AMERICAN POST TENSION, INC.  
NOTES TO THE UNAUDITED  
CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2011

Note 1: BASIS OF PRESENTATION OF INTERIM PERIOD FINANCIAL STATEMENTS

ORGANIZATION AND NATURE OF BUSINESS

Post Tension of Nevada, Inc. (PTNV) was incorporated under the laws of the State of Nevada on June 28, 1982. Headquartered in Henderson, NV the Company operated in one distinct line of business. The Company provided a system of concrete slab reinforcement known as ‘post tensioning’ that utilizes a lattice of flexible clad wire cable and adjustable anchors to strengthen a poured in place concrete slab. The cable grid is set in place before the concrete pour and is a replacement system from the standard re-bar reinforcement system. After the concrete has cured, the unanchored cable ends are pulled to a specified tension and then anchored. This system of concrete slab reinforcement has been in general use since 1967 and is generally considered to be superior to re-bar reinforcement.

On April 12, 2007, PTNV completed a reverse merger transaction with Magic Communications, Inc. (‘Magic’), which was originally formed as a New York corporation on January 16, 1997 and reincorporated as a Delaware corporation in November 2002. Magic conducted only limited operations prior to the reverse merger and changed its name to American Post Tension, Inc. (‘APTI’) on September 24, 2007. PTNV now operates as a wholly-owned subsidiary of APTI, and the two companies are referred to in these financial statements as the “Company”.

The Company markets its services throughout the Southwestern United States to local and national concrete supply companies and homebuilders. The work is performed under fixed-price contracts for delivery and installation of the system and in some cases, delivery of materials only. The Company has sales and service locations in Henderson, NV; Phoenix and Tucson, AZ; and in Denver, CO.

The accompanying unaudited consolidated financial statements of the Company at March 31, 2011 and 2010 have been prepared in accordance with generally accepted accounting principles (‘GAAP’) for interim financial statements, instructions to Form 10-Q, and Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted.

These consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2010. In management’s opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation to make the Company’s financial statements not misleading have been included. The results of operations for the periods ended March 31, 2011 and 2010 presented are not necessarily indicative of the results to be expected for the full year.

AMERICAN POST TENSION, INC.  
NOTES TO THE UNAUDITED  
CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2011

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation.

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary. All significant inter-company balances and transactions have been eliminated in consolidation.

Accounts Receivable

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The Company extends unsecured credit to its customers in the ordinary course of business but mitigates the associated risks by performing credit checks and actively pursuing past due accounts. An allowance for doubtful accounts is established and determined based on managements' assessment of known requirements, aging of receivables, payment history, the customer's current credit worthiness and the economic environment. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. The Company follows the practice of filing statutory 'mechanics' liens on construction projects where collection problems are anticipated. The liens serve as collateral for those accounts receivable.

Material and Supplies Inventory

Inventory consists of raw materials and finished goods and is stated at the lower of cost or market using the first-in first-out method.

Income Taxes

Income taxes are accounted for in accordance with the provisions of FASB ASC Topic 740-10. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized as income in the period that includes the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amounts expected to be realized, but no less than quarterly. Due to the uncertainty whether the accumulated losses will be available to offset future revenues, no deferred tax asset has been reported.

The Company has adopted the provisions of FASB ASC 740-10-50. As a result of this implementation of FASB ASC 740-10-50, the Company performed a comprehensive review of its uncertain tax positions in accordance with recognition and measurement standards established by the codification. In this regard, an uncertain tax position represents the Company's expected treatment of a tax position taken in a filed tax return, or expected to be taken in a tax return, that has not been reflected in measuring income tax expense for financial reporting purposes. The Company does not expect any reasonably possible material changes to the estimated amount of liability associated with uncertain tax positions through January 1, 2010. The Company's continuing policy is to recognize accrued interest and penalties related to income tax matters in income tax expense.

Related Parties

6

---

AMERICAN POST TENSION, INC.  
NOTES TO THE UNAUDITED  
CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2011

Note 1: BASIS OF PRESENTATION OF INTERIM PERIOD (continued)

For the purposes of these financial statements, parties are considered to be related if one party has the ability, directly or indirectly, to control the party or exercise significant influence over the other party in making financial and operating decisions, or vice versa, or where the Company and the party are subject to common control or common significant influence. Related parties may be individuals or other entities. John Hohman and Edward Hohman, our principal executive officers and majority shareholders, are considered to be related parties.

Basic and Diluted Earnings/(Loss) Per Share

Net earnings and loss per share is computed in accordance with Statement of Financial Standards use FASB Codificate, Earnings Per Share Topic 260-10 requires the presentation of both basic and diluted earnings per share. Basic net earnings and loss per common share is computed using the weighted average number of common shares outstanding during the period. Diluted loss per share reflects the potential dilution that could occur through the potential effect of common shares issuable upon the exercise of stock options, warrants and convertible securities. The calculation assumes: (i) the exercise of stock options and warrants based on the treasury stock method; and (ii) the conversion of convertible preferred stock only if an entity records earnings from continuing operations, as such adjustments would otherwise be anti-dilutive to earnings per share from continuing operations.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting periods. Actual results could differ from those estimates and those differences could be material.

Going Concern

The accompanying consolidated financial statements of the Company have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company has suffered recurring losses and operating cash outflows. Its ability to continue as a going concern is dependent upon achieving profitable operations and generating positive cash flows. Due to the current state of residential housing in our target markets, the level of current operations may not sustain the Company's expenses and it may have to borrow additional funds to meet our cash needs. These factors, among others, could affect its ability to continue as a going concern.

The Company currently has approximately \$70,000 of unused capacity on the line of credit. Additionally, the Company's principal shareholders, Edward Hohman, President, and John Hohman, Chief Operating Officer, have committed to fund any operating shortfall for a reasonable amount of time and have already advanced a total of \$500,000 in loans during the

AMERICAN POST TENSION, INC.  
 NOTES TO THE UNAUDITED  
 CONSOLIDATED FINANCIAL STATEMENTS  
 MARCH 31, 2011

Note 1. BASIS OF PRESENTATION (continued)

year ended December 31, 2010 and an additional \$511,826 during the quarter ended March 31, 2011.

There can be no assurances that the Company will be able to achieve profitable operations or obtain additional funding. These factors create substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of the uncertainty.

Recent Accounting Pronouncements

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its financial condition or the results of its operations.

Reclassifications

Certain amounts from prior periods have been reclassified to conform to current period classification.

Note 2: ACCOUNTS RECEIVABLE

Accounts receivable are summarized as follows:

		March 31, 2011		December 31, 2010
Accounts receivable	\$	1,121,973	\$	1,024,906
Allowance for doubtful accounts		(139,000)		(139,000)
Net amount	\$	982,973	\$	885,906

No increase was made to the allowance for doubtful accounts during the quarter ended March 31, 2011.

Note 3: RELATED PARTY TRANSACTIONS

For the purposes of these financial statements, parties are considered to be related if one party has the ability, directly or indirectly, to control the party or exercise significant influence over the other party in making financial and operating decisions, or vice versa, or where the Company and the party are subject to common control or common significant influence. Related parties

AMERICAN POST TENSION, INC.  
NOTES TO THE UNAUDITED  
CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2011

Note 3: RELATED PARTY TRANSACTIONS (CONTINUED)

may be individuals or other entities. John Hohman and Edward Hohman, our principal executive officers and majority shareholders, are considered to be related parties.

The Company leases substantially all of its office, maintenance and warehouse facilities from entities that are owned and/or controlled by Ed Hohman, President, and John Hohman, Chief Operating Officer, who are the Company's principal shareholders. Rents were paid to the shareholders in the amount of \$62,040 during the three months ended March 31, 2011, compared to \$61,360 during the three months ended March 31, 2010.

Note 4: SHAREHOLDER LOANS AND LONG TERM DEBT

The Company's principal officers, Ed Hohman, President, and John Hohman, Chief Operating Officer, have a line of credit agreement with the Bank of Nevada in the total amount of \$1,700,000, on behalf of the Company. This line, which carries an interest rate of 6% on outstanding balances, had \$1,630,285 outstanding on it at March 31, 2011. The line matures on July 24, 2011 and is renewable annually.

The Company's principal officers, Ed Hohman, President, and John Hohman, Chief Operating Officer, each advanced \$505,913 in loans to the Company for operating expenses through March 31, 2011. The loans accrue interest at an annual rate of 5% and mature at dates varying from October 2011 to January 2012. The interest rate increases from 5% to 18% at maturity. At March 31, 2011, the loans had accrued interest payable of \$27,075.

Note 5: INCOME TAXES

The Company accounts for income taxes in accordance with accounting standards for Accounting for Income Taxes which require the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statements and tax basis of assets and liabilities, and for the expected future tax benefit to be derived from tax loss and tax credit carry-forwards. Additionally, the standards require the establishment of a valuation allowance to reflect the likelihood of realization of deferred tax assets. Prior to 2003, the Company and its stockholders elected to be taxed under subchapter S of the Internal Revenue Code. As a result, all income and losses were reported by the Company's stockholders. The following is a reconciliation of income taxes computed using the statutory Federal rate to the income tax expense in the financial statements for March 31, 2011:

AMERICAN POST TENSION, INC.  
NOTES TO THE UNAUDITED  
CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2011

## Note 5: INCOME TAXES (continued)

Income tax provision at the federal statutory rate	34%
Income tax provision at the state statutory rate	4%
Effect of operating losses	(37)%

As of March 31, 2011, the Company has net operating losses for Federal income tax purposes totaling \$6,948,729 which expire in 2031. The following is a schedule of deferred tax assets as of March 31, 2011 and December 31, 2010:

	March 31, 2011	December 31, 2010
Net operating loss	6,948,729	6,478,067
	\$	\$
Future tax benefit at 37%	2,574,000	2,386,000
Less: Valuation allowance	(2,574,000)	(2,386,000)
Net deferred tax asset	--	--
	\$	\$

The valuation allowance changed by \$188,000 during the three months ended March 31, 2011.

Under Sections 382 and 269 (the 'shell corporation' rule) of the Code following an 'ownership change,' special limitations ('Section 382 Limitations') apply to the use by a corporation of its net operating loss, or NOL, carry-forwards arising before the ownership change and various other carry-forwards of tax attributes (referred to collectively as the 'Applicable Tax Attributes'). The Company had NOL carry-forwards due to historical losses of Magic of approximately \$364,393 at December 31, 2006. This NOL carry-forward will expire through calendar year 2026 if not utilized and is subject to review and possible adjustment by the IRS. As a result of the Merger, the Company experienced an ownership change, and Section 382 Limitations will apply to the Applicable Tax Attributes of the Company.

The Company has adopted the provisions of FASB ASC 740-10-25. As a result of its implementation, the Company performed a comprehensive review of its uncertain tax positions in accordance with recognition and measurement standards established by FASB ASC 740-10-25. In this regard, an uncertain tax position represents the Company's expected treatment of a tax position taken in a filed tax return, or expected to be taken in a tax return, that has not been reflected in measuring income tax expense for financial reporting purposes. The Company does not expect any reasonably possible material changes to the estimated amount of liability associated with uncertain tax positions through March 31, 2011. The Company's continuing policy is to recognize accrued interest and penalties related to income tax matters in income tax expense.

AMERICAN POST TENSION, INC.  
NOTES TO THE UNAUDITED  
CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2011

Note 6: Equity

There were no shares issued during the quarter ended March 31, 2011. The only change in shareholders' equity during the three months ended March 31, 2011 was the net loss for the period.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

FORWARD-LOOKING INFORMATION

To the extent that the information presented in this Quarterly Report on Form 10-Q for the quarter ended March 31, 2011 discusses financial projections, information or expectations about our products, services, or markets, or otherwise makes statements about future events or statements regarding the intent, belief or current expectations of American Post Tension, Inc. and its subsidiary (collectively the 'Company'), its directors or its officers with respect to, among other things, future events and financial trends affecting the Company, such statements are forward-looking. We are making these forward-looking statements in reliance on the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Although we believe that the expectations reflected in these forward-looking statements are based on reasonable assumptions, there are a number of risks and uncertainties that could cause actual results to differ materially from such forward-looking statements. Forward-looking statements are typically identified by the words 'believes,' 'expects,' 'anticipates,' and similar expressions. In addition, any statements that refer to expectations or other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned that any such forward-looking statements are not guarantees of future performance and that matters referred to in such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among other things, the pace of residential construction in our geographic markets, changes in mortgage interest rates, prices and availability of raw materials and supplies, our ability to locate, acquire, pay for, and integrate other businesses that complement ours, our ability to expand our business into the commercial construction field, our ability to attract and retain qualified personnel if and as our business grows, and risks associated with our stock being classified as a 'penny stock.' We undertake no obligation to publicly update or revise these forward-looking statements because of new information, future events or otherwise, except as required by law.

The following analysis of our financial condition and results of operations should be read in conjunction with our financial statements and the related notes thereto contained elsewhere in this Form 10-Q, as well as the risk factors included in our Form 10-K filed for the year ended December 31, 2010.

## Operating Results

### Net sales

Net sales totaled \$1,328,188 for three months ended March 31, 2011, as compared to \$2,479,326 for the same period in 2010, a decrease of 46%. Home Builders Research reported that new home sales remain stagnant in Las Vegas and the year to date 2011 metro Phoenix housing market continues at a pace below that of last year, although indications are that the housing market has stabilized in our principal market areas. Our revenue is derived from new construction of residential housing and is directly related to new home sales and permits for new residential construction. The decreased activity of new residential home construction has been pronounced in Las Vegas, Nevada and Phoenix, Arizona in the past two years and has resulted in reduced sales levels from the levels in 2007 and earlier periods.

### Cost of sales

Cost of sales, including all installation expenses, during the three months ended March 31, 2011 was 97.4% of net sales, as compared to 90.5% in 2010. Our gross margin for the three months ended March 31, 2011 was \$34,129, compared to \$233,701 for the prior period, a decrease of 85.3 percent. This reflects the results of our determination to gradually increase our staff in anticipation of increases in revenues and activities in 2011.

### Selling, general and administrative expenses

Selling, general and administrative expenses for the three months ended March 31, 2011 were \$474,922 or 35.7% of net sales as compared to \$634,125 or 25.6% of net sales during the same period of the prior year. Selling, general and administrative expenses decreased by \$159,203 for the three month period ending March 31, 2011 versus the three month period ending March 31, 2010.

### Provision for income taxes

We recorded no provision for income tax expense or benefit for the three months ended March 31, 2011 and 2010, because of concerns regarding the potential realization of the benefits of the tax loss.

### Net Income

For the three months ended March 31, 2011, we had a loss of \$470,662, compared to a loss of \$415,094 for the same period in 2010, an increase of 13.4%.

### Liquidity and Capital Resources

We have historically met our capital requirements through profits generated from operations and/or borrowings on our line of credit with Bank of Nevada which was extended to July 2011. We also borrowed a total of \$500,000 from our principal shareholders and officers in 2010 and another \$511,826 in 2011. Our cash balance increased \$2,772 from \$21,380 at December 31, 2010 to \$24,152 at March 31, 2011.

In our opinion, available funds will satisfy our capital requirements for the next 12 months. However, we may need to borrow additional amounts on our \$1.7 million line of credit, increase the amount available on the line of credit, or borrow additional funds from our principal shareholders

#### Off-Balance Sheet Arrangements

None

#### Going Concern

Our ability to continue as a going concern is dependent upon us achieving profitable operations and generating positive cash flows. Due to the current state of residential housing in our target markets, the level of current operations may not sustain our expenses and we may have to borrow additional funds to meet our cash needs. These factors, among others, could affect our ability to continue as a going concern.

As a result of the continuing slow recovery in the housing markets in our principal business markets, management has begun to explore expanding into different lines of business, either through acquisitions or as a start-up.

#### Critical Accounting Policies

The accounting policies that we follow are set forth in the notes to our financial statements. The preparation of these financial statements requires us to make estimates on an on going basis, including those related to uncollectible accounts receivable, inventories, contingencies and litigation, and income tax valuation allowances. We base our estimates on historical experience and on various assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions, and those differences could be material.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable

### ITEM 4. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Principal Accounting Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the 'Exchange Act')). Disclosure controls and procedures are the controls and other procedures that we designed to ensure that we record, process, summarize and report in a timely manner the information we must disclose in reports that we file with or submit to the Securities and Exchange Commission under the Exchange Act. Based on this evaluation, our Chief Executive Officer and our Principal Accounting Officer concluded that our disclosure controls and procedures were ineffective as of the end of the period covered by this report because of the material weakness described below.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

The material weakness identified during management's assessment was the lack of sufficient resources with SEC and generally accepted accounting principles (GAAP) accounting expertise. This control deficiency did not result in adjustments to the Company's interim financial statements. However, this control deficiency could result in a material misstatement of significant accounts or disclosures that would result in a material misstatement to the Company's interim or annual financial statements that would not be prevented or detected. Accordingly, management has determined that this control deficiency constitutes a material weakness.

The Chief Executive and Financial Officer performed additional accounting and financial analyses and other post-closing procedures including detailed validation work with regard to balance sheet account balances, additional analysis on income statement amounts and managerial review of all significant account balances and disclosures in the Quarterly Report on Form 10-Q, to ensure that the Company's Quarterly Report and the financial statements forming part thereof are in accordance with accounting principles generally accepted in the United States of America. Accordingly, management believes that the financial statements included in this Quarterly Report fairly present, in all material respects, the Company's financial condition, results of operations, and cash flows for the periods presented.

(b) Changes in Internal Control over Financial Reporting.

During the quarter ended March 31, 2011, there was no change in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II OTHER INFORMATION

### Item 1. Legal Proceedings

We have been involved in various legal and governmental proceedings incidental to our continuing business operations, all of which were resolved as of December 31, 2010. There were no continuing legal suits or any known pending litigation related to claimed construction defects as a result of services and products provide to our customers, or any other legal matters pending or known as of March 31, 2011.

#### ITEM 1A. Risk Factors

Investing in our common stock involves a high degree of risk. Certain of the risks related to an investment in our common stock were disclosed in our Annual Report on Form 10-K for the year ended December 31, 2010, under Item 1A, 'Risk Factors' which is hereby incorporated into this report by this reference. You should carefully consider those risk factors, as well as the following additional risk factors and other information in this report, before deciding whether to invest in shares of our common stock. The decreased activity of new residential home construction has been pronounced in Las Vegas, Nevada and Phoenix, Arizona and has resulted in significantly reduced sales and gross margin. Our revenue is derived primarily from new construction of residential housing and is directly related to new home sales and permits for new residential construction. The recent downturn in residential construction in Las Vegas, Nevada and Phoenix, Arizona has resulted in a significant reduction in our revenues for the three-month period ended March 31, 2010. We cannot predict whether or when residential construction activity will rebound in those markets. Prolonged sluggishness in residential construction, however, can be expected to continue to have a negative impact on our revenues and earnings.

If we expand or modify our business plan to acquire other business operations or establish new operations on a start-up basis, there can be no assurance that we will be successful in doing so, or that any such business will be operated profitably, or that we will have the available capital resources to acquire, start, or operate any new business. In addition, any new business we might acquire or start will have its own risks related to completion, capital needs, operating risks and similar items which cannot now be determined.

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

There were no issuances of stock during the quarter ended March 31, 2011.

#### Item 3. Defaults upon Senior Securities

There were no defaults upon senior securities during the three month period ended March 31, 2011.

#### Item 4. Removed and Reserved

Not Applicable

#### Item 5. Other Information

None

Item 6. Exhibits
