Edgar Filing: INNOVEX INC - Form 8-K

Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Items under Sections 1, 3 through 8 are not applicable and therefore omitted.

ITEM 2.02 Results Of Operations And Financial Condition.

The Company hereby furnishes a press release issued on January 16, 2006 and attached hereto as Exhibit 99.1 disclosing material non-public information regarding the Company's results of operations for the quarter ended December 31, 2005.

The Company also furnishes a transcript of the Company's conference call which took place on January 17, 2006 at 7:30 am CST and attached hereto as Exhibit 99.2 disclosing material non-public information regarding the Company's results of operations for the quarter ended Dec. 31, 2005.

ITEM 2.05 Costs Associated with Exit or Disposal Activities

On January 10, 2006, the board of directors approved a plan to move all of the Company's prototyping and high volume manufacturing to its Asian operation over the next twelve months in order to reduce the Company's cost structure and ensure profitable future operations. The Company will divest the low volume, high density etched metal and flexible circuit manufacturing business located at its Litchfield, Minnesota manufacturing operation while retaining one Litchfield manufacturing facility for use in a development role once the products currently being manufactured in that facility reach their end of life. The restructuring charge could total up to \$13 million over the next twelve months. Included in the total are non-cash asset impairment charges of \$8.1 million that were recorded in the fiscal 2006 first quarter. The remaining expected restructuring charges will be recorded as the liabilities are incurred over the next twelve months. The additional cash related charges are expected to include severance costs of up to \$2.5 million and facility abandonment costs of up to \$2.4 million.

The Company expects annual cost savings of approximately \$8 million once the transition is complete with interim cost savings being realized as the operation dispositions are completed. Capital expenditures related to the restructuring plan will be minimal.

ITEM 2.06 Material Impairments

On January 10, 2006, the Company's board of directors approved a plan to move the Company's prototyping and high volume manufacturing to its Asian operation over the next twelve months in order to reduce the Company's cost structure and ensure profitable future operations. As a result, based on management's review of long lived assets as of December 31, 2005, it was determined that the value of the Company's Litchfield, Minnesota facilities and much of the manufacturing equipment located within those facilities was impaired. The review considered the cash flow related to the expected future use of those assets and resulted in the write down of those assets to their appraised value as discussed in Item 2.05.

ITEM 9.01 Financial Statements And Exhibits.

Exhibit No.	Description
99.1	Press Release issued January 16, 2006
99.2	Conference Call Transcript of January 17, 2006.
