RUTH S HOSPITALITY GROUP, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(dollar amounts in thousands, except share and per share data)

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Ruth s Hospitality Group, Inc. and its subsidiaries (together, the Company) as of September 25, 2011, and December 26, 2010, and for the quarters and thirty-nine weeks ended September 25, 2011 and September 26, 2010, have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC).

The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments), which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. The interim results of operations for the fiscal quarters ended September 25, 2011 and September 26, 2010 are not necessarily indicative of the results that may be achieved for the full year. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended December 26, 2010.

The Company operates on a 52 or 53-week fiscal year ending on the last Sunday in December. The fiscal quarters ended September 25, 2011 and September 26, 2010 each contained 13 weeks and are referred to herein as the third quarter of fiscal 2011 and the third quarter of fiscal 2010, respectively.

Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reporting of revenue and expenses during the period to prepare these condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles. Significant items subject to such estimates and assumptions include the carrying amount of property and equipment, goodwill, franchise rights, trademarks, other intangibles, deferred income taxes, obligations related to workers compensation and medical insurance and lease obligations. Actual results could differ from those estimates.

Principles of Consolidation

The consolidated financial statements include the financial statements of Ruth s Hospitality Group, Inc. and its wholly owned subsidiaries. All significant inter-company balances and transactions have been eliminated in consolidation.

Recent Accounting Pronouncements for Future Application

Accounting standards that have been issued by the FASB or other standard-setting bodies that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

Reclassifications

The operating results of certain closed locations (see Note 12) have been reclassified to the discontinued operations line of the condensed consolidated statements of income. These reclassifications had no effect on previously reported net income.

(2) Private Placement and Rights Offering

On February 12, 2010, the Company completed its sale of \$25.0 million of the Company s newly-created Series A 10% Redeemable Convertible Preferred Stock (the Preferred Stock) to Bruckmann, Rosser, Sherrill & Co. III, L.P. and BRS Coinvestor III, L.P. (collectively, BRS) in a private placement transaction. The Company received proceeds of \$23.2 million, net of approximately \$1.8 million in closing and issuance costs. On February 12, 2010, the Company also closed its rights offering and sold 10,147,451 shares of the Company s common stock, at a subscription

Edgar Filing: Ruths Hospitality Group, Inc. - Form 10-Q

price of \$2.50 per share, for an aggregate purchase price of approximately \$25.4 million. The Company received proceeds of \$23.3 million, net of approximately \$2.1 million in closing and issuance costs.

The Company applied approximately \$44.3 million of the net proceeds from the rights offering and the private placement, together with cash on hand, to reduce its outstanding borrowings under its existing credit facility. Upon the application of those net proceeds, and the satisfaction of other agreed-upon conditions, a credit agreement amendment that the Company entered into with the lenders under its existing credit facility became effective (see Note 4).

Table of Contents**(3) Fair Value Measurements**

The carrying amount of cash and cash equivalents, receivables, prepaid expenses, accounts payable and accrued expenses and other current liabilities are a reasonable estimate of their fair values due to their short duration. Borrowings classified as long-term debt as of September 25, 2011 have variable interest rates that approximate currently available terms and conditions for similar debt. The carrying amount of this debt is a reasonable estimate of its fair value.

During the third quarter of fiscal 2011, the Company had no assets or liabilities measured on a recurring or nonrecurring basis subject to the disclosure requirements of Fair Value Measurements and Disclosures, FASB Accounting Standards Codification Topic 820.

(4) Long-term Debt

Long-term debt consists of the following:

	December 26, 2010	September 25, 2011
Senior Credit Facility:		
Revolving credit facility	\$ 51,000	\$ 39,400
Less current maturities		
	\$ 51,000	\$ 39,400

On February 12, 2010, the Company entered into a Second Amendment to the First Amended and Restated Credit Agreement (Amended Credit Agreement). The amendment to the credit agreement reduced the revolving loan commitment to \$129.6 million as of the end of the third fiscal quarter of 2011, extended the scheduled maturity of the credit agreement by two years, to February 2015, and provided the Company with a less restrictive set of covenants. Specifically, the amendment provided for no financial covenant testing until the end of fiscal year 2010, provided less restrictive leverage and coverage covenants thereafter, and permanently eliminated the minimum EBITDA covenant. The amendment provided for higher interest rates under the credit agreement, with interest rates based on the Company's actual leverage ratio, ranging from 3.25% to 5.00% above the applicable LIBOR rate or, at the Company's option, from 2.00% to 3.75% above the applicable base rate.

As of September 25, 2011, the Company had an aggregate of \$39.4 million of outstanding indebtedness under its Amended Credit Agreement at a weighted average interest rate of 4.67% with approximately \$86.3 million of borrowings available, net of outstanding letters of credit of approximately \$3.9 million. The Company is required to maintain certain financial covenants and is also subject to several restrictive covenants under its borrowings. The restrictive covenants include, but are not limited to, covenants that, subject to exceptions: (1) prohibit the Company and its subsidiaries from incurring additional indebtedness and from guaranteeing obligations of others; (2) prohibit the Company and its subsidiaries from creating, incurring, assuming or permitting to exist any lien on or with respect to any property or asset; (3) limit the Company's ability and its subsidiaries' ability to enter into joint ventures, acquisitions, and other investments; (4) prohibit the Company and its subsidiaries from directly or indirectly creating or becoming liable with respect to any contingent liabilities; and (5) restrict the Company and its subsidiaries from directly or indirectly declaring, ordering, paying, or making any restricted junior payments. The Company's obligations under the Amended Credit Agreement are guaranteed by each of its existing and future subsidiaries and are secured by substantially all of its assets and a pledge of the capital stock of its subsidiaries. As of September 25, 2011, the Company was in compliance with the covenants under the Amended Credit Agreement.

(5) Redeemable Convertible Preferred Stock

In the first quarter of 2010, the Company issued 25,000 shares of Preferred Stock in a private placement transaction (see Note 2). The Preferred Stock is classified on the accompanying balance sheets as temporary shareholders' equity as of September 25, 2011, since the shares have certain conditions that allow the holder to redeem the Preferred Stock for cash, and redemption is not solely within the control of the Company.

Each share of the Preferred Stock has an initial liquidation preference of \$1,000. The holders of the Preferred Stock are entitled to quarterly dividends accruing at a 10% annual rate payable on the following dates: January 1, April 1, July 1 and October 1. Any unpaid dividends are added to the liquidation preference and compound on the subsequent dividend payment dates. The Company's Amended Credit Agreement limits the amount of dividends the Company may pay annually to \$1.0 million. The Company received a waiver of the annual \$1.0 million dividend limit required under the Amended Credit Agreement for purposes of paying the dividend due on July 1, 2011 and October 1, 2011. A Preferred

Edgar Filing: Ruths Hospitality Group, Inc. - Form 10-Q

Stock dividend of \$0.6 million was paid or accrued during the third quarters of fiscal 2010 and 2011 as a reduction of net income available to preferred and common shareholders.

The Preferred Stock is convertible, under certain circumstances, into the number of shares of the Company's common stock equal to the quotient of the liquidation preference, including accrued dividends, divided by the conversion price. The conversion price

Table of Contents

was initially set at \$2.90 per share, and is subject to change based on certain customary anti-dilution provisions. Using the liquidation preference of \$25.0 million as of September 25, 2011, a conversion of Preferred Stock into the Company's common stock would result in the issuance of 8,620,690 additional common shares. The Preferred Stock is convertible at any time, at the option of the holders. The Company has the option to force the conversion of the Preferred Stock, in whole or in part, after February 12, 2012 if the closing price of the Company's common stock equals or exceeds 225% of the then applicable conversion price for a period of 20 trading days over any 30 consecutive trading day period.

At the option of the Company, the Preferred Stock may be redeemed on or after February 12, 2015 without regard to the Company's stock price. The Company shall not be permitted to redeem less than all of the outstanding shares of the Preferred Stock if such partial redemption would result in the holder holding more than 0% and less than 5% of the Company's voting securities. At the option of the holders, the Preferred Stock may be redeemed on or after February 12, 2017. The redemption price per share will equal the liquidation preference, including any accrued dividends. In accordance with FASB Accounting Standards Codification Topic 480-10-S99, the Company will accrete the carrying value of Preferred Stock to its redemption value of \$25.0 million from the date of issuance to the earliest redemption date, February 12, 2015. During the third quarter of fiscal 2011, the Preferred Stock carrying value increased \$0.1 million for the accretion of the redemption value.

(6) Stock-Based Employee Compensation

Under the 2000 Stock Option Plan, there are 46,601 shares of common stock issuable upon exercise of currently outstanding options at September 25, 2011. No future grants are able to be made under the 2000 Stock Option Plan. Under the 2005 Equity Incentive Plan, as amended, there are 2,720,470 shares of common stock issuable upon exercise of currently outstanding options and restricted stock awards at September 25, 2011, and 524,964 shares available for future grants. Total stock compensation expense recognized for the thirteen weeks ended September 26, 2010 and September 25, 2011 was \$0.7 million and \$0.7 million, respectively. Total stock compensation expense recognized for the thirty-nine weeks ended September 26, 2010 and September 25, 2011 was \$1.5 million and \$1.9 million, respectively.

(7) Earnings Per Share

Basic earnings per common share is computed under the two-class method as provided in Earnings Per Share, FASB Accounting Standards Codification Topic 260. Under the two-class method a portion of net income is allocated to participating securities, such as the Company's Preferred Stock, and therefore is excluded from the calculation of earnings per share allocated to common shares. Diluted earnings per common share is computed by dividing the net income available to common shareholders for the period by the weighted average number of common and potential common shares outstanding during the period. Net income, in both the basic and diluted earnings per common share calculations, is reduced by the Preferred Stock dividends and accretion of the Preferred Stock to its redemption value.

Diluted earnings per share for the thirteen weeks ended September 26, 2010 and September 25, 2011 excludes stock options and restricted shares of 2,586,811 and 1,028,777, respectively, which were outstanding during the period but were anti-dilutive. The weighted average exercise prices of the anti-dilutive stock options for the thirteen weeks ended September 26, 2010 and September 25, 2011 were \$5.40 and \$9.67 per share, respectively.

Diluted earnings per share for the thirty-nine weeks ended September 26, 2010 and September 25, 2011 excludes stock options and restricted shares of 2,163,928 and 1,006,083, respectively, which were outstanding during the period but were anti-dilutive. The weighted average exercise prices of the anti-dilutive stock options for the thirty-nine weeks ended September 26, 2010 and September 25, 2011 were \$6.29 and \$9.99 per share, respectively.

Principal uses of cash during the first thirty-nine weeks of fiscal 2011 included capital expenditures on existing restaurants and the reduction of debt. We expect that our principal use of cash in the future will be for capital expenditures on existing restaurants and to reduce our levels of debt.

As of September 25, 2011, the Company had an aggregate of \$39.4 million of outstanding indebtedness under our Amended Credit Agreement at a weighted average interest rate of 4.67% with approximately \$86.3 million of borrowings available, net of outstanding letters of credit of approximately \$3.9 million.

The following table presents a summary of our net cash provided by (used in) operating, investing and financing activities:

	39 Weeks Ending	
	September 26, 2010	September 25, 2011
	(unaudited)	
Net cash provided by (used in):		
Operating activities	\$ 20,002	\$ 17,080
Investing activities	(4,430)	(6,122)
Financing activities	(14,167)	(13,428)
Net increase (decrease) in cash and cash equivalents	\$ 1,405	\$ (2,470)

Net cash provided by operating activities was \$17.1 million in the first thirty-nine weeks of fiscal 2011, compared to \$20.0 million provided in the first thirty-nine weeks of fiscal 2010. The decrease in net cash provided by operating activities was primarily due to changes in working capital, offset by an increase in net income.

Net cash used in investing activities was \$6.1 million in the first thirty-nine weeks of fiscal 2011, compared to \$4.4 million used in the first thirty-nine weeks of fiscal 2010. This increase was primarily due to an increase in capital expenditures on existing restaurants and the relocation of a Ruth's Chris Steak House in Portland, Oregon.

Net cash used in financing activities was \$13.4 million in the first thirty-nine weeks of fiscal 2011, compared to net cash used in financing activities of \$14.2 million in the first thirty-nine weeks of fiscal 2010.

Capital expenditures totaled \$6.1 million in the first thirty-nine weeks of fiscal 2011, compared to \$4.4 million in the first thirty-nine weeks of fiscal 2010. Capital expenditures in the first thirty-nine weeks of fiscal 2011 resulted from \$2.0 million in maintenance capital and \$4.1 million in restaurant remodels and relocations. We anticipate capital expenditures in fiscal 2011 will total approximately \$8.0 million to \$10.0 million.

Off-Balance Sheet Arrangements

As of September 25, 2011, we did not have any off-balance sheet arrangements.

Critical Accounting Policies and Estimates

The preparation of our financial statements requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the periods presented. Our Annual Report on Form 10-K for the fiscal year ended December 26, 2010 includes a summary of the critical accounting policies that we believe are the most important to aid in the understanding of our financial results. There have been no material changes to these critical accounting policies that impacted our reported amounts of assets, liabilities, revenues or expenses during the first thirty-nine weeks of fiscal 2011.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

The Company is exposed to market risk from fluctuations in interest rates. For fixed rate debt, interest rate changes affect the fair market value of such debt but do not impact earnings or cash flows. Conversely for variable rate debt, including borrowings under the Company's Amended Credit Agreement, interest rate changes generally do not affect the fair market value of such debt, but do impact future earnings and cash flows, assuming other factors are held constant. As of September 25, 2011, the Company had \$39.4 million of variable rate debt. Holding other variables constant (such as foreign exchange rates and debt levels), a hypothetical immediate one percentage point change in interest rates would be expected to have an impact on pre-tax earnings and cash flows for the third quarter of fiscal 2011 of approximately \$0.1 million.

Foreign Currency Risk

The Company believes that fluctuations in foreign currency exchange rates do not present a material risk to its operations due to the relatively small amount of royalty revenue it receives from outside the United States.

Commodity Price Risk

The Company is exposed to market price fluctuations in beef and other food product prices. Given the historical volatility of beef and other food product prices, this exposure can impact the Company's food and beverage costs. As the Company typically sets its menu prices in advance of its beef and other food product purchases, the Company cannot quickly take into account changing costs of beef and other food items. To the extent that the Company is unable to pass the increased costs on to its guests through price increases, the Company's results of operations would be adversely affected. In fiscal 2011, the Company has not negotiated substantial set pricing arrangements for its beef requirements. The market for USDA Prime grade beef is particularly volatile. If prices increase, or the supply of beef is reduced, operating margin could be materially adversely affected. A hypothetical 10% increase in beef costs would decrease pre-tax earnings for the third quarter of 2011 by approximately \$0.8 million.

In the recent past, certain types of seafood have experienced fluctuations in availability. Seafood is also subject to fluctuations in price based on availability, which is often seasonal. If certain types of seafood are unavailable, or if the Company's costs increase, the Company's results of operations could be adversely affected.

Effects of Inflation

Components of the Company's operations subject to inflation include food, beverage, lease and labor costs. The Company's leases require it to pay taxes, maintenance, repairs, insurance and utilities, all of which are subject to inflationary increases. The Company believes inflation has not had a material impact on its results of operations in recent years.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

Under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, the Company conducted an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of September 25, 2011. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of September 25, 2011 to ensure that information required to be disclosed in reports filed or submitted by the Company under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that information required to be disclosed by the Company is accumulated and communicated to the Company's management to allow timely decisions regarding the required disclosure.

Changes in internal control over financial reporting

During the fiscal quarter ended September 25, 2011, there was no change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that in the Company's judgment has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
