Beneficial owners who wish to attend the meeting and vote in person must request a proxy from the nominee and bring that Proxy Card to the meeting.

5

PROXIES AND VOTING PROCEDURES

Shares of the Company's Common Stock, par value \$0.01 per share ("Common Stock"), represented by properly executed proxies received prior to or at the meeting, unless such proxies have been revoked, will be voted in accordance with the instructions indicated in the proxies.

Stockholders of record (the "Stockholders") on March 25, 2002 (the "Record Date") are entitled to vote at the Annual Meeting. On March 25, 2002, the Company had outstanding approximately 22,582,870 shares of Common Stock, with each share representing one vote.

If you return your signed Proxy Card to the Company before the Annual Meeting, Golden Telecom will vote your shares as you direct. You can specify on your Proxy Card whether your shares should be voted for all, some or none of the nominees for director. You can also specify whether you approve, disapprove, or abstain from each of the proposals. The proposals will be presented at the Annual Meeting by management.

If you do not specify on your Proxy Card how you want to vote your shares, we will vote them "FOR" the election of all nominees for director as set forth under "Election of Directors" below; and "FOR" each of the Proposals.

The vote of the holders of a plurality of the votes cast by stockholders will elect candidates for director (Item No. 1 on your Proxy Card). The vote of the holders of at least a majority of the shares of Common Stock present in person or represented by proxy at the meeting and entitled to vote, voting together as a single class, is required to ratify the Board of Directors' appointment of Ernst & Young (CIS) Limited as the Company's independent public accountants for 2002 (Item No. 2 on your Proxy Card).

With respect to the proposals to ratify the Board of Directors' appointment of Ernst & Young (CIS) Limited as the Company's independent public accountants for 2002, the affirmative votes must constitute at least a majority of the required quorum. The required quorum is a majority of the outstanding shares of voting stock of Golden Telecom. Golden Telecom intends to count abstentions both for purposes of determining presence or absence of a quorum and in the total number of shares represented and voting with respect to a proposal. Accordingly, abstentions will have the same effect as a vote against a proposal.

The nominees for director receiving the highest number of affirmative votes will be elected. Therefore, votes against a nominee or votes withheld have no legal effect. Unless authority to vote is withheld or another contrary

Edgar Filing: GOLDEN TELECOM INC - Form DEF 14A

instruction is indicated, properly executed Proxy Cards received by Golden Telecom prior to or at the Annual Meeting will be voted FOR the election of the nominees listed on the following pages. Should any of the nominees be unavailable at the time of the meeting to accept nomination or election as a director, the proxyholders named in the Proxy Card will vote for substitute nominees at their discretion.

Broker non-votes occur when nominees have voted on some of the matters to be acted on at a meeting, but fail to vote on certain other matters because they are not permitted to vote on such matters in the absence of instructions from the beneficial owners of shares. Broker non-votes, if any, with respect to a proposal will not be counted for purposes of determining the presence or absence of a quorum, and will not be counted as shares represented and voting with respect to that proposal. A broker non-vote will have the same effect as a vote against any proposal other than the election of directors and will have no effect on the outcome of the election of directors.

The Audit Committee recommends to the Board of Directors the selection of the Company's independent accountants who are responsible for expressing an opinion on the conformity of the Company's audited financial statements with United States generally accepted accounting principles, communicating its judgments as to the quality, not just the acceptability, of the Company's accounting principles and reporting such other matters as required to be discussed with the Audit Committee under generally accepted auditing standards. In this context the Audit Committee has met and held discussions with management and the Company's independent auditors.

Option/SAR Grants in Last Fiscal Year

The following table provides information on stock option grants of Golden Telecom common stock to the Chief Executive Officer, the former Chief Executive Officer, the former Chief Financial Officer and the four other most highly compensated officers in 2001 under the Golden Telecom 1999 Equity Participation Plan and the Golden Telecom Incentive Bonus Program. The exercise price for all of the Golden Telecom stock options awarded approximated the fair market value of Golden Telecom common stock on the date of grant. One-third of the options noted in the column "Securities Underlying Options Granted" vest one year after the date of the grant. Thereafter, the options granted to each person vest in equal monthly installments for a period of 24 months. The present value of each grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions: dividend yield 0%, expected volatility of 1.25, risk-free interest rate of 4.84% and expected life of 3 years.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

Overview. The role of the Compensation Committee is to oversee and direct the development of executive compensation policies and programs that are consistent with, explicitly linked to, and supportive of the strategic objectives of growing the Company's businesses in order to maximize shareholder value. The Committee's specific responsibilities consist in determining the appropriate levels of compensation, including salaries, quarterly incentives, long-term incentives and employee benefits, for members of the Company's senior management, including executive officers. The Committee believes that a strong link should exist between executive compensation and management's ability to maximize shareholder value. The Committee seeks to realize this goal by developing incentive compensation programs that provide competitive compensation and reflect Company performance.

Compensation Philosophy. The four fundamental principles to which the Committee adheres in discharging its responsibilities are as follows. First, most quarterly and long-term incentive compensation for the Company's executive officers should be at risk, with actual compensation levels correlating with the Company's performance in certain key areas determined by the Committee. Second, incentive compensation of the Company's executive officers should focus more heavily on long-term rather than short-term accomplishments and results. Third, equity-based compensation should be used to provide executive officers with clear and direct links to the shareholders' interests. Fourth, the overall executive compensation program should be competitive, equitable and structured so as to ensure the Company's ability to attract, retain, motivate and reward the talented executives who are essential to the Company's continuing success in the difficult markets in which the Company operates and the executives reside. Total compensation, rather than distinct compensation elements, is the focus of the Company's goal to provide competitive compensation opportunities.

20

Compensation Elements. The Company's compensation program for executives and senior management consists of four principal elements, each of which is vitally important in meeting the Company's need to attract, retain, motivate and reward highly-qualified executives and senior management in the markets where the Company operates. The four principal elements are described below and include base salaries, periodic performance incentives, long-term incentives and benefits.

Base Salaries. Base salaries for executive officers and senior management are generally set at levels that reflect the competitive marketplace for companies that are of comparable size and complexity and that would be considered competitors of the Company in attracting and retaining qualified executives. The salaries of the executive officers are reviewed and approved by the Compensation Committee based on its assessments of each executive's experience and

Edgar Filing: GOLDEN TELECOM INC - Form DEF 14A

performance and a comparison of salaries of peers in other companies.

Periodic Performance Incentives. Incentive awards are made on a quarterly basis to executive officers and senior management on the basis of Company and business unit performance relative to budget in such areas as revenue, SG&A expenses, and EBITDA, which is a common performance measure in the telecommunications industry and means earnings before interest, tax, depreciation and amortization. The Company adopted a revised executive officer and senior management and executive bonus program in 2001 whereby an additional criterion, personal performance objectives, was added and executives and senior management are eligible for an annual incentive payment based on the fulfillment of these personal objectives. The Company intends to continue providing incentives in concert with other compensation elements in order to maintain a competitive total compensation program for its executive officers. The Committee reviews and approves all performance measures and goals established under the annual and long-term incentive plans.

Long-Term Incentives. The Company relies on stock options as the principal means of providing long-term incentive compensation. Stock options have been, and will continue to be, granted to executive officers and senior management and key employees under the 1999 Equity Participation Plan. In considering the size and amount of option grants, the Committee considers, among other things, previous grants made to the executive officers, the amount of options currently available for issuance under the guidelines established in the 1999 Equity Participation Plan, and the desirability of retaining an executive officer for the vesting period of the stock option.

Benefits. Benefits offered to executive officers serve a different purpose than do other elements of the total compensation program. In general, they provide for retirement income and act as a safety net against problems that can arise from illness, disability or death. Benefits offered to executive officers are basically those offered to other employees of the Company.

Golden Telecom, Inc. 401(k) Plan. The Company's Board of Directors has approved a 401(k) retirement savings plan (the "401(k) Plan"). The 401(k) Plan is a defined contribution retirement benefit, the prototype of which has been submitted by the Company's 401(k) Plan administrators to the Internal Revenue Service for favorable tax treatment under Section 401 of the Internal Revenue Service Code. All employees of Golden Telecom, subject to certain regulatory qualifications, who are U.S. citizens and at least 21 years of age and have completed the minimum service requirement will be eligible to participate in the 401(k) Plan. The 401(k) Plan participants will be able to defer pre-tax income by contributing to the plan up to the maximum amount permitted by law. After-tax contributions will also be permitted under the 401(k) Plan. Golden Telecom intends to match 50% of each participant's pre-tax contribution to the 401(k)

21

Plan, up to 5% of the participant's total compensation. In addition, Golden Telecom may, in its sole discretion and in a nondiscriminatory manner, contribute additional amounts as profit sharing to each participant's account. The amounts deposited into each participant's account will be invested among various investment options according to the instructions of the participant. Each participant's pre-tax and after-tax contributions will be immediately vested and non-forfeitable. The Company's matching contribution and profit sharing allocations to each participant's account will not vest until the participant has completed three years of service with Golden Telecom at which time the matching contribution and profit sharing allocations become 100% vested.

Evaluation Procedures. In determining matters regarding executive officer

Edgar Filing: GOLDEN TELECOM INC - Form DEF 14A

compensation (other than the Chief Executive Officer), the Committee, with the Chairman of the Board and Chief Executive Officer, reviews the performance of key executives including the executive officers, the respective areas of authority and responsibility of the various executive officers, and the contribution of each to the efforts of the Company in meeting its financial and strategic goals. The Committee has confirmed that the compensation paid in 2001 to the named executive officers is consistent with the Company's compensation philosophy and objectives.

Compensation of the Chief Executive Officer. On November 6, 2001 Mr. Stewart Reich resigned as President and Chief Executive Officer of the Company. Under the terms of Mr. Reich's separation agreement, he remained with the Company until February 6, 2002. Prior to his separation, Mr. Reich's annual base salary was set at \$310,008 and he was eligible for periodic bonuses throughout the year targeted, in the aggregate, to be 75% of his base salary. During 2001, Mr. Reich received \$310,008 as his base salary and \$176,216 in bonus payments. These bonus payments reflect the Company's performance in revenues, strategic development and execution, and EBITDA.

On November 6, 2001 Alexander Vinogradov was appointed as President and Chief Executive Officer of the Company. Mr. Vinogradov receives a base salary and he is eligible for periodic bonuses throughout the year targeted, in the aggregate, to be 50% of his base salary. During 2001, Mr. Vinogradov received \$37,272 as his base salary. In evaluating Mr. Vinogradov's compensation, the Committee compared the Company's compensation practices and levels to those of other companies involved in similar businesses, including but not limited to, the companies included in the indices indicated in the Performance Graph. Based on this review, the Committee determined Mr. Vinogradov's compensation to be appropriate.

Deductibility of Certain Executive Compensation. Beginning in 1994, the Omnibus Reconciliation Act of 1993 limits to \$1 million the amount that may be deducted by a publicly-held company for compensation paid to each of its named executive officers in a taxable year, unless the compensation in excess of \$1 million is "qualified performance-based compensation." The Committee and the Company design short-term and long-term compensation plans to qualify for the exemption from the deduction limitations of Section 162(m) of the Internal Revenue Code and to be consistent with providing appropriate compensation to executives. Shareholder approval of incentive compensation plans and various provisions thereunder covering the executive officers has been sought and obtained and will be sought in the future to continue to qualify performance-based compensation for the exemption. Although it is the Company's intent to qualify compensation for the exemption from the deduction limitations, the Company's compensation practices have been, and will continue to be, designed to serve the best interests of the shareholders regardless of whether specific compensation qualifies for the exemption.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Shareholders and Standstill Agreements. On May 11, 2001, Global TeleSystems, Inc. ("Global TeleSystems") completed the sale of approximately 12.2 million shares of Golden Telecom's common stock to a group of investors led by Alfa Group, a leading Russia-based financial and industrial concern, and two of the Company's previously existing major shareholders, Capital International Global Emerging Markets Private Equity Fund L.P. ("Capital") and investment funds managed by Barings Vostok Capital Partners ("Barings Vostok"). On May 11, 2001, Alfa, Capital, Barings Vostok and the Company entered into a shareholders' agreement and a standstill agreement. The Independence Committee of the Board of Directors authorized both agreements and granted its approval pursuant to Section 203(a)(1) of the Delaware General Corporate Law.

The shareholders' agreement provides that the shareholders will vote their shareholding such that no less than three but no more than four of Alfa's

Edgar Filing: GOLDEN TELECOM INC - Form DEF 14A

nominees will be elected directors to the Golden Telecom Board of Directors, the shareholders also agreed to vote their shares such that a candidate nominated by Barings Vostok and a candidate nominated by Capital International will be elected to the Board of Directors. Alfa, Capital and Barings Vostok further agreed to collectively nominate and elect an additional director. The shareholders' agreement further provides that "interested transactions" between Golden Telecom and its affiliates, on the one hand, and the signatory shareholders or any of their affiliates, on the other hand, requires the approval of a majority of the Company's independent directors, unless the transaction has been described in a business plan or a budget that had already been separately approved by the Company's independent directors. The shareholders agreement terminates on the later of (i) May 11, 2003 and (ii) the date of the annual meeting of shareholders of the Company held in calendar year 2003.

Generally, the standstill agreement provides that for a period of two years after May 11, 2001, Alfa may not acquire over 49% of the Company's outstanding stock on a fully diluted basis. Similar "standstill" provisions are applicable to Capital and Barings Vostok whereby neither of these entities shareholdings may exceed 20% of the Company's outstanding stock. The standstill agreement grants the signatory shareholders pro-rata pre-emptive rights in the event of any issuance of equity by the Company. Specifically, the Company granted to these shareholders the right to purchase any new equity securities that the Company may issue so that they may maintain their relative percentage ownership in Golden Telecom. This agreement also sets the total number of directors of the company at nine. The standstill agreement expires on May 11, 2003.

Agreements with affiliates of Alfa Telecom Limited. In the past, companies affiliated with Alfa Group have provided investment banking and corporate finance services to the Company. We expect that this relationship will continue. In particular, we engaged Alfa Bank's Corporate Finance Group to provide investment-banking services to the Company in connection with the acquisition by the Company of ZAO Cityline and its subsidiaries and paid investment banking fees of \$690,000 to Alfa Bank in connection with this acquisition. Prior to the time when companies affiliated with Alfa Telecom Limited became stockholders in the Company, we engaged Alfa Bank's Corporate Finance Group to provide investment banking services in connection with the planned acquisition by the Company of 50% stake in LLC EDN Sovintel that the Company does not already own. We have also entered into commercial arrangements in the ordinary course of business with affiliates of Alfa Telecom Limited. We believe that our arrangements with these affiliates, including arrangement with Alfa Bank's Corporate Finance Group, have been conducted on commercially reasonable terms.

Registration Rights Agreements. Golden Telecom entered into a registration rights agreement with Global TeleSystems in September 1999. In May 2001, Global TeleSystems assigned this agreement to Alfa Telecom Limited ("Alfa"), when Alfa acquired 47% of the Company from Global TeleSystems. The agreement provides that on Alfa's written request to a maximum of three times, Golden Telecom will use its reasonable best efforts to register under the applicable federal and state securities laws the resale of any of Alfa's shares of the Company's Common Stock. Alfa also has the right to include its shares of the Company's Common stock in future registrations initiated by the Company on its own behalf or on behalf of other shareholders. This right is subject to certain limitations as to whether and to what extent Alfa may request registration. Alfa will pay the out-of-pocket costs for registrations, which it initiates. The Company agreed to pay all of its out-of-pocket costs and expenses, other than underwriting discounts and commissions pertaining to shares resold by Alfa, in connection with registrations in which Alfa participates but does not initiate. In addition

Edgar Filing: GOLDEN TELECOM INC - Form DEF 14A

to the above rights, when Alfa owns less than 25% of the Company's outstanding shares of capital stock, it may request that the Company register such remaining shares in a shelf registration statement, at Alfa's expense. The registration rights agreement contains customary indemnification and contribution provisions between the Company and Alfa. The Company has substantially similar registration rights agreements with its other significant shareholders, including Capital International Global Emerging Markets Private Equity Fund L.P. and investment funds managed by Barings Vostok Capital Partners.
