

Item 2.02 Results of Operations and Financial Condition.

In conjunction with a change in the Company's management structure, the financial results of the Company's Zipcar operations outside of North America will now be reported in the Company's International segment, rather than in the Company's North America segment. In addition, the Company has revised its definition of Adjusted EBITDA to exclude restructuring expense, to be consistent with the manner in which management assesses performance and allocates resources. Adjusted EBITDA represents income before non-vehicle related depreciation and amortization, any impairment charge, restructuring expense, early extinguishment of debt costs, transaction-related costs, non-vehicle related interest and income taxes. The Company's consolidated results for the year ended December 31, 2013 are not affected by such changes.
