It advises the Board of Directors on all matters relating to directorship practices, including the criteria for selecting directors, policies relating to tenure and retirement of directors and compensation and benefit programs for non-employee directors. The Nomination and Corporate Governance Committee also makes recommendations relating to the duties and membership of committees of the Board of Directors, recommends processes to evaluate the performance and contributions of individual directors and the Board of Directors as a whole, approves procedures designed to provide that adequate orientation and training are provided to new members of the Board of Directors, consults with the Chief Executive Officer in the process of recruiting new directors and assists in locating senior management personnel and selecting members for the scientific advisory board. The Nomination and Corporate Governance Committee has developed a policy to govern the Company's approach to corporate governance issues and provides a forum for concerns of individual directors about matters not easily or readily discussed in a full board meeting, e.g., the performance of management. Individual directors are entitled to engage outside advisors at the expense of the Company, with the prior approval of the Nomination and Corporate Governance Committee, and with the full knowledge of management.

The members of the Nomination and Corporate Governance Committee are Gordon J. Politeski (Chair), James L. Heppell, Felix Theeuwes and Tazdin Esmail.

The Nomination and Corporate Governance Committee will consider nominees recommended by Stockholders. Any Stockholder who wishes to recommend for the Nomination and Corporate Governance Committee's consideration a prospective nominee to serve on the Board of Directors may do so by giving the candidate's name and qualifications in writing to the Company's Secretary at the following address: 11199 Sorrento Valley Road, San Diego, CA 92121-1334. ***Report of the Audit Committee***

The audit committee oversees Genetronics' financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the committee reviewed the audited financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The committee reviewed with the independent auditors who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of our company's accounting principles and such other matters as are required to be discussed with the committee under generally accepted auditing standards. In addition, the committee has discussed with the independent auditors the auditors' independence from management and our company including the matters in the written disclosures required by the Independence Standards Board (which written disclosures were delivered to Genetronics) and considered the compatibility of nonaudit services with the auditors' independence.

The committee discussed with our company's independent auditors the overall scope and plans for their respective audits. The committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of our internal controls, and the overall quality of our financial reporting.

In reliance on the reviews and discussions referred to above, the committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2001, for filing with the Securities and Exchange Commission. The committee and the board have also recommended the selection of our company's independent auditors. All members of the Audit committee are independent as defined in Section 121(A) of the America Stock Exchange (AMEX) listing standards.

The Compensation Committee of the Board of Directors evaluates each executive officer position to establish skill requirements and levels of responsibility. The Compensation Committee, after referring to information from other corporations and public data, determines the compensation for the executive officers.

***Objectives***

The primary objectives of our executive compensation program are to enable us to attract, motivate and retain qualified individuals and to align their success with that of our stockholders through the achievement of strategic corporate objectives and the creation of stockholder value. The level of compensation paid to each executive is based on the executive's overall experience, responsibility and performance. Executive officer compensation is composed of salary, bonuses and the opportunity to receive options granted under our Stock Option Plan.

***Salary***

Salary ranges are determined following a review of the market data for similar positions in corporations of a comparable size and type of operations to our company. The salary for each executive officer is largely determined by the terms of the officer's employment agreement with us.

**Table of Contents**

***Bonuses***

Our company may provide annual incentive compensation to the executive officers through bonus arrangements. Awards are contingent upon the achievement of corporate and individual objectives determined by our Compensation Committee.

***Stock Option Plan***

The executive officers may be granted incentive stock options or non-incentive stock options under our 2000 Stock Option Plan. Pursuant to a private placement (the "Private Placement") of special warrants that closed on November 30, 2001 and raised aggregate gross proceeds to the Company of \$2,345,622, a number of investors required that Dr. Avtar Dhillon, our Chief Executive Officer, President and one of our directors, participate in the Private Placement. We loaned \$65,000 (the "Loan") to Dr. Dhillon to enable him to purchase 144,444 special warrants (the "Special Warrants"), at a purchase price of \$0.45 per Special Warrant, that is approximately 3% of the aggregate number of

special warrants that were issued. The Loan is repayable in three years, and interest accrues at the prime rate of the Union Bank of California published on November 9, 2001 over the term of the Loan. As security for Dr. Dhillon's due repayment of the Loan, Dr. Dhillon entered into an agreement with the Company dated November 9, 2001 (the "Loan Agreement") and executed a Promissory Note attached to the Loan Agreement. Pursuant to the Loan Agreement, Dr. Dhillon granted to the Company a security interest in the Special Warrants, and in the common shares and common share purchase warrants to be issued pursuant to the exercise of the Special Warrants. As further security, Dr. Dhillon agreed to use all proceeds realized by any sale of said Special Warrants, common shares, common share purchase warrants (the "Warrants") or common shares to be issued upon exercise of the Warrants and any cash bonuses that he receives as a result of his employment with us to pay down the Loan until it was fully repaid.

As described in Note 17 to the Financial Statements, we incurred legal fees charged by the law firm of Catalyst Corporate Finance Lawyers in Vancouver, British Columbia, Canada, in the amount of \$272,034 in the nine month period ended December 31, 2001. **PROPOSAL NO. 2**

**APPROVAL OF AMENDMENT TO THE AMENDED 2000 STOCK OPTION PLAN**

The current stock option plan of the Company effective July 31, 2000 was approved by the shareholders on August 7, 2000, pursuant to which 7,400,000 common shares are reserved for issuance to executive officers, directors, employees and consultants of the Company. This stock option plan supercedes all previous stock option plans. At March 1, 2002, 1,384,201 common shares are available for future grants and 4,737,350 stock options are outstanding pursuant to the 2000 Plan.

The Board of Directors approved amendments to the plan on June 8, 2001 and the shareholders of the Company approved the same amendments as of September 7, 2001.

On March 15, 2002 the Board of Directors approved an increase in the number of common shares under the 2000 Plan in the amount of 2,600,000 common shares. This increased the number of shares available to be issued under the 2000 Plan to 10,000,000 common shares and also increased the number of common shares available for future option grants to 3,984,201.

The following is a summary of the proposed amendments to the 2000 Plan which were adopted by the Compensation Committee of the Board of Directors on March 15, 2002 subject to stockholder approval:

Subject to regulatory approval, the Company is authorized to grant stock options pursuant and subject to the terms and conditions of the Amended 2000 Stock Option Plan, entitling the optionholders to purchase an aggregate of up to 10,000,000 common shares of the Company;

Section 5.1 of the 2000 Plan has been amended to provide that, subject to regulatory approval:

- (i) **Number of Shares** The Committee, from time to time, may grant Options to purchase an aggregate of up to ten million (10,000,000) Shares, subject to regulatory approval, to be made available from authorized, but unissued or reacquired, Shares. In calculating the foregoing ten million (10,000,000) Shares, the Committee shall include all Shares subject to options outstanding as of the Effective Date of the Plan. The foregoing number of Shares shall be adjusted, where necessary, to take account of the events referred to in Section 11 hereof.

**General.** The 2000 Plan provides for the grant of Incentive Stock Options ( ISOs ) and nonstatutory stock options. As of March 1, 2002, Genetronics had outstanding options under the 2000 Plan to purchase an aggregate of 4,737,350 shares at a weighted average exercise price of \$1.69 per share. As of March 1, 2002, options to purchase 81,249 shares of Genetronics Common Stock granted pursuant to the 2000 Plan had been exercised, and there were 1,384,201 shares of Genetronics Common Stock available for future grants under the 2000 Plan. During the nine month fiscal year ended December 31, 2001, (i) Messrs. Avtar Dhillon, William K. Dix, Grant Dennison, Babak Nemati, Terry Gibson and Mervyn J. During the nine month fiscal year ended December 31, 2001, the following options were granted under the 2000 Plan to directors who are not executive officers, or to associates of any director, executive officer or Board nominee of Genetronics:

Name	Number of Shares granted for purchase
Felix Theeuwes	50,000
Tazdin Esmail	50,000
James L. Heppell	50,000
Gordon J. Politeski	50,000

**Table of Contents**

The following person was granted 5% or more of the total amount of options granted under the 2000 Plan during the year ended December 31, 2001:

<u>Name</u>	<u>Number of Shares</u>	<u>Percentage</u>
Avtar Dhillon	400,000	19%

**Shares subject to the 2000 Plan.** Currently, a maximum of 7,400,000 shares of the authorized but unissued or reacquired Common Stock of Genetronics may be issued pursuant to the 2000 Plan. In the event of any stock dividend, stock split, reverse stock split, recapitalization, combination, reclassification, or similar change in the capital structure of Genetronics, appropriate adjustments will be made to the shares subject to the 2000 Plan, and to outstanding options. To the extent any outstanding option under the 2000 Plan expires or terminates prior to exercise in full or if Genetronics repurchases shares issued upon exercise of an option, the shares of Common Stock for which that option is not exercised or the repurchased shares are returned to the 2000 Plan and will again be available for issuance under the 2000 Plan.

**Administration.** The Compensation Committee of the Board administers the 2000 Plan. With respect to the participation of individuals whose transactions in Genetronics equity securities are subject to Section 16 of the Securities Exchange Act of 1934, the 2000 Plan must be administered in compliance with the requirements, if any, of Rule 16b-3 under the Exchange Act. Subject to the provisions of the 2000 Plan, the Compensation Committee determines the persons to whom options are to be granted, the number of shares to be covered by each option, whether an option is to be an ISO or a nonstatutory stock option, the terms of vesting and exercisability of each option, including the effect thereon of an optionee's termination of service, the type of consideration to be paid to Genetronics upon exercise of an option, the duration of each option, and all other terms and conditions of the options. Accordingly, future grants under the 2000 Plan are not yet determinable.

**Eligibility.** Generally, all employees, directors and consultants of Genetronics or of any present or future parent or subsidiary corporations of Genetronics are eligible to participate in the 2000 Plan. In addition, the 2000 Plan also permits the grant of options to prospective employees, consultants and directors in connection with written offers of employment or engagement. As of March 20, 2002, Genetronics had 54 employees, including two executive officers and five directors. Any person eligible under the 2000 Plan may be granted a nonstatutory option. However, only employees may be granted ISOs.

**Terms and conditions of options.** Each option granted under the 2000 Plan is evidenced by a written agreement between Genetronics and the optionee specifying the number of shares subject to the option and the other terms and conditions of the option, consistent with the requirements of the 2000 Plan. The exercise price per share must equal at least the fair market value of a share of Genetronics Common Stock on the date of grant of the stock option. The exercise price of any ISO granted to a person who at the time of grant owns stock possessing more than 10% of the total combined voting power of all classes of stock of Genetronics or any parent or subsidiary corporation of Genetronics, referred to as a 10% Stockholder, must be at least 110% of the fair market value of a share of Genetronics Common Stock on the date of grant. The fair market value of Genetronics Common Stock is based on the trading price of Genetronics shares on the American Stock Exchange, the fair market value as of March 20, 2002 was \$0.54 per share.

Generally, the exercise price may be paid in cash, by check, or in cash equivalent, by tender of shares of Genetronics Common Stock owned by the optionee having a fair market value not less than the exercise price, by the assignment of the proceeds of a sale or a loan with respect to some or all of the shares of Common Stock being acquired upon the exercise of the option, by means of a promissory note, by any lawful method approved by the board or by any combination of these. The Compensation Committee may nevertheless restrict the forms of payment permitted in connection with any option grant.

## **Table of Contents**

The Compensation Committee will specify when options granted under the 2000 Plan will become exercisable and vested. Shares subject to options generally vest and become exercisable in installments, subject to the optionee's continued employment or service or achievement of specified milestones.

**Change in control.** Upon a change in control, as defined in the 2000 Plan, the Compensation Committee may arrange for the acquiring or successor corporation to assume or substitute new options for the options outstanding under the 2000 Plan. To the extent that the options outstanding under the 2000 Plan are not assumed, substituted for, or exercised prior to such event, generally, they will terminate.

**Termination or amendment.** Unless sooner terminated, no ISOs may be granted under the 2000 Plan after July 30, 2010. The Board may terminate or amend the 2000 Plan at any time, but, no amendment may adversely affect an outstanding option without the consent of the optionee, unless the amendment is required to preserve the option's status as an ISO or is necessary to comply with any applicable law.

### **Summary of federal income tax consequences of the 2000 Plan**

The following summary is intended only as a general guide as to the United States federal income tax consequences under current law of participation in the 2000 Plan and does not attempt to describe all possible federal or other tax consequences of such participation or tax consequences based on particular circumstances.

**ISOs.** An optionee recognizes no taxable income for regular income tax purposes as the result of the grant or exercise of an ISO qualifying under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"). Optionees who do not dispose of their shares for two years following the date the option was granted or within one year following the exercise of the option will normally recognize a long-term capital gain or loss equal to the difference, if any, between the sale price and the purchase price of the shares. If an optionee satisfies such holding periods upon a sale of the shares, Genetronics will not be entitled to any deduction for federal income tax purposes. If an optionee disposes of shares within two years after the date of grant or within one year from the date of exercise, referred to as a disqualifying disposition, the difference between the fair market value of the shares on the exercise date, and the option exercise price, not to exceed the gain realized on the sale if the disposition is a transaction with respect to which a loss, if sustained, would be recognized, will be taxed as ordinary income at the time of disposition. Any gain in excess of that amount will be a capital gain. If a loss is recognized, there will be no ordinary income, and such loss will be a capital loss. A capital gain or loss will be long-term if the optionee's holding period is more than 12 months. Generally, for federal income tax purposes, Genetronics should be able to deduct any ordinary income recognized by the optionee upon the disqualifying disposition of the shares, except to the extent the deduction is limited by applicable provisions of the Code or the regulations thereunder.

The difference between the option exercise price and the fair market value of the shares on the exercise date of an ISO is an adjustment in computing the optionee's alternative minimum taxable income and may be subject to an alternative minimum tax which is paid if the tax exceeds the regular tax for the year. Special rules may apply with respect to certain subsequent sales of the shares in a disqualifying disposition, certain basis adjustments for purposes of computing the alternative minimum taxable income on a subsequent sale of the shares and certain tax credits that may arise with respect to optionees subject to the alternative minimum tax.

**Nonstatutory stock options.** Options not designated or qualifying as ISOs will be nonstatutory stock options. Nonstatutory stock options have no special tax status. An optionee generally recognizes no taxable income as the result of the grant of such an option. Upon exercise of a nonstatutory stock option, the optionee normally recognizes ordinary income in an amount equal to the difference between the option exercise price and the fair market value of the shares on the exercise date. If the optionee is an employee, the ordinary income generally is subject to withholding of income and employment taxes. Upon the sale of stock acquired by the exercise of a nonstatutory stock option, any gain or loss, based on the difference between the sale price and the fair market value on the exercise date, will be taxed as capital gain or loss. A capital gain or loss will be long-term if the optionee's holding period is more than 12 months. No tax deduction is available to Genetronics with respect to the grant of a nonstatutory option or the sale of the stock acquired pursuant to that grant. Genetronics generally should be entitled to a deduction equal to the amount of ordinary income recognized by the optionee as a result of the exercise of a

**Table of Contents**

nonstatutory option, except to the extent the deduction is limited by applicable provisions of the Code or the regulations thereunder.

**Vote Required and Board of Directors Recommendation**

The amendment to the 2000 Plan was made to provide the Company with the ability to grant stock options to attract and retain personnel of the highest caliber by offering them an opportunity to share in any increase in value of the Company's shares resulting from their efforts.

The TSE Rules require that any material change to the 2000 Plan be approved by the affirmative vote of a majority of the votes cast at the Meeting, other than the votes attaching to shares beneficially owned by insiders of the Company to whom options may be issued pursuant to the Plan, or their associates. Accordingly, such insiders and their associates will abstain from voting in this resolution. The Board believes that the proposed amendment of the 2000 Stock Option Plan is in the best interests of the Company and its stockholders for the reasons stated above.

**Therefore, the Board unanimously recommends a vote FOR approval of this proposal to amend the 2000 Stock Option Plan, and the non-abstaining stockholders of the Company will be asked to pass the following resolution:**

**BE IT RESOLVED THAT** the amendment to the 2000 Stock Option Plan, as set out in the Proxy Statement of the Company dated April 1, 2002, be approved.

If a quorum is present, the above resolution must be approved by not less than a majority of the votes cast by the stockholders of the Company, other than insiders of the Company and their associates, who, being entitled to do so, vote in person or by proxy at the Meeting. Abstentions and broker non-votes will have no effect on the vote, except that abstentions will be counted as shares present for purposes of determining the presence of a quorum. **The Board of Directors Unanimously Recommends a Vote FOR the Amendment of the Stock Option Plan of the Company as Discussed Above.**

**PROPOSAL NO. 3**

**TO AUTHORIZE THE DIRECTORS TO CARRY OUT FUTURE FINANCINGS**

**Future Financings The TSE**

The policies of the TSE provide that the aggregate number of shares of a listed company which are issued or made subject to issuance by way of one or more private placements during any particular six month period must not exceed 25% of the number of shares outstanding (on a non-diluted basis) prior to giving effect to such private placements (the 25% Rule ). The application of the 25% Rule may restrict the Company's ability to raise funds by the private placement of its securities.

Management of the Company considers it to be in the best interests of the Company to solicit private placement funds for working capital and Company operations. The TSE has advised that it will accept advance approval by the shareholders of the Company in anticipation of private placements that may exceed the 25% Rule, provided such private placements are completed within 12 months of the date such advance shareholder approval is given. By giving the advance approval, shareholders would only be satisfying the shareholder approval requirement of the TSE. Each private placement of the Company would still remain subject to TSE approval.

The Company's issued and outstanding share capital is currently 34,860,167 shares of common stock and the Company proposes that the maximum number of shares which either would be issued or made subject to issuance under one or more private placements in the twelve month period commencing on April 29, 2002 would not exceed 34,860,167 shares in the aggregate, or 100% of the Company's issued and outstanding share capital as at March 20, 2002.

Any private placement proposed by the Company will be subject to the following additional restrictions:

- (a) the private placement must be substantially with parties at arms-length to the Company;
- (b) the private placement cannot materially affect control of the Company;
- (c) the private placement must be completed within a 12 month period following the date the advance shareholder approval is given; and
- (d) the private placement must comply with the private placement pricing rules of the TSE, which currently require that the price per security must not be lower than the closing market price of the security on the TSE on the trading day prior to the date notice of the private placement is given to the TSE less the applicable discount. Maximum permissible discounts are as follows:

<b>Market Price</b>	<b>Maximum Discount Therefrom</b>
\$0.50 or less	25%
\$0.51 to \$2.00	20%
Above \$2.00	15%

The TSE retains the discretion to decide whether a particular placement is substantially at arms length or will materially affect control, in which case specific shareholder approval may be required. The Company had 34,860,167 shares of common stock issued and outstanding as at March 20, 2002.

In order to provide the directors of the Company with flexibility regarding future financing and to save the Company the cost of holding an extraordinary general meeting to approve a specific financing, the shareholders of the Company will be requested at the Meeting to pass the following resolution, which requires an affirmative vote of a simple majority of the votes cast by holders of Common Shares at the Meeting:

**Table of Contents**

**BE IT RESOLVED THAT** the issuance by the Company in one or more private placements during the 12 month period commencing April 29, 2002 of such number of securities that would result in the Company issuing or making issuable 34,860,167 shares of common stock aggregating up to 100% of the number of issued and outstanding shares of common stock as at April 1, 2002, being the date of the Proxy Statement of the Company describing the advance approval, as more particularly described in and subject to the restrictions described in the Proxy Statement of the Company, be approved.

If a quorum is present, the above resolution must be approved by not less than a majority of the votes cast by the stockholders of the Company who, being entitled to do so, vote in person or by proxy at the Meeting. Abstentions and broker non-votes will have no effect on the vote, except that abstentions will be counted as shares present for purposes of determining the presence of a quorum. **The Board of Directors Unanimously Recommends a Vote FOR This Resolution.**
