AMDOCS LIMITED

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(dollar and share amounts in thousands, except per share data)

1. Nature of Entity and Basis of Presentation

Amdocs Limited (the "Company") is a leading provider of software and services for communications, media and entertainment industry service providers. The Company and its subsidiaries operate in one segment, providing integrated products and services. The Company designs, develops, markets, supports, implements and operates customer experience systems primarily for leading wireless, wireline, cable and satellite service providers throughout the world. Amdocs also offers a full range of advertising and media solutions for local marketing service providers and search and directory publishers.

The Company is a Guernsey corporation, which directly or indirectly holds numerous wholly-owned subsidiaries around the world. The majority of the Company's customers are in North America, Europe, Latin America and the Asia-Pacific region. The Company's main development facilities are located in Brazil, Canada, Cyprus, India, Ireland, Israel and the United States.

The unaudited consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP. In the opinion of the Company's management, all adjustments considered necessary for a fair presentation of the unaudited interim consolidated financial statements have been included herein and are of a normal recurring nature.

The preparation of financial statements during interim periods requires management to make numerous estimates and assumptions that impact the reported amounts of assets, liabilities, revenue and expenses. Estimates and assumptions are reviewed periodically and the effect of revisions is reflected in the results of operations for the interim periods in which changes are determined to be necessary.

The results of operations for the interim periods presented herein are not necessarily indicative of the results to be expected for the full fiscal year. These statements do not include all information and footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with GAAP. These statements should be read in conjunction with the Company's consolidated financial statements for the fiscal year ended September 30, 2013, set forth in the Company's Annual Report on Form 20-F filed on December 9, 2013 with the U.S. Securities and Exchange Commission, or the SEC.

Reclassification

From time to time, certain immaterial amounts in prior year financial statements may be reclassified to conform to the current year presentation.

2. Recent Accounting Standards

In May 2014, the Financial Accounting Standards Board, or FASB, issued an Accounting Standard Update, or ASU, on revenue from contracts with customers, which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. This ASU, which will be effective for the Company beginning October 1, 2017, allows for either full or

modified retrospective methods of adoption and its early adoption is not permitted. The Company is currently evaluating the method of the adoption, as well as the effect that the adoption of this ASU will have on its consolidated financial statements.

In July 2013, the FASB issued an ASU, under which an entity must present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, in the absence of certain conditions. This ASU will be effective for the Company on October 1, 2014, and may result in changes in the Company's financial statements presentation but will not affect the substantive content of the Company's consolidated financial statements.

3. Adoption of New Accounting Standard

In February 2013, the FASB issued an ASU to require reclassification adjustments from other comprehensive income to be presented either in the financial statements or in the notes to the financial statements. This ASU became effective for the Company in the first quarter of fiscal 2014 and its adoption did not have a material impact on the Company's consolidated financial statements.

Table of Contents**4. Acquisitions**

On January 1, 2014, the Company completed its acquisition of substantially all of the assets of Celcite Management Solutions LLC (Celcite), a provider of network management and self-optimizing network solutions, for \$141,000 in cash, with the potential for additional consideration to be paid in the future if certain performance metrics are achieved. In allocating the total preliminary purchase price of Celcite based on estimated fair values, the Company recorded \$83,554 of goodwill, \$46,432 of customer relationships to be amortized over approximately four years, \$22,372 of core technology to be amortized over approximately three years and \$1,781 of other intangible assets to be amortized over approximately three years.

5. Fair Value Measurement

The Company accounts for certain assets and liabilities at fair value. Fair value is the price that would be received from selling an asset or that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

The hierarchy below lists three levels of fair value based on the extent to which inputs used in measuring fair value are observable in the market. The Company categorizes each of its fair value measurements in one of these three levels based on the lowest level input that is significant to the fair value measurement in its entirety.

The three levels of inputs that may be used to measure fair value are as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities;

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets), or other inputs that are observable (model-derived valuations in which significant inputs are observable) or can be derived principally from, or corroborated by, observable market data; and

Level 3: Unobservable inputs that are supported by little or no market activity that is significant to the fair value of the assets or liabilities.

The following tables present the Company's assets and liabilities measured at fair value on a recurring basis as of June 30, 2014 and September 30, 2013:

Available-for-sale securities that are classified as Level 2 assets are priced using observable data that may include quoted market prices for similar instruments, market dealer quotes, market spreads, non-binding market prices that are corroborated by observable market data and other observable market information and discounted cash flow techniques. The Company's derivative instruments are classified as Level 2 as they represent foreign currency forward and option contracts valued primarily based on observable inputs including forward rates and yield curves. The Company did not have any transfers between Level 1 and Level 2 fair value measurements during the nine months ended June 30, 2014. Level 3 amounts relate to certain acquisition-related liabilities, which were valued using a Monte-Carlo simulation model.

Fair Value of Financial Instruments

The carrying amounts of the Company's cash and cash equivalents, accounts receivable, accounts payable, accrued personnel costs, short-term financing arrangements and other current liabilities approximate their fair value because of the relatively short maturity of these items.

6. Available-For-Sale Securities

Available-for-sale securities consist of the following interest-bearing investments:

- (2) As of September 30, 2013, \$312,188 of securities were classified as short term interest-bearing investments and \$582,574 of securities were classified as cash and cash equivalents.

Table of Contents

As of June 30, 2014, the unrealized losses attributable to the Company's available-for-sale securities were primarily due to credit market conditions and interest rate movements. The Company assessed whether such unrealized losses for the investments in its portfolio were other-than-temporary. Based on this assessment, the Company recognized an immaterial credit loss in the three and nine months ended June 30, 2014 and 2013. Realized gains and losses on available-for-sale securities are included in earnings and are derived using the first-in-first-out (FIFO) method for determining the cost of securities.

As of June 30, 2014, the Company's available-for-sale securities had the following maturity dates:

	Market Value
Due within one year	\$ 537,252
1 to 2 years	107,173
2 to 3 years	85,182
3 to 4 years	12,709
Thereafter	8,470
	\$ 750,786

7. Derivative Financial Instruments

The Company's risk management strategy includes the use of derivative financial instruments to reduce the volatility of earnings and cash flows associated with changes in foreign currency exchange rates. The Company does not enter into derivative transactions for trading purposes.

The Company's derivatives expose it to credit risks from possible non-performance by counterparties. The Company utilizes standard counterparty master netting agreements that net certain foreign currency transactions in the event of the insolvency of one of the parties to the transaction. These master netting arrangements permit the Company to net amounts due from the Company to a counterparty with amounts due to the Company from the same counterparty. Although all of the Company's recognized derivative assets and liabilities are subject to enforceable master netting arrangements, the Company has elected to present these assets and liabilities on a gross basis. Taking into account the Company's contractual right to net certain gains with losses, the maximum amount of loss due to credit risk that the Company would incur if all counterparties to the derivative financial instruments failed completely to perform, according to the terms of the contracts, based on the gross fair value of the Company's derivative contracts that are favorable to the Company, was approximately \$22,822 as of June 30, 2014. The Company has limited its credit risk by entering into derivative transactions exclusively with investment-grade rated financial institutions and monitors the creditworthiness of these financial institutions on an ongoing basis.

The Company classifies cash flows from its derivative transactions as cash flows from operating activities in the consolidated statements of cash flow.

The table below presents the total volume or notional amounts of the Company's derivative instruments as of June 30, 2014. Notional values are in U.S. dollars and are translated and calculated based on forward rates as of June 30, 2014 for forward contracts, and based on spot rates as of June 30, 2014 for options.

	Notional Value*
Foreign exchange contracts	\$ 1,217,312

* Gross notional amounts do not quantify risk or represent assets or liabilities of the Company, but are used in the calculation of settlements under the contracts.

Table of Contents

The Company records all derivative instruments on the balance sheet at fair value. For further information, please see Note 5 to the unaudited consolidated financial statements. The fair value of the open foreign currency exchange contracts recorded by the Company on its consolidated balance sheets as of June 30, 2014 and September 30, 2013, as an asset or a liability, is as follows:

	As of	
	June 30, 2014	September 30, 2013

Net fair value	\$ 22,822	\$ 7,538

Cash Flow Hedges

In order to reduce the impact of changes in foreign currency exchange rates on its results, the Company enters into foreign currency exchange forward and option contracts to purchase and sell foreign currencies to hedge a significant portion of its foreign currency net exposure resulting from revenue and expense transactions denominated in currencies other than the U.S. dollar. The Company designates these contracts for accounting purposes as cash flow hedges. The Company currently hedges its exposure to the variability in future cash flows for a maximum period of two years (a significant portion of the forward and option contracts outstanding as of June 30, 2014, is expected to mature within the next 12 months).

The effective portion of the gain or loss on the derivative instruments is initially recorded as a component of other comprehensive income (loss), a separate component of shareholders' equity, and subsequently reclassified into earnings in the same line item as the related forecasted transaction and in the same period or periods during which the hedged exposure affects earnings. The cash flow hedges are evaluated for effectiveness at least quarterly. As the critical terms of the forward contract or option and the hedged transaction are matched at inception, the hedge effectiveness is assessed generally based on changes in the fair value for cash flow hedges, as compared to the changes in the fair value of the cash flows associated with the underlying hedged transactions. Hedge ineffectiveness, if any, and hedge components, such as time value, excluded from assessment of effectiveness testing for hedges of

estimated revenue from customers, are recognized immediately in interest and other expense, net.

The effect of the Company's cash flow hedging instruments in the consolidated statements of income for the three and nine months ended June 30, 2014 and 2013, respectively, which partially offsets the foreign currency impact from the underlying exposures, is summarized as follows:

	Gains (Losses) Reclassified from Other Comprehensive Income (Loss) (Effective Portion)			
	Three months ended June 30,		Nine months ended June 30,	
	2014	2013	2014	2013
Line item in statement of income:				
Revenue	\$ 6	\$ 17	\$ 376	\$ (89)
Cost of service	6,198	497	11,893	(2,659)
Research and development	1,194	588	3,359	100
Selling, general and administrative	1,280	484	3,338	12
Total	\$ 8,678	\$ 1,586	\$ 18,966	\$ (2,636)

Table of Contents

The activity related to the changes in net unrealized gains (losses) on cash flow hedges recorded in accumulated other comprehensive income, net of tax, is as follows:

	Nine months ended June 30,	
	2014	2013
Net unrealized gains (losses) on cash flow hedges, net of tax, beginning of period	\$ 4,696	\$ (17,942)
Changes in fair value of cash flow hedges, net of tax	27,354	18,945
Reclassification of (gains) losses into earnings, net of tax	(15,218)	2,881
Net unrealized gains on cash flow hedges, net of tax, end of period	\$ 16,832	\$ 3,884

Gains from cash flow hedges recognized in other comprehensive income (loss) during the nine months ended June 30, 2014 and 2013, were \$31,724 and \$25,794, or \$27,354 and \$18,945, net of taxes, respectively.

Of the net gains related to derivatives designated as cash flow hedges and recorded in accumulated other comprehensive income as of June 30, 2014, a net gain of \$13,918 will be reclassified into earnings within the next 12 months and will partially offset the foreign currency impact from the underlying exposures. The amount ultimately realized in earnings will likely differ due to future changes in foreign exchange rates.

The ineffective portion of the change in fair value of a cash flow hedge, including the time value portion excluded from effectiveness testing for the three and nine months ended June 30, 2014 and 2013, was not material.

Cash flow hedges are required to be discontinued in the event it becomes probable that the underlying forecasted hedged transaction will not occur. The Company did not discontinue any cash flow hedges during any of the periods presented nor does the Company anticipate any such discontinuance in the normal course of business.

Other Risk Management Derivatives

The Company also enters into foreign currency exchange forward and option contracts that are not designated as hedging instruments under hedge accounting and are used to reduce the impact of foreign currency on certain balance sheet exposures and certain revenue and expense transactions.

These instruments are generally short-term in nature, with typical maturities of less than 12 months, and are subject to fluctuations in foreign exchange rates.

The effect of the Company's derivative instruments not designated as hedging instruments in the consolidated statements of income for the three and nine months ended June 30, 2014 and 2013, respectively, which partially offsets the foreign currency impact from the underlying exposure, is summarized as follows:

Gains (Losses) Recognized in Income
Three months ended June 30, 2014 **Nine months ended June 30, 2013**

Table of Contents**8. Accounts Receivable, Net**

Accounts receivable, net consists of the following:

		June 30, 2014	As of September 30, 2013
Accounts receivable	billed (1)	\$ 654,572	\$ 587,928
Accounts receivable	unbilled	137,504	110,626
Less-allowances		(36,454)	(20,335)
Accounts receivable, net		\$ 755,622	\$ 678,219

- (1) The increase in accounts receivable billed during the nine months ended June 30, 2014 was primarily related to the Company's recent acquisitions, while the remainder was attributable to timing of collections and milestone invoicing towards the end of the period.

9. Income Taxes

The provision (benefit) for income taxes for the following periods consisted of:

	Three months ended June 30,		Nine months ended June 30,	
	2014	2013	2014	2013
Current	\$ 29,454	\$ 1,930	\$ 49,198	\$ 28,771
Deferred	(15,026)	(1,050)	(5,336)	1,829
Income taxes	\$ 14,428	\$ 880	\$ 43,862	\$ 30,600

The Company's effective income tax rate varied from the statutory Guernsey tax rate as follows for the following periods:

	Three months ended June 30,		Nine months ended June 30,	
	2014	2013	2014	2013
Statutory Guernsey tax rate	0%	0%	0%	0%
Foreign taxes	12	1	12	9
Effective income tax rate	12%	1%	12%	9%

As a Guernsey company subject to a corporate tax rate of zero percent, the Company's overall effective tax rate is attributable to foreign taxes.

As of June 30, 2014, deferred tax assets of \$131,789, derived primarily from tax credits, net capital and operating loss carry forwards related to some of the Company's subsidiaries, were offset by valuation allowances related to the uncertainty of realizing tax benefit for such credits and losses.

The total amount of gross unrecognized tax benefits, which includes interest and penalties, was \$119,529 as of June 30, 2014, all of which would affect the effective tax rate if realized.

In the nine months ended June 30, 2014, the Company reduced the amount of its gross unrecognized tax benefits by approximately \$11,000, which affected its effective tax rate. This included a decrease of approximately \$14,000, which was attributable to the expiration during the three months ended June 30, 2014 of statutes of limitations related to unrecognized tax benefits accumulated over several years in certain jurisdictions, as well as a decrease of approximately \$13,000 as a result of a tax position, which was settled during the three months ended March 31, 2014.

In the nine months ended June 30, 2013, the Company reduced the amount of its gross unrecognized tax benefits by approximately \$13,000, which affected its effective tax rate. This included a decrease of approximately \$27,000, which was attributable to the expiration during the three months ended June 30, 2013 of statutes of limitations related to unrecognized tax benefits accumulated over several years in certain jurisdictions.

As of June 30, 2014, the Company had accrued \$19,927 in income taxes payable for interest and penalties relating to unrecognized tax benefits.

Table of Contents

The Company is currently under audit in several jurisdictions for the tax years 2007 and onwards. Timing of the resolution of audits is highly uncertain and therefore the Company generally cannot estimate the change in unrecognized tax benefits resulting from these audits within the next 12 months.

10. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share:

	Three months ended June 30,		Nine months ended June 30,	
	2014	2013	2014	2013
Numerator:				
Numerator for basic and diluted earnings per share	\$ 109,827	\$ 119,558	\$ 321,619	\$ 323,485
Denominator:				
Denominator for basic earnings per share weighted average number of shares outstanding	159,257	160,914	159,574	161,350
Effect of assumed conversion of 0.50% convertible notes	16	24	21	24
Effect of dilutive stock options granted	2,452	1,729	2,344	1,674
Denominator for diluted earnings per share adjusted weighted average shares and assumed conversions	161,725	162,667	161,939	163,048
Basic earnings per share	\$ 0.69	\$ 0.74	\$ 2.02	\$ 2.00
Diluted earnings per share	\$ 0.68	\$ 0.73	\$ 1.99	\$ 1.98

For the three and nine months ended June 30, 2014, 1,106 and 1,152 shares, respectively, on a weighted average basis, were attributable to antidilutive outstanding stock options. For the three and nine months ended June 30, 2013, 2,888 and 3,380 shares, respectively, on a weighted average basis, were attributable to antidilutive outstanding stock options. Shares attributable to antidilutive outstanding stock options were not included in the calculation of diluted earnings per share.

11. Repurchase of Shares

From time to time, the Company's board of directors has adopted share repurchase plans authorizing the repurchase of the Company's outstanding ordinary shares. The current share repurchase plan authorizes the repurchase of up to \$500,000 of the Company's outstanding ordinary shares with no expiration date. In the nine months ended June 30, 2014, the Company repurchased approximately 6,057 ordinary shares at an average price of \$43.23 per share (excluding broker and transaction fees). As of June 30, 2014, the Company had remaining authority to repurchase up to \$74,041 of its outstanding ordinary shares. In April 2014, the Company's board of directors adopted another share repurchase plan authorizing the repurchase of up to \$750,000 of its outstanding ordinary shares. The April 2014 plan has no expiration date. Each of the share repurchase plans permits the Company to purchase its ordinary shares in open market or privately negotiated transactions at times and prices that it considers appropriate.

12. Financing Arrangements

In September 2013, the Company borrowed an aggregate of \$200,000 under its unsecured \$500,000 five-year revolving credit facility with a syndicate of banks and repaid it in October 2013. As of June 30, 2014, the Company was in compliance with the financial covenants under the revolving credit facility and had no outstanding borrowings under this facility.

As of June 30, 2014, the Company had additional uncommitted lines of credit available for general corporate and other specific purposes and had outstanding letters of credit and bank guarantees from various banks totaling \$70,466.

13. Stock Option and Incentive Plan

In January 1998, the Company adopted the 1998 Stock Option and Incentive Plan, or Plan, which provides for the grant of restricted stock awards, stock options and other equity-based awards to employees, officers, directors and consultants. The purpose of the Plan is to enable the Company to attract and retain qualified personnel and to motivate such persons by providing them with an equity participation in the Company. Since its adoption, the Plan has been amended on several occasions to, among other things, increase the number of ordinary shares issuable under the Plan. The maximum number of ordinary shares currently authorized to be granted under the Plan is 62,300. Awards granted under the Plan generally vest over a period of four years and stock options have a term of ten years.

Table of Contents

The following table summarizes information about options to purchase the Company's ordinary shares, as well as changes during the nine-month period ended June 30, 2014:

	Number of Options	Weighted Average Exercise Price	Weighted Average remaining Contractual Term
Outstanding as of October 1, 2013	12,138	\$ 30.38	
Granted	2,140	41.43	
Exercised	(3,991)	29.13	
Forfeited	(454)	32.27	
Outstanding as of June 30, 2014	9,833	\$ 33.21	7.30
Exercisable as of June 30, 2014	3,007	\$ 28.13	6.62

The following table summarizes information relating to awards of restricted shares, as well as changes to such awards during the nine-month period ended June 30, 2014:

	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding unvested shares as of October 1, 2013	1,795	\$ 31.61
Granted	668	40.89
Vested	(549)	31.32
Forfeited	(74)	32.84
Outstanding unvested shares as of June 30, 2014	1,840	\$ 35.02

Equity-based payments to employees, including grants of employee stock options, are recognized in the statements of income based on their fair values.

Employee equity-based compensation pre-tax expense for the three and nine months ended June 30, 2014 and 2013 was as follows:

	Three months ended June 30,		Nine months ended June 30,	
	2014	2013	2014	2013
Cost of service	\$ 4,297	\$ 4,937	\$ 13,220	\$ 14,440
Research and development	880	1,060	2,685	3,060
Selling, general and administrative	5,343	3,870	18,115	14,401

Total	\$	10,520	\$	9,867	\$	34,020	\$	31,901
-------	----	--------	----	-------	----	--------	----	--------

The total income tax benefit recognized in the income statement for stock-based compensation (including restricted shares) for the three months ended June 30, 2014 and 2013, was \$1,292 and \$1,191, respectively, and for the nine months ended June 30, 2014 and 2013, was \$3,954 and \$2,904, respectively.

As of June 30, 2014, there was \$50,055 of unrecognized compensation expense related to unvested stock options and unvested restricted stock awards. The Company recognizes compensation costs using the graded vesting attribution method which results in a weighted average period of approximately one year over which the unrecognized compensation expense is expected to be recognized.

The Company selected the Black-Scholes option pricing model as the most appropriate fair value method for its equity-based awards. The Black-Scholes option pricing model assumptions used are noted in the following table (all in weighted averages for options granted during the period):

	Three months ended June 30,		Nine months ended June 30,	
	2014	2013	2014	2013
Risk-free interest rate (1)	1.46%	0.75%	1.26%	0.69%
Expected life of stock options (2)	4.50	4.50	4.50	4.50
Expected volatility (3)	0.17	0.22	0.18	0.23
Expected dividend yield (4)	1.31%	1.44%	1.47%	1.49%
Fair value per option	\$ 6.44	\$ 5.61	\$ 5.50	\$ 5.77

Table of Contents

- (1) Risk-free interest rate is based upon U.S. Treasury yield curve appropriate for the term of the Company's employee stock options.
 - (2) Expected life of stock options is based upon historical experience.
 - (3) Expected volatility is based on a combination of implied volatility of the Company's traded options and historical stock price volatility (blended volatility).
 - (4) Expected dividend yield is based on the Company's history and future expectation of dividend payouts.
- Equity-based compensation recognized is reduced for estimated forfeitures and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

14. Dividends

The Company's board of directors declared the following dividends during the nine months ended June 30, 2014 and 2013:

Declaration Date	Dividends Per Ordinary Share	Record Date	Total Amount	Payment Date
April 30, 2014	\$ 0.155	June 30, 2014	\$ 24,576	July 18, 2014
January 29, 2014	\$ 0.155	March 31, 2014	\$ 24,799	April 17, 2014
November 5, 2013	\$ 0.130	December 31, 2013	\$ 20,752	January 17, 2014
April 30, 2013	\$ 0.130	June 28, 2013	\$ 20,929	July 19, 2013
January 30, 2013	\$ 0.130	March 28, 2013	\$ 20,927	April 19, 2013
November 6, 2012	\$ 0.130	December 31, 2012	\$ 21,032	January 18, 2013

The amount payable as a result of the April 30, 2014 declaration was included in other current liabilities as of June 30, 2014.

On July 29, 2014, the Company's board of directors approved the next quarterly dividend payment, at the rate of \$0.155 per share, and set September 30, 2014 as the record date for determining the shareholders entitled to receive the dividend, which is payable on October 17, 2014.

15. Contingencies*Legal Proceedings*

The Company is involved in various legal proceedings arising in the normal course of its business. The Company accrues for a loss contingency when it determines that it is more likely than not, after consultation with counsel, that a liability has been incurred and the amount of such loss can be reasonably estimated. At this time, the Company believes that the results of any such contingencies, either individually or in the aggregate, will not have a material adverse effect on the Company's financial position, results of operations or cash flows.

The Company generally offers its products with a limited warranty for a period of 90 days. The Company's policy is to accrue for warranty costs, if needed, based on historical trends in product failure. Based on the Company's experience, only minimal warranty charges have been required after revenue was fully recognized and, as a result, the Company did not accrue any amounts for product warranty liability during the nine months ended June 30, 2014 and 2013.

The Company generally indemnifies its customers against claims of intellectual property infringement made by third parties arising from the use of the Company's software. To date, the Company has incurred and recorded only minimal costs as a result of such obligations in its consolidated financial statements.

This section contains forward-looking statements (within the meaning of the United States federal securities laws) that involve substantial risks and uncertainties. You can identify these forward-looking statements by words such as expect , anticipate , believe , seek , estimate , project , forecast , continue , potential , should , would , and other words that convey uncertainty of future events or outcome. Statements that we make in this document that are not statements of historical fact also may be forward-looking statements. Forward-looking statements are not guarantees of future performance, and involve risks, uncertainties and assumptions that may cause our actual results to differ materially from the expectations that we describe in our forward-looking statements. There may be events in the future that we are not accurately able to predict, or over which we have no control. You should not place undue reliance on forward-looking statements. Although we may elect to update forward-looking statements in the future, we disclaim any obligation to do so, even if our assumptions and projections change, except where applicable law may otherwise require us to do so. Readers should not rely on those forward-looking statements as representing our views as of any date subsequent to the date of this report.

Important factors that may affect these projections or expectations include, but are not limited to: changes in the overall economy; changes in competition in markets in which we operate; changes in the demand for our products and services; consolidation within the industries in which our customers operate; the loss of a significant customer; changes in the telecommunications regulatory environment; changes in technology that impact both the markets we serve and the types of products and services we offer; financial difficulties of our customers; losses of key personnel; difficulties in completing or integrating acquisitions; litigation and regulatory proceedings; and acts of war or terrorism. For a discussion of these important factors and other risks, please read the information set forth under the caption Risk Factors in our Annual Report on Form 20-F for fiscal 2013, filed on December 9, 2013 with the U.S. Securities and Exchange Commission.

Overview of Business and Trend Information

Amdocs is a leading provider of software and services for communications, media and entertainment industry service providers in developed countries and in emerging markets, such as those in the Commonwealth of Independent States, India, Latin America and Southeast Asia.

We develop, implement and manage software and services associated with business support systems (BSS), operational support systems (OSS) and network control and optimization offerings to enable service providers to introduce new products and services quickly, understand their customers more deeply, process orders more efficiently, monetize data and support new business models while controlling costs. We refer to these systems collectively as customer experience systems because of the crucial impact that these systems have on the service providers' end-user experience.

We believe the demand for our customer experience systems is driven by the desire of service providers to help their consumers navigate the increasing number of devices, services and plans available in the connected communications world and the need of service providers to cope with the rapidly growing demand for data that these new devices and services have created. In January 2014, we released Amdocs CES (Customer Experience Systems) 9.1, which introduces new functionality to engage customers through social media channels, features to help support the complete lifecycle of small and medium-sized business customers and support for multi-play, which enables customer-facing activities across multiple systems and channels. These solutions enable service providers to personalize customer experiences based on real-time insight and capitalize on new opportunities. Our acquisitions of

Actix and Celcite provide mobile network optimization solutions and services, enabling us to advance our strategy to deliver an integrated, holistic customer experience from the device to the network. Our goal is to supply scalable products and services that provide the functionality and flexibility to service providers that facilitate innovation and enable cost-effective execution. Regardless of whether providers are bringing their first offerings to market, scaling for growth, consolidating systems or transforming the way they do business, we believe that providers seek to differentiate themselves by delivering a customer experience that is simple, personal and valuable at every point of interaction.

We also offer advertising and media products and services for local marketing service providers, including directory publishers. These offerings enable the management of media selling, fulfillment, operations, consumer experiences and financial processes across digital and print media.

We conduct our business globally, and as a result we are subject to the effects of global economic conditions and, in particular, market conditions in the communications, media and entertainment industry. In the nine months ended June 30, 2014, customers in North America accounted for 72.3% of our revenue, while customers in Europe and the rest of the world accounted for 13.0% and 14.7%, respectively. Customers in emerging markets accounted for 12.1% of our revenue in the nine months ended June 30, 2014. We maintain development facilities in Brazil, Canada, Cyprus, India, Ireland, Israel and the United States.

Table of Contents

We derive our revenue principally from:

the initial sales of licenses to use our products and related services, including modification, implementation, integration and customization services,

providing managed services in our domain expertise and other related services, and

recurring revenue from ongoing support, maintenance and enhancements provided to our customers, and from incremental license fees resulting from increases in a customer's business volume.

Revenue is recognized only when all of the following conditions have been met: (i) there is persuasive evidence of an arrangement; (ii) delivery has occurred; (iii) the fee is fixed or determinable; and (iv) collectibility of the fee is reasonably assured. We usually sell our software licenses as part of an overall solution offered to a customer that combines the sale of software licenses with a broad range of services, which normally include significant customization, modification, implementation and integration. Those services are deemed essential to the software. As a result, we generally recognize initial license fee and related service revenue over the course of these long-term projects, using the percentage of completion method of accounting. Contingent subsequent license fee revenue is recognized upon completion of specified conditions in each contract, based on a customer's subscriber or transaction volume or other measurements when greater than the level specified in the contract for the initial license fee. Revenue from software solutions that do not require significant customization, implementation and modification is recognized upon delivery. Revenue from services that do not involve significant ongoing obligations is recognized as services are rendered. In managed services contracts, we typically recognize revenue from the operation of a customer's system as services are performed based on time elapsed, output produced, volume of data processed or subscriber count, depending on the specific contract terms of the managed services arrangement. Typically, managed services contracts are long-term in duration and are not subject to seasonality. Revenue from ongoing support services is recognized as work is performed.

Revenue from third-party hardware sales is recognized upon delivery and installation and revenue from third-party software sales is recognized upon delivery. Maintenance revenue is recognized ratably over the term of the maintenance agreement.

A significant portion of our revenue is recognized over the course of long-term implementation and integration projects under the percentage of completion method of accounting. When total cost estimates exceed revenues in a fixed-price arrangement, the estimated losses are recognized immediately based upon the cost applicable to the project. The percentage of completion method requires the exercise of judgment on a quarterly basis, such as with respect to estimates of progress-to-completion, contract revenue, loss contracts and contract costs. Progress in completing such projects may significantly affect our annual and quarterly operating results.

Revenue from managed services arrangements (for customer experience systems and advertising and media products, including directory systems) is included in both license and service revenue. Revenue generated in connection with managed services arrangements is a significant part of our business, generating substantial, long-term recurring revenue streams and cash flow. Revenue from managed services arrangements accounted for approximately \$438.0 million and \$417.1 million in the three months ended June 30, 2014 and 2013, respectively, and \$1,293.6 million and \$1,286.7 million in the nine months ended June 30, 2014 and 2013, respectively. In the initial period of our managed services projects, we often invest in modernization and consolidation of the customer's systems. Managed services

engagements can be less profitable in their early stages; however, margins tend to improve over time, more rapidly in the initial period of an engagement, as we derive benefit from the operational efficiencies and from changes in the geographical mix of our resources.

Recent Accounting Standards

In May 2014, the Financial Accounting Standards Board, or FASB, issued an Accounting Standard Update, or ASU, on revenue from contracts with customers, which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. This ASU, which will be effective for us beginning October 1, 2017, allows for either full or modified retrospective methods of adoption and its early adoption is not permitted. We are currently evaluating the method of the adoption, as well as the effect that the adoption of this ASU will have on our consolidated financial statements.

In July 2013, the FASB issued an ASU, under which an entity must present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, in the absence of certain conditions. This ASU will be effective for us on October 1, 2014, and may result in changes in our financial statements presentation but will not affect the substantive content of our consolidated financial statements.

Table of Contents**Adoption of New Accounting Standard**

In February 2013, the FASB issued an ASU to require reclassification adjustments from other comprehensive income to be presented either in the financial statements or in the notes to the financial statements. This ASU became effective for us in the first quarter of fiscal 2014 and its adoption did not have a material impact on our consolidated financial statements.

Results of Operations

The following table sets forth for the three and nine months ended June 30, 2014 and 2013, certain items in our consolidated statements of income reflected as a percentage of total revenue:

Revenue. Total revenue increased by \$162.7 million, or 6.5%, to \$2,663.4 million in the nine months ended June 30, 2014, from \$2,500.6 million in the nine months ended June 30, 2013. The increase in revenue was primarily attributable to increased activity in North America and Europe. The increase in revenue was also positively affected by network optimization activity related to our recent acquisitions of Actix and Celcite.

Total revenue attributable to the sale of customer experience systems increased by \$187.7 million, or 7.9%, to \$2,564.0 million in the nine months ended June 30, 2014, from \$2,376.3 million in the nine months ended June 30, 2013. The increase in revenue was primarily attributable to our increased activity in North America and Europe. The increase in revenue was also positively affected by network optimization activity. Revenue resulting from the sale of customer experience systems represented 96.3% and 95.0% of our total revenue in the nine months ended June 30, 2014 and 2013, respectively.

Total revenue attributable to the sale of directory systems decreased by \$24.9 million, or 20.0%, to \$99.4 million in the nine months ended June 30, 2014, from \$124.3 million in the nine months ended June 30, 2013. The decrease in revenue was primarily attributable to continued slowness in the directory systems market leading to lower revenue from discretionary spending under managed services arrangements for directory systems. Revenue from the sale of directory systems represented 3.7% and 5.0% of our total revenue in the nine months ended June 30, 2014 and 2013, respectively.

In the nine months ended June 30, 2014, revenue from customers in North America, Europe and the rest of the world accounted for 72.3%, 13.0% and 14.7%, respectively, of total revenue, compared to 72.5%, 11.9% and 15.6%, respectively, in the nine months ended June 30, 2013. Revenue from customers in North America increased in absolute amounts during the nine months ended June 30, 2014. This increase, however, was lower than the 6.5% increase in our total revenue, which resulted in a decrease in revenue from North American customers as a percentage of total revenue. The increase in revenue in absolute amounts from customers in North America was primarily attributable to the positive momentum in our relationship with AT&T. The increase in revenue as a percentage of total revenue from customers in Europe was attributable to higher revenue from managed services arrangements. Revenue from customers in the rest of the world decreased as a percentage of total revenue during the nine months ended June 30, 2014 as a result of a slight increase in absolute amounts in revenue from customers in the rest of the world, while total revenue increased at a higher rate.

Cost of License and Service. Cost of license includes fees and royalty payments to software suppliers. Cost of service consists primarily of costs associated with providing services to customers, including compensation expense and costs of third-party products. Cost of license and service increased by \$104.2 million, or 6.4%, to \$1,725.3 million in the nine months ended June 30, 2014, from

Table of Contents

\$1,621.1 million in the nine months ended June 30, 2013. As a percentage of revenue, cost of license and service was 64.8% in each of the nine-month periods ended June 30, 2014 and 2013. In the nine months ended June 30, 2014, gross margin was positively affected because a larger portion of revenue and expense was attributable to customers in developed markets, where we are well-established and generally realize higher margins, which was fully offset by our activities in Asia Pacific and Central and Latin America, where we incurred costs while continuing our penetration efforts in order to expand our business into those markets.

Research and Development. Research and development expense is primarily comprised of compensation expense. Research and development expense increased by \$11.3 million, or 6.3%, to \$190.3 million in the nine months ended June 30, 2014, from \$179.0 million in the nine months ended June 30, 2013. The increase in research and development expense was primarily attributable to network optimization research and development activity. Research and development expense decreased as a percentage of revenue from 7.2% in the nine months ended June 30, 2013, to 7.1% in the nine months ended June 30, 2014. Our research and development efforts are a key element of our strategy and are essential to our success, and we intend to maintain our commitment to research and development. An increase or a decrease in our total revenue would not necessarily result in a proportional increase or decrease in the levels of our research and development expenditures, which could affect our operating margin.

Selling, General and Administrative. Selling, general and administrative expense, which is primarily comprised of compensation expense, increased by \$21.5 million, or 6.9%, to \$335.1 million in the nine months ended June 30, 2014, from \$313.5 million in the nine months ended June 30, 2013. The increase in selling, general and administrative expense was primarily attributable to network optimization activities. Selling, general and administrative expense as a percentage of revenue was 12.5% in the nine months ended June 30, 2013 and 12.6% in the nine months ended June 30, 2014. Selling, general and administrative expense may fluctuate from time to time, depending upon such factors as changes in our workforce and sales efforts and the results of any operational efficiency programs that we may undertake.

Amortization of Purchased Intangible Assets and Other. Amortization of purchased intangible assets and other in the nine months ended June 30, 2014, increased by \$14.8 million to \$43.2 million from \$28.4 million in the nine months ended June 30, 2013. The increase in amortization of purchased intangible assets and other was primarily attributable to an increase in amortization of intangible assets due to amortization charges related to the acquisitions of Actix and Celcite, partially offset by timing of amortization charges of previously purchased intangible assets.

Operating Income. Operating income increased by \$10.9 million, or 3.0%, in the nine months ended June 30, 2014, to \$369.5 million, or 13.9% of revenue, from \$358.7 million, or 14.3% of revenue, in the nine months ended June 30, 2013. The decrease in operating income as a percentage of revenue was primarily attributable to the increase in amortization of purchased intangible assets and other.

Income Taxes. Income taxes for the nine months ended June 30, 2014 were \$43.9 million on pre-tax income of \$365.5 million, resulting in an effective tax rate of 12.0%, compared to 8.6% in the nine months ended June 30, 2013. The increase in the tax rate was primarily attributable to the geographical distribution of earnings from global operations. Our effective tax rate may fluctuate between periods as a result of discrete items that may affect a particular period. Please see Note 9 to our consolidated financial statements.

Net Income. Net income decreased by \$1.9 million, or 0.6%, to \$321.6 million in the nine months ended June 30, 2014, from \$323.5 million in the nine months ended June 30, 2013. The decrease in net income was attributable to the increase in income taxes, partially offset by the increase in operating income.

Diluted Earnings Per Share. Diluted earnings per share increased by \$0.01, or 0.5%, to \$1.99 in the nine months ended June 30, 2014, from \$1.98 in the nine months ended June 30, 2013. The increase in diluted earnings per share was mainly attributable to the decrease in the diluted weighted average number of shares outstanding resulting from our repurchase of ordinary shares, partially offset by stock option exercises.

Revenue. Total revenue increased by \$61.1 million, or 7.3%, to \$902.5 million in the three months ended June 30, 2014, from \$841.3 million in the three months ended June 30, 2013. The increase in revenue was primarily attributable to increased activity in North America and to a lesser extent also to our increased activity in Europe and in the rest of the world. The increase in revenue was also positively affected by network optimization activity.

Total revenue attributable to the sale of customer experience systems increased by \$67.6 million, or 8.4%, to \$870.8 million in the three months ended June 30, 2014, from \$803.2 million in the three months ended June 30, 2013. The increase in revenue was primarily attributable to increased activity in North America and to a lesser extent also to our increased activity in Europe and in the rest of the world. The increase in revenue was also positively affected by network optimization activity. Revenue resulting from the sale of customer experience systems represented 96.5% and 95.5% of our total revenue in the three months ended June 30, 2014 and 2013, respectively.

Total revenue attributable to the sale of directory systems decreased by \$6.4 million, or 16.8%, to \$31.7 million in the three months ended June 30, 2014, from \$38.1 million in the three months ended June 30, 2013. The decrease in revenue was primarily attributable to continued slowness in the directory systems market leading to lower revenue from discretionary spending under managed services arrangements for directory systems. Revenue from the sale of directory systems represented 3.5% and 4.5% of our total revenue in the three months ended June 30, 2014 and 2013, respectively.

In the three months ended June 30, 2014, revenue from customers in North America, Europe and the rest of the world accounted for 71.7%, 12.7% and 15.6%, respectively, of total revenue, compared to 73.6%, 11.6% and 14.8%, respectively, in the three months ended June 30, 2013. Revenue from customers in North America increased in absolute amounts during the three months ended June 30, 2014. This increase, however, was lower than the 7.3% increase in our total revenue, which resulted in a decrease in revenue from North American customers as a percentage of total revenue. The increase in revenue in absolute amounts from customers in North America was primarily attributable to the positive momentum in our relationship with AT&T. The increase in revenue as a percentage of total revenue from customers in Europe was attributable to higher revenue from managed services arrangements. The increase in revenue from customers in the rest of the world as a percentage of total revenue during the three months ended June 30, 2014 was primarily attributable to our increased activity in emerging markets.

Cost of License and Service. Cost of license and service increased by \$37.9 million, or 6.9%, to \$584.6 million in the three months ended June 30, 2014, from \$546.7 million in the three months ended June 30, 2013. As a percentage of revenue, cost of license and service decreased to 64.8% in the three months ended June 30, 2014, from 65.0% in the three months ended June 30, 2013. While

continuing to incur costs in relation to our penetration efforts in order to expand our business into Asia Pacific and Central and Latin America, the increase in our gross margin in the three months ended June 30, 2014 was primarily attributable to a slightly higher level of investment during the three months ended June 30, 2013 related to our activities in those markets.

Research and Development. Research and development expense increased by \$5.3 million, or 8.9%, to \$64.9 million in the three months ended June 30, 2014, from \$59.6 million in the three months ended June 30, 2013. The increase in research and development expense was primarily attributable to network optimization research and development activity. Research and development expense increased as a percentage of revenue from 7.1% in the three months ended June 30, 2013, to 7.2% in the three months ended June 30, 2014.

Selling, General and Administrative. Selling, general and administrative expense increased by \$9.3 million, or 9.0%, to \$112.7 million in the three months ended June 30, 2014, from \$103.4 million in the three months ended June 30, 2013. The increase in selling, general and administrative expense was primarily attributable to network optimization activities. Selling, general and administrative expense as a percentage of revenue was 12.3% in the three months ended June 30, 2013 and 12.4% in the three months ended June 30, 2014. Selling, general and administrative expense may fluctuate from time to time, depending upon such factors as changes in our workforce and sales efforts and the results of any operational efficiency programs that we may undertake.

Amortization of Purchased Intangible Assets and Other. Amortization of purchased intangible assets and other in the three months ended June 30, 2014, increased by \$6.8 million to \$15.3 million from \$8.5 million in the three months ended June 30, 2013. The increase in amortization of purchased intangible assets and other was primarily attributable to an increase in amortization of intangible assets due to amortization charges related to the acquisitions of Actix and Celcite, partially offset by timing of amortization charges of previously purchased intangible assets.

Operating Income. Operating income increased by \$1.8 million, or 1.5%, in the three months ended June 30, 2014, to \$125.0 million, or 13.9% of revenue, from \$123.2 million, or 14.6% of revenue, in the three months ended June 30, 2013. The decrease in operating income as a percentage of revenue was primarily attributable to the increase in amortization of purchased intangible assets and other.

Interest and Other Expense, Net. Interest and other expense, net, decreased by \$2.0 million to \$0.7 million in the three months ended June 30, 2014, from \$2.7 million in the three months ended June 30, 2013. The decrease in interest and other expense, net, was primarily attributable to foreign exchange impacts.

Income Taxes. Income taxes for the three months ended June 30, 2014 were \$14.4 million on pre-tax income of \$124.3 million, resulting in an effective tax rate of 11.6%, compared to 0.7% in the three months ended June 30, 2013. The increase in the tax rate was primarily attributable to changes in our provision for unrecognized tax benefits. Please see Note 9 to our consolidated financial statements. Our effective tax rate may fluctuate between periods as a result of discrete items that may affect a particular period.

Net Income. Net income decreased by \$9.7 million, or 8.1%, to \$109.8 million in the three months ended June 30, 2014, from \$119.6 million in the three months ended June 30, 2013. The decrease in net income was attributable to the increase in income taxes, partially offset by the decrease in interest and other expense, net, and the increase in operating income.

Diluted Earnings Per Share. Diluted earnings per share decreased by \$0.05, or 6.8%, to \$0.68 in the three months ended June 30, 2014, from \$0.73 in the three months ended June 30, 2013. The decrease in diluted earnings per share was primarily attributable to the decrease in net income.

Liquidity and Capital Resources

Cash, Cash Equivalents and Short-Term Interest-Bearing Investments. Cash, cash equivalents and short-term interest-bearing investments, net of short-term debt, totaled \$1.17 billion as of June 30, 2014, compared to \$1.13 billion as of September 30, 2013. The increase was mainly attributable to \$516.4 million in positive cash flow from operations and \$116.0 million of proceeds from stock option exercises, partially offset by \$261.9 million used to repurchase our ordinary shares, \$180.5 million in net cash paid for acquisitions, \$77.9 million for capital expenditures, net and \$66.4 million of cash dividend payments. Net cash provided by operating activities amounted to \$516.4 million and \$438.8 million in the nine months ended June 30, 2014 and 2013, respectively.

Table of Contents

Our policy is to retain sufficient cash balances in order to support our growth. We believe that our current cash balances, cash generated from operations and our current lines of credit will provide sufficient resources to meet our operational needs and to fund share repurchases and the payment of cash dividends for at least the next fiscal year.

As a general long-term guideline, we expect to retain roughly half of our free cash flow (calculated as cash flow from operations less net capital expenditures and other) to support the growth of our business, including possible mergers and acquisitions, and return the other half to our shareholders through share repurchases and dividends. Our actual share repurchase activity and payment of future dividends, if any, may vary quarterly or annually and will be based on several factors including our financial performance, outlook and liquidity.

Our interest-bearing investments are classified as available-for-sale securities. Such short-term interest-bearing investments consist primarily of money market funds, U.S. government treasuries, corporate bonds and U.S. agency securities. We believe we have conservative investment policy guidelines. Our interest-bearing investments are stated at fair value with the unrealized gains or losses reported as a separate component of accumulated other comprehensive income, net of tax, unless a security is other than temporarily impaired, in which case the loss is recorded in the income statement. Our interest-bearing investments are priced by pricing vendors and are classified as Level 1 or Level 2 investments, since these vendors either provide a quoted market price in an active market or use other observable inputs to price these securities. During the nine months ended June 30, 2014 and 2013, we recognized immaterial credit losses. Please see Notes 5 and 6 to the consolidated financial statements.

Revolving Credit Facility, Letters of Credit, Guarantees and Contractual Obligations. In September 2013, we borrowed an aggregate of \$200.0 million under our unsecured \$500 million five-year revolving credit facility with a syndicate of banks and repaid it in October 2013. As of June 30, 2014, we were in compliance with the financial covenants under the revolving credit facility and had no outstanding borrowings under this facility.

As of June 30, 2014, we had additional uncommitted lines of credit available for general corporate and other specific purposes and had outstanding letters of credit and bank guarantees from various banks totaling \$70.5 million.

We have contractual obligations for our non-cancelable operating leases, long-term debt, pension funding, purchase obligations and unrecognized tax benefits summarized in the disclosure of contractual obligations set forth in our Annual Report on Form 20-F for the fiscal year ended September 30, 2013, filed on December 9, 2013 with the SEC. Since September 30, 2013, there have been no material changes in our aggregate contractual obligations.

Capital Expenditures. Generally, 80% to 90% of our capital expenditures consist of purchases of computer equipment, and the remainder is attributable mainly to leasehold improvements. Our capital expenditures were approximately \$77.9 million in the nine months ended June 30, 2014 and were mainly attributable to investments in our operating facilities and our development centers around the world. Our policy is to fund our capital expenditures from operating cash flows and we do not anticipate any changes to this policy in the foreseeable future.

Share Repurchases. From time to time, our board of directors has adopted share repurchase plans authorizing the repurchase of our outstanding ordinary shares. Our current share repurchase plan authorizes the repurchase of up to \$500.0 million of our outstanding ordinary shares with no expiration date. In the nine months ended June 30, 2014, we repurchased 6.1 million ordinary shares at an average price of \$43.23 per share (excluding broker and transaction fees). As of June 30, 2014, we had remaining authority to repurchase up to \$74.0 million of our outstanding ordinary shares. In April 2014, our board of directors adopted another share repurchase plan authorizing the repurchase of up to \$750.0 million of our outstanding ordinary shares. The April 2014 plan has no expiration date. Each one of the share repurchase plans permits us to purchase our ordinary shares in open market or privately negotiated transactions at times and prices that we consider appropriate.

Cash Dividends. Our board of directors declared the following dividends during the nine months ended June 30, 2014 and 2013:

Declaration Date	Dividends Per Ordinary Share	Record Date	Total Amount (In millions)	Payment Date
April 30, 2014	\$ 0.155	June 30, 2014	\$ 24.6	July 18, 2014
January 29, 2014	\$ 0.155	March 31, 2014	\$ 24.8	April 17, 2014
November 5, 2013	\$ 0.130	December 31, 2013	\$ 20.8	January 17, 2014
April 30, 2013	\$ 0.130	June 28, 2014	\$ 20.9	July 19, 2013
January 30, 2013	\$ 0.130	March 28, 2013	\$ 20.9	April 19, 2013
November 6, 2012	\$ 0.130	December 31, 2012	\$ 21.0	January 18, 2013

Table of Contents

On July 29, 2014, our board of directors approved the next quarterly dividend payment, at the rate of \$0.155 per share, and set September 30, 2014 as the record date for determining the shareholders entitled to receive the dividend, which is payable on October 17, 2014.

Currency Fluctuations

We manage our foreign subsidiaries as integral direct components of our operations. The operations of our foreign subsidiaries provide the same type of services with the same type of expenditure throughout the Amdocs group. The U.S. dollar is our functional currency according to the salient economic factors as indicated in the authoritative guidance for foreign currency matters.

During the nine months ended June 30, 2014 and 2013, approximately 70% to 80% of our revenue and approximately 50% to 60% of our operating expenses were in U.S. dollars or linked to the U.S. dollar. If more customers will seek contracts in currencies other than the U.S. dollar and as our operational activities outside of the United States may increase, the percentage of our revenue and operating expenses in U.S. dollar or linked to the U.S. dollar may decrease over time, which may increase our exposure to fluctuations in currency exchange rates. In managing our foreign exchange risk, we enter from time to time into various foreign exchange hedging contracts. We do not hedge all of our exposure in currencies other than the U.S. dollar, but rather our policy is to hedge significant net exposures in the major foreign currencies in which we operate. We periodically assess the applicability of the U.S. dollar as our functional currency by reviewing the salient indicators.

- (1) In November 2012, our board of directors adopted a share repurchase plan authorizing the repurchase of up to \$500.0 million of our outstanding ordinary shares, which has no expiration date. In April 2014, our board of directors adopted another share repurchase plan authorizing the repurchase of up to \$750.0 million of our outstanding ordinary shares. The April 2014 plan has no expiration date. Each one of the share repurchase plans permits us to purchase our ordinary shares in open market or privately negotiated transactions at times and prices we consider appropriate.

Convertible Notes

In April 2014, the holders of our 0.50% senior convertible notes due 2024 tendered to us for repurchase \$0.4 million principal amount of the \$1.0 million aggregate principal amount then outstanding and we repurchased the tendered notes for cash. We funded these repurchases using cash on hand. As of June 30, 2014, \$0.6 million principal amount of the notes remained as our obligations in accordance with their terms.
