PART III — NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

On September 2, 2015, in connection with preparing its annual report on Form 10-K for the year ended June 30, 2015 (the “2015 Form 10-K”), management of EPL Oil & Gas, Inc. (the “Company”) and its Board of Directors (the “Board”) determined that the formal documentation it had prepared to support its initial designations of certain derivative financial instruments as cash flow hedges in connection with the Company’s crude oil and natural gas hedging program did not meet the technical requirements to qualify for cash flow hedge accounting treatment in accordance with ASC Topic 815, Derivatives and Hedging. The primary reason for this determination was that the formal hedge documentation lacked specificity of the hedged items and, therefore, the designations failed to meet hedge documentation requirements for cash flow hedge accounting treatment. Consequently, unrealized gains or losses resulting from those derivative financial instruments should have been recorded in the Company’s consolidated statements of operations as a component of earnings. Under the cash flow accounting treatment previously applied by the Company subsequent to its merger with Energy XXI Ltd, unrealized gains or losses resulting from changes in the fair value of its derivative financial instruments were recorded, net of the related tax impact, in accumulated other comprehensive income or loss, until the production month when the associated hedge contracts were settled at which time gains or losses associated with the settled contracts were reclassified to revenues.

The Board has concluded that the Company’s previously issued consolidated financial statements for the period from June 4, 2014 through June 30, 2014, and for the quarters ended September 30, 2014, December 31, 2014, and March 31, 2015 should no longer be relied upon, and determined that those financial statements will be restated. This restatement primarily reflects the recognition of gains and losses on derivative financial instruments previously included in accumulated other comprehensive income (loss) to gain (loss) on derivative financial instruments included in earnings and the reclassification of amounts associated with settled contracts previously included in oil and gas sales revenues to gain (loss) on derivative financial instruments as a result of not qualifying for cash flow hedge accounting treatment as described above.

The restatement also reflects resulting adjustments to net oil and natural gas properties, impairment of oil and natural gas properties and depreciation, depletion and amortization due to the previous inclusion of the value of the cash flow hedges in our full cost ceiling test, which is only permitted if the derivative instruments qualify for cash flow hedge accounting; and adjustments to deferred income taxes and income tax expense (benefit). While these non-cash adjustments impact revenues and net income (loss) for each period, as well as total stockholders’ equity, these adjustments do not impact the economics of the hedge transactions or net cash flows from operating, investing or financing activities, nor do they affect the Company’s liquidity or Adjusted earnings before interest, taxes, depreciation and amortization (EBITDA) for each such period.

Edgar Filing: EPL OIL & GAS, INC. - Form NT 10-K

The Company's 2015 Form 10-K will include (1) a restated balance sheet as of June 30, 2014, (2) restated audited consolidated statements of operations, cash flows, and stockholders' equity (deficit) for the period from June 4, 2014 to June 30, 2014, (3) restated quarterly financial statements for the quarters ended September 30, 2014, December 31, 2014 and March 31, 2015, and (4) restated selected financial data for the period ended June 30, 2014. The Company was unable to complete the 2015 Form 10-K in a timely manner due to the additional time and effort involved in restating these consolidated financial statements. The Company is working diligently to address the issue and anticipates that the 2015 Form 10-K will be filed on or before the fifteenth calendar day following its prescribed due date, although there can be no assurance in this regard.
