Item 1.01 Entry into a Material Definitive Agreement

On July 9, 2014, Bakken Resources, Inc. (the Company) entered into an Oil and Gas Lease (the Minerals Lease) with Big Willow Properties, LLLP (Big Willow). The Minerals Lease primarily relates to the Company's leasing of approximately 9,300 net mineral acres located in the Counties of Payette, Ada and Canyon in the State of Idaho (the Property). Per acre leasing terms are not disclosed, but are subject to the completion of title confirmation. Big Willow will receive royalties (amounts undisclosed) from the gross proceeds received in connection with the production of any oil, gas, liquid or gaseous hydrocarbons produced from the Property. Big Willow also retains the right to participate as a working interest partner up to 15% in each drilled well, subject to the terms of the Minerals Lease.

The term of the Minerals Lease is for two (2) years which may be extended based on continuous drilling as further described in the Minerals Lease. The Minerals Lease requires the commencement of drilling within the initial term of the Minerals Lease as well as the completion of a seismic survey of the Property.

Prior to the sale of execution of the Minerals Lease, the Company had no prior relationship with Big Willow.

The foregoing is only a summary of the material provisions of the Minerals Lease, it may not contain all of the information that is important to you and it is qualified in its entirety by reference to a redacted version of the Minerals Lease itself, which the Company anticipates will be included in the Company's subsequent Quarterly Report on Form 10-Q.

A press release announcing this transaction is included in this Current Report on Form 8-K as Exhibit 99.1.

In addition to filing this Current Report on Form 8-K, the Company intends to file a confidential treatment request with the Securities and Exchange Commission pursuant to Rule 406 of the Securities Act of 1933, as amended, and Rule 24-b2 of the Securities Exchange Act of 1934, as amended, to obtain confidential treatment for certain portions of the Minerals Lease.
