OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-06605

EQUIFAX INC.

Edgar Filing: EQUIFAX INC - Form 10-K

(Exact name of registrant as specified in its charter)

Georgia	58-0401110
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
1550 Peachtree Street, N.W.	
Atlanta, Georgia	30309
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code: 404-885-8000

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, \$1.25 par value per share	New York Stock Exchange
Common Stock Purchase Rights	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None.

Indicate by check mark if Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Exchange Act ("Act"). YES NO

Indicate by check mark if Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. YES NO

Indicate by check mark whether Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Edgar Filing: EQUIFAX INC - Form 10-K

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files).

YES NO

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). YES NO

As of June 30, 2012, the aggregate market value of Registrant's common stock held by non-affiliates of Registrant was approximately \$5,584,579,835 based on the closing sale price as reported on the New York Stock Exchange. At January 31, 2013, there were 120,452,130 shares of Registrant's common stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of Registrant's definitive proxy statement for its 2013 annual meeting of shareholders are incorporated by reference in Part III of this Form 10-K.

PART I

ITEM 1. BUSINESS

OVERVIEW

Equifax Inc. is a leading global provider of information solutions and human resources business process outsourcing services for businesses and consumers. We have a large and diversified group of clients, including financial institutions, corporations, governments and individuals. Our products and services are based on comprehensive databases of consumer and business information derived from numerous types of credit, financial assets, telecommunications and utility payment, employment, income, public record, demographic and marketing data. We use advanced statistical techniques and proprietary tools to analyze all available data, creating customized insights, decision-making solutions and processing services for our clients. We help consumers understand, manage and protect their personal information and make more informed financial decisions. Additionally, we are a leading provider of payroll-related and human resource management business process outsourcing services in the United States of America, or U.S.

We currently operate in three global regions: North America (U.S. and Canada), Europe (the United Kingdom, or U.K., Spain and Portugal) and Latin America (Argentina, Chile, Costa Rica, Ecuador, El Salvador, Honduras, Paraguay, Peru and Uruguay). We also maintain support operations in the Republic of Ireland, Chile and Costa Rica. We have an investment in the second largest consumer and commercial credit information company in Brazil and offer credit services in Russia and India through joint ventures.

Equifax was originally incorporated under the laws of the State of Georgia in 1913, and its predecessor company dates back to 1899. As used herein, the terms Equifax, the Company, we, our and us refer to Equifax Inc., a Georgia corporation, and its consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only Equifax Inc.

We are organized and report our business results in five operating segments, as follows:

U.S. Consumer Information Solutions (USCIS) — provides consumer information solutions to businesses in the U.S. including online consumer information, decisioning technology solutions, fraud and identity management services, portfolio management services (OCIS), mortgage reporting and settlement solutions and consumer financial marketing services (CFMS).

International — includes our Canada Consumer, Europe and Latin America business units. Products and services offered are similar to those available in the USCIS, North America Commercial Solutions and North America Personal Solutions operating segments but vary by geographic region.

Workforce Solutions — provides services enabling clients to verify income and employment (Verification Services) as well as outsource and automate the performance of certain payroll-related and human resources management business processes, including social security number verification, employment-related tax management and talent management services (Employer Services).

North America Personal Solutions — provides products to consumers enabling them to monitor, manage and protect their credit, credit score and identity information and make more informed financial decisions.

North America Commercial Solutions — provides credit, financial, marketing and other information regarding businesses in the U.S. and Canada.

Our revenue base and business mix are diversified among our five segments as depicted in the chart below.

PRODUCTS AND SERVICES

The following chart summarizes the key products and services offered by each of the business units within our segments:

	USCIS		International				Workforce Solutions		North America Personal Solutions
	OCIS	CFMS	Mortgage Services	Canada Consumer	Europe	Latin America	Verification Services	Employer Services	
Online consumer information	X		X	X	X	X	X		X
Database/portfolio management services	X	X	X				X		
Business credit & demographic information		X			X	X			
Scores and analytical services	X	X	X	X	X	X	X	X	X
Alert services	X	X	X	X	X		X		X
Enabling technology services (i.e., decisioning platforms)	X		X	X	X	X			
Identity management/authentication and fraud	X			X	X	X	X		
Consumer financial marketing services		X	X	X	X	X			
Business marketing services					X	X			
Direct to consumer credit monitoring				X	X				X
Identity protection				X	X				X
Employment, income and identity verification services							X		
Business process outsourcing (BPO)			X				X	X	

Each of our operating segments is described more fully below.

USCIS

USCIS provides consumer information solutions to businesses in the U.S. through three product lines, as follows:

Online Consumer Information Solutions (OCIS). OCIS products are derived from multiple large and comprehensive databases of consumer information that we maintain about individual consumers, including credit history, current credit status, payment history and consumer address information. Our clients utilize the information and analytical insights we provide to make decisions for a broad range of financial and business purposes, such as whether, and on what terms, to approve auto loans or credit card applications, and whether to allow a consumer to open a new utility or telephone account, cross-selling additional products to existing customers, improving their underwriting and risk management decisions, authenticating and verifying consumer identities. Our software platforms and analytical capabilities can integrate all types of information, including third-party and client information, to enhance the insights and decisioning process to help further mitigate the risk of granting credit, predict the risk of bankruptcy, indicate the applicant's risk potential for account delinquency, ensure the identity of the consumer, and reduce exposure to fraud. These risk management services enable our clients to monitor risks and opportunities and proactively manage their consumer portfolios.

OCIS clients access products through a full range of electronic distribution mechanisms, including direct real-time access, which facilitates instant decisions. We also develop and host customized applications that enhance the decision-making process for our clients. These decisioning technology applications assist with a wide variety of decisioning activities, including determining pre-approved offers, cross-selling of various products, determining deposit amounts for telephone and utility companies, and verifying the identity of their consumer customers.

Mortgage Solutions. Our Mortgage Solutions products, offered in the U.S., consist of specialized credit reports that combine information from the three major consumer credit reporting agencies (Equifax, Experian Group and TransUnion LLC) into a single “merged” credit report in an online format, commonly referred to as a tri-merge report. Mortgage lenders use these tri-merge reports in making their mortgage underwriting decisions. Additionally, we offer various “triggering” services designed to alert lenders to changes in a consumer’s credit status during the underwriting period and securitized portfolio risk assessment services for evaluating inherent portfolio risk. We also offered certain mortgage settlement services, such as appraisal, title and closing documentation, with certain of these services provided through agreements with third parties until we divested this business in February of 2013.

Consumer Financial Marketing Services (CFMS). Our CFMS products utilize consumer financial information enabling our clients to more effectively manage their marketing efforts, including targeting and segmentation; to identify and acquire new clients for their products and services; to develop portfolio strategies to minimize risk and maximize profitability; and to realize additional revenue from existing customers through more effective cross-selling and up-selling of additional products and services. These products utilize information derived from consumer information, including credit, income, asset, liquidity, net worth and spending activity, which also support many of our OCIS products. These data assets broaden the understanding of consumer financial potential and opportunity which can further drive high value decisioning and targeting solutions for our clients. We also provide account review services which assist our clients in managing their existing customers and prescreen services that help our clients identify new opportunities with their customers. Clients for these products primarily include institutions in the banking, brokerage, retail, insurance and mortgage industries as well as companies primarily focused on digital and interactive marketing.

International

The International operating segment includes our Canada Consumer, Europe and Latin America business units. These business units offer products that are similar to those available in the USCIS operating segment, and to a lesser extent our North America Commercial and Personal Solutions segments, although data sources tend to rely more heavily on government agencies than in the U.S. These products generate revenue in Argentina, Canada, Chile, Costa Rica, Ecuador, El Salvador, Honduras, Paraguay, Peru, Portugal, Spain, the U.K. and Uruguay. We also maintain support operations in the Republic of Ireland, Chile and Costa Rica. We have an investment in the second largest consumer and commercial credit information company in Brazil and offer consumer credit services in Russia and India through joint ventures.

Canada Consumer. Similar to our OCIS, Mortgage Solutions and CFMS business units, Canada Consumer offers products derived from the credit information that we maintain about individual consumers. We offer many products in Canada, including credit reporting and scoring, consumer marketing, risk management, fraud detection and modeling services, identity management and authentication services, together with certain of our decisioning products that facilitate pre-approved offers of credit and automate a variety of credit decisions.

Europe. Our European operation provides information solutions, marketing and personal solutions products. Information solutions and personal solutions products are generated from information that we maintain and include credit reporting and scoring, asset information, risk management, identity management and authentication services, fraud detection and modeling services. Most of these products are sold in the U.K. with a more limited set of information solutions products sold in Portugal and Spain. Our commercial products, such as business credit reporting and commercial risk management services, are only available in the U.K. Marketing products, which are similar to those offered in our CFMS business unit, are primarily available in the U.K. and, to a lesser extent, in Spain.

Latin America. Our Latin American operation provides consumer and commercial information solutions products and marketing products. We offer a full range of products, generated from credit records that we maintain, including credit reporting and scoring, decisioning technology, risk management, identity management and authentication and fraud detection services. Our consumer products are the primary source of revenue in each of the countries in which we operate. We also offer various commercial products, which include credit reporting, decisioning tools and risk management services, in the countries we serve. Additionally, we provide a variety of consumer and commercial marketing products generated from our credit information databases, including business profile analysis, business prospect lists and database management. The countries in which we operate include Argentina, Chile, Costa Rica, Ecuador, El Salvador, Honduras, Paraguay, Peru and Uruguay.

Workforce Solutions

Workforce Solutions operates in the U.S. through two business units:

Verification Services. Verification Services include employment, income and social security number verification services. Our online verification services enable direct third-party verifiers to our work number database to verify the employee's employment status and income information. We also offer an offline research verification service, which expands employment verification to locate data outside our existing work number database. In 2009, we expanded our services to provide IRS income verifications using the *IncomeChek*® product as well as identity verification through a secure, web-based portal using the *DirectChek*® product.

We rely on payroll data received from over 2,500 organizations, including almost three quarters of Fortune 500 companies, to regularly update the database. The updates occur as employers transmit data electronically to Equifax from their payroll systems. Employers contract to provide this data for specified periods under the terms of contracts which range from one to five years. We use this data to provide employment and income verification services to third-party verifiers; the fees we charge for these services are generally on a per transaction basis. After the expiration of the applicable contract, absent renewal by mutual agreement of the parties, we generally do not have any further right to use the employment data we obtained pursuant to the contract. We have not experienced significant turnover in the employer contributors to the database because we generally do not charge them to add their employment data to the database and the verification service we offer relieves them of the administrative burden and expense of responding to third party employment verification requests. The database contained approximately 221 million current and historic employment records at December 31, 2012.

Employer Services. These services are aimed at reducing the cost to the human resources function of businesses through a broad suite of services including assisting with employment tax matters designed to reduce the cost of unemployment claims through effective claims representation and management and efficient processing and to better manage the tax rate that employers are assessed for unemployment taxes; comprehensive services designed to research the availability of employment-related tax credits (e.g., the federal work opportunity and welfare to work tax credits and state tax credits), process the necessary filings and assist the client in obtaining the tax credit; W-2 management services (which include initial distribution, reissue and correction of W-2 forms); paperless pay services that enable employees to electronically receive pay statement information as well as review and change direct deposit account or W-4 information; integrated electronic time capture and reporting services; paperless new-hire services to bring new workers on board using electronic forms; I-9 management services designed to help clients electronically comply with the immigration laws that require employers to complete an I-9 form for each new hire; and onboarding services using online forms to complete the new hire process for employees of corporate and government agencies. In 2012, we also offered services related to planning and improving the cost effectiveness of talent recruitment and management through secure, electronic-based psychometric testing and assessments but we divested this business in February 2013.

North America Personal Solutions

Our Personal Solutions products give consumers information to make financial decisions and monitor and protect credit, credit score and identity information through our Equifax Complete, ID Patrol, Credit Watch and Score Watch monitoring products. Consumers can obtain a copy of credit file information about them and their credit score. We offer monitoring products for consumers who are concerned about identity theft and data breaches, including internet and bank account monitoring, lost wallet support, and the ability to lock and unlock the Equifax credit file. Our products are available to consumers directly primarily over the internet and through relationships with business partners who distribute our products or provide these services to their employees or customers.

North America Commercial Solutions

Our Commercial Solutions products are derived from databases of credit, financial and marketing information regarding businesses in the U.S. and Canada. Databases we have compiled include loan, credit card, public records and leasing history data, trade accounts receivable performance, and Secretary of State and Securities and Exchange Commission registration information. We also offer scoring and analytical services that provide additional information to help mitigate the credit risk assumed by our clients. We also have a marketing database, which hosts approximately 50 million commercial demographic data records from around the world helping companies to identify corporate family structures for enterprise visibility of customers and suppliers. In addition, we are integrating information from other databases, such as asset information, that will make our marketing services offerings more valuable.

A portion of the business records included in the U.S. credit database has been developed in part from the Small Business Financial Exchange, Inc., or SBFE. SBFE members, including a number of commercial lending financial institutions, contribute their data to the member-owned SBFE database which we manage.

OUR BUSINESS STRATEGY

Our strategic objective is to be the trusted provider of information driven solutions that empower our clients with the ability to make critical decisions with greater confidence. Data is at the core of our value proposition. Leveraging our extensive resources, we deliver differentiated decisions through a broad and diverse set of data assets, sophisticated analytics and proprietary decisioning technology. Our comprehensive set of data assets can provide an in-depth view of the consumer's financial potential and opportunity including their propensity, ability and capacity to pay. Our long-term corporate growth strategy is driven by the following initiatives:

Increase penetration of our clients' information solutions needs. We seek to increase our share of clients' spend on information-related services through developing and introducing new products, pricing our services in accordance with the value they create, increasing the range of current services utilized by our clients, and improving the quality and effectiveness of our sales organization and client support interactions with consumers. We are also helping clients address increased requirements to comply with emerging regulations and rules.

Deploy decisioning technologies and analytics globally. We continue to invest in and develop new technology to enhance the functionality, cost-effectiveness and security of the services we offer and further differentiate our products from those offered by our competitors. In addition to custom products for large clients, we develop off-the-shelf, decisioning technology platforms that are more cost effective for medium and smaller-sized clients. We also develop predictive scores and analytics, some of which leverage multiple data assets, to help clients acquire new customers and manage their existing customer relationships. We develop a broad array of industry, risk management,

cross-sell and account acquisition models to enhance the precision of our clients' decisioning activities.

Invest in unique data sources. We continue to invest in and acquire unique sources of credit and non-credit information to enhance the variety and quality of our services while increasing clients' confidence in information-based business decisions. Areas of focus for investment in new sources of data include, among others, positive payment data, real estate data and new commercial business data.

Pursue new vertical markets and expand into emerging markets. We believe there are many opportunities to expand into emerging markets both in the U.S. and internationally. In the U.S., we have increased and broadened resources in key markets, including auto, insurance, telecommunications, and government, and we are delivering services ranging from identity authentication and management to risk management. We continue to invest in growing our ventures in Russia, India and Brazil and continue to leverage our newer product offerings across all of our geographical business units.

COMPETITION

The market for our products and services is highly competitive and is subject to constant change. Our competitors vary widely in size and the nature of the products and services they offer. Sources of competition are numerous and include the following:

Competition for our consumer information solutions and personal solutions products varies by both application and industry, but generally includes two global consumer credit reporting companies, Experian Group and TransUnion LLC, both of which offer a product suite similar to our credit reporting solutions, and LifeLock, a national provider of personal identity theft protection products. There are also a large number of smaller competitors who offer competing products in specialized areas (such as fraud prevention, risk management and application processing and decisioning solutions) and software companies offering credit modeling services or analytical tools. We believe that our products offer our clients an advantage over those of our competitors because of the depth and breadth of our consumer information files, which we believe to be superior in terms of accuracy, coverage and availability. Other differentiators include our decisioning technology and the features and functionality of our analytical services. Our competitive strategy is to emphasize improved decision-making and product quality while remaining competitive on price. Our marketing services products also compete with the foregoing companies and others who offer demographic information products, including Acxiom Corporation, Harte-Hanks, Inc. and infoGROUP, Inc. We also compete with Fair Isaac Corporation with respect to certain of our analytical tools.

Competition for our commercial solutions products primarily includes Experian, The Dun & Bradstreet Corporation and Cortera, Inc., and providers of these services in the international markets we serve. We believe our access to and knowledge of U.S. small business loan information from financial institutions combined with our consumer credit information in the case of small business owners enables more efficient and effective decision-making for the small business segment of that market.

Competition for our employment and income verification services includes large employers who serve their own needs through in-house systems to manage verification as well as regional online verification companies, such as Verify Jobs and First Advantage, who offer verification services along with other human resources and tax services. Competition for Employer Services includes payroll processors such as Automatic Data Processing, Inc., or ADP, Paychex, Inc. and Ceridian Corporation. Competitors of our Tax Management Services include in-house management of this function primarily by large employers, ADP, and a number of smaller regional firms that offer tax management services (including Barnett Associates, Thomas & Thorngren, and UC Advantage). Talent Management Services competitors include assessment service providers that offer proprietary content (Previsor, Inc., Development Dimensions International, Brainbench, Inc.), human resources consulting firms (AON Corporation, Towers Watson, Right Management Consulting) and assessment or test publishers that have proprietary delivery platforms (Devine Group, Inc., Hogan Assessments Systems, Inc., SHL Group plc). Talent Management Services was sold in the first quarter of 2013.

While we believe that none of our competitors offers the same mix of products and services as we do, certain competitors may have a larger share of particular geographic or product markets or operate in geographic areas where

we do not currently have a presence.

We assess the principal competitive factors affecting our markets to include: product attributes such as quality, depth, coverage, adaptability, scalability, interoperability, functionality and ease-of-use; product price; technical performance; access to unique proprietary databases; availability in application service provider, or ASP, format; quickness of response, flexibility and client services and support; effectiveness of sales and marketing efforts; existing market penetration; new product innovation; and our reputation as a trusted steward of information.

MARKETS AND CLIENTS

Our products and services serve clients across a wide range of industries, including financial services, mortgage, human resources, consumer, commercial, telecommunications, retail, automotive, utilities, brokerage, healthcare and insurance industries, as well as state and federal governments. We also serve consumers directly. Our revenue stream is highly diversified with our largest client providing only 2% of total revenue. The following table summarizes the various end-user markets we serve:

	Percentage of Consolidated Revenue			
	2012		2011	
Financial	25	%	26	%
Mortgage	19	%	16	%
Consumer	11	%	11	%
Employers	11	%	12	%
Commercial	5	%	7	%
Telecommunications	7	%	7	%
Retail	3	%	4	%
Automotive	4	%	4	%
Other ⁽¹⁾	15	%	13	%
	100	%	100	%

(1) Other includes revenue from marketing services, government, insurance and resellers.

We market our products and services primarily through our own direct sales organization that is organized around sales teams that focus on client segments typically aligned by vertical markets and geography. Sales groups are based in our headquarters in Atlanta, Georgia, and field offices located in the U.S. and in the countries where we have operations. We also market our products and services through indirect channels, including alliance partners, joint ventures and other resellers. In addition, we sell through direct mail and various websites, such as *www.equifax.com*.

Our largest geographic market segments are North America (the U.S. and Canada); Europe (the U.K., Spain and Portugal); and Latin America (Argentina, Chile, Costa Rica, Ecuador, El Salvador, Honduras, Paraguay, Peru and Uruguay). We also maintain support operations in the Republic of Ireland, Chile and Costa Rica. We have an investment in the second largest consumer and commercial credit information company in Brazil and offer consumer credit services in Russia and India through joint ventures.

Revenue from international clients, including end users and resellers, amounted to 24% of our total revenue in 2012, 26% of our total revenue in 2011 and 27% of our total revenue in 2010.

TECHNOLOGY AND INTELLECTUAL PROPERTY

We generally seek protection under federal, state and foreign laws for strategic or financially important intellectual property developed in connection with our business. Certain intellectual property, where appropriate, is protected by registration under applicable trademark laws or by prosecution of patent applications. We own a number of patents registered in the U.S. and several in foreign countries. We also have certain registered trademarks in the U.S. and in many foreign countries. The most important of these are “Equifax,” “The Work Number” and variations thereof. These trademarks are used in connection with most of our product lines and services. We believe that, in the aggregate, the rights under these patents and trademarks are generally important to our operations and competitive position, but we do not regard any of our businesses as being dependent upon any single patent or group of patents or trademark. However, certain Company trademarks, which contribute to our identity and the recognition of our products and services, including but not limited to the “Equifax” trademark, are an integral part of our business, and their loss could have a material adverse effect on us.

We license other companies to use certain data, technology and other intellectual property rights we own or control, primarily as core components of our products and services, on terms that are consistent with customary industry standards and that are designed to protect our interest in our intellectual property. Other companies license us to use certain data, technology and other intellectual property rights they own or control, none of which is material to our business except for a license from Fair Isaac Corporation, relating to certain credit-scoring algorithms and the right to sell credit scores derived from them. This license has a five-year term expiring in June 2013 and provides for usage-based fees. Historically, we have renewed this license and expect the renewal in 2013 to not have a material impact on our business. Additionally, the licenses do not contain early termination provisions except for standard provisions providing the right to terminate in the event of breach by the other party. We do not hold any franchises or concessions that are material to our business or results of operations.

INFORMATION SECURITY AND GOVERNMENT REGULATION

Safeguarding the privacy and security of consumer credit information, whether delivered online or in an offline format, is a top priority. We recognize the importance of secure online transactions and we maintain physical, administrative, and technical safeguards reasonably designed to protect personal and business identifiable information. We have security protocols and measures in place to protect information from unauthorized access or alteration. These measures include internal and external firewalls, physical security and technological security measures and encryption of certain data.

Our databases are regularly updated by information provided by financial institutions, telecommunications companies, utilities, other trade credit providers, employers, public records vendors and government agencies. Various laws and regulations govern the collection and use of this information. These laws and existing and proposed regulations impact how we are able to provide information to our customers and may significantly increase our compliance costs. We are

subject to differing laws and regulations depending on where we operate.

U.S. Data and Privacy Protection

Our U.S. operations are subject to various federal and state laws and regulations governing the collection, protection and use of consumer credit and other information, and imposing sanctions for the misuse of such information or unauthorized access to data. Many of these provisions also affect our customers' use of consumer credit or other data we furnish. The information underlying our North America Commercial Services business is less regulated than the other portions of our business.

Examples include:

The Fair Credit Reporting Act, or FCRA, which governs among other things the reporting of information to consumer reporting agencies that engage in the practice of assembling or evaluating certain information relating to consumers, including our credit reporting business and employment verification; making prescreened offers of credit; the sharing of consumer report information among affiliated and unaffiliated third parties; access to credit scores; and requirements for data furnishers and users of consumer report information. Violation of the FCRA, or of similar state laws, can result in an award of actual damages, as well as statutory and/or punitive damages in the event of a willful violation.

The Fair and Accurate Credit Transactions Act (2003), or FACT Act, which amended the FCRA and requires, among other things, nationwide consumer credit reporting agencies, such as us, upon the request of a consumer, to place a fraud alert in the consumer's credit file stating that the consumer may be the victim of identity theft or other fraud, and furnish a free annual credit file disclosure to consumers through a centralized request facility we have established with the other nationwide credit reporting agencies. FACT Act regulations also require financial institutions to develop policies and procedures to identify potential identity theft, and consumer credit report notice requirements for lenders that use consumer report information in connection with risk-based credit pricing actions. Entities that furnish information to consumer reporting agencies are required to implement procedures and policies regarding the accuracy and integrity of the furnished information and regarding the correction of previously furnished information that is later determined to be inaccurate. Mortgage lenders are required to disclose credit scores to consumers. Additionally, the FACT Act prohibits a business that receives consumer information from an affiliate from using that information for marketing purposes unless the consumer is first provided a notice and an opportunity to direct the business not to use the information for such marketing purposes ("opt-out"), subject to certain exceptions.

The Financial Services Modernization Act (1999), or Gramm-Leach-Bliley Act, or GLB, regulates, among other things, the use of non-public personal financial information of consumers that is held by financial institutions. We are subject to various GLB provisions, including rules relating to the physical, administrative and technological protection of non-public personal financial information. Breach of the GLB can result in civil and/or criminal liability and sanctions by regulatory authorities, such as fines of up to \$100,000 per violation and up to five years imprisonment for individuals.

Most states in the U.S. have passed versions of security breach notification and credit file freeze legislation. A file freeze enables consumers to place and lift a freeze on access to their credit files. File freeze laws impose differing requirements on credit reporting agencies with respect to how and when to respond to such credit file freeze requests and in the fees, if any, the agencies may charge for freeze-related actions.

- Federal and state laws governing the use of the Internet and regulating telemarketing, including the federal Controlling the Assault of Non-Solicited Pornography and Marketing Act (2003), or CAN-SPAM, which regulates commercial email, prohibits false or misleading header information, requires that a commercial email be identified as an advertisement, and requires that commercial emails give recipients an opt-out method. Senate Bill 3386, enacted into federal law, seeks to protect online consumers from unfair and deceptive sales tactics on the Internet. Other Internet privacy laws and regulations have been proposed from time to time to address digital marketing, i.e., how personal information is collected and distributed online, including behavioral advertising.

Fannie Mae and Freddie Mac regulations applicable to our credit reporting and mortgage solutions products, the Real Estate Settlement Procedures Act and HUD's Regulation X, require the disclosure of certain basic information to borrowers concerning settlement costs and prohibits the charging of unearned fees and certain "kickbacks" or other fees for referrals in connection with a residential mortgage settlement service.

• The Dodd-Frank Wall Street Reform and Consumer Protection Act (2010), or Dodd-Frank Act, represents a comprehensive overhaul of the financial services industry within the U.S. The Dodd-Frank Act will allow consumers free access to their credit score if their score negatively affects them in a financial transaction or a hiring decision, and

also gives consumers access to credit score disclosures as part of an adverse action and risk-based pricing notice. Title X of the Dodd-Frank Act establishes the Bureau of Consumer Financial Protection, or CFPB, within the Federal Reserve Board, and will require the CFPB and other federal agencies to implement many new and significant rules and regulations. Significant portions of the Dodd-Frank Act related to the CFPB became effective on July 21, 2011. The CFPB has broad powers to promulgate, administer and enforce consumer financial regulations, including those applicable to us and our customers.

Under the Dodd-Frank Act, the CFPB is the principal supervisor and enforcer of federal consumer financial protection laws with respect to non-depository institutions, or “nonbanks”, including, without limitation, any “covered person” who is a “larger participant” in a market for other consumer financial products or services.

With the appointment of a CFPB Director by the President on January 4, 2012, the CFPB has begun to exercise authority to define unfair, deceptive or abusive acts and practices and to require reports and conduct examinations of these entities for purposes of assessing compliance with federal consumer financial protections laws; obtaining information about the activities and compliance systems or procedures of such entities; and detecting and assessing risks to consumers and to markets for consumer financial products and services. The exercise of this supervisory authority must be risk-based, meaning that the CFPB will identify nonbanks for examination based on the risk they pose to consumers, including consideration of the entity's asset size, transaction volume, risk to consumers, existing oversight by state authorities and any other factors that the CFPB determines to be relevant. In July 2012, the CFPB issued a rule designating certain consumer reporting agencies, including us, as within its nonbank supervision program for "larger participants." Our first examination as a credit reporting firm, which focused on our regulatory compliance management system, was completed in the fourth quarter of 2012.

As a "larger participant," we are subject to CFPB supervisory, examination and enforcement authority. Such examination may include the filing of reports, reviewing materials we use to offer products and services and our compliance management systems and procedures. When a nonbank is in violation of federal consumer financial laws, including the CFPB's own rules, the CFPB may pursue administrative proceedings or litigation to enforce these laws and rules. In these proceedings, the CFPB can obtain cease and desist orders, which can include orders for restitution or rescission of contracts, as well as other kinds of affirmative relief, and monetary penalties ranging from \$5,000 per day for ordinary violations of federal consumer financial laws to \$25,000 per day for reckless violations and \$1 million per day for knowing violations. Also, where a company has violated Title X of the Dodd-Frank Act or CFPB regulations under Title X, the Dodd-Frank Act empowers state attorneys general and state regulators to bring civil actions for the kind of cease and desist orders available to the CFPB (but not for civil penalties). If the CFPB or one or more state officials believe that we have committed a violation of the foregoing laws, they could exercise their enforcement powers in a manner that would have a material adverse effect on us.

At this time, we cannot predict the extent to which the Dodd-Frank Act or the resulting rules and regulations, including those of the CFPB, will impact the U.S. economy and our products and services.

Compliance with these new laws and regulations may require changes in the way we conduct our business and will result in additional compliance costs, which could be significant and could adversely impact our results of operations, financial condition or liquidity.

International Data and Privacy Protection

We are subject to data protection, privacy and consumer credit laws and regulations in the various foreign countries where we do business, including, without limitation, the following:

In Canada, the federal and provincial privacy and provincial credit reporting laws apply to organizations with respect to personal information that they collect, use or disclose in the course of commercial activities. The laws are based on the National Standard of Canada Model Code for the Protection of Personal Information, covering accountability and identifying purposes, consent, collection, use, disclosure, retention, accuracy, safeguards, individual access and compliance. The federal and provincial privacy regulators have powers of investigation and intervention, and provisions of Canadian law regarding civil liability apply in the event of unlawful processing which is prejudicial to the persons concerned. The European Union, or EU, recognizes Canada as having adequate levels of protection for personal data transfers and processing.

In Europe, Equifax is subject to the EU data protection regulations, including the comprehensive EU Directive on Data Protection (1995). The EU regulations establish several obligations that organizations must follow with respect to use of personal data, including a prohibition on the transfer of personal information from the EU to other countries whose laws do not protect personal data to an “adequate” level of privacy or security. The EU standard for adequacy is generally stricter and more comprehensive than that of the U.S. and most other countries where Equifax operates. In the U.K., in addition to the EU Directive on Data Protection, the Data Protection Act of 1998 regulates the manner in which we can use third-party data. In addition, regulatory limitations affect our use of the Electoral Roll, one of our key data sources in the U.K. Generally, the data underlying the products offered by our U.K. Information Services and Personal Solutions product lines, excluding our Commercial Services products, are subject to these regulations. In Spain and Portugal, the privacy laws which are subject to the EU Directive on Data Protection regulate all credit bureau and personal solutions activities. The EU is currently reviewing its data protection regime, seeking to modernize the legal framework, strengthen individual rights, reduce administrative formalities and improve the clarity and coherence of laws within the EU.

In Latin America, consumer reporting, data protection and privacy laws and regulations exist in various forms in Argentina, Chile, Costa Rica, Ecuador, El Salvador, Peru and Uruguay. Argentina and Uruguay generally follow the EU data protection model, and the EU recognizes Argentina’s laws as providing adequate levels of protection for personal data transfers and processing. Among other protections, laws in all of these countries generally allow individuals to access and request corrections of personal data.

Constitutional laws in Argentina, Chile, Ecuador, Peru and Uruguay also establish specific privacy rights, and judicial proceedings may be used to enforce them. The Chilean legislature is considering a comprehensive data protection bill, and a separate bill that would create a publicly-managed consumer credit registry. Ecuador’s National Assembly recently approved a law to replace private sector credit bureaus with a state-run registry. The government has not issued regulations yet to implement the changes, and has indicated that private sector companies will be permitted to provide unspecified credit reference services. Ecuador’s WTO/GATT commitments include no market

access or national treatment limits for credit reference services. The law provides a transition period throughout 2013 for the development and introduction of the new registry. Legislation has also been proposed in Argentina and Uruguay that would amend existing credit reporting laws by prohibiting the use of certain data for credit reference purposes, shorten the period during which data may be used and create new access and notification rights for data subjects. The Argentinian legislation has not proceeded beyond the introductory debate stage, and the Uruguayan government does not support the legislation proposed in that country. Costa Rica is finalizing regulations that will be issued under its data protection legislation. While the potential impact of regulatory changes in Peru, Ecuador, Uruguay or Costa Rica are unlikely to be material to the results of our International operations, if the market opportunity were to be restricted significantly in Argentina or Chile, and/or in a combination of the smaller Latin American countries in which we operate, the impact on our International operating results could be material.

In India, various legislation, including the Information Technology Act 2000 and the Credit Information Companies Regulation Act 2005 establishes a federal data protection framework. Entities that collect and maintain personal credit information must ensure that it is complete, accurate and safeguarded, and must adopt certain privacy principles with respect to collecting, processing, preserving, sharing and using such credit information.

Tax Management Services

The Tax Management Services business within our Workforce Solutions segment is potentially impacted by changes in U.S. tax laws or interpretations, for example, those pertaining to work opportunity tax credits and unemployment compensation claims.

Environmental Regulation

We are subject to federal, state and local laws and regulations in the areas of safety, health and environmental protection. Compliance with these laws and regulations has not in the past had any material effect on our earnings, capital expenditures or competitive position. However, the effect of such compliance in the future cannot be predicted. We believe that we are in material compliance with applicable federal, state and local safety, health and environmental regulations.

PERSONNEL

Equifax employed approximately 7,000 employees in 18 countries as of December 31, 2012. None of our U.S. employees are subject to a collective bargaining agreement and no work stoppages have been experienced. Pursuant to local laws, certain of our employees in Argentina and Spain are covered under government-mandated collective bargaining regulations that govern general salary and compensation matters, basic benefits and hours of work.

EXECUTIVE OFFICERS OF EQUIFAX

The executive officers of Equifax and their ages and titles are set forth below. Business experience and other information is provided in accordance with SEC rules.

Richard F. Smith (53) has been Chairman and Chief Executive Officer since December 15, 2005. He was named Chairman-Elect and Chief Executive Officer effective September 19, 2005 and was elected as a Director on September 22, 2005. Prior to that, Mr. Smith served as Chief Operating Officer, GE Insurance Solutions, from 2004 to September 2005 and President and Chief Executive Officer of GE Property and Casualty Reinsurance from 2003 to 2004.

Lee Adrean (61) has been Corporate Vice President and Chief Financial Officer since October 2006. Prior to joining Equifax, he served as Executive Vice President and Chief Financial Officer of NDCHealth Corporation from 2004 to 2006. Prior thereto, he served as Executive Vice President and Chief Financial Officer of EarthLink, Inc. from 2000 until 2004.

John J. Kelley III (52) was appointed Corporate Vice President and Chief Legal Officer effective January 1, 2013, succeeding Kent E. Mast who retired from the position effective December 31, 2012. Mr. Kelley's responsibilities include legal services, global sourcing, security and compliance, government and legislative relations, corporate governance and privacy functions. He was a senior partner in the Corporate Practice Group of the law firm of King & Spalding LLP from January 1993 to December 2012, specializing in a broad range of corporate finance transactions and securities matters, advising public clients regarding SEC reporting and disclosure requirements, and other corporate governance and compliance matters.

Coretha M. Rushing (56) has been Corporate Vice President and Chief Human Resources Officer since 2006. Prior to joining Equifax, she served as an executive coach and HR Consultant with Atlanta-based Cameron Wesley LLC. Prior thereto, she was Senior Vice President of Human Resources at The Coca-Cola Company, where she was employed from 1996 until 2004.

Paul J. Springman (67) has served as Corporate Vice President and Chief Marketing Officer since February 2004. Prior thereto, he was head of the Predictive Sciences unit from August 2002 until February 2004.

David C. Webb (57) became Chief Information Officer on January 19, 2010. Prior thereto, he served as Chief Operations Officer for SVB Financial Corp. from 2008, and from 2004 to 2008 was Chief Information Officer. Mr. Webb was Vice President, Investment Banking Division at Goldman Sachs, a leading global investment banking, securities and investment management firm, from 1999 to 2004. He was Chief Information Officer at Bank One from 1997 to 1999.

Rodolfo O. Ploder (52) has been President, U.S. Consumer Information Solutions since July 2010. Prior thereto, he served as President, International from January 2007 until June 2010. Prior thereto, he was Group Executive, Latin America from February 2004 to January 2007.

J. Dann Adams (55) has been President of Equifax's Workforce Solutions subsidiary since July 2010. Prior thereto, he served as President, U.S. Consumer Information Solutions from 2007 to June 2010. Prior thereto, he served as Group Executive, North America Information Services from November 2003 until December 2006.

Paulino R. Barros (56) has been President, International since July 2010. Prior thereto, he served as President of PB&C Global Investments, LLC, an international consulting and investment firm. Prior thereto, he was President of Global Operations for AT&T.

Joseph M. Loughran, III (45) has been President, North America Personal Solutions since January 4, 2010. Prior thereto, he was Senior Vice President — Corporate Development from April 2006 to December 2009. Prior to joining Equifax he held various executive roles at BellSouth Corporation from May 2001 to April 2006, including most recently Managing Director-Corporate Strategy and Planning from May 2005 to April 2006. Prior to joining BellSouth, Mr. Loughran held various roles with McKinsey & Company, King & Spalding, and Lazard Frères & Co.

Alejandro ("Alex") Gonzalez (43) has been President, North America Commercial Solutions since January 4, 2010. Prior thereto, he was Senior Vice President of Strategic Marketing from January 2006 to December 2009, and Customer Experience Leader for GE Insurance Solutions from January 2005 to December 2005.

Nuala M. King (59) has been Senior Vice President and Controller since May 2006. Prior thereto, she was Vice President and Corporate Controller from March 2004 to April 2006. Prior to joining Equifax, Ms. King served as Corporate Controller for UPS Capital from March 2001 until March 2004.

FORWARD-LOOKING STATEMENTS

This report contains information that may constitute "forward-looking statements." Generally, the words "believe," "expect," "intend," "estimate," "anticipate," "project," "will" and similar expressions identify forward-looking statements, which generally are not historical in nature. All statements that address operating performance, events or developments that we expect or anticipate will occur in the future are forward-looking statements. Management believes that these forward-looking statements are reasonable as and when made. However, forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our Company's historical experience and our present expectations or projections, including without limitation our expectations regarding the Company's outlook, long-term organic and inorganic growth, and customer acceptance of our business solutions referenced above under "Business" and below under "Business Environment and Company Outlook." These risks and uncertainties include, but are not limited to, those described below in Item 1A. Risk Factors, and elsewhere in this report and those described from time to time in our future reports filed with the United States Securities and Exchange Commission, or SEC. As a result of such risks and uncertainties, we urge you not to place undue reliance on any such forward-looking

statements. Forward-looking statements speak only as of the date when made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

AVAILABLE INFORMATION

Detailed information about us is contained in our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and other reports, and amendments to those reports, that we file with, or furnish to, the SEC. These reports are available free of charge at our website, www.equifax.com, as soon as reasonably practicable after we electronically file such reports with or furnish such reports to the SEC. However, our website and any contents thereof should not be considered to be incorporated by reference into this document. We will furnish copies of such reports free of charge upon written request to Corporate Secretary, Equifax Inc., P.O. Box 4081, Atlanta, Georgia, 30302.

ITEM 1A. RISK FACTORS

Our business faces a variety of risks and uncertainties, including those described below, and may include additional risks and uncertainties not presently known to us or that we currently deem immaterial. If any of the events or circumstances described below occurs, our business, financial results or results of operations may be adversely impacted. These risk factors should be read in conjunction with the other information in this Form 10-K.

Weakness in consumer lending activity could materially adversely affect us.

Business customers use our credit information and related analytical services and data to process applications for new credit cards, automobile loans, home and equity loans and other consumer loans, and to manage their existing credit relationships. Bank and other lenders' willingness to extend credit is adversely affected by elevated consumer delinquency and loan losses in a weak economy. Consumer demand for credit (i.e., rates of spending and levels of indebtedness) also tends to grow more slowly or decline during periods of economic contraction or slow economic growth. High or rising rates of unemployment and interest, declines in income, home prices, or investment values, lower consumer confidence and reduced access to credit adversely affect demand for our products and services, and consequently our revenue, as consumers may continue to postpone or reduce their spending and use of credit, and lenders may reduce the amount of credit offered or available.

The loss of access to credit and other data from external sources could harm our ability to provide our products and services.

We rely extensively upon data from external sources to maintain our proprietary and non-proprietary databases, including data received from customers, strategic partners and various government and public record sources. This data includes the widespread and voluntary contribution of credit data from most lenders in the U.S and many other markets as well as the contribution of data under proprietary contractual agreements, such as employers' contribution of employment and income data to The Work Number, financial institutions' contribution of individual financial data to IXI, telecommunications, cable and utility companies' contribution of payment and fraud data to the National Cable, Telecommunications and Utility Exchange, and financial institutions' contribution of small business borrowing information to the Small Business Financial Exchange. Our data sources could withdraw their data from us for a variety of reasons, including legislatively or judicially imposed restrictions on use. Where we currently have exclusive use of data, the providers of the data sources could elect to make the information available to competitors. We also compete with several of our third-party data suppliers. If a substantial number of data sources or certain key data sources were to withdraw or be unable to provide their data, if we were to lose access to data due to government regulation, if we lose exclusive right to the use of data, or if the collection of data becomes uneconomical, our ability to provide products and services to our clients could be materially adversely impacted, which could result in decreased revenue, net income and earnings per share.

Our markets are highly competitive and new product introductions and pricing strategies being offered by our competitors could decrease our sales and market share or require us to reduce our prices in a manner that reduces our operating margins.

We operate in a number of geographic, product and service markets that are highly competitive. Competitors may develop products and services that are superior to or that achieve greater market acceptance than our products and services. The size of our competitors varies across market segments, as do the resources we have allocated to the

segments we target. Therefore, some of our competitors may have significantly greater financial, technical, marketing or other resources than we do in one or more of our market segments, or overall. As a result, our competitors may be in a position to respond more quickly than we can to new or emerging technologies and changes in customer requirements, or may devote greater resources than we can to the development, promotion, sale and support of products and services. Moreover, new competitors or alliances among our competitors may emerge and potentially reduce our market share, revenue or margins.

We also sell our information to competing firms, and buy information from certain of our competitors, in order to sell “tri-bureau” and other products, most notably into the mortgage and direct to consumer markets. Changes in prices between competitors for this information and/or changes in the design or sale of tri-bureau versus single bureau product offerings may affect our revenue or profitability.

Some of our competitors may choose to sell products competitive to ours at lower prices by accepting lower margins and profitability, or may be able to sell products competitive to ours at lower prices given proprietary ownership of data, technological superiority or economies of scale. Price reductions by our competitors could negatively impact our margins and results of operations and could also harm our ability to obtain new customers on favorable terms. Historically, certain of our key products have experienced declines in per unit pricing due to competitive factors and customer demand. Since a significant portion of our operating expenses is relatively fixed in nature due to sales, information technology and development and other costs, if we were unable to respond quickly enough to changes in competition or customer demand, we could experience further reductions in our operating margins.

If we do not introduce successful new products and services in a timely manner, our products and services will become obsolete and our operating results will suffer.

We generally sell our products in industries that are characterized by rapid technological changes, frequent new product and service introductions and changing industry standards. In addition, certain of the markets in which we operate are seasonal and cyclical. Without the timely introduction of new products, services and enhancements, our products and services will become technologically or commercially obsolete over time, in which case our revenue and operating results would suffer. The success of our new products and services will depend on several factors, including our ability to properly identify customer needs; innovate and develop new technologies, services and applications; successfully commercialize new technologies in a timely manner; produce and deliver our products in sufficient volumes on time; differentiate our offerings from competitor offerings; price our products competitively; anticipate our competitors' development of new products, services or technological innovations; and control product quality in our product development process.

The impact of consolidation in the financial services, mortgage, retail, telecommunications and other markets is difficult to predict and may harm our business.

The financial services, mortgage, retail and telecommunications industries are intensely competitive and have been subject to increasing consolidation. Continuation of the consolidation trends in these and other industries could result in lower average prices for the larger combined entities, lower combined purchases of our services than were purchased cumulatively by separate entities prior to consolidation or existing competitors increasing their market share in newly consolidated entities, which could have a material adverse effect on our business, financial condition and results of operations. We may not be able to compete successfully in an increasingly consolidated industry and cannot predict with certainty how industry consolidation will affect our competitors or us.

Security breaches and other disruptions to our information technology infrastructure could interfere with our operations, and could compromise Company, customer and consumer information, exposing us to liability which could cause our business and reputation to suffer.

In the ordinary course of business, we rely upon information technology networks and systems, some of which are managed by third parties, to process, transmit and store electronic information, and to manage or support a variety of business processes and activities, including business-to-business and business-to-consumer electronic commerce and internal accounting and financial reporting systems. Additionally, we collect and store sensitive data, including intellectual property, proprietary business information and personally identifiable information of our customers, employees, consumers and suppliers, in data centers and on information technology networks. The secure operation of these networks and systems, and of the processing and maintenance of this information, is critical to our business operations and strategy.

Despite our substantial investment in security measures and business continuity plans, our information technology networks and infrastructure or those of our third party vendors and other service providers could be vulnerable to damage, disruptions or shutdowns due to attacks by hackers or breaches due to employee error or malfeasance, or other disruptions during the process of upgrading or replacing computer software or hardware, power outages, computer viruses, telecommunication or utility failures or natural disasters or other catastrophic events.

We are regularly the target of attempted cyber and other security threats and must continuously monitor and develop our information technology networks and infrastructure to prevent, detect, address and mitigate the risk of unauthorized access, misuse, computer viruses and other events that could have a security impact. Although we have not experienced any material breach of cybersecurity, if one or more of such events occur, this potentially could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could subject us to litigation, significant losses, regulatory fines, penalties or reputational damage, any of which could have a material effect on our cash flows, competitive position, financial condition or results of operations. Our property and business interruption insurance may not be adequate to compensate us for all losses or failures that may occur. Also, our third party insurance coverage will vary from time to time in both type and amount depending on availability, cost and our decisions with respect to risk retention.

Dependence on outsourcing certain portions of our supply and distribution chain may adversely affect our ability to bring products to market and damage our reputation. Dependence on outsourced information technology and other administrative functions may impair our ability to operate effectively.

As part of our efforts to streamline operations and to reduce operating costs, we have outsourced various components of our application development, information technology, operational support and administrative functions and will continue to evaluate additional outsourcing. Although we have implemented service level agreements and have established monitoring controls, if our outsourcing vendors fail to perform their obligations in a timely manner or at satisfactory quality levels, our ability to bring products to market and support our customers, and our reputation could suffer. Any failure to perform on the part of these third party providers could impair our ability to operate effectively and could result in lower future revenue, unexecuted efficiencies and adversely impact our results of operations and our financial condition. Much of our outsourcing takes place in developing countries and, as a result, may be subject to geopolitical uncertainty.

Changes in interest rates and credit ratings could adversely affect our cost of capital and net income.

Rising interest rates, credit market dislocations and decisions and actions by credit rating agencies can affect the availability and cost of our funding. Credit rating downgrades or negative changes to ratings outlooks can increase our cost of capital and hurt our competitive position. Guidance from rating agencies as to acceptable leverage can affect our returns as well.

Our retirement and post retirement pension plans are subject to financial market risks that could adversely affect our future results of operations and cash flows.

We have significant retirement and post retirement pension plan assets and obligations. The performance of the financial markets and interest rates impact our plan expenses and funding obligations. Significant decreases in market interest rates, decreases in the fair value of plan assets and investment losses on plan assets will increase our funding obligations, and adversely impact our results of operations and cash flows.

Concerns regarding the European debt crisis and market perception concerning the instability of the euro, the potential reintroduction of individual currencies with the Eurozone, or the potential dissolution of the euro entirely, could adversely affect the Company's business, results of operations and financing.

As a result of the debt crisis, concerns have been raised regarding the debt burden of certain countries using the euro as their currency and their ability to meet future financial obligations, the overall stability of the euro and the suitability of the euro as a single currency given the diverse economic and political circumstances in individual Eurozone countries. These concerns could lead to the re-introduction of individual currencies in one or more Eurozone countries, or, in more extreme circumstances, the possible dissolution of the euro currency entirely. Should the euro be dissolved entirely, the legal and contractual consequences for holders of euro-denominated obligations would be determined by laws in effect at such time. These potential developments, or market perceptions concerning these and related issues, could adversely affect the value of the Company's euro-denominated assets and obligations, particularly in Portugal, Spain and Ireland, and the future profitability or even viability of our operations in those countries. In addition, concerns over the effect of this financial crisis on financial institutions in Europe and globally could have an adverse impact on global economies and capital markets generally, and more specifically on the Company's business in Europe and the ability of the Company and its customers, suppliers and lenders to finance their respective businesses, to access liquidity at acceptable financing costs, if at all, and on the demand for our products and services.

The acquisition, integration or divestiture of businesses by us may not produce the desired financial or operating results.

During 2012, we completed the acquisition of various businesses in separate transactions, including certain business assets and the operations of Computer Sciences Corporation (“CSC Credit Services”) and several smaller international acquisitions. Expected benefits, synergies and growth from these initiatives may not materialize as planned. We may have difficulty assimilating new businesses and their products, services, technologies and personnel into our operations. These difficulties could disrupt our ongoing business, distract our management and workforce, increase our expenses and materially adversely affect our operating results and financial condition. Also, we may not be able to retain key management and other critical employees after an acquisition.

Our customers and we are subject to various current governmental regulations, and could be affected by new laws or regulations, compliance with which may cause us to incur significant expenses, and if we fail to maintain satisfactory compliance with certain regulations, we could be subject to civil or criminal penalties.

Our businesses are subject to various significant international, federal, state and local regulations, including but not limited to privacy and consumer data protection, health and safety, tax, labor and environmental regulations. See “Item 1. Business – Information Security and Government Regulation” in this Form 10-K. These regulations are complex, change frequently and have tended to become more stringent over time. We may be required to incur significant expenses to comply with these regulations or to remedy violations of these regulations. Any failure by us to comply with applicable government regulations could also result in cessation of our operations or portions of our operations or impositions of fines and restrictions on our ability to carry on or expand our operations. In addition, because many of our products are regulated or sold into regulated industries, we must comply with additional regulations in marketing our products.

These laws and regulations (as well as actions that may be taken by legislatures and regulatory bodies in other countries) could limit our ability to pursue business opportunities we might otherwise consider engaging in, impose additional costs on us, result in significant loss of revenue, impact the value of assets we hold, or otherwise significantly adversely affect our business.

As in the United States, legislation regarding the availability or use of consumer and commercial data has been, and continues to be, proposed from time to time in various foreign countries in which we have operations, most notably in certain Latin American and European Union countries. These proposals have in some cases had the potential to expand the availability or uses of information and in other cases had the potential to restrict the availability or use of information we currently maintain. Accordingly, such possible regulatory action could either increase or decrease our potential revenue and profits.

We derive a portion of our revenue from direct and indirect sales to U.S., state, local and foreign governments and their respective agencies. Such contracts are subject to various procurement laws and regulations, and contract provisions relating to their formation, administration and performance. Failure to comply with these laws, regulations or provisions in our government contracts could result in the imposition of various civil and criminal penalties, termination of contracts, forfeiture of profits, suspension of payments, or suspension of future government contracting. If our government contracts are terminated, if we are suspended from government work, or if our ability to compete for new contracts is adversely affected, our business could suffer.

Third parties may claim that we are infringing their intellectual property and we could suffer significant litigation or licensing expenses or be prevented from selling products or services.

From time to time, third parties may claim that one or more of our products or services infringe their intellectual property rights. We analyze and take action in response to such claims on a case by case basis. Any dispute or litigation regarding patents or other intellectual property could be costly and time-consuming due to the complexity of our technology and the uncertainty of intellectual property litigation and could divert our management and key personnel from our business operations. A claim of intellectual property infringement could force us to enter into a costly or restrictive license agreement, which might not be available under acceptable terms or at all, or could subject us to significant damages or to an injunction against development and sale of certain of our products or services. Our intellectual property portfolio may not be useful in asserting a counterclaim, or negotiating a license, in response to a claim of intellectual property infringement. In certain of our businesses we rely on third party intellectual property licenses and we cannot ensure that these licenses will be available to us in the future on favorable terms or at all.

Third parties may infringe our intellectual property and we may suffer competitive injury or expend significant resources enforcing our rights.

Our success increasingly depends on our proprietary technology. We rely on various intellectual property rights, including patents, copyrights, database rights, trademarks and trade secrets, as well as confidentiality provisions and licensing arrangements, to establish our proprietary rights. The extent to which such rights can be protected varies in different jurisdictions. If we do not enforce our intellectual property rights successfully our competitive position may suffer which could harm our operating results. Our pending patent applications, and our pending copyright and trademark registration applications, may not be allowed or competitors may challenge the validity or scope of our patents, copyrights or trademarks. In addition, our patents, copyrights, trademarks and other intellectual property rights may not provide us a significant competitive advantage.

We may need to spend significant resources monitoring our intellectual property rights and we may or may not be able to detect infringement by third parties. Our competitive position may be harmed if we cannot detect infringement and enforce our intellectual property rights quickly or at all. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons. In addition, competitors might avoid infringement by designing around our intellectual property rights or by developing non-infringing competing technologies. Intellectual property rights and our ability to enforce them may be unavailable or limited in some countries which could make it easier for competitors to capture market share and could result in lost revenue.

Economic, political and other risks associated with international sales and operations could adversely affect our results of operations.

Sales outside the U.S. comprise 24% of our net operating revenue and, as a result, our business is subject to various risks associated with doing business internationally. We anticipate that revenue from international operations will continue to represent an increasing portion of our total revenue. In addition, many of our employees, suppliers, job functions and facilities are increasingly located outside the U.S. Accordingly, our future results could be harmed by a variety of factors including changes in specific country or region political, economic or other conditions; trade protection measures; data privacy and consumer protection regulations; difficulty in staffing and managing widespread operations; differing labor, intellectual property protection and technology standards and regulations; business licensing requirements or other requirements relating to making foreign direct investments, which could increase our cost of doing business in certain jurisdictions, prevent us from entering certain markets, increase our operating costs or lead to penalties or restrictions; difficulties associated with repatriating cash generated or held abroad in a tax-efficient manner; implementation of exchange controls; and geopolitical instability, including terrorism and war.

We earn revenue, pay expenses, own assets and incur liabilities in countries using currencies other than the U.S. dollar, including among others the British pound, the Canadian dollar, the Brazilian real, the Argentine peso, the Chilean peso and the Euro. Because our consolidated financial statements are presented in U.S. dollars, we must translate revenue, income and expenses, as well as assets and liabilities, into U.S. dollars at exchange rates in effect during or at the end of each reporting period. Therefore, increases or decreases in the value of the U.S. dollar against other major currencies will affect our net operating revenues, operating income and the value of balance sheet items denominated in foreign currencies. Because of the geographic diversity of our operations, weaknesses in some currencies might be offset by strengths in others over time. We generally do not mitigate the risks associated with fluctuating exchange rates, although we may from time to time through forward contracts or other derivative instruments hedge a portion of our translational foreign currency exposure or exchange rate risks associated with material transactions which are denominated in a foreign currency. The use of such hedging activities may not offset any or more than a portion of the adverse financial effects of unfavorable movements in foreign exchange rates over the limited time the hedges are in place. Accordingly, fluctuations in foreign currency exchange rates, particularly the strengthening of the U.S. dollar against major currencies, may materially affect our consolidated financial results.

Additionally, we must comply with complex foreign and U.S. laws and regulations, such as the U.S. Foreign Corrupt Practices Act, the U.K. Bribery Act and other local laws prohibiting corrupt payments to government officials, and anti-competition regulations. Violations of these laws and regulations could result in fines and penalties, criminal sanctions, restrictions on our business conduct and on our ability to offer products in one or more countries, and could adversely affect our reputation, our ability to attract and retain employees, our international operations, our business and operating results. Although we have implemented policies and procedures designed to ensure compliance with these laws and regulations, there can be no assurance that our employees, contractors or agents, as well as those companies to which we outsource certain of our business operations, will not violate our policies.

Our business will suffer if we are not able to retain and hire key personnel.

Our future success depends partly on the continued service of our key development, sales, marketing, executive and administrative personnel. Additionally, increased retention risk exists in certain key areas of our operations that require specialized skills, such as maintenance of certain legacy computer systems, data security experts and analytical modelers. If we fail to retain and hire a sufficient number of these personnel, we will not be able to maintain or expand our business. We believe our pay levels are competitive within the regions that we operate. However, there is intense competition for certain highly technical specialties in geographic areas where we continue to recruit, and it may become more difficult to retain our key employees.

Unfavorable results of legal proceedings could materially adversely affect us.

We are subject to various legal proceedings and claims, including putative class action claims, that have arisen out of the ordinary conduct of our business and are not yet resolved and additional claims may arise in the future. Results of legal proceedings cannot be predicted with certainty. We may be faced with significant monetary damages or injunctive relief against us that would materially adversely affect a portion of our business and might materially affect our financial condition and operating results.

Changes in income tax laws can significantly impact our net income.

Federal and state governments in the U.S. as well as a number of other governments around the world are currently facing significant fiscal pressures and have considered or may consider changes to their tax laws for revenue raising or economic competitiveness reasons. Changes to tax laws can have immediate impacts, either favorable or unfavorable, on our results of operations and cash flows, and may impact our competitive position versus certain competitors who are domiciled in other jurisdictions and subject to different tax laws.

We are subject to a variety of other general risks and uncertainties inherent in doing business.

In addition to the specific factors discussed above, we are subject to risks that are inherent to doing business. These include growth rates, general economic and political conditions, customer satisfaction with the quality of our services, costs of obtaining insurance, changes in unemployment rates, and other events that can impact revenue and the cost of doing business.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

Our executive offices are located at 1550 Peachtree Street, N.W., Atlanta, Georgia. Our other properties are geographically distributed to meet sales and operating requirements worldwide. We consider these properties to be both suitable and adequate to meet our current operating requirements, and most of the space is being utilized. We ordinarily lease office space for conducting our business and are obligated under approximately 80 leases and other rental arrangements for our field locations. We owned six office buildings at December 31, 2012, including our executive offices, two buildings which house our Atlanta, Georgia data center, two buildings utilized by our Workforce Solutions operations located in St. Louis, Missouri and Charleston, South Carolina, as well as a building utilized by our Latin America operations located in Sao Paulo, Brazil. We also own 23.5 acres adjacent to the Atlanta, Georgia data center.

For additional information regarding our obligations under leases, see Note 7 of the Notes to Consolidated Financial Statements in this report. We believe that suitable additional space will be available to accommodate our future needs.

ITEM 3. LEGAL PROCEEDINGS

Equifax, certain of its subsidiaries, and other persons have been named as parties in various legal actions and administrative proceedings arising in connection with the operation of Equifax's businesses. In most cases, plaintiffs seek unspecified damages and other relief. These actions include the following:

California Bankruptcy Litigation. In consolidated actions filed in the U.S. District Court for the Central District of California, captioned *Terri N. White, et al. v. Equifax Information Services LLC*, *Jose Hernandez v. Equifax Information Services LLC*, *Kathryn L. Pike v. Equifax Information Services LLC*, and *Jose L. Acosta, Jr., et al. v. Trans Union LLC, et al.*, plaintiffs asserted that Equifax violated federal and state law (the FCRA, the California Credit Reporting Act and the California Unfair Competition Law) by failing to follow reasonable procedures to determine whether credit accounts are discharged in bankruptcy, including the method for updating the status of an account following a bankruptcy discharge. On August 20, 2008, the District Court approved a Settlement Agreement and Release providing for certain changes in the procedures used by defendants to record discharges in bankruptcy on consumer credit files. That settlement resolved claims for injunctive relief, but not plaintiffs' claims for damages. On May 7, 2009, the District Court issued an order preliminarily approving an agreement to settle remaining class claims. The District Court subsequently deferred final approval of the settlement and required the settling parties to send a supplemental notice to those class members who filed a claim and objected to the settlement or opted out, with the cost for the re-notice to be deducted from the plaintiffs' counsel fee award. Mailing of the supplemental notice was completed on February 15, 2011. The deadline for this group of settling plaintiffs to provide additional documentation to support their damage claims or to opt-out of the settlement was March 31, 2011. On July 15, 2011, following another approval hearing, the District Court approved the settlement. Several objecting plaintiffs subsequently filed notices of appeal to the U.S. Court of Appeals for the Ninth Circuit. The parties have filed their briefs and the case is currently pending with oral arguments scheduled for March 2013.

Other. Equifax has been named as a defendant in various other legal actions, including administrative claims, class actions and other litigation arising in connection with our business. Some of the legal actions include claims for substantial compensatory or punitive damages or claims for indeterminate amounts of damages. We believe we have strong defenses to and, where appropriate, will vigorously contest, many of these matters. Given the number of these matters, some are likely to result in adverse judgments, penalties, injunctions, fines or other relief. However, we do not believe that these litigation matters will be individually material to our financial condition or results of operations. We may explore potential settlements before a case is taken through trial because of the uncertainty and risks inherent in the litigation process.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II**ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

Equifax's common stock is traded on the New York Stock Exchange under the symbol "EFX." As of January 31, 2013, Equifax had approximately 4,856 holders of record; however, Equifax believes the number of beneficial owners of common stock exceeds this number.

The table below sets forth the high and low sales prices per share of Equifax common stock, as reported on the New York Stock Exchange, for each quarter in the last two fiscal years and dividends declared per share:

	High Sales Price (In dollars)	Low Sales Price	Dividends (1)
2012			
First Quarter	\$44.60	\$ 37.89	\$ 0.18
Second Quarter	\$48.03	\$ 42.50	\$ 0.18
Third Quarter	\$49.49	\$ 45.15	\$ 0.18
Fourth Quarter	\$55.52	\$ 46.62	\$ 0.18
2011			
First Quarter	\$38.88	\$ 34.48	\$ 0.16
Second Quarter	\$39.90	\$ 33.44	\$ 0.16
Third Quarter	\$35.75	\$ 28.59	\$ 0.16
Fourth Quarter	\$39.26	\$ 29.07	\$ 0.16

(1) Equifax's Senior Credit Facility restricts our ability to pay cash dividends on our capital stock or repurchase capital stock if a default exists or would result according to the terms of the credit agreement.

Shareholder Return Performance Graph

The following graph compares Equifax's five-year cumulative total shareholder return with that of the Standard & Poor's Composite Stock Index (S&P 500) and a peer group index, the Dow Jones U.S. General Financial Index. The graph assumes that value of the investment in our Common Stock and each index was \$100 on the last trading day of

2007 and that all quarterly dividends were reinvested without commissions. Our past performance may not be indicative of future performance.

COMPARATIVE FIVE-YEAR CUMULATIVE TOTAL RETURN AMONG EQUIFAX INC., S&P 500, AND DOW JONES U.S. GENERAL FINANCIAL INDICES

COMPARISON OF FIVE-YEAR CUMULATIVE TOTAL RETURNS

VALUE OF \$100 INVESTED AS OF JANUARY 1, 2008

	Fiscal Year Ended December 31,					
	Initial	2008	2009	2010	2011	2012
Equifax Inc.	100.00	73.33	85.93	99.88	110.75	157.16
S&P 500 Index	100.00	63.00	79.67	91.67	93.61	108.59
DJ US General Financial Index	100.00	38.29	58.00	60.08	53.10	69.27

The table below contains information with respect to purchases made by or on behalf of Equifax of its common stock during the fourth quarter ended December 31, 2012:

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share (2)	Total Number of Shares Purchased as Part of Publicly-Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (3)
September 30, 2012				\$ 227,063,511
October 1 - October 31, 2012	44,449	\$ -	-	\$ 227,063,511
November 1 - November 30, 2012	-	\$ -	-	\$ 227,063,511
December 1 - December 31, 2012	5,800	\$ -	-	\$ 227,063,511
Total	50,249	\$ -	-	\$ 227,063,511

The total number of shares purchased includes: (a) shares purchased pursuant to our publicly-announced share repurchase program, or Program; and (b) shares surrendered, or deemed surrendered, in satisfaction of the exercise (1) price and/or to satisfy tax withholding obligations in connection with the exercise of employee stock options and vesting of restricted stock, totaling 44,449 shares for the month of October 2012, none for the month of November 2012, and 5,800 for the month of December 2012.

(2) Average price paid per share for shares purchased as part of our publicly-announced plan (includes brokerage commissions).

Under the share repurchase program authorized by our Board of Directors, we purchased 1.9 million common (3) shares on the open market during the twelve months ended December 31, 2012 for \$85.1 million. At December 31, 2012, the amount authorized for future share repurchases under the Program was \$227.1 million.

Information relating to compensation plans under which the Company's equity securities are authorized for issuance is included in the section captioned "Equity Compensation Plan Information" in our 2013 Proxy Statement and is incorporated herein by reference.

ITEM 6. SELECTED FINANCIAL DATA

The table below summarizes our selected historical financial information for each of the last five years. The summary of operations data for the years ended December 31, 2012, 2011, 2010, and the balance sheet data as of December 31, 2012 and 2011, have been derived from our audited Consolidated Financial Statements included in this report. The summary of operations data for the years ended December 31, 2009 and 2008, and the balance sheet data as of December 31, 2010, 2009 and 2008, have been derived from our audited Consolidated Financial Statements not included in this report. The historical selected financial information may not be indicative of our future performance and should be read in conjunction with the information contained in Management's Discussion and Analysis of Financial Condition and Results of Operations, and the Consolidated Financial Statements and the accompanying Notes to the Consolidated Financial Statements in this report.

On December 28, 2012, we acquired certain credit services business assets and operations of Computer Sciences Corporation (“CSC Credit Services”) for \$1.0 billion. We financed the acquisition with available cash, the issuance (1) of \$500 million of 3.30% ten-year senior notes, and commercial paper borrowings under our CP program. The results of this acquisition are included in our USCIS segment after the date of acquisition and are not material for 2012. For additional information, see Note 4 of the Notes to Consolidated Financial Statements in this report.

During the fourth quarter of 2012, we offered certain former employees a voluntary lump sum payment option of their pension benefits or a reduced monthly annuity. Approximately 64% of the vested terminated participants elected to receive the lump sum payment which resulted in a payment of \$62.6 million. An amendment to the (2) USRIP was also approved which froze future salary increases for non-grandfathered participants and offered a one-time 9% increase to the service benefit. The settlement and amendment resulted in a \$38.7 million pension charge. For additional information, see Note 11 of the Notes to Consolidated Financial Statements in this report.

On May 31, 2011, we completed the merger of our Brazilian business with Boa Vista Serviços S.A. (“BVS”) in (3) exchange for a 15% equity interest in BVS, which was accounted for as a sale and was deconsolidated. BVS, an unrelated third party whose results we do not consolidate, is the second largest consumer and commercial credit information company in Brazil.

On April 23, 2010, we sold our APPRO product line (“APPRO”) for approximately \$72 million. On July 1, 2010, we sold the assets of our Direct Marketing Services division (“DMS”) for approximately \$117 million. Both of these were previously reported in our U.S. Consumer Information Solutions segment. We have presented the APPRO (4) and DMS operations as discontinued operations for all periods presented. For additional information about these divestitures, see Note 3 of the Notes to Consolidated Financial Statements in this report.

On October 27, 2009, we acquired IXI Corporation for \$124.0 million. On November 2, 2009, we acquired Rapid Reporting Verification Company for \$72.5 million. The results of these acquisitions are included in our (5) Consolidated Financial Statements subsequent to the acquisition dates. For additional information about these acquisitions, see Note 4 of the Notes to Consolidated Financial Statements in this report.

During 2009 and 2008, we recorded restructuring and asset write-down charges of \$24.8 million and \$16.8 million, (6) respectively (\$15.8 million and \$10.5 million, respectively, net of tax). For additional information about the 2009 charges, see Note 12 of the Notes to the Consolidated Financial Statements in this report.

During 2009, we recorded a \$7.3 million income tax benefit related to our ability to utilize foreign tax credits (7) beyond 2009. In 2008 and 2006, we recorded income tax benefits of \$14.6 million and \$9.5 million, respectively, related to uncertain tax positions for which the statute of limitations expired.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used herein, the terms Equifax, the Company, we, our and us refer to Equifax Inc., a Georgia corporation, and its consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only Equifax Inc.

All references to earnings per share data in Management's Discussion and Analysis, or MD&A, are to diluted earnings per share, or EPS, unless otherwise noted. Diluted EPS is calculated to reflect the potential dilution that would occur if stock options or other contracts to issue common stock were exercised and resulted in additional common shares outstanding.

BUSINESS OVERVIEW

We are a leading global provider of information solutions and human resources business process outsourcing services for businesses and consumers. We leverage some of the largest sources of consumer and commercial data, along with advanced analytics and proprietary decisioning technology, to create customized insights which enable our business clients to grow faster, more efficiently and more profitably, and to inform and empower consumers.

Clients rely on us for consumer and business credit intelligence, credit portfolio management, fraud detection, decisioning technology, marketing tools, and human resources and payroll services. We also offer a portfolio of products that enable individual consumers to manage their financial affairs and protect their identity. Our revenue stream is diversified among individual consumers and among businesses across a wide range of industries and international geographies.

Segment and Geographic Information

Segments. The U.S. Consumer Information Solutions, or USCIS, segment, the largest of our five segments, consists of three product and service lines: Online Consumer Information Solutions, or OCIS; Mortgage Solutions; and Consumer Financial Marketing Services. OCIS and Mortgage Solutions revenue is principally transaction-based and is derived from our sales of products such as consumer credit reporting and scoring, mortgage settlement services, identity management and authentication, fraud detection and modeling services. USCIS also markets certain of our decisioning products which facilitate and automate a variety of consumer credit-oriented decisions. Consumer Financial Marketing Services revenue is principally project- and subscription-based and is derived from our sales of batch credit, consumer wealth or demographic information such as those that assist clients in acquiring new

customers, cross-selling to existing customers and managing portfolio risk.

The International segment consists of Latin America, Europe and Canada Consumer. Canada Consumer's products and services are similar to our USCIS offerings, while Europe and Latin America are made up of varying mixes of product lines that are in our USCIS, North America Commercial Solutions and North America Personal Solutions reportable segments.

The Workforce Solutions segment consists of the Verification Services and Employer Services business units. Verification Services revenue is transaction based and is derived primarily from employment, income and social security number verifications. Employer Services revenues are derived from our provision of certain human resources business process outsourcing services that include both transaction- and subscription-based product offerings. These services assist our clients with the administration of unemployment claims and employer-based tax credits, the handling of certain payroll-related transaction processing, and the management of the assessment of new hires.

North America Personal Solutions revenue is both transaction- and subscription-based and is derived from the sale of credit monitoring and identity theft protection products, which we deliver to consumers through the mail and electronically via the internet.

North America Commercial Solutions revenue is principally transaction based, with the remainder project based, and is derived from the sale of business information, credit scores and portfolio analytics that enable clients to utilize our reports to make financial, marketing and purchasing decisions related to businesses.

During the first quarter of 2013, we divested of two non-strategic business lines, Equifax Settlement Services which was part of our Mortgage business within the USCIS operating segment and generated \$66.5 million of revenue in 2012 and Talent Management Services which was part of our Employer Services business within our Workforce Solutions operating segment and generated \$21.0 million of revenue in 2012, for a total of approximately \$48 million. The historical results of these operations will be classified as discontinued operations in the Consolidated Statements of Income beginning in the first quarter of 2013.

Geographic Information. We currently operate in the following countries: Argentina, Brazil, Canada, Chile, Costa Rica, Ecuador, El Salvador, Honduras, Paraguay, Peru, Portugal, the Republic of Ireland, Spain, the U.K., Uruguay, and the U.S. Our operations in the Republic of Ireland focus on data handling and customer support activities. We have an investment in the second largest consumer and commercial credit information company in Brazil and offer consumer credit services in India and Russia through joint ventures. Of the countries we operate in, 76% of our revenue was generated in the U.S. during the twelve months ended December 31, 2012.

Key Performance Indicators. Management focuses on a variety of key indicators to monitor operating and financial performance. These performance indicators include measurements of operating revenue, change in operating revenue, operating income, operating margin, net income, diluted earnings per share, cash provided by operating activities and capital expenditures. Key performance indicators for the twelve months ended December 31, 2012, 2011 and 2010, include the following:

	Key Performance Indicators					
	Twelve Months Ended					
	December 31,					
	2012		2011		2010	
	(Dollars in millions, except per share data)					
Operating revenue	\$ 2,160.5		\$ 1,959.8		\$ 1,859.5	
Operating revenue change	10	%	5	%	8	%
Operating income	\$ 489.0		\$ 471.0		\$ 430.0	
Operating margin	22.6	%	24.0	%	23.1	%
Net income attributable to Equifax	\$ 272.1		\$ 232.9		\$ 266.7	
Diluted earnings per share from continuing operations	\$ 2.22		\$ 1.87		\$ 1.86	
Cash provided by operating activities	\$ 496.3		\$ 408.7		\$ 352.6	
Capital expenditures	\$ 66.0		\$ 75.0		\$ 99.8	

Operational and Financial Highlights.

On December 28, 2012, as a part of our long-term growth strategy of expanding our USCIS business, we acquired CSC Credit Services for \$1.0 billion. We financed the acquisition with available cash, the issuance of \$500 million of 3.30% ten-year senior notes, and commercial paper borrowings under our CP program. The results of this acquisition are included in our USCIS segment and are not material for 2012.

• We repurchased 1.9 million shares of our common stock on the open market for \$85.1 million during 2012.

Business Environment and Company Outlook

We expect U.S. mortgage refinancing activity to remain strong through the first half of 2013 but then trend down in the second half of 2013. We also expect a continuation of modest economic growth in most of our served markets. The environment will continue to be challenging as various countries deal with their particular political, fiscal, and economic issues. However, we continue to expect that our ongoing investments in new product innovation, business execution, enterprise growth initiatives, technology infrastructure, strategic acquisitions, and continuous process improvement will enable us, in a modestly growing economy, to deliver long term average organic revenue growth ranging between 6% and 8% with additional growth of 1% to 2% derived from strategic acquisitions. We also expect to grow earnings per share at a somewhat faster rate than revenue as a result of both operating and financial leverage. In 2013, we expect total revenue growth from continuing operations of 10% to 12%, as the impact of our acquisition of the CSC Credit Services business will more than outweigh the negative impact of the expected decline in U.S. mortgage volumes.

RESULTS OF OPERATIONS —**TWELVE MONTHS ENDED DECEMBER 31, 2012, 2011 AND 2010****Consolidated Financial Results***Operating Revenue*

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
Operating Revenue	(Dollars in millions)			\$	%	\$	%
U.S. Consumer Information Solutions	\$916.8	\$792.6	\$743.0	\$124.2	16%	\$49.6	7%
International	486.2	492.9	482.8	(6.7)	-1%	10.1	2%
Workforce Solutions	463.1	404.3	395.6	58.8	15%	8.7	2%
North America Personal Solutions	204.5	180.7	157.6	23.8	13%	23.1	15%
North America Commercial Solutions	89.9	89.3	80.5	0.6	1%	8.8	11%
Consolidated operating revenue	\$2,160.5	\$1,959.8	\$1,859.5	\$200.7	10%	\$100.3	5%

Revenue from continuing operations increased by 10% compared to 2011. The deconsolidation of our Brazilian business, which resulted from the merger of our business into a larger entity during the second quarter of 2011, negatively impacted revenue growth by \$35.4 million in 2012, compared to the prior year, while all other revenue increased by 12% compared to 2011. The growth in 2012 was driven by strong execution of key strategic initiatives and the impact of increased mortgage refinancing activity in the U.S. The effect of foreign exchange rates, in locations other than Brazil, reduced revenue by \$12.5 million in 2012 compared to the prior year.

Revenue from continuing operations increased by 5% in 2011 compared to 2010. The deconsolidation of our Brazilian business, which resulted from the merger of our business into BVS during the second quarter of 2011, negatively impacted revenue by \$48.7 million, compared to the prior year, while all other revenue increased by 8% compared to 2010, primarily driven by strong execution of key strategic initiatives across each of our businesses. The favorable effect of foreign exchange rates, in locations other than Brazil, did not have a material impact on revenue.

Operating Expenses

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
Operating Expenses	(Dollars in millions)			\$	%	\$	%
Consolidated cost of services	\$829.1	\$758.8	\$759.9	\$70.3	9 %	\$(1.1)	0 %
Consolidated selling, general and administrative expenses	678.7	564.5	507.4	114.2	20%	57.1	11 %
Consolidated depreciation and amortization expense	163.7	165.5	162.2	(1.8)	-1 %	3.3	2 %
Consolidated operating expenses	\$1,671.5	\$1,488.8	\$1,429.5	\$182.7	12%	\$59.3	4 %

Cost of Services. Cost of services from continuing operations increased \$70.3 million in 2012 compared to the prior year. The increase was due primarily to the impact of increased salary expense, direct production expenses and contract service expenses of \$79.7 million as well as smaller increases in other expenses to support revenue growth. The increase in expense in 2012 was partially offset by decreases related to the deconsolidation of our Brazilian business. The impact of changes in foreign currency exchange rates decreased our cost of services by \$3.4 million.

The slight increase in cost of services from continuing operations in 2011, when compared to 2010, was due primarily to the impact of increased salary and benefits expense and contract services expenses of \$31.1 million, and by the impact of changes in foreign currency exchange rates which increased our cost of services by \$7.2 million, largely offset by decreases related to the deconsolidation of our Brazilian business.

Selling, General and Administrative Expenses. The increase in selling, general and administrative expense from continuing operations in 2012, as compared to 2011, included a \$38.7 million non-cash pension settlement charge that occurred in the fourth quarter of 2012. The remaining increase was primarily due to increased salary, incentive, and professional and contractor services expenses of \$70.2 million as well as higher marketing and other expenses partially offset by decreases in expenses related to the deconsolidation of our Brazilian business. The impact of changes in foreign currency exchange rates decreased our selling, general and administrative expense by \$2.7 million.

Selling, general and administrative expense from continuing operations increased \$57.1 million in 2011 compared to 2010. The increase was primarily due to increased salary and incentive expense of \$33.3 million, higher advertising expenses of \$9.1 million and higher severance costs offset by decreases in expenses related to the deconsolidation of our Brazilian business. The impact of changes in foreign currency exchange rates increased our selling, general and administrative expense by \$5.2 million in 2011.

Depreciation and Amortization. The slight decrease in depreciation and amortization expense in 2012, as compared to 2011, is primarily due to the decline in amortization of certain purchased intangibles acquired as part of the TALX acquisition in 2007 which fully amortized during the second quarter of 2011 and the amortization and depreciation decrease resulting from the deconsolidation of our Brazilian business. This decrease was partially offset by our two 2011 acquisitions within Workforce Solutions.

Depreciation and amortization expense from continuing operations increased in 2011 as compared to 2010 due to \$6.6 million of incremental depreciation and amortization expense related to our fourth quarter 2010 acquisition of Anakam and our 2011 acquisitions partially offset by the decline in amortization of certain purchased intangibles acquired as part of TALX in 2007 which fully amortized at the end of the second quarter of 2011 and the amortization and depreciation decrease resulting from the deconsolidation of our Brazilian business.

Operating Income and Operating Margin

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
Operating Income and Operating Margin	(Dollars in millions)			\$	%	\$	%
Consolidated operating revenue	\$2,160.5	\$1,959.8	\$1,859.5	\$200.7	10 %	\$100.3	5 %
Consolidated operating expenses	(1,671.5)	(1,488.8)	(1,429.5)	(182.7)	12 %	(59.3)	4 %
Consolidated operating income	\$489.0	\$471.0	\$430.0	\$18.0	4 %	\$41.0	10 %
Consolidated operating margin	22.6 %	24.0 %	23.1 %			-1.4 pts	0.9 pts

In 2012, operating expenses increased at a slightly faster rate than revenue, and operating income increased at a lower rate than revenue, due to a \$38.7 million pension settlement recorded during the fourth quarter of 2012, partially offset by improvements in margins in four of our business segments. The overall operating margin decreased in 2012 compared to the prior year period due primarily to the pension settlement in 2012 which negatively impacted margin by 180 basis points, and by increases in corporate expenses other than the pension settlement, which increased faster than revenues. These negative impacts on operating margin were partially offset by improvements in margins in our USCIS, International, Workforce Solutions and Personal Solutions businesses, driven by revenue growth.

Operating income from continuing operations for 2011 increased faster than revenue due to operating leverage from revenue growth and business mix as well as the deconsolidation of Brazil, which reduced reported revenue, but which had little impact on operating profit because it had been operating near break-even. These factors resulted in operating margin improvement of 90 basis points to 24.0% compared to 2010.

Other Expense, Net

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
Other Expense, Net	(Dollars in millions)			\$	%	\$	%
Consolidated interest expense	\$55.4	\$55.1	\$56.1	\$0.3	1 %	\$(1.0)	-2 %
Consolidated other expense (income), net	(6.6)	7.7	(1.3)	(14.3)	-186 %	9.0	nm
Consolidated other expense, net	\$48.8	\$62.8	\$54.8	\$(14.0)	-22 %	\$8.0	15 %
Average cost of debt	5.3 %	5.5 %	5.2 %				

Edgar Filing: EQUIFAX INC - Form 10-K

Total consolidated debt, net, at year end \$1,730.7 \$1,013.2 \$999.6 \$717.5 71 % \$13.6 1 %
 nm - not meaningful

Interest expense increased slightly in 2012, when compared to the same period in 2011, due to the issuance of \$500 million of 3.30% ten-year senior notes in December 2012. Our consolidated debt balance has increased at December 31, 2012, as a result of the issuance of \$500 million of 3.30% senior notes and additional borrowings in the form of commercial paper to fund the acquisition of CSC Credit Services. The decrease in the average cost of debt for 2012 is due to the issuance of the \$500 million Senior Notes at a lower interest rate and additional low rate commercial paper outstanding on average year to date which caused the average cost of debt to decrease as compared to the prior year period.

Interest expense decreased slightly in 2011, when compared to the same period in 2010, due to lower average debt balances outstanding for 2011 as compared to 2010. Our consolidated debt balance increased at December 31, 2011, as a result of additional borrowings in the form of commercial paper, on which interest rates and accordingly interest expense were very low. The increase in the average cost of debt for 2011 is due to less low rate commercial paper outstanding on average throughout the year which caused the average cost of debt to increase as compared to the prior year period.

Other expense (income), net, from continuing operations for 2012, decreased \$14.3 million, as compared to the prior year periods. The decrease is primarily due to the merger of our Brazilian business during the second quarter of 2011. On May 31, 2011, we completed the merger of our Brazilian business with Boa Vista Servicos S.A. ("BVS"), which was accounted for as a sale and deconsolidated, in exchange for a 15% equity interest in BVS ("the Brazilian Transaction"). We recorded a \$10.3 million pre-tax loss on the Brazilian Transaction in other expense (income), net. Other expense, net, was also reduced in 2012 by higher income from our minority investment in Russia and interest earned of higher cash balances during 2012.

Other expense (income), net, from continuing operations for 2011 increased \$9.0 million as compared to the prior year. The increase is primarily due to the merger of our Brazilian business during the second quarter of 2011. We recorded a \$10.3 million pre-tax loss on the Brazilian Transaction in other expense (income), net.

Income Taxes

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
Provision for Income Taxes	(Dollars in millions)			\$	%	\$	%
Consolidated provision for income taxes	\$ 159.4	\$ 168.0	\$ 131.9	\$(8.6)	-5%	\$ 36.1	27%
Effective income tax rate	36.2%	41.2%	35.1%				

Our effective rate was 36.2% for 2012, down from 41.2% for the same period in 2011. The 2011 rate was higher primarily due to the impact of the Brazilian Transaction which increased our effective rate by 5.2%. In addition, the 2012 rate increased by 4.7% compared to the prior year due the one-time effects of certain international tax planning implemented during the year. This is offset by a 3.5% one-time benefit associated with a tax method change approved by tax authorities in 2012. In addition, the 2012 rate benefited from certain federal, state and international benefits that we do not expect to recur in future years. We expect our effective tax rate in 2013 to be in the range of 35% to 37%.

Our effective rate was 41.2% for 2011, up from 35.1% for the same period in 2010. The 2011 rate was higher primarily due to the impact of the Brazilian Transaction which increased our effective rate by 5.2%. In addition, the 2010 rate benefited from certain state benefits that did not recur in 2011. This is partially offset by a cumulative income tax benefit resulting from the recognition of an income tax deduction related to several prior years.

Net Income

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
Net Income	(In millions, except per share amounts)			\$	%	\$	%
Consolidated operating income	\$489.0	\$471.0	\$430.0	\$18.0	4%	\$41.0	10%

Edgar Filing: EQUIFAX INC - Form 10-K

Consolidated other expense, net	(48.8)	(62.8)	(54.8)	14.0	-22 %	(8.0)	15 %
Consolidated provision for income taxes	(159.4)	(168.0)	(131.9)	8.6	-5 %	(36.1)	27 %
Consolidated net income from continuing operations	\$280.8	\$240.2	\$243.3	\$40.6	17 %	\$(3.1)	-1 %
Discontinued operations, net of tax	\$-	1.5	31.5	(1.5)	-100%	\$(30.0)	-95 %
Net income attributable to noncontrolling interests	(8.7)	(8.8)	(8.1)	0.1	-1 %	(0.7)	9 %
Net income attributable to Equifax	\$272.1	\$232.9	\$266.7	\$39.2	17 %	\$(33.8)	-13 %
Diluted earnings per common share							
Net income from continuing operations attributable to Equifax	\$2.22	\$1.87	\$1.86	\$0.35	19 %	\$0.01	1 %
Discontinued operations attributable to Equifax	-	0.01	0.25	\$(0.01)	-100%	\$(0.24)	-95 %
Net income attributable to Equifax	\$2.22	\$1.88	\$2.11	\$0.34	18 %	\$(0.23)	-11 %
Weighted-average shares used in computing diluted earnings per share	122.5	123.7	126.5				

Consolidated net income from continuing operations increased \$40.6 million, or 17%, in 2012 compared to 2011 due primarily to an \$18.0 million increase in operating income in 2012, driven by improvements in four of our five business segments, and the \$27.8 million loss recorded on the Brazilian Transaction (reflected in other expense and income tax expense, as previously described) in 2011, for which no comparable losses were incurred in 2012.

Consolidated income from continuing operations decreased by \$3.1 million, or 1%, in 2011, compared to the same period in 2010, due to the \$27.8 million loss recorded on the Brazilian Transaction (reflected in other expense and income tax expense), partially offset by operating income growth of \$41.0 million due to revenue growth, net of associated income taxes. Consolidated income attributable to Equifax decreased \$33.8 million in 2011. In addition to improved operating results and the loss on the Brazilian Transaction described above, 2010 consolidated income from continuing operations included transaction gains from discontinued operations of \$27.2 million which did not recur in 2011.

Segment Financial Results

U.S. Consumer Information Solutions

	Twelve Months Ended December 31,			Change		2011 vs. 2010	
	2012	2011	2010	2012 vs. 2011	%	\$	%
U.S. Consumer Information Solutions	(Dollars in millions)						
Operating revenue:							
Online Consumer Information Solutions	\$607.0	\$519.8	\$485.2	\$87.2	17 %	\$34.6	7 %
Mortgage Solutions	161.0	119.5	113.5	41.5	35 %	6.0	5 %
Consumer Financial Marketing Services	148.8	153.3	144.3	(4.5)	-3 %	9.0	6 %
Total operating revenue	\$916.8	\$792.6	\$743.0	\$124.2	16 %	\$49.6	7 %
% of consolidated revenue	42 %	40 %	40 %				
Total operating income	\$341.7	\$287.3	\$269.8	\$54.4	19 %	\$17.5	6 %
Operating margin	37.3 %	36.2 %	36.3 %			1.1 pts	-0.1 pts

U.S. Consumer Information Solutions revenue increased 16% in 2012 as compared to 2011 due to the impact of a high level of mortgage activity as well as certain new product, pricing and market penetration initiatives implemented during 2011 and into 2012. We expect that the additional revenue in 2013 resulting from the acquisition of CSC Credit Services will more than offset an anticipated decline in mortgage-related revenue as a result of an expected market decline in mortgage origination volumes. The increase in revenue for 2011, as compared to 2010, was a result of growth across all of our USCIS business lines.

OCIS. 2012 revenue increased 17% when compared to the prior year. About half of the increase resulted from increased volume and improved pricing in mortgage end-use markets, while the other half came predominately from pricing and new product initiatives. For the year, core credit decision transaction volume increased by 4% while average revenue per transaction increased by 9%, resulting from the increase in mortgage volume (at higher than average pricing) as a share of our overall mix and from specific market segment pricing initiatives, while the remainder of our 17% growth came from products billed on a subscription basis and other revenue sources. The increase in revenue for 2011, as compared to 2010, was driven by increased market volume, particularly in the credit card and auto markets; new customer wins; new service introductions; and select pricing actions in subscription and wholesale arrangements. An 11% increase in core credit decision transaction volumes was partially offset by lower average price per transaction for our transaction based revenue.

Mortgage Solutions. Revenue increased 35% in 2012 when compared to 2011 due primarily to increased sales in core mortgage reporting services as a result of higher mortgage refinancings stimulated by historically low mortgage

interest rates; the sale of newer mortgage information products which help lenders better manage risk; and growth in settlement services revenue as a result of the favorable market conditions and increased market share from existing customers. Revenue increased in 2011 primarily due to increased sales of settlement services as a result of increased market share from existing customers partially offset by the declines in core mortgage reporting services due to lower refinancing activity as compared to the comparable periods of 2010.

Consumer Financial Marketing Services. Revenue decreased in 2012, as compared to 2011, resulting from a decline in demand for wealth-based consumer information services due to reductions in their use for credit marketing by some large financial institutions. This decrease was partially offset in by growth in traditional credit-based pre-screen revenue and increased portfolio management revenue. Revenue for 2011 increased, as compared to 2010, due to continued growth in credit-based pre-screen and portfolio management revenue as well as strong market penetration of wealth-based consumer information services.

U.S. Consumer Information Solutions Operating Margin. USCIS operating margins increased 110 basis points to 37.3% in 2012 due to the benefits of strong revenue growth in a business with significant fixed costs. In 2011, improved margins in online credit services and CFMS resulting from solid revenue growth were offset by lower margins in mortgage solutions due to less favorable product mix and by expense investment and increased acquisition-related amortization associated with our fourth quarter 2010 acquisition of Anakam.

International

Total operating revenue	\$ 486.2	\$ 492.9	\$ 482.8	\$(6.7)	-1%	\$ 10.1	2%
% of consolidated revenue	23%	25%	26%				
Total operating income	\$ 143.8	\$ 132.2	\$ 119.4	\$ 11.6	9%	\$ 12.8	11%
Operating margin	29.6%	26.8%	24.7%		2.8 pts		2.1 pts

International revenue in 2012 decreased 1% compared to the prior year. While the deconsolidation of Brazil negatively impacted revenue by \$35.4 million in 2012, revenue in our other geographies increased by 6% in 2012 as compared to 2011. Local currency revenue, excluding Brazil, increased 9% in 2012 due to growth across our other geographies. Local currency fluctuations against the U.S. dollar, excluding Brazil, negatively impacted our International revenue by \$12.3 million, or 3%.

International revenue increased by 2% in 2011 as compared to 2010. While the deconsolidation of Brazil negatively impacted revenue by \$48.7 in 2011, revenue in our other geographies increased by 15% as compared to 2010. Local currency revenue, excluding Brazil, increased 12% due to solid growth in Europe, Canada and other Latin American countries. Local currency fluctuations against the U.S. dollar, excluding Brazil, favorably impacted our International revenue by \$12.0 million, or 3%.

Latin America. Revenue decreased by 10% in 2012 as compared to the prior year period. While the deconsolidation of Brazil negatively impacted revenue by \$35.4 million in 2012, revenue in our other Latin American countries increased 8% in 2012 as compared to 2011. Local currency revenue, excluding Brazil, increased by 12% due most particularly to strong growth in Argentina, Uruguay and Ecuador slightly offset by a small decline in Chile due to a regulatory change in allowable uses of credit reports. Local currency fluctuations against the U.S. dollar, excluding Brazil, negatively impacted revenue by \$6.5 million, or 4%.

Revenue decreased by 10% in 2011 as compared to 2010. While the deconsolidation of Brazil negatively impacted revenue by \$48.7 million in 2011, revenue in our other Latin American countries increased 18% in 2011 as compared to 2010. Local currency revenue, excluding Brazil, increased by 17% due to broad-based growth across other Latin

American countries. The favorable impact of changes in foreign exchange rates, excluding Brazil, added \$1.0 million, or 1%, to revenue in 2011.

Europe. 2012 revenue increased 7% compared to 2011. In local currency, revenue growth was 10% driven by increased sales primarily in the personal solutions and analytical services business lines despite more challenging economic conditions. Local currency fluctuations against the U.S. dollar negatively impacted revenue by \$4.4 million, or 3%.

Revenue increased 15% in 2011 compared to the same period in 2010 due to increased sales in most product segments and the impact of a first quarter 2011 acquisition, as well as the favorable impact of changes in foreign exchange rates. In local currency, revenue was up 11% in 2011. Local currency fluctuations against the U.S. dollar favorably impacted revenue by \$6.0 million, or 4%.

Canada Consumer. Local currency revenue increased 4% in 2012, as compared to 2011, primarily due to increased volumes for our analytical services products. Local currency fluctuations against the U.S. dollar negatively impacted revenue by \$1.4 million, or 1%.

Revenue increased 10% compared to the same period in 2010 due to increased volumes for our technology and analytical services products, primarily due to growth in the customer base for a fraud mitigation product, and the favorable impact of changes in foreign exchange rates. In local currency, revenue was up 6% in 2010. Local currency fluctuations against the U.S. dollar favorably impacted revenue by \$5.1 million, or 4%.

International Operating Margin. Operating margin increased in 2012 as compared to 2011 primarily due to the deconsolidation of our Brazilian business, whose margins had declined in recent periods, slightly offset by restructuring expenses in the third quarter of 2012. Operating margin increased in 2011 as compared to the prior year period also due to the deconsolidation of our Brazilian business part way through the year. The 2011 operating margins were also impacted by increased investments in new product development and increased sales force, particularly in Brazil prior to the deconsolidation of the business.

Workforce Solutions

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
Workforce Solutions	(Dollars in millions)			\$	%	\$	%
Operating Revenue:							
Verification Services	\$258.5	\$192.5	\$183.4	\$66.0	34 %	\$9.1	5 %
Employer Services	204.6	211.8	212.2	(7.2)	-3 %	(0.4)	0 %
Total operating revenue	\$463.1	\$404.3	\$395.6	\$58.8	15 %	\$8.7	2 %
% of consolidated revenue	21 %	21 %	21 %				
Total operating income	\$107.9	\$90.7	\$92.1	\$17.2	19 %	\$(1.4)	-2 %
Operating margin	23.3 %	22.4 %	23.3 %		0.9pts		-0.9 pts

Verification Services. Revenue increased 34% in 2012, compared to 2011, due to 36% growth in mortgage-related verification revenue resulting from the strong level of mortgage refinancing activity during 2012, 18% growth in non-mortgage verification revenue, and the benefit of our third quarter 2011 acquisition of DataVision Resources. As we anniversary the DataVision Resources acquisition and begin comparing future results to 2012 when mortgage refinancing activity was strong, growth rates in 2013 will likely be lower than those in 2012.

Revenue increased in 2011, compared to the prior year period, as high single digit percentage revenue growth in verifications provided to non-mortgage customers and the benefit of our third quarter 2011 acquisition of DataVision Resources were partially offset by high single digit declines in verification revenue from mortgage customers due to reduced mortgage activity.

Employer Services. Revenue decreased 3% in 2012 as compared to 2011. Revenue declined in our Tax Management Services business due to lower overall claims activity in our unemployment cost management business and, beginning in the third quarter, the delay in the renewal of the federal Work Opportunity Tax Credit program which was renewed on December 31, 2012. Revenue also declined in our Talent Management Services business due to decreased government hiring activity. These declines were partially offset by growth achieved in our transaction-based

complementary services.

Revenue for 2011 as compared to 2010 slightly decreased. Declines in our talent recruitment and management services business due to decreased government hiring activity at the U.S. Transportation Security Administration and reduced licensing revenue were largely offset by revenue growth in our complementary services business.

Workforce Solutions Operating Margin. Operating margin for 2012 increased as compared to 2011. The increase in margin was driven by the revenue growth during the year in products with a high degree of fixed costs. Operating margin for 2011, when compared to the prior year period, decreased due to revenue and associated margin declines in government-based tax transcript verification services and talent recruitment and management services as a result of a slowdown in mortgage-related activity and decreased license revenue, respectively. There was also increased acquisition-related amortization associated with our two acquisitions in the latter half of 2011.

North America Personal Solutions

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
North America Personal Solutions				\$	%	\$	%
	(Dollars in millions)						
Total operating revenue	\$204.5	\$180.7	\$157.6	\$23.8	13 %	\$23.1	15 %
% of consolidated revenue	10 %	9 %	9 %				
Total operating income	\$61.6	\$54.1	\$44.6	\$7.5	14 %	\$9.5	21 %
Operating margin	30.1 %	29.9 %	28.3 %		0.2pts		1.6 pts

The increase in revenue in 2012, as compared to 2011, was primarily due to increased direct to consumer, Equifax-branded subscription service revenue which was up 16% in 2012. The increase was driven by higher average revenue per subscriber due to new product offerings and better market segmentation and, to a lesser extent, by higher subscription sales resulting in higher average subscriber counts. Operating margin increased slightly in 2012, as compared to 2011, primarily due to higher revenue partially offset by an increase in marketing.

Revenue increased 15% in 2011 as compared to the prior year primarily due to increased direct to consumer, Equifax-branded subscription service revenue. Equifax-branded subscription revenue was up 17% from the prior year, driven by both higher subscription sales and higher average revenue per subscriber due to new product offerings and better market segmentation. Revenue from wholesalers, which benefited from more favorable pricing, and from Canada also contributed to growth, while data breach services and transaction-based services each declined modestly. The operating margin increase in 2011, as compared to 2010, was primarily due to the increased revenue along with a shift in product mix to higher margin products.

North America Commercial Solutions

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
North America Commercial Solutions				\$	%	\$	%
	(Dollars in millions)						
Total operating revenue	\$89.9	\$89.3	\$80.5	\$0.6	1 %	\$ 8.8	11 %
% of consolidated revenue	4 %	5 %	4 %				
Total operating income	\$19.8	\$23.6	\$19.5	\$(3.8)	-16 %	\$ 4.1	21 %
Operating margin	22.0%	26.5%	24.2%		-4.5pts		2.3 pts

Revenue increased 1% in 2012 both in reported currency and local currency as compared to 2011. Transaction-based revenue serving credit risk needs of our customers, which represents approximately 60% of our revenue, grew 5% in 2012 as compared to the prior year. This growth was offset by a 5% decline in project-oriented revenue as customers delayed or canceled certain small business marketing programs given the uncertain environment for small businesses. Operating margin decreased in 2012 due to marginal revenue growth combined with a 7% increase in operating expenses as the business continues to invest in its longer term strategy despite the current slowdown in demand for marketing services.

2011 revenue increased \$8.8 million, or 11%, as compared to 2010. In local currency, revenue increased 10% compared 2010 primarily due to increases in U.S. risk and marketing service revenue and revenue from our data management products. The favorable impact of changes in the U.S.—Canadian foreign exchange rate impacted revenue by \$1.0 million, or 1%, as compared to the prior year. Operating margin also increased for 2011, as compared 2010, due to strong revenue growth and the margin leverage which results from a partially fixed cost business.

General Corporate Expense

	Twelve Months Ended December 31,			Change			
	2012	2011	2010	2012 vs. 2011		2011 vs. 2010	
General Corporate Expense	(Dollars in millions)			\$	%	\$	%
General corporate expense	\$ 185.8	\$ 116.9	\$ 115.4	\$ 68.9	59%	\$ 1.5	1 %

Our general corporate expenses are costs that are incurred at the corporate level and include those expenses impacted by corporate direction, such as shared services, administrative, legal, equity compensation costs and restructuring expenses. General corporate expenses increased by \$68.9 million in 2012, compared to 2011, primarily due to the \$38.7 million pension settlement recorded in 2012 along with higher salary and incentive costs, spending to support corporate growth and infrastructure initiatives, and costs associated with completing our acquisition of CSC Credit Services' assets, partially offset by lower technology costs.

General corporate expenses increased by \$1.5 million in 2011, compared to 2010, primarily due to higher salary and incentive costs partially offset by lower technology costs and professional fees.

LIQUIDITY AND FINANCIAL CONDITION

Management assesses liquidity in terms of our ability to generate cash to fund operating, investing and financing activities. We continue to generate substantial cash from operating activities and remain in a strong financial position managing our capital structure to meet short- and long-term objectives including reinvestment in existing businesses and strategic acquisitions.

Sources and Uses of Cash

Funds generated by operating activities and our credit facilities continue to be our most significant sources of liquidity. We expect that funds generated from results of operations will be sufficient to finance our anticipated working capital and other cash requirements (such as capital expenditures, interest payments, debt payments, potential pension funding contributions and dividend payments) for the foreseeable future. In the event that credit market conditions were to deteriorate, we would rely more heavily on borrowings from the Senior Credit Facility as described below. During the fourth quarter, we extended the maturity date of our Senior Credit Facility from February 2015 to December 2017 and increased the borrowing limits from \$500.0 million to \$750.0 million. At December 31, 2012, \$483.6 million was available to borrow under our Senior Credit Facility. Our Senior Credit Facility does not include a provision under which lenders could refuse to allow us to borrow under this facility in the event of a material adverse change in our financial condition, as long as we are in compliance with the covenants contained in the lending agreement.

Information about our cash flows, by category, is presented in the Consolidated Statements of Cash Flows. The following table summarizes our cash flows for the twelve months ended December 31, 2012, 2011 and 2010:

	Twelve Months Ended December 31,			Change	
	2012	2011	2010	2012 vs. 2011	2011 vs. 2010
Net cash provided by (used in):					
	(Dollars in millions)				
Operating activities	\$496.3	\$408.7	\$352.6	\$87.6	\$ 56.1
Investing activities	\$(1,083.6)	\$(204.1)	\$1.0	\$(879.5)	\$ (205.1)
Financing activities	\$606.3	\$(195.9)	\$(335.3)	\$802.2	\$ 139.4

Operating Activities

Cash provided by operating activities for 2012 increased by \$87.6 million over the prior year. Cash provided from net income, excluding the impact of the 2012 pension settlement and the 2011 impact of divestitures, increased \$51.5 million. The remaining increase in cash from operations was driven primarily by changes in net working capital and other balance sheet changes, most notably a \$52.0 million reduction in cash used in current liabilities, reflecting in part an increase in accrued salaries and incentives partially offset by a change in accrued taxes, including certain items related to the merger of our business in Brazil into BVS. The increase was also driven by \$40 million of pension contributions in 2011 that did not recur in 2012. These increases were partially offset by a \$30.1 million reduction in cash related to deferred income taxes and a \$24.9 million use of cash related to increased prepaid assets and other current assets.

Cash provided by operating activities for 2011 increased by \$56.1 million over the prior year. Cash provided from net income, adjusted for the impact of divestitures, increased by \$20.3 million. The remaining increase in cash from operations was primarily driven by changes in net working capital and other balance sheet changes, most notably from a \$10.0 million decrease in pension contributions in 2011 and other lesser changes in liabilities, partially offset by an increase in accounts receivable due to revenue growth.

Fund Transfer Limitations. The ability of certain of our subsidiaries and associated companies to transfer funds to us is limited, in some cases, by certain restrictions imposed by foreign governments; these restrictions do not, individually or in the aggregate, materially limit our ability to service our indebtedness, meet our current obligations or pay dividends. We currently hold \$101.9 million of cash in our foreign subsidiaries.

Investing Activities

	Twelve Months Ended December 31,			Change	
	2012	2011	2010	2012 vs. 2011	2011 vs. 2010
Net cash used in:					
	(Dollars in millions)				
Capital expenditures	\$66.0	\$75.0	\$99.8	\$(9.0)	\$ (24.8)

Our capital expenditures are used for developing, enhancing and deploying new and existing software in support of our expanding product set, replacing or adding equipment, updating systems for regulatory compliance, the licensing of software applications and investing in system reliability, security and disaster recovery enhancements.

Capital expenditures in 2012 were lower than 2011 primarily due to the purchase of a building in our Workforce Solutions segment during the first quarter of 2011.

Capital expenditures in 2011 were lower than 2010 primarily due to the purchase of our headquarters building in Atlanta, Georgia during the first quarter of 2010 for cash consideration of \$29.0 million, partially offset by an increase in investments in new products and technology infrastructure in 2011.

Acquisitions, Divestitures and Investments

	Twelve Months Ended December 31,			Change	
	2012	2011	2010	2012 vs. 2011	2011 vs. 2010
Net cash used in:					
	(Dollars in millions)				
Acquisitions, net of cash acquired	\$(1,016.4)	\$(127.4)	\$(82.6)	\$(889.0)	\$ (44.8)
Proceeds received from divestitures	\$2.5	\$2.5	\$181.7	\$-	\$ (179.2)
Investment in unconsolidated affiliates, net	\$(3.7)	\$(4.2)	\$1.7	\$0.5	\$ (5.9)

2012 Acquisitions and Investments. On December 28, 2012, as a part of our long-term growth strategy of expanding our USCIS business, we acquired certain credit services business assets and operations of Computer Sciences Corporation (“CSC Credit Services”) for \$1.0 billion. We financed the acquisition with available cash, the issuance of \$500 million of 3.30% ten-year senior notes, and commercial paper borrowings under our CP program. The results of this acquisition are included in our USCIS segment.

To further broaden our product offerings, during the twelve months ended December 31, 2012, we completed a number of smaller acquisitions of information services businesses in the European and Latin American regions of our International segment. The results of these acquisitions are not material.

During the second quarter of 2010, we sold our APPRO product line, generating cash proceeds of approximately \$67 million. Approximately \$5 million of the purchase price was paid by the acquirer into an escrow account that was released to us, upon the satisfaction of certain conditions, over the two year period following the sale. We received the final payment of \$2.5 million from the escrow account during the second quarter of 2012. During 2012, we also invested \$3.7 million in our joint ventures in India and Russia.

2011 Acquisitions and Investments. On August 1, 2011, to further enhance our market position, we acquired DataVision Resources, which provides data and business solutions to mortgage, insurance and financial services sectors, for \$50.0 million. The results of this acquisition have been included in our Workforce Solutions segment.

To further broaden our product offerings, during the twelve months ended December 31, 2011, we completed a number of smaller acquisitions of information services businesses in the European and Latin American regions of our International segment as well as our U.S. Consumer Information Solutions and Workforce Solutions segments. The

results of these acquisitions are not material.

During the second quarter of 2010, we sold our APPRO product line, generating cash proceeds of approximately \$67 million. Approximately \$5 million of the purchase price was paid by the acquirer into an escrow account that was released to us, upon the satisfaction of certain conditions, over the two year period following the sale. We received \$2.5 million from the escrow account during the second quarter of 2011. During 2011, we also invested \$4.2 million in our joint ventures in India and Russia.

2010 Acquisitions, Divestitures and Investments. On October 1, 2010, we acquired Anakam, Inc., a provider of large-scale, software-based, multi-factor identity authentication solutions for \$64.3 million. The results of this acquisition are included in our U.S. Consumer Information Solutions segment.

To further enhance our market share, during the twelve months ended December 31, 2010, we completed four smaller acquisitions totaling \$12.3 million, net of cash acquired. These transactions were in our International segment and the results of these acquisitions are not material.

During 2010, we resolved a contingent earn-out associated with a 2008 acquisition included in our Workforce Solutions segment. The earn-out of \$6 million was measured on the completion of 2009 revenue targets and was accrued at December 31, 2009.

On April 23, 2010, we sold our APPRO product line for approximately \$72 million. On July 1, 2010, we sold the assets of our Direct Marketing Services division (“DMS”) for approximately \$117 million. Both of these were previously reported in our U.S. Consumer Information Solutions segment. We have presented the APPRO and DMS operations as discontinued operations for all periods presented. The discontinued operations are further described in Note 3 of the Notes to the Consolidated Financial Statements in this report.

For additional information about our acquisitions, see Note 4 of the Notes to Consolidated Financial Statements in this report.

Financing Activities

	Twelve Months Ended December 31,			Change	
	2012	2011	2010	2012 vs. 2011	2011 vs. 2010
Net cash provided by (used in):					
	(Dollars in millions)				
Net short-term borrowings (repayments)	\$234.1	\$24.4	\$(134.0)	\$209.7	\$ 158.4
Net borrowings (repayments) under long-term revolving credit facilities	\$-	\$-	\$(5.0)	\$-	\$ 5.0
Payments on long-term debt	\$(15.2)	\$(16.7)	\$(20.8)	\$1.5	\$ 4.1
Proceeds from issuance of long-term debt	\$499.2	\$-	\$-	\$499.2	\$ -

Credit Facility Availability. Our principal unsecured revolving credit facility with a group of banks, which we refer to as the Senior Credit Facility, permits us to borrow up to \$750.0 million through December 2017. The Senior Credit Facility may be used for general corporate purposes. Availability of the Senior Credit Facility for borrowings is reduced by the outstanding face amount of any letters of credit issued under the facility and, pursuant to our existing Board of Directors authorization, by the outstanding principal amount of our commercial paper (CP) notes.

Our \$750.0 million CP program has been established to allow for borrowing through the private placement of CP with maturities ranging from overnight to 397 days. We may use the proceeds of CP for general corporate purposes. The CP program is supported by our Senior Credit Facility and, pursuant to our existing Board of Directors authorization, the total amount of CP which may be issued is reduced by the amount of any outstanding borrowings under our Senior Credit Facility.

We had a 364-day revolving credit agreement with a Canadian bank (our Canadian Credit Facility) which permitted us to borrow up to C\$10.0 million (denominated in Canadian dollars). The Canadian Credit Facility was scheduled to terminate in June 2011. We cancelled this agreement at the end of the first quarter 2011 and there were no outstanding borrowings under this agreement at the time of cancellation.

At December 31, 2012, there were no borrowings outstanding under our Senior Credit Facility and \$265.0 million outstanding under our CP program. At December 31, 2012, a total of \$483.6 million was available under our Senior Credit Facility.

At December 31, 2012, approximately 68% of our debt was fixed rate and 32% was effectively variable rate. Our variable-rate debt, consisting of our five-year senior notes due 2014 (against which we have executed interest rate swaps to convert interest expense from fixed rates to floating rates), generally bearing interest based on a specified margin plus a base rate (LIBOR), and of our issued commercial paper, which bears short-term interest rates based on the CP market for investment grade issuers. The interest rates reset periodically, depending on the terms of the respective financing arrangements. At December 31, 2012, interest rates on our variable-rate debt ranged from 0.4% to 2.1%.

Borrowing and Repayment Activity. Net short-term borrowings (repayments) primarily represent activity under our CP program, as well as activity under our Canadian short-term revolving credit agreement. Net (repayments) borrowings under long-term revolving credit facilities relates to activity on our Senior Credit Facility. We primarily borrow under our CP program, when available.

The increase in net short-term borrowings (repayments) primarily reflects the outstanding borrowings of \$265.0 million of CP notes as of December 31, 2012, that was used to partially finance the acquisition of CSC Credit Services. The change in net short-term borrowings (repayments) in 2011 primarily reflects the outstanding borrowings of CP notes at December 31, 2011 as compared to a net repayment of \$134.0 million of CP notes during 2010 as we decreased our use of CP to fund our capital needs.

On December 17, 2012, we received proceeds of \$499.2 million from the issuance of ten-year senior notes with a stated interest rate of 3.30% in an underwritten public offering. Interest is payable semi-annually in arrears on December 15 and June 15 of each year. We used the net proceeds of the sale of the notes to finance the acquisition of CSC Credit Services in December 2012.

Debt Covenants. Our outstanding indentures and comparable instruments contain customary covenants including, for example, limits on secured debt and sale/leaseback transactions. In addition, our Senior Credit Facility requires us to maintain a maximum leverage ratio of not more than 3.5 to 1.0, and limit the amount of subsidiary debt. Our leverage ratio was 2.08 at December 31, 2012. None of these covenants are considered restrictive to our operations and, as of December 31, 2012, we were in compliance with all of our debt covenants.

We do not have any credit rating triggers that would accelerate the maturity of a material amount of our outstanding debt; however, our senior notes, discussed above, contain change in control provisions. If we experience a change of control or publicly announce our intention to effect a change of control and the rating on the senior notes is lowered by Standard & Poor's, or S&P, and Moody's Investors Service, or Moody's, below an investment grade rating within 60 days of such change of control or notice thereof, then we will be required to offer to repurchase the senior notes at a price equal to 101% of the aggregate principal amount of the senior notes plus accrued and unpaid interest.

Credit Ratings. Credit ratings reflect an independent agency's judgment on the likelihood that a borrower will repay a debt obligation at maturity. The ratings reflect many considerations, such as the nature of the borrower's industry and its competitive position, the size of the company, its liquidity and access to capital and the sensitivity of a company's cash flows to changes in the economy. The two largest rating agencies, S&P and Moody's, use alphanumeric codes to designate their ratings. The highest quality rating for long-term credit obligations is AAA and Aaa for S&P and Moody's, respectively. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency.

Long-term ratings of BBB- and Baa3 or better by S&P and Moody's, respectively, reflect ratings on debt obligations that fall within a band of credit quality considered to be "investment grade". At December 31, 2012, the long-term ratings for our obligations were BBB+ and Baa1, which are consistent with the ratings and outlooks which existed at December 31, 2011. A downgrade in our credit rating would increase the cost of borrowings under our CP program and credit facilities, and could limit, or in the case of a significant downgrade, preclude our ability to issue CP. If our credit ratings were to decline to lower levels, we could experience increases in the interest cost for any new debt. In

addition, the market's demand for, and thus our ability to readily issue, new debt could become further influenced by the economic and credit market environment.

For additional information about our debt, including the terms of our financing arrangements, basis for variable interest rates and debt covenants, see Note 6 of the Notes to Consolidated Financial Statements in this report.

Equity Transactions

	Twelve Months Ended December 31,			Change	
	2012	2011	2010	2012 vs. 2011	2011 vs. 2010
Net cash provided by (used in):					
	(Dollars in millions)				
Treasury stock purchases	\$ (85.1)	\$ (142.3)	\$ (167.5)	\$ 57.2	\$ 25.2
Dividends paid to Equifax shareholders	\$ (86.0)	\$ (78.1)	\$ (35.2)	\$ (7.9)	\$ (42.9)
Dividends paid to noncontrolling interests	\$ (4.8)	\$ (5.6)	\$ (5.1)	\$ 0.8	\$ (0.5)
Proceeds from exercise of stock options	\$ 68.3	\$ 23.7	\$ 29.3	\$ 44.6	\$ (5.6)
Excess tax benefits from stock-based compensation plans	\$ 1.7	\$ 1.2	\$ 3.5	\$ 0.5	\$ (2.3)

Sources and uses of cash related to equity during the twelve months ended December 31, 2012, 2011 and 2010 were as follows:

Under share repurchase programs authorized by our Board of Directors, we purchased 1.9 million, 4.2 million, and 5.2 million common shares on the open market during the twelve months ended December 31, 2012, 2011 and 2010, respectively, for \$85.1 million, \$142.3 million and \$167.5 million, respectively, at an average price per common share of \$45.73, \$34.19 and \$32.28, respectively. At December 31, 2012, the Company had \$227.1 million remaining for stock repurchases under the existing Board authorization.

During the twelve months ended December 31, 2012, 2011 and 2010, we paid cash dividends to Equifax shareholders of \$86.0 million, \$78.1 million and \$35.2 million, respectively, at \$0.72 per share for 2012, \$0.64 per share for 2011 and \$0.28 per share for 2010.

Contractual Obligations and Commercial Commitments

The following table summarizes our significant contractual obligations and commitments as of December 31, 2012. The table excludes commitments that are contingent based on events or factors uncertain at this time. Some of the excluded commitments are discussed below the footnotes to the table.

	Payments due by				
	Total	Less than 1 year	1 to 3 years	3 to 5 years	Thereafter
	(In millions)				
Debt (including capitalized lease obligation) ⁽¹⁾	\$ 1,720.4	\$ 282.9	\$ 290.0	\$ 272.5	\$ 875.0
Operating leases ⁽²⁾	94.3	20.7	26.7	14.1	32.8
Data processing, outsourcing agreements and other purchase obligations ⁽³⁾	132.8	80.5	45.6	6.4	0.3
Other long-term liabilities ^{(4) (6)}	104.8	6.3	13.6	10.0	74.9
Interest payments ⁽⁵⁾	825.0	68.5	126.8	112.7	517.0
	\$ 2,877.3	\$ 458.9	\$ 502.7	\$ 415.7	\$ 1,500.0

The amounts are gross of unamortized discounts totaling \$2.3 million and fair value adjustments of \$12.6 million (1) at December 31, 2012. Total debt on our Consolidated Balance Sheets is net of the unamortized discounts and fair value adjustments.

(2) Our operating lease obligations principally involve office space and equipment, which include the ground lease associated with our headquarters building that expires in 2048.

These agreements primarily represent our minimum contractual obligations for services that we outsource (3) associated with our computer data processing operations and related functions, and certain administrative functions. These agreements expire between 2013 and 2018.

(4) These long-term liabilities primarily relate to obligations associated with certain pension, postretirement and other compensation-related plans, some of which are discounted in accordance with U.S. generally accepted accounting principles, or GAAP. We made certain assumptions about the timing of such future payments. In the table above, we have not included amounts related to future pension plan obligations, as such required funding amounts beyond 2012 have not been deemed necessary due to our current expectations regarding future plan asset performance.

(5) For future interest payments on variable-rate debt, which are generally based on a specified margin plus a base rate (LIBOR) or on CP rates for investment grade issuers, we used the variable rate in effect at December 31, 2012 to calculate these payments. Our variable rate debt at December 31, 2012, consisted of CP, borrowings under our credit facilities and our five-year senior notes due 2014 (against which we have executed interest rate swaps to convert interest expense from fixed rates to floating rates). Future interest payments related to our Senior Credit Facility and our CP program are based on the borrowings outstanding at December 31, 2012 through their respective maturity dates, assuming such borrowings are outstanding until that time. The variable portion of the rate at December 31, 2012 ranged from 0.4% to 2.1% for all of our variable-rate debt. Future interest payments may be different depending on future borrowing activity and interest rates.

(6) This table excludes \$24.2 million of unrecognized tax benefits, including interest and penalties, as we cannot make a reasonably reliable estimate of the period of cash settlement with the respective taxing authorities.

Off-Balance Sheet Transactions

We do not engage in off-balance sheet financing activities.

Pursuant to the terms of certain industrial revenue bonds, we have transferred title to certain of our fixed assets with total costs of \$88.4 million and \$65.3 million, as of December 31, 2012 and 2011, respectively, to a local governmental authority in the U.S. to receive a property tax abatement related to economic development. The title to these assets will revert back to us upon retirement or cancellation of the applicable bonds. These fixed assets are still recognized on the Company's Consolidated Balance Sheets as all risks and rewards remain with the Company.

Letters of Credit and Guarantees

We will from time to time issue standby letters of credit, performance bonds or other guarantees in the normal course of business. The aggregate notional amount of all performance bonds and standby letters of credit was not material at December 31, 2012, and all have a remaining maturity of one year or less. Guarantees are issued from time to time to support the needs of our operating units. The maximum potential future payments we could be required to make under the guarantees is not material at December 31, 2012.

Benefit Plans

We sponsor a qualified defined benefit retirement plan (the U.S. Retirement Income Plan, or USRIP) that covers approximately 25% of current U.S. salaried employees who were hired on or before June 30, 2007, the last date on which an individual could be hired and enter the plan before the USRIP was frozen to new participation at December 31, 2008. This plan also covers many retirees as well as certain terminated but vested individuals not yet in retirement status. We also sponsor a defined benefit plan that covers most salaried and hourly employees in Canada (the Canadian Retirement Income Plan, or CRIP). The CRIP was frozen to new participants entering the plan in 2011.

At December 31, 2012, the USRIP met or exceeded ERISA's minimum funding requirements. During the twelve months ended December 31, 2012, we did not make any contributions to the USRIP. During the year ended December 31, 2011, we made contributions of \$40.0 million to the USRIP. We also contributed \$3.7 million and \$2.6 million to the CRIP during the twelve months ended December 31, 2012 and 2011, respectively. In the future, we will make minimum funding contributions as required and may make discretionary contributions, depending on certain circumstances, including market conditions and liquidity needs. We believe additional funding contributions, if any, would not prevent us from continuing to meet our liquidity needs, which are primarily funded from cash flows

generated by operating activities, available cash and cash equivalents, and our credit facilities.

For our non-U.S., tax-qualified retirement plans, we fund an amount sufficient to meet minimum funding requirements but no more than allowed as a tax deduction pursuant to applicable tax regulations. For the non-qualified supplementary retirement plans, we fund the benefits as they are paid to retired participants, but accrue the associated expense and liabilities in accordance with GAAP.

For additional information about our benefit plans, see Note 11 of the Notes to Consolidated Financial Statements in this report.

Seasonality

We experience seasonality in certain of our revenue streams. Revenue generated from the Employer Services business unit within the Workforce Solutions operating segment is generally higher in the first quarter due primarily to the provision of Form W-2 preparation services which occur in the first quarter each year. Revenue from our OCIS and Mortgage Solutions business units tends to increase in periods of the year in which our customers have higher volumes of credit granting decisions, most commonly the second and third calendar quarters. Revenues in our North America Commercial business and the Consumer Financial Marketing Services business line within USCIS are typically highest in the fourth quarter each year due to the timing of certain significant annual renewals of project-based agreements. On a consolidated basis, combining all of these businesses, and assuming normal economic conditions, first quarter revenue is normally the lowest quarterly revenue of the year, and the fourth quarter is the highest.

Effects of Inflation and Changes in Foreign Currency Exchange Rates

Equifax's operating results are not materially affected by inflation, although inflation may result in increases in the Company's expenses, which may not be readily recoverable in the price of services offered. To the extent inflation results in rising interest rates and has other adverse effects upon the securities markets and upon the value of financial instruments, it may adversely affect the Company's financial position and profitability.

A portion of the Company's business is conducted in currencies other than the U.S. dollar, and changes in foreign exchange rates relative to the U.S. dollar can therefore affect the value of non-U.S. dollar net assets, revenues and expenses. Potential exposures as a result of these fluctuations in currencies are closely monitored. We generally do not mitigate the risks associated with fluctuating exchange rates, although we may from time to time through forward contracts or other derivative instruments hedge a portion of our translational foreign currency exposure or exchange rate risks associated with material transactions which are denominated in a foreign currency.

RECENT ACCOUNTING PRONOUNCEMENTS

For information about new accounting pronouncements and the potential impact on our Consolidated Financial Statements, see Note 1 of the Notes to Consolidated Financial Statements in this report.

APPLICATION OF CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's Consolidated Financial Statements are prepared in conformity with U.S. generally accepted accounting principles, or GAAP. This requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities in our Consolidated Financial Statements and the Notes to Consolidated Financial Statements. The following accounting policies involve critical accounting estimates because they are particularly dependent on estimates and assumptions made by management about matters that are uncertain at the time the accounting estimates are made. In addition, while we have used our best estimates based on facts and circumstances available to us at the time, different estimates reasonably could have been used in the current period, or changes in the accounting estimates that we used are reasonably likely to occur from period to period, either of which may have a material impact on the presentation of our Consolidated Balance Sheets and Statements of Income. We also have other significant accounting policies which involve the use of estimates, judgments and assumptions that are relevant to understanding our results. For additional information about these policies, see Note 1 of the Notes to Consolidated Financial Statements in this report. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information available at the time. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions.

Revenue Recognition

Revenue is recognized when persuasive evidence of an arrangement exists, collectibility of arrangement consideration is reasonably assured, the arrangement fees are fixed or determinable and delivery of the product or service has been completed. A significant portion of our revenue is derived from the provision of information services to our customers on a transaction basis, in which case revenue is recognized, assuming all other revenue recognition criteria are met, when the services are provided. A smaller portion of our revenues relate to subscription-based contracts under which a customer pays a preset fee for a predetermined or unlimited number of transactions or services provided during the subscription period, generally one year. Revenue related to subscription-based contracts having a preset number of transactions is recognized as the services are provided, using an effective transaction rate as the actual transactions are completed. Any remaining revenue related to unfulfilled units is not recognized until the end of the related contract's subscription period. Revenue related to subscription-based contracts having an unlimited volume is recognized ratably during the contract term. Revenue is recorded net of sales taxes.

If at the outset of an arrangement, we determine that collectibility is not reasonably assured, revenue is deferred until the earlier of when collectibility becomes probable or the receipt of payment. If there is uncertainty as to the customer's acceptance of our deliverables, revenue is not recognized until the earlier of receipt of customer acceptance or expiration of the acceptance period. If at the outset of an arrangement, we determine that the arrangement fee is not fixed or determinable, revenue is deferred until the arrangement fee becomes fixed or determinable, assuming all other revenue recognition criteria have been met.

The determination of certain of our tax management services revenue requires the use of estimates, principally related to transaction volumes in instances where these volumes are reported to us by our clients on a monthly basis in arrears. In these instances, we estimate transaction volumes based on average actual volumes reported in the past. Differences between our estimates and actual final volumes reported are recorded in the period in which actual volumes are reported. We have not experienced significant variances between our estimates and actual reported volumes in the past. We monitor actual volumes to ensure that we will continue to make reasonable estimates in the future. If we determine that we are unable to make reasonable future estimates, revenue may be deferred until actual customer data is obtained. Also within our Workforce Solutions operating segment, the fees for certain of our tax credits and incentives revenue are based on a percentage of the credit delivered to our clients. Revenue for these arrangements is recognized based on the achievement of milestones, upon calculation of the credit, or when the credit is utilized by our client, depending on the provisions of the client contract.

We have certain offerings that are sold as multiple element arrangements. The multiple elements may include consumer or commercial information, file updates for certain solutions, services provided by our decisioning technologies personnel, training services, statistical models and other services. To account for each of these elements separately, the delivered elements must have stand-alone value to our customer. If we are unable to unbundle the arrangement into separate units of accounting, we apply one of the accounting policies described above. This may lead to the arrangement consideration being recognized as the final contract element is delivered to our customer or ratably over the contract.

Many of our multiple element arrangements involve the delivery of services generated by a combination of services provided by one or more of our operating segments. No individual information service impacts the value or usage of other information services included in an arrangement and each service can be sold alone or, in most cases, purchased from another vendor without affecting the quality of use or value to the customer of the other information services included in the arrangement. Some of our products require the development of interfaces or platforms by our decisioning technologies personnel that allow our customers to interact with our proprietary information databases. These development services do not meet the requirement for having stand-alone value, thus any related development fees are deferred when billed and are recognized over the expected period that the customer will benefit from the related decisioning technologies service. Revenue from the provision of statistical models is recognized as the service is provided and accepted, assuming all other revenue recognition criteria are met. The direct costs of set up of a customer are capitalized and amortized as a cost of service during the term of the related customer contract.

We have some multiple element arrangements that include software. We recognize the elements for which we have established vendor specific objective evidence at fair value upon delivery, in accordance with the applicable guidance.

We record revenue on a net basis for those sales in which we have in substance acted as an agent or broker in the transaction.

Deferred revenue consists of amounts billed in excess of revenue recognized on sales relating generally to the deferral of subscription fees and arrangement consideration from elements not meeting the criteria for having stand-alone value discussed above. Deferred revenues are subsequently recognized as revenue in accordance with our revenue recognition policies.

Judgments and uncertainties — Each element of a multiple element arrangement must be considered separately to ensure that appropriate accounting is performed for these deliverables. These considerations include assessing the price at which the element is sold compared to its relative fair value; concluding when the element will be delivered; evaluating collectibility; and determining whether any contingencies exist in the related customer contract that impact the prices paid to us for the services.

In addition, the determination of certain of our marketing information services and tax management services revenue requires the use of estimates, principally related to transaction volumes in instances where these volumes are reported to us by our clients on a monthly basis in arrears. In these instances, we estimate transaction volumes based on average actual volumes reported in the past. Differences between our estimates and actual final volumes reported are recorded in the period in which actual volumes are reported.

Effects if actual results differ from assumptions — We have not experienced significant variances between our estimates of marketing information services and tax management services revenues reported to us by our customers and actual reported volumes in the past. We monitor actual volumes to ensure that we will continue to make reasonable estimates in the future. If we determine that we are unable to make reasonable future estimates, revenue may be deferred until actual customer data is obtained. However, if actual results are not consistent with our estimates and assumptions, or if our customer arrangements become more complex or include more bundled offerings in the future, we may be required to recognize revenue differently in the future to account for these changes. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to recognize revenue.

Goodwill and Indefinite-Lived Intangible Assets

We review goodwill and indefinite lived intangible assets for impairment annually (as of September 30) and whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. These events or circumstances could include a significant change in the business climate, legal factors, operating performance or trends, competition, or sale or disposition of a significant portion of a reporting unit. We have ten reporting units comprised of Consumer Information Solutions (which includes part of Online Consumer Information Solutions, Mortgage Solutions and Consumer Financial Marketing Services), Identity Management (part of Online Consumer Information Solutions), Europe, Latin America, Canada Consumer, North America Personal Solutions, North America Commercial Solutions, Verification Services, Tax Management Services (part of Employer Services) and Talent Management Services (part of Employer Services).

The goodwill balance at December 31, 2012, for our ten reporting units was as follows:

	December 31, 2012 (In millions)
Consumer Information Solutions	\$ 893.2
ID Management	54.5
Europe	118.9
Latin America	219.3
Canada Consumer	31.1
North America Personal Solutions	1.8
North America Commercial Solutions	37.6
Verification Services	738.9
Tax Management Services	169.0
Talent Management Services	26.1
Total goodwill	\$ 2,290.4

In September 2011, the FASB issued Accounting Standards Update, *Intangibles – Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (the revised standard). The revised standard is intended to reduce the cost and complexity of the annual goodwill impairment test by providing entities an option to perform a “qualitative” assessment to determine whether further impairment testing is necessary. If an entity believes, as a result of its qualitative assessment, that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the quantitative impairment test is required. Otherwise, no further testing is required. The revised standard is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. We performed the qualitative assessment for our Consumer Information Solutions, Latin America, Europe, Canada Consumer, North America Personal Solutions, and North America Commercial Solutions reporting units. In this qualitative assessment, we considered the following items for each of the reporting units: macroeconomic conditions, industry and market conditions, overall financial performance and other entity specific events. In addition, for each of these reporting units, the most recent fair value determination resulted in an amount that significantly exceeded the carrying amount of the reporting units. Based on these assessments, we determined the likelihood that a current fair value determination would be less than the current carrying amount of the reporting unit is not more likely than not. As a result of our conclusions, no further testing was required for these reporting units.

Judgments and Uncertainties — In determining the fair value of our reporting units for which we performed a quantitative test, we used a combination of the income and market approaches to estimate the reporting unit’s business enterprise value.

Under the income approach, we calculate the fair value of a reporting unit based on estimated future discounted cash flows which require assumptions about short and long-term revenue growth rates, operating margins for each reporting unit, discount rates, foreign currency exchange rates and estimates of capital charges. The assumptions we use are based on what we believe a hypothetical marketplace participant would use in estimating fair value. Under the market approach, we estimate the fair value based on market multiples of revenue or earnings before income taxes, depreciation and amortization, for benchmark companies. We believe the benchmark companies used for each of the reporting units serve as an appropriate input for calculating a fair value for the reporting unit as those benchmark companies have similar risks, participate in similar markets, provide similar services for their customers and compete with us directly. The companies we use as benchmarks are principally outlined in our “Competition” discussion in Item 1 of our 2012 Annual Report on Form 10-K. Data for the benchmark companies was obtained from publicly available information. ID Management has benchmark companies that conduct operations of businesses of a similar type, such as Experian Group Limited and Fair Isaac Corporation. Verification Services, Tax Management Services and Talent Management Services share a different set of benchmark companies, notably ADP and Paychex Inc., as the markets they serve are different than those served by our other reporting units. Valuation multiples were selected based on a financial benchmarking analysis that compared the reporting unit’s operating result with the comparable companies’ information. In addition to these financial considerations, qualitative factors such as variations in growth opportunities and overall risk among the benchmark companies were considered in the ultimate selection of the multiple.

The values separately derived from each of the income and market approach valuation techniques were used to develop an overall estimate of a reporting unit’s fair value. We use a consistent approach across all reporting units when considering the weight of the income and market approaches for calculating the fair value of each of our reporting units. This approach relies more heavily on the calculated fair value derived from the income approach, with 70% of the value coming from the income approach. We believe this approach is consistent with that of a market participant in valuing prospective purchase business combinations. The selection and weighting of the various fair value techniques may result in a higher or lower fair value. Judgment is applied in determining the weightings that are most representative of fair value.

We have not made any material changes to the valuation methodology we use to assess goodwill impairment since the date of the last annual impairment test.

Growth Assumptions

The assumptions for our future cash flows begin with our historical operating performance, the details of which are described in our Management’s Discussion and Analysis of operating performance. Additionally, we consider the impact that known economic, industry and market trends will have on our future forecasts, as well as the impact that we expect from planned business initiatives including new product initiatives, client service and retention standards, and cost management programs. At the end of the forecast period, the long-term growth rate we used to determine the terminal value of each reporting unit was generally 3% to 5% based on management’s assessment of the minimum expected terminal growth rate of each reporting unit, as well as broader economic considerations such as GDP, inflation and the maturity of the markets we serve.

We projected revenue growth in 2013 for our reporting units in completing our 2012 impairment testing based on planned business initiatives and prevailing trends exhibited by these units, such as demand for employment verification services and government hiring activity at the U.S. Transportation and Security Administration in Verification Services and Talent Management Services reporting units and not based on the assumption of meaningful economic recovery. Growth in the Talent Management Services reporting unit is also based on growth in the commercial sector of that business. The anticipated revenue growth in all of the reporting units, however, is partially offset by assumed increases in expenses for a majority of our reporting units which reflect the additional level of investment needed in order to achieve the planned revenue growth. Our 2012 long-term forecast is not dependent upon meaningful recovery of the global economy in the near term and we continue to take cost containment actions to help maintain operating margins for our reporting units.

Discount Rate Assumptions

We utilize a weighted average cost of capital, or WACC, in our impairment analysis that makes assumptions about the capital structure that we believe a market participant would make and include a risk premium based on an assessment of risks related to the projected cash flows of each reporting unit. We believe this approach yields a discount rate that is consistent with an implied rate of return that a market participant would require for an investment in a company having similar risks and business characteristics to the reporting unit being assessed. To calculate the WACC, the cost of equity and cost of debt are multiplied by the assumed capital structure of the reporting unit as compared to industry trends and relevant benchmark company structures. The cost of equity was computed using the Capital Asset Pricing Model which considers the risk-free interest rate, beta, equity risk premium and specific company risk premium related to a particular reporting unit. The cost of debt was computed using a benchmark rate and the Company's tax rate. For the 2012 annual goodwill impairment evaluation, the discount rates used to develop the estimated fair value of the reporting units evaluated ranged from 9% to 12%. Because of assigned market premiums, discount rates are lowest for reporting units, whose cash flows are expected to be less volatile due to such factors as the maturity of the market they serve, their position in that market or other macroeconomic factors. Where there is the greatest volatility of cash flows due to competition, the discount rate selected is in the higher portion of the range as there is more inherent risk in the expected cash flows of that reporting unit.

Estimated Fair Value and Sensitivities

The estimated fair value of the reporting units whose fair value was calculated for purposes of the 2012 impairment testing is derived from the valuation techniques described above, incorporating the related projections and assumptions. An indication of possible impairment occurs when the estimated fair value of the reporting unit is below the carrying value of its equity. The estimated fair value for all reporting units exceeded the carrying value of these units as of September 30, 2012. As a result, no goodwill impairment was recorded.

The estimated fair value of the reporting unit is highly sensitive to changes in these projections and assumptions; therefore, in some instances changes in these assumptions could impact whether the fair value of a reporting unit is greater than its carrying value. For example, an increase in the discount rate and decline in the projected cumulative cash flow of a reporting unit could cause the fair value of certain reporting units to be below its carrying value. We perform sensitivity analyses around these assumptions in order to assess the reasonableness of the assumptions and the resulting estimated fair values. Ultimately, future potential changes in these assumptions may impact the estimated fair value of a reporting unit and cause the fair value of the reporting unit to be below its carrying value. The excess of fair value over carrying value for the Company's reporting units that were valued as of September 30, 2012, ranged from approximately 17% to 125%.

The reporting unit having the lowest absolute dollar excess of fair value over carrying value is our Talent Management Services business which has a goodwill balance of \$26.1 million as of September 30, 2012. This

reporting unit has been impacted by uncertainty in government hiring activity. While no impairment was noted in our impairment test as of September 30, 2012, if customer hiring activity does not increase in the near to medium term as forecasted, projected revenue growth for commercial customers does not materialize or if other events adversely impact the business drivers and corresponding assumptions used to value this reporting unit, there could be a change in the valuation of our goodwill in future periods and would likely result in the recognition of an impairment loss. Additionally, an increase in the discount rate due to outside factors or a decrease in the market multiples would likely result in an impairment.

No new indications of impairment existed during the fourth quarter of 2012, thus no impairment testing was updated as of December 31, 2012.

Effect if actual results differ from assumptions — We believe that our estimates are consistent with assumptions that marketplace participants would use in their estimates of fair value. However, if actual results are not consistent with our estimates and assumptions, we may be exposed to an impairment charge that could be material.

Loss Contingencies

We are subject to various proceedings, lawsuits and claims arising in the normal course of our business. We determine whether to disclose and/or accrue for loss contingencies based on our assessment of whether the potential loss is probable, reasonably possible or remote.

Judgments and uncertainties — We periodically review claims and legal proceedings and assess whether we have potential financial exposure based on consultation with internal and outside legal counsel and other advisors. If the likelihood of an adverse outcome from any claim or legal proceeding is probable and the amount can be reasonably estimated, we record a liability on our Consolidated Balance Sheets for the estimated settlement costs. If the likelihood of an adverse outcome is reasonably possible, but not probable, we provide disclosures related to the potential loss contingency. Our assumptions related to loss contingencies are inherently subjective.

Effect if actual results differ from assumptions — We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to determine loss contingencies. However, if facts and circumstances change in the future that change our belief regarding assumptions used to determine our estimates, we may be exposed to a loss that could be material.

Income Taxes

We record deferred income taxes using enacted tax laws and rates for the years in which the taxes are expected to be paid. We assess the likelihood that our net deferred tax assets will be recovered from future taxable income or other tax planning strategies. To the extent that we believe that recovery is not likely, we must establish a valuation allowance to reduce the deferred tax asset to the amount we estimate will be recoverable.

Our income tax provisions are based on assumptions and calculations which will be subject to examination by various tax authorities. We record tax benefits for positions in which we believe are more likely than not of being sustained under such examinations. We assess the potential outcome of such examinations to determine the adequacy of our income tax accruals.

Judgments and uncertainties — We consider accounting for income taxes critical because management is required to make significant judgments in determining our provision for income taxes, our deferred tax assets and liabilities, and our future taxable income for purposes of assessing our ability to realize any future benefit from our deferred tax assets. These judgments and estimates are affected by our expectations of future taxable income, mix of earnings

among different taxing jurisdictions, and timing of the reversal of deferred tax assets and liabilities.

We also use our judgment to determine whether it is more likely than not that we will sustain positions that we have taken on tax returns and, if so, the amount of benefit to initially recognize within our financial statements. We review our uncertain tax positions and adjust our unrecognized tax benefits in light of changes in facts and circumstances, such as changes in tax law, interactions with taxing authorities and developments in case law. These adjustments to our unrecognized tax benefits may affect our income tax expense. Settlement of uncertain tax positions may require use of our cash. At December 31, 2012, \$24.2 million was recorded for uncertain tax benefits, including interest and penalties, of which it is reasonably possible that up to \$11.4 million of our unrecognized tax benefit may change within the next twelve months.

Effect if actual results differ from assumptions — Although management believes that the judgments and estimates discussed herein are reasonable, actual results could differ, and we may be exposed to increases or decreases in income tax expense that could be material.

Pension and Other Postretirement Plans

We consider accounting for our U.S. and Canadian pension and other postretirement plans critical because management is required to make significant subjective judgments about a number of actuarial assumptions, which include discount rates, expected return on plan assets, interest cost and mortality and retirement rates. Actuarial valuations are used in determining our benefit obligation and net periodic benefit cost.

Judgments and uncertainties — We believe that the most significant assumptions related to our net periodic benefit cost are (1) the discount rate and (2) the expected return on plan assets, in each case as it relates to our U.S. pension plan. Our Canadian plan is small, and the impact of changes in assumptions for that plan is not material.

We determine our discount rates primarily based on high-quality, fixed-income investments and yield-to-maturity analysis specific to our estimated future benefit payments available as of the measurement date. Discount rates are updated annually on the measurement date to reflect current market conditions. We use a third party yield curve to develop our discount rates. The yield curve provides discount rates related to a dedicated high-quality bond portfolio whose cash flows extend beyond the current period, from which we choose a rate matched to the expected benefit payments required for each plan.

The expected rate of return on plan assets is based on both our historical returns and forecasted future investment returns by asset class, as provided by our external investment advisor. In 2012, the U.S. pension plan investment returns of 11.4% exceeded the expected return of 7.75% for the third time in the last four years. However, due to lower forecasted future returns the expected return for 2013 was reduced to 7.5%. The CRIP earned 8.8% in 2012 also exceeding its expected return of 6.75% for the third time in four years. The CRIP has a lower expected return due to a higher asset allocation to fixed income securities. Our weighted-average expected rate of return for 2013 is 7.43% as compared to 7.67% which was the 2012 expected rate.

Annual differences, if any, between the expected and actual returns on plan assets are included in unrecognized net actuarial gain or loss, a component of other comprehensive income. In calculating the annual amortization of the unrecognized net actuarial gain or loss, we use a market-related value of assets that smoothes actual investment gains and losses on plan assets over a period up to five years. The resulting unrecognized net actuarial gain or loss amount is recognized in net periodic pension expense over the average remaining life expectancy of the participant group since almost all participants are inactive. The market-related value of our assets was \$545.9 million at December 31, 2012. We do not expect our 2013 net periodic benefit cost, which includes the effect of the market-related value of assets, to be materially different than our 2012 cost, excluding the pension settlement and curtailment recorded in 2012. See Note 11 of the Notes to the Consolidated Financial Statements for details on changes in the pension benefit obligation and the fair value of plan assets.

Effect if actual results differ from assumptions — We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions that are used in our actuarial valuations. Adjusting our weighted-average expected long-term rate of return (7.67% at December 31, 2012) by 50 basis points would change our estimated pension expense in 2013 by approximately \$2.7 million. Adjusting our weighted-average discount rate (4.17% at December 31, 2012) by 50 basis points would change our estimated pension expense in 2013 by approximately \$1.3 million. However, if actual results are not consistent with our estimates or assumptions, we may be exposed to changes in pension expense that could be material.

Purchase Accounting for Acquisitions

We account for acquisitions under Accounting Standards Codification 805, *Business Combinations*, which changed the application of the acquisition method of accounting in a business combination and also modified the way assets

acquired and liabilities assumed are recognized on a prospective basis. In general, the acquisition method of accounting requires companies to record assets acquired and liabilities assumed at their respective fair market values at the date of acquisition. We primarily estimate fair value of identified intangible assets using discounted cash flow analyses based on market participant based inputs. Any amount of the purchase price paid that is in excess of the estimated fair values of net assets acquired is recorded in the line item goodwill in our consolidated balance sheets. Transaction costs, as well as costs to reorganize acquired companies, are expensed as incurred in our Consolidated Statements of Income.

Judgments and uncertainties — We consider accounting for business combinations critical because management's judgment is used to determine the estimated fair values assigned to assets acquired and liabilities assumed and amortization periods for intangible assets, which can materially affect the our results of operations.

On December 28, 2012, we acquired CSC Credit Services recorded total assets of \$1.0 billion as of the acquisition date. The assets we acquired included a material amount of intangible assets that were subject to the significant estimates described above. See Note 4 of Notes to Consolidated Financial Statements for further information related to this acquisition.

Effect if actual results differ from assumptions — Although management believes that the judgments and estimates discussed herein are reasonable, actual results could differ, and we may be exposed to an impairment charge if we are unable to recover the value of the recorded net assets.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the normal course of our business, we are exposed to market risk, primarily from changes in foreign currency exchange rates and interest rates that could impact our results of operations and financial position. We manage our exposure to these market risks through our regular operating and financing activities, and, when deemed appropriate, through the use of derivative financial instruments, such as interest rate swaps, to hedge certain of these exposures. We use derivative financial instruments as risk management tools and not for speculative or trading purposes.

Foreign Currency Exchange Rate Risk

A substantial majority of our revenue, expense and capital expenditure activities are transacted in U.S. dollars. However, we do transact business in other currencies, primarily the British pound, the Canadian dollar, the Chilean peso, the Argentine peso and the Euro. For most of these foreign currencies, we are a net recipient, and, therefore, benefit from a weaker U.S. dollar and are adversely affected by a stronger U.S. dollar relative to the foreign currencies in which we transact significant amounts of business.

We are required to translate, or express in U.S. dollars, the assets and liabilities of our foreign subsidiaries that are denominated or measured in foreign currencies at the applicable year-end rate of exchange on our Consolidated Balance Sheets and income statement items of our foreign subsidiaries at the average rates prevailing during the year. We record the resulting translation adjustment, and gains and losses resulting from the translation of intercompany balances of a long-term investment nature within other comprehensive income, as a component of our shareholders' equity. Foreign currency transaction gains and losses, which have historically been immaterial, are recorded on our Consolidated Statements of Income. We generally do not mitigate the risks associated with fluctuating exchange rates, although we may from time to time through forward contracts or other derivative instruments hedge a portion of our translational foreign currency exposure or exchange rate risks associated with material transactions which are denominated in a foreign currency.

For the year ended December 31, 2012, a 10% weaker U.S. dollar against the currencies of all foreign countries in which we had operations during 2012 would have increased our revenue by \$49.4 million and our pre-tax operating profit by \$16.7 million. For the year ended December 31, 2011, a 10% weaker U.S. dollar against the currencies of all foreign countries in which we had operations during 2011 would have increased our revenue by \$50.2 million and our pre-tax operating profit by \$15.2 million. A 10% stronger U.S. dollar would have resulted in similar decreases to our revenue and pre-tax operating profit for 2012 and 2011.

Interest Rate Risk

Our exposure to market risk for changes in interest rates relates to our variable-rate, long-term Senior Credit Facility and commercial paper borrowings, as well as our interest rate swaps which economically convert our 2014 fixed rate bonds from a fixed rate of interest to a floating rate. We attempt to achieve the lowest all-in weighted-average cost of debt while simultaneously taking into account the mix of our fixed- and floating-rate debt, and the average life and scheduled maturities of our debt. At December 31, 2012, our weighted average cost of debt was 4.0% and weighted-average life of debt was 8.6 years. At December 31, 2012, 68% of our debt was fixed rate, and the remaining 32% was variable rate after giving effect to the interest rate swaps on our 2014 bonds. Occasionally we use derivatives to manage our exposure to changes in interest rates by entering into interest rate swaps. A 100 basis point increase in the weighted-average interest rate on our variable-rate debt would have increased our 2012 interest expense by \$5.4 million.

Based on the amount of outstanding variable-rate debt, we have material exposure to interest rate risk. In the future, if our mix of fixed-rate and variable-rate debt were to change due to additional borrowings under existing or new variable-rate debt, we could have additional exposure to interest rate risk. The nature and amount of our long-term and short-term debt, as well as the proportionate amount of fixed-rate and variable-rate debt, can be expected to vary as a result of future business requirements, market conditions and other factors.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management of Equifax is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. Equifax's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Internal control over financial reporting includes those written policies and procedures that:

• Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of Equifax;

• Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles;

• Provide reasonable assurance that receipts and expenditures of Equifax are being made only in accordance with authorization of management and the Board of Directors of Equifax; and

• Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets that could have a material effect on the consolidated financial statements.

Internal control over financial reporting includes the controls themselves, monitoring and internal auditing practices, and actions taken to correct deficiencies as identified.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of Equifax's internal control over financial reporting as of December 31, 2012. Management based this assessment on criteria for effective internal control over financial reporting described in "Internal Control — Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management's assessment included an evaluation of the design of Equifax's internal control over financial reporting and testing of the operational effectiveness of its internal control over financial reporting. Management reviewed the results of its assessment with the Audit Committee of its Board of Directors. On December 28, 2012, the Company acquired certain business assets and the operations of CSC Credit Services, Inc., a subsidiary of Computer Sciences Corporation. Refer to Note 4 of Notes to Consolidated Financial Statements for additional information regarding this event. Management has excluded this business from its evaluation of the effectiveness of the Company's internal control over financial reporting as of December 31, 2012. The acquisition represented approximately \$1.0 billion of our \$4.5 billion consolidated assets as of December 31, 2012 and approximately \$0.7 million of our \$2.2 billion consolidated revenues for the year then ended.

Based on this assessment, management determined that, as of December 31, 2012, Equifax maintained effective internal control over financial reporting. Ernst & Young LLP, the Company's independent registered public accounting firm, has issued an audit report on the Company's internal control over financial reporting as of December 31, 2012.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

The Board of Directors and Shareholders of Equifax Inc.:

We have audited Equifax Inc.'s ("Equifax" or "the Company") internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Equifax's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As indicated in the accompanying Management's Report on Internal Control Over Financial Reporting, management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of CSC Credit Services, Inc., which is included in the 2012 consolidated financial statements of Equifax Inc. and constituted \$1.0 billion of total and net assets as of December 31, 2012 and an immaterial amount of operating revenues and net income for the year then ended. Our audit of internal control over financial reporting of Equifax Inc. did not include an evaluation of the internal control over financial reporting of CSC Credit Services, Inc.

In our opinion, Equifax Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012 based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets as of December 31, 2012 and 2011, and the related consolidated statements of income, comprehensive income, cash flows, and shareholders' equity and other comprehensive income for each of the three years in the period ended December 31, 2012 of Equifax Inc. and our report dated February 22, 2013 expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP

Atlanta, Georgia

February 22, 2013

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of Equifax Inc.:

We have audited the accompanying consolidated balance sheets of Equifax Inc. as of December 31, 2012 and 2011, and the related consolidated statements of income, comprehensive income, cash flows, and shareholders' equity and other comprehensive income for each of the three years in the period ended December 31, 2012. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Equifax Inc. at December 31, 2012 and 2011, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2012, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Equifax Inc.'s internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 22, 2013 expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As used herein, the terms Equifax, the Company, we, our and us refer to Equifax Inc., a Georgia corporation, and its consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only Equifax Inc.

Nature of Operations. We collect, organize and manage various types of financial, demographic, employment and marketing information. Our products and services enable businesses to make credit and service decisions, manage their portfolio risk, automate or outsource certain payroll-related, tax and human resources business processes, and develop marketing strategies concerning consumers and commercial enterprises. We serve customers across a wide range of industries, including the financial services, mortgage, retail, telecommunications, utilities, automotive, brokerage, healthcare and insurance industries, as well as government agencies. We also enable consumers to manage and protect their financial health through a portfolio of products offered directly to consumers. As of December 31, 2012, we operated in the following countries: Argentina, Canada, Chile, Costa Rica, Ecuador, El Salvador, Honduras, Paraguay, Peru, Portugal, Spain, the United Kingdom, or U.K., Uruguay, and the United States of America, or U.S. We also maintain support operations in the Republic of Ireland. We have an investment in a consumer and commercial credit information company in Brazil and offer consumer credit services in India and Russia through joint ventures.

We develop, maintain and enhance secured proprietary information databases through the compilation of actual consumer data, including credit, employment, asset, liquidity, net worth and spending activity, and business data, including credit and business demographics, that we obtain from a variety of sources, such as credit granting institutions, public record information (including bankruptcies, liens and judgments), income and tax information primarily from large to mid-sized companies in the U.S., and survey-based marketing information. We process this information utilizing our proprietary information management systems.

Basis of Consolidation. Our Consolidated Financial Statements and the accompanying notes, which are prepared in accordance with U.S. generally accepted accounting principles, or GAAP, include Equifax and all its subsidiaries. We consolidate all majority-owned and controlled subsidiaries as well as variable interest entities in which we are the primary beneficiary. Other parties' interests in consolidated entities are reported as noncontrolling interests. We use the equity method of accounting for investments in which we are able to exercise significant influence and use the cost method for all other investments. All significant intercompany transactions and balances are eliminated.

Our Consolidated Financial Statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the periods presented therein. Certain prior year amounts have been reclassified to conform to current year presentation. The effect of these reclassifications is not material.

Segments. We manage our business and report our financial results through the following five reportable segments, which are the same as operating segments:

U.S. Consumer Information Solutions, or USCIS

International

Workforce Solutions

North America Personal Solutions

North America Commercial Solutions

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

USCIS is our largest reportable segment, with 42% of total operating revenue for 2012. Our most significant foreign operations are located in Canada and the U.K.

Use of Estimates. The preparation of our Consolidated Financial Statements requires us to make estimates and assumptions in accordance with GAAP. Accordingly, we make these estimates and assumptions after exercising judgment. We believe that the estimates and assumptions inherent in our Consolidated Financial Statements are reasonable, based upon information available to us at the time they are made including the consideration of events that have occurred up until the point these Consolidated Financial Statements have been filed. These estimates and assumptions affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities at the date of the financial statements, as well as reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates.

Revenue Recognition and Deferred Revenue. Revenue is recognized when persuasive evidence of an arrangement exists, collectibility of arrangement consideration is reasonably assured, the arrangement fees are fixed or determinable and delivery of the product or service has been completed. A significant portion of our revenue is derived from the provision of information services to our customers on a transaction basis, in which case revenue is recognized, assuming all other revenue recognition criteria are met, when the services are provided. A smaller portion of our revenues relates to subscription-based contracts under which a customer pays a preset fee for a predetermined or unlimited number of transactions or services provided during the subscription period, generally one year. Revenue related to subscription-based contracts having a preset number of transactions is recognized as the services are provided, using an effective transaction rate as the actual transactions are completed. Any remaining revenue related to unfulfilled units is not recognized until the end of the related contract's subscription period. Revenue related to subscription-based contracts having an unlimited volume is recognized ratably during the contract term. Revenue is recorded net of sales taxes.

If at the outset of an arrangement, we determine that collectibility is not reasonably assured, revenue is deferred until the earlier of when collectibility becomes probable or the receipt of payment. If there is uncertainty as to the customer's acceptance of our deliverables, revenue is not recognized until the earlier of receipt of customer acceptance or expiration of the acceptance period. If at the outset of an arrangement, we determine that the arrangement fee is not fixed or determinable, revenue is deferred until the arrangement fee becomes fixed or determinable, assuming all other revenue recognition criteria have been met.

The determination of certain of our tax management services revenue requires the use of estimates, principally related to transaction volumes in instances where these volumes are reported to us by our clients on a monthly basis in arrears. In these instances, we estimate transaction volumes based on average actual volumes reported in the past. Differences between our estimates and actual final volumes reported are recorded in the period in which actual

volumes are reported. We have not experienced significant variances between our estimates and actual reported volumes in the past. We monitor actual volumes to ensure that we will continue to make reasonable estimates in the future. If we determine that we are unable to make reasonable future estimates, revenue may be deferred until actual customer data is obtained. Also within our Workforce Solutions operating segment, the fees for certain of our tax credits and incentives revenue are based on a portion of the credit delivered to our clients. Revenue for these arrangements is recognized based on the achievement of milestones, upon calculation of the credit, or when the credit is utilized by our client, depending on the provisions of the client contract.

We have certain offerings that are sold as multiple element arrangements. The multiple elements may include consumer or commercial information, file updates for certain solutions, services provided by our decisioning technologies personnel, training services, statistical models and other services. To account for each of these elements separately, the delivered elements must have stand-alone value to our customer. For certain customer contracts, the total arrangement fee is allocated to the undelivered elements. If we are unable to unbundle the arrangement into separate units of accounting, we apply one of the accounting policies described above. This may lead to the arrangement consideration being recognized as the final contract element is delivered to our customer or ratably over the contract.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Many of our multiple element arrangements involve the delivery of services generated by a combination of services provided by one or more of our operating segments. No individual information service impacts the value or usage of other information services included in an arrangement and each service can be sold alone or, in most cases, purchased from another vendor without affecting the quality of use or value to the customer of the other information services included in the arrangement. Some of our products require the development of interfaces or platforms by our decisioning technologies personnel that allow our customers to interact with our proprietary information databases. These development services do not meet the requirement for having stand-alone value, thus any related development fees are deferred when billed and are recognized over the expected period that the customer will benefit from the related decisioning technologies service. Revenue from the provision of statistical models is recognized as the service is provided and accepted, assuming all other revenue recognition criteria are met. The direct costs of set up of a customer are capitalized and amortized as a cost of service during the term of the related customer contract.

We have some multiple element arrangements that include software. We recognize the elements for which we have established vendor specific objective evidence at fair value upon delivery, in accordance with the applicable guidance.

We record revenue on a net basis for those sales in which we have in substance acted as an agent or broker in the transaction.

Deferred revenue consists of amounts billed in excess of revenue recognized on sales of our information services relating generally to the deferral of subscription fees and arrangement consideration from elements not meeting the criteria for having stand-alone value discussed above. Deferred revenues are subsequently recognized as revenue in accordance with our revenue recognition policies.

Cost of Services. Cost of services consist primarily of (1) data acquisition and royalty fees; (2) customer service costs, which include: personnel costs to collect, maintain and update our proprietary databases, to develop and maintain software application platforms and to provide consumer and customer call center support; (3) hardware and software expense associated with transaction processing systems; (4) telecommunication and computer network expense; and (5) occupancy costs associated with facilities where these functions are performed by Equifax employees.

Selling, General and Administrative Expenses. Selling, general and administrative expenses consist primarily of personnel-related costs, restructuring costs, corporate costs, fees for professional and consulting services, advertising costs, and other costs of administration.

Advertising. Advertising costs from continuing operations, which are expensed as incurred, totaled \$48.7 million, \$42.0 million and \$32.6 million during 2012, 2011 and 2010, respectively.

Stock-Based Compensation. We recognize the cost of stock-based payment transactions in the financial statements over the period services are rendered according to the fair value of the stock-based awards issued. All of our stock-based awards, which are stock options and nonvested stock, are classified as equity instruments.

Income Taxes. We account for income taxes under the liability method. Deferred income tax assets and liabilities are determined based on the estimated future tax effects of temporary differences between the financial statement and tax bases of assets and liabilities, as measured by current enacted tax rates. We assess whether it is more likely than not that we will generate sufficient taxable income to realize our deferred tax assets. We record a valuation allowance, as necessary, to reduce our deferred tax assets to the amount of future tax benefit that we estimate is more likely than not to be realized.

We record tax benefits for positions that we believe are more likely than not of being sustained under audit examinations. We assess the potential outcome of such examinations to determine the adequacy of our income tax accruals. We recognize interest and penalties accrued related to unrecognized tax benefits in the provision for income taxes on our Consolidated Statements of Income. We adjust our income tax provision during the period in which we determine that the actual results of the examinations may differ from our estimates or when statutory terms expire. Changes in tax laws and rates are reflected in our income tax provision in the period in which they occur.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Earnings Per Share. Our basic earnings per share, or EPS, is calculated as net income divided by the weighted-average number of common shares outstanding during the reporting period. Diluted EPS is calculated to reflect the potential dilution that would occur if stock options or other contracts to issue common stock were exercised and resulted in additional common shares outstanding. The net income amounts used in both our basic and diluted EPS calculations are the same. A reconciliation of the weighted-average outstanding shares used in the two calculations is as follows:

	Twelve Months Ended December 31,		
	2012	2011	2010
	(In millions)		
Weighted-average shares outstanding (basic)	119.9	121.9	124.8
Effect of dilutive securities:			
Stock options and restricted stock units	2.6	1.8	1.7
Weighted-average shares outstanding (diluted)	122.5	123.7	126.5

For the twelve months ended December 31, 2012, 2011 and 2010, 0.1 million, 2.3 million and 3.3 million stock options, respectively, were anti-dilutive and therefore excluded from this calculation.

Cash Equivalents. We consider all highly-liquid investments with an original maturity of three months or less to be cash equivalents.

Trade Accounts Receivable and Allowance for Doubtful Accounts. We do not recognize interest income on our trade accounts receivable. Additionally, we generally do not require collateral from our customers related to our trade accounts receivable.

The allowance for doubtful accounts for estimated losses on trade accounts receivable is based on historical write-off experience, an analysis of the aging of outstanding receivables, customer payment patterns and the establishment of specific reserves for customers in an adverse financial condition. We reassess the adequacy of the allowance for doubtful accounts each reporting period. Increases to the allowance for doubtful accounts are recorded as bad debt expense, which are included in selling, general and administrative expenses on the accompanying Consolidated Statements of Income. Bad debt expense from continuing operations was \$2.1 million, \$2.8 million and \$0.8 million during the twelve months ended December 31, 2012, 2011, and 2010, respectively.

Long-Lived Assets. Property and equipment are stated at cost less accumulated depreciation and amortization. The cost of additions is capitalized. Property and equipment are depreciated on a straight-line basis over the assets' estimated useful lives, which are generally three to ten years for data processing equipment and capitalized internal-use software and systems costs. Leasehold improvements are depreciated over the shorter of their estimated useful lives or lease terms that are reasonably assured. Buildings are depreciated over a forty-year period. Other fixed assets are depreciated over three to seven years. Upon sale or retirement of an asset, the related costs and accumulated depreciation are removed from the accounts and any gain or loss is recognized and included in income from operations on the Consolidated Statements of Income, with the classification of any gain or loss dependent on the characteristics of the asset sold or retired.

Certain internal-use software and system development costs are capitalized. Accordingly, the specifically identified costs incurred to develop or obtain software, which is intended for internal use are not capitalized until the determination is made as to the availability of a technically feasible solution to solve the predefined user and operating performance requirements as established during the preliminary stage of an internal-use software development project. Costs incurred during a software development project's preliminary stage and post-implementation stage are expensed as incurred. Application development activities that are eligible for capitalization include software design and configuration, development of interfaces, coding, testing, and installation. Capitalized internal-use software and systems costs are subsequently amortized on a straight-line basis over a three- to ten-year period after project completion and when the related software or system is ready for its intended use.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Depreciation and amortization expense from continuing operations related to property and equipment was \$75.0 million, \$75.0 million and \$72.2 million during the twelve months ended December 31, 2012, 2011, and 2010, respectively.

Industrial Revenue Bonds. Pursuant to the terms of certain industrial revenue bonds, we have transferred title to certain of our fixed assets with total costs of \$88.4 million and \$65.3 million as of December 31, 2012 and 2011, respectively, to a local governmental authority in the U.S. to receive a property tax abatement related to economic development. The title to these assets will revert back to us upon retirement or cancellation of the applicable bonds. These fixed assets are still recognized in the Company's Consolidated Balance Sheets as all risks and rewards remain with the Company.

Impairment of Long-Lived Assets. We monitor the status of our long-lived assets in order to determine if conditions exist or events and circumstances indicate that an asset group may be impaired in that its carrying amount may not be recoverable. Significant factors that are considered that could be indicative of an impairment include: changes in business strategy, market conditions or the manner in which an asset group is used; underperformance relative to historical or expected future operating results; and negative industry or economic trends. If potential indicators of impairment exist, we estimate recoverability based on the asset group's ability to generate cash flows greater than the carrying value of the asset group. We estimate the undiscounted future cash flows arising from the use and eventual disposition of the related long-lived asset group. If the carrying value of the long-lived asset group exceeds the estimated future undiscounted cash flows, an impairment loss is recorded based on the amount by which the asset group's carrying amount exceeds its fair value. We utilize estimates of discounted future cash flows to determine the asset group's fair value. We did not record any impairment losses in any of the periods presented.

Goodwill and Indefinite-Lived Intangible Assets. Goodwill represents the cost in excess of the fair value of the net assets of acquired businesses. Goodwill is not amortized. We are required to test goodwill for impairment at the reporting unit level on an annual basis and on an interim basis if an event occurs or circumstances change that would reduce the fair value of a reporting unit below its carrying value. We perform our annual goodwill impairment test as of September 30 each year.

In September 2011, the FASB issued Accounting Standards Update, *Intangibles – Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (the revised standard). The revised standard is intended to reduce the cost and complexity of the annual goodwill impairment test by providing entities an option to perform a “qualitative” assessment to determine whether further impairment testing is necessary. If an entity believes, as a result of its qualitative assessment, that it is more-likely-than-not that the fair value of a reporting unit is less than its carrying amount, the quantitative impairment test is required. Otherwise, no further testing is required. For reporting units that we determine meet these criteria, we perform a qualitative assessment. In this qualitative assessment, we consider the

following items for each of the reporting units: macroeconomic conditions, industry and market conditions, overall financial performance and other entity specific events. In addition, for each of these reporting units, the most recent fair value determination results in an amount that significantly exceeds the carrying amount of the reporting units. Based on these assessments, we determine whether the likelihood that a current fair value determination would be less than the current carrying amount of the reporting unit is not more likely than not. If it is determined it is not more likely than not, no further testing is required. If further testing is required, we continue with the quantitative impairment test.

In analyzing goodwill for potential impairment in the quantitative impairment test, we use a combination of the income and market approaches to estimate the reporting unit's fair value. Under the income approach, we calculate the fair value of a reporting unit based on estimated future discounted cash flows. The assumptions we use are based on what we believe a hypothetical marketplace participant would use in estimating fair value. Under the market approach, we estimate the fair value based on market multiples of revenue or earnings before interest, income taxes, depreciation and amortization for benchmark companies. If the fair value of a reporting unit exceeds its carrying value, then no further testing is required. However, if a reporting unit's fair value were to be less than its carrying value, we would then determine the amount of the impairment charge, if any, which would be the amount that the carrying value of the reporting unit's goodwill exceeded its implied value.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Contractual/territorial rights represent the estimated fair value of rights to operate in certain territories acquired through the purchase of independent credit reporting agencies in the U.S. and Canada. Our contractual/territorial rights are perpetual in nature and, therefore, the useful lives are considered indefinite. Indefinite-lived intangible assets are not amortized. We are required to test indefinite-lived intangible assets for impairment annually and whenever events and circumstances indicate that there may be an impairment of the asset value. Our annual impairment test date is September 30. We perform the impairment test for our indefinite-lived intangible assets by comparing the asset's fair value to its carrying value. We estimate the fair value based on projected discounted future cash flows. An impairment charge is recognized if the asset's estimated fair value is less than its carrying value.

We completed our annual impairment testing for goodwill and indefinite-lived intangible assets during the twelve months ended December 31, 2012, 2011, and 2010, and we determined that there was no impairment in any of these years.

Purchased Intangible Assets. Purchased intangible assets represent the estimated fair value of acquired intangible assets used in our business. Purchased data files represent the estimated fair value of consumer credit files acquired primarily through the purchase of independent credit reporting agencies in the U.S. and Canada. We expense the cost of modifying and updating credit files in the period such costs are incurred. We amortize purchased data files, which primarily consist of acquired credit files, on a straight-line basis. Predominantly all of our other purchased intangible assets are also amortized on a straight-line basis.

Asset	Useful Life <i>(in years)</i>
Purchased data files	2 to 15
Acquired software and technology	1 to 10
Non-compete agreements	1 to 10
Proprietary database	6 to 10
Customer relationships	2 to 25
Trade names	5 to 15

Other Assets. Other assets on our Consolidated Balance Sheets primarily represents our investment in unconsolidated affiliates, interest rate swaps, assets related to life insurance policies covering certain officers of the Company, employee benefit trust assets and data purchases, net of related amortization.

Benefit Plans. We sponsor various pension and defined contribution plans. We also maintain certain healthcare and life insurance benefit plans for eligible retired U.S. employees. Benefits under the pension and other postretirement

benefit plans are generally based on age at retirement and years of service and for some pension plans, benefits are also based on the employee's annual earnings. The net periodic cost of our pension and other postretirement plans is determined using several actuarial assumptions, the most significant of which are the discount rate and the expected return on plan assets. Our Consolidated Balance Sheets reflect the funded status of the pension and other postretirement plans.

Foreign Currency Translation. The functional currency of each of our foreign operating subsidiaries is that subsidiary's local currency. We translate the assets and liabilities of foreign subsidiaries at the year-end rate of exchange and revenue and expenses at the monthly average rates during the year. We record the resulting translation adjustment in other comprehensive income, a component of shareholders' equity. We also record gains and losses resulting from the translation of intercompany balances of a long-term investment nature in accumulated other comprehensive loss.

Financial Instruments. Our financial instruments consist primarily of cash and cash equivalents, accounts and notes receivable, accounts payable and short and long-term debt. The carrying amounts of these items, other than long-term debt, approximate their fair market values due to the short-term nature of these instruments. The fair value of our fixed-rate debt is determined using Level 2 inputs such as quoted market prices for publicly traded instruments, and for non-publicly traded instruments through valuation techniques depending on the specific characteristics of the debt instrument, taking into account credit risk. As of December 31, 2012 and 2011, the fair value of our fixed-rate debt was \$1.6 billion and \$1.09 billion, respectively, compared to its carrying value of \$1.5 billion and \$0.97 billion, respectively, based on recent trading prices.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Derivatives and Hedging Activities. Although derivative financial instruments are not utilized for speculative purposes or as the Company's primary risk management tool, derivatives have been used as a risk management tool to hedge the Company's exposure to changes in interest rates and foreign exchange rates. We have used interest rate swaps and interest rate lock agreements to manage interest rate risk associated with our fixed and floating-rate borrowings. Forward contracts on various foreign currencies have been used to manage the foreign currency exchange rate risk of certain firm commitments denominated in foreign currencies. We recognize all derivatives on the balance sheet at fair value. Derivative valuations reflect the value of the instrument including the value associated with any material counterparty risk.

Fair Value Hedges. In conjunction with our fourth quarter 2009 sale of five-year Senior Notes, we entered into five-year interest rate swaps, designated as fair value hedges, which convert the debt's fixed interest rate to a variable rate. These swaps involve the receipt of fixed rate amounts for floating interest rate payments over the life of the swaps without exchange of the underlying principal amount. Changes in the fair value of the interest rate swaps offset changes in the fair value of the fixed-rate Senior Notes they hedge due to changes in the designated benchmark interest rate and are recorded in interest expense. The full fair value of the interest rate swap is classified as a non-current asset or liability as the remaining maturity of the fixed-rate Senior Notes they hedge is more than twelve months. There was no ineffectiveness on our fair value hedge that impacted current year earnings. The fair value of these interest rate swaps at December 31, 2012 and 2011 was \$12.2 million and \$14.8 million, respectively, recorded in other assets, net on our Consolidated Balance Sheets.

Cash Flow Hedges. Changes in the fair value of highly effective derivatives designated as cash flow hedges are initially recorded in accumulated other comprehensive income and are reclassified into the line item in the Consolidated Statements of Income in which the hedged item is recorded in the same period the hedged item impacts earnings. Any ineffective portion is recorded in current period earnings. We did not have any unsettled cash flow hedges outstanding as of December 31, 2012 or December 31, 2011.

Fair Value Measurements. Fair value is determined based on the assumptions marketplace participants use in pricing the asset or liability. We use a three level fair value hierarchy to prioritize the inputs used in valuation techniques between observable inputs that reflect quoted prices in active markets, inputs other than quoted prices with observable market data and unobservable data (e.g., a company's own data). The adoption of fair value guidance for nonfinancial assets and nonfinancial liabilities on January 1, 2009 did not have a material impact on our Consolidated Financial Statements.

The following table presents assets and liabilities measured at fair value on a recurring basis:

Fair Value Measurements at Reporting Date Using:

Description		Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
		Fair Value December 31, 2012			
(In millions)					
Assets and Liabilities:					
Fair Value Interest Rate Swaps	(1)	\$ 12.2	\$ -	\$ 12.2	\$ -
Notes, due 2014	(1)	(287.2)	-	(287.2)	-
Deferred Compensation Plan	(2)	(16.8)	-	(16.8)	-
Total assets and liabilities		\$ (291.8)	\$ -	\$ (291.8)	\$ -

(1) The fair value of our interest rate swaps, designated as fair value hedges, and notes are based on the present value of expected future cash flows using zero coupon rates and are classified within Level 2 of the fair value hierarchy.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

We maintain deferred compensation plans that allow for certain management employees to defer the receipt of compensation (such as salary, incentive compensation and commissions) until a later date based on the terms of the plans. The liability representing benefits accrued for plan participants is valued at the quoted market prices of the participants' investment elections.

Variable Interest Entities. We hold interests in certain entities, including credit data and information solutions ventures, that are considered variable interest entities, or VIEs. These variable interests relate to ownership interests that require financial support for these entities. Our investments related to these VIEs totaled \$13.5 million at December 31, 2012, representing our maximum exposure to loss. These investments are classified in other assets, net on our Consolidated Balance Sheets. We are not the primary beneficiary and are not required to consolidate any of these VIEs.

Recent Accounting Pronouncements. *Testing Goodwill for Impairment.* In September 2011, the FASB issued Accounting Standards Update, *Intangibles – Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (the revised standard). The revised standard is intended to reduce the cost and complexity of the annual goodwill impairment test by providing entities an option to perform a “qualitative” assessment to determine whether further impairment testing is necessary. If an entity believes, as a result of its qualitative assessment, that it is more-likely-than-not that the fair value of a reporting unit is less than its carrying amount, the quantitative impairment test is required. Otherwise, no further testing is required. The revised standard was effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. We implemented the new standard in our 2012 annual goodwill impairment testing, and it did not have a material effect on our financial condition or results of operations.

Comprehensive Income. In the first quarter of 2012, we adopted Accounting Standards Update No. 2011-05, *Presentation of Comprehensive Income*, which changed our financial statement presentation but did not have an effect on our financial condition or results of operations.

Testing Indefinite-Lived Intangible Assets for Impairment. In July 2012, the FASB issued Accounting Standards Update No. 2012-02, “Intangibles - Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment,” which allows a company the option to first assess qualitative factors to determine whether it is necessary to perform a quantitative impairment test. Under that option, a company would no longer be required to calculate the fair value of an indefinite-lived intangible asset unless the company determines, based on the qualitative assessment, that it is more likely than not that the fair value of the indefinite-lived intangible asset is less than its carrying amount. This guidance is effective for annual and interim indefinite-lived intangible asset impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted. We will implement the new standard in our 2013 annual impairment testing. This guidance is not expected to have a material effect on our financial condition or results of operations.

Other Comprehensive Income. In February 2013, the FASB issued Accounting Standards Update No. 2013-02, “Reporting of Amounts Reclassified Out of Other Comprehensive Income,” which requires public companies to present information about reclassification adjustments from accumulated other comprehensive income in their annual and interim financial statements in a single note or on the face of the financial statements. This standard is effective prospectively for annual and interim reporting periods beginning after December 15, 2012. This guidance is not expected to have a material effect on our financial condition or results of operations.

2. MERGER OF BRAZILIAN BUSINESS

On May 31, 2011, we completed the merger of our Brazilian business with Boa Vista Serviços S.A. (“BVS”) in exchange for a 15% equity interest in BVS (the “Brazilian Transaction”). The transaction was accounted for as a sale of our Brazilian business, which was deconsolidated. BVS, an unrelated third party whose results we do not consolidate, is the second largest consumer and commercial credit information company in Brazil. Our investment in BVS was valued at 130 million Brazilian Reais (\$63.6 million and \$69.4 million at December 31, 2012 and December 31, 2011, respectively) is recorded in other assets, net on the Consolidated Balance Sheets and is accounted for using the cost method. The initial fair value was determined by a third-party using income and market approaches. We estimate the fair value of the investment at December 31, 2012 in local currency approximates the initial fair value of the investment recorded. In accounting for the transaction, we wrote off \$33.2 million of goodwill and \$27.0 million of cumulative foreign currency translation adjustments. In addition, as part of the agreement with BVS, we have retained certain contingent liabilities. A pre-tax loss of \$10.3 million was recognized during the second quarter of 2011 related to the Brazilian Transaction and is included in other income (expense) in the Consolidated Statements of Income. Tax expense of \$17.5 million was also recorded in conjunction with the Brazilian Transaction.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Equifax has committed to make certain additional funding available to BVS. Until May 31, 2015, BVS will have the right to borrow up to \$55 million from Equifax for general corporate purposes; any borrowings would be due and payable on May 31, 2015. Payments for principal and interest on any borrowings can be convertible, at Equifax's option, into additional shares of BVS nonvoting preferred stock. Preferred shares issued as a result of any borrowings will be convertible to common shares under specific conditions. There were no borrowings outstanding as of December 31, 2012.

3. DISCONTINUED OPERATIONS

On April 23, 2010, we sold our APPRO loan origination software business ("APPRO"), for approximately \$72 million. On July 1, 2010, we sold substantially all the assets of our Direct Marketing Services division ("DMS") for approximately \$117 million. Both of these businesses had previously been reported in our U.S. Consumer Information Solutions segment. The historical results of these operations for the year ended December 31, 2010 are classified as discontinued operations in the Consolidated Statements of Income. Revenue for these businesses for the year ended December 31, 2010 was \$42.1 million. Pretax income was \$65.4 million for the year ended December 31, 2010. We recorded a gain from the sale of APPRO in the second quarter of 2010 of \$12.3 million, after tax, and a gain from the sale of DMS in the third quarter of 2010 of \$14.9 million, after tax, both of which were classified as discontinued operations in the Consolidated Statements of Income.

During 2011, we settled various contingencies related to past divestitures that resulted in \$1.5 million of income from discontinued operations, net of tax.

4. ACQUISITIONS AND INVESTMENTS

2012 Acquisitions and Investments. On December 28, 2012, as a part of our long-term growth strategy of expanding our USCIS business, we acquired certain credit services business assets and operations of Computer Sciences Corporation for \$1.0 billion. The results of this acquisition have been included in our USCIS operating segment subsequent to the acquisition and are not material for 2012.

We financed this purchase with available cash, borrowings under our CP Program, and the issuance in December 2012 of 3.30%, ten-year unsecured Senior Notes. The 3.30% Senior Notes are further described in Note 6 of the Notes to the Consolidated Financial Statements.

To further broaden our product offerings, during the twelve months ended December 31, 2012, we completed smaller acquisitions of information services businesses in the European and Latin American regions of our International segment totaling \$16.5 million. The results of these acquisitions have been included in our operating results subsequent to the date of acquisition and are not material.

2011 Acquisitions and Investments. On August 1, 2011, to further enhance our market position, we acquired DataVision Resources, which provides data and business solutions to the mortgage, insurance and financial services industries, for \$50.0 million. The results of this acquisition have been included in our Workforce Solutions segment subsequent to the date of acquisition.

To further broaden our product offerings, during the twelve months ended December 31, 2011, we completed smaller acquisitions of information services businesses in the European and Latin American regions of our International segment as well as our U.S. Consumer Information Solutions and Workforce Solutions segments for \$82.4 million. The results of these acquisitions have been included in our operating results subsequent to the date of acquisition and are not material.

2010 Acquisitions and Investments. On October 1, 2010, to broaden our portfolio of solutions, we acquired Anakam, Inc., a provider of large-scale, software-based, multi-factor authentication solutions, for \$64.3 million. The results of this acquisition have been included in our U.S. Consumer Information Solutions segment subsequent to the date of acquisition.

To further enhance our market share, during the twelve months ended December 31, 2010, we completed four additional acquisitions totaling \$12.3 million. These transactions were in our International segment and the results of these acquisitions have been included in our operating results subsequent to the date of acquisition and are not material.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Purchase Price Allocation. The following table summarizes the estimated fair value of the net assets acquired and the liabilities assumed at the acquisition dates. The 2012 allocations are considered final, except for the resolution of certain contingencies all of which existed at the acquisition date, primarily related to working capital settlement, sales tax exposures and income tax accounts, which will be resolved when final returns are filed related to the acquired entities. Estimates for these items have been included in the purchase price allocations and will be finalized prior to the one year anniversary date of the acquisitions.

	December 31,	
	2012	2011
	(In millions)	
Current assets	\$21.3	\$ 14.1
Property and equipment	1.2	4.2
Other assets	0.1	0.1
Identifiable intangible assets ⁽¹⁾	524.7	52.2
Indefinite lived intangible assets	158.8	-
Goodwill ⁽²⁾	321.3	75.6
Total assets acquired	1,027.4	146.2
Total liabilities assumed	(7.4)	(13.8)
Non-controlling interest	(2.7)	-
Net assets acquired	\$1,017.3	\$ 132.4

(1) Identifiable intangible assets are further disaggregated in the following table.

(2) Of the goodwill resulting from 2012 and 2011 acquisitions, \$309.3 million and \$44.7 million, respectively, is tax deductible.

The primary reasons the purchase price of these acquisitions exceeded the fair value of the net assets acquired, which resulted in the recognition of goodwill, were future tax savings which are not recorded apart from goodwill, expanded growth opportunities from new or enhanced product offerings, cost savings from the elimination of duplicative activities, and the acquisition of an assembled workforce that are not recognized as assets apart from goodwill.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Pro Forma Financial Information. The following table presents unaudited consolidated pro forma information as if our acquisition of CSC Credit Services' business had occurred at the beginning of the earliest year presented. The pro forma amounts may not be necessarily indicative of the operating revenues and results of operations had the acquisition actually taken place at the beginning of the earliest year presented. Furthermore, the pro forma information may not be indicative of future performance.

	Twelve Months Ended December 31,			
	2012		2011	
	As Reported	Pro Forma	As Reported	Pro Forma
	(In millions, except per share data)			
Operating revenues	\$2,160.5	\$ 2,283.6	\$ 1,959.8	\$ 2,070.2
Net income attributable to Equifax	\$272.1	\$ 309.9	\$232.9	\$ 263.6
Income from continuing operations per share (basic)	\$2.27	\$ 2.58	\$1.90	\$ 2.15
Income from continuing operations per share (diluted)	\$2.22	\$ 2.53	\$1.87	\$ 2.12
Net income per share (basic)	\$2.27	\$ 2.58	\$1.91	\$ 2.16
Net income per share (diluted)	\$2.22	\$ 2.53	\$1.88	\$ 2.13

The unaudited pro forma financial information presented in the table above has been adjusted to give effect to adjustments that are (1) directly related to the business combination; (2) factually supportable; and (3) expected to have a continuing impact. These adjustments include, but are not limited to, the application of our accounting policies; elimination of related party transactions; and depreciation and amortization related to fair value adjustments and intangible assets.

The impact of the smaller acquisitions within our International segment in 2012 as well as the 2011 acquisitions did not have a material impact in our Consolidated Statements of Income. The impact of the 2012 acquisitions, excluding CSC Credit Services, and the 2011 acquisitions would not have significantly changed our Consolidated Statements of Income if they had occurred at the beginning of the earliest year presented.

5. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill. Goodwill represents the cost in excess of the fair value of the net assets acquired in a business combination. As discussed in Note 1, goodwill is tested for impairment at the reporting unit level on an annual basis and on an interim basis if an event occurs or circumstances change that would reduce the fair value of a reporting unit below its carrying value. We perform our annual goodwill impairment tests as of September 30 each year. As a result of the merger of our Brazilian business in the second quarter of 2011, we performed an interim impairment test on the

Edgar Filing: EQUIFAX INC - Form 10-K

Latin America reporting unit excluding our Brazilian business which resulted in no impairment. The fair value estimates for our reporting units were determined using a combination of the income and market approaches in accordance with the Company's methodology. Our annual impairment tests as of September 30, 2012, 2011 and 2010 resulted in no impairment of goodwill.

Changes in the amount of goodwill for the twelve months ended December 31, 2012 and 2011, are as follows:

(In millions)	U.S. Consumer Information Solutions	International Solutions	Workforce Solutions	North America Personal Solutions	North America Commercial Solutions	Total
Balance, December 31, 2010	\$ 628.5	\$ 346.9	\$ 899.9	\$ 1.8	\$ 37.6	\$1,914.7

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Indefinite-Lived Intangible Assets. Indefinite-lived intangible assets consist of contractual/territorial rights representing the estimated fair value of rights to operate in certain territories acquired through the purchase of independent credit reporting agencies in the U.S. and Canada. Our contractual/territorial rights are perpetual in nature and, therefore, the useful lives are considered indefinite. Indefinite-lived intangible assets are not amortized. As discussed in Note 1, we are required to test indefinite-lived intangible assets for impairment annually and whenever events or circumstances indicate that there may be an impairment of the asset value. We perform our annual indefinite-lived intangible asset impairment test as of September 30 each year. Our annual impairment tests as of September 30, 2012, 2011 and 2010 resulted in no impairment of our indefinite-lived intangible assets. Changes in the amounts of indefinite-lived intangible assets for the twelve months ended December 31, 2012 and 2011, are as follows:

	Amount (In millions)
Balance, December 31, 2010	\$ 95.6
Foreign currency translation	-
Balance, December 31, 2011	95.6
Acquisitions	158.8
