Quarterly Report
to Stockholders

September 30, 2003

INVESTMENT ADVISER'S COMMENTARY

Dear Fellow Stockholders:

Blue Chip Value Fund's net asset value was up 4.4% for the third quarter, outperforming the S&P 500 by 1.7%. However, year to date we are behind the S&P 500 by 1.9%.

In the third quarter, performance was driven by stock selection in technology, healthcare and commercial services. Our holding in National Semiconductor Corp. was up more than 60% during the period, as the market recognized the recovery in technology spending. Mylan Laboratories Inc., an exciting generic drug company with a strong pipeline of potential new opportunities, performed well during the quarter. Accenture Ltd., a worldwide leader in business consulting and outsourcing, was up more than 23% during the quarter as the market began to discount improvement in the company's cash flow. Radian Group Inc., a leading mortgage insurer, was up more than 21% during the quarter as gross margins expanded from better cost control. Starwood Hotels & Resorts Inc. was up more than 21% as investors forecasted better hotel occupancy and firmer pricing.

Investment performance from our energy and capital goods holdings was disappointing. We continue to believe that energy companies are undervalued. However, concerns about the return of Iraqi oil production led the market to a different conclusion. In capital goods, our holding of Raytheon Co. underperformed because of concerns that the government deficit would slow the growth in defense spending.

Year to date, the healthcare sector has provided our best performance, and Omnicare Inc., a contract provider of prescription drugs to long-term care patients, is our best performing stock. Our most disappointing performance has come from financial services provider, Freddie Mac, a major player in the home loan secondary market which, as you know from the newspaper accounts, has been involved in accounting irregularities materially understating their earnings.

We remain confident that the economic recovery is on track and that the stock market will provide a positive return in the year ahead. We continue to own quality companies purchased at what we believe is a discount to their intrinsic value based on the free cash flow we believe they will generate.

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30B-2

Subsequent to the end of the third quarter, agreements were finalized to leverage the portfolio by borrowing on a secured basis. We continue to closely monitor the markets, and anticipate the possibility that before year end, we may borrow a portion of the available credit in order to enhance your portfolio's return.

Over the three years ended September 30, 2003, the Fund's NAV outperformed the S&P 500 by 5.7% annually. This noteworthy performance has come with contributions from our investment professionals using an intensive research process. In recognition of this, the investment adviser has chosen, effective December 1, 2003, to recognize the Fund as being managed by a team rather than citing one individual. This does not represent a change in personnel, but rather an evolution of the management team supporting the Fund. They are Mark Adelman, Kris Herrick, Troy Dayton and Derek Anguilm.

Thank you for your continued investment in the Blue Chip Value Fund.

Sincerely,

/s/ Todger Anderson

The Investment Adviser's Commentary included in this report contains certain forward-looking statements about the factors that may affect the performance of the Fund in the future. These statements are based on Fund management's predictions and expectations concerning certain future events and their expected impact on the Fund, such as performance of the economy as a whole and of specific industry sectors, changes in the levels of interest rates, the impact of developing world events, and other factors that may influence the future performance of the Fund. Management believes these forward-looking statements to be reasonable, although they are inherently uncertain and difficult to predict. Actual events may cause adjustments in portfolio management strategies from those currently expected to be employed.

Past performance is no guarantee of future results. Share prices will fluctuate, so that shares may be worth more or less than its original cost when sold. Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Rights offerings, if any, are assumed for purposes of this calculation to be fully subscribed under the terms of the rights offering. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on the net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

BLUE CHIP VALUE FUND, INC.

NOTES TO FINANCIAL STATEMENTS
September 30, 2003 (Unaudited)

1. ORGANIZATION AND SIGNIFICANT
ACCOUNTING POLICIES

Blue Chip Value Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation - All securities of the Fund are valued as of the close of regular trading on the New York Stock Exchange ("NYSE"), currently 4:00 p.m. (Eastern Time), on each day that the NYSE is open. Listed securities are generally valued at the last sales price as of the close of regular trading on the NYSE. Securities traded on the National Association of Securities Dealers Automated Quotation ("NASDAQ") are generally valued at the NASDAQ Official Closing Price ("NOCP"). In the absence of sales and NOCP, such securities are valued at the mean of the bid and asked prices.

Securities having a remaining maturity of 60 days or less are valued at amortized cost which approximates market value.

When market quotations are not readily available or when events occur that make established valuation methods unreliable, securities of the Fund may be valued at fair value determined in good faith by or under the direction of the Board of Directors.

Investment Transactions - Investment transactions are accounted for on the date the investments are purchased or sold (trade date). Realized gains and losses from investment transactions and unrealized appreciation and depreciation of investments are determined on the first-in, first-out basis for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date. Interest income, which includes interest earned on money market funds, is accrued and recorded daily.

Federal Income Taxes - The Fund intends to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to its stockholders. Therefore, no provision has been made for federal income taxes.

16

The Fund had available for federal income tax purposes unused capital loss carryovers of approximately \$15,485,000, which will expire in 2010.

The Fund intends to elect to defer to its fiscal year ending December 31, 2003, approximately \$468,000 of losses recognized during the period November 1, 2002 to December 31, 2002, which will expire in 2011 if unutilized.

The tax character of the distributions paid was as follows:

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30B-2

	Nine Months Ended September 30, 2003	Year Ended December 31, 2002
	-----	-----
Distributions paid from:		
Ordinary income	\$ 187,387	\$ 930,340
Long-term capital gain	0	0
Undesignated	6,207,601	0
Return of capital	0	13,857,137
	-----	-----
Total	\$ 6,394,988	\$14,787,477
	=====	=====

As of September 30, 2003, the components of distributable earnings on a tax basis were as follows:

Undistributed net investment income	\$ 67,701
Accumulated net realized loss	(18,063,111)
Net unrealized appreciation	4,949,934
Undesignated distributions	(6,207,601)

Total	\$(19,253,077)
	=====

The difference between book basis and tax basis is attributable to the tax deferral of losses on wash sales.

Distributions to Stockholders - Distributions to stockholders are recorded on the ex-dividend date. Distributions are classified to conform to the tax reporting requirements of the Internal Revenue Code. If the Fund's total distributions for the year (exclusive of long-term capital gains dividends) exceed its net investment income and short-term capital gains for such year, all or a portion of such undesignated distributions may constitute a non-taxable return of capital. Management currently believes it is likely that all of the undesignated portion will be a non-taxable return of capital, however the actual determination of the source of the undesignated distributions can be made only at year-end.

The Fund distributes at least 2.5% of its net asset value quarterly to its stockholders.

17

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes to the financial statements. Actual results could differ from those estimates.

2. UNREALIZED APPRECIATION AND
DEPRECIATION OF INVESTMENTS
(TAX BASIS)

As of September 30, 2003:

Gross appreciation (excess of value over tax cost)	\$ 13,759,923
Gross depreciation (excess of tax cost over value)	(8,809,989)

Net unrealized appreciation	\$ 4,949,934

Edgar Filing: BLUE CHIP VALUE FUND INC - Form N-30B-2

Cost of investments for income tax purposes \$ 134,877,867
=====

3. INVESTMENT ADVISORY AND
ADMINISTRATION SERVICES

The Fund has an Investment Advisory Agreement with Denver Investment Advisors LLC ("DIA"), whereby a management fee is paid to DIA based on an annual rate of 0.65% of the Fund's average weekly net assets up to \$100,000,000 and 0.50% of the Fund's average weekly net assets in excess of \$100,000,000. The management fee is paid monthly based on the average of the net assets of the Fund computed as of the last business day the New York Stock Exchange is open each week. Certain officers and directors of the Fund are also officers of DIA.

Effective September 1, 1999, ALPS Mutual Funds Services, Inc. ("ALPS") and DIA entered into an Administrative Agreement to serve as the Fund's co-administrators. The Administrative Agreement includes the Fund's administrative and fund accounting services. The administrative services fee is based on an annual rate for ALPS and DIA, respectively, of 0.08% and 0.01% of the Fund's average daily net assets up to \$75,000,000, 0.04% and 0.005% of the Fund's average daily net assets between \$75,000,000 and \$125,000,000, and 0.02% and 0.005% of the Fund's average daily net assets in excess of \$125,000,000. The administrative services fee is paid monthly.

18

4. SUBSEQUENT EVENTS

The Fund declared a distribution of \$0.13 per share on October 1, 2003. The distribution was payable October 24, 2003, to stockholders of record on October 10, 2003. Of the total distribution, approximately \$0.0025 represents net investment income and the remaining portion is currently undesignated until the actual determination of the source can be made at year-end.

The Fund entered into a \$15 million secured credit line with Custodial Trust Company, a banking unit of Bear Stearns, on November 20, 2003. The interest rate on the line of credit, which will be reset every 30 days, will be 30-day LIBOR plus 100 basis points. The Fund may repay the loan at any time without prepayment penalties, and the lender may call the loan at its discretion.
