US\$4,347,000

Nomura America Finance, LLC

Senior Global Medium-Term Notes, Series A

Fully and Unconditionally Guaranteed by Nomura Holdings, Inc.

Callable Step-Up Notes due February 25, 2023

Nomura America Finance, LLC is offering the callable step-up notes due February 25, 2023 (the notes) described below. The notes are unsecured securities, and all payments on the notes are subject to our credit risk and that of the guarantor of the notes, Nomura Holdings, Inc. The notes feature an increasing, or stepped up, interest rate over time unless we redeem them.

This pricing supplement relates to a total of \$4,347,000 principal amount of the notes. Of this total, \$1,500,000 principal amount of the notes, which we call the reopened notes, is being initially offered on the date of this pricing supplement. The remaining \$2,847,000 principal amount of the notes, which we call the original notes, were issued on February 25, 2011, as described in the pricing supplement dated February 23, 2011.

We have the right to redeem the notes, in whole or in part, for 100% of the principal amount plus any accrued and unpaid interest on each semi-annual interest payment date, upon five business days prior notice, beginning on February 25, 2013.

Issuer:	Nomura America Finance, LLC (we or us)
Guarantor:	Nomura Holdings, Inc. (Nomura)
Principal Amount:	US\$4,347,000 (the principal amount of the notes may be increased if we, in our sole discretion, decide to sell an additional amount of the notes on a date subsequent to the trade date for the reopened notes but prior to the original issue date for the reopened notes)
Interest Rate:	5.25% from and including the original issue date to but excluding February 25, 2014; 5.50% from and including February 25, 2014, to but excluding February 25, 2017; 6.50% from and including February 25, 2017, to but excluding February 25, 2020; and 7.00% from and including February 25, 2020, to but excluding the maturity date
Interest Payment	
Dates:	Semi-annually, on February 25 and August 25 of each year, commencing August 25, 2011 and ending on the maturity date
Trade Date:	For the original notes, February 23, 2011; for the reopened notes, March 3, 2011
Original Issue Date:	For the original notes, February 25, 2011; for the reopened notes March 8, 2011

PS-1

Stated Maturity Date:	February 25, 2023, subject to our early redemption right, as described below. The actual maturity date for your notes may be different if adjusted for business days as described under <i>Description of Debt Securities and Guarantee Business Day Conventions</i> in the accompanying prospectus
Day Count	
Convention:	30/360
Business Day	
Convention:	Following unadjusted
Regular Record Date:	The fifth business day preceding the applicable interest payment date
Public Offering Price:	100.000%
Minimum Initial	
Investment Amount:	\$1,000
Denominations:	\$1,000 and integral multiples thereof
Early Redemption:	Redeemable at our option on each optional redemption date
Optional Redemption	
Dates:	Semi-annually on February 25 and August 25 of each year, commencing February 25, 2013, and ending on the maturity date
Redemption Notice	
Period:	Not less than 5 nor more than 45 business days
Program:	Senior Global Medium-Term Notes, Series A
CUSIP No.:	65539AAR1
ISIN No.:	US65539AAR14
Currency:	U.S. dollars
Listing:	The notes will not be listed on any securities exchange
Distribution Agent:	Nomura Securities International, Inc.
Calculation Agent:	Nomura Securities International, Inc.
Paying Agent and	
Transfer Agent:	Deutsche Bank Trust Company Americas
Clearance and	
Settlement:	DTC (including through its indirect participants Euroclear and Clearstream, Luxembourg as described under <i>Legal Ownership and Book-Entry Issuance</i> in the accompanying prospectus)
Terms Incorporated	
Into the Master Note:	All of the terms appearing above this item captioned <i>Terms Incorporated Into the Master Note</i> on the cover page of this pricing supplement.
<i>Investing in the notes involves certain risks. You should carefully consider the risk factors beginning on page PS-5 of this pricing supplement, under Risk Factors of the accompanying prospectus and incorporated by reference into the accompanying prospectus before you invest in the notes.</i>	

We expect delivery of the reopened notes will be made against payment therefor on or about the original issue date for the reopened notes specified above.

The notes will be our unsecured obligations. We are not a bank, and the notes will not constitute deposits insured by the U.S. Federal Deposit Insurance Corporation or any other governmental agency or instrumentality.

PS-2

	Price to Public	Agent's Commission ⁽¹⁾	Proceeds to Issuer
Per Note	100.000%	3.000%	97.000%
Total	\$4,347,000	\$130,410	\$4,216,590

The price to public set forth above do not include accrued interest, if any. Interest on the notes will accrue from February 25, 2011 and must be paid by the purchaser if the notes are delivered after February 25, 2011.

The price to public, agent's commission and proceeds to issuer listed above relate to the original notes and the reopened notes. We may decide to sell additional notes after the trade date for the reopened notes but prior to the original issue date for the reopened notes, at a price to public, agent's commission and proceeds to issuer that differ from the amounts set forth above.

Nomura Securities International, Inc. has offered or will offer the notes to which this pricing supplement relates to the public at the public offering price set forth above and to certain dealers at such prices less a concession not in excess of 3.00% of the principal amount of the notes. If all of the notes are not sold at the public offering price set forth above, the distribution agent may change the offering price and the other selling terms. To the extent the distribution agent resells notes to a broker or dealer less a concession equal to the entire underwriting discount, such broker or dealer may be deemed to be an underwriter of the notes as such term is defined in the Securities Act of 1933, as amended.

We may use this pricing supplement in the initial sale of the notes. In addition, Nomura Securities International, Inc. or another of our affiliates may use this pricing supplement in market-making transactions in the notes after their initial sale. ***Unless we inform or our agent informs the purchaser otherwise in the confirmation of sale, this pricing supplement is being used in a market-making transaction.***

Nomura Securities International, Inc. is our affiliate and, as such, has a conflict of interest in this offering within the meaning of FINRA Rule 5121. Nomura Securities International, Inc. is not permitted to sell notes in this offering to any account over which it exercises discretionary authority without the prior specific written approval of the account holder.

Nomura Securities International, Inc. and/or its affiliates have performed, and in the future may provide, investment banking and advisory services for us from time to time for which they have received, and expect to receive, customary fees and commissions. Nomura Securities International, Inc. and its affiliates may, from time to time, engage in transactions with, and perform services for, us in the ordinary course of business.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this pricing supplement. Any representation to the contrary is a criminal offense.

Nomura

- (1) The price at which you purchase the notes includes the agent's commission, as set forth above, and includes the costs and profits that we (or one of our affiliates) expect to incur in the hedging of our market risk under the notes. See *Plan of Distribution* in the accompanying prospectus and *Additional Risk Factors Specific to Your Notes* *The Inclusion in the Purchase Price of the Notes of a Selling Concession and of Our Cost of Hedging Our Market Risk Under the Notes is Likely to Adversely Affect the Value of the Notes Prior to the Maturity Date* below.

ADDITIONAL INFORMATION

You should read this pricing supplement together with the prospectus dated September 30, 2010, relating to our Senior Global Medium-Term Notes, Series A, of which these notes are a part. In the event of any conflict, this pricing supplement will control.

This pricing supplement, together with the document listed below, contains the terms of the notes and supersedes all prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, brochures or other educational materials you may have received from us. You should carefully consider, among other things, the matters set forth under *Risk Factors* in the accompanying prospectus dated September 30, 2010. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the notes. You may access the prospectus on the SEC website at www.sec.gov as follows:

Prospectus dated September 30, 2010:

<http://www.sec.gov/Archives/edgar/data/1163653/000119312510220937/df3asr.htm>

Our central index key, or CIK, on the SEC website is 0001383951.

ADDITIONAL RISK FACTORS SPECIFIC TO YOUR NOTES

An investment in your notes is subject to the risks described below, as well as the risks described under "Risk Factors" in the accompanying prospectus, dated September 30, 2010. You should carefully consider whether the notes are suited to your particular circumstances. Your notes are not secured debt.

Please note that in this section entitled "Additional Risk Factors Specific to Your Notes," references to "holders" mean those who own notes registered in their own names, on the books that we, Nomura or the trustee maintain for this purpose, and not those who own beneficial interests in notes registered in street name or in notes issued in book-entry form through The Depository Trust Company ("DTC") or another depository. Owners of beneficial interests in the notes should read the section entitled "Legal Ownership and Book-Entry Issuance" in the accompanying prospectus.

This pricing supplement should be read together with the accompanying prospectus, dated September 30, 2010. The information in the accompanying prospectus is supplemented by, and to the extent inconsistent therewith replaced and superseded by, the information in this pricing supplement. We urge you to read all of the following information about all of the risks associated with the notes, together with the other information in this pricing supplement and the accompanying prospectus before investing in the notes.

You Are Subject to Nomura's Credit Risk, and the Value of Your Notes May Be Adversely Affected by Negative Changes in the Market's Perception of Nomura's Creditworthiness

By purchasing the notes, you are making, in part, a decision about Nomura's ability to repay you the amounts you are owed pursuant to the terms of your notes. Substantially all of our assets will consist of loans to and other receivables from Nomura and its subsidiaries. Our obligations under your notes are also guaranteed by Nomura. Therefore, as a practical matter, our ability to repay you amounts we owe on the notes is directly or indirectly linked solely to Nomura's creditworthiness. In addition, the market's perception of Nomura's creditworthiness generally will directly impact the value of your notes. If Nomura becomes or is perceived as becoming less creditworthy following your purchase of notes, you should expect that they will decline in value in the secondary market, perhaps substantially. If you attempt to sell your notes in the secondary market in such an environment, you may incur a substantial loss.

Because Nomura is a Holding Company, Your Right to Receive Payments on Nomura's Guarantee of the Notes is Subordinated to the Liabilities of Nomura's Other Subsidiaries

The ability of Nomura to make payments, as guarantor, on the notes, depends upon Nomura's receipt of dividends, loan payments and other funds from subsidiaries. In addition, if any of Nomura's subsidiaries becomes insolvent, the direct creditors of that subsidiary will have a prior claim on its assets, and Nomura's rights and the rights of Nomura's creditors, including your rights as an owner of the notes, will be subject to that prior claim.

Nomura's subsidiaries are subject to various laws and regulations that may restrict Nomura's ability to receive dividends, loan payments and other funds from subsidiaries. In Japan, Nomura Securities Co., Ltd., as a securities company, is required to maintain an adjusted capital ratio at specified levels. In the United States, Nomura Securities International, Inc. is subject to certain minimum net capital requirements and capital adequacy requirements. In the United Kingdom, Nomura International plc is regulated by the U.K. Financial Services Authority and is subject to the capital requirements of that authority. In addition, certain of Nomura's other subsidiaries are subject to securities and banking regulations and capital adequacy requirements promulgated by the regulatory and exchange authorities of the countries in which such subsidiaries operate. As a result, Nomura's ability to receive funds from those subsidiaries may be limited, and Nomura's ability to pay on its guarantee of the notes may also be limited.

PS-5

The Inclusion in the Purchase Price of the Notes of a Selling Concession and of Our Cost of Hedging Our Market Risk Under the Notes is Likely to Adversely Affect the Value of the Notes Prior to the Maturity Date

The price at which you purchase the notes includes a selling concession (including a broker's commission), as well as the costs that we (or one of our affiliates) expect to incur in the hedging of our market risk under the notes. Such hedging costs include the expected cost of undertaking this hedge, as well as the profit that we (or our affiliates) expect to realize in consideration for assuming the risks inherent in providing the hedge. As a result, assuming no change in market conditions or any other relevant factors, the price, if any, at which you may be able to sell your notes prior to maturity will likely be less than your original purchase price.

The Notes Are Subject to Early Redemption at Our Option

Prospective purchasers should be aware that we have the right to redeem the notes on any optional redemption date, beginning on the first optional redemption date. It is more likely that we will redeem the notes prior to their stated maturity date to the extent that the interest payable on the notes is greater than the interest that would be payable on other instruments of comparable maturity, terms and credit rating trading in the market. If the notes are redeemed prior to their stated maturity date, you may have to re-invest the proceeds in a lower interest rate environment.

There May Not Be an Active Trading Market for the Notes Sales in the Secondary Market May Result in Significant Losses

The notes will not be listed on any securities exchange, and there may be little or no secondary market for the notes. Nomura Securities International, Inc. and other affiliates of ours currently intend to make a market for the notes, but they are not required to do so. Nomura Securities International, Inc. or any other affiliate of ours may stop any such market-making activities at any time. Even if a secondary market for the notes develops, it may not provide significant liquidity or trade at prices advantageous to you. We expect that transaction costs in any secondary market would be high. As a result, the difference between bid and ask prices for your notes in any secondary market could be substantial.

Furthermore, if you sell your notes, you will likely be charged a commission for secondary market transactions, or the price will likely reflect a dealer discount.

If you sell your notes before the maturity date, you may have to do so at a substantial discount from the issue price and as a result you may suffer substantial losses.

The Market Value of Your Notes May Be Influenced by Many Unpredictable Factors

In addition to our and Nomura's creditworthiness, a number of other economic and market factors will influence the value of the notes. The following factors, which are beyond our control, may influence the market value of your notes:

supply and demand for the notes, including inventory positions with Nomura Securities International, Inc. or any other market-maker;

the time to maturity of the notes;

interest and yield rates in the market generally and expectations about future interest and yield rates; and

economic, financial, political, regulatory or judicial events that affect the debt markets generally.

These factors may influence the market value of your notes if you sell your notes before maturity. If you sell your notes prior to maturity, you may receive less than the principal amount of your notes.

Non-U.S. Investors May Be Subject to Certain Additional Risks

The notes will be denominated in U.S. dollars. If you are a non-U.S. investor who purchases the notes with a currency other than U.S. dollars, changes in rates of exchange may have an adverse effect on the value or price of, or income on, your investment.

The accompanying prospectus contains a general description of certain U.S. tax considerations relating to the notes under *United States Taxation*. If you are a non-U.S. investor, you should consult your tax advisors as to the consequences, under the tax laws of the country where you are resident for tax purposes, of acquiring, holding and disposing of the notes and receiving payments of principal or other amounts under the notes.

Certain Considerations for Insurance Companies and Employee Benefit Plans

Any insurance company or fiduciary of a pension plan or other employee benefit plan that is subject to the prohibited transaction rules of the Employee Retirement Income Security Act of 1974, as amended, which we call ERISA, or the Internal Revenue Code of 1986, as amended, including an IRA or a Keogh plan (or a governmental plan to which similar prohibitions apply), and that is considering purchasing the notes with the assets of the insurance company or the assets of such a plan, should consult with its counsel regarding whether the purchase or holding of the notes could become a prohibited transaction under ERISA, the Internal Revenue Code or any substantially similar prohibition in light of the representations a purchaser or holder in any of the above categories is deemed to make by purchasing and holding the notes. This is discussed in more detail under *Employee Retirement Income Security Act* below.

SUPPLEMENTAL DISCUSSION OF U.S. FEDERAL INCOME TAX CONSEQUENCES

You should carefully consider, among other things, the matters set forth under **United States Taxation** in the accompanying prospectus. The following discussion summarizes for U.S. holders (as defined in the accompanying prospectus) certain U.S. federal income tax consequences of the purchase, beneficial ownership, and disposition of the notes. This summary supplements the section **United States Taxation** in the accompanying prospectus and is subject to the limitations and exceptions set forth therein.

You should consult your own tax advisor concerning the U.S. federal income tax consequences to you of acquiring, owning, and disposing of the notes, as well as any tax consequences arising under the laws of any state, local, foreign, or other tax jurisdiction and the possible effects of changes in U.S. federal or other tax laws.

The notes should not be treated as issued with original issue discount (**OID**) despite the fact that the interest rate on the notes is scheduled to step-up over the term of the notes because Treasury regulations generally deem an issuer to exercise a call option in a manner that minimizes the yield on the debt instrument for purposes of determining whether a debt instrument is issued with **OID**. The yield on the notes would be minimized if we call the notes immediately before the increase in the interest rate on February 25, 2014 and therefore the notes should be treated for **OID** purposes as fixed-rate notes that will mature prior to the step-up in interest rate for the notes. This assumption is made solely for purposes of determining whether the note is issued with **OID** for U.S. federal income tax purposes and is not an indication of our intention to call or not to call the notes at any time. If we do not call the notes prior to the step up in the interest rate then, solely for **OID** purposes, the notes will be deemed to be reissued at their adjusted issue price on February 25, 2014. This deemed issuance should not give rise to taxable gain or loss to holders. The same analysis would apply to each subsequent increase in the interest rate and therefore the notes should never be treated as issued with **OID** for U.S. federal income tax purposes.

Under this approach, the coupon on a note will be taxable to a U.S. holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. holder's normal method of accounting for tax purposes (regardless of whether we call the notes).

Upon the disposition of a note by sale, exchange, redemption or retirement (i.e., if we exercise our right to call the notes or otherwise) or other disposition, a U.S. holder will generally recognize taxable gain or loss equal to the difference, if any, between (i) the amount realized on the disposition (other than amounts attributable to accrued but unpaid interest, which would be treated as such) and (ii) the U.S. holder's adjusted tax basis in the note. A U.S. holder's adjusted tax basis in a note generally will equal the cost of the note (net of accrued interest) to the U.S. holder. Capital gain of individual taxpayers from the sale, exchange, redemption, retirement or other disposition of a note held for more than one year may be eligible for reduced rates of taxation. The deductibility of a capital loss realized on the sale, exchange, redemption, retirement or other disposition of a note is subject to significant limitations.

EMPLOYEE RETIREMENT INCOME SECURITY ACT

This section is only relevant to you if you are an insurance company or the fiduciary of a pension plan or an employee benefit plan (including a governmental plan, an IRA or a Keogh Plan) proposing to invest in the notes.

The U.S. Employee Retirement Income Security Act of 1974, as amended (ERISA) and the U.S. Internal Revenue Code of 1986, as amended (the Code), prohibit certain transactions (prohibited transactions) involving the assets of an employee benefit plan that is subject to the fiduciary responsibility provisions of ERISA or Section 4975 of the Code (including individual retirement accounts, Keogh plans and other plans described in Section 4975(e)(1) of the Code) (a Plan) and certain persons who are parties in interest (within the meaning of ERISA) or disqualified persons (within the meaning of the Code) with respect to the Plan; governmental plans may be subject to similar prohibitions unless an exemption applies to the transaction. The assets of a Plan may include assets held in the general account of an insurance company that are deemed plan assets under ERISA or assets of certain investment vehicles in which the Plan invests. Each of Nomura and certain of its affiliates may be considered a party in interest or a disqualified person with respect to many Plans, and, accordingly, prohibited transactions may arise if the notes are acquired by or on behalf of a Plan unless those notes are acquired and held pursuant to an available exemption. In general, available exemptions are: transactions effected on behalf of that Plan by a qualified professional asset manager (prohibited transaction exemption 84-14) or an in-house asset manager (prohibited transaction exemption 96-23), transactions involving insurance company general accounts (prohibited transaction exemption 95-60), transactions involving insurance company pooled separate accounts (prohibited transaction exemption 90-1), transactions involving bank collective investment funds (prohibited transaction exemption 91-38) and transactions with service providers under Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code where the Plan receives no less and pays no more than adequate consideration (within the meaning of Section 408(b)(17) of ERISA and Section 4975(f)(10) of the Code). The person making the decision on behalf of a Plan or a governmental plan shall be deemed, on behalf of itself and the plan, by purchasing and holding the notes, or exercising any rights related thereto, to represent that (a) the plan will receive no less and pay no more than adequate consideration (within the meaning of Section 408(b)(17) of ERISA and Section 4975(f)(10) of the Code) in connection with the purchase and holding of the notes, (b) none of the purchase, holding or disposition of the notes or the exercise of any rights related to the notes will result in a nonexempt prohibited transaction under ERISA or the Code (or, with respect to a governmental plan, under any similar applicable law or regulation), and (c) neither Nomura nor any of its affiliates is a fiduciary (within the meaning of Section 3(21) of ERISA) or, with respect to a governmental plan, under any similar applicable law or regulation) with respect to the purchaser or holder in connection with such person's acquisition, disposition or holding of the notes, or as a result of any exercise by Nomura or any of its affiliates of any rights in connection with the notes, and no advice provided by Nomura or any of its affiliates has formed a primary basis for any investment decision by or on behalf of such purchaser or holder in connection with the notes and the transactions contemplated with respect to the notes.

If you are an insurance company or the fiduciary of a pension plan or an employee benefit plan (including a governmental plan, an IRA or a Keogh plan), and propose to invest in the notes, you should consult your legal counsel.

SUPPLEMENTAL PLAN OF DISTRIBUTION

We have agreed to sell to Nomura Securities International, Inc. (the agent), and the agent has agreed to purchase from us, the aggregate principal amount of the reopened notes specified on the front cover of this pricing supplement. The aggregate principal amount of the original notes was purchased by the agent in connection with the initial offering and sale of the original notes on February 25, 2011. The agent has offered or will offer the notes to which this pricing supplement relates to the public at the public offering price set forth on the cover page of this pricing supplement and to certain dealers at such prices less a concession not in excess of 3.00% of the principal amount of the notes. If all of the notes are not sold at the public offering price set forth on the cover page of this pricing supplement, the distribution agent may change the offering price and the other selling terms. We estimate that our share of the total offering expenses for the reopened notes, excluding underwriting discounts and commissions, will be approximately \$6,500.

Subject to the terms and conditions of a terms agreement, dated the date of this pricing supplement, the agent has agreed to purchase the reopened notes as principal for its own account at a purchase price equal to the public offering price specified on the front cover of this pricing supplement less the agent's commission. Subject to the terms and conditions of a terms agreement, dated February 23, 2011, the agent purchased the original notes as principal for its own account at a purchase price equal to the public offering price specified on the front cover of this pricing supplement less the agent's commission. To the extent the agent resells notes to a broker or dealer less a concession equal to the entire underwriting discount, such broker or dealer may be deemed to be an underwriter of the notes as such term is defined in the Securities Act of 1933, as amended. The agent has advised us that, if it is unable to sell all the notes at the public offering prices, the agent proposes to offer the notes from time to time for sale in negotiated transactions or otherwise, at prices to be determined at the time of sale.

In the future, the agent may repurchase and resell the notes in market-making transactions. For more information about the plan of distribution, the distribution agreement (of which the terms agreement forms a part) and possible market-making activities, see *Plan of Distribution* in the accompanying prospectus.

The agent is our affiliate and, as such, has a conflict of interest in this offering within the meaning of FINRA Rule 5121. The agent is not permitted to sell notes in this offering to any account over which it exercises discretionary authority without the prior specific written approval of the account holder.

The agent and/or its affiliates have performed, and in the future may provide, investment banking and advisory services for us from time to time for which they have received, and expect to receive, customary fees and commissions. The agent and its affiliates may, from time to time, engage in transactions with, and perform services for, us in the ordinary course of business.

We expect delivery of the reopened notes will be made against payment therefor on or about the original issue date for the reopened notes specified on the cover page of this pricing supplement.
