UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-11073

FIRST DATA CORPORATION
(Exact name of registrant as specified in its charter)
www.firstdata.com

DELAWARE	47-0731996
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

225 LIBERTY STREET
29th FLOOR
NEW YORK, NEW YORK 10281
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code (800) 735-3362

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☐

Non-accelerated filer ☒ Smaller reporting company ☐

Edgar Filing: FIRST DATA CORP - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at November 1, 2016
Class A Common Stock, \$0.01 par value per share	357,100,865 shares
Class B Common Stock, \$0.01 par value per share	553,883,262 shares

Unless otherwise indicated or the context otherwise requires, financial data in this Form 10-Q reflects the consolidated business and operations of First Data Corporation and its consolidated subsidiaries. Unless the context otherwise requires, all references herein to "First Data," "FDC," the "Company," "we," "our," or "us" refer to First Data Corporation and consolidated subsidiaries.

Amounts in this Form 10-Q and the unaudited consolidated financial statements included in this Form 10-Q are presented in U.S. dollars rounded to the nearest million, unless otherwise noted.

Table of Contents

Forward-Looking Statements

Certain matters we discuss in this Form 10-Q and in other public statements may constitute forward-looking statements. You can identify forward-looking statements because they contain words such as “believes,” “expects,” “may,” “will,” “should,” “seeks,” “intends,” “plans,” “estimates,” or “anticipates” or similar expressions which concern our strategy, projections or intentions. Examples of forward-looking statements include, but are not limited to, all statements we make relating to revenue, earnings before net interest expense, income taxes, depreciation, and amortization (EBITDA), earnings, margins, growth rates, and other financial results for future periods. By their nature, forward-looking statements speak only as of the date they are made; are not statements of historical fact or guarantees of future performance; and are subject to risks, uncertainties, assumptions or changes in circumstances that are difficult to predict or quantify. Actual results could differ materially and adversely from our forward-looking statements due to a variety of factors, including the following: (1) adverse impacts from global economic, political, and other conditions affecting trends in consumer, business, and government spending; (2) our ability to anticipate and respond to changing industry trends, including technological changes and increasing competition; (3) our ability to successfully renew existing client contracts on favorable terms and obtain new clients; (4) our ability to prevent a material breach of security of any of our systems; (5) our ability to implement and improve processing systems to provide new products, improve functionality, and increase efficiencies; (6) our merchant alliance program which involves several alliances not under our sole control and each of which acts independently of the others; (7) credit and fraud risks in our business units and merchant alliances, particularly in the context of eCommerce and mobile markets; (8) consolidation among financial institution clients or other client groups that impacts our client relationships; (9) our ability to improve our profitability and maintain flexibility in our capital resources through the implementation of cost savings initiatives; (10) our ability to successfully value and integrate acquired businesses, including those outside of the United States; (11) our high degree of leverage; (12) adverse impacts from currency exchange rates or currency controls imposed by any government or otherwise; (13) changes in the interest rate environment that increase interest on our borrowings or the interest rate at which we can refinance our borrowings; (14) the impact of new laws, regulations, credit card association rules, or other industry standards; and (15) new lawsuits, investigations, or proceedings, or changes to our potential exposure in connection with pending lawsuits, investigations or proceedings, and various other factors set forth in our Annual Report on Form 10-K for the period ended December 31, 2015, including but not limited to, Item 1 - Business, Item 1A - Risk Factors, and Item 7 - Management’s Discussion and Analysis of Financial Condition and Results of Operations and Item 1A- Risk Factors in the quarterly report on Form 10-Q for the period ended June 30, 2016. Except as required by law, we do not intend to revise or update any forward-looking statement as a result of new information, future developments or otherwise.

FIRST DATA CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1: Basis of Presentation and Summary of Significant Accounting Policies

Business Description

First Data Corporation (FDC or the Company) is a global leader in commerce-enabling technology and solutions for merchants, financial institutions, and card issuers. The Company provides merchant transaction processing and acquiring; credit, retail, and debit card issuing and processing; prepaid services; and check verification, settlement and guarantee services; as well as solutions to help clients grow their businesses including the Company's Clover line of payment solutions and related applications.

Basis of Presentation

The accompanying unaudited consolidated financial statements of the Company should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2015. Significant accounting policies disclosed therein have not changed.

The accompanying consolidated financial statements are unaudited; however, in the opinion of management, they include all normal recurring adjustments necessary for a fair presentation of the consolidated financial position of the Company, the consolidated results of the Company's operations, comprehensive income (loss), consolidated cash flows and changes in equity as of and for the periods presented. Results of operations reported for interim periods are not necessarily indicative of results for the entire year due in part to the seasonality of certain business units.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the unaudited consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Presentation

Depreciation and amortization, presented as a separate line item on the Company's unaudited consolidated statements of operations, does not include amortization of initial payments for new contracts which is recorded as contra-revenue within "Transaction and processing service fees." Also not included is amortization related to equity method investments which is netted within "Equity earnings in affiliates." The following table presents the amounts associated with such amortization for the periods presented:

	Three months ended September 30,		Nine months ended September 30,	
(in millions)	2016	2015	2016	2015
Amortization of initial payments for new contracts	\$ 16	\$ 14	\$ 47	\$ 38
Amortization related to equity method investments	12	15	33	45

Revenue Recognition

The majority of the Company's revenues are comprised of: 1) transaction-based fees, which typically constitute a percentage of dollar volume processed; 2) fees per transaction processed; 3) fees per account on file during the period; or 4) some combination thereof.

The Company's arrangements with clients often consist of multiple services and products (multiple-element arrangements). In accounting for multiple-element arrangements, the Company assesses the elements of the contract and whether each element has standalone value and allocates revenue to the various elements based on their estimated selling price as a component of total consideration for the arrangement. The selling price is based on current selling prices offered by the Company or another party for current products or management's best estimate of a selling price.

Table of Contents

FIRST DATA CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In the case of contracts that the Company owns and manages, revenue is comprised of fees charged to the client, net of interchange fees and assessments charged by the credit card associations, and is recognized at the time the client accepts a point of sale transaction. The fees charged to the client are a percentage of the credit card and signature-based debit card transaction's dollar value, a fixed amount, or a combination of the two. Personal identification number based debit (PIN-debit) and PINless-debit network fees are recognized in "Reimbursable PIN debit fees, postage, and other" revenues and expenses in the unaudited consolidated statements of operations. STAR Network access fees charged to clients are assessed on a per transaction basis. Interchange fees and assessments charged by credit card associations to the Company's consolidated subsidiaries and network fees related to PIN-debit and PINless-debit transactions charged by debit networks were as follows for the periods presented:

	Three months ended		Nine months ended	
	September 30,		September 30,	
(in millions)	2016	2015	2016	2015
Interchange fees and assessments	\$6,184	\$5,598	\$17,406	\$16,089
PIN-Debit fees	753	757	2,255	2,227

Deferred Revenue

The Company records deferred revenue when it receives payments in advance of the delivery of products or the performance of services. The deferred revenue is recognized into earnings when underlying performance obligations are achieved. As of September 30, 2016 and December 31, 2015, current deferred revenue included within "Accounts payable and accrued liabilities" in the Company's unaudited consolidated balance sheets was \$148 million and \$140 million, respectively, and noncurrent deferred revenue included within "Other long-term liabilities" in the Company's unaudited consolidated balance sheets was \$170 million and \$146 million, respectively.

A major component of the Company's deferred revenue represents certain Clover terminal devices which do not have standalone value as of September 30, 2016. The Company will continue to assess in the future whether an adequate secondary market is capable of developing or has developed for these devices to establish standalone value. If a secondary market is deemed capable of developing or develops whereby clients are able to substantially recover their original purchase price, the Company will recognize revenue for Clover terminal devices upon delivery.

Common Stock

For the nine months ended September 30, 2016, 160.7 million shares of Class B common stock were converted to 160.7 million shares of Class A common stock. The majority of the shares converted shortly after the expiration of the Company's initial public offering lockup period which ended on April 11, 2016.

Reclassifications

Certain amounts for prior years have been reclassified to conform with the current-year financial statement presentation. Specifically, the unaudited consolidated balance sheet as of September 30, 2016 reflects a \$123 million reclassification related to settlement activities to conform certain international joint ventures to our global policies, which increased "Cash and cash equivalents" and decreased "Accounts receivable". The unaudited consolidated statements of cash flows for the nine months ended September 30, 2016 reflects the reclassification of \$123 million within "Net Cash provided by operating activities".

New Accounting Guidance

In May 2014, the Financial Accounting Standards Board (FASB) issued guidance that requires companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration to which the company expects to be entitled in an exchange for those goods or services. It also requires enhanced disclosures about revenue, provides guidance for transactions that were not previously addressed comprehensively, and improves guidance for multiple-element arrangements. The guidance applies to any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards. As amended in August 2015, the guidance is effective for public companies for annual periods beginning after December 15, 2017 as well as interim periods within those annual periods using either the full retrospective approach or modified retrospective approach. The FASB also permitted early adoption of the standard, but not before December 15, 2016. The Company is currently evaluating the impacts of the new guidance on its consolidated financial statements.

Table of Contents

FIRST DATA CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In February 2016, the FASB issued guidance which requires lessees to put most leases on their balance sheets. The guidance also modifies the classification criteria and the accounting for sales-type and direct financing leases for lessors and provides new presentation and disclosure requirements for both lessees and lessors. The standard is effective for financial statements issued for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted in any interim or annual period subsequent to adoption of the proceeding revenue recognition guidance. The Company is currently evaluating the impact of adoption of the new guidance on its consolidated financial statements.

In March 2016, the FASB issued guidance that will change some aspects of the accounting for stock-based payments to employees. Under the new guidance, companies will be required to record all excess tax benefits and tax deficiencies as income tax expense or benefit in the income statement and to present excess tax benefits as an operating activity on the statement of cash flows. The guidance may also change how companies account for forfeitures and an employee's use of shares to satisfy the employer's statutory income tax withholding obligation. The new guidance will be effective for public companies for fiscal years beginning after December 15, 2016 as well as interim periods within those annual periods. Early adoption is permitted in any interim or annual period. The Company has evaluated the guidance and determined adoption will not have a material impact to its consolidated financial statements.

In June 2016, the FASB issued guidance that will change the accounting for credit impairment. Under the new guidance, companies are required to measure all expected credit losses for financial instruments held at the reporting date based on historical experience, current conditions and reasonable supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost and applies to some off-balance sheet credit exposures. This new guidance will be effective for public companies for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for fiscal years beginning after December 15, 2018. The Company is currently evaluating the impact of the new guidance on its consolidated financial statements.

In August 2016, the FASB issued guidance which clarifies the treatment of several cash flow categories. In addition, the guidance clarifies that when cash receipts and cash payments have aspects of more than one class of cash flows and cannot be separated, classification will depend on the predominant source or use. This update is effective for annual periods beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted, including adoption in an interim period. The Company's early adoption of the guidance in the third quarter of 2016 did not have an impact on the Company's financial statements or disclosures.

Note 2: Borrowings

(in millions)	As of September 30, 2016	As of December 31, 2015	
Short-term borrowings:			
Foreign lines of credit and other arrangements	\$ 71	\$ 43	
Accounts receivable securitized loan at LIBOR plus 200 basis points or a base rate equal to the highest of (i) the applicable lender's prime rate, or (ii) the federal funds rate plus 0.50%	208	—	
Unamortized deferred financing costs (a)	(2) —	
Total Short-term borrowings	277	43	
Current portion of long-term borrowings:			
8.75% Senior secured second lien notes due 2022	—	750	
Unamortized discount and unamortized deferred financing costs	—	(10)
Other arrangements	16	—	
Capital lease obligations	84	73	
Total Current portion of long-term borrowings	100	813	
Total Short-term and current portion of long-term borrowings	377	856	
Long-term borrowings:			
Senior secured term loan facility due March 2018 at LIBOR and euro LIBOR plus 3.5% or, solely with respect to U.S. dollar-denominated term loans, a base rate plus 2.5%	—	4,938	
Senior secured term loan facility due September 2018 at LIBOR plus 3.5% or a base rate plus 2.5%	—	1,008	
Senior secured term loan facility due March 2021 at LIBOR and euro LIBOR plus 4.0% or, solely with respect to U.S. dollar-denominated term loans, a base rate plus 3.0%	4,541	1,171	
Senior secured term loan facility due July 2022 at LIBOR and euro LIBOR plus 3.75% or, solely with respect to U.S. dollar-denominated term loans, a base rate plus 2.75%	3,838	2,464	
6.75% Senior secured first lien notes due 2020	1,398	1,398	
5.375% Senior secured first lien notes due 2023	1,210	1,210	
5.0% Senior secured first lien notes due 2024	1,900	1,000	
5.75% Senior secured second lien notes due 2024	2,200	2,200	
7.0% Senior unsecured notes due 2023	3,400	3,400	
Unamortized discount and unamortized deferred financing costs (a)	(171) (174)
Other arrangements	27	—	
Capital lease obligations	171	122	
Total Long-term borrowings (b)	18,514	18,737	
Total Borrowings (c)	\$ 18,891	\$ 19,593	

(a) Unamortized deferred financing costs are amortized on a straight-line basis, which approximates the interest method, over the remaining term of the respective debt. In addition, certain lenders' fees associated with debt transactions were capitalized as discounts and are similarly being amortized on a straight-line basis, which approximates the effective interest method, over the remaining term of the respective debt.

As of September 30, 2016 and December 31, 2015, the fair value of the Company's long-term borrowings was (b) \$19.1 billion and \$19.6 billion, respectively. The estimated fair value of the Company's long-term borrowings was primarily based on market trading prices and is considered to be a Level 2 measurement.

(c) The effective interest rate is not substantially different than the coupon rate on any of the Company's debt tranches.

FIRST DATA CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Foreign Lines of Credit and Other Arrangements

As of September 30, 2016 and December 31, 2015, the Company had \$344 million and \$245 million, respectively, available under short-term lines of credit and other arrangements with foreign banks and alliance partners primarily to fund settlement activity. As of September 30, 2016 and December 31, 2015, this includes a \$165 million and \$75 million, respectively, committed line of credit for one of the Company's U.S. alliances. The remainder of these arrangements are primarily associated with international operations and are in various functional currencies, the most significant of which are the Australian dollar, the Polish zloty, and the euro. Of the amounts outstanding as of September 30, 2016 and December 31, 2015, \$19 million and \$17 million, respectively, were uncommitted.

Senior Secured Revolving Credit Facility

The Company has a \$1.25 billion senior secured revolving credit facility maturing on June 2, 2020 subject to certain earlier springing maturity provisions in certain circumstances. Up to \$250 million of the senior secured revolving credit facility is available for letters of credit, of which \$43 million and \$42 million of letters of credit were issued under these facilities as of September 30, 2016 and December 31, 2015, respectively. As of September 30, 2016, \$1.2 billion remained available.

Accounts Receivable Securitization Agreement

On December 31, 2015, the Company established a fully consolidated and wholly owned subsidiary, First Data Receivables, LLC (FDR). FDR and FDC entered into an agreement where certain wholly owned subsidiaries of FDC agreed to transfer and contribute receivables to FDR. FDR's assets are not available to satisfy obligations of any other entities or affiliates of FDC. FDR's creditors will be entitled, upon its liquidation, to be satisfied out of FDR's assets prior to any assets or value in FDR becoming available to FDR's equity holders. As of September 30, 2016, the Company transferred \$326 million in receivables to FDR as part of the securitization program and FDR utilized the receivables as collateral in borrowings of \$208 million. As of September 30, 2016, the receivables held by FDR are recorded within "Accounts receivable, net" in the Company's unaudited consolidated balance sheets.

Recent Events

On January 1, 2016, the Company designated the euro-denominated portions of the senior secured term loan facility due March 2018, senior secured term loan facility due March 2021, and the senior secured term loan facility due July 2022 as non-derivative hedges of net investments in foreign operations. As such, foreign currency gains and losses on the euro-denominated portions of these terms loans is recorded within "Foreign currency translation adjustment" in the Company's unaudited consolidated statements of comprehensive income (loss) to the extent the hedges are effective. Foreign currency gains and losses on the euro-denominated portions of these term loans were previously recorded within "Other income (expense)" in the Company's unaudited consolidated statements of operations.

On January 15, 2016, the Company redeemed its 8.75% senior secured second lien notes due 2022. Associated with the redemption, the Company recorded \$43 million in loss on debt extinguishment.

On March 29, 2016, the Company issued and sold \$900 million aggregate principal amount of additional 5.0% senior secured notes due 2024, which mature on January 15, 2024, pursuant to the indenture governing the 5.0% senior secured notes due 2024 that were issued on November 25, 2015. The additional notes are treated as a single series with the existing 5.0% senior secured first lien notes due 2024 and have the same terms as the existing 5.0% notes.

The Company used the net proceeds from the issue and sale of the additional notes to repay a portion of its U.S. dollar-denominated senior secured term loan facility due March 2018 and to pay related fees and expenses. Associated with the partial redemption of the U.S. dollar-denominated senior secured term loan facility, the Company recorded \$3 million in loss on debt extinguishment.

On April 13, 2016, the Company refinanced its U.S. dollar-denominated senior secured term loan due March 2018 through new and existing lenders to provide approximately \$3.7 billion of U.S. dollar-denominated senior secured term loans due March 2021. The senior secured term loan due March 2021 bears interest at a rate of LIBOR plus 400 basis points or a base rate plus 300 basis points. In connection with this transaction, the Company recorded approximately \$5 million in loss on debt extinguishment and expensed approximately \$11 million in debt issuance costs, which is included within "Interest expense, net" in the unaudited consolidated statements of operations.

On June 2, 2016, the Company refinanced its senior secured term loan due September 2018 and euro-denominated senior secured term loan due March 2018 through new and existing lenders to provide approximately \$1.0 billion and €311 million (\$342 million

Table of Contents

FIRST DATA CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

equivalent), respectively, of senior secured term loans due July 2022. The senior secured term loans due July 2022 bear interest at a rate of LIBOR plus 375 basis points or, solely with respect to the U.S. dollar denominated term loans, a base rate plus 275 basis points. In connection with this transaction, the Company recorded approximately \$4 million in loss on debt extinguishment and expensed \$4 million in debt issuance costs, which is included within "Interest expense, net" on the unaudited consolidated statements of operations. The euro-denominated senior secured term loan facility remains designated as a non-derivative hedge of net investment in foreign operations.

During the current quarter, the Company paid down \$350 million aggregate principal amount of the Company's March 2021 senior secured term loans. In connection with the transactions, the Company recorded \$3 million in loss on debt extinguishment.

On October 14, 2016, the Company refinanced, through new and existing lenders, to lower the interest rate on approximately \$4.5 billion (including €0.2 billion of euro denominated term loans) of senior secured term loans due March 2021 from LIBOR plus 400 basis points to LIBOR plus 300 basis points or, solely with respect to the U.S. dollar denominated term loans, the Company's option of either LIBOR plus 300 basis points or the base rate plus 200 basis points.

Subsequent to the end of the third quarter of 2016, the Company paid down \$100 million aggregate principal amount of its March 2021 senior secured term loans. The Company recorded an immaterial amount of loss on debt extinguishment in connection with this transaction.

Note 3: Stock Compensation Plans

The Company provides stock-based compensation awards to its employees under the 2015 Omnibus Incentive Plan (stock plan), which the Company adopted in conjunction with its initial public offering on October 15, 2015.

Total stock-based compensation expense recognized in "Cost of services" and "Selling, general, and administrative" in the unaudited consolidated statements of operations resulting from stock options, non-vested restricted stock awards, and non-vested restricted stock units was as follows for the periods presented:

	Three months ended September 30,		Nine months ended September 30,	
(in millions)	2016	2015	2016	2015
Cost of services	\$ 19	\$ —	\$ 91	\$ —
Selling, general, and administrative	24	8	123	31
Total	\$ 43	\$ 8	\$ 214	\$ 31

Substantially all of the Company's employees are granted restricted stock awards or units on an annual basis, which generally vest 20% after the first anniversary, 40% after the second anniversary, and the remaining 40% on the third anniversary. For the nine months ended September 30, 2016, 18 million restricted stock awards and units were granted at a weighted average price per share of \$12.55. For the three months ended September 30, 2016, the Company granted less than 1 million restricted stock awards and units.

As of September 30, 2016, there was \$95 million and \$247 million of total unrecognized compensation expense related to non-vested stock options and restricted stock, respectively. Previously unrecognized expense of \$52 million was recognized during the first quarter of 2016 in connection with the Company's initial public offering.

Edgar Filing: FIRST DATA CORP - Form 10-Q

For the nine months ended September 30, 2016, the Company paid approximately \$59 million of taxes related to the net settlement of vested equity awards. For the three months ended September 30, 2016 and for the three and nine months ended September 30, 2015, the amount of employee shares net settled for the payment of taxes was insignificant.

The Company has an employee stock purchase plan under which the sale of 6 million shares of its common stock has been authorized. The total number of shares issued through the stock purchase plan have not been significant through September 30, 2016.

For additional information on the Company's stock compensation plans, refer to note 4 "Stock Compensation Plans" in "Item 8. Financial Statements and Supplementary Data" in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 4: Net Income (Loss) Per Share

Upon First Data Holdings, Inc. (FDH), the Company's direct parent company, merging with and into FDC on October 13, 2015, all outstanding shares of FDH's Class A Common Stock, Class B Common Stock, and Series A Voting Participating Convertible Preferred Stock (Series A Preferred Stock) automatically converted to identical shares of the Company's stock. Following the filing of the Company's prospectus with the Securities and Exchange Commission on October 15, 2015, holders of existing Class B Common Stock and Series A Preferred Stock received Class B Common Stock in the Company. Other than voting rights, this common stock has the same rights as the Class A Common Stock and therefore both are treated as the same class of stock for purposes of the net income (loss) per share calculation.

Basic net income (loss) per share is calculated by dividing net income (loss) attributable to FDC by the weighted-average shares outstanding during the period, without consideration for any potential dilutive shares. Diluted net income (loss) per share has been computed to give effect to the impact, if any, of shares issuable upon the assumed exercise of the Company's common stock equivalents, which consist of outstanding stock options and unvested restricted stock.

The following table sets forth the computation of the Company's basic and diluted net income (loss) per share for the periods presented:

	Three months ended September 30,		Nine months ended September 30,	
(in millions, except share and per share amounts)	2016	2015	2016	2015
Numerator:				
Net income (loss) used in computing net income (loss) per share, basic and diluted	\$132	\$(126)	\$228	\$(264)
Denominator:				
Shares used in computing net income (loss) per share, basic (a)	904,738,000		900,128,000	
Effect of dilutive securities	18,080,054		18,172,975	
Total dilutive securities	922,818,000		918,301,000	
Basic net income (loss) per share	\$0.15	\$(126,000)	\$0.25	\$(264,000)
Diluted net income (loss) per share	\$0.14	\$(126,000)	\$0.25	\$(264,000)
Anti-dilutive shares excluded from diluted net income (loss) per share	20,439,375		27,064,859	

(a) 2015 net loss per share, basic and diluted, is calculated using 1,000 shares outstanding prior to the merger with FDH and the filing of the Company's prospectus in October 2015.

Note 5: Segment Information

For a detailed discussion of the Company's principles and its operating segments refer to note 7 "Segment Information" in the Company's consolidated financial statements in "Item 8. Financial Statements and Supplementary Data" and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Income tax expense	24	32	57	45
Stock-based compensation	43	8	214	31
Total segment EBITDA	\$739	\$703	\$2,121	\$1,968

Net adjustment to reflect the Company's proportionate share of the results of the Company's investments in businesses accounted for under the equity method and consolidated subsidiaries with noncontrolling ownership interests. Segment revenue for the Company's significant affiliates is reflected based on the Company's proportionate share of the results of the Company's investments in businesses accounted for under the equity method and consolidated subsidiaries with noncontrolling ownership interests. For other affiliates, the Company includes equity earnings in affiliates, excluding amortization expense, in segment revenue.

(b)

Reported within "Selling, general, and administrative expense" in the unaudited consolidated statements of operations.

Includes restructuring, certain retention bonuses, non-normal course litigation and regulatory settlements, asset impairments, debt issuance expenses, Kohlberg Kravis Roberts & Co. (KKR) related items and "Other income (expense)" as presented in the unaudited consolidated statements of operations, which includes divestitures, (c) derivative gains (losses), non-operating foreign currency gains (losses), and the gain on Visa Europe share sale. KKR related items represent KKR annual sponsorship fees for management, consulting, financial and other advisory services. Upon completing the IPO in October 2015, the Company is no longer obligated to pay KKR annual sponsorship fees.

FIRST DATA CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table presents a reconciliation of segment depreciation and amortization amounts to the Company's consolidated depreciation and amortization in the unaudited consolidated statements of cash flows for the periods presented:

	Three months ended		Nine months ended	
	September		September	
	30,		30,	
(in millions)	2016	2015	2016	2015
Segment depreciation and amortization	\$231	\$252	\$690	\$743
Adjustments for non wholly owned entities (a)	18	20	56	62
Amortization of initial payments for new contracts (b)	16	14	47	38
Total consolidated depreciation and amortization per unaudited consolidated statements of cash flows	265	286	793	843
Amortization of equity method investments (c)	(12)	(15)	(33)	(45)
Amortization of initial payments for new contracts (b)	(16)	(14)	(47)	(38)
Total consolidated depreciation and amortization per unaudited consolidated statements of operations	\$237	\$257	\$713	\$760

(a) Adjustment to reflect depreciation and amortization attributable to noncontrolling interests.

(b) Included in "Transaction and processing service fees" as contra-revenue in the Company's unaudited consolidated statements of operations.

(c) Included in "Equity earnings in affiliates" in the Company's unaudited consolidated statements of operations.

Note 6: Income Taxes

The following table presents the Company's income tax expense and effective income tax rate for the periods presented:

	Three months ended		Nine months ended	
	September		September	
	30,		30,	
(in millions)	2016	2015	2016	2015
Income tax expense	\$24	\$32	\$57	\$45
Effective income tax rate	11 %	(74)%	12 %	(75)%

The effective tax rates for the three and nine months ended September 30, 2016 and 2015, respectively, were different from the statutory rate as a result of the Company recording tax expense on its foreign earnings, but not on its domestic earnings, as a result of the valuation allowance recorded in the U.S. The Company's tax expense in all periods was also impacted by the Company not recording tax expense on noncontrolling interests from pass through entities. The effective income tax rate for the three and nine months ended September 30, 2016 benefited by 11% and 5%, respectively, from discrete adjustments.

The Company's liability for unrecognized tax benefits was approximately \$245 million as of September 30, 2016. The Company anticipates it is reasonably possible that the liability for unrecognized tax benefits may decrease by up to \$122 million over the next twelve months beginning September 30, 2016 as a result of the possible closure of federal tax audits, potential settlements with certain states and foreign countries and the lapse of the statute of limitations in various state and foreign jurisdictions.

Note 7: Redeemable Noncontrolling Interest

One of the Company's noncontrolling interests is redeemable at the option of the holder and is presented outside of equity and carried at its estimated redemption value.

The following table presents a summary of the redeemable noncontrolling interest activity during the periods presented:

(in millions)	2016	2015
Balance as of January 1,	\$77	\$70
Distributions	(25)	(26)
Share of income	25	26
Adjustment to redemption value of redeemable noncontrolling interest	(4)	8
Balance as of September 30,	\$73	\$78

18

(Unaudited)

Note 8: Derivative Financial Instruments

The Company enters into the following types of derivatives:

Floating to fixed interest rate swaps: The Company used interest rate swaps to mitigate its exposure to interest rate fluctuations on interest payments related to variable rate debt. The Company is no longer invested in any such interest rate swaps. The Company's interest rate contracts were used in a non-qualifying hedging relationship.

Floating to fixed interest rate collar swaps: The Company uses interest rate collar swaps to mitigate its exposure to interest rate fluctuations on interest payments related to variable rate debt. No payments or receipts are exchanged on interest rate collar swaps unless interest rates rise or fall to exceed a predetermined ceiling or floor rate. The Company uses these contracts in a qualifying hedging relationship.

Foreign exchange contracts: The Company uses cross-currency swaps to protect the net investment in certain foreign subsidiaries and/or affiliates with respect to changes in foreign currency exchange rates. The Company uses these contracts in both qualifying and non-qualifying hedging relationships.

The Company held the following derivative instruments as of the dates indicated:

(in millions)	Notional Currency	As of September 30, 2016			As of December 31, 2015		
		Notional Value (a)	Assets (a)	Liabilities (a)	Notional Value (a)	Assets (a)	Liabilities (a)
Derivatives designated as hedges of net investments in foreign operations:							
Foreign exchange contracts	AUD	260	\$ 55	\$ —	260	\$ 65	\$ —
Foreign exchange contracts (b)	EUR	—	—	—	200	51	—
Foreign exchange contracts (c)	GBP	300	59	—	250	39	—
Foreign exchange contracts (d)	CAD	130	7	—	110	24	—
			121	—		179	—
Derivatives designated as cash flow hedges:							
Interest rate collar contracts	USD	3,000	—	—	—	—	—
			—	—		—	—
Derivatives not designated as hedging instruments:							
Interest rate contracts (e)	USD	—	—	—	5,000	—	(56)
			\$ 121	\$ —		\$ 179	\$ (56)

Of the balances included in the table above, in aggregate, \$121 million of assets as of September 30, 2016 and \$179 million of assets and \$51 million of liabilities, net \$128 million, as of December 31, 2015 are subject to

(a) master netting agreements to the extent that the swaps are with the same counterparty. The terms of those agreements require that the Company net settle the outstanding positions at the option of the counterparty upon certain events of default.

(b) The forward exchange contracts matured in January 2016 at a net settlement value of \$49 million.

(c) Notional value 100 million GBP matured in August 2016 at a net settlement value of \$25 million. The Company entered into a new foreign exchange contract with a notional value of 150 million GBP.

(d) Notional value 75 million CAD matured in August 2016 at a net settlement value of \$14 million. The Company entered into a new foreign exchange contract with a notional value of 95 million CAD.

(e) Interest rate contracts matured in September 2016.

The maximum length of time over which the Company is hedging its currency exposure of net investments in foreign operations is through August 2019.

The maximum length of time over which the Company is hedging its exposure to the variability in future cash flows for forecasted transactions related to the payment of variable rate interest on existing financial instruments is through September 2018.

Fair Value Measurement

The carrying amounts for the Company's derivative financial instruments are the estimated fair value of the financial instruments. The Company's derivatives are not exchange listed and therefore the fair value is estimated under an income approach using Bloomberg analytics models that are based on readily observable market inputs. These models reflect the contractual terms of the derivatives, such as notional value and expiration date, as well as market-based observables including interest and foreign currency exchange rates, yield curves, and the credit quality of the counterparties. The models also incorporate the Company's creditworthiness in order to appropriately reflect non-performance risk. Inputs to the derivative pricing models are generally observable and do not contain a high level of subjectivity and, accordingly, the Company's derivatives are classified within Level 2 of the fair value hierarchy. While the Company believes its estimates result in a reasonable reflection of the fair value of these instruments, the estimated values may not be representative of actual values that could have been realized or that will be realized in the future.

Effect of Derivative Instruments on the Unaudited Consolidated Financial Statements

Derivative gains and (losses) were as follows for the periods indicated:

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
(in millions, pretax)	Foreign Exchange Contracts	Interest Rate Contracts	Foreign Exchange Contracts	Interest Rate Contracts
Derivatives designated as hedging instruments:				
Gain recognized in "Foreign currency translation adjustment" in the unaudited consolidated statements of comprehensive income (loss) (effective portion)	\$—	\$ 5	\$—	\$ 36
Derivatives not designated as hedging instruments:				
Gain (loss) recognized in "Other income (expense)" in the unaudited consolidated statements of operations	—	(9)	—	(5)

Accumulated Derivative Gains and Losses

The following table summarizes activity in other comprehensive income (loss) related to derivative instruments classified as cash flow hedges and net investment hedges held by the Company for the periods presented:

	Three months ended		Nine months ended	
	September 30,		September 30,	
(in millions, after tax)	2016	2015	2016	2015
Accumulated gain included in other comprehensive income (loss) at beginning of the period	\$ 100	\$ 57	\$ 86	\$ 37

Note 9: Restructuring

During the three and nine months ended September 30, 2016 and 2015, the Company recorded restructuring charges in connection with management's alignment of the business with strategic objectives, cost savings initiatives, the departure of certain executive officers, and refinements of estimates.

In connection with the Company's announced cost management initiatives, the Company incurred \$105 million of cumulative restructuring expense through September 30, 2016. For the three and nine months ended September 30, 2016, the Company incurred \$6 million and \$51 million, respectively. The nine month period includes a loss of \$21 million on the impairment of a held-for-sale asset related to the exit of a facility. For the three and nine months ended September 30, 2015, the Company incurred approximately \$20 million and \$40 million in restructuring costs, respectively, primarily related to severance costs.

A summary of net pretax restructuring charges incurred by segment and reported within "Other operating expenses" in the unaudited consolidated statement of operations was as follows for the periods presented:

Note 10: Commitments and Contingencies

The Company is involved in various legal proceedings. Accruals have been made with respect to these matters, where appropriate, which are reflected in the Company's unaudited consolidated financial statements. The Company may enter into discussions regarding settlement of these matters and may enter into settlement agreements if it believes settlement is in the best interest of the Company. The matters discussed below, if decided adversely to or settled by the Company, individually or in the aggregate, may result in liability material to the Company's financial condition and/or results of operations.

Legal

There are asserted claims against the Company where an unfavorable outcome is considered to be reasonably possible. These claims can generally be categorized in the following areas: (1) patent infringement which results from claims that the Company is using technology that has been patented by another party, (2) merchant customer matters often associated with alleged processing errors or disclosure issues and claims that one of the subsidiaries of the Company has violated a federal or state requirement regarding credit reporting or collection in connection with its check verification guarantee and collection activities, and (3) other matters which may include issues such as employment. The Company's estimates of the reasonably possible ranges of losses in excess of any amounts accrued are \$0 to \$10 million for patent infringement, \$0 to \$40 million for merchant customer matters, and \$0 to \$30 million for other matters, resulting in a total estimated range of reasonably possible losses of \$0 to \$80 million for all of the matters described above.

Table of Contents

FIRST DATA CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The estimated range of reasonably possible losses is based on information currently available and involves elements of judgment and significant uncertainties. As additional information becomes available and the resolution of the uncertainties becomes more apparent, it is possible that actual losses may exceed even the high end of the estimated range.

Other

In the normal course of business, the Company is subject to claims and litigation, including indemnification obligations to purchasers of former subsidiaries. Management of the Company believes that such matters will not have a material adverse effect on the Company's results of operations, liquidity, or financial condition.

Note 11: Investment in Affiliates

Segment results include the Company's proportionate share of income from affiliates, which consist of unconsolidated investments accounted for under the equity method of accounting. The most significant of these affiliates are related to the Company's merchant bank alliance programs.

As of September 30, 2016, the Company had one unconsolidated significant subsidiary that was not required to be consolidated, but represents more than 20% of the Company's pretax income. Summarized financial information for the affiliate is presented below for the periods presented:

	Three months ended September 30,		Nine months ended September 30,	
(in millions)	2016	2015	2016	2015
Net operating revenues	\$232	\$228	\$683	\$668

FDC equity earnings	46	42	136	123

Note 12: Supplemental Financial Information

Supplemental Unaudited Consolidated Statements of Operations Information

The following table details the components of "Other income (expense)" on the unaudited consolidated statements of operations for the periods presented:

	Three months ended September 30,		Nine months ended September 30,	
(in millions)	2016	2015	2016	2015
Derivative financial instruments losses	\$—	\$(9)	\$(5)	\$(25)
Divestitures, net (loss) gain	(31)	—	(31)	3
Gain on Visa Europe share sale	—	—	29	—
Non-operating foreign currency gains and (losses)	2	(1)	21	23
Other miscellaneous expense	(1)	—	—	—

Other income (expense)	\$(30)	\$(10)	\$14	\$1
------------------------	--------	--------	------	-----

Gain on Visa Europe share sale

On June 21, 2016, Visa Inc. (Visa) acquired Visa Europe (VE), of which the Company was a member and shareholder through certain subsidiaries. On June 21, 2016, the Company received cash of €24.2 million (\$27 million equivalent at June 21, 2016) and Visa preferred stock which is convertible into Visa common shares. The Company will also receive a deferred payment three years after the closing date of the acquisition, valued at approximately €2.3 million (\$2.6 million equivalent at June 21, 2016). As of June 21, 2016, the Class A common stock equivalent of the preferred stock was approximately \$19 million. However, the preferred shares have been assigned a value of zero based on transfer restrictions and Visa's ability to adjust the conversion ratio dependent

22

Table of Contents

FIRST DATA CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

on the outcome of existing and potential litigations in the Visa Europe territory over the next 12 years. The Company could receive additional proceeds as a number of First Data subsidiaries are working with certain members of Visa Europe who sponsor other of the Company's merchant acquiring businesses in Europe in respect of sale proceeds received by those members.

Divestiture, net (loss) gain

On September 30, 2016, the Company completed the sale of its Australian ATM business, which was reported as part of the Global Business Solutions segment. Associated with the transaction, the Company recognized a \$31 million loss on the sale. The loss is comprised of investments of \$69 million reduced by cash proceeds of \$38 million which were received subsequent to September 30, 2016. As of September 30, 2016, the cash proceeds are included within "Other current assets" in the unaudited consolidated balance sheet. The Company recorded an income tax provision of \$9 million as a result of the final sale settlement.

Note 13: Supplemental Guarantor Condensed Consolidating Financial Statements

As described in note 2 "Borrowings" in "Item 8. Financial Statements and Supplementary Data" in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, FDC's 7.0% senior notes are guaranteed by most of the existing and future, direct and indirect, wholly owned, domestic subsidiaries of FDC (Guarantors). The Guarantors guarantee the senior secured revolving credit facility, senior secured term loan facility, the 5.0% senior secured notes, the 5.375% senior secured notes, and the 6.75% senior secured notes, which rank senior in right of payment to all existing and future unsecured and second lien indebtedness of FDC's guarantor subsidiaries to the extent of the value of the collateral. The Guarantors guarantee the 5.75% senior second lien notes which rank senior in right of payment to all existing and future unsecured indebtedness of FDC's guarantor subsidiaries to the extent of the value of the collateral. The 7.0% senior note guarantee is unsecured and ranks equally in right of payment with all existing and future senior indebtedness of the guarantor subsidiaries but senior in right of payment to all existing and future subordinated indebtedness of FDC's guarantor subsidiaries.

All of the above guarantees are full, unconditional, and joint and several and each of the Guarantors is 100% owned, directly or indirectly, by the Company. None of the other subsidiaries of the Company, either direct or indirect, guarantee the notes (Non-Guarantors). The Guarantors are subject to release under certain circumstances as described below.

The credit agreement governing the guarantees of the senior secured revolving credit facility and senior secured term loan facility provide for a Guarantor to be automatically and unconditionally released and discharged from its guarantee obligations in certain circumstances, including under the following circumstances:

the Guarantor ceases to be a "restricted subsidiary" for purpose of the agreement because the Company no longer directly or indirectly owns 50% of the equity or, if a corporation, stock having voting power to elect a majority of the board of directors of the Guarantor; or
the Guarantor is designated as an "unrestricted subsidiary" for purposes of the agreement covenants; or
the Guarantor is no longer wholly owned by the Company subject to the value of all Guarantors released under this provision does not exceed (x) 10% of the Company's Covenant EBITDA plus (y) the amount of investments permitted under the agreement in respect of non-guarantors.

The indentures governing all of the other guarantees described above provide for a Guarantor to be automatically and unconditionally released and discharged from its guarantee obligations in certain circumstances, including upon the earliest to occur of:

- the sale, exchange or transfer of the subsidiary's capital stock or all or substantially all of its assets;
- designation of the Guarantor as an "unrestricted subsidiary" for purposes of the indenture covenants;
- release or discharge of the Guarantor's guarantee of certain other indebtedness; or
- legal defeasance or covenant defeasance of the indenture obligations when provision has been made for them to be fully satisfied.

The following tables present the results of operations, comprehensive income, financial position and cash flows of the Company (FDC Parent Company), the Guarantor subsidiaries, the Non-Guarantor subsidiaries and consolidation adjustments for the periods presented to arrive at the information for the Company on a consolidated basis:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For an understanding of the significant factors that influenced our results, the following discussion should be read in conjunction with our unaudited consolidated financial statements and related notes appearing elsewhere in this report. This management's discussion and analysis should also be read in conjunction with the management's discussion and analysis and consolidated financial statements for the year ended December 31, 2015 included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 25, 2016.

Executive Overview

We sit at the center of global electronic commerce. We believe we offer our clients the most complete array of integrated solutions in the industry, covering their needs across next generation commerce technologies, merchant acquiring, issuing, and network solutions. We serve our clients in 118 countries, reaching approximately 6 million business locations over the course of a year and over 4,000 financial institutions. We believe we have the industry's largest distribution network, driven by our partnerships with many of the world's leading financial institutions, our direct sales force, and a network of distribution partners. We are the largest merchant acquirer, issuer processor, and independent network services provider in the world, enabling businesses to accept electronic payments, helping financial institutions issue credit, debit and prepaid cards, and routing secure transactions between them. In 2015, we processed 79 billion transactions globally, or over 2,500 per second. In our largest market, the United States, we acquired \$1.7 trillion of payment volume, accounting for nearly 10% of U.S. GDP.

Our business is characterized by transaction related fees, multi-year contracts, and a diverse client base, which allows us to grow alongside our clients. Our multi-year contracts allow us to achieve a high level of recurring revenues with the same clients. While the contracts typically do not specify fixed revenues to be realized thereunder, they do provide a framework for revenues to be generated based on volume of services provided during such contracts term. Our business also generally requires minimal incremental capital expenditures and working capital to support additional revenue within our existing business lines.

Our Strategy

Our ability to grow our business is influenced by global expenditure growth, increasing our share in electronic payments and providing value-added products and services. We grow our business through diversification of product offerings such as credit, debit, prepaid, Clover, and our suite of security products. We believe we offer our clients the most complete array of integrated solutions in our industry, covering their needs across next-generation commerce technology, merchant acquiring, issuing, and network solutions. We believe this differentiates us from our competition and will continue to drive our growth in the future.

We work with a variety of partners to deliver our solutions. We help merchants by delivering data-driven insights and other services to help them grow and create better and secure purchase experiences for consumers across all commerce platforms. We assist merchants in day to day operations of their business via our Clover line of products which enables merchants to more efficiently run their businesses, build customer loyalty, and gain valuable insights which help grow their businesses. We provide financial institutions with solutions to help them grow their revenues, enhance customer satisfaction, and deliver their products more timely and efficiently.

We continue to execute on key initiatives:

Tangible improvements in North America merchant business

Strong momentum in international markets

Enterprise growth continues

Maintaining expense discipline

Table of Contents

Components of Revenue

We generate revenue by providing commerce-enabling solutions. Our major components of revenue have not changed from those discussed within “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2015.

Factors Affecting the Comparability of Our Results of Operations

As a result of a number of factors, our historical results of operations are not comparable from period to period and may not be comparable to our financial results of operations in future periods. Key factors affecting the comparability of our results of operations are summarized below.

Currency Impact

Although the majority of our revenue is earned in U.S. dollars, a portion of our revenues and expenses are in foreign currencies. As a result, changes in foreign currencies against the U.S. dollar can impact our results of operations. Additionally, we have intercompany debts in foreign currencies, which impacts our results of operations. In recent periods, the U.S. dollar has appreciated significantly against most foreign currencies, which has negatively impacted our revenues generated in foreign currencies as presented in U.S. dollars in our unaudited consolidated financial statements. We believe the presentation of constant currency provides relevant information and we use this non-GAAP financial measure to, among other things, evaluate our ongoing operations in relation to foreign currency fluctuations. The presentation of non-GAAP financial measures should not be considered in isolation or as a substitute for our related financial results prepared in accordance with GAAP (Generally Accepted Accounting Principles). For additional information on our constant currency calculation, see “Segment Results” within this Form 10-Q.

Interest Expense

As a result of our capital market activities over the past few years, we have lowered the average interest rate of our outstanding borrowings from 7.4% as of December 31, 2014 to 5.3% as of September 30, 2016. In addition, for the nine months ended September 30, 2016, we incurred \$18 million in fees to modify existing long-term debt which is recorded within "Interest expense, net" in the unaudited consolidated statements of operations.

Debt Extinguishment Costs

We incurred \$3 million and \$58 million of losses on debt extinguishment during the three and nine months ended September 30, 2016, respectively. We recorded \$108 million on debt extinguishments during the three and nine months ended September 30, 2015.

Stock-Based Compensation Expense

The table below shows the stock-based compensation expense split between Cost of services and Selling, general, and administrative expense.

	Three months ended September 30,		Nine months ended September 30,	
(in millions)	2016	2015	2016	2015
Cost of services	\$ 19	\$ —	\$ 91	\$ —

Edgar Filing: FIRST DATA CORP - Form 10-Q

Selling, general, and administrative	24	8	123	31
Total	\$ 43	\$ 8	\$214	\$ 31

Stock based compensation expense increased for the three and nine months ended September 30, 2016 over the corresponding prior year periods, as we recognized \$52 million in expense in the first quarter of 2016 that was directly associated with our initial public offering and began recognizing stock based compensation expense over the respective service period which commenced upon the completion of our initial public offering on October 15, 2015. See note 3 “Stock Compensation Plans” to our unaudited consolidated financial statements in Part I of this Form 10-Q for additional information about our stock compensation plans.

Table of Contents

Restructuring and Cost Management Initiatives

During the second quarter, we successfully achieved over \$200 million in annualized gross savings from our previously announced cost management initiative. As a result of these initiatives, and our cost management focus, we have increased segment EBITDA margin by over 300 basis points since December 31, 2013. To achieve these savings, we incurred approximately \$105 million in restructuring charges. For the three and nine months ended September 30, 2016, we incurred \$6 million and \$51 million, respectively, in restructuring charges. For the three and nine months ended September 30, 2015, we incurred \$20 million and \$40 million, respectively, in restructuring charges. See note 9 "Restructuring" to our unaudited consolidated financial statements in Part I of this Form 10-Q for additional information about our restructuring and cost savings initiatives.

Results of Operations

Consolidated results should be read in conjunction with note 5 "Segment Information" to our unaudited consolidated financial statements in Part I, Item 1 of this Form 10-Q, which provides more detailed discussions concerning certain components of the unaudited consolidated statements of operations. All significant intercompany accounts and transactions have been eliminated within the consolidated results.

Overview

Net income attributable to First Data Corporation for the three months ended September 30, 2016 improved to \$132 million from a net loss of \$126 million during the same period in 2015. The improvement in net income is attributable to improved operating results, lower interest expense of \$125 million, and lower debt extinguishment cost of \$105 million, partially offset by an increase of \$35 million in stock-based compensation expense and a \$31 million loss on divestiture of an international business unit.

Net income attributable to First Data Corporation for the nine months ended September 30, 2016 improved to \$228 million from a net loss of \$264 million during the same period in 2015. The improvement is attributable to improved operating results, lower interest expense of \$389 million, lower debt extinguishment charges of \$50 million, and a \$29 million gain on the Visa Europe share sale, partially offset by an increase of \$183 million in stock-based compensation expense, a \$17 million increase in other operating expenses, and a \$31 million loss on divestiture of an international business unit.

Segment Results

We operate three reportable segments: Global Business Solutions, Global Financial Solutions, and Network & Security Solutions. Our segments are designed to establish global lines of businesses that work seamlessly with our teams in our regions of North America (United States and Canada), EMEA (Europe, Middle East, and Africa), LATAM (Latin America and Caribbean region), and APAC (Asia Pacific).

The business segment measurements provided to and evaluated by the chief operating decision maker are computed in accordance with the principles listed below:

• The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies.

• Intersegment revenues are eliminated in the segment that sells directly to the end market.

• Segment revenue excludes reimbursable PIN debit fees, postage, and other revenue.

• Segment EBITDA includes equity earnings in affiliates and excludes depreciation and amortization expense, net income attributable to noncontrolling interests, other operating expenses, and other income (expense). Additionally,

segment EBITDA is adjusted for items similar to certain of those used in calculating our compliance with debt covenants. The additional items that are adjusted to determine segment EBITDA are:

- stock-based compensation and related expenses are excluded;
- debt issuance costs are excluded and represent costs associated with issuing debt and modifying our debt structure;
- and

Table of Contents

Kohlberg Kravis Roberts & Co. (KKR) related items including annual sponsor and other fees for management, consulting, financial, contract termination, and other advisory services are excluded. Upon our public offering on October 15, 2015, we are no longer required to pay management fees to KKR.

For significant affiliates, segment revenue and segment EBITDA are reflected based on our proportionate share of the results of our investments in businesses accounted for under the equity method and consolidated subsidiaries with noncontrolling ownership interests. For other affiliates, we include equity earnings in affiliates, excluding amortization expense, in segment revenue and segment EBITDA. In addition, our Global Business Solutions segment measures reflect revenue-based commission payments to Independent Sales Organizations (ISOs) and sales channels, which are treated as an expense in the unaudited consolidated statements of operations, as contra revenue.

Corporate operations include corporate-wide governance functions such as our executive management team, tax, treasury, internal audit, corporate strategy, and certain accounting, human resources and legal costs related to supporting the corporate function. Costs incurred by Corporate that are attributable to a segment are allocated to the respective segment.

Certain measures exclude the estimated impact of foreign currency changes (constant currency). To present this information, monthly results during the periods presented for entities reporting in currencies other than U.S. dollars are translated into U.S. dollars at the average exchange rates in effect during the corresponding month of the prior fiscal year, rather than the actual average exchange rates in effect during the current fiscal year. Once translated, each month during the periods presented is added together to calculate the constant currency results for the periods presented.

Table of Contents

Global Business Solutions segment results

The following table displays total segment revenue by region and illustrates, on a percentage basis, the impact of foreign currency fluctuations on revenue growth for the periods presented:

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2016	2015	Percent Change	Constant Currency Percent Change	2016	2015	Percent Change	Constant Currency Percent Change
Revenues:								
North America	\$819	\$813	1 %	1 %	\$2,371	\$2,402	(1) %	(1) %
EMEA	137	134	2 %	8 %	417	397	5 %	9 %
APAC	43	44	(2) %	(6) %	125	133	(6) %	(3) %
LATAM	46	41	12 %	45 %	124	118	5 %	44 %
Total segment revenue	\$1,045	\$1,032	1 %	3 %	\$3,037	\$3,050	— %	2 %
Key indicators:								
North America merchant transactions (a)	11,881	11,125	7 %		34,368	32,130	7 %	
International merchant transactions (b)	2,087	1,741	20 %		5,801	4,985	16 %	

North American merchant transactions include acquired Visa and MasterCard credit and signature debit, American Express and Discover, PIN-debit, electronic benefits transactions, processed-only and gateway customer transactions at the Point of Sale (POS). North American merchant transactions reflect 100% of alliance transactions.

International transactions include Visa, MasterCard, and other payment network merchant acquiring transactions for clients outside the U.S. and Canada. Transactions include credit, signature debit, PIN-debit POS, POS gateway, and Automated Teller Machine (ATM) transactions.

Global Business Solutions Segment revenue for the three months ended September 30, 2016 increased 3% on a constant currency basis as we experienced constant currency revenue growth in North America, EMEA, and LATAM. North America revenue growth was driven by net pricing growth resulting in an increase of approximately \$13 million from certain fee increases which only impacted the third quarter of 2016 and \$12 million from other non-recurring items. North American hardware revenue declined \$26 million as 2015 benefited from the roll-out of Europay, MasterCard and Visa (EMV). Processing revenue was impacted by 7% transaction growth mostly offset by lower blended yield. The decline in blended yield reflects the impact of both pricing and shift in mix within our overall portfolio. Declines were partially offset by an increase in software sales of approximately \$5 million as a result of growth in our merchant suite of products. Constant currency revenue growth in EMEA was largely driven by growth in transaction volume. Constant currency revenue growth in our LATAM region was driven by revenue growth in our Brazil market of approximately \$9 million and growth in Argentina of approximately \$7 million. APAC revenue declined due to lower ATM fees in Australia.

Global Business Solutions Segment revenue for the nine months ended September 30, 2016 increased 2% on a constant currency basis as we experienced constant currency growth in our EMEA and LATAM regions. North America revenue growth declined as lower hardware sales of \$39 million were partially offset by an increase of \$23 million in software sales as a result of growth in our merchant suite of products, including the initial roll-out of Transarmor Solutions. In addition, the year to date period benefited by approximately \$15 million from other non-recurring items. Processing revenue declined as transaction growth of 7% was offset by lower blended yield, which reflects the impact of attrition within our SMB portfolio. Constant currency revenue growth in our EMEA region was driven by volume growth and an approximate \$10 million benefit from changes in interchange pricing

during the first quarter of 2016. Constant currency revenue growth in our LATAM region was driven by revenue growth in our Brazil market of approximately \$26 million and growth in Argentina of approximately \$20 million. APAC revenue declined due to lower ATM fees in Australia.

North America transaction growth for the three and nine months ended September 30, 2016 compared to the same periods in 2015 was driven largely by growth within our third-party distribution channels. International transaction growth for the three and nine months ended September 30, 2016 compared to the same periods in 2015 outpaced revenue growth due to the impact of foreign currency exchange rate movements as well as strong transaction volume growth in all international regions.

	2016	2015	Percent Change	Constant Currency Percent Change	2016	2015	Percent Change	Constant Currency Percent Change
Revenues:								
North America	\$236	\$232	2 %	2 %	\$706	\$649	9 %	9 %
EMEA	113	114	(1) %	8 %	324	318	2 %	7 %
APAC	21	19	11 %	9 %	59	57	4 %	6 %
LATAM	27	26	4 %	28 %	89	77	16 %	39 %
Total segment revenue	\$397	\$391	2 %	5 %	\$1,178	\$1,101	7 %	10 %
Key indicators:								
North America card accounts on file (a)					844	809	4 %	
International card accounts on file (b)					147	139	6 %	

(a) North America card accounts on file reflect the total number of bankcard credit and retail credit accounts as of the end of the periods presented.

(b) International card accounts on file reflect total bankcard and retail accounts outside the United States and Canada as of the end of the periods presented.

Global Financial Solutions Segment revenue for the three months ended September 30, 2016 increased 5% on a constant currency basis compared to the same period in 2015 led by growth across all regions. North America revenue growth was driven by growth in our print business and our credit and retail card processing businesses. Our print business grew by approximately \$9 million principally due to a new enterprise win from an existing customer. Credit and retail processing grew by approximately \$5 million from an increase in card accounts on file. The growth in our print and processing businesses was partially offset by a \$6 million decline within our plastics business. The plastics decline is largely attributed to strong prior year growth related to EMV implementation volumes. EMEA constant currency revenue growth was driven by a \$6 million increase in professional services revenue and a \$4 million increase in ATM sales. Included within professional services revenue growth is approximately \$3 million of growth attributed to non-recurring revenue items. LATAM constant currency revenue growth was primarily driven by strong growth in Argentina of \$5 million and Colombia of \$3 million. APAC constant currency revenue growth was driven by growth in professional services.

Global Financial Solutions Segment revenue for the nine months ended September 30, 2016 increased 10% on a constant currency basis compared to the same periods in 2015 led by growth across all regions. North America revenue growth was driven by growth in our plastics and print businesses of \$33 million and our credit and retail card processing businesses of \$28 million. Growth in print and plastics was driven by higher print volumes primarily from new business and plastics growth resulting from EMV card issuances. Credit and retail processing growth was driven by an increase in card accounts tied to growth from existing clients and new business. EMEA constant currency revenue growth was primarily driven by growth in professional services. LATAM constant currency revenue growth was driven by strong growth in Argentina and \$13 million from contract modifications and resolution of license fee disputes.

North America card accounts on file increased for the nine months ended September 30, 2016 compared to the same period in 2015 from growth in existing clients. International accounts on file increased for the nine months ended September 30, 2016 compared to the same period in 2015 due to new portfolios of existing clients throughout all of our international regions.

Table of Contents

Network & Security Solutions segment results

The following table displays total revenue by product. Our Network & Security Solutions segment is comprised of more than 95% domestic businesses with no material foreign exchange impact on reported results for the periods indicated:

(in millions)	Three months ended September 30,			Nine months ended September 30,		
	2016	2015	Percent Change	2016	2015	Percent Change
Revenues:						
EFT Network	\$126	\$125	1 %	\$363	\$363	— %
Stored Value Network	92	95	(3) %	261	250	4 %
Security and Fraud	110	105	5 %	322	301	7 %
Other (a)	50	49	2 %	150	152	(1) %
Segment revenue	\$378	\$374	1 %	\$1,096	\$1,066	3 %
Key indicators:						
Network transactions (EFT Network and Stored Value) (b)	5,040	4,684	8 %	14,715	13,851	6 %

(a) Other is primarily comprised of revenue generated from our Government and Online banking businesses.

(b) Network transactions include the debit issuer processing transactions, STAR Network issuer transactions, and closed loop and open loop POS transactions.

Network & Security Solutions revenue for the three months ended September 30, 2016 increased 1% compared to the same period in 2015 driven by growth within our Security and Fraud product category, partially offset by declines within our Stored Value business. EFT Network revenue was relatively flat as STAR growth was offset by the impact of a long-term debit processing contract renewal. Stored value network revenue was down 3%, partly driven by the timing of card shipments in our open loop business. Security and Fraud revenue increased due to growth from our suite of security and fraud products, partially offset by revenue declines within our TeleCheck business of \$7 million for the three months ended September 30, 2016.

Network & Security Solutions revenue for the nine months ended September 30, 2016 increased 3% compared to the same period in 2015 driven by growth within our Stored Value Network and Security and Fraud product categories. EFT Network revenue was flat as STAR growth was offset by the impact of a long-term debit processing contract renewal. Stored Value Network revenue increased due to growth in our closed loop gift card business. Security and Fraud revenue increased due to growth from our suite of security and fraud products, partially offset by revenue declines within our TeleCheck business of \$16 million for the nine months ended September 30, 2016.

Network transaction growth for the three and nine months ended September 30, 2016 compared to the same periods in 2015 was driven by growth in all network transaction categories.

Reimbursable PIN debit fees, postage, and other

Reimbursable PIN debit fees, postage, and other revenue remained flat for the three months ended September 30, 2016 compared to the same periods in 2015.

Reimbursable PIN debit fees, postage, and other revenue increased for the nine months ended September 30, 2016 compared to the same periods in 2015 due to transaction and volume growth related to PIN debit fees of \$33 million and print and plastics mailing services of \$31 million.

Table of Contents

Operating expenses overview

(in millions)	Three months ended September 30,					Nine months ended September 30,				
	2016	2015	Percent Change	Constant Currency Percent Change		2016	2015	Percent Change	Constant Currency Percent Change	
Cost of services (exclusive of items shown below)	\$711	\$686	4 %	5 %		\$2,140	\$2,055	4 %	6 %	
Cost of products sold	87	96	(9)%	(8)%		251	257	(2)%	— %	
Selling, general, and administrative	499	521	(4)%	(3)%		1,563	1,567	— %	1 %

Other operating expenses	12	20	(40)%	(36)%		57	40	43 %	45 %	
Total expenses (excluding reimbursable items)	1,546	1,580	(2)%	(1)%		4,724	4,679	1 %	3 %	
Reimbursable PIN debit fees, postage, and other	936	938	— %	— %		2,795	2,737	2 %	2 %	
Total expenses	\$2,482	\$2,518	(1)%	(1)%		\$7,519	\$7,416	1 %	2 %	

Cost of services

(in millions)	Three months ended September 30,					Nine months ended September 30,				
	2016	2015	Percent Change	Constant Currency Percent Change		2016	2015	Percent Change	Constant Currency Percent Change	
Salaries, wages, and bonus	\$365	\$364	— %			\$1,105	\$1,111	(1)%		
Stock-based compensation	19	—	NM			91	—	NM		
Outside professional services	68	58	17 %			196	177	11 %		
Software, telecommunication infrastructure, and repairs	103	93	11 %			299	284	5 %		
Other	156	171	(9)%			449	483	(7)%		
Cost of services expense	\$711	\$686	4 %	5 %		\$2,140	\$2,055	4 %	6 %	

Cost of services expense increased for the three months ended September 30, 2016 compared to the same period in 2015 due to a \$19 million increase in stock-based compensation, \$8 million increase in merchant credit losses, and a \$10 million increase in outside professional services, partially offset by the benefit of foreign currency exchange movements. Stock based compensation expense increased as we began recognizing expense over the respective service period which commenced upon the completion of our initial public offering. Merchant credit losses have increased due to higher fraud rates and charge-backs resulting from a liability shift post EMV implementation. Outside professional services expense increased as we continue to invest in our operating businesses.

Cost of services expense increased for the nine months ended September 30, 2016 compared to the same period in 2015 due to a \$91 million increase in stock-based compensation of which \$22 million relates to expenses associated with our initial public offering. Outside professional services, software, and infrastructure expenses increased as we continue to invest in our core operating businesses. Other expenses declined as the first half of 2015 was negatively impacted by two client-related matters totaling \$25 million. In addition, included within other expenses is an increase of approximately \$20 million in merchant credit losses. Merchant credits losses increased due to higher fraud rates and charge-backs resulting from a liability shift post EMV. Expense increases were partially offset by the benefit of

foreign exchange rate movements.

Cost of products sold

Cost of products sold expense decreased for the three and nine months ended September 30, 2016 compared to the same period in 2015 driven by lower hardware sales.

Table of Contents

Selling, general, and administrative

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2016	2015	Percent Change	Constant Currency Percent Change	2016	2015	Percent Change	Constant Currency Percent Change
Salaries, wages, bonus, and other	\$166	\$167	(1)%		\$508	\$535	(5)%	
Stock-based compensation	24	8	200 %		123	31	297 %	
Independent sales organizations (ISOs) commissions	155	167	(7)%		476	475	— %	
Outside professional services	46	68	(32)%		136	173	(21)%	
Commissions	33	40	(18)%		104	115	(10)%	
Other	75	71	6 %		216	238	(9)%	
Selling, general, and administrative expense	\$499	\$521	(4)%	(3)%	\$1,563	\$1,567	— %	1 %

Selling, general, and administrative expense decreased for the three months ended September 30, 2016 compared to the same period in 2015 due to benefits from our strategic expense management initiative during the current period and a decline in retail ISO commissions, partially offset by increased stock-based compensation of \$16 million. Retail ISO commissions declined approximately \$15 million in North America due to consolidation of retail ISOs to wholesale ISOs via acquisition. The decline was partially offset by growth of ISO commissions in EMEA.

Selling, general, and administrative expense remained flat for the nine months ended September 30, 2016 compared to the same period in 2015. The growth in stock-based compensation expense was split between expenses associated with our initial public offering of approximately \$30 million and recurring expenses of approximately \$62 million, which commenced with the completion of our initial public offering last year. The increase in stock based compensation expense was offset by decreases in other salary based compensation and outside professional services expenses, as we experienced benefits from our strategic expense management initiative during 2016.

Depreciation and amortization

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2016	2015	Percent Change		2016	2015	Percent Change	
Depreciation expense	\$79	\$73	8 %		\$227	\$215	6 %	
Amortization expense	158	184	(14)%		486	545	(11)%	
Depreciation and amortization	\$237	\$257	(8)%		\$713	\$760	(6)%	

Depreciation expense increased for the three and nine months ended September 30, 2016 due to higher capital expenditure investments over the past several years.

Amortization expense decreased for the three and nine months ended September 30, 2016 due to a reduction in amortization expense on acquisition intangibles.

Other operating expenses, net

Other operating expenses decreased for the three months ended September 30, 2016 due to a decline in restructuring costs incurred as part of our expense management initiative, partially offset by approximately \$5 million in current

quarter expense from settlement of a client related matter. Refer to note 9 “Restructuring” to our unaudited consolidated financial statements in Part I, Item 1 of this Form 10-Q for details regarding restructuring charges and our restructuring program.

Other operating expenses increased for the nine months ended September 30, 2016 due to restructuring costs incurred as part of our expense management initiative and \$5 million in current quarter expense from settlement of a client related matter. Refer to note 9 “Restructuring” to our unaudited consolidated financial statements in Part I, Item 1 of this Form 10-Q for details regarding restructuring charges and our restructuring program.

Table of Contents

Reimbursable PIN debit fees, postage, and other

Reimbursable PIN debit fees, postage, and other expense remained flat for the three months ended September 30, 2016 compared to the same periods in 2015.

Reimbursable PIN debit fees, postage, and other expense increased for the nine months ended September 30, 2016 compared to the same periods in 2015 due to transaction and volume growth related to PIN debit fees of \$33 million and print and plastics mailing services of \$31 million.

Interest expense, net

	Three months ended September 30,			Nine months ended September 30,		
(in millions)	2016	2015	Percent Change	2016	2015	Percent Change
Interest expense, net	\$(263)	\$(388)	(32)%	\$(810)	\$(1,199)	(32)%

Interest expense, net decreased significantly for the three and nine months ended September 30, 2016 compared to the same periods in 2015 due to lower outstanding debt balances as a result of debt extinguishments and lower interest rates as a result of debt paydowns and refinancing activity during the second half of 2015 and the first six months of 2016. Interest expense, net for the nine months ended September 30, 2016 includes \$18 million of fees incurred to modify long term debt. Refer to note 2 "Borrowings" to our unaudited consolidated financial statements in Part I, Item 1 of this Form 10-Q for additional information.

Loss on debt extinguishment

Loss on debt extinguishment	\$(3)	\$(108)	(97)%	\$(58)	\$(108)	(46)%

Refer to note 2 "Borrowings" to our unaudited consolidated financial statements in Part I, Item 1 of this Form 10-Q for additional information.

Other income (expense)

	Three months ended September 30,		Nine months ended September 30,	
(in millions)	2016	2015	2016	2015
Gain on Visa Europe share sale	\$—	\$—	\$ 29	\$ —
Derivative financial instruments losses	—	(9)	(5)	(25)
Divestitures, net (loss) gain	(31)	—	(31)	3
Non-operating foreign currency gains (losses)	2	(1)	21	23
Other miscellaneous expense	(1)	—	—	—
Other income (expense)	\$(30)	\$(10)	\$ 14	\$ 1

Gain on Visa Europe share sale

On June 21, 2016, Visa Inc. (Visa) acquired Visa Europe (VE), of which we were a member and shareholder through certain subsidiaries. On June 21, 2016, we received cash of €24.2 million (\$27 million equivalent at June 21, 2016) and Visa preferred stock which is convertible into Visa common shares. We will also receive a deferred payment three years after the closing date of the acquisition, valued at approximately €2.3 million (\$2.6 million equivalent at June 21, 2016). As of June 21, 2016, the Class A common stock equivalent of the preferred stock was approximately \$19 million. However, the preferred shares have been assigned a value of zero based on transfer restrictions and Visa's ability to adjust the conversion ratio dependent on the outcome of existing and potential litigations in the Visa Europe territory over the next 12 years. We could receive additional proceeds as a number of First Data subsidiaries are working with certain members of Visa Europe who sponsor other of our merchant acquiring businesses in Europe in respect of sale proceeds received by those members.

Table of Contents

Divestitures, net (loss) gain

On September 30, 2016, we completed the sale of our Australian ATM business, which was reported as part of the Global Business Solutions segment. Associated with the transaction, we recognized a \$31 million loss on the sale. The loss is comprised of investments of \$69 million reduced by anticipated cash proceeds of \$38 million.

Non-operating foreign currency gains (losses)

As of January 1, 2016, all of our euro-denominated debt was designated as a hedge against our net investment in our euro-denominated business units, with the gain (loss) recognized through comprehensive income (loss). The gain recognized within "Other income (expense)" during the three and nine months ended September 30, 2016 was driven by gains on intercompany loans. The gain for the three and nine months ended September 30, 2015 relates to currency translations on our euro-denominated debt, which is now hedged, and on our intercompany loans. The gain during the nine months ended September 30, 2015 was driven by the U.S. dollar strengthening 8% against the euro.

Income taxes

	Three months ended		Nine months ended	
	September 30,		September 30,	
(in millions)	2016	2015	2016	2015
Income tax expense	\$24	\$32	\$57	\$45
Effective income tax rate	11 %	(74)%	12 %	(75)%

The effective tax rates for the three and nine months ended September 30, 2016 and 2015, respectively, were different from the statutory rate as a result of recording tax expense on our foreign earnings, but not on our domestic earnings, as a result of the valuation allowance recorded in the U.S. Our tax expense in all periods was also impacted by us not recording tax expense on noncontrolling interests from pass through entities. The effective income tax rate for the three and nine months ended September 30, 2016 benefited by 11% and 5%, respectively, from discrete items.

Our liability for unrecognized tax benefits was approximately \$245 million as of September 30, 2016. We anticipate it is reasonably possible that the liability for unrecognized tax benefits may decrease by up to \$122 million over the next twelve months beginning September 30, 2016 as a result of the possible closure of federal tax audits, potential settlements with certain states and foreign countries and the lapse of the statute of limitations in various state and foreign jurisdictions.

Following the recognition of significant deferred tax valuation allowances in 2012, we have regularly experienced substantial volatility in our effective tax rate in interim periods and across years. This is due to deferred income tax benefits not being recognized in several jurisdictions, most notably in the United States, and changes in the amount, mix, and timing of pretax earnings in tax paying jurisdictions that can have a significant impact on the overall effective tax rate. This interim and full year volatility is likely to continue in future periods until it is more likely than not that we will be able to realize the benefits of net operating loss carryforwards and the deferred tax valuation allowances are released.

Equity earnings in affiliates

Three months ended September	Nine months ended September 30,
------------------------------	---------------------------------

30,

(in millions)	2016	2015	Percent Change	2016	2015	Percent Change
Equity earnings in affiliates	\$66	\$61	8 %	\$198	\$175	13 %

Equity earnings in affiliates increased for the three months ended September 30, 2016 compared to the same period in 2015 due to revenue growth within our Wells Fargo Merchant Services JV and lower amortization expense of \$2 million.

Equity earnings in affiliates increased for the nine months ended September 30, 2016 compared to the same period in 2015 due to revenue growth within our Wells Fargo Merchant Services JV and lower amortization expense of \$11 million.

Table of Contents

Net income attributable to noncontrolling interests and redeemable noncontrolling interest

(in millions)	Three months ended September 30,			Nine months ended September 30,		
	2016	2015	Percent Change	2016	2015	Percent Change
Net income attributable to noncontrolling interests and redeemable noncontrolling interest	\$68	\$51	33 %	\$181	\$159	14 %

Net income attributable to noncontrolling interests and redeemable noncontrolling interest increased during the three and nine months ended September 30, 2016 compared to the same periods in 2015 driven by transaction volume growth and the \$4 million benefit from certain fee increases which only impacted the third quarter of 2016 within our Bank of America Merchant Services alliance. Refer to note 7 "Redeemable Noncontrolling Interest" to our unaudited consolidated financial statements in Part I, Item 1 of this Form 10-Q for additional information.

Segment EBITDA Overview

The following table displays Segment EBITDA for the periods indicated:

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2016	2015	Percent Change	Constant Currency Percent Change	2016	2015	Percent Change	Constant Currency Percent Change
Segment EBITDA:								
Global Business Solutions	\$455	\$431	6 %	8 %	\$1,279	\$1,245	3 %	5 %
Global Financial Solutions	158	145	9 %	13 %	473	388	22 %	26 %

Network & Security Solutions	43.9%	43.3%	60 bps	44.1%	42.0%	210 bps
Total Segment EBITDA Margin	40.6%	39.1%	150 bps	39.9%	37.7%	220 bps

Global Business Solutions

Global Business Solutions Segment EBITDA increased 8% and 5% on a constant currency basis for the three and nine months ended September 30, 2016, respectively, compared to the same period in 2015 primarily driven by the impact of the revenue items noted previously within "Global Business Solutions segment results" above, along with expense declines driven by our expense management initiatives.

Global Financial Solutions

Global Financial Solutions Segment EBITDA increased 13% and 26% on a constant currency basis for the three and nine months ended September 30, 2016, respectively, compared to the same periods in 2015 due to the impact of the revenue items noted within "Global Financial Solutions segment results" above, which for the nine months ended September 30, 2016 includes \$13 million from contract modifications and resolution of license fee disputes. The revenue growth was partially offset by an increase in variable expenses within our North America region.

Table of Contents

Network & Security Solutions

Network & Security Solutions Segment EBITDA increased 2% and 8% for the three and nine months ended September 30, 2016, respectively, compared to the same periods in 2015 due to the revenue items noted within "Network & Security Solutions segment results" above. In addition to revenue growth, expenses declined for the nine months ended September 30, 2016 by approximately \$3 million due to expenses associated with strategic investments made during the first quarter of 2015.

Corporate

Corporate Segment EBITDA expenses increased 14% for the three months ended September 30, 2016 compared to the same period in 2015 due to an increase in health and welfare and fringe benefits. Segment EBITDA remained flat for the nine months ended September 30, 2016.

Adjusted Net Income

Adjusted net income is a non-GAAP financial measure that provides an alternative view of performance used by management which the Company believes enhances investors' understanding of our internal assessment of performance. Adjusted net income excludes amortization of acquisition-related intangibles, stock-based compensation, restructuring costs and other items affecting comparability and therefore, are not reflective of continuing operating performance. The presentation of adjusted net income and other non-GAAP financial measures provide investors greater transparency into ongoing results of operations allowing investors to better compare our results from period to period. The adjusted net income measure is not, and should not be viewed as, a substitute for GAAP reported net income.

The following table reconciles the reported net income (loss) presented in accordance with GAAP to the non-GAAP financial measure of adjusted net income for the three and nine months ended September 30, 2016:

(in millions)	Three months ended September 30,			Nine months ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Net income (loss) attributable to First Data Corporation	\$ 132	\$(126)	NM	\$ 228	\$(264)	NM
Adjustments:						
Stock-based compensation	43	8	438 %	214	31	590 %
Loss on debt extinguishment (a)	3	108	(97)%	58	108	(46)%
Mark-to-market adjustment for derivatives and euro-denominated debt (b)	—	13	(100)%	5	(20)	NM

Adjusted net income	\$312	\$171	82 %	\$855	\$350	144 %
NM represents not meaningful						

Table of Contents

- (a) Represents costs associated with debt refinancing on extinguished debt.
- (b) Represents mark-to-market activity related to our undesignated hedges, ineffectiveness of our designated hedges, and mark-to-market activity on our euro-denominated debt held in the United States.
Represents amortization of intangibles established in connection with the 2007 Merger and acquisitions we have made since 2007, excluding the percentage of our consolidated amortization of acquisition intangibles related to non wholly owned consolidated alliances equal to the portion of such alliances owned by our alliance partners. This line also includes amortization related to deferred financing costs.
- (c) Represents restructuring, impairments, non-normal course litigation and regulatory settlements, investments gains (losses), fees paid on debt modifications, and divestitures, as applicable to the periods presented. The third quarter of 2016 excludes the divestiture in our Australian ATM business, which is broken out separately within "Loss on Australian ATM divestiture" within the above table.
The tax effect of the adjustments between our GAAP and adjusted results takes into account the tax treatment and related tax rate(s) that apply to each adjustment in the applicable tax jurisdiction(s). Generally, this results in a tax impact at the U.S. effective tax rate for certain adjustments, including the majority of amortization of intangible assets, deferred financing costs, stock compensation, and loss on debt extinguishment; whereas the tax impact of other adjustments, including restructuring expense, depends on whether the amounts are deductible in the respective tax jurisdictions and the applicable effective tax rate(s) in those jurisdictions. Income tax (expense) benefit also includes the impact of significant discrete tax items impacting Net income (loss) attributable to First Data Corporation.
- (e)

Adjusted net income for the three and nine months ended September 30, 2016 and 2015 improved due to better operating performance and lower interest expense.

Liquidity and Capital Resources

Our source of liquidity is principally cash generated from operating activities supplemented as necessary on a short-term basis by borrowings against our senior secured revolving credit facility and accounts receivable securitization facility. We believe our current level of cash and short-term financing capabilities along with future cash flows from operations are sufficient to meet the ongoing needs of the business. To the extent future cash flows exceed the ongoing needs of the business, we may use all or a portion of the excess cash to reduce our debt balances.

Over the past few years, we completed various amendments and modifications to several of our debt agreements in an effort to extend our debt maturities and lower interest rates. Our current level of debt may limit our ability to get additional funding beyond our revolving credit facility and accounts receivable securitization facility if needed at our current funding rate. Details regarding our debt structure are provided in note 2 "Borrowings" in "Item 8. Financial Statements and Supplementary Data" in our Annual Report on Form 10-K for the year ended December 31, 2015.

Debt restructuring and refinancing activities

In the first quarter of 2016, we redeemed our 8.75% senior secured second lien notes due 2022 and \$887 million of our senior secured term loan facility due March 2018. We also issued \$900 million aggregate principal amount of 5.0% senior secured notes due 2024. Associated with these transactions we recorded \$46 million in loss on debt extinguishment.

In the second quarter of 2016, our U.S. dollar-denominated senior secured term loan due March 2018 was refinanced through new and existing lenders to provide approximately \$3.7 billion of senior secured term loans due March 2021. The senior secured term loan due March 2021 bore interest at a rate of LIBOR plus 400 basis points or a base rate plus 300 basis points. In connection with this transaction, we recorded approximately \$5 million in loss on debt extinguishment and incurred \$11 million in debt issuance costs.

Also in the second quarter of 2016, our senior secured term loan due September 2018 and euro-denominated senior secured term loan due March 2018 were refinanced through new and existing lenders to provide approximately \$1.0 billion and approximately €311 million (\$342 million equivalent), respectively, of senior secured term loans due July 2022. The senior secured term loans due July 2022 bear interest at a rate of LIBOR plus 375 basis points or, solely with respect to the U.S. dollar denominated term loans, a base rate plus 275 basis points. In connection with this transaction, we recorded \$4 million in loss on debt extinguishment and incurred \$4 million in debt issuance costs.

In the third quarter of 2016, we paid down \$350 million aggregate principal amount of our March 2021 senior secured term loans. In connection with this transaction, we recorded \$3 million in loss on debt extinguishment.

Subsequent to the end of the third quarter of 2016, we paid down \$100 million aggregate principal amount of our March 2021 senior secured term loans. We recorded an immaterial amount of loss on debt extinguishment in connection with this transaction.

Also subsequent to the end of the third quarter, our senior secured term loan due March 2021 was refinanced through new and existing lenders to provide approximately \$4.5 billion (including €0.2 billion of euro denominated term loans) of new senior secured term loans due March 2021. The new senior secured term loan due March 2021 bears interest at a rate of LIBOR plus 300

Table of Contents

basis points or, solely with respect to U.S. dollar denominated term loans, an option of either LIBOR plus 300 basis points or the base rate plus 200 basis point.

Total borrowings and net debt

During the nine months ended September 30, 2016, we used excess cash generated by the business along with existing cash on our unaudited consolidated balance sheet to pay down outstanding borrowings. The chart below shows the net debt balances as of September 30, 2016 and December 31, 2015. Net debt is a non-GAAP measure defined as total long-term borrowings plus short-term and current portion of long-term borrowings, at par value, excluding lines of credit used for settlement purposes, less cash and cash equivalents. We believe that net debt provides additional insight on the level and management of leverage. Net debt is not, and should not be viewed as, a substitute for total outstanding GAAP borrowings.

(in millions)	As of September 30, 2016	As of December 31, 2015
Total long-term borrowings	\$ 18,514	\$ 18,737
Total short-term and current portion of long-term borrowings	377	856
Total borrowings	18,891	19,593
Unamortized discount and unamortized deferred financing costs	173	184
Total borrowings at par	19,064	19,777
Less: settlement lines of credit and other arrangements	(71)	(43)
Gross debt	18,993	19,734
Less: cash and cash equivalents (a)	(475)	(429)
Net debt	\$ 18,518	\$ 19,305

As of September 30, 2016, "Cash and cash equivalents" reflects a reclassification of \$123 million related to (a) settlement activities to conform certain international joint ventures to our global policies, which increased "Cash and cash equivalents" and decreased "Accounts receivable" in our consolidated balance sheet.

Credit ratings

As of November 9, 2016, our long-term corporate family rating from Moody's was B1 (outlook stable). The long-term local issuer credit rating from Standard and Poor's was B+ (stable). The long-term issuer default rating from Fitch was B (positive). A decrease in our credit ratings could affect our ability to access future financing at current funding rates, which could result in increased interest expense in the future.

Cash and cash equivalents

Investments (other than those included in settlement assets) with original maturities of three months or less (that are readily convertible to cash) are considered to be cash equivalents and are stated at cost, which approximates market value. As of September 30, 2016 and December 31, 2015, we held \$475 million and \$429 million in cash and cash equivalents, respectively.

Included in cash and cash equivalents are amounts held by our domestic subsidiaries, Banc of America Merchant Services and Integrated Payment Systems, that are not available to fund operations outside of those subsidiaries. As of September 30, 2016 and December 31, 2015, the cash and cash equivalents held by these subsidiaries totaled \$127 million and \$136 million, respectively. All other domestic cash balances, to the extent available, are used to fund our short-term liquidity needs.

Cash and cash equivalents include amounts held outside of the U.S., totaling \$320 million and \$161 million as of September 30, 2016 and December 31, 2015, respectively. As of September 30, 2016, there was approximately \$240 million of cash and cash equivalents held by our international subsidiaries that was unavailable for general corporate purposes. We plan to fund any international cash needs throughout the remainder of 2016 within our international operations with cash held by our international entities, but if necessary, could fund such needs using cash from the United States, subject to satisfying debt covenant restrictions.

Table of Contents

Cash flows

	Nine months ended September 30,	
Source/(use) (in millions)	2016	2015
Net cash provided by operating activities	\$1,660	\$687
Net cash used in investing activities	(338)	(554)
Net cash used in financing activities	(1,258)	(109)

Cash flows from operating activities

Our operating cash flow is impacted by our level of debt. Approximately \$759 million and \$1.3 billion in cash interest was paid during the nine months ended September 30, 2016 and 2015, respectively. The decrease in cash interest payments is driven by lower principal balances due to debt extinguishments and refinancings and a significant decrease in the weighted average interest rate on our debt.

The chart below reconciles the change in operating cash flows for the nine months ended September 30, 2015 to September 30, 2016.

Source/(use) (in millions)	Nine months ended September 30, 2016
Net cash provided by operating activities, previous period	\$ 687
Increases (decreases) in:	
Net income, excluding other operating expenses and other income (expense) (a)	631
Depreciation and amortization	(50)
Working capital	392
Net cash provided by operating activities, current period (b)	\$ 1,660

(a) Excludes loss on debt extinguishment, stock-based compensation expense and other non-cash items. For a review of our current quarter operating results, see "Results of operations" in Part I, Item 2 of this Form 10-Q.

The nine months ended September 30, 2016 includes a \$123 million reclassification related to settlement activities (b) to conform certain international joint ventures to our global policies, which increased "Cash and cash equivalents" and decreased "Accounts receivable" in our consolidated balance sheet.

For the nine months ended September 30, 2016 compared to the same period in 2015, net income, excluding other operating expenses and other income (expense) increased due to the items noted previously within "Results of Operations." Working capital increased \$188 million from the timing of interest payments and accruals and \$88 million from the settlement of three cross-currency swaps. In addition, working capital improved due to the timing of our working capital requirements, operational improvements, particularly improvements in accounts receivable and inventory, and a \$123 million reclassification related to settlement activities to conform certain international joint ventures to our global policies. The working capital improvements were partially offset by two supplier signing bonuses received in the prior year.

Free Cash Flow

Free cash flow is a non-GAAP measure defined as cash flow provided by operating activities less capital expenditures, distributions to minority interests and other items. We consider free cash flow to be a liquidity measure that provides useful information to management and users of our financial statements about the amount of cash

generated by the business which can then be used to, among other things, reduce outstanding debt. Free cash flow is not, and should not be viewed as, a substitute for GAAP reported financial information.

Free cash flow was \$946 million for the nine months ended September 30, 2016, an increase of \$948 million from the same period in 2015. The increase is primarily driven by improved operating results, reduced cash interest payments, and lower capital expenditures. The decrease in capital expenditures is due to an \$86 million increase in new capital leases and \$17 million from the impact of foreign exchange rates compared to the prior period. The chart below reconciles cash flow from operations to free cash flow for the nine months ended September 30, 2016 and 2015, respectively.

Table of Contents

	Nine months ended	
Source/(use) (in millions)	September 30, 2016	2015
Net cash provided by operating activities (a)	\$1,660	\$687
Capital expenditures	(351)	(457)
Distributions and dividends paid to noncontrolling interests, redeemable noncontrolling interest, and other (a)	(363)	(232)
Free cash flow	\$946	\$(2)

The nine months ended September 30, 2016 includes a \$123 million reclassification related to settlement activities to conform certain international joint ventures to our global policies, which increased "Cash and cash equivalents" and decreased "Accounts receivable" in our consolidated balance sheet. Free cash flow excludes the impact of reclassification.

Cash flows from investing activities

Net cash used in investing activities decreased for the nine months ended September 30, 2016 compared to the same period in 2015 due to a \$106 million reduction in capital expenditures, \$89 million of acquisitions in the prior year, \$27 million of cash received from our investment in Visa Europe, and \$17 million of investments purchased in the prior year. The decreases were partially offset by an \$8 million investment in an international joint venture in the current year.

For a more detailed discussion on the consideration received from our investment in Visa Europe discussed above, refer to note 12 "Supplemental Financial Information" to our unaudited consolidated financial statements in Part I, Item 1 of this Form 10-Q.

Cash flows from financing activities

Net cash used in financing activities increased for the nine months ended September 30, 2016 compared to the same period in 2015 primarily due to principal payments on long-term debt. Principal payments on long-term debt, including payments of call premiums and debt-related costs, net of proceeds from new debt issuances increased \$1.1 billion for the nine months ended September 30, 2016 compared to the same period in 2015. Additionally, cash flows used in financing activities increased due to \$250 million of borrowings outstanding against our revolving credit facility in the prior year and \$59 million of taxes paid for the net settlement of equity awards. These increases were partially offset by \$208 million of proceeds from our accounts receivable securitization facility.

Senior secured revolving credit facility

As of September 30, 2016, our senior secured revolving credit facility had commitments from financial institutions to provide \$1.25 billion of credit. The revolving credit facility matures on June 2, 2020. Besides the letters of credit discussed below, we had no outstanding balances against this facility as of September 30, 2016 and December 31, 2015. As of September 30, 2016, \$1.2 billion remained available under the facility. Excluding the letters of credit, the maximum amount outstanding against this facility during the nine months ended September 30, 2016 was approximately \$430 million while the average amount outstanding during the nine months ended September 30, 2016 was approximately \$160 million.

The senior secured revolving credit facility can be used for working capital and general corporate purposes. We utilize our senior secured revolving credit facility to fund investing or financing activities when cash flows from operating activities are not sufficient. We believe cash on hand and cash flow generated through our normal operating activities in conjunction with the capacity under our senior secured revolving credit facility and accounts receivable

securitization facility is sufficient to meet our liquidity needs.

There are multiple institutions that have commitments under this facility with none representing more than 18% of remaining capacity.

Accounts receivable securitization agreement

As of September 30, 2016, we had \$208 million of outstanding borrowings and \$326 million of pledged receivables under our accounts receivable securitization agreement. The securitization can be used for working capital and general corporate purposes. The maximum borrowing capacity allowed under the accounts receivable securitization agreement was \$240 million as of September 30, 2016. For additional information regarding our accounts receivable securitization agreement, refer to note 2 "Borrowings" to our unaudited consolidated financial statements in Part 1, Item 1 of this Form 10-Q.

Table of Contents

Letters, lines of credit, and other

(in millions)	Total Available (a)		Total Outstanding	
	As of	As of	As of	As of
	September 30, 2016	December 31, 2015	September 30, 2016	December 31, 2015
Letters of credit (b)	\$ 250	\$ 250	\$ 43	\$ 42
Lines of credit and other (c)	344	245	71	43

(a) Total available without giving effect to amounts outstanding.

Outstanding letters of credit are held in connection with lease arrangements, bankcard association agreements and other security agreements. The largest amount of letters of credit outstanding was approximately \$43 million during the three months ended September 30, 2016. All letters of credit expire on or prior to March 31, 2017 with a one-year renewal option. We expect to renew most of the letters of credit prior to expiration.

As of September 30, 2016, represents \$325 million of committed lines of credit as well as certain uncommitted lines of credit and other agreements that are available in various currencies to fund settlement and other activity.

(c) We cannot use these lines of credit for general corporate purposes. Certain of these arrangements are uncommitted but, as of the dates presented, we had borrowings outstanding against them.

In the event one or more of the aforementioned lines of credit becomes unavailable, we will utilize our existing cash, cash flows from operating activities, or our senior secured revolving credit facility to meet our liquidity needs.

Covenant compliance Under the senior secured revolving credit and term loan facilities, certain limitations, restrictions, and defaults could occur if we are not able to satisfy and remain in compliance with specified financial ratios. We have agreed that we will not permit the Consolidated Senior Secured Debt to Covenant EBITDA (both as defined in the agreement) ratio for any 12 month period (last four fiscal quarters) to be greater than 6.0 to 1.0. The breach of this covenant could result in a default under the senior secured revolving credit facility and the senior secured term loan credit facility and the lenders could elect to declare all amounts borrowed due and payable. Any such acceleration could also result in a default under the indentures for the senior secured notes, senior notes, and senior subordinated notes. As of September 30, 2016, we were in compliance with all applicable covenants, including our sole financial covenant with Consolidated Senior Secured Debt of \$12.6 billion, Covenant EBITDA of \$3.4 billion and a Ratio of 3.8 to 1.0.

In determining Covenant EBITDA, EBITDA is calculated by reference to net income (loss) from continuing operations plus interest and other financing costs, net, provision for income taxes, and depreciation and amortization. Covenant EBITDA is calculated by adjusting EBITDA to exclude certain items as permitted in calculating covenant compliance under the credit facilities. Covenant EBITDA is further adjusted to add net income attributable to noncontrolling interests and redeemable noncontrolling interest of certain non wholly owned subsidiaries and exclude other miscellaneous adjustments that are used in calculating covenant compliance under the agreements governing our senior secured credit facilities. We believe that the inclusion of supplementary adjustments to EBITDA applied in presenting Covenant EBITDA are appropriate to provide additional information to investors to demonstrate our ability to comply with our financing covenants. Because not all companies use identical calculations, this presentation of Covenant EBITDA may not be comparable to other similarly titled measures of other companies.

Table of Contents

The calculation of Covenant EBITDA under our senior secured term loan facility is as follows:

(in millions)	Last twelve months ended September 30, 2016
Net loss attributable to First Data Corporation	\$ (989)
Interest expense, net	1,148
Income tax expense	113
Depreciation and amortization	1,083
EBITDA	1,355
Loss on debt extinguishment	1,018
Stock-based compensation	512
Net income attributable to noncontrolling interests and redeemable noncontrolling interest	235
Projected near-term cost savings and revenue enhancements (1)	76
KKR related items	84
Restructuring, net	64
Non-operating foreign currency (gains) and losses	(39)
Investment (gains) and losses (2)	(29)
Derivative financial instruments (gains) and losses	(3)
Equity entities taxes, depreciation and amortization (3)	14
Other (4)	64
Covenant EBITDA	\$ 3,351

(1) Reflects cost savings and revenue enhancements projected to be realized as a result of specific actions as if they were achieved on the first day of the period. Includes cost savings initiatives associated with the business optimization projects and other technology initiatives. We may not realize the anticipated cost savings pursuant to our anticipated timetable or at all.

(2) Reflects the gain on Visa Europe share sale included within "Other income (expense)" in the unaudited consolidated statements of operations.

(3) Represents our proportional share of income taxes, depreciation and amortization on equity method investments.

Includes items such as asset impairments, divestiture losses, customer disputes, earnouts, cost of alliance

(4) conversions, litigation and regulatory settlements, debt issuance costs, other technology initiatives, and other as applicable to the period presented.

Off-Balance Sheet Arrangements

During the nine months ended September 30, 2016, there were no material changes in off-balance sheet arrangements from those reported as of December 31, 2015 in our Annual Report on Form 10-K for the year ended December 31, 2015.

Contractual Obligations

During the nine months ended September 30, 2016, there were no material changes outside the ordinary course of business in our contractual obligations and commercial commitments from those reported as of December 31, 2015 in our Annual Report on Form 10-K for the year ended December 31, 2015.

Critical Accounting Policies

Our critical accounting policies have not changed from those reported as of December 31, 2015 in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the

year ended December 31, 2015.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

We are exposed to market risk from changes in interest rates. Our assets include cash equivalents as well as both fixed and floating rate interest-bearing securities. These investments arise primarily from settlement funds held by us pending settlement.

Our interest rate-sensitive liabilities are our debt instruments. Our senior secured term loan facility is subject to variable interest rates. For the quarter ended September 30, 2016, \$5 billion of our variable to fixed interest rate swaps matured and we entered into new variable to fixed interest rate collar swaps on \$3 billion of our variable rate debt. The interest rate collar swaps mitigate exposure to interest rate fluctuations, but are subject to contractual ceilings and floors. The interest rate collar swaps provide for interest rate protection if one month LIBOR rises above 150 basis points. As of September 30, 2016, we have \$8.5 billion in variable rate debt, \$3 billion of which is subject to the interest rate collar swaps.

Based on the September 30, 2016 balances, a 100 basis point increase in short-term interest rates on an annualized basis compared to the interest rates as of September 30, 2016, which for the one month LIBOR was 0.5311%, and a corresponding and parallel shift in the remainder of the yield curve, would result in a decrease to pretax income of approximately \$70 million. The \$70 million decrease to pretax income (due to a 100 basis point increase in variable rates as of September 30, 2016) is due to an \$85 million increase in interest expense related to our balance of variable interest rate debt, net of interest rate collars. The interest rate collars provide a hedge on \$3 billion of notional variable rate debt if one month LIBOR rises above 150 basis points. The increase in interest expense would be partially offset by a \$15 million increase in interest income. A decrease in interest rates would result in an increase to pretax income. Actual interest rates could change significantly more than 100 basis points. There are inherent limitations in the sensitivity analysis presented, primarily due to the assumption that interest rate movements are linear and instantaneous. As a result, the analysis is unable to reflect the potential effects of more complex market changes that could arise, which may positively or negatively affect income.

Foreign Currency Risk

We are exposed to changes in currency rates as a result of our investments in foreign operations, revenues generated in currencies other than the U.S. dollar and foreign currency-denominated loans. Revenue and profit generated by international operations will increase or decrease compared to prior periods as a result of changes in foreign currency exchange rates. Refer to note 8 "Derivative Financial Instruments" to our unaudited consolidated financial statements in Part I, Item 1 of this Form 10-Q for additional information regarding the changes in foreign currency exchange rates.

A hypothetical uniform 10% weakening in the value of the U.S. dollar relative to all the currencies in which our revenues and profits are denominated would result in an increase to pretax income of approximately \$22 million. This increase results from a \$21 million increase related to foreign exchange on foreign currency earnings, assuming consistent operating results as the twelve months preceding December 31, 2015, and a \$5 million increase related to foreign exchange on intercompany loans. The increase is partially offset by \$4 million related to euro-denominated term loans held by us. There is inherent limitation in the sensitivity analysis presented, primarily due to the assumption that foreign exchange movements are linear and instantaneous. As a result, the analysis is unable to reflect the potential effects of more complex market changes that could arise, which may positively or negatively affect income.

Regulatory

Through our merchant alliances, we hold an ownership interest in several competing merchant acquiring businesses while serving as the electronic processor for those businesses. In order to satisfy state and federal antitrust requirements, we actively maintain an antitrust compliance program.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We have evaluated, under the supervision of our Chief Executive Officer and our Chief Financial Officer, the effectiveness of disclosure controls and procedures as of September 30, 2016. This is done in order to ensure that information we are required to disclose in reports that are filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of September 30, 2016.

Changes in Internal Control over Financial Reporting

During 2015, we commenced the migration of certain activities in connection with our strategic expense management initiative. This migration continues to present transitional risks to maintaining adequate internal controls over financial reporting. To mitigate this risk, management continues to strengthen its entity level controls via enhanced financial reporting analytical reviews. Other than with respect to this migration, there were no changes in our internal control over financial reporting identified in connection with the above evaluation that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
