FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. You can identify these statements by forward-looking words such as "may," "might," "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," and the negative of these terms and other comparable terminology. All statements that reflect our expectations, assumptions or projections about the future other than statements of historical fact are forward-looking statements, including statements in the "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of this report. These forward-looking statements, which are subject to known and unknown risks, uncertainties and assumptions about us, may include projections of our future financial performance based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from that expressed or implied by the forward-looking statements. In particular, you should consider the risks and uncertainties described under "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, Part II, Item 1A of this Quarterly Report on Form 10-Q and our other filings with the SEC.

While we believe we have identified the risks that are material to us, these risks and uncertainties are not exhaustive. Moreover, we operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible to predict all risks and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Some factors that could cause actual results to differ include:

- the loss of our right to exclusively list and trade certain index options and futures products;
- increasing price competition in our industry;
- compliance with legal and regulatory obligations, including our obligations under the Consent Order;
- decreases in trading volumes or a shift in the mix of products traded on our exchanges;
- legislative or regulatory changes;
- increasing competition by foreign and domestic entities;
- our dependence on third party service providers;
- our index providers' ability to perform under our agreements;
- our ability to operate our business without violating the intellectual property rights of others and the costs associated with protecting our intellectual property rights;
- our ability to accommodate trading volume and transaction traffic, including significant increases, without failure or degradation of performance of our systems;
- our ability to protect our systems and communication networks from security risks, including
 - cyber-attacks;
- the accuracy of our estimates and expectations;
- economic, political and market conditions;
- our ability to maintain access fee revenues;
- our ability to meet our compliance obligations, including managing potential conflicts between our regulatory responsibilities and our for-profit status;
- our ability to attract and retain skilled management and other personnel;
- our ability to manage our growth effectively; and
- the ability of our compliance and risk management methods to effectively monitor and manage our risks.

We caution you not to place undue reliance on the forward-looking statements, which speak only as of the date of this filing. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

CBOE HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended September 30, 2015 and 2014

(Unaudited)

NOTE 1 —DESCRIPTION OF BUSINESS

CBOE Holdings, Inc. is the holding company for Chicago Board Options Exchange, Incorporated, CBOE Futures Exchange, LLC, C2 Options Exchange, Incorporated and other subsidiaries.

The Company's principal business is operating markets that offer for trading options on various market indexes (index options) and futures contracts, mostly on an exclusive basis, as well as on non-exclusive "multiply-listed" options, such as options on the stocks of individual corporations (equity options) and options on other exchange-traded products (ETP options), such as exchange-traded funds (ETF options) and exchange-traded notes (ETN options). The Company operates three stand-alone exchanges, but reports the results of its operations in one reporting segment.

CBOE is our primary options market and offers trading in listed options through a single system that integrates electronic trading and traditional open outcry trading on our trading floor in Chicago. This integration of electronic trading and traditional open outcry trading into a single exchange is known as our Hybrid trading model. CFE, our all-electronic futures exchange, offers trading of futures on the VIX Index and other products. C2 is our all-electronic exchange that also offers trading for listed options, and may operate with a different market model and fee structure than CBOE. All of our exchanges operate on our proprietary technology platform known as CBOE Command.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. This standard outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. In addition, the ASU provides guidance on accounting for certain revenue-related costs including when to capitalize costs associated with obtaining and fulfilling a contract. ASU 2014-09 provides companies with two implementation methods. Companies can choose to apply the standard retrospectively to each prior reporting period presented (full retrospective application) or retrospectively with the cumulative effect of initially applying the standard as an adjustment to the opening balance of retained earnings of the annual reporting period that includes the date of initial application (modified retrospective application). This guidance is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. The FASB deferred the effective date by one year to December 15, 2017 for annual reporting periods beginning after that date. Early adoption of the standard is permitted, but not before the original effective date of December 15, 2016. The Company is in the process of evaluating this guidance, though we do not expect it will materially impact our consolidated balance sheets, statements of income, comprehensive income or cash flows.

In September 2015, the FASB issued ASU-2015-16, Business Combinations. This standard simplifies the accounting for adjustments made to provisional amounts recognized in a business combination. First, it requires that the acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amount is determined. The acquirer also should record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. The amendments should be applied prospectively to adjustments to provisional amounts that are identified after December 15, 2015 and that are within the measurement period. Upon transition, an entity would be required to disclose the nature of, and reason for, the change in accounting principle. An entity would provide that disclosure in the first annual period of adoption and in the interim periods within the first annual period. The Company is in the process of evaluating this guidance, though we do not expect it will materially impact our consolidated balance sheets,

statements of income, comprehensive income or cash flows.

NOTE 2 — BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with GAAP for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

10

Table of Contents

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities and reported amounts of revenues and expenses. On an ongoing basis, management evaluates its estimates based upon historical experience, observance of trends, information available from outside sources and various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different conditions or assumptions.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented have been included.

The results of operations for interim periods are not necessarily indicative of the results of operations for the full year.

Line item descriptions

Effective January 1, 2015, we updated certain line item descriptions on our condensed consolidated statement of income. The table below highlights the changes:

Prior description	Current description
Employee costs	Compensation and benefits
Data processing	Technology support services
Outside services	Professional fees and outside services
Trading volume incentives	Order routing

Fixed asset retirements

In the third quarter of 2015, we completed a review of fixed assets which resulted in the retirement of furniture and equipment and data processing software that were no longer in use and had a net book value of zero. The retired furniture and equipment and data processing software had a gross cost and accumulated depreciation of \$144.3 million and \$19.5 million, respectively.

With the exception of the line item descriptions and fixed asset retirements, there have been no other material changes in the manner or basis for presenting the items.

NOTE 3 — ACQUISITION

On August 7, 2015, the Company acquired the market data services and trading analytics platforms of Livevol, Inc. ("Livevol"), which included Livevol Core, Livevol Pro and Livevol X trading analytics platforms, as well as Livevol Enterprise and other market data solutions products. The purchase price consisted of \$7.0 million cash, including \$4.0 million paid to existing Livevol debt holders and \$3.0 million to Livevol owners, upon closing plus contingent consideration based on achievement of certain performance targets, measured at nine and eighteen months from the acquisition date of August 7, 2015. The purchase price was allocated on a preliminary basis, subject to final allocation, to the assets acquired based on their fair values at the acquisition date. The acquisition included tangible and intangible assets totaling \$0.1 million and \$2.6 million, respectively. The tangible assets primarily reflect computer hardware and intangible assets include: customer relationships, trade names, existing technology, non-compete agreements and leasehold rights with useful lives ranging from 1.5 to 12 years. In addition to the assets, goodwill totaling \$7.7 million was recorded in connection with the acquisition. Goodwill was calculated as the excess of the consideration transferred over the net assets recognized and represents potential future economic benefits

Edgar Filing: CBOE Holdings, Inc. - Form 10-Q

arising from other assets acquired that could not be individually identified and separately recognized. Of the \$7.7 million of goodwill recognized, none is deductible for tax purposes.

The company recorded contingent consideration of \$3.3 million, which is based on management's estimate of the performance target achievement by Livevol. If Livevol were to exceed management's estimates it could result in an additional payment in excess of the recorded contingent consideration.

Pro forma financial information has not been provided as the Livevol acquisition is not material to our consolidated balance sheets, statements of income, comprehensive income or cash flows and did not meet the conditions of a significant subsidiary under Rule 1-02 of Regulation S-X.

NOTE 4 — SHARE REPURCHASE PROGRAM

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding unrestricted common stock of \$100 million and approved additional authorizations of \$100 million in each of 2012, 2013, 2014 and May 2015 for a total authorization of \$500 million. The program permits the Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

Under the program, for the nine months ended September 30, 2015, the Company repurchased 1,627,901 shares of unrestricted common stock at an average cost per share of \$59.83, totaling \$97.4 million.

Since inception of the program through September 30, 2015, the Company has repurchased 9,482,971 shares of unrestricted common stock at an average cost per share of \$43.00, totaling \$407.8 million.

NOTE 5 — NET INCOME PER COMMON SHARE

The computation of basic net income allocated to common stockholders is calculated by reducing net income for the period by dividends paid or declared and undistributed net income for the period that are allocated to participating securities to arrive at net income allocated to common stockholders. Net income allocated to common stockholders is divided by the weighted average number of common shares outstanding during the period to determine net income per share allocated to common stockholders.

The computation of diluted earnings per share is calculated by dividing net income allocated to common stockholders by the sum of the weighted average number of common shares outstanding plus all additional common shares that would have been outstanding if the potentially dilutive common shares had been issued. The dilutive effect is calculated using the more dilutive of the two-class or treasury stock method.

The following table reconciles net income allocated to common stockholders and the number of shares used to calculate the basic and diluted net income per common share for the three and nine months ended September 30, 2015 and 2014:

For the periods presented, the Company did not have shares of restricted stock or restricted stock units that would have an anti-dilutive effect on the computation of diluted net income per common share.

NOTE 6 — STOCK-BASED COMPENSATION

Stock-based compensation is based on the fair value of the award on the date of grant, which is recognized over the related service period, net of estimated forfeitures. The service period is the period over which the related service is performed, which is generally the same as the vesting period.

On February 19, 2015, the Company granted 158,661 restricted stock units ("RSUs"), each of which entitles the holders to one share of common stock upon vesting, to certain officers and employees at a fair value of \$61.96 per share. The RSUs vest ratably over three years, with one-third vesting on each anniversary of the grant date, and vesting accelerates upon the occurrence of a change in control. Unvested RSUs will be forfeited if the officer or employee leaves the Company prior to the applicable vesting date, except in limited circumstances. The RSUs have no voting rights but entitle the holder to receive dividend equivalents.

In addition, on February 19, 2015, the Company granted 45,932 RSUs contingent on the achievement of performance conditions, including 22,966 RSUs, at a fair value of \$61.96 per RSU, related to earnings per share during the performance period and 22,966 RSUs, at a fair value of \$74.00 per RSU, related to total shareholder return during the performance period. The Company used the Monte Carlo valuation model method to estimate the fair value of the total shareholder return RSUs which incorporated the following assumptions: risk-free interest rate (1.02%), three-year volatility (19.9%) and three-year correlation with S&P 500 Index (0.44). Each of these performance shares has a performance condition under which the number of units ultimately awarded will vary from 0% to 200% of the original grant, with each unit representing the contingent right to receive one share of our common stock. The vesting period for the RSUs contingent on the achievement of performance is three years. For each of the performance awards, the RSUs will be settled in shares of our common stock following vesting of the RSU assuming that the participant has been continuously employed during the vesting period, subject to acceleration in the event of a change in control of the Company or in the event of a participant's earlier death or disability. Participants shall have no voting rights with respect to RSUs until the issuance of the shares of stock. Dividends are accrued by the Company and will be paid once the RSUs contingent on the achievement of performance conditions vest.

On May 21, 2015, the Company granted 15,504 shares of restricted stock, at a fair value of \$58.06 per share, to the non-employee members of the board of directors. The shares have a one-year vesting period and vesting accelerates upon the occurrence of a change in control of the Company. Unvested portions of the restricted stock will be forfeited if the director leaves the company prior to the applicable vesting date.

For the three and nine months ended September 30, 2015 and 2014, the Company recognized \$3.2 million and \$2.1 million and \$9.0 million and \$13.5 million in stock-based compensation expense, respectively. The nine months ended September 30, 2014 included \$2.5 million of accelerated stock-based compensation expense for certain executives due to provisions contained in their employment arrangements. Stock-based compensation expense is included in compensation and benefits in the condensed consolidated statements of income.

As of September 30, 2015, the Company had unrecognized stock-based compensation of \$16.9 million. The remaining unrecognized stock-based compensation is expected to be recognized over a weighted average period of 22.4 months.

The activity in the Company's restricted stock and restricted stock units for the nine months ended September 30, 2015 was as follows:

NOTE 7 — INVESTMENTS IN AFFILIATES

At September 30, 2015 and December 31, 2014, the investments in affiliates were composed of the following (in thousands):

	September 30, 2015	December 31, 2014
Investment in OCC (1)	\$30,333	\$333
Investment in Signal Trading Systems, LLC	12,444	11,900

Cost method investments (3)	903	—
Investment in CBOE Stock Exchange, LLC (4)	—	—
Investments in Affiliates	\$43,680	\$12,351

(1) In December 2014, OCC announced a newly-formed capital plan. The OCC capital plan was designed to strengthen OCC's capital base and facilitate its compliance with proposed SEC regulations for Systemically Important Financial Market Utilities ("SIFMUs") as well as international standards applicable to financial market infrastructures. On February 26, 2015, the SEC issued a notice of no objection to OCC's advance notice filing regarding the capital plan, and OCC and OCC's existing exchange stockholders, which include CBOE, subsequently executed agreements effecting the capital plan. Under the plan, each of OCC's existing exchange stockholders agreed to contribute its pro-rata share, based on ownership percentage, of \$150 million in equity capital, which would increase OCC's shareholders' equity, and to provide its pro rata share in replenishment capital, up to a maximum of \$40 million per exchange stockholder, if certain capital thresholds are breached. OCC also adopted policies under the plan with respect to fees, customer refunds, and stockholder dividends, which envision an annual dividend payment to the exchange stockholders equal to the portion of OCC's after-tax income that exceeds OCC's capital requirements after payment of refunds to OCC's clearing members (with such customer refunds generally to constitute 50% of the portion of OCC's pre-tax income that exceeds OCC's capital requirements). On March 3, 2015, in accordance with the plan, CBOE contributed \$30.0 million to OCC. On March 6, 2015, OCC informed CBOE that the SEC had approved OCC's proposed rule filing for the capital plan. The SEC approval order was stayed on March 13, 2015 automatically as a result of the initiation of petitions to review the order. On September 10, 2015, the SEC issued orders that discontinued the automatic stay of the approval order and granted the petitions for the SEC to review the approval order. The SEC proceeding to review the approval order remains pending. If the SEC does not uphold the approval order, OCC will return each exchange stockholder's capital contribution with interest. The contribution has been recorded under investments in affiliates in the balance sheet at September 30, 2015.

(2) IPXI Holdings, LLC ceased operations on March 23, 2015.

(3) In September 2015, CBOE Holdings, through its subsidiary Loan Markets, LLC, acquired a minority interest in American Financial Exchange (AFX), an electronic marketplace for small and mid-sized banks to lend and borrow short-term funds.

(4) CBOE Stock Exchange, LLC ceased trading operations on April 30, 2014.

(1) As of September 30, 2015, primarily reflects accrued costs for 2015 incentive compensation expense and self-insurance expenses. At December 31, 2014, primarily reflects 2014 annual incentive compensation expense, which was paid in the first quarter of 2015.

(2) Reflects costs primarily for certain regulatory functions and contract programming work related to projects that are in process. For comparability purposes, contract services balances previously reflected in Other as of December 31, 2014 have been included on this line.

(3) Reflects shares purchased at the end of the period that are not settled until three trading days after the trade occurs.

NOTE 9 — MARKETING FEE

CBOE facilitates the collection and payment of marketing fees assessed on certain trades taking place at CBOE. Funds resulting from the marketing fees are made available to Designated Primary Market Makers and Preferred Market Makers as an economic inducement to route orders to CBOE. Pursuant to ASC 605-45, Revenue Recognition—Principal Agent Considerations, the Company reflects the assessments and payments on a net basis, with no impact on revenues or expenses.

As of September 30, 2015 and December 31, 2014, amounts assessed by the Company on behalf of others included in current assets totaled \$6.8 million and \$10.7 million, respectively, and payments due to others included in current liabilities totaled \$7.2 million and \$11.2 million, respectively.

NOTE 10 — DEFERRED REVENUE

The following table summarizes the activity in deferred revenue for the nine months ended September 30, 2015 (in thousands):

	Balance at December 31, 2014	Cash Additions	Revenue Recognition	Balance at September 30, 2015

NOTE 11 — EMPLOYEE BENEFITS

Employees are eligible to participate in the Chicago Board Options Exchange SMART Plan (“SMART Plan”). The SMART Plan is a defined contribution plan, which is qualified under Internal Revenue Code Section 401(k). In addition, eligible employees may participate in the Supplemental Employee Retirement Plan, Executive Retirement Plan and Deferred Compensation Plan. Each plan is a defined contribution plan that is non-qualified under Internal Revenue Code. The Company contributed \$3.4 million and \$4.5 million to the defined contribution plans for the nine months ended September 30, 2015 and 2014, respectively.

The Company has a post-retirement medical plan for former members of senior management. The Company recorded immaterial post-retirement benefits expense for the nine months ended September 30, 2015 and 2014.

NOTE 12 — INCOME TAXES

For the three and nine months ended September 30, 2015 and 2014, the Company recorded income tax provisions of \$33.9 million and \$26.4 million and \$89.7 million and \$85.4 million, respectively. For the three months ended September 30, 2015 and 2014 the effective tax rate was 33.4% and 35.4%, respectively. The effective tax rate for the nine months ended September 30, 2015 and 2014 was 36.7% and 37.8%, respectively.

As of September 30, 2015 and December 31, 2014, the Company had \$31.6 million and \$35.4 million, respectively, of uncertain tax positions excluding interest and penalties, which, if recognized in the future, would affect the annual effective income tax rate. Reductions to uncertain tax positions, primarily from the lapse of the applicable statutes of limitations during the next twelve months, are estimated to be approximately \$17.6 million, not including any potential new additions.

Estimated interest costs and penalties, which are classified as part of the provision for income taxes in the Company’s condensed consolidated statements of income, were less than \$0.1 million and \$0.7 million for the three months ended September 30, 2015 and 2014, respectively, and \$1.8 million and \$1.8 million for the nine months ended September 30, 2015 and 2014. Accrued interest and penalties were \$7.0 million and \$5.3 million as of September 30, 2015 and December 31, 2014, respectively.

The Company is subject to U.S. federal tax, Illinois, New Jersey, and New York state taxes and Washington, D.C. taxes, as well as taxes in other local jurisdictions. The Company has open tax years from 2007 on for New York, 2008 on for Federal, 2010 on for New Jersey, 2011 on for Washington, D.C. and 2013 on for Illinois. The Internal Revenue Service is currently auditing 2010 and is looking at specific line items from 2008 to 2013 due to the filing by the Company of amended returns containing the recognition of certain credits and deductions. The New York State Department of Taxation and Finance is currently auditing the 2007 through 2012 tax years and the New Jersey Division of Taxation is currently auditing the 2010 through 2012 tax years.

NOTE 13 — FAIR VALUE MEASUREMENTS

Fair value is the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk, including the Company’s own credit risk.

The Company applied FASB ASC 820, Fair Value Measurement and Disclosure (formerly, FASB Statement No. 157, Fair Value Measurements), which provides guidance for using fair value to measure assets and liabilities by defining

fair value and establishing the framework for measuring fair value. ASC 820 applies to financial and non-financial instruments that are measured and reported on a fair value basis. The three-level hierarchy of fair value measurements is based on whether the inputs to those measurements are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. The fair-value hierarchy requires the use of observable market data when available and consists of the following levels:

Level 1—Unadjusted inputs based on quoted markets for identical assets or liabilities.

- **Level 2**—Observable inputs, either direct or indirect, not including Level 1, corroborated by market data or based upon quoted prices in non-active markets.

Table of Contents

Level 3—Unobservable inputs that reflect management's best assumptions of what market participants would use in valuing the asset or liability.

The Company has included a tabular disclosure for financial assets that are measured at fair value on a recurring basis in the condensed consolidated balance sheet as of September 30, 2015 and December 31, 2014. The Company holds no financial liabilities that are measured at fair value on a recurring basis.

Our investment and equity interest in IPXI as of December 31, 2014 were valued at \$0.1 million and approximately 5.0%, respectively. On March 23, 2015, IPXI ceased operations and we recorded an impairment charge of \$0.1 million which represented our remaining investment balance.

In September 2015, CBOE Holdings, through its subsidiary Loan Markets, LLC, acquired a minority interest in AFX. The investment, measured at fair value on a non-recurring basis, is classified as level 3 as the fair value was based on both observable and unobservable inputs.

The Company has recorded contingent consideration of \$3.3 million, categorized as level 3, which is based on management's estimate of the achievement by Livevol of certain performance targets at nine and eighteen months. If Livevol were to exceed management's estimates it could result in an additional payment in excess of the recorded contingent consideration.

NOTE 14 — LEGAL PROCEEDINGS

As of September 30, 2015, the end of the period covered by this report, the Company was subject to various legal proceedings and claims, as well as certain other legal proceedings and claims that have not been fully resolved and that have arisen in the ordinary course of business. For a description of each of these proceedings, please see Note 11 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2014.

The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies where the incurrence of a loss is probable and can be reasonably estimated, and we disclose the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. The Company's assessment of whether a loss is reasonably possible or probable is based on its assessment of the ultimate outcome of the matter following all appeals.

Edgar Filing: CBOE Holdings, Inc. - Form 10-Q

As of September 30, 2015, the Company does not believe that there is a reasonable possibility that any material loss exceeding the amounts already recognized for these reviews, inspections or other legal proceedings, if any, has been incurred. While the consequences of certain unresolved proceedings are not presently determinable, the outcome of any litigation is inherently uncertain and an adverse outcome from certain matters could have a material effect on our earnings in any given reporting period. However, in the opinion of management, the ultimate liability is not expected to have a material effect on our financial position, liquidity or capital resources.

Net income percentage	36.1 %	32.5 %	%	
Diluted Net Income Per Share Allocated to Common Stockholders	\$0.81	\$0.57		

• Total operating revenues increased primarily due to higher transaction fees, partially offset by lower access fees.

• Total operating expenses increased primarily due to higher depreciation and amortization, professional fees and outside services and royalty fees.

Operating Revenues

Total operating revenues for the three months ended September 30, 2015 were \$187.0 million, an increase of \$38.1 million, or 25.6%, compared with the same period in 2014. The following summarizes changes in total operating revenues for the three months ended September 30, 2015 compared to the same period in 2014.

Transaction Fees

Transaction fees totaled \$144.8 million for the three months ended September 30, 2015, compared with \$104.3 million for the same period in 2014, an increase of \$40.5 million, or 38.8%. The increase in transaction fees was due to an increase in average revenue per contract of 31.1% and a 5.9% increase in total trading volume. The increase in average revenue per contract resulted primarily from a shift in the mix of products traded, fee changes implemented in 2015 and lower volume discounts and incentives. As a percent of total trading volume, index options and futures contracts, which generate our highest options and overall average revenue per contract, respectively, accounted for 44.6% of trading volume during the third quarter of 2015 up from 33.8% in the third quarter of 2014.

Average revenue per contract, discussed in more detail below, is impacted by our fee structure, which includes volume based incentive programs, mix of products traded, the account type (customer, firm, market-maker, etc.) and the manner in which a trade is executed. The implementation of fee changes, which may increase or decrease our average revenue per contract, is primarily to ensure that we are competitive in the options marketplace and to ultimately improve and continue to drive order flow to our exchanges. We cannot predict the trading patterns of exchange participants, which may be based on factors outside our control, but we can attempt to price our products at levels that are competitive in our market.

Trading volume is impacted by many factors, including: macroeconomic events, market volatility, regulatory actions or considerations, availability of capital, competition and pricing.

The following summarizes transaction fees by product category for the three months ended September 30, 2015 compared to the same period in 2014.

Average Revenue Per Contract

Average revenue per contract was \$0.431 for the three months ended September 30, 2015, an increase of 31.1% compared with \$0.329 for the same period in 2014. Average revenue per contract represents transaction fees divided by total contracts cleared.

The following summarizes average revenue per contract by product category for the three months ended September 30, 2015 compared to the same period in 2014.

	2015	2014	Percent Change	
Equities	\$0.106	\$0.077	38.7%	%

Futures	1.647	1.625	1.4%	%
Total average revenue per contract	\$0.431	\$0.329	31.1%	%

Factors contributing to the change in total average revenue per contract for the three months ended September 30, 2015 compared to the same period in 2014 include:

Volume Mix — We experienced a shift in overall volume mix. As a percentage of total volume, index options and futures contracts accounted for 44.6% of total trading volume, up from 33.8% in the prior year period. Index options and futures contracts represent our highest options average revenue per contract and highest average revenue per contract, respectively.

Rate structure — Our rate structure includes sliding scales, volume discounts, volume incentive programs and caps on fees as part of our effort to increase liquidity and market share in multiply-listed options. The increase in average revenue per contract across all product categories was primarily a result of fee changes implemented in 2015 and

lower volume discounts and incentives.

Table of Contents

Access Fees

Access fees for the three months ended September 30, 2015 and 2014 were \$13.1 million and \$14.7 million, respectively. The decrease in access fees was primarily due to a reduction in the number of trading permits. We expect this variance to continue for the remainder of 2015.

Exchange Services and Other Fees

Exchange services and other fees for the three months ended September 30, 2015 increased \$1.5 million to \$11.0 million from \$9.5 million for the same period in 2014. The increase was primarily a result of higher fees for technology services and revenue generated from Livevol technology services, which was acquired on August 7, 2015.

Market Data Fees

Market data fees for the three months ended September 30, 2015 decreased to \$7.1 million from \$7.8 million for the same period in 2014. For the three months ended September 30, 2015 and 2014, income derived from our market data services totaled \$3.8 million and \$4.2 million, respectively, and OPRA income totaled \$3.3 million and \$3.6 million, respectively. Revenue generated from our market data services, which provide current and historical options and futures data, decreased primarily due to a reduction in subscribers for certain market data services. Income derived from OPRA is allocated based on each exchanges' share of total cleared options transactions. The Company's share of total cleared options transactions decreased to 22.7% from 24.7% for the same period in 2014 and total distributable OPRA income decreased compared to the prior year period resulting in lower revenue in the three months ended September 30, 2015 compared to the same period in 2014.

Regulatory Fees

Regulatory fees for the three months ended September 30, 2015 and 2014 were \$8.2 million and \$8.9 million, respectively. The decrease was primarily the result of lower options regulatory fees and a decrease in regulatory fees received for other regulatory services.

Under the rules of each of our options exchanges, as required by the SEC, any revenue derived from regulatory fees and fines cannot be used for non-regulatory purposes.

Other Revenue

Other revenue for the three months ended September 30, 2015 and 2014 were \$2.8 million and \$3.7 million, respectively. The decrease in other revenue was primarily due to a decline in revenue generated from regulatory service agreements, which ceased as of December 31, 2014.

Concentration of Revenue

All contracts traded on our exchanges must be cleared through clearing members of the OCC. At September 30, 2015, there were one hundred eleven Trading Permit Holders that are clearing members of the OCC. Two clearing members accounted for 45% of transaction and other fees collected through the OCC for the three months ended September 30, 2015. The next largest clearing member accounted for approximately 11% of transaction and other fees collected through the OCC. No one Trading Permit Holder using the services of the top two clearing members represented more than 29% of transaction and other fees collected through the OCC, for the respective clearing member, in the three months ended September 30, 2015. Should a clearing member withdraw from CBOE, we believe the Trading Permit Holder portion of that clearing member's trading activity would likely transfer to another clearing member.

The two largest clearing members mentioned above clear the majority of the market-maker sides of transactions at CBOE, C2 and at all of the U.S. options exchanges. If either of these clearing members were to withdraw from the business of market-maker clearing and market-makers were unable to transfer to another clearing member, this could create significant disruption to the U.S. options markets, including ours.

Table of Contents**Operating Expenses**

Total operating expenses increased \$12.1 million, or 16.4%, to \$85.9 million for the three months ended September 30, 2015 from \$73.8 million for the same period in 2014. This increase was primarily due to higher depreciation and amortization, professional fees and outside services and royalty fees.

The following summarizes changes in operating expenses for the three months ended September 30, 2015 compared to the same period in 2014.

Compensation and Benefits

For the three months ended September 30, 2015, compensation and benefits were \$29.6 million, or 15.8% of total operating revenues, compared with \$28.7 million, or 19.3% of total operating revenues, for the same period in 2014. This represented an increase of \$0.9 million, or 3.1%, from the prior period, which primarily resulted from higher stock-based compensation and annual incentive compensation, which is aligned with our financial performance relative to our targets, significantly offset by a reduction in headcount, primarily due to the transition of certain regulatory services to FINRA which occurred in December 2014.

Depreciation and Amortization

For the three months ended September 30, 2015, depreciation and amortization costs were \$12.4 million compared with \$10.4 million for the same period in 2014. This represented an increase of \$2.0 million, which primarily resulted from increased capital spending in 2014 to harden and enhance our trading platform and operations and the acceleration of depreciation for certain assets that have a shorter than expected useful life.

Professional Fees and Outside Services

Professional fees and outside services for the three months ended September 30, 2015 were \$12.6 million compared with \$8.2 million for the same period in 2014, an increase of \$4.4 million, which primarily resulted from higher contract services related to the transition of regulatory services for CBOE and C2 to FINRA which occurred in December 2014.

Royalty Fees

Edgar Filing: CBOE Holdings, Inc. - Form 10-Q

Royalty fees for the three months ended September 30, 2015 were \$21.8 million compared with \$16.2 million for the same period in 2014. This represented an increase of \$5.6 million which primarily resulted from higher trading volume in licensed products.

Table of Contents**Operating Income**

As a result of the items above, operating income for the three months ended September 30, 2015 was \$101.1 million compared to \$75.1 million for the same period in 2014, an increase of \$26.0 million.

Income before Income Taxes

Income before income taxes for the three months ended September 30, 2015 was \$101.4 million compared to \$74.8 million for the same period in 2014, an increase of \$26.6 million.

Income Tax Provision

For the three months ended September 30, 2015, the income tax provision was \$33.9 million compared to \$26.4 million for the same period in 2014. The effective tax rate was 33.4% and 35.4% for the three months ended September 30, 2015 and 2014, respectively. The lower effective tax rate was primarily due to the recognition of a tax benefit associated with the release and expiration of uncertain tax positions.

Net Income

As a result of the items above, net income allocated to common stockholders for the three months ended September 30, 2015 was \$67.2 million compared to \$48.1 million for the same period in 2014, an increase of \$19.1 million. Basic and diluted net income per share allocated to common stockholders were \$0.81 and \$0.57 for the three months ended September 30, 2015 and 2014, respectively.

Transaction Fees

Transaction fees totaled \$345.2 million for the nine months ended September 30, 2015, compared with \$315.0 million for the same period in 2014, an increase of \$30.2 million, or 9.6%. This increase was primarily due to a 17.1% increase in average revenue per contract, partially offset by a 6.4% decrease in total trading volume. The increase in average revenue per contract resulted primarily from a shift in volume mix of products traded, fee changes implemented in 2015 and lower volume discounts and incentives. As a percent of total trading volume, index options and futures contracts, which generates our highest options and overall average revenue per contract, respectively, accounted for 38.7% of trading volume during the nine months ended September 30, 2015 up from 34.2% compared to the same period in 2014. The Company experienced volume decreases in equities and exchange-traded products of 17.4 percent and 6.7 percent, respectively. These decreases were partially offset by increases in trading volume of index options and futures of 5.2 percent and 11.7 percent, respectively.

Average Revenue Per Contract

Average revenue per contract was \$0.383 for the nine months ended September 30, 2015, an increase of 17.1% compared with \$0.327 for the same period in 2014. The following summarizes average revenue per contract by product category for the nine months ended September 30, 2015 compared to the same period in 2014.

Factors contributing to the change in total average revenue per contract for the nine months ended September 30, 2015 compared to the same period in 2014, include:

- Product mix — Average revenue per contract reflects a shift in the volume mix by product category. Index options and futures accounted for 38.7% of total trading volume as compared to 34.2% in the prior year period.

- Rate structure — We experienced increases in average revenue per contract across all product categories resulting primarily from fee changes implemented in 2015 and lower volume discounts and incentives.

Access Fees

Access fees for the nine months ended September 30, 2015 and 2014 were \$40.1 million and \$44.8 million, respectively. The decrease in access fees is primarily due to a reduction in the number of trading permits.

Table of Contents**Exchange Services and Other Fees**

Exchange services and other fees for the nine months ended September 30, 2015 increased to \$30.5 million from \$28.7 million for the same period in 2014. The increase was primarily a result of higher fees for technology services and revenue generated from Livevol technology services, which was acquired on August 7, 2015.

Market Data Fees

Market data fees for the nine months ended September 30, 2015 and 2014 totaled \$22.7 million. For the nine months ended September 30, 2015 and 2014, income derived from our market data services totaled \$12.0 million and \$11.5 million, respectively, and OPRA income totaled \$10.7 million and \$11.2 million, respectively. Revenue generated from our market data services increased \$0.5 million resulting from an increase in subscribers and fees for certain market data services. The Company's share of income derived from OPRA decreased to 24.0% from 24.5% for the same period in 2014. In addition, total distributable OPRA income decreased, resulting in a reduction in the nine month period ended September 30, 2015 of \$0.5 million.

Regulatory Fees

Regulatory fees for the nine months ended September 30, 2015 decreased to \$25.3 million from \$28.5 million for the same period in 2014. The decrease is primarily the result of lower rates for the options regulatory fee and a decrease in regulatory fees received for other regulatory services.

Other Revenue

Other revenue for the nine months ended September 30, 2015 and 2014 were \$14.8 million and \$11.0 million, respectively. The increase in other revenue was primarily due to higher regulatory fines assessed for disciplinary actions, partially offset by a decrease in revenue generated from regulatory service agreements, which ceased as of December 31, 2014.

Operating Expenses

Total operating expenses were \$234.6 million and \$223.9 million for the nine months ended September 30, 2015 and 2014, respectively. This increase was primarily due to higher depreciation and amortization, professional fees and outside services and royalty fees, partially offset by lower compensation and benefits. As a percentage of operating revenues for the nine months ended September 30, 2015 and 2014, operating expenses were 49.0% and 49.7%, respectively.

Compensation and Benefits

For the nine months ended September 30, 2015, compensation and benefits were \$79.2 million, or 16.5% of total operating revenues, compared with \$92.4 million, or 20.5% of total operating revenues, for the same period in 2014. This represented a decrease of \$13.2 million, which primarily resulted from lower stock-based compensation and a reduction in headcount. The lower headcount was primarily due to the transition of certain regulatory functions to FINRA which occurred in December 2014. The nine months ended September 30, 2014 included \$2.5 million of accelerated stock-based compensation expense for certain executives due to provisions contained in their employment arrangements.

Depreciation and Amortization

For the nine months ended September 30, 2015, depreciation and amortization costs were \$34.1 million compared with \$28.9 million for the same period in 2014. This represented an increase of \$5.2 million, which primarily resulted from increased capital spending to harden and enhance our trading platform and operations and the acceleration of depreciation for certain assets that have a shorter than expected useful life.

Professional Fees and Outside Services

Expenses related to professional fees and outside services increased to \$37.2 million for the nine months ended September 30, 2015 from \$23.4 million in the prior-year period. This represented an increase of \$13.8 million, which primarily resulted from higher contract services related to certain regulatory services transitioned to FINRA for CBOE and C2.

Royalty Fees

Royalty fees for the nine months ended September 30, 2015 were \$52.7 million compared with \$46.8 million in the prior-year period. This represented an increase of \$5.9 million which primarily resulted from higher trading volume in licensed products.

Operating Income

As a result of the items above, operating income for the nine months ended September 30, 2015 was \$244.0 million compared to \$226.8 million for the same period in 2014, an increase of \$17.2 million.

Income before Income Taxes

Income before income taxes for the nine months ended September 30, 2015 and 2014 was \$244.3 million and \$225.7 million, respectively, an increase of \$18.6 million.

Income Tax Provision

For the nine months ended September 30, 2015, the income tax provision was \$89.7 million compared to \$85.4 million for the same period in 2014. The effective tax rate was 36.7% and 37.8% for the nine months ended September 30, 2015 and 2014, respectively.

Net Income

Edgar Filing: CBOE Holdings, Inc. - Form 10-Q

As a result of the items above, net income allocated to common stockholders for the nine months ended September 30, 2015 was \$153.9 million compared to \$139.3 million for the same period in 2014, an increase of \$14.6 million. Basic and diluted net income per share allocated to common stockholders were \$1.85 and \$1.62 for the nine months ended September 30, 2015 and 2014, respectively.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2015, the Company had \$121.7 million of cash and cash equivalents, a decrease from \$147.9 million as of December 31, 2014. Historically, we have financed our operations, capital expenditures and other cash needs through cash generated from operations. Cash requirements principally consist of funding operating expenses, capital expenditures, actual and anticipated quarterly and special dividend payments and common stock repurchases under the announced program. We expect our cash on hand at September 30, 2015 and funds generated from operations to be sufficient to continue to meet our 2015 cash requirements. From time to time, we consider the possibility of acquisitions, dispositions and

Table of Contents

strategic alliances that we believe would strengthen our business in the long-term; however, if consummated these transactions may negatively impact our liquidity in the short-term.

Cash Flows

Operating Activities

Net cash flows provided by operating activities totaled \$194.1 million and \$184.1 million for the nine months ended September 30, 2015 and 2014, respectively. The increase in net cash flows provided by operating activities was primarily due to higher net income.

Investing Activities

Net cash flows used in investing activities totaled \$62.6 million and \$41.5 million for the nine months ended September 30, 2015 and 2014, respectively. The increase in net cash flows used in investing activities was primarily due to an investment in OCC and \$3.0 million related to the acquisition of Livevol, partially offset by lower expenditures for capital and other assets. As part of the OCC capital plan (discussed in detail below), we contributed \$30 million during the first quarter of 2015. Expenditures for capital and other assets totaled \$26.9 million and \$40.0 million for the nine months ended September 30, 2015 and 2014, respectively, primarily representing purchases of systems hardware and development of software to harden and enhance our trading platform and operations.

Financing Activities

Net cash flows used in financing activities totaled \$157.7 million and \$237.4 million for the nine months ended September 30, 2015 and 2014, respectively. The \$79.7 million decrease in net cash flows used in financing activities was primarily due to the payment of a special dividend in 2014 totaling \$43.8 million and lower stock repurchases in 2015, partially offset by higher quarterly dividend payments and the payment of outstanding debt in conjunction with the acquisition of Livevol totaling \$4.0 million.

Dividends

The Company's expectation is to continue to pay dividends. The decision to pay a dividend, however, remains within the discretion of our board of directors and may be affected by various factors, including our earnings, financial condition, capital requirements, level of indebtedness and other considerations our board of directors deems relevant. Future debt obligations and statutory provisions, among other things, may limit, or in some cases prohibit, our ability to pay dividends.

Share Repurchase Program

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding unrestricted common stock of \$100 million and approved additional authorizations of \$100 million in each of 2012, 2013, 2014 and May 2015 for a total authorization of \$500 million. The program permits the Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

Under the program, for the nine months ended September 30, 2015, the Company repurchased 1,627,901 shares of unrestricted common stock at an average cost per share of \$59.83, totaling \$97.4 million.

Edgar Filing: CBOE Holdings, Inc. - Form 10-Q

Since inception of the program through September 30, 2015, the Company has repurchased 9,482,971 shares of unrestricted common stock at an average cost per share of \$43.00, totaling \$407.8 million.

As of September 30, 2015, the Company had \$92.2 million of availability remaining under its existing share repurchase authorizations.

OCC Capital Plan

In December 2014, OCC announced a newly-formed capital plan. The OCC capital plan was designed to strengthen OCC's capital base and facilitate its compliance with proposed SEC regulations for Systemically Important Financial Market Utilities ("SIFMUs") as well as international standards applicable to financial market infrastructures. On February 26, 2015, the SEC issued a notice of no objection to OCC's advance notice filing regarding the capital plan, and OCC and OCC's existing

exchange stockholders, which include CBOE, subsequently executed agreements effecting the capital plan. Under the plan, each of OCC's existing exchange stockholders agreed to contribute its pro-rata share, based on ownership percentage, of \$150 million in equity capital, which would increase OCC's shareholders' equity, and to provide its pro rata share in replenishment capital, up to a maximum of \$40 million per exchange stockholder, if certain capital thresholds are breached. OCC also adopted policies under the plan with respect to fees, customer refunds, and stockholder dividends, which envision an annual dividend payment to the exchange stockholders equal to the portion of OCC's after-tax income that exceeds OCC's capital requirements after payment of refunds to OCC's clearing members (with such customer refunds generally to constitute 50% of the portion of OCC's pre-tax income that exceeds OCC's capital requirements). On March 3, 2015, in accordance with the plan, CBOE contributed \$30.0 million to OCC. On March 6, 2015, OCC informed CBOE that the SEC had approved OCC's proposed rule filing for the capital plan. The SEC approval order was stayed on March 13, 2015 automatically as a result of the initiation of petitions to review the order. On September 10, 2015, the SEC issued orders that discontinued the automatic stay of the approval order and granted the petitions for the SEC to review the approval order. The SEC proceeding to review the approval order remains pending. If the SEC does not uphold the approval order, OCC will return each exchange stockholder's capital contribution with interest. The contribution has been recorded under investments in affiliates in the balance sheet at September 30, 2015.

Commercial Commitments and Contractual Obligations

The Company currently leases office space, including a remote network operations center and data center, with remaining lease terms ranging from 3 months to 118 months as of September 30, 2015. In December 2014, we entered into an agreement with FINRA to provide certain regulatory services to the CBOE and C2 options markets. The agreement included the assignment of the office space CBOE leased for regulatory operations.

Total rent expense related to current and former lease obligations for the nine months ended September 30, 2015 and 2014 were \$3.0 million and \$2.8 million, respectively. Future minimum payments under our operating leases and contractual obligations were as follows at September 30, 2015 (in thousands):

	Total(1)	Less than 1 year	1 - 3 years	3 - 5 years	More than 5 years
Operating leases	\$6,328	\$2,863	\$1,921	\$442	\$1,102
Contractual obligations (1)	239,752	30,828	66,194	56,675	86,055
Other long-term liabilities (2)	3,352	\$—	\$3,352	\$—	\$—
Total	\$249,432	\$33,691	\$71,467	\$57,117	\$87,157

(1) Contractual obligations means an agreement to purchase goods or services that is enforceable and legally binding and that specifies all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction.

(2) Other long-term liabilities represent contingent consideration of \$3.3 million related to the acquisition of Livevol.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to certain market risks, including changes in interest rates and inflation. There have been no material changes in our market risk from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting that occurred during the three months ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) The table below shows the purchases of equity securities by the Company in the three months ended September 30, 2015, reflecting the purchase of unrestricted common stock under the Company's share repurchase program:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (1)
July 1, 2015 - July 31, 2015	162,700	\$60.91	162,700	\$101,106,386
August 1, 2015 - August 31, 2015	—	—	—	101,106,386
September 1, 2015 - September 30, 2015	134,694	65.79	134,694	92,244,838
Totals	297,394	\$63.12	297,394	

In 2011, the board of directors approved an initial authorization for the Company to repurchase shares of its outstanding unrestricted common stock of \$100 million and approved additional authorizations of \$100 million in each of 2012, 2013, 2014 and May 2015 for a total authorization of \$500 million. The program permits the Company to purchase shares through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any repurchases at any specific time or situation.

The Company purchased 903 shares of unrestricted common stock at an average price of \$64.41 in the three months ended September 30, 2015 to satisfy employees' tax obligations upon the vesting of restricted stock. These purchases were not part of the publicly announced repurchase program.
