**Item 2.05. Costs Associated with Exit or Disposal Activities.**

On March 27, 2008, Potlatch filed a Form 8-K under Items 2.05 and 9.01, announcing the permanent closure of its Prescott, Arkansas lumber mill due to poor market conditions. The mill is expected to permanently cease operations in May 2008. Approximately 182 employees will be affected.

At the date of the original 8-K filing, the Company was unable in good faith to make a determination of the total amount or range of amounts expected to be incurred in connection with the mill closure, which it has now been able to determine.

The total costs associated with the closure are estimated to range from approximately \$19 million to \$21 million, before income taxes, of which approximately \$17 million will be non-cash costs associated with asset impairment and pension charges. The Company anticipates that approximately \$19 million of the costs will be recognized in the first quarter of 2008, with the remainder recognized during the balance of the year.
