Kris Sirchio	\$139,400	\$135,300	\$135,300

A more detailed description of the compensation the Company pays its NEOs is included in the “Executive Compensation” section of the Company’s Proxy Statement filed with the Securities and Exchange Commission on June 27, 2012, which description is hereby incorporated by reference. For the Long-Term Cash awards approved on July 25, 2012, Company performance will be measured based on the following three metrics:

- **Sustained Financial Performance (40% of Long-Term Cash Award at Target).** For purposes of this metric, Company performance shall be measured based on underlying depletion-based operating income growth. The threshold level of performance (equating to a 0% payout) shall equal 3% growth over the prior fiscal year; the target level of performance (equating to a 100% payout) shall equal 8% growth over the prior fiscal year; and the maximum level of performance (equating to a 200% payout) shall equal 13% growth over the prior fiscal year.
- **Relative Financial Performance (40% of Long-Term Cash Award at Target).** For purposes of this metric, Company performance shall be measured based on the Company’s underlying depletion-based operating income growth relative to a set of industry peers to be defined by the Plan Administrator. The threshold level of performance (equating to a 0% payout) shall equal 0% growth over the prior fiscal year; the target level of performance (equating to a 100% payout) shall equal the weighted average growth observed among the industry peers; and the maximum level of performance (equating to a 200% payout) shall equal twice the weighted average growth observed among the industry peers. In situations where the weighted average growth for the industry is negative, the Plan Administrator shall exercise judgment in determining the payout level.
- **BF150 Progress Scorecard (20% of Long-Term Cash Award at Target).** The BF150 progress scorecard consists of five equally-weighted performance categories (each 4% of the Target value of the Long-Term Cash Award). For purposes of this metric, Company performance shall be measured based on cumulative performance over the three-year performance period in the following areas: a) market share growth within the United States, b) financial growth outside of the United States with a focus on emerging markets, c) financial growth of the Jack Daniel’s family of brands, d) financial and volumetric growth of brands other than the Jack Daniel’s family of brands, and e) other strategic initiatives. Each performance category shall receive a score ranging from 0% to 200% of Target.

For Class A common performance-based restricted stock awards granted on July 26, 2012, Company performance will be measured based on the relative ranking of the total shareholder return of Brown-Forman's Class B common stock during the performance period May 1, 2012 to April 30, 2015, compared to that of the companies within the Standard and Poor's Consumer Staples Index at the end of the performance period. The Compensation Committee will establish a payout scale that correlates the Company's percentile rank against the comparator group on three-year cumulative total shareholder return to a specific payout level ranging from 50% to 150% of the NEO's restricted stock award at target, with target performance and payout set at the 55th percentile rank versus the group. The threshold level of performance (the point at which the performance multiplier is 50% of target) is set at the 30th percentile rank versus the group. The maximum level of performance (the point at which the performance multiplier is 150% of target) is set at the 80th percentile rank versus the group. Stock prices used for comparison will be the average closing stock prices over the sixty trading days immediately preceding the start of the performance period and the final sixty trading days of the performance period. Payouts for performance between threshold and target and between target and maximum will be interpolated using a straight line method.

Director Compensation for the 2013 Board Year

On July 26, 2012, the Board of Directors determined to make no change to the compensation program for the Company's non-employee directors for the 2013 Board Year. A detailed description of the compensation the Company pays its directors is included in the Company's most recent Proxy Statement filed with the Securities and Exchange Commission on June 27, 2012, which description is hereby incorporated by reference.

Item 7.01. Regulation FD Disclosure.

On July 26, 2012, the Company issued a press release announcing that at its Annual Meeting of Stockholders held July 26, 2012, Brown-Forman Class A stockholders elected directors for the coming year. Also, Class A and Class B stockholders approved an amendment to the Company's Restated Certificate of Incorporation to increase the number of authorized shares of Class A common stock from 57 million to 85 million and Class B common stock from 100 million to 400 million. The authorization of additional shares enables the Company to effect the previously approved three-for-two stock split for both its Class A and Class B common stock. Stockholders of record as of the close of business on August 3, 2012 will receive one additional share of stock for every two shares of stock held for each respective class of stock, with the distribution of the additional shares to occur on or about August 10, 2012. Fractional shares will not be issued except to participants in the Company's Class B common stock fund (ESOP) within the 401(k) plan, Employee Stock Purchase Plan and Dividend Reinvestment Plan. For shareholdings outside of these plans, in lieu of a fractional share to which the shareholder would otherwise be entitled, the Company will pay the shareholder an amount in cash equal to the same fraction of the adjusted closing price (which shall mean two-thirds of the actual closing price), of one share of Class A common stock or Class B common stock, as the case may be, on the New York Stock Exchange as of the close of business on the payment date.

In addition, the Company announced that its Board of Directors approved a regular cash dividend of 23 cents per share on the split-adjusted Class A and Class B common stock, payable on October 1, 2012, to stockholders of record on September 7, 2012.

A copy of the press release is attached as Exhibit 99.1 to this current report on Form 8-K and is incorporated herein in its entirety by this reference.
