

Oaktree Capital Group, LLC
Form 10-Q
August 07, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934.

For the quarterly period ended June 30, 2014

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934.

For the transition period from _____ to _____
Commission File Number 001-35500

Oaktree Capital Group, LLC
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)
333 South Grand Avenue, 28th Floor
Los Angeles, CA 90071
Telephone: (213) 830-6300
(Address, zip code, and telephone number, including
area code, of registrant's principal executive offices)

26-0174894
(I.R.S. Employer
Identification Number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 and 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter periods that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the U.S. Securities Exchange Act of 1934, as amended (the “Exchange Act”), which reflect our current views with respect to, among other things, our future results of operations and financial performance. In some cases, you can identify forward-looking statements by words such as “anticipate,” “approximately,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “outlook,” “plan,” “potential,” “seek,” “should,” “will” and “would” or the negative version of these words or other comparable or similar words. These statements identify prospective information. Important factors could cause actual results to differ, possibly materially, from those indicated in these statements. Forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. Such forward-looking statements are subject to risks and uncertainties and assumptions relating to our operations, financial results, financial condition, business prospects, growth strategy and liquidity, including, but not limited to, changes in our anticipated revenue and income, which are inherently volatile; changes in the value of our investments; the pace of our raising of new funds; changes in assets under management; the timing and receipt of, and impact of taxes on, carried interest; distributions from and liquidation of our existing funds; the amount and timing of distributions on our Class A units; changes in our operating or other expenses; the degree to which we encounter competition; and general economic and market conditions. The factors listed in the items captioned “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2013 filed with the Securities and Exchange Commission (“SEC”) on February 28, 2014 (“annual report”), which is accessible on the SEC’s website at www.sec.gov, provide examples of risks, uncertainties and events that may cause our actual results to differ materially from the expectations described in our forward-looking statements.

Forward-looking statements speak only as of the date of this quarterly report. Except as required by law, we do not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

In this quarterly report, unless the context otherwise requires:

“Oaktree,” “OCG,” “we,” “us,” “our” or “our company” refers to Oaktree Capital Group, LLC and, where applicable, its subsidiaries and affiliates.

“Oaktree Operating Group,” or “Operating Group,” refers collectively to the entities that control the general partners and investment advisors of our funds in which we have a minority economic interest and indirect control.

“OCGH” refers to Oaktree Capital Group Holdings, L.P., a Delaware limited partnership, which holds an interest in the Oaktree Operating Group and all of our Class B units.

“OCGH unitholders” refers collectively to our Principals, current and former employees and certain other investors who hold their interest in the Oaktree Operating Group through OCGH.

“2007 Private Offering” refers to the sale completed on May 25, 2007 of 23,000,000 of our Class A units to Goldman, Sachs & Co., as initial purchaser, as more fully described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations—The May 2007 Restructuring and The 2007 Private Offering—The 2007 Private Offering” in our annual report.

“assets under management,” or “AUM,” generally refers to the assets we manage and equals the NAV (as defined below) of the assets we manage, the fund-level leverage on which management fees are charged, the undrawn capital that we are entitled to call from investors in our funds pursuant to their capital commitments, and the aggregate par value of collateral assets and principal cash held by our collateralized loan obligation vehicles (“CLOs”). Our AUM includes amounts for which we charge no fees. Our definition of AUM is not based on any definition contained in our operating agreement or the agreements governing the funds that we manage. Our calculation of AUM and the two AUM-related metrics described below may not be directly comparable to the AUM metrics of other investment managers.

“management fee-generating assets under management,” or “management fee-generating AUM,” is a forward-looking metric and reflects the AUM on which we will earn management fees in the following quarter, as more fully described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Segment and Operating Metrics—Assets Under Management—Management Fee-generating Assets Under Management.”

“incentive-creating assets under management,” or “incentive-creating AUM,” refers to the AUM that may eventually produce incentive income, as more fully described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Segment and Operating Metrics—Assets Under Management—Incentive-creating Assets Under Management.”

“consolidated funds” refers to the funds and CLOs that Oaktree consolidates through a majority voting interest or otherwise, including those funds in which Oaktree as the general partner is presumed to have control.

“funds” refers to investment funds and, where applicable, CLOs and separate accounts that are managed by us or our subsidiaries.

“initial public offering” refers to the listing of our Class A units on the New York Stock Exchange whereby Oaktree sold 7,888,864 Class A units and selling unitholders sold 954,159 Class A units, as more fully described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Initial Public Offering” in our annual report.

“Intermediate Holding Companies” collectively refers to the subsidiaries wholly owned by us.

“May 2007 Restructuring” refers to the series of transactions that occurred immediately prior to the 2007 Private Offering whereby OCGH contributed our business to the Oaktree Operating Group in exchange for limited partnership interests in each Oaktree Operating Group entity, as more fully described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations—The May 2007 Restructuring and The 2007 Private Offering—The May 2007 Restructuring” in our annual report.

“net asset value,” or “NAV,” refers to the value of all the assets of a fund (including cash and accrued interest and dividends) less all liabilities of the fund (including accrued expenses and any reserves established by us, in our discretion, for contingent liabilities) without reduction for accrued incentives (fund level) because they are reflected in the partners’ capital of the fund.

“Relevant Benchmark” refers, with respect to:

- our U.S. High Yield Bond strategy, to the Citigroup U.S. High Yield Cash-Pay Capped Index;
- our Global High Yield Bond strategy, to an Oaktree custom global high yield index that represents 60% BofA Merrill Lynch High Yield Master II Constrained Index and 40% BofA Merrill Lynch Global Non-Financial High Yield European Issuers 3% Constrained, ex-Russia Index – USD Hedged from inception through December 31, 2012, and the BofA Merrill Lynch Non-Financial Developed Markets High Yield Constrained Index – USD Hedged thereafter;
- our European High Yield Bond strategy, to the BofA Merrill Lynch Global Non-Financial High Yield European Issuers excluding Russia 3% Constrained Index (USD Hedged);
- our U.S. Senior Loan strategy (with the exception of the closed-end funds), to the Credit Suisse Leveraged Loan Index;
- our European Senior Loan strategy, to the Credit Suisse Western European Leveraged Loan Index (EUR Hedged);
- our U.S. Convertible Securities strategy, to an Oaktree custom convertible index that represents the Credit Suisse Convertible Securities Index from inception through December 31, 1999, the Goldman Sachs/Bloomberg Convertible 100 Index from January 1, 2000 through June 30, 2004 and the BofA Merrill Lynch All U.S. Convertibles Index thereafter;
 - our non-U.S. Convertible Securities strategy, to the JACI Global ex-U.S. (Local) Index;
- our High Income Convertible Securities strategy, to the Citigroup U.S. High Yield Market Index; and
- our Emerging Markets Equity strategy, to the Morgan Stanley Capital International Emerging Markets Index (Net).

“Sharpe Ratio” refers to a metric used to calculate risk-adjusted return. The Sharpe Ratio is the ratio of excess return to volatility, with excess return defined as the return above that of a riskless asset (based on the three-month U.S. Treasury bill, or for our European Senior Loan strategy, the Euro Overnight Index Average) divided by the standard deviation of such return. A higher Sharpe Ratio indicates a return that is higher than would be expected for the level of risk compared to the risk-free rate.

This quarterly report and its contents do not constitute and should not be construed as an offer of securities of any Oaktree funds.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited)

June 30, 2014

(\$ in thousands, except where noted)

1. ORGANIZATION AND BASIS OF PRESENTATION

Oaktree Capital Group, LLC (together with its subsidiaries, “Oaktree” or the “Company”) is a leader among global investment managers specializing in alternative investments. Oaktree emphasizes an opportunistic, value-oriented and risk-controlled approach to investments in distressed debt, corporate debt (including high yield debt and senior loans), control investing, convertible securities, real estate and listed equities. Funds managed by Oaktree (the “Oaktree funds”) include commingled funds, separate accounts and collateralized loan obligation vehicles (“CLOs”). Commingled funds include open-end and closed-end limited partnerships in which the Company makes an investment and for which it serves as the general partner or, in certain limited cases, co-general partner. The CLOs are closed-end investment vehicles in which the Company typically makes an investment and for which it serves as collateral manager.

Oaktree Capital Group, LLC was formed on April 13, 2007. Oaktree Capital Group Holdings GP, LLC acts as the Company’s manager and is the general partner of Oaktree Capital Group Holdings, L.P. (“OCGH”), which owns 100% of the Company’s outstanding Class B units. OCGH is owned by the Company’s Principals, current and former employees and certain other investors (the “OCGH unitholders”). The Company’s operations are conducted through a group of operating entities collectively referred to as the Oaktree Operating Group. OCGH has a direct economic interest in the Oaktree Operating Group and the Company has an indirect economic interest in the Oaktree Operating Group. An Oaktree Operating Group unit is not a legal interest but represents one limited partnership interest in each of the Oaktree Operating Group entities. The Class B units are entitled to ten votes per unit and have no economic interest in the Company, whereas the Class A units are only entitled to one vote per unit. Consequently, the OCGH unitholders’ economic interest in the Oaktree Operating Group is reflected as OCGH non-controlling interest in consolidated subsidiaries in the accompanying condensed consolidated financial statements.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information. The condensed consolidated financial statements, including these notes, are unaudited and exclude some of the disclosures required in annual financial statements. Management believes it has made all necessary adjustments (consisting of only normal recurring items) such that the condensed consolidated financial statements are presented fairly and that estimates made in preparing its condensed consolidated financial statements are reasonable and prudent. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. The condensed consolidated financial statements include the accounts of the Company, its wholly-owned or majority-owned subsidiaries, the consolidated entities that are considered to be variable interest entities (“VIEs”) and for which the Company is considered the primary beneficiary, and certain entities that are not considered VIEs but in which the Company has a controlling financial interest. Most of the Oaktree funds consolidated by the Company are investment companies that follow a specialized basis of accounting established under GAAP. All intercompany transactions and balances have been eliminated in consolidation. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements of the Company for the year ended December 31, 2013 included in the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission (“SEC”) on February 28, 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Consolidation

The Company consolidates those entities where it has a direct or indirect controlling financial interest based on either a variable interest model or voting interest model. As of June 30, 2014, this included five VIEs for which the Company is considered the primary beneficiary, and substantially all of Oaktree’s closed-end, commingled open-end and evergreen funds for which the Company acts as the sole general partner and is deemed to control through a voting

interest model.

Variable Interest Model. The Company consolidates VIEs for which it is considered the primary beneficiary. An entity is determined to be the primary beneficiary if it holds a controlling financial interest. A

8

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

controlling financial interest is defined as (a) the power to direct the activities of a VIE that most significantly impact the entity's business and (b) the obligation to absorb losses of the entity or the right to receive benefits from the entity that could potentially be significant to the VIE. The consolidation model for VIEs, which was revised effective January 1, 2010, requires an analysis to determine (a) whether an entity in which the Company holds a variable interest is a VIE and (b) whether the Company's involvement, through holding interests directly or indirectly in the entity or contractually through other variable interests (e.g., management and performance-related fees), would give it a controlling financial interest. The consolidation model for VIEs may be deferred if the VIE and the reporting entity's interest in the VIE meet the deferral conditions set forth in Accounting Standards Codification ("ASC")

810-10-65-2(aa). If a VIE has met the deferral conditions, the analysis is based on the consolidation model for VIEs prior to January 1, 2010, which requires an analysis to determine (a) whether an entity in which the Company holds a variable interest is a VIE and (b) whether the Company's involvement through holding interests directly or indirectly in the entity or contractually through other variable interests (e.g., management and performance-related fees) would be expected to absorb a majority of the variability of the entity. Under either model, the Company determines whether it is the primary beneficiary of a VIE at the time it becomes involved with a VIE and reconsiders that conclusion at each reporting date. In evaluating whether the Company is the primary beneficiary, the Company evaluates its economic interests in the entity held either directly by the Company or indirectly through related parties. The consolidation analysis can generally be performed qualitatively; however, if it is not readily apparent that the Company is not the primary beneficiary, a quantitative analysis may also be performed. Investments and redemptions (either by the Company, affiliates of the Company or third parties) or amendments to the governing documents of the respective Oaktree funds could affect an entity's status as a VIE or the determination of the primary beneficiary.

While the Company holds variable interests in the Oaktree funds, most of those funds do not meet the characteristics of a VIE. As of June 30, 2014, the Company consolidated five VIEs for which it was the primary beneficiary, including Oaktree AIF Holdings, Inc. ("AIF"), which was formed to hold certain assets for regulatory and other purposes and is immaterial to the Company. The four remaining VIEs represented CLOs, two of which had not priced as of June 30, 2014, for which the Company acts as collateral manager. As of June 30, 2014 and December 31, 2013, there were no VIEs for which the Company was not the primary beneficiary. As of December 31, 2013, the Company consolidated two VIEs.

As of June 30, 2014, the Company consolidated four CLOs with total assets and liabilities of \$1.4 billion and \$1.2 billion, respectively. The assets and liabilities of the CLOs primarily consist of investments in debt securities and loans issued by the CLOs, respectively. The loans issued by each CLO are collateralized by the investments held by the CLO, and assets of one CLO may not be used to satisfy liabilities of another. In exchange for managing the collateral of the CLOs, the Company typically earns management fees and may earn performance fees, all of which are eliminated in consolidation. As of June 30, 2014, the Company had invested an aggregate \$127.0 million in its CLOs, which represented its maximum risk of loss. The Company's investments in the CLOs are generally subordinated to other interests in the CLOs and entitle the Company to receive a pro-rata portion of the residual cash flows, if any, from the CLOs. Investors in the CLOs have no recourse against the Company for any losses sustained in the CLO structure.

Voting Interest Model. For entities that are not VIEs, the Company evaluates those entities that it controls through a majority voting interest, including those Oaktree funds in which the Company as the sole general partner is presumed to have control (together with the CLOs, the "consolidated funds"). Although as general partner the Company typically has only a small, single-digit percentage equity interest in each fund, the funds' third-party limited partners do not have the right to dissolve the partnerships or have substantive kick-out or participating rights that would overcome the presumption of control by the Company.

Accordingly, Oaktree's condensed consolidated financial statements reflect the assets, liabilities, revenues, expenses and cash flows of the consolidated funds on a gross basis, and the majority of the economic interests in those funds,

which are held by third-party investors, are attributed to non-controlling redeemable interests in consolidated funds in the accompanying condensed consolidated financial statements. All of the revenues earned by Oaktree from those funds are eliminated in consolidation. However, because the eliminated amounts are earned from and funded by non-controlling interests, Oaktree's attributable share of the net income from those funds is increased by the amounts eliminated. Thus, the elimination of those amounts in consolidation has no effect on net

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

income or loss attributable to the Company. All intercompany transactions and balances have been eliminated in consolidation.

Certain funds for which the Company shares general partner responsibilities or where the Company has no general partner responsibility but has the ability to exert significant influence through other means are accounted for under the equity method of accounting.

Non-controlling Redeemable Interests in Consolidated Funds

The Company records non-controlling interests to reflect the economic interests of the unaffiliated limited partners. These interests are presented as non-controlling redeemable interests in consolidated funds within the condensed consolidated statements of financial condition, outside of the permanent capital section. Limited partners in open-end and evergreen funds generally have the right to withdraw their capital, subject to the terms of the respective limited partnership agreements, over periods ranging from one month to three years. While limited partners in consolidated closed-end funds generally have not been granted redemption rights, these limited partners do have withdrawal or redemption rights in certain limited circumstances that are beyond the control of the Company, such as instances in which retaining the limited partnership interest could cause the limited partner to violate a law, regulation or rule. The allocation of net income or loss to non-controlling redeemable interests in consolidated funds is based on the relative ownership interests of the unaffiliated limited partners after the consideration of contractual arrangements that govern allocations of income or loss. At the consolidated level, potential incentives are allocated to non-controlling redeemable interests in consolidated funds until such incentives become allocable to the Company under the substantive contractual terms of the limited partnership agreements of the funds.

Non-controlling Interests in Consolidated Funds

Non-controlling interests in consolidated funds represent the equity interests held by third-party investors in CLOs that had not yet priced as of the respective period end. All non-controlling interests in those CLOs are attributed a share of income or loss arising from the respective CLO based on the relative ownership interests of third-party investors after consideration of contractual arrangements that govern allocations of income or loss. Investors in those CLOs are generally unable to redeem their interests until the CLO liquidates or otherwise terminates.

Fair Value of Financial Instruments

GAAP establishes a hierarchical disclosure framework that prioritizes the inputs used in measuring financial instruments at fair value into three levels based on their market observability. Market price observability is affected by a number of factors, such as the type of instrument and the characteristics specific to the instrument. Financial instruments with readily available quoted prices from an active market or for which fair value can be measured based on actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment inherent in measuring fair value.

Financial assets and liabilities measured and reported at fair value are classified as follows:

Level I – Quoted unadjusted prices for identical instruments in active markets to which the Company has access at the date of measurement. The types of investments in Level I include exchange-traded equities, debt and derivatives with quoted prices.

Level II – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are directly or indirectly observable. Level II inputs include interest rates, yield curves, volatilities, prepayment risks, loss severities, credit risks and default rates. The types of investments in Level II generally include corporate bonds and loans, government and agency securities, less liquid and restricted equity investments, over-the-counter traded derivatives, and other investments where the fair value is based on observable inputs.

Level III – Valuations for which one or more significant inputs are unobservable. These inputs reflect the Company's assessment of the assumptions that market participants use to value the investment based on

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

the best available information. Level III inputs include prices of quoted securities in markets for which there are few transactions, less public information exists or prices vary among brokered market makers. The types of investments in Level III include non-publicly traded equity, debt, real estate and derivatives.

In some instances, an instrument may fall into multiple levels of the fair-value hierarchy. In such instances, the instrument's level within the fair-value hierarchy is based on the lowest of the three levels (with Level III being the lowest) that is significant to the fair-value measurement. The Company's assessment of the significance of an input requires judgment and considers factors specific to the instrument. The Company accounts for the transfer of assets into or out of each fair-value hierarchy level as of the beginning of the reporting period.

In the absence of observable market prices, the Company values Level III investments using valuation methodologies applied on a consistent basis. The quarterly valuation process for Level III investments begins with each portfolio company, property or security being valued by the investment or valuation teams. The valuations are then reviewed and approved by the valuation team and the valuation committee of each investment strategy, which consists of senior members of the investment team. All Level III investment values are ultimately approved by the valuation committees and designated investment professionals, as well as the valuation officer, who is independent of the investment teams and reports directly to the Company's Managing Principal. For certain investments, the valuation process also includes a review by independent valuation parties, at least annually, to determine whether the fair values determined by management are reasonable. Results of the valuation process are evaluated each quarter, including an assessment of whether the underlying calculations should be adjusted or recalibrated. In connection with this process, the Company evaluates changes in fair-value measurements from period to period for reasonableness, considering items such as industry trends, general economic and market conditions, and factors specific to the investment.

Certain Level III assets are valued using prices obtained from brokers or pricing vendors. The Company obtains an average of one to two broker quotes. The Company seeks to obtain at least one quote directly from a broker making a market for the asset and one price from a pricing vendor for the subject or similar securities. These investments are classified as Level III because the quoted prices may be indicative in nature for securities that are in an inactive market, may be for similar securities, or may require adjustment for investment-specific factors or restrictions. Generally, the Company does not adjust any of the prices received from these sources, and all prices are reviewed by the Company. The Company evaluates the prices obtained from brokers or pricing vendors based on available market information, including trading activity of the subject or similar securities, or by performing a comparable security analysis to ensure that fair values are reasonably estimated. The Company also performs back-testing of valuation information obtained from brokers and pricing vendors against actual prices received in transactions. In addition to on-going monitoring and back-testing, the Company performs due diligence procedures over pricing vendors to understand their methodology and controls to support their use in the valuation process.

Fair Value Option

The Company has elected the fair value option for certain corporate investments that otherwise would not have reflected unrealized gains and losses in current-period earnings. Such election is irrevocable and is applied on an investment-by-investment basis at initial recognition. Unrealized gains and losses resulting from changes in fair value are reflected as a component of investment income in the condensed consolidated statements of operations. The Company's accounting for those investments is similar to its accounting for investments held by the consolidated funds at fair value and the valuation methods used to determine the fair value of those investments.

In addition, the Company has elected the fair value option for the assets of its CLOs. Assets of the CLOs are included in investments, at fair value and liabilities are reflected in collateralized loan obligation loans payable in the condensed consolidated statements of financial condition. The Company's accounting for CLOs is similar to its accounting for closed-end funds with respect to both carrying investments held by CLOs at fair value and the valuation methods used to determine the fair value of those investments. Realized gains or losses and changes in the fair value of consolidated CLO assets are included in net realized gain on consolidated funds' investments and net

change in unrealized appreciation (depreciation) on consolidated funds' investments, respectively, in the condensed consolidated statements of operations. Interest income of CLOs is included in interest and dividend income, while their interest expense and other expenses are included in interest expense and consolidated fund expenses, respectively, in the condensed consolidated statements of operations.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

Investments, at Fair Value

The consolidated funds are primarily investment limited partnerships that reflect their investments, including majority-owned and controlled investments, at fair value. The Company has retained the specialized investment company accounting guidance under GAAP for those consolidated funds with respect to consolidated investments. Thus, the consolidated investments are reflected in the condensed consolidated statements of financial condition at fair value, with unrealized gains and losses resulting from changes in fair value reflected as a component of net change in unrealized appreciation on consolidated funds' investments in the condensed consolidated statements of operations. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price).

Non-publicly traded debt and equity securities and other securities or instruments for which reliable market quotations are not available are valued by management using valuation methodologies applied on a consistent basis. These securities may initially be valued at the acquisition price as the best indicator of fair value. The Company reviews the significant unobservable inputs, valuations of comparable investments and other similar transactions for investments valued at acquisition price to determine whether another valuation methodology should be utilized. Subsequent valuations will depend on the facts and circumstances known as of the valuation date and the application of valuation methodologies further described below under “—Non-publicly Traded Equity and Real Estate Investments.” The fair value may also be based on a pending transaction expected to close after the valuation date.

Exchange-traded Investments

Securities listed on one or more national securities exchanges are valued at their last reported sales price on the date of valuation. If no sale occurred on the valuation date, the security is valued at the mean of the last “bid” and “ask” prices on the valuation date. Securities that are not readily marketable due to legal restrictions that may limit or restrict transferability are generally valued at a discount from quoted market prices. The discount would reflect the amount market participants would require due to the risk relating to the inability to access a public market for the security for the specified period and would vary depending on the nature and duration of the restriction and the perceived risk and volatility of the underlying securities. Securities with longer duration restrictions or higher volatility are generally valued at a higher discount. Such discounts are generally estimated based on put option models or an analysis of market studies. Instances where the Company has applied discounts to quoted prices of restricted listed securities have been infrequent. The impact of such discounts is not material to the Company's condensed consolidated statements of financial condition and results of operations for all periods presented.

Credit-oriented Investments (including Real Estate Loan Portfolios)

Investments in corporate and government debt which are not listed or admitted to trading on any securities exchange are valued at the mean of the last bid and ask prices on the valuation date based on quotations supplied by recognized quotation services or by reputable broker-dealers.

The market-yield approach is considered in the valuation of non-publicly traded debt securities, utilizing expected future cash flows and discounted using estimated current market rates. Discounted cash-flow calculations may be adjusted to reflect current market conditions and/or the perceived credit risk of the borrower. Consideration is also given to a borrower's ability to meet principal and interest obligations; this may include an evaluation of collateral and/or the underlying value of the borrower utilizing techniques described below under “—Non-publicly Traded Equity and Real Estate Investments.”

Non-publicly Traded Equity and Real Estate Investments

The fair value of equity and real estate investments is determined using a cost, market or income approach. The cost approach is based on the current cost of reproducing a real estate investment less deterioration and functional and economic obsolescence. The market approach utilizes valuations of comparable public companies and transactions, and generally seeks to establish the enterprise value of the portfolio company or investment property using a market-multiple methodology. This approach takes into account the financial measure (such as EBITDA, adjusted

EBITDA, free cash flow, net operating income, net income, book value or net asset value) believed to be most relevant for the given company or investment property. Consideration also may be given to factors such as acquisition price of the security or investment property, historical and projected operational and financial results for the portfolio company, the strengths and weaknesses of the portfolio company or investment

12

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

property relative to its comparable companies or properties, industry trends, general economic and market conditions, and others deemed relevant. The income approach is typically a discounted cash-flow method that incorporates expected timing and level of cash flows. It incorporates assumptions in determining growth rates, income and expense projections, discount and capitalization rates, capital structure, terminal values, and other factors. The applicability and weight assigned to market and income approaches are determined based on the availability of reliable projections and comparable companies and transactions.

The valuation of securities may be impacted by expectations of investors' receptiveness to a public offering of the securities, the size of the holding of the securities and any associated control, information with respect to transactions or offers for the securities (including the transaction pursuant to which the investment was made and the elapsed time from the date of the investment to the valuation date), and applicable restrictions on the transferability of the securities.

These valuation methodologies involve a significant degree of management judgment. Accordingly, valuations by the Company do not necessarily represent the amounts that may eventually be realized from sales or other dispositions of investments. Fair values may differ from the values that would have been used had a ready market for the investment existed, and the differences could be material to the condensed consolidated financial statements.

Recent Accounting Developments

In August 2014, the Financial Accounting Standards Board ("FASB") issued guidance on measuring the financial assets and financial liabilities of a consolidated collateralized financing entity. The guidance applies to reporting entities that are required to consolidate a collateralized financing entity under the VIE guidance when (a) the reporting entity measures all of the financial assets and financial liabilities of that consolidated financing entity at fair value in the consolidated financial statements and (b) the changes in the fair values of those financial assets and financial liabilities are reflected in earnings. The guidance provides an alternative for measuring the financial assets and financial liabilities of a consolidated collateralized financing entity to eliminate differences in the fair value of those financial assets and financial liabilities as determined under GAAP. The guidance is effective for the Company in the first quarter of 2016, with early adoption permitted. The Company is currently evaluating the effect that adoption may have on its condensed consolidated financial statements.

In May 2014, the FASB and International Accounting Standards Board issued converged guidance on revenue recognition, which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The guidance provides a largely principles-based framework for addressing revenue recognition issues on a comprehensive basis, eliminates an entity's ability to recognize revenue if there is risk of significant reversal, and requires enhanced disclosures to provide greater insight into both revenue that has been recognized and revenue that is expected to be recognized in the future from existing contracts, including quantitative and qualitative information about significant judgments and changes in those judgments made by management in recognizing revenue. The guidance is effective for the Company in the first quarter of 2017, with retrospective application. The Company is currently evaluating the effect that adoption may have on its condensed consolidated financial statements.

In June 2013, the FASB issued guidance that amended the criteria by which an entity qualifies as an investment company for accounting purposes. The guidance also clarified the characteristics of an investment company and provided measurement and disclosure requirements for an investment company. The Company adopted this guidance in the first quarter of 2014, which resulted in additional disclosures (please see note 12), but did not have a material impact on its condensed consolidated financial statements.

As of June 30, 2014, investments in securities of one issuer had a fair value that represented 5.4%, or \$2.4 billion, of Oaktree's total consolidated net assets. These fixed income type securities are included in the table above within the United States–Utilities category and had a total principal amount of \$2.9 billion with maturities ranging from 2014 to 2021 and interest rates ranging from LIBOR plus a spread of 3% to 15%. As of December 31, 2013, no single issuer or investment had a fair value that exceeded 5% of Oaktree's total consolidated net assets.

Net Gains From Investment Activities of Consolidated Funds

Net gains from investment activities in the condensed consolidated statements of operations consist primarily of the realized and unrealized gains and losses on the consolidated funds' investments (including foreign exchange gains and losses attributable to foreign-denominated investments and related activities) and other financial instruments.

Unrealized gains or losses result from changes in the fair value of these investments and other financial instruments.

Upon disposition of an investment, unrealized gains or losses are reversed and an offsetting realized gain or loss is recognized in the current period.

The following table summarizes net gains (losses) from investment activities:

	Three Months Ended June 30, 2014		2013	
	Net Realized Gain (Loss) on Investments	Net Change in Unrealized Appreciation (Depreciation) on Investments	Net Realized Gain (Loss) on Investments	Net Change in Unrealized Appreciation (Depreciation) on Investments

4. FAIR VALUE

Fair Value of Financial Assets and Liabilities

The short-term nature of cash and cash-equivalents, receivables and accounts payable causes each of their carrying values to approximate fair value. The fair value of short-term investments included in cash and cash-equivalents is a Level I valuation. The fair value of the Company's other financial instruments by fair-value hierarchy level is set forth below:

	As of June 30, 2014				As of December 31, 2013			
	Level I	Level II	Level III	Total	Level I	Level II	Level III	Total
Assets								
U.S. Treasury securities ⁽¹⁾	\$405,089	\$—	\$—	\$405,089	\$676,600	\$—	\$—	\$676,600
Forward contracts ⁽²⁾	—	3,641	—	3,641	—	7,893	—	7,893
Total-return swap ⁽²⁾	—	—	—	—	—	4,515	—	4,515
Total assets	\$405,089	\$3,641	\$—	\$408,730	\$676,600	\$12,408	\$—	\$689,008
Liabilities								
Forward contracts ⁽³⁾	\$—	\$(2,670)	\$—	\$(2,670)	\$—	\$(6,141)	\$—	\$(6,141)
Interest-rate swaps ⁽³⁾	—	(3,648)	—	(3,648)	—	(4,171)	—	(4,171)
Total liabilities	\$—	\$(6,318)	\$—	\$(6,318)	\$—	\$(10,312)	\$—	\$(10,312)

(1) The carrying value approximates fair value due to the short-term nature.

(2) Amounts are included in other assets in the condensed consolidated statements of financial condition.

(3) Amounts are included in accounts payable, accrued expenses and other liabilities in the condensed consolidated statements of financial condition.

Total realized and unrealized gains and losses recorded for Level III investments are included in net realized gain on consolidated funds' investments or net change in unrealized appreciation on consolidated funds' investments in the condensed consolidated statements of operations.

Transfers between Level I and Level II positions for the three and six months ended June 30, 2014 included \$104.4 million and \$739.7 million, respectively, from Level II to Level I, due to the removal of discounts on three exchange-traded common equity investments upon the expiration of lockup periods and increased trading volume for one exchange-traded common equity investment. There were no transfers between Level I and Level II positions for the three months ended June 30, 2013. Transfers between Level I and Level II positions for the six months ended June 30, 2013 included \$1.1 billion from Level II to Level I for an investment in common equity that began trading on a securities exchange.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

Transfers out of Level III were generally attributable to certain investments that experienced a more significant level of market activity during the period and thus were valued using observable inputs. Transfers into Level III were typically due to certain investments that experienced a less significant level of market activity during the period or portfolio companies that undertook restructurings or bankruptcy proceedings and thus were valued in the absence of observable inputs.

The following table sets forth a summary of the valuation technique and quantitative information utilized in determining the fair value of the consolidated funds' Level III investments as of June 30, 2014:

Investment Type	Fair Value	Valuation Technique	Significant Unobservable Inputs ⁽⁹⁾⁽¹⁰⁾⁽¹¹⁾	Range	Weighted Average ⁽¹²⁾

Total Level III investments	\$21,465,845				

A discounted cash-flow method is generally used to value performing credit-oriented investments in which the (1) consolidated funds do not have a controlling interest in the underlying issuer, as well as certain equity investments, real estate-oriented investments and real estate loan portfolios.

(2) A market approach is generally used to value distressed investments and investments in which the consolidated funds have a controlling interest in the underlying issuer.

Earnings multiples are based on comparable public companies and transactions with comparable companies. The Company typically utilizes multiples of EBITDA; however, in certain cases the Company may use other earnings (3) multiples believed to be most relevant to the investment. The Company typically applies the multiple to trailing twelve-months' EBITDA. However, in certain cases other earnings measures, such as pro forma EBITDA, may be utilized if deemed to be more relevant.

A market approach using the value of underlying assets utilizes a multiple, based on comparable companies, of (4) underlying assets or the net book value of the portfolio company. The Company typically obtains the value of underlying assets from the underlying portfolio company's financial statements or from pricing vendors. The Company may value the underlying assets by using prices and other relevant information from market transactions involving comparable assets.

Certain investments are valued based on recent transactions, generally defined as investments purchased or sold (5) within six months of the valuation date. The fair value may also be based on a pending transaction expected to close after the valuation date.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

Certain investments are valued using quoted prices for the subject or similar securities. Generally, investments valued in this manner are classified as Level III because the quoted prices may be indicative in nature for securities that are in an inactive market, may be for similar securities, or may require adjustment for investment-specific factors or restrictions.

The discounted cash flow model for certain real estate-oriented investments and certain real estate loan portfolios contains a sell-out analysis. In these cases, the discounted cash flow is based on the expected timing and prices of sales of the underlying properties. The Company's determination of the sales prices of these properties typically includes consideration of prices and other relevant information from market transactions involving comparable properties.

The sales approach uses prices and other relevant information generated by market transactions involving comparable assets. The significant unobservable inputs used in the sales approach generally include adjustments to transactions involving comparable assets or properties, adjustments to external or internal appraised values, and the Company's assumptions regarding market trends or other relevant factors.

The discount rate is the significant unobservable input used in the fair-value measurement of performing credit-oriented investments in which the consolidated funds do not have a controlling interest in the underlying issuer, as well as certain equity investments and real estate loan portfolios. An increase (decrease) in the discount rate would result in a lower (higher) fair-value measurement.

Multiple of either earnings or underlying assets is the significant unobservable input used in the market approach for the fair-value measurement of distressed credit-oriented investments, credit-oriented investments in which the consolidated funds have a controlling interest in the underlying issuer, equity investments and certain real estate-oriented investments. An increase (decrease) in the multiple would result in a higher (lower) fair-value measurement.

The significant unobservable inputs used in the fair-value measurement of real estate investments utilizing a discounted cash flow analysis can include one or more of the following: discount rate, terminal capitalization rate, direct capitalization rate, net operating income growth rate or absorption rate. An increase (decrease) in a discount rate, terminal capitalization rate or direct capitalization rate would result in a lower (higher) fair-value measurement. An increase (decrease) in a net operating income growth rate or absorption rate would result in a higher (lower) fair-value measurement. Generally, a change in a net operating income growth rate or absorption rate would be accompanied by a directionally similar change in the discount rate.

The weighted average is based on the fair value of the investments included in the range.

A significant amount of judgment may be required when using unobservable inputs, including assessing the accuracy of source data and the results of pricing models. The Company assesses the accuracy and reliability of the sources it uses to develop unobservable inputs. These sources may include third-party vendors that the Company believes are reliable and commonly utilized by other market place participants. As described in note 2, other factors beyond the unobservable inputs described above may have a significant impact on investment valuations.

During the six months ended June 30, 2014, the valuation technique for one Level III equity security and one Level III credit-oriented security changed from a valuation based on recent market information to a market approach based on comparable companies, because the investee underwent a restructuring and its securities are no longer traded.

Additionally, the valuation technique for one Level III equity security and one Level III credit-oriented security changed from a valuation based on a discounted cash flow to a market approach based on comparable companies as a result of the evolution of the underlying investments. During the six months ended June 30, 2013, one real estate-oriented investment commenced trading on a securities exchange, causing its valuation technique to change from a market approach based on the value of underlying assets to a valuation based on recent market information, as adjusted for factors stemming from the structure of the equity interests owned by the consolidated funds.

5. HEDGES AND OTHER DERIVATIVE INSTRUMENTS

The Company enters into derivative instruments as part of its overall risk management strategy or to facilitate its investment management activities. Risks associated with fluctuations in interest rates and foreign currency exchange rates in the normal course of business are addressed as part of the Company's overall risk management strategy that may include the use of derivative instruments to economically hedge or reduce these exposures. From time to time, the Company may enter into (a) foreign currency option and forward contracts to reduce earnings and cash flow volatility associated with changes in foreign currency exchange rates, and (b) interest-rate swaps to manage all or a portion of the interest-rate risk associated with its variable rate borrowings. As a result of the use of these or other derivative contracts, the Company is exposed to the risk that counterparties will fail to fulfill their contractual obligations. The Company attempts to mitigate this counterparty risk by entering into derivative contracts only with major financial institutions that have investment-grade credit ratings. Counterparty credit risk is evaluated in determining the fair value of derivative instruments.

In January 2013, the Company entered into an interest-rate swap with a notional value of \$175.0 million, of which \$168.8 million was designated to hedge a portion of the interest-rate risk associated with its variable-rate borrowings. As of June 30, 2014, the Company had two interest-rate swaps designated as cash-flow hedges with a combined notional value of \$363.8 million. These hedges continued to be effective as of that date. As of December 31, 2013, the Company had two interest-rate swaps designated as cash-flow hedges with a combined notional value of \$378.8 million.

In August 2013, to facilitate its investment management activities, the Company entered into a two-year total return swap ("TRS") agreement with a financial institution to meet certain investment objectives for which the primary risk exposure was credit. Pursuant to the TRS agreement, the Company had deposited \$50.0 million in cash collateral with the counterparty and had the ability to access up to \$200.0 million of U.S. dollar-denominated debt securities underlying the TRS.

In February 2014, the Company closed its TRS position resulting in realized gains of \$7.1 million, of which \$1.4 million was received in cash. In connection with the launch of a CLO, the Company purchased the underlying reference securities that were held by the counterparty at fair value totaling \$312.9 million and interest receivable of \$1.0 million. The Company paid \$258.2 million in cash, net of the \$50.0 million cash deposit and \$5.7 million of realized gains due from the counterparty under the TRS agreement. The CLO was funded with net proceeds of \$450.0 million in cash from the issuance of \$456.0 million in senior secured notes to a third party, net of \$6.0 million in debt issuance costs, and \$60.2 million in contributions made by the Company. Please see note 6 for more information regarding CLO loans payable.

Freestanding derivatives are instruments that the Company enters into as part of its overall risk management strategy but does not designate as hedging instruments for accounting purposes. These instruments may include foreign currency exchange contracts, interest-rate swaps and other derivative contracts.

The fair value of forward currency sell contracts consisted of the following:

	Contract Amount in Local Currency	Contract Amount in U.S. Dollars	Market Value in U.S. Dollars	Net Unrealized Appreciation (Depreciation)
As of June 30, 2014:				
Euro, expiring 7/8/14-4/8/15	140,955	\$191,397	\$193,177	\$ (1,780)
USD (buy GBP), expiring 7/31/14-6/30/15	77,385	77,385	74,707	2,678
Japanese Yen, expiring 7/31/14-6/30/15	7,302,300	72,279	72,206	73
Total		\$341,061	\$340,090	\$ 971
As of December 31, 2013:				
Euro, expiring 1/8/14-10/31/14	115,685	\$153,959	\$159,485	\$ (5,526)
USD (buy GBP), expiring 1/8/14-9/30/14	54,361	54,361	50,286	4,075
GBP, expiring 4/30/14	3,000	4,643	4,966	(323)
Japanese Yen, expiring 1/31/14-1/30/15	6,261,700	63,107	59,581	3,526
Total		\$276,070	\$274,318	\$ 1,752

The fair value of the TRS contract as of December 31, 2013 is included in other assets in the condensed consolidated statements of financial condition and is shown below. There were no TRS positions outstanding as of June 30, 2014.

	As of December 31, 2013	
	Notional	Fair Value
Total-return swap	\$189,089	\$4,515

Realized and unrealized gains and losses arising from freestanding derivative instruments were recorded on the condensed consolidated statements of operations as follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2014	2013	2014	2013
Foreign Currency Forward Contracts:				
General and administrative expenses ⁽¹⁾	\$2,142	\$490	\$1,094	\$4,849
Total-return Swap:				
Investment income	\$—	\$—	\$2,554	\$—

To the extent that the Company's freestanding derivatives are utilized to hedge its exposure to investment income and management fees earned from consolidated funds, the related hedged items are eliminated in consolidation, with the derivative impact (a positive number reflects a reduction of expenses) reflected in consolidated general and administrative expenses.

As of both June 30, 2014 and December 31, 2013, the Company had not designated any derivatives as fair-value hedges or hedges of net investments in foreign operations.

Derivatives Held By Consolidated Funds

Certain consolidated funds utilize derivative instruments in ongoing investment operations. These derivatives primarily consist of foreign currency forward contracts and options utilized to manage currency risk, interest-rate swaps to hedge interest-rate risk, options and futures used to hedge exposure for specific securities, and total-return and credit-default swaps utilized mainly to obtain exposure to leveraged loans or to participate in foreign markets not readily accessible. The primary risk exposure for options and futures is price, while the primary risk exposure for total-return and credit-default swaps is credit. None of the derivative instruments are accounted for as hedging instruments utilizing hedge accounting.

The average notional amounts of foreign currency and total return swap contracts outstanding during the six months ended June 30, 2014 were \$4.5 billion long and \$300.0 million short, and \$1,059.8 million long and \$22.8 million short, respectively.

The impact of derivative instruments held by the consolidated funds on the condensed consolidated statements of operations was as follows:

	Three Months Ended June 30,

Balance Sheet Offsetting

The Company recognizes all derivatives as assets or liabilities at fair value in its condensed consolidated statements of financial condition. In connection with its derivative activities, the Company generally enters into agreements subject to enforceable master netting arrangements that allow the Company to offset derivative assets and liabilities in the same currency by specific derivative type or, in the event of default by the counterparty, to offset derivative assets and liabilities with the same counterparty. The table below sets forth the rights of setoff and related arrangements associated with derivative instruments held by the Company. The “gross amounts not offset in statements of financial condition” column in the table below relates to derivative instruments that are eligible to be offset in accordance with applicable accounting guidance, but for which management has elected not to offset in the condensed consolidated statements of financial condition.

As of June 30, 2014	Gross Amounts of Assets (Liabilities)	Gross Amounts Offset in Assets (Liabilities)	Net Amounts of Assets (Liabilities) Presented	Gross Amounts Not Offset in Statements of Financial Condition		Net Amount

6. DEBT OBLIGATIONS AND CREDIT FACILITIES

The Company's debt obligations are set forth below:

	As of June 30, 2014	December 31, 2013
\$75,000, 5.03%, issued in June 2004, payable in seven equal annual installments starting June 14, 2008	\$—	\$10,714
\$50,000, 6.09%, issued in June 2006, payable on June 6, 2016	50,000	50,000
\$50,000, 5.82%, issued in November 2006, payable on November 8, 2016	50,000	50,000
\$250,000, 6.75%, issued in November 2009, payable on December 2, 2019	250,000	250,000
\$250,000, variable rate term loan issued in December 2012, payable 2.5% per quarter through September 2017, final \$125,000 payment on December 21, 2017, prepaid in March 2014	—	218,750
\$250,000, rate as described below, term loan issued in March 2014, payable on March 31, 2019	250,000	—
Total remaining principal	\$600,000	\$579,464
Future scheduled principal payments of debt obligations as of June 30, 2014 were as follows:		
Remainder of 2014		\$—
2015		—
2016		100,000
2017		—
2018		—
Thereafter		500,000
Total		\$600,000

The Company was in compliance with all financial covenants associated with its senior notes and credit facility as of June 30, 2014 and December 31, 2013.

The fair value of the Company's debt obligations, which are carried at amortized cost, is a Level III valuation that is estimated based on a discounted cash-flow calculation using estimated rates that would be offered to Oaktree for debt of similar terms and maturities. The fair value of these debt obligations was \$654.5 million and \$611.1 million as of June 30, 2014 and December 31, 2013, respectively, utilizing an average borrowing rate of 2.9% and 3.2%, respectively. As of June 30, 2014, a 10% increase in the assumed average borrowing rate would lower the estimated fair value to \$649.7 million, whereas a 10% decrease would increase the estimated fair value to \$659.3 million.

In July 2014, the Company's subsidiaries Oaktree Capital Management, L.P. (the "Issuer") and Oaktree Capital I, L.P., Oaktree Capital II, L.P. and Oaktree AIF Investments, L.P. (the "Guarantors" and together with the Issuer, the "Obligors") entered into a note and guarantee agreement (the "Note Agreement") with certain accredited investors (collectively, the "Investors") pursuant to which the Issuer agreed to issue and sell to the Investors \$50 million aggregate principal amount of its 3.91% Senior Notes, Series A, due September 3, 2024 (the "Series A Notes"), \$100 million aggregate principal amount of its 4.01% Senior Notes, Series B, due September 3, 2026 (the "Series B Notes") and \$100 million aggregate principal amount of its 4.21% Senior Notes, Series C, due September 3, 2029 (the "Series C Notes" and together with the Series A Notes and the Series B Notes, the "Notes"). The Notes will be senior unsecured obligations of the Issuer, guaranteed by the Guarantors on a joint and several basis. Interest on the Notes is payable semi-annually.

The funding of this transaction is expected to occur on September 3, 2014.

The Note Agreement provides for certain affirmative and negative covenants, including financial covenants relating to the Obligors' combined leverage ratio and minimum assets under management. In addition, the Note Agreement

contains customary representations and warranties of the Obligors and customary events of default, in

32

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

certain cases, subject to cure periods. The Issuer may prepay all, or from time to time any part of, the Notes at any time, subject to the Issuer's payment of the applicable make-whole amount determined with respect to such principal amount prepaid. Upon the occurrence of a change of control, the Issuer will be required to make an offer to prepay the Notes together with the applicable make-whole amount determined with respect to such principal amount prepaid. In March 2014, the Company's subsidiaries Oaktree Capital Management, L.P., Oaktree Capital II, L.P., Oaktree AIF Investments, L.P. and Oaktree Capital I, L.P. entered into a credit agreement with a bank syndicate for senior unsecured credit facilities (the "Credit Facility"), consisting of a \$250 million fully-funded term loan (the "Term Loan") and a \$500 million revolving credit facility (the "Revolver"), each with a five-year term. The Credit Facility replaced the amortizing term loan, which had a principal balance of \$218.8 million, and the undrawn revolver under the Company's prior credit facility. The Term Loan matures in March 2019, at which time the entire principal amount of \$250 million is due. Borrowings under the Credit Facility generally bear interest at a spread to either LIBOR or an alternative base rate. Based on the current credit ratings of Oaktree Capital Management, L.P., the interest rate on borrowings is LIBOR plus 1.00% per annum and the commitment fee on the unused portions of the Revolver is 0.125% per annum. Utilizing interest-rate swaps, the majority of the Term Loan's annual interest rate is fixed at 2.69% through January 2016 and 2.22% for the twelve months thereafter, based on the current credit ratings of Oaktree Capital Management, L.P. The Credit Facility contains customary financial covenants and restrictions, including ones regarding a maximum leverage ratio of 3.0-to-1.0 and a minimum required level of assets under management (as defined in the credit agreement) of \$50 billion. As of June 30, 2014, the Company had no outstanding borrowings under the Revolver and was able to draw the full amount available without violating any financial covenants.

Credit Facilities of the Consolidated Funds

Certain consolidated funds maintain revolving credit facilities to fund investments between capital drawdowns. These facilities generally (a) are collateralized by the unfunded capital commitments of the consolidated funds' limited partners, (b) bear an annual commitment fee based on unfunded commitments, and (c) contain various affirmative and negative covenants and reporting obligations, including restrictions on additional indebtedness, liens, margin stock, affiliate transactions, dividends and distributions, release of capital commitments, and portfolio asset dispositions. Additionally, certain consolidated funds have issued senior variable rate notes to fund investments on a longer term basis, generally up to ten years. The obligations of the consolidated funds are nonrecourse to the Company. The fair value of the revolving credit facilities is a Level III valuation and approximated carrying value for all periods presented due to their short-term nature. The fair value of the credit facilities and senior variable rate notes is a Level III valuation and was \$2.0 billion as of June 30, 2014 using prices obtained from pricing vendors, and approximated carrying value as of December 31, 2013 due to a resulting yield that approximated the market rate. Financial instruments that are valued using quoted prices for the subject or similar securities are generally classified as Level III because the quoted prices may be indicative in nature for securities that are in an inactive market, may be for similar securities, or may require adjustment for investment-specific factors or restrictions. As of June 30, 2014, the consolidated funds were in compliance with all covenants.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

The consolidated funds had the following revolving credit facilities and term loans outstanding:

	\$3,416,723	\$2,297,181					

(1) The facilities bear interest, at the borrower's option, at (a) an annual rate of LIBOR plus the applicable margin or (b) an alternate base rate, as defined in the respective credit agreement.

(2) Certain facilities allow for the issuance of letters of credit at an applicable annual fee. As of June 30, 2014 and December 31, 2013, outstanding standby letters of credit totaled \$24,399 and \$55,954, respectively.

(3) The credit facility is collateralized by the portfolio investments and cash and cash-equivalents of the fund.

(4) The LIBOR margin is 1.25% through April 11, 2015, and 2.50% thereafter.

(5) The credit facility is collateralized by specific investments of the fund. Of the total balance outstanding, \$171.0 million matures on March 11, 2015 and the remaining \$34.6 million matures on February 11, 2016.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

Collateralized Loan Obligation Loans Payable

As of June 30, 2014, the Company had consolidated four CLOs in its condensed consolidated financial statements.

The table below sets forth the loans payable of the CLOs.

	As of June 30, 2014			
	Outstanding Borrowings	Fair Value ⁽¹⁾	Weighted Average Interest Rate	Weighted Average Remaining Maturity (years)
Senior secured notes ⁽²⁾	\$456,195	\$460,163	2.24%	10.8
Senior secured notes ⁽³⁾	52,508	52,508	2.56%	4.5
Senior secured notes ⁽⁴⁾	461,224	453,795	2.58%	13.2
Subordinated note ⁽⁵⁾	26,875	26,875	N/A	13.2
	\$996,802	\$993,341		

The debt obligations of the CLOs are Level III valuations and were valued using prices obtained from pricing vendors or recent transactions. Financial instruments that are valued using quoted prices for the subject or similar securities are generally classified as Level III because the quoted prices may be indicative in nature for securities (1) that are in an inactive market, may be for similar securities, or may require adjustment for investment-specific factors or restrictions. Financial instruments that are valued based on recent transactions are generally defined as securities purchased or sold within six months of the valuation date. The fair value may also be based on a pending transaction expected to close after the valuation date.

(2) The weighted average interest rate was LIBOR plus 2.01%.

The interest rate was LIBOR plus a margin determined based on a formula as defined in the respective borrowing (3) agreements, which incorporate different borrowing values based on the characteristics of collateral investments purchased. The weighted average unused commitment fee rate ranged from 0% to 2.0%.

(4) The weighted average interest rate was EURIBOR plus 2.21%.

(5) The subordinated note does not have a contractual interest rate; instead, it receives distributions from the excess cash flows generated by the CLO. The carrying value approximates fair value due to the recent issuance date.

The obligations with respect to the CLO loans payable are nonrecourse to the Company and are backed by the investments held by the respective CLO. Assets of one CLO may not be used to satisfy the liabilities of another. As of June 30, 2014, the fair value of the CLO assets was \$1.4 billion and consisted of cash, corporate loans, corporate bonds and other securities. As of December 31, 2013, there were no assets or liabilities outstanding associated with the CLOs.

Future scheduled principal payments with respect to the CLO loans payable as of June 30, 2014 were as follows:

Remainder of 2014	\$—
2015	—
2016	—
2017	—
2018	52,508
Thereafter	944,294
Total	\$996,802

7. NON-CONTROLLING REDEEMABLE INTERESTS IN CONSOLIDATED FUNDS

The following table sets forth a summary of changes in the non-controlling redeemable interests in the consolidated funds:

	Six Months Ended June 30,	
	2014	2013
Beginning balance	\$38,834,831	\$39,670,831
Contributions	4,418,500	3,069,748
Distributions	(3,363,672)	(7,577,863)
Net income	2,508,145	2,826,452
Change in distributions payable	2,673	72,070
Change in accrued or deferred contributions	—	98,105
Foreign currency translation and other	(23,819)	(54,147)
Ending balance	\$42,376,658	\$38,105,196

8. UNITHOLDERS' CAPITAL

The OCGH unitholders' economic interest in the Oaktree Operating Group is reflected as OCGH non-controlling interest in consolidated subsidiaries and is determined at the Oaktree Operating Group level based on the proportionate share of Oaktree Operating Group units held by the OCGH unitholders. Certain expenses, such as income tax and related administrative expenses of Oaktree Capital Group, LLC and its Intermediate Holding Companies, are solely attributable to the Class A unitholders. As of June 30, 2014 and December 31, 2013, respectively, OCGH units represented 109,197,407 of the total 152,677,077 Oaktree Operating Group units and 112,584,211 of the total 151,056,717 Oaktree Operating Group units. Based on total Oaktree Operating Group capital of \$1,650,713 and \$1,655,911 as of June 30, 2014 and December 31, 2013, respectively, the OCGH non-controlling interest was \$1,180,620 and \$1,234,169.

The following table sets forth a summary of the net income attributable to the OCGH non-controlling interest and to the Class A unitholders:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Weighted average Oaktree Operating Group units outstanding (in thousands):				
OCGH non-controlling interest	109,221	117,977	110,887	119,295
Class A unitholders	43,480	33,020	41,600	31,611
Total weighted average units outstanding	152,701	150,997	152,487	150,906
Oaktree Operating Group net income:				
Net income attributable to OCGH non-controlling interest	\$91,813	\$225,766	\$255,371	\$487,783
Net income attributable to Class A unitholders	36,550	63,187	94,232	128,756
Oaktree Operating Group net income	\$128,363	\$288,953	\$349,603	\$616,539
Net income attributable to Oaktree Capital Group, LLC:				
Oaktree Operating Group net income attributable to Class A unitholders	\$36,550	\$63,187	\$94,232	\$128,756
Non-Operating Group expenses	(603)	(466)	(885)	(676)
Income tax expense of Intermediate Holding Companies	(4,761)	(6,144)	(10,367)	(13,937)
Net income attributable to Oaktree Capital Group, LLC	\$31,186	\$56,577	\$82,980	\$114,143

Equity reallocation between controlling and non-controlling interests	18	77,732	49,116	76,845
Change from net income attributable to Oaktree Capital Group, LLC and transfers from (to) non-controlling interest	\$31,204	\$134,309	\$132,096	\$190,988

On March 10, 2014, the Company issued and sold 5,000,000 Class A units to the underwriter in a public offering (the "March 2014 Offering"), resulting in \$296.7 million in proceeds to the Company. The Company did not retain any proceeds from the sale of Class A units in the March 2014 Offering. The proceeds from the March 2014 Offering were used to acquire interests in the Company's business from certain of the Company's directors, employees and other investors, including certain Principals and other members of the Company's senior management.

Please see notes 9, 10 and 11 for additional information regarding transactions that impacted unitholders' capital.

9. EARNINGS PER UNIT

The computations of net income per Class A unit are set forth below:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Weighted average units outstanding:	(in thousands, except per unit amounts)			
Class A units outstanding	43,480	33,020	41,600	31,611
OCGH units exchangeable into Class A units ⁽¹⁾	—	—	—	—
Total weighted average units outstanding	43,480	33,020	41,600	31,611
Net income per Class A unit:				
Net income	\$31,186	\$56,577	\$82,980	\$114,143
Weighted average units outstanding	43,480	33,020	41,600	31,611
Basic and diluted net income per Class A unit	\$0.72	\$1.71	\$1.99	\$3.61

Vested OCGH units are potentially exchangeable on a one-for-one basis into Class A units. As of June 30, 2014, there were 109,197,407 OCGH units outstanding, accordingly, the Company may cumulatively issue up to 109,197,407 additional Class A units through March 1, 2024 if all such units were exchanged. For all periods (1) presented, OCGH units have been excluded from the calculation of diluted earnings per unit because the exchange of these units would proportionally increase Oaktree Capital Group, LLC's interest in the Oaktree Operating Group and could have an anti-dilutive effect on earnings per unit to the extent that tax-related or other expenses were incurred by the Company as a result of the exchange.

Oaktree Capital Group, LLC

June 30, 2014

(\$ in thousands, except where noted)

10. EQUITY-BASED COMPENSATION

During the six months ended June 30, 2014, the Company granted 1,690,418 restricted OCGH units and 7,164 Class A units to its employees and directors, subject to annual vesting over a weighted average period of approximately 5.1 years. The grant date fair value of all OCGH units awarded in 2014 was determined by applying a 25% discount to the Class A unit trading price on the New York Stock Exchange and the calculation of compensation expense assumed a forfeiture rate, based on expected employee turnover, of up to 1.5% annually.

As of June 30, 2014, the Company expected to recognize compensation expense on its unvested equity-based awards of \$152.6 million over a weighted average recognition period of 5.0 years.

A summary of the status of the Company's unvested equity-based awards as of June 30, 2014 and a summary of changes for the six months then ended are presented below (actual dollars per unit):

	Class A Units		OCGH Units	
	Number of Units	Weighted Average Grant Date Fair Value	Number of Units	Weighted Average Grant Date Fair Value
Balance, December 31, 2013	16,582	\$45.34	4,465,722	\$30.30
Granted	7,164	58.88	1,690,418	44.16
Vested	(4,412)	45.16	(1,015,741)	24.35
Forfeited	—	—	(31,661)	35.41
Balance, June 30, 2014	19,334	\$50.40	5,108,738	\$36.04

As of June 30, 2014, unvested units were expected to vest as follows:

	Number of Units	Weighted Average Remaining Service Term (Years)
Class A units	19,334	3.3
OCGH units	5,108,738	5.0

11. INCOME TAXES AND RELATED PAYMENTS

Oaktree is a publicly traded partnership and Oaktree Holdings, Inc. and Oaktree AIF Holdings, Inc., two of its Intermediate Holding Companies, are wholly-owned corporate subsidiaries. Income earned by these corporate subsidiaries is subject to U.S. federal and state income taxation and taxed at prevailing rates. Income earned by non-corporate subsidiaries is not subject to U.S. federal corporate income tax and is allocated to the Oaktree Operating Group's unitholders. The Company's effective tax rate is dependent on many factors, including the estimated nature of many amounts and the mix of revenues and expenses between the two corporate subsidiaries that are subject to income tax and the three other subsidiaries that are not; consequently, the effective tax rate is subject to significant variation from period to period. The Company's effective tax rate used for interim periods is based on the estimated full-year income tax rate.

U.S. and non-U.S. taxing authorities are currently examining certain income tax returns of Oaktree, with certain of these examinations at an advanced stage. The Company believes that it is reasonably possible that one outcome of these current examinations and expiring statutes of limitation on other items may be the release of up to approximately \$9 million to \$11 million of previously accrued Operating Group income taxes during the four quarters ending June 30, 2015. The Company believes that it has adequately provided for any reasonably foreseeable outcomes related to its tax examinations and that any settlements related thereto will not have a material adverse effect on the Company's

financial position or results of operations; however, there can be no assurances as to the ultimate outcomes.

38

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

Tax Receivable Agreement

The exchange of OCGH units in connection with the March 2014 Offering resulted in increases in the tax basis of the tangible and intangible assets of the Oaktree Operating Group. As a result, the Company recorded a deferred tax asset of \$94 million and an associated liability of \$80 million for payments to OCGH unitholders under the tax receivable agreement, which together increased capital by \$14 million. These payments are expected to occur over the period ending approximately in 2036.

No amounts were paid under the tax receivable agreement during the six months ended June 30, 2014.

12. COMMITMENTS AND CONTINGENCIES

In the normal course of business, Oaktree enters into contracts that contain certain representations, warranties and indemnifications. The Company's exposure under these arrangements would involve future claims that have not yet been asserted. Inasmuch as no such claims currently exist or are expected to arise, the Company has not accrued any liability in connection with these indemnifications.

Legal Actions

Periodically, the Company is a party to legal actions arising in the ordinary course of business. The Company is currently not subject to any pending actions that either individually or in the aggregate are expected to have a material impact on its results of operations, cash flows or financial condition.

On June 8, 2011, Kaplan Industry, Inc. v. Oaktree Capital Management, L.P. was filed in the U.S. District Court for the Southern District of Florida. In Kaplan, the plaintiff alleged that Oaktree Capital Management, L.P. tortiously interfered with a business relationship and engaged in a civil conspiracy through the actions of Gulmar Offshore Middle East, LLC ("Gulmar"), a business acquired by subsidiaries of OCM European Principal Opportunities Fund II, L.P. ("EPOF II"). Oaktree Capital Management, L.P. serves as investment manager to EPOF II. The complaint alleged that Gulmar breached a consortium agreement between Gulmar and Kaplan Industry, Inc. relating to the consortium's performance of services to Petróleos de Venezuela, S.A., the state-owned oil producer of Venezuela. The plaintiff alleged that Oaktree was responsible for those breaches by Gulmar. The complaint sought damages in excess of \$800 million. The substance of the claim related almost exclusively to actions by Gulmar prior to EPOF II's acquisition and the basis of the claim was subject to an ongoing arbitration in the United Kingdom between Kaplan and Gulmar. On August 18, 2011, the court granted Oaktree Capital Management, L.P.'s motion to stay pending the completion of a related arbitration proceeding in London. On July 2, 2014, the court issued an order dismissing this matter with prejudice after the plaintiff filed a notice of voluntary dismissal.

Incentive Income

In addition to the incentive income recognized by the Company, certain of its funds have amounts recorded as potentially allocable to the Company as its share of potential future incentive income, based on each fund's NAV. Inasmuch as this incentive income is contingent upon future investment activity and other factors, it is not recognized by the Company until it is fixed or determinable. As of June 30, 2014 and December 31, 2013, the aggregate of such amounts recorded at the fund level in excess of incentive income recognized by the Company was \$2,474,913 and \$2,211,979, respectively, for which related direct incentive income compensation expense was estimated to be \$1,185,883 and \$994,879, respectively.

Commitments to Funds

As of June 30, 2014 and December 31, 2013, the Company, generally in the capacity as general partner, had undrawn capital commitments of \$273.5 million and \$327.3 million, respectively, including commitments to both non-consolidated and consolidated funds.

Investment Commitments of Consolidated Funds

The consolidated funds are parties to certain credit agreements, providing for the issuance of letters of credit and revolving loans, which may require the consolidated funds to extend additional loans to investee companies. The consolidated funds use the same investment criteria in making these unrecorded commitments as they do for

investments that are included in the condensed consolidated statements of financial condition. The

39

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

unfunded liability associated with these credit agreements is equal to the amount by which the contractual loan commitment exceeds the sum of the amount of funded debt and cash held in escrow, if any. As of June 30, 2014 and December 31, 2013, the consolidated funds had aggregate potential credit and investment commitments of \$880.8 million and \$1.3 billion, respectively. These commitments will be funded by the funds' cash balances, proceeds from asset sales or drawdowns against existing capital commitments.

A consolidated fund may agree to guarantee the repayment obligations of certain investee companies. On December 20, 2012, certain consolidated funds ("Funds") entered into a £200 million revolving credit facility (the "RCF") pursuant to which certain portfolio companies of the Funds were able to draw under the RCF over a three-year period. The RCF had an annual commitment fee on unused commitments of 1.0% and an annual interest rate equal to Libor or Euribor, as applicable, plus 2.0%. The Funds guaranteed the payment and other obligations of the borrowers under the RCF. As of December 31, 2013, there were \$317.0 million of borrowings outstanding under the RCF. On February 25, 2014, the Funds repaid the outstanding balance under the RCF and replaced the RCF, along with an existing €130 million revolving credit facility, with a €550 million revolving credit facility (please see note 6). The aggregate amounts guaranteed in addition to those described for the RCF were not material to the condensed consolidated financial statements as of June 30, 2014 and December 31, 2013.

The majority of the Company's consolidated funds are investment companies that are required to disclose financial support provided or contractually required to be provided to any of their portfolio companies. Certain consolidated funds within the Distressed Debt, Control Investing and Real Estate strategies provide financial support to portfolio companies in accordance with the investment objectives of the consolidated funds. Distressed Debt funds invest primarily in the securities of entities that are undergoing, are considered likely to undergo, or have undergone reorganizations under applicable bankruptcy law, or other extraordinary transactions such as debt restructurings, reorganizations and liquidations outside of bankruptcy. Control Investing funds seek to obtain control or significant influence primarily in middle-market companies through the purchase of debt at a discount (also known as "distress-for-control"), structured or hybrid investments (such as convertible debt or debt with warrants), or direct equity investments that typically involve situations with an element of distress or dislocation. Real Estate funds generally focus on distressed or similar opportunities primarily in real estate, real estate debt and restructurings, which typically involve value investments, rescue capital and distress-for-control investments. This financial support may be provided pursuant to contractual agreements, typically in the form of follow-on investments, guarantees or financing commitments. Most of the financial support is provided as an inherent part of the ongoing investment operations of the consolidated funds within these strategies and is considered to be provided at the discretion of the Company in its capacity as general partner and investment manager. For the six months ended June 30, 2014, the consolidated funds provided financial support to portfolio companies totaling \$583.5 million and \$5.3 billion with respect to support pursuant to contractual agreements and at the discretion of the consolidated funds, respectively. The majority of this financial support consisted of the funds' ongoing purchases of investment securities and companies.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

13. RELATED-PARTY TRANSACTIONS

The Company considers its Principals, employees and non-consolidated Oaktree funds to be affiliates (as defined in the FASB ASC Master Glossary). Amounts due from and to affiliates are set forth below. The fair value of amounts due from and to affiliates is a Level III valuation and was valued based on a discounted cash-flow analysis. The carrying value of amounts due from affiliates approximated fair value because their average interest rate, which ranged from 2.0% to 3.0%, approximated the Company's cost of debt. The fair value of amounts due to affiliates approximated \$165,919 and \$123,497 as of June 30, 2014 and December 31, 2013, respectively, based on a discount rate of 10.0%.

	As of	December
	June 30, 2014	31, 2013
Due from affiliates:		
Loans	\$33,642	\$41,095
Amounts due from non-consolidated funds	1,162	1,220
Payments made on behalf of non-consolidated entities	4,636	3,272
Non-interest bearing advances made to certain non-controlling interest holders and employees	1,795	2,187
Total due from affiliates	\$41,235	\$47,774
Due to affiliates:		
Due to OCGH unitholders in connection with the tax receivable agreement (please see note 11)	\$320,940	\$240,911
Amounts due to Principals, certain non-controlling interest holders and employees	2,009	2,075
Total due to affiliates	\$322,949	\$242,986
Loans		

Loans primarily consist of interest-bearing advances made to certain non-controlling interest holders, primarily the Company's employees, to meet tax obligations related to vesting of equity awards. The notes, which are generally recourse to the borrower or secured by vested equity and other collateral, bear interest at the Company's cost of capital and generated interest income of \$783 and \$891 for the six months ended June 30, 2014 and 2013, respectively.

Due From Oaktree Funds and Portfolio Companies

In the normal course of business, the Company pays certain expenses on behalf of the Oaktree funds, for which it is reimbursed. Amounts advanced on behalf of consolidated funds are eliminated in consolidation. Certain expenses initially paid by the Company, primarily employee travel and other costs associated with particular portfolio company holdings, are reimbursed by the portfolio companies.

Other Investment Transactions

The Company's Principals, directors and senior professionals are permitted to invest their own capital (or the capital of family trusts or other estate planning vehicles they control) in Oaktree funds, for which they pay the particular fund's full management fee but not its incentive allocation. To facilitate the funding of capital calls by funds in which employees are invested, the Company periodically advances on a short-term basis the capital calls on certain employees' behalf. These advances are generally reimbursed toward the end of the calendar quarter in which the capital calls occurred. Amounts temporarily advanced by the Company are included in non-interest bearing advances made to certain non-controlling interest holders and employees.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

Aircraft Services

A subsidiary of the Company leases an airplane for business purposes. The Company's Chairman may use this aircraft for personal travel and, pursuant to a policy adopted by such subsidiary relating to such personal use, the Company is reimbursed by the Company's Chairman for the costs of using the aircraft for personal travel. Additionally, the Company occasionally makes use of an airplane owned by one of its Principals for business purposes at a price to the Company that is based on market rates.

Special Allocations

Certain Principals receive special allocations based on a percentage of profits of the Oaktree Operating Group. These special allocations, which are recorded as compensation expense, are made on a current basis only for so long as they remain Principals of the Company.

Transactions with Meyer Memorial Trust

One of the Company's directors, Mr. Pierson, was the Chief Financial and Investment Officer of Meyer Memorial Trust. Meyer Memorial Trust invests in certain Oaktree funds on the same terms as the other investors in those funds. Mr. Pierson retired as the Chief Financial and Investment Officer of Meyer Memorial Trust effective June 30, 2014.

14. SEGMENT REPORTING

The Company's business is comprised of one segment, the investment management segment. As a global investment manager, the Company provides investment management services through funds and separate accounts. Management makes operating decisions and assesses business performance based on financial and operating metrics and data that are presented without the consolidation of any funds.

The Company conducts its investment management business primarily in the United States, where substantially all of its revenues are generated.

Adjusted Net Income

The Company's chief operating decision maker uses adjusted net income ("ANI") as a tool to help evaluate the financial performance of, and make resource allocations and other operating decisions for, the investment management segment. The components of revenues and expenses used in the determination of ANI do not give effect to the consolidation of the funds that the Company manages. In addition, ANI excludes the effect of (a) non-cash equity-based compensation charges related to unit grants made before the Company's initial public offering, (b) income taxes, (c) expenses that Oaktree Capital Group, LLC or its Intermediate Holding Companies bear directly and (d) the adjustment for the OCGH non-controlling interest. Incentive income and incentive income compensation expense are included in ANI when the underlying fund distributions are known or knowable as of the respective quarter end, which may be later than the time at which the same revenue or expense is included in the GAAP-basis statements of operations, for which the revenue standard is fixed or determinable and the expense standard is probable and reasonably estimable. ANI is calculated at the Operating Group level.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

ANI was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Revenues:				
Management fees	\$189,119	\$182,487	\$377,519	\$366,701
Incentive income	59,198	338,057	352,074	665,241
Investment income	54,199	34,576	100,679	116,626
Total revenues	302,516	555,120	830,272	1,148,568
Expenses:				
Compensation and benefits	(92,638)	(90,166)	(190,832)	(183,783)
Equity-based compensation	(5,111)	(924)	(9,094)	(1,576)
Incentive income compensation	(30,147)	(128,953)	(167,975)	(259,224)
General and administrative	(31,131)	(29,512)	(61,693)	(53,500)
Depreciation and amortization	(1,815)	(1,732)	(3,736)	(3,475)
Total expenses	(160,842)	(251,287)	(433,330)	(501,558)
Adjusted net income before interest and other income (expense)	141,674	303,833	396,942	647,010
Interest expense, net of interest income ⁽¹⁾	(6,934)	(7,136)	(13,559)	(14,543)
Other income (expense), net	9	284	(1,689)	264
Adjusted net income	\$134,749	\$296,981	\$381,694	\$632,731

(1) Interest income was \$0.7 million and \$0.9 million for the three months ended June 30, 2014 and 2013, respectively, and \$1.8 million and \$1.5 million for the six months ended June 30, 2014 and 2013, respectively.

A reconciliation of net income attributable to Oaktree Capital Group, LLC to adjusted net income of the investment management segment is presented below.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Net income attributable to Oaktree Capital Group, LLC	\$31,186	\$56,577	\$82,980	\$114,143
Incentive income ⁽¹⁾	(6,102)	—	58,358	—
Incentive income compensation ⁽¹⁾	6,112	—	(40,222)	—
Equity-based compensation ⁽²⁾	5,376	6,181	10,575	11,981
Income taxes ⁽³⁾	5,761	7,991	13,747	18,148
Non-Operating Group expenses ⁽⁴⁾	603	466	885	676
OCGH non-controlling interest ⁽⁴⁾	91,813	225,766	255,371	487,783
Adjusted net income	\$134,749	\$296,981	\$381,694	\$632,731

This adjustment adds back the effect of timing differences associated with the recognition of incentive income and (1)incentive income compensation expense between adjusted net income and net income attributable to OCG. There were no adjustments attributable to timing differences for the three and six months ended June 30, 2013.

This adjustment adds back the effect of equity-based compensation charges related to unit grants made before the (2)Company's initial public offering, which is excluded from adjusted net income because it is a non-cash charge that does not affect the Company's financial position.

Oaktree Capital Group, LLC

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

June 30, 2014

(\$ in thousands, except where noted)

(3) Because adjusted net income is a pre-tax measure, this adjustment eliminates the effect of income tax expense from adjusted net income.

(4) Because adjusted net income is calculated at the Operating Group level, this adjustment adds back the effect of items applicable to OCG, its Intermediate Holding Companies or the OCGH non-controlling interest.

The following tables reconcile the Company's segment information to the condensed consolidated financial statements:

	As of or for the Three Months Ended June 30, 2014		
	Segment	Adjustments	Consolidated
Management fees ⁽¹⁾	\$ 189,119	\$(137,559)	\$ 51,560
Incentive income ⁽¹⁾	59,198	(59,198)	—
Investment income ⁽¹⁾	54,199	(49,809)	4,390
Total expenses ⁽²⁾	(160,842)	(54,543)	(215,385)
Interest expense, net ⁽³⁾	(6,934)	(18,765)	(25,699)
Other income, net	9	—	9
Other income of consolidated funds ⁽⁴⁾	—	1,498,129	1,498,129
Income taxes	—	(5,761)	(5,761)
Net income attributable to non-controlling interests in consolidated funds	—	(1,184,244)	(1,184,244)
Net income attributable to OCGH non-controlling interest in consolidated subsidiaries	—	(91,813)	(91,813)
Adjusted net income/net income attributable to Oaktree Capital Group, LLC	\$ 134,749	\$(103,563)	\$ 31,186
Corporate investments ⁽⁵⁾	\$ 1,468,517	\$(1,300,354)	\$ 168,163
Total assets ⁽⁶⁾	\$ 2,909,825	\$ 48,340,012	\$ 51,249,837

(1) The adjustment represents the elimination of amounts attributable to the consolidated funds.

The expense adjustment consists of (a) equity-based compensation charges of \$5,376 related to unit grants made before the Company's initial public offering, (b) consolidated fund expenses of \$42,452, (c) expenses incurred by the Intermediate Holding Companies of \$603 and (d) the effect of timing differences in the recognition of incentive income compensation expense between adjusted net income and net income attributable to OCG of \$6,112.

(2) The interest expense adjustment represents the inclusion of interest expense attributable to non-controlling interests of the consolidated funds and the exclusion of segment interest income.

(3) The adjustment to other income of consolidated funds primarily represents the inclusion of interest, dividend and other investment income attributable to non-controlling interests of the consolidated funds.

The adjustment to corporate investments is to remove from segment assets the Company's investments in the consolidated funds, including investments in its CLOs, that are treated as equity- or cost-method investments for segment reporting purposes. Of the \$1.5 billion, equity-method investments accounted for \$1.3 billion.

The total assets adjustment represents the inclusion of investments and other assets of the consolidated funds, net of segment assets eliminated in consolidation, which are primarily corporate investments in funds and incentive income receivable.

Net income attributable to non-controlling interests in consolidated funds	—	(2,509,076)	(2,509,076)
Net income attributable to OCGH non-controlling interest in consolidated subsidiaries	—	(255,371)	(255,371)
Adjusted net income/net income attributable to Oaktree Capital Group, LLC	\$381,694	\$(298,714)	\$82,980
Corporate investments ⁽⁵⁾	\$1,468,517	\$(1,300,354)	\$168,163
Total assets ⁽⁶⁾	\$2,909,825	\$48,340,012	\$51,249,837

(1) The adjustment represents the elimination of amounts attributable to the consolidated funds.

The expense adjustment consists of (a) equity-based compensation charges of \$10,575 related to unit grants made before the Company's initial public offering, (b) consolidated fund expenses of \$69,136, (c) expenses incurred by the Intermediate Holding Companies of \$885 and (d) the effect of timing differences in the recognition of incentive income compensation expense between adjusted net income and net income attributable to OCG of \$40,222.

(3) The interest expense adjustment represents the inclusion of interest expense attributable to non-controlling interests of the consolidated funds and the exclusion of segment interest income.

(4) The adjustment to other income of consolidated funds primarily represents the inclusion of interest, dividend and other investment income attributable to non-controlling interests of the consolidated funds.

The adjustment to corporate investments is to remove from segment assets the Company's investments in the consolidated funds, including investments in its CLOs, that are treated as equity- or cost-method investments for segment reporting purposes. Of the \$1.5 billion, equity-method investments accounted for \$1.3 billion.

The total assets adjustment represents the inclusion of investments and other assets of the consolidated funds, net of segment assets eliminated in consolidation, which are primarily corporate investments in funds and incentive income receivable.

15. SUBSEQUENT EVENTS

On July 31, 2014, the Company declared a distribution of \$0.55 per Class A unit. This distribution, which is related to the second quarter of 2014, will be paid on August 14, 2014 to Class A unitholders of record as of the close of business on August 11, 2014.

On June 9, 2014, the Company announced an agreement to acquire the Highstar Capital (“Highstar”) team, specialists in U.S. energy infrastructure, waste management and transportation. Highstar’s infrastructure investment strategy is complementary to Oaktree’s Power Opportunities strategy. The transaction, which is not considered material to Oaktree, closed on August 1, 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements of Oaktree Capital Group, LLC and the related notes included within this quarterly report. This discussion contains forward-looking statements that are subject to risks and uncertainties and assumptions relating to our operations, financial results, financial condition, business prospects, growth strategy and liquidity. The factors listed under "Risk Factors" and "Forward-Looking Statements" in this quarterly report and under "Risk Factors" in our annual report provide examples of risks, uncertainties and events that may cause our actual results to differ materially from the expectations described in any forward-looking statements.

Business Overview

Oaktree is a leader among global investment managers specializing in alternative investments, with \$91.1 billion in AUM as of June 30, 2014. The firm emphasizes an opportunistic, value-oriented and risk-controlled approach to investments in distressed debt, corporate debt (including high yield debt and senior loans), control investing, convertible securities, real estate and listed equities. Over more than a quarter-century we have developed a large and growing client base through our ability to identify and capitalize on opportunities for attractive investment returns in less efficient markets.

We manage assets on behalf of many of the most significant institutional investors in the world. Our clientele has more than doubled over the past decade, to approximately 2,000, including 74 of the 100 largest U.S. pension plans, 38 states in the United States, over 400 corporations, nearly 350 university, charitable and other endowments and foundations, 12 sovereign wealth funds and approximately 300 other non-U.S. institutional investors. As measured by AUM, 40% of our clients are invested in two or three different investment strategies, and 38% are invested in four or more. We serve these clients with over 850 employees, including over 220 employee-owners, with offices in 16 cities across 12 countries, of which the largest offices are in Los Angeles (headquarters), London, New York and Hong Kong.

Our business is comprised of one segment, our investment management segment, which consists of the investment management services that we provide to our clients. Our segment revenue flows from the management fees and incentive income generated by the funds that we manage, as well as the investment income from the funds we manage and other funds and companies in which we invest. The management fees that we receive are based on the contractual terms of the relevant fund and are typically calculated as a fixed percentage of the capital commitments (as adjusted for distributions during a fund's liquidation period), drawn capital or NAV of the particular fund. Incentive income represents our share (typically 20%) of the investors' profits in most of the closed-end and evergreen funds. Investment income refers to the investment return on a mark-to-market basis and our equity participation on the amounts that we invest in Oaktree and third-party funds, as well as in other companies.

Business Environment and Developments

As a global investment manager, we are affected by myriad factors, including the condition of the economy and financial markets; the relative attractiveness of our investment strategies and investors' demand for them; and regulatory or other governmental policies or actions. The diversified nature of both our array of investment strategies and our revenue mix historically has allowed us to benefit from both strong and weak environments. Weak economies and the declining financial markets that typically accompany them tend to dampen our revenues from asset-based management fees, investment realizations or price appreciation, but their prospect can result in our raising relatively large amounts of capital for certain strategies, especially Distressed Debt. Additionally, during weak financial markets there often is expanded availability of bargain investments for purchase. Conversely, the strong phase of the economic cycle generally increases the value of our investments and therefore the fees that are based on asset value, and creates favorable exit opportunities (and often incentive income and higher investment income proceeds).

In the second quarter, most major equity markets made further gains, as the post-global financial crisis economic recovery reached its fifth anniversary. The S&P 500 Index had a total return of 5.2% for the quarter, pushing the Index to a record-high level and its year-to-date and trailing twelve-month returns to 7.1% and 24.6%, respectively. Credit markets also performed well, benefiting from continuing accommodative monetary policies by the U.S. and other central banks, investors' hunt for yield and historically low corporate default rates. The yield on the 10-year U.S. Treasury note declined 20 basis points, to close the quarter at 2.53%. High yield bonds returned 2.3% (as measured by the Citigroup U.S. High Yield Cash-Pay Capped Index), as higher average bond prices drove yields down to record

lows. European equities mostly performed well, with the MSCI Europe Index advancing 3.7%, as the European Central Bank took additional policy actions to stimulate its economy. Emerging

markets stocks outpaced developed markets on signs of an improving global economy, further stimulus in Europe and easing political uncertainty.

The strength in financial markets contributed to price gains among our fund holdings, benefiting our investment income, incentives created and AUM metrics. Coupled with net capital inflows, the rising market values boosted our AUM and management fee-generating AUM to all-time highs. In the second quarter of 2014, 25 different funds across 10 different investment strategies created incentives, resulting in accrued incentives (fund level), net of associated incentive income compensation expense (“net accrued incentives (fund level)”), of \$1.3 billion as of June 30, 2014. As of that date, our closed-end funds had produced an aggregate gross IRR of 19.9% on approximately \$65 billion of drawn capital. The elevated asset prices resulted in relatively scarce bargain-priced buying opportunities, particularly for our distress-oriented funds. However, we are finding attractive risk-adjusted investment opportunities in pockets of dislocation where a pullback of traditional lenders as well as a more restrictive financial regulatory environment have created a void of capital in certain markets.

These opportunities include a broad array of assets in Europe, commercial bank loan portfolios, shipping, infrastructure and energy. We continue to capitalize on these and other opportunities through our existing funds and strategies, as well as our newer product offerings, including Strategic Credit, Real Estate Debt, Emerging Markets Opportunities, Emerging Markets Equities, European Private Debt and levered senior loan vehicles such as our Enhanced Income strategy and CLOs. New clients and new products were key elements of our asset growth, as approximately 53% of the \$16.1 billion of gross capital raised over the last twelve months was for strategies and investment products that did not exist three years ago.

The continued accommodative financial and capital markets allowed us to build on recent harvesting of profitable investments in our liquidating closed-end funds. Realizations and ongoing interest and dividend income fueled \$1.2 billion in distributions by our Distressed Debt and other closed-end funds in the quarter, bringing their aggregate distributions for the trailing twelve months to \$7.3 billion. OCM Opportunities Fund VIIb, L.P. (“Opps VIIb”) is far along in its liquidation period, which, coupled with the fact that most of the other accrued incentives (fund level) are from funds that are not yet at the stage of their distribution waterfall where Oaktree is entitled to an incentive distribution, means that the prospect of near-term realizations from the June 30, 2014 net accrued incentives (fund level) balance is lower than was the case from the year-ago balance as of June 30, 2013. Specifically, of the \$1.3 billion in net accrued incentives (fund level) as of June 30, 2014, \$475.3 million represented Opps VIIb or other funds that as of that date were currently paying incentives, with the remainder arising from funds that, as of June 30, 2014, had not yet reached the stage of their cash distribution waterfall where we are entitled to receive incentive income, other than tax-related incentive distributions (which are not currently expected for the second half of 2014). In contrast, as of June 30, 2013, the equivalent portion of the total \$1.2 billion of net accrued incentives (fund level) that was paying incentives was \$590.2 million.

As of June 30, 2014, Opps VIIb represented approximately three-fourths of the \$475.3 million in net accrued incentives (fund level) attributable to funds currently paying incentives. Historically, a closed-end fund’s incentive distributions tend to become more sporadic, lumpier and/or smaller in size, and its holdings tend to become more concentrated and less liquid, as it progresses through its liquidation phase, such as is now the case for Opps VIIb, which had an NAV of \$3.2 billion as of June 30, 2014, down from \$4.0 billion as of June 30, 2013. As a result, due to the \$114.9 million decline in net accrued incentives (fund level) attributable to funds currently paying incentives over the last twelve months and the fact that approximately three-fourths of that smaller balance was represented by a fund whose incentive distributions are expected to decline in frequency and/or size as compared to the past, for the second half of 2014 we would expect significantly less net incentive income, and thus lower adjusted net income and distributable earnings, to arise from the net accrued incentives (fund level) balance as of June 30, 2014 than was the case for the second half of 2013 from the June 30, 2013 net accrued incentives (fund level) balance.

Understanding Our Results—Consolidation of Oaktree Funds

GAAP requires that we consolidate substantially all of our closed-end, commingled open-end and evergreen funds in our financial statements, notwithstanding the fact that our equity investments in those funds do not typically exceed 2.5% of any fund’s interests. Consolidated funds refer to those funds and CLOs in which we hold a general partner interest or otherwise that give us substantive control rights over such funds. With respect to our consolidated funds, we generally have operational discretion and control over the funds, and investors do not hold any substantive rights

that would enable them to impact the funds' ongoing governance and operating activities. The funds that we manage that were not consolidated, primarily separately managed accounts,

50

represented 37% of our AUM as of June 30, 2014, and 27% and 24% of our segment management fees and 17% and 12% of our segment revenues for the three and six months ended June 30, 2014, respectively.

We do not consolidate OCM/GFI Power Opportunities Fund II, L.P. (“Power Fund II”) because we do not control this fund through a majority voting interest or otherwise. Power Fund II has two general partners—one is an entity controlled by Oaktree and the other is an entity controlled by G3W Ventures LLC (formerly, GFI Energy Ventures LLC), a third-party investment manager. The general partners have equal voting rights; consequently, neither general partner is deemed to individually control the fund.

When a fund is consolidated, we reflect the assets, liabilities, revenues, expenses and cash flows of the consolidated funds on a gross basis, and the majority of the economic interests in those funds, which are held by third-party investors, are attributed to non-controlling redeemable interests in consolidated funds in the condensed consolidated financial statements. All of the revenues earned by us from those funds are eliminated in consolidation. However, because the eliminated amounts are earned from and funded by non-controlling interests, our attributable share of the net income from those funds is increased by the amounts eliminated. Thus, the elimination of those amounts in consolidation has no effect on net income or loss attributable to us.

The elimination of the consolidated funds from our consolidated revenues causes our consolidated revenues to be significantly impacted by fund flows and fluctuations in the market value of our separately managed accounts because they are not consolidated. Note 14 to our condensed consolidated financial statements included elsewhere in this quarterly report includes information regarding our segment on a stand-alone basis. For a more detailed discussion of the factors that affect the results of operations of our segment, please see “—Segment Analysis” below.

Revenues

Our business generates three types of segment revenue: management fees, incentive income and investment income. Management fees are billed monthly or quarterly based on annual rates and are typically earned for each of the funds that we manage. The contractual terms of management fees generally vary by fund structure. Management fees also include performance-based fees earned from certain open-end and evergreen fund accounts and CLOs. We also have the opportunity to earn incentive income from most of our closed-end funds and certain evergreen funds. Our closed-end funds generally provide that we receive incentive income only after our investors receive the return of all of their contributed capital plus an annual preferred return, typically 8%. Once this occurs, we generally receive as incentive income 80% of all distributions otherwise attributable to our investors, and those investors receive the remaining 20% until we have received, as incentive income, 20% of all such distributions in excess of the contributed capital from the inception of the fund. Thereafter, provided the preferred return continues to be met, all such future distributions attributable to our investors are distributed 80% to those investors and 20% to us as incentive income. Our third segment revenue source, investment income, represents our pro-rata share of income or loss from our investments, generally in our capacity as general partner in our funds and as an investor in third-party managed funds and companies. Our consolidated revenues exclude investment income, which is presented within the other income (loss) section of our consolidated statements of operations. Please see “Business—Structure and Operation of Our Business—Structure of Funds” in our annual report for a detailed discussion of the structure of our funds.

Expenses

Compensation and Benefits

Compensation and benefits reflects all compensation-related items not directly related to incentive income, investment income or the vesting of OCGH and Class A units, including salaries, bonuses, compensation based on management fees or a definition of profits, employee benefits, and liability-based awards subject to vesting and remeasurement at the end of each reporting period (“phantom equity plan expense”). Phantom equity plan expense reflects the vesting of those liability-based awards, the equity distribution declared in the period, and changes in the Class A unit trading price.

Equity-based Compensation

Equity-based compensation reflects the non-cash charge associated with grants of Class A and OCGH units. While our condensed consolidated financial statements include non-cash compensation expense for units granted both before and after our initial public offering, adjusted net income excludes non-cash equity-based compensation expense for units granted before our initial public offering (please see “—Segment and Operating Metrics—Adjusted Net Income” below). As of June 30, 2014, there was \$64.4 million of unrecognized compensation expense related to unit grants

made before our initial public offering that we expect to recognize in

51

our condensed consolidated financial statements over their weighted average remaining vesting period of 4.9 years. As of June 30, 2014, there was an additional \$88.2 million of unrecognized compensation expense related to unit grants made after our initial public offering that we expect to recognize in both our condensed consolidated financial statements and adjusted net income over these units' weighted average vesting period of approximately 5.1 years, as shown below. These amounts are subject to increase as a result of future unit grants, and subject to change as a result of possible modifications to award terms or changes in estimated forfeiture rates.

Non-cash Charge to ANI from Equity-based Compensation	Last Six Months of 2014						Total
	2015	2016	2017	2018	Thereafter		
Estimated charge from grants awarded through June 2014	\$10.5	\$21.4	\$21.5	\$17.5	\$5.8	\$11.5	\$88.2

Incentive Income Compensation

Incentive income compensation expense primarily includes compensation directly related to segment incentive income, which generally consists of percentage interests (sometimes referred to as "points") that we grant to our investment professionals associated with the particular fund that generated the segment incentive income, and secondarily includes compensation directly related to investment income. There is no fixed percentage for this compensation, either by fund or strategy. In general, within a particular strategy more recent funds have a higher percentage of aggregate incentive income compensation expense than do older funds. The percentage that consolidated incentive income compensation expense represents of the particular period's consolidated incentive income is not meaningful because of the fact that most segment incentive income is eliminated in consolidation, whereas no incentive income compensation expense is eliminated in consolidation. For a meaningful percentage relationship, please see "—Segment Analysis" below.

General and Administrative

General and administrative expenses include costs related to occupancy, outside auditors, tax professionals, legal advisers, consultants, travel and entertainment, communications and information services, foreign exchange activity and other general operating items. These expenses are not borne by fund investors and are not offset by credits attributable to fund investors' non-controlling redeemable interests in consolidated funds. Until April 2012, we operated as a private company. As we have incurred additional expenses associated with being a public company, general and administrative expenses have increased as compared with periods before we became a public company. Examples of such expenses include insurance for our directors and officers and costs to comply with SEC reporting requirements, stock exchange listing standards, the Dodd-Frank Act and the Sarbanes-Oxley Act.

Depreciation and Amortization

Depreciation and amortization expense includes costs associated with the purchase of furniture and equipment, capitalized software, and leasehold improvements. Furniture and equipment and capitalized software costs are depreciated using the straight-line method over the estimated useful life of the asset, which is generally three-to-five years. Leasehold improvements are amortized using the straight-line method over the shorter of the respective estimated useful life or the lease term.

Consolidated Fund Expenses

Consolidated fund expenses consist primarily of costs incurred by our consolidated funds, including travel expenses, professional fees, research expenses and other costs associated with administering these funds. Inasmuch as most of these fund expenses are borne by third-party fund investors, they are offset by credits attributable to the fund investors' non-controlling redeemable interests in consolidated funds.

Other Income (Loss)

Interest Expense

Interest expense reflects the interest expense of Oaktree and its operating subsidiaries, as well as interest expense of the consolidated funds.

Interest and Dividend Income

Interest and dividend income consists of interest and dividend income earned on the investments held by our consolidated funds, the consolidated funds' net operating income from real estate-related activities and interest income earned by Oaktree and its operating subsidiaries.

Net Realized Gain on Consolidated Funds' Investments

Net realized gain on consolidated funds' investments consists of realized gains and losses arising from dispositions of investments held by our consolidated funds.

Net Change in Unrealized Appreciation on Consolidated Funds' Investments

Net change in unrealized appreciation on consolidated funds' investments reflects, for our consolidated funds, both unrealized gains and losses on investments and the reversal upon disposition of investments of unrealized gains and losses previously recognized for those investments.

Investment Income

Investment income represents our pro-rata share of income or loss from our investments, generally in our capacity as general partner in our funds and as an investor in third-party managed funds and companies.

Other Income (Expense), Net

Other income (expense), net typically reflects the settlement of an arbitration award we received relating to a former Principal and portfolio manager of our real estate group who left us in 2005. Additionally, the six months ended June 30, 2014 included the write-off of \$3.0 million in unamortized debt issuance costs stemming from the refinancing of our corporate credit facility.

Income Taxes

Oaktree is a publicly traded partnership that meets the qualifying income exception, allowing it to be treated as a partnership for U.S. federal income tax purposes that is not taxable as a corporation. Oaktree Holdings, Inc. and Oaktree AIF Holdings, Inc., which are two of our five Intermediate Holding Companies and wholly owned subsidiaries, are subject to U.S. federal and state income taxes. The remainder of Oaktree's income is generally not subject to corporate-level taxation.

Oaktree's effective tax rate is directly impacted by the proportion of Oaktree's income subject to tax compared to income not subject to tax. Oaktree's non-U.S. income or loss before taxes is generally not significant in relation to total pre-tax income or loss and is generally more predictable because, unlike U.S. pre-tax income, it is not significantly impacted by unrealized gains or losses. Non-U.S. tax expense typically represents a disproportionately large percentage of total income tax expense because nearly all of our non-U.S. income or loss is subject to corporate-level income tax, whereas a substantial portion of our U.S. income or loss is not subject to corporate-level taxes. In addition, changes in the proportion of non-U.S. pre-tax income to total pre-tax income impact Oaktree's effective tax rate to the extent non-U.S. rates differ from the combined U.S. federal and state tax rate.

Income taxes are accounted for using the liability method of accounting. Under this method, deferred tax assets and liabilities are recognized for the expected future tax consequences of differences between the carrying amounts of assets and liabilities and their respective tax bases using currently enacted tax rates. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period when the change is enacted. Deferred tax assets would be reduced by a valuation allowance if it becomes more likely than not that some portion or all of the deferred tax assets will not be realized.

Net Income Attributable to Non-controlling Interests

Net income attributable to non-controlling interests represents the ownership interests that third parties hold in entities that are consolidated in our financial statements. These interests fall into two categories:

Net Income Attributable to Non-controlling Interests in Consolidated Funds. This represents the economic interests of the unaffiliated investors in the consolidated funds, as well as the equity interests held by third-party investors in CLOs that had not yet priced as of the respective period end. Those interests are primarily driven by the investment performance of the consolidated funds, including CLOs. In comparison to net income, this measure excludes segment results, income taxes, expenses that

OCG or its Intermediate Holding Companies bear directly and the impact of equity-based compensation expense; and Net Income Attributable to OCGH Non-controlling Interest in Consolidated Subsidiaries. This represents the economic interest in the Oaktree Operating Group owned by OCGH, which interest is determined at the Oaktree Operating Group level based on the weighted average proportionate share of Oaktree Operating Group units held by the OCGH unitholders. Inasmuch as the number of outstanding Oaktree Operating Group units corresponds with the total number of outstanding OCGH units and Class A units, changes in the economic interest held by the OCGH unitholders are driven by our additional issuances of OCGH units and our issuance, if any, of additional Class A units, as well as repurchases and forfeitures of OCGH units and Class A units. Certain of our expenses, such as income tax and related administrative expenses of Oaktree Capital Group, LLC and its Intermediate Holding Companies, are solely attributable to the Class A unitholders. Please see note 8 to our condensed consolidated financial statements included elsewhere in this quarterly report for additional information on the economic interest in the Oaktree Operating Group owned by OCGH.

Segment and Operating Metrics

Our business is comprised of one segment, our investment management segment, which consists of the investment management services that we provide to our clients. Management makes operating decisions and assesses the performance of our business based on financial and operating metrics and data that are presented without the consolidation of any funds. For a detailed reconciliation of the segment results of operations to our condensed consolidated statements of operations, please see “—Segment Analysis” below and the “Segment Reporting” note to our condensed consolidated financial statements included elsewhere in this quarterly report. The data most important to our chief operating decision maker in assessing our performance are adjusted net income, adjusted net income-OCG, distributable earnings, distributable earnings-OCG, fee-related earnings and fee-related earnings-OCG.

We monitor certain operating metrics that are either common to the alternative asset management industry or that we believe provide important data regarding our business. As described below, these operating metrics include assets under management, management fee-generating assets under management, incentive-creating assets under management, incentives created (fund level), accrued incentives (fund level) and uncalled capital commitments.

Adjusted Net Income

Our chief operating decision maker uses adjusted net income (“ANI”) as a tool to help evaluate the financial performance of, and make resource allocations and other operating decisions for, our segment. The components of revenues and expenses used in the determination of ANI do not give effect to the consolidation of the funds that we manage. In addition, ANI excludes the effect of (a) non-cash equity-based compensation charges related to unit grants made before our initial public offering, (b) income taxes, (c) other income or expenses applicable to OCG or its Intermediate Holding Companies and (d) the adjustment for the OCGH non-controlling interest. Incentive income and incentive income compensation expense are included in ANI when the underlying fund distributions are known or knowable as of the respective quarter end, which may be later than the time at which the same revenue or expense is included in the GAAP-basis statements of operations, for which the revenue standard is fixed or determinable and the expense standard is probable and reasonably estimable. ANI is calculated at the Operating Group level.

Among other factors, our accounting policy for recognizing incentive income and inclusion of non-cash equity-based compensation charges related to unit grants made after our initial public offering will likely make our calculation of ANI not directly comparable to economic net income (“ENI”) or other similarly named measures of certain other asset managers.

We calculate adjusted net income-OCG, or adjusted net income per Class A unit, a non-GAAP measure, to provide Class A unitholders with a measure that shows the portion of ANI attributable to their ownership. Adjusted net income-OCG represents ANI including the effect of (a) the OCGH non-controlling interest, (b) other income or expenses, such as income tax expense, applicable to OCG or its Intermediate Holding Companies and (c) any Oaktree Operating Group income taxes attributable to OCG. Two of our Intermediate Holding Companies incur U.S. federal and state income taxes for their share of Operating Group income. Generally, those two corporate entities hold an interest in the Operating Group’s management fee-generating assets and a small portion of its incentive and investment income-generating assets. As a result, historically our fee-related earnings generally have

been subject to corporate-level taxation, and most of our incentive income and investment income generally has not been subject to corporate-level taxation. Thus, the blended effective tax rate has generally tended to be higher to the extent that fee-related earnings represented a larger proportion of our ANI. Myriad other factors affect income tax expense and the effective tax rate, and there can be no assurance that this historical relationship will continue going forward.

Distributable Earnings

Our chief operating decision maker uses distributable earnings as a tool to help evaluate the financial performance of, and make resource allocations and other operating decisions for, our segment. Distributable earnings is a non-GAAP performance measure derived from our segment results that we use to measure our earnings at the Operating Group level without the effects of the consolidated funds for the purpose of, among other things, assisting in the determination of equity distributions from the Operating Group. However, the declaration, payment and determination of the amount of equity distributions, if any, is at the sole discretion of our board of directors, which may change our distribution policy at any time.

In accordance with GAAP, certain of our funds are consolidated into our condensed consolidated financial statements, notwithstanding the fact that we typically have only a minority economic interest in these funds. Consequently, our condensed consolidated financial statements reflect the results of our consolidated funds on a gross basis. In addition, our segment results include investment income (loss), which under the equity method of accounting represents our pro-rata share of income or loss from our investments, generally in our capacity as general partner in our funds and as an investor in third-party managed funds and companies, and which is largely non-cash in nature. By excluding the results of our consolidated funds and segment investment income or loss, which are not directly available to fund our operations or make equity distributions, and including the portion of distributions from Oaktree and non-Oaktree funds to us that represents the income or loss component of the distributions and not a return of our capital contributions, as well as distributions from our investments in companies, distributable earnings aids us in measuring amounts that are actually available to meet our obligations under the tax receivable agreement and our liabilities for expenses incurred at OCG and the Intermediate Holding Companies, as well as for distributions to Class A and OCGH unitholders.

Distributable earnings differs from ANI in that it excludes segment investment income or loss and includes the receipt of investment income or loss from distributions by our investments in funds and companies. In addition, distributable earnings differs from ANI in that it is net of Operating Group income taxes and excludes non-cash equity-based compensation charges related to unit grants made after our initial public offering. In contrast to the GAAP measure of net income or loss attributable to OCG, distributable earnings also excludes the effect of (a) non-cash equity-based compensation charges related to unit grants made before our initial public offering, (b) income taxes and expenses that OCG or its Intermediate Holding Companies bear directly and (c) the adjustment for the OCGH non-controlling interest.

Distributable earnings-OCG, or distributable earnings per Class A unit, is a non-GAAP measure calculated to provide Class A unitholders with a measure that shows the portion of distributable earnings attributable to their ownership. Distributable earnings-OCG represents distributable earnings including the effect of (a) OCGH non-controlling interest, (b) expenses, such as current income tax expense, applicable to OCG or its Intermediate Holding Companies and (c) amounts payable under the tax receivable agreement. The income tax expense included in distributable earnings-OCG represents the implied current provision for income taxes calculated using an approach similar to that which is used in calculating the income tax provision for adjusted net income-OCG.

Fee-related Earnings

Fee-related earnings is a non-GAAP measure that we use to monitor the baseline earnings of our business. Fee-related earnings is comprised of segment management fees less segment operating expenses other than incentive income compensation expense and, beginning with the fourth quarter of 2013 (with retrospective application), non-cash equity-based compensation charges related to unit grants made after our initial public offering. Fee-related earnings is considered baseline because it applies all cash compensation and benefits other than incentive income compensation expense, as well as all general and administrative expenses, to management fees, even though a significant portion of those expenses is attributable to incentive and investment income, and because it excludes all non-management fee revenue sources. Fee-related earnings is presented before income taxes.

Fee-related earnings-OCG, or fee-related earnings per Class A unit, is a non-GAAP measure calculated to provide Class A unitholders with a measure that shows the portion of fee-related earnings attributable to their

55

ownership. Fee-related earnings-OCG represents fee-related earnings including the effect of (a) the OCGH non-controlling interest, (b) other income or expenses, such as income tax expense, applicable to OCG or its Intermediate Holding Companies and (c) any Operating Group income taxes attributable to OCG. Fee-related earnings-OCG income taxes are calculated excluding any segment incentive income or investment income (loss). Among other factors, the exclusion of non-cash equity-based compensation charges related to unit grants made after our initial public offering may make our calculations of fee-related earnings and fee-related earnings-OCG not directly comparable to similarly named measures of other asset managers.

Assets Under Management

AUM generally refers to the assets we manage and equals the NAV of the assets we manage, the fund-level leverage on which management fees are charged, the undrawn capital that we are entitled to call from investors in our funds pursuant to their capital commitments and the aggregate par value of collateral assets and principal cash held by our CLOs. Our AUM includes amounts for which we charge no fees. Our definition of AUM is not based on any definition contained in our operating agreement or the agreements governing the funds that we manage. Our calculation of AUM and the two AUM-related metrics below may not be directly comparable to the AUM metrics of other asset managers.

Management Fee-generating Assets Under Management. Management fee-generating AUM is a forward-looking metric and reflects the AUM on which we will earn management fees in the following quarter. Our closed-end funds typically pay management fees based on committed capital or drawn capital during the investment period, without regard to changes in NAV, and during the liquidation period on the lesser of (a) total funded capital and (b) the cost basis of assets remaining in the fund. The annual management fee rate remains unchanged from the investment period through the liquidation period. Our open-end and evergreen funds pay management fees based on their NAV, and our CLOs pay management fees based on the aggregate par value of collateral assets and principal cash held by them, as defined in the applicable CLO indentures.

Incentive-creating Assets Under Management. Incentive-creating AUM refers to the AUM that may eventually produce incentive income. It represents the NAV of our funds for which we are entitled to receive an incentive allocation, excluding CLOs and investments made by us and our employees and directors (which are not subject to an incentive allocation). All funds for which we are entitled to receive an incentive allocation are included in incentive-creating AUM, regardless of whether or not they are currently generating incentives. Incentive-creating AUM does not include undrawn capital commitments.

Accrued Incentives (Fund Level)

Our funds record as accrued incentives the incentive income that would be paid to us if the funds were liquidated at their reported values as of the date of the financial statements. Incentives created (fund level) refers to the gross amount of potential incentives generated by the funds during the period. We refer to the amount of incentive income recognized as revenue by us as segment incentive income. Amounts recognized by us as incentive income are no longer included in accrued incentives (fund level), the term we use for remaining fund-level accruals.

The same performance and market risks inherent in incentives created (fund level) affect the ability to ultimately realize accrued incentives (fund level). One consequence of the accounting method we follow for incentives created (fund level) is that accrued incentives (fund level) is an off-balance sheet metric, rather than being an on-balance sheet receivable that could require reduction if fund performance suffers. We track accrued incentives (fund level) because it provides an indication of potential future value, though the timing and ultimate realization of that value are uncertain.

Incentives Created (Fund Level)

Incentives created (fund level), incentive income and accrued incentives (fund level) are presented gross, without deduction for direct compensation expense that is owed to our investment professionals associated with the particular fund when we earn the incentive income. We call that charge “incentive income compensation expense.” Incentive income compensation expense varies by the investment strategy and vintage of the particular fund, among other factors. In addition to incentive income compensation expense, the magnitude of the annual cash bonus pool is indirectly affected by the level of incentive income, net of its associated incentive income

compensation expense. The total charge related to the annual cash bonus pool, including the portion attributable to our incentive income, is reflected in the financial statement line item “compensation and benefits.”

Incentives created (fund level) often reflects investments measured at fair value and therefore is subject to risk of substantial fluctuation by the time the underlying investments are liquidated. We earn the incentive income, if any, that the fund is then obligated to pay us with respect to our incentive interest (generally 20%) in the profits of our unaffiliated investors, subject to an annual preferred return of typically 8%. Although GAAP allows the equivalent of incentives created (fund level) to be recognized as revenue by us under Method 2, we follow the Method 1 approach offered by GAAP. Our use of Method 1 reduces by a substantial degree the possibility that revenue recognized by us would be reversed in a subsequent period. For purposes of adjusted net income and distributable earnings, we recognize incentive income when the underlying fund distributions are known or knowable as of the respective quarter end, as opposed to the fixed or determinable standard of Method 1. We track incentives created (fund level) because it provides an indication of the value for us currently being created by our investment activities and facilitates comparability with those companies in our industry that utilize the alternative accrual-based Method 2 for recognizing incentive income in their financial statements.

Uncalled Capital Commitments

Uncalled capital commitments represent undrawn capital commitments by partners (including Oaktree as general partner) of our closed-end funds in their investment periods and certain evergreen funds. If a closed-end fund distributes capital during its investment period, that capital is typically subject to possible recall, in which case it is included in uncalled capital commitments.

Condensed Consolidated Statements of Operations

The following table sets forth our unaudited condensed consolidated statements of operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(in thousands)			
Revenues:				
Management fees	\$51,560	\$50,097	\$91,991	\$92,636

Net income attributable to Oaktree Capital Group, LLC	\$31,186	\$56,577	\$82,980	\$114,143

Three Months Ended June 30, 2014 Compared to the Three Months Ended June 30, 2013

Revenues

Management Fees

Management fees increased \$1.5 million, or 3.0%, to \$51.6 million for the three months ended June 30, 2014, from \$50.1 million for the three months ended June 30, 2013. The increase reflected \$8.4 million in higher fees earned across our High Yield Bond, Senior Loan, Emerging Markets Equity and Strategic Credit strategies, partially offset by \$7.0 million in lower advisory, director, transaction and certain other ancillary fees for the benefit of our consolidated funds. We reduce our management fees by the amount of advisory and other ancillary fees so that our funds' investors share pro rata in the economic benefit of the ancillary fees. Thus, in our condensed consolidated financial statements, these ancillary fees are treated as being attributable to non-controlling redeemable interests in consolidated entities and have no impact on the net income attributable to OCG.

Incentive Income

Incentive income was zero for the three months ended June 30, 2014, as compared to the \$2.3 million for the three months ended June 30, 2013 that was attributable to the unconsolidated Power Fund II and a separately managed account.

Expenses

Compensation and Benefits

Compensation and benefits increased \$2.4 million, or 2.7%, to \$92.7 million for the three months ended June 30, 2014, from \$90.3 million for the three months ended June 30, 2013, primarily reflecting growth in headcount. The current and prior-year periods included a \$2.0 million benefit and a \$1.3 million expense, respectively, associated with our phantom equity plan, stemming from each period's equity distribution and change in the Class A unit trading price.

Equity-based Compensation

Equity-based compensation expense increased \$3.4 million, or 47.9%, to \$10.5 million for the three months ended June 30, 2014, from \$7.1 million for the three months ended June 30, 2013. The increase reflected non-cash amortization expense associated with vesting of restricted unit grants made to employees and directors subsequent to our initial public offering in April 2012.

Incentive Income Compensation

Incentive income compensation expense decreased \$92.7 million, or 71.9%, to \$36.3 million for the three months ended June 30, 2014, from \$129.0 million for the three months ended June 30, 2013. The percentage decrease was smaller than the corresponding decline of 82.5% in segment incentive income, primarily because the 2011 acquisition of a small portion of certain investment professionals' carried interest in Opps VIIb caused incentive income compensation expense in the prior-year period to be \$21.2 million lower than it otherwise would have been, whereas there was no such benefit in the current-year period.

General and Administrative

General and administrative expense increased \$2.3 million, or 7.8%, to \$31.7 million for the three months ended June 30, 2014, from \$29.4 million for the three months ended June 30, 2013. Excluding the impact of foreign currency-related items, general and administrative expenses increased \$4.4 million, or 15.3%, to \$33.2 million from \$28.8 million. The increase primarily reflected costs associated with the Highstar acquisition that closed on August 1, 2014 and corporate growth. Please see note 15 to our condensed consolidated financial statements included elsewhere in this quarterly report for more information regarding Highstar.

Consolidated Fund Expenses

Consolidated fund expenses increased \$14.3 million, or 50.9%, to \$42.4 million for the three months ended June 30, 2014, from \$28.1 million for the three months ended June 30, 2013. The increase reflected higher professional fees and other costs related to managing the funds.

Other Income (Loss)

Interest Expense

Interest expense increased \$11.7 million, or 83.6%, to \$25.7 million for the three months ended June 30, 2014, from \$14.0 million for the three months ended June 30, 2013, entirely due to our consolidated funds.

Interest and Dividend Income

Interest and dividend income decreased \$296.5 million, or 51.1%, to \$284.1 million for the three months ended June 30, 2014, from \$580.6 million for the three months ended June 30, 2013, reflecting lower interest income earned by Distressed Debt funds in their liquidation periods, as well as certain special dividends earned in the prior-year period by Control Investing funds.

Net Realized Gain on Consolidated Funds' Investments

Net realized gain on consolidated funds' investments decreased \$317.8 million, or 38.2%, to \$514.2 million for the three months ended June 30, 2014, from \$832.0 million for the three months ended June 30, 2013. Of the \$514.2 million net realized gain in the current-year period, \$376.0 million was attributable to Control Investing funds, \$64.5 million was attributable to Distressed Debt funds, including \$43.8 million from Opps VIIb, and \$30.8 million to

Real Estate funds. Of the \$832.0 million net realized gain in the prior-year period, \$486.1 million was attributable to Distressed Debt funds, including \$128.9 million from Opps VIIb, \$135.2 million to Control Investing funds and \$131.5 million to Real Estate funds.

Net Change in Unrealized Appreciation (Depreciation) on Consolidated Funds' Investments

The net change in unrealized appreciation (depreciation) on consolidated funds' investments increased \$811.7 million, to a gain of \$699.9 million for the three months ended June 30, 2014, from a loss of \$111.8 million for the three months ended June 30, 2013. Excluding the \$317.8 million decrease in net realized gain on consolidated funds' investments, the net change in unrealized appreciation on consolidated funds' investments increased \$493.9 million, to \$1,214.1 million for the three months ended June 30, 2014, from \$720.2 million for the three months ended June 30, 2013. Of the \$1,214.1 million net gain in the current-year period, \$678.0 million was attributable to Distressed Debt funds, \$250.7 million to Control Investing funds and \$196.4 million to Real Estate funds. Of the \$720.2 million net gain in the prior-year period, \$422.6 million was attributable to Distressed Debt funds, \$314.3 million to Control Investing funds and \$119.8 million to Real Estate funds, partially offset by a loss of \$119.1 million from our High Yield Bond strategies.

Investment Income (Loss)

Investment income (loss) increased \$5.5 million, to income of \$4.4 million for the three months ended June 30, 2014, from a loss of \$1.1 million for the three months ended June 30, 2013. The increase was primarily attributable to \$4.1 million in higher income from our investments in companies, reflecting \$11.6 million of higher income from our one-fifth ownership stake in DoubleLine Capital LP and its affiliates (collectively, "DoubleLine"), partially offset by a \$7.6 million market-value decline on our minority equity investment in China Cinda Asset Management Co., Ltd. ("Cinda"). DoubleLine accounted for investment income of \$10.6 million in the current-year period and a loss of \$1.0 million in the prior-year period. The \$1.0 million loss in the prior-year period reflected a placement fee associated with the launch by DoubleLine of a closed-end fund and a non-cash charge related to the firm's employee ownership interests; excluding the effect of those two expenses, the \$1.0 million loss in the prior-year period would have been income for us of \$10.0 million. The income of \$10.6 million and loss of \$1.0 million attributable to DoubleLine for the current and prior-year periods, respectively, included performance fees of \$2.6 million and \$1.0 million.

Other Income (Expense), Net

Other income (expense), net decreased to income of \$9 thousand for the three months ended June 30, 2014, from income of \$0.3 million for the three months ended June 30, 2013. Both periods reflected the net results of operating the portfolio of properties received as part of an arbitration award in 2010 related to a former Principal and portfolio manager of our real estate group who left us in 2005.

Income Taxes

Income taxes decreased \$2.2 million, or 27.5%, to \$5.8 million for the three months ended June 30, 2014, from \$8.0 million for the three months ended June 30, 2013. The decrease was attributable to lower income before income taxes related to Class A unitholders. The effective tax rate related to Class A unitholders for the three months ended June 30, 2014 was 14%, based on an estimated annual rate of 12%. The effective tax rate related to Class A unitholders for the three months ended June 30, 2013 was 11%, based on an estimated annual rate of 12%. The effective tax rate used for interim fiscal periods is based on the estimated full-year income tax rate and is a function of the mix of income and other factors that often vary significantly within or between years, each of which can have a material impact on the particular year's income tax expense. Please see "—Understanding Our Results—Consolidation of Oaktree Funds."

Net Income Attributable to Oaktree Capital Group, LLC

Net income attributable to Oaktree Capital Group, LLC decreased \$25.4 million, or 44.9%, to \$31.2 million for the three months ended June 30, 2014, from \$56.6 million for the three months ended June 30, 2013. The decrease reflected lower segment revenues, partially offset by lower segment expenses and a larger allocation of income to OCG as a result of an increase in the average number of Class A units outstanding during each period.

Net Income Attributable to Non-controlling Interests in Consolidated Funds

Net income attributable to non-controlling interests in consolidated funds increased \$421.7 million, or 55.3%, to \$1,184.2 million for the three months ended June 30, 2014, from \$762.5 million for the three months

ended June 30, 2013, reflecting higher net gains on investments, partially offset by lower interest and dividend income. These effects are described in more detail under “—Other Income (Loss)” above.

Six Months Ended June 30, 2014 Compared to the Six Months Ended June 30, 2013

Revenues

Management Fees

Management fees decreased \$0.6 million, or 0.6%, to \$92.0 million for the six months ended June 30, 2014, from \$92.6 million for the six months ended June 30, 2013. The decrease reflected \$14.0 million in lower advisory, director, transaction and certain other ancillary fees for the benefit of our consolidated funds, partially offset by \$13.9 million in higher fees earned across our High Yield Bond, Senior Loan, Emerging Markets Equity and Strategic Credit strategies. We reduce our management fees by the amount of advisory and other ancillary fees so that our funds’ investors share pro rata in the economic benefit of the ancillary fees. Thus, in our condensed consolidated financial statements, these ancillary fees are treated as being attributable to non-controlling redeemable interests in consolidated entities and have no impact on the net income attributable to OCG.

Incentive Income

Incentive income was zero for the six months ended June 30, 2014, as compared to \$2.3 million for the six months ended June 30, 2013 that was attributable to the unconsolidated Power Fund II and a separately managed account.

Expenses

Compensation and Benefits

Compensation and benefits increased \$7.0 million, or 3.8%, to \$191.0 million for the six months ended June 30, 2014, from \$184.0 million for the six months ended June 30, 2013, primarily reflecting growth in headcount. The current and prior-year periods included a \$1.7 million benefit and a \$3.8 million expense, respectively, associated with our phantom equity plan, stemming from each period’s equity distribution and change in the Class A unit trading price.

Equity-based Compensation

Equity-based compensation expense increased \$6.1 million, or 44.9%, to \$19.7 million for the six months ended June 30, 2014, from \$13.6 million for the six months ended June 30, 2013. The increase reflected non-cash amortization expense associated with vesting of restricted unit grants made to employees and directors subsequent to our initial public offering in April 2012.

Incentive Income Compensation

Incentive income compensation expense decreased \$131.4 million, or 50.7%, to \$127.8 million for the six months ended June 30, 2014, from \$259.2 million for the six months ended June 30, 2013. The percentage decrease was smaller than the corresponding decline of 47.1% in segment incentive income, primarily because the 2011 acquisition of a small portion of certain investment professionals’ carried interest in Opps VIIb caused incentive income compensation expense in the prior-year period to be \$36.4 million lower than it otherwise would have been, whereas there was no such benefit in the current-year period.

General and Administrative

General and administrative expense increased \$14.8 million, or 30.1%, to \$63.9 million for the six months ended June 30, 2014, from \$49.1 million for the six months ended June 30, 2013. Excluding the impact of foreign currency-related items, general and administrative expenses increased \$11.3 million, or 21.0%, to \$65.1 million from \$53.8 million. The increase primarily reflected costs associated with the Highstar acquisition, our 2014 bi-annual client conferences and corporate growth.

Consolidated Fund Expenses

Consolidated fund expenses increased \$15.9 million, or 30.8%, to \$67.6 million for the six months ended June 30, 2014, from \$51.7 million for the six months ended June 30, 2013. The increase reflected higher professional fees and other costs related to managing the funds.

Other Income (Loss)

Interest Expense

Interest expense increased \$24.1 million, or 94.1%, to \$49.7 million for the six months ended June 30, 2014, from \$25.6 million for the six months ended June 30, 2013, entirely due to our consolidated funds.

Interest and Dividend Income

Interest and dividend income decreased \$340.6 million, or 34.5%, to \$646.2 million for the six months ended June 30, 2014, from \$986.8 million for the six months ended June 30, 2013, reflecting lower interest income earned by Distressed Debt funds in their liquidation periods, as well as certain special dividends earned in the prior-year period by Control Investing funds.

Net Realized Gain on Consolidated Funds' Investments

Net realized gain on consolidated funds' investments decreased \$861.9 million, or 42.5%, to \$1,168.3 million for the six months ended June 30, 2014, from \$2,030.2 million for the six months ended June 30, 2013. Of the \$1,168.3 million net realized gain in the current-year period, \$452.8 million was attributable to Distressed Debt funds, including \$111.3 million from Opps VIIb, \$551.1 million to Control Investing funds, and \$58.1 million to Real Estate funds. Of the \$2,030.2 million net realized gain in the prior-year period, \$1,249.2 million was attributable to Distressed Debt funds, including \$520.8 million from Opps VIIb, \$456.1 million to Control Investing funds and \$160.4 million to Real Estate funds.

Net Change in Unrealized Appreciation on Consolidated Funds' Investments

The net change in unrealized appreciation on consolidated funds' investments increased \$560.7 million, or 61.6%, to \$1,470.4 million for the six months ended June 30, 2014, from \$909.7 million for the six months ended June 30, 2013. Excluding the \$861.9 million decrease in net realized gain on consolidated funds' investments, the net change in unrealized appreciation on consolidated funds' investments decreased \$301.2 million, to \$2,638.7 million for the six months ended June 30, 2014, from \$2,939.9 million for the six months ended June 30, 2013. Of the \$2,638.7 million net gain in the current-year period, \$1,379.6 million was attributable to Distressed Debt funds, \$686.0 million to Control Investing funds and \$373.1 million to Real Estate funds. Of the \$2,939.9 million net gain in the prior-year period, \$1,950.9 million was attributable to Distressed Debt funds, including \$493.2 million from Opps VIIb, \$709.8 million to Control Investing funds, and \$293.0 million to Real Estate funds.

Investment Income

Investment income decreased \$1.7 million, or 15.3%, to \$9.4 million for the six months ended June 30, 2014, from \$11.1 million for the six months ended June 30, 2013. The decrease was primarily attributable to \$3.1 million in lower income from our investments in companies, partially offset by \$1.4 million in higher income from fund investments. The \$3.1 million decline attributable to investments in companies reflected a \$13.8 million market-value decline on our minority equity investment in Cinda, partially offset by a \$10.2 million increase in income from our one-fifth ownership stake in DoubleLine. DoubleLine accounted for investment income of \$20.2 million and \$10.0 million in the current and prior-year periods, respectively. The income of \$10.0 million in the prior-year period reflected a placement fee associated with the launch by DoubleLine of a closed-end fund and a non-cash charge related to the firm's employee ownership interests; excluding the effect of those two expenses, the income of \$10.0 million in the prior-year period would have been income for us of \$21.0 million. The income of \$20.2 million and \$10.0 million attributable to DoubleLine for the current and prior-year periods, respectively, included performance fees of \$4.0 million and \$3.0 million.

Other Income (Expense), Net

Other income (expense), net decreased to an expense of \$1.7 million for the six months ended June 30, 2014, from income of \$0.3 million for the six months ended June 30, 2013. The expense of \$1.7 million in the current-year period reflected a \$3.0 million write-off of unamortized debt issuance costs associated with the refinancing of our corporate credit facility, partially offset by \$1.5 million of income attributable to proceeds received as part of an arbitration award in 2010 related to a former Principal and portfolio manager of our real estate group who left us in 2005. The expense of \$0.3 million in the prior-year period reflected the net results of operating the portfolio of properties received as part of the 2010 arbitration award.

Income Taxes

Income taxes decreased \$4.4 million, or 24.3%, to \$13.7 million for the six months ended June 30, 2014, from \$18.1 million for the six months ended June 30, 2013. The decrease was attributable to lower income before

income taxes related to Class A unitholders. The effective tax rate related to Class A unitholders for the six months ended June 30, 2014 was 12%, based on an estimated annual rate of 12%, the same rates as were applicable to the corresponding prior-year periods. The effective tax rate used for interim fiscal periods is based on the estimated full-year income tax rate and is a function of the mix of income and other factors that often vary significantly within or between years, each of which can have a material impact on the particular year's income tax expense. Please see "—Understanding Our Results—Consolidation of Oaktree Funds."

Net Income Attributable to Oaktree Capital Group, LLC

Net income attributable to Oaktree Capital Group, LLC decreased \$31.1 million, or 27.3%, to \$83.0 million for the six months ended June 30, 2014, from \$114.1 million for the six months ended June 30, 2013. The decrease reflected lower segment revenues, partially offset by higher segment expenses and a larger allocation of income to OCG as a result of an increase in the average number of Class A units outstanding during each period.

Net Income Attributable to Non-controlling Interests in Consolidated Funds

Net income attributable to non-controlling interests in consolidated funds decreased \$317.4 million, or 11.2%, to \$2,509.1 million for the six months ended June 30, 2014, from \$2,826.5 million for the six months ended June 30, 2013, reflecting lower interest and dividend income and lower net gains on investments. These effects are described in more detail under "—Other Income (Loss)" above.

Edgar Filing: Oaktree Capital Group, LLC - Form 10-Q

Segment Financial Data

- Our business is comprised of one segment, our investment management segment, which consists of the investment management services that we provide to our clients. The components of revenues and expenses used in determining adjusted net income do not give effect to the consolidation of the funds that we manage. In addition, adjusted net income excludes the effect of (a) non-cash equity-based compensation charges related to unit grants made before our initial public offering, (b) income taxes, (c) other income or expenses applicable to OCG or its Intermediate Holding Companies and (d) the adjustment for the OCGH non-controlling interest. Incentive income and incentive income compensation expense are included in adjusted net income when the underlying fund distributions are known or knowable as of the respective quarter end, which may be later than the time at which the same revenue or expense is included in the GAAP-basis statements of operations, for which the revenue standard is fixed or determinable and the expense standard is probable and reasonably estimable. Adjusted net income is calculated at the Operating Group level. For a detailed description of our segment and operating metrics, please see “—Segment and Operating Metrics” above.
- (1) Interest income was \$0.7 million and \$0.9 million for the three months ended June 30, 2014 and 2013, respectively, and \$1.8 million and \$1.5 million for the six months ended June 30, 2014 and 2013, respectively. Beginning with the fourth quarter of 2013, the definition of fee-related earnings was modified to exclude non-cash equity-based compensation charges related to unit grants made after our initial public offering in April 2012. Prior periods have been recast to retroactively reflect this change. Those non-cash compensation charges amounted to \$0.9 million and \$1.6 million for the three and six months ended June 30, 2013, respectively.
 - (2)
 - (3)

Operating Metrics

We monitor certain operating metrics that are either common to the alternative asset management industry or that we believe provide important data regarding our business. These operating metrics include assets under management, management fee-generating assets under management, incentive-creating assets under management, incentives created (fund level), accrued incentives (fund level) and uncalled capital commitments.

Assets Under Management

AUM is set forth below:

	As of June 30, 2014	March 31, 2014	June 30, 2013
Assets Under Management:	(in millions)		
Closed-end funds	\$48,162	\$46,902	\$44,197
Open-end funds	37,980	34,911	29,271
Evergreen funds	4,947	4,413	2,932
Total	\$91,089	\$86,226	\$76,400

The change in AUM is set forth below:

	Three Months Ended June 30, 2014		Six Months Ended June 30, 2013	
	2013		2013	
Change in Assets Under Management:	(in millions)			
Beginning balance	\$86,226	\$78,801	\$83,605	\$77,051
Closed-end funds:				
New capital commitments/other ⁽¹⁾	1,160	722	2,243	1,937
Distributions for a realization event/other ⁽²⁾	(1,245)	(4,711)	(3,197)	(7,891)
Uncalled capital commitments at end of investment period—	—	—	(146)	—
Foreign currency translation	(46)	65	(45)	(68)
Change in market value ⁽³⁾	1,138	1,185	2,507	3,420
Change in applicable leverage	253	555	115	1,099
Open-end funds:				
Contributions	3,618	965	5,313	2,092
Redemptions	(1,291)	(1,364)	(1,870)	(2,593)
Foreign currency translation	(21)	7	(7)	(87)
Change in market value ⁽³⁾	763	(174)	1,676	767
Evergreen funds:				
Contributions or new capital commitments	544	485	812	722
Redemptions	(94)	(144)	(108)	(161)
Distributions from restructured funds	—	(17)	(16)	(32)
Foreign currency translation	(1)	1	(2)	—
Change in market value ⁽³⁾	85	24	209	144
Ending balance	\$91,089	\$76,400	\$91,089	\$76,400

(1) These amounts represent new capital commitments and the aggregate par value of collateral assets and principal cash associated with our CLOs.

(2) These amounts represent distributions for a realization event, tax-related distributions and reductions in the par value of collateral assets and principal cash resulting from the repayment of debt by our CLOs.

The change in market value reflects the change in NAV of our funds resulting from current income and realized (3) and unrealized gains/losses on investments, less management fees and other fund expenses, and changes in the aggregate par value of collateral assets and principal cash held by our CLOs resulting from other activities.

Management Fee-generating Assets Under Management

Management fee-generating AUM is set forth below:

	As of June 30, 2014	March 31, 2014	June 30, 2013
Management Fee-generating Assets Under Management:	(in millions)		
Closed-end funds:			
Senior Loans	\$3,855	\$2,984	\$2,242
Other closed-end funds	32,658	33,192	30,877
Open-end funds	37,940	34,855	29,235
Evergreen funds	3,328	2,996	2,260
Total	\$77,781	\$74,027	\$64,614

The change in management fee-generating AUM is set forth below:

	Three Months Ended June 30, 2014		Six Months Ended June 30, 2013	
Change in Management Fee-generating Assets Under Management:	(in millions)			
Beginning balance	\$74,027	\$66,350	\$71,950	\$66,784
Closed-end funds:				
New capital commitments to funds that pay fees based on committed capital/other ⁽¹⁾	541	551	1,101	932
Capital drawn by funds that pay fees based on drawn capital or NAV	317	610	424	1,312
Change for funds that pay fees based on the lesser of funded capital or cost basis during liquidation ⁽²⁾	(603)	(2,859)	(1,501)	(5,606)
Distributions by funds that pay fees based on NAV/other ⁽³⁾	(208)	(57)	(316)	(118)
Foreign currency translation	(11)	42	(27)	(103)
Change in market value ⁽⁴⁾	57	(125)	166	(133)
Change in applicable leverage	244	545	244	1,085
Open-end funds:				
Contributions	3,636	965	5,316	2,092
Redemptions	(1,292)	(1,364)	(1,873)	(2,593)
Foreign currency translation	(21)	7	(7)	(87)
Change in market value	762	(172)	1,674	767
Evergreen funds:				
Contributions or capital drawn by funds that pay fees based on drawn capital or NAV	369	240	566	311
Redemptions	(94)	(144)	(108)	(161)
Change in market value	57	25	172	132
Ending balance	\$77,781	\$64,614	\$77,781	\$64,614

(1) These amounts represent new capital commitments to funds that pay fees based on committed capital and the aggregate par value of collateral assets and principal cash associated with our CLOs.

For most closed-end funds, management fees are charged during the liquidation period on the lesser of (a) total funded capital and (b) the cost basis of assets remaining in the fund, with the cost basis of assets generally (2)calculated by excluding cash balances. Thus, changes in fee basis during the liquidation period are not dependent on distributions made from the fund; rather, they are tied to the cost basis of the fund's investments, which generally declines as the fund sells assets.

(3) These amounts represent distributions by funds that pay fees based on NAV and reductions in the par value of collateral assets and principal cash resulting from the repayment of debt by our CLOs.

The change in market value reflects certain funds that pay management fees based on NAV and leverage, as (4)applicable, and changes in the aggregate par value of collateral assets and principal cash held by our CLOs resulting from other activities.

As compared with AUM, management fee-generating AUM generally excludes the following:

- Differences between AUM and either committed capital or cost basis for most closed-end funds, other than for closed-end funds that pay management fees based on NAV and leverage, as applicable;

- Undrawn capital commitments to closed-end funds that have not yet commenced their investment periods;

- Undrawn capital commitments to funds for which management fees are based on drawn capital or NAV;

- The investments we make in our funds as general partner;

- Closed-end funds that are beyond the term during which they pay management fees; and

- AUM in restructured and liquidating evergreen funds for which management fees were waived.

A reconciliation of AUM to management fee-generating AUM is set forth below:

	As of		
	June 30,	March 31,	June 30,
	2014	2014	2013
	(in millions)		
Reconciliation of Assets Under Management to Management Fee-generating Assets Under Management:			
Assets under management	\$91,089	\$86,226	\$76,400
Difference between assets under management and committed capital or cost basis for most closed-end funds ⁽¹⁾	(7,373)	(6,616)	(4,761)
Undrawn capital commitments to funds that have not yet commenced their investment periods	(571)	(696)	(4,855)
Undrawn capital commitments to funds for which management fees are based on drawn capital or NAV	(3,623)	(3,013)	(733)
Oaktree's general partner investments in management fee-generating funds	(1,118)	(1,247)	(940)
Closed-end funds that are no longer paying management fees	(425)	(444)	(289)
Funds for which management fees were permanently waived	(198)	(183)	(208)
Management fee-generating assets under management	\$77,781	\$74,027	\$64,614

(1) This difference is not applicable to closed-end funds that pay management fees based on NAV or leverage.

The period-end weighted average annual management fee rates applicable to the respective management fee-generating AUM balances above are set forth below, and reflect the applicable contractual fee rates, exclusive of the impact of special items such as retroactive management fees and the collection of deferred contingent management fees.

	As of					
	June 30,		March 31,		June 30,	
	2014		2014		2013	
Weighted Average Annual Management Fee Rates:						
Closed-end funds:						
Senior Loans	0.50	%	0.50	%	0.50	%
Other closed-end funds	1.55		1.55		1.55	
Open-end funds	0.47		0.47		0.49	
Evergreen funds	1.57		1.61		1.72	
Overall	0.97		1.00		1.04	

Incentive-creating Assets Under Management
 Incentive-creating AUM is set forth below:

	As of		
	June 30,	March 31,	June 30,
	2014	2014	2013
Incentive-creating Assets Under Management:			
(in millions)			
Closed-end funds	\$32,789	\$31,172	\$29,920
Evergreen funds	2,299	2,086	2,175
Total	\$35,088	\$33,258	\$32,095

As of June 30, 2014, March 31, 2014 and June 30, 2013, the portion of incentive-creating AUM generating incentives at the fund level was \$33.5 billion, \$30.0 billion and \$22.9 billion, respectively. Incentive-creating AUM does not include undrawn capital commitments.

Three Months Ended June 30, 2014

AUM grew \$4.9 billion, or 5.7%, to \$91.1 billion as of June 30, 2014, from \$86.2 billion as of March 31, 2014. The increase reflected \$2.3 billion of net inflows to open-end funds, \$2.0 billion of aggregate market-value gains, and \$1.9 billion of new capital commitments and fee-generating leverage, partially offset by \$1.2 billion of distributions to closed-end fund investors. New capital commitments and fee-generating leverage included \$0.8 billion from Oaktree Enhanced Income Fund II, L.P. ("EIF II"), \$0.4 billion from CLOs, \$0.3 billion from Oaktree Value Equity Fund, L.P. ("VEF") and \$0.2 billion from Real Estate Debt. The \$1.2 billion of distributions to closed-end fund investors included \$0.9 billion by Principal Investing funds.

Management fee-generating AUM grew \$3.8 billion, or 5.1%, to \$77.8 billion as of June 30, 2014, from \$74.0 billion as of March 31, 2014. The increase reflected \$2.3 billion of net inflows to open-end funds, \$0.9 billion of market-value gains in funds for which management fees are based on NAV, \$0.9 billion in fee-generating leverage and drawdowns by closed-end and evergreen funds for which management fees are based on drawn capital or NAV, and \$0.5 billion in new capital commitments to CLOs, partially offset by a \$0.6 billion decline attributable to asset sales by closed-end funds in liquidation.

Incentive-creating AUM grew \$1.8 billion, or 5.4%, to \$35.1 billion as of June 30, 2014, from \$33.3 billion as of March 31, 2014. The increase reflected the net effect of \$1.9 billion in drawdowns by closed-end funds, \$1.1 billion in market-value gains in closed-end and applicable evergreen funds, and \$1.2 billion in distributions by closed-end funds.

Three Months Ended June 30, 2013

AUM decreased \$2.4 billion, or 3.0%, to \$76.4 billion as of June 30, 2013, from \$78.8 billion as of March 31, 2013. The decrease was primarily attributable to \$4.7 billion in distributions to closed-end fund investors, partially offset by \$1.0 billion in aggregate market-value gains and \$1.3 billion in new capital commitments and fee-generating leverage. The \$4.7 billion in aggregate distributions included \$1.4 billion from Opps VIIb, \$1.3 billion

from other Distressed Debt funds, \$1.0 billion from Real Estate funds and \$0.8 billion from Global Principal funds. New capital commitments and fee-generating leverage to closed-end funds included \$0.6 billion for Oaktree Real Estate Opportunities Fund VI, L.P. (“ROF VI”) and \$0.6 billion for Oaktree Enhanced Income Fund, L.P. (“EIF”). Management fee-generating AUM decreased \$1.8 billion, or 2.7%, to \$64.6 billion as of June 30, 2013, from \$66.4 billion as of March 31, 2013. The decrease reflected a \$2.9 billion decline attributable to asset sales by closed-end funds in liquidation and \$0.4 billion of net outflows in our open-end funds, partially offset by increases of \$0.6 billion from new capital commitments to ROF VI and \$1.2 billion in fee-generating leverage and drawdowns by closed-end funds that pay fees based on drawn capital or NAV. Opps VIIb accounted for \$0.8 billion of the \$2.9 billion decline from asset sales by closed-end funds in liquidation. The \$1.2 billion in drawdowns included \$0.7 billion from EIF and an additional 5% drawdown for Oaktree Opportunities Fund IX, L.P. (“Opps IX”), which brought total drawn capital as of June 30, 2013 to 10% of Opps IX’s \$5.0 billion of committed capital. We chose to not commence Opps IX’s investment period until January 1, 2014; as a result, as of June 30, 2013 management fees were assessed only on its drawn capital, and management fee-generating AUM included only that portion of committed capital.

Incentive-creating AUM decreased \$1.9 billion, or 5.6%, to \$32.1 billion as of June 30, 2013, from \$34.0 billion as of March 31, 2013. The decrease was primarily attributable to \$4.2 billion in distributions by closed-end funds, partially offset by \$1.1 billion in market-value gains in closed-end and applicable evergreen funds, and \$1.1 billion in drawdowns by closed-end funds. Opps VIIb accounted for \$1.4 billion of the \$4.2 billion in distributions.

Six Months Ended June 30, 2014

AUM grew \$7.5 billion, or 9.0%, to \$91.1 billion as of June 30, 2014, from \$83.6 billion as of December 31, 2013. The increase reflected \$4.4 billion of aggregate market-value gains, \$3.4 billion of net inflows to open-end funds, and \$3.1 billion of new capital commitments and fee-generating leverage, partially offset by \$3.2 billion of distributions to closed-end fund investors. New capital commitments and fee-generating leverage included \$1.2 billion from CLOs, \$0.8 billion from EIF II, \$0.5 billion from Real Estate Debt, and \$0.3 billion from VEF. The \$3.2 billion of distributions to closed-end fund investors included \$1.3 billion by Distressed Debt funds, including \$0.3 billion by Opps VIIb, and \$1.5 billion by Principal Investing funds.

Management fee-generating AUM grew \$5.8 billion, or 8.1%, to \$77.8 billion as of June 30, 2014, from \$72.0 billion as of December 31, 2013. The increase reflected \$3.4 billion of net inflows to open-end funds, \$2.0 billion of market-value gains in funds for which management fees are based on NAV, \$1.2 billion in fee-generating leverage and drawdowns by closed-end and evergreen funds that pay fees based on drawn capital or NAV, and \$1.1 billion in new capital commitments, partially offset by a \$1.5 billion decline attributable to asset sales by closed-end funds in liquidation.

Incentive-creating AUM grew \$2.7 billion, or 8.3%, to \$35.1 billion as of June 30, 2014, from \$32.4 billion as of December 31, 2013. The increase reflected the net effect of \$3.4 billion in drawdowns by closed-end funds, \$2.5 billion in market-value gains in closed-end and applicable evergreen funds, and \$3.2 billion in distributions by closed-end funds.

Six Months Ended June 30, 2013

AUM decreased \$0.7 billion, or 0.9%, to \$76.4 billion as of June 30, 2013, from \$77.1 billion as of December 31, 2012. The decrease reflected \$7.9 billion in distributions to closed-end fund investors, largely offset by \$4.3 billion in aggregate market-value gains and \$3.0 billion in new capital commitments and fee-generating leverage. The \$7.9 billion in aggregate distributions included \$2.2 billion from Opps VIIb, \$2.7 billion from other Distressed Debt funds, \$1.1 billion from Global Principal funds, \$1.1 billion from Real Estate funds and \$0.5 billion from European Principal funds. New capital commitments and fee-generating leverage to closed-end funds included \$0.9 billion to ROF VI and \$1.5 billion to EIF.

Management fee-generating AUM decreased \$2.2 billion, or 3.3%, to \$64.6 billion as of June 30, 2013, from \$66.8 billion as of December 31, 2012. The decrease reflected \$5.6 billion in asset sales by closed-end funds in liquidation and \$0.5 billion of net outflows in our open-end funds, partially offset by \$0.8 billion in market-value gains in funds for which management fees are based on NAV and increases of \$0.9 billion due to new capital commitments to ROF VI and \$2.4 billion in fee-generating leverage and drawdowns by closed-end funds that pay fees based on drawn capital or NAV. Opps VIIb accounted for \$2.3 billion of the \$5.6 billion decline from asset sales by closed-end funds in liquidation. As of June 30, 2013, Opps IX had made an aggregate 10% drawdown against its \$5.0 billion of

committed capital. We chose to not commence Opps IX's investment period until January

70

1, 2014; as a result, as of June 30, 2013 management fees were assessed only on its drawn capital, and management fee-generating AUM included only that portion of committed capital.

Incentive-creating AUM decreased \$1.9 billion, or 5.6%, to \$32.1 billion as of June 30, 2013, from \$34.0 billion as of December 31, 2012. The decrease was primarily attributable to \$7.3 billion in distributions by closed-end funds, partially offset by \$3.3 billion in market-value gains in closed-end and applicable evergreen funds, and \$1.9 billion in drawdowns by closed-end funds. Opps VIIb accounted for \$2.1 billion of the \$7.3 billion in distributions.

Accrued Incentives (Fund Level) and Incentives Created (Fund Level)

Accrued incentives (fund level), gross and net of incentive income compensation expense, as well as changes in accrued incentives (fund level), are set forth below.

	As of or for the Three Months Ended June 30, 2014		As of or for the Six Months Ended June 30, 2013	
Accrued Incentives (Fund Level):	(in thousands)			
Beginning balance	\$2,335,937	\$2,270,314	\$2,276,439	\$2,137,798
Incentives created (fund level):				
Closed-end funds	197,639	190,245	535,222	629,831
Evergreen funds	6,637	4,998	21,428	25,112

Less: segment incentive income recognized by us	(59,198)	(338,057)	(352,074)	(665,241)
Ending balance	\$2,481,015	\$2,127,500	\$2,481,015	\$2,127,500
Accrued incentives (fund level), net of associated incentive income compensation expense	\$1,291,920	\$1,222,619	\$1,291,920	\$1,222,619

As of June 30, 2014 and 2013, the portion of net accrued incentives (fund level) represented by funds that were currently paying incentives was \$475.3 million and \$590.2 million, respectively, with the remainder arising from funds that as of that date had not yet reached the stage of their cash distribution waterfall where Oaktree was entitled to receive incentives, other than tax-related distributions.

As of June 30, 2014, 79% of the net accrued incentives (fund level) were in funds in their liquidation period or evergreen funds, and 49% of the assets underlying total net accrued incentives (fund level) were Level I or Level II securities. Please see “—Critical Accounting Policies—Investments, at Fair Value—Non-publicly Traded Equity and Real Estate Investments” for a discussion of the fair-value hierarchy level established by GAAP.

Three Months Ended June 30, 2014 and 2013

Incentives created (fund level) was \$204.3 million for the three months ended June 30, 2014, reflecting both the 95.3% share of our incentive-creating AUM that was creating incentives as of June 30, 2014 and the period’s investment returns. The \$204.3 million of incentives created (fund level) included \$131.0 million from Distressed Debt funds and \$49.8 million from Real Estate funds.

Incentives created (fund level) amounted to \$195.2 million for the three months ended June 30, 2013, reflecting price gains across our incentive-creating funds. Of the \$195.2 million of incentives created (fund level), \$52.7 million was attributable to Oaktree Opportunities Fund VIII, L.P., \$59.0 million to other Distressed Debt funds and \$64.5 million to Control Investing funds.

Six Months Ended June 30, 2014 and 2013

Incentives created (fund level) was \$556.7 million for the six months ended June 30, 2014, reflecting the period’s investment returns. The \$556.7 million of incentives created (fund level) included \$248.8 million from Distressed Debt funds, \$204.4 million from Control Investing funds and \$73.8 million from Real Estate funds.

Incentives created (fund level) amounted to \$654.9 million for the six months ended June 30, 2013, reflecting the 71.3% share of our incentive-creating AUM that was creating incentives as of June 30, 2013. Of the \$654.9 million of incentives created (fund level), \$108.2 million was attributable to Opps VIIb, \$393.7 million to other

Distressed Debt funds and \$127.7 million to Control Investing and Real Estate funds.

Uncalled Capital Commitments

As of June 30, 2014, March 31, 2014 and June 30, 2013, uncalled capital commitments were \$11.0 billion, \$12.0 billion and \$11.0 billion, respectively. Capital drawn by closed-end funds during the three and twelve months ended June 30, 2014 aggregated \$2.5 billion and \$7.4 billion, respectively, as compared with \$1.7 billion and \$6.0 billion for the corresponding prior-year periods.

Segment Analysis

Our business is comprised of one segment, our investment management segment, which consists of the investment management services that we provide to our clients. Management makes operating decisions and assesses the performance of our business based on financial and operating metrics and data that are presented without the consolidation of any funds. For a detailed reconciliation of the segment results of operations to our condensed consolidated statements of operations, please see “—Distributable Earnings” and “—Fee-related Earnings” below and the “Segment Reporting” note to our condensed consolidated financial statements included elsewhere in this quarterly report. The data most important to our chief operating decision maker in assessing our performance are adjusted net income, adjusted net income-OCG, distributable earnings, distributable earnings-OCG, fee-related earnings and fee-related earnings-OCG.

Adjusted Net Income

ANI and adjusted net income-OCG, as well as per unit data, are set forth below:

Weighted average number of Class A units outstanding	43,480	33,020	41,600	31,611

This adjustment characterizes a portion of the distributions received from funds as receipts of investment income or loss. In general, the income or loss component of a fund distribution is calculated by multiplying the amount of the (1) distribution by the ratio of our investment's undistributed income or loss to our remaining investment balance. In addition, if the distribution is made during the investment period, it is generally not reflected in distributable earnings until after the investment period ends.

Three Months Ended June 30, 2014 Compared to the Three Months Ended June 30, 2013

Distributable earnings decreased \$197.0 million, or 62.9%, to \$116.2 million for the three months ended June 30, 2014, from \$313.2 million for the three months ended June 30, 2013, reflecting decreases of \$180.1 million in incentive income, net of incentive income compensation expense, and \$20.2 million in investment income proceeds, partially offset by \$2.4 million in higher fee-related earnings. For the three months ended June 30, 2014, investment income proceeds totaled \$31.5 million, including \$22.9 million from fund distributions and \$8.6 million from DoubleLine, as compared with investment income proceeds in the prior-year period of \$51.7 million, of which \$49.5 million and \$2.2 million was attributable to fund distributions and DoubleLine, respectively.

Edgar Filing: Oaktree Capital Group, LLC - Form 10-Q

Six Months Ended June 30, 2014 Compared to the Six Months Ended June 30, 2013

Distributable earnings decreased \$258.9 million, or 42.6%, to \$349.3 million for the six months ended June 30, 2014, from \$608.2 million for the six months ended June 30, 2013, reflecting decreases of \$221.9 million in incentive income, net of incentive income compensation expense, \$32.1 million in investment income proceeds, and \$4.6 million in fee-related earnings. For the six months ended June 30, 2014, investment income proceeds totaled \$62.6 million, including \$44.6 million from fund distributions and \$18.0 million from DoubleLine, as compared with investment income proceeds in the prior-year period of \$94.7 million, of which \$83.5 million and \$11.2 million was attributable to fund distributions and DoubleLine, respectively.

The following table reconciles distributable earnings and ANI to net income attributable to Oaktree Capital Group, LLC:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013

Net income attributable to Oaktree Capital Group, LLC	\$31,186	\$56,577	\$82,980	\$114,143

(1) This adjustment eliminates our segment investment income, which with respect to investment in funds is initially largely non-cash in nature and is thus not available to fund our operations or make equity distributions.

This adjustment characterizes a portion of the distributions received from funds as receipts of investment income or loss. In general, the income or loss component of a distribution from a fund is calculated by multiplying the amount of the distribution by the ratio of our investment's undistributed income or loss to our remaining investment balance. In addition, if the distribution is made during the investment period, it is generally not reflected in distributable earnings until after the investment period ends.

(2) This adjustment adds back the effect of equity-based compensation charges related to unit grants made after our initial public offering, which is excluded from distributable earnings because it is non-cash in nature and does not impact our ability to fund our operations or make equity distributions.

(3) This adjustment adds back the effect of timing differences associated with the recognition of incentive income and incentive income compensation expense between adjusted net income and net income attributable to OCG. There were no adjustments attributable to timing differences for the three and six months ended June 30, 2013.

(4) This adjustment adds back the effect of equity-based compensation charges related to unit grants made before our initial public offering, which is excluded from adjusted net income because it does not affect our financial position and from distributable earnings because it is non-cash in nature and does not impact our ability to fund operations or make equity distributions.

(5) Because adjusted net income and distributable earnings are pre-tax measures, this adjustment adds back the effect of income tax expense.

(6) Because adjusted net income and distributable earnings are calculated at the Operating Group level, this adjustment adds back the effect of items applicable to OCG, its Intermediate Holding Companies or the OCGH

non-controlling interest.

The following table reconciles distributable earnings-OCG and adjusted net income-OCG to net income attributable to Oaktree Capital Group, LLC:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(in thousands)			
Distributable earnings-OCG ⁽¹⁾	\$27,782	\$63,966	\$83,594	\$118,042
Investment income attributable to OCG	15,433	7,560	27,551	23,984
Receipts of investment income from funds attributable to OCG	(6,524)	(10,819)	(12,171)	(17,629)
Receipts of investment income from companies attributable to OCG	(2,449)	(482)	(4,904)	(2,286)
Equity-based compensation attributable to OCG ⁽²⁾	(1,455)	(202)	(2,494)	(333)
Distributable earnings-OCG income taxes	739	1,201	1,478	4,121
Tax receivable agreement	3,954	2,848	7,907	4,693
Income taxes of Intermediate Holding Companies	(4,761)	(6,144)	(10,367)	(13,937)
Adjusted net income-OCG ⁽¹⁾	32,719	57,928	90,594	116,655
Incentive income attributable to OCG ⁽³⁾	1,738	—	(15,068)	—
Incentive income compensation attributable to OCG ⁽³⁾	(1,740)	—	10,340	—
Equity-based compensation attributable to OCG ⁽⁴⁾	(1,531)	(1,351)	(2,886)	(2,512)
Net income attributable to Oaktree Capital Group, LLC	\$31,186	\$56,577	\$82,980	\$114,143

Distributable earnings-OCG and adjusted net income-OCG are calculated to evaluate the portion of adjusted net (1) income and distributable earnings attributable to Class A unitholders. These measures are net of income taxes and expenses applicable to OCG or its Intermediate Holding Companies.

This adjustment adds back the effect of equity-based compensation charges attributable to OCG related to unit (2) grants made after our initial public offering, which is excluded from distributable earnings because it is non-cash in nature and does not impact our ability to fund our operations or make equity distributions.

This adjustment adds back the effect of timing differences associated with the recognition of incentive income and (3) incentive income compensation expense attributable to OCG between adjusted net income-OCG and net income attributable to OCG. There were no adjustments attributable to timing differences for the three and six months ended June 30, 2013.

This adjustment adds back the effect of equity-based compensation charges attributable to OCG related to unit (4) grants made before our initial public offering, which is excluded from adjusted net income because it does not affect our financial position and from distributable earnings because it is non-cash in nature and does not impact our ability to fund our operations or make equity distributions.

Fee-related Earnings ⁽¹⁾

Fee-related earnings and fee-related earnings-OCG, as well as per unit data, are set forth below:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(in thousands, except per unit data)			
Management fees:				
Closed-end funds	\$ 132,256	\$ 136,176	\$ 269,294	\$ 275,224
Open-end funds	43,544	36,289	83,198	72,344
Evergreen funds	13,319	10,022	25,027	19,133

Fee-related earnings per Class A unit	\$0.34	\$0.35	\$0.66	\$0.70
Weighted average number of Class A units outstanding	43,480	33,020	41,600	31,611

(1) Beginning with the fourth quarter of 2013, the definition of fee-related earnings was modified to exclude non-cash equity-based compensation charges related to unit grants made after our initial public offering in April 2012. Prior periods have been recast to retroactively reflect this change. Those non-cash compensation charges amounted to \$0.9 million and \$1.6 million for the three and six months ended June 30, 2013, respectively.

The following table reconciles fee-related earnings and ANI to net income attributable to Oaktree Capital Group, LLC:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013

Net income attributable to Oaktree Capital Group, LLC	\$31,186	\$56,577	\$82,980	\$114,143

Fee-related earnings is a component of adjusted net income and is comprised of segment management fees less (1) segment operating expenses other than incentive income compensation expense and non-cash equity-based compensation charges related to unit grants made after our initial public offering.

This adjustment adds back the effect of equity-based compensation charges related to unit grants made after our (2) initial public offering, which is excluded from fee-related earnings because it is non-cash in nature and does not impact our ability to fund our operations or make equity distributions.

This adjustment adds back the effect of timing differences associated with the recognition of incentive income and (3) incentive income compensation expense between adjusted net income and net income attributable to OCG. There were no adjustments attributable to timing differences for the three and six months ended June 30, 2013.

This adjustment adds back the effect of equity-based compensation charges related to unit grants made before our (4) initial public offering, which is excluded from adjusted net income and fee-related earnings because it is a non-cash charge that does not affect our financial position.

Because adjusted net income and fee-related earnings are pre-tax measures, this adjustment adds back the effect of (5) income tax expense.

Because adjusted net income and fee-related earnings are calculated at the Operating Group level, this adjustment (6) adds back the effect of items applicable to OCG, its Intermediate Holding Companies or the OCGH non-controlling interest.

The following table reconciles fee-related earnings-OCG and adjusted net income-OCG to net income attributable to Oaktree Capital Group, LLC:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013

Incentive income attributable to OCG ⁽⁴⁾	1,738	—	(15,068)	—
Incentive income compensation attributable to OCG ⁽⁴⁾	(1,740)	—	10,340	—
Equity-based compensation attributable to OCG ⁽⁵⁾	(1,531)	(1,351)	(2,886)	(2,512)
Net income attributable to Oaktree Capital Group, LLC	\$31,186	\$56,577	\$82,980	\$114,143

Fee-related earnings-OCG and adjusted net income-OCG are calculated to evaluate the portion of adjusted net (1) income and fee-related earnings attributable to Class A unitholders. These measures are net of income taxes and other income or expenses applicable to OCG or its Intermediate Holding Companies.

This adjustment adds back the effect of equity-based compensation charges attributable to OCG related to unit (2) grants made after our initial public offering, which is excluded from fee-related earnings-OCG because it is non-cash in nature and does not impact our ability to fund our operations or make equity distributions.

This adjustment adds back income taxes associated with segment incentive income, incentive income (3) compensation or investment income (loss), which are not included in the calculation of fee-related earnings-OCG.

This adjustment adds back the effect of timing differences associated with the recognition of incentive income and (4) incentive income compensation expense attributable to OCG between adjusted net income-OCG and net income attributable to OCG. There were no adjustments attributable to timing differences for the three and six months ended June 30, 2013.

This adjustment adds back the effect of equity-based compensation charges attributable to OCG related to unit (5) grants made before our initial public offering, which is excluded from adjusted net income-OCG and fee-related earnings-OCG because it is a non-cash charge that does not affect our financial position.

Three Months Ended June 30, 2014 Compared to the Three Months Ended June 30, 2013

Segment Revenues

Management Fees

A summary of management fees is set forth below:

	Three Months Ended June 30,	
	2014	2013
	(in thousands)	
Management Fees:		
Closed-end funds	\$ 132,256	\$ 136,176
Open-end funds	43,544	36,289
Evergreen funds	13,319	10,022
Total	\$ 189,119	\$ 182,487

Management fees increased \$6.6 million, or 3.6%, to \$189.1 million for the three months ended June 30, 2014, from \$182.5 million for the three months ended June 30, 2013, for the reasons described below.

Closed-end funds. Management fees attributable to closed-end funds decreased \$3.9 million, or 2.9%, to \$132.3 million for the three months ended June 30, 2014, from \$136.2 million for the three months ended June 30, 2013, because the prior-year period included \$4.4 million of additional management fees from ROF VI retroactive to the start of the fund's investment period in August 2012 and \$0.8 million in deferred fees from Oaktree Mezzanine Fund III, L.P. ("Mezz III") that were contingent on the fund achieving certain cash-flow levels. Closed-end funds in liquidation accounted for an aggregate decrease of \$25.2 million in quarterly management fees between the three months ended June 30, 2013 and 2014. Largely offsetting that decrease were increases of \$18.3 million attributable to the start of Opps IX's investment period on January 1, 2014, \$5.1 million from new capital commitments to ROF VI, \$1.4 million from closed-end funds for which management fees are based on drawn capital or NAV, and \$0.8 million from CLOs.

Open-end funds. Management fees attributable to open-end funds increased \$7.2 million, or 19.8%, to \$43.5 million for the three months ended June 30, 2014, from \$36.3 million for the three months ended June 30, 2013. The increase reflected higher management fees as a result of net inflows to our Emerging Markets Equity and Senior Loan strategies, as well as market-value appreciation and \$0.5 million in higher performance-based fees in our U.S. High Yield Bond strategy. These increases were partially offset by \$1.5 million in lower performance-based fees in our Convertible Securities strategy.

Evergreen funds. Management fees attributable to evergreen funds increased \$3.3 million, or 33.0%, to \$13.3 million for the three months ended June 30, 2014, from \$10.0 million for the three months ended June 30, 2013, reflecting drawdowns by Strategic Credit and Emerging Markets Opportunities, as well as market-value gains in Oaktree Value Opportunities Fund, L.P. ("VOF"). The period-end weighted average annual management fee rate for evergreen funds decreased to 1.57% as of June 30, 2014, from 1.72% as of June 30, 2013, largely as a result of Strategic Credit, for which the average management fee rate is lower than is the case for other evergreen funds.

Incentive Income

A summary of incentive income is set forth below:

	Three Months Ended June 30,	
	2014	2013
	(in thousands)	
Incentive Income:		
Closed-end funds	\$58,405	\$336,087
Evergreen funds	793	1,970
Total	\$59,198	\$338,057

Incentive income decreased \$278.9 million, or 82.5%, to \$59.2 million for the three months ended June 30, 2014, from \$338.1 million for the three months ended June 30, 2013, principally as a result of a decline from \$272.5 million to \$38.9 million in incentive income attributable to Opps VIIb.

Investment Income

A summary of investment income is set forth below:

	Three Months Ended June 30,	
	2014	2013
	(in thousands)	
Income (loss) from investments in funds:		
Oaktree funds:		
Corporate Debt	\$8,329	\$1,692
Convertible Securities	531	13
Distressed Debt	18,719	13,830
Control Investing	5,640	12,915
Real Estate	7,272	1,468
Listed Equities	10,131	6,730
Non-Oaktree funds	380	(1,123)
Income (loss) from investments in companies	3,197	(949)
Total investment income	\$54,199	\$34,576

Investment income increased \$19.6 million, or 56.6%, to \$54.2 million for the three months ended June 30, 2014, from \$34.6 million for the three months ended June 30, 2013, primarily reflecting higher income from our investments in Oaktree funds. Investments in companies accounted for an additional \$4.1 million of the increase, reflecting \$11.6 million of higher income from our one-fifth ownership stake in DoubleLine, partially offset by a \$7.6 million market-value decline on our minority equity investment in Cinda. DoubleLine accounted for investment income of \$10.6 million in the current-year period and a loss of \$1.0 million in the prior-year period. The \$1.0 million loss in the prior-year period reflected a placement fee associated with the launch by DoubleLine of a closed-end fund and a non-cash charge related to the firm's employee ownership interests; excluding the effect of those two expenses, the \$1.0 million loss in the prior-year period would have been income for us of \$10.0 million. The income of \$10.6 million and loss of \$1.0 million attributable to DoubleLine for the current and prior-year periods, respectively, included performance fees of \$2.6 million and \$1.0 million.

Segment Expenses

Compensation and Benefits

Compensation and benefits increased \$2.4 million, or 2.7%, to \$92.6 million for the three months ended June 30, 2014, from \$90.2 million for the three months ended June 30, 2013, primarily reflecting growth in headcount. The current and prior-year periods included a \$2.0 million benefit and a \$1.3 million expense, respectively, associated with our phantom equity plan, stemming from each period's equity distribution and change in the Class A unit trading price.

Equity-based Compensation

Equity-based compensation increased to \$5.1 million for the three months ended June 30, 2014 from \$0.9 million for the three months ended June 30, 2013. The increase reflected non-cash amortization expense associated with vesting of restricted unit grants made to employees and directors subsequent to our initial public offering in April 2012.

Incentive Income Compensation

Incentive income compensation expense decreased \$98.9 million, or 76.7%, to \$30.1 million for the three months ended June 30, 2014, from \$129.0 million for the three months ended June 30, 2013. The percentage decrease was smaller than the corresponding decline of 82.5% in incentive income, primarily because the 2011 acquisition of a small portion of certain investment professionals' carried interest in Opps VIIb caused incentive income compensation expense in the prior-year period to be \$21.2 million lower than it otherwise would have been, whereas there was no such benefit in the current-year period.

General and Administrative

General and administrative expense increased \$1.6 million, or 5.4%, to \$31.1 million for the three months ended June 30, 2014, from \$29.5 million for the three months ended June 30, 2013. Excluding the impact of foreign currency-related items, general and administrative expenses increased \$4.3 million, or 15.1%, to \$32.7 million from \$28.4 million. The increase primarily reflected costs associated with the Highstar acquisition and corporate growth.

Interest Expense, Net of Interest Income

Interest expense, net decreased \$0.2 million, or 2.8%, to \$6.9 million for the three months ended June 30, 2014, from \$7.1 million for the three months ended June 30, 2013.

Other Income (Expense), Net

Other income (expense), net decreased to income of \$9 thousand for the three months ended June 30, 2014, from income of \$0.3 million for the three months ended June 30, 2013. Both periods reflected the net results of operating the portfolio of properties received as part of an arbitration award in 2010 related to a former Principal and portfolio manager of our real estate group who left us in 2005.

Adjusted Net Income

Adjusted net income decreased \$162.3 million, or 54.6%, to \$134.7 million for the three months ended June 30, 2014, from \$297.0 million for the three months ended June 30, 2013, reflecting \$180.1 million in lower incentive income, net of incentive income compensation expense, partially offset by increases of \$19.6 million in investment income and \$2.4 million in fee-related earnings.

Income Taxes-OCG

Income taxes decreased \$1.5 million, or 23.1%, to \$5.0 million for the three months ended June 30, 2014, from \$6.5 million for the three months ended June 30, 2013. The decrease resulted from lower adjusted net income-OCG before income taxes. The effective tax rate applied against adjusted net income-OCG before income taxes for the three months ended June 30, 2014 was 13%, based on an estimated annual rate of 11%. The effective tax rate applied against adjusted net income-OCG before income taxes for the three months ended June 30, 2013 was 10%, based on an estimated annual rate of 11%. The effective tax rate used for interim fiscal periods is based on the estimated full-year income tax rate and is a function of the mix of income and other factors that often vary significantly within or between years, each of which can have a material impact on the particular year's income tax expense.

Six Months Ended June 30, 2014 Compared to the Six Months Ended June 30, 2013

Segment Revenues

Management Fees

A summary of management fees is set forth below:

	Six Months Ended June 30,	
	2014	2013
	(in thousands)	
Management Fees:		
Closed-end funds	\$269,294	\$275,224
Open-end funds	83,198	72,344
Evergreen funds	25,027	19,133
Total	\$377,519	\$366,701

Management fees increased \$10.8 million, or 2.9%, to \$377.5 million for the six months ended June 30, 2014, from \$366.7 million for the six months ended June 30, 2013, for the reasons described below.

Closed-end funds. Management fees attributable to closed-end funds decreased \$5.9 million, or 2.1%, to \$269.3 million for the six months ended June 30, 2014, from \$275.2 million for the six months ended June 30, 2013, because the prior-year period included \$3.9 million of additional management fees from ROF VI retroactive to the start of the fund's investment period in August 2012 and \$1.4 million in deferred fees from Mezz III that were contingent on the fund achieving certain cash-flow levels. Closed-end funds in liquidation accounted for an aggregate decrease of \$55.4 million in management fees between the first six months of June 30, 2013 and 2014. Largely offsetting that decrease were increases of \$38.0 million from the start of Opps IX's investment period on January 1, 2014, \$10.1 million from new capital commitments to ROF VI, \$3.8 million from closed-end funds for which management fees are based on drawn capital or NAV, and \$1.2 million from CLOs.

Open-end funds. Management fees attributable to open-end funds increased \$10.9 million, or 15.1%, to \$83.2 million for the six months ended June 30, 2014, from \$72.3 million for the six months ended June 30, 2013. The increase reflected higher management fees as a result of net inflows to our Emerging Markets Equity and Senior Loan strategies, as well as market-value appreciation and \$0.5 million in higher performance-based fees in our U.S. High Yield Bond strategy. These increases were partially offset by \$3.1 million in lower performance-based fees in our Convertible Securities strategy.

Evergreen funds. Management fees attributable to evergreen funds increased \$5.9 million, or 30.9%, to \$25.0 million for the six months ended June 30, 2014, from \$19.1 million for the six months ended June 30, 2013, reflecting drawdowns by Strategic Credit and Emerging Markets Opportunities, as well as market-value gains in VOF. The period-end weighted average annual management fee rate for evergreen funds decreased to 1.57% as of June 30, 2014, from 1.72% as of June 30, 2013, largely as a result of Strategic Credit, for which the average management fee rate is lower than is the case for other evergreen funds.

Incentive Income

A summary of incentive income is set forth below:

	Six Months Ended June 30,	
	2014	2013
	(in thousands)	
Incentive Income:		
Closed-end funds	\$351,235	\$661,578
Evergreen funds	839	3,663
Total	\$352,074	\$665,241

Incentive income decreased \$313.1 million, or 47.1%, to \$352.1 million for the six months ended June 30, 2014, from \$665.2 million for the six months ended June 30, 2013. The current-year period included \$219.7 million of tax-related incentive distributions with respect to taxable income generated by closed-end funds, and \$132.4 million of other incentive distributions, including \$96.7 million from Opps VIIb. The prior-year period included incentive distributions of \$467.7 million from Opps VIIb, \$78.4 million from other funds and \$119.1 million of tax-related incentive distributions with respect to taxable income generated by closed-end funds.

Investment Income

A summary of investment income is set forth below:

	Six Months Ended June 30,	
	2014	2013
	(in thousands)	
Income from investments in funds:		
Oaktree funds:		
Corporate Debt	\$17,164	\$5,464
Convertible Securities	939	63
Distressed Debt	39,193	55,192
Control Investing	16,682	22,771
Real Estate	12,738	10,679
Listed Equities	6,171	11,954
Non-Oaktree funds	1,303	953
Income from investments in companies	6,489	9,550
Total investment income	\$100,679	\$116,626

Investment income decreased \$15.9 million, or 13.6%, to \$100.7 million for the six months ended June 30, 2014, from \$116.6 million for the six months ended June 30, 2013, reflecting lower income from our investments in Oaktree funds. Investments in companies accounted for an additional \$3.1 million of the decrease, reflecting a \$13.8 million market-value decline on our minority equity investment in Cinda, partially offset by a \$10.2 million increase in income from our one-fifth ownership stake in DoubleLine. DoubleLine accounted for investment income of \$20.2 million and \$10.0 million in the current and prior-year periods, respectively. The income of \$10.0 million in the prior-year period reflected a placement fee associated with the launch by DoubleLine of a closed-end fund and a non-cash charge related to the firm's employee ownership interests; excluding the effect of those two expenses, the income of \$10.0 million in the prior-year period would have been income for us of \$21.0 million. The income of \$20.2 million and \$10.0 million attributable to DoubleLine for the current and prior-year periods, respectively, included performance fees of \$4.0 million and \$3.0 million.

Segment Expenses

Compensation and Benefits

Compensation and benefits increased \$7.0 million, or 3.8%, to \$190.8 million for the six months ended June 30, 2014, from \$183.8 million for the six months ended June 30, 2013, primarily reflecting growth in headcount. The current and prior-year periods included a \$1.7 million benefit and a \$3.8 million expense, respectively, associated with our phantom equity plan, stemming from each period's equity distribution and change in the Class A unit trading price.

Equity-based Compensation

Equity-based compensation increased to \$9.1 million for the six months ended June 30, 2014, from \$1.6 million for the six months ended June 30, 2013. The increase reflected non-cash amortization expense associated with vesting of restricted unit grants made to employees and directors subsequent to our initial public offering in April 2012.

Incentive Income Compensation

Incentive income compensation expense decreased \$91.2 million, or 35.2%, to \$168.0 million for the six months ended June 30, 2014, from \$259.2 million for the six months ended June 30, 2013. The percentage decrease was smaller than the corresponding decline of 47.1% in incentive income, primarily because the 2011 acquisition of a small portion of certain investment professionals' carried interest in Opps VIIb caused incentive income compensation expense in the prior-year period to be \$36.4 million lower than it otherwise would have been, whereas there was no such benefit in the current-year period.

General and Administrative

General and administrative expense increased \$8.2 million, or 15.3%, to \$61.7 million for the six months ended June 30, 2014, from \$53.5 million for the six months ended June 30, 2013. Excluding the impact of foreign currency-related items, general and administrative expenses increased \$11.1 million, or 20.8%, to \$64.4 million from \$53.3 million. The increase primarily reflected costs associated with the Highstar acquisition, our 2014 bi-annual client conferences and corporate growth.

Interest Expense, Net of Interest Income

Interest expense, net decreased \$0.9 million, or 6.2%, to \$13.6 million for the six months ended June 30, 2014, from \$14.5 million for the six months ended June 30, 2013, primarily reflecting lower interest expense from lower average borrowings outstanding and lower debt issuance cost amortization.

Other Income (Expense), Net

Other income (expense), net was an expense of \$1.7 million for the six months ended June 30, 2014 and income of \$0.3 million for the six months ended June 30, 2013. The expense of \$1.7 million in the current-year period reflected a \$3.0 million write-off of unamortized debt issuance costs associated with the refinancing of our corporate credit facility, partially offset by \$1.5 million of income attributable to proceeds received as part of an arbitration award in 2010 related to a former Principal and portfolio manager of our real estate group who left us in 2005. The income of \$0.3 million in the prior-year period reflected the net results of operating the portfolio of properties received as part of the 2010 arbitration award.

Adjusted Net Income

Adjusted net income decreased \$251.0 million, or 39.7%, to \$381.7 million for the six months ended June 30, 2014, from \$632.7 million for the six months ended June 30, 2013, reflecting decreases of \$221.9 million in incentive income, net of incentive income compensation expense, \$15.9 million in investment income, and \$4.6 million in fee-related earnings.

Income Taxes-OCG

Income taxes decreased \$3.5 million, or 23.6%, to \$11.3 million for the six months ended June 30, 2014, from \$14.8 million for the six months ended June 30, 2013. The decrease resulted from lower adjusted net income-OCG before income taxes. The effective tax rate applied against adjusted net income-OCG before income taxes for the six months ended June 30, 2014 was 11%, based on an estimated annual rate of 11%, the same rates as were applicable to the corresponding prior-year periods. The effective tax rate used for interim fiscal periods is based on the estimated full-year income tax rate and is a function of the mix of income and other factors that often vary significantly within or between years, each of which can have a material impact on the particular year's income tax expense.

Segment Statements of Financial Condition

Since our founding, we have managed our financial condition in a way that builds our capital base and maintains sufficient liquidity for known and anticipated uses of cash. We have issued debt largely to help fund our corporate investments in funds and companies. We believe that debt maturities should generally match the anticipated sources of repayments. Because the largest share of our corporate investments in funds has been in closed-end funds with 10- to 11-year terms, we have often issued debt with 10-year terms, as augmented by bank term loans with shorter multi-year terms to capitalize on historically low interest rates and provide financing flexibility. Our segment assets do not include accrued incentives (fund level), an off-balance sheet metric, nor do they reflect the fair-market value of our 20% interest in DoubleLine, which is carried at cost, as adjusted under the equity method of accounting. For a reconciliation of segment total assets to our consolidated total assets, please see the “Segment Reporting” note to our condensed consolidated financial statements included elsewhere in this quarterly report.

The following table presents our segment statements of financial condition:

	As of		
	June 30, 2014	December 31, 2013	June 30, 2013
Assets:	(in thousands)		
Cash and cash-equivalents	\$413,864	\$390,721	\$196,151
U.S. Treasury securities	405,089	676,600	938,070
Corporate investments	1,468,517	1,197,173	1,061,793
Deferred tax assets	373,037	278,885	293,579
Receivables and other assets	249,318	273,748	188,594
Total assets	\$2,909,825	\$2,817,127	\$2,678,187
Liabilities and Capital:			
Liabilities:			
Accounts payable and accrued expenses	\$261,104	\$304,427	\$222,666
Due to affiliates	322,949	242,986	249,684
Debt obligations	600,000	579,464	591,964
Total liabilities	1,184,053	1,126,877	1,064,314
Capital:			
OCGH non-controlling interest in consolidated subsidiaries	1,180,620	1,220,647	1,167,819
Unitholders’ capital attributable to Oaktree Capital Group, LLC	545,152	469,603	446,054
Total capital	1,725,772	1,690,250	1,613,873

Corporate Investments

A summary of corporate investments is set forth below:

	As of June 30, 2014	December 31, 2013	June 30, 2013
	(in thousands)		
Investments in funds:			
Oaktree funds:			
Corporate Debt	\$291,241	\$125,560	\$107,081
Convertible Securities	19,494	1,554	1,454
Distressed Debt	508,477	438,144	429,978
Control Investing	244,913	246,058	249,321
Real Estate	136,312	112,981	112,400
Listed Equities	145,934	129,697	95,354
Non-Oaktree funds	50,400	51,580	53,866
Investments in companies	71,746	91,599	12,339
Total corporate investments	\$1,468,517	\$1,197,173	\$1,061,793
Liquidity and Capital Resources			

We manage our liquidity and capital requirements by focusing on our cash flows before the consolidation of our funds and the effect of normal changes in short-term assets and liabilities. Our primary cash flow activities on an unconsolidated basis involve (a) generating cash flow from operations, (b) generating income from investment activities, including strategic investments in certain third parties, (c) funding capital commitments that we have made to our funds, (d) funding our growth initiatives, (e) distributing cash flow to our owners and (f) borrowings, interest payments and repayments under credit agreements, our senior notes and other borrowing arrangements. As of June 30, 2014, we had \$819.0 million of cash and investments in U.S. Treasury securities and \$600.0 million in outstanding debt. Additionally, we have a \$500 million revolving credit facility available to us, which was undrawn as of June 30, 2014. Oaktree's investments in funds and companies had a carrying value of \$1.5 billion as of June 30, 2014. Ongoing sources of cash, or distributable earnings, include (a) management fees, which are collected monthly or quarterly, (b) incentive income, which is volatile and largely unpredictable as to amount and timing, and (c) distributions related to our corporate investments in funds and companies. As of June 30, 2014, corporate investments of \$1.5 billion included unrealized investment income of \$409 million. We primarily use cash flow from operations and distributions from our corporate investments to pay compensation and related expenses, general and administrative expenses, income taxes, debt service, capital expenditures and distributions. This same cash flow, together with proceeds from equity and debt issuances, is also used to fund corporate investments, fixed assets and other capital items. If cash flow from operations were insufficient to fund distributions, we expect that we would suspend paying such distributions.

We use distributable earnings, which is derived from our segment results, to assess performance and assist in the determination of equity distributions from the Operating Group. Our quarterly distributable earnings may be affected by potential seasonal factors that may, in turn, affect the level of the cash distributions applicable to a particular quarter. For example, we generally receive tax-related incentive distributions from certain closed-end funds in the first quarter of the year, which if received generate distributable earnings in that period. The distribution amount for any given period is likely to vary materially due to this and other factors.

Tax distributions are not required in respect of the Class A units and are only required from the Oaktree Operating Group entities if and to the extent that there is sufficient cash available for distribution. Accordingly, if there were insufficient cash flow from operations to fund quarterly or tax distributions by the Oaktree Operating Group entities, we expect that these distributions would not be made. We believe that we have sufficient access to cash from existing balances, our operations and the revolving credit facility described below to fund our operations and commitments.

Consolidated Cash Flows

The accompanying condensed consolidated statements of cash flows include our consolidated funds, despite the fact that we typically have only a minority economic interest in those funds. The assets of consolidated funds, on a gross basis, are substantially larger than the assets of our business and, accordingly, have a substantial effect on the cash flows reflected in our condensed consolidated statements of cash flows. The primary cash flow activities of our consolidated funds involve:

- raising capital from third-party investors;
- using the capital provided by us and third-party investors to fund investments and operating expenses;
- financing certain investments with indebtedness;
- generating cash flows through the realization of investments, as well as the collection of interest and dividend income; and
- distributing net cash flows to fund investors and to us.

Because most of our consolidated funds are treated as investment companies for accounting purposes, their investing cash flow amounts are included in our cash flows from operations. We believe that each of the consolidated funds and Oaktree has sufficient access to cash to fund their respective operations in the near term.

Significant amounts from our condensed consolidated statements of cash flows for the six months ended June 30, 2014 and 2013 are discussed below.

Operating Activities

Net cash used in operating activities was \$2.4 billion in the first six months of 2014. Net cash provided by operating activities was \$4.5 billion in the first six months of 2013. These amounts included, for the first six months of 2014 and 2013, respectively, (a) net purchases of securities of the consolidated funds of \$2.7 billion and net proceeds from maturities and sales of investments of the consolidated funds of \$3.5 billion; (b) net realized gains on investments of the consolidated funds of \$1.2 billion and \$2.0 billion; and (c) changes in unrealized gains on investments of the consolidated funds of \$1.5 billion and \$909.7 million.

Investing Activities

Investing activities provided \$249.0 million and used \$570.8 million of cash in the first six months of 2014 and 2013, respectively. Investing activities were primarily driven by net U.S. Treasury and government-agency investment activities and net corporate investments in non-consolidated funds and companies. Net activity from purchases, maturities and sales of U.S. Treasury and government-agency securities reflected net proceeds of \$271.5 million and net purchases of \$567.5 million for the first six months of 2014 and 2013, respectively. Corporate investments in funds and companies of \$22.5 million and \$3.4 million for the first six months of 2014 and 2013, respectively, consisted of the following:

	Six Months Ended June 30,	
	2014	2013
	(in thousands)	
Investments in funds	\$324,704	\$75,485
Investments in consolidated funds eliminated in consolidation	(306,687)	(73,099)
Investments in unconsolidated companies	4,481	1,046
Corporate investments in funds and companies	\$22,498	\$3,432

Distributions from corporate investments in funds and companies of \$2.8 million and \$1.5 million for the first six months of 2014 and 2013, respectively, consisted of the following:

	Six Months Ended June 30,	
	2014	2013
	(in thousands)	
Distributions received from investments in funds	\$182,212	\$219,633
Distributions received from consolidated funds eliminated in consolidation	(179,391)	(218,132)
Distributions from corporate investments in funds and companies	\$2,821	\$1,501

Purchases of fixed assets were \$2.8 million and \$1.4 million for the first six months of 2014 and 2013, respectively.

Financing Activities

Financing activities provided \$2.9 billion of cash in the first six months of 2014 and used \$3.9 billion of cash in the first six months of 2013. For the first six months of 2014 and 2013, financing activities included (a) net contributions from non-controlling interests to consolidated funds of \$1.1 billion and net distributions from consolidated funds to non-controlling interests of \$4.5 billion, respectively; (b) net borrowings on revolving credit facilities of the consolidated funds of \$1.1 billion and \$1.0 billion, respectively; (c) distributions to unitholders of \$353.5 million and \$414.2 million, respectively; (d) net proceeds of \$19.8 million associated with the refinancing of our corporate credit facility and repayment of debt obligations of \$23.2 million, respectively; and (e) purchases of OCGH units, net of issuance of Class A units, of \$1.8 million and \$0.8 million, respectively. Additionally, the current-year period included \$996.8 million in proceeds from debt obligations issued by our CLOs.

Future Sources and Uses of Liquidity

We expect to continue to make distributions to our Class A unitholders pursuant to our distribution policy. In the future, we may also issue additional units or debt and other equity securities with the objective of increasing our available capital. In addition, we may, from time to time, repurchase our Class A units in open market or privately negotiated purchases or otherwise or redeem our Class A units pursuant to the terms of our operating agreement. In addition to our ongoing sources of cash that include management fees, incentive income and fund distributions related to our corporate investments in funds and companies, we also have access to liquidity through our debt financings and credit agreements. We believe that the sources of liquidity described below will be sufficient to fund our working capital requirements for at least the next twelve months.

In July 2014, our subsidiaries Oaktree Capital Management, L.P. (the “Issuer”) and Oaktree Capital I, L.P., Oaktree Capital II, L.P. and Oaktree AIF Investments, L.P. (the “Guarantors” and together with the Issuer, the “Obligors”) entered into a note and guarantee agreement (the “Note Agreement”) with certain accredited investors (collectively, the “Investors”) pursuant to which the Issuer agreed to issue and sell to the Investors \$50 million aggregate principal amount of its 3.91% Senior Notes, Series A, due September 3, 2024 (the “Series A Notes”), \$100 million aggregate principal amount of its 4.01% Senior Notes, Series B, due September 3, 2026 (the “Series B Notes”) and \$100 million aggregate principal amount of its 4.21% Senior Notes, Series C, due September 3, 2029 (the “Series C Notes” and together with the Series A Notes and the Series B Notes, the “Notes”). The Notes will be senior unsecured obligations of the Issuer, guaranteed by the Guarantors on a joint and several basis. Interest on the Notes is payable semi-annually. The funding of this transaction is expected to occur on September 3, 2014.

The Note Agreement provides for certain affirmative and negative covenants, including financial covenants relating to the Obligors’ combined leverage ratio and minimum assets under management. In addition, the Note Agreement contains customary representations and warranties of the Obligors and customary events of default, in certain cases, subject to cure periods. The Issuer may prepay all, or from time to time any part of, the Notes at any time, subject to the Issuer’s payment of the applicable make-whole amount determined with respect to such principal amount prepaid. Upon the occurrence of a change of control, the Issuer will be required to make an offer to prepay the Notes together with the applicable make-whole amount determined with respect to such principal amount prepaid.

In March 2014, our subsidiaries Oaktree Capital Management, L.P., Oaktree Capital II, L.P., Oaktree AIF Investments, L.P. and Oaktree Capital I, L.P. entered into a credit agreement with a bank syndicate for senior unsecured credit facilities (the “Credit Facility”), consisting of a \$250 million fully-funded term loan (the “Term Loan”)

and a \$500 million revolving credit facility (the “Revolver”), each with a five-year term. The Credit Facility replaced the amortizing term loan, which had a principal balance of \$218.8 million, and the undrawn revolver under the Company’s prior credit facility. The Term Loan matures in March 2019, at which time the entire principal amount of \$250 million is due. Borrowings under the Credit Facility generally bear interest at a spread to either LIBOR or an alternative base rate. Based on the current credit ratings of Oaktree Capital Management, L.P., the interest rate on borrowings is LIBOR plus 1.00% per annum and the commitment fee on the unused portions of the Revolver is 0.125% per annum. Utilizing interest-rate swaps, the majority of the Term Loan’s annual interest rate is fixed at 2.69% through January 2016 and 2.22% for the twelve months thereafter, based on our current credit ratings. The Credit Facility contains customary financial covenants and restrictions, including ones regarding a maximum leverage ratio of 3.0-to-1.0 and a minimum required level of assets under management (as defined in the credit agreement) of \$50 billion. As of June 30, 2014, we were in compliance with each of these covenants and were able to draw the full amount available under the Revolver without violating any financial covenants.

In December 2012, our subsidiaries Oaktree Capital Management, L.P., Oaktree Capital II, L.P., Oaktree AIF Investments, L.P. and Oaktree Capital I, L.P. entered into a credit agreement with a bank syndicate for senior unsecured credit facilities, consisting of a \$250 million fully-funded term loan and a \$500 million revolving credit facility, each with a five-year term. We were required to make quarterly principal payments equal to 2.5% of the original principal amount of \$250 million, with principal payments due in March, June, September and December of each year, and the remaining principal payable upon maturity in December 2017. This credit facility was terminated and replaced by the Credit Facility in March 2014, with proceeds from the Term Loan used to pay off the \$218.8 million outstanding balance.

In November 2009, our subsidiary Oaktree Capital Management, L.P. issued \$250 million in aggregate principal amount of senior notes due December 2, 2019 (the “2019 Notes”). The indenture governing the 2019 Notes contains customary financial covenants and restrictions that, among other things, limit Oaktree Capital Management, L.P. and the guarantors’ ability, subject to certain exceptions, to incur indebtedness secured by liens on voting stock or profit-participating equity interests of their subsidiaries or merge, consolidate or sell, transfer or lease assets. The 2019 Notes do not contain financial maintenance covenants.

In addition to the 2019 Notes, as of June 30, 2014, we had two other series of senior notes outstanding, with an aggregate remaining principal balance of \$100.0 million due in 2016. These senior notes contain customary financial covenants and restrictions that, among other things, restrict our subsidiaries from incurring additional indebtedness and our subsidiaries and us from merging, consolidating, transferring, leasing or selling assets, incurring certain liens and making restricted payments, subject to certain exceptions. In addition, the agreements contain the following financial covenants: (a) a maximum consolidated leverage ratio covenant that requires us and our subsidiaries to maintain a ratio, calculated by dividing consolidated total debt (for us and our subsidiaries) by Consolidated EBITDA (as defined in each agreement) for the last four fiscal quarters, below 3.0-to-1.0, (b) a maximum interest coverage ratio covenant that requires us and our subsidiaries to maintain a ratio, calculated by dividing Consolidated EBITDA for the last four fiscal quarters by consolidated interest expense (for us and our subsidiaries), below 4.0-to-1.0, and (c) an assets under management covenant that requires us to maintain assets under management above \$20 billion. As of June 30, 2014, we were in compliance with each of these covenants.

We are required to maintain minimum net capital balances for regulatory purposes in the U.S. and certain non-U.S. jurisdictions in which we do business, which are met in part by retaining cash and cash-equivalents in those jurisdictions. As a result, we may be restricted in our ability to transfer cash between different jurisdictions. As of June 30, 2014, we were required to maintain approximately \$17.0 million in net capital at these subsidiaries and were in compliance with all regulatory minimum net capital requirements as of such date.

Oaktree Holdings, Inc. and Oaktree AIF Holdings, Inc. have entered into a tax receivable agreement with OCGH unitholders that, as amended, provides for the payment to an exchanging or selling OCGH unitholder of 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income taxes that they actually realize (or are deemed to realize in the case of an early termination payment by Oaktree Holdings, Inc. or Oaktree AIF Holdings, Inc., or a change of control) as a result of an increase in the tax basis of the assets owned by the Oaktree Operating Group. These payments are expected to occur over the period ending in approximately 2029 with respect to the 2007 Private Offering and in 2034 with respect to our initial public offering.

On May 29, 2013, we issued and sold 8,050,000 Class A units in a public offering (the “May 2013 Offering”), resulting in \$419.9 million in net proceeds to us, after deducting underwriting discounts and commissions. We did not retain any proceeds from the sale of Class A units in the May 2013 Offering, and we used

the net proceeds from the May 2013 Offering to acquire interests in our business from certain Oaktree directors, employees and other investors, including certain Principals and other members of our senior management.

The exchange of OCGH units in connection with the May 2013 Offering resulted in increases in the tax basis of the tangible and intangible assets of the Oaktree Operating Group. As a result, we recorded a deferred tax asset of \$134.4 million and an associated liability of \$114.2 million for payments to OCGH unitholders under the tax receivable agreement, which together increased capital by \$20.2 million. These payments are expected to occur over the period ending approximately in 2035.

On March 4, 2014, we issued and sold 5,000,000 Class A units to the underwriter in a public offering (the “March 2014 Offering”), resulting in \$296.7 million in proceeds to us. We did not retain any proceeds from the sale of Class A units in the March 2014 Offering. The proceeds from the March 2014 Offering were used to acquire interests in our business from certain Oaktree directors, employees and other investors, including certain Principals and other members of our senior management.

The exchange of OCGH units in connection with the March 2014 Offering resulted in increases in the tax basis of the tangible and intangible assets of the Oaktree Operating Group. As a result, we recorded a deferred tax asset of \$94 million and an associated liability of \$80 million for payments to OCGH unitholders under the tax receivable agreement, which together increased capital by \$14 million. These payments are expected to occur over the period ending approximately in 2036.

No amounts were paid under the tax receivable agreement during the six months ended June 30, 2014.

Contractual Obligations, Commitments and Contingencies

In the ordinary course of business, we and our consolidated funds enter into contractual arrangements that may require future cash payments. The following table sets forth information relating to anticipated future cash payments as of June 30, 2014:

	Last Six Months of 2014 (in thousands)	2015-2016	2017-2018	Thereafter	Total
Oaktree and Operating Subsidiaries:					
Operating lease obligations ⁽¹⁾	\$7,901	\$22,882	\$9,578	\$8,754	\$49,115
Debt obligations payable	—	100,000	—	500,000	600,000
Interest obligations on debt ⁽²⁾	14,388	54,405	39,716	17,602	126,111
Tax receivable agreement	10,423	33,122	36,266	241,129	320,940
Commitments to Oaktree and third-party funds ⁽³⁾	273,451	—	—	—	273,451
Subtotal	306,163	210,409	85,560	767,485	1,369,617
Consolidated Funds:					
Debt obligations payable	3,416,723	—	—	—	3,416,723
CLO loans payable	—	—	52,508	944,294	996,802
Interest obligations on debt	17,731	—	—	—	17,731
Interest on CLO loans payable	11,731	46,925	46,925	167,753	273,334
Commitments to fund investments ⁽⁴⁾	880,797	—	—	—	880,797
Total	\$4,633,145	\$257,334	\$184,993	\$1,879,532	\$6,955,004

We lease our office space under agreements that expire periodically through 2022. The table includes only guaranteed minimum lease payments for these leases and does not project other lease-related payments. These

(1) leases are classified as operating leases for financial statement purposes and as such are not recorded as liabilities in our condensed consolidated financial statements.

(2) Interest obligations include accrued interest on outstanding indebtedness. Where applicable, current interest rates are applied to estimate future interest obligations on variable-rate debt.

(3) These obligations represent commitments by us to provide general partner capital funding to our funds and limited partner capital funding to funds managed by unaffiliated third parties. These amounts are generally due on demand

and are therefore presented in the 2014 column. Capital commitments are expected to be called over the next five years.

(4) These obligations represent commitments by our funds to make investments or fund uncalled contingent commitments. These amounts are generally due either on demand or by various contractual dates that vary by investment and are therefore presented in the 2014 column. Capital commitments are expected to be called over a period of several years.

In some of our service contracts or management agreements, we have agreed to indemnify third-party service providers or separate account clients under certain circumstances. The terms of the indemnities vary from contract to contract and the amount of indemnification liability, if any, cannot be determined and has neither been included in the above table nor recorded in our condensed consolidated financial statements as of June 30, 2014.

As of June 30, 2014, none of the incentive income we had recognized was subject to clawback by the funds.

General Partner and Other Capital Commitments

As of June 30, 2014, our capital commitments to our funds (as general partner or otherwise) and certain non-Oaktree investment vehicles for which a portion of the commitment remained undrawn were as follows:

	Capital Commitments	Undrawn Commitments as of June 30, 2014
	(in millions)	
Corporate Debt:		
Oaktree Enhanced Income Fund II, L.P.	\$ 20	\$ 17
Collateralized Loan Obligation Vehicles	19	6
Oaktree Mezzanine Fund III, L.P.	40	7
Strategic Credit	11	3
European Private Debt	16	13
Distressed Debt:		
Oaktree Opportunities Fund IX, L.P.	100	37
Emerging Markets Opportunities	50	20
Control Investments:		
Oaktree Principal Fund V, L.P.	71	12
Oaktree Principal Fund VI, L.P.	20	20
Oaktree European Principal Fund III, L.P.	100	56
Oaktree Power Opportunities Fund III, L.P.	27	15
Real Estate:		
Oaktree Real Estate Opportunities Fund V, L.P.	32	6
Oaktree Real Estate Opportunities Fund VI, L.P.	67	20
Real Estate Debt	21	19
Listed Equities:		
Value Equities	16	13
Non-Oaktree	32	9
Total	\$ 642	\$ 273

Off-Balance Sheet Arrangements

We lease a corporate airplane for business purposes. We are responsible for any unreimbursed costs and expenses incurred in connection with the operation, crew, registration, maintenance, service and repair of the airplane. An unaffiliated third party manages the airplane and coordinates its use. The lease contains a buyout provision that would allow us to purchase the plane at the lease's termination in February 2015. If we do not exercise that option, we would be responsible for any shortfall, up to \$10.0 million, in sale proceeds the lessor might incur below an expected sale value of \$12.3 million.

Critical Accounting Policies

We prepare our condensed consolidated financial statements in accordance with GAAP. In applying many of these accounting principles, we need to make assumptions, estimates or judgments that affect the reported amounts of assets, liabilities, revenues and expenses in our condensed consolidated financial statements. We base our estimates and judgments on historical experience and other assumptions that we believe are reasonable under the circumstances. These assumptions, estimates or judgments, however, are both subjective and subject to change, and actual results may differ from our assumptions and estimates. If actual amounts are ultimately different from our estimates, the revisions are included in our results of operations for the period in which the actual amounts become known. We believe our critical accounting policies could potentially produce materially different results if we were to change underlying assumptions, estimates or judgments. For a summary of our significant accounting policies, please see the notes to our condensed consolidated financial statements included elsewhere in this quarterly report and the notes to our consolidated financial statements in our annual report. For a summary of our critical accounting policies, please see “Management’s Discussion and Analysis of Financial Condition and Result of Operations—Critical Accounting Policies” in our annual report.

The table below summarizes the valuation of investments and other financial instruments, by fund type and fair-value hierarchy levels, for each period presented in our condensed consolidated statements of financial condition (in thousands):

	Level I	Level II	Level III	Total
As of June 30, 2014				
Closed-end funds	\$4,936,461	\$8,539,658	\$23,764,562	\$37,240,681
Open-end funds	560,005	5,131,041	24,542	5,715,588
Evergreen funds	851,871	835,875	590,252	2,277,998
Total	\$6,348,337	\$14,506,574	\$24,379,356	\$45,234,267
As of December 31, 2013				
Closed-end funds	\$3,780,782	\$7,489,381	\$20,746,453	\$32,016,616
Open-end funds	166,664	4,914,628	3,647	5,084,939
Evergreen funds	718,997	1,180,397	715,745	2,615,139
Total	\$4,666,443	\$13,584,406	\$21,465,845	\$39,716,694

Recent Accounting Developments

Please see note 2 to our condensed consolidated financial statements included elsewhere in this quarterly report for information regarding recent accounting developments.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

In the normal course of business, we are exposed to a broad range of risks inherent in the financial markets in which we participate, including price risk, interest-rate risk, access to and cost of financing risk, liquidity risk, counterparty risk and foreign exchange-rate risk. Potentially negative effects of these risks may be mitigated to a certain extent by those aspects of our investment approach, investment strategies, fundraising practices or other business activities that are designed to benefit, either in relative or absolute terms, from periods of economic weakness, tighter credit or financial market dislocations.

Our predominant exposure to market risk is related to our role as general partner or investment adviser to our funds and the sensitivities to movements in the fair value of their investments on management fees, incentive income and investment income. The fair value of the financial assets and liabilities of our funds may fluctuate in response to changes in, among many factors, the value of securities, foreign exchange, commodities and interest rates.

Price Risk

Impact on Net Change in Unrealized Appreciation on Consolidated Funds’ Investments

As of June 30, 2014, we had investments at fair value of \$45.4 billion related to our consolidated funds. We estimate that a 10% decline in market values would result in a decrease in unrealized appreciation on the consolidated funds’ investments of \$4.5 billion. Inasmuch as this effect would be attributable to non-controlling interests, net income attributable to Oaktree Capital Group, LLC would be unaffected.

Impact on Segment Management Fees

Management fees are generally assessed in the case of (a) our open-end funds and evergreen funds, based on NAV; and (b) our closed-end funds, based on committed capital or drawn capital during the investment period and, during the liquidation period, based on the lesser of (i) the total funded committed capital and (ii) the cost basis of assets remaining in the fund. Management fees are affected by short-term changes in market values to the extent they are based on NAV, in which case the effect is prospective. We estimate that for the six months ended June 30, 2014, an incremental 10% decline in market values of the investments held in our funds would result in an approximate \$12.2 million decrease in management fees. These estimated effects are without regard to a number of factors that would be expected to increase or decrease the magnitude of the change to degrees that are not readily quantifiable, such as the use of leverage facilities in certain of our funds or the timing of fund flows.

Impact on Segment Incentive Income

Incentive income is recognized only when it is known or knowable, which in the case of (a) our closed-end funds generally occurs only after all contributed capital and an annual preferred return on that capital (typically 8%) have been distributed to the fund's investors and (b) our active evergreen funds occurs generally as of December 31, based on the increase in the fund's NAV during the year, subject to any high-water marks. In the case of closed-end funds, the link between short-term fluctuations in market values and a particular period's incentive income is indirect at best and, in certain cases, non-existent. Thus, the effect on incentive income of an incremental 10% decline in market values as of June 30, 2014 is not readily quantifiable. Over a number of years, a decline in market values would be expected to cause a decline in incentive income.

Impact on Segment Investment Income

Investment income or loss arises from our pro-rata share of income or loss from our investments, generally in our capacity as general partner in our funds and third-party managed funds or companies. This income is directly affected by changes in market risk factors. We estimate that for the six months ended June 30, 2014, an incremental 10% decline in fair values of the investments held in our funds and other holdings would result in a \$146.0 million decrease in investment income. These estimated effects are without regard to a number of factors that would be expected to increase or decrease the magnitude of the change to degrees that are not readily quantifiable, such as the use of leverage facilities in certain of our funds, the timing of fund flows or the timing of new investments or realizations.

Exchange-rate Risk

Our business is affected by movements in the rate of exchange between the U.S. dollar and non-U.S. dollar currencies in the case of (a) management fees that vary based on the NAV of our funds that hold investments denominated in non-U.S. dollar currencies, (b) management fees received in non-U.S. dollar currencies, (c) operating expenses for our foreign offices that are denominated in non-U.S. dollar currencies and (d) cash balances we hold in non-U.S. dollar currencies. We manage our exposure to exchange-rate risks through our regular operating activities and, when appropriate, through the use of derivative instruments.

We estimate that for the six months ended June 30, 2014, a 10% decline in the average rate of exchange of the U.S. dollar would result in the following approximate effects on our segment results:

- our management fees (relating to (a) and (b) above) would have increased by \$5.8 million;
- our operating expenses would have increased by \$7.5 million;
- OCGH interest in net income of consolidated subsidiaries would have decreased by \$1.2 million; and
- our income tax expense would not have been materially affected.

These movements would not have materially affected our net income attributable to OCG.

At any point in time, some investments held in the closed-end and evergreen funds are carried in non-U.S. dollar currencies on an unhedged basis. Changes in currency rates could affect incentive income, incentives created (fund level) and investment income for closed-end and evergreen funds, although the degree of impact is not readily determinable because of the many indirect effects that currency movements may have on individual investments.

Credit Risk

We are party to agreements providing for various financial services and transactions that contain an element of risk in the event that the counterparties are unable to meet the terms of such agreements. In such

agreements, we depend on the respective counterparty to make payment or otherwise perform. We generally endeavor to minimize our risk of exposure by limiting to reputable financial institutions the counterparties with which we enter into financial transactions. In other circumstances, availability of financing from financial institutions may be uncertain due to market events, and we may not be able to access these financing markets.

Interest-rate Risk

As of June 30, 2014, Oaktree and its operating subsidiaries had \$600.0 million in debt obligations consisting of three senior notes issuances and a funded term loan. Each senior notes issuance accrues interest at a fixed rate. The funded term loan accrues interest at a variable rate; however, we entered into interest-rate swaps that effectively converted the majority of the term loan interest rate to a fixed rate through January 2017. As a result, we estimate that for the six months ended June 30, 2014, there would be no material impact to interest expense of Oaktree and its operating subsidiaries resulting from a 100-basis point increase in interest rates. Of the \$819.0 million of aggregate segment cash and cash-equivalents and investments in U.S. Treasury securities as of June 30, 2014, we estimate Oaktree and its operating subsidiaries would generate an additional \$8.2 million in interest income on an annualized basis as a result of a 100-basis point increase in interest rates.

Our consolidated funds have debt obligations that include revolving credit agreements, debt issued by our CLOs and certain other investment financing arrangements. Most of these debt obligations accrue interest at variable rates, and changes in these rates would affect the amount of interest payments that we would have to make, impacting future earnings and cash flows. As of June 30, 2014, \$4.4 billion was outstanding under these debt obligations. We estimate that interest expense relating to variable rates would increase on an annualized basis by \$43.9 million in the event interest rates were to increase by 100 basis points.

As credit-oriented investors, we are also subject to interest-rate risk through the securities we hold in our consolidated funds. A 100-basis point increase in interest rates would be expected to negatively affect prices of securities that accrue interest income at fixed rates and therefore negatively impact net change in unrealized appreciation (depreciation) on consolidated funds' investments. The actual impact is dependent on the average duration of such holdings. Conversely, securities that accrue interest at variable rates would be expected to benefit from a 100-basis point increase in interest rates because these securities would generate higher levels of current income and therefore positively impact interest and dividend income. Inasmuch as these effects are attributable to non-controlling interests, net income attributable to OCG would be unaffected. In cases where our funds pay management fees based on NAV, we would expect our segment management fees to experience a change in direction and magnitude corresponding to that experienced by the underlying portfolios.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to our management, including our Managing Principal and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired objectives.

Our management, including our Managing Principal and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act as of the end of the period covered by this report. Based on that evaluation, our Managing Principal and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) are effective at the reasonable assurance level to accomplish their objectives of ensuring that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to our management, including our Managing Principal and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

No changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during our most recent quarter, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For a discussion of legal proceedings, please see the section entitled “Legal Actions” in note 12 to our condensed consolidated financial statements included elsewhere in this quarterly report, which section is incorporated herein by reference.

Item 1A. Risk Factors

For a discussion of our potential risks and uncertainties, please see the information under “Risk Factors” in our annual report. There have been no material changes to the risk factors disclosed in our annual report.

The risks described in our annual report are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities

Under our operating agreement, we are required to issue one Class B unit for each OCGH unit issued. Accordingly, on April 8, 2014, we issued 23,118 Class B units to OCGH, which corresponded to the number of OCGH units issued by OCGH pursuant to our 2011 Equity Incentive Plan, subject to time-based vesting. No purchase price was paid by OCGH for this issuance. The issuance was exempt from registration under the Securities Act in reliance on Section 4(a)(2) of the Securities Act, as a transaction by an issuer not involving any public offering.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

Fund Data

Information regarding our closed-end, open-end and evergreen funds, together with benchmark data where applicable, is set forth below. For our closed-end and evergreen funds, no benchmarks are presented in the tables as there are no known comparable benchmarks for these funds’ investment philosophy, strategy and implementation.

liquidated all of its investments and made its final liquidating distribution as of December 31, 2013. Oaktree PPIP Fund, L.P., Oaktree PPIP Private Fund, L.P. and its related feeder fund were dissolved as of December 31, 2013. Of the \$2,322 million in capital commitments, \$1,161 million related to the Oaktree PPIP Private Fund, L.P. The gross and net IRR for the Oaktree PPIP Private Fund, L.P. were 24.7% and 18.6%, respectively, as of December 31, 2013.

(11) The fund's partnership interests are divided into Class A and Class B interests, with the Class A interests having priority with respect to the distribution of current income and disposition proceeds. The net IRR for Class A interests was 10.4% and Class B interests was 5.9%. The combined net IRR for Class A and Class B interests was 9.0%.

(12) The fund's partnership interests are divided into Class A and Class B interests, with the Class A interests having priority with respect to the distribution of current income and disposition proceeds. The net IRR for Class A interests was 10.8% and Class B interests was 10.6%. The combined net IRR for the Class A and Class B interests was 10.7%.

(13) The aggregate change in drawn capital for the three and six months ended June 30, 2014 was \$2.5 billion and \$4.6 billion, respectively.

(14) Totals are based on the conversion of Euro amounts to USD using the June 30, 2014 spot rate of \$1.37.

(15) This includes Oaktree Enhanced Income Fund, L.P., Oaktree Enhanced Income Fund II, L.P., Oaktree Loan Fund 2x, L.P., Oaktree Asia Special Situations Fund, L.P., CLOs, a separate account and a non-Oaktree fund.

(16) This excludes one separate account with management fee-generating AUM of \$425 million as of June 30, 2014, which has been included as part of the Strategic Credit strategy within the evergreen funds table.

			\$ 3,604	\$29				

(1)

This includes a separate account with a closed-end fund structure with \$616 million and \$425 million of AUM and management fee-generating AUM, respectively. The returns presented are time-weighted rates of return.

(2) Rates of return are not considered meaningful (“nm”) because the since-inception period as of June 30, 2014 was less than twelve months.

Oaktree manages three restructured evergreen funds that are in liquidation: Oaktree European Credit Opportunities Fund, L.P., Oaktree High Yield Plus Fund, L.P. and Oaktree Japan Opportunities Fund, L.P. (Yen class). As of (3) June 30, 2014, these funds had gross and net IRRs since inception of (2.1)% and (4.6)%, 7.9% and 5.5%, and (5.6)% and (6.6)%, respectively, and in the aggregate had AUM of \$174.0 million. Additionally, Oaktree High Yield Plus Fund, L.P. had accrued incentives (fund level) of \$6.3 million as of June 30, 2014.

(4) The total excludes two evergreen separate accounts in our Real Estate Debt strategy with \$149 million of management fee-generating AUM.
