REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Audit Committee of

The Progressive Corporation

Cleveland, Ohio

We have audited the accompanying Statement of Net Assets Available for Benefits of The Progressive 401(k) Plan (the Plan) as of December 31, 2014 and 2013, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The supplemental Schedule of Assets Held for Investment Purposes at End of Year as of December 31, 2014 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

The Progressive 401(k) Plan

December 31, 2014 and 2013

1 Description of the Plan

General:

The Progressive 401(k) Plan (the Plan) is designed to encourage employee savings and provide benefits upon an employee's retirement, death, disability or termination of employment.

All employees of The Progressive Corporation (the Company) and certain of its subsidiaries that have adopted the Plan, who have met certain requirements, are eligible to participate in the Plan beginning 31 calendar days after the date of employment (Covered Employee).

Contributions:

Participants may contribute to the Plan, on a pre-tax or post-tax basis, any combination up to 99.98% of eligible compensation. However, participants who are classified as highly compensated employees under federal tax law are subject to contribution limits that may vary from year to year. Participant contributions are matched 100% by the Company dollar-for-dollar up to 6% of participants' eligible compensation. Company contributions are payable out of net profits.

Various Internal Revenue Code regulations concerning both employee and Company contributions may limit the contribution amounts defined above. The Company has the right to limit these contributions to conform to applicable regulations.

Vesting:

The portion of the participant's account in the Plan attributable to the participant's own contributions, including earnings thereon, vests immediately. Each participant is 100% vested in the Company's matching contributions made on or after January 1, 2009. Prior to January 1, 2009, each participant's interest in the Company's matching contributions vests under the following schedule, based on years of service:

Years of Service	Percentage
1	25%
2	50%
3	75%
4	100%

Company matching contributions for contributions prior to January 1, 2009 immediately vest if a participant reaches age 65, becomes disabled or dies while employed by the Company.

Required Net Market Valuation Adjustments	1,891	7,739
Dividends	60	406
Ending Forfeiture Balance	\$ 8,136	\$ 152

Investment Options for Company Match:

Company matching contributions are invested according to participants' elections.

Notes Receivable from Participants:

Participants may borrow up to 50% of their total vested account balance from a minimum of \$1,000 up to a maximum of \$50,000. Two loans may be outstanding at one time. The highest outstanding balance for prior loans plus any new loans may not exceed \$50,000 in a 12-month period. Loan repayment periods range from one to four years. The loans are secured by the balance in the participant's account and bear interest at the same rate throughout the life of the loan.

At the beginning of each calendar quarter, the interest rate applied to new loans during that quarter is set at 1% above the prime rate. This interest rate remains constant over the life of the loan. Principal and interest are paid through bi-weekly payroll deductions. A \$35 loan initiation fee and a quarterly maintenance fee of \$3.75 are deducted from the participant's account for each new loan.

Loan repayments may be suspended for up to one year in case of an approved leave of absence. Loans to participants on a leave of absence due to a Qualified Military Leave will be automatically suspended for the period of the Qualified Military Leave.

Participants who terminate employment at the time a loan is outstanding may arrange with the Administrator to continue to repay the loan through automatic or electronic withdrawals or debits from a financial institution known as ACH debits.

The Progressive 401(k) Plan

December 31, 2014 and 2013

1 Description of the Plan, Continued

General:

Self-Directed Retirement Plan (discontinued effective January 1, 2009)

The primary purpose of the SDRP was to provide benefits upon a participant's or former participant's retirement, death, disability or termination of employment.

Prior to January 1, 2009, all employees of the Company and certain of its subsidiaries that had adopted the Plan were eligible to participate in the Plan as of the entry date coincident with or immediately following the date such covered employee completed one year of service, had 1,000 hours of service within a service year and had attained age twenty-one (21).

Contributions:

The SDRP provided for the following contribution rates by the Company for employees who met the age and service requirements.

Contribution Rate	Length of Service
1%	One year but less than five years
2%	Five years but less than ten years
3%	Ten years but less than fifteen years
4%	Fifteen years but less than twenty years
5%	Twenty years or more

Contribution rates were applied to eligible compensation not exceeding the social security wage base.

Vesting:

SDRP contributions made before January 1, 2007 and any earnings on those contributions became 100% vested after completing 5 full years of service. Effective January 1, 2007, Progressive adopted a new vesting schedule for the SDRP. SDRP contributions made after December 31, 2006 and any earnings on those contributions became 100% vested after 3 full years of service.

SDRP contributions vested earlier if while employed by the Company, a participant retired at age 65, became permanently and totally disabled or died.

2 Summary of Significant Accounting Policies***Use of Estimates and Basis of Accounting:***

The accompanying financial statements have been prepared on an accrual basis of accounting in accordance with generally accepted accounting principles (GAAP).

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported and the accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

At the close of business on June 3, 2013, the Vanguard Institutional Index Fund Institutional Shares were moved to the Vanguard Institutional Index Fund Institutional Plus Shares.

NOTES TO FINANCIAL STATEMENTS

The Progressive 401(k) Plan

December 31, 2014 and 2013

2 Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued:

The Fidelity Managed Income Portfolio II investment objective is to seek preservation of capital and a competitive level of income over time. To achieve its investment objective, the Portfolio invests in underlying assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and maintains a wrapper contract issued by a third-party. Fidelity Management Trust Company (FMTC) seeks to minimize the exposure of the Portfolio to credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The Portfolio's ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations.

The fair value of investments in wrap contracts is determined using a discounted cash flow model which considers recent fee bids from recognized dealers, discount rate and the duration of the underlying portfolio of securities. The dealers may consider the following in the bid process: size of the portfolio, performance of the underlying portfolio, and the fair value to contract value ratio. For purposes of benefit responsive withdrawals, investments in wrap contracts are valued at contract value, which could be more or less than fair value. These investment contracts provide for benefit responsive withdrawals at contract value including those instances when, in connection with wrap contracts, underlying investment securities are sold to fund normal benefit payments prior to the maturity of such contracts.

The investment contract and fixed income security commitments are backed solely by the financial resources of the issuer. Participant withdrawals and exchanges are paid at book value (principal and interest accrued to date) during the term of the contract. However, withdrawals prompted by certain events (e.g., the Plan's disqualification under the Internal Revenue Code, substantive Portfolio modification not consented to by the wrap issuer, establishment of another Employer plan that competes with the Plan for employee contributions, etc.) may be paid at market value, which may be less than book value. The portfolio strives to maintain a \$1 unit price, but cannot guarantee that it will be able to do so, and its yield will fluctuate.

The fair value of the Fidelity Managed Income Portfolio II investment contract at December 31, 2014 and 2013, was \$197,505,942 and \$195,515,166, respectively. The average yield was 1.70% and 1.59% and the crediting interest rate was 1.38% and 1.14% for 2014 and 2013, respectively. The crediting interest rate for this investment contract is reset annually by the issuer but cannot be less than zero.

The investment in The Progressive Corporation Stock Fund is valued at the last reported trade price on the New York Stock Exchange on the last business day of the year. Investments in the Brokerage Accounts are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

NOTES TO FINANCIAL STATEMENTS

The Progressive 401(k) Plan

December 31, 2014 and 2013

2 Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued:

Investment securities are exposed to various risks such as interest rate, market, credit and liquidity risks. Market values of securities fluctuate based on the nature and magnitude of changing market conditions; significant changes in market conditions could materially affect the Plan's investments.

Security transactions in The Progressive Corporation Stock Fund are recorded on a trade date basis. All other security transactions are recorded on a settlement date basis. The use of a transaction or trade date basis would not have a material effect on the overall statements of net assets available for benefits or changes in net assets available for benefits as and for the year ended of December 31, 2014 or 2013.

The fair value of the wrapper investment is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Realized gains and losses on the sale of securities are determined based on the average cost of the securities sold from the Trust's assets. Realized gains and losses on the distribution of Company common shares are determined based on the historical cost of the shares distributed.

Dividend income is recorded on the ex-dividend date. Interest and other income are recorded as earned on an accrual basis.

For the dividends on The Progressive Corporation common shares, the financial statements reflect the annual dividend of \$.4929 with an ex-dividend date of January 27, 2014, the \$1 special cash dividend with an ex-dividend date of January 27, 2014 and the annual dividend of \$.2845 with an ex-dividend date of January 23, 2013.

Fair Value:

The Plan has categorized its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1: Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., U.S. Government obligations and active exchange-traded equity securities).

Level 2: Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly (e.g., certain common/collective trusts and unitized investment funds). This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs that are unobservable. Unobservable inputs reflect the Plan's subjective evaluation about the assumptions market participants would use in pricing the financial instrument (e.g., certain structured securities and privately held investments).

December 31, 2014 and 2013

2 Summary of Significant Accounting Policies, Continued

Funding:

Participant and employer contributions are funded on a bi-weekly basis generally coincident with the pay date.

Expenses:

Administrative expenses of the Plan, including trust management, legal and other fees, are paid by the Company and are not expenses paid by the Plan. Investment management fees are expenses of the Plan, but are netted against investment income. Transaction fees for loan initiation, quarterly loan maintenance, exchanges of Company stock and short-term fund trading are paid from assets in participant accounts.

Risks and Uncertainties:

The Plan provides for several investment options, which are subject to various risks, such as interest rate, credit, foreign currency exchange rate, liquidity and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

3 Participant Accounts

Each participant's account is credited with the participant's contributions and Company match, Company SDRP contributions prior to January 1, 2009 and an allocation of earnings. Allocations are based on the portion of each participant's account balance to the total account balances for all participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5 Related Party Transactions

The fund investment options include The Progressive Corporation Stock Fund. This fund consists of the Company's common shares.

Certain Plan investment choices are Fidelity mutual funds managed by Fidelity Management & Research Company (FMR Co.). Fidelity Management Trust Company (FMTTC) is the current trustee and, along with FMR Co., is a subsidiary of FMR Corp. These transactions, therefore, qualify as related party transactions.

6 Income Tax Status

The Plan obtained its latest determination letter on August 9, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The determination letter was contingent on the Plan adopting certain amendments that were, in fact, adopted in Amendment Three to the Plan on September 9, 2013.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2011.

7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, to the extent not already vested.

8 Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.
