ANNOUNCEMENT OF FINANCIAL RESULTS

(Note: Dollar amounts for the most recent period have been translated for convenience at the rate of U.S.\$1.00 = 115 yen.)

MATSUSHITA REPORTS FIRST QUARTER NET PROFIT INCREASE

- First-half Forecast Revised on Favorable First Quarter Results -

Osaka, Japan, July 26, 2006 Matsushita Electric Industrial Co., Ltd. (Matsushita [NYSE symbol: MC]) today reported its consolidated financial results for the first quarter, ended June 30, 2006, of the current fiscal year ending March 31, 2007 (fiscal 2007).

First-quarter Results

Consolidated group sales for the first quarter increased 4% to 2,136.9 billion yen (U.S.\$18.58 billion), from 2,048.2 billion yen in the same three-month period a year ago. Explaining the first quarter results, the company cited sales gains in digital audiovisual (AV) products, especially V-products, both in Japan and overseas. Of the consolidated group total, domestic sales amounted to 1,061.9 billion yen (\$9.23 billion), mostly unchanged from 1,064.7 billion yen a year ago. Overseas sales increased 9%, to 1,075.0 billion yen (\$9.35 billion), from 983.5 billion yen in the first quarter of fiscal 2006, caused by favorable sales by all regions, represented by a sharp sales increase in Europe mainly as a result of strong sales of flat panel TVs.

Table of Contents

- 2 -

During the first quarter under review, the global economy continued steady growth overall, with strong economic conditions in the United States and China, as well as the economic growth in Japan with favorable capital investment and consumer spending. Meanwhile, in the electronics industry as a whole, a severe business environment continued due primarily to rising raw materials prices and continuous price declines mainly in digital AV products caused by intensified global competition. Under these circumstances, Matsushita strives to implement growth strategies and strengthen management structures to ensure its future growth trend.

Matsushita aggressively launched and promoted a new series of V-products to capture the top shares in the markets and make a significant contribution to overall business results. The company also continued collaboration activities with Matsushita Electric Works, Ltd. (MEW), whereby combining differentiated technologies and utilizing mutual sales channels. Furthermore, aiming to reinforce its management structures, the company has made all-out efforts to reduce materials costs and other expenses. These activities, including company-wide cost reduction activities, have contributed to enhanced profitability.

Regarding earnings, despite intensified global price competition and rising raw materials prices, increased sales, comprehensive cost reduction efforts and other positive factors boosted operating profit¹ for the first quarter to 65.1 billion yen (\$566 million), up 41% from 46.0 billion yen in the same period a year ago. Pre-tax income also increased 14% to 75.4 billion yen (\$656 million), despite other income (deduction) decreased by 9.9 billion yen due mainly to the previous year's 10.3 billion yen gain from the sale of shares of Matsushita Leasing & Credit Co., Ltd. (MLC)². Net income increased 7% to 35.8 billion yen (\$312 million), from 33.4 billion yen in the same quarter of the previous year.

¹ For information about operating profit, see Note 2 of Notes to consolidated financial statements on page 12.

² For information about the sale of shares of MLC, see Note 3 of Notes to consolidated financial statements on page 12.

Consolidated Sales Breakdown by Product Category

The company's first quarter consolidated sales by product category, as compared with prior year amounts, are summarized as follows:

AVC Networks

AVC Networks sales increased 4% to 877.8 billion yen (\$7.63 billion), compared with 846.2 billion yen in the same period of the previous year. Sales of video and audio equipment increased 14% from the previous year, due mainly to strong sales of digital AV products, such as plasma TVs and digital cameras.

Sales of information and communications equipment decreased 3%, mainly as a result of a substantial sales decline of mobile phones in Japan and overseas, although sales gains were recorded in PCs and automotive electronics equipment.

Home Appliances

Sales of Home Appliances increased 2% to 313.7 billion yen (\$2.73 billion), compared with 308.4 billion yen in the previous year. Within Home Appliances, despite sluggish sales of air conditioners associated with cold summer in Europe and China, sales gains were recorded in refrigerators and washing machines, resulting in overall increased sales.

Components and Devices

Sales of Components and Devices increased 7% to 270.1 billion yen (\$2.35 billion), compared with 251.6 billion yen in the previous year. Strong sales in general electronic components, semiconductors, batteries and electric motors led to overall sales gains in this category.

MEW and PanaHome

Sales of MEW and PanaHome increased 7% to 367.4 billion yen (\$3.19 billion) from 342.7 billion yen a year ago. At MEW and its subsidiaries, sales gains were recorded with favorable sales in electrical construction materials, electronic and plastic materials and automation controls. At PanaHome Corporation, favorable sales in detached housing contributed to increased sales. Accordingly, overall sales growth was achieved in this category.

Table of Contents

- 4 -

JVC

Sales for JVC (Victor Company of Japan, Ltd. and its subsidiaries) increased 1% to 150.2 billion yen (\$1.31 billion), from 148.9 billion yen a year ago. Despite sluggish sales of DVD recorders, sales gains were recorded in camcorders and LCD TVs, resulting in overall increased sales compared with a year ago.

Other

Sales for Other increased 5% to 157.7 billion yen (\$1.37 billion), from 150.4 billion yen a year ago. Strong sales were recorded in factory automation (FA) equipment, resulting in overall increased sales in this category.

Consolidated Financial Condition

Net cash provided by operating activities for the first quarter of fiscal 2007 amounted to 107.9 billion yen (\$939 million), primarily attributable to net income and depreciation. Net cash used in investing activities amounted to 247.0 billion yen (\$2.15 billion). Capital expenditures for tangible fixed assets amounted to 91.7 billion yen (\$797 million), including manufacturing facilities for priority business areas such as semiconductors and plasma display panels, while time deposits increased 130.0 billion yen from the end of fiscal 2006 (March 31, 2006). Net cash used in financing activities was 83.3 billion yen (\$724 million), including a repurchase of the company's common stock and the payments of dividends. All these activities resulted in a balance of cash and cash equivalents of 1,441.6 billion yen (\$12.54 billion) at the end of June 2006, whereby the company's cash balance decreased 225.8 billion yen from the end of fiscal 2006.

The company's consolidated total assets as of June 30, 2006 increased 6.3 billion yen to 7,970.9 billion yen (\$69.31 billion), as compared with 7,964.6 billion yen at the end of fiscal 2006. This increase was due primarily to an increase in inventories for seasonal factors. Stockholders equity decreased 54.5 billion yen, as compared with the end of the last fiscal year, to 3,733.1 billion yen (\$32.46 billion). Despite an increase in other retained earnings, this result was due mainly to a decrease in accumulated other comprehensive income and an increase in treasury stock on repurchases of the company's own shares.

Outlook for Fiscal 2007 First Half

The company expects a severe environment to persist in the second quarter of fiscal 2007 with continuing price declines caused by ever-intensified price competitions and increases in crude oil and other raw materials prices. However, Matsushita today announced an upward revision of its forecast for the fiscal 2007 first half, ending September 30, 2006. This upward revision is due mainly to favorable sales in digital AV products, including flat-panel TVs, and the successful introduction of V-products. On a consolidated basis, Matsushita expects sales for the first half to increase by 90 billion yen to 4,340 billion yen, compared with the previous forecast of 4,250 billion yen. Meanwhile, the revised forecast for income before income taxes is 190 billion yen, up from the previous forecast of 160 billion yen. This upward revision is due mainly to the aforementioned sales increases and an expected gain from the sale of property, plant and equipment in the first half of fiscal 2007. Net income for the first half is now estimated to be about 90 billion yen, compared with the previous forecast of 70 billion yen.

The forecast for the full fiscal year 2007, ending March 31, 2007, remains unchanged from the forecast announced on April 28, 2006.

Matsushita Electric Industrial Co., Ltd., best known for its Panasonic brand products, is one of the world's leading manufacturers of electronic and electric products for consumer, business and industrial use. Matsushita's shares are listed on the Tokyo, Osaka, Nagoya, New York and Frankfurt³ stock exchanges.

Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its Group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, the Chinese yuan, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Matsushita Group; the possibility that the Matsushita Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, and deferred tax assets; future changes or revisions to accounting policies or accounting rules; as well as natural disasters including earthquakes and other events that may negatively impact business activities of the Matsushita Group. The factors listed above are not all-inclusive and further information is contained in Matsushita's latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission.

Notes to consolidated financial statements:

1. The company's consolidated financial statements are prepared in conformity with U.S. generally accepted accounting principles (U.S. GAAP).
2. In order to be consistent with generally accepted financial reporting practices in Japan, operating profit is presented as net sales less cost of sales and selling, general and administrative expenses. The company believes that this is useful to investors in comparing the company's financial results with those of other Japanese companies. Please refer to the accompanying consolidated statement of income and Note 5 for U.S. GAAP reconciliation.
3. On April 1, 2005, Matsushita sold approximately 2,707 thousand shares of Matsushita Leasing & Credit Co., Ltd. (MLC) to The Sumitomo Trust & Banking Co., Ltd. (STB) for cash proceeds of 27,756 million yen, and recorded a gain of 10,313 million yen, pursuant to a basic agreement regarding the equity ownership of MLC concluded between the company and STB. As a result of the sale, Matsushita now owns 34% of MLC's total issued shares. MLC (renamed Sumishin Matsushita Financial Services Co., Ltd. on May 1, 2005) was changed from a consolidated subsidiary to an equity method investee of Matsushita as of April 1, 2005.
4. Comprehensive income was reported as a gain of 8,217 million yen (\$71 million) for the first quarter of fiscal 2007, and a gain of 63,000 million yen for the first quarter of fiscal 2006. Comprehensive income includes net income and increases (decreases) in cumulative translation adjustments, unrealized holding gains of available-for-sale securities, unrealized gains (losses) of certain derivative instruments and minimum pension liability adjustments.
5. Under U.S. GAAP, expenses associated with the implementation of early retirement programs at certain domestic and overseas companies are included as part of operating profit in the statement of income.
6. Regarding consolidated segment profit, expenses for basic research and administrative expenses at the corporate headquarters level are treated as unallocatable expenses for each business segment, and are included in Corporate and eliminations.
7. The company's business segments are classified according to a business domain-based management system, which focuses on global consolidated management by each business domain, in order to ensure consistency of its internal management structure and disclosure.

Principal internal divisional companies or units and subsidiaries operating in respective segments are as follows:

AVC Networks

Panasonic AVC Networks Company, Panasonic Communications Co., Ltd.,

Panasonic Mobile Communications Co., Ltd., Panasonic Automotive Systems Company,

Panasonic System Solutions Company, Panasonic Shikoku Electronics Co., Ltd.

Home Appliances

Home Appliances Group, Healthcare Business Company, Lighting Company,

Matsushita Ecology Systems Co., Ltd.

Components and Devices

Semiconductor Company, Matsushita Battery Industrial Co., Ltd.,

Panasonic Electronic Devices Co., Ltd., Motor Company

MEW and PanaHome

Matsushita Electric Works, Ltd., PanaHome Corporation

IVC

Victor Company of Japan, Ltd.

Other

Panasonic Factory Solutions Co., Ltd., Matsushita Welding Systems Co., Ltd.

8. Number of consolidated companies: 643

9. Number of companies reflected by the equity method: 66

10. United States Dollar amounts are translated from yen for convenience at the rate of U.S. \$1.00 = 115 yen, the approximate rate on the Tokyo Foreign Exchange Market on June 30, 2006.

11. Each American Depositary Share (ADS) represents 1 share of common stock.

Disclaimer Regarding Forward-Looking Statements

This document includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its Group companies (the Matsushita Group). To the extent that statements in this document do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this document. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, the Chinese yuan, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Matsushita Group; the possibility that the Matsushita Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, and deferred tax assets; future changes or revisions to accounting policies or accounting rules; as well as natural disasters including earthquakes and other events that may negatively impact business activities of the Matsushita Group. The factors listed above are not all-inclusive and further information is contained in Matsushita's latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission.

Matsushita Announces Integration of Healthcare Business

through Business Division

Osaka, Japan, July 26, 2006 Matsushita Electric Industrial Co., Ltd. (MEI [NYSE symbol: MC]) announced that, upon a resolution adopted at its Board of Directors meeting held today, MEI and Panasonic Shikoku Electronics Co., Ltd. (PSEC), a consolidated subsidiary of MEI, have signed a memorandum of understanding to transfer, as of April 1, 2007, MEI's healthcare business of Healthcare Business Company to PSEC.

The basic terms of the business division/combination decided today are outlined as follows:

1. Purpose of business division

By dividing the healthcare business from MEI, and transferring such business to PSEC, MEI aims to establish comprehensive business operations. By generating the synergy effects in the relevant businesses, Matsushita will augment growth strategies and reinforce management structures in the overall healthcare business.

2. Outline of business division

A. Schedule

July 26, 2006	Signing of memorandum of understanding on business division
Late December 2006 (planned)	Board resolution to approve business division agreement
Late December 2006 (planned)	Signing of business division agreement
April 1, 2007 (planned)	Effective date of business division and transfer

B. Method of business division

MEI will divide a certain part of its business and PSEC will succeed the divided business.

C. Allotment of shares

TBD

D. Handling of stock acquisition rights and bonds with stock acquisition rights

TBD

E. Overview of Accounting Procedure

TBD

F. Rights and obligations to be succeeded

Assets, liabilities, rights and obligations involved in the business to be divided and transferred, which are considered to be mandatory for PSEC to operate the business to be succeeded.

G. Prospects of paying debt obligations

MEI believes that both MEI and PSEC can pay the debt obligations to be incurred as a result of the business division and transfer.

* MEI is currently holding discussions with employees regarding this division, and expects that a mutual understanding will be reached.

Disclaimer Regarding Forward-Looking Statements

This press release includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its Group companies (the Matsushita Group). To the extent that statements in this press release do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this press release. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, the Chinese yuan, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Matsushita Group; the possibility that the Matsushita Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, and deferred tax assets; future changes or revisions to accounting policies or accounting rules; as well as natural disasters including earthquakes and other events that may negatively impact business activities of the Matsushita Group. The factors listed above are not all-inclusive and further information is contained in Matsushita's latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission.

Matsushita to Close MT Picture Display (M) Sdn. Bhd.

Osaka, Japan, July 26, 2006 Matsushita Electric Industrial Co., Ltd. (MEI [NYSE symbol: MC]), best known for its Panasonic brand, today announced plans to discontinue operations at MT Picture Display (M) Sdn. Bhd. MTPDM in August 2006, and to begin closing/liquidation procedures. MTPDM is a subsidiary in Malaysia of Matsushita Toshiba Picture Display Co., Ltd. (MTPD), a joint venture of MEI and Toshiba Corporation.

MTPDM, which manufactures cathode ray tubes (CRTs) for 21- to 32- inch TVs exporting for the Japanese and North American markets, has faced declines in demand for CRTs and intensified price competition, due to increasing sales of flat-panel TVs in their respective markets. This closing is a part of MTPD's restructuring initiatives in order to establish an optimum CRT manufacturing structure in Asia and China.

MEI has not revised its consolidated, or non-consolidated financial forecasts (announced on April 28, 2006) for the year ending March 31, 2007.

Panasonic to Strengthen Healthcare and

PC Optical Disk Drive Businesses

- Integrating businesses within the group to boost efficiency and global competitiveness -

Osaka, Japan Panasonic, the brand for which Matsushita Electric Industrial Co., Ltd. (MEI) is known, announced today that the company will step up its efforts in building up its healthcare and PC optical disk drive businesses, where strong growth is expected, through integration within the group companies.

The company plans to transfer Healthcare Business Company, an internal divisional company of MEI, to Panasonic Shikoku Electronics Co., Ltd. (PSEC). PSEC's PC optical disk drive business, including Blu-ray disc drives whose market is projected to grow rapidly, will be transferred to Panasonic Communications Co., Ltd. (PCC). PSEC and PCC are wholly-owned subsidiaries of MEI. The concerned parties will continue working on the details, as they have agreed in principle to implement the plan in April 2007.

The plan is outlined as follows:

1. Integration of healthcare business (blood glucose monitoring systems, ultrasonic diagnostic equipment, hearing aids, etc.)

The healthcare market is expanding globally with increased health concerns stemmed from rapid aging of the world's population and higher risk of developing lifestyle diseases as well as growing awareness of disease prevention. For example, the market for blood glucose monitoring systems, the current core products of the group's healthcare business, has recently been experiencing a double-digit annual growth rate. Further growth is expected on a global scale as diet becomes modernized.

Blood glucose monitoring systems are currently developed and produced by PSEC and sold by the Healthcare Business Company. The latter also handles development, production and sales of other healthcare-related products such as ultrasonic diagnostic equipment and hearing aids. By bringing these healthcare and medical device businesses under one roof of PSEC, Panasonic will be able to build a business structure integrated from manufacturing to sales to drive further profit growth and business expansion by capitalizing on the strengths of the two companies. (For further details, please refer to another press release titled "Matsushita Announces Integration of Healthcare Business through Business Division" dated July 26, 2006.)

- more -

Table of Contents

2. Integration of PC optical disk drive business (Blu-ray disc drives, super multi-drives, DVD-RAM drives, etc.)

In the PC optical disk drive market, more advanced products such as super-multi drives have become available at lower prices. At the same time, consumer demand for reading and recording sizable data and high-definition content on the PC is increasing. Against such a backdrop, the market is anticipated to grow further.

Presently, PSEC handles half-height and slot-loading slim-line drives including Blu-ray disc drives for which a rapid growth is expected. PSEC's PC optical disk drive business will be incorporated into PCC which handles tray loading slim-line drives. Integration of all the PC optical disk drive operations will allow the company to establish a structure which can generate solid profits and compete efficiently in the highly competitive global arena.

About Panasonic

Best known by its Panasonic brand name, Matsushita Electric Industrial Co., Ltd. is a worldwide leader in the development and manufacture of electronic products for a wide range of consumer, business, and industrial needs. Based in Osaka, Japan, the company recorded consolidated net sales of US\$76.02 billion for the year ended March 31, 2006. NEC Corporation

NEC Electronics Corporation

Matsushita Electric Industrial Co., Ltd.

Panasonic Mobile Communications Co., Ltd.

Texas Instruments Incorporated

NEC, NEC Electronics, Matsushita, Panasonic Mobile and Texas Instruments

Establish New Joint Venture to Develop Communications Platform for Mobile

Handsets for the 3rd Generation (3G/3.5G) and Beyond

Development, Design, and Technology Licensing for Global Markets

TOKYO, July 27, 2006 NEC Corporation (NEC), NEC Electronics Corporation (NEC Electronics), Matsushita Electric Industrial Co., Ltd. (Matsushita), Panasonic Mobile Communications Co., Ltd. (Panasonic Mobile) and Texas Instruments Incorporated (Texas Instruments) today announced that the five companies have signed an agreement to establish a new joint venture company. The company will conduct global development, design, and technology licensing for a hardware and software communications platform (*1) to manage the core communications functions for mobile handsets for the third generation (3G/3.5G) and beyond.

The new company, Adcore-Tech Co., Ltd. (Adcore-Tech), is scheduled to be established in August, 2006 at the Yokosuka Research Park in Yokosuka, Japan, with approximately 180 employees. The five companies will jointly invest 12.0 billion yen in the new joint venture, with approximately 44 percent held jointly by NEC and NEC Electronics, approximately 44 percent held jointly by Matsushita and Panasonic Mobile, and approximately 12 percent held by Texas Instruments.

As mobile phones become increasingly sophisticated and improved with the integration of music, video, broadcasting and other new technologies for internet and high-speed, high-volume communications, an extraordinary amount of resources are required for their development.

Through this joint venture, NEC and Panasonic Mobile, which have played crucial roles in leading the industry in developing and implementing 3G/3.5G (W-CDMA/HSDPA) technology handsets, will team with communications chip(chipset) manufacturers Matsushita, NEC Electronics and Texas Instruments. This aims at concentration of the technologies and development resources of all five companies, thereby facilitating speedy and efficient development of the increasingly sophisticated communications technology for mobile handsets at 3G/3.5G and beyond, and contributing to the advancement of the 3G/3.5G and beyond mobile handset industry at large.

Table of Contents

As a result, NEC and Panasonic Mobile will be able to continue delivering attractive products to mobile operators and users, which stay abreast of advances in communications technologies, and help improve the foundation of the companies' mobile handset businesses.

Mobile handsets based on the new communications platform to be developed by the joint venture company are expected to become available in the fall of 2007.

The investment and operations of the new company will be established as follows:

1. In addition to investing in the new company, NEC, NEC Electronics, Matsushita, Panasonic Mobile, and Texas Instruments will license communications technology to the new company for 2.5G/3G/3.5G. Based on the technologies licensed, the new company will develop a competitive communications platform for 3G/3.5G and beyond.
2. The new company will license communications chip technology to NEC Electronics, Matsushita's Semiconductor Company, and Texas Instruments. NEC and Panasonic Mobile will incorporate chips manufactured based on this technology into their mobile handsets.
3. NEC Electronics, Matsushita's Semiconductor Company and Texas Instruments will also sell these chips to mobile handset manufacturers in Japan and worldwide.
4. The new company will license comprehensive solutions, including communications platform and necessary software, system evaluation, and customizing services to mobile handset manufacturers.

FOR IMMEDIATE RELEASE

July 27, 2006

NEC Corporation

Matsushita Electric Industrial Co., Ltd.

Panasonic Mobile Communications Co., Ltd.

NEC, Matsushita and Panasonic Mobile Sign Agreement to Establish

New Joint Venture for Mobile Handsets

Tokyo, July 27, 2006 NEC Corporation (NEC), Matsushita Electric Industrial Co., Ltd. (Matsushita) and Panasonic Mobile Communications Co., Ltd. (Panasonic Mobile) announced today the signing of a memorandum of understanding on the establishment of a development company for mobile handsets. The new company will contract development of mobile handsets and a common software and hardware platform.

Through this joint venture, the three companies intend to reinforce existing collaboration between NEC and Panasonic Mobile. The development of common middleware, applications, and hardware platform will enable the companies to avoid duplication of development efforts, leading to greater efficiency and enhanced development capabilities, and a reduction in both fixed and variable costs. This will equip NEC and Panasonic Mobile with a solid technology platform to stay at the top of innovation in functionality and communication speed as the industry moves to 3.5G and 3.9G technologies towards 2010, while simultaneously focusing resources on differentiation.

The three companies intend to establish this joint venture early October, 2006. The company will be capitalized at 100 million yen with an equal ownership between NEC and Panasonic Mobile.

The following are its main business.

Planning and development of a common software platform

Planning and development of a common hardware platform

- Design and evaluation of a common application CPU and integrated system LSI
- Sourcing, design and evaluation of key devices
- Design and manufacturing of an evaluation board

Joint development of mobile handsets (based on the above platform)

Through this joint venture, NEC and Panasonic Mobile expect to create synergies by combining NEC's expertise in communications and computer technologies and Panasonic Group's strength in consumer electronics and audio visual products.

NEC and Panasonic Mobile will respectively handle product planning, product development, procurement and manufacturing, as well as sales of handsets bearing their respective brand names NEC and Panasonic .

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

NEC, Matsushita and Panasonic Mobile started collaboration on the development of mobile phones in August 2001. This effort has led to the successful shipment of NTT Docomo's FOMA® mobile phones in November 2004, which incorporates a Linux™ based middleware platform jointly developed by NTT Docomo, NEC, and Panasonic Mobile.
