**Item 2.02 Results of Operations and Financial Condition.**

On January 24, 2012, Watson Pharmaceuticals, Inc. (the Company) issued a press release announcing preliminary financial performance of the Company for the year ended December 31, 2011 and providing an overview of its global operations and outlook. A copy of the Company's press release is attached to this report as Exhibit 99.1 and incorporated herein by reference.

In its press release, the Company presented GAAP and non-GAAP financial measures (and presentations derived from these financial measures) as defined in Regulation G as promulgated by the U.S. Securities and Exchange Commission. Non-GAAP financial measures exclude certain significant charges or credits that are important to an understanding of the Company's ongoing operations. The Company believes that its inclusion of non-GAAP financial measures provides useful supplementary information to and facilitates analysis by investors in evaluating the Company's performance and trends. The determination of significant charges or credits may not be comparable to similar measures used by other companies and may vary from period to period. The Company uses both GAAP financial measures and the disclosed non-GAAP financial measures internally to evaluate and manage the Company's operations and to better understand its business. These non-GAAP financial measures are in addition to, not a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP.

Non-GAAP net income and non-GAAP earnings per share are supplemental measures of our performance that are not required by, or presented in accordance with, GAAP. We define non-GAAP net income as net income adjusted for amortization, acquisition and licensing charges, expenses associated with our operational excellence/global supply chain initiative (including accelerated depreciation charges associated therewith), legal settlements and certain special charges that are otherwise included in GAAP net income, including loss (gain) on asset sales/impairment, loss (gain) on security sales and impairment, loss on debt repurchases and income taxes. Non-GAAP earnings per share refers to non-GAAP net income divided by the number of diluted shares outstanding.
