**ITEM 2.05 Costs Associated with Exit or Disposal Activities.**

On March 31, 2008, STERIS (the Company) announced that it has initiated a program to enhance profitability and improve efficiency by generating annualized operating expense savings of approximately \$30 million. As a result of the program, the Company will incur a pre-tax charge of approximately \$15 million during the quarter ending March 31, 2008, primarily related to severance benefits and asset write downs. The Company anticipates realizing approximately 50% to 70% of the identified operating expense savings during its fiscal year ending March 31, 2009 and will provide additional detail on expected fiscal 2009 performance in its earnings announcement scheduled for May 7, 2008. A copy of the press release announcing this program is attached hereto as Exhibit 99.1.

Although the Company has an overall estimate of the costs that will be incurred, it cannot in good faith make a determination at this time of the estimated charges broken down by each of the categories noted above and will provide such information in a subsequent amendment to this Current Report on Form 8-K.

Item 2.05 of this Current Report on Form 8-K contains statements that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements regarding the anticipated costs relating to reduction in management layers, elimination of redundancies, consolidation of functions, and a reduction in indirect overhead expenses through the reduced consumption of goods and services and the consolidation of service providers. In particular, all of the costs in this Current Report are estimates and are therefore subject to change. These forward-looking statements give the Company's current expectations or forecasts and are based upon management's expectations that involve a number of risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. Such risks and uncertainties include, but are not limited to the following: the timing of the severance benefits and asset write downs. The Company undertakes no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures the Company makes on related subjects in its reports on Form 10-Q, 8-K and 10-K submitted to the Securities and Exchange Commission. You should understand that it is not possible to predict or identify all risk factors. Consequently, you should not consider any such list to be a complete set of all potential risks or uncertainties.
