Item 2.02 Results of Operations and Financial Condition

Third Quarter 2012 Results of Operations.

On October 19, 2012, Cooper Industries plc (the "Company") issued the press release attached hereto as Exhibit 99.1 setting forth the Company's results of operations for the third quarter 2012. The press release includes a reference to free cash flow and the Company's net debt-to-total capitalization ratio. Reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures are set forth in the press release.

Company management believes that the presentation of free cash flow provides useful information regarding the Company's ability to generate cash without reliance on external financings. In addition, management uses free cash flow to evaluate resources available for investments in the business, strategic acquisitions and strengthening the balance sheet. Company management believes that the net debt-to-total capitalization ratio is a useful measure regarding the Company's financial leverage for evaluating the Company's ability to meet its funding needs.

Item 9.01 Financial Statements and Exhibits
