NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

JANUARY 25, 2013

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of The Valspar Corporation have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the quarter ended January 25, 2013 are not necessarily indicative of the results that may be expected for the year ending October 25, 2013.

Certain amounts in the 2012 financial statements have been reclassified to conform to the 2013 presentation. Such reclassifications had no effect on net income or stockholders' equity as previously reported.

The Condensed Consolidated Balance Sheet at October 26, 2012 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in our annual report on Form 10-K for the year ended October 26, 2012.

NOTE 2 – ACQUISITIONS AND DIVESTITURES

On December 28, 2012, we purchased Ace Hardware Corporation's paint manufacturing business, including two manufacturing facilities near Chicago, IL for approximately \$34,811 in cash. We will manufacture and supply paint to Ace Hardware Corporation for sale at Ace retail locations. The acquisition was recorded in our Paints segment in the first quarter of fiscal year 2013 at preliminary fair values and a preliminary allocation of the purchase price has been completed. The assets and operating results have been included in our financial statements from the date of acquisition.

Pro forma results of operations for the acquisition noted above are not presented, as they were immaterial to the reported results.

NOTE 3 – INVENTORIES

The major classes of inventories consist of the following:

	January 25, 2013	October 26, 2012	January 27, 2012
Manufactured products	\$250,932	\$215,790	\$231,330
Raw materials, supplies and work-in-progress	174,658	144,637	149,614
Total Inventories	\$425,590	\$360,427	\$380,944

NOTE 4 – GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amount of goodwill as of January 25, 2013 is \$1,075,692, an increase of \$19,023 from the end of fiscal year 2012. The increase is due to an acquisition (see Note 2 for further details) and foreign currency translation.

Total intangible asset amortization expense for the three months ended January 25, 2013 was \$1,636, compared to \$1,661 for the same period last year. Estimated annual amortization expense for each of the five succeeding fiscal years based on the intangible assets as of January 25, 2013 is expected to be approximately \$7,000.

NOTE 5 – ACCOUNTS PAYABLE

Trade accounts payable includes \$37,039 at January 25, 2013, \$39,762 at October 26, 2012 and \$28,792 at January 27, 2012, of issued checks that had not cleared our bank accounts.

NOTE 6 – GUARANTEES AND CONTRACTUAL OBLIGATIONS

We sell extended furniture protection plans and offer warranties for certain products. Revenue related to furniture protection plans is deferred and recognized over the contract life. Historical claims data is used to forecast claims payments over the contract period and revenue is recognized based on the forecasted claims payments. Actual claims costs are reflected in earnings in the period incurred. Anticipated losses on programs in progress are charged to earnings when identified. For product warranties, we estimate the costs that may be incurred under these warranties based on historical claims data and record a liability in the amount of such costs at the time revenue is recognized.

We periodically assess the adequacy of these recorded amounts and adjust as necessary. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses can be estimated, and estimates are revised as soon as such changes in estimates become known. The extended furniture protection plans that we enter into have fixed prices. To the extent the actual costs to complete contracts are higher than the amounts estimated as of the date of the financial statements, gross margin would be negatively affected in future quarters when we revise our estimates.

Changes in the recorded amounts included in other liabilities, both short-term and long-term, during the period are as follows:

Three Months Ended	
January 25, 2013	January 27, 2012

Beginning balance, October	\$80,272	\$73,679
Additional net deferred revenue/accrual made during the period	4,107	7,839
Payments made during the period	(2,353)	(2,104)
Ending Balance	\$82,026	\$79,414

NOTE 7 – FAIR VALUE MEASUREMENT

We measure certain assets and liabilities at fair value or disclose the fair value of certain assets and liabilities recorded at cost in the Condensed Consolidated Financial Statements on both a recurring and non-recurring basis. Fair value is defined as an exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value accounting rules establish a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs must be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability based on market data obtained from independent sources. Unobservable inputs are inputs that reflect our assumptions about the factors market participants would use in valuing the asset or liability based upon the best information available. Assets and liabilities measured at fair value are to be categorized into one of the three hierarchy levels based on the inputs used in the valuation. We classify assets and liabilities in their entirety based on the lowest level of input significant to the fair value measurement. There were no transfers between levels for all periods presented. The three levels are defined as follows:

Level 1: Observable inputs based on quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Observable inputs based on quoted prices for similar assets and liabilities in active markets, or quoted prices for identical assets and liabilities in inactive markets.

Level 3: Unobservable inputs that reflect an entity's own assumptions about what inputs a market participant would use in pricing the asset or liability based on the best information available in the circumstances.

The following tables provide information regarding the estimated fair value of our outstanding debt. We did not elect the option to report our debt at fair value in our Condensed Consolidated Balance Sheets.

Total Debt	\$ 1,402,744	\$ 1,328,165	\$ 74,579	\$ —

³Debt is recorded at carrying value of \$1,269,583, \$1,151,109 and \$1,275,523 on the Condensed Consolidated Balance Sheet as of January 25, 2013, October 26, 2012 and January 27, 2012, respectively. The fair value of our

publicly traded debt is based on quoted prices (unadjusted) in active markets. The fair market value of our non-publicly traded debt was estimated using a discounted cash flow analysis based on our current borrowing costs for debt with similar maturities. In addition, the carrying values of our commercial paper included in non-publicly traded debt approximate the financial instrument's fair value as the maturities are less than three months. See Note 9 for additional information on debt.

Nonrecurring Fair Value Measurements

We measure certain assets at fair value on a nonrecurring basis. These assets include (i) goodwill, long-lived tangible and intangible assets as part of our annual impairment testing and (ii) assets acquired and liabilities assumed as part of an acquisition.

NOTE 8 – DERIVATIVE FINANCIAL INSTRUMENTS

We use derivative financial instruments to manage well-defined interest rate and foreign currency exchange risks. We enter into derivative financial instruments with high-credit quality counterparties and diversify our positions among such counterparties to reduce our exposure to credit losses. We do not have any credit-risk-related contingent features in our derivative contracts as of January 25, 2013.

At January 25, 2013, we had \$6,412 notional amount of foreign currency contracts that mature during fiscal year 2013. These foreign currency contracts have been designated as cash flow hedges with unrealized gains or losses recorded in accumulated other comprehensive income (loss). Gains and losses are reclassified from accumulated other comprehensive income (loss) to other expense (income) in the Statement of Operations when the underlying hedged item is realized. At January 27, 2012, we had \$10,010 notional amount of foreign currency contracts maturing in fiscal year 2012. There was no material ineffectiveness related to these hedges during the quarters ended January 25, 2013 or January 27, 2012.

At January 25, 2013, we had no treasury lock contracts in place. During the first quarter of 2012, we settled \$200,000 notional amount of treasury lock contracts as a result of issuing \$400,000 of Senior Notes, yielding a pretax loss of \$27,875. This loss was recognized net of tax, in accumulated other comprehensive income (loss) in the first quarter of fiscal year 2012. The accumulated other comprehensive loss amount in our Condensed Consolidated Balance Sheets as of January 25, 2013 and January 27, 2012 represents the unamortized gains and losses, net of tax, from our settled contracts. Unamortized gains and loss are reclassified ratably to interest expense in our Condensed Consolidated Statements of Operations over the term of the related debt. There was no material ineffectiveness related to these hedges for the quarters ended January 25, 2013 and January 27, 2012.

Accumulated other comprehensive income (loss) (AOCI) is included in the Condensed Consolidated Balance Sheets¹ in the Stockholders' Equity section and is reported net of tax. The amounts disclosed in the above table are reported pretax and represent the quarterly derivative activity.

NOTE 9 – DEBT

Our debt consists of the following:

	January 25, 2013	October 26, 2012	January 27, 2012
Short-term debt	\$217,283	\$94,441	\$8,760
Current portion of long-term debt	39,737	44,090	200,000
Long-term debt	1,012,563	1,012,578	1,066,763
Total Debt	\$1,269,583	\$1,151,109	\$1,275,523

The increase in short-term debt from October 26, 2012 was primarily due to commercial paper borrowings for share repurchases and the purchase of Ace Hardware Corporation's paint manufacturing business.

In the first quarter of 2012, we issued \$400,000 of unsecured Senior Notes that mature on January 15, 2022 with a coupon rate of 4.20%. The proceeds, net of issuance costs, were \$396,816. The public offering was made pursuant to a registration statement filed with the U.S. Securities and Exchange Commission. We used the net proceeds for general corporate purposes, including paying down our commercial paper borrowings and retiring our \$200,000 of 5.625% Senior Notes that matured on May 1, 2012.

Our credit facilities have covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of January 25, 2013. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

To ensure availability of funds, we maintain uncommitted bank lines of credit sufficient to cover outstanding short-term borrowings. These arrangements are reviewed periodically for renewal and modification.

NOTE 10 – STOCK-BASED COMPENSATION

Compensation expense associated with our stock-based compensation plans was \$7,954 (\$5,095 after tax) for the three months ended January 25, 2013, compared to \$2,462 (\$1,615 after tax) for the three months ended January 27, 2012.

NOTE 11 – PENSIONS AND OTHER POSTRETIREMENT BENEFITS

We sponsor a number of defined benefit pension plans for certain hourly and salaried employees. The benefits for most of these plans are generally based on stated amounts for each year of service. We fund the plans in amounts consistent with the limits of allowable tax deductions.

The net periodic benefit cost of the pension benefits is as follows:

	Three Months Ended	
	January 25, 2013	January 27, 2012
Service cost	\$1,405	\$1,052
Interest cost	3,345	3,525
Expected return on plan assets	(4,941)	(4,843)
Amortization of prior service cost	112	109
Recognized actuarial (gain)/loss	2,457	1,716
Net Periodic Benefit Cost	\$2,378	\$1,559

The net periodic benefit cost of the post-retirement medical benefits is as follows:

	Three Months Ended	
	January 25, 2013	January 27, 2012
Service cost	\$60	\$ 31
Interest cost	90	112
Amortization of prior service cost	(32)	(32)
Recognized actuarial loss	117	118
Net Periodic Benefit Cost	\$235	\$ 229

NOTE 12 – INCOME TAXES

At October 26, 2012, we had a \$9,965 liability recorded for gross unrecognized tax benefits (excluding interest and penalties). Of this total, \$8,718 represents the amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate.

We recognize interest and penalties related to unrecognized tax benefits in income tax expense. As of October 26, 2012, we had accrued approximately \$2,582 of interest and penalties relating to unrecognized tax benefits.

During the first quarter of fiscal year 2013, we recorded a \$1,750 benefit to income tax expense related to the retroactive extension of the U.S. Research and Development Credit. In the first quarter of fiscal year 2012, we recorded a \$3,600 benefit to income tax expense related to an increase in the tax basis of assets for a foreign subsidiary.

The company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and numerous state and foreign jurisdictions. With few exceptions, we are no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2007. The Internal Revenue Service (IRS) concluded its examination of our U.S. federal tax returns for the fiscal years ended 2009 and 2010 in October 2012. There were no material adjustments to our income tax expense or balance of unrecognized tax benefits as a result of the IRS examination. We are currently under audit in several state and foreign jurisdictions. We also expect various statutes of limitation to expire during the next 12 months. Due to the uncertain response of taxing authorities, a range of outcomes cannot be reasonably estimated at this time.

NOTE 13 – NET INCOME (LOSS) PER COMMON SHARE

The following table presents the net income (loss) per common share calculations for the three months ended January 25, 2013 and January 27, 2012:

	Three Months Ended	
	January 25, 2013	January 27, 2012
Basic		
Net income (loss)	\$55,029	\$55,782
Weighted-average common shares outstanding – basic	89,477,591	92,861,129
Net Income (Loss) per Common Share – Basic	\$0.62	\$0.60
Diluted		
Net income (loss)	\$55,029	\$55,782
Weighted-average common shares outstanding – basic	89,477,591	92,861,129
Dilutive effect of stock options and unvested restricted stock	2,919,837	2,624,225
Equivalent average common shares outstanding – diluted	92,397,428	95,485,354
Net Income (Loss) per Common Share – Diluted	\$0.60	\$0.58

Basic earnings per share are based on the weighted-average number of common shares outstanding during each period. In computing diluted earnings per share, the number of common shares outstanding is increased by common stock options with exercise prices lower than the average market prices of common shares during each period and reduced by the number of shares assumed to have been purchased with proceeds from the exercised options. If we are in a net loss position, these shares are excluded as they are antidilutive. Potential common shares of 213,210 and 326,044 related to our outstanding stock options were excluded from the computation of diluted earnings per share for the three months ended January 25, 2013 and January 27, 2012, respectively, as inclusion of these shares would have been antidilutive.

NOTE 14 – ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Accumulated other comprehensive income (loss), net of tax, consists of the following for the first quarter of 2013 and 2012:

	Foreign Currency Translation ¹	Change in Benefit Obligations	Unrealized Gain (Loss) on Financial Instruments	Accumulated Other Comprehensive Income (Loss)
Balance, October 26, 2012	\$ 159,610	\$ (99,407)	\$ (9,931)	\$ 50,272
Other comprehensive income (loss), net of tax	4,865	—	176	5,041
Balance, January 25, 2013	\$ 164,475	\$ (99,407)	\$ (9,755)	\$ 55,313
Balance, October 28, 2011	152,791	(84,432)	(5,580)	62,779

Balance, January 27, 2012	\$ 154,996	\$ (84,432)	\$ (10,364)	\$ 60,200

¹ We deem our foreign investments to be permanent in nature and therefore do not provide for taxes on foreign currency translation adjustments.

NOTE 15 – SEGMENT INFORMATION

Based on the nature of our products, technology, manufacturing processes, customers and regulatory environment, we aggregate our operating segments into two reportable segments: Coatings and Paints. We are required to report segment information in the same way that management internally organizes its business for assessing performance and making decisions regarding allocation of resources. We evaluate the performance of operating segments and allocate resources based on profit or loss from operations before interest expense and taxes (EBIT).

The Coatings segment aggregates our industrial and packaging product lines. Industrial products include a broad range of decorative and protective coatings for metal, wood and plastic. Packaging products include both interior and exterior coatings used in metal packaging containers, principally food containers and beverage cans. The products of this segment are sold throughout the world.

The Paints segment aggregates our consumer paints and automotive refinish product lines. Consumer paint products include interior and exterior decorative paints, stains, primers, varnishes, high performance floor paints and specialty decorative products, such as enamels, aerosols and faux varnishes primarily distributed for the do-it-yourself and professional markets in Australia, China and North America. Automotive paint products include refinish paints and aerosol spray paints sold through automotive refinish distributors, body shops and automotive supply distributors and retailers.

Our remaining activities are included in All Other. These activities include specialty polymers and colorants that are used internally and sold to other coatings manufacturers, as well as gelcoats and related products and furniture protection plans. In the fourth quarter of fiscal year 2012, we exited the gelcoat products market. Also included within All Other are our corporate administrative expenses. The administrative expenses include amortization expense, certain environmental-related expenses and other expenses not directly allocated to any other operating segment.

It is not practicable to obtain the information needed to disclose revenues attributable to each of our identified product lines within our reportable segments.

In the following table, sales between segments are recorded at selling prices that are below market prices, generally intended to recover internal costs. Segment EBIT includes income realized on inter-segment sales. Comparative segment data for the first quarter of 2013 and 2012 are as follows:

	Three Months Ended	
	January 25, 2013	January 27, 2012
Net Sales		
Coatings	\$497,616	\$494,649
Paints	329,079	339,557

NOTE 16 – RESTRUCTURING

There were no restructuring charges in the first quarter of fiscal year 2013. In fiscal year 2012, we exited the gelcoat products market and initiated the consolidation of a manufacturing facility in our Paints segment. Our gelcoat product line was categorized in All Other. During the 2011 fiscal year, we initiated restructuring actions in our Coatings segment, primarily in our wood product line, which further rationalized our manufacturing capacity and reduced our overall global headcount. We also initiated restructuring actions to improve the profitability of our Australian operations, which included facility consolidations in manufacturing and distribution, store rationalization and other related costs.

These restructuring activities resulted in pre-tax charges of \$5,097 or \$0.04 per share after tax in the first quarter of fiscal year 2012. The total resulting expenses included severance and employee benefits, asset impairments, professional services and site clean-up.

The following restructuring charges by segment were recorded in the first quarter of 2013 and 2012:

Three Months Ended January 25, 2013	Liability Beginning Balance 10/26/2012	Expense	Activity	Liability Ending Balance 1/25/2013

The ending liability balance at January 25, 2013 and at January 27, 2012 is included in other accrued liabilities on our Condensed Consolidated Balance Sheets. The restructuring reserve balances presented are considered adequate to cover committed restructuring actions. The restructuring expenses recorded are included in the Condensed Consolidated Statements of Operations. For the three months ended January 27, 2012, \$2,954 was charged to cost of sales and \$2,143 was charged to selling, general and administrative expenses.

NOTE 17 – RECENTLY ISSUED ACCOUNTING STANDARDS

In February 2013, the FASB further amended the disclosure requirements for comprehensive income. The update requires companies to disclose items reclassified out of accumulated other comprehensive income (AOCI) and into net income in a single location either in the notes to the consolidated financial statements or parenthetically on the face of the Statements of Operations. The change is effective for fiscal years, and interim periods within those years, beginning after December 15, 2012, which means the first quarter of our fiscal year 2014, and is to be applied prospectively. We do not expect the adoption of these updated disclosure requirements to affect our consolidated results of operations, financial condition or liquidity.

In July 2012, the FASB amended the guidance on indefinite-lived intangible asset impairment testing to allow companies the option to first perform a qualitative assessment to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired. If a company determines that it is more likely than not that the fair value of such an asset exceeds its carrying amount, it would not need to calculate the fair value of the asset in that year. However, if a company concludes otherwise, it must calculate the fair value of the asset, compare that value with its carrying value and record an impairment charge if the carrying value exceeds the fair value of the asset. The change is effective for fiscal years beginning after September 15, 2012, which is our fiscal year 2013, but early adoption is permitted. We do not expect the adoption of this accounting guidance to affect our consolidated financial statements.

In September 2011, the FASB amended the guidance on goodwill impairment testing to allow companies the option of first assessing qualitative factors to determine whether the two-step impairment test is required. If it is more likely than not that the fair value of a reporting unit is less than its carrying value, the two-step impairment test must be performed. Otherwise, the two-step impairment test is not necessary. The change is effective for fiscal years beginning after December 15, 2011, which is our fiscal year 2013, but early adoption is permitted. We do not expect the adoption of this accounting guidance to affect our consolidated financial statements.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

OVERVIEW

Net sales declined slightly for the first quarter of 2013 primarily due to uneven market demand outside the Americas, partially offset by market share gains across all of our product lines. This decrease in net sales and a higher tax rate, partially offset by lower restructuring costs, resulted in a 1.3% decline in net income.

On December 28, 2012, we purchased Ace Hardware Corporation’s paint manufacturing business, including two manufacturing facilities near Chicago, IL for approximately \$34,811. We will manufacture and supply paint to Ace Hardware Corporation for sale at Ace retail locations.

Weighted average common shares outstanding – diluted for the first quarter of 2013 were 92,397,428, down 3,087,926 from the same period in the prior year. During the quarter, we repurchased 1,184,500 shares for \$72,992. On December 5, 2012, the board approved a new share repurchase authorization of 15,000,000 shares, with no predetermined end date, which replaced a prior authorization. As of January 25, 2013, 14,430,000 shares remained available for purchase under the new authorization.

Earnings Per Share

Net income per common share - diluted was \$0.60 and \$0.58 for the three months ended January 25, 2013 and January 27, 2012, respectively. The table below presents adjusted net income per common share – diluted, which excludes restructuring charges in the 2012 period.

	Three Months Ended January 25, 2013	January 27, 2012
Net income (loss) per common share - diluted	\$0.60	\$ 0.58

Restructuring charges	—	0.04
Adjusted net income per common share - diluted	\$0.60	\$ 0.62

“Adjusted net income per common share – diluted” is a non-GAAP financial measure. We disclose this measure because we believe the measure may assist investors in comparing our results of operations without regard to restructuring charges. This non-GAAP measure is provided to enhance investors’ overall understanding of our current financial performance. We believe the non-GAAP measure provides useful information to both management and investors by excluding certain expenses and non-cash charges, which may not be indicative of our core operating results. In addition, because we have historically reported certain non-GAAP results to investors, we believe the inclusion of this non-GAAP measure provides consistency in our presentation of financial information. See Note 16 in Notes to Condensed Consolidated Financial Statements for further information on restructuring.

CRITICAL ACCOUNTING ESTIMATES

The discussion and analysis of our financial condition and results of operations are based upon our Condensed Consolidated Financial Statements, which have been prepared in accordance with generally accepted accounting principles in the United States (GAAP). The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosure of any contingent assets and liabilities at the date of the financial statements. We regularly review our estimates and assumptions, which are based on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

A comprehensive discussion of our critical accounting estimates is included in the Management’s Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended October 26, 2012. There were no material changes to our critical accounting estimates in the first quarter of fiscal year 2013.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS****OPERATIONS**

<u>Net Sales</u>	Three Months Ended		
	January 25, 2013	January 27, 2012	% Change
Coatings	\$497,616	\$ 494,649	0.6 %
Paints	329,079	339,557	(3.1)%
All Other	48,547	51,441	(5.6)%
Consolidated Net Sales	\$875,242	\$ 885,647	(1.2)%

- **Consolidated Net Sales** – Adjusting for the positive impact of 0.6% from acquisitions and negative impact of 0.2% from foreign currency, sales for the first quarter of 2013 decreased 1.6%. The decrease in sales was primarily due to market softness outside North and South America, partially offset by market share gains, primarily in our Coatings segment.
- **Coatings Segment Net Sales** – Adjusting for the negative impact of 0.7% from foreign currency, sales for the first quarter of 2013 increased 1.3%. The increase in sales was primarily due to market share gains. This increase was partially offset by market weakness, particularly in our general industrial product line, which was affected by soft end markets in Asia and Europe.
- **Paints Segment Net Sales** – Adjusting for the positive impacts of 1.5% from acquisitions and 0.7% from foreign currency, sales for the first quarter of 2013 decreased 5.3%. The decrease in sales reflects weak housing market conditions in Australia and China, partially offset by increased volumes in our North America consumer paints and global automotive product lines.
- **All Other Net Sales** – The All Other category includes the following product lines: resins, furniture protection plans and colorants. Adjusting for the negative impact of 0.1% from foreign currency, sales for the first quarter of 2013 decreased 5.5%. The lower sales were due to our exit from the gelcoat products market in the fourth quarter of 2012, partially offset by market share gains in our resin product line.

Due to the seasonal nature of portions of our business, sales for the first quarter are not necessarily indicative of sales for subsequent quarters or for the full year.

<u>Gross Profit</u>	Three Months Ended

Consolidated Gross Profit	\$294,351		\$293,316	
As a percent of Net Sales	33.6	%	33.1	%

Gross Profit – Gross profit as a percent of net sales increased slightly compared to the prior year due to higher restructuring charges incurred in 2012. There were no restructuring charges included in gross profit in the first quarter of 2013. Restructuring charges of \$2,954 or 0.3% of net sales were included in the first quarter of 2012.

<u>Operating Expenses</u>	Three Months Ended

As a percent of Net Sales	22.9	%	22.9	%

¹ Includes research and development and selling, general and administrative costs. For breakout, see Condensed Consolidated Statements of Operations.

Consolidated Operating Expenses (dollars) – Consolidated operating expenses decreased \$1,781 or 0.9% compared to the first quarter of last year primarily due to restructuring charges in 2012 and continued productivity improvements, offset by investments to support emerging growth opportunities in both our Coatings and Paints segments. There were no restructuring charges included in operating expenses in the first quarter of 2013. Restructuring charges of \$2,143 or 0.2% of net sales were included in the first quarter of 2012.

Consolidated EBIT	\$92,581		\$91,237	
As a percent of Net Sales	10.6 %		10.3 %	

Consolidated EBIT – EBIT for the first quarter of 2013 increased \$1,344 or 1.5% from the prior year. There were no restructuring charges in the first quarter of 2013. Restructuring charges of \$5,097 or 0.6% of net sales were included in the first quarter of 2012. Foreign currency exchange fluctuation had an immaterial effect on Consolidated EBIT, as well as EBIT of the segments discussed below.

Coatings Segment EBIT – EBIT as a percent of net sales was flat primarily due to productivity improvements, offset by investments to support emerging growth opportunities. There were no restructuring charges in the first quarter of 2013. EBIT included restructuring charges of \$389 or 0.1% of net sales in the first quarter of 2012.

Paints Segment EBIT – EBIT as a percent of net sales was flat primarily due to weak market conditions in Australia and China and timing of investments to support emerging growth opportunities, offset by the impact of restructuring charges recognized in 2012. There were no restructuring charges in the first quarter of 2013. EBIT included restructuring charges of \$4,026 or 1.2% of net sales in the first quarter of 2012.

All Other EBIT – All Other EBIT includes corporate expenses. EBIT as a percent of net sales improved primarily due to better performance in our Other product lines. There were no restructuring charges in the first quarter of 2013. EBIT included restructuring charges of \$682 or 1.3% of net sales in the first quarter of 2012.

Due to the seasonal nature of portions of our business, EBIT for the first quarter is not necessarily indicative of EBIT for subsequent quarters or for the full year.

<u>Interest Expense</u>	Three Months Ended	
	January 25, 2013	January 27, 2012
Consolidated Interest Expense	\$ 15,873	\$ 15,789

Interest Expense – Interest expense was flat compared to the first quarter of 2012 as higher average debt offset lower average interest rates.

<u>Effective Tax Rate</u>	Three Months Ended	
	January 25, 2013	January 27, 2012
Effective Tax Rate	28.3 %	26.1 %

Effective Tax Rate – The higher first quarter 2013 effective tax rate was due to an unfavorable geographical mix of earnings. We expect the effective tax rate for the full year to be approximately 31% to 32%.

FINANCIAL CONDITION

Our financial condition and liquidity remained strong in the first quarter of 2013. We had \$248,642 in cash and cash equivalents and \$391,285 in unused committed bank credit facilities providing total committed liquidity of \$639,927 at the end of our 2013 first quarter, compared to \$760,655 at the end of fiscal year 2012. Our cash and cash equivalent balances consist of high quality, short-term money market instruments and cash held by our international subsidiaries that are used to fund those subsidiaries' day-to-day operating needs. Those balances have also been used to finance acquisitions. Our investment policy on excess cash is to preserve principal.

Cash Flow – Cash provided by operations was \$1,864 for the three months ended January 25, 2013, compared to cash used in operations of \$24,484 for the same period last year. In the first quarter of 2012, there was a cash outflow of \$27,875 for the settlement of outstanding derivative contracts related to our bond issuance. See Note 8 in Notes to the Condensed Consolidated Financial Statements for further information on derivative financial instruments.

During the first quarter of 2013, we used our borrowing capacity to fund \$72,992 in share repurchases, \$34,811 for the purchase of Ace Hardware Corporation's paint manufacturing business, \$13,950 in capital expenditures and our seasonal working capital needs. We used cash on hand and \$9,832 in proceeds from the sale of treasury stock to fund \$20,679 in dividend payments. We anticipate capital spending in 2013 to be approximately \$120,000.

Debt and Capital Resources – Our debt classified as current was \$257,020 at January 25, 2013 compared to \$138,531 and \$208,760 at October 26, 2012 and January 27, 2012, respectively. The ratio of total debt to capital was 51.3% at

January 25, 2013, compared to 48.5% at October 26, 2012 and 51.2% at January 27, 2012.

To further ensure availability of funds, we maintain uncommitted bank lines of credit sufficient to cover outstanding short-term borrowings. These arrangements are reviewed periodically for renewal and modification. Our credit facilities have covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of January 25, 2013. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

We believe future cash flow from operations, existing lines of credit, access to credit facilities and access to debt and capital markets will be sufficient to meet our current liquidity needs. In the current market conditions, we have demonstrated continued access to capital markets. We have committed liquidity and cash reserves in excess of our anticipated funding requirements.

We use derivative instruments with a number of counterparties principally to manage well-defined interest rate and foreign currency exchange risks. We evaluate the financial stability of each counterparty and spread the risk among several financial institutions to limit our exposure. We will continue to monitor counterparty risk on an ongoing basis. We do not have any credit-risk related contingent features in our derivative contracts as of January 25, 2013.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

FORWARD LOOKING STATEMENTS

Certain statements contained in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this report constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

Forward-looking statements are based on management's current expectations, estimates, assumptions and beliefs about future events, conditions and financial performance. Forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside our control and could cause actual results to differ materially from such statements. Any statement that is not historical in nature is a forward-looking statement. We may identify forward-looking statements with words and phrases such as "expects," "projects," "estimates," "anticipates," "believes," "could," "may," "will," "plans to," "intend," "should" and similar expressions.

These risks, uncertainties and other factors include, but are not limited to, deterioration in general economic conditions, both domestic and international, that may adversely affect our business; fluctuations in availability and prices of raw materials, including raw material shortages and other supply chain disruptions, and the inability to pass along or delays in passing along raw material cost increases to our customers; dependence of internal sales and earnings growth on business cycles affecting our customers and growth in the domestic and international coatings industry; market share loss to, and pricing or margin pressure from, larger competitors with greater financial resources; significant indebtedness that restricts the use of cash flow from operations for acquisitions and other investments; dependence on acquisitions for growth, and risks related to future acquisitions, including adverse changes in the results of acquired businesses, the assumption of unforeseen liabilities and disruptions resulting from the integration of acquisitions; risks and uncertainties associated with operations and achievement of profitable growth in developing markets, including Asia and Central and South America; loss of business with key customers; damage to our reputation and business resulting from product claims or recalls, litigation, customer perception and other matters; our ability to respond to technology changes and to protect our technology; changes in governmental regulation, including more stringent environmental, health and safety regulations; our reliance on the efforts of vendors, government agencies, utilities and other third parties to achieve adequate compliance and avoid disruption of our business; unusual weather conditions adversely affecting sales; changes in accounting policies and standards and taxation requirements such as new tax laws or revised tax law interpretations; the nature, cost and outcome of pending and future litigation and other legal proceedings; and civil unrest and the outbreak of war and other significant national and international events.

We undertake no obligation to subsequently revise any forward-looking statement to reflect new information, events or circumstances after the date of such statement, except as required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our foreign sales and results of operations are subject to the impact of foreign currency fluctuations. As most of our underlying costs are denominated in the same currency as our sales, the effect has not been material. We have not hedged our exposure to translation gains and losses; however, we have reduced our exposure by borrowing funds in local currencies. A 10% adverse change in foreign currency rates is not expected to have a material effect on our results of operations or financial position.

We are also subject to interest rate risk. At January 25, 2013, approximately 21.2% of our total debt consisted of floating rate debt. From time to time, we may enter into interest rate derivatives to hedge a portion of either our variable or fixed rate debt. Assuming the current level of borrowings, a 10% increase in interest rates from those in effect at the end of the fourth quarter would not have a material impact on our results of operations or financial position.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of January 25, 2013. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during the quarter ended January 25, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

During the period covered by this report, there were no legal proceedings instituted that are reportable, and there were no material developments in any of the legal proceedings that were previously reported on our Form 10-K for the year ended October 26, 2012.

ITEM 1A. RISK FACTORS

There were no material changes to the risk factors disclosed in our Form 10-K for the year ended October 26, 2012.
