Item 2.06 Material Impairments.

On June 14, 2018, Transocean Ltd. (the "Company") announced that it intends to retire in an environmentally responsible way, the following four rigs: the ultra-deepwater floaters Deepwater Discovery, Deepwater Frontier, and Deepwater Millennium and the midwater floater Songa Trym. These rigs are classified as held for sale. As a result of the Company's decision on June 8, 2018 to retire these four rigs, the Company expects its second quarter 2018 results to include an estimated non-cash charge of approximately \$520 million. As the Company continues to evaluate the long-term competitiveness of its fleet, additional rigs may be identified as candidates for retirement.

Item 8.01 Other Events.

The Company has identified the held for sale classification of the four rigs specified above as an indicator that the goodwill associated with its drilling services reporting unit may be impaired. The Company will perform a test of its goodwill in the second quarter 2018, and as a result, it could be required to recognize an impairment charge related to its drilling services reporting unit.
