BOARD OF DIRECTORS MEETINGS AND COMMITTEES

The Company presently does not have an audit committee, compensation committee or nominating committee. The Company does not have an audit committee charter or a charter governing the nominating process as the management of the Company believes that until this point it has been premature at the early stage of the Company's management and business development to form an audit, compensation or nominating committee. However, the new management of the Company may form an audit, compensation and nominating committee in the future. Until these committees are established, these decisions will continue to be made by the Board of Directors. Although the Board of Directors has not established any minimum qualifications for director candidates, when considering potential director

candidates, the Board considers the candidate's character, judgment, skills and experience in the context of the needs of the Company and the Board of Directors.

The Company's Board of Directors does not currently provide a process for stockholders to send communications to the Board of Directors as the Company management believes that until this point it has been premature given the limited liquidity of the common stock of the Company to develop such processes. However, the new management of the Company may establish a process for stockholder communications in the future.

STOCK OPTION PLAN

The board of directors, on November 24, 2002, adopted the Company's 2002 Non-Statutory Stock Option Plan (Plan) so as to provide a critical long-term incentive for employees, non-employee directors, consultants, attorneys and advisors of the Company and its subsidiaries, if any. The board of directors believes that the Company's policy of granting stock options to such persons will continue to provide it with a critical advantage in attracting and retaining qualified candidates. In addition, the Plan is intended to provide the Company with maximum flexibility to compensate plan participants. It is expected that such flexibility will be an integral part of the Company's policy to encourage employees, non-employee directors, consultants, attorneys and advisors to focus on the long-term growth of stockholder value. As of April 23, 2006, no options were issued.
