Refer to notes to the financial statements, which appear in the Annual Report on Form 10-K for the year ended December 31, 2004, for the Company's accounting policies and other disclosures, which are pertinent to these statements.

Note 8. Interim Segment Information

The Company has reclassified certain prior-year interim segment information to conform to the 2005 presentation. The reclassification is the result of a change in the management of two converting facilities from the Printing & Writing segment to the Specialty Products segment.

FACTORS USED TO IDENTIFY REPORTABLE SEGMENTS
The Company's operations are classified into three principal reportable segments: Specialty Products, Printing & Writing, and Towel & Tissue,

each providing different products. Separate management of each segment is required because each business unit is subject to different marketing, production, and technology strategies.

PRODUCTS FROM WHICH REVENUE IS DERIVED

Specialty Products produces specialty papers at its manufacturing facilities in Rhinelander, Wisconsin; Mosinee, Wisconsin; and Jay, Maine. Specialty Products also includes two converting facilities that produce laminated roll wrap and related specialty finishing and packaging products. Printing & Writing produces a broad line of premium printing and writing grades at manufacturing facilities in Brokaw, Wisconsin; Groveton, New Hampshire; and Brainerd, Minnesota. Printing & Writing also includes a converting facility which converts printing and writing grades. Towel & Tissue produces a complete line of towel and tissue products that are marketed along with soap and dispensing systems for the "away-from-home" market. Towel & Tissue operates a paper mill in Middletown, Ohio, and a converting facility in Harrodsburg, Kentucky.
