Company Press Release

Suizhong 36-1 (Phase II) on Full-scale Production

(Beijing, November 13, 2001) CNOOC Limited (SEHK:883, NYSE:CEO) (the "Company") announced today that the last of the three production platforms of Suizhong 36-1 (Phase II-2), Platform H, started initial production, marking the total completion of the development of the entire SZ 36-1 field. The other two platforms of Suizhong 36-1 (Phase II-2) had been brought on stream in August and September of 2001, respectively. Phase II of the Suizhong 36-1 development is expected to add about 60,000 barrels a day of production at its peak.

The successful start-up of all three production platforms increases the likelihood of reaching this year's production target by the Company and will contribute to production growth next year.

Suizhong 36-1 (Phase II) includes 6 production platforms and was developed in two parts. Platforms D, E and F were brought to production at the end of last year. The second part consists of platforms C, G and H.

"The on schedule completion of the project demonstrates the Company's project management capability. It was a challenging project and 100% owned by the Company. My people did a good job," commented Mr. Zhou Shouwei, Executive Vice President of the Company. "The startup will support production growth target."

Notes to Editors:

CNOOC LIMITED - BACKGROUND

Incorporated in Hong Kong in August 1999, the Company is the dominant producer of crude oil and natural gas offshore China. The Company is also one of the largest independent crude oil and gas exploration and production companies in the world. As of December 31, 2000, its net proved reserves were 1.8 billion barrels-of-oil equivalents and its net production totaled 239,337 BOE per day.

The Company has interests in 45 crude oil and gas properties in four major producing areas: Bohai Bay, Western South China Sea, Eastern South China Sea and East China Sea. The Company is a major oil and gas company in China with approximately 1,000 employees.

CNOOC LIMITED - RELATIONSHIP WITH ITS PARENT COMPANY

The Company is a 70.6% held subsidiary of China National Offshore Oil Corporation ("CNOOC"). The Company is the sole vehicle through which CNOOC carries out oil and gas exploration, development and production activities offshore China and internationally.

CNOOC, the parent company, is involved in the administrative, research and services functions for the PRC offshore petroleum industry as well as other mid- or down-stream petroleum projects.
