To the Retirement Board
Green Mountain Power Corporation
Employee Savings and Investment Plan and Trust
Colchester, Vermont

We have audited the accompanying statement of net assets available for plan benefits of the Green Mountain Power Corporation Employee Savings and Investment Plan and Trust (the "Plan") as of December 31, 2004 and the related statement of changes in net assets available for plan benefits for the year then ended. These financial statements are the responsibility of the plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of the Green Mountain Power Corporation Employee Savings and Investment Plan and Trust as of December 31, 2003, were audited by other auditors whose report dated June 25, 2004, expressed an unqualified opinion.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Green Mountain Power Corporation Employee Savings and Investment Plan and Trust at December 31, 2004, and the changes in its net assets available for plan benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the 2004 basic financial statements taken as a whole. The 2004 information included in the supplemental schedule is presented for purposes of additional analysis and is not a required part of the 2004 basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The information in the supplemental schedule has been subjected to the auditing procedures applied in the audit of the 2004 basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2004 basic financial statements taken as a whole.

NOTE 1

PLAN DESCRIPTION

The following description of the Green Mountain Power Corporation Employee Savings and Investment Plan and Trust (the Plan) is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Green Mountain Power Corporation. The Plan covers substantially all full-time employees of Green Mountain Power Corporation (the Company).

The Company's Retirement Board is the Plan Administrator with the authority to control and manage the operation and administration of the Plan. The Plan's assets are held by Prudential Financial (the Trustee) of the Plan, which invests cash received, including interest and dividend income, and makes distributions to participants. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute any amount of pretax annual compensation, as defined by the Plan, subject to IRS limitations. For each pay period the Company contributes a matching contribution of 100% of participants' contribution up to 4% of Compensation.

Effective January 1, 2004, an employer non-matching contribution shall accumulate on behalf of each participant on a monthly basis. Such contribution shall be in an amount equal to one half percent of the participant's compensation and shall be known as employer non-matching contribution and shall be contributed to the employer non-matching contribution account of each participant employed at the end of the month.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, and plan earnings, and charged with participant's withdrawals, distributions and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, net of applicable Federal tax.

Vesting

Participants are immediately vested in their voluntary contributions as well as the employer's contribution and any earnings thereon.

SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE 2

SUMMARY OF ACCOUNTING POLICIES (continued)

Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan has certain investments stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The Company stock is valued at its quoted market price. Participant loans are stated at face amount which approximates fair value. Investments in the pooled separate and guaranteed income accounts are recorded at their contract value, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

Reclassifications

Certain amounts in the 2003 financial statements have been reclassified in order to enhance comparison with the 2004 presentation.
