REPORT OF INDEPENDENT REGISTERED CERTIFIED PUBLIC ACCOUNTING FIRM

To the Participants and the Harris Corporation Employee Benefits Committee of the

Harris Corporation Retirement Plan

We have audited the accompanying statements of net assets available for benefits of the Harris Corporation Retirement Plan as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Harris Corporation Retirement Plan at December 31, 2012 and 2011, and the changes in its net assets available for benefits for the year ended December 31, 2012, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2012 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Notes to the Financial Statements

December 31, 2012 and 2011

NOTE 1 DESCRIPTION OF PLAN

The following description of the Harris Corporation Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- A. **General** The Plan is a defined contribution plan with a 401(k) feature covering eligible employees of Harris Corporation and certain of its subsidiaries (collectively, the "Company" or "Employer") as defined in the Plan document. The Plan Administrator is the Harris Corporation Employee Benefits Committee comprised of persons appointed by Harris Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").
- B. **Contributions** Participants may contribute a percentage of eligible compensation, as defined in the Plan document and subject to Internal Revenue Code (the "Code") limitations, on a pre-tax and/or after-tax basis. After-tax contributions may be made either on a regular after-tax basis or on a designated Roth after-tax basis. Participants age 50 and older by the end of the calendar year can contribute an additional amount above the annual pre-tax/designated Roth after-tax limitation, as defined in the Plan document and subject to Code limitations. The Company matches up to 50% or 100% (depending on business unit) of pre-tax and after-tax contributions subject to a limit of 4%, 5% or 6% (depending on business unit) of eligible compensation for any eligible employee who has completed the Plan's service requirement (either six months or one year, depending on business unit). Full-time regular participants who make no election with respect to their contribution percentage are deemed to have elected deferral of 6% of eligible compensation on a pre-tax basis. The Company may make discretionary profit sharing contributions to the Plan in an amount determined by the Company, allocated to eligible participants based on eligible compensation as defined in the Plan document. For the year ended December 31, 2012, no profit sharing contributions were made; instead, the Company's Performance Reward Plan (or similar plan) permitted each participant eligible for such plan to elect a special, unmatched pre-tax contribution to the Plan of 0%, 50% or 100% of the amount otherwise payable to the participant by the Company in cash under the Performance Reward Plan (or similar plan), subject to Code limitations. In addition, participants may rollover amounts to the Plan from other qualified plans.
- C. **Payments of Benefits** Prior to termination of employment, a participant may withdraw all or any portion of his or her regular after-tax account balance or rollover balance. A participant may also receive a distribution while employed for financial hardship, as defined in the Plan document, upon attainment of age 59 1/2 or in certain cases, in connection with active military duty. Upon retirement or other termination of employment, a participant may elect to receive either a lump-sum amount equal to all or a portion of the participant's vested account, or installments of his or her vested account over a future period.
- D. **Participant Loans** The participant loan program permits participants to borrow against their pre-tax, regular after-tax, designated Roth after-tax and rollover contributions. A participant may borrow in increments of \$100 from a minimum of \$500 to a maximum of 50% of the vested portion of the participant's account or \$50,000 whichever is lower, within certain limitations established by the Plan document. Payback periods range from one to five years unless the loan is to be used for the purchase of a principal residence, in which case the payback period may not exceed ten years. Interest rates are established by the Company based on market rates. Loans are paid back ratably through payroll deductions (or, if the participant is not receiving paychecks, then they are paid back by personal, certified or cashier's check, money order or electronic transfer). The outstanding loans have been established as a separate fund.
- E. **Participant Accounts** Each participant's account is credited with the participant's contribution, including the contribution, if any, in respect of the participant's election under the Company's Performance Reward Plan (or similar plan), and allocations of (a) the Company's matching contribution, (b) the Company's discretionary profit sharing contribution, if any, and (c) Plan earnings, and is charged with an allocation of Plan losses and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from

the participant's vested account.

- F. **Vesting** Participants are immediately vested in their pre-tax, regular after-tax, designated Roth after-tax and rollover contributions plus earnings thereon. Vesting in the Employer matching and any profit sharing contributions, plus earnings thereon, is based on years of service, as defined in the Plan document. A participant is 100% vested after four years of service, based on the following schedule:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 years	100%

Table of Contents

However, certain vesting schedules applicable to assets merged into the Plan have been preserved, as legally required, and may result in the vesting of Employer contributions plus earnings thereon, more quickly than described above. In addition, in the event of a disposition by the Company of a business or substantially all of the assets of a business, the participants impacted by such disposition may in certain circumstances become 100% vested in Employer contributions plus earnings thereon.

A participant also becomes 100% vested in Employer contributions plus earnings thereon, upon his or her termination of employment after attaining age 55 or on account of his or her death or disability.

G. Forfeitures A terminated participant who is not 100% vested will forfeit the non-vested portion of the Company's contributions unless the participant returns to employment within five years. The forfeited contributions are used first, to restore the accounts of recently located missing participants, as defined in the Plan document; next, to restore the accounts of participants who are reemployed prior to incurring a break in service of five consecutive years; next, to fund any matching or profit sharing contributions to be allocated to participants who are reemployed after a period of qualified military service, as defined in the Plan document; and finally, to reduce future contributions to the Plan by the Company. Forfeited amounts included in Plan assets at December 31, 2012 and 2011 were \$704,336 and \$883,294, respectively. For the years ended December 31, 2012 and 2011, Company contributions to the Plan were reduced by \$1,390,009 and \$1,143,000, respectively, from forfeited non-vested accounts.

H. Plan Termination Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

I. Investment Options Upon enrollment into the Plan, a participant may direct Company and participant contributions into any of several investment options, including the Harris Stock Fund. A participant may transfer amounts from other investment options into the Harris Stock Fund, provided that no transfer shall cause more than 20% of a participant's account to be invested in the Harris Stock Fund. The Harris Stock Fund has been designated as an employee stock ownership plan, which means that the Company is entitled to a deduction for dividends paid on shares held in the Harris Stock Fund. Any such dividends are 100% vested and participants are permitted to elect that such dividends either be maintained in the Plan and reinvested in the Harris Stock Fund or paid from the Plan in cash to the participant.

The investment options are described in detail in the Plan's Summary Plan Description, which is available to all participants. In the event no investment option is selected by a participant, the default investment option for contributions is the LifeCycle Fund that is age-appropriate for the participant. Elections to change investment options can be made daily; however, amounts in the Stable Value Fund cannot be transferred directly to the Money Market Fund. Investments are also governed by other limitations described in the Plan document and the Summary Plan Description.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accounting records of the Plan are maintained on the accrual basis. Certain prior year data have been reclassified to conform to the presentation for the year ended December 31, 2012.

Recent Accounting Pronouncements

Fair Value Measurement In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. This update was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. generally accepted accounting principles and International Financial Reporting Standards. This update changed certain fair value measurement principles and enhanced the disclosure requirements particularly for Level 3 fair value measurements. This update became effective for the Plan on January 1, 2012 and did not have a material impact on the Plan's net assets available for benefits or changes in net assets available for benefits.

Valuation of Investments The Plan's investments are stated at fair value. Quoted market prices are used, when available, to value investments. Investments for which quoted market prices are not available are stated at fair values as reported by the trustee or investee company. See Note 7 Financial Instruments for further information on the valuation of investments.

Notes Receivable from Participants Notes receivable from participants represent participant loans recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded upon the participant's eligibility for a plan distribution.

Synthetic Guaranteed Investment Contracts During 2012 and 2011, the Plan held synthetic guaranteed investment contracts (synthetic GICs) in its Stable Value Fund (the Fund). A corresponding contract wrapper with the issuer of the synthetic GICs was also held in order to provide a variable rate of return on the cost of the investment. The fair value of the synthetic GICs was

Table of Contents

determined using a discounted cash flow method or quoted market prices of underlying investments. The fair value of the contract wrapper was based on the present value of the difference between the current fee and fee re-bids provided by the issuers and was \$248,741 and \$333,759 at December 31, 2012 and 2011, respectively. The Plan values all investments at fair value. See Note 7 Financial Instruments for further discussion of fair value measurements.

The interest crediting rate of synthetic GICs is based on the contract value, and the fair value, duration and yield to maturity of the portfolio of bonds underlying the synthetic GICs. The interest crediting rate is reset quarterly. The minimum crediting rate is zero percent.

The interest crediting rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

The primary variables impacting the future interest crediting rates of synthetic GICs include the current yield of the assets underlying the contract, the duration of the assets underlying the contract and the existing difference between the fair value and contract value of the assets underlying the contract.

The investments in synthetic GICs are presented at fair value on the Statements of Net Assets Available for Benefits. To the extent that the underlying portfolio of a synthetic GIC has unrealized and/or realized losses, a positive adjustment is made to the adjustment from fair value to contract value under contract value accounting. As a result, the future interest crediting rate may be lower over time than the then-current market rates. Similarly, if the underlying portfolio generates unrealized and/or realized gains, a negative adjustment is made to the adjustment from fair value to contract value, and the future interest crediting rate may be higher than the then-current market rates. The adjustments ensure that ending net assets available for benefits are recorded at contract value and reflect the unrealized and/or realized gains and losses on the underlying portfolio of synthetic GICs.

Synthetic GICs generally provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment. Such events include but are not limited to the following: material amendments to the Plan or in the administration of the Fund; changes to the Plan's competing investment options including the elimination of equity wash provisions; complete or partial termination of the Plan; the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; the redemption of all or a portion of the interests in the Fund held by the Plan at the direction of the Plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the Plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit or affiliate, the bankruptcy or insolvency of the Plan sponsor, the merger of the Plan with another plan, or the Plan sponsor's establishment of another tax qualified defined contribution plan; any change in law, regulation, ruling, administrative or judicial position or accounting requirement, applicable to the Fund or the Plan; or the delivery of any communication to Plan participants designed to influence a participant not to invest in the Fund.

At this time, the Plan does not believe that the occurrence of any such market value adjustment-triggering event, which would limit the Plan's ability to transact at contract value with participants, is probable.

If the Plan defaults in its obligations under any synthetic GIC (including the issuer's determination that the agreement constitutes a non-exempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Plan will receive the fair value of the underlying investments as of the date of termination. With the exception of this circumstance, termination of the contract by the issuer would be settled at contract value.

The average yield based on actual earnings was approximately 1.05% at December 31, 2012 and 1.68% at December 31, 2011. The average yield based on interest rate credited to participants was approximately 2.28% at December 31, 2012 and 2.57% at December 31, 2011.

Use of Estimates The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts, disclosures, and schedules. Accordingly, actual results may differ from those estimates.

Administrative Expenses Unless otherwise elected by the Company, all reasonable charges and expenses incurred in connection with the administration of the Plan are paid by the trustee from the assets of the trust.

Table of Contents**NOTE 3 INVESTMENTS**

For the year ended December 31, 2012, the Plan's investments (including investments bought, sold and held during such period) appreciated in value as follows:

Net appreciation in fair value as determined by quoted market prices:	
Preferred stocks	\$ 382,850
Common stocks	107,943,492
Registered investment companies	112,070,678
Net appreciation in fair value as determined by investee company/trustee:	
Common/collective trust funds	220,397,020
	90,118,479
Total net change in fair value	\$ 310,515,499

The fair value of individual investments that represent 5% or more of Plan net assets is as follows:

	December 31, 2012	December 31, 2011
Prin Global Invs COLTV Invt TR Diversified Intl Eqty FD 50 BP Fee CL	\$ 167,570,757	\$ 147,318,002

Galliard Capital Management Wells Fargo Bank NA Fixed Income Fund L	159,419,182	*

* Investment was below 5% of Plan net assets at end of year.

NOTE 4 RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of common stock of Harris Corporation and balances in common/collective trust funds that are managed by Northern Trust. Harris Corporation is the Plan sponsor and Northern Trust is the Trustee and, therefore, these transactions qualify as exempt party-in-interest transactions under the provisions of ERISA.

The Plan's investments in Harris Corporation common stock (included with other common stock) and in common/collective trust funds managed by Northern Trust (included with other common/collective trust funds) are as follows:

	December 31, 2012		December 31, 2011	
	Shares	Fair Value	Shares	Fair Value
Common stock

NTGI Coltv Govt STIF Registered	*	*

* Activity in this fund represents overnight interest bearing deposits (sweeps) of otherwise un-invested daily cash.

NOTE 5 INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated April 21, 2004, stating that the Plan is qualified under Section 401(a) of the Code and the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan has been amended and restated and following such restatement has been further amended from time to time. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as so restated and further amended, is qualified and the related trust is exempt from taxation. On January 25, 2011, a request was filed with the Internal Revenue Service for a favorable determination that the Plan continues to be qualified under Section 401(a) of the Code and that the related trust continues to be exempt from taxation. The Plan has not received a response from the Internal Revenue Service with respect to this request.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 6 CREDIT RISKS AND UNCERTAINTIES

Cash amounts at the Trustee may exceed the federally insured limit from time to time. The Plan provides for investments in various investment securities, which, in general, are exposed to certain risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Table of Contents**NOTE 7 FINANCIAL INSTRUMENTS**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal market (or most advantageous market, in the absence of a principal market) for the asset or liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). A three-level fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models and similar techniques for which some or all significant assumptions are not observable.

The following section describes the valuation methodologies the Plan uses to measure financial assets at fair value.

In general, and where applicable, the Plan uses quoted prices in active markets for identical assets to determine fair value. This pricing methodology applies to the Plan's Level 1 assets which include interest bearing cash, preferred stocks, common stocks and registered investment companies. If quoted prices in active markets for identical assets are not available to determine fair value, then the Plan uses quoted prices for similar assets or inputs other than the quoted prices that are observable either directly or indirectly. These assets are included in Level 2 and consist of preferred stocks, common stocks, common/collective trust funds and synthetic guaranteed investment contract wrappers. Assets for which fair value is determined by management using assumptions that market participants would use in pricing assets are included in Level 3. As of December 31, 2012 and 2011, there were no Level 3 assets held by the Plan.

Assets Measured at Fair Value on a Recurring Basis

Assets measured at fair value on a recurring basis at December 31, 2012 are as follows:

	Level 1	Level 2	Level 3	Total
Assets				
Interest bearing cash	\$ 6,567,189	\$	\$	\$ 6,567,189
Preferred stocks	1,710,037	51,723		1,761,760
Common stocks:				
Consumer	96,645,663			96,645,663
Energy	56,910,186			56,910,186
Financial	70,963,693			70,963,693
Health care	55,231,840			55,231,840
Industrial	57,870,426			57,870,426

Total Assets Measured at Fair Value	\$ 758,223,142	\$ 2,039,804,364	\$	\$ 2,798,027,506

- (a) Common/collective trust funds share the common goal of first growing then later preserving principal and contain a mix of U.S. stocks, U.S. issued bonds and cash. There are currently no redemption restrictions on these investments. The fair values of the investments in this category have been estimated using the net asset value per share.

NOTE 8 RECONCILIATION OF PLAN FINANCIAL STATEMENTS TO THE FORM 5500

Form 5500 requires the recording of a liability for benefit amounts processed prior to year-end but not yet paid and requires fully benefit-responsive contracts to be reported at fair value. These requirements conflict with accounting principles generally accepted in the United States and the presentation of such amounts in the financial statements where they remain as part of net assets available for benefits.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2012	December 31, 2011
Net assets available for benefits per the financial statements	\$ 3,129,579,566	\$ 2,824,425,047
Benefits due to participants	(576,291)	(1,690,270)

Edgar Filing: HARRIS CORP /DE/ - Form 11-K

Adjustment to fair value from contract value for fully benefit-responsive investment contracts	26,983,296	19,665,573
Net assets available for benefits per the Form 5500	\$ 3,155,986,571	\$ 2,842,400,350

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2012:

Benefits paid to participants per the financial statements	\$ 197,826,190
Add: benefits due but unpaid at December 31, 2012	576,291
Less: benefits due but unpaid at December 31, 2011	(1,690,270)
Total benefit payments, corrective distributions and deemed distributions per the Form 5500	\$ 196,712,211

Table of Contents

The following is a reconciliation of investment income per the financial statements to the Form 5500 for the year ended December 31, 2012:

Net change in Plan assets per the financial statements	\$ 305,154,519
Adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2011	(19,665,573)
Adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2012	26,983,296
Benefits due but unpaid at December 31, 2012	(576,291)
Benefits due but unpaid at December 31, 2011	1,690,270
 Net income and transfers in per the Form 5500	 \$ 313,586,221
