PROXY STATEMENT

FOR

THE ANNUAL GENERAL MEETING OF SHAREHOLDERS

TO BE HELD ON MAY 5, 2011

March 21, 2011

We are furnishing this proxy statement to the shareholders of AXIS Capital Holdings Limited in connection with the solicitation of proxies by the Board of Directors (the Board) of AXIS Capital Holdings Limited to be voted at the 2011 Annual General Meeting of Shareholders to be held at AXIS Overbay Cottage, 11 Waterloo Lane, Pembroke HM 08, Bermuda, on Thursday, May 5, 2011 at 8:30 a.m. local time, and at any postponements or adjournments of that meeting. Directions to the 2011 Annual General Meeting of Shareholders at AXIS Overbay Cottage may be obtained by contacting our Corporate Secretary at: +1.441.496.2600.

When used in this proxy statement, the terms we, us, our, the Company, AXIS and AXIS Capital refer to AXIS Capital Holdings Limited.

The approximate date on which we are first sending this proxy statement and the accompanying proxy card is March 21, 2011.

This proxy statement, our 2010 Annual Report to Shareholders and our Form 10-K for the fiscal year ended December 31, 2010 are available at <https://materials.proxyvote.com/G0692U>.

When the accompanying proxy card is properly executed and returned, the proxies named on the proxy card will vote the common shares, par value U.S. \$0.0125 per share, of AXIS Capital at the meeting as specified on the following proposals:

the election of the five nominees for Class II Directors as identified in this proxy statement;

the approval, by non-binding vote, of the compensation of the named executive officers;

the recommendation, by non-binding vote of whether the non-binding shareholder vote to approve the compensation of our named executive officers should occur every one, two or three years;

the appointment of Deloitte & Touche Ltd. (Deloitte) to act as our independent registered public accounting firm for the fiscal year ending December 31, 2011 and the authorization of our Board, acting through the Audit Committee, to set the fees for the

Edgar Filing: AXIS CAPITAL HOLDINGS LTD - Form DEF 14A

independent registered public accounting firm; and

such other business as may properly come before the meeting or any postponements or adjournments thereof.

Shareholders of record as of the close of business on March 7, 2011, the record date, are entitled to vote at the meeting. As of March 7, 2011, there were 117,422,903 outstanding common shares entitled to vote at the meeting. Except as set forth in our bye-laws, each common share entitles the holder of record to one vote. In accordance with our bye-laws, shareholders whose shares constitute 9.5% or more of the voting power of our common shares are entitled to less than one vote for each common share held by them, but only in the event that a U.S. Shareholder, as defined in our bye-laws, owning 9.5% or more of our common shares is first determined to exist. We will notify any shareholder whose voting power is reduced prior to the meeting.

Table of Contents

Assuming that there is a quorum consisting of two or more persons present in person and representing in person or by proxy shares representing more than fifty percent (50%) of the aggregate voting power of the Company, the affirmative vote of a majority of the votes cast at the meeting by the holders of shares represented in person or by proxy at the annual meeting is required for the election of directors, the approval of the compensation paid to our named executive officers, whether the vote to approve the compensation paid to our named executive officers will occur every one, two or three years and the ratification of the appointment of Deloitte. Abstentions and instances where brokers are prohibited from exercising discretionary authority for beneficial owners who have not returned a proxy (so-called broker non-votes) will be counted for purposes of determining a quorum. In determining whether (i) a director nominee has been elected by the shareholders; (ii) the compensation of our named executive officers has been approved; and (iii) the vote to approve the compensation paid to our named executive officers will occur every one, two or three years, abstentions and broker non-votes will have no effect on the outcome of any of these proposals because such shares are not considered votes cast. Under New York Stock Exchange rules, the proposal to ratify the appointment of Deloitte as our independent registered public accounting firm is considered a discretionary item. This means that brokers may vote in their discretion on this matter on behalf of their clients who have not furnished voting instructions. Therefore, there will be no broker non-votes on the ratification of the appointment of Deloitte and in determining whether the proposal has received the requisite number of affirmative votes to be approved, abstentions will have no effect on such proposal because such shares are not considered votes cast. **We will count common shares held by shareholders who have signed their proxy cards or properly submitted their proxy by phone or over the internet but have not specified how their shares are to be voted towards the presence of a quorum, and we will vote those shares in accordance with management's recommendations for each of the proposals contained in this year's proxy statement.**

Any shareholder giving a proxy has the power to revoke it prior to its exercise by sending notice of revocation to our Secretary in writing, by executing and delivering a subsequent proxy card or by voting in person at the meeting. To revoke a proxy previously submitted over the Internet or by telephone, you may simply vote again at a later date, using the same procedures, in which case your later submitted vote will be recorded and your earlier vote revoked. You may also vote in person at the Annual General Meeting.

Our financial statements for the year ended December 31, 2010 together with the report of our independent registered public accounting firm in respect of these financial statements will be presented at the meeting.

PROPOSAL 1. ELECTION OF DIRECTORS

Our Board is divided into three classes, designated Class I, Class II and Class III. The term of office for each Class II director expires at the Annual General Meeting in 2011; the term of office for each Class I director expires at the annual general meeting in 2012; and the term of office for each Class III director expires at the annual general meeting in 2013. At each annual general meeting, the successors of the class of directors whose term expires at that meeting will be elected to hold office for a term expiring at the annual general meeting to be held in the third year following the year of their election.

Five Class II directors are to be elected at the meeting to hold office until the annual general meeting in 2014. All of the nominees currently are directors. Our Corporate Governance and Nominating Committee recommended all of the nominees to our Board for election at the meeting. All nominees have consented to serve if elected. We do not expect that any of the nominees will become unavailable for election as a director, but if any nominee should become unavailable prior to the meeting, proxy cards authorizing the proxies to vote for the nominees will instead be voted for substitute nominees recommended by our Board.

Table of Contents

CORPORATE GOVERNANCE

Independence of Directors

Our Board consists of 13 directors, of which 11 are non-management directors. The Board has determined that each of Messrs. Bell, Davis, Friedman, Greene, Greetham, Keane, Large, Ramey, Smith and Zeller and Ms. Lister is independent as defined in the listing standards of the New York Stock Exchange and in accordance with the Company's Corporate Governance Guidelines. The Board also determined that Mr. Frank Tasco, a director who retired from the Board effective May 6, 2010, was independent as defined in the listing standards of the New York Stock Exchange and the Company's Corporate Governance Guidelines. The Board has made these determinations based primarily on a review of the responses of the directors to questions regarding employment and compensation history, family relationships and affiliations and discussions with the directors. With respect to Mr. Charles A. Davis, the Board reviewed his current relationship with Stone Point Capital, LLC and the amount of our warrants owned by entities that are managed by or affiliated with Stone Point along with assets that we currently have under management with affiliates of Stone Point, as well as contracts for services with an affiliate of Stone Point. The Board determined that neither these relationships nor the amount of warrants that may be deemed to be beneficially owned by Stone Point or its affiliates constituted a material relationship with us as defined in the listing standards of the New York Stock Exchange. With respect to Mr. Robert L. Friedman, the Board reviewed his relationship with The Blackstone Group L.P. and various investments held by us in Blackstone or that are managed by affiliates of Blackstone. With respect to Mr. Christopher V. Greetham, the Board reviewed his service solely as an advisory board member to a fund group with respect to which we have an investment in one fund. The Board determined that these transactions did not constitute a material relationship with us as defined in the listing standards of the New York Stock Exchange. For more details about these transactions and our share ownership, see "Certain Relationships and Related Transactions" and "Principal Shareholders" in this proxy statement.

Board Leadership Structure

The Board believes that the decision of whether to combine or separate the positions of Chief Executive Officer and Chairman will vary company to company and depends upon a company's particular circumstances at a given point in time. For our Company, the Board currently believes that separating the Chief Executive Officer and Chairman positions is the appropriate leadership structure and is in the best interests of our shareholders. In addition, the Board also believes that AXIS' current leadership structure does not affect the Board's role in risk oversight of the Company. Accordingly, Mr. Butt serves as our Chairman of the Board, while Mr. Charman serves as our Chief Executive Officer and President. Our Board believes that this structure best encourages the free and open dialogue of alternative views and provides for strong checks and balances. Additionally, Mr. Butt's attention to Board and committee matters allows Mr. Charman to focus more specifically on overseeing the Company's day-to-day operations and underwriting activities as well as strategic opportunities and planning.

In addition, the Board believes that appointing a lead independent director enhances effective governance. Consequently, the Company's Corporate Governance Guidelines provide that the Board will elect a Lead Independent Director, whose duties include presiding at executive sessions of the non-management directors as well as all meetings at which the Chairman is not present. During 2010, Mr. Greene served as our Lead Independent Director. Additionally, the responsibilities of the Lead Independent Director, which are set forth in the Company's Corporate Governance Guidelines, include:

providing input on meeting agendas and information that is provided to the Board;

assisting in scheduling Board meetings;

acting as a liaison between the independent directors and the Chairman;

recommending, as appropriate, that the Board retain consultants who will report directly to the Board; and

consulting and communicating with major shareholders on an as-requested basis.

Table of Contents

The Board also believes that one of the key elements of effective, independent oversight is that the independent directors meet in executive session on a regular basis without the presence of management. In 2010, as part of the agenda for each of the five Board meetings, the independent directors met in executive session with the Lead Independent Director presiding at such meetings.

Board Committees

Our Board currently maintains Executive, Audit, Compensation, Corporate Governance and Nominating, Finance and Risk Committees. Current copies of the charter for each of these committees, as well as our Corporate Governance Guidelines and Code of Business Conduct, are available on our website at www.axiscapital.com.

Executive Committee. The Executive Committee is composed of Messrs. Butt, Charman and Davis and is chaired by Mr. Greene. This committee may exercise the authority of the Board when the entire Board is not available to meet, except in cases where the action of the entire Board is required by our memorandum of association, our bye-laws or applicable law. The Executive Committee did not meet during the year ended December 31, 2010.

Audit Committee. The Audit Committee is composed of Messrs. Greene, Keane, Ramey, Zeller and Ms. Lister and is chaired by Mr. Smith. This committee has general responsibility for the oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements, our independent auditor's qualifications and independence and the performance of our internal audit functions and independent auditors. The committee appoints, retains and determines the compensation for our independent auditors, pre-approves fees and services of the independent auditors and reviews the scope and results of their audit. The Audit Committee has been established in accordance with Section 3(a)(58)(A) of the U.S. Securities Exchange Act of 1934, as amended (the Exchange Act). Each member of the Audit Committee is a non-management director and is independent as defined in the listing standards of the New York Stock Exchange and under the Exchange Act. Our Board has determined that Mr. Smith qualifies as an audit committee financial expert pursuant to the rules and regulations of the Securities and Exchange Commission, or SEC. The Audit Committee met eleven times during the year ended December 31, 2010.

Compensation Committee. The Compensation Committee is composed of Messrs. Greene, Greetham, and Ramey and is chaired by Mr. Smith. Mr. Frank Tasco, who retired from the Board effective May 6, 2010, also served on the Compensation Committee during 2010. This committee establishes our Chief Executive Officer's and our other executive officers' compensation in light of our established corporate performance goals and makes recommendations to our Board with respect to overall officer, management and employee compensation policies, incentive compensation plans, equity-based plans and director compensation. Each member of this committee is a non-employee director for purposes of Rule 16b-3 under the Exchange Act, an outside director for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Internal Revenue Code) and is independent as defined in the listing standards of the New York Stock Exchange. The Compensation Committee met seven times during the year ended December 31, 2010.

Compensation Committee Process

Under our Compensation Committee's charter, the Committee has the power and duty to set the Chief Executive Officer's annual compensation after evaluating his performance under corporate goals and objectives that the Compensation Committee sets each year. The Compensation Committee also has the authority to make recommendations to the Board regarding compensation programs and policies affecting our other employees, including our executive officers, and the form and amount of director compensation. The Compensation Committee is empowered to approve initial offers of employment, salary increases, bonuses and other incentive payments for our highest salary grade level employees, including our executive officers, and must approve all equity awards to our executive officers. The Compensation Committee also is responsible for the design of our incentive and equity compensation plans and any changes or amendments to those plans. The Compensation Committee is permitted to delegate any of its responsibilities to subcommittees in its discretion, but to date has not done so.

Table of Contents

Our Compensation Committee generally receives proposals and information from our Chief Administrative Officer and from our Chief Executive Officer for their consideration regarding executive and director compensation. Our Chief Executive Officer makes recommendations regarding salary increases, annual cash incentives and equity awards for all of our executive officers other than himself. The Compensation Committee also approves salary increases, incentive payments and equity awards for our executive officers. Our Compensation Committee receives input from our Chief Administrative Officer, senior management and the Compensation Committee's independent consultant, as necessary, regarding director compensation. However, the Compensation Committee is responsible for recommendations to the Board regarding director compensation.

Our Compensation Committee has sole authority to retain and terminate any consultants used to evaluate executive compensation, and may retain other advisors if and when it deems necessary. The Compensation Committee employs compensation consultants to assist in establishing compensation policies and programs, and considers reports prepared by compensation consultants engaged by management. The consultants prepare reports comparing our compensation programs to those of peer companies, to aid the Compensation Committee in ensuring the competitiveness and appropriateness of our compensation programs. During 2010, the Compensation Committee retained Pearl Meyer & Partners (PM&P) as its independent compensation consultant. During the year, PM&P reviewed and advised the Compensation Committee on matters concerning compensation of the Chief Executive Officer and the other named executive officers. PM&P prepared formal presentations for the Compensation Committee in May and September 2010 regarding executive compensation. PM&P also presented a formal report on directors' compensation to the Committee in September 2010.

At the beginning of each calendar year, our Compensation Committee generally reviews the incentive plan results from the prior year, makes final determinations regarding salaries for the current year and equity awards and incentive cash payments for prior-year performance, establishes the performance goals under the incentive plan for the current year, approves the Compensation Committee's report for our proxy statement and conducts a self-assessment. Mid-year, the Compensation Committee generally reviews the compensation consultant's report, if any, regarding our executive compensation program and generally reviews our compensation programs. In the fall of each year, the Compensation Committee reviews our director compensation program, approves any needed changes to the director compensation program, and conducts a preliminary assessment of our performance for the year. Our Compensation Committee generally meets at the end of each calendar year to make preliminary decisions regarding the salaries for the next calendar year and to determine the equity awards and incentive cash payments that will be made at the beginning of the next calendar year, subject to final year-end results.

Each member of this committee is a non-management director and is independent as defined in the listing standards of the New York Stock Exchange. The Corporate Governance and Nominating Committee met four times during the year ended December 31, 2010.

Finance Committee. The Finance Committee is composed of Messrs. Bell, Friedman and Greetham and is chaired by Mr. Davis. Risk Committee. The Risk Committee is composed of Messrs. Bell, Charman, Greene, Keane and Zeller and Ms. Lister, with Sir Andrew Large serving as Chairman. The purpose of the Risk Committee is to assist the Board in its oversight of risks to which the Company is exposed. The Risk Committee met five times during the year ended December 31, 2010.

Meetings of the Board and its Committees

Pursuant to our Corporate Governance Guidelines, we expect directors to attend all meetings of our Board, all meetings of all committees of the Board on which they serve and each annual general meeting of shareholders, absent exigent circumstances. Our Board met five times during the year ended December 31, 2010. No director attended fewer than 75% of the aggregate of the total number of meetings of the Board and the total number of meetings of all committees of the Board on which the director served, except for Sir Andrew Large, who attended 71% of such meetings. Thirteen of our fourteen directors serving at the time of our 2010 annual general meeting of shareholders attended the meeting in person. Our non-management directors meet in executive session without management at each meeting of the Board. They have selected Mr. Greene as the Lead Independent Director.

Board Composition

In order for the Board to satisfy its oversight responsibilities effectively, the Board seeks members who combine the highest standards of integrity with significant accomplishment in their chosen field of endeavor. The Corporate Governance and Nominating Committee is responsible for recommending qualified candidates for directorships to be filled by the Board or by our shareholders. Directors should bring a diversity of experiences, skills and perspectives to our Board. The committee considers qualities of intelligence, honesty, perceptiveness, good judgment, high ethics and standards, integrity and fairness to be of paramount importance. It also examines experience, knowledge and skills in business judgment, leadership, strategic planning, general management practices and crisis response. In addition, the committee looks for candidates with financial expertise and a willingness and ability to commit the time required to fully discharge their responsibilities to the Board. The committee evaluates candidates on the basis of their qualifications and not on the basis of the manner in which they were submitted for consideration.

In addition, although the Board does not have a policy with regard to the consideration of diversity in identifying director nominees, among the many factors that the Corporate Governance and Nominating Committee carefully considers, are the benefits to the Company of diversity of race, gender, ethnicity and national origin in board composition.

When considering whether the Board's directors and nominees have the experience, qualifications, attributes and skills, taken as a whole, to enable the Board to satisfy its oversight responsibilities effectively in light of the Company's business and structure, the Board focused primarily on the information discussed in each of the Board members' or nominees' biographical information set forth above. In particular, the Board considered the following:

Mr. Butt's 44 years of insurance industry experience and expertise;

Mr. Charman's 40 years of experience in the insurance industry and his extensive knowledge of insurance underwriting;

Mr. Bell's extensive background in capital markets transactions as well as economic, financial and country risk analysis;

Mr. Davis' distinguished career in investment banking and his extensive knowledge of corporate finance as well as his experience as a significant shareholder of insurance-related businesses;

Mr. Friedman's expertise in corporate law and finance and his years of experience in the mergers and acquisition arena;

Mr. Greene's 48 years of experience in the insurance law practice area and his extensive knowledge of insurance regulatory matters;

Table of Contents

Mr. Greetham's significant experience as an investment analyst and portfolio manager as well as his experience in asset management and the insurance industry;

Mr. Keane's significant banking experience, which includes service as the Group Chief Executive Officer of the Bank of Ireland;

Sir Andrew Large's background in investment banking and his distinguished career with the Bank of England, including his service there as a Deputy Governor for Financial Stability;

Ms. Lister's background in banking and finance and her experience as the Chairperson and Chief Executive Officer of the Bermuda Monetary Authority;

Mr. Ramey's extensive insurance industry knowledge and significant background in international insurance operations;

Mr. Smith's background and extensive banking experience, including his 32 year career with the Bank of Bermuda; and

Mr. Zeller's extensive global reinsurance background, experience and knowledge.

In addition, in connection with the nominations of Messrs. Friedman, Greene, Ramey and Zeller and Ms. Lister for election as directors at the 2011 Annual General Meeting of Shareholders, the Board considered their valuable contributions to the Company's success during their years of Board service.

Consideration of Director Nominees

The Corporate Governance and Nominating Committee will consider candidates recommended by shareholders to be nominated to our Board for election at the Annual General Meeting of Shareholders. A shareholder who wishes to submit a candidate for consideration must be a shareholder of record at the time that such shareholder submits a candidate for nomination and must be entitled to vote for the candidate at the meeting. A shareholder must give written notice of the submission to our Secretary not less than 90 days nor more than 120 days prior to the anniversary of the annual general meeting of shareholders for the preceding year. The notice must include:

the name, age and business and residence addresses of the candidate;

the principal occupation or employment of the candidate;

the number of common shares or other securities of the Company beneficially owned by the candidate;

all other information relating to the candidate that is required to be disclosed in solicitations of proxies for election of directors pursuant to Regulation 14A under the Exchange Act; and

the candidate's written consent to be named in the proxy statement and to serve as a director if elected.

The notice also must include information on the shareholder submitting the nomination, including the shareholder's name and address as it appears on our books and the number of our common shares beneficially owned by the shareholder.

Oversight of Risk Management

The key elements of our governance framework, relating specifically to risk management, are described below.

Board of Directors Level

Our Board of Directors is ultimately responsible for our risk management framework. The Risk Committee of the Board serves as the focal point for this oversight. The Risk Committee assesses whether significant risk issues are being appropriately addressed by management in a timely manner.

Table of Contents

Our Risk Committee annually reviews and approves our Risk Standards, from which our risk management framework is developed. Additionally, our Risk Committee reviews the Company's key risk exposures across all major risk categories as well as risk and capacity limits and their usage on a quarterly basis. In terms of risk measurement, the Risk Committee reviews the critical principles and assumptions used in our economic capital model. The Finance Committee of the Board makes decisions about investments and market risk, while complying with the Company's risk management framework. In addition, our Compensation Committee reviews and assesses compensation and incentive program risks to ensure that the Company's compensation programs balance appropriate business risk and rewards without encouraging risk-taking behaviors which may be inconsistent with the long-term success of the Company. The Compensation Committee structures compensation so that inappropriate risk-taking behavior is discouraged and behaviors correlated with long-term value creation are encouraged. The Board, Compensation and Finance Committees receive regular reports with respect to the Company's risk exposures and risk management framework.

Executive Level

The Company's Executive Committee oversees our performance with regard to risk management as well as issues of control, strategic, financial and business policy. This includes monitoring adherence to, and further development of, our risk management policies and procedures. The Executive Committee receives regular briefings and recommendations from the Company's Risk Management Committee, or RMC, on our risk profile and risk-related issues.

The RMC is a cross-functional body, which includes our Chief Executive Officer and Chief Risk Officer. The RMC, which meets at least monthly, oversees the effective management of our overall risk profile, including risks related to insurance, financial, credit and operational risks as well as their interactions. The RMC reviews and formulates recommendations for, among other things, changes to our Risk Standards, the Company's risk-based capital methodology and risk tolerance limits. The RMC acts as an interface between the Board's Risk Committee and our executive management, who are responsible for managing our business within defined risk tolerances.

Management Level

In addition to the oversight roles of our Board, Executive Committee and Risk Management Committee, we have several other layers of governance within our risk management framework. Management in each of our operating units is responsible in the first instance for both the risks and returns of their decisions. Management are the owners of risk management processes and are responsible for managing our business within our defined risk tolerances in compliance with our Risk Standards.

The Company's Risk Department, led by our Chief Risk Officer, or CRO, oversees risk taking activity throughout the Company and provides guidance and support for risk management practices. The Risk Department is responsible for developing our risk management framework and overseeing adherence to the framework. The Risk Department also develops methods and processes for identifying, assessing and monitoring risk across the Company based on systemic qualitative and quantitative analysis. The Risk Department is further responsible for monitoring and reporting the accumulation of specific types of risk, including catastrophe exposures and aggregate credit risk. The CRO regularly reports risk matters to our Chief Executive Officer, senior management committees and the Board.

Our risk management network also includes risk officers within our underwriting segments and Investment Department. These local risk units, which have regular and close interaction with the Risk Department, assist with embedding the risk management framework into our business.

Our Internal Audit Department, an independent, objective function, provides assurance to the Board on the effectiveness of our risk management framework. This includes assurance that key business risks have been adequately identified and managed appropriately and that our system of internal control is operating effectively. Internal Audit also coordinates risk-based audits, compliance reviews and other specific initiatives to evaluate and address risk within targeted areas of our business.

Table of Contents

Our risk governance structure is further complemented by our Legal Department which seeks to mitigate legal and compliance risks with support from other departments. Legal risks include legislative changes, major litigation and disputes, regulatory proceedings and contractual clauses that are unclear or construed differently by the courts.

Code of Business Conduct

We have adopted a Code of Business Conduct that applies to all of our directors, officers and employees, including our Chief Executive Officer and President, our Chief Financial Officer and our Controller. Copies of our Code of Business Conduct and our Corporate Governance Guidelines are available on our website at www.axiscapital.com. We intend to disclose on our website any required amendment to, or waiver of, a provision of the Code of Business Conduct that applies to our Chief Executive Officer and President, our Chief Financial Officer or our Controller. In addition, waivers of the Code of Business Conduct for our directors and executive officers may be made only by our Board or the Corporate Governance and Nominating Committee and will be promptly disclosed to shareholders on our website in accordance with the listing standards of the New York Stock Exchange.

Shareholder Communications with the Board

Shareholders and other interested parties may send communications to our Board by sending written notice to our Secretary. The notice may specify whether the communication is directed to the entire Board, to the non-management directors, to the Lead Independent Director or to a particular Board committee or other director. Our Secretary will handle routine inquiries and requests for information or will otherwise determine whether the communication is made for a valid purpose and is relevant to the Company and its business and, if he so determines, will forward the communication to the Chairman of the Board, to the non-management directors or to the appropriate committee chairman or director. At each meeting of our Board, our Secretary presents a summary of all communications received since the last meeting that were not forwarded and makes those communications available to the directors on request.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Overview:

2010 was an excellent year for AXIS, despite a continuing soft property and casualty pricing market, a historically low interest rate environment and significant global catastrophic loss activity. Net income for the full year was \$820 million, representing a return on average common equity (ROACE) of 16.2%, compared with \$461 million and ROACE of 10.3% in 2009. Operating income for the year was \$627 million, representing an operating ROACE of 12.4%, compared to \$766 million and operating ROACE of 17.1% in 2009. Diluted book value per common share at December 31, 2010 was \$39.37, representing an increase of 17% from \$33.65 at December 31, 2009. Finally, our share price closed at \$35.88 on December 31, 2010, representing a total gain to shareholders in 2010, including dividends, of 29.6%, well above the median for our industry. Based on these results, the Compensation Committee considered our 2010 performance to be superior and consequently made the following compensation determinations in February 2011 with respect to our named executive officers for 2010:

The bonus pool for named executive officers was awarded at between 150% and 200% of the target bonus for each named executive officer;

Equity grants for named executive officers were between 100% and 143% of target; and

Base salaries for named executive officers were revised effective January 1, 2011 as specified in their new or amended employment agreements. These agreements also eliminated payment or reimbursement for certain perquisites as explained in more detail below. The Compensation Committee considered these payment outcomes to be appropriate given the level of financial and shareholder return achievement outlined above.

Objectives of Our Executive Compensation Program

At AXIS, our stated mission is to become the leading diversified global specialty insurance and reinsurance company as measured by quality, sustainability and profitability. We strive to achieve a ROACE of 15% or better over an underwriting cycle. Since inception, AXIS has achieved an average ROACE of 15.8%. To achieve superior performance in a highly cyclical business, we must ensure that our capital is adequately protected to take full advantage of market opportunities for our shareholders when they are available. To achieve this objective, it is critical that we recruit and retain the best talent in the global marketplace. Accordingly, we have designed our executive compensation program with a goal of attracting, retaining and motivating superior talent globally and maximizing shareholder value in the long-term. The overall combination of executive compensation and benefits that we pay our named executive officers is structured to reward above-median performance with above-median levels of compensation as compared to our competitive universe. Although we review our competitive position annually, the primary consideration for our compensation decisions continues to be the assessment of our overall financial performance in any given performance year. Further, our executive compensation program is designed to provide a combination of fixed and variable components of compensation so that below-median performance can be appropriately addressed with reductions in levels of compensation commensurate with such performance.

Our industry is highly cyclical in nature, largely due to fluctuations in industry capital levels. These industry capital levels are out of our named executive officers' control, but drive the overall competitive environment in our underwriting operations. As a result, flexibility is of utmost importance in our compensation programs. Additionally, conditions in the broader global capital markets can significantly impact the performance of our invested assets. We believe that we should reward our named executive officers for adequately protecting our capital under difficult market conditions so that, going forward, we can participate in value creation opportunities for our shareholders. We also believe that we should reward our named executive officers for outperforming leaders of similar businesses and achieving results for our shareholders that are beneficial under varying market conditions. Therefore, our executive compensation program is designed to take into account all relevant

Table of Contents

circumstances and provide competitive compensation to attract, reward, motivate and retain our named executive officers. We generally seek to avoid creating incentive compensation plans that are inflexible or that are overly formulaic.

Individual performance also plays a role in our decisions regarding named executive officers' compensation; however, consistent with our emphasis on strategic and organizational flexibility, we do not generally have structured individual goals for our named executive officers. Instead, our Chief Executive Officer evaluates and makes a recommendation to the Compensation Committee on the performance of the portion of our business for which the named executive officer is responsible (other than for himself). The Compensation Committee reviews the individual performance of the named executive officer, considers the opinion of our Chief Executive Officer (except with regard to his own individual performance) for the named executive officers, considers the overall performance of the Company, and considers any other factors it deems relevant in evaluating the individual performance and approving the compensation recommendations for our named executive officers.

Our Chief Executive Officer's compensation and that of our other named executive officers is designed to reflect their significant level of responsibility and their overall contributions to our success. In addition to leading the Company's day-to-day underwriting and operating activities, our named executive officers have built and lead a team of senior professionals that we believe is one of the strongest teams in our industry. The significant diversity of our operations and successful management of these operations ultimately serve to preserve our capital and drive long-term shareholder returns. Therefore, we have designed our named executive officers' compensation to reflect this situation, both to compensate them for the functions they perform and to ensure that their compensation is connected to the successes attributable to their skills and responsibilities.

Risk Management and Compensation

The Compensation Committee believes that AXIS' executive compensation program does not encourage inappropriate risk-taking and the Compensation Committee seeks to ensure that our executive compensation program does not encourage executives to take risks that are inconsistent with the long-term success of the Company. Specifically:

Our compensation program balances base salary, annual bonus opportunity and long-term equity and we avoid relying exclusively on formulaic approaches to our compensation plans;

The total bonus pool for the Company's Annual Incentive Plan is tied to our operating ROACE and growth in diluted book value per share relative to our peer group, which ensures that the long-term interests of the Company's shareholders are at the forefront of decision making for our employees and named executive officers;

Our Compensation Committee retains discretion in overseeing our compensation programs, such that meaningful reductions in compensation are possible if our financial results do not meet our expectations, as was the case in 2008; and

Our stock ownership guidelines are designed to ensure that the long-term interests of our executives are aligned with those of our shareholders.

Competitive Market Analysis:

Although AXIS gives careful consideration to each element of total compensation, we evaluate our competitive position with respect to our named executive officers on a total direct compensation basis, which consists of base salary, annual bonus and long-term incentives, because these are the most significant elements of compensation and also because other elements vary greatly from company to company and are difficult to compare. The Compensation Committee engages an independent consultant to periodically review the appropriateness of our executive compensation program so that the Committee can make adjustments as needed. The consultant provides the Committee with a competitive market perspective of total direct compensation based on an analysis of proxy disclosures of publicly-traded insurance companies that we consider to be our peers and/or competitors. In designing a competitive executive compensation program, we take into account the need to

Table of Contents

attract qualified executives in geographic areas where we operate, such as Bermuda, Dublin, New York, London, Singapore and Zurich, that have a relatively higher cost of living, as well as the costs associated with relocating executives to those areas.

In August 2010, Pearl Meyer & Partners (PM&P), the Compensation Committee s independent consultant, reviewed our 2009 executive compensation program and company performance. Our Chief Executive Officer s compensation was compared to that of chief executive officers at our peer companies. Because executive job functions at our peer companies vary, we compared our named executive officers compensation, other than our Chief Executive Officer s and Chief Financial Officer s, to that of executive officers at the peer companies who have the most similar positions to those of our named executive officers. However, to address in part the variation in business structures and because consistent information regarding comparable officers at other companies is difficult to obtain, PM&P also compared our named executive officers compensation, other than our Chief Executive Officer s and Chief Financial Officer s, to that of the third through fifth highest-paid officers at the peer companies.

The components of total compensation that were included in this analysis were:

Base Salary;

Bonus;

Total Cash Compensation (base salary plus bonus);

Long-Term Incentives (which for AXIS consisted solely of restricted stock grants); and

Total Direct Compensation (consisting of total cash compensation plus long-term incentives).

The AXIS peer group consisted of:

ACE Limited

XL Group plc

Everest Re Group, Ltd.

PartnerRe Ltd.

Arch Capital Group Ltd.

Endurance Specialty Holdings Ltd.

Platinum Underwriters Holdings, Ltd.

RenaissanceRe Holdings Ltd.

Aspen Insurance Holdings Limited

Allied World Assurance Company Holdings, Ltd.

Validus Holdings Ltd.

The review performed by PM&P examined our performance under several growth and profitability measures as compared to that of our peer companies. The growth measures included total revenues, gross premiums written and total assets over a one-year and three-year compounded annual growth rate. The profitability measures included one- and three-year average combined ratio (which is the sum of our net loss and loss expense, acquisition cost, and general and administrative expense ratios), ROACE and total shareholder return. The review showed that for 2009, gross premiums written and total asset growth rebounded while revenue growth was below the median. Combined ratio, a significant performance metric for an underwriting organization, continued to be a strong area of performance, with AXIS ranking fourth among peer companies in 2009 and third over a three year period. ROACE declined significantly in 2009 (below the 10th percentile) as did shareholder returns (below the 20th percentile). Accordingly, the relative total direct compensation for our named

Table of Contents

executive officers fell in 2009 as compared to 2008. Our Chief Executive Officer dropped from number two of 13 in 2008 to number nine of 12 in 2009. The heads of our insurance and reinsurance businesses fell from number five of 24 in 2008 to number 13 of 24 in 2009 and our Chief Financial Officer dropped from number seven of 13 in 2008 to number nine of 12 in 2009. PM&P characterized our pay for 2009 as aligned with our performance relative to our peer group. As a result of this analysis, the Compensation Committee determined that our program did not need to be adjusted for 2010, and we continued with the general compensation structure that was used in prior years and as is described below.

2010 Performance:

Elements of Compensation:

Executive compensation at AXIS is primarily a combination of base salary, annual cash bonus paid under our Annual Incentive Plan, long-term incentive awards made under our 2007 Long-Term Equity Compensation Plan and supplemental retirement programs. We also provide general employee benefits to our named executive officers.

Compensation of our named executive officers is governed in part by the employment agreements we have entered into with our named executive officers. Effective January 1, 2011, we amended the employment agreements for Messrs. Butt and Charman and entered into new employment agreements with Messrs. Fischer and Gressier. Each of the amended or new agreements eliminated provisions providing for payment or reimbursement for club memberships, use of an automobile and financial and tax planning, while the amendments to Mr. Butt's and Mr. Charman's agreements also eliminated a tax gross up provision for the payment of excise taxes in the context of a change in control of AXIS. This excise tax gross-up provision was not present in the agreements with Messrs. Fischer or Gressier. The terms and conditions of the employment agreements are described in detail under the narrative disclosure to the Summary Compensation Table and Grants of Plan-Based Awards Table and in the section entitled "Potential Payments Upon Termination or Change in Control" below.

Base Salary:

Base salaries are the most basic form of compensation and are integral to any employment arrangement. Our main consideration in determining base salaries is to remain competitive. We also seek to balance a logical salary structure within the Company globally with the demands of the market for executive talent. A competitive base salary allows us to attract individuals from other organizations, both within our industry and outside our industry. Paying our existing named executive officers a competitive base salary that is updated to compete with market pressures helps us retain key staff by minimizing their need or desire to leave us to increase their level of basic compensation. In addition, base salary enables our named executive officers to maintain a sufficient standard of living in the locations where we operate and, accordingly, base salaries differ by geographic location.

AXIS utilizes a salary grade structure that was created with the assistance of Mercer Human Resource Consulting, or Mercer. Each of our 14 salary grades has a minimum, midpoint and maximum salary that were established with a midpoint at the 60th to 65th percentile compared to similar positions at comparable companies. The ranges of permitted salaries for each grade were established utilizing approximately the top third of the salary range for our industry based on the data provided by Mercer. Our named executive officers are generally in the highest salary grade because they have the highest level of responsibility among our employees, but their placement within the range of salaries in that grade is based on the individual's type of position, historical factors, geographic location, individual performance, and the Compensation Committee's determination of competitiveness and appropriate levels based on the Chief Executive Officer's recommendations (except for himself).

Messrs. Charman and Butt are not graded, and their initial annual base salaries were established pursuant to their employment agreements at the time of hire based on then-current market conditions. The Compensation Committee bases salary adjustments for Messrs. Charman and Butt on the same factors used to determine the other named executive officers' salaries within their pay grade. Mr. Charman's salary also reflects, in part, his

Table of Contents

substantial contribution to our Company and his high level of responsibility as discussed above, and thus is higher than the salaries of our other named executive officers.

Base salaries are generally reviewed at the end of each calendar year. We review external salary survey data to assist in developing the total budget for salary increases company-wide. This total amount includes annual merit increases, increases due to promotions and any increases needed for market adjustments to remain competitive. A merit increase guideline is then expressed in terms of a percentage of current annual base salary for each geographic location. We intend that the merit increase guidelines will ensure that our salaries remain competitive and reflect cost of living adjustments and other pay increases for the geographic location as reported in surveys.

The Chief Executive Officer recommends annual base salary increases, if any, for our named executive officers (except for himself). The Compensation Committee reviews and approves those increases using the guidelines described above. The Compensation Committee reviews and evaluates the performance of the Chief Executive Officer and approves any changes to his base salary. Those decisions are then reviewed and ratified by the independent directors of our Board.

At the end of 2009, our Chief Executive Officer reviewed and our Compensation Committee approved base salaries for our named executive officers as follows: Mr. Fischer's base salary was increased 10%; Mr. Greenfield's base salary was increased 5% and Mr. Gressier's base salary was increased 10%. Messrs. Butt and Charman's base salaries were not increased for 2010.

Under the amendments to the employment agreement for Messrs Butt and Charman, effective January 1, 2011, Mr. Butt's base salary is set at \$750,000 per year and Mr. Charman's base salary is \$1,575,000. Pursuant to the new employment agreements with Messrs. Fischer and Gressier, Mr. Fischer's base salary is set at \$885,000 and Mr. Gressier's base salary is \$910,000.

Annual Incentive Plan:

Annual incentive compensation, which we refer to as the annual bonus, for our named executive officers is provided under our 2004 Annual Incentive Plan, which is described below in the narrative to the Summary Compensation Table and Grants of Plan-Based Awards in 2010 Table. The Annual Incentive Plan is a critical tool for rewarding the achievement of corporate goals while providing us with the flexibility to reduce or eliminate the incentive amount if those goals are not met.

To further our goal of keeping the best interests of shareholders at the forefront of decision-making for our employees and executive officers, the total bonus pool historically has been and continues to be tied to our return on average shareholders' common equity, or ROACE. For 2010 performance, the Compensation Committee refined our performance metrics as follows:

ROACE will be measured on an operating basis, which excludes after-tax realized gains and losses from our investment portfolio, and will continue to be evaluated relative to the Company's annual financial plan.

A diluted book value per share evaluation benchmark was introduced such that 12 month growth in diluted book value per share (measured as of September 30 of each respective year) at or above median relative to our peer group is considered to be target performance and a ranking in the top third relative to our peer group is considered to be superior performance.

In early 2010, the Compensation Committee determined that if AXIS achieved an operating ROACE of 11.3% for 2010 and if 12 month growth in diluted book value per share, measured as of September 30, 2010, was at or above the median for our peer group, the target bonus pool would be equal to 100% of the aggregate total target bonus amounts for all employees. This value reflects the Committee's view that our industry continues to operate in a soft underwriting market cycle and in a historically low interest rate environment. Accordingly, the Committee believed that the operating ROACE target for 2010 represented a reasonable goal.

Table of Contents

As in 2008 and 2009, the Compensation Committee in 2010 further decided to set the objective for superior results at 120% of the target objective for operating ROACE. Accordingly, if AXIS achieved an operating ROACE target of 13.6%, and if our 12 month growth in diluted book value per share was in the top one-third of our peer group, the annual incentive plan pool would be 150% of the aggregate target bonus amounts for all employees. The Compensation Committee also retained the discretion to approve a downward or upward adjustment to any bonus pool amount, in the event of performance below the target level, between the target and superior levels or above the superior level. The goal of the Compensation Committee, both in setting the targets and in retaining discretion to make adjustments based on ultimate results and the circumstances behind those results, was to establish a program that provides appropriate incentive for behavior that focuses on business decisions that are in the long-term best interests of AXIS and our shareholders and comports with our business strategy of underwriting discipline and appropriate risk-taking.

In order to achieve a competitive total compensation package, in consultation with its outside consultant, in 2003 AXIS established individual annual bonus targets expressed as a percentage of base salary for each salary grade. Target amounts represent a starting point for the Compensation Committee to use in allocating bonuses among the named executive officers, and are not guaranteed for named executive officers. Mr. Gressier's and Mr. Fischer's target bonuses were adjusted in 2010 to reflect the additional levels of responsibility that each have within the organization. After these adjustments, all named executive officers' target bonuses are now 125% of their annual salaries, except for Mr. Charman, whose annual incentive target award is set under his employment agreement at 150% of his base salary, subject to a minimum of \$1,875,000 if performance targets are met. Mr. Charman's base salary for the purpose of calculating his incentive target for 2011 performance remains at \$1,250,000 and did not increase with the January 1, 2011 change in his base salary as a result of his amended employment contract.

In all cases, our named executive officers' actual incentive award is subject to the discretion of the Compensation Committee. Each executive may receive no bonus or a lower than target bonus for an unsatisfactory individual performance, may receive a bonus based on the level of pool funding if they meet expectations, or may receive a higher bonus at the discretion of the Compensation Committee. The amount actually awarded reduces the total bonus pool available for other executive officers and employees.

In 2010, as previously stated, our operating results significantly improved over our 2009 results. Despite this significant improvement relative to the prior year, our 2010 operating ROACE of 12.4% was below our superior objective of 13.6%. However, our operating ROACE did exceed our established target of 11.3% and annual growth in our diluted book value per share was in the top third for our peer group, achieving superior performance for this metric. In determining the overall bonus pool amount, the Compensation Committee took into consideration the continuing soft property and casualty pricing market, the historically low interest rate environment and the significant global catastrophic loss activity in 2010. Based on these factors, the Compensation Committee viewed the Company's performance as superior and therefore used its discretion to approve an overall bonus pool amount of 150% of the target amount.

In determining the bonus amount for each of the named executive officers, the Committee considered the relative performance of each of the named executive officers, as recommended by the Chief Executive Officer (other than for himself), and approved a bonus as a percentage of target of between 150% and 200% of target. Therefore, based on the recommendation of our Chief Executive Officer (other than for himself), the Compensation Committee approved an allocation to the named executive officers of a portion of the Annual Incentive Plan pool equal to each named executive officer's target percentage of base salary multiplied by 175% for Mr. Butt, 200% for Mr. Charman, 150% for Mr. Fischer, and 200% for Mr. Gressier. The Committee believed that these amounts accurately reflected the individual performance and contribution to the overall results that the Company achieved in 2010.

Long-Term Equity Compensation Plan:

In 2010, we provided long-term incentive compensation through equity awards under our 2007 Long-Term Equity Compensation Plan, or 2007 LTEP, which previously was approved by our shareholders. Equity awards are an especially valuable tool in linking the personal interests of executive officers to those of our shareholders.

Table of Contents

because the amount the executive officers will ultimately receive under these awards is determined by our stock price. A higher stock price benefits our shareholders and increases the value of the executive officers' equity awards. In addition, the vesting requirement for our equity awards is a valuable retention tool that we consider very important in a competitive industry. Furthermore, because other employers with whom we compete for executive talent grant equity as part of their compensation packages, we believe that we need to include this element as part of our executive officers' compensation in order to be competitive.

In 2003, with the help of our outside consultant at that time, we established equity award guidelines for a target annual award of stock options and restricted stock for each executive. The targets were designed to provide an above median total compensation package for above median performance when compared to our industry peer group, when the equity awards are combined with base salary and annual incentive payments. In 2005, we modified our practice to discontinue the granting of stock options and increase the grants of restricted stock because we desired a more effective equity vehicle for rewarding performance and retaining valuable executive talent. We believe that the use of restricted stock provides executive officers with the motivation to meet or exceed individual goals and make decisions that add to longer-term shareholder value.

Under these equity award guidelines, the target annual award currently is 90,000 shares of restricted stock for Mr. Charman and 75,000 shares for Mr. Butt. The target annual award for Messrs. Fischer and Gressier currently is 35,000 shares of restricted stock, which represents an increase from their 2009 target annual award of 30,000 shares. These guidelines, however, represent only the starting point for determining an executive officer's actual award each year. At the end of each fiscal year, the Compensation Committee determines the actual awards to be made in its discretion, considering competitiveness, retention needs, Company and individual performance and any other factors it deems relevant. The awards are generally granted in the first quarter of the following year.

As discussed in our proxy statement for our 2010 annual general meeting, in February 2010 the Compensation Committee determined that the following annual awards of restricted stock under the 2007 LTEP were appropriate for the named executive officers as a result of our Company performance in 2009: Mr. Charman 95,000 shares; Mr. Butt 75,000 shares and Messrs. Fischer and Gressier 40,000 shares. As a result, on February 8, 2010, our Compensation Committee approved those restricted stock awards. The restricted stock vests 25% per year over four years. The awards made in February 2010 reflect 2009 performance but, because they were granted early in 2010, they are reflected in the Summary Compensation Table and the Grants of Plan-Based Awards Table for the 2010 fiscal year.

In connection with the execution of his amended employment agreement and in consideration of his outstanding contributions to the Company, in January 2011 Mr. Butt was granted 100,000 additional shares of the Company's restricted common stock. The shares vest 25% per year over four years.

On February 7, 2011, the Compensation Committee approved the following annual awards of restricted stock under the 2007 LTEP to the named executive officers for 2010 performance: Mr. Charman 110,000 shares; Mr. Butt 75,000 shares; Mr. Gressier 50,000 shares and Mr. Fischer 35,000 shares. These awards will vest 25% per year over four years and range from between 100% to 143% of the named executive officer's respective targets. The awards made in February 2011 reflect 2010 performance but, because they were granted in early 2011, are not reflected in the Summary Compensation Table or the Grants of Plan-Based Awards Table for the 2010 fiscal year.

In September 2009, the Compensation Committee ratified and implemented minimum stock ownership guidelines for all named executive officers and other selected members of senior management. The guidelines require the Chief Executive Officer and Chairman to hold AXIS securities with a value equal to a minimum of five times their annual base salary, and require the other named executive officers and covered members of senior management to hold AXIS securities with a value equal to a minimum of two to three times their annual base salary. Individuals subject to the guidelines have five years from September 2009, the date of promotion or appointment to a position subject to the guidelines, whichever is later, to meet the applicable minimum requirement. Restricted stock or restricted stock units that have vested or that will vest within 60 days, including shares withheld to or used to pay mandatory payroll or income taxes within the previous three years, as well as shares owned outright, will count towards meeting the guidelines.

Deferred Compensation and Supplemental Retirement Plans:

In January 2004, AXIS implemented supplemental retirement plans, or SERPs, for Messrs. Charman and Butt. The plans are described more fully below under the Pension Benefits Table. Mr. Charman's plan generally requires us to make annual payments to Mr. Charman upon his retirement for a period of 20 years or beginning on January 1, 2009 even if he is not retired. This date was set during the negotiation of Mr. Charman's employment agreement to coincide with the original termination date of the agreement. The first annual installment of Mr. Charman's SERP was paid in February 2009. Mr. Butt's plan generally requires us to make annual payments to Mr. Butt upon his retirement for a period of ten years or beginning on January 1, 2010 even if he is not retired. On September 19, 2008, Mr. Butt's SERP was amended to increase by \$100,000 the supplemental amount payable to Mr. Butt for each of the last five years of the SERP, to comport with what was originally intended by the Compensation Committee when it approved the amendment made to Mr. Butt's SERP in March 2006. The first annual installment of Mr. Butt's SERP was paid in January 2010.

If the executive dies, is permanently disabled or a change in control of AXIS occurs, the remaining benefits under the SERP become fully payable in a lump sum. Payments are accelerated upon these events because these are circumstances under which the executive and his family would likely need additional security. These plans were established to provide competitive retirement benefits for our most senior leaders and to aid in their retention.

Severance Benefits:

Although we do not maintain a general severance plan for our named executive officers, each of our named executive officers has rights upon termination of his employment under his employment agreement. The terms and conditions of the separation benefits and payments are described in detail in the section entitled Potential Payments Upon Termination or Change in Control. We provide these benefits in order to be competitive as an employer. We generally provide certain benefits upon a named executive officer's death or disability in part because these are circumstances under which the named executive officer and his family would likely need additional security, and we wish to reward loyal service with benefits at the time they are most needed. We also provide various benefits in connection with a change in control, in part because a change in control situation often undermines our named executive officers' job security, and it is to the benefit of AXIS and its shareholders to encourage the named executive officers to seek out beneficial business transactions and to remain with us through the closing of the transaction, even though their futures may be uncertain as a result. As such, we structured the change in control provisions in the named executive officers agreements with a double trigger, which requires termination of the executive without cause or termination by the executive for good reason in connection with a change in control. Because the consummation of a transaction alone would not trigger this benefit, this structure essentially places the decision of whether or not to trigger change in control benefits largely in the hands of the acquiring company.

We provide named executive officers with benefits and severance payments if we terminate them without cause and in some cases if they voluntarily leave under certain circumstances. These benefits add a level of security to the named executive officer's position. We believe that they are needed to attract and retain talented executive officers in our industry. These provisions encourage individuals to move from more established firms in the industry to our firm, which has less history, and help attract individuals from outside of the industry to take a position in our industry, which is generally more volatile. In addition, we face significant competition within our industry for experienced leaders, and we believe that these benefits are needed to remain competitive as an employer. Furthermore, we provide these benefits in part so that we can obtain valuable agreements from the named executive officers to assign to us certain intellectual property rights, not to compete with us for a certain period of time after leaving, not to solicit our employees or customers after leaving and to maintain the confidentiality of our information. Moreover, providing termination payments allows us to obtain a release of claims from the named executive officer upon their departure from AXIS, which we consider a valuable benefit to us.

Table of Contents

Other Compensation:

Because our business is global and we are headquartered in Bermuda, many of our named executive officers are required to relocate or to maintain a second residence or travel for business in order to work for us. To reduce the likelihood that this factor will prevent talented executive officers from joining AXIS, we provide reimbursements for a certain amount of personal travel for return trips home to named executive officers who work away from their home countries, as well as in some cases housing allowances to help defray the cost of maintaining a second residence or working in multiple locations. We also pay for certain U.S. tax expenses for any Bermuda-based employee who may be subject to incremental taxes as a result of travel to the U.S. for business purposes. We also provide certain other perquisites and benefits, as well as the general health plan and other benefits provided to all employees, which make us a competitive employer and do not represent a significant cost to us. These benefits also provide our named executive officers with the security and convenience that allows them to focus their attention on carrying out their responsibilities to AXIS.

U.S. Tax Considerations:

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to certain executive officers, although performance-based compensation arrangements may qualify for an exemption from the deduction limit if they satisfy various requirements under Section 162(m). For AXIS, this rule has limited effect because our Company is headquartered in Bermuda and U.S. tax law only affects a portion of our income. Therefore, although we are aware of and consider the impact of this rule when developing and implementing our executive compensation program, compliance with the requirements of Section 162(m) requires a somewhat formulaic approach, and we believe that flexibility is more important in our compensation programs. Therefore, this has not been a driving factor in the operation of our executive compensation program.

PROPOSAL 2. NON-BINDING VOTE ON EXECUTIVE COMPENSATION

In accordance with the requirements of Section 14A of the Securities Exchange Act of 1934 (which was added by the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act")) and the related rules of the SEC, we are including in the proxy statement a separate resolution subject to shareholder vote to approve, in a non-binding vote, the compensation of our named executive officers as disclosed above. The language of the resolution is as follows:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed in this proxy statement pursuant to the rules of the SEC, including the Compensation Discussion and Analysis, compensation tables and any related narrative discussion is hereby APPROVED.

In considering their vote, shareholders may wish to review with care the information on AXIS' compensation policies and decisions regarding the named executive officers presented in the Compensation Discussion and Analysis section above as well as the discussion regarding the Compensation Committee and Compensation Committee Process.

In particular, shareholders should note the following:

Our diluted book value per share grew by 17% in 2010. Our diluted book value per share compounded annual growth rate is 13.4% since our initial public offering in 2003. Since our inception, we have achieved an average annual return on average common equity of 15.8%. The total return for our common stock (price appreciation plus reinvestment of dividends) was 29.6% in 2010, compared to a one year median of 17.14% for the global industry classification standard (GICS) insurance group within the Russell 3000.

We believe that our compensation is appropriately aligned with our long-term performance. Specifically, incentive-based compensation represents a meaningful portion of our named executive officers' target total compensation opportunity. Also, 100% of our long-term incentives consist of restricted stock, which vests 25% a year over four years. Further, our executives are subject to stock ownership guidelines (and holding requirements) that align their long-term interests with those of our shareholders and encourage a long-term focus in managing the Company.

We continue to refine our compensation arrangements with recognition of the best practices for alignment of executive compensation with our shareholders' long-term best interests. For example, effective January 1, 2011, we amended the employment agreements with our named executive officers to eliminate any excise tax gross-up provisions as well as certain perquisites from each named executive officer's compensation arrangement. Additionally, in September 2010, we replaced the single trigger change of control vesting provision in our equity award agreements with a double trigger provision for grants of restricted stock and restricted stock units made after January 1, 2011. This double trigger provision ensures that awards will only vest automatically upon a change of control of the Company if the awardee's employment is also subsequently terminated: (i) without cause by the Company, or (ii) by the awardee with good reason, in each case within 24 months of the change of control.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS.

**PROPOSAL 3. NON-BINDING VOTE ON THE FREQUENCY
OF SHAREHOLDER VOTES ON EXECUTIVE COMPENSATION**

In accordance with the requirements of Section 14A of the Securities Exchange Act of 1934 (which was added by the Dodd-Frank Act) and the related rules of the SEC, we are including in the proxy statement a separate resolution subject to shareholder vote to determine, in a non-binding vote, whether a shareholder vote to approve the compensation of our named executive officers (that is, votes similar to the non-binding vote in Proposal No. 2 on page 28) should occur every one, two or three years.

After careful consideration of this proposal, our Board of Directors has determined that an advisory vote on executive compensation that occurs every year is the most appropriate policy for AXIS at this time, and therefore our Board of Directors recommends that you vote for future advisory votes on executive compensation to occur annually.

In formulating its recommendation, our Board of Directors recognized that the Company's executive compensation programs are designed to promote a long-term connection between pay and performance. However, because executive compensation disclosures are made annually, the Board of Directors considered that an annual advisory vote on executive compensation will allow our shareholders to provide us with their direct and immediate input on our compensation philosophy, policies and practices as disclosed in the proxy statement every year. Additionally, an annual advisory vote on executive compensation is consistent with our policy of seeking input from, and engaging in discussions with, our shareholders on corporate governance matters and our executive compensation philosophy, policies and practices. We understand that our shareholders may have different views as to what is the best approach for AXIS, and we look forward to hearing from our shareholders on this proposal.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE ONE YEAR WITH RESPECT TO THE VOTE TO DETERMINE THE FREQUENCY OF SHAREHOLDER VOTES ON EXECUTIVE COMPENSATION. However, notwithstanding the Board's recommendation and the outcome of the shareholder vote, the Board may in the future decide to conduct advisory votes on a more or less frequent basis and may vary its practice based on factors such as discussions with shareholders and the adoption of material changes to compensation programs.

Long-Term Equity Compensation

2007 Long-Term Equity Compensation Plan

In 2007, our Board adopted and our shareholders approved the AXIS Capital Holdings Limited 2007 Long-Term Equity Compensation Plan, or 2007 LTEP. The 2007 LTEP provides for the grant of non-qualified stock options, incentive stock options, stock appreciation rights, restricted stock awards, restricted stock units, performance units and other equity-based or equity-related awards to our employees, directors and consultants. The Compensation Committee has broad authority to administer the plan, including the authority to select plan participants, determine when awards will be made, determine the type and amount of awards, determine the exercise price of options and stock appreciation rights, determine any limitations, restrictions or conditions applicable to each award and determine the terms of any agreement or other document that evidences an award. During 2010, only restricted stock was awarded under this plan to the named executive officers.

Restricted stock awards represent a grant of shares of our common stock, subject to restrictions on transfer of the shares, any other restrictions the Compensation Committee imposes and forfeiture of the shares if the participant terminates employment before the shares vest. The restricted stock we granted during 2010 vests (and the restrictions lapse) in four equal installments on the first, second, third and fourth anniversary of the date of grant. Vesting is fully accelerated upon the death or permanent disability of the participant or a change in control, as described below in the section entitled Potential Payments Upon Termination or Change in Control. Holders of restricted stock may be credited with regular dividends paid with respect to the underlying shares while they are unvested.

In September 2010, the Compensation Committee approved revised forms of award agreements for use by the Company for awards of restricted stock and restricted stock units made on and after January 1, 2011. Under

Table of Contents

the revised agreements, awards continue to vest in four equal installments on the first, second, third and fourth anniversary of the grant date. The awards also vest automatically upon the awardee's death or permanent disability. Additionally, the single trigger change of control provision was replaced with a double trigger vesting provision under which awards will automatically vest upon a change of control only if an awardee's employment is subsequently terminated: (1) by the Company without cause; or (2) by the awardee with good reason, in each case within 24 months of the change of control.

2003 Long-Term Equity Compensation Plan

Our Board adopted and our shareholders approved the AXIS Capital Holdings Limited 2003 Long-Term Equity Compensation Plan, or 2003 LTEP. The 2003 LTEP provides for the grant of non-qualified stock options, incentive stock options, stock appreciation rights, restricted stock awards, performance shares, performance unit awards and share purchase rights to our employees, directors and consultants. The Compensation Committee has broad authority to administer the plan, including the authority to select plan participants, determine when awards will be made, determine the type and amount of awards, determine the exercise price of options and stock appreciation rights, determine any limitations, restrictions or conditions applicable to each award, and determine the terms of any agreement or other document that evidences an award. As a result of the approval of the 2007 Long-Term Equity Compensation Plan, discussed above, grants are no longer made under the 2003 LTEP.

Annual Incentive Plan

We fund annual incentive payments, under our Annual Incentive Plan, to provide performance-based cash annual bonuses for our employees. The funding for the Annual Incentive Plan for 2010 was tied directly to (1) our operating return on average shareholders' common equity, or Operating ROACE, which is equal to our net income for the year, excluding realized gains or losses, divided by our average common shareholders' equity for the year; and (2) a comparison of growth in our diluted book value per share with our peer group. If Operating ROACE and diluted book value per share performance targets are met or exceeded, we fund a total annual incentive plan pool equal to or greater than, respectively, the aggregate of all target bonuses. If the performance is below target, our Compensation Committee reviews our performance with respect to our peer group to determine the level of payments to be made (if any) under the plan in its discretion.

Once the pool funding amount is established, individual awards are based on a portion of the total pool amount available, adjusted for the employee's individual performance. The Chief Executive Officer determines the individual performance and the amount of annual incentive for each named executive officer and makes a recommendation to the Compensation Committee. The Compensation Committee reviews the recommendations and determines the appropriate bonus amount, within the restrictions of the total pool, for the named executive officers. The Compensation Committee also evaluates the Chief Executive Officer's performance in its discretion and determines his incentive award under the plan. All individual awards for named executive officers are at the discretion of the Compensation Committee. The individual awards may range from 0% of an individual target for individuals whose performance was unsatisfactory during the year, to an amount up to 100% or more of an individual target for those who met expectations for the year, to an uncapped percentage of salary for those who exceeded expectations for the year as determined by the annual performance review process. However, the total payments made under the plan to all employees, including named executive officers, cannot exceed the overall pool funding level established by the Compensation Committee. Each eligible employee that is granted an incentive payment and that is employed on the date incentives are paid receives his or her bonus in cash early in the following year.

At the beginning of 2010, the Compensation Committee established the performance metrics for the Annual Incentive Plan. For 2010, the Compensation Committee determined that if AXIS achieved the designated performance target of 11.3% Operating ROACE and annual growth in diluted book value per share at or above the median for our peer group for the twelve months preceding September 30, 2010, the total bonus pool paid under the Annual Incentive Plan would be equal to 100% of the total target bonus amount for all employees. If AXIS were to achieve Operating ROACE of at least 120% of the Operating ROACE performance target and

Table of Contents

annual growth in diluted book value per share at the top third for our peer group for the twelve months preceding September 30, 2010, designated as superior performance, we would fund the Annual Incentive Plan at 150% of the total target pool amount. In the event of performance below the target level or over the superior level, the Compensation Committee retained the discretion to approve an incentive pool amount appropriate in its judgment. Based on our financial results for 2010, the Compensation Committee decided to fund the total Annual Incentive Plan pool at 150% of the target pool amount.

Retirement Benefits

Our named executive officers participate in our International Pension Plan and our U.S. 401(k) Plan. Messrs. Charman, Butt and Gressier participated in our International Pension Plan during 2010 and Messrs. Greenfield and Fischer participated in the AXIS 401(k) Plan during 2010.

The International Pension Plan permits employees to make contributions to their own accounts in the plan, and requires us to contribute an amount equal to at least 10% of each participant's base salary each year, reduced by any amounts that we are required to contribute to another plan, although we may contribute more in our discretion. For 2010, we contributed an amount equal to 10% of base salary to the International Pension Plan for our named executive officers. Our contributions to the International Pension Plan vest fully after the employee has been in the plan for two years. Benefits are paid after termination of employment or upon death or disability either in cash or by transfer to another retirement plan or retirement product.

In the United States, we maintain the AXIS 401(k) Plan, under which employees may contribute a portion of their earnings on a tax-deferred basis and we make matching contributions. We also may make annual employer discretionary contributions. For 2010, we made matching contributions equal to 100% of each employee's contributions, subject to a maximum match of 4% of eligible earnings. We also made annual employer discretionary contributions equal to 6% of each participant's eligible earnings. For purposes of calculating the matching and employer discretionary contributions, only the first \$245,000 of each named executive officer's earnings was taken into account, due to limitations imposed by the Internal Revenue Code. Named executive officers are always fully vested in our matching contributions, and vest in our employer discretionary contributions 25% per year, with full vesting in the plan after four years of service. Benefits are distributable upon termination of employment or upon reaching age 59-1/2.

In addition, we provide non-tax-qualified retirement programs to eligible employees, including our named executive officers, as described in detail below under the Pension Benefits Table and the Nonqualified Deferred Compensation Table.

Additional Benefits

We maintain an Executive Health Examination Program, under which we pay for an annual physical examination for each of our named executive officers. Executive officers are encouraged to participate in this program, and each of our executive officers was entitled to have a physical exam between January 1, 2010 and December 31, 2010. We pay the full cost of the physical examination, plus any travel-related expenses. In 2010, Messrs. Butt, Fischer and Gressier completed physical examinations, and reimbursed amounts are included in the 2010 All Other Compensation column of the Summary Compensation Table.

In addition, previously we provided Mr. Charman with an additional life insurance benefit that was not provided to our other executive officers or employees. This benefit, which was discontinued in 2011, is described below under the heading Potential Payments Upon Termination or Change in Control, and the premiums are included in the amounts shown in the All Other Compensation column of the Summary Compensation Table for Mr. Charman.

In 2005, our Compensation Committee adopted a formal practice permitting personal use of corporate aircraft by certain of our executive officers. We permit our Chairman to use corporate aircraft for up to 12 personal trips per year, and we allow our Chief Executive Officer 24 trips per year. A trip is defined as round-trip travel from Bermuda to the east coast of the United States, from Bermuda to Europe, or travel within Europe. In December 2010, our Compensation Committee capped the incremental cost of this benefit to the Company at \$150,000 per year for our Chief Executive Officer and \$75,000 per year for our Chairman, effective January 1, 2011.

Table of Contents**Pension Benefits for 2010**

The following table sets forth information regarding the defined benefit pension plans in which our named executive officers participated in 2010.

Name	Plan Name	Number of Years Credited Service (#)	Present Value of Accumulated Benefit (\$)	Payments During Last Fiscal Year (\$)
John R. Charman	Supplemental Executive Retirement Agreement between the Company and Mr. Charman dated January 1, 2004, as amended in May, 2008.	n/a	\$ 13,455,000	\$ 858,340
Michael A. Butt	Supplemental Executive Retirement Agreement between the Company and Mr. Butt dated January 1, 2004, as amended May 12, 2008 and September 2008.	n/a	\$ 2,776,000	\$ 330,192
David B. Greenfield			\$	\$
William A. Fischer			\$	\$
John Gressier			\$	\$

In January 2004, we entered into supplemental retirement agreements, or SERPs, with Messrs. Charman and Butt, both of which were amended and restated in May 2008. Mr. Butt's SERP was further amended in September 2008 to increase by \$100,000 the amount payable for each of the last five years of the agreement. The SERP for Mr. Charman requires us to make annual payments to Mr. Charman beginning January 1, 2009 for a period of 20 years, even if he is not retired. Mr. Charman received the first payment under his SERP in February 2009. The SERP for Mr. Butt requires us to make annual payments to Mr. Butt beginning January 1, 2010 for a period of 10 years, even if he is not retired. Mr. Butt received the first payment under his SERP in January 2010. Any remaining SERP benefits will be immediately paid in a lump sum upon the respective executive officer's death, disability or upon a change in control. Payments are accelerated upon these events because these are circumstances under which the executive and his family would likely need additional security.

The present values shown in the table above are calculated assuming a 5.25% discount rate, a 3% annual increase in total pension benefits for each executive, and payment of benefits beginning in 2009 for Mr. Charman and 2010 for Mr. Butt. Please refer to Note 14 of the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2010 for further details on these assumptions.

Table of Contents

Mr. Charman's payment amount for each of the 20 years of benefit payments is determined pursuant to the table below. The annual amount is equal to \$750,000, adjusted each year with compound interest at an annual rate of 3% for each year after 2004, and then offset by \$37,199, which is derived from the amount Mr. Charman was entitled to under the International Pension Plan (described above in the narrative following the Summary Compensation Table and Grants of Plan-Based Awards in 2010 Table) as of December 31, 2008 expressed as a 20-year certain annuity, as reflected in the following table:

Year of Payment	Pension Amount After Offset for Mr. Charman

2028	\$ 1,487,398

Mr. Butt's payment amount for each of the 10 years of benefit payments is determined pursuant to the table below. The annual amount is equal to \$250,000 adjusted each year with compound interest at an annual rate of 3% for each year after 2004, and then offset by \$68,321, which is derived from the amount Mr. Butt was entitled to under the International Pension Plan (described above in the narrative following the Summary Compensation Table and Grants of Plan-Based Awards in 2010 Table) as of December 31, 2009 expressed as a ten-year certain annuity, as reflected in the following table:

- (1) These amounts include contributions and/or balances in the International Pension Plan in Bermuda and the U.S. Supplemental Plan. Effective January 1, 2009, Messrs. Greenfield and Fischer were no longer eligible to participate in the U.S. Supplemental Plan due to IRS regulation 457A, however, they still maintain plan balances.
- (2) Includes the following amounts that have been reported in the All Other Compensation column of the Summary Compensation Table for 2010 and previous years:

Name	2010	Previous Years
John R. Charman	\$ 125,000	\$ 500,000
Michael A. Butt	\$ 85,000	\$ 340,000

William A. Fischer	\$	\$ 157,500

In the United States, we maintain the U.S. Supplemental Plan. Prior to January 1, 2009, Messrs. Fischer and Greenfield participated in this plan. The U.S. Supplemental Plan is designed to permit eligible employees to accumulate additional retirement income through a non-qualified deferred compensation plan that enables them to make salary contributions in excess of those allowed under the AXIS 401(k) Plan, to make additional employee contributions from their bonus payments, and to receive discretionary employer contributions. Each year, we make a discretionary contribution to all participants in the U.S. Supplemental Plan expressed as a percentage of the employee's base salary that is above the Internal Revenue Code maximum under the AXIS 401(k) Plan. For 2010, no named executive officer was eligible for participation in the U.S. Supplemental Plan.

Each named executive officer's own contributions under the U.S. Supplemental Plan are always fully vested. Our contributions vest based on the participant's years of service, at a rate of 25% a year with full vesting after four years of service is completed. The named executive officer's own contributions may be distributed upon separation of employment or upon the earlier of separation of employment or a specified date in either a lump sum or over a period of annual installments between two and 10 years. Benefits will be paid immediately in a lump sum in the event of the executive's death.

Internationally, we maintain the International Pension Plan. Messrs. Charman, Butt and Gressier participated in the International Pension Plan during 2010. The International Pension Plan is discussed in more detail under Retirement Benefits above.

Table of Contents

Potential Payments Upon Termination or Change in Control

This section describes payments that would be made to our named executive officers upon a change in control of AXIS or following termination of employment or upon the named executive officer's death or disability. In the first part of this section, we describe benefits under general plans that apply to any executive officer participating in those plans. We then describe specific benefits to which each named executive officer is entitled, along with estimated amounts of benefits assuming a triggering event of December 31, 2010.

2007 Long-Term Equity Compensation Plan

Under the 2007 LTEP, as described above in the narrative to the Summary Compensation Table and the Grants of Plan-Based Awards in 2010 Table, upon the occurrence of a change in control, unless otherwise provided in the applicable award agreement or other agreement and unless provision is made in connection with the change of control for the assumption of awards previously granted or substitution for such awards of new awards covering stock of a successor corporation, executive officers receive the following benefits:

- (1) options and stock appreciation rights become immediately exercisable, and remain exercisable throughout their entire term, unless exercised, cashed out, or replaced;
- (2) performance units are paid out as if the date of the change in control were the last day of the applicable performance period and target performance levels had been attained; and
- (3) all other outstanding awards will automatically be deemed exercisable and vested and all restrictions and forfeiture provisions related to the awards will lapse.

In September 2010, the Compensation Committee approved revised forms of award agreements for use by the Company for awards of restricted stock and restricted stock units made on and after January 1, 2011. The revised agreements amended the change of control provision to replace the existing single trigger change of control provision with a double trigger vesting provision under which awards would automatically vest upon a change of control of the Company only upon an awardee's subsequent termination of employment: (a) by the Company without cause; or (b) by the awardee with good reason, in each case within 24 months of the change of control.

Under the 2007 LTEP, a change in control occurs if:

- (1) a person, company, government, or political subdivision, agency, or instrumentality of a government becomes the beneficial owner of 50% or more of the combined voting power of our outstanding voting securities, except for: (a) any acquisition directly from us, (b) any acquisition by us, (c) any acquisition by one of our employee benefit plans, or (d) any acquisition that complies with clauses (a), (b) and (c) of paragraph (3) below;
- (2) our Board is no longer composed of a majority of individuals who were either members as of the date the 2003 LTEP was adopted, or whose election or nomination for election was approved by a majority of the directors then comprising the incumbent Board;
- (3) a merger, sale of substantially all of the assets or other similar transaction occurs between us and another person, company, government, or political subdivision, agency, or instrumentality of a government, unless, following the transaction, (a) substantially all of the beneficial owners of our voting securities immediately before the transaction beneficially own more than 50% of the combined voting power of the successor entity, in substantially the same proportions as their ownership of our voting securities immediately prior to the transaction; (b) no person, company, government, or political subdivision, agency, or instrumentality of a government (excluding the successor entity) beneficially owns 50% or more of the outstanding shares of our common stock or the combined voting power of the successor entity, or owns all or substantially all of our assets, except to the extent that such ownership existed with respect to us before the transaction; and (c) at least a majority of the members of the board of directors of the successor entity or person that owns all or substantially all of our assets as a result of the transaction were members of our incumbent Board at the time of the execution

Table of Contents

of the initial agreement, or of the action of the Board, pursuant to which the merger or other transaction occurs; or

(4) our shareholders approve a complete liquidation or dissolution of AXIS Capital Holdings Limited, or the sale or other disposition of all or substantially all of our assets.

U.S. Supplemental Plan

Mr. Fischer is entitled to his own contribution, if any, and the vested portion of our contributions under the U.S. Supplemental Plan (described above under the Nonqualified Deferred Compensation Table) upon termination of his employment for any reason.

Mr. Charman

In addition to the benefits described above for all executive officers, Mr. Charman is entitled to additional benefits under his employment agreement upon termination of his employment. Upon termination for any reason, Mr. Charman is entitled to any annual, long-term or other incentive award earned but not yet paid.

If Mr. Charman's employment terminates as a result of his death, Mr. Charman's employment agreement automatically terminates, and his designated beneficiary or legal representatives are entitled to:

- (1) base salary through the end of the month in which he dies;
- (2) one year's base salary;
- (3) a separation bonus of at least (a) \$1,250,000 or (b) Mr. Charman's highest annual bonus for any of the three years immediately preceding his death;
- (4) continued vesting and exercisability, as the case may be, for all other equity awards, including any restricted shares or stock options, in accordance with their vesting terms; and
- (5) an extended exercise period of up to one year for Mr. Charman's September 30, 2001 option grant.

Either Mr. Charman or we may terminate his employment agreement if Mr. Charman becomes disabled, by providing 15 days' prior written notice to the other party. Under the employment agreement, disability means Mr. Charman has been unable to substantially perform his duties due to physical or mental incapacity for 180 consecutive days. If Mr. Charman's employment ends because of disability, then Mr. Charman is entitled to the benefits listed above ((1) through (5)) that would be payable upon his death, plus continued coverage for one year under all employee benefit programs he was participating in immediately before the date of his termination, offset by any coverage provided to Mr. Charman in connection with subsequent employment.

If we terminate Mr. Charman's employment agreement for cause, or if Mr. Charman voluntarily terminates his employment agreement with us without good reason, Mr. Charman is entitled to receive continued eligibility for one year under all medical benefit programs he was participating in immediately prior to the date of his termination, at Mr. Charman's expense for the full cost of premiums for such coverage.

Under the employment agreement, cause means Mr. Charman is convicted of a felony involving moral turpitude or Mr. Charman is guilty of gross negligence or gross misconduct in performing his duties that result in material economic harm to us. We are required to give Mr. Charman written notice, after which he must be given 15 days to correct the failures, and Mr. Charman is entitled to a hearing and a unanimous vote of all disinterested members of the Board, before termination can become effective due to gross misconduct or gross negligence. Felonies involving moral turpitude would be determined based on Bermuda law, but would likely include crimes such as fraud that reflect negatively on Mr. Charman's honesty, integrity or personal values. Gross misconduct and gross negligence would be based on the facts of a particular event, but would be more than minor wrongful (or minor careless or neglectful) behavior.

Under the employment agreement, good reason means:

- (1) our assignment to Mr. Charman of duties materially inconsistent with his positions and responsibilities;
- (2) material reduction in Mr. Charman's authorities or responsibilities;

Table of Contents

(3) our removal of Mr. Charman from, or failure to elect Mr. Charman to, the positions of President and Chief Executive Officer, or our Board or Executive Committee, except in connection with a termination of his employment;

(4) a reduction in Mr. Charman's base salary or target bonus opportunity;

(5) following a change in control, our failure to pay Mr. Charman an annual bonus of at least \$1,250,000 or, if higher, the largest annual bonus he received in the three years before the year in which the change in control occurs, or our failure to calculate Mr. Charman's bonus as favorably as the method used to calculate the most recent annual bonus paid before the change in control;

(6) our failure to obtain the specific assumption of the employment agreement by any successor;

(7) our material breach of any of our material obligations to Mr. Charman or members of his family; or

(8) our requiring Mr. Charman to be based at any office or location other than his current location.

If we terminate Mr. Charman's employment without cause or if Mr. Charman terminates his employment with good reason (other than in connection with a change in control as described below), then Mr. Charman is entitled to:

(1) two years' base salary;

(2) a separation bonus of at least two times (a) \$1,250,000 or (b) Mr. Charman's highest annual bonus for any of the three years immediately preceding his termination of employment;

(3) an extended exercise period of up to one year for Mr. Charman's September 30, 2001 option grant;

(4) continued vesting and exercisability, as the case may be, for all other equity awards, including any restricted shares or stock options, in accordance with their vesting terms; and

(5) continued coverage for one year under all employee benefit programs he was participating in immediately before the date of his termination, offset by any coverage provided to Mr. Charman in connection with subsequent employment.

If we terminate Mr. Charman's employment agreement without cause, or if Mr. Charman terminates his employment with good reason, in anticipation of, or within the 12-month period following, a change in control, Mr. Charman is entitled to:

(1) two years' base salary;

(2) a separation bonus of at least three times (a) \$1,250,000 or (b) Mr. Charman's highest annual bonus for any of the three years immediately preceding his termination of employment;

(3) an extended exercise period of up to one year for Mr. Charman's September 30, 2001 grant of 2,025,112 options;

(4) continued vesting and exercisability, as the case may be, for all other equity awards, including any restricted shares or stock options, in accordance with their vesting terms; and

(5) continued coverage for 24 months under all employee benefit programs he was participating in immediately before the date of his termination, offset by any coverage provided to Mr. Charman in connection with subsequent employment.

Under the employment agreement, a change in control would occur if (1) any person, company, government, or political subdivision, agency, or instrumentality of a government becomes a beneficial owner of 30% or more of our voting stock; (2) the majority of the Board consists of individuals other than incumbent directors; (3) we adopt a plan of liquidation; (4) we dispose of all or substantially all of our assets or business in a merger or other business transaction unless our shareholders beneficially own, directly or indirectly, in substantially the same proportion, all of the voting stock or other ownership interests of the entity or entities, if any, that succeed to our business; or (5) we combine with another entity and are the surviving entity but,

Table of Contents

immediately after the combination, our shareholders immediately prior to the combination hold, directly or indirectly, 50% or less of the voting stock of the combined entity. The incumbent directors are our directors as of November 20, 2001, and any individual whose election or nomination for election was supported by two-thirds of those incumbent directors.

Any amount payable to Mr. Charman under his employment agreement upon his termination of employment for any reason must be paid in a lump sum with respect to 50% of the amount promptly following his termination, and with respect to the remaining 50%, with accrued interest, on the first anniversary of his termination date.

Mr. Charman also is subject to non-competition restrictions and provisions prohibiting solicitation of our employees and our customers, each for a period of 24 months after termination of the agreement, along with ongoing confidentiality and non-disparagement requirements.

Mr. Charman also is entitled to benefits under his SERP upon termination of employment, death or disability, as described above under the Pension Benefits Table.

Mr. Butt

In addition to the benefits described above for all executive officers, Mr. Butt is entitled to additional benefits under his service agreement upon termination of his service with us.

If Mr. Butt's service terminates as a result of death, Mr. Butt's service agreement automatically terminates, and his spouse, other beneficiary or legal representatives are entitled to:

(1) base salary through the end of the month in which he dies;

(2) a separation bonus of at least (a) \$850,000 or (b) Mr. Butt's highest annual bonus for any of the three years immediately preceding his death;

(3) continued vesting and exercisability, as the case may be, for all other equity awards, including any restricted shares or stock options, in accordance with their vesting terms; and

(4) an extended exercise period for options granted upon commencement of Mr. Butt's service agreement, through one year after termination of his service due to death, but not beyond the maximum term of the option.

Either Mr. Butt or we may terminate his service agreement if Mr. Butt becomes disabled, by providing 15 days' prior written notice to the other party. Under the service agreement, disability means Mr. Butt has been unable to substantially perform his duties due to physical or mental incapacity for 180 consecutive days. If Mr. Butt's employment ends because of disability, then Mr. Butt is entitled to the benefits listed above ((1) through (4)) that would be payable upon his death, plus a lump sum equal to one year's base salary and continued coverage for one year under all benefit programs he was participating in immediately prior to the date of his termination.

If we terminate Mr. Butt's service agreement for cause, or if Mr. Butt voluntarily terminates his service agreement with us without good reason, Mr. Butt is not entitled to any post-termination benefits under his service agreement.

Under the service agreement, cause means conviction of Mr. Butt for a felony involving moral turpitude, or Mr. Butt's gross negligence or gross misconduct in performing his duties that result in material economic harm to us. We must give Mr. Butt 15 days' notice, and give him an opportunity to cure the defects, before we can terminate him for gross negligence or gross misconduct. In addition, Mr. Butt is entitled to a hearing before our full Board and a unanimous vote of all disinterested members of the Board for the termination to take effect. Good reason means:

(1) our assignment to Mr. Butt of duties materially inconsistent with his positions and responsibilities;

(2) material reduction in Mr. Butt's authorities or responsibilities;

(3) our removal of Mr. Butt from, or failure to elect Mr. Butt to, the position of Chairman of the Board, except in connection with a termination of his employment;

(4) a reduction in Mr. Butt's base salary or target bonus opportunity;

(5) following a change in control, our failure to pay Mr. Butt an annual bonus at least \$850,000, or, if higher, the largest annual bonus he received in the three years before the year in which the change in control occurs or our failure to calculate Mr. Butt's bonus in a manner as favorable to Mr. Butt as that used to calculate the most recent annual bonus paid prior to the change in control;

Table of Contents

- (6) our failure to obtain the specific assumption of the employment agreement by any successor;
- (7) our material breach of any of our material obligations to Mr. Butt or members of his family; or
- (8) our requiring Mr. Butt to be based at any office or location other than his current location.

If we terminate Mr. Butt's employment without cause or if Mr. Butt terminates his employment with good reason (other than in connection with a change in control as described below), then Mr. Butt is entitled to:

- (1) two years' base salary;
- (2) a separation bonus of at least (a) \$850,000 or (b) Mr. Butt's highest annual bonus for any of the three years immediately preceding his termination;
- (3) an extended exercise period for options granted upon commencement of Mr. Butt's service agreement, through one year after termination of his service, but not beyond the maximum term of the option;
- (4) continued vesting and exercisability, as the case may be, for all other equity awards, including any restricted shares or stock options, in accordance with their vesting terms; and
- (5) continued coverage for 12 months under all benefit programs he was participating in immediately prior to the date of his termination, offset by any benefits received from subsequent employment.

The definition of change in control under Mr. Butt's service agreement is the same as the definition summarized above from Mr. Charman's employment agreement. If we terminate Mr. Butt's agreement without cause or if Mr. Butt terminates his employment with good reason in anticipation of, or within the 12-month period following, a change in control, Mr. Butt is entitled to:

- (1) two years' base salary;
- (2) a separation bonus of at least two times (a) \$850,000 or (b) Mr. Butt's highest annual bonus for any of the three years immediately preceding his termination;
- (3) an extended exercise period for options granted upon commencement of Mr. Butt's service agreement, through one year after termination of his service, but not beyond the maximum term of the option;
- (4) continued vesting and exercisability, as the case may be, for all other equity awards, including any restricted shares or stock options, in accordance with their vesting terms; and
- (5) continued coverage for 24 months under all benefit programs he was participating in immediately prior to the date of his termination, offset by any benefits received from subsequent employment.

Upon any termination of his employment, Mr. Butt is entitled to any earned but unpaid bonus accrued as of the date of his termination.

Any amount payable to Mr. Butt pursuant to his service agreement upon his termination of employment for any reason must be paid in a lump sum promptly following his termination. Mr. Butt is subject to non-competition provisions for a period of one year after termination of the service agreement, provisions prohibiting solicitation of our employees and customers for a period of one year after termination of the service agreement, and ongoing confidentiality and non-disparagement requirements.

Mr. Butt also is entitled to benefits under his SERP upon termination of employment, death or disability as described above under the Pension Benefits Table.

2010 Directors Annual Compensation Program

Compensation for our directors generally consists of cash compensation in the form of retainers and fees and equity compensation in the form of stock grants.

Compensation Elections

Prior to the commencement of each calendar year, directors may elect to receive:

- (1) common shares in lieu of the cash compensation that would otherwise be payable to them during that year or for meeting fees for the following year, or
- (2) cash in lieu of the equity compensation that would otherwise be payable to them during that year.

Edgar Filing: AXIS CAPITAL HOLDINGS LTD - Form DEF 14A

For 2010, Messrs. Davis, Friedman, Greene, Tasco and Sir Andrew Large elected to receive cash in lieu of the common stock grant to which they were entitled. Mr. Keane elected to receive shares of common stock in lieu of the cash to which he was entitled.

Cash Compensation

Directors who also are employees do not receive compensation for their service as directors. Pursuant to the 2010 Directors Annual Compensation Program, the non-employee directors received an annual retainer of

Table of Contents

\$50,000 for service on the Board plus \$3,000 for each Board meeting attended in 2010. The chairman of the Audit Committee received an annual fee of \$30,000, the chairman of each of the Risk Committee, Finance Committee and Compensation Committee received an annual fee of \$10,000, the chairman of the Corporate Governance and Nominating Committee received an annual fee of \$5,000 and the Lead Independent Director received an annual fee of \$15,000. Non-employee directors also receive \$1,500 for each committee meeting attended. Non-employee directors who become directors after January 1 of any year are entitled to a pro-rated portion of any cash compensation and are not entitled to any equity compensation (or cash compensation in lieu thereof) until January 1 of the next year.

In addition to compensation received for service on our Board, Mr. Keane receives an annual retainer in the amount of \$35,000 for services as Chairman of the Board of AXIS Specialty Holdings Ireland Limited and as a director of AXIS Re Limited and AXIS Specialty Europe Limited, plus \$3,000 for each meeting attended. Mr. Smith also receives an annual retainer in the amount of \$30,000 for service as a director of AXIS Specialty Holdings Ireland Limited, AXIS Re Limited and AXIS Specialty Europe Limited, plus \$3,000 for each meeting attended.

Equity Compensation

In addition to the annual retainer, committee chairman fees and meeting fees, pursuant to our director compensation program, each non-employee director is entitled to an annual grant of common stock under the 2007 LTEP, valued at \$100,000 based on the fair market value of our common stock on the tenth business day after January 1 of the applicable year.

Shares issued to our directors in lieu of cash payments and equity grants made to our directors are made under and subject to the terms of our 2007 LTEP, which is discussed above in the narrative following the Summary Compensation Table and Grants of Plan-Based Awards in 2010 Table.

Deferred Compensation Plan

Prior to 2009, each non-employee director was eligible to participate in an unfunded nonqualified deferred compensation plan known as the AXIS Capital Holdings Limited 2003 Directors Deferred Compensation Plan (the Directors Deferred Plan), which was adopted by our Board and approved by our shareholders. The Directors Deferred Plan allowed participating directors to elect (1) the amount, if any, of cash or stock received as fees for services to be deferred (expressed as a dollar amount, number of shares or percentage) and (2) the form in which payment is to be made (lump sum or three annual installments). Directors who chose to defer fees otherwise payable in shares are credited a number of phantom stock units equal in amount to the number of shares of stock deferred. When a cash dividend is paid on the stock, the portion of the participant's deferral account denominated in phantom share units is credited with additional phantom share units (or portions thereof). Amounts deferred are 100% vested at all times. Generally, benefits are paid upon termination of service as a director. The plan was administered by our Board. Mr. Greene holds phantom stock units under the plan. As of January 1, 2009, our non-employee directors no longer have the option to defer compensation for services rendered after December 31, 2008. Amounts deferred prior to January 1, 2009 must be included as income as of the date the deferred amount is distributed or if no distribution has occurred as of the later of (a) the last taxable year beginning before 2018, or (b) the first taxable year that the amounts are no longer subject to a substantial risk of forfeiture.

Director Compensation for 2011

In September 2010, our Compensation Committee reviewed the director compensation program and elected to (i) increase the amount of the annual board retainer from \$50,000 to \$100,000, (ii) eliminate the \$3,000 per meeting board fee, and (iii) increase the annual cash payment for the chair of the Corporate Governance and Nominating Committee from \$5,000 to \$7,500 for 2011. No other changes to the director compensation program were made.

The primary purpose of the policy is to ensure that we engage public accountants as external auditors to provide only audit and non-audit services that are compatible with maintaining independence. The policy requires that the Audit Committee pre-approve all audit and non-audit services for which our auditors are engaged. The Audit Committee may delegate the authority to grant pre-approvals to the Chairman of the Audit Committee or, in the event of his non-availability, to any other Audit Committee member. The Chairman of the Audit Committee or such other Audit Committee member must present to the Audit Committee at each scheduled meeting any pre-approvals that are granted.
