## INTERIM

**4.5 Notes to the condensed consolidated interim accounts\***

## INTERIM

**4.5.1 Basis of preparation**

These condensed consolidated interim accounts have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting . The accounting principles used to prepare these condensed consolidated interim accounts comply with International Financial Reporting Standards as adopted by the European Union and are consistent with those set out in the notes to the 2007 Consolidated Annual Accounts of ING Group.

IFRIC 12 Service concession arrangements and IFRIC 14 The limit of a defined benefit asset, minimum funding requirements and their interaction became effective as of 1 January 2008. Neither of these interpretations had a material effect on equity or profit for the period. No other new standards became effective in the first quarter of 2008 and recently issued standards that become effective after 31 March 2008 are not expected to have a material effect on equity or profit for the period. ING Group has not early adopted any new International Financial Reporting Standards or Interpretation in the first quarter.

International Financial Reporting Standards as adopted by the EU provide several options in accounting principles. ING Group s accounting principles under International Financial Reporting Standards as adopted by the EU and its decision on the options available are set out in the section Principles of valuation and determination of results in the 2007 Annual Accounts.

These condensed consolidated interim accounts should be read in conjunction with ING Group s 2007 Annual Accounts.

Certain amounts recorded in the condensed consolidated interim accounts reflect estimates and assumptions made by management. Actual results may differ from the estimates made. Interim results are not necessarily indicative of full-year results.

The presentation of, and certain terms used in, these condensed consolidated interim accounts have been changed in the first quarter to provide more relevant information. Certain comparative amounts have been reclassified to conform with the current period presentation. None of the changes are significant in nature.

**4.5.7 Acquisitions and Disposals**

Acquisitions and disposals reported in the three months to 31 March 2008

In February 2008, ING Group announced that it has reached an agreement with AXA to sell part of its Mexican business, Seguros ING SA de CV and subsidiaries, for a price of approximately EUR 1.0 billion. Under the terms of the agreement, ING will divest companies that comprise its non-life businesses of P&C and Auto, plus its Health and Life insurance lines, its Health Maintenance Organization (ISES) and its Bonding Business. This sale, which is subject to regulatory approval and is expected during the course of 2008, will allow ING to focus on growing its existing Mexican pension and annuities businesses.

In January 2008 ING completed the sale of its health business in Chile, ING Salud, to Said Group and Linzor Capital Partners, resulting in a gain on disposal of EUR 62 million.

In January 2008, ING announced that it has received final approval from the regulators in Chile and had therefore closed the transaction to acquire 100 percent of Banco Santander's pension and annuity businesses in Chile. This transaction was one of five acquisitions made in South America. The acquisitions in Mexico, Chile, Colombia, Uruguay and Argentina were all completed in 2007.

The initial accounting for the fair value of the net assets of certain companies acquired within the last 12 months has been determined only provisionally at 31 March 2008. Also, the analysis of the contributory factors relating to goodwill will only be determined once the final values have been determined. The initial accounting shall be completed within a year of acquisition in accordance with IFRS 3 and the policies, procedures and risk management of the companies acquired shall be brought in line with ING accordingly.

Acquisitions and disposals reported after 31 March 2008

In May 2008, ING announced that it has reached agreement to buy the entire share capital of Citistreet LLC for a total consideration of EUR 578 million. Citistreet is one of the premier retirement plan and benefit service and administrative organisations in the US defined marketplace. The purchase is subject to customary closing conditions and is expected to be completed in the second half of 2008.

**Table of Contents**

INTERIM

**4.5.8 Issuances, repurchases and repayment of debt and equity securities in issue**

Reported in the three month period 1 January to 31 March 2008

Share buy-back

On 16 May 2007 ING announced a plan to adopt a buyback programme under which it plans to purchase ordinary shares (or depositary receipts for such shares), with a total value of EUR 5 billion over a period of 12 months, beginning in June 2007. In this quarter the number of (depositary receipts for) ordinary shares repurchased under this program is 63 million (and a total to date of 155 million) at an average price of EUR 22.35 (with an average price to date of EUR 27.14) and a consideration of EUR 1,411 million (Total consideration to date is EUR 4,205 million). Cumulatively this represents completion of approximately 84% of the repurchase programme.

Delta hedge portfolio for employee options

To rebalance the delta hedge portfolio for employee options ING sold 3,570,000 (depositary receipt for) ordinary shares in the first quarter at an average price of EUR 21.70. As at 31 March 2008 the hedge book holds 32.4 million (depositary receipts for) ordinary ING shares representing 1.4% of the total 2,244 million shares outstanding.

Reported after 31 March 2008

Buy-back of preference A shares

On 22 April 2008 at the General Meeting of Shareholders (GMS), the GMS authorised the cancellation of all preference A shares purchased by ING Groep N.V. as well as the redemption and cancellation of the preference A shares which are not held by the company, which follows the public offer made for the (depositary receipts for) preference A shares as announced on 5 March 2008. The offer on 5 March was for the 6,012,839 issued and outstanding (depositary receipts of preference shares A of ING Groep N.V., with a nominal value of EUR 1.20 each. The purchase price for each share offered was EUR 3.60, or EUR 21.6 million in total. The offer price is in line with the earlier buy backs of preference shares ING has completed and represents a premium of approximately 20 percent on the closing price on Tuesday 4 March 2008.

The purpose of the intended buy back of the preference A shares is to simplify the corporate ownership and capital structure of ING on a one-share-one-vote basis. Furthermore, ING intends to optimise its capital structure and therefore ING no longer needs preference shares as a source of financing. The purchase of the preference A shares has no significant impact on ING Group's earnings or key ratios and will not impact the ongoing share buy back programme for ordinary ING shares.

Issue of perpetual subordinated bonds

On 5 April ING Group announced that it raised EUR 1.5 billion from the sale, at par, of euro-denominated perpetual subordinated bonds called ING Perpetuals IV. The yearly coupon of 8% (a fixed coupon amount of EUR 80 on a minimum denomination of EUR 1,000 nominal) will be paid from 18 April 2009. ING can call the issue at par after 5 years and annually thereafter. The issue qualifies as hybrid Tier-1 capital for ING Group.

INTERIM

**4.5.9 Market developments**

Effects of market developments during the first quarter of 2008

In the first quarter of 2008 the total expense recognised in the profit and loss relating to the ongoing credit and liquidity crisis was EUR 80 million. This amount relates to exposures to pressurised asset classes and leveraged finance, as well as monoline insurers and investments in Structured Investment Vehicles (SIVs) and Asset-Backed Commercial Paper. Furthermore ING recognised EUR -3,627 million directly in equity relating to the pre-tax revaluation of pressurised asset classes.

INTERIM

**5. Review report**

To the shareholders, Supervisory Board and Executive Board

Introduction

We have reviewed the accompanying condensed consolidated balance sheet of ING Groep N.V. (the Company), Amsterdam, as at

31 March 2008, the related condensed consolidated profit and loss account and the related condensed consolidated statement of cash flows and statement of changes in equity for the three-month period then ended and explanatory notes. Management of the Company is responsible for the preparation and presentation of these condensed consolidated interim accounts in accordance with International Financial Reporting Standards as adopted by the European Union ( IAS 34 ). Our responsibility is to express a conclusion on these condensed consolidated interim accounts based on our review.

Scope of Review

We conducted our review in accordance with Dutch law, including Standard 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity . A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim accounts are not prepared, in all material respects, in accordance with IAS 34.

Amsterdam, 14 May 2008
