Edgar Filing: APPLIED DNA SCIENCES INC - Form 8-K

Item 1.01 Entry into a Material Definitive Agreement.
Item 2.03 Creation of a Direct Financial Obligation.
Item 3.02 Unregistered Sales of Equity Securities.

On June 15, 2006, Applied DNA Sciences, Inc., a Nevada corporation (the "Company"), completed the second tranche of a private placement (the "Placement") of up to 140 units at \$50,000 per unit for sale to "accredited investors" who are not a "U.S. person," as each is defined in regulations promulgated under the Securities Act. In the first tranche, completed on May 2, 2006, the Company sold 20 units for aggregate gross proceeds of \$1,000,000. In this second tranche, the Company sold 59 units for aggregate gross proceeds of \$2,950,000. Each such unit consists of (i) a \$50,000 Principal Amount 10% Secured Convertible Promissory Note and (ii) a warrant to purchase 100,000 shares of the Company's common stock exercisable for a period of four years commencing on May 2, 2007, at a price of \$0.50 per share. Each such warrant may be redeemed at the option of the Company at a redemption price of \$0.001 upon the earlier of (i) June 15, 2009, and (ii) the date a registration statement for the resale of the underlying common stock has been declared effective by the Securities and Exchange Commission (the "Commission"), and the Company's stock has traded on The Over the Counter Bulletin Board at or above \$1.00 per share for 20 consecutive trading days. The principal and accrued but unpaid interest under the promissory notes are convertible into shares of common stock of the Company at a price of \$0.50 per share by the holder of the promissory notes at any time from June 15, 2006, through June 15, 2007, and shall automatically convert on June 15, 2007 at a 20% discount to the average of the closing bid prices of the Company's common stock on trading days during the 12 months prior to such conversion. The promissory notes bear interest at the rate of 10% per annum and are due and payable in full on August 2, 2007. Any principal and accrued but unpaid interest under the promissory notes not paid when due, whether upon maturity, acceleration or otherwise, shall bear interest at the lesser of 12% or the maximum rate permissible by law. At any time prior to conversion, the Company will have the right to prepay the promissory notes and accrued but unpaid interest thereon upon 3 days notice, allowing the holders to convert the promissory notes during such notice period.

Until the principal and accrued but unpaid interest under the promissory notes is paid in full, or converted into common stock of the Company, the promissory notes will be secured by a security interest in all of the assets of the Company. This security interest will be pari passu with the security interest granted to the holders of \$1,500,000 of \$50,000 principal amount 10% secured convertible promissory notes issued as part of a private placement of the Company completed on March 8, 2006. The Company may issue up to \$4,500,000 of debt in addition to the remaining \$3,050,000 that may be sold in the Placement that may be secured by a security interest in all of the Company's assets, which interest would be pari passu to the security interest granted to the holders of the promissory notes issued in March.

In connection with the Placement, each purchaser of a unit has entered into a subscription agreement and a registration rights agreement with the Company. Pursuant to this registration right agreement, the Company will prepare and file a registration statement with the Commission for the resale of the common stock underlying the promissory notes and the warrants within 30 days of the Company's registration statement on Form SB-2, as amended (SEC File No. 333-122848), being declared effective by the Commission, and to use the Company's reasonable best efforts to have the registration statement for the resale of the common stock underlying the promissory notes and the warrants declared effective by the Commission by no later than 180 days after filing. The obligations of the Company to file and have such registration statement declared effective shall terminate as to any holder of the units upon the earlier of the date: (a) when all of such holder's common stock underlying the promissory notes and the warrants may be sold during a single three (3) month period under Rule 144 of the Securities Act; and (b) when all of such holder's common stock

Edgar Filing: APPLIED DNA SCIENCES INC - Form 8-K

underlying the promissory notes and the warrants may be transferred under Rule 144(k) of the Securities Act, unless such holder later becomes an affiliate of the Company (as defined in Rule 144 of the Securities Act) in which case the Company's obligation shall be revived until such holder's rights otherwise terminate under clause (a) above.

Arjent Limited served as the Company's placement agent in the Placement. The Company has agreed to pay to Arjent Limited from the gross proceeds of the second tranche of the Placement: (a) a commission equal to 10% of the gross proceeds of the second tranche Placement; and (b) a non-accountable expense allowance equal to 3% and non-accountable due diligence expenses equal to 2%, of the gross proceeds of the second tranche of the Placement.

The Company claims an exemption from the registration requirements of the Securities Act for the private placement of the units pursuant to Regulation S promulgated under the Securities Act because each of the units were sold in an "offshore transaction" to persons who are not a "U.S. person," in each case as defined in Regulation S.

Item 9.01 Financial Statements and Exhibits

(d) Exhibits.
