Item 2.02. Results of Operations and Financial Condition.

Item 7.01 Regulation FD Disclosure.

The following information is furnished to the Securities and Exchange Commission under both Item 2.02 and Item 7.01 of this Form 8-K.

On January 19, 2006, Sandy Spring Bancorp, Inc. issued a news release regarding its results of operations and financial condition for the quarter and year ended December 31, 2005. The text of the press release is included as Exhibit 99 to this report. The Company will include final financial statements and additional analyses as part of its Form 10-K for the year ended December 31, 2005.

Non-GAAP Financial Measure. Exhibit 99 includes disclosure and discussion of a traditional efficiency ratio that is a non-GAAP financial measure as defined in Commission Regulation G and Item 10 of Commission Regulation S-K. The issuer has for many years used this traditional efficiency ratio as a measure of operating expense control and efficiency of operations. Management believes that this traditional ratio better focuses attention on the operating performance of the issuer over time than does a GAAP based ratio, and is highly useful in comparing period-to-period operating performance of the Company's core business operations. It is used by management as part of its assessment of its performance in managing noninterest expenses. However this measure is supplemental, and is not a substitute for an analysis of performance measures based on GAAP. Exhibit 99 also includes disclosure and discussion of the GAAP-based efficiency ratio and the differences between the two ratios. The traditional efficiency ratio used by the issuer may not be comparable to GAAP or non-GAAP efficiency ratios reported by other financial institutions.

Item 9.01 Financial Statements and Exhibits.

- (a) Financial statements of businesses acquired. Not applicable.
- (b) Pro forma financial information. Not applicable.
- (c) Exhibits. Exhibit 99-News Release dated January 19, 2006.
