The amount reported represents the estimated number of shares sold by the reporting person in connection with the tender offer for shares of Common Stock of the Issuer (the "Tender Offer") by Roche Holdings, Inc. ("Roche"). Roche will purchase only a prorated portion of (1) the shares properly tendered by each tendering stockholder. Based on a preliminary count reported by Roche, the preliminary proration factor for the Tender Offer is approximately 80.7%. If necessary, an amended Form 4 will be filed to report the number of shares actually sold by the reporting person in connection with the Tender Offer once the final proration factor is determined.

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, *see* Instruction 6 for procedure.

Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number.
