ITEM 7.01. Regulation FD Disclosure

Based on currently available information, STERIS estimates that the U.S. Tax Cuts and Jobs Act (TCJA) will result in a tax gain of approximately \$25 million in its third quarter of fiscal 2018, ended December 31, 2017. This non-cash gain includes the impact from the re-measurement of U.S. deferred tax balances and the related taxation of unremitted earnings of non-U.S. subsidiaries. The taxation of unremitted earnings will be paid over 8 years. This gain will benefit U.S. GAAP earnings during the third quarter of fiscal 2018, but will be excluded from adjusted earnings.

STERIS anticipates that its full year U.S. GAAP and adjusted effective tax rates for fiscal 2018 and beyond will also be positively impacted by the TCJA. STERIS will provide further details on the impact of TCJA when it announces earnings for the third quarter on February 7, 2018.

Forward-Looking Statements

This Current Report on Form 8-K may contain statements concerning certain trends, expectations, forecasts, estimates, or other forward-looking information affecting or relating to STERIS or its industry, products or activities that are intended to qualify for the protections afforded forward-looking statements under the Private Securities Litigation Reform Act of 1995 and other laws and regulations. Forward-looking statements speak only as to the date the statement is made and may be identified by the use of forward-looking terms such as may, will, expects, believes, anticipates, plans, estimates, projects, targets, forecasts, outlook, impact, potential, confidence, deliver, orders, backlog, comfortable, trend, and seeks, or the negative of such terms or other variations on such or comparable terminology. Many important factors could cause actual results to differ materially from those in the forward-looking statements including, without limitation, disruption of production or supplies, changes in market conditions, political events, pending or future claims or litigation, competitive factors, technology advances, actions of regulatory agencies, and changes in laws, government regulations, labeling or product approvals or the application or interpretation thereof. Other risk factors are described in STERIS's securities filings, including Item 1A of STERIS's Annual Report on Form 10-K for the year ended March 31, 2017. Many of these important factors are outside of STERIS's control. No assurances can be provided as to any result or the timing of any outcome regarding matters described in STERIS's securities filings or otherwise with respect to any regulatory action, administrative proceedings, government investigations, litigation, warning letters, cost reductions, business strategies, earnings or revenue trends or future financial results. References to products are summaries only and should not be considered the specific terms of the product clearance or literature. Unless legally required, STERIS does not undertake to update or revise any forward-looking statements even if events make clear that any projected results, express or implied, will not be realized. Other potential risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements include, without limitation, (a) STERIS's ability to meet expectations regarding the accounting and tax treatments of the Combination (the Combination) with STERIS Corporation and Synergy Health plc (Synergy), (b) the possibility that the parties may be unable to achieve expected synergies and operating efficiencies in connection with the Combination within the expected time-frames or at all and to successfully integrate the operations of the companies, (c) the integration of the operations of the companies being more difficult, time-consuming or costly than expected, (d) operating costs, customer loss and business disruption (including, without limitation, difficulties in maintaining relationships with employees, customers, clients or suppliers) being greater than expected following the transaction, (e) the retention of certain key employees of Synergy being difficult, (f) STERIS's ability to meet expectations regarding the accounting and tax treatment of the TCJA or the possibility that anticipated benefits resulting from the TCJA will be less than estimated, (g) changes in tax laws or interpretations that could increase our consolidated tax liabilities, including, changes in tax laws that would result in STERIS being treated as a domestic corporation for United States federal tax purposes, (h) the potential for increased pressure on pricing or costs that leads to erosion of profit margins, (i) the possibility that market demand will not develop for new technologies, products or applications or services, or business initiatives will take longer, cost more or produce lower benefits than anticipated, (j) the possibility that application of or compliance with laws, court rulings, certifications, regulations, regulatory actions, including without limitation those relating to FDA warning notices or letters, government investigations, the outcome of any pending FDA requests, inspections or submissions, or other requirements or

standards may delay, limit or prevent new product introductions, affect the production and marketing of existing products or services or otherwise affect STERIS' s performance, results, prospects or value, (k) the potential of international unrest, economic downturn or effects of currencies, tax assessments, adjustments or anticipated rates, raw material costs or availability, benefit or retirement plan costs, or other regulatory compliance costs, (l) the possibility of reduced demand, or reductions in the rate of growth in demand, for STERIS' s products and services, (m) the possibility of delays in receipt of orders, order cancellations, or delays in the manufacture or shipment of ordered products or in the provision of services, (n) the possibility that anticipated growth, cost savings, new product acceptance, performance or approvals, or other results may not be achieved, or that transition, labor, competition, timing, execution, regulatory, governmental, or other issues or risks associated with STERIS' s businesses, industry or initiatives including, without limitation, those matters described in STERIS' s 10-K for the year ended March 31, 2017 and other securities filings, may adversely impact STERIS' s performance, results, prospects or value, (o) the impact on STERIS and its operations of the Brexit or the exit of other member countries from the EU, (p) the impact on STERIS and its operations of any legislation, regulations or orders, including but not limited to any new trade or tax legislation, regulations or orders, that may be implemented by the U.S. administration or Congress, or of any responses thereto, (q) the possibility that anticipated financial results or benefits of recent acquisitions, including the Combination, or of STERIS' s restructuring efforts, or of recent divestitures will not be realized or will be other than anticipated, and (r) the effects of the contractions in credit availability, as well as the ability of STERIS' s Customers and suppliers to adequately access the credit markets when needed.
