PART I

ITEM 1 DESCRIPTION OF BUSINESS

General

Vision Bancshares, Inc. (Vision Bancshares or the Company) was organized as an Alabama corporation on July 16, 1999 and is a bank holding company under the Bank Holding Act of 1956, as amended.

Vision Bancshares, Inc. does not have any significant operations and serves primarily as the parent company for Vision Bank, its wholly owned Alabama bank subsidiary, (Vision Alabama) and Vision Bank, its wholly owned Florida bank subsidiary, (Vision Florida). Under the Bank Holding Company Act of 1956, as amended, Vision Bancshares, as a bank holding company, may engage in certain bank related businesses that Vision Alabama and Vision Florida may not conduct, although Vision Bancshares has no present plans for such activities.

Vision Alabama is a state banking corporation organized under the laws of the State of Alabama. Vision Alabama provides general retail and commercial banking services principally to customers in Baldwin County, Alabama through its six locations in Gulf Shores, Orange Beach, Point Clear, Foley, Fairhope and Elberta. Vision Alabama does not provide trust or fiduciary services, but may do so in the future. Vision Alabama opened for business on March 29, 2000.

On October 15, 2004, Vision Bancshares completed its acquisition of BankTrust of Florida, formerly Wewahitchka State Bank, located in Wewahitchka, Gulf County, Florida and changed the name of BankTrust of Florida to Vision Bank. Subsequent to the acquisition, the Company merged Vision Bank, FSB, its wholly owned federal savings bank operating since January 2003 and located in Panama City, Florida, with and into Vision Florida. The main office for Vision Florida is located in Panama City, Florida. Vision Florida provides general retail and commercial banking services principally to customers in Bay and Gulf Counties, Florida through five locations in Panama City, Panama City Beach, Wewahitchka, Port St. Joe and Port St. Joe Beach, Florida.

Vision Bancshares and its subsidiaries have 127 full-time employees and 7 part-time employees.

Forward-Looking Statements

The following discussion as well as other statements in this Form 10-KSB include forward-looking statements within the meaning of section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are not based on historical facts and may be identified by their reference to a future period or by the use of forward-looking terminology, such as anticipate, estimate, expect, may and should. We caution you not to place undue reliance on these forward-looking statements. Actual results could differ materially from those indicated in such forward-looking statements due to a variety of factors. These

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

factors include, but are not limited to, changes in economic conditions and government fiscal and monetary policies, changes in prevailing interest rates and effectiveness of the Company's interest rate strategies, laws, regulations and regulatory authorities affecting financial institutions, changes in and effectiveness of the Company's operating or expansion strategies, geographic concentration of

Table of Contents

Index to Financial Statements

the Company's assets and operations, competition from other financial services companies, unexpected financial results or outcomes of legal proceedings, the limited loan loss experience in the Company's loan portfolio, unanticipated liabilities in, and consolidation problems associated with, the Company's recent acquisition of BankTrust of Florida, and other risks detailed from time to time in the Company's press releases and filings with the Securities and Exchange Commission. We undertake no obligation to update these forward-looking statements to reflect events or circumstances occurring after the date of this Report.

Additional Information

We maintain a Website at www.visionbank.net. Among other items we make available on our Website, we provide a link to our filings with the Securities and Exchange Commission (SEC) provided on the SEC's Website, www.sec.gov.

Risks in Industry

The banking business involves risks over which management has little, if any, direct control. Some of these risks include:

Loan Losses - Making loans involves the risk that loans will not be repaid by the borrower. Vision Alabama and Vision Florida will reserve for potential loan losses, but there is no precise method of predicting loan losses and reserves could be insufficient to absorb losses.

Changes in Interest Rates - Changes in interest rates, especially increasing rates, can have a negative impact on profitability, especially if loans made at lower rates are long-term loans.

Asset/Liability Management - The profitability of Vision Alabama and Vision Florida can be affected by the spread between its interest income and interest expense. If interest expense is greater than interest income, or if interest expense increases at a rate higher than interest income, profitability could be affected negatively.

Competition

Banking is a highly competitive business. Because Vision Alabama and Vision Florida are significantly smaller than the majority of our competitors, they may lack the financial and technological resources to compete successfully. Vision Alabama and Vision Florida compete for customers and employees with banks that are more established as well as with other financial and depository institutions. Many of these institutions have much greater financial resources and experience. The banking business is becoming more dependent on technology, and many customers of banks are utilizing new ways to conduct their banking business such as through the use of personal computers and the Internet. This technology is enabling financial institutions to reach potential customers in geographic areas and in ways not previously served by these institutions. In addition, existing legislation permits banks and bank holding companies to acquire and operate securities firms, insurance companies, and other businesses in the financial services industry. This legislation may be particularly helpful to larger banks.

Table of Contents

Index to Financial Statements

Regulations

Regulatory requirements may impose additional costs on Vision Alabama and Vision Florida and adversely affect profitability. State and federal banking laws have a material effect on the business and operations of Vision Bancshares, Vision Alabama and Vision Florida. The operation of Vision Bancshares, Vision Alabama and Vision Florida are at all times subject to these laws, regulations and procedures. The purpose of those laws is to protect the financial stability of the banking system and consumer and commercial confidence in that system and is not to protect investors. Vision Bancshares is required to comply with all such laws, regulations and procedures.

Vision Bancshares is a bank holding company registered with, and subject to supervision by, the Board of Governors of the Federal Reserve System under the Bank Holding Company Act of 1956 (the BHC Act). The Federal Reserve Board may examine Vision Bancshares, Vision Alabama and Vision Florida.

Vision Alabama is a state bank organized under the laws of the State of Alabama and its deposits are insured by the Federal Deposit Insurance Corporation (FDIC) up to the maximum amount permitted by law. Vision Alabama is subject to regulation, supervision and regular examination by the Superintendent of the Alabama State Banking Department and the FDIC. Federal and state banking laws and regulations regulate, among other things, the scope of the banking business conducted by Vision Alabama, its loans and investments, reserves against deposits, mergers and acquisitions, borrowings, dividends, minimum capital requirements, and the locations of branch offices and certain facilities. The relationships of Vision Alabama with its executive officers, directors and affiliates are also the subject of statutory and regulatory requirements. A wholly-owned subsidiary of Vision Alabama is licensed to sell insurance products, including variable annuities, and is therefore subject to examination by the Alabama Department of Insurance and Alabama State Securities Commission.

Under the Alabama Banking Code, a state bank may not declare or pay a dividend in excess of 90% of the net earnings of such bank until the surplus of the bank is equal to at least 20% of its capital, and thereafter the prior written approval of the superintendent is required if the total of all dividends declared by the bank in any calendar year exceeds the total of its net earnings for that year combined with its retained net earnings for the preceding two years less any required transfers to surplus. No dividends, withdrawals or transfers may be made from the bank s surplus without prior written approval of the superintendent.

Vision Florida is organized under the laws of the State of Florida and its deposits are insured by the FDIC up to the maximum amount permitted by law. Vision Florida is subject to regulation, supervision and regular examination by the State of Florida s Office of Financial Regulation and the FDIC. Federal and state banking laws and regulations regulate, among other things, the scope of the banking business conducted by Vision Florida, its loans and investments, reserves against deposits, mergers and acquisitions, borrowings, dividends, minimum capital requirements, and the locations of branch offices and certain facilities. The relationships of Vision Florida to its executive officers, directors and affiliates are also the subject of statutory and regulatory requirements.

ITEM 2 DESCRIPTION OF PROPERTIES

Vision Alabama's primary location is 2201 West 1st Street, Gulf Shores, Alabama 36542 with branches at 25051 Canal Road, Orange Beach, Alabama 36561, 17008 Scenic Highway 98, Point Clear, Alabama 36564-9998, 501 South McKenzie Street, Foley, Alabama 36535-1817, 218 Greeno Road (US Highway 98), Fairhope, Alabama 36533 and 24989 State Street (US Highway 98), Elberta, Alabama 36530 and a loan production office at 1727 South County Road 393, Santa Rosa Beach, Florida 32459. Its phone number is (251) 967-4212. The mailing address for Vision Alabama is P.O. Box 4649, Gulf Shores, Alabama 36547.

Vision Alabama leases a building, consisting of two stories and approximately 9,600 square feet, located at 2201 West 1st Street in Gulf Shores, Alabama for its main office. The building is owned by Gulf Shores Investment Group, LLC, an entity owned by certain directors of Vision Bancshares, and leased to Vision Alabama. The site is located in the downtown area of the city, with a residential area behind Vision Alabama. Downtown Gulf Shores is a civic area and approximately two miles south is the beach, located on the Gulf of Mexico. Two strip shopping centers are within 2 miles of downtown. Highway 59 near the bank site offers access to and from the downtown district. Surrounding the bank office building are other large and small office buildings. The location is convenient to both residential areas and businesses.

Vision Alabama operates a branch located at 25051 Canal Street in Orange Beach, Alabama, approximately 10 miles east of Gulf Shores. The branch operates from the first floor of a two-story building consisting of approximately 7,000 square feet, owned by Gulf Shores Investment Group, LLC, an entity owned by certain directors of Vision Bancshares, and leased to Vision Alabama. The Mortgage Operations department of Vision Alabama occupies the second floor of this building. The property is flanked by small businesses and is located on Highway 180, a prime traffic conduit. The variety of the surrounding businesses will encourage use at diverse hours. The Orange Beach site is located next to a retail center, adjacent to a governmental authority and less than one block from Columbia Southern University.

Vision Alabama operates a branch in Point Clear, Alabama. The branch operates out of the old Point Clear Post Office at 17008 Scenic Highway 98, in Point Clear, Alabama. The building is approximately 1,200 square feet. In November 2000, Vision Bancshares entered into a lease agreement, as tenant, with independent third parties, pursuant to which Vision Alabama leased the real property on which its Point Clear Branch is located. The neighborhood surrounding the branch includes a United States Post Office, The Grand Hotel, restaurants, antique shops, small retail businesses, and real estate sales offices. Within a one mile radius of the location are primarily single-family dwellings and some low-density residential property. Point Clear is best described as a resort and retirement community with the branch located in the small business and service district of the community.

In April 2004, Vision Alabama relocated its Foley Branch to 501 South McKenzie, Foley, Alabama. The branch operates from the first floor of a three-story building consisting of approximately 10,000 square feet, owned by Magnolia Land Company, Inc., an Alabama corporation unaffiliated with the Company, and leased to Vision Alabama. This property is flanked by small retail businesses and other financial institutions. It is located on Highway 59, a

Table of Contents

Index to Financial Statements

prime traffic conduit through the heart of Foley's business district which is populated with several strip shopping centers including a large retail outlet center. The location is convenient to both residential areas and businesses. Vision Alabama's executive offices occupy the second floor and Vision Alabama's loan operations department is located on the third floor.

Vision Alabama operates a full service branch located at 24989 State Street (US Highway 98), Elberta, Alabama. The single-story building at this location consists of approximately 4,618 square feet, owned by Elberta Holdings, LLC, an Alabama limited liability corporation of which two directors of the Company are members, and leased to Vision Alabama. The branch occupies approximately 1,200 square feet of the building and Vision Alabama's operations and accounting departments occupy the remaining portion of the building. The property is situated in downtown Elberta, Alabama and is surrounded by small businesses and public facilities and is located on US Highway 98, a prime traffic conduit between Foley, Alabama and Pensacola, Florida. The location is convenient to both residential areas and businesses. Located on adjacent property at 13027 Main Street, Elberta, Alabama, is a single-story building consisting of approximately 800 square feet, also owned by Elberta Holdings, LLC and leased to Vision Alabama. This space is used by Vision Alabama to house certain operational functions.

In December 2004, Vision Alabama relocated its Fairhope office into permanent facilities at 218 Greeno Road (US Highway 98) Fairhope, Alabama. The single-story building at this location consists of approximately 5,400 total square feet owned by Forest View Apartments, Inc., an Alabama corporation unaffiliated with the Company. Vision Alabama leases approximately 4,150 square feet from which it operates the Fairhope branch. This property is situated in a professional office park under development. Within a one mile radius are several large strip shopping centers and small retail businesses located on US Highway 98, the major traffic conduit for this area. This location is convenient to both residential areas and businesses. The Insurance Center, LLC, an Alabama limited liability corporation of which a director of the Company is a member, leases the remaining 1,250 square feet of this building directly from Forest View Apartments, Inc. to operate a general insurance agency.

In March 2004, Vision Alabama established a loan production office located at 1727 South County Highway 393, Santa Rosa Beach, Florida. This property consists of a single-story professional office condominium containing approximately 1,300 square feet, owned by Leigh Rental, Inc. a third party unaffiliated with the Company, and leased to Vision Alabama. This property is surrounded by retail strip shopping centers, small retail businesses, commercial office space and low density residential areas. County Highway 393 is on a primary traffic conduit between US Highway 98 and the beach resort areas situated along Scenic Highway 30A. This area is experiencing rapid commercial and residential development.

Vision Florida's primary location is 2200 Stanford Road, Panama City, Florida 32405 with branches at 16901 Panama City Beach Parkway, Panama City Beach Florida, 32413, 125 North Highway 71, Wewahitchka, Florida, 32465, 529 Cecil G. Coston Sr. Boulevard, Port St. Joe, Florida, 32456 and 8134 West Highway 98, Port St. Joe Beach, Florida, 32456. Its primary phone number is (850) 522-4000. The mailing address for Vision Florida is P.O. Box 1848, Panama City, Florida, 32402.

Table of Contents

Index to Financial Statements

Vision Florida's main office is located at 2200 Stanford Road in Panama City, Florida. The branch operates from the first floor of a three-story building consisting of approximately 11,400 square feet, owned by Bay County Investment Group, LLC, a Florida limited liability corporation owned by certain directors of the Company and leased to Vision Florida. Vision Florida's main facility is located half a block off 2nd Street, a prime traffic conduit populated with several retail strip centers. The property surrounding this office includes other small retail businesses and some low-density residential property. Certain operation functions and the compliance department occupy the second floor of this building and executive offices are located on the third floor. Vision Bancshares was relocated to this address in February 2005.

In September 2002, the Company entered into an arrangement, as tenant, with The Shoppes At Edgewater, an unaffiliated third party, pursuant to which the Company leased approximately 1,000 square feet of commercial office space located at 559 Beckrich Road, Panama City Beach, Florida. This office space originally housed corporate offices used in the organization of the Company's Florida subsidiary. Upon opening for business in January 2003, Vision Florida assumed the lease and used this office space to house the bank's operations, accounting and compliance departments. Since relocating these departments in May 2004, this space has been renovated to house Vision Florida's full service Beckrich Road branch. The Beckrich Road branch opened in February 2005. This property is an out parcel of a strip shopping center that is situated approximately one block from the beach area. Within a one mile radius are shopping centers and small retail businesses.

Vision Florida operates a branch located at 16901 Panama City Beach Parkway, Panama City Beach, Florida, approximately 12 miles west of Vision Florida's main office. This property, consisting of a three-story building containing approximately 11,400 square feet, is owned by T. E. and Glenda E. Lee, individuals unaffiliated with the Company, and leased to Vision Florida. The branch operates from the first floor of this building while the operations and accounting departments of Vision Florida occupy the second floor of this building. The property surrounding the facility includes both small retail businesses and low-density residential property. Panama City Beach Parkway (US Highway 98) is a major artery running parallel to the Gulf Coast through the panhandle of Florida. One block west of the branch is state road 79, another main conduit bringing tourists to the area. The location is convenient to both residential areas and businesses. The third floor of the building is subleased on, an annual basis, to a local accounting firm.

Vision Florida operates a branch located at 125 North Highway 71, Wewahitchka, Florida. Owned by the bank, this property is situated in downtown Wewahitchka and consists of a single story building with approximately 7,400 square feet. The property surrounding the branch consists primarily of small retail and commercial businesses. Highway 71 is a major traffic conduit which connects Interstate 10 and US Highway 98 on the Gulf Coast. This location is convenient to both business and residential customers.

Vision Florida owns the property which houses its Port St. Joe branch located at 529 Cecil G. Coston Senior Boulevard, Port St. Joe, Florida. Operating from a single-story building with approximately 3,200 square feet, this branch is surrounded by other financial institutions, small retail businesses and residential areas. Also in the immediate area is a city park located on St. Joseph Bay. This location serves both business and residential customers.

Table of Contents

Index to Financial Statements

Vision Florida's Port St. Joe Beach branch is located at 8134 West U.S. Highway 98, Port St. Joe Beach, Florida. This facility, which is owned by Vision Florida, consists of a modular bank building with approximately 1,500 square feet. Located in close proximity to the branch are small retail businesses, low density residential properties, rental properties and public beach areas on the Gulf of Mexico.

In December 2004, the Company entered into a lease agreement, as tenant, with Sunset Promenade LLC, an unaffiliated third party, pursuant to which the Company leased approximately 1,800 square feet of retail space located at 1598 South County Highway 393, Santa Rosa Beach, Florida. This building consists of a single-story unit in a retail strip shopping center and was used to establish a full service branch office for Vision Florida. Upon the opening of this office in February 2005, the lease was assigned to Vision Florida. The property is surrounded by other retail strip shopping centers, small retail businesses, commercial office space and low density residential areas. County Highway 393 is on a primary traffic conduit between US Highway 98 and the beach resort areas situated along Scenic Highway 30A. This area is experiencing rapid commercial and residential development.

Management insures and will continue to insure its properties adequately.

As of March 15, 2005, Vision Bancshares had approximately 660 shareholders of record.

In January 2003, The Seawell Group/Morgan-Keegan and others began making a market in Vision Bancshares common stock. The Company's common stock is traded on the Over the Counter (OTC) Bulletin Board under the symbol VBAL.OB. This arrangement provides a public trading market, public price quotations of the shares, and, thus, an opportunity for shareholders to resell shares of Vision Bancshares common stock. The OTC market quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not represent actual transactions. OTC market quotations for the Company's common stock began on January 23, 2003. The following table shows information on the price of the Company's common stock:

Year 2003	High	Low	Dividends Paid
1 st Quarter	\$ 15.75	\$ 15.00	\$ 0
2 nd Quarter	\$ 16.00	\$ 15.05	\$ 0
3 rd Quarter	\$ 16.60	\$ 15.15	\$ 0
4 th Quarter	\$ 18.00	\$ 16.25	\$ 0
Year 2004	High	Low	Dividends Paid
1 st Quarter	\$ 20.25	\$ 17.10	\$ 0
2 nd Quarter	\$ 24.00	\$ 17.90	\$ 0
3 rd Quarter	\$ 23.00	\$ 20.36	\$ 0
4 th Quarter	\$ 25.00	\$ 21.75	\$ 0

As of December 31, 2004, Vision Bancshares had 374,000 shares of common stock currently subject to options under its stock option plans and an additional 76,000 shares of common stock that Vision Bancshares may grant as options under its stock option plans. Under its Employee Stock Purchase Plan, 7,720 shares of common stock had been purchased and 3,100 shares of common stock were subject to subscription at year-end 2004, leaving 4,180 additional shares of common stock that could be subscribed and issued under this plan. These shares, as well as shares issued pursuant to option exercises, could be resold under SEC Rule 144. No holders of shares of common stock or options have the right to require that Vision Bancshares undertake the registration of their shares or to include their shares in any registration statement undertaken by Vision Bancshares. The Company filed registration statements, effective October 31, 2004, on Form S-8 for the Incentive Stock Compensation Plan, the Director Stock Plan and the Employee Stock Purchase Plan. Shares issued in accordance with the plans subsequent to the registration date will not be restricted with regard to SEC Rule 144.

Table of Contents**Index to Financial Statements****Dividend Policy**

It is not likely in the near future that Vision Bancshares will generate sufficient profit to justify paying dividends. Vision Bancshares will rely on dividend payments from Vision Alabama and Vision Florida in order to provide funds for the payment of dividends to its shareholders. In addition, banking regulations restrict the payment of dividends under certain circumstances. The future dividend policy of Vision Bancshares will be subject therefore not only to banking regulations, but to the discretion of the directors, and will be contingent on the financial condition and capital requirements of Vision Alabama and Vision Florida, general business conditions and other factors. Vision Bancshares has not paid any dividends and does not expect cash dividends to be paid for the foreseeable future.

The following table summarizes certain information regarding the Company's equity compensation plans as of December 31, 2004. The underlying compensation plans, which are more fully described in Note 12 to the consolidated financial statements included in Item 7, have been previously approved by a vote of the shareholders.

Equity Compensation Plan Information

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by shareholders	374,000	\$ 13.95	76,000
Equity compensation plans not approved by shareholders			
Total	374,000	\$ 13.95	76,000

ITEM 6 MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The purpose of this discussion and analysis is to focus on significant changes in the financial condition of Vision Bancshares and its subsidiaries and on their results of operations during 2004 and 2003. Virtually all of the Company's operations are contained in its two banking subsidiaries, Vision Alabama and Vision Florida (together, the Banks). This discussion and analysis is intended to supplement and highlight information contained elsewhere in this annual report on Form 10-KSB, particularly the consolidated financial statements and related notes and the selected financial data presented elsewhere in this Report.

Table of Contents

Index to Financial Statements

OVERVIEW

Executive Summary

Vision Bancshares is a \$410 million financial institution with community banking offices, operations and team members located principally in Baldwin County, Alabama, Bay County, Florida and Gulf County, Florida. Vision Bancshares gathers substantially all of its deposits in these market areas. We use these deposits, as well as other financing sources, to fund our loan and investment portfolios. We earn interest income on our loans and investments and pay interest on customer deposits and other borrowed funds. In addition, we generate non-interest income from a number of sources including deposit and loan services, and sales of residential loans, insurance and investment products. Our principal non-interest expenses include employee compensation and benefits, occupancy and equipment related costs, technology and other administrative expenses. Our volumes and, accordingly, our financial results are affected by the economic environment, including interest rates, consumer and business confidence and spending, as well as the competitive conditions within our industry.

Our subsidiaries are community banks and our customers select Vision Bancshares for banking and other financial services based on our ability to assist them by understanding and anticipating their individual financial needs and providing excellent customer service. Our major strengths include: a stable, low cost core deposit base; diversified loan portfolio and products; strong service culture and the ability to sell multiple products to our customers resulting in higher fee based revenues; personal commitment to our local communities and high individual service to our customers. Our weaknesses have included lower than average capital ratios when compared against our peers, and we do not possess desired market share in some of our geographic markets. Management has implemented strategies to address these weaknesses. With respect to our capital position, we anticipate using such vehicles as public and private placement offerings of the Company's common stock and the issuance of trust preferred securities, as appropriate, to provide sufficient capital to support the Company's growth and expansion activities. Going forward, management also anticipates strengthening our capital ratios through the internal generation of earnings. To address the weakness in our position in certain markets, Vision Bancshares plans to develop and construct new community banking offices to increase our market position and plan to open additional branches in 2005. The ability to grow through acquisition or otherwise is significantly dependent upon our capital levels.

For the year ended December 31, 2004, we reported consolidated net income of \$1,189 thousand compared to consolidated net loss of \$251 thousand for the year ended December 31, 2003. The Company had earnings of \$0.43 and \$0.42 per share on basic and diluted basis, respectively, for the year 2004 versus a loss per share of \$0.13 on both a basic and diluted basis for the year 2003. Our net interest margin was under some pressure during most of 2004 as a result of the asset sensitive position of our balance sheet and the low interest rate environment. However, the declines in the yields on adjustable rate loans were mitigated by contractual interest rate floors on many of these loans. The increase in net interest income was driven by the increase in earning assets that were funded, in part, with low cost core deposits. Fee income reached record levels in 2004 as a result of our growth. Our provision for loan losses increased primarily due to the growth of our loan portfolio. Our operating expense as a percentage of average assets declined from the year ended 2003 as compared to 2004. See Results of Operations below for more details as to the factors, which affect year-over-year performance.

Index to Financial Statements

Critical Accounting Estimates

Vision Bancshares prepares its financial statements in accordance with accounting principles generally accepted in the United States. Note 2 to the consolidated financial statements discusses certain accounting principles and methods of applying those principles that are particularly important to this process. In applying these principles to determine the amounts and other disclosures that are presented in the financial statements and discussed in this section, the Company is required to make estimates and assumptions.

Allowance for Loan Losses

Vision Bancshares believes that the determination of its estimates of the allowance for loan losses involves a higher degree of judgment and complexity than its application of other significant accounting policies. Although management uses available information to recognize losses on loans, because of uncertainties associated with local economic conditions, collateral values, and future cash flows on impaired loans, it is reasonably possible that changes can occur in the allowance for loan losses. However, the amount of the change that is reasonably possible cannot be estimated. Factors considered in this determination and the processes used by management are discussed in Note 2 to the consolidated financial statements. Also, see our discussion of Loans and Allowance for Loan Losses practices below.

Goodwill and Other Intangible Assets

Goodwill represents the excess of cost over the fair value of the net assets purchased in a business combination. Goodwill is required to be tested annually for impairment or whenever events occur that may indicate that the recoverability of the carrying amount is not probable. In the event of impairment, the amount by which the carrying amount exceeds the fair value would be charged to earnings.

Vision Alabama performed its annual test of impairment in the third quarter and determined that there was no impairment in the carrying value of goodwill. Goodwill amounting to \$125 thousand has been allocated to the Vision Alabama operating unit. There has been no impairment of goodwill since the date of acquisition.

As a result of the acquisition of BankTrust of Florida and subsequent merger of Vision Bank, FSB, goodwill amounting to \$3,311 thousand and a core deposit intangible of \$577 thousand was allocated to the Vision Florida's operating unit. At December 31, 2004, the core deposit intangible was \$563 thousand.

Intangible assets consist of core deposit premiums acquired in connection with the business combinations. The core deposit premium is initially recognized based on a valuation performed as of the consummation date. The core deposit premium is amortized over the average remaining life of the acquired customer deposits, or five to eight years. Amortization periods are reviewed annually in connection with the annual impairment testing of goodwill.

Table of Contents**Index to Financial Statements****CURRENT INTEREST RATE ENVIRONMENT**

Net interest income represents the majority of the Company's revenues. Accordingly, the interest rate environment has a substantial impact on Vision Bancshares' earnings. The Company currently has an asset sensitive balance sheet. An institution that maintains an asset sensitive balance sheet generally experiences reduced net interest income in a low or declining interest rate environment, while earnings are enhanced in an increasing interest rate cycle. The rise in the interest rate environment during the last half of 2004 had a favorable impact on our margin and Vision Bancshares would expect to benefit from any substantial increase in interest rates if they occur, in 2005. The impact of a low and declining interest rate environment in 2003 and 2002 were mitigated in part by our growth and the rate floors on many of our loans. See our discussion of Asset and Liability Management practices below, including the estimated impact of changes in interest rates on Vision Bancshares net interest income.

FINANCIAL CONDITION**Interest-Earning Assets**

In banking, the predominant interest-earning assets are loans and investment securities. The proportion of interest earning assets to total assets measures the effectiveness of management's efforts to invest available funds into the most profitable interest-earning assets. An overview of the interest-earning assets follows:

COMPOSITION OF INTEREST-EARNING ASSETS

(dollars in thousands)	December 31,					
	2004		2003		2002	
	Average Balance	Percent of Total	Average Balance	Percent of Total	Average Balance	Percent of Total
Loans net of unearned income (1)	\$ 243,420	82.7%	\$ 142,869	86.4%	\$ 95,040	83.8%
Available for sale securities (2)	21,756	7.4%	12,592	7.6%	13,550	12.0%
Other interest-earning assets	29,081	9.9%	9,948	6.0%	4,795	4.2%
Total	\$ 294,257	100.0%	\$ 165,409	100.0%	\$ 113,385	100.0%

(1) Includes loans held for sale

(2) Available for sale securities excludes adjustment for market valuation and certain noninterest-earning marketable equity securities

Loans and Allowance for Loan Losses

Total loans, net of unearned (excluding loans held for sale) increased 97.43%, or \$170,261 thousand, from year-end 2003, and the prior year total was up 60.50%, or \$65,869 thousand, from the end of 2002. Average loans for 2004 were 70.38%, or \$100,551 thousand, above the prior year's level. This growth in total loans outstanding during 2004 resulted from continued loan demand for Vision Alabama and Vision Florida and from the acquisition of BankTrust of Florida. The growth reflects new customer development and increased economic activity along the Gulf Coast.

Table of Contents**Index to Financial Statements**

The following table, which is based on regulatory reporting codes, shows loan balances at December 31, 2004 and 2003, respectively.

LOANS OUTSTANDING BY TYPE

(dollars in thousands)	December 31			
	2004		2003	
Commercial and financial	\$ 49,201	14%	\$ 85,541	49%
Agricultural	65	0%	25	0%
Consumer	10,384	3%	9,506	5%
Equity lines	13,093	4%	5,611	3%
Real estate - Construction	140,749	41%	27,044	15%
Real estate - Residential	72,339	21%	24,719	14%
Real estate - Commercial and other	59,371	17%	21,719	12%
Other loans	931	0%	871	0%
	346,133	100%	175,036	100%
Unearned income	(1,127)	0%	(291)	0%
	345,006	100%	174,745	100%
Allowance for loan losses	(4,565)	-1%	(2,072)	-1%
Loans, net	\$ 340,441	99%	\$ 172,673	99%
Loans held for sale	\$ 1,254		\$	

The portfolio of commercial loans, other than those secured by real property, decreased by \$36,340 thousand, or 42.48%, from year-end 2003 as the loan portfolio continued to shift to loans secured by real estate. Included in the commercial loan category are loans to individuals, generally secured by collateral other than real estate, that are used to fund investments in new or expanded business opportunities. The rate of commercial loan growth in 2005 will depend on the Company's ability to take advantage of competitive circumstances to attract new business in established markets and to develop customers in our newest market areas.

Commercial real estate lending, which includes loans secured by properties used in commercial or industrial operations, increased \$37,652 thousand, or 173.36%, compared to year-end 2003. The Banks have been able to develop new business in a competitive market. Furthermore, a portion of the increase is due to the acquisition of BankTrust of Florida.

Our growth in residential construction lending in our Gulf Coast communities was the primary reason for the \$113,705 thousand, or 420.44%, increase in our real estate construction loans during 2004.

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

Residential real estate loans to individuals, increased \$47,620 thousand, or 192.65%, from the end of 2003 partly due to the growth in the origination of variable rate mortgage loans and the acquisition of BankTrust of Florida. The Company has a strategy of selling its fixed rate residential first mortgage loans in the secondary market.

Total real estate loans, as a percentage of the total loan portfolio, increased throughout the year and represented approximately 78.72% of the total portfolio at year-end 2004. To manage the Company's exposure, Vision Alabama and Vision Florida have established internal limits with regard to the maximum number and dollar amount of loans to any one borrower and in any one geographic location or development. Borrowers are also required to invest sufficient cash to maintain adequate loan-to-value ratios.

Table of Contents**Index to Financial Statements**

Loans to individuals include various consumer installment and credit line loan products other than retail mortgage loan products. The 9.24%, or \$878 thousand, increase in 2004 from the prior year reflected the general growth of the Company. Loans to individuals continue to be a small share of our loan portfolio.

Total loans as of December 31, 2004 are shown in the following table according to maturity or repricing.

LOANS MATURITIES

	(Dollars in thousands)
One year or less	\$ 285,974
After one year through five years	48,109
After five years	12,050
	<u>\$ 346,133</u>

Approximately 70.21% of the value of loans with a maturity greater than one year bears a fixed rate of interest.

Each loan carries a degree of credit risk. Management's evaluation of this risk is ultimately reflected in the estimate of probable loan losses that is reported in the Company's financial statements as the allowance for loan losses. Changes in this ongoing evaluation over time are reflected in the provision for loan losses charged to operating expense.

At December 31, 2004, the reserve for possible loan losses was \$4,565 thousand, or 1.32% of total loans, compared to \$2,072 thousand, or 1.19% of total loans at the end of 2003. This increase is due to the growth in the loan portfolio. The increase in reserves is to protect against any unforeseen possible losses due to the unseasoned nature of the portfolio in Vision Florida's Bay County market, the recent acquisition of BankTrust of Florida and the potential economic impact of hurricane Ivan in the Vision Alabama market area. The loan loss percentage will most likely decrease during the year 2005 as we see the effect of these events. The following table shows the activity in the reserve for possible loan losses over the past two years.

Table of Contents**Index to Financial Statements****SUMMARY OF ACTIVITY IN THE ALLOWANCE FOR LOAN LOSSES**

<i>(dollars in thousands)</i>	December 31,				
	2004	2003	2002	2001	2000

Allowance for loan losses to loans at end of year (1)	1.32%	1.19%	1.28%	1.30%	1.21%

(1) Excludes loans held for sale

In making its risk evaluation and establishing an allowance level that it believes is adequate to absorb probable losses in the portfolio, management considers various sources of information. Some of the more important sources include management's ongoing review of the loan portfolio, which is undertaken both to ascertain whether there are probable losses, which must be charged off, and to assess the risk characteristics of the portfolio in the aggregate. This review takes into consideration the judgments of the responsible lending officers and senior management, and also those of bank regulatory agencies that review the loan portfolio as part of the regular bank examination process. Finally, Vision Bancshares engages internal and external credit reviewers to perform independent reviews of the risk management process, adequacy of loan documentation and the risk ratings and appropriateness of the level of Allowance for Loan Losses. The results of such examinations are reported to the Audit Committee of the Board of Directors. Loans identified as having increased credit risk are classified in accordance with the Company's loan policy and appropriate reserves are established for each loan classification category based on pre-determined reserve percentages. Due to limited loan loss experience, reserves are established for the remaining unclassified portion of the loan portfolio based on a predetermined factor established by management.

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

In evaluating the allowance, management also considers the historical loan loss experience of the Company, the amount of past due and nonperforming loans, current and anticipated economic conditions, lender requirements and other appropriate information.

Table of Contents**Index to Financial Statements**

Management allocated the allowance for loan losses to specific loan classes, as of the dates indicated, as follows:

ALLOCATION OF THE RESERVE FOR POSSIBLE LOAN LOSSES

	December 31,									
	2004		2003		2002		2001		2000	
	Loans	Reserve	Loans	Reserve	Loans	Reserve	Loans	Reserve	Loans	Reserve
Commercial, financial and agricultural	\$ 3,786	82.9%	\$ 1,747	84.3%	\$ 1,005	72.3%	\$ 385	38.0%	\$	0.0%
Real estate loans	251	5.5%	48	2.3%	75	5.4%		0.0%		0.0%
Loans to individuals	528	11.6%	277	13.4%	310	22.3%	628	62.0%	396	100.0%
Total	\$ 4,565	100.0%	\$ 2,072	100.0%	\$ 1,390	100.0%	\$ 1,013	100.0%	\$ 396	100.0%

Management believes that the allowance for loan losses at December 31, 2004 is adequate to absorb known risks in the Company's loan portfolio based upon the Company's historical experience. No assurance can be given, however, that increased loan volume, adverse economic conditions or other circumstances will not result in increased losses in the Company's loan portfolio or additional provisions to the allowance for loan losses.

Nonperforming Assets

Management closely monitors loans and other assets that are classified as nonperforming assets. Nonperforming assets consist of nonperforming loans (loans classified as nonaccrual or renegotiated and loans past due 90 days or more for which interest is still being accrued) and foreclosed assets (foreclosed properties and repossessions). There have been no significant trends related to industries or markets underlying the changes in nonperforming assets and management is aware of no factors which should suggest that they are prone to significant increases in 2005. There were no commitments to lend any additional funds on nonaccrual or renegotiated loans at December 31, 2004. The following table provides information on nonperforming assets for each year in the three-year period ended December 31, 2004.

NONPERFORMING ASSETS

(dollars in thousands)	December 31,				
	2004	2003	2002	2001	2000
Nonaccrual loans	\$ 1,920	\$ 458	\$ 306	\$ 286	\$

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

Restructured loans

Total nonperforming loans	1,920	458	306	286	
Foreclosed properties	452		606	1,017	
Repossessions	3		87	24	
Total nonperforming assets	\$ 2,375	\$ 458	\$ 999	\$ 1,327	\$
Accruing loans 90 days past due	\$	\$	\$	\$	\$
Ratios					
Loan loss allowance to nonperforming loans	237.76%	452.40%	454.25%	354.20%	0.00%
Nonperforming loans to total loans, net of unearned interest	0.56%	0.26%	0.28%	0.38%	0.00%
Nonperforming assets to total assets	0.58%	0.22%	0.71%	1.36%	0.00%

At December 31, 2004, the Company's recorded investment in loans considered to be impaired was \$1,523 thousand of which all related to loans on non-accrual status. At December 31, 2003, the Company's recorded investment in loans considered to be impaired was \$43 thousand of which all related to loans on non-accrual status. The substantial increase in

Table of Contents**Index to Financial Statements**

nonaccrual loans during 2004 is primarily related to one commercial credit which is also considered an impaired loan. Management monitors this credit on a continued basis and believes the Company has adequately reserved to absorb any potential losses associated with this loan. The related valuation allowance for impaired loans, included as a component of the allowance for loan losses, was \$967 thousand, and \$43 thousand at December 31, 2004 and 2003, respectively. No interest income was recognized on impaired loans for the year ended December 31, 2004 and approximately \$1 thousand of interest income was recognized on impaired loans for the year ended December 31, 2003.

The difference between the gross interest income that would have been recorded in each period if nonaccruing loans had been current in accordance with their original terms and the amount of interest income on those loans that was included in each period's net income was approximately \$139 thousand for 2004 and \$32 thousand for 2003.

There were no concentrations of loans exceeding 10% of total loans, which are not otherwise disclosed as a category of loans at December 31, 2004 or the preceding years.

It is the general policy of the Banks to stop accruing interest income and place the recognition of interest on a cash basis when any commercial, industrial or real estate loan is past due as to principal or interest and the ultimate collection of either is in doubt. Accrual of interest income on consumer installment loans is suspended when any payment of principal or interest, or both, is more than 90 days delinquent. When a loan is placed on a nonaccrual basis any interest previously accrued but not collected is reversed against current income unless the collateral for the loan is sufficient to cover the accrued interest or a guarantor assures payment of interest.

Investment Portfolio

The carrying amount of investment securities at the end of each of the last two years are set forth in the following table.

INVESTMENT PORTFOLIO

(dollars in thousands)	December 31,	
	2004	2003
U.S. government and agency securities	\$ 6,492	\$ 4,532
Mortgage-backed securities	20,002	9,859
State and municipal securities		
Equity securities	1,033	417
	\$ 27,527	\$ 14,808

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

The composition of the Company's investment securities portfolio reflects the Company's investment strategy of maximizing portfolio yields subject to risk and liquidity considerations. The primary objectives of the Company's investment strategy are to maintain an appropriate level of liquidity and provide a tool to assist in controlling the Company's interest rate position while at the same time producing adequate levels of interest income. Vision Bancshares classifies its debt and equity securities as either held to maturity (HTM), available for sale (AFS) or trading securities. The Company's entire portfolio is classified as AFS securities to appropriately reflect the nature of the Company's holdings that are available for sale should liquidity needs dictate. AFS securities are carried at market value with unrealized gains or

Table of Contents**Index to Financial Statements**

losses, net of deferred taxes, reported in accumulated other comprehensive income within shareholder's equity. Management of the maturity of the portfolio is necessary to provide liquidity and to control interest rate risk.

The following table shows the maturities of investment securities (excluding equity securities) and weighted average yields at December 31, 2004. No taxable equivalent adjustments are required because the Company had no tax-exempt obligations during 2004 and 2003.

INVESTMENT PORTFOLIO MATURITY SCHEDULE

(dollars in thousands)	December 31, 2004							
	Within		After One but		After Five but		After	
	One Year		Within Five Years		Within Ten Years		Ten Years	
	Amount	Yield	Amount	Yield	Amount	Yield	Amount	Yield
Securities-All Available for Sale:								
U.S. Government agencies	\$	0.00%	\$ 4,491	3.50%	\$ 2,002	5.10%	\$	0.00%
Mortgage-backed securities			4,048	3.56%	8,976	3.64%	6,977	4.79%
Total	\$	0.00%	\$ 8,539	3.11%	\$ 10,978	8.74%	\$ 6,977	4.79%

The average maturity of the investment portfolio was 4.05 years at year-end 2004 compared to 6.33 years at year-end 2003 with an average tax equivalent yield of 4.03% and 3.22% at December 31, 2004 and 2003, respectively. Mortgage-backed securities have been included in the maturity table based upon the stated maturity of each security.

At December 31, 2004, gross unrealized gains in the portfolio were approximately \$29 thousand compared to \$37 thousand at December 31, 2003. The unrealized losses at December 31, 2004 were \$166 thousand compared to \$29 thousand at December 31, 2003. These fluctuations in the gross unrealized gains and losses in the Company's investment portfolio resulted primarily from the reaction of the investment securities to changes in market interest rates.

Mortgage-backed securities have varying degrees of risk of impairment of principal, as opposed to U.S. Treasury and U.S. government agency obligations, which are considered to contain virtually no default or prepayment risk. Impairment risk is primarily associated with accelerated prepayments, particularly with respect to longer maturities purchased at a premium and interest-only strip securities. The Company's mortgage-backed securities portfolio as of December 31, 2004 and 2003 contained no interest-only strips and the amount of unamortized premium on mortgage-backed securities at December 31, 2004 was \$407 thousand, compared to \$221 thousand at December 31, 2003. The recoverability of the Company's investment in mortgage-backed securities is reviewed periodically by management, and if necessary, appropriate adjustments would be made to income for impaired values.

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

Average federal funds sold increased \$19,127 thousand or 197.10% to \$28,831 thousand at December 31, 2004 from \$9,704 thousands at December 31, 2003. These fluctuations resulted from ordinary increases and decreases in loan demand and the level of deposit balances. A primary contributing factor to this increase resulted from the proceeds received in the Company's Private placement stock offering which closed in April 2004. As a percentage of average earning assets, these funds represented 9.80% for 2004, compared to 5.87% for 2003.

Table of Contents**Index to Financial Statements****Deposits**

Vision Bancshares' primary source of funds is its deposits. Continued enhancement of existing products, emphasis upon better customer service and expansion into new market areas have fueled the growth in the Company's deposit base. Emphasis has been placed upon attracting both commercial and consumer deposits. It is the Company's intent to expand its deposit base in order to continue to fund asset growth.

At December 31, 2004, deposits were 95.07%, or \$170,611 thousand, above the level at December 31, 2003. Average deposits were up 78.22%, or \$116,304 thousand. This significant increase in total deposits resulted as the Company placed emphasis on new business development and offered competitive rates to attract new deposits in 2004, coupled with the expansion of a new branch in Elberta, Alabama and the opening of the permanent facility of the branches in Fairhope, Alabama and Foley, Alabama. In addition the acquisition of BankTrust of Florida contributed to the growth in deposits.

The following table presents the average amounts outstanding and the average rates paid for each of the major classifications of deposits for the 12-month periods ending December 31, 2004 and 2003:

AVERAGE DEPOSIT BALANCES AND RATE PAID

(dollars in thousands)	2004		2003	
	Average balance	Average rate paid	Average balance	Average rate paid
Noninterest-bearing demand	\$ 44,161	0.00%	\$ 20,474	0.00%
Interest-bearing demand	53,254	1.33%	25,463	1.35%
Savings and Money Market Deposit accounts	54,167	1.14%	36,057	1.31%
Time	113,408	3.14%	66,692	3.68%
Total (1)	\$ 264,990	2.21%	\$ 148,686	2.55%

(1) The rate paid on total average deposits represents the rate paid on total average interest-bearing deposits only.

Average noninterest-bearing deposits grew 115.69% in 2004 compared to 98.16% in 2003. Non-interest-bearing deposits continue to be a significant funding source for Vision Bancshares, accounting for 16.67% of average total deposits in 2004 and 13.77% in 2003.

Total interest-bearing deposits grew 84.05%, or \$130,444 thousand, between year-end 2003 and the most recent year end. On average, total interest-bearing deposits during 2004 were up 72.24%, or \$92,617 thousand, in 2004 compared to 2003. The savings account category, which includes money market deposit accounts, increased 138.18%, or \$44,763 thousand, during 2004, and was up 50.23% on average from the prior year.

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

Total time deposits increased 74.81%, or \$61,113 thousand, from the end of 2003, and were up 70.05% on average in 2004 compared to the prior year. Time deposits of \$100,000 or more grew 82.53% in 2004 and 57.43% in 2003. Certificates of deposits of less than \$100,000 increased 67.01% in 2004 primarily due to the Company's efforts to attract new deposits in existing markets and its expansion into new markets. The Company had \$4,000 thousand and \$2,000 thousand in time deposit open accounts at December 31, 2004 and 2003, respectively.

Table of Contents**Index to Financial Statements**

The following table presents the maturities of the larger time deposits of \$100,000 or more at December 31, 2004:

MATURITIES OF LARGE TIME DEPOSITS

(dollars in thousands)	December 31, 2004		
	Time Certificates of Deposit	Other Time Deposits	Total
Three months or less	\$ 10,316	\$ 4,000	\$ 14,316
Over three through six months	5,516		5,516
Over six through twelve months	6,815		6,815
Over twelve months	44,517		44,517
	\$ 67,164	\$ 4,000	\$ 71,164

Borrowed Funds

The Company has used borrowed funds on a limited basis as a source of funding asset growth in excess of deposit growth and for short-term liquidity needs. The mixture of borrowed funds and deposits as sources of funds depends on the relative availability and costs of those funds and Vision Bancshares' need for funding.

At December 31, 2004, Vision Bancshares had \$12,361 thousand in an available credit line with the Federal Home Loan Bank and an additional \$21,100 thousand in unsecured Fed Funds lines of credit available with four correspondent banks.

(balance of page intentionally left blank)

Table of Contents**Index to Financial Statements**

The following table sets forth, for the periods indicated, certain information about the Company's borrowings:

OTHER BORROWINGS

	December 31,	
	2004	2003
<i>(dollars in thousands)</i>		
Federal Home Loan Bank - Atlanta, maturing in 2005 bearing interest indexed to three (3) month LIBOR, collateralized by Vision Bank-Alabama's 1-4 family first mortgage loans. (The interest rate was 2.630% and 1.235% at December 31, 2004 and 2003, respectively)	\$ 4,000	\$ 4,000

As with most community banks, loan volume is the driver for our balance sheet. Since our loan volume has been up, Vision Bancshares made a long-term advance of \$5,000 thousand from FHLB in 2004. These funds were utilized to fund the growth in the loan areas.

Liquidity Management

Liquidity is defined as the ability of a company to convert assets into cash or cash equivalents without significant loss. Liquidity management involves maintaining the Company's ability to meet the day-to-day cash flow requirements of Vision Bancshares' customers, whether they are depositors wishing to withdraw funds or borrowers requiring funds to meet their credit needs. Without proper liquidity management, the Company would not be able to perform the primary function of a financial intermediary and would, therefore, not be able to meet the production and growth needs of the communities it serves.

The primary function of asset and liability management is not only to assure adequate liquidity in order for the Company to meet the needs of its customer base, but to maintain an appropriate balance between interest-sensitive assets and interest-sensitive liabilities so that the Company can also meet the investment objectives of its shareholders. Daily monitoring of the sources and uses of funds is necessary to maintain an acceptable cash position that meets both its customers' needs and its shareholders' objectives. In a banking environment, both assets and liabilities are considered sources of liquidity funding and both are, therefore, monitored on a daily basis. Payment of dividends by the Company is at the discretion of the Company's Board of Directors, and is dependent upon, among other things, the Company's earnings, financial condition and capital ratios.

Proceeds from the sale of stock and dividends paid by the Banks are the primary source of funds available to the Company for payment of operating expenses and dividends to its shareholders. The Board of Directors has not declared or paid a dividend during the past five years. Vision Bancshares has not and will not likely generate any significant earnings on its own and will depend upon the payment of dividends by the Banks, if it is to pay dividends on its common stock. It is expected that for at least the next year of operation for the Banks, all earnings will be retained by the Banks for their future needs. State and federal banking laws restrict the payment of dividends by the Banks.

The asset portion of the balance sheet provides liquidity primarily through loan principal repayments or sales, maturities, calls and pay downs of investment securities. Loans that mature in one year or less totaled approximately \$285,974 thousand, or 82.59% of loans, net of unearned income, at December 31, 2004. The Company does not have any investment securities with stated maturities of one year or less at December 31, 2004. However, 72.66% of the Company's investment portfolio is in mortgage backed securities on which the Company receives regular monthly paydown. Other sources of liquidity include cash on deposit with other banks and short-term investments such as federal funds sold.

The liability portion of the balance sheet provides liquidity through various customers' interest-bearing and noninterest-bearing deposit accounts. Funds are also available through the purchase of federal funds from other commercial banks. As a member of the Federal Home Loan Bank (FHLB) of Atlanta, Vision Alabama also has access to various credit programs to assist with liquidity needs. Liquidity management involves the daily monitoring of the sources and uses of funds to maintain an acceptable Company cash position.

At December 31, 2004, the Company had \$503 thousand in binding commitments for capital expenditures.

Table of Contents**Index to Financial Statements****Asset/Liability Management**

The objective of the Company's asset/liability management is to implement strategies for the funding and deployment of its financial resources that are expected to maximize soundness and profitability over time at acceptable levels of risk.

Interest rate sensitivity is the potential impact of changing rate environment on both net interest income and cash flows. Management monitors its interest rate risk exposure through the use of a Static Gap analysis, Interest Rate Shock analysis, and monitoring the economic value of equity.

The static gap analysis measures the amount of repricing risk embedded in the balance sheet at a specific point in time, by comparing the difference in the volume of interest-earning assets and interest-bearing liabilities that are subject to repricing within specific time periods. At December 31, 2004, the Company was asset sensitive, indicating that it had more interest-bearing assets than interest-earning liabilities repricing during the twelve months ending December 31, 2004.

The following table sets forth the Company's maturity and repricing exposure at December 31, 2004 for the time frames presented:

INTEREST RATE SENSITIVITY

	By Maturity or Repricing Dates at December 31, 2004				
	Zero to Three Months	Three Months to One Year	One Year To Five Years	Over Five Years	Total
<i>(dollars in thousands)</i>					
EARNING ASSETS					
Federal Funds sold and interest-bearing deposits in banks	\$ 8,108				\$ 8,108
Investment securities	1,345	3,521	15,565	7,096	27,527
Loans	258,034	27,941	48,109	12,050	346,133
Total interest earning assets	267,487	31,462	63,674	19,146	381,768
INTEREST-BEARING LIABILITIES					
Interest-bearing demand deposits	65,674				65,674
Savings and money market	77,157				77,157
Certificates of deposits	19,434	47,098	72,236	38	138,805
Time open deposit accounts	4,000				4,000
Total interest-bearing liabilities	166,265	47,098	72,236	38	285,636

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

Interest rate sensitivity gap	\$ 101,222	\$ (15,636)	\$ (8,562)	\$ 19,108	\$ 96,132
Cumulative interest rate sensitivity gap	\$ 101,222	\$ 85,586	\$ 77,024	\$ 96,132	
Interest rate sensitivity gap ratio	1.61	0.67	0.88	503.84	
Cumulative interest rate sensitivity gap ratio	1.61	1.40	1.27	1.34	

The interest rate shock analysis measures the impact on the Company's net interest income as a result of an immediate and sustained shift in interest rates. The movements in market rates are based on statistical regression analyses while management makes assumptions concerning balance sheet growth and the magnitude of interest rate movements for certain interest-earning assets and interest-bearing liabilities. Using actual maturity and repricing opportunities of the Company's portfolio, in conjunction with management's assumptions, a rate shock analysis is performed using a plus 200 basis points shift and a minus 200 basis points shift in interest rates. The Company's Assets/Liability Policy limits have established a change of not

Table of Contents**Index to Financial Statements**

more than +/- 15% in net interest income using a +/- 200 basis points shock. At December 31, 2004, the change in net interest income, over the next 12 months, using a 200 basis points downward shift in interest rates was within policy limits at -10.84%, indicating the negative impact due to such change would be less than anticipated. A 200 basis point upward shift in interest rates, for this same time period, exceeded policy limits at 19.56%, indicating that the positive change in net interest income would exceed expectations.

The following table estimates the impact of shifts in interest rates on the Company's net interest income for the 12 months ending December 31, 2004:

RATE SHOCK ANALYSIS

<i>(dollars in thousands)</i>	-200 Basis Points	Stable Rates	+200 Basis Points
Interest income	\$ 24,553	\$ 27,345	\$ 34,015
Interest expense	7,271	7,963	10,841
Net interest income	\$ 17,282	\$ 19,382	\$ 23,174
Dollar change from level	\$ (2,100)		\$ 3,792
Percentage change from level	(10.83)%		19.56%

Changes in interest rates also have an impact on the value of the Company's equity. Applying the same interest rate scenarios used in the Rate Shock Analysis, a measurement is made as to the impact of these changes on the economic value of the Company's equity. At December 31, 2004 the Company's net portfolio value (the difference between the market value of assets and liabilities) was 16.56% of total assets. This percentage increases to 21.98% in response to a 200 basis point rise in interest rates and declines to 10.21% under the 200 basis points decrease in interest rates. This volatility is typical when trying to reduce earnings at risk.

While movement of interest rates cannot be predicted with any certainty, management believes that the Company's current interest rate sensitivity analysis fairly reflects its interest rate risk exposure during the twelve months ending December 31, 2004. Management continually evaluates the condition of the economy, the pattern of market interest rates and other economic data to determine the types of investments that should be made and at what maturities.

Shareholders' Equity and Capital Adequacy

At December 31, 2004, shareholder's equity totaled \$40,796 thousand compared to \$21,147 thousand at the end of 2003. This was a growth of \$19,649 thousand, or 92.92%, and approximately \$18,423 thousand was attributable to the issuance of additional common stock. In addition, the Company had net income of \$1,189 thousand and a decrease of \$91 thousand in accumulated other comprehensive income. Stock owned by and stock receivables from related VIEs decreased by \$128 thousand due to pay downs on the debt secured by Company stock (see Note 9 to the consolidated financial statements and the above section on Borrowings.)

Table of Contents**Index to Financial Statements**

On March 9, 2004, the Company commenced a private placement stock offering in which it issued 1,132,353 shares of common stock, at a price of \$17.00 per share. This offer closed on April 9, 2004 after being fully subscribed. The Company raised \$19,250 thousand in proceeds before payment of commissions and expenses. Of total shares subscribed, 886,472 shares were funded and \$15,070 thousand disbursed from escrow as of March 31, 2004. The remaining 245,881 shares were funded and \$4,180 thousand was disbursed from escrow as of April 9, 2004.

The ratios in the following table indicate that the Company remained well capitalized at December 31, 2004.

RISK-BASED CAPITAL AND CAPITAL RATIOS

(dollars in thousands)	December 31,	
	2004	2003
Tier 1 regulatory capital	\$ 36,883	\$ 21,016
Tier 2 regulatory capital	4,565	2,072
Total regulatory capital	\$ 41,448	\$ 23,088
Risk-weighted assets	\$ 376,590	\$ 198,395
Ratios		
Leverage ratio (Tier 1 capital to average assets)	10.09%	10.65%
Tier 1 capital to risk-weighted assets	9.79%	10.59%
Total capital to risk-weighted assets	11.01%	11.64%

A strong capital position is vital to the continued profitability of the Company because it promotes depositor and shareholder confidence and provides a solid foundation for future growth of the organization. Bank regulatory authorities have issued risk-based capital guidelines that take into consideration risk factors associated with various categories of assets, both on and off the balance sheet. The primary quantitative measures used by regulators to gauge capital adequacy are the ratio of Tier 1 regulatory capital to average total assets, also known as the leverage ratio, and the ratios of total and Tier 1 regulatory capital to risk-weighted assets. The regulators define the components and computation of each of these ratios. The minimum capital ratios for both the Company and the Banks are generally 4% leverage, 8% total capital and 4% Tier 1 capital. However, regulators may set higher capital requirements for an individual institution when particular circumstances warrant.

Under the regulatory framework for prompt corrective action, the capital levels of banks are categorized into one of five classifications ranging from well-capitalized to critically under-capitalized. For an institution to qualify as well-capitalized, its total capital, Tier 1 capital and leverage ratios must be at least 10%, 6% and 5%, respectively. Maintaining capital ratios at the well-capitalized levels avoids certain restrictions that, for example, could impact the FDIC insurance premium rate. As of December 31, 2004 and 2003, the Company's bank subsidiaries were categorized as well-capitalized. Due to rapid growth, Vision Alabama experienced periods during 2004 in which its total capital fell below the regulatory well capitalized minimum of 10%; however, the Bank was not below the regulatory well capitalized minimum at any quarter end in 2004. In the cases where the levels fell below the regulatory well capitalized minimum, the Company injected additional capital to keep its subsidiary from operating below the well-capitalized level for more than two consecutive quarters.

Table of Contents**Index to Financial Statements**

As a result of the recent acquisition and merger, Vision Florida agreed with the Florida banking regulators to maintain a minimum Tier I Leverage capital ratio of 8.00% for a period of two years following the merger. As a condition of the recent branch approvals, Vision Alabama has agreed with the Alabama State Banking Department to maintain a minimum Tier I leverage capital ratio of 7.00%.

The following rate of return information for the periods indicated is presented below.

RETURN ON EQUITY AND ASSETS

	December 31,	
	2004	2003
Return on average assets	0.38%	(0.14)%
Return on average equity	3.28%	(1.14)%
Dividends payout ratio	0.00%	0.00%
Average equity to average assets ratio	11.58%	12.48%

The Board of Directors has not declared or paid a dividend since beginning operation in 2000. Vision Bancshares has not and will not likely generate any significant earnings on its own, and it will depend upon the payment of dividends by the Banks, if it is to pay dividends on its common stock. It is expected that for at least the next year of operation for the Banks, all earnings will be retained by the Banks for their future needs. State and federal banking laws restrict the payment of dividends by the Banks. The Company does not anticipate paying a cash dividend in the foreseeable future.

Results of Operations**General**

Our principal asset is the ownership of our Banks. Accordingly, our results of operations are primarily dependent upon the results of operations of our Banks. The Banks' profitability depends primarily on net interest income, which is the difference between interest income generated from interest-earning assets (i.e., loans and investments) less the interest expense incurred on interest-bearing liabilities (i.e., customer deposits and borrowed funds). Net interest income is affected by the relative amounts of interest-earning assets and interest-bearing liabilities, and the interest rate earned and paid on these balances. Net interest income is dependent upon the Banks' interest rate spread, which is the difference between the average yield earned on its interest-earning assets and the average rate paid on its interest-bearing liabilities. When interest-earning assets approximate or exceed interest-bearing liabilities, any positive interest rate spread will generate interest income. The interest rate spread is impacted by interest rates, deposit flows and loan demand. Additionally, and to a lesser extent, the profitability of the Banks is affected by such factors as the level of noninterest income and expenses, the provision for loan losses and the effective tax rate. Noninterest income consists primarily of mortgage fee income on mortgage loans sold in the secondary market, service charges on deposit accounts, income from the sale of investment securities and other fee income. Noninterest expenses consist of compensation and benefits, occupancy-related expenses and other operating expenses.

Earnings Summary

The Company reported net earnings of \$1,189 thousand for 2004 representing an increase in earnings of \$1,440 thousand or 573.71% compared to a net loss of \$251 thousand for 2003. Earnings per basic common share were \$0.43 in 2004 compared to loss per basic common share of \$0.13 in 2003.

Net interest income increased 79.93% in 2004 to \$11,683 thousand from \$6,493 thousand in 2003. The significant increase in net interest income in 2004 is attributable to the general growth of the Banks and the acquisition of BankTrust of Florida. The net interest spread increased 7 basis points to 3.50% in 2004 from 3.43% in 2003. Over the past two years, the net interest spread has been impacted by changes in balance sheet mix which have affected the yields earned and rates paid on the underlying assets and liabilities.

Our provision for loan losses totaled \$1,819 thousand in 2004 and \$1,290 thousand in 2003. The allowance for loan losses represented 1.32% and 1.19% of total loans outstanding at December 31, 2004 and 2003, respectively. The allowance for loan losses is discussed in more detail under Loans and Allowance for Loan Losses above.

Noninterest income increased 29.05% to \$1,950 thousand in 2004 compared to \$1,511 thousand in 2003. The increase in noninterest income in 2004 is mainly attributable to service charges on deposits which increased 61.10%. In 2004, the Company recorded service charges on deposit accounts in the amount of \$1,023 thousand; whereas in 2003, the Company recorded service charges on deposits in the amount of \$635 thousand. The Company recorded a decrease of \$175 thousand in mortgage origination fees in 2004 from the amount recorded in 2003. The Company also recorded \$468 thousand in other noninterest income in 2004.

Noninterest expense increased \$2,817 thousand to \$9,911 thousand in 2004 from \$7,094 thousand in 2003. Salaries and employee benefits increased \$1,514 thousand; equipment and occupancy expense increased \$598 thousand; data processing expense increased \$274 thousand and all other expenses increased a net of \$431 thousand. These increases resulted from the acquisition of BankTrust of Florida, and the general growth of the bank subsidiaries which included opening an additional branch and moving several branches into their permanent facilities during the year ended December 31, 2004.

Net Interest Income

Net interest income is the principal source of a financial institution's earnings stream and represents the difference or spread between interest and fee income generated from earning assets and the interest expense paid on deposits and borrowed funds. Fluctuations in interest rates as well as volume and mix changes in earning assets and interest-bearing liabilities impact net interest income.

Table of Contents

Index to Financial Statements

Net interest income, before the provision for loan losses, totaled \$11,683 thousand in 2004 representing an increase of 79.93% compared to net interest income of \$6,493 thousand in 2003. The Company experienced significant growth in both average earning assets and average interest-bearing liabilities during 2004 and 2003. The Summary of Changes in Net Interest Income table in the section below provides information about changes in interest income, interest expense and net interest income due to changes in average balances and rates.

The Company's interest income increased \$7,048, or 70.97%, to \$16,979 thousand in 2004 from \$9,931 thousand in 2003. The increase in 2004 was due to the 77.90% increase in average earning assets that was somewhat offset with a 23 basis points decrease in the yield on average earning assets during 2004 as compared to 2003. Interest and fees income on loans increased 67.11% during 2004, primarily due to an increase of 70.38% in the average loan balances outstanding partially offset by a decrease in the yield on loans of 12 basis points. The interest income on investment securities increased \$451 thousand or 124.93% during 2004, compared to 2003 due to an increase in average balance outstanding partially offset by a decrease in the yield on average balances. Interest income on federal funds sold increased \$242 thousand or 242.00% during 2004 compared to 2003. This increase is primarily due to the increase in the average balance outstanding of federal funds sold.

During 2004, the Company's interest expense increased \$1,858 thousand, or 54.04%, to \$5,296 thousand from \$3,438 thousand in 2003, as average interest-bearing liabilities outstanding during 2004 increased 74.35%. Interest-bearing deposits are the major component of interest bearing liabilities, representing approximately 95.21% in 2004, and 96.38% in 2003 of average total interest-bearing liabilities outstanding. While average interest-bearing deposits outstanding increased 72.24% during 2004, the rate paid on these average balances reflected a decrease of 34 basis points. Interest expense on borrowings and federal funds purchased during 2004 totaled \$409 thousand as compared to \$169 thousand for 2003.

The trend in net interest income is also evaluated in terms of average rates using the net interest margin and the interest rate spread. The net interest margin, or the net yield on earning assets, is computed by dividing net interest income by average earning assets. This ratio represents the difference between the average yield returned on average earning assets and the average rate paid for funds used to support those earning assets, including both interest-bearing and noninterest-bearing sources. The Company's net interest margin for 2004 was 3.98%, compared to 3.93% for 2003.

The interest rate spread measures the difference between the average yield on earning assets and the average rate paid on interest-bearing sources of funds. The interest rate spread eliminates the impact of noninterest-bearing funds and gives a more direct perspective to the effect of market interest rate movements. The net interest spread for 2004 increased 7 points to 3.50% from the Company's 2003 spread of 3.43% as the cost of interest-bearing sources of funds decreased 30 basis points while the yield on earning assets decreased 23 basis points. See the tables in this section below entitled Summary of Average Balance Sheet, Net Interest Income and Interest Rates and Summary of Changes in Net Interest Income for more information. The Summary of Average Balance Sheet, Net Interest Income and Interest Rates table presents, for the periods shown, the average balance of certain balance sheet items, the dollar amount of interest income from average earning assets and resultant yields, the interest expense and rate paid on average interest-bearing liabilities, and the net-interest margin. The Summary of Changes in Net Interest Income table presents an analysis of changes in interest income, interest expense and net interest income attributable to changes in volume and interest rate.

* Loans on nonaccrual status have been included in the computation of average balances

During 2004, the banking industry experienced an increase in the interest rate environment as the prime interest rate moved from 4.00% to 5.25%. In 2003, the prime interest rate decreased from 4.25% to 4.00%.

Provision for Loan Losses, Net Charge-offs and Allowance for Loan Losses

The Company maintains an allowance for loan losses to absorb losses inherent in the loan portfolio. The allowance is based upon management's estimated range of those losses. Actual losses for these loans may vary significantly from this estimate.

The provision for loan losses is charged to current earnings to bring the allowance for loan losses to a level deemed appropriate by management. Actual loan losses, net of recoveries, are charged directly to the allowance for loan losses. The amount of the provision for loan losses is based on the growth of the loan portfolio, the amount of net loan losses incurred and management's estimation of potential future losses based on an evaluation of the risk in the loan portfolio.

During 2004, management made increases in the Bank's allowance for loan losses. The Company provided \$1,819 thousand for loan losses in 2004, compared to \$1,290 thousand in 2003. This increase reflects provision for net charge-offs of \$162 thousand and \$1,657 thousand for the growth in the loan portfolio in 2004. This increase in the overall level of the allowance for loan losses in 2003 was due to provision for net charge-offs of \$608 thousand and \$682 thousand for the general growth in the loan portfolio in 2003.

Table of Contents**Index to Financial Statements**

Loan charge-offs exceeded recoveries by \$162 thousand and \$608 thousand during 2004, and 2003, respectively. This represented a decrease of \$446 thousand during 2004. In December 2003, Vision Alabama charged off a single unsecured commercial credit in the amount of \$498 thousand which was identified by management as a loss and management believes this loan write-off was an isolated case.

For a more detailed discussion of changes in the allowance for loan losses, nonperforming assets and general credit quality, see *Loans and Allowance for Loan Losses and Nonperforming Assets* above. The future level of the allowance and provisions for loan losses will reflect management's ongoing evaluation of credit risk, based on established internal policies and practices.

Noninterest Income

Noninterest income for 2004 increased \$439 thousand, or 29.05%, to \$1,950 thousand from \$1,511 thousand in 2003. This increase was primarily due to an increase of \$388 thousand in service charges on deposit accounts, caused by growth in the number of deposit accounts company-wide paired with the implementation of a new overdraft program in Vision Alabama. Components of other operating income reflecting increases during 2004 were fee income associated with gains realized from the sale of loans, underwriting fees, and other miscellaneous service fees.

NONINTEREST INCOME

<i>(dollars in thousands)</i>	Year Ended December 31,		
	2004	% change	2003
Service charges on deposit accounts	\$ 1,023	61.10%	\$ 635
Gain on sale of securities	(6)	-103.95%	152
Secondary mortgage fees	465	-27.34%	640
Other noninterest income	468	457.14%	84
Total noninterest income	\$ 1,950	29.05%	\$ 1,511

Noninterest Expenses

The main components of noninterest expense are salaries and employee benefits, occupancy expense, furniture and equipment expense, data processing expense, and other noninterest expense. Noninterest expenses totaled approximately \$9,911 thousand in 2004 compared to \$7,094 thousand in 2003.

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

Total salaries and benefits increased \$1,514 thousand or 39.37% to \$5,360 thousand in 2004 from \$3,846 thousand in 2003. The increase in salaries and employee benefits during 2004 resulted primarily from an increase in the number of employees due to the Company's growth and expansion in Florida, in addition to merit increases and incentive payments for existing personnel. At December 31, 2004, the Company had 131 full-time equivalent employees, compared to 89 at December 31, 2003. The increase in employees in 2004 resulted primarily from the acquisition of Bank Trust of Florida, in addition to the general growth of the Company.

Table of Contents**Index to Financial Statements**

Occupancy expense increased 56.94% in 2004 to \$1,006 thousand while furniture and equipment expenses increased 67.93% in 2004 to \$576 thousand. These increases were due to the opening of three permanent banking facilities in 2004 which had previously been housed in temporary facilities, one new branch opening, as well as additional branches acquired by the merger with Bank Trust of Florida.

Data Processing expenses increased 79.19% to \$620 thousand in 2004 compared to \$346 thousand in 2003. These expenses increased due to the general growth of the Company.

Advertising expenses increased 57.42% in 2004 to \$244 thousand compared to \$155 thousand in 2003. The increase in 2004 reflects the Company's expansion and committed desire to attract new relationships into their banks.

All other operating expenses increased 19.40% in 2004 to \$2,105 thousand, as compared to \$1,763 thousand in 2003. These increases during 2004 reflect the higher cost associated with the Company's significant growth, including Vision Alabama's branch expansion in Elberta, Alabama, as well as additional branches acquired through the acquisition of Bank Trust of Florida. In addition, Vision Alabama relocated its Foley branch and Vision Florida moved its main office in Panama City and its branch in Panama City Beach into its permanent facilities.

NONINTEREST EXPENSE

<i>(dollars in thousands)</i>	Year Ended December 31,		
	2004	% change	2003

	\$ 9,911	39.71%	\$ 7,094

Income Taxes

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

The Company incurred income tax expense of \$618 thousand, or 34.20% effective tax rate, on pre-tax income (adjusted for noncontrolling interest) of \$1,807 thousand for 2004, compared to a tax benefit of \$204 thousand, or 44.84% effective tax rate, on pre-tax loss (adjusted for noncontrolling interest) of \$455 thousand for 2003. The statutory federal rate was 34 % during 2004 and 2003. The Company attempts to maximize any tax benefits and minimize any tax liabilities through active tax planning. A more detailed explanation of income tax expense is included in Note 19 to the Company's Consolidated Financial Statements included elsewhere in this Report.

Index to Financial Statements

Impact of Inflation and Changing Prices

A bank's asset and liability structure is substantially different from that of an industrial company in that virtually all assets and liabilities of a bank are monetary in nature. Management believes the impact of inflation on financial results depends upon the Company's ability to react to changes in interest rates and by such reaction to reduce the inflationary impact on performance. Interest rates do not necessarily move in the same direction, or at the same magnitude, as the prices of other goods and services. As discussed above, management seeks to manage the relationship between interest-sensitive assets and liabilities in order to protect against wide interest rate fluctuations, including those resulting from inflation.

Various information shown elsewhere in this report should assist in an understanding of how well the Company is positioned to react to changing interest rates and inflationary trends. In particular, the summary of net interest income, the maturity distributions, the composition of the loan and security portfolios and the data on the interest sensitivity of loans and deposits should be considered.

Subsequent Events

On February 1, 2005, Vision Bancshares relocated its corporate headquarters to 2200 Stanford Road, Florida, from Gulf Shores, Alabama.

ITEM 7 FINANCIAL STATEMENTS

See Table of Contents to Consolidated Financial Statements on Page F-1. Such Financial Statements are incorporated in this Item 7 by reference.

ITEM 8 CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not Applicable.

ITEM 8A CONTROLS AND PROCEDURES

The Chief Executive Officer and Chief Financial Officer of Vision Bancshares have concluded, based on their evaluation as of the end of the period covered by this Form 10-KSB, that Vision Bancshares' disclosure controls and procedures are effective to ensure that information required to be disclosed by Vision Bancshares in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and include controls and procedures designed to ensure that information required to be disclosed by Vision Bancshares in such reports is accumulated and communicated to Vision Bancshares management, including Vision Bancshares' Chief Executive Officer and Chief Financial

Officer, as appropriate to allow timely decisions regarding required disclosure.

ITEM 8B OTHER INFORMATION

None.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

Vision Bancshares, Inc.

Gulf Shores, Alabama

We have audited the consolidated statements of financial condition of Vision Bancshares, Inc. and Subsidiaries as of December 31, 2004 and 2003, and the related consolidated statements of operations, comprehensive income, stockholders' equity and cash flows for each of the two years in the period end December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Vision Bancshares, Inc. and Subsidiaries as of December 31, 2004 and 2003 and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. NATURE OF BUSINESS

Vision Bancshares, Inc. (the Company or Vision Bancshares) is an Alabama bank holding company headquartered in Gulf Shores, Alabama at December 31, 2004. On February 1, 2005, Vision Bancshares, Inc. relocated its corporate headquarters to Panama City, Florida. The Company's principal subsidiaries are Vision Bank in Alabama (Vision Alabama) and Vision Bank in Florida (Vision Florida) (together, the Banks). Virtually all of the Company's operations are conducted through the Banks. Vision Alabama is an Alabama state chartered bank that offers general retail and commercial banking services through five branch offices in Baldwin County, Alabama. Vision Florida is a Florida state chartered bank that offers general retail and commercial banking services through five branch offices in Bay and Gulf Counties, Florida.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the Company and its subsidiaries follow accounting principles and practices generally accepted in the United States of America. The following is a summary of the more significant accounting policies:

Basis of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Vision Florida and Vision Alabama, and Vision Alabama's wholly owned subsidiary, Vision Bancshares Financial Group, Inc. The consolidated financial statements also include all Variable Interest Entities (VIEs) for which the Company is the primary beneficiary. All material inter-company balances and transactions have been eliminated. Certain financial information for prior years has been reclassified to conform to the current year's presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The determination of the adequacy of the allowance for loan losses is based on estimates that are particularly susceptible to significant changes in the economic environment and market conditions. In connection with the determination of the estimated losses on loans, management obtains independent appraisals for significant collateral.

The Banks' loans are generally secured by specific items of collateral including real property, consumer assets, and business assets. Although the Banks have diversified loan portfolios, a substantial portion of the debtors' ability to honor their contracts is dependent on local economic conditions.

Table of Contents

Index to Financial Statements

While management uses available information to recognize losses on loans, further reductions in the carrying amounts of loans may be necessary based on changes in local economic conditions. In addition, regulatory agencies, as an integral part of their examination process, periodically review the estimated losses on loans. Such agencies may require the Banks to recognize additional losses based on their judgments about information available to them at the time of their examination. Because of these factors, it is reasonably possible that the estimated losses on loans can change in the future. However, the amount of the change that is reasonably possible cannot be estimated.

Investment Securities and Other Earning Assets

Debt securities are classified as held to maturity when the Company has the positive intent and ability to hold the securities to maturity. Securities held to maturity are carried at amortized cost. The amortization of premiums and accretion of discounts are recognized in interest income using methods approximating the interest method over the period to maturity. For securities which have a call feature, amortization of premiums is recognized to the first call date.

Debt securities not classified as held to maturity are classified as available for sale. The Company has classified all debt securities as available for sale. Securities available for sale are carried at fair value with unrealized gains and losses reported in other comprehensive income. Realized gains (losses) on securities available for sale are included in income (expense) and, if applicable, are reported as a reclassification adjustment, net of tax, in other comprehensive income. Gains and losses on sales of securities are determined on the specific identification method.

Declines in the fair value of individual securities below their cost that are other than temporary result in write-downs of the individual securities to their fair value. The related write-downs are included in earnings as realized losses.

In response to the opportunities that the Company believed to be available by the use of Bank-Owned Life Insurance (BOLI), the Company bought five single-premium BOLI policies for an aggregate purchase price of \$2,600 thousand in March 2004 to help finance the cost of certain employee benefit plan expenses. Based on the Company's research, BOLI is a widely used tool intended to benefit the Company and to enable the Company to provide cost-effective benefits for certain employees.

The BOLI investment is accomplished through the purchase of life insurance on the lives of certain employees through an insurance company with a Standard & Poor's rating of AA or better. The Company, not the employee or family, is the beneficiary of the insurance policies. The first source of income is from the growth of the cash surrender value (CSV) of the policy. The CSV increases each year as interest (rate is guaranteed each year and changes annually to reflect market rates) is added by the insurance company. The second source of income comes from the insurance proceeds paid to the Bank when an employee dies. The payment of the insurance proceeds and the earnings from the cash value are income tax free (unless the policy is surrendered). The earnings from the investment are recorded in other income on the Company's income statement and the Company now owns the BOLI policies (including both the cash value and all increases in the cash value).

Table of Contents

Index to Financial Statements

Loans

Loans are stated at unpaid principal balances, less the allowance for loan losses and net deferred loan fees and unearned income.

Loan origination and commitment fees, as well as certain direct organization costs, are deferred and amortized as a yield adjustment over the lives of the related loans using the interest method. Amortization of deferred loan fees is discontinued when a loan is placed on non-accrual status.

Interest income generally is not recognized on specific impaired loans unless the likelihood of further loss is remote. Payments received on such loans are applied as a reduction of the loan principal balance. Interest income on other impaired loans is recognized only to the extent of interest payments received.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level which, in management's judgment, is adequate to absorb credit losses inherent in the loan portfolio. The amount of the allowance is based on management's evaluation of the collectibility of the loan portfolio, including the nature of the portfolio, credit concentrations, trends in historical loss experience, specific impaired loans, economic conditions, and other risks inherent in the portfolio. Allowances for impaired loans are generally determined based on collateral values or the present value of estimated cash flows. Management uses available information to recognize losses on loans. However, because of uncertainties associated with local economic conditions, collateral values, and future cash flows on impaired loans, it is reasonably possible that changes can occur in the allowance for loan losses. However, the amount of the change that is reasonably possible cannot be estimated. The allowance is increased by a provision for loan losses, which is charged to expense and reduced by charge-offs, net of recoveries. Changes in the allowance relating to impaired loans are charged or credited to the provision for loan losses.

Premises and Equipment

Land is carried at cost. Other premises and equipment are carried at cost net of accumulated depreciation. Depreciation is computed using the straight-line and double declining balance method based principally on the estimated useful lives of the assets ranging from three to forty years. Depreciation expense for leasehold interest in building recorded as a capital lease is included with depreciation expense on owned assets. Maintenance and repairs are expensed as incurred while major additions and improvements are capitalized. Gains and losses on dispositions are included in current operations.

Foreclosed Assets and Other Real Estate

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

Collateral acquired through foreclosure or in settlement of loans are reported with other assets in the consolidated balance sheets. These assets are recorded at estimated fair value, less estimated selling costs, if this value is lower than the carrying value of the related loan or property asset. The initial reduction in the carrying amount of a loan to the fair value of the collateral received is charged to the

F-10

Table of Contents

Index to Financial Statements

reserve for possible loan losses. Subsequent valuation adjustments for foreclosed assets or surplus property are also included in current earnings, as are the revenues and expenses associated with managing these assets prior to sale.

Other real estate comprises properties acquired through a foreclosure proceeding or acceptance of a deed in lieu of foreclosure. These properties are initially carried at the lower of cost or fair market value based on appraised value at the date acquired. Loan losses arising from the acquisition of such properties are charged against the allowance for loan losses. Costs of improvements are capitalized, whereas costs relating to holding other real estate owned and subsequent adjustments to the value are expensed.

Goodwill and Other Intangible Assets

Goodwill represents the excess of cost over the fair value of the net assets purchased in a business combination. Goodwill is required to be tested annually for impairment or whenever events occur that may indicate that the recoverability of the carrying amount is not probable. In the event of impairment, the amount by which the carrying amount exceeds the fair value would be charged to earnings.

Vision Alabama performed its annual test of impairment in the third quarter and determined that there was no impairment in the carrying value of goodwill. Goodwill amounting to \$125 thousand has been allocated to the Vision Alabama operating unit. There has been no impairment of goodwill since the date of acquisition.

As a result of the acquisition of BankTrust of Florida and subsequent merger of Vision Bank, FSB, Goodwill amounting to \$3,311 thousand and a core deposit intangible of \$577 thousand was allocated to the Vision Florida's operating unit. At December 31, 2004, the core deposit intangible was \$563 thousand.

Intangible assets consist of core deposit premiums acquired in connection with the business combinations. The core deposit premium is initially recognized based on a valuation performed as of the consummation date. The core deposit premium is amortized over the average remaining life of the acquired customer deposits, or five to eight years. Amortization periods are reviewed annually in connection with the annual impairment testing of goodwill.

Income Taxes

Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to net operating loss carryforwards and differences between the basis of the allowance for loan losses, intangibles, securities and accumulated depreciation. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets and liabilities are reflected at income tax rates applicable to the period in which the deferred tax assets or liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes. The Company files a consolidated federal income tax return with its subsidiaries.

Table of Contents

Index to Financial Statements

Earnings per Share

Basic earnings per common share are computed by dividing income available to stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share are computed using the weighted-average number of common shares outstanding increased by the number of additional shares that would have been issued if potentially dilutive stock options had been exercised as determined using the treasury stock method. *Stock owned by and stock receivables from related variable interest* represents 81,375 shares of the Company's common stock owned by a VIE or owned individually by the members of a VIE. Because the right to vote these shares and the entitlement to receive dividends is retained by the owners of such shares, no adjustment has been made to the average shares outstanding in calculating basis and diluted earnings per share.

Statements of Cash Flows

The Company considers all cash and amounts due from depository institutions, interest-bearing deposits in other banks, and federal funds sold to be cash equivalents for purposes of the statements of cash flows.

Cash and Due from Banks

The Banks maintain cash balances at several other financial institutions. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$100 thousand. At December 31, 2004, balances in excess of the amount insured were \$6,398 thousand. At December 31, 2003, balances in excess of the amount insured were \$3,106 thousand.

The Banks are required to maintain reserve balances in cash or on deposit with the Federal Reserve Bank, based on a percentage of deposits. The total of those reserve balances was approximately \$7,634 thousand and \$2,127 thousand at December 31, 2004 and 2003, respectively.

Stock-Based Compensation

SFAS No. 123, *Accounting for Stock-Based Compensation*, defines a fair value based method of accounting for an employee stock option or similar equity instrument. However, SFAS No. 123 allows an entity to continue to measure compensation costs for those plans using the intrinsic value based method of accounting prescribed by APB Opinion No. 25, *Accounting for Stock Issued to Employees*. Entities electing to remain with the accounting in Opinion No. 25 must make pro forma disclosures of net income and earnings per share as if the fair value based method of accounting defined in SFAS No. 123 had been applied. Under the fair value based method, the value of the award is measured at the grant date and is recognized over the service period, which is usually the vesting period. Under the intrinsic value based method, compensation cost is the excess, if any, of the quoted market price of the stock at the grant date or other measurement date over the amount an employee must pay to acquire the stock. The Company has elected to measure compensation cost for its stock option plans under the provisions in APB Opinion 25.

Table of Contents**Index to Financial Statements**

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provision of FASB Statement No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation.

STOCK-BASED COMPENSATION

	Years Ended December 31,	
	2004	2003
<i>(dollars in thousands, except per share data)</i>		
Net income (loss) as reported	\$ 1,189	\$ (251)
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(251)	(226)
Proforma net loss	\$ 938	\$ (477)
Earnings (loss) per share:		
Basic - as reported	\$ 0.43	\$ (0.13)
Basic - pro forma	\$ 0.34	\$ (0.25)
Diluted - as reported	\$ 0.42	\$ (0.13)
Diluted - pro forma	\$ 0.33	\$ (0.25)

Mortgage Rate Premiums

Vision originates mortgage loans held for sale which are funded by the Banks with a prior commitment for the loan to be purchased in the secondary market. Vision also originates mortgage loans that are pre-approved and funded at closing by the secondary market purchaser. Because these loans are generally recorded as an asset of the Banks for less than ten business days, origination fees associated with these loans are recognized into income on a cash basis. The mortgage rate premiums received on secondary mortgage market loans are recognized into income when funds are received from the secondary market investor.

Recently Issued Accounting Standards

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities, and interpretation of ARB No. 51 and, on December 24, 2003, the FASB issued FASB Interpretation No. 46 (Revised December 2003), Consolidation of Variable Interest Entities which replaced FIN 46. The interpretation addresses consolidation by business enterprises of variable interest entities. A variable interest entity is defined as an entity subject to consolidation according to the provisions of the interpretation. The revised interpretation provided for special effective dates for entities that had fully or partially applied the original interpretation as of December 24, 2003. Otherwise, application of the interpretation is required in financial statements of public entities that have interests in special-purpose entities, or SPEs, for periods ending after December 15, 2003. Application by public entities, other than small business issuers, for all other types of variable interest entities (i.e., non-SPEs) is required in financial statements for periods ending after March 15, 2004. Application by small business issuers to variable interest

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

entities other than SPEs and by nonpublic entities to all types of variable interest entities is required at various dates in 2004 and 2005. The Company has determined that the provisions of FIN 46 require consolidation of three variable interest entities. The Company has adopted the provisions under the revised interpretation and has revised each of the years presented in the Company's consolidated financial statements.

F-13

Table of Contents**Index to Financial Statements**

The Company has determined that three variable interest entities should be included in its consolidated financial statements. Two of the variable interest entities are owned by directors of the Company and one variable interest entity is majority-owned by the directors of the Company. The variable interest entities own properties that are leased to the Banks. Following are condensed combined balance sheets of the three variable interest entities at December 31, 2004 and 2003.

<i>(dollars in thousands)</i>	December 31,	
	2004	2003
Cash	\$ 95	\$ 8
Common stock	81	81
Receivables	1,222	1,222
Properties	5,181	3,594
Other assets	3	5
Total assets	\$ 6,582	\$ 4,910
Borrowings collateralized by the Company's common stock	\$ 1,129	\$ 1,257
Other borrowings	4,848	3,352
Other liabilities	32	15
Total liabilities	6,009	4,624
Equity	573	286
Total liabilities and equity	\$ 6,582	\$ 4,910

Borrowings collateralized by the Company's common stock have been included in the consolidated financial statements as a reduction of stockholders' equity. The combined equity of the variable interest entities has been included in the consolidated financial statements as noncontrolling interest.

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement No. 123R, Share-Based Payment, a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation. This Statement supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance. This Statement establishes standards for accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions such as the issuance of stock options in exchange for employee services. This Statement requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award—the requisite service period (usually the vesting period). A nonpublic entity, likewise, will measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of those instruments, except in certain circumstances. Specifically, if it is not possible to reasonably estimate the fair value of equity share options and similar instruments because it is not practicable to estimate the expected volatility of the entity's

Table of Contents

Index to Financial Statements

share price, a nonpublic entity is required to measure its awards of equity share options and similar instruments based on a value calculated using the historical volatility of an appropriate industry sector index instead of the expected volatility of its share price. The grant-date fair value of employee share options and similar instruments will be estimated using option-pricing models adjusted for the unique characteristics of those instruments (unless observable market prices for the same or similar instruments are available). This Statement is effective for (a) public entities that do not file as small business issuers - as of the beginning of the first interim or annual reporting period that begins after June 15, 2005; (b) public entities that file as small business issuers - as of the beginning of the first interim or annual reporting period that begins after December 15, 2005; and (c) nonpublic entities - as of the beginning of the first annual reporting period that begins after December 15, 2005. This Statement applies to all awards granted and vesting after the required effective date and to awards modified, repurchased, or cancelled after that date.

Table of Contents**Index to Financial Statements****3. INVESTMENT SECURITIES**

The amortized cost of securities available for sale and their approximate fair values are as follows:

INVESTMENT PORTFOLIO

<i>(dollars in thousands)</i>	Gross Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
December 31, 2004				
Federal agency securities	\$ 6,523	\$ 10	\$ (41)	\$ 6,492
Mortgage-backed securities	20,108	19	(125)	20,002
Total debt securities	26,631	29	(166)	26,494
Common stock	1,033			1,033
Total equity securities	1,033			1,033
Total available for sale securities	\$ 27,664	\$ 29	\$ (166)	\$ 27,527
December 31, 2003				
Federal agency securities	\$ 4,503	\$ 29		\$ 4,532
Mortgage-backed securities	9,880	8	(29)	9,859
Total debt securities	14,383	37	(29)	14,391
Common stock	417			417
Total equity securities	417			417
Total available for sale securities	\$ 14,800	\$ 37	\$ (29)	\$ 14,808

The amortized cost and estimated fair value of debt securities available for sale as of December 31, 2004 by contractual maturity are shown below. Actual maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties.

INVESTMENT PORTFOLIO MATURITY SCHEDULE

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

<u>(dollars in thousands)</u>	<u>Amortized Cost</u>	<u>Estimated Fair Value</u>
Amounts maturing in:		
One year or less	\$	\$
After one year through five years	8,583	8,540
After five year through ten years	11,033	10,978
After ten years	7,015	6,976
	<u> </u>	<u> </u>
Total investment in debt securities	\$ 26,631	\$ 26,494

Table of Contents

Index to Financial Statements

Realized gains and losses are determined on the basis of specific identification. During 2003 and 2004, sales proceeds and gross realized gains and losses on securities classified as available for sale were:

GAINS AND LOSSES ON SECURITIES

	Years Ended December 31,	
	2004	2003
<i>(dollars in thousands)</i>		
Sales proceeds	\$ 5,998	\$ 5,401
Gross realized losses	\$ (6)	\$
Gross realized gains	\$	\$ 152

The following table shows the gross unrealized losses and fair value of securities, aggregated by category and length of time that securities have been in a continuous unrealized loss position at December 31, 2004.

2004

(dollars in thousands)

Description of securities	Less Than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
U.S. Treasury and Govt Agency	\$ 4,441	\$ (41)	\$	\$	\$ 4,441	\$ (41)
Mortgage-backed securities	16,285	(125)			16,285	(125)
Total temporarily impaired debt securities	\$ 20,726	\$ (166)	\$	\$	\$ 20,726	\$ (166)

2003

(dollars in thousands)

Less Than 12 Months	Total
---------------------	-------

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

Description of securities			12 Months or More			
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Mortgage-backed securities	\$ 7,130	\$ (29)	\$	\$	\$ 7,130	\$ (29)
Total temporarily impaired debt securities	\$ 7,130	\$ (29)	\$	\$	\$ 7,130	\$ (29)

All investment securities with an unrealized loss at December 31, 2004 have been in a continuous loss position for less than twelve months. These unrealized losses are considered temporary because of acceptable investment grades on each security and the repayment sources of principal and interest are government backed.

Securities with a carrying value of \$23,037 thousand were pledged at December 31, 2004 and securities with a carrying value of \$13,804 thousand were pledged at December 31, 2003 to secure public deposits and for other purposes required or permitted by law.

Table of Contents**Index to Financial Statements****4. LOANS**

The composition of the Company's loan portfolio follows:

LOANS OUTSTANDING BY TYPE

<i>(dollars in thousands)</i>	December 31,	
	2004	2003
Loans		
Commercial and financial	\$ 49,201	\$ 85,541
Agricultural	65	25
Consumer	10,384	9,506
Equity	13,093	5,611
Real estate - Construction	140,749	27,044
Real estate - Residential	72,339	24,719
Real estate - Commercial and other	59,371	21,719
Other loans	931	871
	<u>346,133</u>	<u>175,036</u>
Unearned income	(1,127)	(291)
	<u>345,006</u>	<u>174,745</u>
Allowance for loan losses	(4,565)	(2,072)
Loans, net	<u>\$ 340,441</u>	<u>\$ 172,673</u>

The Banks have entered into transactions with certain directors, executive officers, significant stockholders, and their affiliates. Such transactions were made in the ordinary course of business on substantially the same terms and conditions, including interest rates and collateral, as those prevailing at the same time for comparable transactions with other customers, and did not, in the opinion of management, involve more than normal credit risk or present other unfavorable features. An analysis of the changes in loans to related parties during 2004 follows:

EXTENSION OF CREDIT TO RELATED PARTIES

<i>(dollars in thousands)</i>	2004
Beginning balance	\$ 13,400
Additions	12,587

Repayments	(8,559)
Ending balance	\$ 17,428

5. ALLOWANCE FOR POSSIBLE LOAN LOSSES

A summary analysis of changes in the allowance for possible loan losses follows:

ALLOWANCE FOR LOAN LOSSES

<i>(dollars in thousands)</i>	Years Ended December 31,	
	2004	2003
Allowance for loan losses		
Balances, beginning of year	\$ 2,072	\$ 1,390
Provision for losses	1,819	1,290
Loans charged off, net of recoveries	(162)	(608)
Acquired loan loss reserve	836	
Balances, end of year	\$ 4,565	\$ 2,072

Table of Contents**Index to Financial Statements****6. IMPAIRED LOANS, NONPERFORMING LOANS, FORECLOSED ASSETS AND OTHER REAL ESTATE OWNED**

The following is a summary of information pertaining to impaired loans:

IMPAIRED LOANS

	Year Ended December 31,	
	2004	2003
<i>(dollars in thousands)</i>		
Impaired loans without a valuation allowance	\$	\$
Impaired loans with a valuation allowance	1,523	43
Total impaired loans	\$ 1,523	\$ 43
Valuation allowance related to impaired loans	\$ 650	\$ 43
Average investment in impaired loans	1,613	53
Interest income recognized on impaired loans		1

Loans on nonaccrual status amounted to approximately \$1,920 thousand and \$458 thousand at December 31, 2004 and 2003, respectively. The substantial increase in nonaccrual loans during 2004 is primarily related to one commercial credit which is also considered as an impaired loan. Management is monitoring this credit on a continuing basis and believes the Company has adequately reserved to absorb any potential losses associated with this loan.

The carrying amount of other real estate owned at December 31, 2004 was \$452 thousand. There was no other real estate owned at December 31, 2003.

The carrying amount of foreclosed assets at December 31, 2004 was \$3 thousand and there were no foreclosed assets and repossessions at December 31, 2003.

7. PREMISES AND EQUIPMENT

A summary of premises and equipment:

PREMISES & EQUIPMENT

<i>(dollars in thousands)</i>	December 31,	
	2004	2003
Leasehold improvements	\$ 729	\$ 440
Capitalized leases	1,750	
Land	1,745	975
Buildings	6,138	2,341
Furniture, fixtures & equipment	4,590	1,906
Automobiles	167	33
Construction in progress	189	764
	<u>15,308</u>	<u>6,459</u>
Less: Accumulated depreciation	(3,136)	(774)
	<u>\$ 12,172</u>	<u>\$ 5,685</u>

Depreciation expense was \$620 thousand and \$409 thousand for the years ended December 31, 2004 and 2003, respectively.

At December 31, 2004, the Company had \$501 thousand in binding commitments for capital expenditures. This includes \$177 thousand to complete projects currently under construction and \$112 thousand for Vision Florida's Beckrich Road branch which opened during the first quarter of 2005.

Table of Contents

Index to Financial Statements

8. INTANGIBLE ASSETS

Following is a summary of information related to acquired intangible assets:

<i>(dollars in thousands)</i>	As of December 31, 2004		As of December 31, 2003	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortized intangible assets				
Core deposit premiums	\$ 577	\$ 14	\$	\$

The aggregate amortization expense for intangible assets was \$14 thousand and \$0 thousand for the years ended December 31, 2004 and 2003, respectively.

The estimated amortization expense for each of the next five years is as follows:

<i>(dollars in thousands)</i>	
Years Ending December 31,	
2005	\$ 82
2006	82
2007	82
2008	82
2009	82
Thereafter	153
	<u>\$ 563</u>

Changes in the carrying amount of goodwill are as follows:

<i>(dollars in thousands)</i>	As of December 31	
	2004	2003
Beginning balance	\$ 125	\$ 125

Table of Contents**Index to Financial Statements****9. DEPOSITS**

Deposit account balances are summarized as follows:

DEPOSITS

<i>(dollars in thousands)</i>	December 31,	
	2004	2003
Noninterest bearing	64,435	\$ 24,268
Interest-bearing	65,674	41,106
Savings and money market deposits	77,157	32,394
Certificates of deposits less than \$100,000	71,641	42,895
Certificates of deposits of \$100,000 or more	67,164	36,797
Time deposit open accounts	4,000	2,000
	\$ 350,071	\$ 179,460

Certificates maturing in years ending December 31, as of December 31, 2004:

<i>(in thousands)</i>	
2005	\$ 70,531
2006	29,868
2007	26,724
2008	10,457
2009 and thereafter	5,225
	\$ 142,805

The Company had \$4,286 thousand in brokered deposits at December 31, 2004. The Company did not have any brokered deposits at December 31, 2003.

At December 31, 2004 and 2003, overdraft demand deposits reclassified to loans totaled \$196 thousand and \$65 thousand, respectively.

Table of Contents**Index to Financial Statements****10. OTHER BORROWINGS**

Other borrowings consist of the following:

OTHER BORROWINGS

<i>(dollars in thousands)</i>	December 31,	
	2004	2003
Federal Home Loan Bank - Atlanta, maturing in 2005 bearing interest indexed to three (3) month LIBOR, collateralized by Vision Bank-AL s 1-4 family first mortgage loans. (The interest rate was 2.630% and 1.235% at December 31, 2004 and 2003, respectively)	\$ 4,000	\$ 4,000
Federal Home Loan Bank - Atlanta, maturing in 2009 (callable in 2006) bearing fixed rate interest of 2.85 %, collateralized by Vision Bank-AL s 1-4 family first mortgage loans.	5,000	
Capitalized lease obligation, due in various installments through 2024 bearing interest at 7.940%, collateralized by leased assets	1,722	
Borrowings of noncontrolling interests		
<i>Elberta Holdings LLC:</i>		
The Bankers Bank - Atlanta, Georgia		
Note collateralized by real estate; principal and interest due quarterly; rate is at prime, due March 3, 2009	448	
<i>Gulf Shores Investment Group LLC:</i>		
The Bankers Bank Atlanta, Georgia	978	1,051
Note collateralized by real estate; interest due monthly at prime less 0.5% and principal due monthly based on twenty year amortization with balloon payment due February 3, 2005		
The Bankers Bank Atlanta, Georgia	1,139	1,246
Note collateralized by real estate; payments of \$12,800 principal and interest due monthly; rate is at prime less 0.5%, due May 3, 2005		
The Bankers Bank Atlanta, Georgia	188	207
Note collateralized by real estate; payments of \$2,200 principal and interest due monthly; rate is at prime less 0.5%, due May 3, 2005		
Nexity Bank Atlanta, Georgia	1,129	1,257
Note collateralized by 81,375 shares of Vision Bancshares Inc. common stock guaranteed by certain directors of the Company who are members of VIE; due \$42,500 quarterly plus interest; rate is at prime less 0.5%; balloon payment due September 24, 2008		
<i>Bay County Investment Group LLC:</i>		
The Bankers Bank Atlanta, Georgia	2,096	848
Note collateralized by real estate; interest due monthly at prime less 0.5% and principal due monthly based on twenty year amortization with balloon payment due October 16, 2008		
Total Borrowings	\$ 16,700	\$ 8,609

The advances from the Federal Home Loan Bank are secured by a blanket lien against Vision Alabama s 1-4 family first mortgage loans. These loans totaled approximately \$44,868 thousand and \$16,168 thousand at December 31, 2004 and 2003, respectively. At December 31, 2004 Vision Alabama had an available unused line of credit with the Federal Home Loan Bank totaling \$12,361 thousand.

Table of Contents**Index to Financial Statements**

The following table presents maturity information for the Company's FHLB and other borrowings as of December 31, 2004.

<i>(dollars in thousands)</i>	FHLB Advances	Obligation for Capitalized Lease	VIE Borrowings	Total
Years Ending December 31,				
2005	\$ 4,000	\$ 39	\$ 2,613	\$ 6,652
2006		43	278	321
2007		46	292	338
2008		50	2,434	2,484
2009	5,000	54	361	5,415
Thereafter		1,490		1,490
Total	\$ 9,000	\$ 1,722	\$ 5,978	\$ 16,700

The Company and subsidiaries also have available unused lines of credit with various financial institutions totaling \$21,100 thousand at December 31, 2004. There were no advances outstanding under these lines at December 31, 2004 or 2003.

11. REGULATORY CAPITAL

The Company and its subsidiary Banks are subject to various regulatory capital requirements administered by the state and federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possible additional discretionary actions by regulators that, if taken, could have a direct material effect on the consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company, Vision Alabama, and Vision Florida must meet specific capital guidelines that involve quantitative measures of the Company's and Banks' assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. The Company's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company, Vision Alabama, and Vision Florida to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier 1 capital (as defined) to average assets (as defined). Management believes, as of December 31, 2004 and 2003, that the Company and the Banks meet all capital adequacy requirements to which they are subject.

As of December 31, 2004, the most recent notification from the Federal Deposit Insurance Corporation categorized the Banks as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Banks must maintain minimum total risk-based, Tier 1 risk-based, and Tier 1 leverage ratios as set forth in the following table. There are no conditions or events since that notification that management believes have changed the Banks' categories. Prompt corrective action provisions are not applicable to bank holding companies.

Table of Contents**Index to Financial Statements****REGULATORY CAPITAL**

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under the Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio

Table of Contents**Index to Financial Statements****12. EMPLOYEE BENEFIT PLANS**

Vision sponsors an employee savings plan under Section 401(k) of the Internal Revenue Code that covers substantially all full-time employees. This plan allows the employee to contribute a minimum of 1% to a maximum of 15% of their total compensation annually. The Banks provide a matching contribution to the Plan of 50% of the first 6% of the total annual compensation of the employee's contribution, thus allowing contributions totaling 18% of the employees' annual compensation. Tax law imposes limits on total annual participant savings. Participants are fully vested in their savings. Participants are vested in employer match contributions based on years of vesting service in which they worked at least 1,000 hours as shown below.

<u>Years</u>	<u>Less than 2</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5</u>	<u>6 or more</u>
Vesting %	0%	20	40	60	80	100

The expense of the Company's matching contributions was \$106 thousand in 2004 and \$62 thousand in 2003.

In 2004, the Company's subsidiary Banks have entered into separate deferred compensation arrangements with certain executive officers. The plans call for certain amounts payable at retirement, death or disability. The estimated present value of the deferred compensation is being accrued over the expected service period. Vision Alabama and Vision Florida have purchased life insurance policies which they intend to use to finance this liability. Cash surrender value of life insurance was approximately \$2,683 thousand at December 31, 2004 is included in other assets. Accrued deferred compensation of \$84 thousand at December 31, 2004 is included in other liabilities. Aggregate compensation expense under the plans was \$84 thousand for 2004 and is included in salary and benefit expenses.

Vision Alabama has also entered into an arrangement with one of its executive officers whereby future salary increases are being deferred and earning interest at a rate indexed to the Wall Street Prime rate. This arrangement call for amounts to be payable once the executive reaches his sixtieth (60th) birthday or ceases to serve as an executive officer of the Bank, which ever occurs later. However, no payments under this arrangement will extend beyond the executive's seventy-fifth (75th) birthday. Accrued deferred amounts of \$41 thousand and \$13 thousand at December 31, 2004 and 2003, respectively are included in other liabilities. Compensation expense under this arrangement was \$28 thousand and \$13 thousand for 2004 and 2003, respectively and is included in salary and benefit expenses.

13. STOCK PLANS

The Company has adopted an Incentive Stock Compensation (Plan) to provide an incentive to certain officers and key management employees of the Company and its subsidiaries. Options granted under the Plan must be at a price not less than the fair market value of the shares at the date of grant.

As of December 31, 2004, the Company had reserved 225,000 shares for issuance under the Plan. All options expire no more than ten years from the date of grant, or 90 days after an employee's termination. At December 31, 2004, approximately 27,000 shares remained available for the granting of options under the Plan.

Table of Contents**Index to Financial Statements**

The Plan's Administration Committee determines vesting periods. All options currently issued under the Plan have vesting requirements. The option recipients are required to remain in the employment of the Company for three years to fully vest in the options granted. Of the 198,000 options granted under the Plan, 116,008 options were vested at December 31, 2004. In the event of a change in control, options issued under this plan, become 100 percent vested.

The Company has adopted a Director Stock Plan (Director's Plan) whereby directors of the Company and its subsidiaries may be granted non-qualified stock options and receive common stock in lieu of cash directors' fees. As of December 31, 2004, the Company had reserved 225,000 shares for issuance under the Director's Plan. The Director's Plan Administration Committee determines vesting periods. All options issued under the Director's Plan were 100 percent vested at the date of grant. All options expire no more than ten years from the date of grant. At December 31, 2004, approximately 49,000 shares remained available for the granting of options under the Director's Plan. This plan also provides for each director to receive restricted stock, pursuant to a written election, in lieu of part or such director's entire director fee. The number of shares of restricted stock granted to a director pursuant to such election shall be equal to the dollar amount of director's fees which the director has elected not to receive, divided by seventy-five percent (75%) of the fair market value of the common stock as of each applicable payment date. As of December 31, 2004, no shares have been issued pursuant to this provision.

Following is a summary of the transactions in the Plan and the Director's Plan:

STOCK PLANS

	Number of Shares	Weighted Average Exercise Price
Balance, December 31, 2002	187,500	\$ 11.80
Granted, year ended December 31, 2003	125,000	15.06
Exercised and expired, year ended December 31, 2003		
Balance, December 31, 2003	312,500	13.10
Granted, year ended December 31, 2004	66,000	18.00
Exercised and expired, year ended December 31, 2004	(4,500)	(15.00)
Balance, December 31, 2004	374,000	\$ 13.95

Table of Contents**Index to Financial Statements**

At December 31, 2004, the total shares outstanding and exercisable under the Plan and the Director's Plan were as follows:

SHARES OUTSTANDING

	Number Outstanding	Average Remaining Life (In Years)	Options Exercisable
Options with exercise price of \$10.00	120,000	5.7	120,000
Options with exercise price of \$15.00	178,000	7.7	123,675
Options with exercise price of \$15.75	10,000	8.6	3,333
Options with exercise price of \$18.00	66,000	9.1	45,000
Total outstanding, December 31, 2003	374,000	7.3	292,008

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants in 2004: dividend yield of 2.00%; expected volatility of 20%, risk-free interest rate of 4.12%, and expected lives of ten years. The weighted-average assumptions used for grants in 2003: dividend yield of 2.00%; expected volatility of 20%, risk-free interest rates of 4.48%, and expected lives of ten years. The weighted average fair value of options granted during 2004 and 2003 was \$4.84 and \$4.01, respectively.

The Company has adopted an Employee Stock Purchase Plan that provides active full-time employees with a convenient way to become shareholders of the Company. Employees have the opportunity to subscribe to purchase shares of a series of offerings occurring at six-month intervals. As of December 31, 2004, there were 15,000 shares authorized for issuance under this Plan from authorized but unissued shares. As of December 31, 2004, 7,720 shares were issued under the plan. The total subscription liability under the plan for all covered employees totaled 3,100 shares as of December 31, 2004. Approximately 4,180 shares remained available for subscription under this Plan.

14. OFF-BALANCE-SHEET FINANCIAL INSTRUMENTS

In the normal course of business, the Company has outstanding commitments and contingent liabilities, such as commitments to extend credit and standby letters of credit, which are not included in the accompanying consolidated financial statements. They involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amount recognized in the balance sheets. The majority of all commitments to extend credit and standby letters of credit are variable rate instruments.

Table of Contents**Index to Financial Statements**

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instruments for commitments to extend credit and standby letters of credit is represented by the contractual or notional amount of those instruments. The Company uses the same credit policies in making such commitments as it does for instruments that are included in the consolidated balance sheet. A summary of the Company's commitments is as follows:

UNFUNDED COMMITMENTS

<i>(dollars in thousands)</i>	December 31,	
	2004	2003
Commitments to extend credit	\$ 53,017	\$ 19,996
Unused lines of credit	10,217	5,177
Financial standby letters of credit	26,544	13,762
	\$ 89,778	\$ 38,935

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since some commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation. Collateral held varies but may include accounts receivable, inventory, property and equipment, and income-producing commercial properties.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Standby letters of credit generally have fixed expiration dates or other termination clauses and may require payment of a fee. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Company's policy for obtaining collateral, and the nature of such collateral, is essentially the same as that involved in making commitments to extend credit.

At December 31, 2004 and 2003, the carrying amount of liabilities related to the Company's obligation to perform under financial standby letters of credits represented approximately 65% of total capital. The Company has not been required to perform on any financial standby letter of credit, and the Company has not incurred any losses on financial standby letters of credit for the years ended December 31, 2004 and 2003.

15. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of a financial instrument is the current amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair value is based on discounted cash flows or other

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

valuation techniques. These techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. SFAS No. 107, Disclosures about Fair Value of Financial Instruments, excludes certain

F-28

Table of Contents

Index to Financial Statements

financial instruments and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented may not necessarily represent the underlying fair value of the Company.

The following methods and assumptions were used by the Company in estimating the fair value of its financial instruments:

Cash and Cash Equivalents: For these short-term instruments, the carrying amount is a reasonable estimate of fair value.

Securities: Fair value of securities is based on available quoted market prices. The carrying amount of equity securities with no readily determinable fair value approximates fair value.

Loans: The carrying amount of variable-rate loans that reprice frequently and have no significant change in credit risk approximates fair value. The fair value of fixed-rate loans is estimated based on discounted contractual cash flows, using interest rates currently being offered for loans with similar terms to borrowers with similar credit quality.

Deposits: The carrying amount of demand deposits, savings deposits, and variable-rate certificates of deposit approximates fair value. The fair value of fixed-rate certificates of deposit is estimated based on discounted contractual cash flows using interest rates currently being offered for certificates of similar maturities.

Federal Funds Purchased, Repurchase Agreements and Other Borrowings: The carrying amount of variable rate borrowings, federal funds purchased, and securities sold under repurchase agreements approximate fair value. The fair value of fixed rate other borrowings are estimated based on discounted contractual cash flows using the current incremental borrowing rates for similar type borrowing arrangements.

Accrued Interest: The carrying amount of accrued interest approximates their fair value.

Off-Balance-Sheet Instruments: The carrying amount of commitments of to extend credit and standby letters of credit approximates fair value. The carrying amount of the off-balance-sheet financial instruments is based on fees charged to enter into such agreements. These fees are not considered material.

Table of Contents**Index to Financial Statements**

The carrying amount and estimated fair values of the Company's financial instruments are as follows:

FAIR VALUE OF FINANCIAL INSTRUMENTS

<i>(dollars in thousands)</i>	December 31,			
	2004		2003	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:

Other borrowings	16,700	16,674	8,609	8,609
Accrued interest payable	523	523	282	282
TOTAL	\$ 367,294	\$ 368,523	\$ 188,351	\$ 189,938

16. RELATED PARTY TRANSACTIONS

The Company and its subsidiary, Vision Bank, lease premises from Gulf Shores Investment Group, LLC, an Alabama limited liability company. Gulf Shores Investment Group, LLC consists of the directors of Vision Bancshares, Inc. Amounts paid under these leases and agreements approximated \$312 thousand and \$312 thousand in 2004 and 2003, respectively.

In November 2004, Vision Alabama entered into a lease agreement, as the tenant, with Elberta Holdings, LLC, an Alabama limited liability company. J. Daniel Sizemore and James R. Owen, Jr. (directors of Vision Bancshares, Inc.) are members of Elberta Holdings, LLC. The term of the lease is for ten years with an option to renew the lease for two additional terms of five years each. The monthly rent on this lease is in the amount of \$5,418 per month. Payments to Elberta Holdings, LLC for this lease totaled approximately \$11 thousand in 2004. In addition, Vision Alabama agreed to pay insurance on the property and the buildings and all real estate taxes.

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

In August 2004, Vision Florida entered into a lease agreement, as the tenant, with Bay County Investment Group, LLC, a Florida limited liability company. Bay County Investment Group, LLC consists of 22 directors of Vision Bancshares, Inc and/or Vision Florida. The term of this lease is for ten years with an option to renew the lease for three additional terms of three years each. The monthly rent on this lease is in the amount of \$18,858 per month. Payments to Bay County Investment Group, LLC for this lease totaled approximately \$94 thousand in 2004. In addition, Vision Florida agreed to pay all insurance on the property and building, and all real estate taxes.

The Skipper Insurance Agency, of which George W. Skipper, III (a director and principal shareholder of Vision Bancshares, Inc.) is an owner, provides insurance coverage, including but not limited to fire and extended coverage, general liability, fidelity bond and directors and officers liability insurance for the Company and its subsidiaries. The Company paid gross premiums of approximately \$226 thousand in 2004 compared to \$175 thousand in 2003.

F-30

Table of Contents**Index to Financial Statements**

In the opinion of the Company, the cost for the above services is at least as favorable as those that could have been obtained from an unaffiliated party.

Vision Bancshares Financial Group, Inc. (Financial Group), a wholly owned subsidiary of Vision Alabama, was incorporated in 2002 to conduct permissible insurance and securities networking activities. The Financial Group is licensed with the Alabama Department of Insurance as a producer. In October 2002, the Financial Group entered into a Services Agreement with Skipper Insurance Agencies (Skipper Insurance) whereby Skipper Insurance would market and sell insurance products through the Financial Group to customers of Vision Alabama. One or more employees of Skipper Insurance serve as dual employees of the Financial Group. Pursuant to the Services Agreement, Skipper Insurance pays the Financial Group fifty percent (50%) of all dual employees' agent commissions under the New York Standard Contract attributable to the sale of insurance products and twenty percent (20%) of Skipper Insurance's commissions attributable to the sale of property and casualty insurance products. During 2004 and 2003, the Financial Group received approximately \$29 thousand and \$37 thousand, respectively, in commissions from Skipper Insurance. In the opinion of the Company, the agreement for services is at least as favorable as those that could have been obtained from an unaffiliated party.

17. LEASES

The Company and its subsidiaries have entered into certain noncancellable operating and capitalized leases for premises and equipment used in connection with its operations. The majority of these noncancellable lease agreements contain renewal options for varying periods at the same or renegotiated rentals. Future minimum lease payments under all noncancellable operating and capitalized leases with initial or remaining terms (exclusive of renewal options) of one year or more at December 31, 2004 were as follows:

FUTURE MINIMUM LEASE PAYMENTS

<i>(dollars in thousands)</i>	<u>Operating</u>	<u>Capitalized</u>
Years Ending December 31,		
2005	\$ 1,005	\$ 175
2006	995	175
2007	992	175
2008	959	175
2009	944	175
Thereafter	4,333	2,497
	<u> </u>	<u> </u>
Total minimum lease payments	\$ 9,228	\$ 3,372
	<u> </u>	<u> </u>
Less amount representing interest		(1,650)
Present value of minimum lease payments		\$ 1,722
		<u> </u>

Rental expense totaled \$797 thousand and \$433 thousand for the years ended December 31, 2004 and 2003, respectively.

Table of Contents**Index to Financial Statements****18. EARNINGS PER COMMON SHARE**

The components used to calculate basic and diluted earnings per share are as follows:

EARNINGS PER COMMON SHARE

<i>(dollars in thousands, except per share data)</i>	Years Ended December 31,	
	2004	2003
Earnings per common share computation:

Net Income (loss)	\$ 1,189	\$ (251)
Denominator:		
Average common shares outstanding	2,738,049	1,878,168
Dilutive shares contingently issuable**	80,624	
Average diluted common shares outstanding	2,818,673	1,878,168
Diluted earnings (loss) per common share**	\$ 0.42	\$ (0.13)

** For the 2003 fiscal years, potentially dilutive common shares of 38,523 were not included in computing diluted earnings per share because their effect would have been antidilutive.

19. INCOME TAXES

The consolidated provision for income taxes for the years ended December 31, 2004 and 2003 consists of the following:

PROVISION FOR INCOME TAXES

Years Ended December 31,

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

<i>(dollars in thousands)</i>	<u>2004</u>	<u>2003</u>
Income Tax Expense:		
Current Tax Expense	\$ 1,053	\$ 44
Deferred Tax (Benefit)	(435)	(248)
	<u>\$ 618</u>	<u>\$ (204)</u>

F-32

Table of Contents**Index to Financial Statements**

The difference between actual income tax expense and the amount computed by applying the statutory federal income tax rate to income (loss) before income taxes are as follows:

<i>(dollars in thousands)</i>	Years Ended December 31,	
	2004	2003
Federal statutory income tax at 34%	\$ 615	\$ (155)
State income taxes, net of federal tax benefit	38	(58)
Corporate owned life insurance	(26)	1
Disallowed meals and entertainment	7	8
Non-deductible intangibles	5	
Other	(21)	
	<u>\$ 618</u>	<u>\$ (204)</u>

The significant temporary differences that created deferred tax assets and liabilities at December 31 are as follows:

DEFERRED TAX ASSETS AND LIABILITIES

<i>(dollars in thousands)</i>	Years Ended December 31,	
	2004	2003
Deferred tax assets:		
Allowance for possible loan losses	\$ 1,188	\$ 530
Capitalized loan fees	421	
Net operating loss carryforward	128	252
Deferred compensation	46	
Alternative minimum tax credit carryforward		13
Charitable contribution carryforward		14
Unamortized intangible assets	135	205
Unrealized loss on securities available for sale	50	
Other	17	
Total deferred tax assets	<u>1,985</u>	<u>1,014</u>
Deferred tax liabilities:		
Fixed assets	\$ 494	\$ 262
Goodwill	11	
Unrealized gain on securities available for sale		3
Other		

Edgar Filing: VISION BANCSHARES INC - Form 10KSB

Total deferred tax liability	505	265
Net deferred tax asset	\$ 1,480	\$ 749

Management believes it is more likely than not the Company will generate taxable income sufficient to realize the deferred tax benefit. If the Company is unable to generate sufficient taxable income in the future through operating results, increases in the valuation allowance will be required through a charge to income tax expense.

The Company had available at December 31, 2004, \$3,030 thousand of unused state operating loss carryforwards that may be applied against future taxable income and that expire in various years from 2010 to 2024.

Table of Contents**Index to Financial Statements****20. OTHER NONINTEREST REVENUES AND OTHER NONINTEREST EXPENSES**

The components of other noninterest revenues and other noninterest expense in excess of 1% of total revenue as follows:

<i>(dollars in thousands)</i>	Years Ended December 31,	
	2004	2003
<i>Other noninterest revenues</i>		
Other	\$ 468	\$ 84
	<u>\$ 468</u>	<u>\$ 84</u>
<i>Other noninterest expenses</i>		
Director's Fees	\$ 180	\$ 198
Telephone	180	141
Travel and Entertainment	162	135
Other	976	701
	<u>\$ 1,498</u>	<u>\$ 1,175</u>

21. BUSINESS COMBINATIONS

On October 15, 2004, Vision acquired all the issued and outstanding common shares of BankTrust of Florida (formerly Wewahitchka State Bank) in Wewahitchka, Florida. The acquisition was accounted for using the purchase method of accounting and accordingly, the results from BankTrust of Florida's operations have been included in the consolidated financial statements beginning October 16, 2004.

The aggregate purchase price was \$7,500 thousand consisting of all cash.

Of the \$3,888 thousand of acquired intangible assets \$3,311 thousand has initially been allocated to goodwill. The goodwill will not be deductible for tax purposes. The identifiable intangible asset consists of the core deposit premium, which has an estimated fair value of \$577 thousand and a weighted average useful life of seven years.

Index to Financial Statements

Vision has not completed the purchase price allocation relating to the acquisition. The estimated purchase price allocation has been determined as shown in the table below:

BANKTRUST OF FLORIDA

(formerly Wewahichka State Bank)

<i>(dollars in thousands)</i>	October 15, 2004
Cash and due from banks	\$ 2,124
Investments	5,781
Federal funds sold	3,800
Loans, net	33,334
Premises and equipment	1,884
Intangible asset	577
Goodwill	3,311
Other assets	565
Total asset acquired	\$ 51,376
Deposits	\$ 43,298
Other liabilities	578
Total liabilities assumed	\$ 43,876
Net assets acquired	\$ 7,500

Unaudited proforma consolidated results of operations for the years ended December 31, 2004 and 2003 as though the acquisition had been acquired as of January 1, 2003 follows:

<i>(dollars in thousands, except per share data)</i>	For the Years Ended December 31,	
	2004	2003
Net interest income	\$ 13,194	\$ 8,278
Net income	\$ 1,709	\$ 152
Basic earnings per share	\$ 0.62	\$ 0.08
Diluted earnings per share	\$ 0.61	\$ 0.08

The above amounts reflect adjustments for amortization of acquired intangible assets, additional depreciation and amortization of revalued purchased assets.
