothetical and the actual results may differ substantially from the projected figures.

All hedging transactions have been authorized and executed pursuant to clearly defined policies and procedures, which provide that the transaction is entered into to protect us from fluctuations in currency values. Analytical techniques are used to manage and monitor foreign exchange risk, which includes market valuation and sensitivity analysis. In addition, we keep a reasonable proportion of our monetary assets in U.S. Dollars to reduce our currency exposure. Furthermore, the maximum tariffs we may charge are adjusted periodically by the ICTA to account for, among other things, the devaluation of the TRY.

Table of Contents**b. Interest Rate Risk Management**

We are exposed to variations in interest rates, primarily in Euros, U.S. Dollars and TRY denominated debt and investments, which may affect the amounts of future interest income or expenses (reinvestment risk or cash flow risk) and also cause changes in the values of our interest-bearing assets, which have already been added to the balance sheet. We manage interest rate risk by financing non-current assets with long-term debt with variable interest rates and equity.

The following table sets forth the carrying amount and fair value of loans, maturities and average effective interest rates for bank loans.

	Effective interest rate	Total carrying amount	December 31, 2013					Fair Value	Effective interest rate	Total carrying amount	December 31, 2012				
			2014	2015	2016	2017 thereafter	2013				2014	2015	2016 thereafter	Fair Value	
Fixed rate instruments															
Finance lease obligations															
USD	1.6%	0.8	0.4	0.3	0.1		0.8	3.9%	2.0	1.1	0.6	0.3		2.0

Unsecured bank loans															
USD floating rate loans															
	2.8%	1,138.3	614.3	253.6	230.2	40.2	1,138.3	3.4%	955.0	613.4	73.4	217.8	50.4	955.0	
Total		1,561.4	845.4	359.5	299.1	57.4	1,561.4		1,705.2	1,086.0	224.2	318.3	76.7	1,705.2	

For contractual cash flows and nominal interest of bank loans, see Note 26 and Note 31 to our audited consolidated financial statements included in Item 18. Financial Statements of this annual report on Form 20-F.

As of December 31, 2013, we did not have Turkish government floating rate note holdings; therefore, we were not exposed to interest rate risks on our financial assets.

We use sensitivity analysis techniques to measure and assess our interest rate risk. The basis for the sensitivity analysis is an aggregate corporate-level interest rate exposure composed of interest-bearing investments and interest-bearing debts. When we assume a 1 percentage point increase in interest rates for all maturities from their levels as of December 31, 2013, with all other variables held constant, our profit before income tax decreases by \$5.5 million.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

The Depositary may collect from (i) each person to whom ADSs are issued, including, without limitation, issuances against deposits of Shares, issuances in respect of Share Distributions, Rights and Other Distributions (as such terms are defined in the form of ADR certificate), issuances pursuant to a stock dividend or stock split declared by the Company, or issuances pursuant to a merger, exchange of securities or any other transaction or event affecting the ADSs or the Deposited Securities and (ii) each person surrendering ADSs for withdrawal of Deposited Securities or whose ADSs are cancelled or reduced for any other reason, U.S.\$5.00 for each 100 ADSs (or portion thereof) issued, delivered, reduced, cancelled or surrendered (as the case may be). The Depositary may sell (by public or private sale) sufficient securities and property received in respect of Share Distributions, Rights and Other Distributions prior to such deposit to pay such charge. These terms are set forth in Paragraph 7 of the Form of ADR certificate.

Table of Contents

On July 6, 2011, we signed an amended and restated Deposit Agreement (the *Deposit Agreement*) with Citibank N.A. (*Citibank*), as depositary (the *Depositary*), Turkcell and holders of American Depositary Receipts, which transferred our ADR program from JPMorgan Chase Bank (*JPMorgan*) to Citibank.

As provided for in the American Depositary Receipt included as Exhibit A to the Deposit Agreement, holders of American Depositary Shares may be charged, directly or indirectly, the following amounts in relation to the ownership of depositary receipts held in the Company's ADR Program, which are payable to the Depositary:

Service	Rate	By Whom Paid
(1) Issuance of ADSs upon deposit of Shares (excluding issuances as a result of distributions described in paragraph (4) below).	Up to U.S. \$5.00 per 100 ADSs (or fraction thereof) issued.	Person depositing Shares or person receiving ADSs.
(2) Delivery of Deposited Securities against surrender of ADSs.	Up to U.S. \$5.00 per 100 ADSs (or fraction thereof) surrendered.	Person surrendering ADSs for the purpose of withdrawal of Deposited Securities or person to whom Deposited Securities are delivered.
(3) Distribution of cash dividends or other cash distributions (<i>i.e.</i> , sale of rights and other entitlements).	Up to U.S. \$5.00 per 100 ADSs (or fraction thereof) held.	Person to whom distribution is made.
(4) Distribution of ADSs pursuant to (i) stock dividends or other free stock distributions, or (ii) exercise of rights to purchase additional ADSs.	Up to U.S. \$5.00 per 100 ADSs (or fraction thereof) held.	Person to whom distribution is made.
(5) Distribution of securities other than ADSs or rights to purchase additional ADSs (<i>i.e.</i> , spin-off shares).	Up to U.S. \$5.00 per 100 ADSs (or fraction thereof) held.	Person to whom distribution is made.
(6) Depositary Services.	Up to U.S. \$5.00 per 100 ADSs (or fraction thereof) held on the applicable record date(s) established by the Depositary.	Person holding ADSs on the applicable record date(s) established by the Depositary.

I. Direct Payments made by Citibank to Turkcell

Citibank, as depositary, has agreed to reimburse certain reasonable expenses related to our ADR program and incurred by us in connection with such program. In 2013, the Depositary, as part of its agreement, reimbursed Turkcell \$4,121,790.70 on an accrual basis. The amounts the Depositary has reimbursed and will reimburse are not necessarily related to the fees collected by the depositary from ADR holders. The table below sets forth the type of expenses that Citibank has reimbursed.

Category of Expenses	Amount Reimbursed in 2013
Investor Relations(1)	\$ 4,121,790.70

Table of Contents

(1) This type of expense includes activities tailored to increase the company's ADR program, including, but not limited to, roadshows and training in the U.S., legal costs connected with 20-F filing and ongoing SEC compliance and legal requirements and listing fees.

II. Indirect Payments made by Citibank to Turkcell

As part of its service to Turkcell, Citibank has agreed to waive fees for the standard costs associated with the administration of our ADR program and associated operating expenses estimated to total \$116,835.72. The table below sets forth the fees that Citibank has agreed to waive and/or expenses that Citibank has agreed to pay in the year ended December 31, 2013.

Category of Expenses	Amount Waived or Paid by Citibank for the period January 1, 2013 through December 31, 2013	
Third-party expenses paid directly	\$	108,616.35
Fees waived	\$	8,219.37

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

As of February 1, 2012, Astelit had debt repayments due to Euroasia in the amount of \$150 million and to Financell in the amount of \$173 million. Since June 2011, Astelit has not met the payment obligations, which were waived until February 1, 2012. Since that date, our Board of Directors has not acted to approve or reached a consensus for the extension of repayment dates. As a result, Astelit was unable to meet its repayment obligations to Euroasia and Financell totaling \$323 million and defaulted on its loan agreements. (As of December 31, 2013, Astelit's unmet obligations under its loans to Financell and Euroasia had reached a total of \$598 million). As a consequence of Astelit's default, cross default clauses have been triggered on five loan agreements totaling \$554 million (currently decreased to \$176 million, following our \$150 million guarantee payment and other principal payment) and waivers were obtained for the aforementioned loans before December 31, 2013. In the context of guarantees, Financell has pledged on shares and all assets of Astelit including bank accounts. Additionally, Financell has a second priority pledge on Euroasia shares held by SCM together with a guarantee and indemnity given by SCM. Financell has rights to commence enforcement of pledges and guarantees under certain conditions. In addition to the Euroasia Loan and Financell Loans, as given above, Astelit has defaulted on one SCM loan agreement currently totaling \$39 million (SCM Loan).

In the same vein, Euroasia, a Group company that is a 100% shareholder of Astelit, which had previously borrowed \$150 million to finance Astelit, also defaulted on its loan on March 30, 2012. As a guarantor, we paid \$150 million to related banks on April 6, 2012. In relation to the guarantee agreement, a first priority pledge on Euroasia shares held by SCM has been established in favor of Turkcell. Upon payment of the guaranteed amount, Turkcell has the right to commence enforcement of this pledge on the Euroasia shares under certain conditions. As a consequence of Euroasia's default, cross default clauses have been triggered on four loan agreements (the same ones referenced above) totaling \$176 million, and waivers have also been obtained for the aforementioned loans. As no waiver has been received for the SCM Loan from SCM, this loan has been classified in current liabilities. Accordingly, as a result of the event of default, SCM has the right to demand immediate loan repayment, although it has not perfected any pledges in connection with this loan.

With respect to the amounts due to Financell, our Board of Directors decided to extend a guarantee to Financell in order to perform its obligations with respect to the loans granted by the banks for providing Group financing. The guarantee will be up to \$411 million principal amount plus sum of interest, any other costs, expenses and fees that may accrue in connection with the credit line agreements. This guarantee

includes the debt repayments of \$173 million due under the loan agreements signed between Astelit and Financell, and of the loans that Financell granted to Astelit which have not yet fallen due. Astelit's debts are denominated in foreign currencies which expose Astelit to foreign exchange and convertibility risks.

ITEM 15. CONTROLS AND PROCEDURES

(a) *Disclosure Controls and Procedures.* The Chief Executive Officer and the Chief Financial Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in U.S. Exchange Act Rule 13a-15(e)) as of the end of the period covered by this Form 20-F, have concluded that, as of such date, the Company's disclosure controls and procedures were effective at a reasonable assurance level.

(b) *Management's Annual Report on Internal Control over Financial Reporting.* The management of Turkcell is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934), and for performing an assessment of the effectiveness of internal control over financial reporting as of December 31, 2013. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with applicable generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that:

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with applicable generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Internal control over financial reporting has inherent limitations. It is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. In addition, it can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements will not be prevented or detected on a timely basis by internal controls over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design safeguards to reduce, though not eliminate, this risk.

Management assessed the effectiveness of the internal control over financial reporting as of December 31, 2013 based on criteria established in the Internal Control-Integrated Framework (1992), issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on its assessment and those criteria, management has concluded that the Company's internal control over financial reporting was effective at the reasonable assurance level as of December 31, 2013.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The effectiveness of our internal control over financial reporting as of December 31, 2013 has been audited by DRT Bagimsiz Denetim ve Serbest Muhasebeci Mali Musavirlik A.S. (Deloitte), our independent registered public accounting firm in Turkey, as stated in their attestation report, which appears below under Item 15(c), Report of the Independent Registered Public Accounting Firm.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Turkcell İletişim Hizmetleri A.Ş.

Istanbul

We have audited the internal control over financial reporting of Turkcell İletişim Hizmetleri A.Ş. and its subsidiaries (together the Group) as of December 31, 2013 based on criteria established in Internal Control-Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Group's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report. Our responsibility is to express an opinion on the Group's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provide a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, based on our audit, the Group maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on the criteria established in Internal Control-Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the years ended December 31, 2013 and 2012 of the Group and our report dated March 20, 2014 expressed an unqualified opinion on those financial statements based on our audit and the report of other independent registered public accounting firm and included an explanatory paragraph with regards to non-approval of the consolidated financial statements and the dividend proposal by the General Assembly.

(d) *Changes in Internal Control over Financial Reporting.* There were no changes in connection with the evaluation required by Rule 13a-15(d) and Rule 15d-15 in the Company's internal control over financial reporting that occurred during the year ended December 31, 2013, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. This conclusion has been made at a reasonable assurance level.

Table of Contents**ITEM 16.****16.A Audit Committee Financial Expert**

Currently no independent Audit Committee member is an audit committee financial expert, as that term is defined by the SEC in its final rules implementing Section 407 of the Sarbanes-Oxley Act of 2002, because, after self-evaluation, our Audit Committee members did not consider themselves, individually, as an audit committee financial expert. However, our Audit Committee members and our Board of Directors believe that our Audit Committee members are nonetheless qualified to carry out their duties on the Audit Committee given their experience and other qualifications in financial matters.

16.B Code of Ethics

We have adopted a code of ethics that applies to our Chief Executive Officer, Chief Financial Officer, and other executive officers and financial officers. This code of ethics is posted on our website, www.turkcell.com.tr.

16.C Principal Accountant Fees and Services

Deloitte served as our independent registered public accountant for financial years ended December 31, 2013, 2012 and 2011. Our audited financial statements for the three-year period ended December 31, 2013 appear in this annual report on Form 20-F.

The following table presents the aggregate fees for professional services and other services rendered by our auditors to us in 2013, 2012 and 2011.

	2013 \$m	2012 \$m	2011 \$m
Audit Fees(1)	1.9	1.7	1.6
Audit-Related Fees(2)			
Tax Fees			
All Other Fees(3)			
Total	1.9	1.7	1.6

(1) Audit Fees consist of fees billed for professional services pertaining to the audit of the Company's annual financial statements or services that are normally provided by the principal accountant in connection with statutory or regulatory filings or engagements.

(2) Audit-Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements.

(3) All Other Fees consist of fees billed for products and services other than services provided under Audit Fees, Audit-Related Fees and Tax Fees.

a. Audit Committee Pre-approval Policies and Procedures

Our Audit Committee has pre-approved all work performed by our external auditors for the year 2013 and it has not adopted blanket pre-approval policies and procedures.

16.D Exemptions from the Listing Standards for Audit Committees

Not applicable.

Table of Contents

16.E Purchases of Equity Securities by the Issuer and Affiliated Purchasers

To our best knowledge and in accordance with the official Share Book of the Company, neither we nor any affiliated purchaser made any purchases of our ordinary shares during the fiscal year ended December 31, 2013.

16.F Change in Registrant's Certifying Accountant

Not applicable.

16.G Corporate Governance

I. Significant Differences in Corporate Governance Practices

Matters related to corporate governance in Turkey are regulated by the new Turkish Commercial Code (TCC), which came into force on July 1, 2012 and the new law and regulations and communiqués of the CMB, the regulatory and supervisory authority, all of which are binding upon publicly held companies.

In addition, corporate governance practices in Turkey are also guided by the Corporate Governance Principles of the CMB (the CMB Principles), which took effect on a comply or explain basis on January 1, 2004. Effective from 2005, the CMB requires listed companies to incorporate in their annual reports a Corporate Governance Compliance Report which compares the CMB Principles to the Corporate Governance principles under which the Company operates. This report is posted on our website, www.turkcell.com.tr.

Effective in 2011, by way of various communiqués, the CMB revised its corporate governance principles with a view to strengthening the governance practices of listed companies. As a result, the CMB left the comply or explain approach to a limited extent and required listed companies to comply with certain corporate governance principles on a compulsory basis by June 30, 2012. In a further Communiqué dated September 13, 2012, the CMB empowered itself, effective until December 31, 2012, to take legal action before the relevant first instance court in a view to assure compliance with its corporate governance rules. No legal action has been taken there against our Company to the best of our knowledge. The new Capital Markets Law came into force on December 30, 2012. The Capital Markets Board is entitled by Art.17(2) to make decisions and perform actions accordingly on its own initiative in case time-bound compliance requirements relating to its corporate governance principles are not met in due time.

In a further Communiqué dated April 6, 2013, the CMB amended the corporate governance principles. The following rules have been added to the Communiqué:

- If some or all of the Board members' terms have ended and thereby compliance with the mandatory CMB Corporate Governance Rules cannot be established, the CMB will require the Board to call a general assembly meeting which must be held within 30 days. If a general assembly meeting cannot be called or a positive result cannot be reached at the general assembly meeting, the CMB, as per the new Capital Markets Law, will have the right to directly appoint the minimum number of Board members that meet independency criteria to achieve the necessary meeting and decision quorums. Those members' terms of office will last until new appointments are made in accordance with the legislation. The new Board members will then make the necessary amendments to the Articles of Association to be in line with the mandatory CMB Corporate Governance Rules upon the approval of the CMB, which will be registered at the Trade registry.

- If there are enough Board members to achieve such compliance, but there is not a positive result (at the Board or the general assembly meeting), then the CMB allows companies 30 days to take the necessary action. If the necessary action to ensure compliance cannot be realized within the given period, the CMB will have the right to directly appoint the minimum number of Board members that meet independency criteria to achieve the necessary meeting and decision quorums. The new Board will then make the necessary amendments to the Articles of Association to be in line with the mandatory CMB Corporate Governance Rules upon the approval of CMB, which will be registered at the Trade Registry.

Table of Contents

The Corporate Governance Communiqué numbered II-17.1, which was published in the Official Gazette dated January 3, 2014 kept the above-mentioned second rule and removed the first one.

For implementation purposes, the CMB has classified BIST-listed companies into three groups:

- First Group Stocks with market cap and free float market cap above TRY 3 billion and TRY 750 million, respectively. Turkcell is in this category.
- Second Group Stocks with market cap and free float market cap above TRY 1 billion and TRY 250 million, respectively.
- Third Group Remaining stocks that cannot be classified under either the first or second group.

This classification has been kept by the Corporate Governance Communiqué numbered II-17.1, which was published in the Official Gazette dated January 3, 2014.

The following summarizes new mandatory CMB requirements that would apply to our Company.

The main mandatory rules relating to board membership and board structure include:

- The number of independent members in the Board shall not be less than one third of the total number of the members of the Board of Directors. In calculating the number of independent board members, a fraction would be rounded up to the nearest integer. In any case the number of the independent board members shall not be less than two. The term of office of independent members of the board of directors is up to three years. Such members are eligible to be nominated again and re-elected.
- Companies in the first group are required to notify the CMB of the independent member candidates at least 60 days prior to the planned General Assembly meeting at which the members will be elected. The CMB, having evaluated the independence of the candidates, is required to disclose its approval/disapproval within the next 30 days. Companies classified in the other two groups are not required to seek CMB approval.
- The CMB has updated its independence criteria for independent board members.

- The following Board committees shall be established by listed companies:

- Audit Committee (already existing at Turkcell Board level);

- Corporate Governance Committee (already existing at Turkcell Board level);

- Candidate Nomination Committee (already existing at Turkcell Board level);

- Early Detection of Risks Committee (already existing at Turkcell Board level); and

- Remuneration Committee. (already existing at Turkcell Board level).

Committees should consist of two members at least. It is mandatory that both (in case of two-member committees) or the majority of the members of the committees be non-executive board members. Expert people who are not board members may be elected as committee members except for the Audit Committee. All of the members of the Audit Committee and the chairmen of the other committees shall be elected among the independent board members. The chief executive officer/general manager should not hold a position at the committees. Terms of reference, working principles and members of the committees shall be determined and disclosed to the public by the board of directors.

Table of Contents

Mandatory rules relating to enhanced shareholder information:

- General Assembly call content has been enhanced.
- A written remuneration policy for board members and senior management must be prepared. This policy must be posted on the company's website and submitted at the ordinary General Assembly as a separate agenda item for information. Payment plans, such as stock options or those based on company performance, are not used in the remuneration of independent board members. Remuneration of independent board members must safeguard their level of independence.
- There are mandatory rules relating to material transactions and related party transactions/guarantees to third parties.

Below is a summary of the significant differences between our corporate governance practices and those that would apply to U.S. companies under the NYSE corporate governance rules as of March 31, 2014:

NYSE Corporate Governance Rule for U.S. Issuers

Listed companies must have a majority of independent directors.

Our Practice as a Foreign Private Issuer

Our Board currently has three members who are deemed to meet the independence standards of both the SEC and CMB Principles. Under the CMB Principles, it is required to have a board comprised of at least one-third independent members (or, in any event, two members).

In a series of resolutions dated March 11, August 15, and September 13, 2013, the CMB announced the replacement of members of Turkcell's Board of Directors with the following new members: Atilla Koc, Mehmet Hilmi Guler, Ahmet Akca (all of whom serve as independent board members), Mehmet Bostan, Bekir Pakdemirli, Jan Erik Rudberg and Erik Belfrage. See Item 6. Directors, Senior Officers and Employees Directors and Senior Management Board Members .

Ahmet Akca, Atilla Koc and Mehmet Hilmi Guler have been appointed by the CMB as independent board members. However the other board members comply with the CMB's independence standards in accordance with the CMB's related announcements.

The non-management directors of each company must meet at regularly scheduled executive sessions without management.

Turkish law does not make any distinction between management and non-management directors. However there is a distinction between executive/nonexecutive board members. Our board members are all non executive members. Members of the board who are not also members of management do not meet in regularly scheduled executive sessions.

Table of Contents

NYSE Corporate Governance Rule for U.S. Issuers

Listed companies must have a nominating/corporate governance committee composed entirely of independent directors, with a written charter that provides for (i) minimum duties, which are to identify individuals qualified to become board members, consistent with criteria approved by the board, and to select, or to recommend that the board select, the director nominees for the next annual meeting of shareholders; develop and recommend to the board a set of corporate governance guidelines applicable to the corporation; and oversee the evaluation of the board and management; and (ii) an annual performance evaluation of the committee.

Listed companies must have a compensation committee composed entirely of independent directors, with a written charter that covers certain minimum specified duties.

Listed companies must have an audit committee that satisfies requirements set forth in Exchange Act Rule 10A-3 and additional requirements, including: (i) a minimum of three members; (ii) independence as defined in NYSE Rule 303A.02; and (iii) a written charter that addresses minimum duties in addition to those required by Exchange Act Rule 10A-3.

Our Practice as a Foreign Private Issuer

On June 23, 2004, our Board of Directors established a Corporate Governance Committee. Our Corporate Governance Committee has a written charter specifying its duties. According to the CMB Principles, only committee chairs are required to be independent as defined by the Principles themselves.

The charter substantially satisfies the minimum requirements of the NYSE corporate governance rules.

On December 19, 2012, in conformity with the Capital Markets Board's Communiqué then in force, our Board decided to establish a Compensation Committee to operate under our Board of Directors. The Board also adopted the Compensation Committee's Charter. The Board approved that the Compensation Committee shall execute the duties relating to compensation issues which were earlier granted to the Corporate Governance Committee by the Corporate Governance Committee Charter and the Compensation Committee shall be authorized in lieu of the Corporate Governance Committee in Total Remuneration Policy of the Board of Directors and Top Executives adopted by our Board.

Our Audit Committee currently has three members: Mr. Ahmet Akca, Mr. Mehmet Hilmi Guler and Mr. Atilla Koc. All of the members are considered independent under the U.S. Sarbanes Oxley Act of 2002, the rules promulgated thereunder by the U.S. Securities and Exchange Commission, the applicable rules of the NYSE and the updated CMB Corporate Governance Principles.

The Audit Committee members are independent Board members as required by the CMB Communiqué Serial: X No. 22 which is binding upon public companies in Turkey. Effective June 30, 2012, all listed companies in Turkey must have audit committees composed of independent board members. We are currently in compliance. Under Turkish law, our entire Board of Directors is responsible for all decisions; as a result, the Audit Committee's duties are advisory. Pursuant to Turkish law, our external auditor is nominated by the Board of Directors upon advice of the Audit Committee and approved by our general assembly of shareholders.

The Audit Committee revised its charter, effective June 20, 2005 and reviewed both Turkcell Common Values and Business Ethics Document and Implementation of Turkcell Common Values and Business Ethics Rules in order to comply with the requirements of applicable CMB legislation and

Table of Contents

NYSE Corporate Governance Rule for U.S. Issuers

Our Practice as a Foreign Private Issuer

Exchange Act Rule 10A-3 and NYSE 303A.06. There was a second revision, effective July 21, 2006, to reconsider membership criteria. Our Audit Committee charter satisfies the requirements of the CMB. The charter does not provide for: an audit committee report to be included in Turkcell's annual proxy statement as it is not subject to the SEC proxy requirements; a review with the independent auditor of problems or difficulties and management's responses thereto, although such review is not prohibited by the charter; the discussion of policies with respect to risk assessment and risk management, although such discussion is not prohibited by the charter; the review by the committee of Turkcell's earnings releases or financial information or earnings guidance provided to analysts and ratings agencies; or the setting of clear hiring policies for employees or former employees of the independent auditors, although it does provide that the Audit Committee shall ensure that the independent auditors remain independent and avoid any conflicts of interest while performing their duties.

Listed companies must adopt and disclose corporate governance guidelines that cover certain minimum specified subjects.

We are not required specifically by the CMB Principles to adopt corporate governance guidelines. However, our Board of Directors has adopted Corporate Governance Guidelines and posted a summary on its official website www.turkcell.com.tr. Our corporate governance guidelines largely cover the subjects requested by the NYSE corporate governance standards except director qualification standards and director compensation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Turkcell İletişim Hizmetleri A.Ş.

Istanbul

We have audited the accompanying consolidated statement of financial position of Turkcell İletişim Hizmetleri A.Ş. (the Company) and its subsidiaries (together the Group) as of December 31, 2013 and 2012 and the related consolidated statements of profit or loss, comprehensive income, changes in equity, and cash flows for the years ended December 31, 2013, 2012 and 2011. These consolidated financial statements are the responsibility of the Group s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the consolidated financial statements of Fintur Holdings B.V. (Fintur) a 41.45 percent owned equity accounted investee of the Group. The Group s investment in Fintur as of December 31, 2013 and 2012 was \$229 million and \$230 million, respectively and its share in profit of Fintur was \$156 million, \$143 million and \$165 million for the years ended December 31, 2013, 2012 and 2011, respectively. Those consolidated financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Fintur, is based solely on the report of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of other independent registered public accounting firm provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of other independent registered public accounting firm, such consolidated financial statements present fairly, in all material respects, the financial position of the Group as of December 31, 2013 and 2012 and the results of their operations and their cash flows for the years ended December 31, 2013, 2012 and 2011 in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Group s internal control over financial reporting as of December 31, 2013 based on the criteria established in Internal Control-Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 20, 2014 expressed an

unqualified opinion on the effectiveness of Group's internal control over financial reporting.

Table of Contents

Emphasis of Matter

Without qualifying our opinion, we draw attention to the following matter:

As discussed in Note 2a and 22, the Group's audited consolidated financial statements for the year ended December 31, 2010, December 31, 2011 and December 31, 2012 were approved by the Company's Audit Committee and Board of Directors and authorized for announcement on February 23, 2011, February 22, 2012 and February 21, 2013, respectively. However; the consolidated financial statements prepared as at and for the year ended December 31, 2010 were not approved by the General Assembly meeting on April 21, 2011 and the Extraordinary General Assembly meetings on August 11 and October 12, 2011. The General Assembly meetings on June 29, 2012, May 22, 2013 and June 24, 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended December 31, 2010 and December 31, 2011 and December 31, 2012 could not be presented for approval. The General Assembly has the authority to amend the consolidated financial statements. Additionally, the Company's Board of Directors proposed a dividend distribution for the year ended December 31, 2010 amounting to TL 1,328,697 thousand on March 23, 2011. Since the consolidated financial statements for the year ended December 31, 2010 were not approved in General Assembly and Extraordinary General Assembly meetings, the dividend distribution proposal was not approved and no financial liability has been recognized in the accompanying consolidated financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of Fintur Holdings B.V.

We have audited the consolidated balance sheets of Fintur Holdings B.V. and its subsidiaries (the Group) as at 31 December 2013 and 2012 and consolidated statements of income, of comprehensive income, of changes in equity and of cash flows for the years ended 31 December 2013, 2012 and 2011. These consolidated financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits of these consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Fintur Holdings B.V. and its subsidiaries as at 31 December 2013 and 2012 and the results of their operations and their cash flows for the years ended 31 December 2013, 2012 and 2011 in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board.

1. Reporting entity

Turkcell Iletisim Hizmetleri Anonim Sirketi (the Company) was incorporated in Turkey on 5 October 1993 and commenced its operations in 1994. The address of the Company's registered office is Turkcell Plaza, Mesrutiyet Caddesi No: 71, 34430 Tepebasi/Istanbul. It is engaged in establishing and operating a Global System for Mobile Communications (GSM) network in Turkey and regional states.

In April 1998, the Company signed a license agreement (the 2G License) with the Ministry of Transport, Maritime Affairs and Communications of Turkey (the Turkish Ministry), under which it was granted a 25 year GSM license in exchange for a license fee of \$500,000. The License permits the Company to operate as a stand-alone GSM operator and releases it from some of the operating constraints in the Revenue Sharing Agreement, which was in effect prior to the 2G License. Under the 2G License, the Company collects all of the revenue generated from the operations of its GSM network and pays the Undersecretariat of Treasury (the Turkish Treasury) a treasury share equal to 15% of its gross revenue from Turkish GSM operations. The Company continues to build and operate its GSM network and is authorized to, among other things, set its own tariffs within certain limits, charge peak and off-peak rates, offer a variety of service and pricing packages, issue invoices directly to subscribers, collect payments and deal directly with subscribers. Following the 3G tender held by the Information Technologies and Communications Authority (ICTA) regarding the authorization for providing IMT-2000/UMTS services and infrastructure, the Company has been granted the A-Type license (the 3G License) providing the widest frequency band, at a consideration of EUR 358,000 (excluding Value Added Tax (VAT)). Payment of the 3G license was made in cash, following the necessary approvals, on 30 April 2009.

On 25 June 2005, the Turkish Government declared that GSM operators are required to pay 10% of their existing monthly treasury share to the Turkish Ministry as a universal service fund contribution in accordance with Law No: 5369. As a result, starting from 30 June 2005, the Company pays 90% of the treasury share to the Turkish Treasury and 10% to the Turkish Ministry as universal service fund.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

In July 2000, the Company completed an initial public offering with the listing of its ordinary shares on the Istanbul Stock Exchange and American Depositary Shares, or ADSs, on the New York Stock Exchange.

As at 31 December 2013, two significant founding shareholders, Sonera Holding BV and Cukurova Group, directly and indirectly, own approximately 37.1% and 13.8%, respectively of the Company's share capital and are ultimate counterparties to a number of transactions that are discussed in the related parties footnote. Alfa Group holds 13.2% of the Company's shares indirectly through Cukurova Holdings Limited and Turkcell Holding AS.

The consolidated financial statements of the Company as at and for the year ended 31 December 2013 comprise the Company and its subsidiaries (together referred to as the Group) and the Group's interest in one associate and one joint venture. Subsidiaries of the Company, their locations and their business are given in Note 36. The Company's and each of its subsidiaries', associate's and joint venture's financial statements are prepared as at and for the year ended 31 December 2013.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

2. Basis of preparation

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB).

The Company selected the presentation form of function of expense for the statement of comprehensive income in accordance with IAS 1 *Presentation of Financial Statements* .

The Company reports cash flows from operating activities by using the indirect method in accordance with IAS 7 *Statement of Cash Flows* , whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expense associated with investing or financing cash flows.

Authority for restatement and approval of consolidated financial statements belongs to the Board of Directors. Consolidated financial statements are approved by the Board of Directors by the recommendation of Audit Committee of the Company.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.

The consolidated financial statements as of and for the year ended 31 December 2013 were authorized for issue on 19 February 2014 by the Board of Directors and updated by the management for any subsequent events up until 20 March 2014.

(b) Basis of measurement

The accompanying consolidated financial statements are based on the statutory records, with adjustments and reclassifications for the purpose of fair presentation in accordance with IFRSs as issued by the IASB. They are prepared on the historical cost basis adjusted for the effects of inflation during the hyperinflationary periods in accordance with International Accounting Standard No 29 *Financial Reporting in Hyperinflationary Economies* (IAS 29), where applicable, except that the following assets and liabilities are stated at their fair value: put option liability, derivative financial instruments, consideration payable in relation to acquisition and financial instruments classified as available-for-sale.

2. Basis of preparation (continued)

(b) Basis of measurement (continued)

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2

Share-based payment, leasing transactions that are within the scope of IAS 17 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in IAS 2 *Inventories* or value in use in IAS 36 *Impairment of assets*.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

- Level 3 inputs are unobservable inputs for the asset or liability.

Hyperinflationary period lasted by 31 December 2005 in Turkey and commenced on 1 January 2011 in Belarus. In the financial statements of subsidiaries operating in Belarus, restatement adjustments have been made to compensate the effect of changes in the general purchasing power of the Belarusian Ruble in accordance with IAS 29. IAS 29 requires that financial statements prepared in the currency of a hyperinflationary economy be stated in terms of the measuring unit current at the balance sheet date. One characteristic that necessitates the application of IAS 29 is a cumulative three-year inflation rate approaching or exceeding 100%. Such cumulative rate in Belarus was 196% for the three years ended 31 December 2013 based upon the consumer price index (CPI) announced by the National Statistical Committee of the Republic of Belarus.

Such index and the conversion factors used to adjust the financial statements of the subsidiaries operating in Belarus for the effect of inflation as at 31 December 2013 are given below:

Dates	Index	Conversion Factor
31 December 2009	1.4907	3.2535
31 December 2010	1.6387	2.9598
31 December 2011	3.4197	1.4183
31 December 2012	4.1645	1.1646
31 December 2013	4.8501	1.0000

Table of Contents**TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****As at and for the year ended 31 December 2013**

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. 2. Basis of preparation (continued)**(b) Basis of measurement (continued)**

The annual change in the BYR exchange rate against USD and Euro can be compared with the rates of general price inflation in Belarus according to the CPI as set out below:

Years	2011	2012	2013
Currency change USD (%)	178%	3%	11%
Currency change Euro (%)	172%	5%	15%
CPI inflation (%)	109%	22%	16%

As at 31 December 2013 the exchange rate announced by the National Bank of the Republic of Belarus was BYR 9,510 = USD 1, BYR 13,080 = Euro 1 (31 December 2012: BYR 8,570 = USD 1, BYR 11,340 = Euro 1).

The main guidelines for the IAS 29 restatement are as follows:

- All statement of financial of position items, except for the ones already presented at the current purchasing power level, are restated by applying a general price index.

- Monetary assets and liabilities of the subsidiaries operating in Belarus are not restated because they are already expressed in terms of the current measuring unit at the balance sheet date. Monetary items presents money held and items to be received or paid in money.
- Non-monetary assets and liabilities of the subsidiaries operating in Belarus are restated by applying, to the initial acquisition cost and any accumulated depreciation, the change in the general price index from the date of acquisition or initial recording to the balance sheet date. Hence, property, plant and equipment, investments and similar assets are restated from the date of their purchase, not to exceed their market value. Depreciation is similarly restated. The components of shareholders' equity are restated by applying the applicable general price index from the dates the components were contributed or arose otherwise.
- All items in the statement of profit or loss of the subsidiaries operating in Belarus, except non-monetary items in the statement of financial position that have effect over statement of profit or loss, are restated by applying the relevant conversion factors from the dates when the income and expense items were initially recorded in the financial statements.
- The gain or loss on the net monetary position is the result of the effect of general inflation and is the difference resulting from the restatement of non-monetary assets, shareholders' equity and statement of profit or loss items. The gain or loss on the net monetary position is included in net income.

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

2. Basis of preparation (continued)

(b) Basis of measurement (continued)

The comparative amounts relating to the subsidiaries operating in Belarus in the consolidated financial statements of 2011 and 2012 are not restated. The translation effect of Belarusian Ruble (BYR) denominated equity accounts determined upon the application of inflation accounting to USD is accounted under translation reserve in the consolidated financial statements as at 31 December 2013.

(c) Functional and presentation currency

The consolidated financial statements are presented in US Dollars (USD or \$), rounded to the nearest thousand. Moreover, all financial information expressed in Turkish Lira (TL), Euro (EUR) and Ukrainian Hryvnia (UAH) and Belarusian Ruble (BYR) has been rounded to the nearest thousand. The functional currency of the Company and its consolidated subsidiaries located in Turkey and Turkish Republic of Northern Cyprus is TL. The functional currency of Euroasia Telecommunications Holding BV (Euroasia) and Financell BV (Financell) is USD. The functional currency of Eastasian Consortium BV (Eastasia), Beltur Coöperatief UA, and Turkcell Europe is EUR. The functional currency of LLC Astelit (Astelit), LLC Global Bilgi (Global LLC) and UkrTower LLC (UkrTower) is UAH. The functional currency of Belarusian Telecommunication Network (Belarusian Telecom), LLC Lifetech and FLLC Global Bilgi (Global FLLC) is BYR . The functional currency of Azerinteltek QSC (Azerinteltek) is Azerbaijan Manat.

(d) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are described in Notes 4 and 34 and detailed analysis with respect to accounting estimates and critical judgments of allowance for doubtful receivables, useful lives or expected patterns of consumption of the future economic benefits embodied in depreciable assets, commission fees, revenue recognition, income taxes and impairment testing for cash-generating unit containing goodwill are provided below:

2. Basis of preparation (continued)

(d) Use of estimates and judgments (continued)

Key sources of estimation uncertainty

Belarus

Following severe balance of payments crisis in 2011, the economic data indicates that the Belarusian economy stabilized. This reflected the authorities' tightening of economic policies in late 2011 that was successful in reducing inflation and stabilizing the foreign exchange market. However, Belarusian economy grew only 1.5% in 2012 as the authorities failed to capitalize on improved competitiveness after the sharp currency depreciation in 2011. On the positive side, inflation fell sharply from over 100% at the end of 2011 to almost 22% in 2012. National Bank of the Republic Belarus (NBRB) has been gradually decreasing the refinancing rate by 15 percentage points during 2012, from 45% to 30% per annum.

As of December 2013, the inflation rate stood at 16% for the last twelve months. Inflationary pressure remains elevated, despite headline inflation gradually moderating. CPI will stay in double digits (~14%) in 2014 due to continued communal tariffs indexation and BYR devaluation. NBRB cut the refinancing rate 1.5 percentage points to 23.5% in June 2013. This was the fourth and last rate cut this year, bringing the total amount of easing to 6.5 percentage points in 2013. Despite a slowdown in inflation, tight monetary policy is set to continue due to concerns about external imbalances and currency stability.

NBRB has stabilized foreign exchange market with the help of a managed float exchange policy. As the cumulative inflation in the last three years exceeded 100%, Belarus was considered a hyperinflationary economy. In this context, IAS 29 is applied by subsidiaries operating in Belarus in financial statements starting from their annual financial statements for the year ending 31 December 2011.

Although downside economic risks have been reduced, macroeconomic stability is still fragile. External vulnerability is still a concern and next year's financing picture remains challenging due to heavy debt redemption schedule and strong domestic demand keeping current account deficit wide. Given Belarus' record low level of foreign currency reserves coupled with the high debt repayments due this year and the current account deficit, these factors create devaluation and inflationary pressure.

Ukraine

Ukraine continues to struggle economically. With its key export markets suffering extended weakness, the economy has fallen deeper into recession in 2013. Following downgrades by three main rating agencies in late 2013 due to the fragile external position and no steps towards an IMF deal, more rating downgrades seem likely to occur in 2014.

Russia agreed to bail out Ukraine by purchasing its sovereign bonds and discounting gas prices by 33% in December after Kiev performed a sharp foreign policy u-turn and refused to sign deals on political association and free trade with the EU in late November 2013. The deal on the bailout program is likely to slightly improve the foreign currency reserves of Ukraine and partially decrease the political risk.

2. Basis of preparation (continued)

(d) Use of estimates and judgments (continued)

Key sources of estimation uncertainty (continued)

Ukraine (continued)

In this respect, Ukraine's economy is vulnerable to tighter external financing conditions and foreign reserves have fallen by 36% over the last two years to USD 20.4 million (to less than three months import cover) as the Central Bank has sought to defend its exchange rate peg. A lower level of foreign currency reserves implies a higher vulnerability to shocks and greater risks to market expectations. On 7 February 2014, The National Bank of Ukraine (NBU) devalued the official exchange rate to 8.7080 from 7.9930 and has effectively converted to a floating exchange rate regime. NBU has also announced capital controls in order to continue exerting some degree of control over the currency. The challenging reserve situation may trigger further devaluation, leading to an IMF deal, a weaker and more flexible UAH currency and a return to growth.

Therefore, economic uncertainties are likely to continue in the foreseeable future for these countries. Current and potential future political and economic changes in Belarus and Ukraine could have an adverse effect on the subsidiaries operating in these countries. The economic stability of Belarus and Ukraine depends on the economic measures that will be taken by the governments and the outcomes of the legal, administrative and political processes in these countries. These processes are beyond the control of the subsidiaries established in these countries.

The mass protests that Ukraine witnessed at the beginning of 2014 resulted in a toppled government and new parliament that Russia does not currently recognize. The territorial integrity of Ukraine is in doubt in this current stage of the political crisis. A referendum held in Crimea on March 16, 2014 revealed that the region is in favor of joining Russia. The implications of this referendum are still unclear with both sanctions and military conflict remaining a possibility.

Consequently, the subsidiaries operating within Belarus and Ukraine may be subject to the risks, i.e. foreign currency and interest rate risks related to borrowings and the subscriber's purchasing power and liquidity and increase in corporate and personal insolvencies, that may not necessarily be observable in other markets. The accompanying consolidated financial statements contain the Group management's estimations on the economic and financial positions of its subsidiaries operating in Belarus and Ukraine. The future economic situation of Belarus and Ukraine might differ from the Group's expectations. As of 31 December 2013, the Group's management believes that their approach is appropriate in taking all the necessary measures to support the sustainability of these subsidiaries' businesses in the current circumstances.

Critical accounting judgments in applying the Group's accounting policies

Certain critical accounting judgments in applying the Group's accounting policies are described below:

Allowance for doubtful receivables

The Group maintains an allowance for doubtful receivables for estimated losses resulting from the inability of the Group's subscribers and customers to make required payments. The Group bases the allowance on the likelihood of recoverability of trade and other receivables based on the aging of the balances, historical collection trends and general economic conditions. The allowance is periodically reviewed. The allowance charged to expenses is determined in respect of receivable balances, calculated as a specified percentage of the outstanding balance in each aging group, with the percentage of the allowance increasing as the aging of the receivable becomes longer.

2. Basis of preparation (continued)

(d) Use of estimates and judgments (continued)

Critical accounting judgments in applying the Group's accounting policies (continued)

Useful lives of assets

The economic useful lives of the Group's assets are determined by management at the time the asset is acquired and regularly reviewed for appropriateness. The Group defines useful life of its assets in terms of the assets' expected utility to the Group. This judgment is based on the experience of the Group with similar assets. In determining the useful life of an asset, the Group also follows technical and/or commercial obsolescence arising on changes or improvements from a change in the market. The useful lives of the licenses are based on the duration of the license agreements.

Based on the evaluation performed for the year ended 31 December 2013, expectations did not differ from previous estimate.

Commission fees

Commission fees relate to services performed in relation to betting games in Turkey where the Group acts as an agent in the transaction rather than as a principal. In April 2009, the IASB issued amendments to the illustrative guidance in the appendix to IAS 18 *Revenue* in respect of identifying an agent versus a principal in a revenue-generating transaction. Based on this guidance; management considered the following factors in distinguishing between an agent and a principal:

- The Group does not take the responsibility for fulfillment of the games.
- The Group does not collect the proceeds from the final customer and it does not bear the credit risk.
- The Group earns a pre-determined percentage of the total turnover.

Revenue recognition

In arrangements which include multiple elements, the Group considers the elements to be separate units of accounting in the arrangement. Total arrangement consideration relating to the bundled contracts is allocated among the different units according to the following criteria:

- the component has standalone value to the customer; and
- the fair value of the component can be measured reliably.

The arrangement consideration is allocated to each deliverable in proportion to the fair value of the individual deliverables. If a delivered element of a transaction is not a separately identifiable component, then it is accounted for as an integrated part of the remaining components of the transaction.

2. Basis of preparation (continued)

(d) Use of estimates and judgments (continued)

Income taxes

The calculation of income taxes involves a degree of estimation and judgment in respect of certain items whose tax treatment cannot be finally determined until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process.

As part of the process of preparing the consolidated financial statements, the Group is required to estimate the income taxes in each of the jurisdictions and countries in which they operate. This process involves estimating the actual current tax exposure together with assessing temporary differences resulting from differing treatment of items, such as deferred revenue and reserves for tax and accounting purposes. The Group management assesses the likelihood that the deferred tax assets will be recovered from future taxable income and to the extent the recovery is not considered probable the deferred asset is adjusted accordingly.

The recognition of deferred tax assets is based upon whether it is probable that future taxable profits will be available, against which the temporary differences can be utilized. Recognition, therefore, involves judgment regarding the future financial performance of the particular legal entity in which the deferred tax asset has been recognized.

Provisions, Contingent Liabilities and Contingent Assets

As detailed and disclosed in Note 34, the Group is involved in a number of investigations and legal proceedings (both as a plaintiff and as a defendant) during the year arising in the ordinary course of business. All of these investigations and litigations are evaluated by the Group Management in accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* and disclosed or accounted in the consolidated financial statements. Future results or outcome of these investigations and litigations might differ from Group Management's expectations. As of the reporting date, Group Management believes that appropriate recognition criteria and measurement basis are applied to provisions, contingent liabilities and contingent assets and that sufficient information is disclosed in the notes to enable users to understand their nature, timing and amount by considering current conditions and circumstances.

Impairment testing for cash-generating unit containing goodwill

The Group tests annually whether goodwill has suffered any impairment in accordance with the accounting policy stated in Note 3. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates as discussed in Note 14.

Fair value measurements and valuation processes

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 and 2 inputs are not available, the Group engages third party qualified valuers to perform the valuation. The management works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in Note 31.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

2. Basis of preparation (continued)

(d) Use of estimates and judgments (continued)

Changes in accounting policies

Other than the adoption of the new and revised standards as explained in Note 3(t) and the change in accounting policy regarding business combinations under common control, the Group did not make any major changes to accounting policies during the current year. The Group's accounting policy was to consolidate the statement of profit or loss starting from the beginning of the financial year in which the business combination under common control was realized and the financial statements of previous financial years were restated in the same manner in order to maintain consistency and comparability before 1 January 2013. However, the decision issued by the Public Accounting and Auditing Oversight Authority of Turkey (POA) on 21 July 2013 requires that the companies subject to POA regulation should not restate the financial statements of previous financial years when there is business combination under common control. Therefore, the Group changed its accounting policy to comply with POA's decision and applied the accounting policy change retrospectively starting from 1 January 2013. This change in accounting policy does not have an impact on the consolidated financial statements as there is no business combination under common control for the last three years.

Changes in accounting estimates

If the application of changes in the accounting estimates affects the financial results of a specific period, the changes in the accounting estimates are applied in that specific period, if they affect the financial results of current and following periods; the accounting estimate is applied prospectively in the period in which such change is made. A change in the measurement basis applied is a change in an accounting policy, and is not a change in an accounting estimate. When it is difficult to distinguish a change in an accounting policy from a change in an accounting estimate, the change is treated as a change in an accounting estimate.

The Group did not have any major changes in the accounting estimates during the current year.

Comparative information and revision of prior period financial statements

The consolidated financial statements of the Group have been prepared with the prior periods on a comparable basis in order to give consistent information about the financial position and performance. If the presentation or classification of the financial statements is changed, in order to maintain consistency, the financial statements of the prior periods are also reclassified in line with the related changes.

3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by the Group entities.

(a) Basis of consolidation

(i) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognized in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their fair value, except that:

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognized and measured in accordance with IAS 12 *Income Taxes* and IAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2 at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognized immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognized amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another IFRS.

3. Significant accounting policies (continued)

(a) Basis of consolidation (continued)

(i) Business combinations (continued)

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the measurement period (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with IAS 39 *Financial Instruments: Recognition and measurement*, or IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*, as appropriate, with the corresponding gain or loss being recognized in profit or loss.

(ii) *Subsidiaries*

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognized in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognized in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date.

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

3. Significant accounting policies (continued)

(a) Basis of consolidation (continued)

(ii) Subsidiaries

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

(iii) Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company.

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

3. Significant accounting policies (continued)

(a) Basis of consolidation (continued)

(iii) Changes in the Group's ownership interests in existing subsidiaries(continued)

When the Group loses control of a subsidiary, a gain or loss is recognized in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognized in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IAS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

(iv) Acquisition from entities under common control

Business combinations arising from transfers of interests in entities that are under the control of the shareholder that controls the Group are excluded from the scope of IFRS 3 *Business Combinations*. In business combinations under common control, assets and liabilities subject to business combination are accounted for at their carrying value in consolidated financial statements. Statements of profit or loss are consolidated starting from the beginning of the financial year in which the business combination is realized. Financial statements of previous financial years

are not restated. Any positive or negative goodwill arising from such business combinations is not recognized in the consolidated financial statements. Residual balance calculated by netting off investment in subsidiary and the share acquired in subsidiary's equity accounted for as equity transactions (i.e. transactions with owners acting in their capacity as owners).

(v) *Transactions eliminated on consolidation*

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

(vi) *Non-controlling interests*

Where a put option is granted by the Group to the non-controlling interests shareholders in existing subsidiaries that provides for settlement in cash or in another financial asset, the Group recognizes a liability for the present value of the estimated exercise price of the option. The interests of the non-controlling shareholders that hold such put options are derecognized when the financial liability is recognized. The corresponding interests attributable to the holder of the puttable non-controlling interests are presented as attributable to the equity holders of the parent and not as attributable to those non-controlling interests' shareholders. The difference between the put option liability recognized and the amount of non-controlling interests' shareholders derecognized is recorded under equity.

Table of Contents

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

3. Significant accounting policies (continued)

(a) Basis of consolidation (continued)

(vi) Non-controlling interests (continued)

Subsequent changes in the fair value of the put option liability are recognized in equity for the business combinations before 1 January 2009 other than unwind of discount and associated foreign exchange gains and losses. For the business combinations after 1 January 2009, subsequent changes in the fair value of the put option liability are recognized in profit or loss.

(vii) Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant

activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*. Under the equity method, an investment in an associate or a joint venture is initially recognized in the consolidated statement of financial position at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognized as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognized immediately in profit or loss in the period in which the investment is acquired.

The requirements of IAS 36 are applied to determine whether it is necessary to recognize any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

3. Significant accounting policies (continued)

(a) Basis of consolidation (continued)

(vii) Investments in associates and joint ventures (continued)

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture, or when the investment is classified as held for sale. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with IAS 39. The difference between the carrying amount of the associate or joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognized in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognized in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognized in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

(b) Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. Foreign currency differences arising on translation of foreign currency transactions are recognized in the statement of profit or loss. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in foreign currency translated at the exchange rate at the end of the period.

Table of Contents

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

3. Significant accounting policies (continued)

(b) Foreign currency (continued)

(i) Foreign currency transactions (continued)

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognized in the statement of profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments, which are recognized directly in equity.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to USD from the functional currency of the foreign operation at foreign exchange rates ruling at the reporting date. The income and expenses of foreign operations are translated to USD at monthly average exchange rates excluding foreign operations in hyperinflationary economies which are translated to USD at exchange rates at the reporting date.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The income and expenses of foreign operations in hyperinflationary economies are translated to USD at the exchange rate at the reporting date. Prior to translating the financial statements of foreign operations in hyperinflationary economies, their financial statements for the current period are restated to account for changes in the general purchasing power of the local currency. The restatement is based on relevant price indices at the reporting date.

Foreign currency differences arising on retranslation are recognized directly in the foreign currency translation reserve, as a separate component of equity. Since 1 January 2005, the Group's date of transition to IFRSs, such differences have been recognized in the foreign currency translation reserve. When a foreign operation is disposed of, partially or fully, the relevant amount in the foreign currency translation reserve is transferred to the statement of profit or loss.

(ii) Foreign operations

Foreign exchange gains and losses arising from a monetary item receivable from or payable to a foreign operation, the settlement of which is neither planned nor likely in the foreseeable future, are considered to form part of a net investment in a foreign operation and are recognized directly in equity in the foreign currency translation reserve.

(iii) Translation from functional to presentation currency

Items included in the financial statements of each entity are measured using the currency of the primary economic environment in which the entities operate, normally under their local currencies.

The consolidated financial statements are presented in USD, which is the presentation currency of the Group. The Group uses USD as the presentation currency for the convenience of investor and analyst community.

Assets and liabilities for each statement of financial position presented (including comparatives) are translated to USD at exchange rates at the statement of financial position date. Income and expenses for each statement of profit or loss (including comparatives) are translated to USD at monthly average exchange rates excluding operations in hyperinflationary economies which are translated to USD at exchange rates at the reporting date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

3. Significant accounting policies (continued)

(b) Foreign currency (continued)

(iii) Translation from functional to presentation currency (continued)

Foreign currency differences arising on retranslation are recognized directly in a separate component of equity.

(iv) Net investment in foreign operations

Foreign currency differences arising from the translation of the net investment in foreign operations are recognized in the foreign currency translation reserve. They are transferred to the statement of profit or loss upon disposal of the foreign operations.

(c) Financial instruments

(i) *Non-derivative financial instruments*

Non-derivative financial instruments comprise investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Non-derivative financial instruments which are not recognized or designated as financial instruments at fair value through profit or loss are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, non-derivative financial instruments are measured as described below:

Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Accounting for finance income and costs is discussed in Note 3(m).

- *Financial assets at fair value through profit or loss*

An instrument is classified as financial asset at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at fair value through profit or loss if the Group manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Group's risk management or investment strategy. Upon initial recognition, attributable transaction costs are recognized in the statement of profit or loss when incurred. Financial instruments at fair value through profit or loss are measured at fair value, and changes therein are recognized in the statement of profit or loss.

- *Held-to-maturity financial assets*

If the Group has the positive intent and ability to hold debt securities to maturity, then they are classified as held-to-maturity. Held-to-maturity financial assets are recognized initially at fair value plus any directly attributable transaction costs. Held-to-maturity financial assets are held-to-maturity investments that are measured at amortized cost using the effective interest method, less any impairment losses.

3. Significant accounting policies (continued)

(c) Financial instruments (continued)

(i) Non-derivative financial instruments (continued)

Any sale or reclassification of a more than insignificant amount of held-to-maturity investments not close to their maturity would result in the reclassification of all held-to-maturity investments as available-for-sale, and prevent the Group from classifying investment securities as held-to-maturity for the current and the following two financial years.

- *Available-for-sale financial assets*

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale and that are not classified in any of the previous categories.

The Group's investments in equity securities and certain debt securities are classified as available-for-sale financial assets. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses (see Note 3(h)(i)), and foreign exchange gains and

losses on available-for-sale monetary items (see Note 3(b)(i)), are recognized directly in equity. When an investment is derecognized, the cumulative gain or loss in equity is transferred to the statement of profit of loss.

- *Estimated exercise price of put options*

Under the terms of certain agreements, the Group is committed to acquire the interests owned by non-controlling shareholders in consolidated subsidiaries, if these non-controlling interests wish to sell their share of interests.

As the Group has unconditional obligations to fulfill its liabilities under these agreements, IAS 32 *Financial Instruments: Disclosure and Presentation*, requires the value of such put option to be presented as a financial liability on the statement of financial position for the present value of the estimated option redemption amount. The Group accounts for such transactions under the anticipated acquisition method and the interests of non-controlling shareholders that hold such put option are derecognized when the financial liability is recognized. Since the current option relates to the business combinations before 1 January 2009, the Group accounts for the difference between the amounts recognized for the exercise price of the put option and the carrying amount of non-controlling interests in equity other than the unwind of discount and associated foreign exchange gains and losses.

- *Other*

Other non-derivative financial instruments are measured at amortized cost using the effective interest method, less any impairment losses.

- (ii) *Derivative financial instruments*

The Group holds derivative financial instruments to hedge its foreign currency risk exposures arising from operational, financing and investing activities. In accordance with its treasury policy, the Group engages in forward and option contracts. However, these derivatives do not qualify for hedge accounting and are accounted for as trading derivatives.

3. Significant accounting policies (continued)

(c) Financial instruments (continued)

(ii) Derivative financial instruments (continued)

Embedded derivatives are separated from the host contract and accounted for separately if a) the economic characteristics and risks of the host contract and the embedded derivative are not closely related, b) a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative, and c) the combined instrument is not measured at fair value through profit or loss.

Also the Group enters into derivative financial instruments to manage its exposure to interest rate, including interest rate collar. Further details of derivative financial instruments are disclosed in Note 26 and 31.

Derivatives are initially recognized at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is immediately recognized in statement of profit or loss unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in statement of profit or loss depends on the nature of the hedge relationship.

Hedge Accounting

The Group designates certain hedging instruments which include cash flow hedges. At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognized immediately in statement of profit or loss, and is included in the "finance income / costs" line item.

Hedge accounting is discontinued when the Group revokes the hedging relationship, when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognized in other comprehensive income and accumulated in equity at that time remains in equity and is recognized when the forecast transaction is ultimately recognized in statement of profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is immediately recognized in statement of profit or loss.

3. Significant accounting policies (continued)

(d) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are initially stated at cost less accumulated depreciation (see below) and accumulated impairment losses (see note 3(h)(ii)). Property, plant and equipment related to the parent and subsidiaries operating in Turkey are adjusted for the effects of inflation during the hyperinflationary period which ended on 31 December 2005. Since the inflation accounting commenced on 1 January 2011, property, plant and equipment related to the subsidiaries operating in Belarus are adjusted for the effects of inflation.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the asset to a working condition for its intended use and the costs of dismantling and removing the items and restoring the site on which they are located, if any. Borrowing costs related to the acquisition or constructions of qualifying assets are capitalized as part of the cost of that asset.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Gains/losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within other income or other expenses in the statement of profit or loss.

Changes in the obligation to dismantle, remove assets on sites and to restore sites on which they are located, other than changes deriving from the passing of time, are added or deducted from the cost of the assets in the period in which they occur. The amount deducted from the cost of the asset shall not exceed the balance of the carrying amount on the date of change, and any excess balance is recognized immediately in the statement of profit or loss.

(ii) *Subsequent costs*

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced item is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in the statement of profit or loss as incurred.

The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

3. Significant accounting policies (continued)

(d) Property, plant and equipment (continued)

(iii) Depreciation

Depreciation is recognized in the statement of profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term or their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives for the current and comparative periods are as follows:

Buildings	21	50 years
Mobile network infrastructure	4	12 years
Fixed network infrastructure	3	25 years
Call center equipment	4	8 years
Equipment, fixtures and fittings	3	10 years
Motor vehicles	4	6 years
Central betting terminals	5	10 years

Leasehold improvements 3 5 years

Depreciation methods, useful lives and residual values are reviewed at least annually unless there is a triggering event.

(e) **Intangible assets**

(i) *GSM and other telecommunication operating licenses*

GSM and other telecommunication operating licenses that are acquired by the Group are measured at cost adjusted for the effects of inflation during the hyperinflationary period, where applicable, less accumulated amortization (see below) and accumulated impairment losses (see note 3(h)(ii)). GSM and other telecommunication operating licenses related to the parent and subsidiaries operating in Turkey are adjusted for the effects of inflation during the hyperinflationary period which ended on 31 December 2005. Since the inflation accounting commenced on 1 January 2011, GSM and other telecommunication operating licenses related to the subsidiaries operating in Belarus are adjusted for the effects of inflation.

Amortization

Amortization is recognized in the statement of profit or loss on a straight line basis primarily by reference to the unexpired license period. The useful lives for the GSM and other telecommunication operating licenses are as follows:

GSM and other telecommunications licenses	3 25 years
---	------------

3. Significant accounting policies (continued)

(e) Intangible assets (continued)

(ii) Computer Software

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software.

Costs associated with maintaining computer software programmes are recognized as an expense as incurred. Costs that are directly associated with the development of identifiable and unique software products controlled by the Group, and that will probably generate economic benefits exceeding costs beyond one year, are recognized as intangible assets. Costs include the software development employee costs and an appropriate portion of relevant overheads.

Amortization

Amortization is recognized in the statement of profit or loss on a straight-line basis over the estimated useful lives from the date the software is available for use. The useful lives for computer software are as follows:

Computer software	3 - 8 years
-------------------	-------------

(iii) *Other intangible assets*

Other intangible assets that are acquired by the Group which have finite useful lives are measured at cost adjusted for the effects of inflation during the hyperinflationary period, where applicable, less accumulated amortization (see below) and accumulated impairment losses (see note 3(h)(ii)). Other intangible related to the parent and subsidiaries operating in Turkey are adjusted for the effects of inflation during the hyperinflationary periods lasted by 31 December 2005. Since the inflation accounting commenced on 1 January 2011, other intangible assets related to the subsidiaries operating in Belarus are adjusted for the effects of inflation.

Indefeasible Rights of Use (IRU) correspond to the right to use a portion of the capacity of an asset granted for a fixed period of time. IRUs are recognized as an intangible asset when the Group has specific indefeasible right to use an identified portion of the underlying asset and the duration of the right is the major part of the underlying asset's economic life. IRUs are amortized over the shorter of the expected period of use and the life of the contract.

3. Significant accounting policies (continued)

(e) Intangible assets (continued)

Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset (that is purchased from independent third parties) to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in the statement of profit or loss as incurred. Capitalized costs generally relate to the application of development stage; any other costs incurred during the pre and post-implementation stages, such as repair, maintenance or training, are expensed as incurred.

Amortization

Amortization is recognized in the statement of income on a straight line basis over the estimated useful lives of intangible assets unless such useful lives are indefinite from the date that they are available for use. The estimated useful lives for the current and comparative periods are as follows:

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Transmission lines	5	10 years
Central betting system operating right	7	10 years
Customer base	2	15 years
Brand name	9	10 years

Amortization methods, useful lives and residual values are reviewed at least annually unless there is a triggering event.

Goodwill

From 1 January 2010 the Group has applied IFRS 3 (2008) *Business Combinations* in accounting for business combinations.

For acquisitions on or after 1 January 2010, the Group measures goodwill as the fair value of the consideration transferred (including the fair value of any previously-held equity interest in the acquiree) and the recognized amount of any non-controlling interests in the acquiree, less the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed, all measured as of the acquisition date.

When the excess is negative, a bargain purchase gain is recognized immediately in the statement of profit or loss.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Subsequent measurement

Goodwill is measured at cost less accumulated impairment losses. In respect of equity accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment and an impairment loss on such an investment is not allocated to any asset including goodwill, that forms part of the carrying amount of the equity accounted investees.

3. Significant accounting policies (continued)

(e) Intangible assets (continued)

(iv) Internally generated intangible assets – research and development expenditure

Expenditure on research activities is recognized as an expense in the period in which it is incurred.

An internally generated intangible asset arising from development (or from the development phase of an internal project) is recognized if, and only if, all of the following have been demonstrated:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- The intention to complete the intangible asset and use or sell it;
- The ability to use or sell the intangible asset;
- How the intangible asset will generate probable future economic benefits;

- The availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- The ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognized for internally generated intangible assets is the sum of expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognized, development expenditure is charged to the statement of profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally generated intangible assets are reported at cost less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets acquired separately.

(f) Leased assets

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition, the leased asset is measured at an amount equal to the lower of its fair value or the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Other leases are operating leases and the leased assets are not recognized on the Group's statement of financial position.

(g) Inventories

Inventories are measured at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less selling expenses. The cost of inventory is determined using the weighted average method and includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition. As at 31 December 2013 and 2012, inventories mainly consist of simcards, scratch cards, handsets and modems.

3. Significant accounting policies (continued)

(h) Impairment

(i) Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

All impairment losses are recognized in the statement of profit or loss. Any cumulative loss in respect of an available-for-sale financial asset recognized previously in equity is transferred to the statement of profit or loss.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortized cost and available-for-sale financial assets that are debt securities, the reversal is recognized in the statement of profit or loss. For available-for-sale financial assets that are equity securities, the reversal is recognized directly in other comprehensive income. For available-for-sale equity investments carried at cost, the reversal is not permitted.

(ii) *Non-financial assets*

The carrying amounts of the Group's non-financial assets, other than inventories, and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, the recoverable amount is estimated each year at the same time.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or group of assets (the cash-generating unit). The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a post-tax discount rate adjusted for the effects of tax cash outflows that reflects current market assessments of the time value of money and the risks specific to the asset. The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units that are expected to benefit from the synergies of the combination.

Table of Contents

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). 3. Significant accounting policies (continued)

(h) Impairment (continued)

(ii) Non-financial assets (continued)

The Group's corporate assets do not generate separate cash inflows. If there is an indication that a corporate asset may be impaired, then the recoverable amount is determined from the cash-generating unit to which corporate asset belongs.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit or loss. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Goodwill that forms part of the carrying amount of an investment in an associate is not recognized separately, therefore, is not tested for impairment separately. Instead, the entire amount of the investment in an associate is tested for impairment as a single asset when there is objective evidence that the investment in an associate may be impaired.

(i) **Employee benefits**

(i) *Retirement pay liability*

In accordance with existing labor law in Turkey, the Company and its subsidiaries in Turkey are required to make lump-sum payments to employees who have completed one year of service and whose employment is terminated without cause or who retire, are called up for military service or die. Such payments are calculated on the basis of 30 days' pay maximum full TL 3,438 as at 31 December 2013 (equivalent to full \$1,611 as at 31 December 2013), which is effective from 1 January 2014, per year of employment at the rate of pay applicable at the date of retirement or termination. Reserve for retirement pay is computed and reflected in the consolidated financial statements on a current basis. The reserve has been calculated by estimating the present value of future probable obligation of the Company and its subsidiaries in Turkey arising from the retirement of the employees.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

3. Significant accounting policies (continued)

(i) Employee benefits (continued)

(ii) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the statement of profit or loss when they are due.

The assets of the plan are held separately from the consolidated financial statements of the Group. The Company and other consolidated companies that initiated defined contribution retirement plan are required to contribute a specified percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement plan is to make the specified contributions.

(j) Provisions

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Onerous contracts

Present obligations arising under onerous contracts are recognized and measured as a provision. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. Other than the contract signed with Ministry of Transport, Maritime Affairs and Communications regarding the construction and operation of mobile communication infrastructure in rural areas (Evrensel Project) as explained in Note 34, the Group did not have any significant onerous contracts as at 31 December 2013 (31 December 2012: None).

Dismantling, removal and restoring sites obligation

The Group is required to incur certain costs in respect of a liability to dismantle and remove assets and to restore sites on which the assets were located. The dismantling costs are calculated according to best estimate of future expected payments discounted at a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the liability.

3. Significant accounting policies (continued)

(j) Provisions (continued)

Bonus

Provision for bonus is provided when the bonus is a legal obligation, or past practice would make the bonus a constructive obligation and the Group makes a reliable estimate of the obligation.

(k) Revenue

Revenues are recognized as the fair value of the consideration received or receivable, net of returns, trade discounts and rebates. Communication fees include postpaid revenues from incoming and outgoing calls, additional services, prepaid revenues, interconnect revenues and roaming revenues. Communication fees are recognized at the time the services are rendered.

With respect to prepaid revenues, the Group generally collects cash in advance by selling scratch cards to distributors. In such cases, the Group does not recognize revenue until the subscribers use the telecommunication services. Deferred income is recorded under current liabilities.

The Group has also certain customer loyalty programs whereby customers are awarded credits entitling customers to the right to purchase voice or data services or other third party goods and services. The fair value of the consideration received or receivable in respect of the initial sale is allocated between the credits and the other components of the sale in accordance with IFRIC 13 *Customer Loyalty Programmes* . The amount allocated to credits is deferred and revenue is recognized when the credits are redeemed and the Group has fulfilled its obligations to supply the goods or services.

In connection with campaigns, both postpaid and prepaid services may be bundled with handset or other goods/services and these bundled services and products involve consideration in the form of fixed fee or a fixed fee coupled with continuing payment stream. Loyalty programs for both postpaid and prepaid services may be bundled with other services. Total arrangement considerations relating to the bundled contract are allocated among the different units according the following criteria:

- the component has standalone value to the customer; and
- the fair value of the component can be measured reliably.

The arrangement consideration is allocated to each deliverable in proportion to the fair value of the individual deliverables.

If a delivered element of a transaction is not a separately identifiable component, then it is accounted for as an integral part of the remaining components of the transactions.

Revenues allocated to handsets given in connection with campaigns, which is included in other revenue, is recognized when the significant risks and rewards of ownership have been transferred to the buyer, collection is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods and the amount of revenue can be measured reliably.

Monthly fixed fees represent a fixed amount charged to postpaid subscribers on a monthly basis without regard to the level of usage. Fixed fees are recognized on a monthly basis when billed.

3. Significant accounting policies (continued)

(k) Revenue (continued)

Commission fees mainly comprised of net takings earned to a maximum of 1.4% of gross takings, as a head agent of fixed odds betting games starting from 1 March 2009 and mobile agent revenues comprised of 2.24%-3.62% of mobile agency turnover after deducting VAT and Gaming tax as head agent starting from 23 March 2010. Commission revenues are recognized at the time all the services related with the games are fully rendered. Under the agreement signed with Spor Toto Teskilat Mudurlugu AS (Spor Toto), Inteltek Internet Teknoloji Yatirim ve Danismanlik AS (Inteltek) is obliged to undertake any excess payout, which is presented on net basis with the commission fees.

AzerInteltek received authorization from Azeridmanservis Limited Liability Company set under the Ministry of Youth and Sport of the Republic of Azerbaijan to organize, operate, manage and develop the fixed odds and paramutual sports betting business. Since AzerInteltek acts as principle, total consideration received from the player less payout (distribution to players) and amounts collected from players on behalf of Ministry of Sports is recognized at the time all the services related with the games are fully rendered.

Starting from 1 January 2013, Azerinteltek has been authorized for the Lottery games by Azerlotereya for 3 years. Azerinteltek has been generating commission revenue over Lottery games turnover through its own agencies by applying 15% commission rate according to agreement between Azerinteltek and Azerlotereya. Commission revenues are recognized at the time all the services related with the games are fully rendered.

Simcard sales are recognized upfront upon delivery to distributors, net of returns, discounts and rebates.

Simcard costs are also recognized upfront upon sale of the simcard to the distributors.

Call center revenues are recognized at the time services are rendered.

The revenue recognition policy for other revenues is to recognize revenue as services are provided.

Volume rebates or discounts and other contractual changes in the prices of roaming and other services are anticipated, as both the payer and the recipient, if it is probable that they have been earned or will take effect. Thus, contractual rebates and discounts are anticipated, but discretionary rebates and discounts are not anticipated because the definitions of asset and liability would not be met.

(I) Lease payments

Payments made under operating leases are recognized in the statement of profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognized as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance cost and the reduction of the outstanding liability. The finance cost is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

3. Significant accounting policies (continued)

(l) Lease payments

Determining whether an arrangement contains a lease

At inception of an arrangement, the Group determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfillment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Group the right to control the use of the underlying asset. At inception or upon reassessment of the arrangement, the Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values.

(m) Finance income and costs

Finance income comprises interest income on funds invested (including available-for-sale and held-to-maturity financial assets), late payment interest income, interest income on contracted receivables, gains on the disposal of available-for-sale financial assets, changes in the fair value of financial assets at fair value through profit or loss and gains on derivative instruments that are recognized in the statement of income. Interest income is recognized as it accrues, using the effective interest method.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Finance costs comprise interest expense on borrowings, litigation late payment interest expense, unwinding of the discount on provisions, changes in the fair value of financial assets at fair value through profit or option premium expense.

Foreign currency gains and losses are reported on a net basis.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take considerable time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned by the temporary investment of the part of the borrowing not yet used is deducted against the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in the statement of profit or loss in the period in which they are incurred.

(n) Transactions with related parties

A related party is essentially any party that controls or can significantly influence the financial or operating decisions of the Group to the extent that the Group may be prevented from fully pursuing its own interests. For reporting purposes, investee companies and their shareholders, non-controlling shareholders at subsidiaries, key management personnel, shareholders of the Group and the companies that the shareholders have a relationship with are considered to be related parties.

(o) Income taxes

Income tax expense comprises current and deferred tax. Income tax expense is recognized in the statement of profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

3. Significant accounting policies (continued)

(o) Income taxes (continued)

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, and differences relating to investments in subsidiaries and jointly controlled entities to the extent that they probably will not reverse in the foreseeable future. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related

tax benefit will be realized.

Interest and penalties assessed on income tax deficiencies are presented based on their nature.

(p) Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is equal to basic EPS because the Group does not have any convertible notes or share options granted to employees.

In Turkey, companies can raise their share capital by distributing Bonus Shares to shareholders from retained earnings. In computing earnings per share, such bonus share distributions are treated as issued shares. Accordingly, the retrospective effect for such share distributions is taken into consideration in determining the weighted-average number of shares outstanding used in this computation.

(q) Operating segment

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are regularly reviewed by the Group management to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

The Group identified Turkcell, Euroasia and Belarusian Telecom as operating segments.

3. Significant accounting policies (continued)

(r) Subscriber acquisition costs

The Group capitalizes directly attributable subscriber acquisition costs when the following conditions are met:

- the capitalized costs can be measured reliably;
- there is a contract binding the customer for a specific period of time; and
- it is probable that the amount of the capitalized costs will be recovered through the revenues generated by the service contract, or, where the customer withdraws from the contract in advance, through the collection of the penalty.

Capitalized subscriber acquisition costs are amortized on a straight-line basis over the minimum period of the underlying contract. In all other cases, subscriber acquisition costs are expensed when incurred.

(s) Government grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in the statement of profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to property, plant and equipment are included in non-current liabilities as deferred government grants and are credited to the statement of profit or loss on a straight-line basis over the expected useful lives of the related assets.

(t) New standards and interpretations

(i) Amendments to IFRSs affecting amounts reported and/or disclosures in the consolidated financial statement

The following amendments to IFRSs have been applied in the current year and have affected the amounts reported in these consolidated financial statements.

Amendments to IAS 1 *Presentation of Items of Other Comprehensive Income*

The amendments to IAS 1 *Presentation of Items of Other Comprehensive Income* are effective for the annual periods beginning on or after 1 July 2012. The amendments introduce new terminology for the statement of comprehensive income and income statement. Under the amendments to IAS 1, the statement of comprehensive income is renamed as the statement of profit or loss and other comprehensive income and the statement of income is renamed as the statement of profit or loss. The amendments to IAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to IAS 1 require items of other comprehensive income to be grouped into two categories in the other comprehensive income section: (a) items that will not be reclassified subsequently to profit or loss and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis. The amendments do not change the option to present items of other comprehensive income either before tax or net of tax. The amendments have been applied retrospectively. Other than the above mentioned presentation changes, the application of the amendments to IAS 1 does not result in any impact on profit or loss, other comprehensive income and total comprehensive income.

3. Significant accounting policies (continued)

(t) New standards and interpretations (continued)

(i) Amendments to IFRSs affecting amounts reported and/or disclosures in the consolidated financial statement (continued)

New and revised Standards on consolidation, joint arrangements, associates and disclosures

In May 2011, a package of five Standards on consolidation, joint arrangements, associates and disclosures was issued, including IFRS 10 *Consolidated Financial Statements*, IFRS 11 *Joint Arrangements*, IFRS 12 *Disclosure of Interest in Other Entities*, IAS 27 *Separate Financial Statements* (as revised in 2011) and IAS 28 *Investments in Associates and Joint Ventures* (as revised in 2011).

New and revised Standards on consolidation, joint arrangements, associates and disclosures (continued)

Key requirements of these five Standards are described below.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

IFRS 10 replaces the parts of IAS 27 *Consolidated and Separate Financial Statements* that deal with consolidated financial statements. SIC - 12 *Consolidation - Special Purpose Entities* will be withdrawn upon the effective date of IFRS 10. Under IFRS 10, there is only one basis for consolidation that is control. In addition, IFRS 10 includes a new definition of control that contains three elements: (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor's return. Extensive guidance has been added in IFRS 10 to deal with complex scenarios.

IFRS 11 replaces IAS 31 *Interests in Joint Ventures*. IFRS 11 deals with how a joint arrangement of which two or more parties have joint control should be classified. SIC - 13 *Jointly Controlled Entities - Non-monetary Contributions by Venturers* will be withdrawn upon the effective date of IFRS 11. Under IFRS 11, joint arrangements are classified as joint operations or joint ventures, depending on the rights and obligations of the parties to the arrangements. In contrast, under IAS 31, there are three types of joint arrangements: jointly controlled entities, jointly controlled assets and jointly controlled operations. In addition, joint ventures under IFRS 11 are required to be accounted for using the equity method of accounting, whereas jointly controlled entities under IAS 31 can be accounted for using the equity method of accounting or proportional consolidation. Since the Company accounted its joint venture A-Tel by applying equity method in accordance with IAS 31 before adoption of IFRS 11, the adoption of IFRS 11 did not have any impact on amounts reported in the consolidated financial statements.

IFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in IFRS 12 are more extensive than those in the current standards.

In June 2012, the amendments to IFRS 10, IFRS 11 and IFRS 12 were issued to clarify certain transitional guidance on the application of these IFRSs for the first time.

The application of these five standards did not have significant impact on amounts reported in the consolidated financial statements.

3. Significant accounting policies (continued)

(t) New standards and interpretations (continued)

(i) Amendments to IFRSs affecting amounts reported and/or disclosures in the consolidated financial statement (continued)

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The Standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The scope of IFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in IFRS 13 are more extensive than those required in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only under IFRS 7 *Financial Instruments: Disclosures* will be extended by IFRS 13 to cover all assets and liabilities within its scope.

The Group included requirements of extended disclosures under the Notes the summary of accounting policies, investment properties and financial instruments. Other than the additional disclosures, the application of IFRS 13 has not had any material impact on the amounts recognized in the consolidated financial statements.

(ii) **New and Revised IFRSs applied with no material effect on the consolidated financial statements**

Amendments to IAS 1	<i>Clarification of the Requirements for Comparative Information</i>
Amendments to IFRS 7	<i>Financial Instruments: Disclosures Offsetting Financial Assets and Financial Liabilities</i>
Amendments to IFRSs	
IAS 16, IAS 32 and IAS 34	<i>Annual Improvements to IFRSs 2009/2011 Cycle except for the amendment to IAS 1</i>
IFRIC 20	<i>Stripping Costs in the Production Phase of a Surface Mine</i>

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

3. Significant accounting policies (continued)

(t) New standards and interpretations (continued)

(ii) New and Revised IFRSs applied with no material effect on the consolidated financial statements (continued)

Amendments to IAS 1 Clarification of the Requirements for Comparative Information

(as part of the Annual Improvements to IFRSs 2009/2011 Cycle issued in May 2012)

The amendments to IAS 1 as part of the Annual Improvements to IFRSs 2009/2011 Cycle are effective for the annual periods beginning on or after 1 January 2013. IAS 1 requires an entity that changes accounting policies retrospectively, or makes a retrospective restatement or reclassification to present a statement of financial position as at the beginning of the preceding period (third statement of financial position). The amendments to IAS 1 clarify that an entity is required to present a third statement of financial position only when the retrospective application, restatement or reclassification has a material effect on the information in the third statement of financial position and that related notes are not required to accompany the third statement of financial position. Since no retrospective restatement or reclassification made in the current year, the third statement of financial position is not presented.

Amendments to IFRS 7 Financial Instruments: Disclosures – Offsetting Financial Assets and Financial Liabilities

The amendments to IFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under an enforceable master netting agreement or similar arrangement.

Amendments to IFRS 7 are effective for annual periods beginning on or after 1 January 2013. These amendments should be applied retrospectively to the all financial statements presented. The amendments to IFRS 7 did not have a significant effect on the Group's consolidated financial statements.

Annual Improvements to IFRSs 2009/2011 Cycle issued in May 2012

The Annual Improvements to IFRSs 2009/2011 Cycle include a number of amendments to various IFRSs. The amendments are effective for annual periods beginning on or after 1 January 2013. The Amendments to IFRSs include:

- Amendments to IAS 16 *Property, Plant and Equipment*
- Amendments to IAS 32 *Financial Instruments: Presentation*
- Amendments to IAS 34 *Interim Financial Reporting*

(ii) New and Revised IFRSs applied with no material effect on the consolidated financial statements (continued)

Annual Improvements to IFRSs 2009/2011 Cycle issued in May 2012 (continued)

Amendments to IAS 16

The amendments to IAS 16 clarify that spare parts, stand-by equipment and servicing equipment should be classified as property, plant and equipment when they meet the definition of property, plant and equipment in IAS 16 and as inventory otherwise. The amendments to IAS 16 did not have a significant effect on the Group's consolidated financial statements.

Amendments to IAS 32

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The amendments to IAS 32 clarify that income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction should be accounted for in accordance with IAS 12. The amendments to IAS 32 did not have a significant effect on the Group's consolidated financial statements.

Amendments to IAS 34

The amendments to IAS 34 clarify that disclosure of the total assets and total liabilities for a particular reportable segment is only required if a measure of total assets or total liabilities (or both) is regularly provided to the chief operating decision maker and there has been a material change in those measures since the last annual financial statements. The amendments to IAS 34 did not have an effect on the Group's consolidated financial statements.

IFRIC 20 *Stripping Costs in the Production Phase of a Surface Mine*

IFRIC 20 *Stripping Costs in the Production Phase of a Surface Mine* applies to waste removal costs that are incurred in surface mining activity during the production phase of the mine (production stripping costs). Under the Interpretation, the costs from this waste removal activity (stripping) which provide improved access to ore is recognized as a non-current asset (stripping activity asset) when certain criteria are met, whereas the costs of normal on-going operational stripping activities are accounted for in accordance with IAS 2 *Inventories*. The stripping activity asset is accounted for as an addition to, or as an enhancement of, an existing asset and classified as tangible or intangible according to the nature of the existing asset of which it forms part.

IFRIC 20 is effective for annual periods beginning on or after 1 January 2013. Specific transitional provisions are provided to entities that apply IFRIC 20 for the first time. However, IFRIC 20 must be applied to production stripping costs incurred on or after the beginning of the earliest period presented. IFRIC 20 did not have an effect to the Group's financial statements as the Group does not engage in such activities.

Amendments to IAS 39	<i>Novation of Derivatives and Continuation of Hedge Accounting</i> (1)
IFRIC 21	<i>Leases</i> (1)
Annual Improvements to 2010-2012 Cycle	<i>IFRS 2, IFRS 3, IFRS 8, IFRS 13, IAS 16 and IAS 38, IAS 24</i> (2)
Annual Improvements to 2011-2013 Cycle	<i>IFRS 1, IFRS 3, IFRS 13, IAS 40</i> (2)

(1) Effective for annual periods beginning on or after 1 January 2014.

(2) Effective for annual periods beginning on or after 1 January 2015.

IFRS 9 *Financial Instruments*

IFRS 9, issued in November 2009, introduces new requirements for the classification and measurement of financial assets. IFRS 9 was amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition.

Key requirements of IFRS 9:

- All recognized financial assets that are within the scope of IAS 39 *Financial Instruments: Recognition and Measurement* to be subsequently measured at amortized cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost at the end of subsequent accounting periods. In addition, under IFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognized in profit or loss.
- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, IFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability, is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Previously, under IAS 39, the entire amount of the change in the fair value of the financial liability designated as at fair value through profit or loss was presented in profit or loss.

3. Significant accounting policies (continued)

(t) New standards and interpretations (continued)

(iii) New and revised IFRSs in issue but not yet effective (continued)

IFRS 9 Financial Instruments (continued)

IFRS 9 was amended to defer the mandatory effective date of both the 2009 and 2010 versions of IFRS 9 to annual periods beginning on or after 1 January 2015. Prior to the amendments, application of IFRS 9 was mandatory for annual periods beginning on or after 1 January 2013. The amendments continue to permit early application. The amendments modify the existing comparative transition disclosures in IAS 8 and IFRS 7 *Financial Instruments: Disclosures*. Instead of requiring restatement of comparative financial statements, entities are either permitted or required to provide modified disclosures on transition from IAS 39 *Financial Instruments: Recognition and Measurement* to IFRS 9 depending on the entity's date of adoption and whether the entity chooses to restate prior periods.

The Group management anticipates that the application of IFRS 9 in the future may have significant impact on amounts reported in respect of the Group's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

Amendments to IAS 32 *Offsetting Financial Assets and Financial Liabilities*

The amendments to IAS 32 clarify existing application issues relating to the offset of financial assets and financial liabilities requirements. Specifically, the amendments clarify the meaning of currently has a legally enforceable right of set-off and simultaneous realization and settlement .

Amendments to IFRS 10, 11, IAS 27 *Investment Entities*

This amendment with the additional provisions of IFRS 10 provide investment entities (as defined) an exemption from the consolidation of particular subsidiaries and instead require that an investment entity measure the investment in each eligible subsidiary at fair value through profit or loss.

Amendments to IAS 36 *Recoverable Amount Disclosures for Non-Financial Assets*

As a consequence of IFRS 13 *Fair Value Measurements*, there are amendments in the explanations about the measurement of the recoverable amount of an impaired asset. This amendment is limited to non-financial assets and paragraphs 130 and 134 of IAS 36 have been changed.

Amendments to IAS 39 *Novation of Derivatives and Continuation of Hedge Accounting*

This amendment to IAS 39 makes it clear that there is no need to discontinue hedge accounting if a hedging derivative is novated provided certain criteria are met.

IFRIC 21 Levies

IFRIC 21 identifies the obligating event for the recognition of a liability as the activity that triggers the payment of the levy in accordance with the relevant legislation.

Annual Improvements to 2010-2012 Cycle

IFRS 2: Amends the definitions of vesting condition and market condition and adds definitions for performance condition and service condition

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

IFRS 3: Require contingent consideration that is classified as an asset or a liability to be measured at fair value at each reporting date.

IFRS 8 *Operating Segments* : Requires disclosure of the judgments made by management in applying the aggregation criteria to operating segments, clarify reconciliations of segment assets only required if segment assets are reported regularly.

IFRS 13: Clarify that issuing IFRS 13 and amending IFRS 9 and IAS 39 did not remove the ability to measure certain short-term receivables and payables on an undiscounted basis (amends basis for conclusions only). The amendmends on IFRS 13 has no effect on Group 's consolidated financial statements.

IAS 16 and IAS 38: Clarify that the gross amount of property, plant and equipment is adjusted in a manner consistent with a revaluation of the carrying amount.

IAS 24 *Related Party Disclosures* : Clarify how payments to entities providing management services are to be disclosed.

Annual Improvements to 2011-2013 Cycle

IFRS 1: Clarify which versions of IFRSs can be used on initial adoption (amends basis for conclusions only).

IFRS 3: Clarify that IFRS 3 excludes from its scope the accounting for the formation of a joint arrangement in the financial statements of the joint arrangement itself.

IFRS 13: Clarify the scope of the portfolio exception in paragraph 52.

IAS 40 *Investment Property* : Clarifying the interrelationship of IFRS 3 and IAS 40 when classifying property as investment property or owner-occupied property.

3. Significant accounting policies (continued)

(u) Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciations.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

(i) Depreciation

Depreciation is recognized in the statement of profit or loss on a straight-line basis over the estimated useful lives.

The estimated useful lives for the current and comparative periods are as follows:

Investment Property	45 years
---------------------	----------

Depreciation methods, useful lives and residual values are reviewed at least annually unless there is a triggering event.

4. Determination of fair values

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(i) Property, plant and equipment

The fair value of property, plant and equipment recognized as a result of a business combination is based on market values. The market value of property is the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, willingly. The market value of items of plant, equipment, fixtures and fittings is based on the quoted market prices for similar items.

(ii) Intangible assets

The fair value of the brand acquired in the Superonline Uluslararası Elektronik Bilgilendirme Telekomunikasyon ve Haberleşme Hizmetleri AS (Superonline Uluslararası) business combination is based on the discounted estimated royalty payments that have been avoided as a result of the brand being owned. The fair value of customer base acquired in the Superonline business combination are valued using the multi-period excess earnings method, whereby the subject asset is valued after deducting a fair return on all other assets that are part of creating the related cash flows.

The fair value of the custom duty and VAT exemption agreement in the Belarusian Telecom business combination is based on the incremental cash flows method (cost saving approach) and this was used for the valuation analysis.

The fair value of mobile telephony licenses (GSM&UMTS) in the Belarusian Telecom business combination is based on the Greenfield (build-out) method, which is estimated to be appropriate and commonly used for the valuation of licenses, and this was used for the valuation analysis.

The fair value of customer base acquired in business combinations are valued using the cost approach where by the subject asset is valued by using the information on a cost per subscriber basis under current market conditions and rates.

The fair value of other intangible assets is based on the discounted cash flows expected to be derived from the use and eventual sale of the assets.

(iii) Investments in equity and debt securities

The fair value of financial assets at fair value through profit or loss, held-to-maturity investments and available-for-sale financial assets is determined by reference to their quoted bid price or over the counter market price at the reporting date. The fair value of held-to-maturity investments is determined for disclosure purposes only.

Table of Contents

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. 4. Determination of fair values (continued)

(iv) Trade and other receivables / due from related parties

The fair values of trade and other receivables and due from related parties are estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

(v) Derivatives

The fair value of forward exchange contracts and option contracts are based on their listed market price, if available. If a listed market price is not available, then fair values are derived from inputs other than quoted prices that are observable for the asset or liability or are derived by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate (based on government bonds) or option pricing models.

(vi) Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

(vii) Exercise price of financial liability related to non-controlling share put option

The Group measures the estimated exercise price of the financial liability originating from put options granted to non-controlling interests as the present value of estimated option redemption amount. Present value of the estimated option redemption amount is based on the fair value of estimation for the company subject to the put option.

The Group has estimated a value based on multiple approaches in grant to share purchase agreement including income approach (discounted cash flows) and market approach (comparable market multiples). The simple average, in accordance with the agreement between parties, of the values determined as at 31 August 2013, which is the exercise date of the put option, is then discounted back to respective reporting date. On 26 August 2013, the non-controlling interest put option granted to Belarusian Government became exercisable for a three months period. However; the Belarusian Government did not exercise the put option and the put option expired on 26 November 2013. As a result the Group derecognized the financial liability related to the non-controlling put option on 26 November 2013.

5. Financial risk management

The Group practice is to centrally manage Group's predetermined capital / debt ratios by capital injection or using available credit facilities. Group obtains short and long-term borrowings according to Group's financial needs and market predictions. Debt instruments vary from commercial bank loans to Export Credit Agency loans and different capital market instruments are seldom used in order to maintain diversified source of financing. The Group's financial borrowing ratios are monitored for all transactions in order to prevent any negative effect on the Group's credit ratings.

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Please refer to Note 31 for additional information on the Group's exposure to risks.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. Additionally the Company established a Risk Committee in accordance with the new Turkish Commercial Code effective from 1 July 2012.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Audit Committee is assisted in its oversight role by Internal Audit.

As at 31 December 2012, TL appreciated against USD and EUR by 5.6% and 3.8%, respectively, BYR depreciated against USD by 2.6% and HRV depreciated against USD by 0.04% when compared to the exchange rates as at 31 December 2011. As at 31 December 2013, TL depreciated against USD and EUR by 19.7% and 24.9%, respectively, BYR depreciated against USD by 11.0% and HRV remained constant against USD when compared to the exchange rates as at 31 December 2012. Additional information related to Group's exposure to currency risk is disclosed in Note 31.

Credit risk

Credit risk is the risk of a financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. The Group may require collateral in respect of financial assets. Also, the Group may demand letters of guarantee from third parties related to certain projects or contracts. The Group may also demand certain pledges from counterparties if necessary in return for the credit support it gives related to certain financings.

However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

5. Financial risk management (continued)

Credit risk (continued)

In monitoring customer credit risk, customers are grouped according to whether they are an individual or legal entity, aging profile, maturity and existence of previous financial difficulties. Trade receivables and accrued service income are mainly related to the Group's subscribers. The Group's exposure to credit risk on trade receivables is influenced mainly by the individual payment characteristics of postpaid subscribers. The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade receivables.

Investments are preferred to be in liquid securities. The counterparty limits are set depending on their ratings from the most credible rating agencies and the amount of their paid in capital and/or shareholders equity. Policies are in place to review the paid-in capital and rating of counterparties periodically to ensure credit worthiness.

Transactions involving derivatives are with counterparties with whom the Group has signed agreements and which have sound credit ratings.

At the reporting date, there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The Group establishes an allowance for doubtful receivables that represents its estimate of incurred losses in respect of trade and other receivables. This allowance includes the specific loss component that relates to individual subscribers exposures, and adjusted for a general provision which is determined based on the age of the balances and historical collection trends.

The Group's policy is to provide financial guarantees only to majority-owned subsidiaries. At 31 December 2013, \$1,263,477 guarantees were outstanding (31 December 2012: \$1,363,291).

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to manage liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. Typically, the Group ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

The Group buys and sells derivatives in order to manage market risks. All such transactions are carried at within the guidelines set by the Group treasury and risk management.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

5. Financial risk management (continued)

Currency risk

The Group is exposed to currency risk on certain revenues such as roaming revenues, purchases and certain operating costs such as roaming expenses and network related costs and resulting receivables and payables, borrowings, deferred payments related to the acquisition of Belarusian Telecom that is denominated in a currency other than the respective functional currencies of Group entities, primarily TL for operations conducted in Turkey. The currencies in which these transactions are primarily denominated are EUR and USD.

Derivative financial instruments such as forward contracts and options are used to hedge exposure to fluctuations in foreign exchange rates. The Group uses forward exchange contracts to hedge its currency risk.

The Group's investments in its equity accounted investee Fintur are not hedged with respect to the currency risk arising from the net assets as those net investments are considered to be long-term in nature.

Interest rate risk

The Group's exposure to interest rate risk is related to its financial assets and liabilities. The Group's financial liabilities mostly consist of floating interest rate borrowings. The use of financial derivatives is governed by the Group's policies approved by the Board of Directors, which provide written principles on the use of financial derivatives consistent with the Group's treasury and risk management strategy. The Group also closely monitored various hedging alternatives to hedge interest risk with a minimum cost. In June 2011, the Group engaged in forward start collar agreements for some portion of our debt which are due in 2015 and exposed to interest rate risk. The collars hedge variable interest rate risk for the period between 2013 and 2015.

6. Operating Segments

The Group has three reportable segments, as described below, which are based on the dominant source and nature of the Group's risk and returns as well as the Group's internal reporting structure. These strategic segments offer the same types of services, however they are managed separately because they operate in different geographical locations and are affected by different economic conditions.

The Group comprises the following main operating segments: Turkcell, Euroasia and Belarusian Telecom, all of which are GSM operators in their countries.

Other operations mainly include companies operating in telecommunication and betting businesses and companies provide internet and broadband services, call center and value added services.

Information regarding the operations of each reportable segment is included below. Adjusted EBITDA is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Adjusted EBITDA definition includes revenue, direct cost of revenues excluding depreciation and amortization, selling and marketing expenses and administrative expenses. Adjusted EBITDA is not a financial measure defined by IFRS as a measurement of financial performance and may not be comparable to other similarly-titled indicators used by other companies.

The accounting policies of operating segments are the same as those described in the summary of significant accounting policies.

7. Acquisition of subsidiaries

Acquisition of Deksarnet Telekomunikasyon AS

On 7 March 2013, Superonline Iletisim Hizmetleri AS (Turkcell Superonline) signed a Share Purchase Agreement (SPA) to acquire 100% stake in Deksarnet Telekomunikasyon AS (Deksarnet), which is specialized in rendering of telecommunications services. On 1 July 2013, the control over Deksarnet is acquired from Vestel Elektronik Sanayi ve Ticaret AS for a nominal consideration of \$1,750 and the payment will be made through 12 equal monthly installments.

Subsequent to the acquisition, Deksarnet reported revenue of \$1,585 and profit of \$74 till Turkcell Superonline merger. Since Deksarnet 's statement of profit or loss prepared in accordance with IFRS for the year ended 31 December 2012 is not available, the estimated revenue and profit or loss for the current reporting period if the acquisition had occurred on 1 January 2013 could not be disclosed.

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

7. Acquisition of subsidiaries (continued)**Acquisition of Deksarnet Telekomunikasyon AS (continued)**

The acquisition of Deksarnet had the following effect on the Group's assets and liabilities on the acquisition date:

	Pre-acquisition carrying amounts	Fair value adjustments	Recognized values on acquisition
Property, plant and equipment	271	330	601
Intangible assets	5	117	122
Other assets	1,183		1,183
Cash and cash equivalents	129		129
Total liabilities	(126)	(90)	(216)
Net identifiable assets and liabilities	1,462	357	1,819
Present value of the acquisition consideration			1,723
Less: fair value of identifiable net assets acquired			(1,819)
Bargain purchase gain on acquisition			(96)
Nominal amount of total consideration			1,750
Finance cost on deferred consideration			(27)
Total consideration			1,723

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Consideration paid in cash	(875)
Add: cash and cash equivalent balances acquired	129
Net cash and cash equivalent effect of the business combination	(746)

Pre-acquisition carrying amounts were determined based on applicable IFRSs immediately before the acquisition. The fair value of intangible assets and liabilities recognized on acquisition has been determined based on independent valuation.

The bargain purchase gain on the acquisition has been included in other income in the Group's consolidated statement of profit or loss.

The Group incurred acquisition-related costs of \$41 related to external consultancy costs which are included in administrative expenses in the Group's statement of profit or loss.

After the acquisition of Deksarnet in 2013, management merged the Deksarnet's operations with its wholly owned subsidiary, Turkcell Superonline on 3 December 2013.

8. Revenue

	2013	2012	2011
Communication fees	5,369,036	5,373,986	5,225,441
Revenue from betting business	68,162	41,934	12,310
Call center revenues	57,779	44,944	38,090
Commission fees on betting business	52,236	47,087	39,066
Monthly fixed fees	39,976	50,649	62,977
Simcard sales	15,605	18,302	21,152
Other revenues*	372,613	288,885	210,643
	5,975,407	5,865,787	5,609,679

*Other revenues consists of handsets, modems, internet subscription revenues, tower rent incomes and other several revenues.

9. Other income and expenses

Other income amounts to \$18,243, \$18,094 and \$32,600 for the years ended 31 December 2013, 2012 and 2011, respectively. Other income for the year ended 31 December 2011 mainly comprises of penalty amounting to \$12,656 received back from ICTA which was imposed in 2010 as a result of investigation of ICTA on tariff plans.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Other expenses amount to \$47,464, \$76,924 and \$161,236 for the years ended 31 December 2013, 2012 and 2011, respectively. Other expenses as of 31 December 2013 mainly consists of payments and provisions for the penalties imposed by ICTA for not complying with relevant regulations as explained in Note 34, to consolidated financial statements amounting to \$18,371 and impairment recognized on the Group's investment in T-Medya and Aks TV amounting to \$9,256 and \$9,986, respectively.

Since the service provider and distribution agreement with A-Tel was annulled via notification dated 31 January 2012 which was effective from 1 August 2012, the carrying amount of A-Tel in the consolidated financial statements is decreased to the Company's share on the net assets of A-Tel as at 31 December 2012 and an impairment loss of \$40,250 is recognized in other expenses. Additionally based on the management opinion, the Company accrued a provision before tax effect amounting to \$19,299 and recognized in other expenses as explained in Notes 16. Other expense also includes payments and provisions for the penalties imposed by ICTA for not complying with aforementioned and relevant regulations, as explained in Note 34 to consolidated financial statements amounting to \$6,384.

Other expenses for the years ended 31 December 2011 mainly comprises of impairment charge recognized on goodwill arising from the acquisition of Belarusian Telecom amounting to \$52,971, impairment recognized on the Group's investment in A-Tel and Aks TV amounting to \$15,844 and \$5,714, respectively. Besides, provision set for Special Communication Tax (SCT) on the discounts applied to distributors for prepaid scratch card sales between January 2005 and January 2007, as explained in Note 34 to consolidated financial statements amounting to \$31,155, and penalties imposed by ICTA for not complying with aforementioned and relevant regulations, as explained in Note 34 to consolidated financial statements amounting to \$38,463.

12. Income tax expense (continued)**Reconciliation of effective tax rate**

The reported income tax expense for the years ended 31 December 2013, 2012 and 2011 are different than the amounts computed by applying the statutory tax rate to profit before income tax of the Company, as shown in the following reconciliation:

	2013		2012		2011	
Profit for the year		1,229,464		1,147,129		725,113
Total income tax expense		310,696		291,491		292,193
Profit before income tax		1,540,160		1,438,620		1,017,306
Income tax using the Company's domestic tax rate						
	20%	(308,032)	20%	(287,724)	20%	(203,461)
Effect of tax rates in foreign jurisdictions	1%	(12,093)		(5,854)	(1)%	14,221
Tax exempt income		1,161		3,340	(1)%	8,050
Non-deductible expenses	1%	(22,432)	3%	(43,939)	3%	(31,806)
Tax incentives		989		878		942
Utilization of previously unrecognized tax losses	(1)%	18,968	(1)%	14,753		2,187
Unrecognized deferred tax assets	2%	(34,349)	1%	(8,511)	11%	(112,192)
Difference in effective tax rate of equity accounted investees	(2)%	23,482	(1)%	21,435	(2)%	24,782
Other	(1)%	21,610	(1)%	14,131		5,084
Total income tax expense		(310,696)		(291,491)		(292,193)

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The income taxes payable amounting to \$65,074 of and \$76,533 as at 31 December 2013 and 2012, respectively, represents the amount of income taxes payable in respect of related taxable profit for the years ended 31 December 2013 and 2012, respectively netted off with advance tax payments.

The Turkish entities within the Group are subject to corporate tax at the rate of 20%. In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns at the end of April following the close of the accounting year to which they relate. Tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years. Advance tax returns are filed on a quarterly basis.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and by deducting tax exempt income.

In Turkey, the transfer pricing provisions have been stated under the Article 13 of Corporate Tax Law with the heading of disguised profit distribution via transfer pricing . The General Communiqué on disguised profit distribution via Transfer Pricing, dated 18 November 2007 sets details about implementation.

If a taxpayer enters into transactions regarding sale or purchase of goods and services with related parties, where the prices are not set in accordance with arm's length principle, then related profits are considered to be distributed in a disguised manner through transfer pricing. Such disguised profit distributions through transfer pricing are not accepted as tax deductible for corporate income tax purposes.

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

13. Property, plant and equipment (continued)

Leased assets

The Group leases equipment under a number of finance lease agreements. At the end of each of the lease period, the Group has the option to purchase the equipment at a beneficial price. As at 31 December 2013, net carrying amount of fixed assets acquired under finance leases amounted to \$52,099 (31 December 2012: \$62,928).

Property, plant and equipment under construction

Construction in progress mainly consisted of capital expenditures in GSM and fixed-line network of the Company, Astelit, Kibris Mobile Telekomunikasyon Limited Sirketi (Kibris Telekom Belarusian Telecom and Turkcell Superonline and non-operational capital expenditures as at 31 December 2013 and 2012.

14. Intangible assets

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

In April 1998, the Company signed the License with the Turkish Ministry, under which it was granted a GSM license, which is amortized over 25 years with a carrying amount of \$199,286 as at 31 December 2013 (31 December 2012: \$264,400). The amortization period of the license will end in 2023.

On 30 April 2009, the Company signed a license agreement with ICTA which provides authorization for providing IMT 2000/UMTS services and infrastructure. The Company acquired the A type license providing the widest frequency band for a consideration of EUR 358,000 (excluding VAT). The license is effective for duration of 20 years starting from 30 April 2009. The carrying amount as at 31 December 2013 is \$276,391 and the amortization period of the license will end in 2029.

Impairment testing for long-lived assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Long-lived assets were tested for impairment as at 31 December 2013. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets, cash generating units. As at 31 December 2013, impairment test for long-lived assets of Astelit is made on the assumption that Astelit is the cash generating unit.

As the recoverable amounts based on the value in use of cash generating units was higher than the carrying amount of cash-generating units of Astelit, no impairment was recognized. The assumptions used in value in use calculation of Astelit were:

A 17.0% post-tax WACC rate for 2014 to 2018, a 16.5% post-tax WACC rate for after 2018 and 2.5% terminal growth rate were used to extrapolate cash flows beyond the 5-year forecasts based on the business plans. Independent appraisal was obtained for fair value to determine recoverable amounts for Astelit. The pre-tax rate for disclosure purposes was 18.0%.

Impairment testing for cash-generating unit containing goodwill

Goodwill allocated to cash generating units and carrying values of all cash generating units are annually tested for impairment. The recoverable amounts (that is, higher of value in use and fair value less cost to sell) are normally determined on the basis of value in use, applying discounted cash flow calculation. Independent appraisals were obtained for fair values to determine recoverable amounts for Belarusian Telecom and Turkcell Superonline as at 31 December 2013.

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

14. Intangible assets (continued)

Impairment testing for cash-generating unit containing goodwill (continued)

In calculating the net present value of the future cash flows, certain assumptions are required to be made in respect of highly uncertain matters including management's expectations of growth in adjusted EBITDA, calculated as results from operating activities before depreciation and amortization and other income / (expenses), timing and quantum of future capital expenditure, long term growth rates, and the selection of discount rates to reflect the risks involved.

Belarusian Telecom

As at 31 December 2013, impairment test was performed for Belarusian Telecom and after tax impairment at the amount of \$28,674 was calculated for the cash-generating unit, allocated to the fixed assets of the cash-generating unit on a pro-rata basis based on the carrying amount of each asset in the cash-generating unit and included in depreciation expense. Tax effect of the long-lived asset impairment of \$1,710 is included in deferred taxation benefit.

Value in use was determined by discounting the expected future cash flows to be generated by the cash-generating unit and the terminal value. The calculation of the value in use was based on the following key assumptions:

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The projection period for the purposes of impairment testing was taken as 5 years between 1 January 2014 and 31 December 2018. Cash flows for further periods (perpetuity) were extrapolated using a constant growth rate of 3.0% which does not exceed the estimated average growth rate for Belarus.

A 17.1% post-tax WACC rate for 2014 to 2018, a 16.6% post-tax WACC rate for after 2018 were applied in determining the recoverable amount of the cash-generating unit. The post-tax rate was adjusted considering the tax cash outflows and other future tax cash flows and discrepancies between the cost of the assets and their tax bases. The pre-tax rate for disclosure purposes was 18.4%.

Turkcell Superonline

As at 31 December 2013, the aggregate carrying amount of goodwill allocated to Turkcell Superonline is \$15,384 (31 December 2012: 18,419). As the recoverable value based on the value in use of the cash generating units was estimated to be higher than carrying amount, no impairment was required for goodwill arising from the acquisition of Superonline as at 31 December 2013. The calculation of the value in use was based on the following key assumptions:

Values assigned to adjusted EBITDA for the periods forecasted include the expected synergies to be achieved from operating as a part of the Group. Values assigned to this key assumption reflect past experience except for efficiency improvements and synergies. Management believes that any reasonably possible change in the key assumptions on which Superonline recoverable amount is based would not cause Superonline's carrying amount to exceed its recoverable amount.

The projection period for the purposes of goodwill impairment testing was taken as 6 years between 1 January 2014 and 31 December 2019.

Table of Contents

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

14. Intangible assets (continued)

Impairment testing for cash-generating unit containing goodwill (continued)

Turkcell Superonline (continued)

Cash flows for further periods (perpetuity) were extrapolated using a constant growth rate of 3.0%. This growth rate does not exceed the long-term average growth rate for the market in which Superonline operates. A 14.7% post-tax WACC rate for 2014 to 2016, a 14.4% post-tax WACC rate for after 2016 were applied in determining the recoverable amount of the cash-generating unit. Discounting post-tax cash flows at a post-tax discount rate and discounting pre-tax cash flows at pre-tax discount rate gave same results, since the pre-tax discount rate is the post-tax discount rate adjusted to reflect the specific amount and timing of the future tax cash flows. For disclosure purposes pre-tax discount rate is 21.4%.

15. Investment property

Since the Group moved from the building in Gebze, the building was transferred from owner occupied asset to investment property as of 1 December 2013. The fair value of this investment property is 16,555 TL (equivalent to 7,757 as of 31 December 2013). The fair value of the Group's investment property as at 31 December 2013 has been arrived at on the basis of a valuation carried out on the respective dates by Prime Gayrimenkul Değerleme ve Danışmanlık AS, independent valuers not related to the Group. Prime Gayrimenkul Değerleme ve Danışmanlık AS is authorized by Capital Markets Board, and they have appropriate qualifications and recent experience in the valuation of properties in the relevant locations. The fair value was determined based on the income capitalization approach. In estimating the fair value of the properties, the highest and best use of the properties is their current use.

There is no rental income during the year ended 31 December 2013. Total direct operating expense from investment property that did not generate rental income during December 2013 is \$14.

Details of the Group's investment property in Gebze and information about the fair value hierarchy as at 31 December 2013 are as follows:

	Level 1	Level 2	Level 3	Total
31 December 2013				
Investment property in Gebze			7,757	7,757

There were no transfers between Level 1 and Level 2 during the year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

16. Investments in equity accounted investees (continued)

The Company's investment in Fintur Holdings BV (Fintur) amounts to \$229,114 as at 31 December 2013 (31 December 2012: \$230,374).

In 2012, Fintur has decided to distribute dividend amounting to \$598,000. The Company reduced the carrying value of investments in Fintur by the cash collected dividend of \$247,871.

In 2013, Fintur has decided to distribute dividend amounting to \$105,000. The Company reduced the carrying value of investments in Fintur by the accrued dividend of \$43,523 and this amount has been collected in July 2013.

In April 2008, the privatization of the Republic of Azerbaijan's 35.7% ownership in Azercell Telecom B.M. (Azercell), a 51% owned consolidated subsidiary of Fintur, was completed. The non-controlling shareholders in Azercell acquired the 35.7% shares of Republic of Azerbaijan increasing their effective ownership in Azercell to 49%. At the same time, the non-controlling shareholders in Azertel increased their ownership to 49%. Fintur's effective ownership in Azercell therefore remained at 51%. One of the non-controlling shareholders was also granted a put option, giving the shareholder the right to sell its 42.2% stake to Fintur at fair value in certain deadlock situations regarding significant decisions at the General Assembly. Fintur has initially accounted for the present value of the estimated option redemption amount as a provision and derecognized the non-controlling interest. The difference between the present value of the estimated option redemption amount and the derecognized non-controlling interest amounting to \$1,024,529 is accounted under equity, in accordance with the Group's accounting policy.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Reconciliation of the above summarized financial information to the carrying amount of the interest in Fintur recognized in the consolidated financial statements

	2013	2012
Net assets of Fintur	403,265	376,813
Proportion of the Group's ownership interest in Fintur	167,153	156,189
Goodwill	61,961	74,185
Carrying amount of the Group's interest in Fintur	229,114	230,374

Significant restrictions

Fintur

As at 31 December 2013, significant exchange restrictions and state controls exist in most jurisdictions in which Fintur operates. The local currencies of Fintur subsidiaries in Kazakhstan, Azerbaijan, Georgia and Moldova are not convertible outside of respective countries. Future movements of exchange rates will affect the carrying values of the Fintur's assets and liabilities. The translation of underlying local currency amounts into USD in Fintur's consolidated financial statements should not be construed as a representation that such local currency amounts have been, could be or will in future be converted into USD at the exchange rates shown or at any other exchange rate.

Table of Contents**TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****As at and for the year ended 31 December 2013**

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

16. Investments in equity accounted investees (continued)

The Company's investment in A-Tel amounts to \$21,845 as at 31 December 2013 (31 December 2012: \$26,557).

Reconciliation of the above summarized financial information to the carrying amount of the interest in A-tel recognized in the consolidated financial statements

	2013	2012
Net assets of A-Tel	43,689	53,113
Proportion of the Group's ownership interest in A-Tel	21,845	26,557
Carrying amount of the Group's interest in A-Tel	21,845	26,557

In November 2012 at the General Assembly meeting of A-Tel, it has been decided to distribute dividends amounting to TL 13,904 (equivalent to \$6,515 as at 31 December 2013). The Company reduced the carrying value of its investments in A-Tel by its dividend portion of TL 6,952 (equivalent to \$3,257 as at 31 December 2013) as at 31 December 2012.

Since the service provider and distribution agreement with A-Tel was annulled via notification dated 31 January 2012 which was effective from 1 August 2012, the carrying amount of A-Tel in the consolidated financial statements is decreased to the Company's share on the net assets of A-Tel as at 31 December 2012 and an impairment loss of \$40,250 is recognized in other expenses in the consolidated statement of comprehensive income for the year ended 31 December 2012. Additionally, based on the management opinion, the Company accrued a provision before tax effect amounting to \$19,299 in the consolidated statement of comprehensive income for the year ended 31 December 2012.

17. Other investments*Non-current investments:*

		2013		2012	
	Country of incorporation	Ownership (%)	Carrying Amount	Ownership (%)	Carrying Amount
T Medya Yatirim Sanayi ve Ticaret AS (T-Medya)	Turkey	4.52		4.52	10,359
Aks Televizyon Reklamcilik ve Filmcilik Sanayi ve Ticaret AS (Aks TV)	Turkey			4.57	13,555
					23,914

In May 2013, SDIF announced that it had taken over the management of Aks TV and T-Medya against its overdue receivables from Cukurova Group. Following the change in the management of Aks TV and T-Medya, a valuation study was performed by an independent valuation firm as of 30 June 2013. Based on the impairment analysis performed, the carrying value of T-Medya has been reduced by \$4,951. Furthermore in last quarter of 2013 carrying value of T-Medya has been decreased to nil since the net asset value of the entity is negative.

Table of Contents**TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****As at and for the year ended 31 December 2013**

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). 17. Other investments (continued)

Based on the impairment analysis performed as of 30 June 2013, the carrying value of Aks TV has been reduced by \$8,251. On 26 August 2013, SDIF notified that Company's shares in Aks TV has been ascertained as TL 4,755 (equivalent to \$2,228 as at 31 December 2013) and such amount shall be paid by SDIF to the Group in condition that the Group transfers its all shares in Aks TV to the Buyer. In this context, Board of Directors of the Company approved to transfer all of its shares. As of 30 October 2013, the Company's shares in Aks TV have been sold to Ciner Görsel Televizyon Prodüksiyon AS and the carrying value of Aks TV has been decreased to nil and additional impairment loss of \$1,735 has been recognized in other expense.

	2013	2012
Securities		
<i>Corporate debt securities held-to-maturity</i>	3,851	5,155

As at 31 December 2013, corporate debt securities classified as held-to-maturity investments with a carrying amount of \$3,851 have effective interest rates of 9.8% to 13.8% and matures in 2015.

As at 31 December 2012, corporate debt securities classified as held-to-maturity investments with a carrying amount of \$5,155 have effective interest rates of 8.6% to 11.8% and matures in 2014.

The Group's exposure to credit, currency and interest rate risks related to other investments is disclosed in Note 31.

18. Other non-current assets

	2013	2012
VAT receivable	68,036	81,774
Prepaid expenses	38,279	27,689
Deposits and guarantees given	7,711	7,173
Advances given for fixed assets	2,162	2,846
Receivables from Tax Office		3,689
Others	1,780	2,128
	117,968	125,299

19. Deferred tax assets and liabilities*Unrecognized deferred tax liabilities*

At 31 December 2013, a deferred tax liability of \$26,905 (31 December 2012: \$25,517) for temporary differences of \$127,584 (31 December 2012: \$127,584) related to investments in subsidiaries was not recognized because the Company controls whether the liability will be incurred and it is satisfied that it will not be incurred in the foreseeable future.

Unrecognized deferred tax assets

Deferred tax assets have not been recognized in respect of the following items:

	2013	2012
Deductible temporary differences	57,496	169,564
Tax losses	125,794	102,242
Total unrecognized deferred tax assets	183,290	271,806

Table of Contents**TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****As at and for the year ended 31 December 2013**

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

19. Deferred tax assets and liabilities (continued)

The deductible temporary differences do not expire under current tax legislation. Turkish tax legislation does not allow companies to file tax returns on a consolidated basis. Therefore, deferred tax assets have not been recognized in respect of these items resulting from certain consolidated subsidiaries because it is not probable that future taxable profit will be available against which the Group can utilize the benefits therefrom.

As at 31 December 2013, expiration of tax losses is as follows:

Expiration Date	Amount
2014	25,585
2015	34,457
2016	63,349
2017	11,205
2018	7,132
2021 - 2023	176,572
	318,300

As at 31 December 2013, tax losses which will be carried indefinitely are amounting to \$445,851 (31 December 2012: \$340,840).

Recognized deferred tax assets and liabilities

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Deferred tax assets and liabilities as at 31 December 2013 and 2012 are attributable to the following:

	Assets		Liabilities		Net	
	2013	2012	2013	2012	2013	2012

20. Trade receivables and accrued income

	2013	2012
Accrued service income	748,647	638,687
Receivables from subscribers	445,574	484,294
Accounts and checks receivable	100,415	86,026
	1,294,636	1,209,007

Trade receivables are shown net of allowance for doubtful debts amounting to \$323,952 as at 31 December 2013 (31 December 2012: \$388,744). The change in allowance for trade receivables and due from related parties is disclosed in Note 31.

Letters of guarantee received with respect to the accounts and checks receivable are amounting to \$80,026 and \$76,469 as at 31 December 2013 and 2012, respectively.

The accrued service income represents revenues accrued for subscriber calls (air-time) and contracted receivables related to handset campaigns, which have not been billed and will be billed within one year. Due to the volume of subscribers, there are different billing cycles; accordingly, an accrual is made at each period end to accrue revenues for rendered but not yet billed. Contracted receivables related to handset campaigns, which will be invoiced after one year is presented under non-current trade receivables amounting to \$247,823 (31 December 2012: \$216,149).

The Group's exposure to currency risks and impairment losses related to trade receivables are disclosed in Note 31.

21. Other current assets

	2013	2012
Prepaid expenses	87,166	100,600
Amounts to be received from Ministry of Transport, Maritime Affairs and Communications	52,475	
Restricted cash	43,078	55,078
Prepayment for subscriber acquisition cost	25,669	20,662
Interest income accruals	14,671	12,269
Special communication tax to be collected from subscribers	14,467	18,423

21. Other current assets (continued)

Subscriber acquisition costs are subsidies paid to dealers for engaging a fixed term contract with the subscriber that require a minimum consideration.

22. Cash and cash equivalents

	2013	2012
Cash in hand	99	148
Cheques received	84	380
Banks	3,806,411	3,924,203
- Demand deposits	204,864	245,551
- Time deposits	3,601,547	3,678,652
Bonds and bills	2,114	1,484
Cash and cash equivalents	3,808,708	3,926,215
Bank overdrafts	(237)	
Cash and cash equivalents in the statement of cash flows	3,808,471	3,926,215

As at 31 December 2013, cash and cash equivalents deposited in banks that are owned and/or controlled by Cukurova Group, a significant shareholder of the Company is amounting to \$0.055 (31 December 2012: \$0.055).

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

As at 31 December 2013, the average maturity of time deposits is 57 days (31 December 2012: 81 days).

The Group's exposure to interest rate risk and a sensitivity analysis for financial assets and liabilities are disclosed in Note 31.

23. Capital and reserves

Share capital

As at 31 December 2013, common stock represented 2,200,000,000 (31 December 2012: 2,200,000,000) authorized, issued and fully paid shares with a par value of TL 1 each. In accordance with the Law No. 5083 with respect to TL, on 9 May 2005, par value of each share is registered to be one TL.

The holders of shares are entitled to receive dividends as declared and are entitled to one vote per share at meetings of the Company.

As at 31 December 2013, total number of pledged shares hold by various institutions is 955,509 (31 December 2012: 995,509).

Capital contribution

Capital contribution comprises the contributed assets and certain liabilities that the government settled on behalf of the Group that do not meet the definition of a government grant which the government is acting in its capacity as a shareholder.

Translation reserve

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign and domestic operations from their functional currencies to presentation currency of USD.

Table of Contents

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

23. Capital and reserves (continued)

Fair value reserve

The fair value reserve comprises the cumulative net change in the fair value of available-for-sale financial assets until the investments are derecognized or the asset is impaired.

Legal reserve

Under the Turkish Commercial Code, Turkish companies are required to set aside first and second level legal reserves out of their profits. First level legal reserves are set aside 5% of the distributable income per statutory accounts each year. The ceiling on the first legal reserves is 20% of the paid-up capital. The reserve requirement ends when the 20% of paid-up capital level has been reached. Second legal reserves correspond to 10% of profits actually distributed after the deduction of the first legal reserves and the minimum obligatory dividend pay-out (5% of the paid-up capital). There is no ceiling for second legal reserves and they are accumulated every year.

Cash flow hedging reserve

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of hedging instruments entered into for cash flow hedges. The cumulative gain or loss arising on changes in fair value of the hedging instruments that are recognized and accumulated under the heading of cash flow hedging reserve will be reclassified to profit or loss only when the hedged transaction affects the profit or loss, or included as a basis adjustment to the non-financial hedged item, consistent with the relevant accounting policy.

Reserve for non-controlling interest put option liability

The reserve for non-controlling interest put option liability includes the difference between the put option liability granted to the non-controlling shareholders in existing subsidiaries recognized and the amount of non-controlling interest derecognized. Since the current option relates to the business combinations before 1 January 2009, subsequent changes in the fair value of the put option liability other than unwind of discount and associated foreign exchange gains and losses are also recognized in this reserve.

Dividends

On 23 March 2011, the Company's Board of Directors has proposed a dividend distribution for the year ended 31 December 2010 amounting to TL 1,328,697 (equivalent to \$622,545 as at 31 December 2013), which represented 75% of distributable income. This represents a net cash dividend of full TL 0.6039532 (equivalent to full \$0.28 as at 31 December 2013) per share. This dividend proposal was discussed but not approved at the Ordinary General Assembly of Shareholders held on 21 April 2011 and the Extraordinary General Assemblies of Shareholders held on 11 August 2011 and 12 October 2011.

The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the dividend proposal could not be presented for approval.

In the Ordinary General Assemblies of Shareholders Meeting of Inteltek Internet Teknoloji Yatirim ve Danismanlik AS (Inteltek) held on 4 April 2012, it has been decided to distribute dividends amounting to TL 34,061 (equivalent to \$15,959 as at 31 December 2013). The dividend was paid on 3 May 2012.

In the Ordinary General Assemblies of Shareholders Meeting of Inteltek Internet Teknoloji Yatirim ve Danismanlik AS (Inteltek) held on 19 December 2013, it has been decided to distribute dividends amounting to TL 2,325 (equivalent to \$1,089 as at 31 December 2013). The dividend was paid on 26 December 2013.

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

24. Earnings per share

The calculations of basic and diluted earnings per share as at 31 December 2013 were based on the profit attributable to ordinary shareholders for the years ended 31 December 2013, 2012 and 2011 of \$1,228,188, \$1,158,835 and \$751,709 respectively and a weighted average number of shares outstanding during the years ended 31 December 2013, 2012 and 2011 of 2,200,000,000 calculated as follows:

	2013	2012	2011
Numerator:			
Net profit for the period attributed to owners	1,228,188	1,158,835	751,709
Denominator:			
Weighted average number of shares	2,200,000,000	2,200,000,000	2,200,000,000
Basic and diluted earnings per share	0.56	0.53	0.34

25. Other non-current liabilities

	2013	2012
Consideration payable in relation to acquisition of Belarusian Telecom	69,054	76,413
Accrual for Evrensel Project (Note 34)	24,611	
Deposits and guarantees taken from agents	15,507	17,465
Payables to other suppliers	4,146	14,654
Other	14,351	9,356
	127,669	117,888

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Consideration payable in relation to the acquisition of Belarusian Telecom represents the present value of the long-term deferred payment to the seller. Payment of \$100,000 is contingent on the financial performance of Belarusian Telecom, and based on management's estimations, expected to be paid during the first quarter of 2020 (31 December 2012: the first quarter of 2020). The present value of the contingent consideration is \$69,054 as at 31 December 2013 (31 December 2012: \$76,413).

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

26. Loans and borrowings (continued)

As of 1 February 2012, Astelit had debt repayments related to Euroasia Loan in the amount of \$150,165 and to Financell Loans in the amount of \$172,799. Since June 2011, Astelit has not met the payment obligations, which were waived until 1 February 2012. Since that date, the Board of Directors of the Company has not acted to approve or reached a consensus for the extension of repayment dates. As a result, Astelit was unable to meet its repayment obligations in relation to Euroasia and Financell Loans totaling \$322,964 and defaulted on its loan agreements (As of 31 December 2013, due to Astelit executing partial payments, Astelit's accrued obligations under its loans to Financell and Euroasia Telecommunications Holding BV (ETH) has decreased to a total of \$597,602). As a consequence of Astelit's default, cross default clauses have been triggered on five loan agreements totaling \$553,886 (currently decreased to \$176,294 on three loan agreements following the Company's \$150,000 guarantee payment and other principle payments) and waivers were obtained for the aforementioned loans before 31 December 2013. In the context of guarantees, Financell has pledged on shares and all assets of Astelit including bank accounts. Additionally, Financell has a second priority pledge on Euroasia shares held by System Capital Management Limited together with a guarantee and indemnity given by System Capital Management Limited. Financell has rights to initiate legal proceedings arising out of pledges and guarantee under certain conditions. In addition to the Euroasia Loan and Financell Loans, as given above, Astelit has defaulted in one SCM loan agreement currently totaling \$38,840 (SCM Loan).

In the same vein, Euroasia, a Group company that is a 100% shareholder of Astelit, which had previously borrowed \$150,000 to finance Astelit, also defaulted on its loan on 30 March 2012. As a guarantor, the Company paid \$150,000 to related banks on 6 April 2012. In relation to the guarantee agreement, a first priority pledge on Euroasia shares held by System Capital Management Limited has been established in favor of the Company. Upon payment of the guaranteed amount, the Company has the right to initiate legal proceedings arising out of this pledge on the Euroasia shares under certain conditions. As a consequence of Euroasia's default, cross default clauses have been triggered on four loan agreements (the same ones referenced above, currently decreased to three loan agreements) currently totaling \$176,294. Since waivers for the defaults on Turkcell and Financell loans (Loans) including any future non-payments of Astelit were received on 25 July 2012, the Loans have been classified according to the maturities of their respective borrowing agreements in the statement of financial positions as of 31 December 2013 and 2012. As no waiver has been received for the SCM Loan from SCM, this loan has been classified in current liabilities. Accordingly, as a result of the event of default, SCM has a right to demand immediate loan repayment although does not perfected any pledges in connection with this loan.

With respect to the amounts due to Financell, the Board of Directors of the Company decided to extend a guarantee to Financell in order to perform its obligations with respect to the loans granted by the banks for providing Group financing. The guarantee will be limited to \$410,650 principal amount plus interest and any other costs, expenses and fees that may accrue. This guarantee includes currently unmet debt repayments under the loan agreements signed between Astelit and Financell, and of the loans that Financell granted to Astelit which have not yet fallen due.

Table of Contents**TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****As at and for the year ended 31 December 2013**

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

26. Loans and borrowings (continued)

Finance lease liabilities are payable as follows:

	31 December 2013		31 December 2012		Present value of minimum lease payments	Present value of minimum lease payments
	Future minimum lease payments	Interest	Future minimum lease payments	Interest		
Less than one year	3,219	643	3,606	666	2,576	2,940
More than one year	22,075	3,557	21,081	3,585	18,518	17,496
	25,294	4,200	24,687	4,251	21,094	20,436

Interest collars:

Under interest rate collar contracts, the Group agrees to exchange the difference between the collar (1.25% - 4%) and floating rate (LIBOR) interest amounts calculated on agreed notional principal amounts. Such contracts enable the Group to mitigate the risk of changing interest rates on the cash flow exposures on the issued variable rate debt. The fair value of interest rate collar at the end of the reporting period is determined by the quotations by the financial institutions and is disclosed below.

The following tables detail the notional principal amounts outstanding at the end of the reporting period.

	Currency	Notional value		Fair value asset / (liability)	
		2013	2012	2013	2012
Interest collar	US\$	86,000	86,000	(994)	(1,477)

All interest rate collar contracts exchanging floating rate interest amounts for fixed rate interest amounts are designated as cash flow hedges in order to reduce the Group's cash flow exposure resulting from variable interest rates on borrowings. The interest rate collars and the interest payments on the loan occur simultaneously and the amount accumulated in equity is reclassified to profit or loss over the period that the floating rate interest payments on debt affect profit or loss.

27. Employee benefits

International Accounting Standard No 19 *Employee Benefits* (IAS 19) requires actuarial valuation methods to be developed to estimate the enterprise's obligation under defined benefit plans. As detailed in Note 10, such actuarial gains/losses are recognized within other comprehensive income starting from 31 December 2012. The liability for this retirement pay obligation is recorded in the accompanying consolidated financial statements at its present value using a discount rate between 3.19% and 4.40% depending on the expected payout date (31 December 2012: between 2.02% and 2.29%).

Movement in the reserve for employee termination benefits as at 31 December 2013 and 2012 are as follows:

	2013	2012
Opening balance	41,452	28,259
Provision set/reversed during the period	12,961	15,949
Actuarial (gain) / loss	(2,478)	4,911
Payments made during the period	(7,753)	(10,158)
Unwind of discount	2,028	837
Effect of change in foreign exchange rate	(7,501)	1,654
Closing balance	38,709	41,452

Table of Contents

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

27. Employee benefits (continued)

Actuarial gain amounting to \$2,478 has been reflected to other comprehensive income for the year ended 31 December 2013 (31 December 2012: \$4,911 actuarial loss).

The liability is not funded, as there is no funding requirement.

Obligations for contributions to defined contribution plans are recognized as an expense in the consolidated statement of income as incurred. The Group incurred \$3,438, \$3,737 and \$5,916 in relation to defined contribution retirement plan for the years ended 31 December 2013, 2012 and 2011, respectively.

28. Deferred income

Deferred income primarily consists of right of use sold but not used by prepaid subscribers and it is classified as current as at 31 December 2013. The amount of deferred income is \$92,221 and \$91,166 as at 31 December 2013 and 2012, respectively.

29. Provisions

Non-current provisions:

	Legal	Obligations for dismantling, removing and site restoration	Other	Total

Balance at 31 December 2013	72,851	62,673		135,524

Legal provisions are set for the probable cash outflows related to legal disputes.

* The Group management concluded that no cash out flow is expected within 12 months period in relation to dispute for Carrying International Voice Traffic considering the current progress of the litigation and presented the provision within non-current liabilities in the consolidated financial statements as at 31 December 2013 and 2012.

Table of Contents**TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****As at and for the year ended 31 December 2013**

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

29. Provisions (continued)

The Group is required to incur certain costs in respect of a liability to dismantle and remove assets and to restore sites on which the assets were located. The dismantling costs are calculated according to best estimate of future expected payments discounted at a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the liability.

The above mentioned additions to obligations for dismantling, removing and site restoration during the period are non-cash transactions recorded against property, plant and equipment.

Current provisions:

	Legal	Bonus	Total
Balance at 1 January 2012	81,862	44,059	125,921

Other	90,366	72,230
	891,515	953,601

Balances due to other suppliers are arising in the ordinary course of business.

Taxes and withholdings include VAT payable, special communications tax, frequency usage fees payable to ICTA and personnel income taxes.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

In accordance with the license agreement, Turkcell pays 90% of the treasury share, which equals 15% of its gross revenue, to the Turkish Treasury and 10% of the treasury share as universal service fund to the Turkish Ministry.

Selling and marketing expense accrual is mainly resulted from services received from third parties related to marketing activities of the Group which are not yet invoiced.

Payables to Ericsson companies comprise due to Ericsson Turkey, Ericsson Sweden and Ericsson AB arising from fixed asset purchases, site preparation and other services.

Payables to interconnection suppliers arise from voice and SMS termination services rendered by other GSM operators. Interconnection accrual represents net balance of uninvoiced call termination services received from other operators and interconnection services rendered to other operators.

The Group's exposure to currency and liquidity risk related to trade and other payables is disclosed in Note 31.

Table of Contents**TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****As at and for the year ended 31 December 2013**

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

31. Financial instruments**Credit risk****Exposure to credit risk:**

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

		2013	2012
Other non-current assets*	18		3,695
Other current assets*	21	58,750	93,001
Cash and cash equivalents**	22	3,808,609	3,926,067
Trade receivables and accrued income	20	1,542,459	1,425,156
Held-to-maturity	17	30,879	27,360
Due from related parties-current	35	10,012	7,414
		5,450,709	5,482,693

* Non-financial instruments such as prepaid expenses and advances given are excluded from other current assets and other non-current assets.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

** Cash on hand is excluded from cash and cash equivalents.

The maximum exposure to credit risk for trade receivables arising from sales transactions including those classified as due from related parties at the reporting date by type of customer is:

	2013	2012
Receivable from subscribers	1,400,226	1,297,268
Receivables from distributors and other operators	126,128	111,704
Other	26,117	23,598
	1,552,471	1,432,570

The aging of trade receivables and due from related parties as at 31 December 2013 and 2012:

	2013	2012
Not past due	1,356,666	1,221,828
1-30 days past due	97,673	82,852
1-3 months past due	43,610	58,878
3-12 months past due	54,522	69,012
	1,552,471	1,432,570

Impairment losses

The change in allowance for trade receivables and due from related parties as at 31 December 2013 and 2012 is as follows:

	2013	2012
Opening balance	392,852	327,435
Impairment loss recognized	79,465	62,431
Amounts written-off	(77,569)	(15,857)
Effect of change in foreign exchange rate	(70,731)	18,843
Closing balance	324,017	392,852

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

31. Financial instruments (continued)

Credit risk (continued)

Impairment losses (continued)

The impairment loss recognized of \$79,465 for the year ended 31 December 2013 relates to its estimate of incurred losses in respect of trade receivables and due from related parties (31 December 2012: \$62,431).

Trade receivables and due from related parties are reserved in an allowance account until the Group can determine that the amounts are no longer collectible. When this becomes probable the Group reverses the allowance and writes-off the receivable.

Liquidity risk

Current cash debt coverage ratio as at 31 December 2013 and 2012 is as follows:

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

	2013	2012
Cash and cash equivalents	3,808,708	3,926,215
Current liabilities	2,019,869	2,351,493

31. Financial instruments (continued)**Exposure to currency risk (continued)**

The following significant exchange rates are applied during the period:

	Average Rate		Closing Rate	
	31 December 2013	31 December 2012	31 December 2013	31 December 2012
USD/TL	1.9094	1.7913	2.1343	1.7826
EUR/TL	2.5390	2.3119	2.9365	2.3517
USD/BYR	8,883	8,326	9,510	8,570
USD/UAH	7.9930	7.9912	7.9930	7.9930

Sensitivity analysis

The basis for the sensitivity analysis to measure foreign exchange risk is an aggregate corporate-level currency exposure. The aggregate foreign exchange exposure is composed of all assets and liabilities denominated in foreign currencies. The analysis excludes net foreign currency investments.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

10% strengthening of the TL, UAH, BYR against the following currencies as at 31 December 2013 and 2012 would have increased / (decreased) profit or loss before tax by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

	Profit or loss	
	2013	2012
USD	88,932	42,270
EUR	632	1,258

10% weakening of the TL, UAH, BYR against the following currencies as at 31 December 2013 and 2012 would have increased / (decreased) profit or loss before tax by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

	Profit or loss	
	2013	2012
USD	(88,932)	(42,270)
EUR	(632)	(1,258)

31. Financial instruments (continued)**Sensitivity analysis****Cash flow sensitivity analysis for variable rate instruments:**

A change of 100 basis points in interest rates as at 31 December 2013 would have increased / (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign exchange rates, remain constant. The analysis is performed on the same basis as at 31 December 2013 and 2012.

	Profit or loss		Equity	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
31 December 2013				
Variable rate instruments	(5,540)	5,540		
Cash flow sensitivity (net)	(5,540)	5,540		
31 December 2012				
Variable rate instruments	(4,786)	4,786		
Cash flow sensitivity (net)	(4,786)	4,786		

Fair values

Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

	Fair values			
	31 December 2013	31 December 2012	Fair Value hierarchy	Valuation Techniques
Option contracts used for hedging	(994)	(1,477)	Level 2	Quoted bid prices in financial institutions
Consideration payable in relation to acquisition of Belarusian Telecom	(69,054)	(76,413)	Level 3	Net present value (*)

There were no transfers between Level 1 and 2 in the period.

(*) Payment of \$100,000 is contingent on the financial performance of Belarusian Telecom, and based on management's estimations, expected to be paid during the first quarter of 2020 (31 December 2012: the first quarter of 2020). Discount rate of 6.1% is used for the net present value calculation of the nominal \$100,000 contingent payment (31 December 2012: 3.8%).

Relationship of unobservable inputs to fair value is the higher the discount rate, the lower the fair value.

Table of Contents**TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****As at and for the year ended 31 December 2013**

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). * Includes non-current trade receivables amounting to \$247,823 (31 December 2012: \$216,149).

** Non-financial instruments such as prepaid expenses and advances given are excluded from other current assets and other non-current assets.

***Cash and cash equivalents are the only level 1 item on above stated tables, all other items are level 2.

**** Advances taken, taxes, withholdings payable and accruals are excluded from trade and other payables.

The methods used in determining the fair values of financial instruments are discussed in Note 4.

Table of Contents**TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****As at and for the year ended 31 December 2013**

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

31. Financial instruments (continued)**Fair values (continued)****Fair value hierarchy (continued)**

Reconciliation of Level 3 fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring base is stated below.

	Consideration payable in relation to acquisition of Belarusian Telecom	Financial liability in relation to put option	Total
Balance as at 1 January 2012	60,180	(10,094)	50,086
Total gains or losses: in profit or loss	16,233	(643)	15,590
Total recognition in equity		10,737	10,737
Balance as at 31 December 2012	76,413		76,413

On 26 August 2013, the non-controlling interest put option granted to Belarusian Government became exercisable for a three month period. However; the Belarusian Government did not exercise the put option and the put option expired on 26 November 2013. As a result the Group

derecognized the financial liability related to the non-controlling put option on 26 November 2013.

	Consideration payable in relation to acquisition of Belarusian Telecom
Balance as at 1 January 2013	76,413
Total gains or losses: in profit or loss	(7,359)
Balance as at 31 December 2013	69,054

32. Operating leases

The lease contracts, which mainly comprise leases of radio, transmission, office and internet capacity, expire on various dates. The Group does not have right to purchase the leased asset at the end of the lease period. Price escalation clauses of renewal conditions in operational lease agreements differ according to various conditions.

The future minimum lease payments under non-cancellable leases are as follows:

	2013	2012
Less than one year	38,001	43,794
Between one and five years	44,079	59,446
More than five years	8,320	12,617
	90,400	115,857

Payments recognized as an expense

	2013	2012	2011
Minimum lease payments	323,019	313,443	271,347

TURKCELL ILETISIM HIZMETLERI AS AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

33. Guarantees and purchase obligations

As at 31 December 2013, outstanding purchase commitments with respect to the acquisition of property, plant and equipment, inventory and purchase of sponsorship and advertisement services amount to \$463,695 (31 December 2012: \$385,045). Payments for these commitments are going to be made in a 7-year period.

As at 31 December 2013, the Group is contingently liable in respect of bank letters of guarantee obtained from banks given to customs authorities, private companies and other public organizations and provided financial guarantees to subsidiaries totaling to TL 3,177,947 (equivalent to \$1,488,988 as at 31 December 2013) (31 December 2012: TL 2,854,366 equivalent to \$1,601,238 as at 31 December 2012).

34. Commitments and Contingencies

Onerous contracts

The Company won the tender regarding the construction and operation of mobile communication infrastructure in rural areas (Evrensel Project) with Ministry of Transport, Maritime Affairs and Communications on 13 January 2013. The Company is liable to complete the construction for a predetermined amount in TL while the most of the expenditures are in foreign currencies. The appreciation in the foreign exchange rates in 2013 caused the unavoidable costs of meeting the obligations to exceed the economic benefits expected to be received from this contract. Therefore; the Company accrued a provision amounting to \$24,611 for the difference between unavoidable costs and benefits expected to be received for this onerous contract. However, the Company also increased the foreign currency denominated bank deposits position within the

period of undertaking the project in order to hedge against the currency risk associated with the contract and additionally recognized foreign exchange gains over these deposits as a result of the appreciation in the foreign exchange rates in the consolidated financial statements for the year ended 31 December 2013.

License Agreements

Turkcell:

On 27 April 1998, the Company signed the Agreement for grant of concession for the establishment and Operation of the Pan-European Mobile Telephone System, GSM (hereinafter referred to as the License Agreement) with the Turkish Ministry. In accordance with the License Agreement, the Company was granted a 25 year license for the provision of GSM services for a license fee of \$500,000. The License Agreement permits the Company to operate as a stand-alone GSM operator. Under the License, the Company collects all of the revenue generated from the operations of its GSM network and pays the Turkish Treasury a treasury share and universal service fund, respectively, equal to 15% of its gross revenues from Turkish GSM operations. In February 2002, the GSM License of the Company is renewed under provisions of the new License Agreement signed with the ICTA and in accordance with the License Agreement, the Company became obliged to pay 0.35% of its yearly gross revenue once a year as ICTA Fee. Moreover on 25 June 2005, the Turkish government declared that GSM operators are required to pay 10% of their existing monthly treasury share to the Turkish Ministry as a universal service fund contribution in accordance with Law No: 5369. As a result, starting from 30 June 2005, the Company pays 90% of the treasury share to the Turkish Treasury and 10% to the Turkish Ministry as universal service fund. The Company is authorized to, among other things, set its own tariffs within certain limits, charge peak and off-peak rates, offer a variety of service and pricing packages, issue invoices directly to subscribers, collect payments and deal directly with subscribers.

34. Commitments and Contingencies (continued)

License Agreements (continued)

Turkcell: (continued)

In accordance with the renewed License Agreement signed with the ICTA in February 2002, the Company became subject to a number of new requirements, including those regarding the build-out, operation, quality and coverage of the Company's GSM network, prohibitions on anti-competitive behaviour and compliance with national and international GSM standards. Failure to meet any requirement in the renewed License, or the occurrence of extraordinary unforeseen circumstances, can also result in revocation of the renewed License, including the surrender of the GSM network without compensation, or limitation of the Company's rights thereunder, or could otherwise adversely affect the Company's regulatory status. Thereafter, the provisions of the License granted to the Company is revised and updated twice under the subsequent License Agreements signed between the Company and the ICTA in 2006 and in 2009. As of the date of this report, the License Agreement dated 21 February 2009 is still in effect.

Certain conditions of the current License Agreement include the following:

Coverage: The Company had to achieve population coverage of 50% with certain exceptions within the first three years, and 90% of the population of Turkey within five years from the effective date of the first License granted to the Company.

Service offerings: The Company must provide certain services in addition to general GSM services, including free emergency calls and technical assistance for subscribers, free call forwarding to police and other public emergency services, receiver-optional short messages, video text access, calling and connected number identification and restrictions, call forwarding, call waiting, call hold, multi-party and third-party conference calls, billing information and barring of a range of outgoing and incoming calls.

Service quality: In general, the Company must meet all national and international service quality standards determined and updated by both the ICTA and the European Telecommunications Standards Institute and Secretariat of the GSM MoU. Service quality requirements include that call blockage cannot exceed 5% and unsuccessful calls cannot exceed 2%.

Tariffs: ICTA sets the initial maximum retail tariffs in TL and USD. Thereafter, the revised License provides that the ICTA will adjust the maximum tariffs at most every six months or, if necessary, more frequently. The Company is free to set its own tariffs up to the maximum tariffs.

Rights of the ICTA, Suspension and Termination:

The revised License is not transferable without the prior approval of the ICTA. In addition, the License Agreement gives the ICTA certain monitoring rights and access to the Company's technical and financial information and allows for inspection rights, and gives certain rights to suspend operations under certain circumstances. Also, the Company is obliged to submit financial statements, contracts and investment plans to the ICTA.

The ICTA may suspend the Company's operations for a limited or an unlimited period if necessary for the purpose of public security and national defence etc. During period of suspension, the ICTA may operate the Company's GSM network itself.

34. Commitments and Contingencies (continued)

License Agreements (continued)

Turkcell: (continued)

The License term will be extended by the period of any suspension. The revised License may also be terminated upon a bankruptcy ruling against the Company or for other license violations, such as operating outside of its allocated frequency ranges, and the penalties for such violations can include fines, loss of frequency rights, revocation of the license and confiscation of the network management centre, the gateway exchanges and central subscription system, including related technical equipment, immovables and installations essential for the operation of the network.

Based on the law enacted on 3 July 2005 with respect to the regulation of privatization, gross revenue description used for the calculation of treasury share has been changed. According to this new regulation, accrued interest charges for the late payments, taxes such as indirect taxes, and accrued revenues are excluded from the description of gross revenue. Calculation method of gross revenue for treasury share stipulated in the law according to the new regulation shall be valid as of the application date of the Company with the claim of amendment of its license agreement in compliance with the said Law. In the meanwhile, the Company realized the payments including above-mentioned items between 21 July 2005 and 10 March 2006, when the amendment in license agreement was effective.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

On 9 June 2008, the Company filed a lawsuit before Administrative Court for the difference between the aforementioned period amounting to TL 102,649 (equivalent to \$50,462 as at 31 December 2013) and interest amounting to TL 68,276 (equivalent to \$33,564 as at 31 December 2013) till to the date the case is filed. The Administrative Court rejected the case with the reason that there is not any definite and executable process and the Company appealed the decision. The Council of State rejected the appeal request. The Company requested correction of the decision. The Council of State rejected the Company's request for the correction of the decision.

On 26 August 2013, the Company filed a lawsuit before ICC against Undersecretariat of Treasury. The lawsuit is still pending.

3G License

On 30 April 2009, the Company signed a separate License Agreement with ICTA which provides authorization for providing IMT 2000/UMTS services and establishment and operation of the required infrastructure. Turkcell acquired the A type license providing the widest frequency band for a consideration of EUR 358,000 (excluding VAT). The license is effective for duration of 20 years starting from 30 April 2009. According to the agreement, operators have provided IMT 2000/UMTS services starting from 30 July 2009.

In accordance with the 3G License Agreement, the Company must cover the population within the borders of all metropolitan municipalities and borders of all cities and municipalities in three and six years, respectively. Moreover, the Company must cover the population in all settlement areas with a population higher than 5,000 and 1,000 within eight and ten years, respectively following the effective date of the IMT 2000/UMTS License agreement.

34. Commitments and Contingencies (continued)

License Agreements (continued)

Belarusian Telecom:

Belarusian Telecom owns a license issued on 28 August 2008 for a period of 10 years and is valid till 28 August 2018. According to the Sale and Purchase Agreement signed, the State Property Committee of the Republic of Belarus committed to grant the license from the acquisition date of 26 August 2008 for a period of 10 years and such license shall be extended for an additional 10 years for an insignificant consideration. State Property Committee of the Republic of Belarus has fulfilled its obligations stated in Sale and Purchase Agreement and submitted the related official documents in December 2009. According to the current legislation of the Republic of Belarus, the license extension will be made upon the expiration of its validity period. Therefore, Belarusian Telecom shall apply for extension in August 2018. In the consolidated financial statements, amortization charge is recorded on the assumption that the license will be extended.

Under its license, Belarusian Telecom has several coverage requirements to increase its geographical coverage gradually starting from the date of the license until 2018. However, Belarusian Telecom's period of execution in relation to coverage requirements are extended for three years starting from the acquisition date.

Astelit:

Astelit owns two GSM activity licenses, one for GSM-900 and one for GSM-1800. At 31 December 2013, Astelit owned 24 GSM-900, GSM-1800, CDMA and microwave Radiorelay frequency use licenses, which are regional and national. In addition to the GSM licenses, Astelit owns two licenses for fixed local phone connections and wireless access using the D-AMPS standard. According to the licenses, Astelit must adhere to state sanitary regulations to ensure that the equipment used is not hazardous to the population and does not emit harmful electro-magnetic emissions. Licenses require Astelit to inform authorities of the start/end of operations within three months and changes in the incorporation address within 30 days. Also, Astelit must present all the required documents for inspection by the National Commission for the State Regulation of Communications and Informatization (NCRCI) by their request. The NCRCI may suspend the operations of Astelit for a limited or an unlimited period if necessary due to the expiration of the licenses, upon mutual consent, or in the case of a violation of the terms regarding the use of radio frequencies. If such a violation is determined, the Ukrainian Telecommunications Authority will notify Astelit of the violations and will set the deadline for recovery. If the deadline is not met, the licenses may be terminated.

One of Astelit's D-AMPS licenses expired on 1 January 2013; two other D-AMPS licenses have been annulled as of February 28, 2013 upon Astelit's request (they expire in 2016 and 2017, respectively) due to the absence of radio frequencies for D-AMPS standard, which were transferred to CDMA-800 technology. According to legislation, licenses may be voluntarily annulled only upon operator's request. As a result of the annulment, Astelit no longer owns the licenses for the local fixed line phone connection with wireless access using the D-AMPS standard. In addition, the NCRCI has not agreed to prolong the acting license of Astelit for the activity on providing international and inter-city telecommunication services, which was valid until 17 June 2013. Astelit obtained a court decision which obliged the NCRCI to prolong the above-mentioned license and eventually such license was prolonged by NCRCI for a five-year period (until June 2018).

Inteltek:

Inteltek, following an international bidding process, signed a contract on 30 July 2002 which provides for the installation, support and operation of an on-line central betting system as well as maintenance and support for the provision of football games. The Central Betting System Contract was scheduled to expire on 30 March 2008.

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

34. Commitments and Contingencies (continued)

License Agreements (continued)

Inteltek: (continued)

Inteltek signed another contract with General Directorate of Youth and Sports (GDYS) on 2 October 2003 which authorized Inteltek to establish and operate a risk management center and become head agent for fixed odds betting. The Fixed Odds Betting Contract was scheduled to expire in October 2011. However, in relation to the lawsuits related to the operations of Inteltek, GDYS ceased the implementation of the Fixed Odds Betting Contract starting from March 2007. Following this annulment decision, Spor Toto and Inteltek signed a new Fixed Odds Betting Contract on 15 March 2007, with less-advantageous conditions compared to previous contract signed in 2003, which expired on 1 March 2008.

Inteltek signed a new Fixed Odds Betting Contract with Spor Toto, having the same terms and conditions with the latest contracts signed with Spor Toto which took effect on 1 March 2008. At the same time, Inteltek signed a new Central Betting System Contract with Spor Toto, which took effect on 31 March 2008 as having the same conditions with the current contract and both contracts were to be valid for one year almost until the operation started as a result of the new tender.

On 12 August 2008, Spor Toto conducted a tender which allowed private companies to organize fixed odds and paramutual betting games based on sports competitions. Inteltek gave the best offer for the tender. On 29 August 2008, Inteltek signed a contract with Spor Toto, receiving the rights to operate the fixed odds and paramutual betting games based on sports competitions for the next ten years. New commission rate, which

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

is 1.4% of the takings arising from the operation of the fixed odds and paramutual betting games based on sports competitions (until 1 March 2009, commission rate was 7% of gross takings), is applicable starting from March 2009. As of December 31, 2013, Inteltek has a letter of guarantee of TL 159,752 (equivalent to \$ 74,850 as at 31 December 2013) (31 December 2012: TL 159,752 equivalent to \$ 89,617 as at 31 December 2012) provided to Spor Toto.

Inteltek has a mobile agency agreement with Spor Toto, receiving the rights to assign mobile sub agencies to operate the fixed odds and paramutual betting games based on sports competitions. Inteltek has mobile agency commission revenue by applying commission rate between % 2.24 - % 3.62 of mobile agency turnover after deducting VAT and Gaming Tax. As of 31 December 2013, Inteltek has a letter of guarantee of TL 26,679 (equivalent to \$ 12,500 as at 31 December 2013) (31 December 2012: TL 8,913 equivalent to \$ 5,000 as at 31 December 2012) provided to Spor Toto for mobile agency agreement. The targeted payout is 50% of the turnover balance including VAT. The fact that Inteltek is obliged to pay the difference between the realized and the targeted payout balances, whenever the pool balance falls negative, creates an excess payment risk.

Kibris Telekom:

On 27 April 2007, Kibris Telekom signed the License Agreement for Installation and Operation of a Digital, Cellular, Mobile Telecommunication System (Mobile Communication License Agreement) with the Ministry of Communications and Public Works of the Turkish Republic of Northern Cyprus which is effective from 1 August 2007, replacing the previous GSM-Mobile Telephony System Agreement dated 25 March 1999. In accordance with the Mobile Communication License Agreement, Kibris Telekom was granted an 18 year GSM 900, GSM 1800 and IMT 2000/UMTS license for GSM 900, GSM 1800 frequencies while the usage of IMT 2000/UMTS frequency bands is subject to the fulfillment of certain conditions.

34. Commitments and Contingencies (continued)

License Agreements (continued)

Kibris Telekom: (continued)

On 14 March 2008, Kibris Telekom was awarded a 3G infrastructure license at a cost of \$10,000 including VAT, which was paid at the end of March 2008. Under the terms of the license, the system had to be operational by mid-October 2008. In 2010, Kibris Telekom has completed the radio transmission (air link) project providing direct international voice and data connection with mainland and started using it from the third quarter of 2010. The Project is the only direct connection in Turkish Republic of Northern Cyprus besides Telecommunication Authority.

Under the Mobile Communication License Agreement, Kibris Telekom also pays the tax authorities of Turkish Republic of Northern Cyprus a treasury share on monthly basis equal to 15% of gross revenues excluding accrued interest charges for the late payments, indirect taxes and accrued revenues for reporting purposes, payments made to third parties for value added services, interconnection revenues, roaming income from own subscribers after the related payment made to other operators.

Superonline:

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Superonline was authorized to Fixed Telephony, Satellite Communication Service, Infrastructure, Internet Service Provider, Cable Broadcast Service and Mobile Virtual Network Operator.

Authorization By-Law for Telecommunication Services and Infrastructure published in Official Gazette on dated 26 August 2004 has been abrogated By-Law on Authorization for Electronic Communications Sector dated 28 May 2009. According to this abrogation, Superonline's License on, Infrastructure Operating Service, Internet Service Provision, Satellite Communication Service has been changed to Authority on, Infrastructure Operating Service, Internet Service Provision, Satellite Communication Service, Cable Broadcast Service and Superonline's License on Long Distance Telephony Services License has been changed to Authority relevant to the Fixed Telephony Services.

In accordance with the new legislation issued by ICTA, the infrastructure operator authorization right of Superonline has become infinite. As a result, Superonline revised the expected useful lives of its operating license and related fixed network equipment from 15 years to 25 years.

Azerinteltek:

Azerinteltek, in which Inteltek's shareholding is 51%, was established on 19 January 2010, and authorized to organize, operate, manage and develop the fixed-odds and para-mutual sports betting games by the Ministry of Youth and Sports of Azerbaijan for a period of 10 years. The agreement signed with Azeridmanservis which is founded by the Ministry of Youth and Sports of Azerbaijan is renewed with the same terms and conditions in accordance with the new legislation enforced in Azerbaijan regarding the betting games based on sports on 30 September 2010.

Azerinteltek officially commenced to conduct sports betting games on 18 January 2011.

Starting from 1 January 2013, Azerinteltek has been authorized for 3 years regarding the sales of Lottery tickets by Azerlotereya.

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

34. Commitments and Contingencies (continued)

Interconnection Agreements

The Company has entered into interconnection agreements with a number of operators in Turkey and overseas including Turk Telekom, Vodafone Telekomunikasyon AS (Vodafone), Avea Iletisim Hizmetleri AS (Avea), Milleni.com GmbH and Globalstar Avrasya Uydu Ses ve Data Iletisim AS (Globalstar).

The initial Access and Interconnection Regulation became effective when it was first issued by the ICTA on 23 May 2003, on 14 June 2007 and 8 September 2009, two subsequent Access and Interconnection Regulations were issued by the ICTA which repealed the previous Regulation. As of the date of this report, the Access and Interconnection Regulation dated 8 September 2009 (the Regulation) is still in effect.

The Regulation is driven largely by a goal to improve the competitive environment. Under the Regulation, the ICTA may compel all telecommunications operators to accept another operator's request for use of and access to its network. All telecommunications operators in Turkey may be required to provide access to other operators on the same terms and qualifications provided to their shareholders, subsidiaries and affiliates.

In accordance with the Regulation, the Company entered into access and interconnection agreements with 51 different operators.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

In addition, the ICTA has required operators holding significant market power, as well as Turk Telekom, to share certain facilities with other operators under certain conditions and to provide co-location on their premises for the equipment of other operators at a reasonable price. The ICTA has also required telecommunications operators to provide number portability, which means allowing users to keep the same phone numbers even after they switch from one network to another starting from 9 November 2008.

Under a typical interconnection agreement, each party agrees, among other things to permit the interconnection of its network with the Company's network to enable calls to be transmitted to, and received from, the GSM system operated by each party in accordance with technical specifications set out in the interconnection agreement. Typical interconnection agreements also establish understandings between the parties relating to a number of key operational areas, including call traffic management, quality and performance standards, interconnection interfaces and other technical, operational and procedural aspects of interconnection.

There are no minimum payment obligations under the interconnection agreements; however, failure to carry the counterparty's traffic may expose the Company to financial and other penalties or loss of interconnection privileges for its own traffic. On the other hand, ICTA regulates Standard Interconnection Tariffs for domestic traffic.

As at 31 December 2013, the management believes that the Group is in compliance with the above mentioned license and interconnection agreements' conditions and requirements in all material respects.

Legal Proceedings

The Group is involved in various claims and legal actions arising in the ordinary course of business described below.

Dispute with Turk Telekom with respect to call termination fees

Upon application of Turk Telekom, the ICTA has set temporary (and after final) call termination fees for calls to be applied between Turk Telekom and the Company starting from 10 August 2005. However, Turk Telekom did not apply these termination fees for the international calls.

Therefore, on 22 December 2005, the Company filed a lawsuit against Turk Telekom to cease this practice and requested collection of its damages regarding principle, overdue interest and late payment fee, amounting to TL 11,970 (equivalent to \$5,608 as at 31 December 2013) covering the period from August 2005 until October 2005. Expert reports and supplementary expert reports which are obtained for the lawsuit, affirm justification of the Company.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

On 19 December 2006, the Company initiated another lawsuit against Turk Telekom claiming that Turk Telekom has not applied call termination tariffs for international calls set by ICTA for the period between November 2005 and October 2006 amounting to TL 23,726 (equivalent to \$11,117 as at 31 December 2013) including principal, interest and penalty on late payment. The Court decided to consolidate this lawsuit with the first lawsuit dated 22 December 2005.

On 2 November 2007, the Company initiated another lawsuit against Turk Telekom claiming that Turk Telekom has not applied call termination tariffs for international calls set by ICTA for the period between November 2006 and February 2007 amounting to TL 6,836 (equivalent to \$3,203 as at 31 December 2013) including principal, interest and penalty on late payment. The Court also decided to consolidate this lawsuit with the first lawsuit dated 22 December 2005.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute with Turk Telekom with respect to call termination fees (continued)

On 28 September 2011, the Court decided in favor of the Company for all consolidated cases. The Court decided that Turk Telekom should pay to the Company in total TL 42,597 (equivalent to \$19,958 as at 31 December 2013) plus VAT and Special Communication Tax (SCT) composed of principle amounting to TL 36,502 (equivalent to \$17,103 as at 31 December 2013), interest and penalty amounting to TL 6,095 (equivalent to \$2,856 as at 31 December 2013). The Court also decided that Turk Telekom should pay interest, penalty, VAT and SCT calculated for the principal from date of case to the payment date. Turk Telekom appealed the decision. The Company replied this appeal request. The Court of Cassation reversed the first instance court's decision. The Company applied for the correction of the decision. The correction of the decision process is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute on Turk Telekom transmission lines leases

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Effective from 1 July 2000, Turk Telekom annulled the discount of 60% that it provided to the Company based on its regular ratio, which had been provided for several years, and, at the same time, Turk Telekom started to provide a discount of 25% being subject to certain conditions. The Company filed a lawsuit against Turk Telekom for the application of the agreed 60% discount. However, on 30 July 2001, the Company had been notified that the court of appeal upheld the decision made by the commercial court allowing Turk Telekom to terminate the 60% discount. Differences in the total nominal rent for the concerned period amounting to TL 29,125 (equivalent to \$13,646 as at 31 December 2013) have been accrued by Turk Telekom and deducted from the receivables of the Company. Accordingly, the Company paid and continues to pay transmission fees to Turk Telekom based on the 25% discount. Although Turk Telekom did not charge any interest on late payments at the time of such payments, the Company recorded an accrual amounting to a nominal amount of TL 3,023 (equivalent to \$1,416 as at 31 December 2013) for possible interest charges as at 31 December 2000. On 9 May 2002, Turk Telekom requested an interest amounting to a nominal amount of TL 30,068 (equivalent to \$14,088 as at 31 December 2013).

The Company did not agree with Turk Telekom's interest calculation and, accordingly, obtained an injunction from the commercial court to prevent Turk Telekom from collecting any amounts relating to this interest charge. Also, the Company initiated a lawsuit against Turk Telekom on the legality of such interest. On 25 December 2008, the Court rejected the case. The Company appealed the decision. The Supreme Court rejected the appeal. The Company applied for the correction of the decision. The Supreme Court rejected the correction of the decision request and the decision is finalized.

Based on the management opinion, the Company accrued provision of TL 91,864 (equivalent to \$43,042 as at 31 December 2013) and the Company netted off the whole amount from the receivables from Turk Telekom as at 31 December 2013.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on Turk Telekom transmission lines leases (continued)

Additionally, a lawsuit was commenced against Turk Telekom on 28 October 2010 to collect the receivable amounting to principal of TL 23,378 (equivalent to \$10,953 as at 31 December 2013), overdue interest of TL 3,092 (equivalent to \$1,449 as at 31 December 2013) and delay fee of TL 1,925 (equivalent to \$902 as at 31 December 2013), with the contractual default interest until payment date on the ground that the above mentioned exercise is contrary to the term of the contract which is effective for the year 2000, Turk Telekom has already collected the whole amount which is subjected to the related court decision as of 31 October 2009 and Turk Telekom collected additional receivable. The Court decided to obtain an expert report. The expert committee submitted their report to the Court. The expert report is in favor of the Company. The Company increased its claim from Turk Telekom by TL 2,100 (equivalent to \$984 as at 31 December 2013). The Court decided to obtain a supplementary expert report from the same expert committee. The supplementary expert report supports the Company's arguments. The Court decided to obtain another supplementary expert report from the same expert committee. The second supplementary expert report is delivered to the Company and this report is also in favor of the Company. The Court decided to obtain another expert report from a new expert committee. The lawsuit is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute regarding the fine applied by the Competition Board

The Competition Board commenced an investigation of business dealings between the Company and the mobile phone distributors in October 1999. The Competition Board decided that the Company disrupted the competitive environment through an abuse of a dominant position in the Turkish mobile market and infringements of certain provisions of the Law on the Protection of Competition. As a result, the Company was fined a nominal amount of approximately TL 6,973 (equivalent to \$3,267 as at 31 December 2013) and was enjoined to cease these infringements. The Company initiated a lawsuit before Council of State for the injunction and cancellation of the decision. On 15 November 2005, the Court cancelled the Competition Board's decision.

After the cancellation of the Competition Board's decision, the Competition Board has given the same decision again on 29 December 2005. On 10 March 2006, the Company initiated a lawsuit before Council of State for the injunction and cancellation of the Competition Board's decision dated 29 December 2005. On 13 May 2008, Council of State dismissed the lawsuit. The Company appealed the decision. The Plenary Session of Administrative Law Divisions of the Council of State rejected the Company's request for appeal. The Company applied for the correction of the decision. The correction of the decision process is still pending.

Based on the decision of Competition Board, Ankara Tax Office requested the Company to pay TL 6,973 (equivalent to \$3,267 as at 31 December 2013) through the payment order dated 4 August 2006. On 25 September 2006, the Company made the related payment and initiated a lawsuit for the cancellation of this payment order. The Court dismissed the lawsuit. Thereupon the Company appealed this decision. On 17 March 2009, Council of State reversed the judgment of the Local Court. Local Court decided in line with the decision of Council of State. On 18 December 2009, the Court rejected the case and the Company also appealed this decision. Council of State reversed the judgment of the Instance Court. Local Court decided in line with the decision of Council of State. On 15 June 2011, the Court rejected the case again.

However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute regarding the fine applied by the Competition Board (continued)

The Company also appealed this decision. Council of State accepted the Company's stay of order requests at appeal phase. Council of State reversed the judgment of the Instance Court again. The Inheritance and Charges Tax Office applied for the correction of the decision. The Company replied this request. The correction of the decision process is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute regarding the fine applied by the Competition Board regarding mobile marketing activities

The Competition Board decided to initiate an investigation in order to identify whether the Company maintains exclusive activities on mobile marketing and their appropriateness with respect to competition rules. On 23 December 2009, Competition Board decided that the Company violates competition rules in GSM and mobile marketing services and fined the Company amounting to TL 36,072 (equivalent to \$16,901 as at

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

31 December 2013). The payment was made within 1 month following the notification of the decision of the Competition Board. Therefore, 25% discount was applied and TL 27,054 (equivalent to \$12,676 as at 31 December 2013) is paid as the monetary fine on 25 May 2010. The Company filed a legal case on 25 June 2010 for the stay of execution and cancellation of the aforementioned decision. The Court rejected the Company's stay of execution request. The Company objected to the decision. The objection was rejected. The lawsuit is still pending.

Avea, depending on the Competition Board decision, initiated a lawsuit against the Company claiming a compensation from the Company for its damages amounting to TL 1,000 (equivalent to \$469 as at 31 December 2013), with reservation of further claims, on the ground that the Company violated the competition. During the judgment, Avea increased its request of material compensation to TL 5,000 (equivalent to \$2,343 as at 31 December 2013) and in addition requested TL 1,000 (equivalent to \$469 as at 31 December 2013) for non-pecuniary damages. The Court decided to separate these requests and to reject the lawsuits demanding compensation and moral damages. Avea appealed the case. The Company has submitted its response to appeal. Appeal process is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute on National Roaming Agreement

The Company conducted roaming negotiations in 2001 with Is-Tim Telekomunikasyon Hizmetleri AS (Is-Tim) which was a GSM operator, performing since March 2001. On 19 October 2001, upon unsuccessful negotiations, ICTA granted time for the Company until 15 November 2001 to sign the roaming agreement with the determined conditions and requested parties to come to an agreement until 15 November 2001. The Company initiated a lawsuit on the ground that ICTA has no power of intervention; its proposals are impossible from technical aspects and unacceptable from economic reasons. Council of State gave a decision on non-necessity of a new decision on the ground that action which is subjected to the lawsuit is cancelled by another state council decision. This decision was appealed by ICTA. Council of State, Plenary Session of the Chamber for Administrative Divisions decided to approve the court decision.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on National Roaming Agreement (continued)

In a letter dated 14 March 2002, the ICTA subjected Is-Tim's request for national roaming to the condition that it is reasonable, economically proportional and technically possible. Nevertheless, the ICTA declared that the Company is under an obligation to enter a national roaming agreement with Is-Tim within a 30 day period. The Company initiated a lawsuit against ICTA. On 14 March 2006, Council of State decided to cancel the process dated 14 March 2002 but rejected the Company's request for cancellation of the regulation on procedures and policies with respect to national roaming. ICTA appealed the decision. Plenary Session of Administrative Law Divisions of the Council of State has decided to approve the decision of the Council of State.

On 13 December 2005, Council of State decided the cancellation of the administrative fine but rejected the Company's request for cancellation of the regulation on procedures and policies with respect to national roaming. ICTA appealed the decision. Plenary Session of Administrative Law Divisions of the Council of State has decided to approve the decision of the Council of State.

The ICTA decided that the Company has not complied with its responsibility under Turkish regulations to provide national roaming and fined the Company by nominal amount of approximately TL 21,822 (equivalent to \$10,224 as at 31 December 2013). On 7 April 2004, the Company made the related payment with its accrued interest. On 3 January 2005, with respect to the Council of State's injunction, ICTA paid back nominal

amount of TL 21,822 (equivalent to \$10,224 as at 31 December 2013).

On 22 July 2010, the Company initiated a lawsuit against ICTA for the compensation of TL 7,111 (equivalent to \$3,332 as at 31 December 2013) and accrued interest for the total amount of the damage of the Company between the period when the Company made the payment and ICTA returned the same amount to the Company as the result of the stay of execution decision. The Court partially accepted the lawsuit and decided that ICTA should pay TL 6,505 (equivalent to \$3,048 as at 31 December 2013) to the Company with the accrued interest. On 15 April 2013, ICTA paid TL 6,505 (equivalent to \$3,048 as at 31 December 2013) with its accrued interest amounting to TL 1,596 (equivalent to \$748 as at 31 December 2013) to the Company. ICTA appealed the decision. Thereupon, the Company replied to this request and also appealed the parts of the decision that The Court rejected against the Company. The Council of State rejected ICTA's request for the stay of execution during the appeal process. Appeal process is still pending.

Although payment was received from ICTA, the Court decision is not finalized. Therefore, it is not virtually certain that an inflow of economic benefits will arise, and no income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute regarding the fine applied by ICTA on pricing applications of the Company

On 7 April 2010, ICTA decided to impose administrative fine to the Company amounting to TL 4,008 (equivalent to \$1,878 as at 31 December 2013) for misinforming the Authority and TL 374 (equivalent to \$175 as at 31 December 2013) for making some subscribers suffer. The payment was made within 1 month following the notification of the decision of the ICTA. Therefore, 25% discount was applied and TL 3,287 (equivalent to \$1,540 as at 31 December 2013) is paid in total as the administrative fine on 9 June 2010. The Company filed two lawsuits on 22 September 2010 for the stay of execution and cancellation of the aforementioned decision. The Court rejected the Company's stay of execution requests and the Company objected to the decisions but the objections are rejected. On 28 April 2011, the Court rejected the cases. The Company appealed the decisions. Council of State rejected the Company's stay of execution requests at appeal phase. Appeal processes are pending.

However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute regarding of the fine applied by ICTA on pricing applications of the Company (continued)

Since it is not virtually certain that an inflow of economic benefits will arise, no contingent asset is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute regarding the fine applied by ICTA on tariffs above upper limits

On 21 April 2010, ICTA decided to impose administrative fine to the Company amounting to TL 53,467 (equivalent to \$25,051 as at 31 December 2013) by claiming that the Company applied tariffs above the upper limits of GSM-GSM in GSM Upper Limits Table approved by ICTA on 25 March 2009. The payment was made within 1 month following the notification of the decision of the ICTA. Therefore, 25% discount was applied and TL 40,100 (equivalent to \$18,788 as at 31 December 2013) is paid as the administrative fine on 3 June 2010. The Company filed a lawsuit on 28 June 2010, for the cancellation of the aforementioned decision. The Court overruled the stay of execution claim, the Company objected to the decision and the Court accepted this objection and decided for the stay of the execution. Accordingly, ICTA paid back TL 40,100 (equivalent to \$18,788 as at 31 December 2013) on 27 January 2011. On 3 May 2011, the Court rejected the case. Council of State rejected the Company's stay of order request at appeal phase. Appeal process is pending. The Company appealed the decision and paid back TL 40,100 (equivalent to \$18,788 as at 31 December 2013) to ICTA on 6 October 2011.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Amount to be reimbursed to the subscribers was calculated as TL 46,228 (equivalent to \$21,660 as at 31 December 2013) and deducted from revenues in the consolidated financial statements as at and for the year ended 31 December 2009. Reimbursement to subscribers was made in January 2010.

ICTA notified the Company on 23 November 2011, to pay the amount of TL 13,367 (equivalent to \$6,263 as at 31 December 2013) which is the unpaid portion arising from the 25% cash discount of the administrative fine amounting to TL 53,467 (equivalent to \$25,051 as at 31 December 2013) that was imposed for applying tariffs above the upper limits. The Company filed a lawsuit on 23 December 2011 for stay of execution and for the annulment of this process. The Court accepted the request of the Company for stay of execution. ICTA objected to the decision but the objection is rejected. The Court decided in favor of the Company. ICTA appealed the decision and the Company replied this request. The Council of State rejected ICTA's request for stay of execution during the appeal process. Appeal process is still pending.

On 20 February 2012, payment order has been sent to the Company by the Tax Office. On 24 February 2012, the Company filed a lawsuit for cancellation of the payment order. The Court accepted the request of the Company for stay of execution. The Tax Office objected to the decision but the objection is rejected. The Court decided in favor of the Company. The Tax Office appealed the decision and the Company replied this request. Appeal process is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the additional request regarding unpaid portion arising from the 25% discount of the administrative fine is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2013

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on deposits at banks

The Company, in 2001, initiated an enforcement proceeding to collect receivables arising from deposits in a bank. The bank has been objected to the enforcement proceeding and the Company filed a lawsuit for the cancellation of the objection. The Court decided in favor of the Company on 1 March 2005. The bank appealed the decision and the Company replied the same. On 3 April 2006, Supreme Court of Appeals decided the reversal of the Court's decision in favor of the defendant. The Court abided by the decision of the Supreme Court of Appeals. The lawsuit is pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no contingent asset is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute on Special Communication Taxation regarding prepaid card sales

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Tax Office imposed tax penalty, including actual tax and penalty for loss of tax, in the total amount of TL 133,617 (equivalent to \$62,605 as at 31 December 2013) and TL 139,101 (equivalent to \$65,174 as at 31 December 2013) based on the ground that the Company had to pay special communication tax over the discounts applied to the distributors for the wholesales for the years 2005 and 2006, respectively. The Company initiated lawsuits for the cancellation of assessments and penalties mentioned above.

On 28 February 2011, Tax Amnesty Law has been approved by the President of Republic of Turkey. The Company applied to the Ministry of Finance related to the Tax Amnesty Law on 27 April 2011. According to Tax Amnesty Law, special communication tax and penalty was calculated as TL 26,723 (equivalent to \$12,521 as at 31 December 2013) and TL 27,820 (equivalent to \$13,035 as at 31 December 2013) for the years 2005 and 2006, respectively. In addition, late payment interest was calculated as TL 11,164 (equivalent to \$5,231 as at 31 December 2013) and TL 8,900 (equivalent to \$4,170 as at 31 December 2013) for the years 2005 and 2006, respectively. The aforementioned amounts were paid on 30 June 2011. The Company applied to the Tax Court to withdraw from the lawsuits according to Tax Amnesty Law due to the aforementioned payment. The courts decided that it is not necessary to declare a judgment on merits for the lawsuit.

On 24 June 2011, Tax Office imposed tax penalty, including actual tax and penalty for loss of tax, in the total amount of TL 11,238 (equivalent to \$5,265 as at 31 December 2013) based on the ground that the Company had to pay special communication tax over the discounts applied to the distributors for the wholesales for the period of January-February 2007. The Company applied to the Ministry of Finance on 13 July 2011 in order to benefit from the Tax Amnesty. According to Tax Amnesty Law, special communication tax and interest was calculated as TL 2,248 (equivalent to \$1,053 as at 31 December 2013) and TL 842 (equivalent to \$395 as at 31 December 2013) respectively. The aforementioned amounts were paid on 29 July 2011.

Large Taxpayer Office levied Special Communication Tax and tax penalty on the Company in the amount of TL 211,056 (equivalent to \$98,888 as at 31 December 2013) principal and TL 316,583 (equivalent to \$148,331 as at 31 December 2013) totaling to TL 527,639 (equivalent to \$247,219 as at 31 December 2013) based upon the claim, stated on Tax Investigation Reports prepared for the years 2008-2012, that the Company should pay Special Communication Tax over the prepaid card sales made by the distributors. The Company filed lawsuit before the Tax Courts for the cancellation of that aforementioned tax and tax penalty demand. After the lawsuit is filed, the Company applied to settlement procedure.

The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on Special Communication Taxation regarding prepaid card sales (continued)

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013.

Carrying international voice traffic

In May 2003, the Company was informed that the ICTA had initiated an investigation against the Company claiming that the Company has violated Turkish laws by carrying some of its international voice traffic through an operator other than Turk Telekom. The Company is disputing whether Turk Telekom should be the sole carrier of international voice traffic. On 5 March 2004, ICTA fined the Company a nominal amount of approximately TL 31,731 (equivalent to \$14,867 as at 31 December 2013).

The Company has initiated a lawsuit with the claim of annulment of the related processes and decisions of ICTA, however, paid the administrative fine on 9 April 2004. On 5 November 2004, Council of State gave a decision, which is served to the Company, for stay of

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

execution. With respect to that decision, ICTA paid back TL 18,000 (equivalent to \$8,434 as at 31 December 2013) on 26 January 2005 and deduct a sum of TL 13,731 (equivalent to \$6,433 as at 31 December 2013) from the December frequency usage fee payment. On 26 December 2006, Council of State decided to accept the Company's claim and annul the decision of and the fine imposed by the ICTA. ICTA appealed the decision. The decision has been approved by the Council of State, Plenary Session of the Chamber for Administrative Divisions. ICTA applied for the correction of the decision. The correction of the decision process is still pending. On 6 June 2012, the Company initiated a lawsuit against ICTA for the amount of TL 5,783 (equivalent to \$2,710 as at 31 December 2013) for its damages occurred between the period when the Company made the payment and collected back. The lawsuit is still pending.

Turk Telekom initiated a lawsuit against the Company with respect to the same issue requesting an amount of TL 450,931 (equivalent to \$211,278 as at 31 December 2013) of which TL 219,149 (equivalent to \$102,680 as at 31 December 2013) is principal and TL 231,782 (equivalent to \$108,599 as at 31 December 2013) is interest charged until 30 June 2005 and requesting a temporary injunction.

Considering the progresses at the court case, provision is set for the principal amounting to TL 53,160 (equivalent to \$24,907 as at 31 December 2013) and accrued interest amounting to a nominal amount of TL 98,920 (equivalent to \$46,348 as at 31 December 2013) in the consolidated financial statements as at and for the year ended 31 December 2013.

In deciding upon the amount of the provision taking, the Company has taken the Turkish law into consideration, not the amounts requested by Turk Telekom and reflected in the expert report. Specifically, under Turkish Law, a person who is alleging that he has suffered a loss cannot claim the whole of his possible revenues but only the damages may only be sought in respect of lost profit. For this reason, the provision set by the Company is calculated by taking Turk Telekom's estimated loss of profit into consideration rather than the amounts requested by Turk Telekom and amounts reflected in the expert report. Moreover, the Company obtained an independent opinion dated 23 October 2007 which supports the management opinion from an expert who is not designated by the Court.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Carrying international voice traffic (continued)

On 5 November 2009, the Court rejected the Turk Telekom's request amounting to TL 171,704 (equivalent to \$80,450 as at 31 December 2013) and accepted the request amounting to TL 279,227 (equivalent to \$130,828 as at 31 December 2013). The Company appealed the decision. Also, Turk Telekom appealed the decision. The Court of Cassation cancelled the decision. The Company and Turk Telekom applied for the correction of the decision. Supreme Court decided to reject both sides' correction of the decision requests. The Court of First Instance decided to comply with the Supreme Court's ruling decision and decided to order a new expert examination. The lawsuit is still pending.

Disputes with Spor Toto

On 9 November 2005, Spor Toto sent a notification letter to Inteltek claiming that Inteltek is obliged to pay nominal amount of TL 3,292 (equivalent to \$1,542 as at 31 December 2013) due to the difference in the reconciliation methods. Spor Toto claims that the reconciliation periods should be six-month independent periods whereas Inteltek management believes that those periods should be cumulative as stated in the agreement. Inteltek has not paid the requested amount.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Spor Toto, on behalf of GDYS, initiated a declaratory lawsuit against Inteltek. On 22 February 2007, the Court rejected the case and decided that the collection risk is with GDYS and Inteltek is not responsible for the uncollected amount of TL 1,527 (equivalent to \$715 as at 31 December 2013) and also rejected the demand that the reconciliation period should be six-month independent periods. GDYS appealed the Court's decision and applied for the correction of the decision. Both requests of GDYS were rejected and the decision was finalized.

Based on the decision of Supreme Court, Inteltek reversed the previously accrued principal amount of TL 3,292 (equivalent to \$1,542 as at 31 December 2013) and its overdue interest accrual amount of TL 1,894 (equivalent to \$887 as at 31 December 2013) in September 2007. Furthermore, Inteltek reclaimed TL 2,345 (equivalent to \$1,099 as at 31 December 2013) principal and TL 966 (equivalent to \$453 as at 31 December 2013) accrued interest which was paid in the 1st and 3rd reconciliation periods. Inteltek has initiated a lawsuit on 21 February 2008 to collect this amount. On 19 March 2009, the Court decided in favor of Inteltek. The appeal and the correction of decision requests of Spor Toto were rejected and the decision is finalized.

Principal amounting to TL 2,345 (equivalent to \$1,099 as at 31 December 2013) and accrued interest amounting to TL 3,376 (equivalent to \$1,582 as at 31 December 2013) was recognized as income in the consolidated financial statements as at and for the period ended 31 December 2012.

Dispute on over assessment following the settlement on VAT fine pertaining to International Roaming Agreements

The Company applied to the Tax Office for the refund of the interest charge amounting TL 6,609 (equivalent to \$3,097 as at 31 December 2013) which was miscalculated after the settlement with the Tax Office regarding the VAT and tax penalties accrued due to roaming agreement for years 2000, 2001 and 2002. Tax Office rejected the Company's request, and the Company filed a lawsuit with the same claim. Upon the refusal of this request, the Company filed a lawsuit for the cancellation of this administrative act. Moreover, on 9 February 2009, the Company filed another lawsuit for the cancellation of the aforementioned interest charge.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on over assessment following the settlement on VAT fine pertaining to International Roaming Agreements (continued)

The Court rejected the case filed for the cancellation of the administrative act regarding the refusal of the application of the Company. The Company appealed the decision. The Council of State approved the decision. The Company applied for the correction of the decision. The correction of the decision process is still pending.

On the other lawsuit, the Court rejected the case. Subsequently the Company appealed the case. The appeal process is pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute on Iranian GSM tender process

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The Company has initiated an arbitration case against Islamic Republic of Iran for not abiding by the provisions of the Agreement on Reciprocal Promotion and Protection of Investments and demanded its sustained loss, on 11 January 2008 at the arbitration court which is established pursuant to the UNCITRAL arbitration rules. The oral hearing was held in February 2013. The second oral hearing was held in September 2013. The arbitration process is still pending.

Dispute on Turk Telekom transmission tariffs

On 19 January 2007, the Company initiated a lawsuit against Turk Telekom claiming that Turk Telekom charged transmission on erroneous tariffs between 1 June 2004 and 1 July 2005. The Company requested a nominal amount of TL 8,137 (equivalent to \$3,812 as at 31 December 2013) including interest. The expert report given to Court is in favor of the Company. The Court ruled to obtain supplementary expert report. Supplementary expert report is also in favor of the Company. The Court ruled to obtain a new expert report. The expert report is in favor of the Company. The Court accepted the case. Turk Telekom appealed the decision. The Company replied this appeal request. The appeal process is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute on the decision of CMB regarding audit committee member

On 15 October 2008, the CMB decided on an administrative fine amounting to TL 12 (equivalent to \$6 as at 31 December 2013) since the Company did not fulfill the decision of CMB dated 26 January 2007 and required the Company to inform its shareholders at the next General Assembly Meeting. The Company commenced a lawsuit before the Administrative Court. The Court rejected the Company's stay of execution request and the Company's objection to this decision has been rejected. On 27 May 2011, the Court rejected the case. The Company appealed the decision. Council of State rejected the injunction request of the First Instance Court's decision. Council of State rejected the stay of execution request of the Company. The appeal process is still pending.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on mobile number portability

On 29 March 2007, the Company initiated a lawsuit against the ICTA claiming stay of order for and the annulment of the Regulation on Mobile Number Portability issued by the ICTA on 1 February 2007 on the ground that vested rights of the Company arising out the concession agreement were violated by the said regulation. On 1 June 2009, the Court rejected the case. The Company appealed the decision. The Plenary Session of Administrative Law Divisions of the Council of State approved the First Instance Court's decision. The Company applied for correction of the decision. The correction of the decision process is still pending.

Dispute on Turk Telekom interconnection costs

On 8 April 2009, Turk Telekom initiated a lawsuit for damages against the Company claiming that the Company is violating the legislation by applying higher call termination fees to operators than the fees applied to the Company's subscribers for on-net calls and requesting for the time being TL 10 (equivalent to \$5 as at 31 December 2013) with its accrued interest starting from 2001 and TL 10 (equivalent to \$5 as at 31 December 2013) with its accrued interest starting from the lawsuit date for the sustained loss as a result of decreasing traffic volume of Turk Telekom and subscriber lost derived from this action. On 6 April 2011, the Court decided to reject the case. Turk Telekom appealed the decision. The Company replied the appeal request. The Court of Cassation approved the decision. Turk Telekom applied for the correction of the

decision. The Company replied to this request. The correction of the decision process is still pending.

On 22 August 2011, Turk Telekom initiated a lawsuit on the ground that on-net tariffs of the Company are under the interconnection fees notwithstanding ICTA's decision regarding, on-net tariffs of the Company cannot be under the interconnection fees which are applied by the Company to other operators and requested TL 1,000 (equivalent to \$469 as at 31 December 2013) monetary compensation by reserving its right for surpluses. The court decided to obtain an expert report. Expert report supports the Company's arguments. The Court decided to obtain a supplementary report from the same committee. Also the supplementary expert report supports the Company's arguments. Turk Telekom objected to the report. The Court rejected the case in favor of the Company. Turk Telekom appealed the decision. The Company replied to this request. The appeal process is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute on Avea interconnection costs

On 4 November 2010, Avea initiated a lawsuit on the ground that on-net tariffs of the Company are under the interconnection fees notwithstanding ICTA's decision regarding, on-net tariffs of the Company cannot be under the interconnection fees which are applied by the Company to other operators and requested TL 1,000 (equivalent to \$469 as at 31 December 2013) monetary compensation by reserving its right for surpluses. During the judgment, Avea increased its request to TL 47,000 (equivalent to \$22,021 as at 31 December 2013). The Court decided to appoint an expert committee for examination of the file. The expert committee submitted its completed expert report to the Court, which is in favor of the Company. The Court decided to have an additional expert report. The additional expert report submitted by the committee is against the Company. The Court decided to obtain another expert report from a new expert committee. The new expert report is in favor of the Company and was submitted to the file. The lawsuit is pending.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on Avea interconnection costs

On 25 April 2011, Avea initiated another lawsuit with the same grounds mentioned above claiming compensation for its losses between November 2009 and January 2010. Avea claimed TL 40,000 (equivalent to \$18,742 as at 31 December 2013) for its material compensation by reserving its rights for surpluses. The Court decided to appoint an expert committee for examination of the file. The expert committee submitted its report, which is in favor of the Company. The Court decided to consolidate this lawsuit with the first lawsuit initiated by Avea on 4 November 2010. The court dismissed both cases.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute on campaigns

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

On 21 May 2008, ICTA decided that the Company damaged the subscribers' financial interests related to the campaigns in which free minutes or counters are given and requested TL 32,088 (equivalent to \$15,034 as at 31 December 2013). On 10 July 2008, the Company filed a lawsuit for the injunction and cancellation of the ICTA's decision. However, the Company benefited from the early payment option with a 25% early payment discount and paid TL 24,066 (equivalent to \$11,276 as at 31 December 2013) on 1 August 2008. On 10 November 2010, the Court decided to reject the case. The Company appealed the decision. The State of Council rejected the Company's request for the stay of execution of the First Instance Court's decision. The appeal process is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute on payment request of Savings Deposits Insurance Fund

On 26 July 2007, Savings Deposits Insurance Fund (SDIF) requested TL 15,149 (equivalent to \$7,098 as at 31 December 2013) to be paid in one month period on the ground that the stated amount is recorded as receivable from the Company in the accounting records of Telsim, which is taken over by SDIF. On 20 September 2007, the Company filed a lawsuit for the injunction and cancellation of the SDIF's request. Council of State accepted the injunction request of the Company. On 19 January 2010, the Court accepted the Company's claim and cancelled the aforementioned request of SDIF. SDIF appealed the decision. The appeal process is still pending.

SDIF issued payment orders for the aforementioned amount and, on 19 October 2007, the Company initiated a lawsuit for the cancellation of the payment request of SDIF. On 29 March 2010, the Court decided on the cancellation of the payment order. SDIF appealed such decision. The appeal process is pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on the discounts which are paid over the treasury share and ICTA fee

At the end of 2006, Tax Auditors of the Company claimed that gross revenue in the statutory accounts should include discounts granted to distributors although the Company recorded these discounts in a separate line item as sales discounts.

Starting from 1 January 2007, the Company started to deduct discounts granted to distributors from gross revenue and present them on a net basis. Accordingly, the Company decided that, it has paid excess treasury share and universal service fund for the year 2006 totaling TL 51,254 (equivalent to \$24,014 as at 31 December 2013).

Through the letter dated 23 February 2007, the Company requested treasury share amounting to TL 46,129 (equivalent to \$21,613 as at 31 December 2013) and interest accrued amounting to TL 5,020 (equivalent to \$2,352 as at 31 December 2013) from Turkish Treasury and universal service fund amounting to TL 5,125 (equivalent to \$2,401 as at 31 December 2013) and interest accrued amounting to TL 558 (equivalent to \$261 as at 31 December 2013) from Turkish Ministry to be paid in 10 days. Since Turkish Treasury and Turkish Ministry have not made any payment, the Company started to deduct these amounts from ongoing monthly payments. As at 31 December 2007, the Company deducted TL 51,254 (equivalent to \$24,014 as at 31 December 2013) from monthly treasury share and universal service fund payments.

Turkish Treasury sent a letter to the Company dated 17 July 2007 and objected the deduction of the discounts granted to the distributors from the treasury share payments. Accordingly, the Company is asked to return TL 2,960 (equivalent to \$1,387 as at 31 December 2013) that is deducted from treasury share payment for May 2007. The Company has not made the related payment and continued to deduct such discounts treasury share and universal service fee amount related to discounts granted to distributors for the year 2006.

Management believes that the Company has the legal right to make deductions with respect to this issue. Accordingly, the Company has not recorded any provisions with respect to this matter in its consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

The Company filed two lawsuits before ICC claiming that the Company is not obliged to pay treasury share and ICTA Fee in accordance with the 8th and 9th Articles of the Concession Agreement, respectively, on discounts granted to distributors. On the both lawsuits, ICC has decided in favor of the Company. As stated in both of the Final Awards, the Company is not under obligation of paying Treasury Share and the Contribution to the expenses of Authority pursuant to Article of 8 and 9 of the Concession Agreement dated 10 March 2006. ICTA filed lawsuits for cancellation of these Final Awards. In both lawsuits, the Court decided in favor of the Company. ICTA appealed the decisions. The Company replied appeal requests. The Court of Cassation reversed the decisions of the First Instance Court. The Company has applied for the correction of the decision. The Court of Cassation rejected the request for correction of the decision of the Company. On the hearing dated 28 November 2012, the Local Court decided to accept the lawsuit in accordance with the reversal decision of The Court of Cassation. Full decisions are notified to the Company. The Company appealed the decisions. The appeal process is still pending.

(Amounts expressed in thousands of US Dollars unless otherwise indicated except share amounts)

(The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. The General Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.)

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on payments of additional treasury share payment for the period between 1 June 2004 and 9 March 2006

Turkish Treasury, through a letter which is based on the Report of the Treasury Controller's Board following the examinations covering the period between 1 June 2004 and 9 March 2006, requested additional treasury share payment regarding the mentioned period. The Company initiated a lawsuit before ICC on 18 December 2009 in order to obtain a declaratory judgment on the Company is not obliged to pay TL 3,320 (equivalent to \$1,556 as at 31 December 2013) of the requested amount and treasury share over the exchange differences arising from roaming revenue. The arbitral tribunal partially accepted the Company's claims and decided that the Company is not obliged to pay TL 885 (equivalent to \$415 as at 31 December 2013). The Company applied to arbitral tribunal for correction and interpretation of the award. The arbitral tribunal rejected this application. ICTA filed a lawsuit for cancellation of the in favor parts of the Final Award. Subsequently the Company filed a lawsuit for cancellation of the disadvantageous part of the Final Award. In the lawsuit initiated by the ICTA, the court decided to obtain an expert report and the expert report which has been submitted to the Court is in favor of Turkcell. The Court decided to obtain an additional expert report from the same committee. Both of the lawsuits are still pending.

ICTA, through a letter dated 14 May 2010 which is based on the Report of the Treasury Controller's Board following the examinations covering the period between 1 June 2004 to 9 March 2006, requested additional treasury share payment of TL 4,909 (equivalent to \$2,300 as at 31 December 2013) together with the penalty of TL 12,171 (equivalent to \$5,703 as at 31 December 2013) on the ground that the treasury share and treasury share over the exchange differences arising from roaming revenue are not paid entirely.

On 26 May 2010, the Company, in order to provide the suspension of the payment, requested a preliminary injunction from the Civil Court of First Instance based on the grounds that the payment of additional treasury share payment of TL 4,909 (equivalent to \$2,300 as at 31 December 2013) together with the penalty of TL 12,171 (equivalent to \$5,703 as at 31 December 2013) is a pending case before ICC Arbitration Court. The Civil Court of First Instance accepted the Company's request. ICTA raised an objection to the preliminary injunction and this objection has been rejected.

The Company filed a lawsuit before ICC on 27 January 2012 claiming the contradiction to law of the penalty of TL 12,171 (equivalent to \$5,703 as at 31 December 2013) calculated over allegedly unpaid TL 4,909 (equivalent to \$2,300 as at 31 December 2013) treasury share. ICC Arbitration Court decided in favor of the Company, accepting all its claims. ICTA filed a lawsuit for cancellation of the final award in the Ankara Civil Court of First Instance. The lawsuit is still pending.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on payments of additional treasury share payment for the period between 1 June 2004 and 9 March 2006 (continued)

ICTA, through a letter dated 19 October 2010 which is based on the Report of the Treasury Controller's Board following the examinations covering the period between 10 March 2006 and 31 December 2008, requested treasury share of TL 72,527 (equivalent to \$33,982 as at 31 December 2013) and conventional penalty of TL 205,594 (equivalent to \$96,329 as at 31 December 2013). The Company paid TL 1,535 (equivalent to \$719 as at 31 December 2013) of the aforementioned amount.

On 13 December 2010, the Company, in order to provide the suspension of the payment, requested a preliminary injunction from the Civil Court of First Instance based on the grounds that the payment of treasury share of TL 70,992 (equivalent to \$33,262 as at 31 December 2013) and conventional penalty of TL 205,594 (equivalent to \$96,329 as at 31 December 2013) is a pending case before ICC Arbitration Court. The Court accepted the Company's request. ICTA's objection against the decision has been rejected.

The Company filed a lawsuit before ICC on 12 January 2011 regarding the allegedly underpaid treasury share payments over certain revenue items as discussed in the Treasury Controller's Report dated 30 May 2010, and corresponding purported penalty in amount of TL 205,594 (equivalent to \$96,329 as at 31 December 2013). The Company requested the Arbitral Tribunal to award that TL 68,365 (equivalent to \$32,032

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

as at 31 December 2013) of the total amount requested in the Treasury Controller's Report has either been paid or is the subject matter of other arbitration cases. The Company further requested the Tribunal to declare that the request for treasury share payment of the remaining TL 4,163 (equivalent to \$1,951 as at 31 December 2013) is unfounded, together with a declaration that the Company should not be obliged to make treasury share payment over certain revenue items as discussed in the Treasury Controller's Report. Finally, the Company requested the Tribunal to award that it is not obliged to pay the requested penalty and declare that penalty cannot be accrued where the basis of the penalty request is disputed. On 18 March 2013, the Tribunal awarded that the Company is not obliged to pay TL 1,351 (equivalent to \$633 as at 31 December 2013) of the remaining amount requested by the Treasury (the Company's relief sought for treasury share payment of TL 2,812 (equivalent to \$1,318 as at 31 December 2013) requested over SIM card and equipment sales abroad was rejected), declared that the Company is not obliged to pay penalty in amount of TL 205,594 (equivalent to \$96,329 as at 31 December 2013); but dismissed (without prejudice) the requests for declaration that the Company should not be obliged to make treasury share payment over certain revenue items as discussed in the Treasury Controller's Report, and that penalty cannot be accrued where the basis of the penalty request is disputed. ICTA, Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications filed two separate lawsuits for cancellation of the Final Award. Subsequently the Company filed a lawsuit for cancellation of the disadvantageous part of the Final Award. The Court has decided to consolidate the lawsuits under the lawsuit filed by Undersecretariat of Treasury and the Ministry of Transport. The Court decided to appoint an expert committee for examination of the file. The lawsuits are still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on treasury share amounts which are absorbed due to retrospective board decisions taken by ICTA

In consequence of collection of treasury share from the Company without considering its payments to the other operators and some subscribers due to the retrospective procedure amendments of ICTA on both interconnection fees and some tariffs; the Company commenced a lawsuit on 5 August 2010 before ICC on the ground that treasury share which collected from diminishing returns are unlawful and deductions committed by the Company between the years 2006 - 2010 from the treasury share are rightful and claimed payment of TL 1,600 (equivalent to \$750 as at 31 December 2013) and its interest to the overpayment amount which is paid under the name of treasury share, against ICTA due to its administrative act leading to this case and against Turkish Undersecretariat of Treasury and Turkish Ministry of Transport, Maritime Affairs, and Communications due to making benefit from aforementioned amount.

ICC decided partially in favor of the Company in March 2012 and ordered that deductions committed by the Company between the years 2006 - 2010 from the Treasury Share are rightful, and ICTA should refund TL 1,371 (equivalent to \$642 as at 31 December 2013) paid by the Company in this respect as Treasury Share and ICTA fee and reject the Company's claim to refund TL 273 (equivalent to \$128 as at 31 December 2013) paid as ICTA fee between 2006 - 2008. ICTA, Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications filed a lawsuit for cancellation of the Final Award. The lawsuit initiated by ICTA has been consolidated by the court with the lawsuit initiated by Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications. The court rejected both lawsuits. ICTA and Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications appealed the decision. The Company replied the appeal request. Appeal process is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements prepared as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute with the Ministry of Industry and Trade

Ministry of Industry and Trade notified the Company that the Company is not informing the subscribers properly before service subscriptions and content sales and charged administrative fine of TL 68,201 (equivalent to \$31,955 as at 31 December 2013). On 24 August 2009, the Company initiated a lawsuit for the cancellation of the payment notification and related decision of the Ministry of Industry and Trade. The Court rejected the Company's injunction request. The Court cancelled decision of the Ministry of Industry and Trade on 8 June 2010. Ministry of Industry and Trade appealed the decision. Council of State reversed the judgment of the Instance Court. The Company requested correction of the decision. Council of State rejected the Company's request for the correction of the decision. The Local Court made a decision in line with the reversal decision of Council of State and rejected the case. The Company appealed the decision. The appeal process is still pending.

On 14 December 2009, the Company filed a lawsuit for the injunction and cancellation of the payment order of TL 68,201 (equivalent to \$31,955 as at 31 December 2013) with respect to the decision of Ministry of Industry and Trade. The Court decided to accept the case. Tax Administration appealed the decision. Council of State reversed the judgment of the Instance Court. The Company requested correction of the decision. Council of State rejected the Company's request for the correction of the decision request.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute with the Ministry of Industry and Trade (continued)

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute of Astelit with its distributor

One of Astelit's distributors filed a lawsuit against Astelit claiming a compensation in the amount of HRV 106,443 (equivalent to \$13,317 as at 31 December 2013), which is allegedly the sum of advance payment for undelivered goods. According to the commission agreement, signed between parties, the payment terms are 30 days after delivery date (net of distributor's commission). The distributor violated the conditions of agreement and did not pay in time. Therefore Astelit made a counterclaim for the recovery of indebtedness in the amount of HRV 35,292 (equivalent to \$4,415 as at 31 December 2013).

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Dispute passed through all the instances twice. On 26 March 2012, the High Commercial Court of Ukraine approved the previous positive decision for Astelit counterclaim.

Enforcement document was submitted to the State Enforcement Service. According to Ukrainian Legislation, the distributor had a right to appeal the decision before Supreme Court of Ukraine within three months from the date of judgment of the High Commercial Court of Ukraine. However, the distributor is not conducting economic activity for a long period of time and has not appealed the decision.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute of Astelit related to withholding tax on interest expense

Ukrainian Tax Administration sent a tax notice to Astelit stating that withholding tax rate on interest expense for the loan agreement with Euroasia should be 10% for the year 2009. According to Ukrainian legislation and Convention on avoiding double taxation between Ukraine and the Netherlands, Astelit paid withholding tax at 2%. Astelit filed a suit to cancel tax notice, which imposed Astelit to pay additional HRV 11,651 (equivalent to \$1,458 as at 31 December 2013). The Administrative Court accepted the case in favor of Astelit. On 10 March 2011, the Appeal Court of Kyiv approved the decision. Ukrainian Tax Administration appealed the decision. The High Administrative Court of Ukraine postponed the date of the hearing. The Court has not set the date of next hearing yet.

Based on the management opinion, provision amounting to HRV 27,089 (equivalent to \$3,389 as at 31 December 2013) is set for the risks belonging to years 2009, 2010, 2011 and 2012 in the consolidated financial statements as at and for the period ended 31 December 2013 (31 December 2012: \$3,389).

Dispute on VAT and SCT regarding Shell & Turcas Petrol AS campaign

The Company and Shell&Turcas Petrol A.S. signed an agreement on 27 November 2007 where eligible subscribers can get free counters and minutes from the Company or free oil from Shell&Turcas Petrol AS.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on VAT and SCT regarding Shell & Turcas Petrol AS campaign (continued)

As a result of the tax investigation, Tax Controllers notified that VAT and special communication tax are not calculated over the free counters and minutes and imposed special communication tax amounting to TL 1,214 (equivalent to \$569 as at 31 December 2013) and tax penalty of TL 1,822 (equivalent to \$854 as at 31 December 2013) and VAT amounting to TL 874 (equivalent to \$410 as at 31 December 2013) and tax penalty of TL 1,315 (equivalent to \$616 as at 31 December 2013). On 16 September 2009, the Company filed lawsuits for the cancellation of the tax penalty. The court decided to accept the case. Tax Administration appealed the decisions. The appeal process is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Lawsuit initiated by Mep Iletisim ve Dis Ticaret AS

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

On 31 December 2008, Mep Iletisim ve Dis Ticaret AS, which is former distributor of the Company and whose agreement is no longer valid, initiated a lawsuit against the Company claiming that it has a loss of TL 64,000 (equivalent to \$29,986 as at 31 December 2013) due to the applications of the Company and requested TL 1,000 (equivalent to \$469 as at 31 December 2013) and remaining amount to be reserved. An expert report from committee of experts appointed by the Court has been submitted to the Court. The Court decided to obtain a supplementary report from the same committee. In the supplementary expert report submitted to the file by the committee, the damages amounting to TL 64,000 (equivalent to \$29,986 as at 31 December 2013) claimed by Mep Iletisim ve Dis Ticaret A.S. was calculated as TL 16,700 (equivalent to \$7,825 as at 31 December 2013). Mep Iletisim ve Dis Ticaret AS increased its claim and demanded TL 16,700 (equivalent to \$7,825 as at 31 December 2013) from the Company. The Court decided to obtain an expert report together with the second lawsuit consolidated to this file. The amount of MEP's damages was estimated as TL 18,800 (equivalent to \$8,809 as at 31 December 2013) in the expert report. The Court has decided to obtain another expert report about brand valuation from a new committee. The lawsuit is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain and a reliable estimate of the amount of the obligation, if any, cannot be made; thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Decisions of ICTA on tariff plans

On 15 November 2009, ICTA notified that the Company has changed the conditions of a tariff plan after the launch and shall reimburse overcharged amounts to the subscribers. On 1 February 2010, the Company initiated a lawsuit for stay of execution and the cancellation of the decision of ICTA. The Court rejected the Company's stay of execution request. The Company objected to this decision. The Court rejected the objection request of the Company. The case is still pending.

Amount to be reimbursed to the subscribers is calculated as TL 15,660 (equivalent to \$7,337 as at 31 December 2013) and deducted from revenues in the consolidated financial statements as at and for the year ended 31 December 2009. Reimbursement to subscribers was made in January 2010.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Decisions of ICTA on tariff plans (continued)

On 17 May 2010, ICTA decided to impose TL 802 (equivalent to \$376 as at 31 December 2013) administrative fine against the Company on the ground that one of the tariff option of the Company contradicts the board decision which sets lower limit to the on-net tariffs. The payment was made within 1 month following the notification of the decision of ICTA. Therefore, 25% discount was applied and TL 601 (equivalent to \$282 as at 31 December 2013) as fine on 21 June 2010. Besides, the Company filed a lawsuit on 21 July 2010 in request for the cancellation of fine. The Court overruled the stay of execution request and the Company objected to this decision. The Court rejected the objection request of the Company. The Court rejected the lawsuit. The Company appealed the decision. The state of Council rejected the stay of execution request of the First Instance Court's decision. The appeal process is still pending.

ICTA decided to apply an administrative penalty in the amount of TL 26,483 (equivalent to \$12,408 as at 31 December 2013) to the Company on 22 September 2010 as a result of an investigation initiated related to a tariff plan. Since the administrative fine was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and TL 19,862 (equivalent to \$9,306 as at 31 December 2013) was paid on 7 December 2010. The Company initiated a lawsuit to suspend the execution of administrative fine and cancellation, on 10 December 2010. The Court overruled the stay of execution request and the Company objected to this decision. On 17 February 2011, the Regional Ankara Administrative Court accepted the objection and decided to suspend the execution. ICTA reimbursed the paid amount on 30 March 2011. The Court rejected the case. The Company appealed the decision and also demanded the stay of execution of the decision along with this appeal request. The administrative fine in the amount of TL 19,862 (equivalent to \$9,306 as at 31 December 2013) was refunded to

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

ICTA on 30 January 2014 and the reimbursement procedure, which should be made to the subscribers, has also been started again. The appeal process is still pending.

Amount to be reimbursed to the subscribers, according to the decision of ICTA, is calculated as TL 13,432 (equivalent to \$6,293 as at 31 December 2013) for the year 2010 and deducted from revenues in the consolidated financial statements as at and for the year ended 31 December 2010. Reimbursement to subscribers was made in February 2011 amounting to TL 7,137 (equivalent to \$3,344 as at 31 December 2013). As a result of the aforementioned Court decision for the stay of execution dated 17 February 2011, the Company decided not to reimburse remaining TL 6,295 (equivalent to \$2,949 as at 31 December 2013). Ankara 14th Administrative Court rejected the case on 13 December 2012 and the Company appealed the decision.

In the consolidated financial statements as at and for the year ended 31 December 2013, provisions amounting to TL 19,862 (equivalent to \$9,306 as at 31 December 2013) and TL 26,716 (equivalent to \$12,517 as at 31 December 2013) are recognized for the administrative fine which was imposed by ICTA and for the amounts which have not been reimbursed to the subscribers yet (31 December 2012: None).

Legal Proceedings (continued)

Decision of ICTA regarding telephone directory and unknown numbers service

On 7 July 2010, ICTA decided to fine the Company by TL 401 (equivalent to \$188 as at 31 December 2013) and transfer back all kinds of software, hardware, infrastructure and equipment which make available the telephone directory and unknown numbers service to the ownership of the Company from its wholly owned subsidiary on the ground that ownership of the whole system related to telephone directory and unknown number service is not pertain to the Company. Administrative fine was paid within 1 month following the notification of the decision of ICTA. Therefore, 25% discount was applied and TL 301 (equivalent to \$141 as at 31 December 2013) as fine on 7 September 2010.

The Company filed a lawsuit on 22 September 2010 for the stay of execution and cancellation of the administrative fine. The Court overruled the stay of execution request of the Company and the Company objected to this decision. The Court rejected the lawsuit. The Company appealed the decision. The State of Council rejected the stay of execution request of the First Instance Court's decision. The appeal process is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute with the Competition Board regarding the business practices with distributors

On 11 November 2009, Competition Board decided to initiate an investigation against the Company on the ground that the Company, through its applications to its distributors, violates the related clauses of the Competition Act numbered 4054. Within the context of the investigation, the Company submitted its statement of defense. The investigation took place as an on-site examination and inspection in March 2010. The Competition Board decided to examine the claims of Vodafone regarding this investigation within the context of this file. Besides, the Company's action concerning abuse of dominant position in the wholesale or retail market of simcard, unit card, digital unit, activation and other subscriber services by obstructing the activity of Avea is examined in the context of this investigation and Avea is accepted as a complainant. Investigation report is submitted to the Company in August 2010 and the Company submitted its defense statement to the Board. Additional Written Opinion is submitted to the Company in February 2011 and the Company submitted its written defense to Additional Written Opinion within the due date. The Company submitted its verbal defense to Competition Board on 31 May 2011.

Legal Proceedings (continued)

Dispute with the Competition Board regarding the business practices with distributors (continued)

On 9 June 2011 Competition Board clarified its decision that the Company violates competition rules in GSM market and fined the Company amounting to TL 91,942 (equivalent to \$43,078 as at 31 December 2013). On 8 December 2011, the Company filed a lawsuit for annulment of the decision. The Company has requested a stay of execution for the Competition Board decision. The Council of State accepted the request of the Company for stay of execution for the part of the Competition Board decision fining the Company amounting to TL 91,942 (equivalent to \$43,078 as at 31 December 2013) but rejected the request for the parts of the decision determining that the Company abused its dominant position with its practices subject to the Competition Board decision and have to end the violation. The Competition Board objected to the decision. The Company objected to the decision for the rejected part. The lawsuit is still pending. The Plenary Session of Administrative Law Divisions of the Council of State cancelled the stay of execution decision and decided to send the file back to the First Instance Court to be examined with respect to the reasons related to the basis of the Competition Board's decision. Upon this decision, The Council of State rejected the Company's stay of execution request. The Company objected to the decision. The lawsuit is still pending.

On 9 March 2012, payment order has been sent to the Company by the Tax Office. The Company filed a lawsuit for cancellation of the payment order on 13 March 2012. The Court accepted the Company's stay of execution request until the Tax Office's legal argument is submitted to the Court. Upon submission of the Tax Office's legal argument to the Court, the Court rejected the request of the Company for stay of execution. The Company objected to the Court's decision. The objection was dismissed. The Company requested a stay of execution for the second time but the Court rejected the request. The Company objected to the Court's decision, but the objection was dismissed. Subsequently, the Court accepted the lawsuit and cancelled the payment order. The Company's deposit amounting to TL 91,942 (equivalent to \$43,078 as at 31 December 2013) is

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

blocked by the Tax Office with respect to the payment order. Tax Office appealed the decision. The Company replied the appeal request. The appeal process is still pending.

Pamuk Elektronik, a former dealer of the Company whose contract have been terminated, initiated a lawsuit against the Company on 19 December 2011 claiming TL 2,100 (equivalent to \$984 as at 31 December 2013) by reserving its rights for surpluses on the ground that the Company caused that damage by unjust termination of the contract and actions which are stated in the Competition Board decision in which the Board imposed TL 91,942 (equivalent to \$43,078 as at 31 December 2013) administrative fine to the Company. The Company replied in due time. On 19 April 2012, the court decided to reject the lawsuit with the reason that the dispute must be solved with arbitration procedure because of the term in the agreement. Pamuk Elektronik appealed the case. The Company submitted its answer to the appeal. The Court of Cassation approved the decision of the First Instance Court. Pamuk Elektronik applied for the correction of the decision. The company shall reply to the correction of decision of the plaintiff.

Dogan Dagitim AS filed a lawsuit against the Company on 5 June 2012 claiming TL 110,484 (equivalent to \$51,766 as at 31 December 2013) together with up to 3 times of the loss amount to be determined by the court for its material damages by reserving its rights for surpluses allegedly on the ground that the Company caused that damage by its applications to its distributors and dealers which constituted a violation of the law no. 4054 and that violation was proved by the Competition Board decision in which the Board imposed TL 91,942 (equivalent to \$43,078 as at 31 December 2013) administrative fine to the Company. The lawsuit is pending.

Legal Proceedings (continued)

Dispute with the Competition Board regarding the business practices with distributors (continued)

Mep Iletisim ve Dis Ticaret AS which is in liquidation filed a lawsuit against the Company on 30 July 2012 claiming TL 1,200 (equivalent to \$562 as at 31 December 2013) together with up to 3 times of the loss amount to be determined by the court for its material damages by reserving its rights for surpluses allegedly on the ground that the Company caused that damage by its applications to its distributors and dealers which constituted a violation of the law no. 4054 and that violation was proved by the Competition Board decision in which the Board imposed TL 91,942 (equivalent to \$43,078 as at 31 December 2013) administrative fine to the Company. The Court decided to consolidate this lawsuit with the first lawsuit initiated by Mep Iletisim ve Dis Ticaret AS on 31 December 2008.

Mobiltel Iletisim Hizmetleri Sanayi ve Ticaret AS (Mobiltel) filed a lawsuit against the Company on 17 August 2012 claiming TL 500 (equivalent to \$234 as at 31 December 2013) together with up to 3 times of the loss amount to be determined by the court for its material damages by reserving its rights for surpluses allegedly on the ground that the Company gives exclusive competence to its sub-dealers and that violation was proved by the Competition Board decision in which the Board imposed TL 91,942 (equivalent to \$43,078 as at 31 December 2013) administrative fine to the Company and that Mobiltel was not able to sale any product to the sub-dealers which were given exclusive competence by the Company. The lawsuit is pending.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Avea filed a lawsuit against the Company on 31 October 2012 claiming TL 1,000 (equivalent to \$469 as at 31 December 2013) together with up to 3 times of the loss amount to be determined by the court for its material damages by reserving its rights for surpluses allegedly on the ground that the Company caused that damage by its applications to its distributors and dealers which constituted a violation of the law no. 4054 and that violation was proved by the Competition Board decision in which the Board imposed TL 91,942 (equivalent to \$43,078 as at 31 December 2013) administrative fine to the Company. The lawsuit is pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligations are less than probable, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Investigation of ICTA based on the complaint of a subscriber

ICTA decided to initiate an investigation through its decision dated 12 May 2010 based on the complaint of Ozalp Insaat Pazarlama Tic. Ltd. Sti., and requested certain information and documents from the Company. The Company provided its response related to the matter to ICTA. Investigation report is notified to the Company and the Company has submitted its defense statement to ICTA within the due date.

On 13 January 2011, ICTA decided to impose administrative fine to the Company amounting to TL 8,016 (equivalent to \$3,756 as at 31 December 2013) for making some subscribers suffer and TL 2,004 (equivalent to \$939 as at 31 December 2013) for misinforming the Authority. Since the administrative fine was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and payment totaling to TL 7,515 (equivalent to \$3,521 as at 31 December 2013) is made on 17 February 2011. The Company filed two lawsuits on 14 March 2011 for the stay of execution and cancellation of the administrative fine. The stay of execution requests have been rejected in the lawsuits. The Company objected to the decisions. The objections were rejected. The Courts dismissed both cases. The Company appealed both cases. The State of Council rejected the Company's stay of execution requests, during the appeal process. The appeal process is still pending.

Legal Proceedings (continued)

Dispute regarding the fine applied by ICTA regarding breaching confidentiality of personal data and relevant legislation which is launched by ICTA

ICTA decided to launch preliminary investigation on breaching confidentiality of personal data and relevant legislation, within the context of the news in the press regarding unlawful wiretapping. ICTA authorities made an on-site inspection in July 2010. On 22 September 2010, ICTA decided to launch an investigation against the Company for detailed examination of the matter. Information and documents requested by ICTA were submitted to the ICTA. In January 2011, investigation report was sent to the Company. The Company submitted its written defense within the due date. ICTA, with its decision which was delivered to the Company on 6 June 2011, decided to impose an administrative fine to the Company amounting to TL 11,225 (equivalent to \$5,259 as at 31 December 2013). Since the administrative fine was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and TL 8,418 (equivalent to \$3,944 as at 31 December 2013) was paid on 5 July 2011. On 24 August 2011, the Company filed a lawsuit for the annulment of the decision with stay of execution request. The Court rejected the case. The Company appealed the decision. Council of State rejected the Company's stay of execution requests at appeal phase. The appeal process is still pending.

Dispute on treasury share in accordance with the amended license agreement

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Based on the law enacted on 3 July 2005 with respect to the regulation of privatization, gross revenue description used for the calculation of treasury share has been changed. According to this new regulation, accrued interest charges for the late payments, taxes such as indirect taxes, and accrued revenues are excluded from the description of gross revenue. Calculation method of gross revenue for treasury share stipulated in the law according to the new regulation shall be valid as of the application date of the Company with the claim of amendment of its license agreement in compliance with the said Law. In the meanwhile, the Company realized the payments including above-mentioned items between 21 July 2005 and 10 March 2006, when the amendment in license agreement was effective.

On 9 June 2008, the Company filed a lawsuit before Administrative Court for the difference between the aforementioned period amounting to TL 102,649 (equivalent to \$48,095 as at 31 December 2013) and interest amounting to TL 68,276 (equivalent to \$31,990 as at 31 December 2013) till to the date the case is filed. The Administrative Court rejected the case with the reason that there is not any definite and executable process and the Company appealed the decision. The Council of State rejected the appeal request. The Company requested correction of the decision. The Council of State rejected the Company's request for the correction of the decision.

On 26 August 2013, the Company filed a lawsuit before ICC against Undersecretariat of Treasury. The Arbitral Tribunal decided to hold a Case Management Conference on 13 March 2014. The lawsuit is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Dispute on treasury share in accordance with the amended license agreement (continued)

Based on the 9th article of the license agreement dated 10 March 2006, the Company has been obliged to pay 0.35% of its yearly gross revenue once a year as ICTA Fee. However, in the previous license agreement, the Company was obliged to pay 0.35% of its yearly gross revenue after deducting treasury share, universal service fund and other indirect taxes from the calculation base whereas in the new agreement, these aforementioned payments are not deducted from the base of the calculation. Therefore, on 12 April 2006, the Company has initiated a lawsuit for the cancellation of the 9th article of the new license agreement. On 10 March 2009, the Court rejected the case. The Company appealed the decision. The Plenary Session of Administrative Law Divisions of the Council of State decided to approve the decision of the First Instance Court. The Company applied for the correction of the decision. The correction of the decision process is still pending.

Dispute on ICTA fee payment based on the amended license agreement

On 21 June 2006, ICTA notified the Company that the ICTA fee for the year 2005 which had been already paid in April 2006 should have been calculated according to the new license agreement dated 10 March 2006 instead of the previous license agreement which was effective in the year 2005. Therefore, ICTA requested the Company to pay additional TL 4,011 (equivalent to \$1,879 as at 31 December 2013) and its accrued interest. The Company made the payment and initiated a lawsuit for the injunction and cancellation of the aforesaid decision of ICTA on 28

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

August 2006. On 24 July 2009, the Court decided in favor of the Company and annulled additional payment request of ICTA. The ICTA appealed the decision. The Council of State reversed the decision with the reason that the case shall be settled by arbitration. ICTA applied for the correction of the decision. The correction of the decision process is still pending.

The Company received the related principal amount of TL 4,011 (equivalent to \$1,879 as at 31 December 2013) on 8 February 2010 and recorded income in the consolidated financial statements as at and for the year ended 31 December 2009. Upon the reversal decision of the Council of State, ICTA re-claimed the aforementioned amount which returned to the Company in accordance with the first instance court decision. The Company paid back the aforementioned amount with its accrued interest on 24 January 2013.

On the other hand, as the interest was not paid with the payment that ICTA made on 8 February 2010, the Company initiated a lawsuit on 17 March 2010, for the accrued interest amounting to TL 3,942 (equivalent to \$1,847 as at 31 December 2013) for the time being devoid of the amount which was paid to the ICTA. The Court decided in favor of the Company for the part of TL 1,392 (equivalent to \$652 as at 31 December 2013) of the compensation request. ICTA appealed the decision. The Company also appealed the decision's rejected part. The appeal process is still pending. The Company received the aforementioned amount on 18 May 2011 and recorded as income in the consolidated financial statements as at and for the year ended 31 December 2011. Upon the re-pay request of the ICTA, the Company paid back the aforementioned amount on 24 January 2013.

Penalty issued to Turkcell Superonline regarding trenching activities

On 13 January 2011 and 28 October 2011 Ankara Municipality issued penalties of TL 8,863 (equivalent to \$4,153 as at 31 December 2013) and TL 235 (equivalent to \$110 as at 31 December 2013) to Turkcell Superonline related to trenching activities.

Turkcell Superonline filed a lawsuit against Ankara Municipality in order to cancel penalties. Request of Turkcell Superonline regarding stay of execution was rejected. Turkcell Superonline objected the decision. The objections related to penalty issued on 13 January 2011 amounting to TL 8,863 (equivalent to \$4,153 as at 31 December 2013) were also rejected by Regional Administrative Court. In addition, Turkcell Superonline filed a lawsuit against Ankara Municipality in order to cancel penalty which was issued on 28 October 2011 amounting to TL 235 (equivalent to \$110 as at 31 December 2013); request of Turkcell Superonline regarding execution of suspension was rejected.

The case that is filed before the Ankara Administrative Courts for the annulment of penalties has been concluded. According to the decision which has been notified to Turkcell Superonline on 31 July 2012, penalties amounting to TL 9,098 (equivalent to \$4,263 as at 31 December 2013) have been cancelled by the court. Ankara Metropol Municipality appealed the decision.

Order of payment notified to Turkcell Superonline according to universal service fund

On 24 October 2011, Beykoz Tax Administration notified Turkcell Superonline with an order of payment amounting to TL 1,192 (equivalent to \$558 as at 31 December 2013) for insufficient payments made by Superonline Uluslararası for universal service fund related to years of 2005, 2006, 2007 and 2008. Four legal cases have been filed as of 31 October 2011 to revoke payment orders. Based on the management decision, TL 1,203 (equivalent to \$564 as at 31 December 2013) was paid on 7 December 2011 with its accrued interest. On 21 December 2011, based on the scope of Share Purchase Agreement, Turkcell Superonline sent a notice in order to receive payment from Demir Toprak İth.İhr. ve Tic. AS, Sınai ve Mali Yatırımlar Holding AS and Endustri Holding AS. No payment has been received as of 31 December 2013. Said payment shall be reimbursed in case of execution of suspension or the Court's decision in favor of Turkcell Superonline. On 28 November 2012, two of the said order of payments, each amounting to TL 330 (equivalent to \$155 as at 31 December 2013) and TL 450 (equivalent to \$211 as at 31 December 2013) have been cancelled in favor of Turkcell Superonline which were notified on 23 January 2013 and 28 January 2013, respectively. The said cancellation decisions are appealed by Beykoz Tax Administration. Also, the case of order of payment, amounting to TL 354 (equivalent to \$166 as at 31 December 2013), was rejected. The notification of this decision was received on 19 July 2013 and Turkcell Superonline appealed the decision.

Legal Proceedings (continued)

Dispute with Avea on SMS interconnection termination fees

On 22 December 2006, Avea initiated a lawsuit against the Company claiming that although there was an agreement between the Company and Avea stating that both parties would not charge any SMS interconnection termination fees, the Company has charged SMS interconnection fees for the messages terminating on its own network and also assumed liabilities for the SMS terminating on Avea's network and made interconnection payments to Avea after deducting the net balance of those SMS charges and accruals. Avea requested provisions of Interconnection Agreement regarding SMS pricing to be applied and requested collection of its losses amounting to nominal amount of TL 6,480 (equivalent to \$3,036 as at 31 December 2013) for the period between January 2006 and August 2006 with its accrued interest till payment. On 25 November 2008, the Court decided in favor of Avea. The Company has appealed the decision.

Supreme Court of Appeal reversed the judgment of the Local Court. The Company has applied for the correction in terms of justification of the decision for the Supreme Court's reversal decision. Avea has also applied for the correction of the decision. Supreme Court rejected the request for correction of the decision of Avea, and partially accepted the Company's demand. On 13 December 2011, the Local Court decided to accept the lawsuit again. The Company appealed the decision. The Court of Cassation decided to approve the decision of the First Instance Court. The Company applied for the correction of the decision. The correction of the decision process is still pending.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The Company has paid the principal of TL 6,480 (equivalent to \$3,036 as at 31 December 2013), late payment interest of TL 5,103 (equivalent to \$2,391 as at 31 December 2013) and related fees of TL 524 (equivalent to \$246 as at 31 December 2013) on 30 March 2009.

In line with the court decision stating that charging SMS interconnection termination fees violates the agreement between the Company and Avea, neither SMS interconnection revenue nor SMS interconnection expense has been recognized from February 2005 to 23 March 2007.

Moreover, the Company applied to ICTA for the determination SMS interconnection termination fees and starting from 23 March 2007, the Company has applied the SMS interconnection termination fees announced by ICTA until January 2009. ICTA determined new SMS termination rate in January 2009 upon the application of Avea.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Legal Proceedings (continued)

Dispute with T-Medya

Arbitration procedures regarding three real estates which are in the ownership of the Company in Izmir, Adana and Ankara, are commenced with the letter dated 13 August 2010 against T-Medya who is the lessee of the real estates and delinquent for the period between 2003-2010 rental period, to collect the unpaid rentals and its accrued interest in the amount of TL 8,914 (equivalent to \$4,177 as at 31 December 2013). The arbitration processes are still pending. The arbitral tribunal decided to extend arbitration process until 8 October 2013. T-Medya has confirmed its payables subject to the case with a letter of undertaking, which was presented to the Company in February 2013. The Company presented the letter of undertaking to the arbitral tribunal and requested the decision. The arbitral tribunal decided to extend arbitration process until 8 November 2013. The arbitral tribunal accepted the cases and decided T-Medya to pay TL 7,527 (equivalent to \$3,527 as at 31 December 2013) together with the interest that will occur until the actual payment of the subject amount to the Company.

The bad debt reserve for the receivable amount of TL 6,418 (equivalent to \$3,007 as at 31 December 2013) for T-Medya has been reversed in the consolidated financial statements of the Company as at and for the year ended 31 December 2013 with respect to the letter of undertaking given by T-Medya.

Investigation initiated by ICTA upon a complaint of subscriber on international roaming campaigns

On 30 December 2010, ICTA launched an investigation upon a complaint of a consumer regarding the Company's billing and pricing practices. ICTA looks over the pricing and billing problems stem from the international roaming campaigns within 2009 and 2010. ICTA requested information about the campaigns and the Company submitted its explanations on the issue to ICTA. On 5 July 2011, Investigation Report is submitted to the Company. The Company submitted its defense statement to ICTA within the due date.

ICTA notified the Company on 26 January 2012, to impose an administrative fine amounting to TL 6,847 (equivalent to \$3,208 as at 31 December 2013). Since the administrative fine was paid on 24 February 2012 within 1 month following the notification of the decision of ICTA, 25% discount was applied.

Investigation initiated by ICTA regarding number portability

On 26 January 2011, ICTA launched an investigation regarding rejection of number portability requests and compatibility of reasons to those rejections with Number Portability Regulation. On 23 May 2011, Investigation Report is submitted to the Company. The Company submitted its defense statement to ICTA within due the date.

On 27 October 2011, ICTA decided to impose administrative fine to the Company amounting to TL 981 (equivalent to \$460 as at 31 December 2013) for acting incompatibility to the rejection of number portability requests and TL 2,004 (equivalent to \$939 as at 31 December 2013) for giving false information the Authority. Since the administrative fine was paid on 25 January 2012 within 1 month following the notification of the decision of ICTA, 25% discount was applied.

Legal Proceedings (continued)

Investigation initiated by ICTA upon complaint of subscriber of data tariffs charging

On 9 March 2011, ICTA opened an investigation upon a complaint of a consumer regarding the Company's mischarging of data tariffs. On 6 June 2011, Investigation Report is submitted to the Company. The Company submitted its defense statement to ICTA within the due date.

ICTA notified the Company on 3 October 2011, to impose an administrative fine amounting to TL 1,645 (equivalent to \$771 as at 31 December 2013). Since the administrative fine was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and payment totaling to TL 1,234 (equivalent to \$578 as at 31 December 2013) was made on 1 November 2011. The Company filed a lawsuit on 2 December 2011 for the stay of execution and cancellation of the administrative fine. The stay of execution request has been rejected. The Company objected to the decision. The Regional Ankara Administrative Court rejected the objection. The Court rejected the case. The Company appealed the decision. Council of State rejected the Company's stay of execution requests at appeal phase. The appeal process is still pending.

Investigation initiated by ICTA regarding the Company's compatibility to ICTA's regulations and decisions

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

On 17 February 2011, ICTA launched an investigation on compatibility of the Company to the regulation: *Terms and Conditions on Updating Subscribers Records and Subscription Processes of End Users* , and ICTA's decision on limitation of number of subscriptions, dated 27 October 2009. On 23 March 2011, ICTA carried out an inspection in the Company. On 26 September 2011, Investigation Report is submitted to the Company. The Company submitted its defense statement to ICTA within the due date. According to the decision taken by ICTA on 21 March 2012, the Company was fined a total amount of TL 8,173 (equivalent to \$3,829 as at 31 December 2013) for not complying with aforementioned and relevant regulations. Since the administrative fine was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and TL 6,129 (equivalent to \$2,872 as at 31 December 2013) was paid on 5 June 2012.

Investigation of ICTA on the implementation of article 18 of By-law on Consumer Rights in the Electronic Communications Sector

On 22 February 2011, ICTA decided to investigate compatibility of Company's practices regarding the cancellation procedure which is regulated at article 18 of the *By-law on Consumer Rights in the Electronic Communications Sector*. Investigation Report is submitted to the Company and the Company submitted its defense statement to ICTA within the due date.

ICTA, with its decision which was notified to the Company on 19 August 2011, decided to impose an administrative fine amounting to TL 11,442 (equivalent to \$5,361 as at 31 December 2013). Since the administrative fine paid within 1 month following the notification of the decision of ICTA, 25% discount applied and TL 8,581 (equivalent to \$4,021 as at 31 December 2013) is paid in total on 15 September 2011. On 18 October 2011, the Company filed a lawsuit for the annulment of the decision with stay of execution request. The Court rejected the request of the Company for stay of execution. The Company objected to the decision. The objection was dismissed. The court rejected the lawsuit. The Company appealed the decision. The Council of State rejected the Company's request for stay of execution during the appeal process. The appeal process is still pending.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Investigation of ICTA on the implementation of article 18 of By-law on Consumer Rights in the Electronic Communications Sector (continued)

On the other hand, ICTA, with its decision which was notified to the Company on 1 February 2013, imposed another administrative fine amounting to TL 1,000 (equivalent to \$469 as at 31 December 2013) about the Company's practices regarding the subscription cancellation procedure. Since the administrative fine paid within 1 month following the notification of the decision of ICTA, 25% discount applied and TL 750 (equivalent to \$351 as at 31 December 2013) is paid in total on 15 March 2013. On 1 April 2013, the Company filed a lawsuit for the annulment of the decision with stay of execution request. The Court decided to analyze the Company's stay of execution request after ICTA submits its plea of defense. The Court rejected the Company's request for stay of execution. The Company objected to this decision. The objection was rejected. The lawsuit is pending.

Investigation of ICTA regarding access failures on emergency call services

On 16 June 2011, ICTA decided to initiate an investigation in order to evaluate the Company's access failures realized on emergency call services which are deemed as critically important for end-users. Investigation Report is submitted to the Company on 28 December 2011 and the Company submitted its defense statement to ICTA within the due date.

On 26 June 2012, ICTA decided to impose administrative fine to the Company amounting to TL 1,809 (equivalent to \$848 as at 31 December 2013) with the reasons that the Company has not given priority to the failures and has not given the requested information for the investigation in due time.

Investigation of ICTA regarding access failures on emergency call services (continued)

Since the administrative fine was paid within 1 month beginning from the notification of the decision of ICTA, 25% discount was applied and TL 1,357 (equivalent to \$636 as at 31 December 2013) was paid on 3 October 2012. The Company filed two lawsuits on 5 November 2012 for the stay of execution and cancellation of the decision. The Court rejected the Company's stay of execution demand on the file opened for the cancellation of the administrative fine which was imposed to the Company with the reason that the Company has not given priority to fix the failures. The Company objected to the decision, but objection was rejected. In the other lawsuit, initiated for the cancellation of the administrative fine which was imposed to the Company for not giving the requested information for the investigation in due time, the Court rejected the Company's stay of execution request. The Company objected to the decision. The objections were rejected. The Court rejected the case which was initiated for the cancellation of the administrative fine, imposed to the Company for not giving priority to the access failures; occurred related to the calls which were sent to 112 emergency number. The Company appealed the decision. The appeal process is pending.

Legal Proceedings (continued)

Investigation of ICTA regarding Atlas of Places Only Turkcell Covers distributed with Tempo magazine

On 2 November 2011, ICTA decided to initiate an investigation regarding Atlas of Places Only Turkcell Covers which locations marked on the map of Turkey with only Turkcell coverage. ICTA decided to evaluate the advertisement whether the public and consumers are being misinformed or not.

On 21 March 2012, Investigation Report was submitted to the Company. The Company submitted its defense statement to ICTA within the due date. ICTA, with its decision which was notified to the Company on 6 August 2012, decided to impose an administrative fine amounting to TL 1,635 (equivalent to \$766 as at 31 December 2013). Since the administrative fine paid within 1 month following the notification of the decision of ICTA, 25% discount applied and TL 1,226 (equivalent to \$574 as at 31 December 2013) was paid on 4 September 2012. The Company filed a lawsuit on 2 October 2012 for stay of execution and for the annulment of the decision. The court rejected the stay of execution request. The company objected the decision. The objection was rejected. The court rejected the lawsuit. The Company appealed the decision. The appeal process is still pending.

Dispute with Turk Telekom with respect to numbers beginning with 444

The Company filed a lawsuit on 25 April 2008 against Turk Telekom to collect TL 1,777 (equivalent to \$833 as at 31 December 2013) including principal, overdue interest and delay fee which has been collected by Turk Telekom within the period of March 2007 - February 2008 by pricing the calls started from the Company's network and terminated at the numbers in form of 444 XX XX which are assigned to the Company's subscribers in accordance with special service call termination tariff.

The Court decided in favor of the Company on 23 March 2011. Turk Telekom appealed the decision and the Company replied the appeal request. The Court of Cassation approved the decision of the First Instance Court. Turk Telekom applied for the correction of the decision. The Company replied this request. The Court of Cassation rejected the correction of the decision request and the decision is finalized. Upon the finalization of the Court decision and the Company's request, Turk Telekom has paid 4,337 TL (equivalent to \$2,032 as at 31 December 2013) to the Company on 1 November 2013, and it is accounted in the consolidated financial statements as at and for the year ended 31 December 2013.

The Company filed an enforcement proceeding on 12 May 2011 against Turk Telekom to collect TL 11,511 (equivalent to \$5,393 as at 31 December 2013) including principal amounting to TL 8,024 (equivalent to \$3,760 as at 31 December 2013), overdue interest amounting to TL 2,343 (equivalent to \$1,098 as at 31 December 2013) and late payment fee amounting to TL 1,144 (equivalent to \$536 as at 31 December 2013) which has been collected by Turk Telekom within the period of March 2008 - March 2010 by pricing the calls started from the Company's network and terminated at the numbers in form of 444 XX XX which are assigned to the Company's subscribers in accordance with special service call termination tariff. Turk Telekom objected the enforcement proceeding and the enforcement proceeding has been held. The Company filed a lawsuit for cancellation of objection on 13 September 2011 against Turk Telekom. The Court decided to obtain an expert report for calculating the claim. The expert report is in favor of the Company. The Court accepted the lawsuit during the hearing held on 26 November 2013 and decided that Turk Telekom should refund the amounts subject to this case to the Company with its default interest and 10 % delay penalty and Turk Telekom should also pay the compensation for the unrightful objection to the execution proceeding which is equal to 40 % of the capital in the amount of TL 3,209 (equivalent to \$1,504 as at 31 December 2013) to the Company. Turk Telekom appealed the decision. The Company replied this request. The appeal process is still pending.

Legal Proceedings (continued)

Dispute with Turk Telekom with respect to numbers beginning with 444 (continued)

Turk Telekom, filed thirteen enforcement proceedings to collect the total amount of TL 31,682 (equivalent to \$14,844 as at 31 December 2013) composed of principle, overdue interest and delay fee which was unpaid by the Company because of the overly accrue by Turk Telekom for the calls terminated at the numbers in form of 444 XX XX and videocall, data reconciliation and 118-32 service invoice costs for periods of April 2010-November 2011. The Company objected the enforcement proceedings. Turk Telekom filed eight nullity of objection lawsuits for the eight enforcement proceedings claiming the total amount of TL 21,359 (equivalent to \$10,007 as at 31 December 2013) composed of principle, overdue interest and delay fee with enforcement proceeding denial compensation which is 40% of the receivable balance. Upon examination of three of the lawsuits, the First Instance Court decided to consolidate the lawsuits under the first lawsuit initiated by Turk Telekom. The court decided to obtain expert reports in two lawsuits. The expert reports are in favour of the Company. The court decided to obtain supplementary expert reports. The supplementary expert reports are also in favour of the Company. On the other hand, in the first lawsuit initiated by Turk Telekom, the court decided to obtain an expert report. Two of the lawsuits are rejected in favor of the Company; however the other cases are still pending. Turk Telekom appealed those aforementioned two cases. The Company replied this request. The Court decided to consolidate two of the lawsuits, which were filed for the period of September 2011 and October 2011, with the first case.

On 7 December 2011, Turk Telekom initiated a lawsuit on the ground that the Company did not direct the calls in form of 444 XX XX to Turk Telekom and terminated at its own network and requested TL 1,000 (equivalent to \$469 as at 31 December 2013) monetary compensation by reserving its right for surpluses. The court decided to obtain an expert report. Expert report is in favor of the Company. The Court decided to obtain a supplementary expert report. The expert report is partially in favor of the Company. The case is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Legal Proceedings (continued)

Dispute with Turk Telekom with respect to Volume-Based Discount Agreement

The Company and Turk Telekom have signed the Volume-Based Discount Promotion for User with Low-Use Commitment Agreement . However, Turk Telekom did not apply the discount for the period between January-April 2011. The Company filed a lawsuit on 23 February 2012 to collect TL 4,530 (equivalent to \$2,122 as at 31 December 2013) including principal, overdue interest and delay fee which has been overly collected by Turk Telekom within the period of January-April 2011 in contravention of the rules of Volume-Based Discount Promotion for User with Low-Use Commitment Agreement . The Court decided to obtain an expert report. The expert committee submitted their report to the Court. At the hearing dated 18 December 2012 the court decided in favor of the Company for the part of TL 640 (equivalent to \$300 as at 31 December 2013) and rejected the remaining part. The Company appealed the decision's rejected part and Turk Telekom appealed the decision's accepted part. The Company replied the appeal request of Turk Telekom. The Court of Cassation approved the first instance court's decision. The Company applied to the correction of the decision. The correction of the decision process is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Dispute with MTN

In 2004, the Company was awarded Iran's first private GSM license through an international tender. Subsequently the Company was barred from concluding its license arrangement, and Iran entered into a license agreement with the South Africa based operator MTN, instead of the Company. With respect to newly received information by the Company indicating that the signing of the license agreement with MTN instead of the Company was a consequence of MTN's actions at that time. In light of the harm caused by MTN's actions to both the Company and to its shareholders, the Company filed a lawsuit against MTN on 28 March 2012 seeking the compensation of such damages.

Considering extensive business dealings of both companies in the United States and due to the allegations that MTN breached rules of international law, the lawsuit has been filed in United States District Court for the District of Columbia. The lawsuit has been withdrawn in order for filing it at another jurisdiction.

The Company filed a lawsuit against MTN based on the same allegations before the South Gauteng High Court, Johannesburg, Republic of South Africa. The lawsuit is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Legal Proceedings (continued)

Dispute with ICTA regarding annual radio utilization fees

The Company filed a lawsuit before ICC in April 2012, claiming that the Company is not obliged to pay treasury share and ICTA Fee in accordance with the 8th and 9th Articles of the Concession Agreement, respectively, on annual utilization fees deducted from the prepaid subscribers and return of overpaid TL 5,852 (equivalent to \$2,742 as at 31 December 2013) treasury share for the period between August 2011 and February 2012. The Tribunal has partially accepted the case in favor of the Company and awarded that the Company is entitled to receive overpaid treasury share amounting TL 4,100 (equivalent to \$1,921 as at 31 December 2013) together with simple legal interest. Two lawsuits one by ICTA, and one by Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications were filed for cancellation of the Final Award. The Court decided to obtain an expert report in the case filed by Undersecretariat of Treasury and the Ministry of Transport. The lawsuit is still pending. The case filed by ICTA has been dismissed.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Investigation of ICTA regarding campaign notifications

On 2 July 2012, ICTA decided to initiate an investigation regarding some of the tariffs and campaigns of the Company applied in 2011. ICTA decided to evaluate whether these tariffs and campaigns were consistent with tariff notification procedures and regulations or not. Investigation period has been determined as 4 months. On 30 October 2012, Investigation Report was submitted to the Company. The Company submitted its defense statement to ICTA within the due date.

Investigation of the Competition Board regarding vehicle tracking services

The decision of the Competition Board based on a preliminary investigation dated 2 April 2008, on which there are no findings of an infringement of competition rules, regarding exclusive vehicle tracking services of the Company, was cancelled by the Council of State. Accordingly, the Competition Board decided to initiate an investigation regarding the issue. The preliminary investigation report has been sent to the Company on 31 July 2012 and the investigation took place as on-site examinations and inspections. The Company has submitted all its written defenses to the Competition Board within due dates and an oral hearing has been requested to submit Company's further defences. After defense proceedings, the Competition Board decided that the Company infringed competition rules by exclusive practices on vehicle tracking services business field and imposed a fine amounting TL 39,727 (equivalent to \$18,614 as at 31 December 2013). The decision was pronounced 20 December 2013. The reasoned judgment has not been delivered to the Company yet and term of litigation and the payment period has not been started yet.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013 (31 December 2012: None).

Legal Proceedings (continued)

Administrative fine imposed by the ICTA regarding base stations

Istanbul Regional Directorate of ICTA, has decided to impose an administrative fine to the Company in the amount of TL 2,057 (equivalent to \$964 as at 31 December 2013), on the ground that the measurement reports of 484 base stations was not submitted to the ICTA by the Company in the 30-day period pursuant to the regulations, after commissioning of systems are activated. The Company filed a lawsuit on 25 April 2008 for stay of execution and for the annulment of the decision. The court rejected the lawsuit. The Company appealed the decision. The Council of State reversed the first instance court's decision on the ground that Istanbul Regional Directorate of ICTA has not been authorized to impose aforementioned administrative fine. The Court of First Instance decided to accept the lawsuit in accordance with the reversal decision of The Council of State. ICTA appealed the decision. The Company replied the appeal request. The appeal process is still pending.

Then the ICTA gave the same decision with the Regional Directorate gave before and imposed an administrative fine to the Company in the amount of TL 2,057 again (equivalent to \$964 as at 31 December 2013) pursuant to the regulations in force in the relevant time by its decision which was notified to the Company on 5 December 2012. The Company filed a lawsuit for stay of execution and for the annulment of the decision. The Court rejected the Company's request. The Company objected to the decision. The objection was also rejected.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Since the administrative fine was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and TL 1,542 (equivalent to \$722 as at 31 December 2013) was paid on 3 January 2013.

Inspection Regarding ICTA decision on automatically renewed periodic services

The Company has been inspected in order to determine whether it operates in accordance to former decisions of ICTA Board on automatically renewed periodic services. The report regarding the inspection has been sent to the Company on 30 October 2012. The Company has submitted its written and oral defence within due dates. After defence proceedings, ICTA decided that the Company didn't send the mandatory messages to the subscribers in most of the automatically renewed periodic services and imposed a fine amounting TL 1,666 (equivalent to \$781 as at 31 December 2013). Since the administrative fine was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and TL 1,250 (equivalent to \$586 as at 31 December 2013) was paid on 22 February 2013.

Tax penalty as a result of tax investigation regarding deduction of Investment Incentive in Corporate Tax Base Calculation of the year 2007

Investment incentive amount taken into consideration for 2007 fiscal years corporate tax calculations were investigated by Fiscal authority. It is mandatory that aforementioned exclusions driven from investment expenditures which reduce corporate tax base shall be in economic and technical integrity with investments which began before the date of 31 December 2005. As a result of the tax investigation, it was assessed that the investment expenditures which are not included in Investment Incentive Certificate numbered 4559 were a part of our general network investments; therefore it was claimed that these mentioned expenditures should be considered as unrelated with the investment projects in progress as of 31 December 2005. As a result, it was claimed that those certain amounts of investment expenditures should not be taken into account in order to reduce corporate tax base. Tax investigation report, notices for tax assessment amounting TL 14,548 (equivalent to \$6,816 as at 31 December 2013) and related penalty amounting TL 21,822 (equivalent to \$10,224 as at 31 December 2013) were notified to the Company on 27 December 2012.

Legal Proceedings (continued)

Tax penalty as a result of tax investigation regarding deduction of Investment Incentive in Corporate Tax Base Calculation of the year 2007 (continued)

On 24 April 2013, the Company reconciled with fiscal authority to pay tax assessment with 30% of discount amounting TL 10,184 (equivalent to \$4,772 as at 31 December 2013) and related interest amounting TL 11,156 (equivalent to \$5,227 as at 31 December 2013). Tax penalty amounting TL 21,822 (equivalent to \$10,224 as at 31 December 2013) was nullified. Total amount was paid on 24 May 2013.

Based on the management opinion, the Company had accrued a provision amounting to TL 29,874 (equivalent to \$13,997 as at 31 December 2013) in the consolidated financial statements prepared as at and for the year ended 31 December 2012. After the reconciliation with the fiscal authority provision amounting to TL 8,534 (equivalent to \$3,999 as at 31 December 2013) has been recorded as income in the consolidated financial statements as at and for the year ended 31 December 2013.

Dispute on termination of agreements with A-Tel

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

The Service Provider Agreement dated 9 July 1999 and Distributor Agreement dated 1 August 1999 signed between Turkcell and A-Tel, a company dealing with distribution and sale of the prepaid lines and owned equally by Turkcell and SDIF as of 31 December 2013, have been terminated by Turkcell effective from 1 August 2012. After this termination, SDIF filed a lawsuit and reserving its rights for surpluses, requested TL 131,880 (equivalent to \$61,791 as at 31 December 2013) compensation and interest to be calculated from 1 August 2012, for its alleged loss occurred from termination of the agreements.

Additionally, SDIF requested provisional seizure to prevent transfer of Turkcell shares in A-Tel to third parties. The court, after holding first examination, rejected provisional request of SDIF. The lawsuit is still pending. SDIF by its letter dated 4 July 2013 has notified A-Tel that it has transferred its 50% of shares in A-Tel to Media Holdings AS, Bilgin Holding AS, Bilgin Yayincilik AS and Onay Sevket Bilgin on 4 July 2013. On the same day, those shares have been transferred to Bilgin Holding AS. SDIF also declared that it has assigned its rights out of the court case to Bilgin Holding AS. The Court rejected the case on the procedural grounds. Bilgin Holding A.Ş. and SDIF have appealed the court decision. The Company replied to this appeal request. The appeal process is still pending.

Bilgin Holding A.S. initiated a lawsuit against the Company, members of board of directors and general assembly representatives of the Company, claiming TL 100 (equivalent to \$47 as at 31 December 2013) together with the legal interest occurred as of 31 August 2012 for alleged fund losses of A-Tel as a result of the termination of the Service Provider Agreement dated 9 July 1999 and Distributor Agreement dated 1 August 1999 signed between A-Tel and the Company. The lawsuit is still pending.

Administrative fine imposed by the ICTA regarding international tariffs and campaigns

ICTA performed an investigation regarding all international tariffs and campaigns in 2011. As a result of the investigation, ICTA has decided to impose two administrative fines totaling to TL 825 (equivalent to \$387 as at 31 December 2013) to the Company; for not clearly stating the names of the tariff packages on the consumer invoices and for presenting inaccurate and misleading information to ICTA. In the aforementioned decision, ICTA also initiated a further investigation on the Company's international roaming practices. Decisions of ICTA regarding the administrative fines were notified to the Company on 22 February 2013.

Since the administrative fine was paid within 1 month following the notification of the decisions of ICTA, 25% discount was applied and TL 619 (equivalent to \$290 as at 31 December 2013) was paid on 22 March 2013.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Administrative fine imposed by the ICTA regarding notification of campaigns

ICTA pursued an investigation on whether the Company is abiding by the legislation on the procedures regarding notification of campaigns to ICTA or not. The investigation was initiated on 2 February 2012. ICTA found out that the Company did not comply with the afore-mentioned notification procedures in 6 campaigns and imposed an administrative fine of 736 TL (equivalent to \$345 as at 31 December 2013). Decision of ICTA regarding the administrative fine was notified to the Company on 9 May 2013.

Since the administrative fine was paid within 1 month following the notification of the decisions of ICTA, 25% discount was applied and TL 552 (equivalent to \$259 as at 31 December 2013) was paid on 7 June 2013.

The allegation of deficient treasury share payment and the penalty imposed

The Treasury Controller's Board under the Undersecretariat of Treasury, for the period of January 2009 – 31 December 2009 and 10

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

March 2006 – 31 December 2008 requested additional treasury share payment in the amount of TL 16,387 (equivalent to \$7,678 as at 31 December 2013) by alleging that the Company paid the treasury share deficient in accordance with the 2G Concession Agreement. The Company has objected to the amount of TL 16,121 (equivalent to \$7,553 as at 31 December 2013) of the requested amount on the ground that it was contrary to the Concession Agreement, and paid the remaining portion of it with reservation. ICTA by its letter dated 1 August 2013, imposed a penalty in the amount of TL 47,648 (equivalent to \$22,325 as at 31 December 2013) according to the Concession Agreement over the Treasury Share amount which was alleged that was paid deficient by the Company. Undersecretariat of Treasury revised the unpaid treasury share amount as TL 16,062 (equivalent to \$7,526 as at 31 December 2013) by its letter dated 16 August 2013 and consequently ICTA by its letter dated 4 September 2013 revised the amount of penalty as TL 47,505 (equivalent to \$22,258 as at 31 December 2013).

The Company requested a preliminary injunction from the Ankara Civil Court of First Instance in order to provide the suspension of the payment of treasury share of TL 16,062 (equivalent to \$7,526 as at 31 December 2013) and the penalty of TL 47,505 (equivalent to \$22,258 as at 31 December 2013) until the end of the case to be filed before ICC Arbitration Court. The Court accepted the Company's request. ICTA and Undersecretariat of Treasury and the Ministry of Transport objected the decision of the Court. The Court rejected ICTA's objections. ICTA and Undersecretariat of Treasury and the Ministry of Transport appealed the decision. The appeal process is still pending.

ICTA also by its letter dated 5 August 2013 requested additional contribution share payment in the amount of TL 382 (equivalent to \$179 as at 31 December 2013) for the period of 1 January 2009 – 31 December 2009 and 10 March 2006 – 31 December 2008 based on the Report of the Treasury Controller's Board by alleging that it was paid deficient. ICTA by its letter dated 13 September 2013 has revised the amount of additional contribution share payment as TL 381 (equivalent to \$179 as at 31 December 2013) and requested it to be paid. The Company requested a preliminary injunction from the Ankara Civil Court of First Instance in order to provide the suspension of the payment of contribution share until the end of the case to be filed before ICC Arbitration Court. The Court accepted the Company's request. ICTA objected the decision of the Court. The Court rejected ICTA's objections.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

The allegation of deficient treasury share payment and the penalty imposed (continued)

The Company commenced a lawsuit on 2 October 2013 before ICC, claiming that the Company is not obliged to pay treasury share in the amount of TL 16,062 (equivalent to \$7,526 as at 31 December 2013) and contribution share in the amount of TL 381 (equivalent to \$179 as at 31 December 2013) requested based on the Treasury Auditors Board Report relating the Company's Treasury Share calculations during 1 January 2009 - 31 December 2009 in respect of the 2G Concession Agreement, which was revised by the letter of Undersecretariat of Treasury dated 16 August 2013 and conventional penalty in the amount of TL 47,505 (equivalent to \$22,258 as at 31 December 2013) requested by the letter of ICTA dated 20 August 2013. The Arbitral Tribunal decided to hold a Case Management Conference on 8 April 2014. The lawsuit is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013.

The Treasury Controller's Board under the Undersecretariat of Treasury requested additional treasury share payment, for the period of 30 April 2009 - 31 December 2009, in the amount of TL 1,193 (equivalent to \$559 as at 31 December 2013) by alleging that the Company paid the treasury share deficient in accordance with the 3G Concession Agreement. The Company has objected the amount of TL 1,184 (equivalent to

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

\$555 as at 31 December 2013) of the requested amount on the grounds that it was contrary to the Concession Agreement, and paid the remaining portion of it, with reservation. The Company filed a lawsuit; for the cancellation of the Undersecretariat of Treasury's administrative act, which is related to the additional treasury share request of the Undersecretariat of Treasury and the Treasury Report which is the legal basis of that aforementioned administrative act; against Undersecretariat of Treasury, ICTA and Ministry of Transportation, Maritime Affairs and Communications before the Council of State. The case is still pending.

ICTA by its letter dated 1 August 2013 imposed a penalty in the amount of TL 3,119 (equivalent to \$1,461 as at 31 December 2013) according to the Concession Agreement over the Treasury Share amount which was alleged that was paid deficient by the Company.

The Company filed a lawsuit against ICTA and Undersecretariat of Treasury for the cancellation of ICTA's decision which is the legal basis of the aforementioned penalty, before the Council of State.

ICTA also by its letter dated 5 August 2013 requested additional contribution share payment according to the 3G Concession Agreement in the amount of TL 28 (equivalent to \$13 as at 31 December 2013) for the period of 30 April 2009 – 31 December 2009 based on the Report of the Treasury Controller's Board by alleging that it was paid deficient. The Company filed a lawsuit against ICTA before the Council of State, for the cancellation of ICTA's decision and administrative act related to ICTA's additional contribution payment request. The case is still pending.

The total amount of TL 5,195 (equivalent to \$2,434 as at 31 December 2013) mentioned on the letters of ICTA dated 1 August 2013 and 5 August 2013, were paid to ICTA on 12 September 2013 and recognized as expense in the consolidated financial statements as at and for the year ended 31 December 2013.

Legal Proceedings (continued)

Investigation Initiated by Competition Authority for Exclusive Agreements for the Base Station Areas

The decision of the Competition Board based on a preliminary investigation dated 22 April 2009, on which there are no findings of an infringement of competition rules, regarding Company's exclusive agreements for the areas where base stations are erected, was cancelled by the Council of State. Accordingly, the Competition Board decided to initiate an investigation regarding the issue. The notification of the investigation has been received by the Company on 16 August 2013. The Company has submitted its first written defense and additional information requested within due dates. Competition Board decided to extend investigation period for additional 2 months.

Permission request made to Spor Toto regarding the change of Inteltek's shareholder structure

Intralot Integrated Lottery Systems & Services (Intralot SA), one of the shareholders of Inteltek, notified Inteltek regarding the plan of share transfer and merger transactions in Intralot group. Inteltek requested a written permission from Spor Toto Directorate on 30 January 2013 within the frame of Article 18/2 of Agreement on Assigning Fixed Odds and Joint Betting Games Based on Sports Competition to Legal Persons described on Private Law dated 29 August 2008 and signed between Inteltek and Spor Toto. As a result of the implied rejection of Inteltek's permission request by Spor Toto, Inteltek filed a lawsuit for the cancellation and the stay of execution of this implied rejection. The Court has decided to reject the lawsuit because of the lack of competence. Inteltek appealed the decision. The appeal process is still pending.

Dispute with Fokus Insaat ve Turizm San. Tic. AS

Ankara Incity Fiber Optic Cabling Infrastructure Implementation contract was signed by Fokus İnsaat ve Turizm San. Tic. AS. (Fokus) and Turkcell Superonline. Fokus cancelled the contract and initiated a lawsuit for damages on 24 April 2013. Fokus requested TL 10,636 (equivalent to \$4,983 as at 31 December 2013) for the unpaid fee of the completed works and also TL 24,997 (equivalent to \$11,712 as at 31 December 2013) for the work order given jobs together with the applicable past-due interest. Additionally, it is stated that TL 53,756 (equivalent to \$25,187 as at 31 December 2013) is reserved for revenue loss. For this lawsuit, exchange of petitions are completed.

Turkcell Superonline initiated a lawsuit against Fokus Insaat ve Turizm San. Tic. A.S. (Fokus) because of unjust termination of the agreement and obstinacy. Total value of this action of debt is TL 9,324 (equivalent to \$4,369 as at 31 December 2013), Fokus takes motion for enlargement of time to plead to the charge.

The request of joinder of Turkcell Superonline is accepted.. Lawsuits which litigate against both sides are consolidated. For this lawsuit, replication was presented on 27 February 2014 by Turkcell Superonline.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the period ended 31 December 2013.

The Lawsuit Filed By Turkish Wrestling Federation against the Commercials of the Company

Turkish Wrestling Federation filed a lawsuit against the Company to recover its damages in the amount of TL 2,500 (equivalent to \$1,171 as at 31 December 2013) on the grounds that the Company caused its damage by using the name Türkiye Güreş Federasyonu and Turkish Wrestling Federation on the Company's commercials without taking its permission. The Court decided to obtain an expert report. The expert report is in favour of the Company. Wrestling Federation objected to the report. The Court rejected the case in favour of the Company. The reasoned judgment hasn't been delivered to the Company yet.

34. Commitments and Contingencies (continued)

Legal Proceedings (continued)

Investigation initiated by ICTA on International Roaming Calls

ICTA decided to initiate an investigation after an inspection regarding Company's international roaming tariffs and campaigns, on 23 January 2013. The scope of the investigation is to determine the magnitude of the practice conducted by the Company by overcharging some international roaming customers. An on-site inspection has been commenced between 15 April 2013 and 19 April 2013. ICTA Board decided that there is no breach regarding the investigation.

Investigation initiated by ICTA on Limited Usage Services

ICTA initiated an investigation in order to determine whether the Company is in compliance with the regulations on limited usage services. The ICTA Board decided that the Company's practices are incompatible with the ICTA regulations and imposed an administrative fine of TL 18,539 (equivalent to \$8,686 as at 31 December 2013) to the Company. The Board also obliged the Company to make a reimbursement amounting TL 37,184 (equivalent to \$17,422 as at 31 December 2013) to the subscribers within six months.

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Since the administrative fine amounting to TL 18,539 (equivalent to \$8,686 as at 31 December 2013) was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and payment amounting to TL 13,905 (equivalent to \$6,515 as at 31 December 2013) was made on 31 January 2014. The Company filed a lawsuit on 4 February 2014 for the stay of execution and the cancellation of the aforementioned act and decision. The case is pending.

The Company accrued a provision for the fine in the consolidated financial statements as at and for the year ended 31 December 2013.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation regarding reimbursement to subscribers is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the year ended 31 December 2013.

Investigation Initiated by ICTA on Subscription Contracts and Invoicing

ICTA pursued an investigation to detect whether the necessary details on subscription contracts are duly filled, the Company keep the compulsory documents related with the subscription processes and correctly bill the randomly selected customers invoices. The ICTA Board concluded the investigation reaching a decision to impose an administrative fine of TL 1,775 (equivalent to \$832 as at 31 December 2013) to the Company, due to billing mistakes, on 9 December 2013.

Since the administrative fine was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and payment amounting to TL 1,331 (equivalent to \$624 as at 31 December 2013) was made on 18 February 2014.

The Company accrued a provision for the related amount of the fine in the consolidated financial statements as at and for the year ended 31 December 2013.

Legal Proceedings (continued)

Investigation Initiated by ICTA about Processing Personal Data

ICTA commenced an investigation in order to determine whether Company is in compliance with the regulations on Processing Personal Data and Protecting of Secrecy. As a result of the investigation ICTA decided to impose an administrative fine to the Company on 23 January 2014, amounting to 1,413 TL (equivalent to \$662 as at 31 December 2013).

Based on the management opinion, the Company accrued provision for the amount TL 1,059 (equivalent to \$496 as at 31 December 2013) in the consolidated financial statements prepared as at and for the year ended 31 December 2013; since the administrative fine will be paid within 1 month following the notification of the decision of ICTA, and 25% discount will be applied.

Administrative fine imposed by the ICTA regarding the number of subscribers and radio utilization and usage fees of 2010-2011

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

ICTA commenced an investigation on the correctness of the subscription numbers reports of 2010 and 2011 which is essential for the payment of radio utilization and usage fee, and on-site investigations have been commenced.

The inquiry of investigation which includes the findings of the investigation was delivered to the Company on 31 July 2013. The inquiry claims that the Company less paid radio utilization and usage fees amounting to TL 67,497 (equivalent to \$31,625 as at 31 December 2013) than it had to be for the years 2010 and 2011, and an administrative fine should be imposed. On 2 September 2013 the Company filed its written defence, and an oral hearing was held before the ICTA Board on 11 December 2013 to submit Company's further comments. ICTA issued an official warning to the Company for the amount of TL 4,512 (equivalent to \$ 2,114 as at 31 December 2013) regarding the radio utilization and usage fee which the Company allegedly did not pay for the year 2010-2011. In addition, ICTA imposed an administrative fine to the Company amounting to TL 2,648 (equivalent to \$ 1,241 as at 31 December 2013) for the amount of TL 62,399 of radio utilization and usage fee which the Company allegedly did not pay for the year 2010-2011 and ICTA initiated an in-depth investigation to further inspect the correctness of the radio utilization and usage fee payments regarding terms do not fall under the scope of this investigation. No provision is recognized regarding the administrative fine amounting to TL 2,648 in the consolidated financial statements as at and for the period ended 31 December 2013.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation regarding the additional utilization and usage fees request amounting to TL 67,497 is uncertain, thus, no provision is recognized in the consolidated financial statements as at and for the period ended 31 December 2013.

Investigation initiated by ICTA on subscription numbers and radio utilization and usage fees of 2012.

ICTA has commenced on-site investigations on the correctness of the Company's subscriber numbers report of 2012 which is essential for radio utilization and usage fees. The inquiry of investigation which includes the findings of the investigation was delivered to the Company on 3 February 2014.

The inquiry claims that, the Company should pay the amount of TL 45,509 (equivalent to \$21,323 as at 31 December 2013) for the radio utilization and usage fees, which the Company allegedly did not pay for the year 2012, and an administrative fine should be imposed. The Company filed its written defences on 5 March 2014.

Legal Proceedings (continued)

Investigation initiated by ICTA on Mobile Number Portability

ICTA initiated an investigation on Company's compliance with the mobile number portability regulations. As a result of the investigation ICTA decided to impose an administrative fine to the Company on 21 January 2014, amounting to 1,059 TL (equivalent to \$496 as at 31 December 2013).

No provision is recognized in the consolidated financial statements as at and for the period ended 31 December 2013.

Investigation initiated by ICTA on ICTA Board Decision No:149

ICTA carried out an investigation whether the Company is compliant with ICTA Board decision number 149 and related decisions, which set a minimum rate for the Company's on-net prices and an obligation to report the actual prices for tariffs.

As a result of the investigation ICTA imposed an administrative fine of TL 4,061 (equivalent to \$ 1,903 as at 31 December 2013) to the Company, for not complying with its reporting obligation set by the aforementioned ICTA decision, by submitting false and misleading reports and information to the ICTA and for not keeping the necessary information regarding the investigation during the term of the investigation.

No provision is recognized in the consolidated financial statements as at and for the period ended 31 December 2013.

Investigation initiated by ICTA on the subscriber information updates

ICTA decided to investigate the Company's compliance with the regulations related to updating of subscriber informations. On-site inspections took place on several dealers and at Company headquarters.

As a result of the investigation ICTA issued an official warning to the Company for some violation claims and impose an administrative fine to the Company amounting to TL 177 (equivalent to \$ 83 as at 31 December 2013).

No provision is recognized in the consolidated financial statements as at and for the period ended 31 December 2013.

The significant agreements are as follows:

Agreements with KVK Teknoloji:

KVK Teknoloji, incorporated on 23 October 2002, one of the Company's principal simcard distributors, is a Turkish company, which is affiliated with Cukurova Group, one of the main shareholders of the Company. In addition to sales of simcards and scratch cards, the Company has entered into several agreements with KVK Teknoloji, in the form of advertisement support protocols, each lasting for different periods pursuant to which KVK Teknoloji must place advertisements for the Company's services in newspapers. The objective of these agreements is to promote and increase handset sales with the Company's prepaid and postpaid brand simcards, thereby supporting the protection of the Company's market share in the prevailing market conditions. The prices of the contracts were determined according to the cost of advertising for KVK Teknoloji and the total advertisement benefit received, reflected in the Company's market share in new subscriber acquisitions. Distributors' campaign projects and market share also contributed to the budget allocation. The selling prices for simcard and scratch card sales to KVK Teknoloji do not differ from the selling prices to other distributors.

Loss for the year	(32,719)	(56,068)	(75,791)

Edgar Filing: TURKCELL ILETISIM HIZMETLERI A S - Form 20-F

Other comprehensive income / (loss) for the year	(65)	591
Net cash inflow from operating activities	76,382	116,870
Net cash inflow / (outflow) from financing activities	(46,437)	1,064

Financell has pledges on shares and all assets of Astelit including bank accounts. Additionally, Financell has a second priority pledge on Euroasia shares held by System Capital Management Limited together with a guarantee and indemnity given by System Capital Management Limited. Financell has rights to initiate legal proceedings arising out of pledges and guarantee under certain conditions as explained in Note 26. As no waiver has been received for defaulted SCM loan, this loan has been classified in current liabilities. As a result of the default, SCM has a right to demand immediate loans repayment although doesn't have any pledge rights as explained in Note 26.
