### **UMB FINANCIAL CORPORATION**

### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

### **1. Financial Statement Presentation**

The consolidated financial statements include the accounts of UMB Financial Corporation and its subsidiaries (collectively, the Company) after elimination of all intercompany transactions. In the opinion of management of the Company, all adjustments, which were of a normal recurring nature and necessary for a fair presentation of the financial position and results of operations, have been made. The results of operations and cash flows for the interim periods presented may not be indicative of the results of the full year. The financial statements should be read in conjunction with Management s Discussion and Analysis of Financial Condition and Results of Operations within this Form 10-Q filing and in conjunction with the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

### 2. Summary of Significant Accounting Policies

The Company is a financial holding company, which offers a wide range of banking and other financial services to its customers through its branches and offices in the states of Missouri, Kansas, Colorado, Illinois, Oklahoma, Texas, Arizona, Nebraska, Pennsylvania, South Dakota, Indiana, Utah, and Wisconsin. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. These estimates and assumptions also impact reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. A summary of the significant accounting policies to assist the reader in understanding the financial presentation is listed in the Notes to Consolidated Financial Statements in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

### Cash and cash equivalents

Cash and cash equivalents include Cash and due from banks and amounts due from the Federal Reserve Bank. Amounts due from the Federal Reserve Bank are interest-bearing for all periods presented and are included in the Interest-bearing due from banks line on the Company s Consolidated Balance Sheets.

This table provides a summary of cash and cash equivalents as presented on the Consolidated Statement of Cash Flows as of September 30, 2014 and September 30, 2013 (*in thousands*):

	Septem	September 30,				
	2014	2013				
Due from the Federal Reserve	\$ 824,264	\$ 1,335,590				
Cash and due from banks	395,956	604,592				
Cash and cash equivalents at end of period	\$1,220,220	\$ 1,940,182				

Also included in the Interest-bearing due from banks line, but not considered cash and cash equivalents are amounts due from certificates of deposits held at other financial institutions. The amounts due from certificates of deposit totaled \$157.3 million and \$22.3 million at September 30, 2014 and September 30, 2013, respectively.

### Per Share Data

Basic income per share is computed based on the weighted average number of shares of common stock outstanding during each period. Diluted quarterly per share data includes the dilutive effect of 551,674 and 650,028 shares issuable upon the exercise of options granted by the Company and outstanding at September 30, 2014 and 2013, respectively. Diluted year-to-date income per share includes the dilutive effect of 601,260 and 544,930 shares issuable upon the exercise of stock options granted by the Company and outstanding at September 30, 2014 and 2013, respectively.

### **UMB FINANCIAL CORPORATION**

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS *(CONTINUED)* FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

Options issued under employee benefits plans to purchase 250,911 shares of common stock were outstanding at September 30, 2014, but were not included in the computation of quarter-to-date diluted EPS because the options were anti-dilutive. Options issued under employee benefit plans to purchase 250,911 and 270,839 shares of common stock were outstanding at September 30, 2014 and 2013, respectively, but were not included in the computation of year-to-date diluted EPS because the options were anti-dilutive.

### **Common Stock Issuance**

On September 16, 2013, the Company completed the issuance of 3.9 million shares of common stock with net proceeds of \$201.2 million to be used for strategic growth purposes. In addition, UMB granted the underwriters a 30-day option to purchase up to an additional 585,000 shares of common stock. On October 17, 2013, the underwriters exercised the option of 585,000 shares, which generated additional net proceeds of \$30.2 million.

### 3. New Accounting Pronouncements

**Investment Companies** In June 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2013-08, Amendments to the Scope, Measurement, and Disclosure Requirements for investment companies. The amendments changed the assessment of whether an entity is an investment company by requiring an entity to possess certain fundamental characteristics, while allowing judgment in assessing other typical characteristics. The ASU was effective January 1, 2014, and the Company did not change the status of any subsidiary, or the accounting applied to a subsidiary, under the new guidelines.

Accounting for Investments in Qualified Affordable Housing Projects In January 2014, the FASB issued ASU No. 2014-01, Accounting for Investments in Qualified Affordable Housing Projects. The amendments permit reporting entities to make an accounting policy election to account for their investments in qualified affordable housing projects using the proportional amortization method if certain conditions are met. Regardless of whether the reporting entity chooses to elect the proportional amortization method, this ASU introduces new recurring disclosures about all investments in qualified affordable housing projects. The ASU is effective for interim and annual reporting periods beginning after December 15, 2014. The adoption of this accounting pronouncement will not have a significant impact on the Company s financial statements or financial statement disclosures.

### Reclassification of Residential Real Estate Loans In January 2014, the FASB issued ASU No. 2014-04,

Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure. The amendment is intended to reduce diversity in practice by clarifying when an in substance repossession or foreclosure occurs, that is, when a creditor should be considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loans such that the loan receivable should be derecognized and the real stated property recognized. The amendments in this update are effective for interim and annual periods beginning after December 15, 2014. The adoption of this accounting pronouncement will not have a significant impact on the Company s consolidated financial statements.

**Revenue Recognition** In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. The issuance is part of a joint effort by the FASB and the International Accounting Standards Board (IASB) to enhance financial reporting by creating common revenue recognition guidance for U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS) and, thereby, improving the consistency of requirements, comparability of practices and usefulness of disclosures. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The amendments in this update are effective for interim and annual periods beginning after December 15, 2016. Early application is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is currently evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

**Repurchase-to-Maturity Transactions** In June 2014, the FASB issued ASU No. 2014-11, Repurchase-to-Maturity Transactions, Repurchased Financings, and Disclosures. The amendment changes the accounting for repurchase-to-maturity transactions and linked repurchase financings to secured borrowing accounting, which is consistent with accounting for other repurchase agreements. Additionally, the amendment requires new disclosures on transfers accounted for as sales in transactions that are economically similar to repurchase agreements and

### **UMB FINANCIAL CORPORATION**

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS *(CONTINUED)* FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

requires increased transparency on collateral pledged in secured borrowings. The amendments in this update are effective for interim and annual periods beginning after December 15, 2014. Early application is not permitted. The Company is currently evaluating the effect that ASU 2014-11 will have on its consolidated financial statements and related financial statement disclosures.

**Stock Compensation** In June 2014, the FASB issued ASU No. 2014-12, Accounting for Share-Based Payments When the Terms of an Award Provide that a Performance Target could be Achieved after the Requisite Service Period. The amendment is intended to reduce diversity in practice by clarifying that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. The amendments in this update are effective for interim and annual periods beginning after December 15, 2015 with early adoption permitted. The adoption of this accounting pronouncement will not have a significant impact on the Company s consolidated financial statements.

**Troubled Debt Restructurings by Creditors** In August 2014, the FASB issued ASU No. 2014-14, Classification of Certain Government-Guaranteed Mortgage Loans upon Foreclosure. The amendment is intended to reduce diversity in practice in the classification of mortgage loans extended under certain government-sponsored loan guarantee programs, such as those offered by the Federal Housing Administration (FHA) and the Department of Veterans Affairs (VA), that entitle the creditor to recover all or a portion of the unpaid principal balance from the government if a borrower defaults. This update requires government-guaranteed mortgage loans that meet certain criteria to be derecognized and a separate receivable be recognized upon foreclosure. The amendments in this update are effective for interim and annual periods beginning after December 15, 2014. The adoption of this accounting pronouncement will not have a significant impact on the Company s consolidated financial statements.

**Going Concern** In August 2014, the FASB issued ASU No. 2014-15, Disclosure of Uncertainties about an Entity s Ability to Continue as a Going Concern. The amendment addresses management s responsibility in regularly evaluating whether there is substantial doubt about a company s ability to continue as a going concern. The amendments in this update are effective for the annual period ending after December 15, 2016, and for annual and interim periods thereafter, although early adoption is permitted. The adoption of this accounting pronouncement will not have a significant impact on the Company s consolidated financial statements.

### 4. Loans and Allowance for Loan Losses

### Loan Origination/Risk Management

The Company has certain lending policies and procedures in place that are designed to minimize the level of risk within the loan portfolio. Diversification of the loan portfolio manages the risk associated with fluctuations in economic conditions. The Company maintains an independent loan review department that reviews and validates the risk assessment on a continual basis. Management regularly evaluates the results of the loan reviews. The loan review process complements and reinforces the risk identification and assessment decisions made by lenders and credit personnel, as well as the Company s policies and procedures.

Commercial loans are underwritten after evaluating and understanding the borrower s ability to operate profitably and prudently expand its business. Commercial loans are made based on the identified cash flows of the borrower and on the underlying collateral provided by the borrower. The cash flows of the borrower, however, may not be as expected and the collateral securing these loans may fluctuate in value. Most commercial loans are secured by the assets being financed or other business assets such as accounts receivable or inventory and may incorporate a personal guarantee. In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrower to collect amounts from its customers. Commercial credit cards are generally unsecured and are underwritten with criteria similar to commercial loans including an analysis of the borrower s cash flow, available business capital, and overall credit-worthiness of the borrower.

Commercial real estate loans are subject to underwriting standards and processes similar to commercial loans, in addition to those of real estate loans. These loans are viewed primarily as cash flow loans and secondarily as loans secured by real estate. Commercial real estate lending typically involves higher loan principal amounts, and the repayment of these loans is largely dependent on the successful operation of the property securing the loan or the business conducted on the property securing the loan. The Company requires an appraisal of the collateral be made at origination and on an as-needed basis, in conformity with current market conditions and regulatory requirements. The underwriting standards address both owner and non-owner occupied real estate.

### **UMB FINANCIAL CORPORATION**

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

Construction loans are underwritten using feasibility studies, independent appraisal reviews, sensitivity analysis or absorption and lease rates and financial analysis of the developers and property owners. Construction loans are based upon estimates of costs and value associated with the complete project. Construction loans often involve the disbursement of substantial funds with repayment substantially dependent on the success of the ultimate project. Sources of repayment for these types of loans may be pre-committed permanent loans, sales of developed property or an interim loan commitment from the Company until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risks than other real estate loans due to their repayment being sensitive to interest rate changes, governmental regulation of real property, economic conditions, and the availability of long-term financing.

Underwriting standards for residential real estate and home equity loans are based on the borrower s loan-to-value percentage, collection remedies, ability to repay, and overall credit history.

Consumer loans are underwritten based on the borrower s repayment ability. The Company monitors delinquencies on all of its consumer loans and leases and periodically reviews the distribution of FICO scores relative to historical periods to monitor credit risk on its credit card loans. The underwriting and review practices combined with the relatively small loan amounts that are spread across many individual borrowers, minimizes risk. Consumer loans and leases that are 90 days past due or more are considered non-performing.

### **UMB FINANCIAL CORPORATION**

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

### FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

The Company sold \$51.9 million and \$103.4 million of residential real estate and student loans in the secondary market without recourse during the nine-month periods ended September 30, 2014 and September 30, 2013, respectively.

The Company has ceased the recognition of interest on loans with a carrying value of \$32.7 million and \$30.7 million at September 30, 2014 and December 31, 2013, respectively. Restructured loans totaled \$10.2 million and \$12.1 million at September 30, 2014 and December 31, 2013, respectively. Loans 90 days past due and still accruing interest amounted to \$4.7 million and \$3.2 million at September 30, 2014 and December 31, 2013, respectively. Loans 90 days past due and still accruing interest amounted to \$4.7 million and \$3.2 million at September 30, 2014 and December 31, 2013, respectively. There was an insignificant amount of interest recognized on impaired loans during 2014 and 2013.

### **Credit Quality Indicators**

As part of the on-going monitoring of the credit quality of the Company s loan portfolio, management tracks certain credit quality indicators including trends related to the risk grading of specified classes of loans, net charge-offs, non-performing loans, and general economic conditions.

The Company utilizes a risk grading matrix to assign a rating to each of its commercial, commercial real estate, and construction real estate loans. The loan rankings are summarized into the following categories: Non-watch list, Watch, Special Mention, and Substandard. Any loan not classified in one of the categories described below is considered to be a Non-watch list loan. The loans in any of the three categories below are considered to be a criticized loan. A description of the general characteristics of the loan ranking categories is as follows:

**Watch** This rating represents credit exposure that presents higher than average risk and warrants greater than routine attention by Company personnel due to conditions affecting the borrower, the borrower s industry or the economic environment. These conditions have resulted in some degree of uncertainty that results in higher than average credit risk.

**Special Mention** This rating reflects a potential weakness that deserves management s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or the institution s credit position at some future date. The rating is not adversely classified and does not expose an institution to sufficient risk to warrant adverse classification.

**Substandard** This rating represents an asset inadequately protected by the financial worth and paying capacity of the borrower or of the collateral pledged, if any. Assets so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. Loans in this category are characterized by the distinct possibility that the bank will sustain some loss if the deficiencies are

not corrected. Loss potential, while existing in the aggregate amount of substandard assets, does not have to exist in individual assets classified substandard. This category may include loans where the collection of full principal and interest is doubtful or remote.

All other classes of loans are generally evaluated and monitored based on payment activity. Non-performing loans include restructured loans on non-accrual and all other non-accrual loans.

### **UMB FINANCIAL CORPORATION**

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

### Allowance for Loan Losses

The allowance for loan losses is a reserve established through a provision for loan losses charged to expense, which represents management s judgment of inherent probable losses within the Company s loan portfolio as of the balance sheet date. The allowance is necessary to reserve for estimated loan losses and risks inherent in the loan portfolio. Accordingly, the methodology is based on historical loss trends. The Company s process for determining the appropriate level of the allowance for loan losses is designed to account for credit deterioration as it occurs. The provision for probable loan losses reflects loan quality trends, including the levels of and trends related to non-accrual loans, past due loans, potential problem loans, criticized loans and net charge-offs or recoveries, among other factors.

The level of the allowance reflects management s continuing evaluation of industry concentrations, specific credit risks, loan loss experience, current loan portfolio quality, present economic, political and regulatory conditions and estimated losses inherent in the current loan portfolio. Portions of the allowance may be allocated for specific loans; however, the entire allowance is available for any loan that, in management s judgment, should be charged off. While management utilizes its best judgment and information available, the adequacy of the allowance is dependent upon a variety of factors beyond the Company s control, including, among other things, the performance of the Company s loan portfolio, the economy, changes in interest rates and changes in the regulatory environment.

The Company s allowance for loan losses consists of specific valuation allowances and general valuation allowances based on historical loan loss experience for similar loans with similar characteristics and trends, general economic conditions and other qualitative risk factors both internal and external to the Company.

The allowances established for probable losses on specific loans are based on a regular analysis and evaluation of impaired loans. Loans are classified based on an internal risk grading process that evaluates the obligor s ability to repay, the underlying collateral, if any, and the economic environment and industry in which the borrower operates. When a loan is considered impaired, the loan is analyzed to determine the need, if any, to specifically allocate a portion of the allowance for loan losses to the loan. Specific valuation allowances are determined by analyzing the borrower s ability to repay amounts owed, collateral deficiencies, the relative risk ranking of the loan and economic conditions affecting the borrower s industry.

General valuation allowances are calculated based on the historical loss experience of specific types of loans including an evaluation of the time span and volume of the actual charge-off. The Company calculates historical loss ratios for pools of similar loans with similar characteristics based on the proportion of actual charge-offs experienced to the total population of loans in the pool. The historical loss ratios are updated based on actual charge-off experience. A valuation allowance is established for each pool of similar loans based upon the product of the historical loss ratio, time span to charge-off, and the total dollar amount of the loans in the pool. The Company s pools of similar loans include similarly risk-graded groups of commercial loans, commercial real estate loans, commercial credit card, home equity loans, consumer real estate loans and consumer and other loans. The Company also considers a loan migration analysis for criticized loans. This analysis includes an assessment of the probability that a loan will move to a loss position based on its risk rating. The consumer credit card pool is evaluated based on delinquencies and credit scores.

In addition, a portion of the allowance is determined by a review of qualitative factors by management.

### FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

### **Troubled Debt Restructurings**

A loan modification is considered a troubled debt restructuring (TDR) when a concession had been granted to a debtor experiencing financial difficulties. The Company s modifications generally include interest rate adjustments, principal reductions, and amortization and maturity date extensions. These modifications allow the debtor short-term cash relief to allow them to improve their financial condition. The Company s restructured loans are individually evaluated for impairment and evaluated as part of the allowance for loan losses as described above in the Allowance for Loan Losses section of this note.

The Company had \$428 thousand in commitments to lend to borrowers with loan modifications classified as TDR s as of September 30, 2014. The Company made no TDR s in the last 12 months that had payment defaults for the three or nine-month periods ended September 30, 2014.

This table provides a summary of loans restructured by class during the three and nine months ended September 30, 2014 (*in thousands*):

Total	\$6,814,712	\$ 51,414	\$ (103,715)	\$6,762,411

The following table presents contractual maturity information for securities available for sale at September 30, 2014 *(in thousands):* 

Amortized Fair

	Cost	Value
Due in 1 year or less	\$ 466,001	\$ 467,789
Due after 1 year through 5 years	2,299,824	2,311,028
Due after 5 years through 10 years	687,956	696,024
Due after 10 years	120,593	118,589
Total	3,574,374	3,593,430
Mortgage-backed securities	3,182,642	3,166,373
Total securities available for sale	\$6,757,016	\$6,759,803

Securities may be disposed of before contractual maturities due to sales by the Company or because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

For the nine months ended September 30, 2014, proceeds from the sales of securities available for sale were \$410.6 million compared to \$678.5 million for the same period in 2013. Securities transactions resulted in gross realized gains of \$4.1 million and \$8.8 million for the nine months ended September 30, 2014 and 2013. The gross realized losses for the nine months ended September 30, 2014 and 2013 were \$11 thousand and \$220 thousand, respectively.

Securities available for sale with a market value of \$5.1 billion at September 30, 2014, and \$5.9 billion at December 31, 2013, were pledged to secure U.S. Government deposits, other public deposits, certain trust deposits as required by law, and other potential borrowings. Of this amount, securities with a market value of \$1.4 billion at September 30, 2014 and \$1.7 billion at December 31, 2013 were pledged at the Federal Reserve Discount Window but were unencumbered as of those dates.

### **UMB FINANCIAL CORPORATION**

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

### FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

The following table shows the Company s available for sale investments gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at September 30, 2014 and December 31, 2013 (*in thousands*):

	Less than 12 months Unrealized		12 months	s or more Unrealized	Total Unrealized

The unrealized losses in the Company s investments in U.S. treasury obligations, U.S. agencies, federal agency mortgage-backed securities, municipal securities, and corporates were caused by changes in interest rates. The Company does not have the intent to sell these securities and does not believe it is more likely than not that the Company will be required to sell these securities before a recovery of amortized cost. The Company expects to recover its cost basis in the securities and does not consider these investments to be other-than-temporarily impaired at

September 30, 2014.

## Securities Held to Maturity

The table below provides detailed information for securities held to maturity at September 30, 2014 and December 31, 2013 *(in thousands):* 

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
<u>September 30, 2014</u>				
State and political subdivisions	\$ 237,961	\$ 32,329	\$	\$ 270,290
<u>December 31, 2013</u>				
State and political subdivisions	\$ 209,770	\$ 21,740	\$	\$231,510

### **UMB FINANCIAL CORPORATION**

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

### FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

The following table presents contractual maturity information for securities held to maturity at September 30, 2014 (*in thousands*):

		ortized Cost		air lue
Due in 1 year or less	\$	46	\$	52
Due after 1 year through 5 years		26,650	30	0,271
Due after 5 years through 10 years	1	32,268	150	0,238
Due after 10 years		78,997	89	9,729
Total securities held to maturity	\$ 2	37,961	\$270	0,290

Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

There were no sales of securities held to maturity during the first nine months of 2014 or 2013.

### **Trading Securities**

The net unrealized gains on trading securities at September 30, 2014 and September 30, 2013 were \$38.9 thousand and \$14.0 thousand, respectively, and were included in trading and investment banking income on the consolidated statements of income.

#### **Federal Reserve Bank Stock and Other Securities**

The table below provides detailed information for Federal Reserve Bank stock and other securities at September 30, 2014 and December 31, 2013 (*in thousands*):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
<u>September 30, 2014</u>				
Federal Reserve Bank stock	\$ 16,279	\$	\$	\$ 16,279
Other securities marketable		19,472		19,472
Other securities non-marketable	29,839	5,602		35,441
Total Federal Reserve Bank stock and other	\$ 46,118	\$ 25,074	\$	\$ 71,192

<u>December 31, 2013</u>				
Federal Reserve Bank stock	\$ 16,279	\$	\$	\$ 16,279
Other securities marketable	20	16,612		16,632
Other securities non-marketable	17,139	432		17,571
Total Federal Reserve Bank stock and other	\$ 33,438	\$ 17,044	\$	\$ 50,482

Federal Reserve Bank stock is based on the capital structure of the investing bank and is carried at cost. Other marketable and non-marketable securities include Prairie Capital Management alternative investments in hedge funds and private equity funds, which are accounted for as equity-method investments. The fair value of other marketable securities includes alternative investment securities of \$19.5 million at September 30, 2014 and \$16.6 million at December 31, 2013. The fair value of other non-marketable securities includes alternative investment securities of \$10.2 million at September 30, 2014 and \$4.7 million at December 31, 2013. Unrealized gains or losses on alternative investments are recognized in the Equity Earnings on Alternative Investments line of the Company s Consolidated Statements of Income.

### **UMB FINANCIAL CORPORATION**

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

### 7. Commitments, Contingencies and Guarantees

In the normal course of business, the Company is party to financial instruments with off-balance-sheet risk in order to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments include commitments to extend credit, commercial letters of credit, standby letters of credit, futures contracts, forward foreign exchange contracts and spot foreign exchange contracts. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the consolidated balance sheet. The contract or notional amount of those instruments reflects the extent of involvement the Company has in particular classes of financial instruments. Many of the commitments expire without being drawn upon, therefore, the total amount of these commitments does not necessarily represent the future cash requirements of the Company.

The Company s exposure to credit loss in the event of nonperformance by the counterparty to the financial instruments for commitments to extend credit, commercial letters of credit, and standby letters of credit is represented by the contract or notional amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments.

The following table summarizes the Company s off-balance sheet financial instruments.

### **Contract or Notional Amount** (in thousands):

	Sej	ptember 30, 2014	De	cember 31, 2013
Commitments to extend credit for loans (excluding				
credit card loans)	\$	3,167,398	\$	2,690,268

Standby letters of credit		374,109		356,054
Forward foreign exchange contracts		66,939		21,525
Spot foreign exchange contracts		1,425		8,001

### **UMB FINANCIAL CORPORATION**

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS *(CONTINUED)* FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2014 (UNAUDITED)

### 8. Business Segment Reporting

The Company has strategically aligned its operations into the following four reportable segments (collectively, Business Segments): Bank, Payment Solutions, Institutional Investment Management, and Asset Servicing. Business segment financial results produced by the Company s internal management reporting system are evaluated regularly by senior executive officers in deciding how to allocate resources and assess performance for individual Business Segments. The management reporting system assigns balance sheet and income statement items to each business segment using methodologies that are refined on an ongoing basis. For comparability purposes, amounts in all periods presented are based on methodologies in effect at September 30, 2014. Previously reported results have been reclassified to conform to the current organizational structure.

The following summaries provide information about the activities of each segment:

The *Bank* provides a full range of banking services to commercial, retail, government and correspondent bank customers through the Company s branches, call center, internet banking, and ATM network. Services include traditional commercial and consumer banking, treasury management, leasing, foreign exchange, merchant bankcard, wealth management, brokerage, insurance, capital markets, investment banking, corporate trust, and correspondent banking.

*Payment Solutions* provides consumer and commercial credit and debit card, prepaid debit card solutions, healthcare services, and institutional cash management. Healthcare services include health savings account and flexible savings account products for healthcare providers, third-party administrators and large employers.

*Institutional Investment Management* provides equity and fixed income investment strategies in the intermediary and institutional markets via mutual funds, traditional separate accounts and sub-advisory relationships.

*Asset Servicing* provides services to the asset management industry, supporting a range of investment products, including mutual funds, alternative investments and managed accounts. Services include fund administration, fund accounting, investor services, transfer agency, distribution, marketing, custody, alternative investment services, and collective and multiple-series trust services.
