Item 8.01. Other Events

In August, 2010, Northern States Power Company, a Wisconsin corporation and wholly owned subsidiary of Xcel Energy Inc, (NSP-Wisconsin) filed a request with the Public Service Commission of Wisconsin (PSCW) to reopen the 2010 rate case and increase retail electric rates for 2011 by \$29.1 million, or 5.4 percent, based on a forecast 2011 test year. As part of the resolution of its 2010 electric rate case, the PSCW allowed NSP-Wisconsin to file an application to reopen the 2010 rate case for the limited purpose of updating electric rates for 2011 to reflect anticipated increases in fixed charges, fuel, and the pension-related components of the interchange agreement.

The requested increase in electric rates is primarily related to production and transmission fixed charges, specifically new investment in cleaner sources of energy and transmission lines to help reliably meet customers' electric needs as well as forecast cost increases for fuel and purchased power. Partially offsetting these increased costs is a refund of the Wisconsin customers' share of excess funds in the Monticello nuclear generating plant external decommissioning fund. No changes are requested to the capital structure or return on equity authorized by the PSCW in the 2010 base rate case.

On Nov. 5, 2010 the PSCW staff filed their direct testimony recommending an increase of \$20.1 million or 3.7 percent. The major cost components of the requested increase and PSCW staff recommendations are summarized below:

(Millions of Dollars)	NSP-Wisconsin's Request	PSCW Staff Recommendation
Production and transmission fixed charges	\$ 19.3	\$ 16.8
Fuel and purchased power	12.1	6.6
Other	3.5	2.5
Monticello nuclear decommissioning fund refund	(5.8)	(5.8)
Total	\$ 29.1	\$ 20.1

The only other party to file direct testimony was the Wisconsin Industrial Energy Group (WIEG). WIEG's testimony advocates for an alternate class cost allocation and rate design that would reduce the size of the rate increase for large energy consumers.

Rebuttal testimony from all parties will be filed on Nov.12, 2010, and the PSCW will hold technical and public hearings on Nov. 17, 2010. NSP-Wisconsin has requested that the PSCW approve this application to allow new rates to be effective Jan. 1, 2011.

Except for the historical statements contained in this 8-K, the matters discussed herein, including the expected impact of rate cases, are forward-looking statements that are subject to certain risks, uncertainties and assumptions. Such forward-looking statements are intended to be identified in this document by the words "anticipate," "believe," "estimate," "expect," "intend," "may," "objective," "outlook," "plan," "project," "possible," "potential," "should" and similar expressions. results may vary materially. Forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update them to reflect changes that occur after that date. Factors that could cause actual results to differ materially include, but are not limited to: general economic conditions, including the availability of credit and its impact on capital expenditures and the ability of Xcel Energy and its subsidiaries to obtain financing on favorable terms; business conditions in the energy industry; actions of credit rating agencies; competitive factors, including the extent and timing of the entry of additional competition in the markets served by Xcel Energy and its subsidiaries; unusual weather; effects of geopolitical events, including war and acts of terrorism; state, federal and foreign legislative and regulatory initiatives that affect cost and investment recovery, have an impact on rates or have an impact on asset operation or ownership or impose environmental compliance conditions; structures that affect the
