While Endu, Sinofuan and Jiebaishu continued to see healthy growth in the third quarter, changes in government pricing policies, as well as issues related to the tender process in certain provinces impacted the sales of Simcere's branded generic products, including Zailin, said Mr. Jinsheng Ren, Chairman and Chief Executive Officer of Simcere.

Mr. Ren continued, In August, we were pleased to receive new drug approval for Iremod, Simcere's independently developed new drug in the category of Disease Modifying Anti-rheumatic Drugs (DMARDS). In addition, Shanghai Celgen Bio-Pharmaceutical Co., Ltd. recently began the production and sale of Qiangke, a biosimilar product. Going forward, we plan to continue to focus sales efforts on our anti-tumor and new drugs, while adjusting our marketing strategy for branded generic drugs in response to the regulatory environment and pricing policies.

Table of Contents**2011 Third Quarter Financial Results**

Total revenue for the third quarter of 2011 was RMB501.0 million (US\$78.5 million), which represented a decrease of 8.9% from RMB550.1 million for the same period in 2010. The decrease in total revenue was primarily due to the decrease in revenue from some branded generic products, as a result of changes in government pricing policies and issues related to the tender process in certain provinces. For the first nine months of 2011, total revenue was RMB1,529.5 million (US\$239.8 million), which represented a decrease of 1.5% from RMB1,553.4 million for the same period in 2010.

Revenue from edaravone injection products under the brand names Bicun and Yidasheng decreased by 5.3% to RMB192.0 million (US\$30.1 million) for the third quarter of 2011 from RMB202.8 million for the same period in 2010. Revenue from edaravone injection products constituted 38.3% of the Company's total revenue for the third quarter of 2011. For the first nine months of 2011, revenue from edaravone injection products totaled RMB598.7 million (US\$93.9 million), which represented an increase of 5.1% from RMB569.5 million for the same period in 2010.

Revenue from Endu, the Company's patented anti-cancer biotech product, increased by 21.9% to RMB78.0 million (US\$12.2 million) for the third quarter of 2011 from RMB64.0 million for the same period in 2010. Revenue from Sinofuan, a 5-FU sustained release implant for the treatment of cancer, increased by 9.9% to RMB53.0 million (US\$8.3 million) for the third quarter of 2011 from RMB48.2 million for the same period in 2010. Revenue from Sinofuan constituted 10.6% of the Company's total revenue for the third quarter of 2011. For the first nine months of 2011, revenue from Sinofuan totaled RMB135.4 million (US\$21.2 million), which represented an increase of 17.0% from RMB115.7 million for the same period in 2010.

Revenue from other branded generic products including Zailin and Yingtaiqing decreased by 20.1% to RMB177.9 million (US\$27.9 million) for the third quarter of 2011 from RMB222.8 million for the same period in 2010. Revenue from other branded generic products constituted 35.5% of the Company's total revenue for the third quarter of 2011. Research and development expenses for the third quarter of 2011 totaled RMB45.4 million (US\$7.1 million), which represented an increase of 39.7% from RMB32.5 million for the same period in 2010. This increase was due primarily to the increased expenditure and milestone achievements on on-going research and development projects. As a percentage of total revenue, research and development expenses increased to 9.1% for the third quarter of 2011 from 5.9% for the same period in 2010. For the first nine months of 2011, research and development expenses totaled RMB128.1 million (US\$20.1 million), compared to RMB94.3 million for the same period in 2010.

As a percentage of total revenue, sales, marketing and distribution expenses increased to 58.1% for the third quarter of 2011 from 54.3% for the same period in 2010. This percentage increase was due primarily to the effect of a decrease in revenue and relatively stable marketing and distribution expenses. For the first nine months of 2011, sales, marketing and distribution expenses were RMB844.5 million (US\$132.4 million), which represented a decrease of 1.3% from RMB855.5 million for the same period in 2010.

Table of Contents

The effective income tax rate was 5.2% for the first nine months of 2011, decreased from 12.6% for the same period in 2010, which was primarily due to the improved financial results in one of the subsidiaries during the first nine months of 2011, resulting in the reversal of valuation allowance previously made against the deferred tax assets of such subsidiary and the impact of a non-taxable other operating income of RMB35.0 million (US\$5.5 million) arising from the receipt of settlement in respect of the acquisition of Jiangsu Quanyi in 2009 from certain former shareholders of Jiangsu Quanyi.
