- A) *To authorize, pursuant to the provisions of Sections 75 and following of the current Spanish Public Companies Law, the acquisition at any time and whenever considered appropriate by Telefónica Móviles, S.A. - either directly or through any subsidiaries of which it is the controlling company - of the Company's own shares, by sale and purchase or otherwise for valuable consideration.*

This authorization is granted for a period of 18 months from the date of this Shareholders Meeting and is expressly subject to the limitation that at no time may the face value of the own shares acquired under this authorization, when added to that of those already owned by Telefónica Móviles, S.A. and any of the subsidiaries controlled by it, exceed 5% of the capital stock of Telefónica Móviles, S.A. at the date of acquisition. It should also be taken into account that the purchase of significant shareholdings in the capital stock of Telefónica Móviles is subject to the requirements of disclosure of significant shareholdings contained in Royal Decree 377/1991, of March 15, 1991, as amended by Royal Decree 2590/1998, of December 7, 1998, on changes to the legal regime of the securities markets.

B.1.11 Describe the process for setting Board members remuneration and the relevant By-law articles.

Under Article 20 of the By-laws,

The The Directors compensation shall consist of a fixed and set monthly allotment and of per diems for attending the meetings of the Board of Directors and of its executive and advisory committees. The amount of the compensation that the Company can make available for its Directors overall for both items shall be the one determined for this purpose by the General Shareholders Meeting, which shall remain in effect as long as it does not decide to modify it. It shall fall to the Board of Directors to determine the exact amount to be paid within that limit and the distribution thereof among the different Directors.

In addition to and separately from the compensation contemplated in the previous paragraph, the establishment of compensation systems benchmarked to the quoted valued of the shares or entailing the delivery of shares or stock options, intended for the Directors, is provided for. The application of these systems of remuneration must be agreed by the Shareholders Meeting, which shall determine the value of the shares that is to be taken as a reference, the number of shares to be delivered to each Director, the price of exercising the option rights, the period of duration of this system of remuneration and any other conditions that it considers appropriate.

The remuneration envisaged in the previous paragraphs arising out of membership of the Board of Directors shall be compatible with any other professional or or occupational earnings falling due to the Directors for any other executive or advisory duties they perform for the Company, as pertinent, other than those of joint supervision and decision-making specific to their status as Directors, which shall be subject to the legal rules that may apply to them.

Under Article 34 of the Regulations of the Board of Directors,

The Boards shall have the right to receive the remunerations set by the Board of Directors subject to the statutory provisions and prior report of the Appointments and Remuneration Committee.

The Board shall endeavor to ensure that the Directors remuneration is in line with that paid in the market at companies of a similar size and activity.

The Directors remuneration is fully transparent. With this aim, the Appointments and Remuneration Committee carries out an annual review of the policy on Directors remuneration.

Pursuant to these rules and on the basis of surveys commissioned from independent third parties, the Appointments and Remuneration Committee proposes to the Board of Directors the exact amount to be paid within the limit set by the Shareholders Meeting and how it should be distributed among the individual directors, taking into account in order to do so the level of responsibility and commitment and the incompatibilities that performance of the office entails.

B.1.12. Identify any Board members who also sit on board(s) of directors or hold executive posts in companies with significant shareholdings in the listed company and/or in its group companies:

B.1.13 State the amendments, if any, made during the year to the Regulations of the Board of Directors.

On February 17, 2004, the Board of Directors of Telefónica Móviles, S.A. resolved to bring the Company s Board Regulations that had been in force until then into line with the provisions of Law 26/2003, of July 17, 2003 (Law on Transparency), and, accordingly, adopted a new Revised Text of the Regulations. The new Revised Text of the Regulations of the Board of Directors of Telefónica Móviles, S.A. was notified to the Spanish Securities and Exchange Commission (CNMV) on March 17, 2004, filed with the Madrid Companies Register on May 7, 2004, and submitted to the Company s Ordinary Shareholders Meeting on April 16, 2004, thereby complying with the provisions of the new wording of the Spanish Securities Market Law.

Broadly speaking the new Regulations respect and maintain the principal parameters of the previous Regulations as far as structure, content and wording are concerned, the main changes being as follows:

- Ø Changes arising out of the Aldama Report. The concepts of executive Director and independent Director have been brought into line with the provisions of the Aldama Report.

- Ø Changes arising out of the Law on Transparency. The regime of Directors' duties (the right and duty of Directors to be informed and the obligations of loyalty, diligence, fidelity and confidentiality incumbent upon them), which was already regulated in the previous Board Regulations has been adapted to bring it into line with the provisions of the aforementioned Law.

Other changes worth noting are as follows:

- Ø The wording of certain articles has been adapted to bring them into line with the Company's current By-laws. Thus, Article 24 of the Regulations has been brought into line with the provisions of Article 19 bis of the By-laws, relating to the Audit and Control Committee, which was approved by the Shareholders' Meeting on April 1, 2003, in conformity with Law 44/2002, of November 22, 2002, on Measures to Reform the Financial System. Likewise, Article 34 of the Regulations has been brought into line with the provisions of Article 20 of the By-laws, relating to the system of Directors' remuneration, in its new wording approved by the aforementioned Shareholders' Meeting on April 1, 2003.
- Ø Finally, for systematic reasons and for technical enhancement, slight changes have been made in the wording and order of the articles of the Regulations.

B.1.14. Describe any procedures for appointment, re-election, assessment and removal of directors. List the competent bodies, the steps to be taken and the criteria to be applied in each such procedure.

Appointment

Telefónica Móviles, S.A.'s By-laws specify that the Board of Directors shall consist of a minimum of three and a maximum of nineteen members, who shall be appointed by the Shareholders' Meeting. In accordance with the provisions of the Spanish Public Companies Law and the By-laws, the Board of Directors may provisionally fill vacancies by co-option.

In this respect it should be pointed out that, as a general rule, the appointment of Directors at Telefónica Móviles, S.A. is submitted to the Shareholders' Meeting for decision. Only on certain occasions, when it is essential because vacancies have arisen since the Shareholders' Meeting, are Directors appointed by co-option, in conformity with the provisions of the Spanish Public Companies Law, and this decision is ratified at the next Shareholders' Meeting.

Otherwise, and in all cases, proposals for the appointment of Directors must comply with the requirements of the Board Regulations and be preceded by the relevant favorable report from the Appointments and Remuneration Committee, which is not binding.

In this way, and in compliance with the provisions of the Regulations, the Board of Directors, when exercising its right to co-opt and to propose appointments to the Shareholders' Meeting, shall endeavor to ensure that the external or non-executive Directors represent an ample majority over the executive Directors. The Board shall likewise endeavor to ensure that the majority group of external Directors comprises, on the one hand, those proposed by the owners of stable significant shareholdings in the Company (domanian Directors) and, on the other, professionals of high standing who are not related to the executive team or to the significant shareholders (independent Directors). In order to establish a reasonable equilibrium between both types of external directors, the Board shall take into account the Company's ownership structure, so that the ratio of one type of Directors to the other reflects the ratio of stable capital to floating capital.

As far as the choice of external or non-executive Directors is concerned, the candidates must be persons of recognized integrity, competence and experience, who are willing to dedicate a sufficient portion of their time to the Company, and particular care must be taken when choosing candidates for independent directorships.

As regards the choice of the latter, the Regulations of the Board of Directors specify that in order to fill independent directorships the Board shall propose or appoint persons who meet conditions that ensure their impartiality and objective judgment. These conditions include, by way of illustration, the following:

- a) that they do not have, or have not recently had, any material direct or indirect employment, commercial or contractual relationship with the Company, its executives, its domanial directors or the group companies whose shareholding interests the latter represent, credit institutions occupying a prominent position in the company financing, or organizations that receive significant subsidies from the company;
- b) that they are not directors of any other listed company which has domanial directors at the Company;
- c) that they are not close family relatives of the executive Directors, the domanial Directors or the members of the Company's senior management.

B.1.25 Describe the mechanisms, if any, established by the Board of Directors to avoid the individual and consolidated financial statements formulated by it and submitted to the Shareholders Meeting containing qualifications in the auditors' report.

The Board of Directors, through the Audit and Control Committee, assumes a fundamental role in the supervision of the process of preparing the Company's financial information, serving to control and coordinate the various players involved. In this respect, and in order to achieve this objective, the work of the Audit and Control Committee addresses four fundamental issues:

- (i) being aware of the company's financial reporting process and internal control systems,
- (ii) monitoring the independence of the external auditors, by supervising their work and serving as a conduit for communication between the Board of Directors and the auditors and between the auditors and the Company's management,

- (iii) supervising the internal audit services, and

- (iv) supervising the suitability and integrity of the internal financial information audit systems.

The Audit and Control Committee verifies both the Company's periodic financial information and annual financial statements, ensuring that all the financial information is prepared in accordance with the same principles and professional practices. In order to do so, the Audit and Control Committee meets as often as is appropriate, and did so on 12 occasions in 2004.

Apart from that, the external auditors regularly participate in the meetings of the Audit and Control Committee to explain and clarify, at the Committee's request, aspects of the audit reports and of the work done by the external auditors. In addition, at the Committee's request, other members of the management team of both the Company and its subsidiaries have participated to explain specific matters affecting their respective areas of responsibility. In particular, mention is made of the participation of the managers in charge of the financial area and accounting consolidation, and those in charge of internal audit.

The above notwithstanding, Article 39 of the Regulations of the Board of Directors states that the Board of Directors must endeavor to definitively formulate the accounts so as to avoid giving rise to qualifications by the auditors, although the Regulations also indicate that when the Board considers that it must stand by its opinion, it must publicly explain the content and scope of the disagreements.

B.1.26 Describe the measures taken to ensure that the information disclosed to the securities markets is conveyed equitably and symmetrically.

The new legal requirements affecting Telefónica Móviles, S.A. arising out of both Spanish and US legislation, together with the recent developments in corporate governance, have led the Company to adopt a specific set of rules with the aim of demonstrating its commitment to transparency with the markets, and so that all the information disclosed to the securities markets is conveyed equitably and symmetrically. As a result of this commitment, on April 29, 2003, the Board of Directors of Telefónica Móviles, S.A. adopted the Rules on Disclosure of Information to the Markets.

According to the Rules on Disclosure of Information to the Markets, and pursuant to Section 82.2 of the Spanish Securities Markets Law, the Company immediately discloses all material information to the markets by submitting a notice to the Spanish Securities & Exchange Commission (CNMV). Likewise the Company similarly forwards to the US market each and every one of the notices that, for these purposes, it has filed with the CNMV.

Likewise, the Company publishes on its website all the material information notices that it files with the CNMV in compliance with the relevant applicable requirements.

Information of relevant events comply with the requirements relating to timing and format laid down by each of the regulations governing the markets on which the Company's shares are listed, and this includes the use of such electronic systems to record information as may be necessary.

Additionally, through the Investor Relations area, the Company publishes all the presentations made in industry fixed income or equities forums or conferences on its website, within the Information for shareholders and investors section. On certain occasions, such as the publication of results or in the case of significant strategic operations or decisions, audio conferences are arranged that can be followed either by telephone or on the Internet (web cast), thus guaranteeing universal access to the information in real time.

B.1.27 Is the Secretary of the Board a Director?

Yes No

B.1.28 Describe the mechanisms, if any, established by the Company to safeguard the independence of auditors, financial analysts, investment banks and rating agencies.

With regard to the independence of the Company's external auditors, Article 39 of the Telefónica Móviles Regulations of the Board of Directors specifies that the Board of Directors, through the Audit and Control Committee, must establish a stable, professional relationship with the auditors, with strict respect for their independence. Thus, the fundamental responsibilities of the Audit and Control Committee include that of liaising with the Auditors to receive information on any issues that might jeopardize the latter's independence and monitoring situations that may involve a threat to the independence of the Company's external auditors. Along these lines, and in the light of domestic (Law 44/2002, of November 22, 2002, on Financial System Reform Measures) and foreign (Sarbanes-Oxley Act) legislation, the Board of Directors approved a set of Regulations governing Relations with the External Auditors that regulate all aspects of the relationship between the Company and its Group and the External Auditors, ranging from appointing the auditors to supervising their activities, and including the requirement that the Audit and Control Committee must approve all the services provided by the auditors, in particular, those that are not specifically audit services as defined and described in the aforementioned Regulations. The Audit and Control Committee has assumed the power of approving all these services, not only when they are provided to Telefónica Móviles, S.A. but also when they are provided to subsidiaries that do not have their own Audit and Control Committee.

Additionally, under Article 24 of the Regulations of the Board of Directors, it is the Company's Audit and Control Committee that proposes the appointment of the External Auditors to the Board of Directors for submission to the Shareholders' Meeting, and, as appropriate, the terms of engagement, including the amount of their remuneration, the scope of their professional remit and the termination or renewal of the appointment.

Furthermore, the external auditors have direct access to the Audit and Control Committee, and usually participate in Committee meetings, without the presence of members of the Company's management team whenever that might be necessary. In this respect, and in accordance with the requirements of the relevant US legislation, the external auditors have a duty to inform the Audit and Control Committee, at least once a year, about the most significant accounting policies and practices applied in preparing the Company's financial and accounting information, any alternative accounting treatment within the generally accepted accounting principles and practices that affects any material element within the financial statements that may have been discussed with the management team and, lastly, any material communication between the auditors and the Company's management team.

In accordance with its terms of reference, the Audit and Control Committee monitors situations that may involve a threat to the independence of the Company's External Auditors and specifically supervises the percentage that the fees paid by the Company represent in the total revenues of the audit firm. In this respect, in accordance with current legal requirements, the Company discloses in its annual report the fees paid to the External Auditors, including those relating to services other than audit services.

Finally, it is appropriate to point out, as indicated in more detail in response to question B.1.30 below, that Telefónica Móviles, S.A. has initiated a process to select new auditors for the 2005 accounts from among firms of high standing that meet the necessary conditions to be able to perform the relevant accounts audit work.

B.1.29 Indicate whether the audit firm does work for the Company and/or its group other than audit work and, if so, state the fees received by it for such work and the amount of such fees as a percentage of the fees billed to the Company and/or its Group.

Article 27 of the Regulations of the Board of Directors states that, in order to obtain help in their duties, the External Directors may agree by majority, or any of the Committees of the Board by majority resolution by its members, to request the hiring of legal, accounting, financial advisors or other experts, at the expense of the Company.

The task commissioned must necessarily concern specific problems of a certain importance and complexity that arise when performing their duties.

The decision to hire such services must be reported to the Chairman of the Company and shall be carried out through the Secretary of the Board, except if the Board of Directors does not consider it necessary or convenient to hire these.

B.1.33 Indicate whether there are procedures for directors to receive the information they need in sufficient time to prepare for the meetings of the governing bodies.

Yes No

Description of the procedure

All Board meetings have a pre-established Agenda that is circulated in advance, together with the notice calling the meeting. The Company takes the necessary measures to ensure that Directors are provided in advance with sufficient information specifically produced and designed to enable them to prepare for Board Meetings and Board Committee Meetings.

To furnish all the information and clarifications necessary in relation to certain of the issues discussed, the Group's principal executives attend practically all of the Board Meetings, in order to explain matters within their scope of responsibility.

In addition, and as a general rule, the Regulations of the Board of Directors also specifically state that Directors are vested with the broadest powers to obtain information on any aspect of the Company, to examine its books, records, documents and other background details relating to corporate operations. The exercise of this right to information shall be channeled through the Chairman or the Secretary of the Board of Directors, who shall respond to Directors' requests by providing them with the information directly, or by putting them in touch with the appropriate Company executives.

B.2.3 Describe the organizational and functional rules and the responsibilities attributed to each of the board committees:

EXECUTIVE COMMITTEE

a) Composition.

The Executive Committee is made up of the Chairman of the Board and seven members appointed by the Board of Directors.

In conformity with the provisions of the Regulations of the Board of Directors, in the qualitative composition of the Executive Committee, the Board has endeavored to ensure that the external or non-executive Directors represent a majority over the executive Directors (seven to one).

In any case, the appointment or re-appointment of the members of the Executive Committee shall require the vote in favor of at least two-thirds of the members of the Board of Directors in order to be valid.

b) Operation.

The Executive Committee meets whenever called to do so by its Chairman.

The functions of Chairman and Secretary of the Executive Committee are performed by the persons holding these same offices on the Board of Directors.

There is a quorum for meetings of the Executive Committee when half plus one of the Committee members are present or represented.

Edgar Filing: TELEFONICA MOBILE INC - Form 6-K

Resolutions are adopted by a majority of the Directors attending the meeting (present or represented), and the Chairman has the casting vote in the event of a tie.

c) Responsibilities.

Pursuant to the provisions of the Company By-laws and the Regulations of the Board of Directors, the Board of Directors, always subject to current legal provisions, has delegated all of its powers, except for those that are non-delegable by law or under the By-laws, to an Executive Committee, although, in practice, the very high level of operations of the Board of Directors and its adequate capacity to handle

the volume of matters that are submitted to it for consideration mean that this Committee does not play such a significant role as in other companies. For this reason, on April 29, 2003, the Board of Directors resolved, without prejudice to the powers already delegated to the Committee and in line with the Good Governance recommendations, to assign to this Committee the functions that are normally the remit of strategy Committees. In this way, the function of this body has been revitalized.

d) Relationship with the Board of Directors.

Relations between the two bodies are based on the principle of transparency, so that the Board always has full knowledge of the decisions taken by the Committee. Thus, the Board of Directors is informed at each of its meetings of all the resolutions adopted by the Executive Committee, and such resolutions are also subject to ratification by the Board.

AUDIT AND CONTROL COMMITTEE

In implementation of Article 19 bis of the By-laws of Telefónica Móviles, S.A., Article 24 of the Company's Regulations of the Board of Directors governs the Audit and Control Committee in the following terms:

a) Composition.

The Audit and Control Committee shall consist of three Directors appointed by the Board of Directors. All of the members of the Committee are non-executive Directors.

The Chairman of the Audit and Control Committee has been appointed from among its members, and must be replaced every four years; he may be re-elected once one year has elapsed since the end of his term of office. To comply with this provision, at its meeting in November 2004 the Audit and Control Committee resolved that Javier Echenique Landiribar should replace Miguel Canalejo Larrainzar as Chairman.

b) Responsibilities

Without prejudice to any other task it may be given by the Board of Directors, the primary function of the Audit and Control Committee is to support the Board of Directors in its supervisory functions and, specifically, it has the following responsibilities:

1. To report, through the Chairman, to the Shareholders' Meeting on issues raised by the shareholders in relation to matters within the Committee's remit;
2. To propose to the Board of Directors, for submission to the General Shareholders' Meeting, the appointment of the Accounts Auditor referred to under Article 204 of the Corporations Act, as well as the terms of the retainer thereof, the scope of the professional assignment and the renewal or revocation of the appointment, as pertinent;

Edgar Filing: TELEFONICA MOBILE INC - Form 6-K

3. To oversee the internal audit services;
4. To be aware of the financial reporting and internal control systems procedures; and
5. To liaise with the Auditors in order to receive information on any issues that might jeopardize the latter's independence, and any others connected with the auditing procedure, and to receive information and to maintain with the Auditors the communications envisaged in audit legislation and in the technical auditing regulations.

6. In conjunction with the Appointments and Remuneration Committee, to supervise the preparation of the Annual Corporate Governance Report and to submit it to the Board for approval.

c) Operation.

The Audit and Control Committee meets at least once a quarter and as often as appropriate when called by the Chairman, at his own initiative, or when requested by two of its members or by the Executive Committee. There is a quorum for meetings of the Audit and Control Committee when at least half of its members are present or represented and resolutions are adopted by a majority of those attending. When there is a tie in voting, the Chairman shall have the casting vote.

The Audit and Control Committee may request the attendance at its meetings of the Company's Auditors and of the internal audit manager.

APPOINTMENTS AND REMUNERATION COMMITTEE

a) Composition.

The Appointments and Remuneration Committee is made up of five Directors. All of the members of the Committee are non-executive Directors.

The Chairman of the Appointments and Remuneration Committee has been appointed from among its members.

b) Responsibilities.

Without prejudice to any other task it may be given by the Board of Directors, the Appointments and Remuneration Committee has the following responsibilities:

1. To report on proposals for appointment of Directors and senior executives of the Company and its subsidiaries;
2. To approve the remuneration scales for the Company's senior executives;
3. To approve the standard contracts for the Company's senior executives;
4. To establish the Chairman's remuneration arrangements;

Edgar Filing: TELEFONICA MOBILE INC - Form 6-K

5. To report and put forward proposals to the Board of Directors on the Directors' compensation arrangements and review them periodically to ensure that they are appropriate to the tasks performed by the Directors, in conformity with the provisions of Article 34 of the Regulations of the Board of Directors;

6. To report on the incentive plans;
7. To examine the Directors and senior executives pay policy each year;
8. To report on proposals for the appointment of members of the Executive Committee and the other Board Committees;

10. To supervise, in conjunction with the Audit and Control Committee, the preparation of the Annual Corporate Governance Report and to submit it to the Board for approval.
11. To exercise the other powers assigned to it by the Regulations of the Board of Directors.

An account is given at the Board's next meeting of the actions taken by the Appointments and Remuneration Committee and, in any event, the Board is provided with the relevant documentation in order for it to be informed of such actions for the exercise of its responsibilities.

c) Operation.

The Appointments and Remuneration Committee shall meet whenever the Board of Directors or the Company Chairman ask for a report to be issued or for proposals to be approved within the Committee's remit, and whenever the Chairman of the Committee considers it appropriate for the proper performance of its functions.

B.2.4. Indicate any advisory and consultancy powers and, where applicable, proxies assigned to each committee:

Appointments and Remuneration Committee	Advisory and control committee

B.2.5 Indicate any regulations that may cover the board committees; where they are available for consultation, and any changes that may have been made during the year. Indicate whether any annual report has been voluntarily drawn up on the activities of each committee.

The organization and operation of the Board Committees are specifically regulated within the Regulations of the Board of Directors. These Regulations are available for consultation on the Company's website, in the records of the Spanish Securities & Exchange Commission (CNMV) and at the Madrid Companies Register.

B.2.6. If there is an Executive Committee describe its degree of delegation and autonomy in the exercise of its functions for the adoption of resolutions about the administration and management of the Company.

Telefónica Móviles has an Executive Committee.

In conformity with the provisions of the Company By-laws and the Regulations of the Board of Directors, the Board of Directors, always subject to current legal provisions, has delegated all of its powers, except for those that are non-delegable by law or under the By-laws, to an Executive Committee, although, in practice, the very high level of operations of the Board of Directors and its adequate capacity to handle the volume of matters that are submitted to it for consideration mean that this Committee does not play such a significant role as in other companies. In this way, the function of this body has been revitalized.

Relations between the two bodies are based on the principle of transparency, so that the Board always has full knowledge of the decisions taken by the Committee. Thus, the Board of Directors is informed at each of its meetings of all the resolutions passed by the Executive Committee, to which end the minutes of the Committee's meetings are circulated to all the Directors, and such resolutions are also subject to ratification by the Board.

Telefónica Móviles, S.A. constantly monitors the most significant risks that could affect the principal companies that make up its group. In order to do so it has a Corporate Model that is applied periodically and uniformly to the group companies, making it possible to assess the importance of each of the risks that could affect the companies as well as the degree of control over each of them. In this way, the group has a map of risks that enables it to identify those requiring specific control and monitoring, prioritized according to their importance. Likewise, the model has a matrix that covers the operating processes used to manage each of the risks considered in order to assess the controls established and to be able to be reasonably certain that they will not materialize.

These risks and processes are identified by the Office of the Secretary General, which is responsible for the Group's Internal Audit Area, and the results are reported periodically to the Audit and Control Committee of Telefónica Móviles, S.A.

The 50 risks considered by the model are divided into the following categories:

I.-Business process risks:

I.1.- Operating risks (risks that could affect the effectiveness and efficiency of the operating processes and the provision of services, customer satisfaction and the reputation of Group companies).

I.2.- Integrity risks (internal and external fraud).

In this line, the Board of Directors has approved Regulations on Relations with the External Auditors that regulate the relations of the Company with the accounts auditor, the scope of responsibilities, incompatibilities and approval of the services provided.

Lastly, pursuant to prevailing legislation the Company's annual report shall disclose the fees paid to the External Auditor for professional services other than auditing.

In compliance with US legislation in this respect and with the Aldama Report, the auditing and similar services provided by the External Auditor to the Company must first be approved by the Audit and Control Committee.

In any case, it should be highlighted that Telefónica Móviles, S.A., like Telefónica, S.A., has begun a process to select a new account auditor from among firms of recognized prestige that have the necessary conditions for the auditing of the accounts, and it has invited the companies in the Telefónica Móviles Group to join the selection process as they see fit.

The decision to arrange this process of selecting an account auditor was taken for reasons of market transparency and compliance with the spirit of the law on the independence of account auditors, including their rotation within a reasonable period after their appointment as well as the contracting of the same account auditor by all the Group's companies, within the framework of due respect for the autonomy of these companies shareholder bodies. Furthermore, from the standpoint of opportunity, the present time was considered particularly appropriate in view of the upcoming adaptation of accounts to the IAS, with the selection of a new account auditor coinciding with the application of the new accounting standards.

When the selection process has concluded, the appointment of the account auditor selected will be proposed to the General Shareholders Meeting of Telefónica Móviles, S.A.

Note to Item B2.1.

The powers that are reserved by law or statute for the exclusive knowledge of the Board may not be delegated, nor others that are required for responsible exercise of their basic function of supervision and control.

Within the scope of its supervisory and controlling duties, the Board of Directors shall set the strategies and directives for management of the Company; it shall set the bases of the corporate organization in order to guarantee its greater efficiency; it shall implement and ensure instrument of adequate information procedures at the Company for the shareholders and markets in general; it shall make the appropriate decisions on the corporate and financial operations of special transcendence for the Company; and it shall approve the bases of its own organization and operation for better fulfillment of these duties.

To the ends stated and within those limits, the Board of Directors of Telefónica Móviles, S.A. shall implement the necessary instruments to establish adequate co-ordination relations based on mutual interest and, thus, with respect to their respective corporate interests.

Telefónica Móviles, S.A. forms part of the Telefónica Group, its significant shareholder.

With respect to Telefónica Móviles, S.A.'s relationship with the Telefónica Group, its significant shareholder, and the Group companies, the Telefónica Group's organizational structure and coordination policies translate into the centralization of, among others, its financial policy and, in some cases, its financial management. Accordingly, most of Telefónica Móviles, S.A.'s transactions with its parent company and companies of the Telefónica Groups are of a financial nature, corresponding to funding needs and the interest-rate and exchange-rate hedging. All loans and credit lines accrue interest at market rates.

In 2004, as reflected in the Móviles Group's consolidated annual financial statements, the balance of accounts payable for loans and credit lines with companies of the Telefónica Group amount to 9,615 million euros, which accrued financial expenses of 339 million euros in the year.

The prices and conditions applied to these operations are the same as what the companies could obtain on their own in the market under highly efficient conditions, i.e. with no extra costs due to the absence of scale (and without incurring overheads). The execution of intra-group transactions at market prices is essential for the correct evaluation of the management of these companies as well as to guarantee the transactions' transparency with respect to their conditions and contract terms and their due compliance with applicable regulatory and tax requisites.

Additionally, in special circumstances and depending on the nature of the transaction, Telefónica, S.A. has guaranteed certain transactions for subsidiaries of Telefónica Móviles, S.A., which have in turn been counter-guaranteed by Telefónica, S.A.

None of the Board members has voted against or has abstained its vote to this Corporate Governance Report.
