and

Common Stock Issuable Upon Conversion of the Debentures

This document supplements the prospectus of Schlumberger Limited dated November 4, 2003 relating to the 1.500% Series A Convertible Debentures due June 1, 2023, the 2.125% Series B Convertible Debentures due June 1, 2023 and the shares of common stock issuable upon conversion of the debentures. The information in this prospectus supplement replaces and supersedes the information set forth under the heading Selling Securityholders in the prospectus dated November 4, 2003 and in all prior prospectus supplements to that prospectus.

Our common stock is listed on the New York Stock Exchange under the symbol SLB. On June 1, 2004, the closing sale price of our common stock as reported on the New York Stock Exchange was \$57.89 per share.

Investing in the debentures and our common stock involves risks. See Risk Factors beginning on page 6 of the prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus supplement is June 2, 2004.

SELLING SECURITYHOLDERS

We originally issued the debentures in a private placement to Citigroup Global Markets Inc. and Goldman, Sachs & Co. The debentures were resold by the initial purchasers to qualified institutional buyers within the meaning of Rule 144A under the Securities Act and outside the United States in accordance with Regulation S under the Securities Act. The selling securityholders may from time to time offer and sell, pursuant to this prospectus supplement and the accompanying prospectus, any or all of the debentures listed below and our common stock issued upon conversion of the debentures. When we refer to selling securityholders in this prospectus supplement and the accompanying prospectus, we mean those persons listed in the table below, as well as pledges, donees, assignees, transferees, successors and others who later hold any of the selling securityholders interests.

The following table sets forth certain information concerning the principal amount of debentures beneficially owned by each selling securityholder and the number of shares of common stock issuable upon conversion of the debentures that may be offered from time to time pursuant to this prospectus supplement and the accompanying prospectus. Unless set forth below, none of the selling securityholders has, or within the past three years has had, any material relationship with us or any of our predecessors or affiliates.

We have prepared the table below based on information furnished to us by the selling securityholders. However, a selling securityholder may already have or may in the future offer and sell, transfer or otherwise dispose of some or all of its debentures in transactions exempt from the registration requirements of the Securities Act without notifying us. As a result, the same debentures may be included in the table below as being held by more than one holder and, therefore, the principal amount of debentures listed below may exceed the amounts that we originally issued. In no event, however, will the total principal amount of Series A debentures and Series B debentures to be sold hereunder exceed \$975,000,000 and \$450,000,000, respectively. Further, we cannot give an estimate as to the amount of the debentures or common stock issuable upon conversion of the debentures that will be held by the selling securityholders upon the termination of this offering because the selling securityholders may offer some or all of their debentures or the underlying common stock pursuant to the offering contemplated by this prospectus supplement and the accompanying prospectus or otherwise in transactions exempt from the registration requirements of the Securities Act. Please read Plan of Distribution in the accompanying prospectus.

Information about the selling securityholders may change over time. Any changed information will be set forth in prospectus supplements from time to time, if required.

The number of shares of common stock shown in the table below assumes conversion of the full amount of debentures held by such holder at the initial conversion rate of 13.8255 shares per \$1,000 principal amount of Series A debentures and 12.5000 shares per \$1,000 principal amount of Series B debentures. These conversion rates are subject to certain adjustments. Accordingly, the number of shares of common stock issuable upon conversion of the debentures may increase or decrease from time to time. Under the terms of the indenture, fractional shares will not be issued upon conversion of the debentures. Cash will be paid instead of fractional shares, if any.
