Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

Our ratio of earnings to fixed charges for the periods indicated are as follows:

	12 Weeks Ended			Fiscal Year		
	March 24,	52 Weeks	52 Weeks	52 Weeks	53 Weeks	52 Weeks
	2012	2011	2010	2009	2008	2007

- (a) For these ratios, earnings represents income from continuing operations before income taxes, the cumulative effect of accounting changes, net equity in earnings of unconsolidated affiliates, non-controlling interests and fixed charges (other than capitalized interest). Fixed charges represents interest expense on indebtedness (including capitalized interest and interest income (expense) from hedging activities related to indebtedness) and a share of rental expense which is deemed to be representative of the interest factor.
- (b) NM indicates not meaningful. In 2009, earnings were inadequate to cover fixed charges by approximately \$969.3 million due to our recording non-cash goodwill impairment charges of \$1,974.2 million, before tax.

USE OF PROCEEDS

We anticipate that our net proceeds from the sale of the notes will be approximately \$249.1 million after deducting the underwriting discount and our estimated offering expenses. We intend to use the net proceeds from this offering to reduce indebtedness under our U.S. commercial paper program and for other general corporate purposes. Pending the use of the net proceeds for these purposes, we may temporarily invest all or a portion of the net proceeds in short-term interest bearing instruments or other investment grade securities. Borrowings under our U.S. commercial paper program have been used for working capital. As of June 5, 2012, the outstanding amount of borrowings under our U.S. commercial paper program was approximately \$701 million. As of June 5, 2012, the weighted average interest rate on outstanding borrowings under our U.S. commercial paper program was 0.93% per annum, and the average maturity on outstanding borrowings under our U.S. commercial paper program was 21 days.

DESCRIPTION OF THE NOTES

The following description of the terms of the notes (referred to in the accompanying prospectus as the "debt securities") supplements, and to the extent inconsistent, replaces the description of the general terms and provisions of the debt securities set forth in the accompanying prospectus.

We will issue the notes under an indenture between us and The Bank of New York Mellon Trust Company, N.A., formerly known as The Bank of New York Trust Company, N.A., as successor to The Bank of New York, as trustee. The notes will constitute a single series of debt securities under the indenture. We have summarized select portions of the indenture below. The summary is not complete and is qualified by reference to the indenture. Capitalized terms not otherwise defined herein have the meanings given them in the accompanying prospectus or the indenture.

In this section, we, our and us mean Safeway Inc. excluding, unless the context otherwise requires or as otherwise expressly stated, our subsidiaries.

General

The notes will initially be limited to \$250,000,000 aggregate principal amount and will mature on December 12, 2013. The notes will be issued in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

We may, from time to time, without notice to or the consent of the holders of the notes, increase the principal amount of the notes under the indenture and issue such increased principal amount (or any portion thereof), in which case any additional notes so issued shall have the same form and terms (other than the date of issuance and, under certain circumstances, the date from which interest thereon shall begin to accrue and the first interest payment date), and shall carry the same right to receive accrued and unpaid interest, as the notes of such series previously issued, and such additional notes shall form a single series with the notes previously issued.

We will pay principal and interest on the notes, register the transfer of notes and exchange the notes at our office or agency maintained for that purpose (which initially will be the office of the trustee located at 700 South Flower Street, Suite 500, Los Angeles, CA 90017, Attention: Corporate Trust Administration). So long as the notes are represented by global debt securities, the interest payable on the notes will be paid to Cede & Co., the nominee of the Depositary, or its registered assigns as the registered owner of such global debt securities, by wire transfer of immediately available funds on each of the applicable interest payment dates. If any of the notes are no longer represented by a global debt security, we have the option to pay interest by check mailed to the address of the persons entitled to the interest. No service charge will be made for any transfer or exchange of notes, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable.

Interest on the Notes

The interest rate on the notes will be equal to LIBOR plus 1.50% per year and will be reset quarterly. We will pay interest on the notes quarterly in arrears on each March 12, June 12, September 12 and December 12, beginning on September 12, 2012.

If any of the interest payment dates listed above (other than an interest payment date falling on the maturity date of the notes) falls on a day that is not a business day, we will postpone the interest payment date to the next succeeding business day unless that business day is in the next succeeding calendar month, in which case the interest payment date will be the immediately preceding business day. Interest on the notes will be computed on the basis of a 360-day year for the actual number of days elapsed.

Table of Contents

Interest on the notes will accrue from, and including, June 14, 2012, to, and excluding, the first interest payment date and then from, and including, the immediately preceding interest payment date to which interest has been paid or duly provided for to, but excluding, the next interest payment date or the maturity date or, in the event we are required to repurchase any notes as a result of a Change of Control Triggering Event, the date of repurchase of such notes, as the case may be. We refer to each of these periods as an interest period. The amount of accrued interest that we will pay for any interest period can be calculated by multiplying the face amount of the notes by an accrued interest factor. This accrued interest factor is computed by adding the interest factor calculated for each day from June 14, 2012, or from the last date we paid interest to you, to the date for which accrued interest is being calculated. The interest factor for each day is computed by dividing the interest rate applicable to that day by 360. If the maturity date of the notes falls on a day that is not a business day, we will pay principal and interest on the next succeeding business day, but we will consider that payment as being made on the date that the payment was due to you. Accordingly, no interest will accrue on the payment for the period from and after the maturity date to the date we make the payment to you on the next succeeding business day. The interest payable by us on a note on any interest payment date, subject to certain exceptions, will be paid to the person in whose name the note is registered at the close of business on the fifteenth calendar day, whether or not a business day, immediately preceding the interest payment date. However, interest that we pay on the maturity date will be payable to the person to whom the principal will be payable.

When we use the term business day, we mean any day except a Saturday, a Sunday or a legal holiday in The City of New York on which banking institutions are authorized or required by law, regulation or executive order to close; provided that the day is also a London business day. London business day means any day on which dealings in United States dollars are transacted in the London interbank market.

The interest rate on the notes will be calculated by the calculation agent appointed by us and will be equal to LIBOR plus 1.50% per year except that the interest rate will in no event be higher than the maximum rate permitted by New York law, as the same may be modified by United States law of general application. The initial calculation agent will be The Bank of New York Mellon Trust Company, N.A. The interest determination date for an interest period will be the second London business day preceding the first day of such interest period. Promptly upon determination, the calculation agent will inform the trustee of the interest rate for the next interest period. Absent manifest error, the determination of the interest rate by the calculation agent will be binding and conclusive on the holders of the notes. The calculation agent will, upon the request of the registered holder of any notes, provide the interest rate then in effect.

LIBOR will be determined by the calculation agent in accordance with the following provisions:

- (i) With respect to any interest determination date, LIBOR will be the rate for deposits in United States dollars having a maturity of three months commencing on the first day of the applicable interest period that appears on Reuters Screen LIBOR01 Page as of 11:00 a.m., London time, on that interest determination date. If no rate appears on Reuters Screen LIBOR01 Page, the calculation agent will obtain such rate from Bloomberg Page BBAM. If no rate is obtained from Bloomberg Page BBAM, then LIBOR, in respect to that interest determination date, will be determined in accordance with the provisions described in (ii) below.
- (ii) With respect to an interest determination date on which no rate appears on Reuters Screen LIBOR01 Page, or is obtained from Bloomberg Page BBAM, as specified in (i) above, the calculation agent will request the principal London offices of each of four major banks in the London interbank market, as selected by the calculation agent (and which may include affiliates of the underwriters), to provide the calculation agent with its offered quotation for deposits in United States dollars for the period of three months, commencing on the first day of the applicable interest period, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on that interest determination date and in a principal amount that is representative for a single transaction in United States dollars in that market at that time. If at least two quotations are provided, then LIBOR on that interest determination date will be the arithmetic mean of those quotations. If fewer than two quotations are provided, then LIBOR on

Table of Contents

the interest determination date will be the arithmetic mean of the rates quoted at approximately 11:00 a.m., in The City of New York, on the interest determination date by three major banks in The City of New York selected by the calculation agent (and which may include affiliates of the underwriters) for loans in United States dollars to leading European banks, having a three-month maturity and in a principal amount that is representative for a single transaction in United States dollars in that market at that time; provided, however, that if the banks selected by the calculation agent are not providing quotations in the manner described by this sentence, LIBOR determined as of that interest determination date will be LIBOR in effect on that interest determination date.

The term **Reuters Screen LIBOR01 Page** means the display designated as page **LIBOR01** on the screens maintained by Reuters (or any successor service) (or such other page as may replace page **LIBOR01** on Reuters or any successor service).

The term **Bloomberg Page BBAM** means the display designated as page **BBAM** on the screens maintained by Bloomberg L.P. (or any successor service) (or such other page as may replace page **BBAM** on Bloomberg L.P. or any successor service).

All percentages resulting from any calculation of the interest rate with respect to the notes will be rounded, if necessary, to the nearest one-hundred thousandth of a percentage point, with five one-millionths of a percentage point rounded upwards (for example, 9.876545% (or .09876545) being rounded to 9.87655% (or .0987655) and 9.876544% (or .09876544) being rounded to 9.87654% (or .0987654)), and all dollar amounts in or resulting from any such calculation will be rounded to the nearest cent (with one-half cent being rounded upwards).

No Sinking Fund or Optional Redemption

There is no provision for a sinking fund for the notes. The notes will not be subject to redemption at our option.

Change of Control Offer

If a Change of Control Triggering Event occurs with respect to the notes, we will be required to make an offer (the **Change of Control Offer**) to each holder of the notes to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000 in excess thereof) of that holder's notes on the terms set forth below. In the Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased, plus accrued and unpaid interest, if any, on the notes repurchased to the date of repurchase (the **Change of Control Payment**). Within 30 days following any Change of Control Triggering Event or, at our option, prior to any Change of Control, but after public announcement of the transaction that constitutes or may constitute the Change of Control, a notice will be mailed to holders of the notes describing the transaction that constitutes or may constitute the Change of Control Triggering Event and offering to repurchase the notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed (the **Change of Control Payment Date**). The notice will, if mailed prior to the date of consummation of the Change of Control, state that the offer to purchase is conditioned on the Change of Control Triggering Event occurring on or prior to the Change of Control Payment Date.

On the Change of Control Payment Date, we will, to the extent lawful:

accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;

deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and

Table of Contents

deliver or cause to be delivered to the trustee the notes properly accepted together with an officers certificate stating the aggregate principal amount of notes or portions of notes being repurchased.

We will not be required to make a Change of Control Offer upon the occurrence of a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and the third party repurchases all notes properly tendered and not withdrawn under its offer. In addition, we will not repurchase any notes if there has occurred and is continuing on the Change of Control Payment Date an Event of Default under the indenture, other than a default in the payment of the Change of Control Payment upon a Change of Control Triggering Event.

We will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any such securities laws or regulations conflict with the Change of Control Offer provisions of the notes, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control Offer provisions of the notes by virtue of any such conflict.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of our properties or assets and those of our Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase the notes as a result of a sale, transfer, conveyance or other disposition of less than all of our properties or assets and those of our Subsidiaries taken as a whole to another person (as that term is used in Section 13(d)(3) of the Exchange Act) may be uncertain.

For purposes of the Change of Control Offer provisions of the notes, the following terms will be applicable (for definitions of certain other capitalized terms used in this section, see Certain Definitions below):

Change of Control means the occurrence of any of the following: (1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of our properties or assets and those of our Subsidiaries taken as a whole to any person (as that term is used in Section 13(d)(3) of the Exchange Act) other than us or one of our Subsidiaries; (2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person (as that term is used in Section 13(d)(3) of the Exchange Act) (other than us or one of our Subsidiaries) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of our Voting Stock or other Voting Stock into which our Voting Stock is reclassified, consolidated, exchanged or changed, measured by voting power rather than number of shares; or (3) the first day on which a majority of the members of our board of directors are not Continuing Directors. Notwithstanding the foregoing, a transaction will not be deemed to involve a Change of Control if (1) we become a direct or indirect wholly-owned Subsidiary of a holding company and (2)(A) the direct or indirect holders of the Voting Stock of such holding company immediately following that transaction are substantially the same as the holders of our Voting Stock immediately prior to that transaction or (B) immediately following that transaction no person (as that term is used in Section 13(d)(3) of the Exchange Act) (other than a holding company satisfying the requirements of this sentence) is the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of the Voting Stock of such holding company.

Under clause (3) of the definition of Change of Control described above a Change of Control will occur when a majority of our directors are not Continuing Directors. In a decision in connection with a proxy contest, the Court of Chancery of Delaware held that the occurrence of a change of control under a similar indenture provision may nevertheless be avoided if the existing directors were to approve the slate of new director nominees (who would constitute a majority of the new board) as continuing directors solely for purposes of avoiding the triggering of such change of control clause, provided the incumbent directors give their approval in

Table of Contents

the good faith exercise of their fiduciary duties. Therefore, in certain circumstances involving a significant change in the composition of our board of directors, including in connection with a proxy contest where our board of directors does not endorse a dissident slate of directors but approves them as Continuing Directors, holders of the notes may not be entitled to require us to make a Change of Control Offer.

Change of Control Triggering Event means the occurrence of both a Change of Control and a Rating Event.

Continuing Directors means, as of any date of determination, any member of our board of directors who (1) was a member of such board of directors on the date the notes were first issued or (2) was nominated for election, elected or appointed to such board of directors with the approval of a majority of the Continuing Directors who were members of such board of directors at the times of such nomination, election or appointment (either by a specific vote or by approval of our proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

Fitch means Fitch Ratings Ltd.

Investment Grade Rating means a rating equal to or higher than BBB- (or the equivalent) by Fitch, Baa3 (or the equivalent) by Moody's and BBB- (or the equivalent) by S&P, and the equivalent investment grade credit rating from any additional Rating Agency or Rating Agencies selected by us.

Moody's means Moody's Investors Service, Inc.

Rating Agencies means (1) each of Fitch, Moody's and S&P; and (2) if any of Fitch, Moody's or S&P ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a nationally recognized statistical rating organization within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by us as a replacement agency for Fitch, Moody's or S&P, or all of them, as the case may be.

Rating Event means the rating on the notes is lowered by each of the Rating Agencies, and the notes are rated below an Investment Grade Rating by each of the Rating Agencies on any day within the 60-day period (which 60-day period will be extended so long as the rating of the notes is under publicly announced consideration for a possible downgrade by any of the Rating Agencies) after the earlier of (1) the occurrence of a Change of Control and (2) public notice of the occurrence of a Change of Control or our intention to effect a Change of Control; *provided, however,* that a Rating Event otherwise arising by virtue of a particular reduction in rating will not be deemed to have occurred in respect of a particular Change of Control (and thus will not be deemed a Rating Event for purposes of the definition of Change of Control Triggering Event) if the Rating Agencies making the reduction in rating to which this definition would otherwise apply do not announce or publicly confirm or inform the trustee in writing at our or its request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control has occurred at the time of the Rating Event).

S&P means Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc.

Voting Stock means, with respect to any specified person (as that term is used in Section 13(d)(3) of the Exchange Act) as of any date, the Capital Stock of such person that is at the time entitled to vote generally in the election of the board of directors (or, if such person is not a corporation, any similar governing body) of such person.

Leverage

At March 24, 2012, on a pro forma basis after giving effect to this offering of notes and the application of the net proceeds of this offering as described under **Use of Proceeds** to reduce indebtedness under our U.S. commercial paper program, we would have had approximately \$6,678.3 million of outstanding indebtedness and

Table of Contents

a ratio of total debt to stockholders' equity of approximately 2.42 to 1.0. We have indebtedness that is substantial in relation to our stockholders' equity. Our ability to satisfy our obligations with respect to the notes will be dependent upon our future performance, which will be subject to financial and business conditions and other factors.

Ranking

With respect to our assets, the notes will be our senior unsecured indebtedness and will rank equal in right of payment with all of our other existing and future senior unsecured indebtedness, including our obligations under the Bank Credit Agreement and the Term Loan Agreement (both of which are currently unsecured), and senior in right of payment to all of our existing and future subordinated debt. We conduct a substantial portion of our operations through direct and indirect wholly owned subsidiaries. Accordingly, we could be dependent on the earnings of our subsidiaries to meet our debt obligations, including the notes, if our future performance, excluding the operations of our subsidiaries, is not adequate to allow us to satisfy those obligations. Although such earnings may be available from our subsidiaries through dividends and payments on intercompany indebtedness, certain outstanding indebtedness of our subsidiaries in the future may restrict the payment of dividends to us. In addition, under applicable law, our subsidiaries may be limited in the amount that they are permitted to pay as dividends on their capital stock. Also as a result of this structure, the claims of holders of the notes effectively will be subordinated to the claims of creditors of our subsidiaries as to the assets of these subsidiaries, which claims include trade payables and other indebtedness of these subsidiaries, including obligations of one of our subsidiaries, Canada Safeway Limited, under the Bank Credit Agreement.

Covenants

Limitation on Liens

The indenture provides that we will not, nor will we permit any of our Subsidiaries to, create, incur, or permit to exist, any Lien on any of our or their respective properties or assets, whether owned on the Closing Date (as defined below) or thereafter acquired, or upon any income or profits therefrom, in order to secure any of our Indebtedness, without effectively providing that the notes shall be equally and ratably secured until such time as that Indebtedness is no longer secured by such Lien, except:

Liens existing as of the closing date of the offering of these notes (the Closing Date);

Liens granted after the Closing Date on any of our or our Subsidiaries' assets or properties securing our Indebtedness created in favor of the holders of the notes;

Liens securing our Indebtedness which is incurred to extend, renew or refinance Indebtedness which is secured by Liens permitted to be incurred under the indenture; provided that those Liens do not extend to or cover any of our or our Subsidiaries' property or assets other than the property or assets securing the Indebtedness being refinanced and that the principal amount of such Indebtedness does not exceed the principal amount of the Indebtedness being refinanced;

Permitted Liens; and

Liens created in substitution of or as replacements for any Liens permitted by the clauses directly above; provided that, based on a good faith determination of one of our officers, the property or asset encumbered under any such substitute or replacement Lien is substantially similar in nature to the property or asset encumbered by the otherwise permitted Lien which is being replaced. Notwithstanding the foregoing, the indenture provides that we and any of our Subsidiaries may, without securing the notes, create, incur or permit to exist Liens which would otherwise be subject to the restrictions set forth in the preceding paragraph, if after giving effect thereto and at the time of determination, Exempted Debt does not exceed the greater of (i) 10% of Consolidated Net Tangible Assets or (ii) \$350,000,000.

Limitation on Sale and Lease-Back Transactions

The indenture provides that we will not, nor will we permit any of our Subsidiaries to, enter into any sale and lease-back transaction for the sale and leasing back of any property or asset, whether owned on the Closing Date or thereafter acquired, of ours or any of our Subsidiaries unless:

we or the Subsidiary would be entitled under the *Limitation on Liens* covenant above to create, incur or permit to exist a Lien on the assets to be leased in an amount at least equal to the Attributable Liens in respect of such transaction without equally and ratably securing the notes; or

the proceeds of the sale of the assets to be leased are at least equal to their fair market value and the proceeds are applied to the purchase or acquisition (or in the case of real property, the construction) of assets or to the repayment of our or one of our Subsidiaries' Indebtedness which by its terms matures not earlier than one year after the date of such repayment.

The foregoing limitations do not apply to transactions:

entered into prior to the Closing Date;

for the sale and leasing back of any property or asset by one of our Subsidiaries to us;

involving leases for less than three years; or

in which the lease for the property or asset is entered into within 120 days after the later of the date of acquisition, completion of construction or commencement of full operations of such property or asset.

Consolidation, Merger and Sale of Assets

The indenture provides that we may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of our properties and assets to, any person (a successor person) unless:

we are the surviving corporation or the successor person (if other than us) is a corporation organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes our obligations on the debt securities and under the indenture;

immediately after giving effect to the transaction, no Event of Default, and no event which, after notice or lapse of time, or both, would become an Event of Default shall have occurred and be continuing under the indenture; and

certain other conditions are met.

Events of Default

In addition to the Events of Default set forth in the accompanying prospectus, the following is an Event of Default with respect to the notes: acceleration of \$150,000,000 or more, individually or in the aggregate, in principal amount of our Indebtedness under the terms of the instrument under which that Indebtedness is issued or secured, except as a result of compliance with applicable laws, orders or decrees, if that Indebtedness is not discharged or the acceleration is not annulled within 10 days after written notice.

Defeasance

The provisions described under Description of Debt Securities Defeasance of Debt Securities and Certain Covenants in Certain Circumstances in the accompanying prospectus are applicable to the notes. If we effect covenant defeasance with respect to the notes as described under the subcaption Defeasance of Debt Securities and Certain Covenants in Certain Circumstances Defeasance of Certain Covenants in the accompanying prospectus, then the Event of Default described above under Events of Default and the covenants described above under Covenants, and Change of Control Offer, as well as certain other covenants set forth in the indenture, will cease to be applicable to the notes.

Book-Entry, Delivery and Form

The notes will be represented by one or more global debt securities that will be deposited with, or on behalf of, the Depository and registered in the name of Cede & Co., the nominee of the Depository.

The Depository has advised us that it is:

a limited-purpose trust company organized under the New York Banking Law;

a banking organization within the meaning of the New York Banking Law;

a member of the Federal Reserve System;

a clearing corporation within the meaning of the New York Uniform Commercial Code; and

a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act.

The Depository was created to hold securities of its participating organizations (participants) and to facilitate the clearance and settlement of securities transactions, such as transfers and pledges, among its participants in such securities through electronic computerized book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. Participants include securities brokers and dealers (including the underwriters), banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own the Depository. Access to the Depository's book-entry system is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. Persons who are not participants may beneficially own securities held by the Depository only through participants.

Unless and until it is exchanged in whole or in part for certificated debt securities in definitive form, a global debt security may not be transferred except as a whole by the Depository to a nominee of the Depository or by a nominee of the Depository to the Depository or another nominee of the Depository or by the Depository or any such nominee to a successor depository or a nominee of such successor depository.

A further description of the Depository's procedures with respect to the notes is set forth in the accompanying prospectus under the heading Description of Debt Securities Transfer and Exchange Global Debt Securities and Book-Entry System.

Clearstream. Clearstream Banking, société anonyme (Clearstream) is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations (Clearstream Participants) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides Clearstream Participants with, among other things, services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Monetary Institute. Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant either directly or indirectly.

Distributions with respect to notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures to the extent received by the Depository for Clearstream.

Table of Contents

Euroclear. Euroclear Bank S.A./N.V. (Euroclear) was created in 1968 to hold securities for participants of Euroclear (Euroclear Participants) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the Euroclear Operator), under contract with Euro-clear Clearance Systems S.C., a Belgian cooperative corporation (the Cooperative). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is regulated and examined by the Belgian Banking Commission.

Links have been established among the Depository, Clearstream and Euroclear to facilitate the initial issuance of the notes sold outside of the United States and cross-market transfers of the notes associated with secondary market trading.

Although the Depository, Clearstream and Euroclear have agreed to the procedures provided herein in order to facilitate transfers, they are under no obligation to perform these procedures, and these procedures may be modified or discontinued at any time.

Clearstream and Euroclear will record the ownership interests of their participants in much the same way as the Depository, and the Depository will record the total ownership of each of the U.S. agents of Clearstream and Euroclear, as participants in the Depository. When notes are to be transferred from the account of a Depository participant to the account of a Clearstream participant or a Euroclear participant, the purchaser must send instructions to Clearstream or Euroclear through a participant at least one day prior to settlement. Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive notes against payment. After settlement, Clearstream or Euroclear will credit its participant's account. Credit for the notes will appear on the next day (European time).

Because settlement is taking place during New York business hours, the Depository participants will be able to employ their usual procedures for sending notes to the relevant U.S. agent acting for the benefit of Clearstream or Euroclear participants. The sale proceeds will be available to the Depository seller on the settlement date. As a result, to the Depository participant, a cross-market transaction will settle no differently than a trade between two Depository participants.

When a Clearstream or Euroclear participant wishes to transfer notes to a Depository participant, the seller will be required to send instructions to Clearstream or Euroclear through a participant at least one business day prior to settlement. In these cases, Clearstream or Euroclear will instruct its U.S. agent to transfer these notes against payment for them. The payment will then be reflected in the account of the Clearstream or Euroclear participant the following day, with the proceeds back valued to the value date, which would be the preceding day, when settlement occurs in New York. If settlement is not completed on the intended value date, that is, the trade fails, proceeds credited to the Clearstream or Euroclear participant's account will instead be valued as of the actual settlement date.

You should be aware that you will only be able to make and receive deliveries, payments and other communications involving the notes through Clearstream and Euroclear on the days when those clearing systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States. In addition, because of time zone differences there may be

Table of Contents

problems with completing transactions involving Clearstream and Euroclear on the same business day as in the United States.

For purposes of determining whether or not a sale and leaseback transaction is permitted by *Limitation on Sale and Lease-Back Transactions*, the last paragraph under *Limitation on Liens* above (creating an exception for Exempted Debt) will be disregarded.

Table of Contents**UNDERWRITING**

Subject to the terms and conditions of the underwriting agreement, the underwriters named below, for whom Barclays Capital Inc. and U.S. Bancorp Investments, Inc. are serving as representatives, have severally agreed to purchase from us, and we have agreed to sell, the principal amount of the notes listed opposite their names below at the public offering price less the underwriting discount set forth on the cover page of this prospectus supplement:

Underwriter	Principal Amount of Notes
Barclays Capital Inc.	\$ 75,000,000
U.S. Bancorp Investments, Inc.	75,000,000
BNP Paribas Securities Corp.	50,000,000
Deutsche Bank Securities Inc.	50,000,000
Total	\$ 250,000,000

The underwriting agreement provides that the obligations of the several underwriters to purchase the notes offered hereby are subject to certain conditions and that the underwriters will purchase all of the notes offered by this prospectus supplement if any of these notes are purchased.

We have been advised by the representatives of the underwriters that the underwriters propose to offer the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and may offer the notes to certain dealers at such price less a concession not in excess of 0.150% of the principal amount of the notes. The underwriters may allow, and such dealers may re-allow, a concession not in excess of 0.125% of the principal amount of the notes to certain other dealers. After the initial public offering, representatives of the underwriters may change the offering price and other selling terms. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We estimate that our share of the total expenses of this offering, excluding the underwriting discount, will be approximately \$250,000.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments the underwriters may be required to make in respect of any of these liabilities.

The notes are a new issue of securities with no established trading market. The notes will not be listed on any securities exchange or on any automated dealer quotation system. The underwriters may make a market in the notes after completion of the offering, but will not be obligated to do so and may discontinue any market-making activities at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes or that an active public market for the notes will develop. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected.

In connection with the offering of the notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the notes. Specifically, the underwriters may overallocate in connection with the offering, creating a short position. In addition, the underwriters may bid for, and purchase, the notes in the open market to cover short positions or to stabilize the price of the notes. Any of these activities may stabilize or maintain the market price of the notes above independent market levels, but no representation is made hereby of the magnitude of any effect that the transactions described above may have on the market price of the notes. The underwriters will not be required to engage in these activities, and may engage in these activities and may end any of these activities at any time without notice.

Table of Contents

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives of the underwriters have repurchased notes of any series sold by or for the account of such underwriter in stabilizing or short covering transactions.

Delayed Settlement

We expect to deliver the notes against payment for the notes on the closing date specified on the cover page of this prospectus supplement, which will be the fifth business day following the date of this prospectus supplement, or T+5. Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date hereof or the next succeeding business day will be required, by virtue of the fact that the notes initially will settle in T+5, to specify an alternate settlement arrangement at the time of such trade to prevent a failed settlement and should consult their own advisors.

Certain Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and/or their affiliates have provided and in the future may continue to provide investment banking, financial advisory, and other financial services, including the provision of credit facilities and/or extension of term loans, to us in the ordinary course of business for which they have received and will receive customary compensation. Certain of the underwriters or their affiliates are lenders under our bank credit agreement, term loan agreement or money market bank credit facilities.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge, and certain other underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

For the purposes of this provision, the expression an offer of notes to the public in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression Prospectus Directive means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression 2010 PD Amending Directive means Directive 2010/73/EU.

Notice to Prospective Investors in the United Kingdom

Each underwriter has represented and agreed that:

(a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (the FSMA)) received by it in connection with the issue or sale of the notes in circumstances in which Section 21(1) of FSMA does not apply to us; and

(b) it has complied with and will comply with all applicable provisions of FSMA with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom.

Table of Contents**USE OF PROCEEDS**

Unless we indicate otherwise in the applicable prospectus supplement, we anticipate that any net proceeds will be used for general corporate purposes, including repaying or refinancing bank loans, commercial paper and other borrowings, and for working capital, capital expenditures and other acquisitions. The factors which we will consider in any refinancing will include the amount and characteristics of any debt securities issued and may include, among others, the impact of such refinancing on our interest coverage, debt-to-capital ratio, liquidity and earnings per share. We will set forth in a prospectus supplement our intended use for the net proceeds received from the sale of any securities sold pursuant to that prospectus supplement. Unless we indicate otherwise in the applicable prospectus supplement, pending the application of the net proceeds, we expect to reduce indebtedness under our commercial paper program or bank credit agreement.

RATIO OF EARNINGS TO FIXED CHARGES

Our ratio of earnings to fixed charges for the periods indicated are as follows:

	36 Weeks Ended September 10,		Fiscal Year			
	2011	52 Weeks 2010	52 Weeks 2009	53 Weeks 2008	52 Weeks 2007	52 Weeks 2006
Ratio of earnings to fixed charges ^(a)	2.56x	2.59x	NM ^(b)	3.45x	3.14x	2.80x

(a) For these ratios, earnings represents income before income taxes, the cumulative effect of accounting changes, net equity in earnings of unconsolidated affiliates, minority interest in subsidiary and fixed charges (other than capitalized interest). Fixed charges represents interest on indebtedness (including capitalized interest) and a share of rental expense which is deemed to be representative of the interest factor.

(b) NM indicates not meaningful. In 2009, earnings were inadequate to cover fixed charges by approximately \$969.3 million due to our recording non-cash goodwill impairment charges of \$1,974.2 million, before tax.

DESCRIPTION OF DEBT SECURITIES

This prospectus describes certain general terms and provisions of our debt securities. When we offer to sell a particular series of debt securities, we will describe the specific terms of the series in a supplement to this prospectus. We will also indicate in the supplement whether the general terms and provisions described in this prospectus apply to a particular series of debt securities. Unless otherwise specified in a supplement to this prospectus, the debt securities will be our direct, unsecured obligations and will rank equally with all of our other unsecured and unsubordinated indebtedness.

The debt securities will be issued under the Indenture, dated as of September 10, 1997, which we refer to as the indenture, between us and The Bank of New York Mellon Trust Company, N.A., formerly known as The Bank of New York Trust Company, N.A., as successor to The Bank of New York, as trustee. We have summarized select portions of the indenture below. The summary is not complete. The indenture has been incorporated by reference as an exhibit to the registration statement to which this prospectus forms a part and you should read the indenture for provisions that may be important to you. In the summary below, we have included references to the section numbers of the indenture so that you can easily locate these provisions. Capitalized terms used in the summary have the meaning specified in the indenture.

When we refer to we, our and us in this section, we mean Safeway Inc. excluding, unless the context otherwise requires or as otherwise expressly stated, our subsidiaries.

General

The terms of each series of debt securities will be established by or pursuant to a resolution of our board of directors and set forth or determined in the manner provided in a resolution of our board of directors, an officers' certificate or by a supplemental indenture. the price or prices (expressed as a percentage of the principal amount thereof) at which we will issue the debt securities of the series;

any limit upon the aggregate principal amount of the debt securities of the series which may be authenticated and delivered under the indenture (except for debt securities authenticated and delivered upon registration of transfer of, or in exchange for, or in lieu of, other debt securities of the series pursuant to the indenture);

the rate or rates (which may be fixed or variable) per annum or, if applicable, the method used to determine such rate or rates (including, but not limited to, any commodity, commodity index, stock exchange index or financial index) at which the debt securities of the series will bear interest, the date or dates from which interest, if any, will accrue, the date or dates on which interest, if any, will commence and be payable and any regular record date for the interest payable on any interest payment date;

the place or places where the principal of and interest, if any, on the debt securities of the series will be payable, where the debt securities of the series may be surrendered for registration of transfer or exchange and where notices and demands to or upon us in respect of the debt securities of the series and the indenture may be served, and the method of such payment, if by wire transfer, mail or other means;

any depositaries, interest rate calculation agents, exchange rate calculation agents or other agents with respect to the debt securities of the series if other than those appointed in the indenture. (Section 2.2)

In addition, the indenture does not limit our ability to issue convertible or subordinated debt securities. Any conversion or subordination provisions of a particular series of debt securities will be set forth in the resolution of our board of directors, officers' certificate or supplemental indenture related to that series of debt securities and will be described in the relevant prospectus supplement. Such terms may include provisions for conversion, either mandatory, at the option of the holder or at our option, in which case the number of shares of our common stock or other securities to be received by the holders of debt securities would be calculated as of a time and in the manner stated in the prospectus supplement.

We may issue debt securities that provide for an amount less than their stated principal amount to be due and payable upon declaration of acceleration of their maturity pursuant to the terms of the indenture. We will provide you with information on the federal income tax considerations and other special considerations applicable to any of these debt securities in the applicable prospectus supplement.

Table of Contents

Transfer and Exchange

Each debt security will be represented by either one or more global securities (we refer to any debt security represented by a global debt security as a book-entry debt security) registered in the name of The Depository Trust Company, which we refer to as the Depository, or a nominee, or a certificate issued in definitive registered form (we refer to any debt security represented by a certificated security as a certificated debt security) as set forth in the applicable prospectus supplement. Except as set forth under the heading **Global Debt Securities and Book-Entry System** below, book-entry debt securities will not be issuable in certificated form.

Certificated Debt Securities. You may transfer or exchange certificated debt securities at any office we maintain for this purpose in accordance with the terms of the indenture. No service charge will be made for any transfer or exchange of certificated debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

You may effect the transfer of certificated debt securities and the right to receive the principal of and interest, if any, on certificated debt securities only by surrendering the certificate representing those certificated debt securities and either reissuance by us or the trustee of the certificate to the new holder or the issuance by us or the trustee of a new certificate to the new holder.

Global Debt Securities and Book-Entry System. Each global debt security representing book-entry debt securities will be deposited with, or on behalf of, the Depository, and registered in the name of the Depository or a nominee of the Depository.

The Depository has indicated it intends to follow the following procedures with respect to book-entry debt securities.

Ownership of beneficial interests in book-entry debt securities will be limited to persons that have accounts with the Depository for the related global debt security, which we refer to as participants, or persons that may hold interests through participants. Upon the issuance of a global debt security, the Depository will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal amounts of the book-entry debt securities represented by such global debt security beneficially owned by such participants. The accounts to be credited will be designated by any dealers, underwriters or agents participating in the distribution of the book-entry debt securities. Ownership of book-entry debt securities will be shown on, and the transfer of such ownership interests will be effected only through, records maintained by the Depository for the related global debt security (with respect to interests of participants) and on the records of participants (with respect to interests of persons holding through participants). The laws of some states may require that certain purchasers of securities take physical delivery of such securities in definitive form. These laws may impair the ability to own, transfer or pledge beneficial interests in book-entry debt securities.

So long as the Depository for a global debt security, or its nominee, is the registered owner of that global debt security, the Depository or its nominee, as the case may be, will be considered the sole owner or holder of the book-entry debt securities represented by such global debt security for all purposes under the indenture. Except as described below, beneficial owners of book-entry debt securities will not be entitled to have securities registered in their names, will not receive or be entitled to receive physical delivery of a certificate in definitive form representing securities and will not be considered the owners or holders of those securities under the indenture. Accordingly, each person beneficially owning book-entry debt securities must rely on the procedures of the Depository for the related global debt security and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the indenture.

We understand, however, that under existing industry practice, the Depository will authorize the persons on whose behalf it holds a global debt security to exercise certain rights of holders of debt securities, and the indenture provides that we, the trustee and our respective agents will treat as the holder of a debt security the

Table of Contents

persons specified in a written statement of the Depositary with respect to that global debt security for purposes of obtaining any consents or directions required to be given by holders of the debt securities pursuant to the indenture. (Section 2.14.6)

We will make payments of principal of and interest, if any, on book-entry debt securities to the Depositary or its nominee, as the case may be, as the registered holder of the related global debt security. (Section 2.14.5) We, the trustee and any other agent of ours or agent of the trustee will not have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global debt security or for maintaining, supervising or reviewing any records relating to beneficial ownership interests.

We expect that the Depositary, upon receipt of any payment of principal of or interest, if any, on a global debt security, will immediately credit participants' accounts with payments in amounts proportionate to the respective amounts of book-entry debt securities held by each participant as shown on the records of such Depositary. We also expect that payments by participants to owners of beneficial interests in book-entry debt securities held through those participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of those participants.

We will issue certificated debt securities in exchange for each global debt security only if the Depositary notifies us that it is unwilling or unable to continue as Depositary for such global debt security or if at any time the Depositary ceases to be a clearing agency registered under the Exchange Act, and, in either case, we fail to appoint a successor Depositary registered as a clearing agency under the Exchange Act within 90 days. In addition, we may at any time and in our sole discretion determine not to have the book-entry debt securities of any series represented by one or more global debt securities and, in that event, will issue certificated debt securities in exchange for the global debt securities of that series. Global debt securities will also be exchangeable by the holders for certificated debt securities if an Event of Default with respect to the book-entry debt securities represented by those global debt securities has occurred and is continuing. Any certificated debt securities issued in exchange for a global debt security will be registered in such name or names as the Depositary shall instruct the trustee. (2.14.2) We expect that such instructions will be based upon directions received by the Depositary from participants with respect to ownership of book-entry debt securities relating to such global debt security.

We have obtained the foregoing information concerning the Depositary and the Depositary's book-entry system from sources we believe to be reliable, but we take no responsibility for the accuracy of this information.

No Protection In the Event of a Change of Control

Unless we state otherwise in the applicable prospectus supplement, the debt securities will not contain any provisions which may afford holders of the debt securities protection in the event we have a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) which could adversely affect holders of debt securities.

Covenants

We will set forth in the applicable prospectus supplement any restrictive covenants applicable to any issue of debt securities.

Consolidation, Merger and Sale of Assets

We may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of our properties and assets to, any person, which we refer to as a successor person, unless:

we are the surviving corporation or the successor person (if other than us) is a corporation organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes our obligations on the debt securities and under the indenture;

Table of Contents

immediately after giving effect to the transaction, no Event of Default, and no event which, after notice or lapse of time, or both, would become an Event of Default, shall have occurred and be continuing under the indenture; and

certain other conditions are met. (Section 5.1)

Events of Default

Event of Default means with respect to any series of debt securities, any one of the following events:

default in the payment of any interest on any debt security of that series when it becomes due and payable, and continuance of that default for a period of 30 days (unless the entire amount of the payment is deposited by us with the trustee or with a paying agent prior to the expiration of the 30-day period);

default in the payment of principal of any debt security of that series when due and payable;

default in the deposit of any sinking fund payment, when and as due in respect of any debt security of that series;

default in the performance or breach of any other covenant or warranty by us in the indenture (other than a covenant or warranty that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues uncured for a period of 60 days after we receive written notice from the trustee or we and the trustee receive written notice from the holders of not less than a majority in principal amount of the outstanding debt securities of that series as provided in the indenture;

certain events of our bankruptcy, insolvency or reorganization; and

any other Event of Default provided with respect to debt securities of that series that is described in the applicable prospectus supplement accompanying this prospectus. (Section 6.1)

No Event of Default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an Event of Default with respect to any other series of debt securities. (Section 6.1) The occurrence of an Event of Default may constitute an event of default under our bank credit agreements in existence from time to time. In addition, the occurrence of certain Events of Default or an acceleration under the indenture may constitute an event of default under certain of our other indebtedness outstanding from time to time.

If an Event of Default with respect to debt securities of any series at the time outstanding occurs and is continuing, then the trustee or the holders of not less than a majority in principal amount of the outstanding debt securities of that series may, by a notice in writing to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal of (or, if the debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) and accrued and unpaid interest, if any, on all debt securities of that series. In the case of an Event of Default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) of and accrued and unpaid interest, if any, on all outstanding debt securities will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding debt securities. (Section 6.2)

At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding debt securities of that series may rescind and annul the acceleration if all Events of Default, other than the non-payment of accelerated principal and interest, if any, with respect to debt securities of that series, have been cured or waived as provided in the indenture. (Section 6.2) For information as to waiver of defaults see the discussion under **Modification and Waiver** below. We refer you to

Table of Contents

the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an Event of Default.

The indenture provides that the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any holder of outstanding debt securities, unless the trustee receives indemnity satisfactory to it against any loss, liability or expense. (Section 7.1(e)) Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series. (Section 6.12)

No holder of any debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

that holder has previously given to the trustee written notice of a continuing Event of Default with respect to debt securities of that series; and

the holders of at least a majority in principal amount of the outstanding debt securities of that series have made written request, and offered reasonable indemnity, to the trustee to institute the proceeding as trustee, and the trustee has not received from the holders of a majority in principal amount of the outstanding debt securities of that series a direction inconsistent with that request and has failed to institute the proceeding within 60 days. (Section 6.7)

Notwithstanding the foregoing, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of and any interest on that debt security on or after the due dates expressed in that debt security and to institute suit for the enforcement of payment. (Section 6.8)

The indenture requires us, within 120 days after the end of our fiscal year, to furnish to the trustee a statement as to compliance with the indenture. (Section 4.3) The indenture provides that the trustee may withhold notice to the holders of debt securities of any series of any Default or Event of Default (except in payment on any debt securities of that series) with respect to debt securities of that series if it in good faith determines that withholding notice is in the interest of the holders of those debt securities. (Section 7.5)

Modification and Waiver

We may modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments. We may not make any modification or amendment without the consent of the holders of each affected debt security then outstanding if that amendment will:

reduce the amount of debt securities whose holders must consent to an amendment, supplement or waiver;

reduce the rate of or extend the time for payment of interest (including default interest) on any debt security;

reduce the principal of or change the fixed maturity of any debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of debt securities;

reduce the principal amount of discount securities payable upon acceleration of maturity;

waive a default or Event of Default in the payment of the principal of or interest, if any, on any debt security (except a rescission of acceleration of the debt securities of any series by the holders of at least a majority in aggregate principal amount of the then

outstanding debt securities of that series and a waiver of the payment default that resulted from such acceleration);

Table of Contents

make the principal of or interest, if any, on any debt security payable in any currency other than that stated in the debt security;

make any change to certain provisions of the indenture relating to, among other things, the right of holders of debt securities to receive payment of the principal of and interest, if any, on those debt securities and to institute suit for the enforcement of any such payment and to waivers or amendments; or

waive a redemption payment with respect to any debt security. (Section 9.3)

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive our compliance with provisions of the indenture. (Section 9.2) The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all the debt securities of such series waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of or any interest on any debt security of that series or in respect of a covenant or provision which cannot be modified or amended without the consent of the holder of each outstanding debt security of the series affected; *provided, however*, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration. (Section 6.13)

Defeasance of Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, we may be discharged from any and all obligations in respect of the debt securities of any series (except for certain obligations to register the transfer or exchange of debt securities of such series, to replace stolen, lost or mutilated debt securities of such series, and to maintain paying agencies and certain provisions relating to the treatment of funds held by paying agents). We will be so discharged upon the deposit with the trustee, in trust, of money and/or U.S. Government Obligations or, in the case of debt securities denominated in a single currency other than U.S. Dollars, Foreign Government Obligations, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants to pay and discharge each installment of principal and interest, if any, on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities.

This discharge may occur only if, among other things, we have delivered to the trustee an opinion of counsel stating that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred. (Section 8.3)

Defeasance of Certain Covenants. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, upon compliance with certain conditions:

we may omit to comply with the restrictive covenants contained in Sections 4.2 (SEC Reports), 4.3 (Compliance Certificate), 4.4 (Stay, Extension and Usury Laws), 4.6 (Taxes) and Section 5.1 (When Company May Merge, Etc.) of the indenture, as well as any additional covenants contained in a supplement to the indenture, a resolution of our board of directors or an officers certificate delivered pursuant to the indenture; and

any omission to comply with those covenants will not constitute a default or an Event of Default with respect to the debt securities of that series, which we refer to as covenant defeasance. (Section 8.4)

Table of Contents

The conditions include:

depositing with the trustee money and/or U.S. Government Obligations or, in the case of debt securities denominated in a single currency other than U.S. Dollars, Foreign Government Obligations, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants to pay and discharge each installment of principal of and interest, if any, on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities; and

delivering to the trustee an opinion of counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred. (Section 8.4)

Covenant Defeasance and Events of Default. In the event we exercise our option to effect covenant defeasance with respect to any series of debt securities and the debt securities of that series are declared due and payable because of the occurrence of any Event of Default, the amount of money and/or U.S. Government Obligations or Foreign Government Obligations on deposit with the trustee will be sufficient to pay amounts due on the debt securities of that series at the time of their stated maturity but may not be sufficient to pay amounts due on the debt securities of that series at the time of the acceleration resulting from the Event of Default. However, we shall remain liable for those payments.

Foreign Government Obligations means, with respect to debt securities of any series that are denominated in a currency other than U.S. Dollars:

direct obligations of the government that issued or caused to be issued such currency for the payment of which obligations its full faith and credit is pledged which are not callable or redeemable at the option of the issuer thereof; or

obligations of a person controlled or supervised by or acting as an agency or instrumentality of that government the timely payment of which is unconditionally guaranteed as a full faith and credit obligation by that government which are not callable or redeemable at the option of the issuer thereof.

Governing Law

The indenture and the debt securities will be governed by the laws of the State of New York applicable to agreements made and to be performed in such state, without regard to the conflict of laws provisions thereof. (Section 10.10)

Anti-Takeover Effects of Delaware Law and Our Certificate of Incorporation and By-laws

Some provisions of Delaware law and of our Certificate of Incorporation and By-laws could have the effect of delaying, deferring or discouraging another party from acquiring control of us. These provisions, which are summarized below, are expected to discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors.

Requirements for Advance Notification of Stockholder Nominations and Proposals

Our By-laws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of the board of directors or a committee of the board of directors. These provisions may have the effect of precluding the conduct of certain business at a meeting if the proper procedures are not followed, and may also discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of us.

Calling Special Stockholder Meetings

Our Certificate of Incorporation and By-laws provide that special meetings of our stockholders may be called only by our board of directors, the Chairman of our board of directors, our president or by the holders of at least 25% in amount of our entire capital stock issued and outstanding, and entitled to vote.

Undesignated Preferred Stock

Our board of directors is authorized to issue, without stockholder approval, preferred stock with such terms as our board of directors may determine. The ability to authorize undesignated preferred stock makes it possible for our board of directors to issue one or more series of preferred stock with voting or other rights or preferences that could impede the success of any attempt to change control of our company.

Delaware Anti-Takeover Statute

We are subject to Section 203 of the Delaware General Corporation Law, an anti-takeover law. This law prohibits a publicly-held Delaware corporation from engaging under certain circumstances in a business combination with any interested stockholder for a period of three years following the date that the stockholder became an interested stockholder, unless:

prior to the date of the transaction, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding those shares owned by persons who are directors and also officers and by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

on or subsequent to the date of the transaction, the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least two-thirds of the outstanding voting stock which is not owned by the interested stockholder.

Section 203 defines *business combination* to include: any merger or consolidation involving us and the interested stockholder; any sale, transfer, pledge or other disposition of 10% or more of our assets involving the interested stockholder; in general, any transaction that results in the issuance or transfer by us of any of our stock to the interested stockholder; or the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through us. In general, Section 203 defines an interested stockholder as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by any such entity or person. A Delaware corporation may opt out of this provision by express provision in its original certificate of incorporation or by amendment to its certificate of incorporation or bylaws approved by its stockholders. However, we have not opted out of this provision. The statute could prohibit or delay mergers or other takeover or change in control attempts and, accordingly, may discourage attempts to acquire us.

Our common stock is listed on the New York Stock Exchange.

PLAN OF DISTRIBUTION

We may sell the securities to one or more underwriters for public offering and sale by them and may also sell the securities to investors directly or through agents. We will name any underwriter or agent involved in the offer and sale of securities in the applicable prospectus supplement. We have reserved the right to sell or exchange securities directly to investors on our own behalf in those jurisdictions where we are authorized to do so.

We may distribute the securities from time to time in one or more transactions:

at a fixed price or prices, which may be changed;

at market prices prevailing at the time of sale;

at prices related to such prevailing market prices; or

at negotiated prices.

We may solicit directly offers to purchase the securities being offered by this prospectus. We may also designate agents to solicit offers to purchase the securities from time to time. We will name in a prospectus supplement any agent involved in the offer or sale of our securities.

If we utilize a dealer in the sale of the securities being offered by this prospectus, we will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale.

If we utilize an underwriter in the sale of the securities being offered by this prospectus, we will execute an underwriting agreement with the underwriter at the time of sale and we will provide the name of any underwriter in the prospectus supplement that the underwriter will use to make resales of the securities to the public. In connection with the sale of the securities, we, or the purchasers of securities for whom the underwriter may act as agent, may compensate the underwriter in the form of underwriting discounts or commissions. The underwriter may sell the securities to or through dealers, and the underwriter may compensate those dealers in the form of discounts, concessions or commissions.

We will provide in the applicable prospectus supplement any compensation we pay to underwriters, dealers or agents in connection with the offering of the securities, and any discounts, concessions or commissions allowed by underwriters to participating dealers. Underwriters, dealers and agents participating in the distribution of the securities may be deemed to be underwriters within the meaning of the Securities Act of 1933, as amended, or the Securities Act, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions. We may enter into agreements to indemnify underwriters, dealers and agents against civil liabilities, including liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof.

If we so specify in the applicable prospectus supplement, we will authorize underwriters, dealers and agents to solicit offers by institutions to purchase the securities under contracts providing for payment and delivery on future dates. The institutions with which the contracts may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others. The purchasers' obligations under the contracts will not be subject to any conditions except that:

the purchase of the securities may not at the time of delivery be prohibited under the laws of the jurisdiction to which the purchaser is subject; and

if the securities are also being sold to underwriters, we will have sold to the underwriters the securities not sold for delayed delivery. The underwriters, dealers and agents will not be responsible for the validity or performance of the contracts. We will provide in the prospectus supplement relating to the contracts the price to be paid for the securities, the commissions payable for solicitation of the contracts and the date in the future for delivery of the securities.

To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than we sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with

stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

The securities may or may not be listed on a national securities exchange.

Certain of the underwriters, dealers or agents and their associates may engage in transactions with and perform services for us in the ordinary course of our business.

VALIDITY OF THE SECURITIES

The validity of any securities issued pursuant to this prospectus and any applicable prospectus supplement will be passed upon for us by Latham & Watkins LLP, San Francisco, California.
