Kewaunee Scientific Corporation

Notes to Consolidated Financial Statements

(unaudited)

A. Financial Information

The unaudited interim consolidated financial statements of Kewaunee Scientific Corporation (the Company or Kewaunee) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the Commission). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company's 2008 Annual Report to Stockholders. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year.

The preparation of the consolidated financial statements requires management to make certain estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates.

B. Inventories

Inventories consisted of the following (in thousands):

	January 31, 2009	April 30, 2008
Finished products	\$ 2,039	\$ 1,920
Work in process	1,308	1,099
Raw materials	4,331	3,965
	\$ 7,678	\$ 6,984

For interim reporting, LIFO inventories are computed based on year-to-date quantities and interim changes in price levels. Changes in quantities and price levels are reflected in the interim consolidated financial statements in the period in which they occur.

C. Comprehensive Income

A reconciliation of net earnings and total comprehensive income for the three and nine months ended January 31, 2009 and 2008 is as follows (in thousands):

	Three months ended January 31, 2009	Three months ended January 31, 2008
Net earnings	\$ 882	\$ 802
Change in cumulative foreign currency translation adjustments	82	(69)
Total comprehensive income	\$ 964	\$ 733

Nine months ended January 31, 2009	Nine months ended January 31, 2008
--	--

Edgar Filing: KEWAUNEE SCIENTIFIC CORP /DE/ - Form 10-Q

Net earnings	\$	3,327	\$	2,688
Change in cumulative foreign currency translation adjustments		(642)		(101)
Total comprehensive income	\$	2,685	\$	2,587

Assets and liabilities for the Company's foreign subsidiaries are translated at exchange rates prevailing on the balance sheet date. Revenues and expenses are translated at weighted average exchange rates prevailing during the period and any resulting translation adjustments are reported separately in stockholders' equity.

Table of Contents**D. Segment Information**

The following table provides financial information by business segments for the three and nine months ended January 31, 2009 and 2008 (in thousands):

	Domestic Operations	International Operations	Corporate	Total
Three months ended January 31, 2009				
Revenues from external customers	\$ 22,498	\$ 3,525	\$	\$ 26,023
Intersegment revenues	347	234	(581)	
Operating earnings (loss) before income taxes	1,769	302	(623)	1,448
Three months ended January 31, 2008				
Revenues from external customers	\$ 17,659	\$ 4,224		\$ 21,883
Intersegment revenues	303	66	(369)	
Operating earnings (loss) before income taxes	1,565	601	(732)	1,434
Nine months ended January 31, 2009				
Revenues from external customers	\$ 67,296	\$ 11,854	\$	\$ 79,150
Intersegment revenues	1,984	259	(2,243)	
Operating earnings (loss) before income taxes	6,501	1,025	(2,373)	5,153
Nine months ended January 31, 2008				
Revenues from external customers	\$ 55,753	\$ 11,641	\$	\$ 67,394
Intersegment revenues	1,566	376	(1,942)	
Operating earnings (loss) before income taxes	5,506	1,234	(2,220)	4,520

E. Defined Pension Plans

The Company has non-contributory defined benefit pension plans covering substantially all salaried and hourly employees. These plans were amended as of April 30, 2005, no further benefits have been, or will be, earned under the plans, subsequent to the amendment date, and no additional participants will be added to the plans.

Pension expense (income) consisted of the following (in thousands):

	Three months ended January 31, 2009	Three months ended January 31, 2008
Service Cost	\$ -0-	\$ -0-
Interest Cost	224	215
Expected return on plan assets	(338)	(365)
Recognition of net loss	40	35
Net periodic pension income	\$ (74)	\$ (115)

	Nine months ended January 31, 2009	Nine months ended January 31, 2008
Service Cost	\$ -0-	\$ -0-
Interest Cost	672	645
Expected return on plan assets	(1,014)	(1,095)
Recognition of net loss	120	105
Net periodic pension income	\$ (222)	\$ (345)

Recent financial market conditions have resulted in an unusually high degree of volatility and increased the risks associated with certain investments held by the Company's pension plans, which has impacted the value of those investments. There has been a negative return on plan assets through January 31, 2009 which is expected to unfavorably impact the funded status of the plans, the amount of required contributions in future years, and pension expense in future years. The ultimate impact on the funded status will be determined when the annual valuation for the plan year ended April 30, 2009 is performed, based upon the total return of the plan assets for the full year, and will be reflected in the Company's retirement and benefit plan disclosures at year-end. No contributions were paid to the plans during the nine months ended January 31, 2009. The Company has not yet decided if any contributions will be paid to the plans during the final three months of the current fiscal year.

Table of Contents

F. Credit Arrangement

In October 2008, the Company increased its bank revolving credit facility from \$12 million to \$14 million under the same terms and conditions as the original \$12 million arrangement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Company's 2008 Annual Report to Stockholders contains management's discussion and analysis of financial condition and results of operations at and for the year ended April 30, 2008. The following discussion and analysis describes material changes in the Company's financial condition since April 30, 2008. The analysis of results of operations compares the three and nine months ended January 31, 2009 with the comparable periods of the prior fiscal year.

Results of Operations

Sales for the three months ended January 31, 2009 were \$26,023,000, an increase of 19% from sales of \$21,883,000 in the same period last year. Sales from Domestic Operations were \$22,498,000, an increase of 27% from the prior year period. Sales from Domestic Operations benefited from continuing higher levels of new orders and the strong order backlog. Sales from International Operations were \$3,525,000, a decrease of 17% from the prior year period. The decline in International Operations sales resulted primarily from a softer Singapore laboratory furniture market.

Sales for the nine months ended January 31, 2009 were \$79,150,000, an increase of 17% from sales of \$67,394,000 in the same period last year. Sales from Domestic Operations were \$67,296,000, an increase of 21% from the prior year period. Sales from International Operations were \$11,854,000, an increase of 2% from the prior year period. The order backlog at January 31, 2009 was \$60.7 million, as compared to a backlog of \$61.6 million at October 31, 2008 and \$58.8 million at January 31, 2008.

The gross profit margin for the three months ended January 31, 2009 was 19.0% of sales, as compared to 22.0% of sales in the comparable quarter of the prior year. The profit margin decrease as compared to the prior year period was primarily due to higher costs for raw materials and energy and differences in the product sales mix, as the current year period included a higher ratio of sales of non-manufactured products and installation services, which typically have lower profit margins than the Company's manufactured products. The gross profit margin for the nine months ended January 31, 2009 was 20.6% of sales, as compared to 21.7% of sales in the comparable quarter of the prior year. The decrease in the gross profit margin for the nine months of the current year was primarily due to higher costs for raw materials and energy and a higher ratio of sales of non-manufactured products and services.

Operating expenses for the three months ended January 31, 2009 were \$3,440,000, or 13.2% of sales, as compared to \$3,293,000, or 15.0% of sales, in the comparable period of the prior year. Operating expenses for the nine months ended January 31, 2009 were \$10,884,000, or 13.8% of sales, as compared to \$9,811,000, or 14.6% of sales, in the comparable period of the prior year. The increase in operating expense dollars for the current quarter was primarily due to an increase of \$155,000 in administrative salaries, an increase of \$75,000 for costs associated with benefit plans, and an increase of \$49,000 in depreciation expense. Operating expenses in the current quarter were favorably impacted by a \$95,000 reduction in expenses associated with incentive compensation plans and a \$125,000 reduction in professional and consulting expenses. The increase in operating expense dollars for the nine months of the current year was primarily due to an increase of \$370,000 in administrative salaries, an increase of \$213,000 for costs associated with benefit plans, an increase of \$178,000 in sales and marketing expenses, and an increase of \$130,000 in depreciation expense. Operating expenses for the nine months of the current year were favorably impacted by a \$133,000 reduction in professional and consulting expenses as compared to the same period of the prior year.

Operating earnings were \$1,494,000 and \$5,420,000 for the three and nine months ended January 31, 2009. This compares to operating earnings of \$1,526,000 and \$4,824,000 for the comparable periods of the prior year.

Interest expense was \$49,000 and \$231,000 for the three and nine months ended January 31, 2009, respectively, as compared to \$86,000 and \$302,000 for the comparable periods of the prior year. The decrease in interest expense for the current year periods resulted primarily from lower interest rates paid on advances under our bank credit facility.

The net of other income and other expense was income of \$3,000 and expense of \$36,000 for the three and nine months ended January 31, 2009, respectively, as compared to expense of \$6,000 and \$2,000 for the comparable periods of the prior year.

Edgar Filing: KEWAUNEE SCIENTIFIC CORP /DE/ - Form 10-Q

Income tax expense of \$488,000 and \$1,595,000 was recorded for the three and nine months ended January 31, 2009, respectively, as compared to income tax expense of \$421,000 and \$1,391,000 recorded for the comparable periods of the prior year. The effective tax rates were 33.7% and 31.0% for the three and nine months ended January 31, 2009, respectively, and were 29.4% and 30.8% for the three and nine months ended January 31, 2008. The effective tax rates for each of the current year and prior year periods were below the statutory tax rates due to the combination of lower income tax rates in the geographic locations of the Company's subsidiaries and the impact of state and federal income tax credits on domestic operations income. The higher effective tax rates for each of the current year periods as compared to the prior year periods were due to a higher portion of taxable earnings in the prior year periods from the Company's subsidiaries located in geographic locations with lower income tax rates.

Table of Contents

Minority interests relate to minority shareholders' interest in the Company's two subsidiaries that are not 100% owned by the Company. Minority interests reduced net earnings by \$78,000 and \$231,000 for the three and nine months ended January 31, 2009, as compared to a reduction of \$211,000 and \$441,000 for the comparable periods of the prior year. The decrease in minority interests in the current year periods was directly related to lower earnings of the Company's two subsidiaries in the current year.

Net earnings were \$882,000, or \$0.35 per diluted share, and \$3,327,000, or \$1.30 per diluted share, for the three and nine months ended January 31, 2009. This compares to net earnings of \$802,000, or \$0.31 per diluted share, and \$2,688,000, or \$1.05 per diluted share, for the comparable periods of the prior year.

Liquidity and Capital Resources

Historically, the Company's principal sources of liquidity have been funds generated from operations, supplemented as needed by short-term borrowings under the Company's revolving credit facility. Additionally, certain machinery and equipment are financed by non-cancellable operating leases or capital leases. The Company believes that these sources will be sufficient to support ongoing business requirements, including capital expenditures through the current fiscal year.

The Company had working capital of \$17.7 million at January 31, 2009, compared to \$15.9 million at April 30, 2008. The ratio of current assets to current liabilities was 1.9-to-1 at January 31, 2009, unchanged from April 30, 2008. At January 31, 2009, advances of \$5,815,000 were outstanding under the Company's bank revolving credit facility, as compared to advances of \$4,551,000 outstanding as of April 30, 2008. In October 2008, the Company increased the revolving credit facility from \$12 million to \$14 million under the same terms and conditions as the \$12 million arrangement.

The Company's operations provided cash of \$340,000 during the nine months ended January 31, 2009. Cash was provided primarily from operating earnings, which was substantially offset by cash used to fund an increase of \$4,800,000 in accounts receivable related to the higher sales volumes. The Company's operations provided cash of \$1,992,000 during the nine months ended January 31, 2008. Cash was provided primarily from operating earnings, which was partially offset by an increase in accounts receivable of \$914,000 and a decrease in deferred revenue of \$962,000.

During the nine months ended January 31, 2009, net cash of \$1,074,000 was used in investing activities, primarily for capital expenditures. This compares to the use of \$1,825,000 for investing activities in the comparable period of the prior year, primarily for capital expenditures.

The Company's financing activities used cash of \$27,000 during the nine months ended January 31, 2009. Cash used included cash dividends of \$498,000 paid to minority interest holders of the Company's subsidiaries, cash dividends of \$613,000 paid to stockholders, payments on obligations of capital leases of \$280,000, and purchases of treasury stock of \$198,000. Cash was provided during this period by an increase of \$1,264,000 in short-term borrowings and \$298,000 in proceeds received from the exercise of stock options. Financing activities used cash of \$64,000 in the same period for the prior year, including \$530,000 for cash dividends paid to stockholders, and \$266,000 for payments on obligations under capital leases. Cash was provided during this period by proceeds of \$548,000 from the exercise of stock options and an increase of \$184,000 in short-term borrowings.

Outlook for Fourth Quarter of Fiscal Year 2009

While the Company's ability to predict future demand for its products continues to be limited given, among other general economic factors affecting the Company and its markets, the Company's role as subcontractor or supplier to dealers for subcontractors, the Company expects the fourth quarter of fiscal year 2009 to be profitable. In addition to general economic factors affecting the Company and its markets, demand for its products is also dependent upon the number of laboratory construction projects planned and/or current progress in projects already under construction.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

Certain statements in this report constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (the Reform Act). Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could significantly impact results or achievements expressed or implied by such forward-looking statements. These factors include, but are not limited to, economic, competitive, governmental, and technological factors affecting the Company's operations, markets, products, services, and prices, as well as prices for certain raw materials and energy. The cautionary statements made pursuant to the Reform Act herein and elsewhere by the Company should not be construed as exhaustive. The Company cannot always predict what factors would cause actual results to differ materially from those indicated by the forward-looking statements. In addition, readers are urged to consider statements that include the terms

REVIEW BY INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

A review of the interim consolidated financial information included in this Quarterly Report on Form 10-Q for each of the three and nine month periods ended January 31, 2009 and January 31, 2008 has been performed by Cherry, Bekaert & Holland, L.L.P., the Company's registered public accounting firm. Their report on the interim consolidated financial information follows.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have reviewed the accompanying consolidated balance sheet of Kewaunee Scientific Corporation and its subsidiaries (the Company) as of January 31, 2009, and the related consolidated statements of operations for the three month and nine month periods ended January 31, 2009 and 2008 and the related consolidated statements of cash flows for the nine-month periods ended January 31, 2009 and 2008. These interim consolidated financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of April 30, 2008, and the related consolidated statements of operations, of stockholder's equity and of cash flows for the year then ended (not presented herein) and in our report dated July 12, 2008, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of April 30, 2008 is fairly stated in all material respects in relation to the consolidated financial statement from which it has been derived.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There are no material changes to the disclosures made on this matter in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2008.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

An evaluation was performed under the supervision and the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of January 31, 2009. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that, as of January 31, 2009, the Company's disclosure controls and procedures were adequate and effective and designed to ensure that all material information required to be filed in this quarterly report is made known to them by others within the Company and its subsidiaries.

(b) Changes in internal controls

There was no significant change in the Company's internal control over financial reporting that occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
