**1. Description of Plan**

**General**

The following brief description of the Plan provides only summarized information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a tax-deferred 401(k) defined contribution savings plan which provides eligible employees (whose employment is governed by the terms of a collective bargaining agreement with the Communications Workers of America (CWA)) of Solidstate Controls, Inc., an opportunity to invest a portion of their compensation, as defined by the Plan, in one or a combination of investment programs (see Note 3).

**Contributions**

Each year, participants have an opportunity to invest up to 16% (maximum 6% before tax and maximum 10% after tax) of their annual compensation, as defined by the Plan, in multiples of one percent, except for certain highly compensated participants who may be subject to certain regulatory limitations. Participants may also contribute amounts representing rollovers from other qualified plans. The Plan provides for Company contributions equal to 50% of the amount contributed by each participant, up to a maximum percentage ranging from 1% to 6% of the participants compensation as determined by the terms of the collective bargaining agreement. Retirement and matching company contributions are paid to the Plan at anytime prior to the due date prescribed by law for filing the Company's federal income tax return for that Plan year.

The Plan has a retirement feature for eligible participants, whereby AMETEK makes contributions to the Plan on behalf of such participants at a rate of \$0.60 and \$0.55 for each hour that an active participant is paid compensation in 2008 and 2007, respectively. Participant contributions under the retirement feature of the Plan are not permitted. Investment programs and transfer and exchange privileges available under the retirement feature of the Plan are the same as the savings feature under the Plan.

Forfeited Company contributions, which are insignificant in amount, are used to reduce future employer retirement contributions or to pay Plan administration expenses.

**1. Description of Plan (continued)**

**Participant Accounts**

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan net earnings. Allocations are based on participant earnings and/or account balances, as defined. The benefit to which a participant is entitled is the balance in the participant's vested account.

**Vesting**

Participants are fully vested at all times in their contributions to the Plan. Effective January 1, 2007, employer retirement feature contributions and related earnings on or after January 1, 2007, become fully vested after three years of service.

**Participant Loans**

Participants may borrow a minimum of \$1,000 or up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Participants may have up to two loans outstanding at any time, although only one loan may be for a primary residence, the sum of which may not exceed the maximum allowable under the Plan. Repayment terms of the loans are generally limited to no longer than 60 months from inception or for a reasonable period of time in excess of 60 months for the purchase of a principal residence, as fixed by the Plan's Administrative Committee. The loans are secured by the balance in the participant's account and bear interest at rates established by the Plan's administrative committee, which approximate rates charged by commercial lending institutions for comparable loans. Interest rates on loans outstanding at December 31, 2008 ranged between 5.0% and 9.25%. Principal and interest is paid ratably through payroll deductions. Participant loans outstanding at December 31, 2008 and 2007, totaled \$117,912 and \$123,299, respectively, and are included in investments in the accompanying statements of assets available for benefits.

**1. Description of Plan (continued)**

**Payment of Benefits**

On termination of service, death, disability or retirement, a participant may receive a lump-sum amount equal to his or her vested account, elect to receive payment in installments for life, subject to certain restrictions based on life expectancy or direct rollover to an eligible retirement plan. When a participant attains age 59<sup>1/2</sup> while still an employee, he or she can elect to withdraw a specified portion of his or her vested account balance without incurring an income tax penalty. Also, in certain cases of financial hardship, a participant may elect to withdraw up to a specified portion of his or her vested account balance, regardless of age.

**Plan Termination**

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ( ERISA ). While the Company has not expressed any intent to terminate the Plan, it is free to do so at any time subject to the provisions of ERISA, and applicable labor agreements. In the event of Plan termination, each participant will receive the value of his or her separate vested account.

**2. Summary of Significant Accounting Policies**

**Basis of financial statements and presentation format**

The accompanying financial statements are unaudited because the number of participants in the Plan are fewer than the number of participants which would require audited financial statements under ERISA. The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with U.S. generally accepted accounting principles ( GAAP ).

**2. Summary of Significant Accounting Policies (continued)**

**Use of estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

**Risks and uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**Investment valuation and income recognition**

Investments in shares of registered investment companies are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. Money market and short-term investments are carried at the fair value established by the issuer and/or the trustee. The AMETEK Stock Fund is valued at its year end unit closing price. The participant loans are valued at their outstanding book values, which approximates fair value.

As described in Financial Accounting Standards Board ( FASB ) Staff Position AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans ( the FSP )*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust (Vanguard Retirement Savings Trust). As required by the FSP, the statements of assets available for benefits present the fair value of the Vanguard Retirement Savings Trust and the adjustment from fair value to contract value. The fair value of the Plan's interest in the Vanguard Retirement Savings Trust is based on information reported by the issuer of the common collective trust at year-end. The contract value of the Vanguard Retirement Savings Trust represents contributions plus earnings, less participant withdrawals and administrative expenses.

**2. Summary of Significant Accounting Policies (continued)**

**Investment valuation and income recognition (continued)**

Purchases and sales of investments are reflected on trade dates. Realized gains and losses on sales of investments are based on the average cost of such investments. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned.

The net appreciation or depreciation of investments represents the sum of the change in the difference between year-end market value and the cost of investments, and the difference between the proceeds received and the cost of investments sold during the year.

**3. Investment Programs**

At December 31, 2008 and 2007, the Vanguard Fiduciary Trust Company was the Trustee and a party-in-interest to the Plan.

A participant may direct contributions (up to certain specified limits) in any of the following investment options.

AMETEK Stock Fund

Vanguard Retirement Savings Trust

Registered investment companies:

Vanguard Total Bond Market Index Fund

Vanguard LifeStrategy Funds

Vanguard Wellington Fund

Vanguard Windsor II Fund

Vanguard PRIMECAP Fund

Vanguard Small-Cap Index Fund

Vanguard 500 Index Fund

Artio International Equity Fund

**3. Investment Programs (continued)**

The fair value of individual investments that represent 5% or more of the Plan's assets at year-end are as follows:

	<b>December 31,</b>	
	<b>2008</b>	<b>2007</b>
Vanguard Retirement Savings Trust (stated at contract value)	<b>\$300,100</b>	\$269,289

Vanguard LifeStrategy Growth Fund **		89,377

\* At December 31, 2007, this investment represented less than 5% of the fair value of the Plan's assets.

\*\* At December 31, 2008, this investment represented less than 5% of the fair value of the Plan's assets.

During 2008 and 2007 the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year) depreciated/appreciated in value as follows:

	<b>December 31,</b>	
	<b>2008</b>	<b>2007</b>
Common stock	<b>\$ (118,874)</b>	\$ 106,212

**4. Income Tax Status**

The Plan has received a determination letter from the Internal Revenue Service dated November 1, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

**5. Administrative Expenses**

The expenses of administering the Plan are payable from the trust funds, unless the Company elects to pay such expenses. At present, the Company has elected to pay such expenses directly.

**6. Differences Between Financial Statements and Form 5500**

The following is a reconciliation of assets available for benefits per the financial statements to the Plan's Form 5500:

	<b>December 31,</b>	
	<b>2008</b>	<b>2007</b>
Assets available for benefits per the financial statements	<b>\$ 1,516,259</b>	\$ 1,691,348

**7. Plan Amendments**

Effective January 1, 2007, the Company will match \$0.50 on each dollar contributed by the employee to the Plan. The match will apply to contributions of up to 6% of the employee's income.

Ongoing, under the retirement feature, the Company will contribute to the Plan as follows:

Effective January 1, 2007, the Company's contribution will be increased by \$0.05 per hour to \$0.55 per hour worked

Effective January 1, 2008, the Company's contribution will be increased by \$0.05 per hour to \$0.60 per hour worked

Effective January 1, 2009, the Company's contribution will be increased by \$0.05 per hour to \$0.65 per hour worked

**8. Recent Accounting Pronouncements**

Effective January 1, 2008, the Plan adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), which defines fair value, establishes a framework for measuring fair value under GAAP and enhances disclosures about fair value measurements. Fair value is defined under SFAS 157 as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. SFAS 157 establishes a valuation hierarchy for disclosure of the inputs to the valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Plan's own assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

<b>Balance, December 31, 2008</b>	<b>\$ 117,912</b>

In April 2009, the FASB issued FASB Staff Position No. FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* ( FSP FAS 157-4 ). FSP FAS 157-4 supersedes FSP FAS 157-3 and amends SFAS 157 to provide additional guidance on estimating fair value when the volume and level of activity for the asset or liability have significantly decreased in relation to normal market activity for the asset or liability. FSP FAS 157-4 also provides additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities in meeting the disclosure requirements of SFAS 157. FSP FAS 157-4 is effective for reporting periods ending after June 15, 2009. Plan management is currently evaluating the effect that the provisions of FSP FAS 157-4 will have on the Plan's financial statements.
