## Item 8.01 Other Events

On June 1, 2009, ArvinMeritor, Inc. (the "Company") was notified by the New York Stock Exchange ("NYSE") that, based upon modified listing standards adopted by the NYSE, the Company has regained compliance with the NYSE's continued listing standards. As previously disclosed, the Company was notified by the NYSE in March 2009 that it had fallen below the continued listing standard requiring the average market capitalization of a listed company to be not less than \$75 million over a consecutive 30 trading-day period when, at the same time, stockholders' equity is less than \$75 million. The NYSE's continued listing standard, as modified under a pilot program effective through October 31, 2009, changes this threshold from \$75 million to \$50 million. Accordingly, the Company is currently in compliance with the NYSE's continued listing standards. The NYSE has stated that it anticipates a subsequent rule filing prior to October 31, 2009 to make this a permanent continued listing standard.

## Forward-Looking Statements

This Form 8-K contains statements that are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are typically identified by words or phrases such as "believe," "expect," "anticipate," "estimate," "should," "are likely to be," "will" and similar expressions. There are risks and uncertainties relating to whether the NYSE will adopt the revised continued listing standards on a permanent basis and whether the company will continue to be compliant with all NYSE continued listing standards. In addition, actual results may differ materially from those projected as a result of certain risks and uncertainties, including but not limited to global economic and market cycles and conditions, including the recent global economic crisis; whether our liquidity will continue to be affected by declining vehicle production volumes in the future; the financial condition of the company's suppliers and customers, including bankruptcies and potential bankruptcies; possible adverse effects of any future suspension of normal trade credit terms by our suppliers; the ability of the company to continue to comply with covenants in its financing agreements; the ability of the company to access capital markets; credit ratings of the company's debt; the demand for commercial, specialty and light vehicles for which the company supplies products; timing and certainty as to completion and terms of any dispositions of the Body Systems and Chassis businesses of ArvinMeritor's LVS business; risks inherent in operating abroad (including foreign currency exchange rates and potential disruption of production and supply due to terrorist attacks or acts of aggression); availability and sharply rising cost of raw materials, including steel and oil; OEM program delays; demand for and market acceptance of new and existing products; successful development of new products; reliance on major OEM customers; labor relations of the company, its suppliers and customers, including potential disruptions in supply of parts to our facilities or demand for our products due to work stoppages; potential difficulties competing with companies that have avoided their existing contracts in bankruptcy and reorganization proceedings; successful integration of acquired or merged businesses; the ability to achieve the expected annual savings and synergies from past and future business combinations and the ability to achieve the expected benefits of restructuring actions; success and timing of potential divestitures; potential impairment of long-lived assets, including goodwill; potential adjustment of the value of deferred tax assets; competitive product and pricing pressures; the amount of the company's debt; the outcome of existing and any future legal proceedings, including any litigation with respect to environmental or asbestos-related matters; the outcome of actual and potential product liability and warranty and recall claims; rising costs of pension and other post-retirement benefits and possible changes in pension and other accounting rules; as well as other risks

and uncertainties, including but not limited to those detailed from time to time in filings of the company with the SEC. These forward-looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise, except as otherwise required by law.

**SIGNATURES**
