Item 5. Other Events and Required FD Disclosure

On March 17, 2004, our PAS-6 satellite, an FS 1300 model satellite built by Space Systems/Loral, suffered an anomaly resulting in a loss of power. Following that event, we moved the satellite to a storage orbit while we and the manufacturer evaluated the problem. On April 1, 2004, this satellite experienced another anomaly and more significant loss of power. Neither of these losses was anticipated. We have maintained communications with and control of this satellite and, as a result of the second anomaly, are taking the necessary steps to deorbit it.

PAS-6 had been previously replaced and was used as a backup for another satellite, PAS-6B. Accordingly, this problem has not affected service to any of our customers and we anticipate that it will not affect our revenues in 2004. We do not plan to replace this satellite.

Item 9. Regulation FD Disclosure

As a result of these events, we anticipate recording a non-cash charge within income from operations of approximately \$100 million in the first quarter of 2004. This will result in an approximate \$63 million non-cash charge to net

income after taxes. Further, we anticipate reduced depreciation expense for full year 2004 of approximately \$9 million. We will adjust our 2004 guidance to reflect these changes when we release our first quarter results.

This Report on Form 8-K includes statements that are not historical facts and are considered "forward-looking" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect our current views about future events. They are identified by their use of terms and phrases such as "believe," "expect," "plan," "anticipate", "possibility," "estimates," "projects" and similar expressions identifying their forward-looking character. Investors should not rely on these forward-looking statements as assurances of future events, because such statements are inherently subject to a variety of risks, uncertainties and other factors that could cause actual results to differ materially from the company's expectations. The factors that may affect the outcome of such expectations include, but are not limited to factors detailed from time to time in our filings with the SEC, including our Annual Report on Form 10-K for the year ended December 31, 2003.
