EXPLANATORY NOTE

PBF Logistics LP (“PBFX” or the “Partnership”) is a Delaware limited partnership formed in February 2013. PBF Logistics GP LLC (“PBF GP” or “our general partner”) serves as the general partner of PBFX. PBF GP is wholly-owned by PBF Energy Company LLC (“PBF LLC”). PBF Energy Inc. (“PBF Energy”) is the sole managing member of PBF LLC, and as of June 30, 2018, owned 99.0% of the total economic interest in PBF LLC. In addition, PBF LLC is the sole managing member of PBF Holding Company LLC (“PBF Holding”), a Delaware limited liability company and affiliate of PBFX. PBF LLC owns 18,459,497 of PBFX’s common units constituting an aggregate 43.9% limited partner interest in PBFX and owns all of PBFX’s incentive distribution rights (“IDRs”), with the remaining 56.1% limited partner interest owned by public unitholders as of June 30, 2018.

Unless the context otherwise requires, references in this Quarterly Report on Form 10-Q (this “Form 10-Q”) to “Predecessor,” and “we,” “our,” “us,” or like terms, when used in the context of periods prior to the completion of certain acquisitions from PBF LLC, refer to PBF MLP Predecessor, our predecessor for accounting purposes (our “Predecessor”), which includes assets, liabilities and results of operations of certain crude oil, refined products, natural gas and intermediates transportation, terminaling and storage assets, previously operated and owned by certain of PBF Holding’s currently and previously held subsidiaries. As of June 30, 2018, PBF Holding, together with its subsidiaries, owns and operates five oil refineries and related facilities in North America. PBF Energy, through its ownership of PBF LLC, controls all of the business and affairs of PBFX and PBF Holding.

References in this Form 10-Q to “PBF Logistics LP,” “PBFX,” the “Partnership” and “we,” “our,” “us,” or like terms used in the context of periods on or after the completion of certain acquisitions from PBF LLC, refer to PBF Logistics LP and its subsidiaries.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Form 10-Q (including information incorporated by reference) contains certain “forward-looking statements,” as defined in the Private Securities Litigation Reform Act of 1995, which involve risks and uncertainties. You can identify forward-looking statements because they contain words such as “believes,” “expects,” “may,” “should,” “seeks,” “approximately,” “intends,” “plans,” “estimates,” or “anticipates” or similar expressions that relate to our strategy, plans or intentions. All statements we make relating to our estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results or to our expectations regarding future industry trends are forward-looking statements. In addition, we, through our senior management, from time to time, make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time; therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results.

Important factors that could cause actual results to differ materially from our expectations, which we refer to as “cautionary statements,” are disclosed under “Item 1A. Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this Form 10-Q; in our Annual Report on Form 10-K for the year ended December 31, 2017, which we refer to as our 2017 Form 10-K and in our other filings with the U.S. Securities and Exchange Commission (“SEC”). All forward-looking information in this Form 10-Q and subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include:

- our limited operating history as a separate public partnership;
- changes in general economic conditions;
- our ability to make, complete and integrate acquisitions from affiliates or third parties;
- our ability to have sufficient cash from operations to enable us to pay the minimum quarterly distribution;
- competitive conditions in our industry;
- actions taken by our customers and competitors;
- the supply of, and demand for, crude oil, refined products, natural gas and logistics services;
- our ability to successfully implement our business plan;
- our dependence on PBF Energy for a substantial majority of our revenues subjects us to the business risks of PBF Energy, which includes the possibility that contracts will not be renewed because they are no longer beneficial for PBF Energy;
- a substantial majority of our revenue is generated at certain of PBF Energy’s facilities, and any adverse development at any of these facilities could have a material adverse effect on us;
- our ability to complete internal growth projects on time and on budget;
- the price and availability of debt and equity financing;
- operating hazards and other risks incidental to handling crude oil, petroleum products and natural gas;
- natural disasters, weather-related delays, casualty losses and other matters beyond our control;
- interest rates;

- labor relations;
- changes in the availability and cost of capital;
- the effects of existing and future laws and governmental regulations, including those related to the shipment of crude oil by trains;
- changes in insurance markets impacting costs and the level and types of coverage available;
- the timing and extent of changes in commodity prices and demand for PBF Energy's refined products and natural gas and the differential in the prices of different crude oils;
- the suspension, reduction or termination of PBF Energy's obligations under our commercial agreements;
- disruptions due to equipment interruption or failure at our facilities, PBF Energy's facilities or third-party facilities on which our business is dependent;
- incremental costs as a separate public partnership;
- our general partner and its affiliates, including PBF Energy, have conflicts of interest with us and limited duties to us and our unitholders, and they may favor their own interests to the detriment of us and our other common unitholders;
- our partnership agreement restricts the remedies available to holders of our common units for actions taken by our general partner that might otherwise constitute breaches of fiduciary duty;
- holders of our common units have limited voting rights and are not entitled to elect our general partner or its directors;
- our tax treatment depends on our status as a partnership for U.S. federal income tax purposes, as well as our not being subject to a material amount of entity level taxation by individual states;
- changes at any time (including on a retroactive basis) in the tax treatment of publicly traded partnerships, including related impacts on potential dropdown transactions with PBF LLC, or an investment in our common units;
- our unitholders will be required to pay taxes on their share of our taxable income even if they do not receive any cash distributions from us;
- the effects of future litigation; and
- other factors discussed elsewhere in this Form 10-Q.

We caution you that the foregoing list of important factors may not contain all of the material factors that are important to you. In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this Form 10-Q may not in fact occur. Accordingly, investors should not place undue reliance on those statements.

Our forward-looking statements speak only as of the date of this Form 10-Q. Except as required by applicable law, including the securities laws of the United States, we undertake no obligation to update or revise any forward-looking statements. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the foregoing.

PBF LOGISTICS LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

1. DESCRIPTION OF THE BUSINESS AND BASIS OF PRESENTATION

PBF Logistics LP (“PBFX” or the “Partnership”) is a Delaware limited partnership formed in February 2013. PBF Logistics GP LLC (“PBF GP” or “our general partner”) serves as the general partner of PBFX. PBF GP is wholly-owned by PBF Energy Company LLC (“PBF LLC”). PBF Energy Inc. (“PBF Energy”) is the sole managing member of PBF LLC, and as of June 30, 2018, owned 99.0% of the total economic interest in PBF LLC. In addition, PBF LLC is the sole managing member of PBF Holding Company LLC (“PBF Holding”), a Delaware limited liability company and affiliate of PBFX. PBF LLC owns 18,459,497 of PBFX’s common units constituting an aggregate 43.9% limited partner interest in PBFX and owns all of PBFX’s incentive distribution rights (“IDRs”), with the remaining 56.1% limited partner interest owned by public unitholders as of June 30, 2018.

PBFX engages in the receiving, handling, storage and transferring of crude oil, refined products, natural gas and intermediates. The Partnership does not take ownership of or receive any payments based on the value of the crude oil, products, natural gas or intermediates that it handles and does not engage in the trading of any commodities. PBFX’s assets are integral to the operations of PBF Holding’s refineries, and as a result, the Partnership continues to generate a substantial majority of its revenue from transactions with PBF Holding. Additionally, certain of PBFX’s assets also generate revenue from third-party transactions.

On April 16, 2018, the Partnership’s wholly-owned subsidiary, PBF Logistics Products Terminals LLC (“PLPT”), completed the purchase of two refined product terminals located in Knoxville, Tennessee, which include product tanks, pipeline connections to the Colonial and Plantation pipeline systems and truck loading facilities (the “Knoxville Terminals”) from Cummins Terminals, Inc. (“Cummins”) for total cash consideration of approximately \$58,000, excluding working capital adjustments (the “Knoxville Terminals Purchase”). This acquisition was accounted for as a business combination under U.S. generally accepted accounting principles (“GAAP”). Refer to Note 3 “Acquisitions” of the Notes to Condensed Consolidated Financial Statements for further discussion regarding the Knoxville Terminals Purchase.

Principles of Combination and Consolidation and Basis of Presentation

In connection with, and subsequent to, PBFX’s initial public offering (“IPO”), the Partnership has acquired certain assets from PBF LLC (collectively referred to as the “Contributed Assets”). The acquisitions completed subsequent to the IPO were made through a series of drop-down transactions with PBF LLC (collectively referred to as the “Acquisitions from PBF”). The assets, liabilities and results of operations of the Contributed Assets prior to their acquisition by PBFX are collectively referred to as the “Predecessor.” The transactions through which PBFX acquired the Contributed Assets were transfers of assets between entities under common control. Accordingly, the accompanying condensed consolidated financial statements and related notes present the results of operations and cash flows of our Predecessor for all periods presented prior to the effective date of each transaction. The financial statements of our Predecessor have been prepared from the separate records maintained by PBF Energy and may not necessarily be indicative of the conditions that would have existed or the results of operations if the Predecessor had been operated as an unaffiliated entity. See the Annual Report on Form 10-K for the year ended December 31, 2017 (the “2017 Form 10-K”) for additional information regarding the Acquisitions from PBF and the commercial agreements and amendments to other agreements with related parties executed in connection with these acquisitions.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with GAAP for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, PBFX has included all

adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position and the results of operations and cash flows of PBFX for the periods presented. The results of operations for the three and six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for the full year.

PBF LOGISTICS LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

The Predecessor generally did not historically operate its respective assets for the purpose of generating revenues independent of other PBF Energy businesses prior to PBFX's IPO or for assets acquired in the Acquisitions from PBF, prior to the effective dates of each transaction. All intercompany accounts and transactions have been eliminated.

Summary of Significant Accounting Policies

Goodwill

Goodwill, related to an acquisition, is calculated as the excess of the purchase price over the fair value of the identifiable net assets and is carried at cost. Goodwill is not amortized for financial reporting purposes; however, it is subject to annual assessment to determine if an impairment of goodwill has occurred. The Partnership intends to perform this impairment review annually in the second half of the calendar year, or in any period prior to the annual assessment, in which the Partnership experiences any circumstances that would indicate an impairment exists, such as disruptions in its business or other significant declines in results. An impairment loss is recorded if the implied fair value of the reporting unit is less than the carrying value. Reporting units are based on a component of the business with discrete financial information that management reviews on a regular basis. The Partnership reviews its reporting units on an annual basis. During the three and six months ended June 30, 2018, there have been no impairment indicators, or changes in the Partnership's business, that would cause the Partnership to perform a goodwill impairment assessment.

Intangibles

The Partnership's intangibles are comprised of customer relationships, which were acquired in connection with the Knoxville Terminals Acquisition and were recorded at estimated fair value at the date of acquisition.

Intangibles with definite lives are amortized using the straight-line method over their relative estimated useful life, or the period of which they provide an economic benefit. The customer relationships estimated useful life for the Knoxville Terminals Acquisition were determined to be 10 years.

Recently Adopted Accounting Guidance

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09 (Topic 606), "Revenue from Contracts with Customers" ("ASC 606"). ASC 606 supersedes the revenue recognition requirements in Accounting Standards Codification 605 "Revenue Recognition" ("ASC 605"), and requires entities to recognize revenue when control of the promised goods or services is transferred to customers at an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. The Partnership adopted ASC 606 as of January 1, 2018 using the modified retrospective transition method. See Note 2 "Revenue" of the Notes to Condensed Consolidated Financial Statements for further details.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)" ("ASU 2016-02"), to increase the transparency and comparability about leases among entities. Additional ASUs have been issued subsequent to ASU 2016-02 to provide additional clarification and implementation guidance for leases related to ASU 2016-02 related to, among other things, the application of certain practical expedients, the rate implicit in the lease, lessee reassessment of lease classification, lessor reassessment of lease term and purchase options, variable payments that depend on an

index or rate and certain transition adjustments (collectively, the Partnership refers to ASU 2016-02 and these additional ASUs as the “Updated Lease Guidance”). The Updated Lease Guidance requires lessees to recognize a lease liability and a corresponding lease asset for virtually all lease contracts. It also requires additional disclosures about leasing arrangements. The Updated Lease Guidance is effective for interim and annual

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

periods beginning after December 15, 2018, and requires a modified retrospective approach to adoption. While early adoption is permitted, the Partnership will not early adopt the Updated Lease Guidance. The Partnership has established a working group to study and lead the implementation of the Updated Lease Guidance and has instituted a task plan designed to meet the requirements and implementation deadline. The Partnership has also evaluated and purchased a lease software system, completed software design and configuration of the system, and begun testing the implementation of the selected system. The working group continues to evaluate the impact of the Updated Lease Guidance on the Partnership's consolidated financial statements and related disclosures and the impact on its business processes and controls. While the assessment of this standard is ongoing, the Partnership has identified that the most significant impacts of the Updated Lease Guidance will be to bring nearly all leases onto its balance sheet with "right of use assets" and "lease obligation liabilities" as well as accelerating recognition of the interest expense component of financing leases. The new standard will also require additional disclosures for financing and operating leases.

In January 2017, the FASB issued ASU No. 2017-04, "Simplifying the Test for Goodwill Impairment" ("ASU 2017-04") to provide updated guidance on goodwill impairment testing. Under ASU 2017-04, goodwill impairment Step 2 would be eliminated. This step required a comparison of the implied fair value and carrying value of goodwill of the reporting unit. Subsequent to the effective date of ASU 2017-04, during the annual, or if applicable, interim goodwill impairment assessment, entities would perform the test by comparing the fair value of the reporting unit with the carrying value of the reporting unit. The impairment charge would be the excess amount carrying value is greater than fair value, with the total amount limited to the carrying value of goodwill. ASU 2017-04 is effective for annual or, if applicable, interim goodwill impairment assessments beginning after December 15, 2019. Early adoption is permitted. The Partnership is currently evaluating the impact of this new standard on its consolidated financial statements and related disclosures.

2. REVENUE

Adoption of ASC 606

Prior to January 1, 2018, the Partnership recognized revenue from customers when all of the following criteria were met: (i) persuasive evidence of an exchange arrangement existed, (ii) delivery had occurred or services had been rendered, (iii) the buyer's price was fixed or determinable and (iv) collectability was reasonably assured. Amounts billed in advance of the period in which the service was rendered or product delivered were recorded as deferred revenue.

Effective January 1, 2018, the Partnership adopted ASC 606. As a result, the Partnership has changed the accounting policy for the recognition of revenue from contracts with customers as detailed below.

The Partnership adopted ASC 606 using the modified retrospective method, which has been applied for the three and six months ended June 30, 2018. The Partnership has applied ASC 606 only to those contracts that were not complete as of January 1, 2018. As such, the financial information for prior periods has not been adjusted and continues to be reported under ASC 605. The Partnership did not record a cumulative effect adjustment upon initially applying ASC 606 as there was not a significant impact upon adoption; however, the details of significant qualitative and quantitative disclosure changes upon implementing ASC 606 are discussed below.

Revenue Recognition

Revenue is recognized when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration the Partnership expects to be entitled to in exchange for those goods or services.

As noted in Note 11 “Segment Information” of the Notes to Condensed Consolidated Financial Statements, the Partnership’s business consists of two reportable segments: (i) Transportation and Terminaling and (ii) Storage.

PBF LOGISTICS LP

Storage	6,966	5,726	14,035	11,264
Total	6,966	5,726	14,035	11,264
Total Revenue	\$67,398	\$62,329	\$131,437	\$122,806

PBFX recognizes revenue by charging fees for crude oil and refined products terminaling, storing and pipeline services based on the greater of contractual minimum volume commitments ("MVCs"), as applicable, or the delivery of actual volumes transferred or stored based on contractual rates applied to throughput or storage volumes.

Minimum Volume Commitments

Transportation and Terminaling

The Partnership's Transportation and Terminaling segment consists of product terminals, pipelines, crude unloading facilities and other facilities capable of handling barges and ships. Certain of these commercial agreements contain MVCs. Under these commercial agreements, if the Partnership's customer fails to transport its minimum throughput volumes during any specified period, the customer will pay the Partnership a deficiency payment equal to the volume of the deficiency multiplied by the contractual rate then in effect. The deficiency payment is initially recorded as deferred revenue on the Partnership's balance sheets for all contracts in which the MVC deficiency makeup period is contractually longer than a fiscal quarter.

Certain of the Partnership's customers may apply the amount of any such deficiency payments as a credit for volumes transported on the applicable pipeline or terminal system in excess of its MVC during the following quarters under the terms of the applicable agreement. The Partnership recognizes operating revenues for the deficiency payments when credits are used for volumes transported in excess of MVCs or at the end of the contractual period. If the Partnership determines, based on all available information, that it is remote that the Partnership's customer will utilize these deficiency payments, the amount of the expected unused credits will be recognized as operating revenues in the period when that determination is made. The use or recognition of the credits is recorded as a reduction to deferred revenue.

Storage

The Partnership earns storage revenue under the crude oil and refined products storage contracts through capacity reservation agreements, where the Partnership collects a fee for reserving storage capacity for customers in its facilities. Customers generally pay reservation fees based on the level of storage capacity reserved rather than the

actual volumes stored.

11

PBF LOGISTICS LP
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

As of June 30, 2018, future fees for MVCs to be received related to noncancelable commercial terminaling, pipeline and storage agreements were as follows:

2018	\$106,840
2019	209,975
2020	210,737
2021	210,477
2022	127,393
Thereafter	449,875
Total MVC payments to be received	\$1,315,297

Leases

Certain of the Partnership's commercial agreements are considered operating leases. Under these leasing agreements, the Partnership provides access to storage tanks and/or use of throughput assets that convey the right to control the use of an identified asset to the customer. The Partnership accounts for these transactions under ASC 840 "Leases." These lease arrangements accounted for \$29,448 and \$58,523 of the Partnership's revenue for the three and six months ended June 30, 2018, respectively.

Deferred Revenue

The Partnership records deferred revenues when cash payments are received or due in advance of performance, including amounts which are refundable. Deferred revenue was \$1,152 and \$1,438 as of June 30, 2018 and December 31, 2017, respectively. The decrease in the deferred revenue balance as of June 30, 2018 is primarily driven by the timing and extent of cash payments received in advance of satisfying the Partnership's performance obligations for the comparative periods.

The Partnership's payment terms vary by the type and location of our customer and the services offered. The period between invoicing and when payment is due is not significant (i.e., generally within two months). For certain services and customer types, the Partnership requires payment before the services are performed for the customer.

Significant Judgment and Practical Expedients

For performance obligations, the Partnership determined that customers are able to obtain control of these services over time. The Partnership determined that these performance obligations, which are satisfied over time, are considered a series that generally have the same pattern of transfer to customers. For stand ready performance obligations, the Partnership generally recognizes revenue over time on a straight-line basis under the time-elapsed output method as the Partnership believes this is a reasonable basis in determining how customers obtain the benefits of the Partnership's services. For non-stand ready performance obligations, the Partnership generally recognizes revenue over time based on actual performance (current period volumes multiplied by the applicable rate per unit of volume) as the Partnership believes this accurately depicts the transfer of benefits to customers.

The Partnership did not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which the Partnership recognizes revenue at the amount to which the Partnership has the right to invoice for services performed.

3. ACQUISITIONS

PNGPC Acquisition

On February 28, 2017, the Partnership's wholly-owned subsidiary, PBFX Operating Company LP ("PBFX Op Co"), acquired from PBF LLC all the issued and outstanding limited liability company interest of Paulsboro

12

PBF LOGISTICS LP
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

Natural Gas Pipeline Company LLC (“PNGPC”) for an aggregate purchase price of \$11,600 (the “PNGPC Acquisition”). PNGPC owns and operates an interstate natural gas pipeline which serves PBF Holding’s Paulsboro Refinery. In connection with the PNGPC Acquisition, PBFX constructed a new pipeline, which commenced services in August 2017 (the “Paulsboro Natural Gas Pipeline”).

In consideration for the PNGPC limited liability company interests, the Partnership delivered to PBF LLC (i) an \$11,600 intercompany promissory note in favor of Paulsboro Refining Company LLC, a wholly-owned subsidiary of PBF Holding (the “Affiliate Note Payable”), (ii) an expansion rights and right of first refusal agreement in favor of PBF LLC with respect to the Paulsboro Natural Gas Pipeline and (iii) an assignment and assumption agreement with respect to certain outstanding litigation involving PNGPC and the existing pipeline. As the PNGPC Acquisition was considered a transfer of assets between entities under common control, the PNGPC assets and liabilities were transferred at their historical carrying value, whose net value was \$11,538 as of February 28, 2017. The financial information contained herein of PBFX has been retrospectively adjusted to include the historical results of PNGPC as if it was owned by the Partnership for all periods presented. Net loss attributable to the PNGPC Acquisition prior to the effective date was allocated entirely to PBF GP as if only PBF GP had rights to that net loss; therefore, there is no retrospective adjustment to net income per unit.

Knoxville Terminals Purchase

On April 16, 2018, the Partnership’s wholly-owned subsidiary, PLPT, completed the third-party Knoxville Terminals Purchase. The Knoxville Terminals consist of two refined product terminals located in Knoxville, Tennessee, which include product tanks, pipeline connections to the Colonial and Plantation pipeline systems and truck loading facilities.

The aggregate purchase price for the Knoxville Terminals Purchase was \$58,000, plus working capital adjustments. The consideration was financed through a combination of cash on hand and borrowings under the Partnership’s Revolving Credit Facility (as defined in Note 6 “Debt” of the Notes to Condensed Consolidated Financial Statements).

PBFX accounted for the Knoxville Terminals Purchase as a business combination under GAAP whereby the Partnership recognizes assets acquired and liabilities assumed at their estimated fair values as of the date of acquisition. Any excess consideration transferred over the estimated fair values of the identifiable net assets acquired is recorded as goodwill. The fair value allocation is subject to adjustment pending completion of the final purchase valuation which was in process as of June 30, 2018.

The total purchase consideration and the estimated fair values of the assets and liabilities at the acquisition date were as follows:

	Purchase Price	Fair Value Allocation
Gross purchase price	\$58,000	
Working capital	356	
Total consideration	\$58,356	
Prepays and other current assets		\$ 356
Property, plant and equipment		45,768
Intangibles		5,900

Goodwill	6,332
Estimated fair value of net assets acquired	\$ 58,356

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

The Partnership's condensed consolidated financial statements for the three and six months ended June 30, 2018 include the results of operations of the Knoxville Terminals since April 16, 2018, during which period the Knoxville Terminals contributed affiliate revenue of \$159, third-party revenue of \$1,580 and net income of \$707. On an unaudited pro forma basis, the revenues and net income of PBFX assuming the acquisition had occurred on January 1, 2017, for the periods indicated, are shown below. The unaudited pro forma information does not purport to present what PBFX's actual results would have been had the Knoxville Terminals Purchase occurred on January 1, 2017, nor is the financial information indicative of the results of future operations. The unaudited pro forma financial information includes the depreciation and amortization expense related to the acquisition and interest expense associated with the Knoxville Terminals Purchase financing.

	Six Months Ended June 30, 2018	Six Months Ended June 30, 2017
Pro forma revenues	\$134,967	\$129,940
Pro forma net income attributable to PBF Logistics LP unitholders:	35,153	43,688
Pro forma net income available per limited partner units:		
Common units - basic	\$0.83	\$1.03
Common units - diluted	0.83	1.03
Subordinated units - basic and diluted	—	1.06

Acquisition Expenses

PBFX incurred acquisition related costs of \$669 and \$1,152 for the three and six months ended June 30, 2018, respectively, primarily consisting of consulting and legal expenses related to the Knoxville Terminals Purchase and other pending and nonconsummated acquisitions. PBFX incurred acquisition related costs of \$331 and \$505 for the three and six months ended June 30, 2017, respectively, primarily consisting of consulting and legal expenses related to the PNGPC Acquisition and the purchase of the Toledo, Ohio refined products terminal assets from Sunoco Logistics Partners L.P. (the "Toledo Products Terminal Acquisition"). These costs are included in "General and administrative expenses."

4. PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment, net consisted of the following:

	June 30, 2018	December 31, 2017
Land	\$101,857	\$99,707
Pipelines	334,897	333,609
Terminals and equipment	245,139	200,630
Storage facilities	89,921	89,417
Construction in progress	6,239	4,810
	778,053	728,173
Accumulated depreciation	(67,641)	(54,350)
Property, plant and equipment, net	\$710,412	\$673,823

Depreciation expense was \$13,291 and \$11,062 for the six months ended June 30, 2018 and 2017, respectively.

5. GOODWILL AND INTANGIBLES

Goodwill

On April 16, 2018, the Partnership's wholly-owned subsidiary, PLPT, completed the Knoxville Terminals Purchase. As a result of the preliminary purchase price allocation, goodwill was recorded. Refer to Note 3

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

“Acquisitions” of the Notes to Condensed Consolidated Financial Statements for further discussion regarding the Knoxville Terminals Purchase and the preliminary purchase price allocation.

As of June 30, 2018, the carrying amount of goodwill was \$6,332, all of which was allocated to the Transportation and Terminating segment.

Intangibles

As a result of the preliminary purchase price allocation of the Knoxville Terminals Purchase, a customer relationship intangible was recorded. Refer to Note 3 “Acquisitions” of the Notes to Condensed Consolidated Financial Statements for further discussion regarding the Knoxville Terminals Purchase and the preliminary purchase price allocation.

As of June 30, 2018, intangibles consisted of the following:

	June 30, December 31,	
	2018	2017
Customer relationships	\$5,900	\$ —
Accumulated amortization	(123)	—
Total intangibles	\$5,777	\$ —

Amortization expense was \$123 and \$0 for the six months ended June 30, 2018 and 2017, respectively. The Partnership estimates amortization expense of \$590 a year for the next five years.

6. DEBT

Total debt was comprised of the following:

	June 30, December 31,	
	2018	2017
2023 Notes	\$525,000	\$ 525,000
Revolving Credit Facility (a)	84,000	29,700
Total debt outstanding	609,000	554,700
Unamortized debt issuance costs	(8,520)	(9,281)
Unamortized 2023 Notes premium	3,101	3,374
Net carrying value of debt	\$603,581	\$ 548,793

(a) PBFX had \$4,010 outstanding letters of credit and \$271,990 available under its five-year \$360,000 revolving credit facility (the “Revolving Credit Facility”) as of June 30, 2018. During the six months ended June 30, 2018, PBFX paid down \$9,700 and subsequently borrowed \$64,000 to fund the Knoxville Terminals Purchase and other capital expenditures and working capital requirements. On July 30, 2018, PBFX entered into an amended and restated revolving credit facility (the “A&R Revolving Credit Facility”), that among other things, extended the maturity date from May 2019 to July 2023; as a result, the Revolving Credit Facility is classified as long-term on PBFX’s balance sheet. Refer to Note 12 “Subsequent Events” of the Notes to Condensed Consolidated Financial Statements for further discussion regarding the A&R Revolving Credit Facility.

Fair Value Measurement

A fair value hierarchy (Level 1, Level 2, or Level 3) is used to categorize fair value amounts based on the quality of inputs used to measure fair value. Accordingly, fair values derived from Level 1 inputs utilize quoted prices in active markets for identical assets or liabilities. Fair values derived from Level 2 inputs are based on quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are either

PBF LOGISTICS LP
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

directly or indirectly observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

The estimated fair value of the Revolving Credit Facility approximates its carrying value, categorized as a Level 2 measurement, as this borrowing bears interest based upon short-term floating market interest rates. The estimated fair value of the Partnership's 6.875% Senior Notes due 2023 (the "2023 Notes"), categorized as a Level 2 measurement, was calculated based on the present value of future expected payments utilizing implied current market interest rates based on quoted prices of the 2023 Notes and was approximately \$532,956 and \$544,118 at June 30, 2018 and December 31, 2017, respectively. The carrying value and fair value of PBFX's debt, exclusive of unamortized debt issuance costs and unamortized premium on the 2023 Notes, was approximately \$609,000 and \$616,956 as of June 30, 2018 and \$554,700 and \$573,818 as of December 31, 2017, respectively.

7. EQUITY

PBFX had 23,613,565 common units held by the public outstanding as of June 30, 2018. PBF LLC owns 18,459,497 of PBFX's common units constituting an aggregate 43.9% limited partner interest in PBFX as of June 30, 2018.

Share Activity

PBFX's partnership agreement, as amended, authorizes PBFX to issue an unlimited number of additional partnership interests for the consideration and on the terms and conditions determined by PBFX's general partner without the approval of the unitholders. It is possible that PBFX will fund future acquisitions through the issuance of additional common units, subordinated units or other partnership interests.

The following table presents changes in PBFX common and subordinated units outstanding:

	Three Months Ended June 30,		
	2018	2017	
	Common Units	Common Units	Subordinated Units - PBF LLC
Balance at beginning of period	41,900,708	25,876,472	15,886,553
Vesting of phantom units, net of forfeitures	172,354	127,462	—
Conversion of subordinated units	—	15,886,553	(15,886,553)
Balance at end of period	42,073,062	41,890,487	—
	Six Months Ended June 30,		
	2018	2017	
	Common Units	Common Units	Subordinated Units - PBF LLC
Balance at beginning of period	41,900,708	25,844,118	15,886,553
Vesting of phantom units, net of forfeitures	172,354	159,816	—
Conversion of subordinated units	—	15,886,553	(15,886,553)
Balance at end of period	42,073,062	41,890,487	—

Additionally, 217,171 of the Partnership's phantom units issued under the PBFX 2014 Long-Term Incentive Plan ("LTIP") vested and were converted into common units held by certain directors, officers and current and former

employees of our general partner or its affiliates during the year ended December 31, 2017.

Holders of any additional common units PBFX issues will be entitled to share equally with the then-existing common unitholders in PBFX's distributions of available cash.

PBF LOGISTICS LP

 (IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

Noncontrolling Interest

PBFX's wholly-owned subsidiary, PBFX Op Co, holds a 50% controlling interest in Torrance Valley Pipeline Company LLC ("TVPC"), with the other 50% interest in TVPC held by TVP Holding Company LLC ("TVP Holding"), a subsidiary of PBF Holding. PBFX Op Co is the sole managing member of TVPC. PBFX, through its ownership of PBFX Op Co, consolidates the financial results of TVPC, and records a noncontrolling interest for the economic interest in TVPC held by TVP Holding. Noncontrolling interest on the condensed consolidated statements of operations includes the portion of net income or loss attributable to the economic interest in TVPC held by TVP Holding. Noncontrolling interest on the condensed consolidated balance sheets includes the portion of net assets of TVPC attributable to TVP Holding.

Equity Activity

The following tables summarize the changes in the carrying amount of the Partnership's equity during the six months ended June 30, 2018 and 2017:

	Common Units	IDR Holder	Noncontrolling Interest	Total

Cash Distributions

PBFX's partnership agreement, as amended, sets forth the calculation to be used to determine the amount and priority of cash distributions that the common and subordinated unitholders and general partner will receive.

During the six months ended June 30, 2018, PBFX made distribution payments as follows:

Related Earnings Period:	Q4 2017	Q1 2018
Distribution date	March 14, 2018	May 30, 2018
Record date	February 28, 2018	May 15, 2018
Per unit	\$0.4850	\$0.4900
To public common unitholders	\$ 11,369	\$ 11,553
To PBF LLC	11,689	12,000
Total distribution	\$ 23,058	\$ 23,553

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

The allocation of total quarterly distributions to general and limited partners for the three and six months ended June 30, 2018 and 2017 is shown in the table below. The Partnership's distributions are declared subsequent to quarter end (distributions of \$0.4950 and \$0.4700 per unit declared for the three months ended June 30, 2018 and 2017, respectively, and \$0.4900 and \$0.4600 per unit declared for the three months ended March 31, 2018 and 2017, respectively); therefore, the table represents total estimated distributions applicable to the period in which the distributions are earned:

	Three Months		Six Months	
	Ended		Ended	
	June 30,		June 30,	
	2018	2017	2018	2017
IDR - PBF LLC	\$3,415	\$2,107	\$6,370	\$3,793
Limited partners' distributions:				
Common	22,800	20,000	43,770	32,272
Subordinated - PBF LLC	—	—	—	7,308
Total distributions	26,215	22,107	50,140	43,373
Total cash distributions ⁽¹⁾	\$25,866	\$21,797	\$49,419	\$42,735

(1) Excludes phantom unit distributions which are accrued and paid upon vesting.

8. NET INCOME PER UNIT

Earnings in excess of distributions are allocated to the limited partners based on their respective percentage interests. Payments made to PBFX's unitholders are determined in relation to actual distributions declared and are not based on the net income (loss) allocations used in the calculation of net income (loss) per unit.

Diluted net income per unit includes the effects of potentially dilutive units of PBFX's common units that consist of unvested phantom units. There were 146,065 and 429,503 anti-dilutive phantom units for the three and six months ended June 30, 2018, respectively, compared to 74,750 and 393,439 anti-dilutive phantom units for the three and six months ended June 30, 2017, respectively. Basic and diluted net income per unit applicable to subordinated limited partners are the same because there are no potentially dilutive subordinated units outstanding.

In addition to the common and subordinated units, PBFX has also identified the general partner interest and IDRs as participating securities and uses the two-class method when calculating the net income per unit applicable to limited partners that is based on the weighted-average number of common units outstanding during the period.

On June 1, 2017, following the May 31, 2017 payment of the cash distribution attributable to the second quarter of 2017, the requirements under PBFX's partnership agreement, as amended, for the conversion of all subordinated units into common units were satisfied and the subordination period for such subordinated units ended. As a result, in the second quarter of 2017, each of the Partnership's 15,886,553 outstanding subordinated units converted into common units and began participating pro rata with the other common units in distributions of available cash. The conversion did not impact the amount of the cash distribution paid or the total number of the Partnership's outstanding units representing limited partner interests. The Partnership's net income was allocated to the general partner, the limited partners, including the holders of the subordinated units through May 31, 2017 and IDR holders, in accordance with the partnership agreement.

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

When calculating basic earnings per unit under the two-class method for a master limited partnership, net income for the current reporting period is reduced by the amount of available cash that has been or will be distributed to the general partner, limited partners, and IDR holders for that reporting period. The following table shows the calculation of earnings less distributions:

	Three Months Ended June 30, 2018			
	Limited Partner Common Units	IDRs - PBF LLC		Total

9. COMMITMENTS AND CONTINGENCIES

Certain of PBFX's assets are collocated with PBF Holding's Delaware City Refinery, and are located in Delaware's coastal zone where certain activities are regulated under the Delaware Coastal Zone Act (the "CZA"). Therefore, determinations regarding the CZA that impact the Delaware City Refinery may potentially adversely impact the Partnership's assets even if the Partnership is not directly involved. The Delaware City Refinery is appealing a Notice of Penalty Assessment and Secretary's Order issued in March 2017 (the "2017 Secretary's Order"), including a \$150 fine, alleging violation of a 2013 Secretary's Order authorizing crude oil shipment by barge (the "2013 Secretary's Order"). The Delaware Department of Natural Resources and Environmental Control's ("DNREC") determined that the Delaware City Refinery had violated the 2013 Secretary's Order by failing to make timely and full disclosure to DNREC about the nature and extent of certain shipments and had misrepresented the number of shipments that went to other facilities. The Notice of Penalty Assessment and 2017 Secretary's Order conclude that the 2013 Secretary's Order was violated by the Delaware City Refinery by shipping crude oil from the Partnership's Delaware City assets to three

locations other than PBF Holding's Paulsboro Refinery, on 15 days in 2014, making a total of 17 separate barge shipments containing approximately 35,700,000 gallons of crude oil in total. On April 28, 2017, the Delaware City Refinery appealed the Notice of Penalty Assessment and 2017

PBF LOGISTICS LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

Secretary's Order. On March 5, 2018, the Notice of Penalty Assessment was settled by DNREC, the Delaware Attorney General and the Delaware City Refinery for \$100. The Delaware City Refinery made no admissions with respect to the alleged violations and agreed to request a CZA status decision prior to making crude oil shipments to destinations other than Paulsboro. The Delaware City Refinery has paid the penalty.

On December 28, 2016, DNREC issued a CZA permit (the "Ethanol Permit") to the Delaware City Refinery allowing the utilization of existing tanks and existing marine loading equipment at their existing facilities to enable denatured ethanol to be loaded from storage tanks to marine vessels and shipped to offsite facilities. On January 13, 2017, the issuance of the Ethanol Permit was appealed by two environmental groups. On February 27, 2017, the Coastal Zone Industrial Board (the "Coastal Zone Board") held a public hearing and dismissed the appeal, determining that the appellants did not have standing. The appellants filed an appeal of the Coastal Zone Board's decision with the Delaware Superior Court (the "Superior Court") on March 30, 2017. On January 19, 2018, the Superior Court rendered an Opinion regarding the decision of the Coastal Zone Board to dismiss the appeal of the Ethanol Permit for the ethanol project. The Judge determined that the record created by the Coastal Zone Board was insufficient for the Superior Court to make a decision, and therefore remanded the case back to the Coastal Zone Board to address the deficiency in the record. Specifically, the Superior Court directed the Coastal Zone Board to address any evidence concerning whether the appellants' claimed injuries would be affected by the increased quantity of ethanol shipments. During the hearing before the Coastal Zone Board on standing, one of the appellants' witnesses made a reference to the flammability of ethanol, without any indication of the significance of flammability/explosivity to specific concerns. Moreover, the appellants did not introduce at hearing any evidence of the relative flammability of ethanol as compared to other materials shipped to and from the refinery. However, the sole dissenting opinion from the Coastal Zone Board focused on the flammability/explosivity issue, alleging that the appellants' testimony raised the issue as a distinct basis for potential harms. Once the Coastal Zone Board responds to the remand, it will go back to the Superior Court to complete its analysis and issue a decision.

On October 19, 2017, the Delaware City Refinery received approval from DNREC for the construction and operation of the ethanol marketing project to allow for a combined total loading of up to 10,000 barrels per day, on an annual average basis, of ethanol on to marine vessels at the marine piers and the terminal truck loading rack, subject to certain operational and emissions limitations as well as other conditions. On the same date, Delaware City Logistics Company LLC ("DCLC") received DNREC approval for the construction of (i) four additional loading arms for each of lanes 4, 10 and 11 for purposes of loading ethanol at its truck loading rack and (ii) a vapor vacuum control system for loading lanes connected to the existing vapor recovery unit located at its terminal in Delaware City. This approval is also subject to certain operational and emission limitations as well as other conditions.

Environmental Matters

PBFX's assets, along with PBF Energy's refineries, are subject to extensive and frequently changing federal, state and local laws and regulations, including, but not limited to, those relating to the discharge of materials into the environment or that otherwise relate to the protection of the environment, waste management and the characteristics and the composition of fuels. Compliance with existing and anticipated laws and regulations can increase the overall cost of operating the Partnership's assets, including remediation, operating costs and capital costs to construct, maintain and upgrade equipment and facilities.

In connection with PBF Holding's acquisition of the Delaware City Refinery assets, Valero Energy Corporation ("Valero") remains responsible for certain pre-acquisition environmental obligations up to \$20,000 and the predecessor to Valero in ownership of the refinery retains other historical obligations.

In connection with its acquisition of the Delaware City Refinery assets and the Paulsboro Refinery, PBF Holding and Valero purchased ten-year, \$75,000 environmental insurance policies to insure against unknown environmental liabilities at each site. In connection with PBF Holding's Toledo Refinery acquisition, Sunoco Inc.

PBF LOGISTICS LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

(R&M) remains responsible for environmental remediation for conditions that existed on the closing date for twenty years from March 1, 2011, subject to certain limitations.

In connection with its purchase of the four refined product terminals from Plains All American Pipeline, L.P. (“Plains”), the Partnership is responsible for the environmental remediation costs for conditions that existed on the closing date up to a maximum of \$250 per year for ten years, with Plains remaining responsible for any and all additional costs above such amounts during such period. The environmental liability of \$1,668 recorded as of June 30, 2018 (\$1,923 as of December 31, 2017) represents the present value of expected future costs discounted at a rate of 1.83%. At June 30, 2018, the undiscounted liability is \$1,815 and the Partnership expects to make aggregate payments for this liability of \$1,250 over the next five years. The current portion of the environmental liability is recorded in “Accounts payable and accrued liabilities” and the non-current portion is recorded in “Other long-term liabilities.”

In connection with PBF Holding’s acquisition of the Torrance Refinery and related logistics assets, PBF Holding is responsible for all known and unknown environmental liabilities at each site acquired in connection with the acquisition. The total estimated liability of known environmental obligations associated with the San Joaquin Valley pipeline system, which consists of the M55, M1 and M70 crude pipeline systems including pipeline stations with storage capacity and truck unloading capacity (the “Torrance Valley Pipeline”), was approximately \$192 as of June 30, 2018 (\$256 as of December 31, 2017). In accordance with the contribution agreement associated with the Partnership’s acquisition of a 50% equity interest in TVPC from PBF LLC (the “TVPC Acquisition”), PBF Holding has indemnified the Partnership for any and all costs associated with environmental remediation for obligations that existed on or before August 31, 2016, including all known or unknown events, which includes the recorded liability of approximately \$192. At June 30, 2018, the Partnership expects to make the full aggregate payment for this liability within the next five years. PBFX has recorded a receivable from PBF Holding in “Accounts receivable - affiliates” for such anticipated payments related to the known pre-existing Torrance Valley Pipeline environmental obligations for which PBFX is indemnified.

In connection with the purchase of the Toledo, Ohio refined products terminal assets from Sunoco Logistics Partners L.P. (“Sunoco”) by the Partnership’s wholly-owned subsidiary, PLPT, the Partnership did not assume and is currently not aware of any pre-existing environmental obligations. If pre-acquisition environmental obligations are identified, Sunoco is responsible for any liabilities up to \$2,000 identified to have occurred since 2002. For liabilities arising prior to 2002, Sunoco is indemnified by the prior owner under an agreement between Sunoco and the prior owner, and the Partnership is entitled to be reimbursed for all amounts paid related to such liabilities on a full pass-through basis.

In connection with the Knoxville Terminals Purchase, the Partnership did not assume, and is currently not aware of, any pre-existing environmental obligations. Additionally, the Partnership and Cummins purchased a ten-year, \$30,000 environmental insurance policy against unknown environmental liabilities. For items not covered by the insurance policy, Cummins remains responsible for pre-acquisition environmental obligations up to \$5,800.

10. RELATED PARTY TRANSACTIONS

Commercial Agreements

PBFX currently derives the majority of its revenue from long-term, fee-based, MVC agreements with PBF Holding, supported by contractual fee escalations for inflation adjustments and certain increases in operating costs. PBFX believes the terms and conditions under these agreements, as well as the Omnibus Agreement (as defined below) and

the Services Agreement (as defined below) each with PBF Holding, are generally no less favorable to either party than those that could have been negotiated with unaffiliated parties with respect to similar services.

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

See the 2017 Form 10-K for a more complete description of PBFX's commercial agreements with PBF Holding, including those identified as leases, that were entered into prior to 2018. The following are commercial agreements entered into between PBFX and PBF Holding during 2018:

Amended and Restated Rail Agreements - The Delaware City Rail Terminating Services Agreement and the Delaware West Ladder Rack Terminating Services Agreement between Delaware City Terminating Company LLC and PBF Holding were amended effective as of January 1, 2018 (collectively, the "Amended and Restated Rail Agreements") with the service fees thereunder being adjusted, including the addition of an ancillary fee paid by PBF Holding on an actual cost basis. In determining payments due under the Amended and Restated Rail Agreements, excess volumes throughput under the agreements shall apply against required payments in respect to the minimum throughput commitments on a quarterly basis and, to the extent not previously applied, on an annual basis against the MVCs.

Knoxville Terminals Agreement - In connection with the Knoxville Terminals Purchase, the Partnership and PBF Holding entered into a terminal throughput and storage agreement (the "Knoxville Terminals Agreement") wherein the Partnership, through its wholly-owned subsidiary, PLPT, provides PBF Holding with terminaling and storage services at the Knoxville Terminals. The initial term of the Knoxville Terminals Agreement is five years with automatic one-year renewals unless canceled by either party through written notice. Under the Knoxville Terminals Agreement, PBF Holding has a minimum volume commitment for storage and a minimum revenue commitment for throughput. The minimum throughput revenue commitment is \$894 for year one, \$1,788 for year two and \$2,683 for year three and thereafter. The minimum storage commitment is equal to the available shell capacity for the dedicated PBF Holding tanks. If PBF Holding does not throughput or store the aggregate amounts equal to the minimum throughput revenue or available shell capacity described above, PBF Holding will be required to pay a shortfall payment equal to the shortfall revenue or capacity. The throughput and storage services fees are subject to increase or decrease effective as of January 1 of each year, beginning on January 1, 2019, by the amount of any change in the Consumer Price Index, provided that the fee may not be adjusted below the initial amount. The storage commitment under the Knoxville Terminals Agreement is considered a lease.

Other Agreements

In addition to the commercial agreements described above, PBFX has entered into an omnibus agreement with PBF GP, PBF LLC and PBF Holding, which has been amended and restated in connection with certain of the Acquisitions from PBF (as amended, the "Omnibus Agreement"). The Omnibus Agreement addresses the payment of an annual fee for the provision of various general and administrative services and reimbursement of salary and benefit costs for certain PBF Energy employees.

Additionally, PBFX has entered into an operation and management services and secondment agreement with PBF Holding and certain of its subsidiaries (the "Services Agreement"), pursuant to which PBF Holding and its subsidiaries provide PBFX with the personnel necessary for the Partnership to perform its obligations under its commercial agreements. PBFX reimburses PBF Holding for the use of such employees and the provision of certain infrastructure-related services to the extent applicable to its operations, including storm water discharge and waste water treatment, steam, potable water, access to certain roads and grounds, sanitary sewer access, electrical power, emergency response, filter press, fuel gas, API solids treatment, fire water and compressed air. The Services Agreement will terminate upon the termination of the Omnibus Agreement, provided that the Partnership may terminate any service on 30-days' notice.

PBF LOGISTICS LP
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS, EXCEPT BARREL, UNIT AND PER UNIT DATA)

Summary of Transactions

A summary of revenue and expense transactions with the Partnership's affiliates, including expenses directly charged and allocated to the Partnership, is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Revenue	\$63,785	\$58,355	\$124,649	\$114,557
Operating and maintenance expenses	1,674	1,661	3,348	3,279
General and administrative expenses	1,737	1,630	3,437	3,284

11. SEGMENT INFORMATION

The Partnership's operations are consolidated into operating segments, which are strategic business units that offer different services in various geographical locations. PBFX has evaluated the performance of each operating segment based on its respective operating income. The operating segments adhere to the accounting policies used for the consolidated financial statements, as described in Note 2 "Summary of Accounting Policies" of the Notes to Consolidated Financial Statements in the 2017 Form 10-K.

The Partnership's operating segments are organized into two reportable segments, Transportation and Terminaling and Storage. Operations that are not included in either the Transportation and Terminaling or the Storage segments are included in Corporate.

The Partnership's Transportation and Terminaling segment consists of operating segments that include product terminals, pipelines, crude unloading facilities and other facilities capable of transporting and handling crude oil, refined products and natural gas. The Partnership's Storage segment consist of operating segments that include storage facilities capable of handling crude oil, refined products and intermediates.

Revenues are generated from third-party transactions as well as commercial agreements entered into with PBF Holding under which the Partnership receives fees for transportation, terminaling and storage of crude oil, refined products and natural gas. The Partnership does not have any foreign operations. Certain general and administrative expenses and interest and financing costs are included in Corporate as they are not directly attributable to a specific reporting segment. Identifiable assets are those used by the operating segment, whereas assets included in Corporate are principally cash, deposits and other assets that are not associated with operations specific to a reporting segment.

12. SUBSEQUENT EVENTS

Cash distribution

On August 2, 2018, PBF GP's board of directors announced a cash distribution, based on the results of the second quarter of 2018, of \$0.4950 per unit. The distribution is payable on August 30, 2018 to PBFX unitholders of record at the close of business on August 15, 2018.

East Coast Storage Assets Acquisition

On July 16, 2018, PBFX entered into an agreement with Crown Point International, LLC, formerly known as Axeon Specialty Products LLC, to purchase its wholly-owned subsidiary, CPI Operations LLC (the "East Coast Storage Assets Acquisition") for total consideration of \$107,000, which is comprised of an initial payment at closing of \$75,000 with the balance being payable one year after closing. The East Coast Storage Assets Acquisition is expected to close in the fourth quarter of 2018, subject to customary regulatory and other approvals.

Registered Direct Offering

On July 16, 2018, the Partnership entered into a common unit purchase agreement with certain funds managed by Tortoise Capital Advisors, L.L.C. providing for the issuance and sale in a registered direct offering (the "Registered Direct Offering") of an aggregate of 1,775,750 common units for gross proceeds of approximately \$35,000. The Registered Direct Offering closed on July 30, 2018.

Development Assets Acquisition

On July 16, 2018, PBFX entered into contribution agreements with subsidiaries of PBF LLC pursuant to which PBF Energy has agreed to contribute to PBFX certain of its subsidiaries (the "Development Assets Acquisition"), whose assets include the Toledo Rail Products Facility, an unloading and loading rail facility; the Chalmette Truck Rack, a truck loading rack facility; the Chalmette Rosin Yard, a rail yard facility; the Paulsboro Lube Oil Terminal, a lube oil terminal facility; and the Delaware Ethanol Storage Facility, an ethanol storage facility (collectively, the "Development Assets"). The Development Assets Acquisition closed on July 31, 2018 for total consideration of \$31,586 consisting of 1,494,134 common units of PBFX issued to PBF LLC.

A&R Revolving Credit Facility

On July 30, 2018, PBFX amended and restated its Revolving Credit Facility dated May 14, 2014. Among other things, the A&R Revolving Credit Facility increases the maximum commitment available to PBFX from \$360,000 to \$500,000 and extends the maturity date to July 2023. The commitment fees on the unused portion, the interest rate on advances and the fees for letters of credit are consistent with the Revolving Credit Facility. The A&R Revolving Credit Facility contains representations, warranties and covenants by PBFX, as well as customary events of default

and indemnification obligations that are consistent with, or more favorable to PBFX, than those in the Revolving Credit Facility.

13. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS OF PBF LOGISTICS

DCLC, Delaware Pipeline Company LLC, Delaware City Terminating Company LLC, Toledo Terminating Company LLC, PLPT, PBFX Op Co, TVPC and PNGPC serve as guarantors of the obligations under the 2023 Notes. These guarantees are full and unconditional and joint and several. For purposes of the following footnote, the Partnership is referred to as “Issuer.” The indenture dated May 12, 2015, among the Partnership, PBF Logistics Finance Corporation (“PBF Logistics Finance”), the guarantors party thereto and Deutsche Bank Trust Company Americas, as Trustee, governs subsidiaries designated as “Guarantor Subsidiaries.” In addition, PBF LLC provides a limited guarantee of collection of the principal amount of the 2023 Notes, but is not otherwise subject to the covenants of the Indenture. Refer to PBF LLC’s condensed consolidated interim financial statements, which are included in its Quarterly Report on Form 10-Q.

The 2023 Notes were co-issued by PBF Logistics Finance. For purposes of the following footnote, PBF Logistics Finance is referred to as “Co-Issuer.” The Co-Issuer has no independent assets or operations.

The following supplemental combining and condensed consolidating financial information reflects the Issuer’s separate accounts, the combined accounts of the Guarantor Subsidiaries, the combining and consolidating adjustments and eliminations and the Issuer’s consolidated accounts for the dates and periods indicated. For purposes of the following combining and consolidating information, the Issuer’s investment in its subsidiaries and the Guarantor Subsidiaries’ investment in its subsidiaries are accounted for under the equity method of accounting.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with the unaudited condensed consolidated financial statements and the notes thereto included elsewhere in this Form 10-Q. The following information and such unaudited condensed consolidated financial statements should also be read in conjunction with the audited consolidated financial statements and related notes, together with our discussion and analysis of financial condition and results of operations in our 2017 Form 10-K. This discussion contains forward-looking statements that are based on management's current expectations, estimates and projections about our business and operations. The cautionary statements made in this report should be read as applying to all related forward-looking statements wherever they appear in this Form 10-Q. Our actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors. You should read "Risk Factors" in our 2017 Form 10-K and "Cautionary Note Regarding Forward-Looking Statements" in this Form 10-Q. In this Item 2, all references to "we," "us," "our," the "Partnership," "PBFX" or similar terms for periods prior to the Acquisitions from PBF (as defined below) prior to the effective date of each acquisition refer to the Predecessor. For periods subsequent to the effective dates of each of the Acquisitions from PBF, these terms refer to the Partnership and its subsidiaries.

Overview

PBFX is a fee-based, growth-oriented, Delaware master limited partnership formed in February 2013 by subsidiaries of PBF Energy to own or lease, operate, develop and acquire crude oil and refined petroleum products terminals, pipelines, storage facilities and similar logistics assets. PBF GP is our general partner and is wholly-owned by PBF LLC. PBF Energy is the sole managing member of PBF LLC and, as of June 30, 2018, owned 99.0% of the total economic interest in PBF LLC. PBF LLC owns 18,459,497 of PBFX's common units constituting an aggregate 43.9% limited partner interest in PBFX and owns all of PBFX's IDR's, with the remaining 56.1% limited partner interest owned by public unitholders.

The Partnership includes the assets, liabilities and results of operations of certain crude oil, refined products, natural gas and intermediates transportation, terminaling and storage assets, which include assets previously operated and owned by certain of PBF Holding's currently and previously held subsidiaries, which were acquired in a series of acquisitions from 2014 through 2018.

2018 Business Developments

Knoxville Terminals Purchase

On April 16, 2018, our wholly-owned subsidiary, PBF Logistics Products Terminals LLC ("PLPT"), completed the purchase of two refined product terminals located in Knoxville, Tennessee, which include product tanks with a total shell capacity of approximately 0.5 million barrels, pipeline connections to the Colonial and Plantation pipeline systems and two truck loading facilities with nine loading bays (the "Knoxville Terminals") from Cummins Terminals, Inc. ("Cummins") for total cash consideration of approximately \$58.0 million, excluding working capital adjustments (the "Knoxville Terminals Purchase"). The transaction was financed through a combination of cash on hand and borrowings under our five-year \$360.0 million revolving credit facility ("Revolving Credit Facility").

East Coast Storage Assets Acquisition

On July 16, 2018, we entered into an agreement with Crown Point International, LLC, formerly known as Axeon Specialty Products LLC, to purchase its wholly-owned subsidiary, CPI Operations LLC (the "East Coast Storage Assets Acquisition") for total consideration of \$107.0 million, which is comprised of an initial payment at closing of \$75.0 million with the balance being payable one year after closing. The East Coast Storage Assets Acquisition is

expected to close in the fourth quarter of 2018, subject to customary regulatory and other approvals.

Registered Direct Offering

On July 16, 2018, we entered into a common unit purchase agreement with certain funds managed by Tortoise Capital Advisors, L.L.C. providing for the issuance and sale in a registered direct offering (the “Registered Direct Offering”) of an aggregate of 1,775,750 common units for gross proceeds of approximately \$35.0 million. The Registered Direct Offering closed on July 30, 2018.

Development Assets Acquisition

On July 16, 2018, we entered into contribution agreements with subsidiaries of PBF LLC pursuant to which PBF Energy has agreed to contribute to us certain of its subsidiaries (the “Development Assets Acquisition”), whose assets include the Toledo Rail Products Facility, an unloading and loading rail facility; the Chalmette Truck Rack, a truck loading rack facility; the Chalmette Rosin Yard, a rail yard facility; the Paulsboro Lube Oil Terminal, a lube oil terminal facility; and the Delaware Ethanol Storage Facility, an ethanol storage facility (collectively, the “Development Assets”). The Development Assets Acquisition closed on July 31, 2018 for total consideration of \$31.6 million consisting of 1,494,134 common units of PBFX issued to PBF LLC.

A&R Revolving Credit Facility

On July 30, 2018, we amended and restated our Revolving Credit Facility dated May 14, 2014 (the “A&R Revolving Credit Facility”). Among other things, the A&R Revolving Credit Facility increases the maximum commitment available to us from \$360.0 million to \$500.0 million and extends the maturity date to July 2023. The commitment fees on the unused portion, the interest rate on advances and the fees for letters of credit are consistent with the Revolving Credit Facility. The A&R Revolving Credit Facility contains representations, warranties and covenants by us, as well as customary events of default and indemnification obligations that are consistent with, or more favorable to us, than those in the Revolving Credit Facility.

Principles of Combination and Consolidation and Basis of Presentation

Our Predecessor generally did not historically operate its assets for the purpose of generating revenues independent of other PBF Energy businesses. In connection with, and subsequent to, our initial public offering (“IPO”), we have acquired certain assets from PBF LLC (collectively referred to as the “Contributed Assets”). The acquisitions completed subsequent to the IPO were made through a series of drop-down transactions with PBF LLC (collectively referred to as the “Acquisitions from PBF”). Upon the closing of our IPO and the Acquisitions from PBF, we entered into commercial and service agreements with subsidiaries of PBF Energy under which we operate our assets for the purpose of generating fee-based revenues. We receive, handle and transfer crude oil, refined products and natural gas from sources located throughout the United States and Canada and store crude oil, refined products and intermediates for PBF Energy in support of its refineries. In addition, we generate third-party revenue from certain of our assets, including the Knoxville Terminals subsequent to our acquisition in April 2018.

Agreements with PBF Energy

Commercial Agreements

We currently derive the majority of our revenue from long-term, fee-based, minimum volume commitment (“MVC”) agreements with PBF Holding, supported by contractual fee escalations for inflation adjustments and certain increases in operating costs. We believe the terms and conditions under these agreements, as well as the Omnibus Agreement (as defined below) and the Services Agreement (as defined below) each with PBF Holding, are generally no less favorable to either party than those that could have been negotiated with unaffiliated parties with respect to similar services.

See the 2017 Form 10-K for a more complete description of our commercial agreements with PBF Holding, including those identified as leases. The following are commercial agreements we entered into with PBF Holding during 2018:

Amended and Restated Rail Agreements - The Delaware City Rail Terminaling Services Agreement and the Delaware West Ladder Rack Terminaling Services Agreement between Delaware City Terminaling Company LLC and PBF Holding were amended effective as of January 1, 2018 (collectively, the “Amended and Restated Rail Agreements”) with the service fees thereunder being adjusted, including the addition of an ancillary fee paid by PBF Holding on an actual cost basis. In determining payments due under the Amended and Restated Rail Agreements, excess volumes throughput under the agreements shall apply against required payments in respect to the minimum throughput commitments on a quarterly basis and, to the extent not previously applied, on an annual basis against the MVCs. As a result of these amendments, in the future, we expect to avoid earnings volatility associated with escalating costs. Additionally, the amendments should more closely align PBF Holding and us in terms of optimizing the utilization of the Delaware City rail unloading assets.

Knoxville Terminals Agreement - In connection with the Knoxville Terminals Purchase, we entered into a terminal throughput and storage agreement with PBF Holding (the “Knoxville Terminals Agreement”) wherein we, through the our wholly-owned subsidiary, PLPT, provide PBF Holding with terminaling and storage services at the Knoxville Terminals. The initial term of the Knoxville Terminals Agreement is five years with automatic one-year renewals unless canceled by either party through written notice. Under the Knoxville Terminals Agreement, PBF Holding has a minimum volume commitment for storage and a minimum revenue commitment for throughput. The minimum throughput revenue commitment is \$0.9 million for year one, \$1.8 million for year two and \$2.7 million for year three and thereafter. The minimum storage commitment is equal to the available shell capacity for the dedicated PBF Holding tanks. If PBF Holding does not throughput or store the aggregate amounts equal to the minimum throughput revenue or available shell capacity described above, PBF Holding will be required to pay a shortfall payment equal to the shortfall revenue or capacity. The throughput and storage services fees are subject to increase or decrease effective as of January 1 of each year, beginning on January 1, 2019, by the amount of any change in the Consumer Price Index, provided that the fee may not be adjusted below the initial amount. The storage commitment under the Knoxville Terminals Agreement is considered a lease.

Other Agreements

In addition to the commercial agreements described above, we have entered into an omnibus agreement with PBF GP, PBF LLC and PBF Holding, which has been amended and restated in connection with certain of the Acquisitions from PBF (as amended, the “Omnibus Agreement”). The Omnibus Agreement addresses the payment of an annual fee for the provision of various general and administrative services and reimbursement of salary and benefit costs for certain PBF Energy employees.

Additionally, we have entered into an operation and management services and secondment agreement with PBF Holding and certain of its subsidiaries, which has been amended and restated in connection with certain of the Acquisitions from PBF (as amended, the “Services Agreement”). Pursuant to the Services Agreement, PBF Holding and its subsidiaries provide us with the personnel necessary for us to perform our obligations under our commercial agreements. We reimburse PBF Holding for the use of such employees and the provision of certain infrastructure-related services to the extent applicable to its operations, including storm water discharge and waste water treatment, steam, potable water, access to certain roads and grounds, sanitary sewer access, electrical power, emergency response, filter press, fuel gas, API solids treatment, fire water and compressed air. The Services Agreement will terminate upon the termination of the Omnibus Agreement, provided that we may terminate any service on 30 days’ notice.

Factors Affecting the Comparability of Our Financial Results

Our results of operations may not be comparable to our historical results of operations for the reasons described below:

Revenue. Our reported logistics assets revenues are fee-based and a majority are subject to contractual MVCs. These fees are indexed for inflation in accordance with either the Federal Energy Regulatory Commission indexing methodology, the U.S. Producer Price Index or the U.S. Consumer Price Index for All Urban Consumers.

Revenues reported by us prior to the acquisition of Paulsboro Natural Gas Pipeline Company LLC (“PNGPC”) in February 2017 did not include revenue under the services agreement associated with the new 24” interstate natural gas pipeline we built to replace the existing PNGPC pipeline servicing PBF Holding’s Paulsboro Refinery (the “Paulsboro Natural Gas Pipeline”), which commenced in August 2017 (the “Paulsboro Natural Gas Pipeline Services Agreement”).

In addition, the Amended and Restated Rail Agreements, which effectively combine the MVCs associated with our Delaware City rail unloading assets with a blended throughput rate and a directly billed ancillary fee, were executed effective as of January 1, 2018.

Financing. Historically, we have financed our operations through proceeds generated by equity offerings, internally generated cash flows, and borrowings under our Revolving Credit Facility to satisfy capital expenditure requirements. During March 2017, we fully repaid the remaining outstanding balance of our three-year \$300.0 million term loan facility with Wells Fargo Bank, National Association, as administrative agent, and a syndicate of lenders (the “Term Loan”). On October 6, 2017, we issued \$175.0 million in aggregate principal amount of 6.875% Senior Notes due 2023 (the “new 2023 Notes,” and along with the \$350.0 million in aggregate principal amount of 6.875% Senior Notes due 2023 issued in May 2015, the “2023 Notes”). During the six months ended June 30, 2018, we had net borrowings of \$54.3 million to fund the Knoxville Terminals Purchase and other capital expenditures and working capital requirements.

Toledo Products Terminal Acquisition. On April 17, 2017, our wholly-owned subsidiary, PLPT, acquired the Toledo, Ohio refined products terminal assets (the “Toledo Products Terminal”) from Sunoco Logistics Partners L.P. (the “Toledo Products Terminal Acquisition”). As a result, our results may not be comparable due to additional affiliate revenue, operating and maintenance expenses and general and administrative expenses associated with the Toledo Products Terminal.

Chalmette Storage Tank. On November 1, 2017, we, through our wholly-owned subsidiary, PBFX Operating Company LLC (“PBFX Op Co”), began providing storage services to PBF Holding in November 2017 at PBF Holding’s Chalmette Refinery (the “Chalmette Storage Tank”) under a ten-year storage service agreement (the “Chalmette Storage Agreement”).

Knoxville Terminals Purchase. On April 16, 2018, we, through our wholly-owned subsidiary, PLPT, acquired the Knoxville Terminals from Cummins and subsequently entered into the Knoxville Terminals Agreement. As a result, our results may not be comparable due to additional revenue, operating and maintenance expenses and general and administrative expenses associated with the Knoxville Terminals.

Other Factors That Will Significantly Affect Our Results

Supply and Demand for Crude Oil, Refined Products and Natural Gas. We generate revenue by charging fees for receiving, handling, transferring, storing and throughputting crude oil, refined products and natural gas. The majority of our revenues are derived from fee-based commercial agreements with subsidiaries of PBF Energy with initial terms ranging from approximately seven to ten years and including MVCs, which enhance the stability of our cash flows.

The volume of crude oil, refined products and natural gas that is throughput or stored depends

42

substantially on PBF Energy's refining margins. Refining margins are dependent mostly upon the price of crude oil or other refinery feedstocks and the price of refined products.

Factors driving the prices of petroleum-based commodities include supply and demand in crude oil, gasoline and other refined products. Supply and demand for these products depend on numerous factors outside of our control, including changes in domestic and foreign economies, weather conditions, domestic and foreign political affairs, production levels, logistics constraints, availability of imports, marketing of competitive fuels, crude oil price differentials and government regulation. Please read "Risk Factors" included in "Item 1A." of our 2017 Form 10-K.

Acquisition and Organic Growth Opportunities. We may acquire additional logistics assets from PBF Energy or third parties. Under our Omnibus Agreement, subject to certain exceptions, we have a right of first offer on certain logistics assets owned by PBF Energy to the extent PBF Energy decides to sell, transfer or otherwise dispose of any of those assets. We also have a right of first offer to acquire additional logistics assets that PBF Energy may construct or acquire in the future. Our commercial agreements provide us with options to purchase certain assets at PBF Holding's refineries related to our business in the event PBF Energy permanently shuts down PBF Holding's refineries. In addition, our commercial agreements provide us with the right to use certain assets at PBF Holding's refineries in the event of a temporary shutdown. Furthermore, we may pursue strategic asset acquisitions from third parties or organic growth projects to the extent such acquisitions or projects complement our or PBF Energy's existing asset base or provide attractive potential returns. We believe that we are well-positioned to acquire logistics assets from PBF Energy and third parties should such opportunities arise, and identifying and executing acquisitions and organic growth projects is a key part of our strategy. However, if we do not complete acquisitions or organic growth projects on economically acceptable terms, our future growth will be limited, and the acquisitions or projects we do complete may reduce, rather than increase, our cash available for distribution. These acquisitions and organic growth projects could also affect the comparability of our results from period to period. We expect to fund future growth capital expenditures primarily from a combination of cash-on-hand, borrowings under our Revolving Credit Facility and the issuance of additional equity or debt securities. To the extent we issue additional units to fund future acquisitions or expansion capital expenditures, the payments of distributions on those additional units may increase the risk that we will be unable to maintain or increase our per unit distribution level.

Third-Party Business. As of June 30, 2018, PBF Holding accounts for the substantial majority of our revenues and we continue to expect the majority of our revenue for the foreseeable future will be derived from operations supporting PBF Energy's refineries. We are examining further diversification of our customer base by potentially developing additional third-party throughput volumes in our existing system and continuing to expand our asset portfolio to service third-party customers. Unless we are successful in attracting additional third-party customers, our ability to increase volumes will be dependent on PBF Holding, which has no obligation under our commercial agreements to supply our facilities with additional volumes in excess of its MVCs. If we are unable to increase throughput or storage volumes, future growth may be limited.

Noncontrolling Interest. As a result of PBFX Op Co's acquisition from PBF LLC of 50% of the issued and outstanding limited liability company interests of Torrance Valley Pipeline Company LLC ("TVPC") (the "TVPC Acquisition"), PBFX Op Co became the managing member of TVPC and fully consolidates TVPC. With respect to the consolidation of TVPC, we record a noncontrolling interest for the remaining 50% economic interest in TVPC held by TVP Holding Company LLC ("TVP Holding"). Noncontrolling interest on the condensed consolidated statements of operations includes the portion of net income or loss attributable to the economic interest in TVPC held by TVP Holding. Noncontrolling interest on the condensed consolidated balance sheets includes the portion of net assets of TVPC attributable to TVP Holding.

How We Evaluate Our Operations

Our management uses a variety of financial and operating metrics to analyze our business and segment performance. These metrics are significant factors in assessing our operating results and profitability and include

but are not limited to volumes, including terminal and pipeline throughput and storage capacity; operating and maintenance expenses; and EBITDA, EBITDA attributable to PBFX and distributable cash flow. We define EBITDA, EBITDA attributable to PBFX and distributable cash flow below.

Volumes. The amount of revenue we generate primarily depends on the volumes of crude oil, refined products and natural gas that we throughput at our terminaling and pipeline operations and our available storage capacity. These volumes are primarily affected by the supply of and demand for crude oil and refined products in the markets served directly or indirectly by our assets. Although PBF Energy has committed to minimum volumes under the commercial agreements described above, our results of operations will be impacted by:

- PBF Energy's utilization of our assets in excess of the MVCs;
- our ability to identify and execute accretive acquisitions and organic expansion projects, and capture PBF Energy's incremental volumes or third-party volumes; and
- our ability to increase throughput volumes at our facilities and provide additional ancillary services at those terminals and pipelines.

Operating and Maintenance Expenses. Our management seeks to maximize the profitability of our operations by effectively managing operating and maintenance expenses. These expenses are comprised primarily of labor expenses, outside contractor expenses, utility costs, insurance premiums, repairs and maintenance expenses and related property taxes. These expenses generally remain relatively stable across broad ranges of throughput volumes but can fluctuate from period to period depending on the mix of activities performed during that period and the timing of these expenses. We will seek to manage our maintenance expenditures on our assets by scheduling maintenance over time to avoid significant variability in our maintenance expenditures and to minimize their impact on our cash flow.

EBITDA, EBITDA attributable to PBFX and Distributable Cash Flow. We define EBITDA as net income (loss) before net interest expense, income tax expense, depreciation and amortization expense. We define EBITDA attributable to PBFX as net income (loss) attributable to PBFX before net interest expense, income tax expense, depreciation and amortization expense attributable to PBFX, which excludes the results of Acquisitions from PBF prior to the effective dates of such transactions. We define distributable cash flow as EBITDA attributable to PBFX plus non-cash unit-based compensation expense, less net cash paid for interest, maintenance capital expenditures and income taxes. Distributable cash flow will not reflect changes in working capital balances. EBITDA, EBITDA attributable to PBFX and distributable cash flow are not presentations made in accordance with U.S. generally accepted accounting principles ("GAAP").

EBITDA, EBITDA attributable to PBFX and distributable cash flow are non-GAAP supplemental financial measures that management and external users of our consolidated financial statements, such as industry analysts, investors, lenders and rating agencies, may use to assess:

- our operating performance as compared to other publicly traded partnerships in the midstream energy industry, without regard to historical cost basis or, in the case of EBITDA, financing methods;
- the ability of our assets to generate sufficient cash flow to make distributions to our unitholders;
- our ability to incur and service debt and fund capital expenditures; and
- the viability of acquisitions and other capital expenditure projects and the returns on investment of various investment opportunities.

We believe that the presentation of EBITDA and EBITDA attributable to PBFX provides useful information to investors in assessing our financial condition and results of operations. We believe that the presentation of distributable cash flow provides useful information to investors as it is a widely accepted financial indicator used by investors to compare partnership performance and provides investors with another perspective of the operating

performance of our assets and the cash our business is generating. EBITDA, EBITDA attributable to PBFX and distributable cash flow should not be considered alternatives to net income, operating income, cash from operations or any other measure of financial performance or liquidity presented in accordance with GAAP. EBITDA, EBITDA attributable to PBFX and distributable cash flow have important limitations as analytical tools because they exclude some but not all items that affect net income and net cash provided by operating activities. Additionally, because EBITDA, EBITDA attributable to PBFX and distributable cash flow may be defined differently by other companies in our industry, our definition of such matters may not be comparable to similarly titled measures of other companies, thereby diminishing their utility. EBITDA, EBITDA attributable to PBFX and distributable cash flow are reconciled to net income and net cash provided by operating activities in “—Results of Operations” below.

Results of Operations

A discussion and analysis of the factors contributing to our results of operations is presented below. The financial statements, together with the following information, are intended to provide investors with a reasonable basis for assessing our historical operations, but should not serve as the only criteria for predicting our future performance.

Combined Overview. The following tables summarize our results of operations and financial data for the three and six months ended June 30, 2018 and 2017. The following data should be read in conjunction with our Condensed Consolidated Financial Statements and the Notes thereto included in “Item 1. Financial Statements.”

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
	2018	2017	2018	2017
	(In thousands)			
Revenue:

Reconciliation of Non-GAAP Financial Measures

As described in “How We Evaluate Our Operations,” our management uses EBITDA, EBITDA attributable to PBFX and distributable cash flow to analyze our performance. The following table presents a reconciliation of EBITDA, EBITDA attributable to PBFX and distributable cash flow to net income, the most directly comparable GAAP financial measure of operating performance on a historical basis, for the periods indicated.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
	(In thousands)			
Net income	\$24,455	\$27,131	\$49,712	\$55,188

Depreciation and amortization related to noncontrolling interest*	1,366	1,355	2,727	2,719
Noncontrolling interest EBITDA	\$5,729	\$5,175	\$11,112	\$10,138

* Represents 50% of depreciation and amortization for TVPC for the three and six months ended June 30, 2018 and 2017.

Three Months Ended June 30, 2018 Compared to the Three Months Ended June 30, 2017

Summary. Our net income for the three months ended June 30, 2018 decreased approximately \$2.7 million to \$24.5 million from \$27.1 million for the three months ended June 30, 2017. The decrease in net income was primarily due to the following:

- an increase in operating and maintenance expenses of approximately \$3.6 million, or 23.3%, as a result of increased utilities expenses within our Transportation and Terminaling segment, higher insurance and regulatory expenses and expenses related to the Knoxville Terminals subsequent to the Knoxville Terminals Purchase;

- an increase in general and administrative expenses of approximately \$0.4 million, or 6.4%, as a result of higher acquisition related costs and higher outside services expenses, partially offset by lower unit-based compensation expense;

- an increase in depreciation and amortization expenses of approximately \$1.2 million, or 21.2%, related to the timing of acquisitions and new assets being placed in service;

- an increase in interest expense, net of approximately \$2.5 million, or 33.6%, attributable to the interest costs associated with the new 2023 Notes, partially offset by lower borrowings under our Revolving Credit Facility; partially offset by the following:

- an increase in total revenue of approximately \$5.1 million, or 8.1%, primarily attributable to operations of recently acquired or constructed assets and inflation rate adjustments implemented in accordance with certain of our commercial agreements (the "Inflation Rate Increase"), partially offset by decreases in throughput fees resulting from the Amended and Restated Rail Agreements.

EBITDA attributable to PBFX for the three months ended June 30, 2018 increased approximately \$0.5 million to \$36.1 million from \$35.6 million for the three months ended June 30, 2017 due to the factors noted above, excluding the impact of depreciation, interest and noncontrolling interest.

Six Months Ended June 30, 2018 Compared to the Six Months Ended June 30, 2017

Summary. Our net income for the six months ended June 30, 2018 decreased approximately \$5.5 million to \$49.7 million from \$55.2 million for the six months ended June 30, 2017. The decrease in net income was primarily due to the following:

- an increase in operating and maintenance expenses of approximately \$5.9 million, or 18.8%, as a result of increased utilities expenses within our Transportation and Terminaling segment, higher maintenance

and materials expenses and expenses related to operations of recently acquired or constructed assets, partially offset by a decrease in outside services costs;

an increase in general and administrative expenses of approximately \$1.4 million, or 14.5%, as a result of higher acquisition related costs and higher outside services expenses, partially offset by lower unit-based compensation expense;

an increase in depreciation and amortization expenses of approximately \$2.4 million, or 21.3%, related to the timing of acquisitions and new assets being placed in service;

an increase in interest expense, net of approximately \$4.5 million, or 30.1%, attributable to the interest costs associated with the new 2023 Notes, partially offset by lower borrowings under our Revolving Credit Facility; partially offset by the following:

an increase in total revenue of approximately \$8.6 million, or 7.0%, primarily attributable to operations of recently acquired or constructed assets and the Inflation Rate Increase, partially offset by decreases in throughput fees resulting from the Amended and Restated Rail Agreements.

EBITDA attributable to PBFX for the six months ended June 30, 2018 increased approximately \$0.4 million to \$72.4 million from \$72.0 million for the six months ended June 30, 2017 due to the factors noted above, excluding the impact of depreciation, interest and noncontrolling interest.

Segment Information

Our operations are consolidated into operating segments, which are strategic business units that offer different services in various geographical locations. We review operating segments in two reportable segments: (i) Transportation and Terminaling; and (ii) Storage. Decisions concerning the allocation of resources and assessment of operating performance are made based on this segmentation. Management measures the operating performance of each of its reportable segments based on the segment operating income. Segment operating income is defined as net revenue less operating expenses and depreciation and amortization. General and administrative expenses and interest expenses not included in the Transportation and Terminaling and Storage segments are included in Corporate. Segment reporting is further discussed in Note 11 "Segment Information" in our Notes to Condensed Consolidated Financial Statements included in "Item 1. Financial Statements."

Transportation and Terminaling Segment

The following table and discussion is an explanation of our results of operations of the Transportation and Terminaling segment for the three and six months ended June 30, 2018 and 2017:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
	(In thousands)			
Revenue:				
Affiliate	\$56,819	\$52,629	\$110,614	\$103,293
Third-Party	3,613	3,974	6,788	8,249
Total revenue	60,432	56,603	117,402	111,542
Costs and expenses:				
Operating and maintenance expenses	17,120	13,725	33,015	27,807
Depreciation and amortization	5,994	5,090	11,564	9,841
Total costs and expenses	23,114	18,815	44,579	37,648
Transportation and Terminaling Segment Operating Income	\$37,318	\$37,788	\$72,823	\$73,894

Key Operating Information

Transportation and Terminaling Segment

Terminals

Total throughput (barrels per day) ⁽¹⁾	268,430	223,639	255,973	209,618
Lease tank capacity (average lease capacity barrels per month)	1,589,784	1,374,420	1,869,693	2,250,314

Pipelines

Total throughput (barrels per day) ⁽¹⁾	166,900	121,532	159,868	133,694
Lease tank capacity (average lease capacity barrels per month)	1,574,740	1,505,597	1,555,930	1,060,197

(1) Calculated as the sum of the average throughput per day for each asset group for the period presented.

Three Months Ended June 30, 2018 Compared to the Three Months Ended June 30, 2017

Revenue. Revenue increased approximately \$3.8 million, or 6.8%, to \$60.4 million for the three months ended June 30, 2018 compared to \$56.6 million for the three months ended June 30, 2017. The increase in revenue was primarily attributable to operations of recently acquired or constructed assets, increased throughput in excess of MVC levels at certain of our assets and the Inflation Rate Increase, partially offset by decreases in throughput fees resulting from the Amended and Restated Rail Agreements.

Operating and maintenance expenses. Operating and maintenance expenses increased approximately \$3.4 million, or 24.7%, to \$17.1 million for the three months ended June 30, 2018 compared to \$13.7 million for the three months ended June 30, 2017. The increase in operating and maintenance expenses was primarily attributable to operations of recently acquired or constructed assets, higher utilities expenses related to increased throughput volumes on our pipeline assets and higher insurance and regulatory costs.

Depreciation and amortization. Depreciation and amortization expense increased approximately \$0.9 million, or 17.8%, to \$6.0 million for the three months ended June 30, 2018 compared to \$5.1 million for the three months ended June 30, 2017. The increase in depreciation and amortization expense was primarily attributable to

the timing of the Toledo Products Terminal Acquisition and the Knoxville Terminals Purchase, as well as new assets being placed in service including the Paulsboro Natural Gas Pipeline.

Six Months Ended June 30, 2018 Compared to the Six Months Ended June 30, 2017

Revenue. Revenue increased approximately \$5.9 million, or 5.3%, to \$117.4 million for the six months ended June 30, 2018 compared to \$111.5 million for the six months ended June 30, 2017. The increase in revenue was primarily attributable to operations of recently acquired or constructed assets, increased throughput in excess of MVC levels at certain of our assets and the Inflation Rate Increase, partially offset by decreases in throughput fees resulting from the Amended and Restated Rail Agreements.

Operating and maintenance expenses. Operating and maintenance expenses increased approximately \$5.2 million, or 18.7%, to \$33.0 million for the six months ended June 30, 2018 compared to \$27.8 million for the six months ended June 30, 2017. The increase in operating and maintenance expenses was primarily attributable to operations of recently acquired or constructed assets, higher utilities expenses related to increased throughput volumes on our pipeline assets, higher insurance and regulatory costs and higher maintenance and materials expenses, partially offset by a decrease in outside services costs.

Depreciation and amortization. Depreciation and amortization expense increased approximately \$1.7 million, or 17.5%, to \$11.6 million for the six months ended June 30, 2018 compared to \$9.8 million for the six months ended June 30, 2017. The increase in depreciation and amortization expense was primarily attributable to the timing of the Toledo Products Terminal Acquisition and the Knoxville Terminals Purchase, as well as new assets being placed in service including the Paulsboro Natural Gas Pipeline.

Storage Segment

The following table and discussion is an explanation of our results of operations of the Storage segment for the three and six months ended June 30, 2018 and 2017:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	2018	2017	2018	2017
	(In thousands)			
Revenue:				
Affiliate	\$6,966	\$ 5,726	\$14,035	\$11,264
Third-Party	—	—	—	—
Total revenue	6,966	5,726	14,035	11,264
Costs and expenses:				
Operating and maintenance expenses	1,991	1,779	4,144	3,466
Depreciation and amortization	925	620	1,850	1,221
Total costs and expenses	2,916	2,399	5,994	4,687
Storage Segment Operating Income	\$4,050	\$ 3,327	\$8,041	\$ 6,577

Key Operating Information

Storage Segment

Storage capacity reserved (average shell capacity barrels per month) ⁽¹⁾ 4,412,673,787,736 4,445,714,739,838

(1) Storage capacity is based on tanks in service and average shell capacity available during the period.

Three Months Ended June 30, 2018 Compared to the Three Months Ended June 30, 2017

Revenue. Revenue increased approximately \$1.2 million, or 21.7%, to \$7.0 million for the three months ended June 30, 2018 compared to \$5.7 million for the three months ended June 30, 2017. The increase in revenue was primarily attributable to the Chalmette Storage Agreement commencing in November 2017, higher available storage capacity and the Inflation Rate Increase.

Operating and maintenance expenses. Operating and maintenance expenses increased approximately \$0.2 million, or 11.9%, to \$2.0 million for the three months ended June 30, 2018 compared to \$1.8 million for the three months ended June 30, 2017. The increase in operating and maintenance expenses was primarily attributable to higher outside services costs, as well as expenses associated with the Chalmette Storage Tank.

Depreciation and amortization. Depreciation and amortization expense increased approximately \$0.3 million, or 49.2%, to \$0.9 million for the three months ended June 30, 2018 compared to \$0.6 million for the three months ended June 30, 2017. The increase in depreciation and amortization expense was primarily attributable to the Chalmette Storage Tank commencing service in November 2017.

Six Months Ended June 30, 2018 Compared to the Six Months Ended June 30, 2017

Revenue. Revenue increased approximately \$2.8 million, or 24.6%, to \$14.0 million for the six months ended June 30, 2018 compared to \$11.3 million for the six months ended June 30, 2017. The increase in revenue was primarily attributable to the Chalmette Storage Agreement commencing in November 2017, higher available storage capacity and the Inflation Rate Increase.

Operating and maintenance expenses. Operating and maintenance expenses increased approximately \$0.7 million, or 19.6%, to \$4.1 million for the six months ended June 30, 2018 compared to \$3.5 million for the six months ended June 30, 2017. The increase in operating and maintenance expenses was primarily attributable to higher maintenance activity and higher outside services costs, as well as expenses associated with the Chalmette Storage Tank.

Depreciation and amortization. Depreciation and amortization expense increased approximately \$0.6 million, or 51.5%, to \$1.9 million for the six months ended June 30, 2018 compared to \$1.2 million for the six months ended June 30, 2017. The increase in depreciation and amortization expense was primarily attributable to the Chalmette Storage Tank commencing service in November 2017.

Liquidity and Capital Resources

We expect our ongoing sources of liquidity to include cash generated from operations, reimbursement by PBF Energy for certain capital expenditures, borrowings under our A&R Revolving Credit Facility, and issuances of additional debt and equity securities. We believe that cash generated from these sources will be sufficient to meet our short-term working capital requirements, long-term capital expenditure requirements and minimum quarterly cash distributions.

We have paid, and intend to continue to pay, a quarterly distribution of at least \$0.30 per unit per quarter, or \$1.20 per unit on an annualized basis, which equates to approximately \$12.8 million per quarter, or approximately \$51.2 million per year, based on the number of common units and associated IDRs outstanding as of June 30, 2018. We do not have a legal obligation to pay this distribution.

During the six months ended June 30, 2018, we made cash distribution payments as follows (in thousands except per unit data):

Related Earnings Period:	Q4 2017	Q1 2018
Distribution date	March 14, 2018	May 30, 2018
Record date	February 28, 2018	May 15, 2018
Per unit	\$0.4850	\$0.4900
To public common unitholders	\$ 11,369	\$ 11,553
To PBF LLC	11,689	12,000
Total distribution	\$ 23,058	\$ 23,553

Credit Facilities

The Revolving Credit Facility is available to fund working capital, acquisitions, distributions and capital expenditures and for other general partnership purposes. The maximum availability under the Revolving Credit Facility is \$360.0 million. Obligations under the Revolving Credit Facility are guaranteed by its restricted subsidiaries, and are secured by a first priority lien on the Partnership's assets and those of the Partnership's restricted subsidiaries other than excluded assets and a guaranty of collection from PBF LLC. See Note 6 "Debt" in our Notes to Condensed Consolidated Financial Statements included in "Item 1. Financial Statements" for further information regarding the Revolving Credit Facility. We are in compliance with our covenants under the Revolving Credit Facility as of June 30, 2018.

On July 30, 2018, we entered into the A&R Revolving Credit Facility, which increased the maximum commitment available to us from \$360.0 million to \$500.0 million and extended the maturity date to July 2023. The Partnership has the ability to further increase the maximum availability by an additional \$250.0 million, to a total facility size of \$750.0 million, subject to receiving increased commitments from lenders or other financial institutions and satisfaction of certain conditions.

During the six months ended June 30, 2018, we utilized our Revolving Credit Facility to fund the Knoxville Terminals Purchase and other capital expenditures and working capital requirements.

Our 2023 Notes have an aggregate principal amount of \$525.0 million with interest payable semi-annually on May 15 and November 15. The 2023 Notes mature on May 15, 2023. The 2023 Notes contain customary terms, events of default and covenants for an issuer of non-investment grade debt securities. These covenants include limitations or restrictions on us and our restricted subsidiaries' ability to, among other things, make distributions. These covenants are subject to a number of important limitations and exceptions. As of June 30, 2018, we are in compliance with all covenants under the 2023 Notes.

The new 2023 Notes included a registration rights arrangement whereby we agreed, no later than 365 days after the date of the original issuance of the new 2023 Notes, to file a registration statement with the SEC and use commercially reasonable efforts to consummate an offer to exchange the new 2023 Notes for an issue of registered notes with terms substantially identical to the notes. This registration statement was declared effective on April 2, 2018, and the exchange was finalized in May 2018.

Cash Flows

The following table sets forth our cash flows for the periods indicated:

	Six Months Ended	
	June 30,	
	2018	2017
	(In thousands)	
Net cash provided by operating activities	\$67,370	\$90,653
Net cash used in investing activities	(63,521)	(16,361)
Net cash used in financing activities	(3,832)	(87,459)
Net change in cash and cash equivalents	\$17	\$(13,167)

Cash Flows from Operating Activities

Net cash provided by operating activities decreased approximately \$23.3 million to \$67.4 million for the six months ended June 30, 2018 compared to \$90.7 million for the six months ended June 30, 2017. The decrease in net cash provided by operating activities was primarily the result of lower net income and non-cash charges relating to depreciation and amortization, amortization of loan fees and debt premium and unit-based compensation of approximately \$67.4 million for the six months ended June 30, 2018, compared to approximately \$70.8 million for the six months ended June 30, 2017, and a decrease in the net changes in operating assets and liabilities of approximately \$19.9 million primarily driven by the timing of collection of accounts receivables and liability payments.

Cash Flows from Investing Activities

Net cash used in investing activities increased approximately \$47.2 million to \$63.5 million for the six months ended June 30, 2018 compared to net cash used in investing activities of \$16.4 million for the six months ended June 30, 2017. The increase in net cash used in investing activities was primarily due to the Knoxville Terminals Purchase of \$58.0 million and a decrease in net sales and maturities of marketable securities of \$40.0 million, partially offset by the Toledo Products Terminal Acquisition for \$10.1 million in April 2017 and a decrease in capital expenditures of approximately \$40.8 million related to the construction of the Paulsboro Natural Gas Pipeline and the Chalmette Storage Tank in 2017.

Cash Flows from Financing Activities

Net cash used in financing activities decreased approximately \$83.6 million to \$3.8 million for the six months ended June 30, 2018 compared to \$87.5 million for the six months ended June 30, 2017. The cash outflows for the six months ended June 30, 2018 were primarily driven by distributions to unitholders of \$46.6 million, distributions to TVPC members of \$11.3 million and deferred financing costs of \$0.3 million, partially offset by net borrowings from our Revolving Credit Facility of \$54.3 million. Net cash used in financing activities for the six months ended June 30, 2017 consisted of repayment of our Term Loan of \$39.7 million, distributions to unitholders of \$41.0 million and distributions to TVPC members of \$12.3 million, partially offset by a contribution from PBF LLC of \$5.5 million related to the pre-acquisition activities of PNGPC.

Capital Expenditures

Our capital requirements have consisted of and are expected to continue to consist of maintenance capital expenditures, expansion capital expenditures and regulatory capital expenditures. Maintenance capital expenditures are expenditures (including expenditures for the addition or improvement to, or the replacement of, our capital assets, and for the acquisition of existing, or the construction or development of new, capital assets) made to maintain our long-term operating income or operating capacity. Examples of maintenance capital expenditures are expenditures for

the refurbishment and replacement of terminals and to maintain equipment reliability, integrity

and safety. Expansion capital expenditures are expenditures incurred for acquisitions or capital improvements that we expect will increase our operating income or operating capacity over the long term. Examples of expansion capital expenditures include the acquisition of equipment and the construction, development or acquisition of unloading equipment or other equipment at our facilities or additional throughput or storage capacity to the extent such capital expenditures are expected to expand our operating capacity or increase our operating income. Regulatory capital expenditures are expenditures made to attain or maintain compliance with regulatory standards. Examples of regulatory capital expenditures are expenditures incurred to address environmental laws or regulations.

Capital expenditures for the six months ended June 30, 2018 and 2017 were as follows:

	Six Months	
	Ended June 30,	
	2018	2017
	(In thousands)	
Expansion*	\$61,432	\$55,345
Regulatory	29	—
Maintenance	2,060	1,040
Total capital expenditures	\$63,521	\$56,385

* Expansion capital expenditures include our acquisitions for the periods presented.

We currently expect to spend an additional aggregate of between approximately \$20.0 million and \$24.0 million for the remainder of 2018 for capital expenditures, of which between approximately \$14.0 million and \$18.0 million relate to maintenance or regulatory capital expenditures (including capital expenditures related to the Knoxville Terminals). We currently expect to spend an additional aggregate of between approximately \$32.0 million and \$37.0 million in 2018 for projects associated with our recently closed Development Assets Acquisition. We anticipate the forecasted capital expenditures will be funded primarily with cash from operations and through borrowings under our A&R Revolving Credit Facility as needed.

Under the Omnibus Agreement, PBF Energy has agreed to reimburse us for any costs up to \$20.0 million per event (net of any insurance recoveries) that we incur for repairs required due to the failure of any Contributed Asset to operate in substantially the same manner and condition as such asset was operating prior to the closing of our IPO and the Acquisitions from PBF during the first five years after the closing of our IPO and the Acquisitions from PBF, and any matters related thereto.

On July 16, 2018, we entered into an agreement with Crown Point International, LLC, formerly known as Axeon Specialty Products LLC, to purchase its wholly-owned subsidiary, CPI Operations LLC for total consideration of \$107.0 million, which is comprised of an initial payment at closing of \$75.0 million with the balance being payable one year after closing. The East Coast Storage Assets Acquisition is expected to close in the fourth quarter of 2018, subject to customary regulatory and other approval.

On July 16, 2018, we entered into contribution agreements with subsidiaries of PBF LLC pursuant to which PBF Energy has agreed to contribute to us certain of its subsidiaries, whose assets consist of the Development Assets. The Development Assets Acquisition closed on July 31, 2018 for total consideration of \$31.6 million consisting of 1,494,134 common units of PBFX issued to PBF LLC.

Contractual Obligations

With the exception of the closing of the A&R Revolving Credit Facility, repayments made during the first quarter of 2018 on the Revolving Credit Facility and subsequent borrowings under the Revolving Credit Facility to fund the Knoxville Terminals Purchase and other capital expenditures and working capital requirements, there have been no significant changes in our contractual obligations since those reported in our 2017 Form 10-K. Refer to Note 6 “Debt”

included in “Item 1. Financial Statements” for additional information regarding our debt obligations and subsequent events.

Off-Balance Sheet Arrangements

We have not entered into any transactions, agreements or other contractual arrangements that would result in off-balance sheet liabilities, other than outstanding letters of credit in the amount of approximately \$4.0 million and operating leases.

Environmental and Other Matters

Environmental Regulation

Our operations are subject to extensive and frequently changing federal, state and local laws, regulations and ordinances relating to the protection of the environment. Among other things, these laws and regulations govern the emission or discharge of pollutants into or onto the land, air and water, the handling and disposal of solid and hazardous wastes and the remediation of contamination. As with the industry generally, compliance with existing and anticipated environmental laws and regulations increases our overall cost of business, including our capital costs to develop, maintain, operate and upgrade equipment and facilities. While these laws and regulations affect our regulatory capital expenditures and net income, we believe they do not necessarily affect our competitive position, as the operations of our competitors are similarly affected. We believe our facilities are in substantial compliance with applicable environmental laws and regulations. However, these laws and regulations are subject to changes, or to changes in the interpretation of such laws and regulations, by regulatory authorities, and continued and future compliance with such laws and regulations may require us to incur significant expenditures. Additionally, violation of environmental laws, regulations and permits can result in the imposition of significant administrative, civil and criminal penalties, injunctions limiting our operations, investigatory or remedial liabilities or construction bans or delays in the development of additional facilities or equipment. Furthermore, a release of hydrocarbons or hazardous substances into the environment could, to the extent the event is not insured, subject us to substantial expenses, including costs to comply with applicable laws and regulations and to resolve claims by third parties for personal injury or property damage, or by the U.S. federal government or state governments for natural resources damages. These impacts could directly and indirectly affect our business and have an adverse impact on our financial position, results of operations and liquidity. We cannot currently determine the amounts of such future impacts.

Environmental Liabilities

Contamination resulting from spills of crude oil or petroleum products is not unusual within the petroleum terminaling or transportation industries. Historic spills at truck and rail racks, and terminals as a result of past operations have resulted in contamination of the environment, including soils and groundwater.

Pursuant to the contribution agreements entered into in connection with our IPO and the Acquisitions from PBF, PBF Energy has agreed to indemnify us for certain known and unknown environmental liabilities that are based on conditions in existence at our Predecessor’s properties and associated with the ownership or operation of our assets and arising from the conditions that existed prior to the closings of our IPO and the Acquisitions from PBF. In addition, we have agreed to indemnify PBF Energy for certain events and conditions associated with the ownership or operation of our assets that occur after the closings of our IPO and the Acquisitions from PBF, and for environmental liabilities related to our assets to the extent PBF Energy is not required to indemnify us for such liabilities or if the environmental liability is the result of the negligence, willful misconduct or criminal conduct of PBF Energy or its employees, including those seconded to us. As a result, we may incur the type of expenses described above in the future, which may be substantial.

As of June 30, 2018, we have recorded a total liability related to environmental remediation costs of approximately \$1.9 million related to existing environmental liabilities. Refer to Note 9 “Commitments and

Contingencies” in our Notes to Condensed Consolidated Financial Statements included in “Item 1. Financial Statements” for additional information.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices. Because we do not generally own the crude oil, refined products or natural gas that is distributed through our facilities, and because all of our commercial agreements with PBF Energy require PBF Energy to bear the risk of any material volume loss relating to the services we provide, we have minimal direct exposure to risks associated with fluctuating commodity prices.

We experience modest volume gains and losses, which we sometimes refer to as imbalances, within our assets as a result of variances in tank storage meter readings and volume fluctuations within certain of our terminals. We use a year-to-date weighted-average market price to value our assets and liabilities related to product imbalances. For the three and six months ended June 30, 2018, the impact from our imbalances was not material to our results. In practice, we expect to settle positive refined product imbalances at the end of each year by selling excess volumes at current market prices. We may be required to purchase refined product volumes in the open market to make up negative imbalances, or settle through cash payments.

Debt that we incur under our A&R Revolving Credit Facility bears interest at a variable rate and exposes us to interest rate risk. At June 30, 2018, we had \$84.0 million outstanding in variable interest debt. A 1.0% change in the interest rate associated with the borrowings outstanding under this facility would result in a \$3.6 million change in our interest expense, assuming we were to borrow all \$500.0 million available under our A&R Revolving Credit Facility.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

We maintain a system of disclosure controls and procedures that is designed to provide reasonable assurance that information which is required to be disclosed is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to management in a timely manner. Under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, we have evaluated the effectiveness of our system of disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of June 30, 2018. Based on that evaluation, our principal executive officer and our principal financial officer have concluded that our disclosure controls and procedures are effective as of June 30, 2018.

Changes in Internal Control Over Financial Reporting

On April 16, 2018, our wholly-owned subsidiary, PLPT, completed the Knoxville Terminals Purchase, which consisted of the Knoxville Terminals. We are in the process of integrating the Knoxville Terminals’ operations, including internal controls over financial reporting. There have been no other changes in our internal controls over financial reporting during the three months ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

Although from time to time we may be involved in litigation and claims arising out of our operations in the normal course of business, we do not believe that we are a party to any litigation that will have a material adverse impact on our financial condition, results of operations or statements of cash flows. We are not aware of any material legal or governmental proceedings against us, or contemplated to be brought against us.

Item 1A. Risk Factors

There have been no significant changes from the risk factors previously disclosed in “Item 1A. Risk Factors” of our 2017 Form 10-K.

Item 6. Exhibits

The exhibits listed in the accompanying Exhibit Index are filed or incorporated by reference as part of this report and such Exhibit Index is incorporated herein by reference.

EXHIBIT INDEX

Exhibit Number	Description
<u>2.1</u>	Purchase Agreement dated as of April 16, 2018 by and between PBF Logistics Products Terminals LLC and Cummins Terminals, Inc. (incorporated by reference herein to Exhibit 2.1 to the Current Report on Form 8-K (File No. 001-36446) filed on April 20, 2018).
<u>31.1*</u>	Certification of Thomas J. Nimbley, Chief Executive Officer of PBF Logistics LP pursuant to Rule 13a-14(a)/15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
<u>31.2*</u>	Certification of Erik Young, Chief Financial Officer of PBF Logistics LP pursuant to Rule 13a-14(a)/15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
