### Forward Looking Statements

In keeping with the Securities and Exchange Commission's (the "SEC") "Safe Harbor" guidelines, certain statements made herein could be considered forward-looking and subject to certain risks and uncertainties that could cause results to differ materially from those projected. When we use the words "will likely result," "may," "anticipate," "estimate," "should," "expect," "believe," "intend," or similar expressions, we intend to identify forward-looking statements. Such forward-looking statements include, but are not limited to, our business and investment strategy, our understanding of our competition, current market trends and opportunities, projected operating results, and projected capital expenditures.

These forward-looking statements are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from those anticipated including, without limitation: general volatility of the capital markets and the market price of our common stock; changes in our business or investment strategy; availability, terms and deployment of capital; availability of qualified personnel; changes in our industry and the market in which we operate, interest rates or the general economy, the degree and nature of our competition; risks that Ashford Trust will ultimately not pursue a transaction with FelCor Lodging Trust Incorporated ("FelCor") or FelCor will reject engaging in any transaction with Ashford Trust; if a transaction is negotiated between Ashford Trust and FelCor, risks related to Ashford Trust's ability to complete the acquisition on the proposed terms; the possibility that competing offers will be made; risks associated with business combination transactions, such as the risk that the businesses will not be integrated successfully, that such integration may be more difficult, time-consuming or costly than expected or that the expected benefits of the acquisition will not be realized; risks related to future opportunities and plans for the combined company, including uncertainty of the expected financial performance and results of the combined company following completion of the proposed acquisition; disruption from the proposed acquisition, making it more difficult to conduct business as usual or maintain relationships with employees, managers or advisors; and the possibility that if the combined company does not achieve the perceived benefits of the proposed acquisition as rapidly or to the extent anticipated by financial analysts or investors, the market price of Ashford Trust's shares could decline. These and other risk factors are more fully discussed in the Company's filings with the SEC.
