Item 2.02. Results of Operations and Financial Condition

On August 2, 2006, MasterCard Incorporated (MasterCard or the Company) issued a press release announcing financial results for its second quarter ended June 30, 2006.

A copy of the press release is attached hereto as Exhibit 99.1. All information in the press release is furnished but not filed.

Non-GAAP Financial Information

In the attached press release, the Company discloses the following non-GAAP financial measures:

Information regarding its expenses, income and earnings per share for the three and six month periods ended June 30, 2006 that exclude a charge associated with the establishment of reserves recorded for litigation settlements. MasterCard's management believes that this information facilitates understanding of MasterCard's operating performance and facilitates meaningful comparison of its results between periods.

Information regarding its income and earnings per share for the three and six month periods ended June 30, 2006 that exclude interest income earned on proceeds from the initial public offering of MasterCard Incorporated's Class A common stock used to effect the redemption of shares of Class B common stock. MasterCard's management believes that because this interest income relates to cash assets that were held only temporarily by MasterCard prior to effecting the redemption of shares of Class B common stock, this information facilitates meaningful comparison of MasterCard's results between periods.

Information regarding its expenses, income, earnings per share and effective tax rate for the three and six month periods ended June 30, 2006 that exclude a non-cash charge associated with the donation of approximately 13.5 million shares of Class A common stock to The MasterCard Foundation that occurred simultaneously with MasterCard's initial public offering in May 2006. MasterCard's management believes that because the expense (which is not deductible for tax purposes) associated with the donation of shares of Class A common stock to The MasterCard Foundation is non-cash and non-recurring, this information enhances understanding of MasterCard's operating performance and facilitates meaningful comparison of its results between periods.

Reconciliations of these non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are included in the attached press release. While MasterCard's management believes that this non-GAAP financial information is useful in evaluating MasterCard's operations, this information should be considered as supplemental in nature and not in isolation or as a substitute for the related financial information prepared in accordance with GAAP.

Item 7.01 Regulation FD Disclosure

On August 2, 2006, the Company will host a conference call to discuss its second quarter 2006 financial results. A copy of the presentation to be used during the conference call is attached hereto as Exhibit 99.2. All information in the presentation is furnished but not filed.
